Steamship Lines To This Port Now in Rate War

Prices Tumbling On All Sides Is Report

G. P. R. AND ALLANS IN IT

Royals and Donaldsons Also May Be—Commanders and White Star as Well, While Hamburg Americans and North German Lloyds Are at it Hammer and Tongs

(Canadian Press.)

London, Jan. 28.—The rate war started by the Hamburg-American Line on the cancellation of the North Atlantic steamship pool, is now in full swing, and it is to be a fight to a finish. The other steamship lines declare their readiness to meet any cuts in steamer rates made by the Hamburg-American company, and to meet its challenges at every point. As a result, rates are tumbling all around.

On February 1 the Hamburg Company will reduce its steamer rate to New York to \$25 and to other ports to \$22.50. The North German Lloyd Company has issued orders to its agents to make a similar reduction and also to follow every cut by the Hamburg company, however and whenever it is made, but it is understood that the Bremen Company will not cut its rates lower than the Hamburg Company.

Lines to Canada Also

The British lines have now decided to cut the rates between the continent and Canada. The Cunard, White Star, Canadian Pacific, and Allan lines, and probably the Donaldson and Royal companies will reduce their westbound rates \$2.50 and the eastbound one \$3. This is described at Liverpool as merely a self-defensive decision to meet the possibility of passengers being tempted by reduced railway fares being met by New York and Boston to travel by those routes.

The opinion in Liverpool is that the competition will be fierce and costly and that rates will eventually drop to those of ten years ago. Nobody will benefit by this except the shippers. The prices of shares of the Cunard and White Star companies have fallen on the Liverpool stock exchange because of the rate cutting.

SURPRISE PARTIES

The home of Mr. and Mrs. Charles Garfield in Adelaide street was invaded by a large party of friends last night who gave them a pleasant surprise, and who, during the evening, presented to them a handsome silver scallop dish. The presentation was made, in behalf of those present, by George Wilson. All present had a very delightful time. Refreshments were served, and at a little after midnight the party broke up. Mr. and Mrs. L. J. Phillips were taken quite by surprise last evening at their home 95 Exmouth street when friends called upon them and as a mark of esteem presented to them a handsome parlor lamp. Walter Macaulay made the presentation in behalf of the gathering and all of whom had a pleasant time in dancing, music, games, etc. Refreshments were served about midnight.

CAUSED EXCITEMENT

An argument between two dealers in the country section of the city market this morning caused quite a commotion and attracted many people to the spot where the two men were "haggling" over the ownership of a hide. Their loud voices and the heated debate which seemed inclined at almost any moment to end in blows. The arrival of the special market policeman put an end to the affair, and the crowd dispersed, though the question of ownership of the hide seemed still in doubt.

Released on Bail

Edmonton, Alb., Jan. 28.—Dr. F. G. Hughes, held here at the request of the Toronto police, was released yesterday afternoon by Supreme Court Judge Beck on \$20,000 bail. In the forenoon Magistrate Massie refused to grant bail.

Militants Try To Break Into the Cabinet Meeting

Auto Dash Into Downing Street, However, But Leads to Their Arrest

London, Jan. 28.—Militant suffragettes today made a bold attempt to break into a meeting of the British cabinet council at the official residence of Premier Asquith in Downing street. An automobile belonging to the militant suffragette organization, with a woman driver at the wheel and filled with suffragettes, dashed from Whitehall into Downing street before the line of police could bring the car to a halt. When the driver refused to obey the order of the police inspector on duty, to retire from the street, the entire party of women was placed under arrest and taken to Scotland Yard.

The women's automobile was decorated with placards protesting against the forcible feeding of suffragette prisoners and demanding that the cabinet cease the "torture of women in English jails." The unexpected move caused great excitement and a huge crowd soon gathered about Downing street.

Y. M. C. A. CRAMPED FOR ROOM

Larger Membership and Increased Interest Bring Suggestions as to Meeting New Conditions

Although every provision possible was made for the handling of increased classes when the new Young Men's Christian Association building was erected here a few years ago, the interest in the organization, as well as the membership, has so increased since that time that it has become apparent that the extra accommodation is not sufficient to meet the increase. And therein lies the problem that is now facing the officers and directors of the association.

It cannot be said that during the last year the numbers of members has increased to any great extent, yet the attention that is being paid by the members to the different classes, and particularly those in the physical department, has increased. To show how much more interest is being manifested in the gymnasium end of the association, a comparison of the attendance during the month of December in both 1913 and 1912 shows an increase for the month of December, 1913, of 1,811 members, or an average of 59 members per day. The average class attendance of about 25. These figures are exclusive of the boxing, wrestling and other classes, as well as the basketball leagues, which would bring the attendance figures well over the two thousand mark.

The boxing and wrestling classes are recent additions to the day's programme. As there were no provisions made for the handling of these classes in the building, the wrestling class is being conducted on the gymnasium floor, while one of the committee rooms upstairs is used for the boxing pupils.

A possible solution of the difficulty has been put forth by one of the men connected with the institution, and involves the conversion of two of the present rooms into dressing rooms and the institution of the box locker system. There are now three locker rooms in the building and two of these could be eliminated with the introduction of the new system. In the new arrangement the boxes are made only of sufficient size to hold the gymnasium suit rolled up. Each member would have a box in which his suit was placed and a number of the present lockers would still remain for the keeping of the members' street clothes while the men were on the floor. The lockers could be locked with the lock taken from the members' own box. In this way only a sufficient number of lockers would be required for the men in the class than the present number. The erection of a new and larger building for the Y. M. C. A. has been suggested as a means of keeping pace with the growth of the institution, but this is not considered practical at the present time on account of the difficulty likely to be experienced in raising funds.

The present building would also have to be closed for the last of the year. The suggestion has also been put forth that the building might be purchased by the school board and used for their domestic science, manual training and other like departments, as well as physical culture department of their own.

As the matter stands now, however, the necessity for more space is apparent, and if the present increase in activities continues, some action will have to be taken by the directors.

WILL REPORT FAVORABLY ON EXTENSION OF THE FRANCHISE TO WOMEN

Mistaken Impression as to What Request to Mayor and Council Meant

Owing to a general misunderstanding of the petition of the St. John Women's Suffrage Association recently presented to the common council, Mrs. W. Frank Hatheway has written Mayor Frank Kenzie asking that the mistaken impression be corrected. It was said at the council that the request of the ladies was for a referendum at the time of the next civic elections to ascertain whether or not the franchise be extended to women in provincial elections upon the same terms as in municipal elections. Mrs. Hatheway, in her communication to the mayor writes that her request is that the vote be given in municipal elections to married women who pay taxes. At present the only women who can vote are widows or spinners who pay taxes and the franchise is extended to married women on the same terms.

LITTLE GIRL MAY DIE; BROTHER MAY RECOVER

Children of Baggage Master McKenzie of I. C. R. Fearfully Injured by Train

Moncton, Jan. 28.—Two children of Mr. and Mrs. Alexander McKenzie were run over by an I. C. R. train at Springhill Junction. Mr. McKenzie is one of the most prominent baggage masters on the eastern division of the I. C. R. According to information received here the little boy and girl were playing in the rear of the train on a siding. The train backed out and ran over them, severing one of the little girl's arms and injuring her internally. She is not expected to recover. The boy's legs were broken and he was also crushed about the hips. He may recover. It is understood an investigation will be held. There is much sympathy for the father and mother.

TABLES TURNED ON THESE TRAIN ROBBERS

Zanesville, Ohio, Jan. 28.—An attempt to rob a Baltimore and Ohio passenger train was frustrated near here this morning by passengers. Four men boarded the train at Bellaire and one attempted to rob a woman passenger, while the other three demanded money from other passengers. Persons in the car went to the woman's assistance in such numbers that the robbers were captured while the other three jumped from the train. The man gave his name as Harry Warner.

PARCEL POST SYSTEM IN EFFECT FEB. 10

Ottawa, Jan. 28.—The rates on the new parcel post system are out. The plan will go into effect on Feb. 10. The zone system of charges has been adopted to prevent excessive charges for short distances and to save the department loss on parcels carried great distances. In Ontario and the Maritime Province there is a twenty mile zone and then everything else in Canada comes in.

