## HON. A.B. MORRIS CHOSEN TO OPPOSE MR. FIELDING

Torontonian Selected by Queen's and Shelburne Conservatives for Federal Elections.

SHELBURNE, N.S., Aug. 21.—(Special.)—Hon. A. B. Morris, K.C., of Toronto, was nominated by a large and enthusiastic Conservative convention to contest the constituency of Queen's and Shelburne at the Dominion elections. This is Hon. Mr. Fielding's riding, and as Mr. Morris is a Queen's County boy, and popular, the contest will be keen.

Mr. Morris was present and accepted the nomination. He said that while Mr. Fielding was an honest man, as far as he knew, he found fault with him because he had consented to every bad job of the government, and also because of his record as minister of finance.

Hon. A. B. Morris was leader of the opposition party in Newfoundland prior to his coming to Toronto to reside, some two years ago. He is now a member of the legal firm of Bicknell, Morris, Bain & Strath.

## ENGLAND TO PAY LAWMAKERS

Labor Member of Parliament in Address Predicts Salary Legislation.

CHICAGO, Aug. 21.—That England will follow the United States in the matter of paying a salary to its national legislators, if the Liberals are returned to parliament at the next elections, was the prediction of Percy Alden, Liberal and Labor member of the British Parliament, in a talk at a banquet given in his honor. The dinner was attended by a large number of Chicago labor leaders.

"The political significance and influence of the Socialists in England is next to nothing," said Mr. Alden. "They have only one member in parliament, and it will take them a good many years before they can elect any more."

"The Liberals, if they are returned at the next election, will put through a bill giving salaries to the members of parliament. There are a number of labor men who believe they will lose their power over the labor members if the state should pay them instead of the Labor Party."

## MARVELOUS LUSITANIA

Clips Nearly Four Hours Off Previous Atlantic Record.

NEW YORK, Aug. 21.—The Cunard liner Lusitania, which made a sensational run across the Atlantic.

The big turbine not only lowered all records for the trans-Atlantic voyage by nearly four hours, but she also broke three other records.

She made the passage in four days and 15 hours. The best previous record, made by her on Nov. 8, was four days, 18 hours and 40 minutes.

On the whole trip of 2781 miles the Lusitania made an average speed of 24.95 knots, the fastest on record, the previous one being 25.01, made by her on her record trip last November.

The third record broken is that for the greatest day's run—650 knots up to noon on the 17th, in which run she also set a new pace in steaming an average of 25.66 knots for the 24 hours.

## MR. SIFTON IN TOWN.

Spends Day in Toronto—Still Has Hopes in the All-Red.

Hon. Clifford Sifton came down from Ottawa yesterday and spent the day in the city, returning in the evening.

The approach of the general election sufficiently accounts for his visit, but Mr. Sifton declared to be interviewed.

His patriotic and nationalizing imagination is one of the assets of the Liberal party, and his influence is still of much more importance than outsiders are aware. He has never wavered in his faith in the "All-Red Route," and Harriet Greenwood's assurance of the support of the British Government is in line with Mr. Sifton's sanguine attitude.

## VILLAGE THREATENED BY FIRE

Lumber Configuration at Mississippi—Kingston Sends Aid.

KINGSTON, Aug. 21.—(Special.)—This afternoon the lumber piles of Isaac Allen, Mississippi, sixty-three miles north of here, caught fire, and a call was sent to Kingston for aid.

Mayor Ross ordered four firemen to the scene with steamers and other equipment, and the Kingston & Pembroke Railway ran a special train.

Latest reports say that 200,000 feet of lumber was burned, but the fire is now under control. Mississippi has a population of 300, and the whole town turned out to fight the flames.

## HALIFAX WANTS C.P.R. DISCUSSION IS LIVELY

New Brunswick Delegates to Maritime Board Stoutly Oppose Concessions.

HALIFAX, Aug. 21.—(Special.)—The Maritime Board of Trade had a lively meeting to-day. Great interest was taken in the debate on running and landage rights on the I.C.R. from St. John to Halifax, or other terminal points, for the C.P.R. When the session started, more than a dozen speakers rose to express an opinion on the question. The New Brunswick speakers included Hon. H. R. Emmerson, Hon. G. W. Robinson and other well-known men. H. Logan, M.P., supported the claims of Nova Scotia, assisted by George Faulkner, M.P., and others.

The debate was opened by W. B. Snowball of Chatham, who was the only person outside of Moncton and St. John, who opposed the entrance of the C.P.R. into Halifax on better terms than at present. Dr. Andrews of Sackville, N.B., was inclined to side with Nova Scotia.

The amendment to give the C.P.R. G.T.P. and C.N.R. running rights over the I.C.R. and calling for the appointment of a committee from the three provinces to report on the matter was defeated, only 15 members voting for it. Another resolution was moved by Hon. C. W. Robinson, "for the sake of peace," he expressed it. He moved that the Halifax resolution be amended by the addition of the following words, "provided that such rights shall not apply to traffic arising at intermediate points between St. John and terminals." The Halifax resolution passed on a vote of 52 to 24. St. John and Moncton men and the Prince Edward Island delegates were the principal men voting against it.

An uproar arose after the vote. Hon. Mr. Emmerson and Hon. C. W. Robinson wanted the names recorded, and the question was debated for some time. Then the president's ruling that the record must not be taken was challenged, and the names had to be called to sustain his ruling. New Brunswick delegates accused Halifax of packing the meeting this morning.

The board unanimously approved of the all-red line project, demanding the fastest service possible to cross the Atlantic, and adopted a resolution favoring the appointment of an Atlantic fisheries board. George E. Hughes of Charlottetown was elected president.

## PRANCING HORSES CAUSE PANIC AT THE FUNERAL

Thousands in Wild Scramble for Safety During the London Procession.

LONDON, Aug. 21.—(Special.)—A serious panic among the thousands who watched to-day's funeral of the five victims occurred on Dundas-street, and several women were bruised and cut.

Just in front of the scene of the fatal fire, horses attached to a carriage about halfway in the line following the hearse containing Chief Clark shield at the debris. The driver flicked one with his whip and they began to rear.

In a moment there was a rush among the crowd to get away, and three blocks the panic spread. Everybody was in a wild scramble to get away, and to seek refuge in doorways. At the corner of Market-lane the crush was most severe.

One woman, Mrs. Gale, had her head badly cut and required medical attention and there is a list of several others slightly injured. Several plate-glass windows were broken.

Another unfortunate occurrence marked the course of the procession on Dundas-street hill, when the team to the carriage behind the hearse bolted for some distance, but was stopped before reaching the bridge.

## B.C. TIMBER DEALS.

New York and Tennessee Capitalists Are Making Investments.

VANCOUVER, Aug. 21.—(Special.)—New York capitalists have purchased sixteen thousand acres of cedar timber limits on the northeast side of Vancouver Island. They will pay three hundred thousand dollars and will establish a logging camp this fall and may erect sawmills.

Another lumber deal to-day was that of James and Somerville of Memphis, Tenn., who have purchased three tracts aggregating twenty thousand acres between Jarvis Inlet and Grief Point. The deal aggregates about four hundred thousand dollars.

The first large mining deal of the new Ingenika gold fields was made public to-day. A concern in Vancouver has been formed called the Ingenika Placer Mining Company. It is supposed to work claims this winter, as water has prevented reaching bed rock this season. The problem of transportation by pack horses is a large one. There are now two hundred men in camp, and twenty miles have been staked. One man working alone recently cleaned up four ounces of gold in three days.

## HOLLAND HASN'T DECIDED.

Will Await Report of Evicted Consul Before Starting After Castro.

