TWENTIETH YEAR

WHYTS' STRUCK

AT THE TAP OF A BELLS

SOME SAY 300, OTHERS 175

Are Said to Have Organized and Sent Deputations to the Managers Without Desired Effect.

WHAT MR. WHYTE, MANAGER, SAYS.

Men Want Recognition and a Schedule-Will It Extend From Ocean to Ocean?

Winnipeg, Man., Oct. 4.—(Special).—This morning at 11 o'clock all the machinists and fitters at the C.P.R. shops to the number of over 100 stopped work at the tap of a bell, and quietly left the shops. There was no demonstration; they simply dropped their tools, put on their coats and left. This was done in every C.P.R. shop from Fort William to Vancouver, and it is estimated that 300 men are out. Other estimates do not go so far as this, and place the number at 175.

The Question of Recognition.

It appears that the machinists are the only skilled mechanics on the C.P.R. Western Division which are not organized and recognized by the company. They have been thoroughly organized and recognized during the past year, and this week appeared before the company and asked that a schedule of wages be adopted, which practically meant recognition of the union. The value of the recognition is said to be that it will let other organizations will turn in to help them in any way to get better terms from the company.

What Manager Whyte Says.

Manager Whyte said today that a committee had called upon him on the matter of the C.P.R. shops, several times in respect to certain matters. They asked the minimum wages of 25 cents per hour, an increase in the rate paid for overtime, and some changes of the shop rules. He said that he would always be prepared to investigate every complaint about wages brought before him. He would also make enquiries as to the manner in which the men on the railway lines to the south, and if those there were all being underpaid, then wages would be adjusted. He said that the men had advanced lately from time to time, until the majority of the men would not be affected by the minimum rate proposed, 25 cents per hour.

Went to See Mr. Whyte.

The men did not get satisfied with the answer of Mr. Whyte, and came to see him (Mr. Whyte). He explained all that Mr. Whyte had said and what Mr. Whyte had written to them under date of Sept. 27, on the lines indicated above, and advised them to adopt this course. Mr. Whyte pointed out to the committee that the company was not to speak to, put a pistol at its head at this busy season, but that if they would wait until there would be a slackening off, when jobs might not be so plentiful as they seemed now.

Those who waited on Mr. Whyte were Messrs. Hall, Hardy and James Horne, Winnipeg, and H. MacLain, Vancouver.

Might Affect Winnipeg.

Mr. Whyte pointed out to the World reporter that the men who were not satisfied with their engines repaired here, then they would send them east to Montreal, and that would result in the proposed important enlargement of the shops here next spring not being gone on at all, but, instead, an increase of the shops in Montreal.

Press Committee Formed.

A member of the men's committee stated that at that time he was on a party, and that he gave such facts as had become generally known. A Press Committee was formed this afternoon. The committee is composed of Mr. Cross on Sept. 1, and has been in negotiation with them ever since. As the negotiations proceeded, the committee came to Winnipeg last week. The committee answered to have a meeting with Mr. Whyte on Monday morning, but Mr. Whyte would only see Chairman Bell Hardy, when he declined to discuss the matter with the committee, and his answer consisted of the letter promising to deal with cases individually, etc., as already stated.

Whyte's Threat Did It.

The committee, considering this altogether unsatisfactory, went down to wait on Superintendent Osborne. Mr. Osborne was out of town, and they therefore decided to apply at once to General Manager Whyte. Mr. Whyte would only see the executive of the committee, that is, the first three named. Their version of this interview is the same as that given by Mr. Whyte, and they add that Mr. Whyte stated to them that some of the committee had forfeited their positions by coming to Winnipeg without leave of absence. The Executive took this to mean that certain members of the committee were thereby absent from the shops, and that all had got leave of absence, and some had got transportation, though some had not got leave of absence in writing. This, they consider, is the first act in the strike, dismissing some of the men from the company. There were no more made, but both sides, they state, clearly understood that waiting on Mr. Whyte was the last resort, and that a strike was the next thing.

