SHORT TIMBERS WERE USED IN BUILDING NEW WHARF AT SAID POINT

In One Tier Not a Single Stick of Timber Was up to the Specification Requirements as to Length---Timbers Butted Instead of Lapped.

A Times reporter paid a visit this morning to the much discussed wharf, which is now being built at Port Dufferin, on the West Side of the harbor.

The Times man walked over the No. 2 cribwork from end to end, and by making measurements found that there is not a single stick in one tier (that one being the second above the ballast floor) that is the required 22 feet in length.

WHERE WERE THE RUNNERS?

Aerial Ladder Truck Was Taken out on Wheels Yesterday and Delay Was Caused.

Considerable comment has been heard over the fact that the big aerial ladder truck was sent to yesterday morning's fire on Water Street on wheels instead of on runners. As a consequence the team was late in arriving and had the fire been a more important one the result might have been serious.

AMERICAN BOYCOTT STARTED FOR REVENGE BY RICH CHINAMAN

His Family Was Badly Treated by Boston Customs Officials, and When He Got Home He Instituted Campaign of Revenge---Chinese Situation Serious

SAN FRANCISCO, March 2--William Hancock, for the past 31 years a resident of China, and a commissioner of customs there, arrived here on the liner Hong Kong on his way to England. Speaking of the situation in China last night, he said: "The principal cause of the present unsettled condition are the dissatisfaction in southern China over the indemnity to be paid to foreign countries resulting from the Boxer outrages, which occurred in northern China, the outrageous treatment accorded to the wealthy King family of China by a custom officer in Boston, when he and his family were en route from England to China by way of this country. King and his family were treated as ordinary coolies, and the head of the family was furious over the matter. I think he was the real instigator of the boycott."

Yuan Shi Kai, victor of Chi Li province, has done all he could to stamp out the boycott, but no one can do much when once public indignation is aroused in that country. Things are very apt to become serious before peace again reigns.

ed it was open for him to fancy that I wanted to be with him; but between two evils one chooses the least; besides, a nice thing about Mr. Barrymore is that, notwithstanding his good looks and cleverness, he's not conceited—not conceited enough, I sometimes think, for he lets people misunderstand his position and often seems more amused than angry at a snub.

MR. EBEN PERKINS ASKS ABOUT THOSE INDUSTRIES

In a Racy Letter He Compares St. John With an Illinois Town and Makes Some Jocular Remarks About Various Local Matters.

HOPESTON, Ill., Feb. 23, 1906.
Editor St. John Times:
Sir—I have by no means less interest in St. John happenings, but must admit that because I have been for some time constantly on the move, my news from our good city is somewhat stale, therefore I have yet to learn whether my old friend, Col. Hays is languishing in jail, or if Dr. Pagley has concluded that he will serve his purpose as well to pay up and look pleasant.

The attitude towards this question is not peculiar to St. John. "Money" in the Boston Polytechnic has run up against the universal proposition, that the people are most hearty in favor of the law, but against its enforcement. The public estates are supposed to reduce the morals of the people, but it takes very little exertion to get under the surface, like Sabbath legislation, to which our good friends, the Lord's Day Alliance, are most anxious to add. They are a valued item and the public is loath to give them up for fear some desecrating family may need them, as the monks, a jointed devious Methodist, said when he joined the Universalist church, that he had been under conviction for some years, but hated to give up the idea of a hell for Bill Smith and his family.

Here in the U. S. Canada and her resources are occupying a large share of public attention, and local capital and labor are showing a strong desire to "go up into the land to possess it." The recent tariff debate brought out the fact that while New England was willing and anxious to take down the bars to allow Canadian raw material to come in more freely, the proposed to utilize the bars to build higher the tariff fence against Canadian manufactures.

It is evident that the people here see much larger possibilities in their natural resources than are apparent to Canadian eyes, for while St. John capital goes out to mining, real estate and rubber concessions to which "distance lends enchantment," but seldom returns anything more substantial, the people here, who have passed that stage of development, are investing in Canadian industrial enterprises. The Nitro Tool Works has lately acquired control of the Bertina works at Danvers, Ont., and it is now reported that the U. S. Steel Co. have sought the Dominion Wire Mill, Co. plant at Montreal, and although actual transfer is denied, it is well known that they are looking for a solid foothold in Canada, and many of the large manufacturing enterprises here, besides that even reciprocity on any lines the United States has to offer is a dead issue, are only waiting a favorable opportunity to establish themselves in Canada and share in her rapidly growing prosperity.