THE HAGUE, Aug. 21.—Holland's action against Venezuela and the text of her note to President Castro will depend largely upon the reports M. de Reus, former Dutch minister to Venezuela, who recently was expelled by President Castro, makes to the government. He is expected to arrive here next Monday. M. Van Swinderen, minister of foreign affairs, will consult with M. de Reus before the government takes further steps in the matter. The ex-minister's arrival is eagerly awaited here.

The press and public of the Netherlands take the Venezuelan affair most calmly. Naval officers are most interested in it, and express pleasure at the possibility of seeing active service. The government, however, thinks there is yet a chance that the difficulty may be patched up by diplomacy.

A blockade of the Venezuelan coast, if it is undertaken, will not be started for some time, because the adoption of punitive measures will depend upon the tenor of President Castro's reply to Holland's representations.

## FROST CAN'T HURT.

Crop Too Far Advanced Now—Yield Will Be Large.

WINNIPEG, Aug. 21.—Crop reports continue to come in of a very favorable character.

In a number of the most important districts wheat cutting is practically finished and threshing started. In fact shipments have already come forward and show a splendid milling quality.

As 50 per cent. of the wheat is now out and in stock and at least 30 per cent is standing ripe and ready for the binder, while the remainder is so far advanced that frost now cannot have any material effect either to yield or grade, it will readily be seen how little ground exists for any uneasiness with respect to the crop.

How far advanced some of the northern crops are may be understood when it was announced yesterday that threshing had started at Langman and Radisson in Northern Saskatchewan.

Selected and experienced men sent out as special crop correspondents continue to send in reports that would indicate an even larger total yield than any figures yet named by the grain dealers or crop experts.

How far advanced some of the northern crops are may be understood when it was announced yesterday that threshing had started at Langman and Radisson in Northern Saskatchewan.

## BUBONIC PLAGUE AT FRISCO.

VANCOUVER, B.C., Aug. 21.—(Special.)—News reached the health department to-day that ten new cases of "bubonic plague" have broken out in San Francisco during the past week. Against American towns have established an indefinite quarantine against San Francisco.

Lloyd-George Talks Insurance. BERLIN, Aug. 21.—The meeting to-day between David Lloyd-George, chancellor of the British exchequer, and Dr. Bethmann-Hollweg, imperial minister of the interior, as far as is known, passed off without reference being made to the question of naval armaments.

A well-informed personage told the Associated Press this evening that the conference was confined entirely to old-age insurance.

## NEW YORK TO PARIS BY Wireless Phone in Two Years.

NEW YORK, Aug. 21.—Within two years this city will be in wireless telegraphic communication with Paris, or some other European capital, it is the confident expectation of the De Forest Radio Telephone Company, which has entered into a contract with Metropolitan Life Insurance Company for the use of its new 700-foot tower at No. 1 Madison avenue, where the wireless apparatus is to be installed.

In the Eiffel Tower in Paris, at a height of 300 feet, apparatus is being slightly from that used in the United States will receive the vibrations transmitted by the French and send messages from French soil to this country, if the plan succeeds.

## EFFECTS OF THE STRIKE ARE APPARENT IN WEST

Trains Reported to Be Running Late and Ill-Equipped—Efforts to Hire Men.

WINNIPEG, Aug. 21.—(Special.)—Jas. McVety, representing the striking mechanics, said to The World to-day "The untruthfulness of the inspired articles written in connection with the strike situation on the Canadian Pacific is daily becoming more apparent to people familiar with the train service."

"Passenger trains are invariably arriving from one to nine hours late, and are being run without proper inspection and in some instances without water for the passengers to drink. Shippers are complaining of live stock and freight being unnecessarily delayed in transit, an instance being cited of a car of horses being on the road for five days and six nights coming from Sudbury, Ont., to Winnipeg."

"The company are making strenuous efforts to secure men. The office of the superintendent of motive power has been turned into an employment office and a lunch counter, and all available men are hired, fed and then whisked away to the shops or motor cars in charge of detectives."

"The strikers have the situation well in hand and on one occasion have protected the company's property from lawless foreign sympathizers, who had made arrangements to burn part of the works."

## Refused to Draw August Pay.

Both sides are now claiming that the C.P.R. strike is going their way. A small number of strikers returned to work to-day, and a hundred more mechanics were secured by the company.

But the main body of strikers affirm they are not worried by such developments and that they still control the situation.

The company to-day issued notices to the men to call and draw their August pay. The union, however, instructed the men not to do so, and most of them obeyed the orders. This seems to have been done to support the claim that as long as the men are on the pay lists, they are employees of the company.

The company allege the shops now have enough car men, but that they require a number of metal workers.

The company announce that the strike is not interfering with the running of trains and they do not anticipate any trouble in moving the harvest crops.

Bitter Struggle at West Toronto. The address of the president of the C.P.R. to the conference held yesterday morning between J. W. Leonard, manager for eastern lines, and General Superintendent O'Brien and other officials, a pre-arranged affair, a sort of follow up on the manager's inspection of the strike centres, or was it the natural anxiety of the president to find out just what are the actual strike conditions in this division?

The men think it was all arranged and that his presence was to give countenance to any tactics Mr. Leonard might care to suggest. One thing is certain and that is, that since the strike is being waged with vigor, the men from the West Toronto shops back to the city and vice-versa each night morning, and any additional strike-breakers will thus be enabled to do their work.

The men realize that the company has decided to fight to the bitter end now, and they themselves will do all they can to reach a good many men, who would have been very difficult of approach under the conditions existing up to the present.

About twenty men were shipped into the shops at West Toronto by the company yesterday. They were mostly Americans, hailing from Detroit and Buffalo. There are a few professional strike-breakers from the Erie and Santa Fe Roads among the workers there, but these men, while acting as fillers of the ranks, are not to be trusted.

They are members of gangs kept up by a fund in Chicago, said a striker yesterday. The different railway companies pay these fellows a dollar a day and they make their headquarters at the Planters' Hotel. When a strike is called these fellows are shipped to the spot affected at once. That is why they are here now.

## MONTREAL'S FERNIE FUND.

Amount Subscribed Thru the City Totaled \$15.

MONTREAL, Aug. 21.—(Special.)—It is now admitted that the city's subscription list towards the relief of the Fernie fire sufferers has proved a dead failure.

In the first place the charter prevented the aldermen from voting a dollar for each purpose, and the aldermen took the cue and handed in nothing themselves, tho it appears two aldermen contributed to the board of trade fund.

Two citizens sent in a sum of \$15 in reply to a public notice that subscribers would be received from citizens in the city hall. But as the days flew by it became more and more evident the money from the man in the street was going to the board of trade fund, which body has already forwarded \$8000 to Fernie.

The city then decided to close its list, and handed over the \$15 to the board of trade.

## Justice in Taxation.

DES MOINES, Ia., Aug. 21.—Comparing the attitude of the two dominant parties on the tariff question, William J. Bryan, Democratic candidate for the presidency, to-night, before a vast audience, fired the first gun in the campaign.

"The whole aim of our party," he said, in summarizing, "is to procure justice in taxation. We believe that each individual should contribute to the support of the government in proportion to the benefits which he receives under protection government. We believe that a revenue tariff, approached gradually, according to the plan laid down in our platform, will equalize the burdens of taxation and that the addition of an income tax will make taxation still more equitable."

"If the Republican party is to have the support of the people who find a pecuniary profit in the exercise of the taxing power, as a private asset in their business, we ought to have the support of that large majority of the people who produce the nation's wealth in time of peace, protect the nation's flag in time of war, and ask for nothing from the government but even-handed justice."

Mr. Bryan left Des Moines late to-night for Chicago.

## WELCOME OF AUSTRALIA TO THE TOURING FLEET EXCELS EVEN FRISCO'S

Remarkable Enthusiasm Aroused at Sydney, Where 500,000 People Assisted in the Reception to the U. S. Sailors.