"Think They Will Strike."

The men believe that they can win, because they have the support of the machinists and fitters as well as the men in the shops. There were no more made, but both sides, they state, clearly understood that waiting on Mr. Whyte was the last resort, and that a strike was the next thing.

BRITISH TO PUT UP

£8,000,000 TO FIGHT

TRANSVAAL BOERS.

The Army Corps for Service in South Africa Has Been Increased to 40,000 Men and Parliament Called.

Boers Seize £800,000 in Gold Now in the Transvaal Mint—Liberals Decide to Back Up the Government in the Coming Engagement.

London, Oct. 4.—The most interesting announcement in connection with the Transvaal crisis to-day is that the Chancellor of the Exchequer, Right Hon. Sir Michael Hicks-Beach, has already sanctioned the provisional expenditure of £8,000,000, and the Government will not exceed that limit without authority from Parliament, which will be asked to vote a sum not exceeding £8,000,000.

Parliament Called.

Parliament has been summoned to meet on Tuesday, Oct. 17. Relations with the Transvaal and the immediate requirements of the War Department in case of hostilities will, no doubt, be the main subjects for consideration.

War Board Will See to It.

A meeting of the War Board to-day discussed and drew up arrangements to insure the safety of the route from Durban to Ladysmith, so that large bodies of troops may, on disembarkation, be rapidly forwarded up the country to the front without confusion or crowding at the base.

40,000 Men to Go.

It is stated to-night that the War Office has decided that the army corps for service in South Africa shall be much larger than originally estimated, and that it now consists of over 40,000 men. The preparations for the despatch of this force, including the chartering of big ocean liners, is steadily and satisfactorily proceeding.

The Press Association learns that the despatch drawn up by the Cabinet on Friday will thus set up to this evening.

Krugers Sends an Ultimatum.

On the other hand a telegram from Krugers gives, from a "well-informed source," the news that Dr. Leyds, the representative of the Transvaal Government, has issued an ultimatum to Great Britain, demanding that the British troops from the frontier, but he asserts that the ultimatum is not a demand for the withdrawal of British troops from the frontier, but a demand for the withdrawal of British troops from the frontier.

British Cabinet Now.

The confidence of the military authorities at the Cape is shown by a message received, which states that the situation, General White expressed himself as confident that the British would be able to present a force sufficient to repel any attack. General White, who intended to go to the front, has now abandoned the idea, and will go by train to-night.

Exodus From the Transvaal.

A line steamer left Lorenzo Marques, Delagoa Bay, to-day with 1200 British troops, and all trains are crowded with those taking part in the exodus from the Transvaal.

Boers on Natal Border.

A despatch from Volksrust says the Boer camp on the Natal border now comprises 1000 men, and is growing daily. The camp breathes with outrageous fever. One of the largest corps lies in the vicinity of the town of Vermeulen, near Dundee.

Commandant Gen. Joubert is momentarily expected to assume command of the Boer forces.

They Will Stand Together.

Liberals Members of the Imperial House Will Support the Government in the Emergency.

London, Oct. 4.—A meeting of Liberal members of the House of Commons, including several former members of Liberal Cabinets, was held this morning at the private residence of the leader of the Liberal opposition in the House, Sir Henry Campbell-Bannerman.

Back to the Government.

The subject under consideration was the Government's South African policy, and the meeting resolved to support the Government on the reassembling of Parliament, and on the proposal of placing the present official leaders of the Liberal party in conflict with their former colleagues.

The Boer on His Dignity.

Mr. Cavendish Clark, Liberal member of Parliament for Callington, who telegraphed to Pretoria portions of the speech delivered last Saturday at Manchester by the Lord President of the Council, the Duke of Devonshire, and the British Government, afforded an opening for a pacific settlement, has received the following reply from Pretoria under date of Oct. 3.

