# MURKIN SEE MURDERER?

## NOVEL THEORY ADVANCED

### Does Last Object Person Seen in Life Remain on Retina After Death?

Brantford, March 30.—It was learned today from the police that when James Quirk was buried the body was minus the head. At the autopsy performed by the coroner and Dr. Frank Quirk's head was severed from the body and placed in a glass jar containing alcohol. It will be preserved, ostensibly to be used in refusing possible medical expert evidence.

The police argue, and doubtless their information and opinions are drawn from Inspector Murray, that this action will help materially to shorten the trial when the murderer has been run down. They refer to the Sifton case, and declare that had the victim's head been preserved the Crown's case would have been greatly strengthened. In the Hendershot case the head of the murderer was kept, and justice was swift.

Another reason for the preservation in the case of Quirk is given by a local Sherlock Holmes, and it may have much bearing on the solution of the mystery. It came out at the inquest and from conversation with persons at the scene of the tragedy that Quirk's eyes were staring widely open when he was found dead. The theory advanced is that the features of the murderer have been photographed on the retina of the victim's eye, and it needs only an expert photographer to have done so.

It is hinted that the rather unusual act of preserving the head, and hence of course the eye, is but preliminary to a series of experiments on the part of the police. Should they be successful, it is obvious that an incontrovertible piece of evidence will have been obtained. The police here are greatly wrought up over the matter.

Cases in which such photographs have been taken are well known in Paris, France, say the police, and they can see no reason why success in France could not succeed in Canada.

Medical men in Toronto do not believe in the theory that the last object a person sees in life remains on the retina and can be photographed after death. A group of physicians were asked by The World if they knew of a case in point where the experiment had been tried and had either proved a success or a failure, and answered that they did not. They had only a general knowledge of the matter, and were under the impression that the theory had long since been exploded.

An eminent oculist in the city when questioned about it said: "There is nothing in it. The retina completely changes immediately after death, and everything is obliterated. In fact, one of the signs that death has occurred is the change in the retina."

Dr. G. Sterling Ryerson, one of the best known eye specialists in Canada, said that photographs had been taken of the retina after death, but the subjects of them had been imperfectly reproduced. In the case of Quirk, Dr. Ryerson thought the experiment would be a failure, because, as he explained, the retina when exposed to the light became perfectly colorless. To secure even an imperfect photograph it was necessary that the picture should be taken immediately after death, and even then, with all the conditions favorable, unsatisfactory results had been obtained, the doctor added.

Dr. Thomas Wylie was only acquainted with the matter in a general way, but was of the opinion that the impression that it was not a success.

Prof. W. H. Ellis was inclined to be doubtful as to whether anything in the theory. He did not know much about it and had never heard of a successful photograph being taken.

A local optician also said he had heard of experiments being made, but did not know whether they were successful or not. He thought that they all proved to be failures.

Dr. J. E. Elliott and Prof. E. B. Shurtleworth did not have sufficient knowledge on the subject to express a decided opinion. They did not know of any cases in which it had been tried, either successfully or otherwise.

### MURDERER NEAR BRANTFORD.

Brantford, March 29.—The murder of James Quirk is still the main topic of discussion here. The local police have been following numerous cases. Inspector Murray has left the scene and given the investigation for the time being into the hands of Brantford's capable staff of officers.

An important statement was made today by one of these officers. If it is true, a discovery of the first importance has been made. The officer who was talking to your reporter

# POPE SAYS HIS ENDS NEAR

### His Easter Encyclical to the Bishops is a Testament to the Church.

### HUMANITY NEVER MORE MISERABLE

Union of Christian Churches a Remedy to Save World From Atheism and Freemasonry.

Rome, March 30.—The Observatore Romano, the organ of the Vatican, prints the encyclical issued by the Pope to-day, in which he says the time has come when he must recognize that he is approaching the end of the term of his life on earth and that this encyclical should be his testament to the Catholic Church.