THE STEAMERS

Steamer Manchester left for Manchester for the port, arrived at Halifax at five o'clock last evening. The Grampian, of the Allan Line, from Liverpool for St. John direct, was about to leave at 12 o'clock this morning and is due here Thursday morning at two o'clock. Steamer Miquelon, bound for Halifax, was eighty miles north of Sable Island at 1:40 o'clock yesterday afternoon.

The British steamer McElwain, arrived at Liverpool, N. S., yesterday from New York and sailed for London.

TRY AGAIN FOR THE RECALL OF COMMISSIONER

Mr. McLellan Says He is Not Worried Over it—A Petition Being Prepared

An effort is being made to secure a petition for the recall of H. R. McLellan, Commissioner of Public Safety. A lawyer has been retained by a committee of citizens to prepare the petition, but he refused to discuss the matter today.

During the last year there have been rumors at various times of similar attempts but so far they have not borne fruit. This time, it is said, the effort to bring the matter to a decision will be a determined one. The man most active in the movement is said to be a former North End fireman who was discharged by Commissioner McLellan.

As the petition must have the signatures of fifteen per cent of the voters qualified at the last election before it can be considered the promoters have a formidable task ahead of them, as this will necessitate about 1,800 signatures.

When asked about the matter today Commissioner McLellan said he had heard rumors of the proposed recall, but added, "I am not losing any sleep over it. In the first place, I do not believe they will get enough signatures. It was tried before and only eleven voters signed the petition. In the second place a commissioner cannot be recalled because his policy is not approved of. If his honesty cannot be questioned, there must be some more specific charge of wrongdoing. I only wish they would succeed so that some of these people would have to come out into the open and give me a chance to answer them. Without appearing too confident I believe that I can safely say that I can beat any man they could put up against me on a recall election under the circumstances."

ASBELL AGAIN IS SCOTT ACT

Hampton, N. B., Jan. 28.—The first time of business in the municipal council this morning related to an assessment of the city. The council assessed \$6,250 for the school fund. It was ordered that in future all assessments on the ratepayers of St. John shall be collected by the regular collector.

The committee on public meadows reported that they had received \$300 from the sale of hay on Grass Island, \$30 from Pig Island, and \$2 from the Kennebecasis meadows. They also asked for a new scow, and were authorized to learn the cost, with power to purchase. The buildings committee reported that they had completed the change of plant in the hall and recommended that the heating pipes of the court room be connected with the present unused boiler and furnace in the cellar. The report was adopted.

The report of W. G. Asbell, Scott Act inspector, showed that there had been twenty-two cases prosecuted with nineteen convictions. Six appeals had been made to the county court. Twelve persons had been tried and eleven had been convicted. The cost had been \$720.10, and the financial shortage was \$508.01. The report was adopted.

On a motion to re-appoint Mr. Asbell as inspector, a delegation from Suffragettes, consisting of Rev. Mr. Mitchell, Rev. Mr. McDonald, Rev. H. C. Rice, Rev. Mr. Parker and Mr. Weyman, representing the ministerial association, the W. C. T. U. and the temperance alliance, spoke most highly of him as a public officer and said that the interests of morals and public good called for a continuance of his services. Mr. Asbell was unanimously reappointed at a salary of \$500.

A resolution of regret at the death of Councillor Laughey, of Norton, was entered on the record.

RILEY HORSE NOW SAID TO BE AT GONDOLA POINT

The Riley horse case was again before the police court this morning but Leo McNamara who it was thought owned the horse said he had disposed of it to Mr. Harrison at Gondola Point. The case was further adjourned until next Wednesday.

McNamara said that a few days ago he sold the Riley horse to Mr. Harrison for \$50 but had not yet received payment as he was in no hurry for it. He described the horse as being in first class condition and said that it was a steel gray color although the Riley horse was described as a roan horse. Policeman Goslin said that he had seen Mr. Riley drive the horse in question some time ago and that it was in poor condition.

Mrs. Charles Coster said she saw a roan horse in King street last fall and that it was very lame. She spoke to the driver but could not swear that it was Mr. Riley but would be able to identify the horse.

Says Government Against Canadian Laboring Men

Arraignment By The Labor M. P. In Commons

KEEPING UP LIVING COST

What High Tariff, Trusts and Watered Stock Mean in Actual Dollars in the Working Man's Household—Unemployment Figures of Sir Wilfrid Within the Mark

Ottawa, Jan. 28.—Mr. Verreille, labor M. P., the last speaker before the vote was taken in the House of Commons last night, expressed regret that there was nothing in the speech from the throne indicative of any action by the government on behalf of the laboring man.

The general course of the government, he said, tended to give the impression that the ministry is hostile to labor. While he did not disapprove of the appointment of a commission to investigate the high cost of living, he held that some immediate action should be taken to deal with the problem.

"When the fire is at a man's home," he said, "he does not usually send for the fire brigade by mail."

"Three capital causes," he said, "are mainly responsible for the high cost of living—tariffs, the over-capitalization of trusts and mergers and the operation of the cold storage system."

Incidentally, he said, fifty-six trusts and mergers have been formed in Canada in the last four or five years, nineteen of them in 1912. Tariffs, he declared, increased the cost of the clothing of the average working man's family \$40 a year while the additional cost of food-stuffs on account of the tariff was \$60 a year. Moreover, watered stock caused a further extra payment of \$183 so that a big hole was made in the working man's wages.

As to unemployment, Mr. Verreille took the ground that Sir Wilfrid Laurier had not exaggerated when he said that 100,000 Canadians were out of work today. He read a telegram from R. I. Pettipiece of Vancouver, to show that today there were 4,800 men out of work in the bonded trade alone, and that 10,000 people had left British Columbia for the United States because of lack of work in the last four months. In Greater Vancouver, 10,000 people were workless today. In other cities similar conditions prevailed.

"Our friends opposite told us in 1911, Mr. Verreille exclaimed, "that if we receded from the factories would close. Reciprocity did not pass, but some factories closed or have cut down to half time."

The absentees when the vote was taken included Premier Borden and Hon. W. T. White, both of whom are confined to their homes with illness. The premier was paired with Fred Pardee, chief Liberal whip, and the minister of finance with Hon. H. R. Emmerson.

FAIL TO HAVE RACE PROBE DEFERRED

Athletic Committee Looking Into Circumstances of New York Contest

New York, Jan. 28.—Efforts to have the registration committee of the Metropolitan Association of the A. A. U., members of which suspended James Kolehmainen and Abe Kiviat pending an investigation of what the committee termed a suspicious race on last Saturday night, rescind their action, if only temporarily, in order that the men might compete tonight in the games of the Millrose A. C. in Madison Square Garden, have failed.

Kiviat put in a personal application and coupled his statement with a certificate from his physician, the gist of which was that he had not been physically qualified to do anything like his best at the time of the race and that necessarily warranted his miserable showing. Kiviat said that he had been badly treated by the committee, because he had not been given an opportunity to clear himself from any charges which might have been brought against him. John McGowan, the manager of the games, last night was informed that no further action would be taken by the registration committee until their announced session, which would take on the nature of a trial, on February 4. All that Kolehmainen has had to say was that he had done his best.

NEW YORK B'GADE HAS A FIGHT WITH DANGEROUS FIRE

New York, Jan. 28.—With chemical manufacturing plants on either side and a nitro-glycerine factory across the street, Brooklyn firemen on shore and harbor fought a four-alarm blaze in the fruit packing establishment of Hill Bros, in Irving street, last yesterday. The property loss was estimated at more than \$20,000. Five minutes before the fire broke out between 800 and 400 girls had been at work. The fire was still in the building when it escaped.

CONVICT KILLS WIDOW WHO SPURNED HIM; ENDS HIS OWN LIFE

San Francisco, Cal., Jan. 28.—James F. Glennard, a former convict, shot and killed Mrs. Cleo Ferrand, a widow, here last night, and then turned the pistol on himself, dying instantly. The woman had refused to marry him.