The Government of the South African Republic are gratified to learn that powerful influences are at work to secure a peaceful settlement. Considering, however, the manner in which their former franchise proposals were rejected, after the Government had every reason to believe that these would be accepted, considering also the abandonment of joint commission proposed by Great Britain, as well as the declaration that the British Government regard all former proposals as abandoned and are formulating fresh proposals, the Government of the South African Republic do not intend to accept the proposals, unless they are rejected proposals. If the desire for peace be earnest and sincere, an excellent opportunity is afforded by the proposal of the British Government, which, if carried out, would undoubtedly bring a satisfactory and honorable settlement.

Hofmeyers and Milner Meet.

London, Oct. 4.—The Daily Chronicle's correspondent at Cape Town, telegraphing under date of Tuesday, says for the first time in several months Mr. A. H. Hofmeyers and Mr. J. H. Milner met.

FRENCH CANADIANS

PREMIER'S VIEW COMBATED

As Regards Interpretation of the Militia Act Which Was Printed in the Globe

SEVERAL OFFICERS INTERVIEWED

With One Accord They Approve of the Proposal to Send Troops to Fight the Boers.

Montreal, Oct. 4.—(Special).—Military men here do not agree with Sir Wilfrid Laurier in his interpretation of the Militia Act as printed in the Globe. Here is what the Act itself says: Clause 97 reads: "Her Majesty may call out the militia, or any part thereof, for active service, either within or without Canada, at any time it appears advisable to do so by reason of war, invasion or insurrection, or danger of any such nature. It will also be seen that the Premier's own compatriots favor the idea of sending a Canadian force to the Transvaal."

Officers Interviewed.

Lieut.-Col. D'Orosmeaux Des Trois Montagnes, commander of the 55th Battalion, said: "I am strongly in favor of the idea of sending a contingent to the Transvaal, and if an appeal is made for volunteers, I am glad to say that my battalion will make a hearty response. A number of officers have already volunteered, and a number of the men have spoken to their captains on the matter. I am sure that the French-Canadian will furnish a good percentage of any corps which may be raised here. The question is, to call out the Militia Act which was printed in the Globe."

Look Out for Hair Snakes!

What will no doubt be a new news for the epicure and lover of what for years has been supposed to be one of the healthiest and most reliable of vegetables was communicated yesterday by one of the best known of North End doctors. The discovery of hair snakes in the stomach of human beings led the doctor in question to examine the leaves of watercress and, somewhat to his surprise, the hatching young of these reptiles were found to infest the under portions of the leaves. The fact that under certain conditions these minute creatures are taken into the system is enabled to exist and grow into maturity will no doubt cause a shudder to many who are partial to cress. The information of the World stated that to avoid the novelty of carrying around snakes the most scrupulous care should be taken in cleaning the plant, and even then it was doubtful if eggs and young could be entirely removed.

CORRECT STYLES IN CLOTHING FOR MEN

Current clothing advertising fairly bristles with superlatives of which the favorite is "lowest," as applied to prices. No store in the city can talk of low prices with better right than we, but our favorite is "highest," as applied to qualities.

This line of Suits is probably the best ever offered at this price. All the newest Fall and Winter styles are represented in fine Worsteds, heavy-weight Serges, fine Woolens and Fancy Mixtures.

At \$15.00 we show a line of Suits which we are confident cannot be duplicated. Made-to-order \$30.00 would be a low figure. This line includes the fashionable Worsteds Suits, also the newest in fine Tweeds, Serges, Fancy Cassimeres, etc.

The Topcoats at \$10

include a line of heavy and medium weight Coats in Venetians, Beaver, Worsted and the popular Whipcord, easily worth \$12.00.

The Topcoats at \$15.00

include the "Swell Whipcord," made by us for fine city trade, full back, just right in length. Positively the "nattiest" garment of the season.

Open Saturday Night until 10.00.

The life of Pavements.

George W. Tillson, principal assistant engineer Department of Highways, Brooklyn, read an interesting paper on "The Life of Pavements." It brought out the fact that from 7 a.m. to 7 p.m., the number of vehicles on Broadway was 7811, Clark-street, Chicago, 489; King-street, London, 28,703.

A Toronto Man's Paper.