The Pope says he would encourage the Catholic Bishops throughout the world to continue vigorously to resist the persecutions which now afflict the Church. These persecutions will not affect the spread of the light of Christ among infidels. Never has humanity found itself in more deplorable conditions than at present. There is disorder in family relations, excessive drinking has been created which has fostered socialism and anarchism.

Unjust wars, the encyclical says, are being waged by strong nations against weak and feeble peoples. There are exaggerated armaments among great nations, the effects of which are even more disastrous than war. All these things have created a world-wide inquietude. Unprovoked and unjust wars are being waged against the people to anarchism, which has created a world-wide inquietude. Unprovoked and unjust wars are being waged against the people to anarchism, which has created a world-wide inquietude.

### MORE PEACE MOVEMENTS.

London, March 31.—Nothing definite has transpired concerning the peace negotiations in South Africa. Messrs. Wessels and Wolmarans, the Boer delegates, who were recently in the United States, have been interviewed since they returned to France, and they expressed their hope that a satisfactory compromise would follow Mr. Schalkburg's mission.

Mr. Wessels is credited with declaring that Mr. Kruger would approve any terms of peace arrived at in South Africa.

The Hague correspondent of The Daily Telegraph writes in a despatch that he believes Dr. Kuypers, the Dutch premier, who started last Thursday on a visit to Belgium and Germany, goes to those countries in the interests of peace.

His Holiness thinks the bishops for their friendly manifestations on the occasion of his jubilee. He also condemns the spread of atheism, which he finds to be invading all departments of the state. He also condemns the forthcoming institution of the law of divorce in Italy, and urges all Catholics to combat doctrines contrary to religion.

### BRITISH OFFICERS' EXECUTION.

Australian Premier Asks Lord Kitchener for Details.

Melbourne, March 30.—Official details of the execution of Australian officers for having shot unarmed Boer prisoners in South Africa are anxiously awaited here. The wife of Lieut. Handcock, one of the officers, was not aware of his fate until the news was published yesterday.

The Rt. Hon. Edmund Barton, Premier of the Australian Commonwealth, has sent a message to Lord Kitchener, asking for particulars of the affair.

### SEVEN MEN KILLED.

First News of a Fight Near Sutherland, Cape Colony.

London, March 29.—A casualty list issued by the War Office today gives the first news of a fight near Sutherland, Cape Colony, on March 24, Marshall's killed seven killed, eight wounded and twenty-nine men captured. The Boers afterward released the prisoners.

### ANOTHER CANADIAN ILL.

William L. Wright of S.A.C. Has Enteric Fever.

Ottawa, March 30.—His Excellency the Governor-General has received from the Casualty Department at Cape Town notification that, on Wednesday last, William L. Wright, Canadian member of the South African Constabulary, was ill of enteric fever at Vet. River. He belongs to St. John, N. B.

### MONTREAL FIRM ASSIGNED.

Montreal, Que., March 30.—Messrs. Cadieux and Demone, the well-known Quebec firm, have been assigned. The firm have been in existence for more than a quarter of a century, and have always done an extensive business. The failure was brought about by the suspension of the Joliette Biscuit Company, in which Messrs. Cadieux and Demone were largely interested. The total liabilities are said to be about \$150,000.

Rome, March 30.—Nothing has been heard for nearly a year of the Italian explorer, Bogianzi, who undertook, on behalf of the Italian Geographical Society, a scientific expedition to the hinterland of Paraguay. No assistance can be obtained from the Paraguayan government, and the Italian Geographical Society has decided to send a mission to ascertain what has become of Bogianzi.

### PROBABLY FATAL ACCIDENT.

Saint Ste. Marie, March 30.—Thomas James, a woodsman, was run over by a C.P.R. engine. Engineer Roach noticed a man sitting on the track, but could not stop the train in time to avoid the accident. The train was stopped after the pilot had passed over James' body. He was taken out and carried to the hospital at Thessalon. He sustained a fracture of the right leg and several serious bruises. It is feared the accident will prove fatal.