GOOD BLOOD THE SECRET OF HEALTH

To Be Healthy You Must Keep the Blood Rich, Red and Pure

Dr. Williams' Pink Pills are useful in any disease caused by thin or impure blood, and the list of such diseases is astonishingly large. Anemia literally means a condition in which the blood is thin and watery. In rheumatism the blood becomes thin more rapidly than in any other disease. After an attack of influenza or acute fevers the blood is always thin and impure, and Dr. Williams' Pink Pills are the tonic to use during convalescence. When the blood is poor and thin the stomach suffers. The food ferments, gas and certain acids form and the trouble is pronounced indigestion, dyspepsia, flatulency, nervousness, and the nerves receive from the blood all of their nourishment to keep up their energy and repair waste or damage. Some forms of paralysis, such as the paralysis of the blood, the progress of locomotor ataxia is stopped in many cases when the blood is made pure, rich and red. This is a partial list of the troubles having their origin in impure, watery blood, and all can be cured by supplying the blood with its missing constituents. This is exactly what Dr. Williams' Pink Pills do. Their chief mission is to make rich, red blood, and this good blood reaches every organ and every nerve in the human body, thus driving out disease and bringing renewed health and strength to thousands of weak, dependent people. Ask your neighbors. There is not an inhabited corner in Canada where Dr. Williams' Pink Pills have not restored some sufferer, and all over this country there are grateful people who do not hesitate to say they owe health—in some cases life itself—to this great medicine. If you are ailing begin to cure yourself today by using Dr. Williams' Pink Pills. Sold by all dealers in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

THERE'S A SNAP IN THE WAY OF A CIVIC JOB

Kingston, Ont., Jan. 28.—Under the heading of "A Hustler Wsaled," the village of Athens asks for a man to fill the following duties: Assessor, collector, village constable, janitor of town hall, caretaker of fire engine, weed inspector, trussery officer, collector of poll tax, to enforce all village by-laws, and to give his entire time to work of the corporation.

Kidney and Bladder Trouble Causes Great Distress

It gives me great pleasure to recommend Dr. Kilmer's Swamp-Root to any one suffering from bladder trouble. For four years I was troubled by hemorrhages from the bladder and was not able to get any doctor who could help me. It was impossible for me to straighten up. Mr. Henry, one of our leading druggists, advised Dr. Kilmer's Swamp-Root. Although I never had any faith in patent medicines, as a last resort I purchased a dollar bottle of Swamp Root. I noticed a decided change and after using two bottles I was completely cured. It seemed remarkable that I should be cured so quickly after being ill so long. But since this took place nearly two years ago, I have never been troubled and would highly advise any one suffering from the same trouble to at least give Swamp-Root a trial and I think the result will be the same as mine. Yours very truly, THOMAS A. BENNETT, Greensburg, Ind. Personally appeared before me this 14th day of February, 1913, Mr. T. A. Bennett, who subscribed the above statement and made oath that the same is true in substance and in fact. L. A. BOWER, Notary Public.

Letter to Dr. Kilmer & Co., Binghamton, N.Y.

Prove What Swamp-Root Will do for You. Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention the St. John Evening Times. Regular price 50 cents and \$1.00 six bottles for sale at all drug stores in Canada.

WANT \$15,000,000 FROM THE GOVERNMENT FOR MONTREAL HARBOR WORK

Ottawa, Jan. 28.—Further extensive improvements designed to make Montreal one of the best equipped ports in the world are behind an application which has been made to the government by the harbor commission for a large loan. The amount, it is understood, is \$15,000,000. A good deal has been accomplished already, but the commission has ambitious plans for further improvements, the expenditure to be spread over a term of years. They will be made systematically from season to season as part of a general scheme, and each year's plans for the works in contemplation will be drawn up and submitted to the government for approval. Generally speaking, the money is sought for extension of the wharves and docks and the construction of additional sheds. The elevator capacity of the port is likewise to be increased to take care of the augmented requirements of the grain trade. A new plan being evolved is the elevation of the tracks of the railway operated by the commission, while it is proposed that electrically instead of steam shall be the motive force. Improvements to the Lachine Canal entrance, the reduction of river currents, construction of bridges and gangways and dredging are also proposed, together with the retirement of unsatisfactory structures. The application will be considered by the government and there is little question that a bill giving effect to the request will be introduced, authorizing advances from year to year to carry out the projected undertakings.

MANY MONTANA MARRIAGES VOID

Helena, Mont., Jan. 27.—Hundreds of marriages in Montana are rendered invalid by a decision handed down today by Judge Smith in denying the application of Henry C. Cotter, of Spokane, for appointment as special administrator of the estate of Mamie Cruse Cotter, his supposed wife. Judge Smith held that the marriage of Miss Cruse to Cotter, ten months after she had divorced Alva O'Brien of New York, was invalid under the Montana law prohibiting the marriage of an innocent divorced person within two years, and a person divorced for cause within three years. An attempt was made to repeal this law in 1905, but it failed. Since that time it had come to be so generally disregarded that few persons were aware that it was on the statute books. Winnipeg, Jan. 27.—While preparing to leave his home to go to his office, Daniel Parker, passenger agent for the Chicago, Milwaukee & St. Paul railway, and a well known figure in railway circles, dropped in the street and was sixty years old and had been a resident of Manitoba for thirty years.

SEE IF THE CHILD'S TONGUE IS COATED

If Cross, Feverish, Constipated, Give "California Syrup of Figs"

Look at the tongue; mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once. We need not cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad; has stomach-ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile will be gone out of its little bowels without gripping, and you have a well, playful child again. You need not coax sick children to take this harmless, sweet, laxative; they love its delicious taste, and it always makes them feel splendid. Beware of counterfeits sold here. To be sure you get the genuine, ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

INSANE NATION IN 400 YEARS, SAYS DR. HILLIS

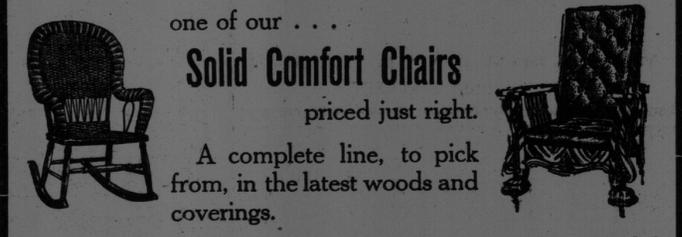

Typical Building of Country Today is Asylum, Notes Brooklyn Minister Tells Race Students. The Rev. Newell Dwight Hillis, of Plymouth Congregational church of New York, N. Y., predicts that in four hundred years every person in America will be insane. Dr. Hillis, addressing the National Race Regeneration conference on "Factory Degeneration," at Battle Creek, Mich., declared the typical building in the United States today is not a high school, library, college or church, but an asylum for the insane or home for the feeble minded. Degeneration comes from the working classes more largely because they are badly fed, poorly housed, poisoned with liquor or nicotine or overworked. Dr. Hillis declared that the typical factory is a place where the actual revolution in factory conditions, putting factories in the open, providing tenements houses away from smoke and noise and providing playgrounds for children and athletic fields for adults. "The per capita consumption for alcohol is increasing; people drink more spirits and less beer, the use of drugs is growing and prohibition is a failure," said Henry Smith Williams, of New York. Mr. Williams declared the only solution is to make the sale of liquor a government monopoly and eliminate private profit. He said: "We must make efforts to control liquor traffic by summary legislation, legally failed. Prohibitory legislation, local or otherwise, has never been effective in reducing the amount of alcohol consumed by the individuals to whom it is most harmful. Illicit stills spring up in prohibition states; liquor of the worst quality is everywhere dispensed surreptitiously; and morphine and cocaine, supplement the effects of the bad liquor."

EGZEMA ITCHED AND BURNED

Rash on Legs and Back. Scratching Irritated Breaking Out. Used Cuticura Ointment. Disease Vanished.