A rattling good paper was read by Mr. J. S. Miller, Q.C., on "Damages from New Repair of Highways." Mr. Fullerton tied the two clauses of the Ontario statute which the contractor is to observe in keeping the roadways in repair and providing the penalties. Under the road law the contractor is liable for deliberate negligence, but the present law includes all natural causes besides. Mr. Fullerton stipulated it as the cause of a business principle not being already acted upon in Toronto, it is held that extension was all right as long as the city received some compensation.

Engineer Rust had a noteworthy paper on "Pavements Between Street Railway Tracks," which the foreign editors present

took full notes of. The chief point made was that, after an experience of six years of the different materials used, scoria and brick were found to be the best pavement for use between street railway tracks.

and to support them. This will include boiler makers, blacksmiths, United Brotherhood of Railway Employees, and the yardmen, bridgemen, and truckmen. The men wish to say that the committee is ready at any time to meet the company and discuss details.

OUT ON THE PACIFIC COAST.

It is said that the men will be backed by the General Labor Board.

Vancouver, B.C., Oct. 4.—The foreshadowed general strike of machinists on the C.P.R. from Fort William to Vancouver began this morning, when the mechanics of the local C.P.R. shops went out on strike. This action was taken on orders telegraphed from Winnipeg, and it is said to include all machinists on this division, numbering from 350 to 400 men. The men state that before night they will be joined by all their fellows in the East, and that from ocean to ocean the C.P.R. shops will be closed. They have lately organized on labor lines, and submitted some of their grievances to the General Labor Board for their advice, and under their promise of support they have gone out. Gradual reductions of pay have been the chief factor in the case. So much for their statement of the matter. On the part of the C.P.R. General Superintendent Marpole states that nothing is here known of the matter, except that the men are out. The troubles come from Winnipeg, and in sympathy with that point local men have quit work. What the matter is in Winnipeg has not been learned here.

INSANE MAJOR

has gained the upper hand. Had Lord Salisbury's strength been equal to his wisdom and rectitude, had there been a grain of truth in Bismarck's disparaging description of him, he would have taken the question, which is really not colonial, but diplomatic, into his own hands. It is a mistake to think that Palmerston would never have allowed a subordinate to hold forth at luncheon parties about the question of peace or war. The Boers now say to themselves: "We have retired before the encroachment of this great power, left the farms which our labor had made and gone forth to carve for ourselves a new home out of the wilderness. We can not do it a second time, even if there were any spot beyond the grasp of territorial ambition where independence could be secured. Here they will stand or fall." That they will fall is the more certain, as they have given up the more regular mode of warfare in which they excel for that of regular armies, in which they cannot fail to be defeated. The situation will be raised by the London music halls, thirsting for excitement and all of the general heart of humanity. Our mother country will hardly find an echo in the general heart of humanity. Our mother country will hardly find an echo in the general heart of humanity. BUYING HORSES AND MULES.

Twelve Thousand of the Animals Are Wanted for Speedy Shipment to South Africa.

New York, Oct. 4.—Agents of the British Government are now in this country picking up horses and mules by the hundred and arranging for speedy shipment. New York dealers are being asked to supply a certain number to be bought for use in South Africa. Some are to be shipped from Gulf ports, others from New York. It is known that American horses are meeting with exceptional favor abroad, but it was not altogether understood that our stock in this highly prized region of the British War Office would seem to indicate.

BOERS SEIZED GOLD

Half a Million Pounds of the Precious Metal Grabbed While in Transit.

London, Oct. 4.—The most sensational news from South Africa this morning is a reiteration of yesterday's report of the acquisition by the Transvaal authorities of £500,000 in gold which was on the way to Cape Town from Johannesburg. The confirmation of the story comes from two sources.

JOUBERT HAS 15,000 MEN

And With That Force He is Expected to Invade Natal—Bloody Actions Impending.