SYDNEY, N.S.W., Aug. 21.—Amid scenes of enthusiasm rarely if ever before equalled in an Australian city, Rear-Admirals Sperry, Schrader, Wainwright and Emery, with their staffs and two thousand blue-jackets and marines of the American fleet, made their first official landing on Australian soil to-day, and the Australian-American entente was resumed where it left off at Auckland, New Zealand.

Rear-Admiral Sperry and the accompanying officers of the American warships landed this morning at Farm Cove, where they were formally received by Lord Northcote, the governor-general, Alfred Deakin, premier of commonwealth; the lord mayor of Sydney and the aldermen and the principal officials of New South Wales.

An enormous crowd of sightseers thronged the landing and enthusiastically cheered the visitors.

Formality was laid aside in the official welcome, the authorities of Sydney and the commonwealth greeting the visitors with every expression of kinship and good will, voicing the unanimous sentiment in Australia that the American navy is a kindly neighbor and that the interests are identical in the Pacific.

The American rear-admirals headed the parade, riding in carriages with the lord mayor and other dignitaries of the city and commonwealth, and were received on every hand by salutes of cheers by spectators who thronged the line of march.

Following the big parade there was a public reception to the officers and men of the fleet in the Domain after luncheon was served, both of which functions were attended by great throngs of residents eager to show their friendship for the visitors.

The local press to-day reflects the general feeling here, that American sea power adds the security of Australian interests in the Pacific. The Daily Telegraph says:

"The commonwealth's development is made apparent when considered against the grim background of the emergence from oriental seclusion. It is palpably a country not to be deserted, and therefore to be protected, and thus to be preserved to the race possessing it. But not events thrown Australia into silhouette prominence, the United States would not have sent the fleet here. It has done so in recognition of the fact that Australia is destined to play a notable part in the theatre of the Pacific."

The Telegraph, referring to Rear-Admiral Evans' advocacy of the two ocean standard policy, says: "There is no visible European peril, but any danger might happen on the Asiatic side. The probable growth of the Asiatic danger cannot be ignored. The voyage is plain intimation that the United States is not to be bluffed out of her rights on this side or caught unprepared for serious emergency."

It is estimated that crowds witnessed the fleet's arrival and thronging the streets here exceeded 500,000. It is no exaggeration to say that the reception exceeds anything in the history of the fleet's world cruise, excelling even the welcome at San Francisco.

The vessels of the fleet were illuminated last night, creating a brilliant spectacle. Until midnight the streets were as densely crowded as in New York on election night. Block after block was lined with white-washed columns, surmounted by eagles and imperial crowns. A large replica of the Statue of Liberty was erected by The Daily Telegraph.

The welcome the American Fleet, is displayed on the postoffice. Business hours were suspended, and the city was in a state of jubilation.

There were scenes of enthusiasm at the theatres last night. "The Star Spangled Banner" being lustily sung by the entire audience at a performance of "The Red Mill."

At the State Banquet. The state banquet given by Sir Harry Lawson in the town hall was a brilliant affair. There were upwards of 1000 guests, and the balconies were thronged with ladies. Charles G. Wade, the lord mayor, presided, assisted by Alfred Deakin, the prime minister of the commonwealth, made a striking address of welcome.

When Admiral Sperry arose and reiterated his former statement of the indebtedness of the United States navy to the fleet, the audience rose to its feet.

The city then decided to close its list, and handed over the \$15 to the board of trade.

## TERRIBLE VENGEANCE BY REVOLUTIONISTS

Bombs Thrown Thru Windows and Shots Fired at Family—Finished in Hospital.

ST. PETERSBURG, Aug. 21.—News has reached this city of a terrible vengeance taken by the revolutionists of Turkhova, Yekaterinoslav Province, upon a Jewish family named Edelstein, who were accused of giving information to the authorities regarding the activities of the agitators.

They visited the Edelstein house at night and threw bombs thru the windows. They then opened on the members of the family with revolvers and shot to death the father, a daughter, a woman guest and her child. The mother, a son-in-law and two grandsons were

The trial on the Central Fire Station was told this afternoon at the time of the late Chief Clark's funeral. James Mulven and James McDonald, captured Thursday night by the police near the Valley Inn, were allowed to go free this morning by the magistrate, on the condition that they report to the chief of police at Toronto on their arrival there. Their interests were looked after by R. L. Gunn, secretary of the Niagara Grand Lodge. Three others captured at the same time were sent down for six months.

John Tranzillo, charged with extortion and threatening, was acquitted this morning.

The authorities of Hamilton and district are taking action to keep habitual drunkards from being served with drink.

A despatch from Port Huron says that John J. B. Smith, a Hamilton youth arrested on the charge of smuggling diamonds into the United States, will be released in a few days, and his mother will make an effort to have him placed in an asylum. It is alleged that he spent \$14,000 of a \$24,000 legacy in ten days.

Charles D. Gage, an old resident of Barton, died this morning.

It is about settled that the following will be appointed as members of the teaching staff of the Normal School: J. R. Seavey, instructor in painting and art; H. A. May Result in Australian Navy. LONDON, Aug. 21.—The Morning Post remarks that the visit of the United States fleet will encourage Australian statesmen to promote the naval policy they have at heart, namely, the creation of an Australian navy, which, says The Post, hitherto has met with the great opposition from the home government, which is anxious to impose on the colonies the duty of subsidizing the British navy.

When referring to the feeling of enthusiasm shown by Australia on the grand visit of the fleet, the United States and Australia for the exclusion of Asiatics, The Post declines to believe that there is any real resentment in Asia at the proposal by Anglo-Saxons of this traditionally Asiatic principle, and says:

"The only real danger of active enmity arising comes from the reckless assertion still sometimes made in this country, that the British policy is to 'invest upon the open door' in each Asiatic country the door to the colonies."

to the example of Great Britain, he was given an ovation. He said he knew no better training for American naval officers than that given by the British. He said that the British fleet's triumph at sea.

Something more than sentiment, he said, underlay the magnificent welcome given to the British fleet in Sydney. The ties of blood, community of interest and inter-marriage unite the American and British people, and these bonds would be everlasting.

Cablegrams Exchanged. OYSTER BAY, N.Y., Aug. 21.—Upon the arrival of the American fleet at Sydney, N.S.W., the president received the following telegram from the governor-general and government of the Commonwealth of Australia:

"The British Charge d'Affaires, Manchester, Mass.: Thru you I have just received the cordial and kindly message from the governor-general and government of the Commonwealth of Australia, and I desire to express in my turn to the governor-general and government, and thru them to the entire people of the mighty Commonwealth of Australia, the appreciation which the American people feel for their generous hospitality to the American fleet. The people of this republic hold in peculiar esteem and admiration the people of Australia, and it was a very real pleasure to the president and cabinet of the great republic to have the opportunity afforded by this demonstration of the night of American naval power to express their sincere admiration of your sailors and their esteem and affection for the country whose glorious flag they hope to see always floating beside that of their motherland."

The president sent this telegram in response:

"The British Charge d'Affaires, Manchester, Mass.: Thru you I have just received the cordial and kindly message from the governor-general and government of the Commonwealth of Australia, and I desire to express in my turn to the governor-general and government, and thru them to the entire people of the mighty Commonwealth of Australia, the appreciation which the American people feel for their generous hospitality to the American fleet. The people of this republic hold in peculiar esteem and admiration the people of Australia, and it was a very real pleasure to the president and cabinet of the great republic to have the opportunity afforded by this demonstration of the night of American naval power to express their sincere admiration of your sailors and their esteem and affection for the country whose glorious flag they hope to see always floating beside that of their motherland."

### PARKDALE RINK OPENS ITS DOORS

Popular Cowan-Avenue Resort Begins Again To-Day After a Rest of Three Months.