Kentville, N. S.—"For about five years I was bothered with a light rash which would appear most heavily on my legs and back. This troubled me most in the spring of the year. They said it was eczema. The eczema itched and burned and my scratching irritated the breaking out. After it broke out I could not obtain any rest at night. I used all the patent preparations on the market but they only seemed to increase the suffering and afforded me no relief whatever. About this time a friend recommended Cuticura Ointment to me. However, I had lost faith in all remedies and told him so, but he insisted that I try Cuticura Ointment so I purchased a box. The first application gave relief and in about a week the sores were healing and I was able to obtain a good night's rest, the first I had enjoyed for many months. I continued the treatment for another month and by that time all signs of the disease had vanished." (Signed) Willard P. Allen, May 16, 1913. For more than a generation Cuticura Soap and Cuticura Ointment have afforded the most economical treatment for affections of the skin and scalp that torture, itch, burn, scale, and destroy sleep. Sold everywhere. Sample of each mailed free, with 32-p. Skin Book. Address post-card, Potter Drug & Chem. Corp., Dept. D, Boston, U. S. A.

A Plain Business Proposition

Can you afford to go on suffering from biliousness, sleeplessness, heart flutter and various other troubles so often brought on by tea or coffee drinking, just because you like it? Thousands have quit tea and coffee and are using Postum, and to their joy find that the annoying troubles have quickly disappeared. Not only that, but they find Postum a delightful beverage, with a rich, snappy flavour, distinctively its own. Postum, unlike tea and coffee, contains no caffeine nor other drug. Made only from clean hard wheat, with a small per cent. of New Orleans molasses, it is a pure, wholesome food-drink which can be freely enjoyed with benefit by all the family. Postum now comes in two forms: Regular Postum—must be boiled 15 to 20 minutes. Instant Postum—is a soluble powder. A scant teaspoonful to each cup of hot water dissolves instantly. The convenience of Instant Postum is apparent. But, when prepared according to directions both kinds are exactly the same. The cost per cup is about the same. Grocers everywhere sell both kinds.

ANEMIA BLOOD POVERTY AND DEVELOPS AT ANY AGE

checks and lips become pale, the body is languid and colds are easily contracted—it undermines the very source of health and must have immediate treatment. Drugs or alcoholic mixtures cannot make blood. Nourishment is necessary and Scott's Emulsion is always the physicians' favorite—it concentrates the blood with red corpuscles, feeds the famished tissues and carries food value to every tiny nerve and fibre in a natural, easy way. Take Scott's Emulsion to enrich your blood but shun the alcoholic substitutes. Experiments made by German scientists show that butter kept best when preserved with 3 to 4 per cent. of salt. If the proportion of salt is higher than that the results are less satisfactory.

**RECENT DEATHS**

After about a year's illness the death occurred yesterday of Esther A. Seely, wife of S. F. Seely, of Carleton. Mrs. Seely was daughter of Edward L. Burns, of this city. Besides her husband she leaves three small children. Interment will be made on Thursday afternoon at Campbell's Settlement, Kings county.

Dr. Bliss S. Thorne of Havelock, Kings county, passed away yesterday afternoon. He was seventy-one years of age and had been ill for a long time. Dr. Thorne was of Loyalist descent and was a nephew of the late Dr. A. M. Howard three terms. His father died in Middleton, N. S., two years ago at the age of ninety-six.

Dr. Thorne was a member of the Canadian Medical Association and was formerly vice-president of the New Brunswick Medical Society. He was formerly high physician for the High court of the I. O. F.

After practicing here from 1864 until 1868, Dr. Thorne removed to Sackville, where he remained until 1885, when he returned to Havelock. He was twice married. His first wife was Miss Sarah M. Keith, daughter of the late Charles Keith, of New Canada, Queens county, to whom he was married Oct. 17, 1868. She died in 1888. They had four children, three of whom, two sons and a daughter, died early in life. In 1889, Dr. Thorne married Miss Basile Price, daughter of the late John C. Price, of

**ABOUT YOUR OWN VIGOR Sent Free to Men**

MR. READER: Here is something I have to offer you absolutely for nothing—a little private book of special information about the legitimate use of Sanden's Vitalizer. It is a book of inside information, relating directly to the subject of manly vigor, all put in perfectly plain, easy-to-read language, with many hints that you can surely apply to your own self, no matter how strong you may be, or how nervous or run-down you may be—if you want to know the facts about this particular subject, given to you without a single cent, then fill in the coupon below, send to me and receive my book, sealed, by return mail. In one part of this little publication I describe a mechanical invention of my own, which I call the SANDEN Vitalizer, something you wear at night as an aid to the restoration of lost or waning strength; but you are not expected to get one of these appliances unless you decide for yourself that you want one. The book is complete, and there is absolutely nothing you are required to buy or pay, either now or in the future. Therefore, please send your names and address today.

SANDEN, Author.

MANHOOD! The quality which rules the world today. My friend, there never was a time in the history of the human race when real, sturdy manhood, manly vigor and manly courage counted for as much as they do now, this very minute. No matter what your years, whether you are 20 or 60, you must be either entirely in the race or entirely out of it. It is invariably the fellow who proves up strongest in this human strength that forges to the front, while weaklings stand aside; it is he also who is in most demand and most sought after by women and men of his community, simply because he radiates that magnetic magnetic in-

**How I Made My Hair Grow**

Woman With Marvelously Beautiful Hair Gives Simple Home Prescription Which She Used With Remarkable Results.

I was greatly troubled with dandruff and falling hair. I tried many advertised hair preparations and various prescriptions, but they all signally failed; many of them, indeed, which showed so it was impossible to comb it or do it properly. I think that many of the things I tried were positively injurious and from my own experience I cannot too strongly caution you against using preparations containing wood alcohol and other poisonous substances. I believe they injure the roots of the hair. After my long list of failures, I finally found a simple prescription which I can unhesitatingly state is beyond doubt the most wonderful thing for the hair I have ever seen. Many of my friends have also used it, and obtained wonderful effects therefrom. It not only is a powerful stimulant to the growth of the hair and for restoring gray hair to its natural color, but it is equally good for removing dandruff, giving the hair life and brilliancy, etc., and for the purpose of keeping the scalp in first-class condition. It also makes the hair easier to comb and arrange in nice form. I have a friend who used it two months and during that time it has not only stopped the falling of his hair and wonderfully increased its growth, but it practically restored all of his hair to its natural color. You can obtain the ingredients for making this wonderful preparation from almost any druggist. The prescription is as follows:

Bay Rum, 6 oz.; Menthol Crystals, 1/2 drachm; Lavone de Compose, 2 oz. If you like it perfumed add 1 drachm of your favorite perfume. This, however, is not necessary. Apply night and morning rub thoroughly into the scalp.

**What Is Your Occupation?**

There are many occupations where the eyes are used constantly for close work. With proper lighting and the eyes in good condition, a large amount of this kind of work may be done without injury to the eyes.

But if there is any eye-strain to begin with, such work aggravates it, in many cases, very rapidly. The result is often apparent in the worker's loss of efficiency. He works more slowly and his work is not up to standard in quality. Worse than this, working under such conditions for any length of time may injure the eyes permanently. Relief from eye-strain, ease and comfort at your work, and security from permanent injury to your eyes are what our perfectly fitted glasses secure to you.

**ROYAL BEDS**

Not all the heads that wear a crown pillow them on softest down when they remove their crowns and go to bed at night. Indeed, many a king prefers a bed of solidly hardness to the luxury that he might command. The Kaiser, for instance, likes a camp bed, and the rulers of Austria and Italy ordinarily sleep in small iron beds. The King of the Belgians swings himself up in a hammock at night. One might suppose that King George of England, who was for so many years a sailor, would follow this example, but he and Queen Mary like to sleep in such quarters as the popular mind associates with kings and queens. King Alfonso has similar tastes. The Czar of all the Russias, strange to say sleeps in a small, plain room. So does the Pope. The Mikado of Japan sleeps, like his subjects, on a rug, with bamboo sticks for a pillow. Most sovereigns do not trouble to turn the key in their doors, depending upon the sentries that pace back and forth before their apartments to protect them.

