# CANADA MUST SHARE THE EMPIRE'S FUTURE

## Sir Wilfrid Laurier Declares United Country Calls for Action and Insists Local Navy Is Ideal Solution—Maclean (S. York) Believes Canadian Sentiment Would Endorse Direct Contribution.

OTTAWA, Nov. 15.—(Special.)—To-day may be said to mark an epoch in Canadian history. While the naval defence resolution of last session committed parliament to the principle of participation with Great Britain in the duty of defence of the empire, to-day saw the principle thoroughly established, and ready for embodiment.

It seems certain that both sides of parliament will come to an agreement upon a national naval defence policy, and that the definite part of the scheme will be the establishment of the beginnings of a Canadian navy, but there was also the strongly expressed desire that if Great Britain required immediate assistance, there should be a generous grant of money from the Canadian exchequer, pending the day when Canada can put a fleet upon the waters.

The speech making was notable. Sir Wilfrid Laurier's deliverance was rare in the annals of Canadian oratory. His patriotism was fervent and he vouchsafed for the chivalry of Quebec.

W. F. Maclean (S. York) dealt with many of the technical points in this momentous question, and at the close he was cheered by both sides of the house, an uncommon compliment. He appealed to Canadians to fulfil their duty to the empire, whether it be the giving of a contribution to Britain or the building of a navy, or both, and he prophesied that when the question is thoroughly discussed the Canadian nation would be united.

These remarkable speeches were delivered during the debate on the address in reply to the speech from the throne.

### Endorse the Navy.

Mr. Ercement of Berthier proposed the reply to the address in French. After confessing how difficult and delicate was the question of naval defence, he said: "Are we going to refuse to assert their existence? Surely not, and this is the proud national sentiment which animated our statesmen in putting aside the proposals of those who would prefer a direct contribution to the imperial marine and to adopt a purely Canadian policy."

Mr. Kye of Richmond, N.S., seconded the address. Harking back to the naval defence resolution, which he had subscribed to last year, he said he was then somewhat in a haze as to what the exact policy should be, but he had found that Lord Chas. Bessford had pronounced that the best way for the Dominion to take part in defending themselves was to make plans for defending themselves. He was therefore pleased to see that the government had made a practical move. A cash contribution savored of feudalism.

### Omissions from the Speech.

R. L. Borden noted that there were one or two matters of national importance not referred to in the speech of his excellency. One of these was public expenditure. He had received some figures some time ago which he did not have time to correct, until he had verified them from the public accounts. During the last ten years of the Conservative administration the revenue from the people was \$71,000,000, whereas during the last ten years of the Liberal administration the gross revenue was \$82,500,000. When the Liberals came to power in 1896, the public debt amounted to \$35,000,000. Instead of wiping this out with the remarkable additional revenue received, there was an increased indebtedness of \$50,000,000 to the public debt. There had been the expenditure of course of \$38,000,000 for the National Transcontinental Railway and the Quebec bridge, but even there had been an addition to the national debt. Besides, there was from 100 to 150 millions remaining to be expended on that same undertaking. There had been no reference either to the probable date of the completion of the N. T. R., or of the Quebec bridge.

There was also no reference to the waterways treaty. He still adhered to the view that this treaty ought not to have been entered into without being made subject to ratification by the parliament of Canada. Nor was any reference to the premier's famous resolution of 1907, calling for an all-red ocean line. Yet that resolution had been approved by the Canadian parliament.

### Danger in French Treaty.

There was a reference, however, to the French commercial treaty. He would call the attention of the house to the new United States tariff, which provided in addition to the duty levied on all goods from foreign countries, there would be an additional 2 per cent. ad valorem unless the president came to the conclusion that where

### Premier's Defence Of Navy Program

If the British nation is to remain as strong as it is to-day, it will not be by the daughter nations all revolving as satellites around the mother country, but by allowing every daughter nation to develop itself to the full extent of its power, so that it may add strength to the whole. If we have to organize a naval force, we are growing as a nation. It is the penalty of becoming a nation. So long as we enjoy the rights and privileges of British citizenship, so long we must, we shall, we will assume and accept all the responsibilities that appertain to that position.

United States had reciprocal and fair treatment from these countries. Unless the precedent came to this conclusion, after studying the Franco-Canadian trade treaty, every export from Canada to the U. S. would have an additional 15 per cent. duty put on it. In the last three years imports from France were \$24,798,756, and the imports from the United States \$46,624,404, while exports from France were \$6,292,400 and to the States \$285,148,337. A consideration of the French treaty would therefore involve matters of serious import to Canada.

Turning to the question of naval defence, Mr. Borden said he did not propose to discuss it until the government had signified its policy. Some Liberal journalists had said that he was entirely in favor of the government proposal. If they argued that he approved of the statements of certain cabinet ministers, they were entirely wrong. He neither approved or disapproved. Let the government bring down its message.

Mr. Borden concluded with a reference to the appointment of Hon. Maclean as minister of the marine. The premier had gone outside the house for his minister.

### Sir Wilfrid's Reply.

Sir Wilfrid Laurier said he would not discuss the question of public ex-

penditure, further than to say that it was an easy task now for the minister of finance to get money from the public, but Mr. Foster in his day was failing money from an impoverished people. To-day the people were contented and happy. The question of the National Transcontinental he would leave to Hon. Mr. Graham. As to the Franco treaty, there was nothing, in his view, that could be construed as discrimination against the United States.

The premier observed that Mr. Borden did not discuss the question of naval defence. There was no secrecy regarding their proposals, as Mr. Monk had stated, and the papers would be brought down on Wednesday of this week. He noticed on the opposition side that the demon was among them. The policy of resolution of last year was not a happy family, but it was not the demon. The policy of organizing a Canadian navy service to assist in maintaining the supremacy of Great Britain. The link resolution passed last session, Mr. Borden said, had hardly become a link. There were certain whisperings, which soon became murmurings, in the opposition rank by members who thought it was not gone far enough. Up to the present time, however, the leaders of the opposition had stood manfully by their guns.

"But behind them are some young blood who are clamoring for something spectacular," said the premier. Among them was Mr. McGrath of Medicine Hat, who at least had the courage of his convictions. Mr. McGrath said that nothing would suit him but the contribution of such an amount as at least now at the parting of the ways (Alberta) and Mr. Lake (Qu'Appelle) were reported to agree with Mr. McGrath, while there were a good many others who were not so ready to vote for the resolution and now asked for something more.

Sir Wilfrid reminded the house that the question was thoroughly considered last year and that a unanimous decision was reached. The resolution adopted by the house, in form and in substance, was that the government should defend by the colonial conference in 1902. When the resolution of 1902 was agreed to, the government was then taken to task by a certain section

Continued on Page 9.

## The Parting of the Ways Loyalty Binds to Britain

### Will Be No Thought of Avoiding Responsibilities—Money Contribution and Navy, if Needed, Would Be Sanctioned by the People.

Some reference to the late Dr. Wilfrid McIntyre's statement having been made by Mr. Borden and the premier, W. F. Maclean (S. York) supplemented these by paying a substantial tribute to his public conduct, reminding the house that last session, when he had raised the question of capitalization of the C. P. R., he was supported by Dr. McIntyre and J. G. Turner. As evidence of the result of the attitude of these three in the house of commons, Mr. Maclean read an extract from London Truth, which said that because of it, the C. P. R. had been forced to put their stock upon the market at \$125, instead of \$100, as was intended and to-day, therefore, because they had raised their voices against a capitalization in connection with the C. P. R. that was against the public interest, the C. P. R. in spite of itself, had \$7,500,000 in its treasury for the building of branch lines in the Canadian west, if it chose to so employ that money.

"If there were more men from the west," said Mr. Maclean, "who would stand up in the house as that honorable gentleman did, on that occasion, there would be better treatment for the farmers of the west in regard to the transportation question."

### The Actual Situation.

Upon the question of naval defence, Mr. Maclean made a lengthy address. "I want to get the house down to the actual situation," he began, "especially in view of statements that have been made on a recent occasion by members of this house, and statements that are now being made in the press by correspondents, who in some way seem to think that Canada has no duty to perform in this matter. I wish to put in a plea for the very fullest discussion of this question. There must be freedom of discussion. Every side must be heard, every province must be heard, every citizen of Canada must be heard, on so important a matter, but I do trust—and I am confident—that out of this discussion will come a policy upon which the whole of the Canadian nation can be united. I believe that when we come to our final action, it will be the action of a united nation."

Mr. Maclean went on to discuss a few of the basic principles of the situation. The first of these had been admitted by the premier and the leader of the opposition. Canada was an integral portion of the British Empire. Many people seemed to lose this point, but the point could be established by the British North America Act, where the phrase occurred "federally united into one dominion, under the crown of the

### W. F. Maclean and the Navy

We are a creation of the Parliament of the United Kingdom and under the British Crown. As the mother country has called our attention to the parting of the ways, we are a part of the British Empire or not. We are a part of the British Empire, and this government giving money by a grant of money to help the mother country, and in establishing a navy.

United Kingdom of Great Britain and Ireland. . . . Be it therefore enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the lords, spiritual and temporal and commons.

### Under the British Crown.

"When you read some of these discussions that take place in the country, you discover," said Mr. Maclean, "that they evade the whole of the act—that we are a creation of the parliament of the United Kingdom, and that we are under the British crown." Every Canadian millman swore that he would bear true allegiance to his majesty, and every member of parliament took a similar oath. A very significant point was that the royal title of all our official documents read "Edward VII, by the Grace of God, of the United Kingdom of Great Britain and Ireland, and of the British Dominions beyond the Seas," etc.

War against Great Britain, therefore, meant war against Canada. Were the German Emperor to declare war against Great Britain to-morrow, it might be the policy of the German Emperor to have his ships in front of Halifax and on the way up the St. Lawrence to Quebec, just as the Japanese fleet destroyed the Russian fleet before an overt declaration of war was made. Canada was subject to any attack that Britain was subject to, and the people of this country should understand that they are exposed to the same hostilities as any other part of the empire may be subject to, and that it is their duty to be prepared to defend that empire, and in defence to defend themselves.

### The Daily Prayer.

But a more striking illustration of Mr. Maclean's argument was provided when he read a portion of the prayer used daily at the opening of the proceedings of parliament. It contains the political and religious creed of the great bulk of the people with Thy Most heartily we beseech with Thy favor to behind His Most Gracious

## THE BROKEN OARS

WILFRID: That's what comes of letting Brodeur and Doc. Borden fool with 'em.

## LABOR LEADERS TO SMASH THE UNIFORM RATE LOSE FREEDOM "SUGAR TRUST" FOR PHONES SATURDAY NOT YET

### Gompers, Mitchell and Morrison Compelled to Return to Washington to Begin Prison Terms for Con- tempt of Court.

Unless the attorneys engaged in the fight for the liberty of President Gompers, Vice-President Mitchell and Secretary Frank Morrison of the A. F. of L., at present under sentence of 12 months, 9 months and 6 months, respectively, for contempt of court, can discover some means to obtain a further extension of time, the labor leader and his colleagues will be compelled to return to Washington by Saturday morning next, to commence their terms of imprisonment.

During yesterday afternoon's session of the convention, President Gompers read a telegram from the labor attorneys, stating that the application for a stay in the issuance of the mandate to the supreme court for the district of Columbia, until Jan. 2, 1910, had been refused. Notice of appeal will, therefore, have to be given prior to Friday night next, as the mandate will be handed down on Saturday.

The telegram stated that the attorney for the Buck Stove Co. was willing to consent to a further adjournment of 15 days, a proposal which was refused by the court.

Not the least remarkable feature was the reception of the news by the convention. Those who had expected a violent outburst of declamation at the adverse decision of the court must have been surprised at the phlegmatic attitude of the delegates. It almost seemed as though they failed to realize the purport of the message, for scarcely a comment was made. Only one delegate found occasion to ask if all the resources of the labor lawyers had been exhausted, but to this pertinent question the president refused to give a definite answer. The smile crossed his features as he exchanged glances with his companion in misfortune, Secretary Morrison. It was not difficult to see that the telegram had proved more than a passing shock to the veteran leader. Immediately after making known its contents, he deputed Treasurer Lenson to the chair and after the meeting was adjourned, sent the following wire to his attorneys at Washington:

"Telegram announcing court's refusal to extend time received. Wire when we must put in appearance to save bail bond. We would like to remain in Toronto until close of federation's convention Saturday evening."

To the World President Gompers scouted the idea that he would not return promptly to the other side. The United States, he stated with pride, was his country, and as a citizen he was subject to its laws.