The St. John paper to sit up and take notice? Chicago papers publish under large headlines, the fact that 80,000 American farmers will go into the Canadian Northwest in 1906, carrying \$90,000,000 of United States money, and those join the 200,000 who have gone in from this country since 1896. Who will supply those people with manufactured goods? Is St. John to get her share?

This town, in many respects phenomenal, offers some points of comparative interest. Of less than six thousand inhabitants the investment in manufacturing is fully equal to that in St. John. The tax rate is low and the system of assessment equitable. The public schools in their efficiency are even in advance of New England towns. Not a drop of liquor can be purchased in the town, even "Peruna," although endorsed, I understand, by the W. C. T. U. of St. John, is tabooed here, and you can count on the laboring people all turning up after pay day. The salary of the mayor is fifty cents per year.

While administrative supervision is purely a matter of honor for the yearly salary of twenty-five cents would draw forth Alderman McGoldrick's characteristic expression "They're up agin it," yet I am told that there has never been any general movement on the part of the board to have the salary doubled.

Hopeson's best and most successful business men have served and are serving on the board, and up to date business methods applied to civic administration, the arrangements have just been completed through which the town secures the location here of the King Piano Co., employing two hundred men—this means an addition of approximately one thousand people to its population.

What is done to induce industries to locate here? I asked the same question. The reply was that outside of the last deal no bonus of any kind whatever had been offered or given. In the case of the King Piano Co. I understand that twenty thousand dollars has been subscribed towards buying land and building which property will be decided to the company after it has actually paid out a certain amount in wages.

The stock in all the industries here is largely held by Hopeson people who not only believe in their success, but everything in their power to realize it. They are also fully alive to the advantage of having industries in the town and are ever alert to secure them. In this respect unlike St. John, so hardened by pessimism that if a good industry comes to town, they are likely to be thrown out of it, they probably have no one to offer for the city proper business management? And where is the "Board of Trade" committee on New Industries? Yours truly,
E. PERKINS.

RED ROSE TEA THE WORLD OF SHIPPING

Representatives of the Company Combined Business With Pleasure Last Week.

The past week has been a busy one for the Ontario branch of the Red Rose Tea Company. The Toronto branch of the company, owing to the large increase in trade, have recently found it necessary to move from their old quarters at 25 Front Street East to new offices and warehouses at 2 Wellington Street East, where they have recently taken the whole building. The new offices were occupied on February 1st, and on Friday, February the 23rd, the tea-makers of the company from all parts of the province came to Toronto to celebrate the event, leaving on February 23rd, after a most unanimous vote to have been the most enjoyable reunion in the history of the Ontario trade. The following representatives of the company were present: Walter C. Gaden, Montreal; B. R. J. Norris, Kingston; Robert W. Vant and Hen. A. Fisher, Brockville; Harry A. Howey, Stratford; and Rupert Pease, Walter A. Harrison, W. J. Chapman, Geo. E. Taylor and Geo. H. Campbell, of Toronto.

On Friday evening, by special request of the Secretary of the Young Women's Christian Guild, a demonstration of Red Rose Tea was given in the domestic science room of the Guild. Usually, in demonstrations of this kind it is the practice of the gentlemen making the demonstration to have the young ladies serve the tea in this case the gallant gentlemen begged their manager, George H. Campbell, to have the order of things reversed, and since then the ladies have served, and have appreciated the courtesy shown.

Tables, walls and coat lepls were provided, and the natural growth of the country should fall to her share.

Who of her business men are offering for the city proper business management? And where is the "Board of Trade" committee on New Industries? Yours truly,
E. PERKINS.

The success of the meet was somewhat marred by an accident that occurred about the start of the races. P. S. Brown's mare, which was attached to a lino sulky reared and fell on the ice, landing on her head with terrific force. The neck was broken and the unfortunate animal died a few minutes afterwards, leaving a pond of blood on the ice as the result of the bursting of an artery. Picton C. Brown was driving and miraculously escaped being crushed by the falling animal. Mr. Brown says he would not take \$500 for the mare which won two races this season and which he was training for the track next season.