**What You Will—When You Will—Stuart's Dyspepsia Tablets Will Digest the Meal Easily and Surely**

Food in itself is harmless. The reason stomach troubles arise is due to faulty digestion brought about by overworking the body—brain, sickness, overeating, late hours, etc.

**STUART'S DYSPEPSIA TABLETS**

The only way to correct faulty stomach troubles and digestive mistakes is to do what nature wants. All that nature needs is a little assistance to do this work. This is why doctors tell you to diet. By not eating, nature is compelled to work her when she is already exhausted. Stuart's Dyspepsia Tablets go into your stomach just like food. They help digest this food. Then they enrich the blood, and thus when the next meal is eaten the system is better prepared to do its work without assistance or at least less harmfully.

**STUART'S DYSPEPSIA TABLETS**

By following this natural habit you will in a short time correct stomach trouble, do away with indigestion and remove all danger of fatal digestion troubles.

Stuart's Dyspepsia Tablets are the best tablets made. They are composed of the very best natural ingredients, one grain of one element will digest 3,000 grains of meats, fish, vegetables, grains, soup, etc.

Always take a Stuart's Dyspepsia Tablet after meals or just before bed time. By doing this you will be acting wisely and playing safe.

Go to your druggist anywhere and buy a box now. Price 50 cents.

Johnny Jones may have been wild, but he was honest. So, when admiringly surveying a stall where a gardener was vending cherries, he saw a coin lying on the ground, Johnny quietly handed it over to his rightful owner.

"Thank you, laddie," said the gardener. "If you're always like this you'll get on. Take a handful of these cherries."

"I would rather you give me some," replied Johnny. The stallholder did so and asked Johnny why he would not take any himself.

"Oh," replied the boy, "because you've a bigger hand than I have."

**PARIS DOCTOR SAYS**

Dandruff, Falling Hair, are caused by a Microbe—Dr. Sangerbond proves it. Dr. Sangerbond is the leading dermatologist of France.

To prove his theory that germs cause dandruff, he infected a guinea pig with these microbes and in a short time the hair from the animal's body disappeared.

Parisian Sage, which can now be obtained all over Canada, has an immense sale and is highly recommended by physicians in all parts of the world.

It is just because it is the only prescription or hair tonic that is absolutely sure to kill the dandruff germ.

It is guaranteed to cure dandruff, stop falling hair or itching scalp in two weeks or money back.

In warm weather it keeps the scalp clean and cool and free from obnoxious odors. Parisian Sage is a pleasant and dainty hair dressing that will put a bewitching charm and lustre into faded and lifeless hair in one week. It is distressing for any woman to have dull, unattractive hair and women so unfortunate should use Parisian Sage.

Parisian Sage comes in large 50-cent bottles at all druggists and is sold by leading druggists everywhere. "The Girl with the Auburn Hair" is on every bottle.

A doctor called on to treat the spoiled child of a family complained to the mother afterwards that he had been very rude to him.

"Oh, mamma," replied the child, when charged with the offence, "he's just an old fogey! He got angry because I put my tongue out before he asked me!"

THE ISSUE IN CANADA

The vote in parliament last night shows that the people of Canada have no hope of relief from tariff burdens while the Conservative party remains in power.

President Wilson endorses the attitude of Great Britain in the matter of the Panama Canal tolls on coast-wise shipping.

Mr. W. F. MacLean, Independent Conservative member for South York, and publisher of the Toronto World, told the government yesterday that the duty on wheat should be abolished.

Mr. Hazen informs the board of trade that he will get for them the information about the Bay of Fundy for which they asked.

Dr. Thorne of Havelock, one of the older physicians of the province, did not survive his cousin and life long friend and fellow student, Dr. MacDonnell of Dorchester.

An industrial announcement of great interest to the farmers as well as to the citizens is that of the formation of a strong company to establish a pork packing plant and to conduct a number of farms of its own for the special purpose of raising hogs.

The proposed paving bill prepared by the city council merely proposes to adopt here the principle which has been adopted in large cities in Canada and the United States.

The discussion of moral and social conditions in St. John, and the universal consciousness that things are not as they should be in relation to the boys and girls, leads inevitably to the suggestion that there is in St. John great need of social centre work.

The distribution of \$10,000,000 among its employees of the Ford Motor Co. is a situation so unusual and exceptional that only in a few cases would a similar distribution be possible.

There is food for thought for the opponents of a downward revision of the tariff in the following from the Bangor Commercial.

The legislature of Pennsylvania a year ago, in an attempt to increase the public revenue, imposed a tax of two and one-half cents a ton on anthracite coal mined in the state.

### GOVERNMENT WON'T HELP TO REDUCE COST OF LIVING

#### Liberal Amendment Proposing Tariff Reform Voted Down—Bill to Repeal Laurier Naval Act

Ottawa, Jan. 27.—By a straight party vote of 108 to 64, a government majority of 44, at a few minutes after midnight in the commons tonight the forces of Conservatism rejected the amendment of Liberalism, as proposed by Sir Wilfrid Laurier to add to the address, in reply to the speech from the throne, an expression of regret that the government had failed to give any assurance of prompt or courageous action to remedy the existing economic depression in the country, and meet the steady increase in the high cost of living by fiscal revision.

The week's debate found the parties clearly divided on the main public issue now before the country. The Conservative attitude has been to adhere unswervingly to the policy of high protection, to believe that conditions arising out of the tariff will right themselves, and meanwhile spend the public money with lavish hands.

At the conclusion of the taking of the vote, Dr. Neely announced that he had a further amendment to propose, whereupon Hon. Geo. E. Foster, who was leading the house in the continued absence of Premier Borden, expressed his surprise that this did not end the matter.

The amendment which Dr. Neely will move tomorrow is as follows: "The house regrets that in the graceful speech with which your royal highness has met parliament, the said speech gives no indication of any intention on the part of your advisers to take any steps to secure free access to the markets of the United States for the wheat and wheat products of Canada by removing the duty on wheat and wheat products coming into Canada from the United States."

Hon. Frank Cochrane introduced a bill to extend the time for completion of the private section of the Liberal Pacific, and another which gives power to extend by order in council from time to time the period in which the National Transcontinental is to be completed.

D. O. Lesperance introduced his much-talked-of bill to repeal the Laurier Naval Act, and in response to cries of "Expulsion" from the Liberal side of the house, would not enter into details.

Hon. H. R. Emmerson again asked Hon. L. P. Pelletier as regards a "Pledge" from the Liberal side of the house, would not enter into details in the delivery of mails to the eastern provinces to points beyond Montreal. The postmaster-general replied that he was looking into the matter.

At the opening of the session J. A. M. Aikens, Brandon, introduced his bill to amend the Dominion Lands Act. E. H. Stevens, Vancouver, introduced a bill to amend the Money Lenders act, and to reduce the legal rate from twelve to ten per cent.

The total sum for the carriage of mails in Canada, to include parcels post, Hon. Mr. Pelletier said yesterday, has been fixed at about three million dollars, the railways have reduced their request from about six millions.

"Fig—You have seen Scragg's wife; what is she like? Would you call her pretty?" "Fog—"I might if I were talking to Scragg."

### COMB SAGE TEA IN HAIR TO DARKEN IT

#### It's Grandmother's Recipe to Keep Her Locks Dark, Glossy, Thick

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's treatment, and folks are again using it, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

"Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product called "Wyeth's Sage and Sulphur Hair Remedy" for about 50 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair, it gives a few applications it also produces that soft lustre and appearance of abundance which is so attractive; besides, prevents hand-ditching scalp and falling hair. ### MY TIRED FEET ACHE FOR "TIZ"

#### Let Your Sore, Swollen, Sweaty Feet Spread Out in a Bath of "TIZ"

Just take your shoes off and then put those weary, shoe-crushed, aching, burning, corn-pestered, bunion-tortured feet of yours in a "TIZ" bath. Your toes will wriggle with joy, they'll look up at you and almost talk and then they'll take another dive in that "TIZ" bath.