### Said to be Intention of Taft Administration—Sensational Developments Are Being Predicted.

NEW YORK, Nov. 15.—While the legal machinery of the government moves slowly the air of uncertainty which surrounds the so-called sugar fraud cases is interpreted by those who have followed the progress of corporation investigation in the United States to foreshadow an enquiry which may rank with the insurance upheaval of 1905.

Boston and Philadelphia were brought within the scope of the investigation to-day, with the report that the government would probably attempt to obtain back duties due on sugar in these cities, while the investigation went on in New York, with repeated rumors of reaching the "men higher up."

A Washington official is quoted as saying: "There will be nothing left of the trust when we get thru with it; we will get every dollar due; punish the guilty and show that the Taft administration can accomplish what the former one did not."

### WILL GET \$35,000 A YEAR J. P. Jones is Highly Valued by the Cement Mercers.

MONTREAL, Nov. 15.—(Special.)—It now transpires that J. P. Jones, late general manager of the Dominion Iron & Steel Co., will realize \$35,000 a year from the cement merger, and a five-year call on half a million shares of Cement common at 15.

### MERCY TEMPERS JUSTICE Victoria Firm Will Support Family of Defaulting Traveler.

VICTORIA, B.C., Nov. 15.—(Special.)—Charles Richards, traveller for Wilson Bros., whose shortages exceeded \$5000, pleaded guilty on two counts, and was sentenced to two years. The prosecuting firm asked specially for mercy, and will provide for his wife and family.

### COPPER MERGER RUMORS. New York, Nov. 15.—More detailed reports regarding the impending merger or agreement among the great copper producers, sent copper stocks to new heights for the year to-day.

There were denials aplenty of rumors that the merger negotiations had gone beyond the tentative stage. The rumored capitalization is placed at \$1,000,000,000.

### Moynihan in No Danger. DETROIT, Nov. 15.—(Special.)—The steamer James H. Moynihan, which ran aground on a reef in Lake Superior, is reported to be in comparatively safe condition, according to a message received by President Livingston of the Lake Carriers' Association.

### Will Mean Raising Price in Business Section, Manager Dunstan Tells Civic Com- mittee—Case to go to Commission.

It's all over so far as negotiations between the city and Bell Telephone Co., looking toward a reduction of phone rates in the suburban districts are concerned, and all that remains is for the city to press its application before the railway commission at Ottawa on Nov. 23.

Mayor Oliver and a sub-committee consisting of Ald. Church, Brodin, McEwen and H. H. Graham had a private conference with Manager K. J. Dunstan, lasting nearly two and a half hours, in the mayor's office yesterday afternoon. After it was concluded his worship intimated that the company wasn't prepared to make any concessions in the rates charged West Toronto and other outlying sections unless the general standard of rates exacted was increased. He said that there would probably be no further conference with Mr. Dunstan, but that the committee would meet again this week to consider the situation in the light of information given by Mr. Dunstan.

### Mr. Dunstan Talked. "He certainly gave us a lot of information we never had before," said the mayor, who, while not inclined to go into details, allowed it to be inferred that Manager Dunstan had done nearly all the talking, while the committee sat and listened. It also appeared that while Mr. Dunstan was rather careful to avoid giving an inkling as to the net revenue derived from Toronto phone subscribers, he talked very freely about the heavy expenses of operation, laying special stress on the argument that the relative cost of operation to revenue increased as the number of users grew, instead of diminishing, as with other public service corporations, such as gas and electric light companies.

### Company's Claim. The whole line of Mr. Dunstan's argument was that the company was extraordinarily reasonable in its general charge of \$50 for business and \$30 for private phones, and that the only way in which the company could afford to lessen the charges to the people of Greater Toronto, who are paying as high as \$80 for business phones and \$50 for private lines, was by making the subscribers in the more central districts pay the difference.

The company's attitude was not unexpected and negotiations were entered into largely for the purpose of strengthening the city's application before the commission. The negotiations having fallen thru, the city is free to press its claim.

### Brampton Pastor for Ottawa. OTTAWA, Nov. 15.—That an invitation will be extended to Rev. J. Little, B.A., pastor of one of the Presbyterian churches at Brampton, Ont., to succeed Rev. Dr. W. D. Armstrong, pastor of St. Paul's Presbyterian Church here, is considered likely.

## MINES THAT ARE MAKING A NEW CAMP

### Astonishing Progress Made In Face of Natural Difficulties —Conditions as Revealed —By Personal Inspection.

GOWGANDA, Nov. 11.—(By the Man on the Trail.)—While this little settlement, which by the courtesy of mining usage is called a city, is the financial centre and base of supplies for extensive and expanding mining operations, the mines themselves are several miles distant on the west side of the lake.

To inspect these properties it was necessary to arrange them in groups and to allot one day for the visit to each group. A gasoline launch was engaged and proved a rapid and effective means of transportation.

At the south end of the west shore of Lake Gowganda are located the south group of properties owned by the Bartlett Mines, the O'Kelly, the Walsh, which has just been acquired by British and Toronto investors; the Burke, Remey and several others. Directly south is the Hargreaves Lake belt, in which a number of discoveries have been made, and where Pittsburg men have acquired quite extensive interests.

The northerly group farther up the lake, includes the Mann-Ryan properties, owned largely by Toronto men; the Boyd-Gordon, in which Elmira, N. Y., and Buffalo interests control; Silvers, Limited, Gowganda Mines, Limited, and Gowganda Queen.

The Bartlett Mines also have four important claims in this section. One other progressive company, the Transcontinental, is in the locality, and to the west, near Spawning Lake, is the Thompson, owned largely by R. R. Ganney, M.L.A., on which an important strike was made a few weeks ago.

The central group of mines includes the Reeve-Doble, Hull, Kipper and Fairburn, and a number of other properties on which work is proceeding aggressively.

Shortly after daybreak the launch was speeding to the southerly group of mines, which were first selected for inspection.

### At the Bartlett Mines.

The south group of properties, owned by the Bartlett Mines, consisting of about 160 acres, are located about a quarter of a mile back from the shore. This company owns about \$900 acre in all. Four claims are situated at the north end of the exposure of diabase, which extends down the west side of the lake, and two other claims are on the long point of land extending far down the lake and almost opposite the landing by which access is gained to the Mann-Ryan and Boyd-Gordon properties.

It is on the south group of claims that the resources of the company have been mainly centered. The Bartlett Mines were discovered by F. A. Macintosh of Woodstock, and S. C. MacLaughlin of Orillia. It was in September, 1908, that Mr. Macintosh struck a remarkably rich vein of silver, showing for some distance on the surface four inches of silver, almost solid in its purity. Some days later a vein of similar enrichment was located. Sufficient work was also done on the north claims to uncover a large calcite vein, which presented possibilities that unquestionably added greatly to the value of their holdings. The sale of the properties was nevertheless almost wholly due to the silver veins already referred to, which were equal in value to the best veins discovered up to that time at Gowganda, and which compared very favorably with some of the richest discoveries at Cobalt.

In the face of natural handicaps due to lack of transportation facilities, the company set to work. During February and March, 1903, a splendid 12-drill compressor

Continued on Page 11.

## EXCLUSIVE HATS AT THE ORDINARY PRICE.

### Splendid for the Resident or the Visitor to Buy English Hats.

It is just a matter of duty that makes the American hat sell higher than in the United States, and likewise it is a question of the government tax that makes the price of an English hat in New York very steep. The well-dressed man in New York pays the excessive price for the London hat because he wants that particular style, coupled with quality. In Toronto the English hat comes to you as cheap as in England. Dineen is sole Canadian agent for some of the best makers of these goods, including Henry Heath, maker to His Majesty the King. Call at the showrooms, 140 Yonge-street, Toronto.

# Time for Furs Now

We have been experiencing some exceedingly mild weather for this time of the year, and, though it may seem strange, this weather has been a providential gift to us. Truth to tell, we were a little behind with our stock, principally because business just after the Fair and during October was exceedingly heavy. This last spell of warm weather has allowed us a chance to even more than catch up. We're now on sale such a selection of superb fur goods that our former attempts look almost tame.

There are splendid and complete lines in every good fur—all made from advance designs furnished us in Paris and New York.

You will find a positively exclusive collection of Alaska seal cub pelts in our showrooms, with a splendid assortment of garments made in this fur from Parisian models. The fur we sell is all London dyed.

Alaska Seal Coats from \$250 to \$700.

There was put into the showrooms yesterday, a fine assortment of Lynx and Fox Sets—natural and blue and black lynx and Canadian fox of different colors.

## Hamilton Happenings

**NOTICE TO HAMILTON SUBSCRIBERS**  
 Subscribers are requested to report any irregularity or delay in the delivery of their copy to Mr. J. S. Scott, agent, at this office, 17, 19, Arcade Building, Phone 1946.

## DEPUTATION TO OTTAWA TO GET WELLAND CANAL

Effort to Induce Govt. to Choose Grand River Route—Reported Discovery of a Lead Mine.

HAMILTON, Nov. 15.—(Special.)—In the event of the government deciding to build a new Welland Canal, Hamilton will make an effort to have it constructed on a route that will be of benefit to the city. The mayor and the chairmen of the various standing committees this afternoon decided to send a deputation to Ottawa to impress upon the government the advantages of the Grand River route. The deputation will consist of the mayor, the city engineer, and a number of prominent citizens. The city engineer recommended that a survey should be made. The Greater Hamilton Association and the Grand River Association are also sending deputations to Ottawa. While they were in session, the chairman also announced an agreement which will be submitted to the chairman.

**Barbers' Banquet.**  
 The Barbers' Union this evening tendered a complimentary banquet at the A. O. P. Hall to Frank K. Noschlag, Albany, president of the International Union of Barbers, and Jacob Fisher, Indiana, Treasurer. W. E. Klappetzky, the editor of the Hamilton Standard, was the guest of honor. The banquet was attended by about 100 members and friends. The evening was spent in singing and the reading of addresses. The banquet was a success.

**Not Yet, But Soon**  
 The Hamilton Steel & Iron Co. has been taken over by the Hamilton Steel & Iron Co. The new management is expected to be in operation soon. The company has been in operation for many years and has a good reputation. The new management is expected to continue the good work of the old management.

**Must Go to Jail**  
 Court Declines to Give A. F. of L. Leaders Time.  
 WASHINGTON, D.C., Nov. 15.—The court of appeals of the district of Columbia today denied application for a writ of habeas corpus made by counsel for Samuel Gompers, a John Mitchell and Frank Morrison, of the American Federation of Labor. The court held that the defendants were guilty of contempt, for a stay in the issuance of the mandate to the supreme court of the District of Columbia. The mandate will be handed down next Saturday.

**LORD GREY'S NEW SECRETARY.**  
 Lord Lansborough, who has just been appointed the most important secretary to the governor-general of Canada, is lieutenant-colonel of the Coldstream Guards. He has until now been serving on the staff of the King's brother, the Duke of Connaught, and succeeded to the family honors, which include a barony, a viscountcy and an earldom, about four years ago, when the Marquise de Fontenay in The New York Tribune. Up to that time he had been known as Lord Newton Butler, and it was as Lady Newton Butler that his wife achieved celebrity as one of the most beautiful women in London. Lord Lansborough's previous are all Irish. He has been elected representative peer of Ireland, and as such occupies a seat in the house of lords.

**Rejected Suitor Shoots Himself.**  
 DETROIT, Nov. 15.—(Special.)—Walter Staggs shot himself in Detroit because of a repulse administered by his sweetheart. The police found in Staggs' room a letter written last summer from London, St. Thomas and other parts of Ontario which Staggs visited. The bullet entered just behind the ear, but he may recover.

**Land Snaps.**  
 \$20000—AVENUE ROAD 'HILL; choice block of about 14 acres, all situated in a stone's throw recently sold close to \$6000 per acre. A subdivision proposition will more than double your money. Chance for a few days to secure it en bloc at the above price. Keep this fact in mind, that the city must grow north. Bentley, 34 Victoria. Phone Main 557.

**PROPERTIES FOR SALE.**  
 F. J. Watson & Co.'s List of Farms.  
 \$3500—12 ACRES, COOKSVILLE, ON Dundas-street, 15 miles from Toronto; 10 acres of fruit; balance all garden soil, and a 2-room house.  
 \$6500—2 ACRES NEAR ERIN, ON date, clay and sandy loam, well fenced, never been rented, well watered, bank barn, driving shed, large brick house, 2 1/2 miles from station, about half seeded down, 7 acres bush, good garden, about 1/2 acre, all office for further particulars, or for other properties near Toronto.