London, Oct. 4.—The Daily Telegraph's correspondent at Newcastle, Natal, sends his paper a similar message to that sent by the correspondent of The Daily Chronicle. He says he is sure half of the Boers will offer no serious resistance to the English troops. "The Free State," he says, "has made no preparations, and it is doubtful if it can put a thousand men in the field at present."

HAS FIGHTING BEGUN?

Bloemfontein, Oct. 4.—The Government publishes a telegram from the Boers stating that the British forces have crossed the border and that fighting has commenced.

BOER ATTACK EXPECTED ANY MOMENT.

London, Oct. 5.—Other telegrams report that a Boer attack upon Natal is expected at any moment, but assert that Commandant-General Joubert has threatened to shoot any man who moves without orders.

THE SLEATER SHOE STORES.

being considerably less than the original estimate.

It's Only a Ramor. A London news agency publishes a despatch from Paris saying it is rumored there that a semi-official exchange of views is proceeding between Russia, France and Germany with reference to the Transvaal crisis.

Gen. White Off to Durban.

Advices from Cape Town announce that General Sir George Stewart White, V.C., who will command the British forces in Natal, proceeds to Durban to-day. On his arrival at Cape Town he found the situation on the Natal border so grave that the need for immediate transportation for himself and staff to Durban, and the British second-class cruiser Fort was placed at his disposal.

Boer Plan of Campaign.

The various announcements regarding Boer movements seem to indicate their probable plan of campaign in the event of hostilities. Their chief force, apparently, would surround the narrow stretch of Natal territory lying into the Transvaal, thus threatening Laing's Nek, Charlestown and Dundee, while the Orange Free State commando from Marathus is expected to operate near Van Renssen's Pass, thus threatening Ladysmith.

Boers Short of Artillery.

Lichtenburg is the base of Commandant Cronje's movement on the western border, being the Mafeking Railway, and the Mafeking Boer commando. There is a well authenticated report that a large force of Boers is assembled at Bell, a station on the Tropic of Capricorn, Pongola Rivers, evidently with the object of destroying the railway. The northern commando, who are at Petersburg, are confronting Col. Plummer's column, which will move nearer the border to-day.

Boers Short of Artillery.

The report regarding the extent of the Boer artillery is probably exaggerated, as it is believed the burghers possess few field guns, and it is unlikely that they would dismantle their forts in order to send garison pieces to the front.

FROM MAJUBA HILL.

Interview With Gen. Joubert, Who Blames Rhodes and Chamberlain for the Trouble.

London, Oct. 5.—The following was received here to-day from the correspondent of The Daily Mail, dated Majuba Hill, Tuesday: "I have just crossed the frontier in a truck, which was placed at my disposal by Commandant-General Cronje, who reached the frontier to-day and is staying in the main Boer camp on the Sand River. I had a long talk with General Joubert in the train. He said he deeply regretted the impending war, which he had done his utmost to avoid. He wonders that Queen Victoria never answered the letter he addressed to her on the subject. Devotion to the Queen."

Devotion to the Queen.

"I notice everywhere a general devotion to Queen and a patriotic belief that she will stop the war. General Joubert still believes in a South African confederacy under British suzerainty, and attributes the present crisis to Cecil Rhodes and Mr. Chamberlain. His words to me were: 'I can only do my best. It may be His will that the Transvaal shall remain a British colony. The general was enthusiastically welcomed at the Boer camp. The Boers are a majority of the Boers are unwilling to fight, but the commissariat is failing. A majority of the Boers are unwilling to fight, but the commissariat is failing. A majority of the Boers are unwilling to fight, but the commissariat is failing."

Afraid of the Dum Dums.

"The Boers are much afraid of Lyddite shells and dum dums bullets. All the untrained men are mounted on mules, and they have no uniform. All companies are of the same size, and the children at the mercy of the Boers. There is much confusion in the camp. Heavy rains have deluged the lands and blocked the roads, and horses, oxen and tents are mired up together, and there is no excitement or loose firing. It is difficult to say exactly, but I suppose there are six thousand men in the Sand River laager, and others are continually arriving. The horses are in excellent condition. I only saw five guns of a heavy French pattern. The magazine is constantly working on the hills. Despite the heavy rain, the grass is still blown dry, and the wood is still green. The country, both open and rocky, is well suited to the operations of irregular cavalry."