# ADmits THAT HE IS DILLON.

### Welland Dynamiter Will No Longer Pass as Dillman.

Buffalo, March 30.—A special to The Express from Kingston says that Dillman has confessed that he is Dillon, the Clan Na Gael executive.

It is now believed that the discovery of Dillman's identity was the reason for the special guard being placed outside the walls of the prison every night. The authorities know that in him they have a prisoner who it is important to hold and extra precautions were deemed advisable to preclude any possibility of escape.

The fact is now recalled that when Dillman entered the penitentiary he tried to pass off as a Dutchman, but his sham was transparent, and there has been no doubt from the first that he is an Irishman of the physical force party.

Inspector Murray, chief of Ontario detectives, it will be remembered, traced Dillman and Nolin right to the Clan Na Gael hide-out. These two were Dillman's partners in the crime.

# UNEASINESS EXISTS.

### Le Sol's Comment on Recent Parliamentary Election.

Montreal, March 30.—Speaking of the result in Beauharnois election Le Sol, the Quebec government organ, shows that a certain uneasiness exists in the Liberal party in the district of Montreal. It is not that the Laurier government is losing its popularity, for that is not the case, but there is a feeling of a lack of discipline which the leader of the party would do well to look into, as soon as the memory of the election is fresh in the minds of the party.

One of the causes, perhaps, is found in the fact that certain persons, with a view to airing their independent notions, speak too freely as to what the government should do, and what it should not do. Those for whom the government is responsible, in consequence, have to be careful of the deal of trouble in convincing the public that such action is necessary, and all this chattering about everything and anything in order to alarm the popular mind, is a most unwise and unprofitable proceeding.

It is not that the government is losing its popularity, for that is not the case, but there is a feeling of a lack of discipline which the leader of the party would do well to look into, as soon as the memory of the election is fresh in the minds of the party.

# MAD MUSICIAN.

### Played the Piano Over 24 Hours on a Wager.

Paris, March 30.—Gustave Garnier, a composer, won his wager that he could play the piano ceaselessly for more than twenty-four hours without repeating the same piece. He played twenty-seven hours and four minutes without notes or rests from memory, playing one hundred and sixteen pieces, ranging from a concert hall waltz to a Beethoven symphony.

Twice he was fed by an assistant, but he refused to eat. The performance ended when Garnier, who had been raving more and more for two hours, fell insensible. The skin was worn from his finger tips, and after he stopped his arms began to tremble. At the present moment Garnier is still out of his mind, and the doctor says his condition is precarious.

# STONE THROWN AT LORD CURRIE.

### British Ambassador to Italy Attacked on the Street.

Paris, March 30.—A despatch from Rome to The Rappel says that, while Lord Currie, the British Ambassador to Italy, was out driving yesterday afternoon, a stone was thrown toward his carriage. The missile was poorly aimed, but it struck the ambassador's leg. It is thought possible that the attempt on the ambassador was the outcome of the Neapolitans' irritation against the British Consul, E. N. Rolfe, who has been the cause of some of the disturbances in the city.

# ROYAL FAMILY ON A PICNIC.

### King of Italy Spending Easter on the Island of Monte Cristo.

Rome, March 30.—For the first time since Rome has been the capital of Italy the King is spending Easter on the island of Monte Cristo. The fact is caused by the illness of the King and Queen and the little Princesses, and the Duke of Genoa, and the Duke of Abruzzi, and the Duke of Aosta, all spending the holiday season in the island of Monte Cristo.

There are probably no inhabitants on the island, but rather elaborate arrangements have been taken to ensure the safety of the royal party. A cordon of six torpedo boats is established around the island, and during the royal sojourn no strange vessel will be allowed to come near Monte Cristo.

# SUIT FEE TO PATIENT.

### Court Reduces Exorbitant Bill of Specialist—Makes New Ruling.

Paris, March 30.—What should be the charge for a surgical operation by one of the princes of the art? This ticklish question has just been occupying the Seine Civil Tribunal. Dr. Albertin sought to receive \$100,000 from a Nanteur grocer as a fee for performing laparotomy on the latter's wife. The court considered the charge exorbitant and reduced the same to \$100, stating that it is a medical man's duty to fix his fee in proportion to the patient's means.