**WENTWORTH COUNTY FARMS.**  
 famous Niagara district; cannot be beaten in the world growing peaches, grapes, cherries, strawberries, apples in abundance; everything that man wants, exceeding in quantity, oranges, bananas. Farms suitable for raising fruit, grain, stock. Before purchasing write Mills & Hills, Land Dealers, Hamilton. 2647

**MANITOBA FARM FOR SALE.**  
 LARGE IMPROVED FARM, JOINING Seaside, Manitoba, or may take Ontario property in exchange; if suitable, Yonge-street preferred. Box 42, World, Toronto.

**FOR SALE.**  
 COW—YOUNG—JUST CALVED—8000 milkers, also calf. Leaving, must sell. Apply coach house, 3 Trillier-avenue, off King West.

**PILES.**  
 Dr. Chase's Ointment is a certain cure for piles. It is a certain cure for hemorrhoids and every form of piles. See testimonials in the press and in your neighbors' mouths. You can use it and be cured. Write to Dr. Chase, at all dealers or EDMANSON, BATES & Co., Toronto.

**DR. CHASE'S OINTMENT.**

## SOCIALIST SCORES PEERS AND PUBLICANS

Flashlights on the Sessions of the Parliament of Labor, Where Capital is Now the City of Toronto.

"We must not cease our efforts to bring every toiler within the beneficent fold of unionism." In this short, pregnant sentence, Pres. Sam Gompers placed in crystallized form the aims of the organization of which he is the supreme head. To that effect, is the work of everyone of these earnest delegates, representing hundreds of thousands of union men, attracted.

Nothing seems to escape the vigilance

**JOSEPH C. SKEMP**  
 General Secretary-Treasurer Brotherhood of Painters, Decorators and Paper Hangers of America.

rules of the A. F. of L. The Buffalo Trades and Labor Council was expelled and many single delegates were not allowed to take seats at the convention.

The fourth day was the banner day for oratorical effort. On that day the delegates listened to a series of speeches which indicated that the art of Cicerone finds many able exponents in the ranks of labor. Among the delegates are two Labor members from the mother of parliaments, and these in turn addressed their American brethren.

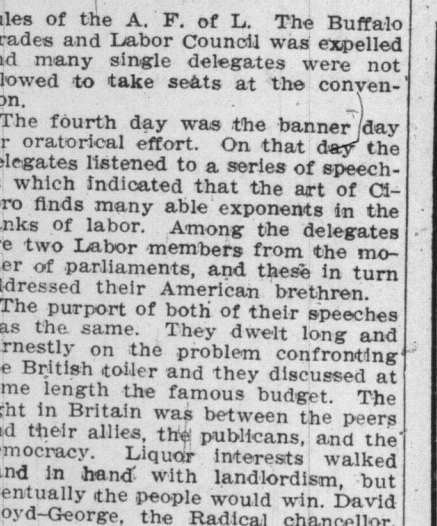

The purport of both of their speeches was the same. They dwelt long and earnestly on the problem confronting the British toiler and they discussed at some length the famous budget. The fight in Britain was between the peers and their allies, the publicans, and the democracy. Liquor interests walked hand in hand with landlordism, but eventually the people would win. David Lloyd-George, the Radical chancellor, was a twentieth century St. George, who would slay the dragon which had so long oppressed the land, and the people would come into their own. Moreover, the Socialist M. P. J. R. Clynes, foretold the doubling of the Labor membership in the house of commons at the next general election. The Canadian delegates took pains

of these zealous representatives of the toilers. Resolutions have been submitted by the score. Resolutions so wide apart as the one from the tailors that work be not taken home, and on the other hand, that a political movement the model of the British Labor parliamentary party be inaugurated.

On the opening day, President Gompers read his voluminous report which treated of every point of interest to the union workers. Probably the most interesting part of the report, and the one on which the labor leader laid the greatest emphasis, was the statement of the situation in which his and his colleagues, John Mitchell and Frank Morrison, were placed by the recent decision upholding the sentence imposed on them. But they were fighting for free speech and a free press, and were prepared to suffer martyrdom for that cause. The second day saw the disposal of many internal dissensions which have disturbed the serenity of organized labor during the past year. Union was reflected with union, and trade amalgamated with trade. But not always were questions settled so easily or so favorably to the applicants. Official disapproval, culminating in a sentence of outlawry, fell to the insubordinate electrical workers and shoe workers, who had transgressed the

to impress their colleagues with the reverence and respect in which the A. F. of L. is held by Canadian workers. Delegate J. Bancroft pointed proudly to the unmistakable proof of figures showing the growth of the Labor movement in Canada. The A. F. of L. was the first and last the Canadian workers' best friend.

Not the least interesting part of the meeting was the still, small, supplicating voice from far-off Sweden. Their speech delegate told the "free born" American toilers of conditions existing in Sweden, which savored of feudal days. He was there to ask for financial help to keep the flag of unionism flying in Scandinavia, and a committee was formed to see that he gets it. Mrs. Raymond Robins of Chicago delivered a speech on the women's side of unionism, and her clear delivery and well-handled facts were relished by her sterner brethren.

But so far the palm in oratory must be conceded to Rev. Charles Stelez, of Columbia County, who made an application to the Rev. Charles Stelez, a

**AT THE THEATRES**

**Royal Alexandra**  
"Going Some." A Schubert production, presented at the Royal Alexandra last night, is a comedy of college boys and cowboys, and it certainly brings these two not altogether inconspicuous elements into comfortable juxtaposition. The plot, if it can be called that, turns on the athletic rivalry between the Flying Heart and Contipelle Ranches situated in some unidentified province of New Mexico. The aviators, as it appears, were originally possessors of a phonograph of unequalled excellence, which musical reproduction, prior to the opening of the comedy, had been found won thru the prowess of the hundred yards champion of the hundred kilograms.

The Flying Heart Ranch has for its owner a Yale man with a promiscuous lot of college friends. Among them is the varsity head yeller, who poses as a champion sprinter in order to win the girl he loves, who, by the way, is a smart under. When the boys are smart under their defeat and the loss of their phonograph learn of his expected arrival they are agog to recover their property and he lends himself to the plan in the hope that the intercollegiate record sprinter will arrive in time to fill the bill. But the yeller has a rival in a Stanford University man who sows seeds of distrust in the excited cowboys and brings untold sufferings on the yeller. Finally the Stanford champion arrives on crutches, but in the end, thru none too reputable means, the phonograph returns and romance is satisfied.

In a comedy of this kind everything depends on the players, and the company makes good in amusing characterization. There is plenty of good, excellent play and a series of comic incidents which would make a worse comedy good. For there is a genuine story, eccentricity, and the tribulations of the "yeller" and his so-called trainer are humorous enough to drive a bull care away. The weight of the comedy rests on the Jones, who as "Larry" Glass kept the fun going in great shape and showed his ability in a comical and melodramatic way. The "yeller" is ably assisted and Aubrey Beattie as the Stanford man played with effective and efficient representations, and Misses Kate McLaurin, June Mathis, Laura Lemmers and Crosby Little are certainly presented in a way that comedy was prettily staged, and if the amusement last night is any criterion should be very popular. It will be given during the week with the usual necessities.

**At the Princess.**  
Van Allen's Wife.

Miss Fannie Ward carries a heavy load for the ordinary playgoer in "Van Allen's Wife," in which she appeared at the Princess last night, in the star part. The play is a melodrama, with a plot, on the lines which Charles Dillingham presented last night, and with his elaborate characterization and whimsical humor, made feasible. But to be proved and harrowed emotionally thru four distracting acts, while all the changes are rung upon hoarse voices, villainous cynicism, false love, parental neglect, orphaned misery, matrimonial treachery, maternal jealousy, infantile pathos and calculating lechery, be-drugged senses, black murder and other crimes too numerous to mention, is almost too much for the playgoer. Fortunately there are some lighter aspects to the lugubrious story. The spirit of Dickens hovers around the second act, where old Mr. Van Allen renders as his excuse for absence from home when he is visiting his son's home, that he is attending meetings of the Dickens Fellowship. This innocent deception was as unnecessary, however, as the rest of the plot, for his wife was as anxious to come to "Van Allen's Murders in the dark" as getting to "The Barrier" last week, this feature was quite in keeping, but when exactly the same situation turns up this

**A RUSH FOR XMAS STAMPS**  
Large Distributions of Xmas Stamps This Week Throughout the Dominion—Commercial Travelers Take Hold With Characteristic Energy.

The first issue of one million Christmas stamps, on behalf of the Muskoka Free Hospital for Consumptives, gives promise of being quickly taken up. This week supplies are being sent to the various Chapters of the Daughters of the Empire throughout the Dominion and Circles of the King's Daughters. The members of these organizations disposed of a large number of stamps a year ago.

A hearing was given Mr. W. P. Gundy and Mr. J. S. Robertson before a meeting of commercial travelers on Saturday evening last in St. George's Hall. The travelers took hold of the proposition readily and supplies of stamps were placed in many hands before the meeting dispersed.

Just what this means in the sale of stamps between now and Christmas is illustrated in a telegram received at 9 o'clock yesterday morning from Mr. J. W. Whitely, a traveler, who left by an early morning train. He took with him a parcel of stamps obtained on Saturday last. Wiring from Guelph, he says: "Send \$25 stamps to Clifford-to-night. Sold out."

Letters as far west as Staveley, Alberta, and Regina, Sask., have been received, showing how widespread is the interest in the sale of stamps.

This Christmas stamp campaign is being directed by J. S. Robertson, Sec.-Treas. National Sanitarium Association, 347 King St. West, who will promptly answer all inquiries, and from whom the stamps are obtainable.

ten and acted by good plays. Somehow that intimate feeling of good fellowship in the making goes with the piece and sees it safely into your heart. There aren't half enough of these pieces and never will be, which is rich enough to describe anything so dearly and daintily Dutch. If you see it once, it's odds on that you will see it twice—or more.

But any act has to hustle to stay in advance of Lola Merrill and Frank O'Neil's "After the Shower." It is one of those whimsy bits of quiet comedy that get chuckles rather than outbursts, and which is so quietly pleasing such it might just about ten minutes until they are gone and you are wishing they were back.

In "The Chadwick Trio," the little lady is more than a bicycle and the act is good, but it is Miss Chadwick's dancing that stands out, far out. She is champion dancer of America, and lives up to it all the time.

Hill, Cherry and Hill, sensational comedy cyclists, are all of that, and keep you laughing and interested, which is more than can be said for most of these days. Hermy's cats and dogs are funny, as are Johnson and Harvey, not in the same way, you know, but both are funny.

Then the French Quartet can certainly sing, but it would help if you could hear what they are singing about.

**Majestic.**  
Screening Comedy Sketch.  
John C. Rice and Sally Cohen have one of those domestic comedy-tragedy sketches that is laughter all of the way. It is termed "Our Honeymoon" and deals with a young couple who are afraid to let each other know that each might like just about ten minutes' holiday from love making. It is well written and cleverly handled. If Elz Winstow who wrote it, has managed to crowd a whole lot of incident into twenty minutes, and Sally and John get all there in it out over the footlights.

Ed. Gray, tall tale teller, has a lot of songs, all of which are funny and most of which are new. He does some character sketches, including a trip to hear and see, Bert Cooper, presenting "Violins," has a bit of musical acrobatics which for acrobatics and dexterity would be hard to beat. It is a pity that he should try that "Rinaldo Rag." Rinaldo did that, you know.

"I'm certainly goin' to please myself," sings Rita Redmond, and in doing so pleases everybody in sight. Believe me, Rita can sing some and has good songs to sing.

Midgley and Carlyle are here again with that same old Sammy and Sarah that has never too long ago been here, and is a thing to be changed. Sammy wakes up just the same old way, and you laugh in the same old way, too. That act always was a winner.

Rawson and June with boomerangs and spears and arrows are really clever with them, especially with the boomerangs, which are an interesting sport of the desert and the Indians. The Roberts animal circus for the kiddies. That's the place where they come in long and strong. It sure is the kiddies' stage acting in the first act, and the principal fun-makers get themselves tangled up in the matrimonial drag-net which necessitates half an hour's waiting for the comedy. The matters are straightened out by Charles Farrel, as an old southern darkey and whistler, got a good reception. His act affords a refreshing sermon in the general whirl of Parisian life.