To-day is the day thousands of people in this city have been waiting for and if anyone imagines for a moment that they are not glad, just let him or her ask any of the number. For over three months Parkdale Roller Rink has been closed-to-day it reopens its doors.

Three months is a long time for one to deny himself the pleasures of a roller skate, but with the Cowan-avenue rink closed there was nothing else to do but wait. The long expected time has arrived and without exaggeration it is safe to say that the opening of the various theatres has not and will not be half so welcomed.

To-night the rink will present a very different appearance to what it did in May last. Then it was common property that its equal was not in Canada and but in few places in the States. But not satisfied with that, Mr. Ryan has had many improvements made. The interior has been entirely redecorated and is gay in a new coat of paint. The electric effects have been added to it will be in truth a new rink which throws open its doors.

Mr. Ryan has announced that during the present season he will be just as assiduous as in the past to who his patrons are. "None but the best," is his motto, and he is careful to see that it is carried out.

Roller skating, in Mr. Ryan's opinion, will be even more popular than in the past. Numerous enquiries have been made as to the date of the reopening and every indication points to another gay season.

There will be three seasons to-day, in the morning for beginners, and in the afternoon and evening. The rink is sure to be crowded, both by the skaters and by those who do not skate, but who like to listen to the latest musical hits dispensed by a capable band.

English Masterpieces to Be Shown at the Exhibition

1. Loaned by the artist-England's Frontier, by W. L. Wyllie, R.A.  
2. L'Entente Cordiale—The Arrival of the French Fleet at Cowes, by W. L. Wyllie, R.A.  
3. Loaned by Fine Arts Society, London—The Life Boat, by C. Napier Henry, A.R.A. This is one of the most examples by this noted marine painter.

4. Loaned by the artist—The Sentinels of England, by the Hon. Duff Tollemauche.  
The British painters who excel in the painting of the sea are very few and the artist of the present picture is now one of the leaders in this direction.

5. Lent by Chas. J. Bennett, Esq., 22—The Fringe of Mona's Isle, by Richard Wain, is one of the best examples of marine painting by a most promising painter, whose early death recently was widely lamented.

6. Loaned by the Corporation of Nottingham—After Three Days' Gale, by Edwin Ellis. The pier at West Hampeol is shown in the picture, and the sea is still surging up to the massive wall, but not now overstepping it. The painter of this picture died at an early age; he was a great student of the sea in its stormier aspects.

7. Loaned by the Corporation of Leeds—Scotland Forever, by Lady Butler. Charge of the Scots Greys at Waterloo. It was on the afternoon of the 18th June, 1815, that the 2nd Regiment, reduced to 200 men, broke into the centre of a column of the French which numbered three thousand. The instant the march of 100 miles across the welly in reserve on the left, charged furiously for their support, passing thru the ranks of the 2nd as best they could, inflicting a mortal wound on the French.

8. Loaned by Messrs. Henry Graves & Co., Ltd., 25, Abchurch Lane, London, W.C. It was on the night of Sunday, the 28th December, 1855, that Dr. Jameson, with 700 men, made the famous march of 100 miles across the welly in reserve on the left, charged furiously for their support, passing thru the ranks of the 2nd as best they could, inflicting a mortal wound on the French.

9. Loaned by the Corporation of Southport. The Boers already occupied the position, and were hurled back in confusion, for they did not know that cavalry were near.

## BROTHER IS GIVEN POST PUBLIC WANTED FOR HIM

Ewart Farquhar Has Another Bout  
With City Engineer and  
Appeals to Mayor.

Ex-Alt. Ewart Farquhar, whose controversies with the city works department have been numerous and productive of many letters from Mr. Farquhar, with pity replies from City Engineer Rust, has felt the call of duty once more.

He writes the mayor that on July 3 the property-owners of Wilton-crescent presented, almost unanimously, to Mr. Rust a requisition asking "that one of their number be appointed inspector in charge of the new pavement on that thoroughfare."

Mr. Farquhar, it appears, was so stung out, and as the work was about to begin, he broached the subject of his appointment in a letter to Mr. Rust on Aug. 7. The city engineer, perhaps with the idea that he was making a graceful concession, placed Mr. Farquhar's brother, Charles, on the job. On Aug. 11, however, Mr. Farquhar wrote again, asking Mr. Rust to explain why he was running counter to the request of the property-owners. The city engineer replied that he had informed Mr. Farquhar verbally of his decision, whereupon the latter wrote again asking a written explanation. Mr. Rust's rejoinder was that he "has never made a practice of giving reasons for not appointing men to positions in this department."

Mr. Farquhar is asking the board of control to decide whether property owners "have the right to protect their interests in local improvement work." The board of control is considering asking the Ontario Government to increase the number of police commissioners from three to five, so that it may be more representative of public opinion. The commission is now made up of the police magistrate, county judge and mayor, and the idea is that two members of the city council should be on the commission, and that the government should choose the fifth member.

The city engineer says that work cannot begin on the trunk sewer until a site for a sewage disposal plant has been determined upon. If the trunk sewer cannot be started during the coming winter, the problem of the unemployed will be seriously increased.

### ASK UP THE ROSE.

Ask of the rose, and mayhap she will tell thee,  
Whence are her secrets of fragrance and bloom;  
Ask if the rose hath not power to spell thee  
Charm to insure against sorrow and gloom.  
Old as the flowers that Nineveh cherished,  
New as the bud that at dawn may unfold,  
Kingdoms have tottered and dynasties perished,  
Life e'er lives in the heart of the rose.  
Ask of the rose, if mayhap she remember  
Aught of the mysteries Solomon knew;  
Ask what is sweetest from June to December,  
Ask why life's honey is tempered with rue.  
Surely the rose has the lore of the ages,  
Smiling alike for the bride and the bier;  
Waiting its perfume of myrror and roses,  
Thrilling at once to the smile and the tear.  
Ask of the rose if she sighs when she leaves us,  
Ask if she longs for the summer's return,  
Ask if it hurts when with briars she grieves us,  
Or, if when withered, she droops in a urn.  
Ask, the rose shall but laugh in thy face, dear,  
She is of summer, of morn or of noon;  
Born to shed light for a while in her place, here,  
Born to be lovely, yet fade away soon.  
Pluck the sweet rose when the dewdrops are shining,  
Give it to some one who calls thee a rose,  
Linger with him when the day is declining,  
Stroll where the brook with its lullaby flows.  
Ask of the rose, and mayhap she will tell thee  
What is her secret of youth and delight;  
Ask of the rose, if perchance she will spell thee  
Charm as she has heard from the winds in their flight.  
—Margaret E. Sangster, in Everywhere.

Some Few Escaped.  
"Oh, John," whispered the wife as she seized the morning paper, "see what that editor has done with the column of our musicale. He has placed it alongside the column of death notices. It's a shame. And we had such prominent people at the concert."  
"I suppose," said the husband wearily, "that the editor wishes to call attention to the fact that some people are more fortunate than others."—The Bohemian.

Mr. Snowball—Is ye' all got enny odd bullet-proof coats wot ah reads er-bout in de papah?  
Clother—Yes. Do you want one?  
Mr. Snowball—Fessah—dat is ef dey am razerproof, too.—Chicago News.

The first practical sewing machine was the invention of Elias Howe, which was patented in 1846.

Reached the Limit.  
It is supposed by travelers that the tipping system is universal. A Toronto man who visited England last summer appears to think that country is a nation tip-taker, and he relates some of his experiences.

"Well, I had tipped every man, from the swell gent who seemed to own the house of commons down to the herring lug who gumbled the wrong labels on my luggage, and I went into the waiting room to find myself surrounded by a host of my hands of every shade of English, and what do you think stared me in the face when I had finished? A placard saying 'Please tip the basin!'"—Manitoba Free Press.