# TO REPEAT SHAMROCK II.

New York, March 31.—The Press will say to-day: Preparations are being made for the refitting of Shamrock II. Work on the defeated British challenger was begun last Thursday in the Erie Basin. Much secrecy is observed about the yacht, but it is said Sir Thomas Lipton intends to refit her and take her to the Great Lakes, via the St. Lawrence and the Welland Canal.

# STEAMER PRETORIA ON FIRE

### Passengers Transferred in Lifeboats to Steamer Noordland

### AND WERE RETURNED TO NEW YORK

The Lake Superior From Liverpool Drugged Anchore and Went Ashore in St. John Harbor.

New York, March 30.—The steamer Pretoria of the Quebec line returned to this port to-night with fire in her forward hold. Her passengers came in a short time previously on the steamer Noordland of the American line, having been transferred to the Pretoria, which is anchored at Tompkinsville, and fire boats from the city were dispatched to her assistance about 9:30 p.m. The Noordland is anchored off quarantine, and the passengers taken from the Pretoria will be landed in the morning, after which she will proceed on her voyage to Liverpool.

The Pretoria left this port Saturday afternoon bound for Hamilton, Bermondsey, with Captain McKenzie in command. At midnight smoke was seen coming from the forward hold. The fire could not be exactly located. The engines were stopped and Captain McKenzie got everything ready for any emergency which might arise. The Pretoria was put in condition for which she even more drifted toward the pier. At this time the vessel was 100 miles south of Sandy Hook.

At 6 o'clock this morning (Sunday) the captain saw that the flames in the hold were making headway, and the stream of water pouring into the compartment was determined. Captain McKenzie turned his vessel for New York.

At 9 o'clock the steamer Noordland was signalled to Liverpool. The Pretoria signalled to the Noordland to open the hatches. He found that the compartment was blazing fiercely, and what made the danger much worse was that the next compartment was stored with petroleum.

This decided Captain McKenzie to remove his passengers to the Noordland, which had given no evidence of fire.

After the passengers were transferred to the lifeboats, both vessels returned to New York.

The Pretoria is on board 28 vessel cabin passengers, 10 in the second cabin and 10 in the steerage.

# ASHORE IN ST. JOHN HARBOR.

Hullfax, N.S., March 30.—The S.S. Lake Superior is ashore in St. John Harbor this afternoon, and in consequence she is under quarantine. The ship was driven ashore by a strong wind and swung on to the round reef. The captain and crew of the Lake Superior are ashore, and the vessel is being towed to the pier. The vessel is being towed to the pier.

# BRITISH REVENUE.

### An Increase of About \$63,000,000 During Last Fiscal Year.

London, March 30.—A Treasury report, issued to-day, shows that the total revenue of the United Kingdom for the year ending March 31, 1902, was £152,601,637, as compared with £140,018,624 in the previous year. The largest contribution came from excise duties, which amounted to £20,000,000. The property and income tax receipts were £34,000,000, and the money received from customs £10,000,000. The balance on March 31 was £3,228,025.

### Wind Unroofs Churches and Tumbles the Wreckage Down on Assembled Worshipers.

### CAB MAN BLOWN FROM HIS SEAT

### Sidewalks Picked Up on the Breeze and Hurled About in Buffalo.

### Buffalo, N.Y., March 30.—In a terrific windstorm to-day the Knox Presbyterian Church in Knoxville was unroofed. The church at the time was filled with an Easter congregation numbering about 600 persons. While the minister was in the midst of his sermon, a strong gust of wind blew over the large chimney and lifted a portion of the roof of the building. The bricks from the chimney crashed thru the roof and carried a huge piece of the hardwood ceiling, measuring about 40 x 20 feet, down upon worshippers in the pews. Forty persons were hurt. Five may die. As Rev. J. W. English, pastor of the Robinson Run U. P. Church, near Buffalo, was raising his arms to pronounce the benediction lightning struck the church spire, and it toppled upon the roof, crushing it and injuring a number of worshippers, two of whom will also be killed. The Robeson Presbyterian Church was also unroofed, but the congregation escaped injury. A bulletin received from Wellsburg, W. Va., at 1 a.m., says two people are dead and several injured.