**Gaiety.**  
The Lid Lifters.  
A bright, breezy, lifting burlesque company is "The Lid Lifters," which presents a laughable farce entitled, "A Night at Freddy's." Then there is the rise of the curtain, and there are many novel features introduced. A noticeable "Blue Mouse" effect characterizes the comedy, and the principal fun-makers get themselves tangled up in the matrimonial drag-net which necessitates half an hour's waiting for the comedy. The matters are straightened out by Charles Farrel, as an old southern darkey and whistler, got a good reception. His act affords a refreshing sermon in the general whirl of Parisian life.

**Star.**  
Big Burlesque Production.  
The attraction at the Star this week is one of the largest burlesque shows on the western wheel. It is staged and produced by John Grievess, under the title of "The Fay Foster Burlesques," presenting in a comedy "Who Owns the Baby?" This amusing satire upon present-day society is one of the most unique comedies that have been seen in Toronto for many seasons. It takes three acts and seven scenes to produce it and the many ludicrous situations that are woven around the adventures and misadventures of two old sports running wild upon their spurs for a good time keeps the audience in continual laughter. The leading role is also played by an old Toronto boy, Samuel J. Adams, who is considered to be one of the best modern burlesquers. He was cheered repeatedly by his many Toronto friends, who turned out in full force to see him. The show is also one of the best. It includes such prominent vaudeville artists as Martha Hableman, formerly in grand opera; Senorita O'Neil, the sensational Spanish dancer, and Miss Mary Grieves, who is unequalled for fancy dancing. The show includes a chorus of forty girls and the songs are all of the most catchy, while the staging and special electrical effects are seldom to be seen in burlesque. This is without doubt one of the best attractions that will be seen here this year.

**The Children's Crusade.**  
The rehearsal of the various adult and children's choirs called for by the score of Pierne's sensational work have been progressing with admirable results. The rehearsals of the choir of last week Dr. Vogt personally took charge of these two rehearsals of the choirs of boys and girls, and warmly congratulated them upon their splendid progress in the study of Pierne's exciting work under A. L. E. Davies' guidance.

Wherever "The Children's Crusade" has been adequately presented a most profound impression has been created. At Dresden and Vienna and Paris, where recent performances have taken place under the composer's own direc-

TUESDAY MORNING

NIMBUS AT ODDS—ON WINS LATONIA'S FEATURE RACE

Red Walker's Osorine Scores at 7 to 2—Long Shots in Front

CINCINNATI, Nov. 15.—Nimbus won the feature race at Latonia to-day in easy fashion from a fair field. Sir Osorine in the first race was the only other winning favorite. Three horses as good as 1 to 1 won. Summary: FIRST RACE—Six furlongs, purse \$500: Sir Osorine, 104 (McGe), 3 to 5, out. 2. Col. Ashmeade, 97 (B. Martin), 1 to 1, 4 to 1 and 3 to 5. 3. Longhand, 108 (Gans), 4 to 1, even and 1 to 2. Time 1:14. Clem Beachey, Steel King, Reddy Report, Cogen, Friend King and Keener also ran. SECOND RACE—Six furlongs, purse \$500: 1. Sister Phyllis, 108 (Teliot), 8 to 1, 3 to 1 and 8 to 10. 2. Chalco, 119 (E. Martin), 10 to 1, 4 to 1 and 2 to 1. 3. Piume, 110 (Warren), 9 to 5, 3 to 5 and 1 to 3. Time 1:14. Nettle Traversa, Sainster, Ropodia, Lady Hill, Sainward, Advance, Charlotte Hamilton and Admouah also ran. THIRD RACE—Selling, 11-16 miles, purse \$500: 1. Osorine, 109 (McGe), 7 to 2, 6 to 5 and 3 to 1. 2. Ludhiana, 102 (Kennedy), 10 to 1, 5 to 1 and 2 to 1. 3. Langdon, 106 (Gans), 15 to 5, 6 to 5 and 3 to 5. Time 1:45. Bonnie Kelso, Olive Ely, Carmona, Robert Cooper, Mrs. Sewell and Denver Girl also ran. FOURTH RACE—Selling, 1 mile, purse \$500: 1. Kiddy Lee, 100 (Gans), 12 to 1, 5 to 1 and 5 to 2. 2. My Gal, 100 (Lovell), 3 to 2, 1 to 1 and 1 to 4. 3. Hatchcock, 103 (McGe), 2 to 1, 2 to 1 and 3 to 5. Time 1:41. Lady McNally, Capt. Gore, Col. Joe, Sisco, Olivia Hester, Hadlinton, Omphion and Icarion also ran. FIFTH RACE—Seven furlongs, \$300: 1. Nimbus, 115 (J. McIntyre), 10 to 1, 2 to 1 and out. 2. Bonnie Bard, 104 (Austin), 7 to 1, 2 to 1 and even. 3. Pootallo, 102 (Kennedy), 7 to 1, 11 to 5 and 6 to 10. Time 1:47. King's Commoner, Apolito, Lady Esther and Chief Hayes also ran. SIXTH RACE—Purse \$300, 11-16 miles: 1. Larnie Aigo, 114 (McGe), 7 to 1, 11 to 5 and 6 to 10. 2. Buertano, 106 (Ormes), 2 to 1, 1 to 1 and 1 to 4. 3. Sir Walter Rollins, 110 (Griffin), 12 to 1 and 2 to 1. Time 1:47. Culla, Mystifer, Kokomo, Miss Aleria, Nellie, John, Granad and Night Mist also ran.

MATINEE TO-MORROW Dufferin Driving Club Has Good Program of Three Harness Races. The Dufferin Driving Club are giving a matinee to-morrow at Dufferin Park, with three races, the following being the entries:

PILGRIMS HAVE WON 15 LOST 10, DRAWN 4 FOUR

English Soccer Tourists Get Even Break at Brooklyn—T. and D. Picked Team.

BROOKLYN, Nov. 15.—Well light fagged out by their long and eventful tour of the States, and with several of their men scarcely fit to go on the field, the Pilgrims of England played a comparatively listless game against the picked eleven of the New York Amateur Association Football League here yesterday afternoon, and appeared to have about all they could do to tie the score at two goals for each side. That they did not they owe plainly to the extraordinary work in goal of H. M. Lemoine of Shepley's Bush who stops at 45 minutes bordered on the marvelous. With the single exception of the match at Trenton, following a half-century of the game, all they could do to tie the score at two goals for each side. That they did not they owe plainly to the extraordinary work in goal of H. M. Lemoine of Shepley's Bush who stops at 45 minutes bordered on the marvelous. With the single exception of the match at Trenton, following a half-century of the game, all they could do to tie the score at two goals for each side. That they did not they owe plainly to the extraordinary work in goal of H. M. Lemoine of Shepley's Bush who stops at 45 minutes bordered on the marvelous.

Dec. 31—Dominion at Athens.

Bicycle Race at Buffalo. RUFPELO, Nov. 15.—Jackie Clarke, the Australian member, with Fred Hill of Boston, Mass., of the Bush-Beans team, captured the Buffalo 24-hour race at the 7th Regiment Army last night, before a throng of spectators. These men had been chosen to return to Buffalo, East, for the Australian Jones for Connecticut. Anderson for Europe. These seven constituted the final field. Hunter and the Buffalo team having dropped out after being lamed in the twenty-third hour, following was the finish: 1. Clarke, 49:45; 2. Hill, 49:45; 3. DeMara-Williams, 49:45; 4. Pyle-Hehr, 49:45; 5. Drake-Wat, 49:45; 6. Galvire Jones, 49:45; 7. Mitten-Lawrence, 49:45; 8. Hunter-Hill, 49:45. The record for 24 hours is 512 miles, made by MacFarland and Moran in 1908.

SEARCHING FOR ANCIENT TREASURE. LONDON, Nov. 15.—A search for treasure among the tombs of David and the kings of Judah is being conducted with the greatest secrecy and dispatch at Jerusalem. The party engaged in the work to-day consists of Capt. Montagu B. Parker of the Grenadier Guards; Mr. Duff, who is related to the Duke of Devon; Cyril Ward, and Clarence Wilson, whose yacht is in the service of the enterprise, with a superintendent, a Finnish engineer, and others. Under an agreement with the Turkish Government certain rights were acquired, and the work being undertaken is under the constant inspection of two Turkish officials.

Overdose of Laudanum. Minnie Hanford, aged 45, of 118 Yorkville-avenue, took an overdose of laudanum at her home at 7 o'clock last night, and is now in Grace Hospital, in a precarious condition. People at the house say she had been drinking for the past week. She was attended by Dr. Chas. P. Lusk. The hospital reported her to be still unconscious up to an early hour this morning.

SEARCHING FOR ANCIENT TREASURE. LONDON, Nov. 15.—A search for treasure among the tombs of David and the kings of Judah is being conducted with the greatest secrecy and dispatch at Jerusalem. The party engaged in the work to-day consists of Capt. Montagu B. Parker of the Grenadier Guards; Mr. Duff, who is related to the Duke of Devon; Cyril Ward, and Clarence Wilson, whose yacht is in the service of the enterprise, with a superintendent, a Finnish engineer, and others. Under an agreement with the Turkish Government certain rights were acquired, and the work being undertaken is under the constant inspection of two Turkish officials.

Overdose of Laudanum. Minnie Hanford, aged 45, of 118 Yorkville-avenue, took an overdose of laudanum at her home at 7 o'clock last night, and is now in Grace Hospital, in a precarious condition. People at the house say she had been drinking for the past week. She was attended by Dr. Chas. P. Lusk. The hospital reported her to be still unconscious up to an early hour this morning.

**LET THE PEOPLE SAY.**

Now that the Bloor-street viaduct is in a fair way of being submitted to the people no remonstrance on the part of any of the aldermen who are responsible for seeing it thru the council should be possible. While the east end representatives are specially concerned with the project, the west end aldermen are scarcely less interested.

A thoroughfare from West to East Toronto along Bloor-street is the most important consideration before the city today in respect of the symmetrical growth and the mutually contributory traffic of the two sides of the city. The viaduct also means rapid transit for thousands of workmen along the northern arteries, and the business men and manufacturers are deeply concerned in this phase of the project.

Mayor Oliver has declared that the viaduct must come, but that it is too soon for it at present. When Mayor Oliver reflects that commencing now it will take about three years to complete the work he must surely acknowledge that three years hence will not be too soon to have the viaduct open for traffic. At all events Mayor Oliver can have no objection to let the people say what they want.

**FRENCH CRIMINAL PROCEDURE.**  
Wide attention has been called to the French method of conducting criminal trials thru the interest created by the remarkable trial that has ended with the acquittal of Mme. Steinhilf. That French procedure differed radically from that followed in English-speaking communities has been generally known, but the extremely dramatic duel between the presiding judge and the accused woman and the terrible mental torture she underwent under his skilful prodding and even stronger criticism. This is natural with people accustomed to regard arrested persons as innocent until they are proved guilty. Yet the dominance of this very proper rule of English law is not very remote date, though it came as a necessary consequence of the main principle underlying English criminal jurisprudence. And probably no amount of argument will convince any who have inherited English traditions that French practice is fair or defensible. Even Frenchmen have revolted against their system in this particular instance, and it may result in reforms affording more protection to the accused.

**THE WESTERN UNIVERSITY.**  
Editor World: You write in a recent editorial of a migration of Toronto and Queen's University students to the Western University, and while your tone is entirely friendly to the just-named institution, you seem to fear that our standards may not be quite what it should be. But only one student has come this year from Toronto to Western University Arts, and none from Queen's. The one student, having failed of honor standing at Toronto, entered our general course. You are right and generous in your belief that it is the desire of the Western University to maintain in every particular the high level of Ontario scholastic attainment.

W. F. Tamblyn, Registrar, W.U.

**Master's Chambers.**  
Before Cartwright, K.C. Master.  
C. P. Railway v. City of Port Arthur—G. A. Walker, for plaintiff, moved to strike out para. 6-11 inclusive of counter claim on ground of inconsequence. F. Aylesworth, for defendant, contra. Reserved.

**THE PEERS, THE BUDGET AND THE ELECTION.**  
Opinion in Britain is now general that the peers will reject the budget bill. They may attempt to conceal their act by refusing to accept the measure until the country has indicated its will; but the fact stands that refusal means rejection. The bill will fall with the dissolution of parliament and must be reintroduced in the new house of commons and run the usual course before it can become law. Disgrace it as they please, the peers will take a momentous step, which, whatever the immediate issue of the election, will leave ineffaceable traces on the political history of the United Kingdom. Should their decision be sustained, the position of the house of lords will be strengthened for the time being. A precedent will have been established enabling the hereditary chamber to compel a referendum whenever in the opinion of its Conservative majority a Liberal government has no express mandate from the people. But will that majority adopt a similar course with a government of its own party color? It has not hitherto cultivated even an appearance of impartiality.