The Brightest, Most Novel and Original Amusement Ever Offered.

"Cyclo-Dramatica" is the title coined to classify this new entertainment. It is a combination of Music, Drama, Poetry, Color and Impersonations of the World's Celebrities, who have qualified for a place in the Gallery of Fame.

The Great Men of the Earth shown in their own environment.

The evolution and progress of the times interestingly demonstrated.

As presented by MR. LEE in London, and the principal cities of Great Britain, and the Auditorium, Chicago.

"Mr. Lee's performance is original—the reception was most flattering."

Westminster Gazette, London.

Direction of W. M. WILKISON.

TAKEN TO NEW YORK.

Woman Bitten by Terrier to Be Treated at Pasture Institute.

Mrs. E. Sherwin, who was terribly bitten by a pet terrier, since discovered to have been seized with rabies, left yesterday afternoon for New York, where she will be treated at the Pasture Institute in the hope that hydrophobia might be prevented.

Mrs. Sherwin saw Dr. Sheard yesterday, and it was arranged that the city should advance \$200 for transportation and treatment.

The inoculation of guinea pigs under the direction of the provincial board of health with blood taken from the

animal proved that the dog was mad as the guinea pigs were seized with rabies and soon died.

The General Hospital authorities informed Dr. Sheard that Mrs. Sherwin's relations were not in a financial position to send the unfortunate woman to New York, and suggested that the city bear the expense, as it meant the saving of her life.

Murdered Man Identified.

CAMDEN, N.J., Aug. 21.—Positive identification of the body of the man who was found in an old trunk in a ravine near here by a party of picnickers, as that of Solomon J. Rosenberg, a wealthy merchant of Windber, Somerset County, Pennsylvania, was established to-day.

### INCLUDE CUP IN REGIMENTAL MATCHES

Military Unit in City so Certain of  
Landing World's Prize, They Are  
Arranging to Shoot for It

There is a corps in this city, we are informed, that has arranged to include The World's shooting cup in the prize list of the annual regimental rifle matches of the unit. At a meeting of the rifle committee, held during the week, the matter was discussed, and so sanguine were some of the members that the cup was coming to the corps that they wished there and then to include it in the prize list and draw up rules for the match.

This is not the only corps which feels sure that the cup is for them only. Almost every one of the local units have completed arrangements for the final struggle next week, and the organiza-

tion is so perfect in many cases, we are informed, that the officers and men know to within a few votes of the number that will stand to their credit on the 31st inst., when the competition closes.

### AUSTRALIAN WEATHERMAN

Says There Are More Violent Comotions Here Than There.

H. A. Hunt, chief of the meteorological service of Australia, called on Mr. Stupard at the observatory yesterday. Mr. Hunt landed at Vancouver. He goes from there to Washington, and will visit India, Java and the Philippines. In Australia the forecasts are made at a central bureau, which furnishes them to divisional points. The work is not as difficult, he says, in Australia as here, as there are fewer violent comotions. His mission is to ascertain what experts regard as an ideal weather apparatus.

### LOOTED SECRET TREASURE.

Jewels Stolen Worth Fifty Thousand Dollars—On the Trail.

NEW YORK, Aug. 21.—Jewels valued at more than \$50,000 have been stolen from a secret treasure room in the mansion of Commodore Frederick G. Bourne at Oakdale, Long Island. The treasure-room was built when the mansion was erected, and its existence was only known to the family.

### LIKE PROPHET ELIJAH HAD SPIRIT AND POWER

Rev. B. H. Stauffer Delivers Eulogy Over Body of Late Dr. Wild.

The remains of the late Rev. Dr. Wild were laid at rest in Mount Pleasant Cemetery yesterday. They were removed at noon from B. D. Humphrey's undertaking establishment to Bond-street Congregational Church, where during the noon hour they were viewed by fully one thousand people, many of whom sat under Dr. Wild's pulpit ministrations, 15 years ago.

The casket lay within the chancel railing and among the floral tributes that covered it were a pillow from the United Hebrew Zionists, a spray from Mrs. E. C. Currie and a harp from Doric Masonic Lodge. Among the clergymen noticed in the congregation were Rabbi Jacobs and Rev. Dr. Chambers.

At half-past two the members of Doric Lodge proceeded from the Masonic Temple. As they entered the church the pastor, Rev. Byron H. Stauffer, began the reading of the beautiful farewell service. The church was well filled. The musical service consisted of the hymn "Lead, Kindly Light," by the congregation; "Amen with Me," by Master Fred Blakey and two selections, unaccompanied, "The Christian's Good-night," and "Beyond the Smiling and the Weeping," by the male quartet, composed of John T. Fiddes, William Gillespie, H. A. Robb and C. V. Mulholland.

Rev. Mr. Stauffer delivered the eulogy of the dead, who in the flesh, he said, had the spirit and the power of Elijah and whose distinguishing characteristics were his kindness of heart, his love for men, for the unfortunate and for children. The keynote of everything Dr. Wild had said was that all men are brothers.

The preacher said on a future occasion he would preach a moral sermon. If a stranger should come into this church, said Mr. Stauffer, and see this outpouring of people at this mid-week hour, and be told that this was the funeral of an aged man who had for 15 years not preached here, thus having cut the tie of association and popularity, he would say, "What a great man this must have been!" It was fitting that the funeral should be from Bond-street Church and the body be before the pulpit from which Dr. Wild loved to speak. His fame was not effervescent. Mr. Stauffer had in his library a magazine of selections of the world's best sermons and in it are two by Dr. Wild—the only preacher so honored.

After quoting from some of the dead preacher's sermons, Mr. Stauffer said one would at once realize that it was the cause of Dr. Wild's power, that he could hold his congregations as he did for so many years. He had turned to the newspaper which he had bought he discarded upon, that he might get the key to the secret of the great power he wielded. And he had been impressed by the thought that in his sermon there was a crumb of comfort, a word to the weary and nearly always a word about the future life. Like Dr. Wild, he had been impressed by his optimism, for he was ever a hopeful man. He had the spirit of Elijah the Prophet—he was kind, his love for man, love for the unfortunate, love for children, were dominant.

Dr. Wild's last years were lonely. It was so with every minister of Christ. Every preacher must look ahead to the time when he can no longer charm his audiences, and he who takes up the cross must know that by and by he must stand aside.

After the eulogy the officers and members of Doric Lodge read the Masonic ritual, and the body was removed to the hearse, six brethren of Doric Lodge acting as pall-bearers. The cortege then proceeded to Mount Pleasant, where the beautiful Masonic ritual of committal was read by the Master of the lodge.

### CANADIAN MANUFACTURERS.

Unfair Treatment of Two Industries—Transportation Conditions.

This week's meeting of the executive of the Canadian Manufacturers' Association was largely devoted to putting the finishing touches on the arrangements for the annual convention next month at Montreal.

A feature of the convention will be the protest of the association against the destruction of the Canadian woolen industry by the tariff on raw wool, and the Dominion Government's refusal to grant what the association terms adequate protection.

The reports to the transportation committee indicate that increased railway facilities, and the ample tonnage at low rates, together with an earlier harvest, preclude the danger of any interference with general freight traffic by any serious grain blockade.