THE RING
Arthur Cole was knocked out by Peter Sullivan of Fall River at Augusta Tuesday night in the fourth round of what was to have been a 15 round bout. In the condition he was in when he fought Kid Goodman, Cole would without much doubt have beaten Sullivan, but could not have been in any condition for a hard fight for he was in Boston last week and had done little to get in shape for this bout.

The result gives Cole another setback. He had beaten Sullivan in the claim to the title of lightweight champion of New England would have been clean and indisputable. Those who have taken an interest in his career will be disappointed at the outcome of last night's fight. With the reputation he had made by defeating Briggs, Decker and Goodman it would have been good judgment to have passed over this fight until he was in first-class condition.

A TRAVELLER
Into the dusk and snow
No man of us may know
By what accident he fell
He had been comrade long
But, though our will was strong
There is a strange light
Beyond the solemn night
He will find morning—
The summer's blinding beam—
Beyond the snow's chill gleam
The clear, bright sun of day
The inalienable sun.
The calm, high eastern sky
They will not fall the goal!
Largely will be our content
If it be ours to go
One day the path we went
Into the dusk and snow!

The coming of Ash Wednesday and Lent marks the "close season" in society circles in St. John, as well as elsewhere, and the usual gaiety is for a time eclipsed.

There is practically a suspension of social functions until Easter tide and, consequently the "society reporter" has troubles of her own. However, the week closing tomorrow has been a pleasant one, and if no very large functions were held there have been some very enjoyable private ones. The Alban concert on Wednesday was probably the principal event of the week.

The musical performance commenced with a selection by Prof. Moseley, orchestra. R. Welmore followed with a solo. J. Marjory never sang so well. Master Eric thus, the boy soprano of St. John, followed. It was possible we would describe the quality of that voice so pure, so sweet, so fine. Master Eric was grandly successful. The singing of S. L. Loynd of Red Beth was greatly appreciated.

Mrs. George Murray, R. Bishop, of St. John; Miss Helen Lynd, Miss Julia Murray and Miss McCarthy of St. John sang delightfully. After the musical programme was over, the evening was given to the social enjoyment of the evening. Miss Jennie Maitland presided at the piano to the eminent satisfaction of all.

ST. JOHN SEA CAPTAIN FOUND AFFINITY IN HIS RESCUER

Pleasant Romance of the Sea Which had its Inception in a Shipwreck and its Culmination in a Happy Wedding.

Friends of Captain Harry Hatfield, who was recently married in Somerville, Mass., say that his wedding was the culmination of a pretty romance which had its beginning in a storm off the Massachusetts coast with a little schooner, a gallant skipper lashed to the rigging and a fair rescuer, the heroine, as its principal features. The Boston American of Tuesday details the whole story as follows: "If the schooner Sarah Potter had not gone ashore in a gale off the rockbound coast of Salem, and if Captain Harry Hatfield hadn't lashed himself in the rigging until daylight brought success—a circumstance that he esteemed the opposite of favorable during the four hours the sea dashed over him—he would not have married Miss Helen Daisey, of No. 7 Porter street, Somerville, daughter of Mr. and Mrs. John H. Daisey, in January, and a pretty romance would remain untold. "The Sarah Potter hailed from St. John, N. B., and was beating down the New England coast late in the summer of 1892. Captain Hatfield and his crew of four worked with all their might to keep her afloat, but could only do it by running before the wind with bare poles, and the wind was dead on the coast. "In the darkness they made out the

CONTRACTORS AND OFFICIALS

A Case Where Inferior Timber Had to be Taken out of a Wharf.

The following extract from a letter to the press at the time the Melrose wharf was being built is of interest at the present time. The two members of the council of that day who inspected the wharf referred to in the letter are still living. The case was another where the city could not depend on its own officials for the proper carrying out of a contract. "I have been rather amused at the surprise manifested by the public at the disclosure made in the recent discussion of the board of works in connection with the manner the wharves on the Melrose wharf are being constructed. The sort of thing is nothing new, but it is only occasionally that the facts leak out, and come to the surface, the tax payers can see them. Those who know something of the inner workings of those matters know that no city contract is ever carried out according to the plans and specifications. Whether this arises from indifference, ignorance, incapacity or worse on the part of those who are paid by the city to look after it, I would not dare to say, but I think as I like. "To show this up, I will give you a little account of the Melrose wharf, which happened to be under my supervision. At that time the harbor was managed by a harbor committee. The whole top and quite a distance down was in a decayed and rotten state and was gradually sinking, and in danger of being swept away by the heavy seas that sometimes roll in there. Plans and specifications were prepared for putting it in thorough repair. Tenders were asked for and the contract awarded. The work went on, and was drawing toward the top when a member of the committee called upon another member of the council, requesting him to go down with him and give his opinion as to whether he thought the work was being done according to specifications. The member appointed to object to going, as he was not a member of the harbor committee, but he was a member of the council. However, his excuses were overruled, as it was only a matter of opinion. "Being going, however, they concluded to go and examine the specifications, after which they went down. And they found an inferior and cheaper quality of wood than what the specifications called for. This was laid before the committee and the inferior timber had to be taken out and replaced by such as the specifications called for." "Here was a case where the contractor had to take out inferior timber, but after independent investigation by two aldermen.