What will the electoral verdict be? Certainly there never has been so crucial a reference with so little indication of the current of popular sentiment. Some months ago, immediately after the vigorous ministerial campaign thruout the country, their spokesmen returned certain that the omens were entirely favorable. The earlier by-elections showed that the Liberal rout had been stayed, but Bernadette

Stores also at Montreal, Ottawa and Quebec.

came as a disappointment, simply because it was inconclusive. But it may result in the negative benefit of preventing or discouraging three-cornered fights, with the consequent division of the pro-budget vote. So far as can be judged at the distance, moderate Conservative opinion anticipates not an absolute majority but so great an inroad on the government majority as to entail modifications eliminating from the budget its more objectionable features. Liberal opinion is more hopeful that the electors will sustain the government by a sufficient majority, and finds some corroboration in the result of the municipal elections in England, showing a preponderance of Liberal and Labor gains. The position of tariff reform is of deep interest. No announcement of a definite scheme has yet been made by the Conservative leaders, and, if none is forthcoming, the peers, in the event of a Unionist majority, will be once confronted with the question of mandate.

**Single Court.**  
Before Falconbridge, C.J.  
Federal Life v. Siddall—J. M. McEvoy (London), for defendants, in the action, appealed from the report of His Honor J. F. Monck, a local judge at Hamilton, J. G. Farmer (Hamilton), for plaintiff, contra. The appeal of defendants was against the allowance by the judge to plaintiffs for legal costs, improvements, etc., which defendant alleged were unnecessary improvements made before the day fixed within which defendants might redeem more difficult. Reserved.

Before R. B. Henderson, for defendant, on appeal from certificate of the local judge at Whitby. C. A. Moss, for plaintiff, contra. Enlarged until 18th inst. at request of counsel.

**Re Jones Trust—Eric Armour, for petitioners, on a petition for appointment of a new trustee in place of one who has become incapacitated. N. P. Davidson, K.C., for Kathleen A. Jones. F. W. Hargrave, K.C., for two infants. Enlarged at counsel's request until 17th inst.**

**Trial Court.**  
Before MacMahon, J.  
McBain v. The Toronto Railway Co. M. G. Coffey, for plaintiff, D. L. McCarthy, K.C., for defendant, the railway company. J. W. Curry, K.C., for defendant Verral. Judgment: The plaintiffs were, while standing on the sidewalk on the north side of King-street, Toronto, on the night of 9th September, injured by the overturning of a trolley bus in place of one which defendant Verral, upon whom the trolley bus was struck and overturned by a street car. There will be judgment for the plaintiff, John McBain, for \$400, with costs on superior court scale. The injuries to the plaintiffs were caused, as alleged in the statement of claim, thru the joint negligence of the two defendants. There was no negligence proved against the defendant Verral, and I direct whom was convicted when paid to him will be costs, which will be paid against the defendants, the Toronto Railway Co.

**Divisional Court.**  
Before Mulock, C.J., Clute, J.; Sutherland, J.  
Crown Art Stained Glass Co. v. Cooper—A. J. R. Snow, K.C., for plaintiffs, on their appeal from the judgment of his honor Judge Doyle, in a mechanics' lien action, dated May 11, 1909, stated that counsel for the defendants, in the argument of this appeal to stand until the next sittings of divisional court, moved for the stay of the judgment of appeal stands adjourned until December sittings accordingly.

You cannot be cheerful, active and energetic when the liver is wrong.

A torpid, sluggish liver brings constipation of the bowels, indigestion, deranged kidneys and all sorts of depression and discouragement.

There is headache, backache, pains in the limbs and rheumatism.

By quickly awakening the action of the liver and bowels

cleanse the system of poisonous impurities and restore good digestion and assimilation.

Dr. A. W. Chase's Kidney and Liver Pills owe their phenomenal success to the fact that they positively cure liver complaint, biliousness, constipation, backache and kidney disease.

One pill a dose, 25 cts. a box, at all druggists on Beppan, Bates & Co., Toronto.

Insist on getting what you ask for.

K.C., for the defendant, appealed from the judgment of MacMahon, J., dated May 5, 1909. W. E. Middleton, K.C., for plaintiff, contra. This action was by a farmer against a druggist, as alleged, for mixing croton oil with doses of cod liver oil for medicine for sick horses, whereby both horses were made very ill and one died, and plaintiff asked \$285 damages. At the trial judgment was given for plaintiff for \$215, and high court costs. Defendant's appeal therefrom dismissed with costs.

King v. Galbraith—H. A. Ward, K.C., for the plaintiff, appealed from the judgment of Riddell, J., dated June 21, 1909. D. H. Chisholm (Port Hope), for the defendant, contra. This was an action by William J. King, a laborer of Port Hope, for damages for loss of two fingers severed by a saw while in defendant's employment, which he alleged was caused by defendant's negligence in not properly safeguarding the saw, and he claimed \$3000. At the trial Louis Hall was added as a party defendant, and the action was dismissed without costs. The trial judge fixed the damages at \$300 in case the plaintiff should succeed. Plaintiff's appeal partially argued and adjourned until 18th inst., to enable defendant to produce his book of account.

Groulx v. Lavigne—J. M. Ferguson, for the plaintiff, appealed from the judgment of Tassell, J., dated Dec. 18, 1908. G. H. Kilmer, K.C., for the defendants, the Township of Ferris, and J. A. Macintosh, for defendant Lavigne, contra. This appeal was partially argued on Feb. 9 last, and the argument was now resumed. The action was for \$500 damages and for an injunction for an alleged trespass on the lands of plaintiff and pulling down his fence. Defendants, the corporation, denied any participation or responsibility for the dispute, and defendant Lavigne asserted that the fence pulled down was built across a public or colonization road, which was opened thru plaintiff's land prior to issue of patent, which reserved for such roads. At the trial the action was dismissed with costs. Appeal argued, and if the parties can agree upon a description by metes and bounds of the land at present used by the public as an approach to the bridge, ordered that the judgment appealed from be varied by embodying the description so agreed upon in respect of the respective lands to be dismissed with costs.

**Court of Appeal.**  
Before Moss, C.J.O.; Oster, J.A.; Garrow, J.A.; Maclean, J.A.; Meredith, J.A.  
Compass Mining Co. v. Cobalt Town—W. C. Curran, K.C., for plaintiff, moved for leave to appeal from the railway and municipal board. W. J. Clark, for defendant, contra. Judgment: Appeal allowed, with costs to make the usual deposit as security.

Snell v. Claffin—J. Bicknell, K.C., and F. R. Maclean, for defendants, appealed from the judgment of the exchequer division, affirming the judgment of Angell, at the trial. J. S. Council, for respondents. The action was brought to recover \$15,000 damages, alleged to have been caused plaintiff by reason of actions threatened and then put upon his property in Hamilton, known as the Grand Opera House, which had been erected by defendants for him. The plaintiff claimed \$25,000, and which less plaintiff had to pay. At the trial judgment was given for the plaintiff for \$7500 and costs, and the plaintiff's appeal dismissed. Defendants' appeal therefrom. Defendants' appeal to this court. Partially argued. Not concluded.

Pringle v. Hutson—A. J. R. Snow, K.C., for defendant, appellant, F. A. Snodgrass, K.C., for plaintiff, respondent, asked that case be struck out as book contains matter not put in by consent. Mr. Snow overrode the motion and proceeded with the argument of his appeal. His action was originally brought by plaintiff, Pringle, assignee of Smith, to recover a mortgage, and defendant, Hutson, in a mortgage, and plaintiff claimed \$2508.22. The statement of claim was afterwards amended by adding Robert H. Snodgrass as a party defendant. Plaintiff pleaded want of notice of the assignment, and lack of due registration, as required by the Registry Act. At the trial before Meredith, C.J., he gave judgment for the plaintiff for \$2895.28 and costs. Judgment of the trial judge now appealed to this court. Judgment: Appeal dismissed with costs.

Weston v. Perry—An appeal by plaintiff from the judgment of a divisional court. T. N. Phelan, for defendant, opposed the appeal. This was an appeal from the judgment of the divisional court, dated May 18, 1909, dismissing the plaintiff's appeal from the order of Messrs. J., at nisi prius, striking out paragraph 2 of the statement of claim, which charged defendant with enticing plaintiff's husband from her. Judgment: Appeal dismissed with costs.

Overend v. The Burrows, Stewart & Mills Co.—G. Lynch-Staunton, K.C., for defendants, appellants, appealed from the judgment of his honor Judge Dumby, K.C., and A. W. Anglin, K.C., for plaintiff, contra. This was an action by plaintiff, a retired hotelkeeper, for damages for breach of contract. Plaintiff's patent No. 58,318, for a certain invention in curry combs, was infringed by defendant, a manufacturer of such combs. Plaintiff claimed \$2000 damages for infringement. Judgment: Appeal dismissed with costs.

Robinson v. Morris—Appeal by the plaintiff, from the judgment of a divisional court affirming the judgment of Messrs. J., at the trial dismissing the action. C. J. Holman, K.C., for the defendant, contra. E. J. Gibson, for the Town of North Toronto. Judgment (per Oster, J.A.): The action was for trespass and false imprisonment. At the trial it appeared that on Jan. 17, 1907, plaintiff was convicted before the police magistrate for North Toronto as for a second offence of having used liquor without license contrary to the provisions of the Liquor License Act, and was adjudged to be imprisoned therefor for the term of 4 months without hard labor. Something being said of defendant's intention to appeal, he on giving his recognizance to appear when called upon to do so, was allowed to go at large, but finding nothing was being done towards moving against the conviction the magistrate issued a warrant and the constable on March 28 arrested plaintiff and delivered him to the keeper of the county goal, who was thereby directed to receive the plaintiff and keep him in custody four months. A writ of habeas corpus was obtained, and on June 28 the plaintiff was by order of his honor Judge Riddell, J., discharged on the ground apparently that the plaintiff, not being guilty of an escape and the recognition of bail having been taken without jurisdiction and as the more voluntary act of the magistrate, the term of imprisonment commenced and run from the date of the conviction and therefore expired on May 17, not

The Food Drink

Many people drink O'Keefe's "Special Extra Mild" Ale solely for its food properties. Being brewed of finest hops and malt, it contains all the body and brain building elements of these grains. It is because we use the best, that

**O'Keefe's Special Extra Mild ALE**

is so rich and creamy—so thoroughly enjoyable—as well as so nutritious and wholesome. It's "extra mild" remember, and never makes you bilious. In Crown stoppered bottles. No broken cork or tinfoil in the glass.

"The Beer that is 100% always O.K."

withstanding that the plaintiff had been at large between Jan. 17 and March 28. I am of opinion that the judgment of the divisional court should be affirmed. The Town of North Toronto was made a defendant, it is impossible to understand on what ground the defendant Morris was neither the servant nor agent in executing the warrant. The appeal should be dismissed with costs (per Meredith, J.). I think the imprisonment was lawful, and would have been lawful had the full term been served, the action thereupon dismissed as this appeal should be. Appeal dismissed with costs.

BIG STEEL-COAL MEMBER DEREGULATE PURGES MENACE TO LABOR UNIONS

Glace Bay Strike Endorsed by A. F. of L.—Assistance to Illinois Miners.

Steps Taken by Commission to Relieve Congestion of Cars Along Line.

The afternoon session of the A. F. of L. yesterday was devoted to the adoption of the resolutions which have been in the hands of the various committees appointed for their consideration.

Previous to the adoption of the resolution endorsing the strike of the U. M. W. of America at Glace Bay, N. S., Delegate E. M. Draper of Ottawa said that the members of the U. M. W. had determined to support the strike of the Dominion Coal Company.

By the adoption of the resolution endorsing the strike of the U. M. W. of America at Glace Bay, N. S., Delegate E. M. Draper of Ottawa said that the members of the U. M. W. had determined to support the strike of the Dominion Coal Company.

Baseball Fills a Public Demand

Which is the most popular of all sports? Ask any enthusiastic follower of the game, and he will give you a strong argument that the Scottish game leads.

Put the question to a tennis expert, and in an instant he will be able to advance all kinds of reasons why his favorite pastime is just a little the best.

Speak to any college student as to the most popular of all sports, and without the slightest hesitation he will reply that the good old game of football is just a little in advance of all other outdoor events.

Take any ardent supporter of any sport, and he will tell you that the most popular of all sports is the one which is the favorite of the masses.