When your feet feel like lumps of lead—all tired out—just try "TIZ." Its grand, its glorious, its "TIZ" feet will wriggle with joy; also you will find all pain gone from corns, callouses and bunions.

There's nothing like "TIZ." It's the only remedy that draws out all the poisonous exudations which puff up your feet and cause foot torture.

Get a 25 cent box of "TIZ" at any drug or department store—don't wait. Ah! how glad your feet get; how comfortable your shoes feel. You can wear shoes a size smaller if you desire.

John P. Condon, the Semi-ready man, says: "A young lady came in to see me a few weeks ago and confided that she was deeply interested in a young man, but a well-known man about town, but that she had not been able to get him to wear the right sort of clothes."

"Can you fit him?" she asked. "I assured her that I could fit the hard to fit and showed her a beautiful new brown pattern I had just received from the semi-ready designers."

"Now that's the kind of suit I want him to wear. I'll ask him to run in and you show him that suit."

"I promised."

"The young man came in the following day, looked at the suit, was pleased, but he hesitated me."

"If I lose that young lady I'll put the blame on this suit and I'll never wear another semi-ready suit in my life. I've always gone to the tailor, as you call them."

"Did he lose?"

"Well, since that time the young man has bought from me two suits, an ulster, and a dress suit; and from the indications I would judge he will soon want a frock coat or a morning coat for a fashionable wedding."

LADIES' ASSOCIATION, C. OF E. INSTITUTE

At the annual meeting of the ladies' association of the Church of England Institute, held yesterday afternoon, Mrs. P. D. Tilley, first vice-president, being in the chair, a stirring address was given by Rev. R. A. Armstrong, president of the institute.

### ATTENTION MOTHERS

#### If You Have or Know of a Delicate Child Read This Letter

"My little daughter Louise, aged 9 years, has always been delicate, anemic, had no appetite and seemed listless and we could not seem to find anything that would help her, until we were advised to give her Vinol. She started taking it six weeks ago and in a side of two weeks she showed a marked improvement both in appetite, vim and looks. Being so well pleased with the results, I continued giving it to her, and words fail to express my gratitude, and faith in Vinol both as a blood maker and body builder. As my child was anemic for so long makes the reason all the stronger for me to recommend it to others in similar condition." Geo. E. Munro, Brooklyn, N. Y.

"Vinol restores health and strength in conditions like this because in a natural manner it increases the appetite, tones up the digestive organs, enriches the blood and strengthens every organ of the body."

Every bottle of Vinol is guaranteed to give satisfaction or money refunded. Chas. R. Wasson, Druggist, St. John.

### MORNING NEWS OVER THE WIRE

W. K. Gross was re-elected mayor of Moncton, N. B., yesterday over Dr. L. N. Bourque, by a 249 majority.

Robert Reid, charged with stealing a watch and some clothes in Moncton, was sentenced yesterday by Judge Borden at the Westmorland county court, to two years in Dorchester penitentiary.

Sir Redmond Roblin in Winnipeg yesterday told delegates from the Women's Suffrage Association that he was opposed to women suffrage and said that he had found no corruption in Canadian politics.

Gertrude, aged nine years, eldest daughter of Oscar Roach, of Roachville, N. B., was drowned yesterday while playing on ice on a pond near her home. She was found in four feet of water just a few yards from her home.

A four year old St. John boy, Jimmie Scallie, bearing a tag on the lapel of his coat saying "Railway men and passengers—please take care of me," passed through London, Ont., yesterday on his way to join his mother who is ill in that city and, as his father was unable to accompany him, he was sent alone.

President Wilson yesterday endorsed Britain's stand with regard to the Panama Canal tolls and said that the present law violated a trade treaty with England. He appointed Colonel Goethals as governor of the canal zone, to take effect April 1.

Scott Act Inspector Colpitts of Carleton county who was dismissed from office by the council says he will not give up his position to his successor, J. F. McLean, who has also entered upon the duties of the office. Colpitts claims that a two-thirds vote was necessary to discharge him and he has declined to withdraw.

Sentence was deferred yesterday in New York on two chauffeurs John Chandler and Chester Davis, charged with being members of a gang of motor thieves said to have stolen automobiles worth \$100,000 during the last two years.

It is thought at Ottawa that Andrew Broder, M. P. for Dundas, will succeed Dr. Mills whose term ends this year, on the railway board.

Mrs. Jansen said to Mrs. Lammis in perfect confidence—"Do you know mine is the prettiest baby in the world?" "Well, really, now, what a coincidence," said Mrs. Lammis. "So is mine."

### PREPARING STATISTICS TO SHOW SAFETY OF BAY OF FUNDY ROUTE

The board of trade secretary is now compiling statistics of loss by wreck in the Bay of Fundy since 1896, when St. John became Canada's winter port. H. T. Hoag, the secretary, recently applied to the department of marine for information necessary for this work and yesterday received a reply from Hon. Mr. Hazen, advising that he is having the information prepared and will send it as soon as possible.

At a meeting of the special committee of the board of trade yesterday afternoon, the street paving bill was considered and a resolution passed endorsing the general principle of the bill. The matter will come up at the next full meeting of the board.

Kings County Prosperous.

At a meeting of the Kings County Council yesterday at Hampton, the receipts for the year were shown to have been \$44,719.22, with expenditures of \$22,713.88. The report of Dr. Wetmore, chairman of the county board of health, was approved, as was the report of Accountant Atherton, the auditor. Some new by-laws were passed, including one to restrain undue noises at public meetings, concerts, etc., under a \$10 penalty.

### LEPROSY BEING HEALED

German Institution Believed to Possess Cure.

Berlin, Jan. 28.—Leprosy, one of the few diseases heretofore still considered incurable, is being healed at a government sanatorium near Memel, according to a report of the institution. Two women patients have already been discharged as cured, and one man was discharged as improved. Since leprosy is contagious, it is assumed that the improvement in this case was very great, else the patient would not have been allowed his liberty. The method used in treating the disease is not described.

The Memel institution has existed for some years. It was founded primarily to deal with cases of leprosy brought in from East Prussia each year by wandering laborers from the east. All lepers found in Germany are now sent there for treatment.

A cure for leprosy is of special interest for Germany, since her African colonies are plagued with it.

### OPERA HOUSE NEWS

To See a Musical Show

David Harum took his sister to see a musical comedy in New York city. She was shocked and his laughable description of her confusion is one of the choice bits of the play.

### Twinges of Lumbago

Mr. John N. Frank, farmer, Mink Lake, Alta., writes:—"For two years I suffered from lumbago. Sharp pains would dart through the back and sides or come on suddenly for months of each year, was often confined to the bed unable to sit or stand."

"Since using Dr. Chase's Kidney-Liver Pills, I have not lost any time and have been very greatly benefited. Though I still have slight attacks this treatment seems to be driving the disease out of the system."

"I have been entirely cured of annoying itching piles of three years' standing by use of Dr. Chase's Ointment."

### DR. CHASE'S KIDNEY-LIVER PILLS

So long as the kidneys fail to eliminate the poisons from the blood there is bound to be suffering from pains, aches, rheumatism and lumbago. To make the cure thorough and lasting you must use Dr. Chase's Kidney-Liver Pills. One pill a dose, 25 cents a box, 5 for \$1.00, all dealers. Sample box mailed free if you mention this paper. As a food in time of war potato could be made the main stand-by. Out of 2,000,000 acres of potatoes, yielding tons an acre, 16,000,000 tons, or 85,000,000,000 lbs. would be grown. A populus of 40,000,000 souls would thus be 1 1/2 pided with 896 lb. a head, or 2 1/4 lb head a day throughout the 365 days of the year. That is, every man, woman child and infant would have that quantity available.

Money is not easy to earn, and it generally very difficult to keep. I some people find it is much easier earn than to save their money.

DEATHS

(Copyright, 1914, by the Wheeler Syndicate, Inc.)

About the time this article is printed, I will begin reading time tables and Bullinger's Guide to find out the best trains from Los Angeles to Marin, Texas. I intend to get into the training camp with the first flight of recruits this spring and work out gradually, because, when age and winter begin to get into the old "souphone," they come out slowly. However, I have had one of the best rests this winter that I have ever had during the off season since I entered the big league, and I expect to come back strong this spring.