THE DOCTORS DID NOT AGREE

Hence the Quarantine Was not as Prompt and Effectual as it Might Have Been.

In connection with the smallpox cases which have been reported from Kennedy's Camp, there appears to have been a disagreement among physicians. Dr. Warwick of Westfield ordered a quarantine of the camp, Dr. Fisher of Fredericton, and Dr. Curran of Fairville, are said to have raised the quarantine. In the case of the man Tibbald, at Kingsville, Dr. Grey declared it smallpox. Dr. Ellis at first agreed with Dr. Grey that it looked like smallpox, but later he and Dr. Addy decided it was not that disease, and the members of the family were free to come and go. Tibbald came from Kennedy's Camp, as did Bedrus and Holland, who have since had the disease. Apparently if the camp had been closed, quarantined at the outset there would have been less trouble since. "A joint meeting of the provincial and local boards of health was held yesterday and it was decided to more strictly quarantine the lumber camps near Westfield. It was not considered necessary to adopt compulsory vaccination, Kennedy's Camp will be thoroughly cleaned and fumigated. It is believed that three men have broken quarantine in a Kings Co. camp and have gone to their homes in Chatham. The men were located and their homes quarantined before noon. "No new cases have been reported at Grand Falls.

The liberal committee of Rothessay held a meeting and dinner at the Willows on Wednesday. An excellent dinner was served, when the usual toasts were honored, and at the meeting the committee appointed submitted the following resolutions which were adopted: "We, the representatives of the liberal committee of parishes throughout Kings Co. on behalf of the public respectfully request that in their opinion the present working of the Highway Act is not in the interest of the public and as a remedy would request that the local government appoint a commissioner of each parish who shall have power to appoint and dismiss road masters and that ten per cent of the taxes of the different parishes be set aside as a fund available to the public on behalf of the public interest for the purpose of providing a subsidy and call for tenders for said service, in accordance to the public interest for a suitable fee for each service to be inaugurated the present summer season. (Signed) J. W. Campbell, Chas. Dickson, W. A. Saunders. "We the representatives appointed by the liberal committee of parishes of Kings Co. at a meeting tonight wish to present the following: Resolved that the better ferry service is absolutely needed for the public good between Clifton, Reed's Point and Gondola Point and that public interests demand that the government provide a subsidy and call for tenders for said service, in accordance to the public interest for a suitable fee for each service to be inaugurated the present summer season. (Signed) J. W. Campbell, Chas. Dickson, W. A. Saunders. "The committee appointed at a meeting of the chairman of the liberal committee of parishes of Kings Co. held tonight respectfully request you to impress on the chairman of the liberal committee of N. B. the advisability of calling an early convention for the purpose of nominating candidates and placing them in the field early for the approaching local election; such being a resolution unanimously passed at said meeting. (Signed) A. Dobbin, John Higgins, J. W. Campbell, C. Dickson, Jas. Waddell, W. A. Saunders. "For the dinner, D. O. Longley, of Norton, was made toastmaster. The list by Our King and Country, responded to by J. W. Campbell, Our Premier and the Liberal Party, Dr. McVey, Kings County, responded to by Dr. McVey on behalf of Hon. Wm. POLICE CALLED OUT

Never in the history of St. John was a bigger crowd of bargain seekers together for a hat, cap and fur sale, as that which was at Anderson's today. The police were called to protect the people and keep order. Long before the time for opening a large crowd gathered before the door, and during the day the doors were locked several times to keep the crowd back. It was like a circus on Charlotte street, and the people who attended went away well satisfied. The manager says the 700-hat sale has been a grand success and he has engaged additional help for the remainder of the season.