No English Troops There.

"There are no English troops here except on outpost, which is stationed at Majuba Hill. But I am not allowed to telegraph information as to the movements of English troops. The Boers represent the general panic among the English in the Transvaal as if they were savages. They have constructed a few networks to defend the railway, and hold a good technical position. They complain, however, of the lack of locomotives and the difficulty of working a single line."

Outlanders in Terror.

"Thousands of the Outlanders are unable to leave the Transvaal, and their terror is so great that many of them have joined the Boer levies, as the best means of escaping. Johannesburg can offer no serious defence, if attacked, and Pretoria, despite its five forts, is hopelessly weak. Practically the whole Boer population has been called to arms, and the result is a strangely armed and garbed guerilla mob of 25,000 or thereabouts. It is declared that their defective German cartridge cases have all been recalled, and that fresh ammunition, made in America, is being substituted."

A Change of Plans.

"Last Friday the Boer Government arrived at the conclusion that the real danger of British attack lies on the Natal side, and thousands of men, who had been sent in the direction of Delagoa Bay and Rhodesia, were recalled and despatched towards Standerton and Sand River. I am satisfied that Gen. Joubert has 15,000 men between Standerton and Volksrust, and am positive that he will invade Natal with that strength. Certainly serious and bloody actions are impending, as soon as the Boers have recovered from the fatigue of traveling. There is no doubt, however, that the women and children will be well treated, as will probably unmarked citizens."

BOER ATTACK EXPECTED ANY MOMENT.

London, Oct. 5.—Other telegrams report that a Boer attack upon Natal is expected at any moment, but assert that Commandant-General Joubert has threatened to shoot any man who moves without orders.

The London Morning Papers are Inclined to regard the seizure of gold by the Transvaal Government as an act of war.

No absolute confirmation is obtainable of the report that a Boer ultimatum has been presented, but the news comes from a good Boer source.

LATER FOOTBALL SHOE.

Lovers of football are now looking forward with pleasure to the season which brings their favorite sport back again. The Slater Football Shoe is made to fit comfortably and built to stand the hardest kind of usage. Made of oil grain calfskin, the toughest leather known for its weight and one of the most waterproof that the tanneries have yet produced. Has a spring heel, sole of the best American oak tanned leather, double thick toecap boxed with solid leather and a heavily padded ankle piece to protect that vulnerable point. Heavy gilt-eyelets, laced down to the toe-cap affording flexibility. While the ordinary football shoe is a wreck after one game "The Kicker" outlasts the season. Every pair Goodyear welted and the makers' name and price stamped on the sole. \$3.00.

THE ALASKA BOUNDARY.

A Belief in Washington That an Acceptable Temporary Arrangement Has Been Made.

Washington, Oct. 4.—The British Embassy was re-established here to-day, after having been located at Newport through the summer. This permits the resumption of personal exchanges on the Alaska boundary question, and during the day Mr. Fowler, the British chargé d'affaires, had a talk with Secretary Hay in relation to the matter. The opinion was expressed to-day by those officials most familiar with the question that the most friendly arrangement reached between Mr. Hay and Mr. Fowler would be acceptable to all parties concerned. Canada included in the final boundary, this, however, relates to the temporary boundary and does not touch the question of how the permanent boundary shall be delimited. The negotiations at present seem to be proceeding on a friendly understanding on this permanent condition. Lord Pauncefote, the British Ambassador, had expected to return to Washington on Oct. 21, but his plans have now been changed so as to take the oceanic on Nov. 3, reaching here Nov. 7.

HAD BEEN STEALING FOR YEARS.

Chambermaid in New York Hotel Had \$10,000 Worth in Her Trunk.