### AT LEAST ONE MEMBER.

Montreal, March 30.—"If you ask my opinion I would say that instead of preaching a false economy it would be better to spend \$40,000,000 to develop the Canadian Northwest in order to make that, our greatest asset, sure to the country. You ask me if there is room for two transcontinental railways in Canada, and I reply that there is room for four, and the requirements will be there also before many years have passed away."

The above optimistic statement was made to-day by Mr. J. H. Ross, commissioner to the Yukon and executive officer of the Canadian government in that territory. He believes a great mistake has been made in the matter of so-called water concessions, but thinks the government will make matters right in due time.

Mr. Ross expects the Yukon will be given at least one representative in the House of Commons, and adds that this representative will be a Yukon first man, rather than be bound by party ties.

He says out of the \$17,000,000 of the gold output \$13,000,000 found its way to the Canadian banks, and the Canadian Bank of Commerce alone handled \$5,000,000. Canada, he adds, furnishes \$5,000,000 out of the \$7,000,000 value of goods coming into the territory, and this country would get even a heavier percentage if Montreal and Toronto were to get there.

The Commissioner says that Engineer Hawkins, who built the White Pass Railway, will build this year some 80 miles of narrow gauge railway connecting Dawson with the outside camps, and this system may be pushed on to Selkirk, connecting the proposed extension of the British Yukon from White Horse to Selkirk, which he believes will be built also.

Buy Furs Now.

Don't think because spring is well here, and summer is in the near perspective, that it is not a good time to buy furs. As far as prices go, and the quality of furs, and the stock on exhibit, this is actually the best time of the year. Furriers will be anxious to get rid of their stock, and the prospects of a wild advance in the price of furs, and the workrooms are going for twelve months, also. Sumner prices rule to-day.

VOTE OF CONFIDENCE WAS PASSED

Entire Faith Expressed in Inception and Management of Affairs by the Board.

All the stories of late about intentional wrongdoings on the part of some of the directors of the Canada Cycle Company were given an emphatic contradiction at a meeting of the shareholders of the company Saturday afternoon.

The president reviewed the organization of the company, the subsequent transfers of stock and the company's business afterwards. He said it was hardly necessary for him to give a denial to the rumors about certain directors receiving sums of money dishonestly from the company, but he would only say there was no foundation for them whatever.

WORKS OF LEVER BROTHERS LIMITED, LARGEST SOAP FACTORY IN CANADA.

One of the Greatest Manufacturing Plants on the Continent Situated in Toronto, on the Banks of the Don.

SUNLIGHT SOAP IS USED IN MILLIONS OF HOMES.

Meals for Employes Are Cooked by Electricity---Some Observations Made During a Visit to the Great Factory.

When people in Toronto realize that the largest soap factory in Canada, and one of the greatest soap manufacturing plants on the continent, has been erected on the banks of the Don by Lever Brothers Limited...

It was escorted through the works and had explained to me the details of the soap-making art. The manager of the factory proper was a pleasant man...

The general impression is that the factory is a most modern and well equipped plant. It is a pleasure to see the machinery and the workers...

A machine fitted with a series of wires is run over to the mass and cuts the soap into slabs weighing about seventy pounds each...

At this point the manager pointed out to me that from the moment the various substances used in making the soap had been poured into the tanks...

There is not in Canada today a woman who has given Sunlight Soap a trial in comparison with other soaps. It is a simple matter to do so...

By no means. It lathers very freely, and that means that the requisite amount of lather is obtained with one or two rubs...

There is an equal amount of lather from common soap and Sunlight Soap equally effective. No one again the advantage of using Sunlight Soap is seen...