You ask, Why? Baseball is the most popular sport in America because it's the cleanest of all games, is free from all taint of crookedness, is played by men prominent in the highest circles of society, and is highly respected in their different localities.

Well, that's easy. Baseball is the most popular sport in America because it's the cleanest of all games, is free from all taint of crookedness, is played by men prominent in the highest circles of society, and is highly respected in their different localities.

Then there was the case of Amos Rusie. Everybody remembers the Giants' famous pitcher who quit the game, and after a long rest he had shown no signs of being as good as he ever was—he tried to get back into the diamond game.

Every body remembers the Giants' famous pitcher who quit the game, and after a long rest he had shown no signs of being as good as he ever was—he tried to get back into the diamond game.

Every body remembers the Giants' famous pitcher who quit the game, and after a long rest he had shown no signs of being as good as he ever was—he tried to get back into the diamond game.

CANADIAN CLUB HEARS LABOR LEADER GOMPERS

Head of A. F. of L. Tells Audience That His Organization Stands For the People's Rights.

It was one of the big days at the Canadian Club yesterday when Samuel Gompers, president of the American Federation of Labor, was the luncheon guest. The dining hall was crowded and the members overflowed into other rooms and packed the gallery.

Mr. Gompers, in his black skull cap, is a striking figure. In the proper robes he might sit beside Archbishop McCreary and look as if he belonged there. There is an air of shrewd dignity which suits characteristically on the rugged countenances of both gentlemen.

"Put him on a chair if you can," called out J. L. Hughes, after the chairman's introduction.

"A knock right at the start," was Mr. Gompers' rejoinder, and the laughter rang. A chair was obtained, however.

"For the first time in my life I stand upon a very narrow platform," he declared as he mounted it. He held a Sunday World in his hand during his address.

What Federation Means. Dispensing with formalities, he plunged at once upon his subject. The Federation of Labor was not an organization but a federation of organizations arising out of the conditions in which industry had been involved.

When wealth passed from the hands of individuals into partnership companies and trusts and became national, labor also spread out its organizations, he said, to meet the new conditions.

The federation signified a standing protest against everything that was wrong, inhuman and unjust, while it was equally the defender and promoter of all that was good and true and noble. There was no right due to the people for which it would not contend.

While all realized that the conditions were far better to-day than they had been in our time, there was none but had his idea, notion or daydream of a time when the wrongs remaining might be eliminated from civilized life.

Things to be Annihilated. The boycott and the strike were regarded by some of the things to be annihilated. He asked them to consider what conditions would exist on the North American continent without the strike and the boycott.

How Made My Hair Grow. Woman with Marvellously Beautiful Hair Gives Secret of Preparation Which She Used With Remarkable Results.

I was greatly troubled with dandruff and falling hair. I tried many advertised hair preparations and various prescriptions, but they all signally failed; many even caused my hair to become greasy, so it was impossible to comb it or do it up properly.

M'BRIDE TOOL OF B. C. HIS FUTURE IS ASSURED

Doesn't Need a Railway Policy to "Carry Him Thru" the Approaching Elections.

VICTORIA, B.C., Nov. 15.—(Special.)—Just yesterday, Nov. 15, was upon the records of the Liberal party in British Columbia as a day of utter rout, if not annihilation—can be read each year more plainly in the signs of the times. It is a party-parade of the opposition forces in the twelfth parliament of the province.

Referring to the recent disaster in Illinois and the frequent dangers to which working men were subject, Mr. Gompers said that the situation was a pathetic and tragic appeal.

"We hear of the risks of capital, Mr. Gompers, but of the risks of labor?" The humor of the remark was heavily upon labor. The consciousness of their rights stimulated them to appeal for better opportunities, for a nobler womanhood, a brighter childhood.

Can Make World a Marvel. "If we co-operate, we can make the world a marvel, even the spirit of the past," he declared, and then as an exposition of the spirit of the labor movement, read the following passage from the laborer in his Sunday World.

He said he did not know what paper it was or whether it was an editorial, an article or an advertisement, but it had the right spirit.

"As for the climber, he should remember that it is not enough to carry his own load. Selfish and narrow men may be able to get up, but not in that class of men. It is not necessary for a man to be heartless because he finds the uphill path a hard one.

They Believe in Him. The causes for this unprecedented preponderance of Conservative strength in the election of 1908 were many and involved. Primarily it is found in the established confidence of the public in the Conservative government.

Regarding the railway policy, Mr. Gompers said that the government was engaged upon well-considered and equitable proposals.

Smallpox on the Dominion. But Captain refused to take the Passengers Back. QUEBEC, Nov. 15.—(Special.)—The steamer Dominion, which arrived in port at 4.30 o'clock Sunday afternoon and immediately landed her stowage passengers.

CANADA AND THE NAVY What is Our Duty in the Present Crisis?

Editor Wood: As one of the people to whom Prof. J. F. McCurdy addressed his letter calling to deal with the proposed "Canadian navy," I beg to give you this brief reply as promptly as possible.

At the outset, it must be admitted that the learned gentleman has the right on his own opinions and has the patent to oppose the project; but that does not at all concede that the arguments he advances are reliable or correct.

Let that be as it may, Canada, has come to the point where we must do something to maintain the supremacy of the British navy. The building of a Canadian navy in Canada would prove too heavy a burden just now.

Other mother of nations, your true sons will never. Begudge you your dearest, the pulse of the heart—Then tremble the forearm, defeat shall come sudden.

For your downfall he plotted and labored in vain; For your sons will come forth from the land they have trodden.

To join in your triumph on land or on main. A. D. MacIntyre, Deseronto, Nov. 13, 1919.

Canada's Duty. As a part of the British Empire Canada cannot relieve herself of her responsibility to that empire.

Just here permit me to protest, with all the emphasis at my command, against the unbecoming manner in which the professor uses the words "England" and "English government."

Regarding the railway policy which is the essential feature of the present campaign, it is briefly to secure by guarantee of bonds.

Revision of Voters' List, 1910.

The necessary statutory notice has been given that the voters' lists for the City of Toronto, for 1910, are now posted in my office.

For the convenience of electors desiring additions or corrections in the voters' list it has been arranged that all appeals filed in my office on or before the 22nd day of November, 1909, will be investigated by the Assessment Department.

Let that be as it may, Canada, has come to the point where we must do something to maintain the supremacy of the British navy.

Other mother of nations, your true sons will never. Begudge you your dearest, the pulse of the heart—Then tremble the forearm, defeat shall come sudden.

For your downfall he plotted and labored in vain; For your sons will come forth from the land they have trodden.

To join in your triumph on land or on main. A. D. MacIntyre, Deseronto, Nov. 13, 1919.

Canada's Duty. As a part of the British Empire Canada cannot relieve herself of her responsibility to that empire.

Just here permit me to protest, with all the emphasis at my command, against the unbecoming manner in which the professor uses the words "England" and "English government."

Regarding the railway policy which is the essential feature of the present campaign, it is briefly to secure by guarantee of bonds.

Smallpox on the Dominion. But Captain refused to take the Passengers Back. QUEBEC, Nov. 15.—(Special.)—The steamer Dominion, which arrived in port at 4.30 o'clock Sunday afternoon.

How Made My Hair Grow. I was greatly troubled with dandruff and falling hair. I tried many advertised hair preparations and various prescriptions, but they all signally failed; many even caused my hair to become greasy, so it was impossible to comb it or do it up properly.

# Are You One of Those Who Never Experienced the Sense of Ownership?

It adds to one's self-respect to know that he or she is the owner of real estate, however small that holding may be. Ownership carries with it the sense of responsibility, and that is a guarantee of good citizenship.

## Make Your Start To-day

BRANDON, the second city of Manitoba, is one of the best places in Canada to make a profitable investment in real estate.

## LOTS SIXTY DOLLARS EACH

Property 25x120 to a 20-foot Lane

One-third Cash, One-third in Three Months, One-third in Six Months. 7 Per Cent. Off For Cash.

## Every Lot is Guaranteed By the Vendors

BRANDON five years ago had only half the population that it has to-day. It is the converging point and operating centre of 1000 miles of railroad. The influence of its colleges and educational institutions has spread throughout the west. The student population is estimated to-day at 2000. There are 1200 students in its business colleges alone.

BRANDON is a beautiful city, a city of splendid homes, with every modern convenience. It is the monetary centre of a vast agricultural area. There are ten chartered banks in Brandon.

We offer to-day for sixty dollars, splendid building lots right inside the city limits of BRANDON. The section is known as KENSINGTON PARK. Building operations are proceeding right up to the edge of KENSINGTON PARK. Your property will be next in demand. This is a chance to make money.

We will deal with applications in the order they are received. This is a great opportunity, recommended by a reputable real estate firm, whose reputation is held above any other business consideration.

AGENTS WANTED IN EVERY TOWN AND CITY IN ONTARIO.

### CAR SHORTAGE COMING

C. M. A. Asks Members Not to Hold Too Long.

"There is every indication that at a very early date a severe shortage of cars will develop in Canada," says a warning sent out by the Canadian Manufacturers' Association to its members yesterday.

"In fact, it is safe to say there is a scarcity of cars at the present time," it continues.

The railways report grave apprehension on their part of their ability to meet the wants of shippers. Circulars have been sent to their employees telling them that it will be necessary to handle cars with all possible despatch during the remainder of the season. Special agents have been sent to all terminals to tell the employees of the gravity of the situation and keep every car moving. In addition new cars are being built as rapidly as possible.

Up to the present the demands have been met, but it is said that large quantities of grain have been held back by the farmers of the west.

Following are a few suggestions for manufacturers.

Don't pay demurrage. It doesn't pay you or the railways. Each day every car is worth from \$2 to \$2.50 per day to the railways. It should be worth considerably more to you.

Don't allow the shippers from whom you buy raw material to send you more than you can take care of without delay.

Don't allow cars to stand under load until the free time allowed by the demurrage rules has about expired.

Don't allow empty cars to stand on your siding after they are unloaded. Notify the agent to have them taken away.

A Triple Tragedy.

VERMILION, S. D., Nov. 15.—An unknown farm hand, armed with a razor, to-day killed Mrs. Albert Nelson, at her home in Clay County, and fatally wounded her husband. He was killed himself by Nelson, with a club. The man had been hired Saturday night to husk corn. It is supposed the motive of his attack was robbery.

Baptist Men's Banquet.

Rev. O. A. Eaton, D.D., of Madison-square Baptist Church, New York, formerly pastor of Bloor-street Baptist Church, Toronto, will be the principal speaker at a men's banquet to be held in Castle Memorial Hall, McMaster University, on Friday, Nov. 19, at 7 p.m. The banquet is under the auspices of the Toronto Baptist Church Extension board.

Governor Must Face Trial.

CHEEKASHEE, Okla., Nov. 15.—Federal Judge John A. Marshall to-day overruled the demurrer filed by Gov. Charles N. Haskell and five other Oklahomans to indictments charging them with fraudulently securing from the government title to a large number of town lots in Muskogee, Okla. The defendants were ordered to appear here for trial Saturday morning.

Beresford a Candidate.

LONDON, Nov. 15.—Admiral Lord Charles Beresford, it is announced to-day, will be the Unionist candidate at the by-election in Portsmouth, which will choose a successor to the late John Baker.

# THE CITY OF PORT ARTHUR A CITY WITH A NATURAL LOCATION

The combined population of Port Arthur and Fort William to-day is over 32,000. They are growing rapidly and growing together. It is not outside the bounds of reasonable prediction to say that these cities will have in a few years 100,000 people. Real estate values are increasing rapidly. Now is the time to make an investment in a lot in

## PRINCE ARTHUR HEIGHTS

Overlooking the magnificent panorama of Thunder Bay, on which rides the shipping of a nation, Prince Arthur Heights is an ideal location for homes. The drainage and sanitation could not be surpassed.

## ONE HUNDRED DOLLARS

will purchase a fine building lot there to-day. The payments are easy—ONE-THIRD CASH, ONE-THIRD IN ONE YEAR, ONE-THIRD IN TWO YEARS. By the time the last payment falls due the increase should be more than the original investment. Send in applications to-day to

## A. C. JENNINGS & CO.

### NEGRO WAS LYNCHED; SIX IMPRISONED FOR CONTEMPT. KING MANUEL AT WINDSOR.

WASHINGTON, D. C., Nov. 15.—Ninety days' imprisonment was imposed to-day upon ex-Sheriff Joseph E. Shipp of Chattanooga, Tenn., by the supreme court of the United States for the contempt of court in failing to prevent the lynching of a negro convicted of rape, whose execution had been stayed by the court. Luther Williams and Nick Nolan were also sentenced to imprisonment for 40 days, and Jeremiah Gibson, the jailer, Henry Padgett and William Mayes for 60 days.