My ambition is to equal "Cy" Young's record for longevity of service in the big leagues. During his career, he hung up more than 500 victories. I still have some distance to go. In my younger days, I was ambitious to do something in the winters, and so I took a whirl at two or three off season propositions. Several weeks of vaudeville filled out one winter, but it did me no good as a pitcher, because I had one of my worst seasons after the hard work. Some folks imagine that going around the vaudeville circuit is a lead pipe cinch, just a few minutes' work each day, it is hard work, and was harder work for me than for those who make their profession. Although the engagements require only a few minutes when you are actually on the stage, it is necessary to be on hand at the theatre at least an hour before the time the act starts, so that the whole afternoon is always gone. Just about time enough to get some dinner is allowed between the afternoon and evening performances when it is necessary to go back to the theatre. The vaudeville performer seldom gets away much before midnight. The life is wearing on health, as the hours are irregular, and I did not like the work. Therefore, no more vaudeville.

Another year I tried insurance, and the business appeals to me because it has just enough mathematics in it to make it interesting, but nearly everybody to whom I attempted to sell policy wanted to talk baseball to me. I would go in to offer some insurance, and the following dialogue is a fine sample of what generally took place:

"Can I write you an accident policy?" "Matty, how did Brown happen to beat you in that last game in Chicago?" "Did you ever stop to consider the risks you run every time you go out in the streets in New York?" "You can't tell me that 'Johnny' Everett was right on that second base argument of his. Did you see the play? Now, what do you think about it, yourself?" "I recall devoting an hour one day to a man who was marked on the company's books as a good prospect. After getting all the inside baseball gossip he could think to ask about, he concluded with the remark:—

"I was reading Mark Twain last night, and I agree with him about accident insurance. Somebody asked him once, before he started on a trip, whether he would not like to take out an accident policy."

"No, I hardly think so," replied Mark. "I have been studying statistics and find that more people die in bed than in railroad trains. Therefore, I'll take one out some time when I am going to spend a few days in bed."

"I feel the same way about it, but I am glad to have met you, and if I hear of any one who wants to do business, I'll let you know."

That's what became of one of my fine prospects.

After the season last fall, I made up my mind that hereafter, as long as I was in baseball, I would devote all my time, winter and summer, to the game. As I have said, I am getting along in years when the time is measured by my period of service in the big league, and it becomes more difficult for me to round into shape each spring. My pro-

gramme for future off seasons is to hunt in the fall and then spend the rest of the time in California, playing golf. That game has kept me in excellent shape all winter, keeping my muscles just limber without wearing on them. I believe the adoption of golf is one of the greatest things a pitcher can do to help his condition if he will play it in the off season.

When a player is young, spring training looks like a wonderful institution, and he regards the trip south as something of a picnic. I recall that the first time I went south with the Giants, I could hardly wait for the starting time to arrive, and I enjoyed the experience.

But, as the years roll around, it becomes a necessary preliminary to a championship season, which is a hardship, because the whole thing is so uninteresting and monotonous. However, I will be one of the first in camp this year, arriving about the same time "Dick" Kinsella gets there with his recruits. The veteran scout of the Giants is to have charge until McGraw returns, after the world tour. A letter came to me from McGraw mailed in Nagasaki. He asked me to go to Marin to assist Kinsella in the handling of the flock of fifteen or twenty recruits who always precede the veterans to the spring camp. I expect to be on the job about the middle of February, and had intended to make the early start anyway, whether "Mac" had requested it or not.

For an old fellow, I had a pretty good year last season, and I attribute it to the outdoor life I led in the winter, combined with the early break I made for the training camp. I left early in February with McGraw and his recruits. I went to work slowly and rounded out into shape very gradually. It was a month after I had arrived last spring before I tried to curve a ball. Here is "Mac's" letter:—

"Dear Matty:—

"Wish you were along, because I know you would like to have given the Japanese the once over. We have been very busy since leaving you in Seattle. All the way across the Pacific the captain of the steamer said he thought we were the best crew he ever had. You were right about that sea-sick thing. It certainly kept us busy. Since arriving, we have been eating and speech making and listening to a lot of remarks about ourselves in Japanese that the interpreters say are complimentary."

"I want to ask you if you would go to Marin early to work into shape slowly and also to keep an eye on the

recruits under 'Dick' Kinsella. Look over the young pitchers and see if any show promise. Trusting you are well, etc.

Yours, "MAC"

I am glad of the opportunity to have a hand in the sorting of the young material this spring. It gives me experience I need, because I have made baseball my business, and I want to learn every angle of it. Some day, I may be looking over some recruits of my own. But I do hate the idea of that training grind to interest one. I never mind playing through the regular schedule, because every game of baseball is different and presents a new problem, but each day of training is just like the one preceding and exactly the same as the day which will follow. However, I will be on the job early, having some confidence in that saying about the luck of the early bird.

OPERA HOUSE NEWS

Good Judge of Horse Flesh

As a horse trader, David Harum, was "some pumpkin" and as a judge of human nature he was supreme. His humorous method of handling all classes of individuals makes the play a sermon and a delight.

A former says he rid his farm of rats as follows:—"On a very large number of pieces of old shingles I put about a teaspoonful of molasses, and on that with my pocket knife I scraped a small amount of concentrated lye, then placed the shingles around under the floors and over the cribs. The next morning I found forty dead rats, and the rest vanished. I have cleared many forms of the pests in the same way, and have never known it to fail."

There are many stories of the late Lord Strathcona's great wealth, and the means taken to secure control of so much money, but all agree that not one cent was earned in any other than a legitimate manner.

Dr. Ruthenford, ex-M. P. for Macdonald, and now an official of the C. P. R., at Calgary, was discussing Lord Strathcona's wealth as the Windsor Hotel, Montreal, the other day, and related what he had heard from his own lips a year or two ago in the London office of the high commissioner, whom he found in the best of spirits, the doctor said: "You seem in good humor this morning? Is there any more money rolling in at this time of day?" and at once Lord Strathcona told of how he and Lord Mount Stephen had gone into a Northern Pacific deal sometime ago, and that morning their checks, amounting to \$7,000,000 each, had arrived, representing the profits in that transaction.

man should be "master in his own house," but was violently opposed by a regular giant, who believed in "leaving things to the wife," and so on.

The subject, however, was side-tracked by somebody observing that it was curious to note how little men almost invariably married large women. At this, a very small, unhappy looking little man burst suddenly into life.

"No, you are wrong!" he protested mildly. "In my opinion, it is the big women who marry the little men!"

Blaming Mother

"My mother made me what I am," said the political speaker as he proudly threw out his chest.

"Well," said a small man at the rear of the hall, "she must have put in most of her time at other things."—Chicago Record-Herald.

A Unique Arrest.

Some years ago there departed this life a very popular retired police officer, who told me, a writer in the London Chronicle says, how, under decidedly excusable circumstances, he had drunk too deeply of the flowing bowl, and in that condition had to take charge of two prisoners—men and woman—and to convey them to Holloway from a country district. His prisoners knew him well—he was a very popular man—and gave him their support in the literal sense when he appealed to them. But for their taking charge of him he would have been unable to reach the prison with them! By such pleasant touches of humanity are the annals of crime beautified.

The average hand of the man is 1 1/4 inches longer than the woman's hand.

Stops Indigestion, Sourness, Gas and Dyspepsia in Five Minutes

If you feel bloated after eating, and you believe it is the food which fills you; if what little you eat lies like a lump of lead on your stomach; if there is difficulty in breathing after eating, eructations of sour, undigested food and acid, heartburn, brash or a belching of gas, you need Pape's Diapiesin to stop food fermentation and indigestion.

It neutralizes excessive acid, stomach poison; absorbs that misery-making gas, and stops fermentation which sours your entire meal and causes Dyspepsia, Sick Headache, Bilioousness, Constipation, Griping, etc. Your real and only trouble is that which you eat does not digest, but quickly ferments and sours, producing almost any unhealthy condition.