What are its special points as a laundry soap? Sunlight Soap is a highly concentrated form containing a minimum percentage of water...

do so, as it contains no free alkali and is perfectly pure. A friend of mine says: "You needn't boil the clothes if you use Sunlight Soap..."

When just lukewarm, work the articles in the lather without rubbing. Squeeze out the dirt-water without twisting, rinse thoroughly...

There is nothing in the composition of Sunlight Soap that will shrink or harden woollens. The method we always recommend for this purpose...

Afraid of Japan.

Yokohama, March 30.—The Chinese minister at Tokyo has sent a strongly worded despatch to Peking, in which he advises his government to prohibit Chinese students from coming to Japan, declaring they would imbibe revolutionary ideas here.

It was recently announced from Peking that 56 Chinese students would soon enter the Military School at Tokyo. Their expenses were to be paid by the Viceroy of Chi-Li Province.

The Hartford Baseball Club reorganized Friday night and selected these directors: Charles Soby, Andrew Welch, Charles M. Webster, John W. Serrito, Robert H. Lewis and L. L. White. The season will probably open here with Springfield, May 3. The club now has 23 players signed, including nine pitchers.

EASTER SERVICES IN THE CHURCHES

Vocal Recital in College of Music—Young Liberals Meet in James Hall.

Toronto Junction, March 30.—Miss Janet Grant, soloist of the Parkdale Presbyterian Church, assisted by Miss Mary Mellich, violinist; Miss Tyner, elocutionist, and Wilbur Grant, organist, will give a vocal recital at the College of Music on Tuesday.

The Y.P.C.U. observed Easter Sunday by a sunrise prayer meeting in Victoria Presbyterian Church, at an early hour this morning. Mr. Zantz spoke on "The Resurrection." A. Etan took for his subject "The Redemption of the Soul," described as regeneration, a new birth, or death and resurrection. Dr. Martin described the new viewpoint as not self, not Calvary, not Olivet, but Christ. The great commission and its one message: "Go ye into all the world" was the theme upon which Mrs. Teasdale enlarged.

The Young Liberals held their Saturday night weekly meeting in James Hall last night. Speeches were given by A. B. Rice and Mr. Sheppard.

W. J. Hill, M.L.A., has returned from Sault Ste. Marie, and, from the present, until election day, will spend most of his time in prosecuting his campaign in West York. Mr. Hill's absence from the riding during the past five years makes it all the more necessary that he should throw himself into the fight, if he is anxious to win.

The children's costume concert, besides a cantata, fancy drills and tableaux, by pupils of the Public schools, takes place on Thursday afternoon in Kilburn Hall.

A stained-glass window, depicting "Christ, the Light of the World," was unveiled at the Easter morning service in St. John's Church yesterday.

The remains of the late George Bettridge of Etobicoke were interred at Riverside Cemetery on Friday afternoon. Mr. Bettridge was probably the oldest person in Etobicoke. A. Bettridge of Highfield and five daughters are left to mourn his loss.

A missionary program will be furnished, will be given on Wednesday evening by the W.M.S. of the Methodist Church, the subject of "The World's Mission." A public meeting will be held to-night in the Town Hall under the auspices of the West York Women's Christian Temperance Union. It will be addressed by John A. Nichols of the Ontario branch of the Dominion Alliance, and Courtney Fessley, secretary of the Prohibition Campaign Committee.

Prohibitive Royalties.

Pekin, March 30.—The government has decided upon raising regulations, under the terms of which concessions may be granted to foreigners in any part of China. These regulations provide that the government shall receive 25 per cent. of the profits, 25 per cent. of the output of diamonds and other gems, 15 per cent. of the output of gold, silver and mercury, 10 per cent. of the output of copper, tin and zinc, 5 per cent. of the output of coal and iron, besides export and import duties. These royalties are regarded there as altogether prohibitive.

The Washington Sporting Club claims that they had signed Dave Sullivan to play for them in the arena. Tom Sharkey, who had been signed to play for the club, has since been matched to meet Willie Fitzgerald at Martin J. Sullivan's club, also in Philadelphia, Penn. A.C., next Wednesday. The courts have been appealed to by the Washington Club.