New York, Oct. 4.—Mrs. Kate Quilman, employed as chambermaid in the Hotel Netherlands, was arraigned in the Jefferson Market Police Court to-day on a charge of having robbed a guest. She was remanded until to-morrow morning for examination. When her trunk was searched the detectives found in it a score of lace shawls, about 300 lace handkerchiefs, a small gold and diamond collar buttons, and enough jewelry of all kinds to stock a small jewelry store. A rough estimate of the value of the property at \$10,000. The woman had only two pawn tickets in her possession. They were for articles of trifling value. What she intended to do with the things she stole could not be learned. She claimed poverty and apparently did not convert any of her booty into ready money. It is believed she had been stealing for years.

PIQUETS GOT THEIR WORK IN.

The Blacksmiths and Machinists Brought on by the Cramps Were Turned Back.

Philadelphia, Oct. 4.—Sixty blacksmiths and machinists arrived here to-day from New York, having been engaged to work at the Crampp shipyard here. They were met at Broad-street station by a committee of strikers, who informed them of the situation at the ship yard. Thirty of the men deserted immediately. The remainder subsequently returned to the yard, and the workmen, when about to board a tug bound for the ship yard.

Strike of Longshoremen.

LABATT'S PORTER!

Undoubtedly the BEST brewed on the continent. Proved to be so by Analyses of four Chemists, and by awards of the World's Great Exhibitions, especially Chicago, 1893, where it received 96 points out of a hundred—much higher than any other Porter in United States or Canada.

MINES AND MINING STOCKS.

Sunset Negotiations. Editor W. A. telegram dated from Grand Forks, Sept. 30, and published in various newspapers, refers to "a hitch in the negotiations" with reference to the purchase by me of a property known as the Sunset, in the Similkameen District of British Columbia. A further intimation is made that the owners have decided to stock the property. The very fact that we decided not to stock the property accounts for the "hitch" in negotiations. The report on the Sunset and surrounding claims was made by Mr. W. J. Collins, an eminent mining geologist with the British Columbia, formerly superintendent of the Columbia Kootenay Mine, both gentlemen having been connected with the property since its development, and the two experts in question decided that there was not sufficient evidence to justify flotation, holding that it would require two years to make a proper investigation, and that the surrounding circumstances did not warrant asking the public to invest. As my name has been connected with the property, I deem it only fair to make this explanation. Our firm had already expended a considerable amount of money, but sacrificed it rather than ask investors to sacrifice theirs. Oct. 2. C. H. Mackintosh.

On the Exchanges. There was fair activity on the Toronto Mining Exchange yesterday. Waterloo sold at 10 1/2. Brandon & Golden Crown at 10 1/2. Noble Five at 2 1/2. St. Paul was active, selling down to 1. Golden Star sold at 3 1/2 early in the day, but the last sale was at 3 1/2. War Eagle sold at 3 1/2. Golden Star sold at 3 1/2 on the Standard Mining Exchange, closing at 3 1/2. Minnehaha sold at 1 1/2, and Van Anda at 7 1/2. Dardanelles sold down to 1 1/2. Rathmullen was active at 8 and Waterloo at 10 1/2.

MANILA IS A REGULAR HELL-HOLE

According to Army Secretary Peyton, of the Brotherhood of St. Andrew.

New York, Oct. 4.—Army Secretary Peyton, of the Brotherhood of St. Andrew, who has just returned from a stay of six months in the Philippines, declares that the United States has 45,000 "drunks, rakes and gamblers" in and around Manila, and that religious progress is quite out of the question while the Americans are there.

Manila is a regular hell-hole, and the Philippines are being ruined by the Americans who are there.

TRUNK SEWER AGAIN TALKED OF.

Dr. Sheard's Assistants Get an Increase of Salary—Spence's Bid for Votes.

It will be interesting for the citizens of Toronto to watch closely the action of certain aldermen in connection with the appointment of a new fire chief. The statement was made at last Monday night's Council meeting that a canvass had already been made in the interest of a certain individual, whose name for some reason or other was not disclosed.

Dangerous to Public Health.