### In Front of Grand Stand

The program to be presented in front of the grand stand at the exhibition this year excels in variety and in high-class entertainment anything in the way of an hippodrome performance ever attempted anywhere at an open air exhibition. The program includes:

- Harness racing—Aug. 31, Sept. 1, 2 and 8.
- Horse judging—Sept. 4 to 10 inclusive.
- Review of prize animals—Sept. 11.
- Automobile racing—Sept. 12.
- Bicycle racing—Sept. 12.
- Powers' Hippodrome Elephants (Sept. 1 to 5)—There are four of them, and they do most comical and marvelous acts. They go thru a sham battle with the precision of trained soldiers, loading and firing cannon, carrying the dead and wounded from the field, fight hand to hand, or trunk to trunk rather, and with sword and bayonets; play musical instruments, play at keeping house, at laundrying, and, in short, do innumerable funny things.
- Herzog's Horses (Sept. 7 to 12)—For the second week Herzog's remarkable performing horses have been secured. There are ten of these docile animals, who perform in a manner that astonishes all beholders. They build pyramids, vault over each other's backs, wrestle and fight, fetch and bring articles at the word of command, dance the minuet and so on.
- Grand Lion Act—Lukens' Lion act, consisting of seven black-maned African lions—and a litter of baby lions—constituting one of the most marvelous acts ever given.
- International Aerial Marvels—The Four Lukens, the international aerial marvels, in the form of a team of four, perform feats that are absolutely new and astounding. The world's greatest acrobats.
- Big Grizzly Bears—Lukens' troupe of six performing black, brown and grizzly bears. The freaks of fun from the animal kingdom of America, performing side-splitting stunts that keep the auditors constantly roaring with laughter.
- Two Pair of Twins—The troupe known as The Marriott Twins, comprising one lady and three gentlemen, by using a horse, trap and bicycles, not only give the onlooker of its kind in the world, but furnish a real sensational novelty.
- Spessard's Bears—Spessard's trained bears will give a novel entertainment. No human acrobat could perform more knowingly or with greater ability than they do.
- Tetsuwar's Troupe of Japanese—Tetsuwar's famous troupe has been engaged, after much correspondence and at great expense. These Japanese acrobats are declared to be the cleverest that have ever appeared before the public. There are nine of them, ranging in age from a little tot of four years old to men of 35.
- Keno, Walsh and Melrose—Acrobats cut a big figure in the performance. First there appear Keno, Walsh and Melrose, three exceedingly clever people, who combine the acme of fun with remarkable agile talent.
- Nelson and Nelson—Two other comedy acrobats, during whose period on the stage there is not one dull or uninteresting moment. It would be hard to describe the strange antics on stilts of the pair.
- Work and Over—Work and Over are two equibristles that always elicit applause by the artistic manner in which they perform.
- A Real Thriller—A startling and sensational performance will be that of Marie La Blanche, in her death-defying ride thru space. This little French heroine is pronounced a wonder.
- Monte Myro Troupe—The Eagle Inn performance of the Monte Myro Troupe is fairly entitled to be called one of the rarest, cleverest and funniest pantomimic acts ever produced. From beginning to end it is nothing but boisterous laughter while the act is going on. The activity and antics of the actors equal anything ever seen.
- Alfred Yoder, King of the Bounding Wire—There is no man before the public who can equal Alfred Yoder in his evolutions have been added to, and the ride is given with a vim and dash that causes crowds to rise to their feet and to cheer and cheer again.
- Extras—Others acts equally celebrated and equally attractive are being negotiated for, and there is not the shadow of a doubt that the platform performance of 1906 of the Canadian

### Doctor's Book Free

To any man who will mail me this coupon I will send free (closely sealed) my finely illustrated book regarding the cause and cure of disease. This book is written in plain language, and explains many vices of your own home without the use of drugs. Don't spend another cent on doctors and their worthless medicines. Nature's remedy cures to stay cured. You should know about it. If you suffer from weakness of any kind, rheumatism, lame back, sciatica, lumbago, debility, drains, loss of power or stomach, kidney, liver or bowel troubles, you must not fail to get this book. Don't wait another minute.

Mr. Frank Vinnal, Hespeler, Ont., says: "Your Belt cured me completely of pain in the back and I would not be without it."

Alex. Colter, Blind River, Ont., says: "I have much pleasure in saying that I was cured by your Belt. I have not used it for over a year now and the pains in my chest have not returned, neither am I bothered with the severe pains in the stomach as formerly. I have recommended your Belt to others and wish you all the success you deserve."

The reason so many men neglect to use my Belt is that they fear it will fail like other things they have tried. Now, the security that I offer for him what I say it will do, if he will in turn give me reasonable security, that he will pay me when cured. Put aside these testimonials. Don't make any difference whether you allow that Dr. McLaughlin's Belt cured them or not. Give me reasonable security. I will arrange the Belt and send it to you and you can

# Unfailing Robust Health, Strength and Vigor is Regained.

Perfect Manhood. The man of nerve, of strong heart, iron nerves, good health, self-confidence and undaunted energy. The emblem of success, popular in every walk of life, respected and esteemed by all. Such is the manly man.

For forty years I have been making strong, vigorous men out of the purdest weaklings! A man comes to me weak, nervous, dependent and discouraged; with Drain, Losses, Impotency, Varicose, Rheumatism, Lame Back, Cerebral or Stomach Troubles. I give him my world-famous Dr. Sunden Electric Belt, with suspensory, absolutely free, to use for two months. Mind you, not one penny in advance or on deposit. A few nights' use convinces him that he has found the right remedy. It fills him with new life, joy, vigor and strength, and at the end of the time he is only too glad to pay me for the Belt and to recommend it to his friends.

This is the way I cure men. This is the way thousands every year regain their lost strength, without the slightest risk to themselves, for if I fail it costs you nothing whatever. You pay me only when cured, and in many cases the cost is only \$5.00. If you want to pay cash, full wholesale discount. My great success has brought forth many imitations of my Belt, but my great knowledge, gained by forty years' experience, to guide and advise my patients, is mine alone, and is given freely with the Belt. Be sure you get the genuine. Call to-day and take a Belt along which I send free, sealed, by mail. Or send for one and my two books on Electricity and its medical uses.

## QUOTATIONS ERRATIC ON WALL ST. MARKET

Transactions Smaller and Prices Barely Steady—Toronto Market Lacks Buoyancy.

World Office, Friday Evening, Aug. 21.

Brokers were not overburdened with orders today. Inactive operators who have followed the upward movement for a long time and have finally become convinced that they are losing money were small buyers in the market. On the whole domestic securities were somewhat difficult of sale. Long holders were inclined to take profits on several securities and the market to take the stocks with any too good a grace. The only aggressive buyer was in Mexican bonds, making a high price under the bidding up of the pool in the stock. The other foreign issues were "all and easy" and prices of these were only held steady by the small amount of outside realizing. The older speculative issues on the market were weak and inactive, and investment securities were decidedly dull.

Joseph says: "In the low priced railroad issues, the Western is the best. A warning: There is quite a substantial outstanding short interest in N. Y. Central, which will be forced to cover before dividend declaration at much higher prices. Take on some Union Pacific to hold for 165. Int. Pump is really good. Buy Rock Island issues and Atchafalpa."

It is stated on good authority that Canadian wheat growers are turning more and more to the idea that the best outlet for the product is via Gulf ports in the export trade and the tapping of the wheat fields of Canada by the Hill line in recent years has caused diversions of tonnage over the Great Northern, Burlington and the Missouri, Kansas & Texas to Galveston. For long periods of time the Northern export centres are in a state of blockade and lake navigation has a limited outlet, so the advantage of the southern outlet is obvious. A prominent firm says: "We strongly commend the purchase of K. T. common, for it is the most, the best property whose shares are selling at low prices."—Financial Bureau.

The stock market continues in the trading area as a whole. Special stocks are exceptions, there being independent moves both up and down. The active were clearly overbid, the rapid recovery of light transactions yesterday confirming to some extent our report of half a million shortage. The support of stocks met effective temporary support at lower trading limits. Except special issues they will probably meet checks at the upper levels where the gains will again be found. Those who acted on our suggestion yesterday morning to buy certain standard issues on declines during the day, did not neglect reasonable profits on the rally. There is no doubt that the manipulation is to foster short interest. The process may or may not involve lower prices for the general list. In buying or selling on dips or rallies respectively we would not neglect to use the stop protection; for the market is highly professional and as such is very changeable within a certain range.