FELL OFF A MOVING TRAIN

Edwin Force of Sault Ste. Marie is suffering from concussion of the Brain.

SCORCHER RUNS DOWN PEDESTRIAN

Edwin Force, a civil engineer of Sault Ste. Marie, is lying in a private ward in the General Hospital suffering from concussion of the brain, which has developed into partial paralysis of the face. On Friday night while he was on his way to Ottawa he fell off the C.P.R. express when rounding the curve near the East Queen-street crossing. He was standing on the rear platform of a parlor coach and was thrown forcibly against the door, which gave way, and he fell headlong to the ground. He was picked up and removed to the Queen's Hotel, where Dr. Fred Winnett attended him. On Saturday he was taken to the hospital. It was found that he had been fractured, causing concussion of the brain. His shoulder was also dislocated. It is with difficulty that he can speak. Mr. Force is 55 years of age.

On Saturday afternoon Joseph Bain of 27 Bellevue-avenue was knocked down at the corner of College and Bellevue-avenue by a bicyclist, Gabriel Calibraco, who lives on Centre-avenue. He was rendered unconscious. Pedestrians carried him into the home of Rev. A. J. Froughall, and Drs. Penler and Henrich were summoned. About an hour later Bain recovered sufficiently to be removed to his home. Calibraco will be summoned to appear in the Police Court to answer a charge of furious riding.

In attempting to board a moving street car on Saturday night on West Queen-street Miss Alice Williams of Sandridge, Ont., fell and sustained a severe shaking up and several bruises. She was removed in the ambulance to the Emergency Hospital. She is visiting friends at 78 Claremont-street.

While running a press in the Salvation Army Printing House, 18 Albert-street, on Saturday morning, William Luing, a pressman, had his right arm caught in the machinery. It was so badly mangled that it was found necessary to amputate it above the elbow at the Emergency Hospital.

EASTER WEEK HATS

SATURDAY was the biggest hat day in our history. It proves our contention that we handle the "only" hats is right. We're going ahead this week to break all records. Our aim is to sell nothing but the latest and best—because we believe it doesn't pay to handle poor hats. We couldn't keep our customers and do it. Remember, however, a good hat here is a good hat at the regular price.

We are Dunlap's and Heath's sole Canadian agents. Alpine Hats are the feature of the year, and being of catchy styles are prime favorites. We want you to see our Easter stock—we'll take chances on the result. Call to-day. There are twenty-five thousand to choose from.

An Easter Hat--Style and Quality

Silk Hats You didn't have much of a chance yesterday to wear one because of the weather, but there's some fine days coming our way. Get a good silk. It will pay you. All ours are good silks. Dunlap's and Heath's a specialty.

Derby Hats Stiff Felt Derbys—the ever popular hat. There have been years when the styles are becoming to some and not to others. This year there's such a range that you can't avoid getting something suitable.

Alpine Hats It's pretty nearly time to wear a light grey Alpine. We foretell that there's going to be a lot worn this year, because they are so stylish. Meantime there's the black Alpine with the Panama brim.

A Great Curtain Sale. Hundreds of homes in Toronto and outside of Toronto benefited by the Curtain Sale we started last week, for the values offered are real and are found only here. We continue the Sale with still greater emphasis this week, adding some medium-priced lines in Swiss Curtains to the Nottingham specials. As we bought so we sell, and we bought more extensively and to greater advantage than ever this year, with the result that the bargains offered represent only a fraction of the prices charged in most stores. We do not attempt to describe these goods here, as that would be impossible. Come to-day and see them for yourself—you will not be sorry. There are some great bargains in the Carpet Section as well. To-morrow at 8 o'clock we put on sale a lot of Sample Curtains at 49c. 500 Sample Curtains—this is a special shipment of samples that have been used for showing the Curtains by and are slightly soiled—curtains worth up to 4.00 per pair, to be sold on Tuesday, each curtain 49c.