Social and Tea. The congregation of Bloor-street Baptist Church will hold their annual social and tea on Wednesday evening, Nov. 17.

### Young Brakeman Killed.

BARRE, Nov. 15.—C. E. Garry, aged 21, of Washago, who was braking on a southbound freight, fell off the train between Barre and Allandale this morning and was killed.

SPECIALISTS IN OIL STOCKS

# HENSHAW MADDOCK

PHONE MAIN 6339

BRANCH OFFICE 532 Granville St Vancouver

## STOCK BROKER, SUITE 9, 10, 11, 205 YONGE STREET, TORONTO

I am offering a limited number of shares 15c (Par Value \$1.00 Fully Paid and Non-Assessable) in THE CALIFORNIA-ALBERTA OIL CO., and I submit the following information in regard to the Co., and of the territory in which the Co.'s holdings are situated:

# THE CALIFORNIA-ALBERTA OIL CO.

SHARES 15c EACH. PAID IN FOUR MONTHLY PAYMENTS. Capitalization 2,500,000 shares, Par Value \$1.00, Fully Paid and Non-Assessable.

## Marvellous Facts and Figures, Read This

THERE ARE SCORES OF MEN who have made upwards of \$1,000,000 each in California oil during the past few years. John A. Bunting was formerly a brakeman on the Southern Pacific Railroad. He borrowed money to acquire oil land and go into the oil business, and his wealth is now estimated at about \$3,000,000. He recently paid \$300,000 for a private car. Joe Chanslor was clerk in a grocery store in Los Angeles. He foresaw the future of the oil industry and BORROWED THE MONEY TO COMMENCE OPERATIONS. He is now rated as being worth over \$5,000,000. The Home Oil Company was started by a few men of limited means. Stock was sold in the company at \$10 per share, and the same stock afterwards sold as high as \$5000 per share. Richard Ellis, a young man from Bradford, Pa., BOUGHT TEN SHARES of Home stock for \$100, and in a SHORT TIME SOLD IT for \$31,620. The Hanford Oil Company raised \$6000, and started operations on a tract of land acquired from the Government by location, the total cost being the location fees. In a few years it had paid \$86,000 in dividends, and the controlling interest was sold on a basis of \$360,000, and about a year later the entire property was sold for \$855,000. The Reed Crude Oil Company was started with a cash capital of \$650. Sufficient money was borrowed to complete the first well. This company HAS SINCE PAID IN ONE DIVIDEND \$400,000, and its TOTAL DIVIDENDS IN FIVE YEARS are considerably over \$1,000,000. The Peerless Oil Company paid TEN TIMES ITS ORIGINAL INVESTMENT IN DIVIDENDS WITHIN FIVE YEARS. The Canfield & Chanslor Oil Co. sold some of its stock originally at 25 cents per share, and AFTERWARDS PAID ONE DIVIDEND of \$26 per share. The Whittier Oil Company sold some of its stock at THREE CENTS PER SHARE, AND WITHIN A YEAR paid one dividend of \$4 per share. The California Oil Fields, Limited, an English corporation, was organized. Its stock is now selling at SEVEN TIMES ITS PAR VALUE, and its holdings are estimated to have a value of \$25,000,000. The Pacific Coast Oil Company has paid \$5,000,000 in dividends, and the San Francisco Petroleum Company has paid nearly \$3,000,000 in dividends. The Lucile Oil Company was started with a very limited capital, and the stock sold as low as FIFTEEN CENTS PER SHARE. Its stock CANNOT NOW BE BOUGHT FOR \$5 per share.

SCORES of similar cases might be recited, but the above are sufficient to show that the oil industry is playing a prominent part in the financial history of the world. WONDERFUL AS THE PAST has been in California, ALBERTA OIL IS SIMPLY IN THE INFANCY OF ITS DEVELOPMENT, and just at the threshold of a wave of great prosperity and money-making possibilities. At the present time the industry appears to be one of the most inviting oil fields in the world for safe and profitable employment of capital, and it appears as if the industry in the Province of Alberta will be largely controlled by mutual stock companies, and through the organization of these companies SMALL INVESTORS ARE AFFORDED OPPORTUNITIES THAT CAN SCARCELY BE DUPLICATED, to share in LARGE, SAFE, PERMANENT, AND ENORMOUSLY INCREASING PROFITS.

## Get Out of the Rut

Have you ever noticed that the GREAT MAJORITY of people are SLAVES? YES. Slaves JUST AS MUCH as the negro of ante-bellum days. Slaves to the man "HIGHER UP." Why is this? The answer is easily found. NO ONE gets beyond MERE EXISTENCE by the sweat of his brow. THE ONLY WAY he can GET AHEAD is to put his savings TO WORK, instead of hiding them in a savings bank. It is as true a saying as the English language provides that "Great oaks from little acorns grow." Unless YOU prefer to be a DRONE ALL YOUR LIFE, GET OUT OF THE RUT. Money is not made by DRUDGERY. Do not make a SLAVE of yourself. MAKE A SLAVE OF YOUR SAVINGS.

## Reports on Northern Alberta Oil Fields

EXTRACTS FROM EVIDENCE Heard Before a Select Committee of the Senate of Canada During the Parliamentary Session of 1906-7, and the Report Based Thereon.

### NORTHERN ALBERTA

Evidence of Alfred von Hammerstein, Resident of the Athabaska District of Northern Alberta.

Mr. von Hammerstein drew the attention of the committee to the waste of natural oil gas for the last eleven years at the Government bore hole at Pelican Portage, or Pelican Rapids.

The natural gas springs there throw out small amounts of tar; and about fifty miles from the mouth, on the north shore, there is also a tar spring. It is what Mr. Hammerstein would call an oil spring, or tar spring, and made HIM VERY CONFIDENT THAT THEY ARE GOING TO HAVE ONE OF THE BIGGEST PETROLEUM FIELDS IN THE WORLD.

THERE IS NO DOUBT PETROLEUM WILL BE FOUND ALL THROUGH THAT COUNTRY, FROM THE ATHABASKA RIVER TO THE PEACE RIVER.

There are inexhaustible quantities of that. It has formed pools over the land, which are of considerable size in some places. THIS IS THE LARGEST QUANTITY OF PETROLEUM WITNESS HAD EVER SEEN IN THE WORLD.

Mr. von Hammerstein remarked: "As far as petroleum is concerned, I have all my money put into it, and there is no other people's money in it, and I have to be loyal. As to whether you can get petroleum in merchantable quantities, that is a matter about which I would not care to speak. I have been taking in machinery for about three years. Last year I placed \$50,000 worth of machinery in there. I have not brought it in for ornamental purposes, although it does look nice and homelike."

Evidence of Mr. Elihu Stewart, of the City of Ottawa, at the time Superintendent of Forestry for the Dominion Government.

## Petroleum and Tar Sand

"The tar sands evidence an upwelling of petroleum to the surface unequaled elsewhere in the world.

"Indication of the presence of oil in the district is not confined to tar sands, as on Peace River, and the Lesser Slave Lake, inspissated bitumen was found in a number of places, lining cracks in nodules, and at Tar Island, in Peace River, small quantities of tar are brought to the surface by a spring."

Mr. Stewart produced samples of tar collected by himself.

Evidence of Mr. Richard George McConnell, Geologist in the Geological Survey Department, Heard Before the Select Committee, Feb. 18th, 1907.

Stated that all through that country there are chances for oil. Everyone knows about the tar sands along the Athabaska. There is tar there for about 100 miles to a depth of 150 feet to 200 feet, and several tar springs. One is reported at Lesser Slave Lake, one on the Peace River, SO THAT ALL THAT STRETCH OF COUNTRY IS A POSSIBLE OIL COUNTRY.

## Professor Macoun's Evidence—Geological Expert.

In reply to a question, the witness said he saw timber, coal, asphaltum and oil—THE BEST OIL HE HAD EVER SEEN. SOME PLACES YOU CAN SEE IT LEAKING OUT OF THE BANK. THE BANKS ARE VERY HIGH THERE. HE HAD BEEN RIGHT TO THE TOP OF THIS BANK, AND IT IS ALL ASPHALTUM. HE COULD NOT FIGURE OUT THE EXTENT OF IT. THERE ARE MILES OF IT.

## The Company's Property

The property of the Company is located in Northern Alberta, Canada, about thirty miles northwest of Edmonton, and consists of 1980 acres.

I sincerely believe that this Company is destined to pay dividends as surely as the great American companies have done. But buy now, while I am offering shares at 15 cents per share, payable one-quarter cash and one-quarter monthly.

200 Shares for \$30; pay \$7.50 down, \$7.50 per month.

500 Shares for \$75; pay \$18.75 down, \$18.75 per month.

1000 Shares for \$150; pay \$37.50 down, \$37.50 per month.

I do not ask you to take my word on conditions and indications in the territory, but CAREFULLY CONSIDER the above evidence given before the Senate of Canada by men who had ABSOLUTELY NOTHING TO GAIN. Their evidence can be relied upon, and it all points in the one direction, THAT THERE IS UNDOUBTEDLY IN NORTHERN ALBERTA THE GREATEST OIL FIELD IN THE WORLD, only waiting to be tapped, and the minute this territory is opened SHARES IN COMPANIES ESTABLISHED will advance RAPIDLY IN PRICE, and there will be HUGE RETURNS for those who get in on the ground floor.

For further information or a Prospectus, write me.

H. Maddock

# COBALTS—Attack on Crown Reserve Causes a Sharp Break—COBALTS

## FEW DISTINCTIVE FEATURES EXHIBITED BY COBALTS ISSUES

### Cobalt Lake Advances on News of Strike—Crown Reserve Lower—Big Increase in Ore Shipments.

World Office, Monday Evening, Nov. 15.

A strike reported on the Cobalt Lake property and the subsequent advance made by the shares were the main points of interest at the mining market to-day. Opening steady with last week, this stock sold up rapidly to 17-1/2 and despite the considerable profit-taking at the high prices reached, remained firm throughout the session, closing strong at 17. The stock was largely dealt in, over 100,000 shares changing hands during the day.

There was little change in the price of Crown Reserve was apparently of interest in the higher priced issues, being subjected to a bear raid, under which the shares sold back under the five dollar mark, a loss of 66 cents from last Saturday's high. No definite news was as yet given for the break, save that someone had seized on the issue for a bear drive at an opportune moment. Montreal was apparently much in the dark as local brokers concerning the affair. A slight recovery was made late in the day, prices at the close being \$5.01.

There was little change in the other securities. Beaver, Peterson Lake and Otis were firm, the others comparatively steady with last week. La Rose was quiet around \$4.98, Temiskaming, Foster, Rochester and some others sold slightly lower.

Ore shipments for the past week from the Cobalt camp showed a decided improvement, amounting to 940 tons from 11 mines, this being the largest weekly consignment since July last and a gain of 63 tons over the previous week. La Rose was the leading shipper, with Nipissing a little over a ton behind, these two mines together contributing well on toward one-half of the total week's record. One new shipper made its appearance in the list, the North Cobalt Mining Co., with a car of 20 tons, the first shipment from this district since the Green-Meehan ceased to get good values.

**SUSPICIONS CONFIRMED.**

Editor World: I noticed recently the letter of Mr. H. B. Mills in The Toronto World in reference to the depression in market values of some Cobalt stocks being brought about by the short selling of the market. I have for some time suspected that this was being done and I needed only the confirmation by Mr. Mills, a broker himself, and one who should know all the tricks of the trade, to induce me to take immediate delivery of my silver stock and I who advise good shareholders to take similar action or sell out their holdings. If everyone would demand their stock there would be quite a scramble amongst the speculators to get back the stock they had sold short and prices would advance considerably and brokers would have a chance to take a loss for once. Subscriber.

**Strike on Cobalt Lake.**

It was reported yesterday that a rich strike had been made on the Cobalt Lake property, when a vein from 20 to 30 inches wide and containing good values of silver and cobalt was uncovered.

The new find runs parallel to the main vein which runs east and west along the McKinnon-Darrah boundary. It was stated that the values shown on the new discovery were estimated from 3000 to 4000 ounces to the ton.

## PRESENT SHIPPING MINES WILL BE AUGMENTED

### Successful Development on All Sides—Many Properties Have Rich Ore to Ship.

COBALTS, Nov. 15.—(From the Man on the Spot.)—Cobalt replies to its critics by increased shipments and new shippers.

La Rose continues to be the camp's largest producer and is again responsible for one-quarter of the weekly output.