Professionals generally were disposed to take the short side of the stock for a turn, but as soon as it was seen that there was no great demand for it at par, while they were able to get it below 99 there was very good support on the reaction, and toward noon the stock rallied to last night's closing, with the undertone very strong. There seems to be no question that the inside banking interests are actively helping along the bull movement in this stock, and it looks as if they intended to put it considerably higher. While we are not bullish, but are rather bearish on the market as a whole, we would advise great caution in going

Chief of Southern Pacific and believe the better chance for profit is on the long side of it, by buying on the breaks. Ballard & De Cordova bought 5000 shares of Steel common today and E. H. Norton also bought; Guthrie & Co., and Tate & Hayes were among the sellers. Notwithstanding the good support that the bulls say that steel is having, we believe it will sell a good many points lower before it advances very much and are inclined to believe that the support is of a phantom character. The truth of the matter with Steel common is that it was pulled away out of reason, and business conditions are not showing any evidence of picking up to such extent as to warrant the advanced prices for the stock. Professionals are gunning for weak spots in the market and besides the Rock Island shares uncovered a considerable bull account in Wisconsin Central. The failure of the market generally to respond to such aggressive strength as that shown by Southern Pacific leads us to place more reliance in the bullish side of the market on account of this specified weakness and that are disclosed. We believe the Hill stocks, Reading, St. Paul, New York Central, the whole metal group will go considerably lower.—Town Topics.

Charles Head &amp; Co. to R. R. Bondard.

There was a mixed opening this morning and sentiment was confused and erratic. The large bear account was evident from the demand for stocks, causing New York Central to look at a small rate and others at 1-2 to 1 per cent. interest. London was weak and the demand for the early sales were generally heavy and lower. Smelters were weak at a decline of two points. Rock Island issues broke to 29, a decline of 3 points. The Hill stocks were less active and not under the pressure that existed yesterday. One feature of the recent market is the large blocks of stocks traded in by certain houses who will buy or sell from five to fifty thousand shares in a single transaction. The Hill line, having matched orders on the other side showing the manipulative tactics employed. A good bank statement is looked for and preliminary estimates to a gain in cash of over \$5,000,000. It is possible the banks have been able to increase their loans as they have a limited reserve. A prominent firm apprehend a still further enlargement of surplus reserve. Buying of the investment character was reported on the declines and the supply of stocks offering is not over abundant. In the last half hour frantic efforts were made to break prices and Rock Island preferred was used as a hammer, 10,000 shares being sold down to 23, with, however, only temporary effect. It is not often the case that a stock can be depressed two to three points without sympathetically affecting other values, but in this instance Southern Pacific touched highest on record and other stocks suffered only slightly. Closing was generally but little changed from last night's prices.

Spader & Perkins to J. G. Beatty: The market sold off at the opening today in a manner indicating that yesterday's reaction was probably due largely to covering of short commitments, but probably also induced to a certain extent by the weakness prevailing in the cotton market. New York Central and Rock Island led in the downward movement, followed closely by Reading, and the northwest stocks, while most of the less active issues in both the railroad and industrial lists showed losses. The last night's close. Southern Pacific was strong, passing par in a new high record, and the supply of stocks showing considerable resistance to pressure, finally followed the decline. As yet the market gives no indication of any decided trend, and fluctuations, while rather sharp in specific cases, have on the whole been unimportant. We regard purchases on recession as most likely to be profitable. The market was irregular with heavy selling of the R. I. Frisco stocks and some weakness in Smelters, but rather firm front presented elsewhere. The leading stocks have resisted attempts to create a bear market, and

we think that purchases against the short interest should prove profitable. J. R. Heintz & Co. wired R. B. Holden:

The market opened active, but for the most part weak to-day. The market has continued to display remarkably puzzling characteristics as some groups of stocks are quite strong, at the same time other groups are weak but nevertheless there is a steady accumulation in progress, and we can but continue the recent advice of purchasing the better class of securities on all bear drives and altho the market may continue irregular in the immediate future, we firmly believe the next move of importance will be towards considerably higher prices.

## The Dominion Bank Pays Special Attention to Savings Accounts

## POOL WELL PROVIDED WITH FUNDS.

World Office, Friday Evening, Aug. 21.

Mexican Light & Power is supported by the strongest aggregation of financial interests in the Dominion. This syndicate has on previous occasions overridden public estimates of stock values by sheer force of money control, and is evidently doing so at the present time. This was the aggressive stock in the market to-day. Speculative buyers may make money following this pool, providing they get out prior to the inevitable reaction, but the reaction will not occur until a good-sized block of the stock is out in public hands. The local market was anything but buoyant to-day. Many securities are offering at reasonable prices, but the supply overtops the demand. The July bank statement of the chartered banks was satisfactory, inasmuch as there was an increase of over \$3,000,000 during the month in deposits of what are ordinarily considered as investment buyers' securities.

Breadstree's Trade Review.

Montreal reports say: There has been little change in the general business situation here during the past week.

The volume of business has not been up to general expectations and there seems to be little chance of improvement until well into the fall.

Collections are slow and the slow side. There has been some re-ordering of business in summer lines of dry goods, but it has not been heavy considering the favorable weather that has been experienced.

The grocery and hardware trades are moderately active in volume.

**YORK COUNTY and Suburbs**

World subscribers in the City of York County are requested to register complaints of carelessness or late delivery at The World Branch Office, 22 Dundas-street East, West Toronto, or The World Office, 53 Yonge-street, Toronto. Intending advertisers may also transact business at the West Toronto Office.

**GOOD STEADY PROGRESS IN ANNEXATION LINES**

Movement Well Under Way—Items of Interest in County and Suburbs.

The movement in the southeastern portion of York Township looking toward annexation grows apace, and when the railway and municipal board proceeds to adjudicate upon this matter in September it will be confronted with a mass of evidence confirming the desire of the ratepayers to come in, which ought speedily to consummate the union.

South of Danforth-avenue and eastward from Greenwood-avenue to East Toronto the people are anxious to come into the city. Even the cry of increased taxation (whether rightly charged or not) has no terrors for the residents in all that thickly congested rural district.

"It's not a question of taxes," said John Clark of 84 Coxwell-avenue last night, himself president of the Norfolk Horticultural Society, a large property owner and more than 20 years resident in that district; "it's not a question of taxes but of progress. We must not stand still, but go forward and in no way can we do so well as by securing modern comforts and necessities, such as fire protection, water and sewerage, and having something to show for lighting and many other added advantages."

"If our taxes are higher we will at least have something to show for them," said Edward Gillespie of the movement and who, with others, is making a personal house-to-house canvass of the district.

Mr. Gillespie cited the case of a number of families on Reid-avenue at the present time who pay at the rate of ten cents a year week or \$5.20 a year for the privilege of securing water from a nearby well.

As an instance of the enthusiasm of the east enders in the matter the petitioners show practically all the property owners on Hilda, Morley and Ashdale-avenues, while on Reid-avenue, between Queen and Danforth, only five refused to sign the petition out of probably 15. Even along Danforth-avenue and in the Todmorden and Chester districts sentiment is rapidly moving in the direction of union with the city, as is shown by the fact that one of the petitioners alone secured 75 names. That the work requires to be again over, thru some slight technicality, does not affect the result. From now on the canvass will be prosecuted with vigor.

Teamster Meets With Terrible Accident In

WEST TORONTO, Aug. 21.—While delivering a load of radiators this morning for the Richardson Cartage Company, Joseph Reid, a teamster, about years old, of 32 May-street, fell from the wagon and one of the wheels passed over his right arm crushing the bones so badly that amputation was found necessary.