E. A. Macdonald waited upon the Board of Health yesterday afternoon on behalf of a number of citizens, who are protesting against the sewage of the city being dumped into the Bay at the rate of 200 tons per day.

They Get an Increase.

Dr. Sheard's monthly report was adopted without any discussion, with the exception of a short talk that arose over the Health Officer's recommendation to the Board that the salaries of three of his staff be increased.

Need an Intercepting Sewer.

Dr. Sheard said he had already drawn the attention of the Board to the importance of the evil. He would like to see something done first with the Parkdale sewage people, but some of the members who are opposed to the trunk sewer, but some intercepting sewer will have to be adopted.

City Owns the Buildings.

When the Parks and Exhibition Committee met yesterday afternoon two accounts amounting to \$312 for work on buildings at the Exhibition, but not authorized by the committee, were thrown out.

More Appeals Heard.

The Court of Revision yesterday morning heard the appeal of E. Macdonald, whose name was left off the assessment roll as tenant of No. 41 Grenville-street. It will be heard by the Court of Revision.

The Working Man's Condition.

Ald. Spence has issued a circular calling attention to a resolution which he says will soon be discussed in Council. It says that no person employed in the construction of public works shall be compelled or permitted to work more than nine hours a day.

Building Permits.

The City Commissioner has granted a permit to the Toronto Railway Company for the erection of a car shed at the corner of Dundas-street and High Park-avenue, at a cost of \$8000.

Notes.

Chairman Frankland has written to the Mayor, saying that he trusts there will be no delay in the appointment of a successor to Chief Graham.

The Oshawa Vindicator.

The Vindicator of Oshawa has become the sole property of H. C. Fairbanks, who has bought out the interest of his partner, S. C. Ford. The paper has been published since 1854, and is the official Ontario.

Stein Discharged.

Judge McDougall yesterday granted a formal certificate of the discharge of Samuel Stein, who was tried at the Sessions on a charge of assaulting Stegmund Lohelsky of the 7th Battalion. Stein intends to bring an action through Mr. C. C. Robinson for alleged false arrest and malicious prosecution.

Heavy Failure in Whiskey.

Leith, Scotland, Oct. 4.—The failure is announced of Messrs. J. M. & Co. distillers, the well-known whiskey brokers of this city, with gross liabilities estimated at £70,000. The collapse of the firm is ascribed to bad debts and to the general stagnation of trade.

Welland Fair a Success.

Welland, Ont., Oct. 4.—The closing day of the County Fair was a day of good weather, good attendance and keen competition. Free-for-all trot, won by Superior Gift, and 2:28 trot by Walter II.

In the Surrogate Court.

Surrogate Court proceedings took place yesterday in the estate of the late George Murray Lohelsky of the 7th Battalion. The will, which consists of \$1000 in life insurance, \$400 in the business of Clancy Bros. and ring worth \$2500.

NEWFOUNDLAND NEEDS IT.

Government Working to Get the Marconi System of Wireless Telegraphy on the Island.

The St. John's, Nfld., Daily News says: Last evening we interviewed the Minister of Marine with regard to the rumor which was current to the effect that correspondence was going on with Mr. Bowden who has been exhibiting the Marconi system of wireless telegraphy in the city, as to the cost, etc., of establishing the system on the coast of Labrador and the northern part of Newfoundland.

ARE WORKING AT LUMBERING

And Are Found to Be Willing and Industrious—Learning the Language Quickly.

Montreal, Oct. 4.—(Special)—Mr. J. A. McRae, the well-known railway contractor of Niagara Falls, arrived here to-day from Rat Portage, which district he says will ship 70,000,000 feet of pine lumber to Manitoba this year, and that this market is expanding yearly, owing to the ability of the Western farmers to build new and better houses. The Rat Portage Lumber Company employs 500 men, many of whom are Doukhobors, and Mr. McRae says that as soon as they have learned English they will make as good laborers as our own Canadians.

DOUKHOBORS ARE ALL RIGHT

That is the Opinion of Mr. J. A. McRae, the Railway Contractor of Niagara Falls.