Eleven Cobalt mines shipped 840 tons of ore last week.

The North Cobalt makes the Township of Bucke again the home of shippers.

Of the 31 cars shipped, 12 contained high-grade ore.

Kerr Lake led in values, shipping 90 tons of rich ore.

La Rose sent seven cars, two of which, or 33 tons, were made up of high-grade.

Important finds have also been made on Gifford-Cobalt, Rochester and City of Cobalt.

The Lake vein has a width of thirty inches of five thousand ounces.

The Rochester vein is a surface vein of considerable distance.

It has a width of twelve inches and the ore averages 1000 ozs. to the ton, and in places carries much higher values.

Buyers are being spending money sparingly in genuine development at depth. It had a vein that disappeared.

A first-class plant was installed and underground development work carried on with sufficient success to encourage the management to prosecute their work at depth.

Smelter returns, however, did not come. The new find, the made on surface, is indirectly the outcome of those many months of patient toil.

Beaver will ship a car of rich ore this week—probably 25 or 30 tons.

It is as rich as any in the camp. New ore-house and other needed improvements will be made.

Predictions as to values of shipments are hazardous, but it is safe to say that Beaver treasury will be enriched to the extent of forty or fifty thousand dollars.

Gifford-Cobalt has cut two veins in its cross-cut at the 200 foot level. President Gifford is so impressed with one of these veins and its cleavage that he has directed the manager where first encountered that drifting has been started.

Mr. A. F. Gifford, Rochester, Shamrock, Badger, Gifford Extension, Ophir, Pan Silver, Cochrane, John Black, Lumsden comprise a string of coming shippers the directors of the permanent Cobalt camp in no small degree.

Red Jacket and Waldman are two other new shippers. Red Jacket is controlled by Burr Cartwright and associates, and a car of ore will be sent to the smelter from each of these properties almost daily.

Frank Burr Mosure.

**DOWN 200 FEET.**

North Cobalt Mines Issue Statement of Work, to Date.

A. M. Reaper, secretary of the North Cobalt Silver Mines Co., has sent the following circular letter to the shareholders:

It is the intention of making a second report on the above property in September, but our superintendent did not have anything definite to report, therefore the directors thought it best to defer sending out further information until the development warranted the same.

Mr. A. F. Gifford, superintendent of the mine, writes under date of October 28, that we have about eight tons of ore on hand and it is the intention of the directors to make this the first shipment from the property.

The development since the last report of August 25 shows that we are down to a depth of 200 feet and that the lead here is fairly persistent, the not carrying as high values as when the discovery was made on the 170 foot level.

At this level we are about 100 feet and the vein is still in the face of the drift. It is the intention of confining the "bears" pin their faith to the down 50 feet deeper.

**SILVER MARKET**

Restriction of Copper Output Will Lessen Production—Market News.

Samuel Montague & Co., London, dealers in silver bullion, write under date Nov. 4:

From the United States one hears of project to restrict the output of copper. Such a restriction naturally would bring about a reduction in the output of silver, seeing that many American copper mines produce silver as a by-product.

Reports from India as to the condition of the market there seem to show that another of these periodical struggles between a "bull" and "bear" clique is impending. The "bulls" hope much from the favorable harvest and a consequent large up-country demand, while the "bears" pin their faith to the effect of dearer money on the large stocks. There is much to be said for both points of view.

Some fairly large speculative sales have been made by native Indian dealers on this market, but these offerings have been more or less readily absorbed on the Chinese account. Indeed, China has shown herself quite a free buyer whenever the price has dropped. Apparently the margin of profit on uncovered exchange operations is so satisfactory that many operators find it difficult to resist the temptation to cover some of their commitments when the price falls below 23-1/4. This fact, more than any other, is responsible for the remarkable resiliency power that silver has shown recently. In addition to purchases in this market China has bought largely in Bombay.

For the first time since August there will be a considerable shipment of silver to Shanghai by the next two steamers.

About 145,000 bar silver has been shipped this week from San Francisco to the far east.

## OUR MARKET LETTER

### Send for our unbiased opinion on all the listed Cobalt Stocks.

Sentiment is becoming much more favorable to many of the mining stocks and we advise purchases before the advances have taken place. Our entire business is done with the public, and our one aim is to make money for our clients. Consult us either personally or by letter for an honest opinion as to what to buy or when to sell.

**WELSH CLAIMS WELL LOCATED.**

The Welsh claims are sandwiched between the Gillies-Dobbe and the Bartlett. The location of the Welsh mine is permanent. The shafts are broad and perfectly timbered. A considerable quantity of ore has been discovered by the Bartlett and Supt. Stevens stated that when transportation conditions warranted, sufficient ore would be hoisted to complete the large undertaking.

One cannot visit the Bartlett mines without realizing that the undertaking is a large one. It takes time to make a mine, even at the rate of progress which the Bartlett mines are making. The operations will be crowned with success. An expression I heard at the mines reflected very well this point of optimism. It was: "We have the goods in sight and that is two-thirds of the battle."

**METAL STOCKS FIRM OTHER ISSUES STEADY**

**Rumored Copper Merger Gives a Zest to Wall St. Speculation—Local Market Active.**

World Office, Monday Evening, Nov. 15. With the announcement that the proposed merger of the Dominion Coal and Dominion Steel had been advanced to a stage which meant practical completion of the deal, interest at the Toronto Exchange to-day was pretty much absorbed by these two securities.

Traders without regard to the intrinsic merits of either of the stocks, were disposed to take profits on long holdings and to put out a little short stock on the belief that with the best news out, a reaction in the prices would occur with the usual stock market course.

Under this selling both Steel and Coal declined, but not to any great extent, the support to the shares being substantially good through the day's business.

Business in other issues was quiet, but the market had a more buoyant appearance than for some time past. Sao Paulo responded readily to London buying, advancing 1 1/2 points, and the other Latin Americans, who were not active in the trading, were equally well supported.

All stocks offered, whether investment or speculative securities, found a great market and with a few exceptions, bids were well maintained up till the close.

To-day's favorable turn in prices had a quick effect upon profits on long holdings and further improvement was regarded as certain after the close of the market.

**Wall Street Pointers.**  
Continued activity in Steel shows signs of abatement.

Railroad wages now on same level as before 1907 panic.

Charges of Sugar frauds in custom house increasingly serious.

Black Diamond says there is not enough coal to go round, even in an average winter.

Roads in Northwest report specialty heavy live stock traffic.

Sales by the Westinghouse Electric for past three months, running as high as the best previous year in its history.

Phelps, Dodge & Co. will not enter Copper consolidation.

Unfavorable business report appeared to be largely confined to drygoods trade.

Rumors are current in London of a \$50,000,000 budget loan, but do not find general acceptance.

Large contracts reported for tin plates and steel sheets and output of largest mills sold ahead for three months.

Chinese commissioner may place orders with American manufacturers for war munitions and battleships amounting to \$20,000,000.

Joseph says: The Coppers and kindred stocks will rise of their own momentum. Big money has been on the long side of both Amalgamated and Anaconda. Big things are coming along in Lead country. It is good for par.

Amalgamated should do better and other Coppers ought to sympathize with it. Strongly expected to work higher. We find good buying of Anaconda. There may be some short covering in Pennsylvania. Good buying of the Southwestern low-priced rails is in evidence.—Financial Bulletin.

The Standard Oil Co. to-day declared a quarterly dividend of \$10 a share, which is unchanged from the same quarter a year ago.

Under the influence of the bank statement and the copper manipulation we look for an attempt to manage the market strong this morning, but we regard the long side of leading stocks with some fear, as there is ample evidence that stocks have been transferred to weaker hands during the past week. While next spring the

consensus of opinion is that stocks will be higher than ever, and we agree with this view always with the proviso that the unexpected does not happen in the way of international difficulties. We think that meantime and especially during the next week or two, the chances are that the market will undergo a very severe reaction which will make it worth while to go short of the leaders on strong spots.—Town Topics.

Under the restraining influences of the requirements in money elsewhere, the stock market is riding at anchor, with such vibrations up and down as a well regulated ship would evidence when tied to the wharf. When normal relief comes to the money market, and as the money situation is apparently at the present time the only obstacle in the way of advance, it would be natural to expect to see the market lifted higher as soon as the money skies clear. During the period of waiting, we have the British budget situation to be decided, and such friction as may develop in this will have more or less effect upon prices, but these effects, it must be remembered, will be only temporary. The return of money from the west may begin sooner this year than usual. The volume sent out from the east has been greater than in previous years of normal activity, due to the larger cash reserves carried by the western and southern banks. When the tide turns, a rise in the market can be easily financed and will probably be assisted by investment buying, in anticipation of the January disbursements. To those who care to disregard intermediate fluctuations, most stocks are a purchase for a carry of reasonable duration.—J. S. Roche & Co.

**Break in American Sugar Stock.**  
NEW YORK, Nov. 15.—Stocks of the American Sugar Refining Company broke heavily on the stock exchange to-day, the liquidation was not heavy, the stock opened at 127 1/2, and this afternoon dropped to 121, where it received support. Prices fluctuated violently on the rally. Other than the government investigation there was no specific news to account for the sudden break.

**REPORTS EXAGGERATED.**  
Mr. S. J. Mackie, who is visiting in Toronto, and who is in the insurance business in Jamaica, received a cable yesterday stating that the reports regarding the amalgamation of the two companies had been much exaggerated, and that business was exceedingly good there at the present time.

**COPPER MERGER**  
Combination Will Include Some Twenty Mines—Capitalization \$500,000,000.

NEW YORK, Nov. 15.—Negotiations looking toward merger of copper properties have progressed far enough to warrant the statement that the transaction will be completed before the close of the year. It is now certain that the Amalgamated-Cole-Ryan and Guggenheim properties and perhaps other companies will be included in the merger. The companies in event of a merger as described, would include the following mines: Amalgamated, Anaconda, Boston & Montana, Parrot, Butte, Washoe, Canadian, Canadian Salt, Superior & Pittsburg, Utah Consolidated, Utah Copper, North Butte, Butte, Nevada Consolidated, Cumberland-Lyle, Green-Cannas, Groux, United Metals Selling Co. and International Smelting & Refining Co. The merger includes Phelps, Dodge interests, Ray Consolidated and other mines, but no definite statement in this respect can be made. The statement is made that capitalization of the Consolidated Company is likely to be nearer \$500,000,000 than \$1,000,000,000.

**On Wall Street.**  
Erickson Perkins & Co. (Beatty & Glassco) wire at close of day that the afternoon stock market was distinguished by irregularity, with rather more attention paid to specialties. Amalgamated-Cole-Ryan treated a dominant crossing 94. The railroad group was firm, but appeared to be on sale on bulge. There are common traits of a distributing market. The market as a whole did not make much progress, but held pretty well. With possible delays there will be room for numerous turns in the copper shares. If the past is any criterion, perhaps indices in Amalgamated will be found to have distributed a few points on stocks Saturday and to-day, and will stand ready to replace their holdings on breaks. At 44 Amalgamated had a 15 point advance within a comparatively short time. It may very well have a setback now. News developments to-day were unimportant as a whole.

Pinley Berrell wired J. P. Bickell: As the new copper deal will not require any money for financing, there is no reason why it should disturb the money rate. The deal provides for the incorporation of a new company of at least one billion dollars capital, which will issue preferred and common stocks in exchange for the present outstanding stocks of the copper producing and selling companies. The companies to be purchased have outstanding at least \$100,000,000 of common stock of capital. In view of the advance price taken by the copper interests, we believe they will be compelled to continue the movement.

R. B. Lyman & Co. wired R. B. Holden: It was rumored that Steel common would sell at par before the end of this month. We would suggest buying a little on any slight dip. The situation seems to be clearing gradually and to our way of thinking it will not be long before the upward movement is resumed, and a little patience exercised by those long of market should be productive of good profits.

**TRADERS SOLD ON THE GOOD NEWS.**  
World Office  
Monday Evening, Nov. 15.

Traders scarcely knew what position to take on the Coal-Steel stocks this morning. Some were governed by the old theory that with the good news out the stocks should be sold, and temporarily, in any event, this decision worked out. Coal holders are figuring that the proposed amalgamation offers no future for them, and sales of these shares were made accordingly. While interest converged on the merger stocks, the balance of the market was not entirely neglected, and a strong undertone marked several of the listed issues. British buying of Sao Paulo and other of the later Americans is beginning to be felt, and higher prices for all these issues are quite promising. Buycancy on Wall-street was favorable to bullish sentiment on Canadian listed stocks.