**LEG CHOPPED TO PIECES.**

Joseph Charron, a Laborer, Loses Life by Falling Into Thresher.

CHATHAM, Aug. 21.—An unfortunate accident occurred on the Dubuque Farm, Dover Township, in which Jos. Charron, a laborer, lost his life in a horrible way.

Dubuque was threshing yesterday and he had a big gang of men helping. A man named MacIntyre was feeding the machine with half of the feed-board closed down. Charron got on top of the machine while it was yet running and began sweeping off the chaff and straw. He got too near the feed-board and the jarring of the machine caused his foot to slip and he fell into the feed hole.

His leg was dragged into the cylinder and the limb was completely chewed up. Before the machine could be stopped part of his body was also drawn in, tearing his abdomen.

Charron was about 40 years of age and has been in Canada only about a month. He formerly lived in River Rouge, Mich.

The government mail contract with the Ontario Line precludes the possibility of Queenstown being abandoned for nineteen years.

**FOAMING DELICIOUSNESS**

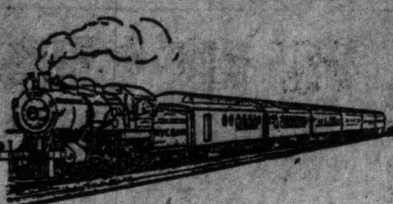

**Holliday's "East Kent" Ale**

Is not only deliciously refreshing, but it is, above all things, characterized by absolute pureness

An eminent analyst says of "East Kent" that it is "perfectly pure, containing only the necessary ingredients of a first-class ale," and also adds: "It is appetizing and strength-giving qualities render it exceedingly useful for medicinal purposes."

"EAST KENT" has been brewed in Guelf in the good old-fashioned English way by two generations of the Holliday family. They brew ale as it should be brewed. You will agree with this if you once try it. At all first-class liquor stores and hotels.

Thomas Noble, a striker at the Moffat Stone Works, Weston, who is charged with beating five strike-breakers, appeared in police court this morning and was remanded till the 28th on \$400 bail.

Members of the Industrial Workers of the World held a meeting to-night on a vacant lot on Dundas-street, near Vanhorn-street.

Toronto District Council Royal Templars of Temperance met to-night in the Templars' council-room in St. James' Hall.

The medical health officers' report at the board of health meeting to-night showed that there were nine cases of typhoid fever, one of scarlet fever and one case of diphtheria in town during the month of July. During the month of June there were twenty-seven cases of typhoid in West Toronto, a greater number than in the City of Toronto during the same month.

Many complaints have been made about the contractors for the removal of garbage not doing their duty. Residents of outlying districts in the city complain that the garbage men have not been seen for months.

When the question of the council paying Enoch Ward's salary as sanitary inspector during June and July was brought up to-night, Mayor Beird expressed himself as doubtful whether the amount asked for would be paid.

Athletic events and a tug of war contest were given at the excellent program which will be given at the grand picnic to-morrow (Saturday) afternoon and evening on the Keele estate, corner Keele and Runnells. The picnic will be held under the auspices of St. Cecilia's R. C. Church.

**MARKHAM ASSESSMENT.**

Rate in Township Does Not Look to Be Unduly High.

At the last meeting of the Markham Township Council the assessment roll submitted shows total value of \$2,469,776. The eastern half of the township represents a value of \$1,551,645, and the west, \$1,677,931. In addition to this Unionville, which is a police village, represents \$69,880 and Mount Joy, \$49,475.

Markham Township will this year contribute \$602,577 for the general purposes, \$107,922 for the industrial purposes, \$179.81 for court house purposes. The rate levied by the township is as follows: Township rate, \$2.04 on the dollar; Unionville police rate, \$9.614 at 3 mills; Unionville police rate, \$2.99 at 4 mills; Mount Joy, police rate, \$4.45 at 13 mills; and the public school, according to requisitions.

**BUTTONVILLE.**

Items of Interest About the Thrifty Little Village.

BUTTONVILLE, Aug. 21.—The fact that a cement bridge will be built over the stream here at a cost of \$2300 is welcome news. The old one has done yeoman service.

The fact that fifty acres of land about a mile south of the town, with only moderate good buildings and for \$4200 is for sale, has caused a great deal of interest. The property is owned by William Caldwell and has been sold to the value of \$1043. The price quoted is said to be \$350.

**THISTLETON.**

THISTLETON, Aug. 21.—A very successful meeting of the Women's Institute was held on Wednesday afternoon at the home of Mrs. A. McHarg "Cherryfield," Thistleton.

Miss Bertha Cameron gave a very interesting paper on pickles, which was ably discussed by the members, and instructive paper on "First Aid to the Sick and Injured," which was also ably discussed. The musical part of the program, which consisted of instrumental solos by Miss A. Wood and the singing of hymns, was well rendered. A pleasing feature of the afternoon was the sampling of pickles, some of the ladies brought. The next meeting will be held at the home of Miss A. Wood, "Ivyhouse," Thistleton.

Graham Brothers Load Big Shipment in Good Shape.

Thomas Graham of the well known firm of Graham Bros., Claremont, arrived home yesterday from Glasgow with one of the finest importations of Clydesdales brought to this country in a long time. Mr. Graham brought out seventeen Clydesdales, some of which were first prize winners in the Glasgow show. No serious mishap occurred in Scotland, and the animals were all landed in fine shape. Graham Bros., while benefiting themselves, have done much for Canada.

**KEW BEACH.**

Formal Induction of New Pastor Taken Place.

KEW BEACH, Aug. 21.—(Special).—The induction of Binnie S. Black to the pastorate of Kew Beach Presbyterian Church took place here to-night, and was attended by a large gathering of the members. Rev. Dr. Gilray presided, while Rev. Mr. McMillan was the preacher of the occasion. The address to the minister was given by Rev. Dr. Parsons, and that to the people by Rev. A. MacOllivary.

On Tuesday evening, Aug. 23, a social tea will be held and a reception tendered Mr. Black. On Sunday morning and evening he will occupy the pulpit.

The whole proceedings were marked by the greatest cordiality and warmth toward the incoming pastor, the latter of whom has already created a splendid impression. Under his pastorate the high standing hitherto occupied by Kew Beach Presbyterian Church under the ministrations of Rev. Mr. Bell will be fully maintained.

On Tuesday evening, Aug. 23, a social tea will be held and a reception tendered Mr. Black. On Sunday morning and evening he will occupy the pulpit.

**NORTH TORONTO.**

NORTH TORONTO, August 21.—Invitations have been issued by Mr. and Mrs. J. B. Angus of Merrickville, Ont., for the marriage of their eldest daughter, Margaret Annie, to John Blake Whaley, of this town. The wedding will take place at the residence of the bride's parents on Wednesday, September 2, at 5 p.m.

Alterations in connection with the Eglington Methodist Church are progressing with vigor under the charge of R. G. Kirby, who has been assigned that duty by the congregation. Some regret is expressed that the church extension brings the building nearer to the street, but this is considered inevitable. Many members of the congregation favored the purchase of the \$2000 organ at the low price of \$800, but Mr. Kirby, who is a musician of repute, has counselled a new organ at a cost of \$2000.

The executive committee of the North Toronto Ratepayers' Association will meet to-morrow (Saturday) evening at 8 p.m. at the home of Mrs. W. H. Soper, 11 King Street West, on Saturday, August 23.

Rev. Dr. Manson of Chicago, Ill., will preach in the Dear Park Presbyterian Church on Sunday.

Both the Anglican and Baptist mission churches have counselled a new organ at Bedford Park, are making good progress.

For the first time since the Unionville fire, the Unionville police will not meet to-morrow (Saturday) afternoon and evening on the Keele estate, corner Keele and Runnells. The picnic will be held under the auspices of St. Cecilia's R. C. Church.