A case of Pape's Diapiesin will cost fifty cents at any pharmacy here, and will convince any stomach sufferer in five minutes that Fermentation and Sour Stomach is causing the misery of Indigestion.

No matter if you call your trouble Catarrh of the Stomach, Nervousness, Gastritis, or by any other name—always remember that relief is waiting at any drug store the moment you decide to begin its use.

Pape's Diapiesin will regulate any out-of-order Stomach within five minutes, and digest promptly, without any food or discomfort, all of any kind of food you eat.

Breathe freely! Open nostrils and stuffed head—end catarrh

Instant Relief When Nose and Head are Clogged from a Cold. Stops Nasal Catarrh, Discharges, Dull Headache, Vanishes.

Try "Ely's Cream Balm."

Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, and throat; clears the air passages; stops nasal discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake tonight struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucous droppings into the throat, and raw dryness is distressing but truly needless.

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.

THE MURDER OF SCOTT

The Murder of Scott

Thinking of the influence the priest might have with Riel, Lord Strathcona in his own language, said: "I ran up stairs two steps at a time though I could not do so today, and meeting the priest I said, 'Do you know, sir, that a man is to be shot down at the fort?'"

When he replied he had heard of it I said, 'And you did not mention it when you came in.' Come down at once and see what we can do with Riel in the way of saving this man's life."

Lord Strathcona related that when they arrived and were ushered into Riel's presence the priest spoke in French, which Donald Smith understood and said: "Riel, is there no way of saving this man?"

Riel replied: "Father, you know there is no means of saving him."

"This is very interesting history," said the interviewer, and His Lordship replied: "Yes, but not to be published while I am alive."

Lord Strathcona also said he saw Scott move in his coffin after being shot

A WONDERFUL DISCOVERY

An eminent scientist, the other day, gave his opinion that the most wonderful discovery of recent years was the discovery of Zam-Buk. Just think! As soon as a single thin layer of Zam-Buk is applied to a wound or a sore, such injury is insured against blood poison! Not one species of microbe has been found that Zam-Buk does not kill!

Then again, as soon as Zam-Buk is applied to a sore, or a cut, or to skin disease, it stops the smarting. That is why children are such friends of Zam-Buk. They care nothing for the science of the thing. All they know is that Zam-Buk stops their pain.

Mothers should never forget this. Mothers should never forget this. Mothers should never forget this. Mothers should never forget this.

Only the other day Mr. Marsh, of 101 Delorimier Ave., Montreal, called upon the Zam-Buk Co. and told them that for over twenty-five years he had been a martyr to eczema. His hands were at one time so covered with sores that he had to sleep in gloves. Four years ago Zam-Buk was introduced to him, and in a few months it cured him. Today—over three years after his cure of a disease he had for twenty-five years—he is still cured, and has had no trace of any return of the eczema!

All druggists sell Zam-Buk at 50c. box, or we will send free trial box if you send this advertisement and a 1c. stamp to pay return postage. Address Zam-Buk Co., Toronto.

Art Throop Injured.
Art Throop, star forward of the Westminster hockey team, has a broken collar bone. He was hurt in a game against Victoria. He will not be able to play again this season.

Breach of Contract Charged
Montreal Star—The officers of the Ontario Hockey Club announce that it is their intention to take action in court against two amateurs who, they say, signed contracts with them. The charge will be breach of contract.

No definite statement has been given out by either McLaughlin or Molinoux or the Grand Mere or Quebec Clubs, but there are two contracts in the vault of President T. Emmett Quinn, which is said are the contracts in question.

The friends of McLaughlin say that there was some private understanding about his contract, which would make it valid only under certain conditions which have not materialized.

President Quinn of the National Hockey Association, says that the association is not going to take any action but that the men from now on belong to the Ontario, and if they wish to turn pro can play only with the latter club.

Canadian Night in Boston
Next Saturday night will be "Canadian night" at the Boston Arena. Harvard will line-up against McGill University team of Montreal.

Governor Walsh, Lieut-Governor Barry, Mayor Fitzgerald, Mayor-Elect Curley, Hon. Alexander McGregor, and officers of the Canadian clubs of Boston have been invited.

Art Throop Injured.
Art Throop, star forward of the Westminster hockey team, has a broken collar bone. He was hurt in a game against Victoria. He will not be able to play again this season.

Breach of Contract Charged
Montreal Star—The officers of the Ontario Hockey Club announce that it is their intention to take action in court against two amateurs who, they say, signed contracts with them. The charge will be breach of contract.

No definite statement has been given out by either McLaughlin or Molinoux or the Grand Mere or Quebec Clubs, but there are two contracts in the vault of President T. Emmett Quinn, which is said are the contracts in question.

The friends of McLaughlin say that there was some private understanding about his contract, which would make it valid only under certain conditions which have not materialized.

President Quinn of the National Hockey Association, says that the association is not going to take any action but that the men from now on belong to the Ontario, and if they wish to turn pro can play only with the latter club.

ATHLETIC
Goulding Still At It.
Toronto, Ont., Jan. 27—George Goulding, of Central Y. M. C. A., Olympic winner and champion heel-and-toe walker of the world, has announced that he will return to active competition. Goulding, for a man of his ability, has too few world's records appearing on the books, and his friends have felt all along that he should establish records that will stamp him as the greatest walker of all time.

The champion has walked but little since his famous victory in Sweden, but of late has been working out indoors.

Goulding's first race will be in New York on February 11, when he will accompany the All-Ontario relay team to the N. Y. A. S. sports. The distance of the event will be one mile, and he will be asked to concede liberal handicaps to his rivals in the United States. It is likely that a race will also be arranged in Baltimore.

FOOTBALL
Donnelly Case Nears End
The charges of professionalism against Joe Donnelly, investigations into which were conducted by the McGill authorities without any result, have now been turned over to the Intercollegiate Athletic Union and whatever decision they arrive at will be accepted by the local collegians. This announcement was made at the annual meeting of the Intercollegiate Football Union in Montreal.

H. C. Griffiths, of Toronto, said he felt sure McGill acted in good faith in using Donnelly, and that under no circumstances would Toronto accept the cup after having lost it on the field.

BASEBALL
To Be Major
Baltimore, Md., Jan. 27—The convening of the International League into a twelve-club circuit by placing new clubs in Washington, Cleveland and Brooklyn, is declared by a reliable baseball authority to be the latest plan of organized baseball for combating the invasion of the Federal League.

To supply the necessary talent of major league calibre for the four named cities, it is proposed that all the clubs in the American, National and International leagues contribute players. With the National and American teams each donating two, and the International clubs three each, the new clubs would each have fourteen men as a nucleus.

A part of the plan is to have the National Commission recognize the Internationals as a major league by the abolition of the draft.

Wants Cole But Not Ford
Frank Farrell, president of the New York Americans, says he will totally ignore Russell Ford, his former star pitcher, who jumped to the Federal League, but says he will fight to the limit for King Cole, a former Cub, who was donated by the Yankees from the Columbus Club.

Toronto Player Joins Feds
It is announced that Benny Meyer, formerly well-known outfielder of the Toronto International Baseball team, has joined the Federal League Club of Baltimore. It is said one or two other Toronto and perhaps Montreal men will also go over.

Ritchie Wants New Rules Drawn Up For Champions

(FROM T. S. ANDREWS)

Milwaukee, Jan. 26—Willie Ritchie, lightweight champion, who is either a very unfortunate boy when it comes to arranging title matches, or very tricky,

came out with a suggestion the other day that all fighters who challenged for a title should be compelled to give a written contract in which they would agree to defend the title in case they won it, instead of taking it away and hiding it for an indefinite period. He suggests that if a challenger is compelled to sign the championship, he shall be compelled to fight in defence of it at least every six months and that, failing to do so, the title shall pass to the one who is considered as the legitimate challenger in order.

Another suggestion is that every championship fight should be awarded to the promoter making the highest bid. These suggestions by the champion are all very well and would fit in nicely if they were lived up to by promoters and boxers, but it is a hard matter to find any of them who live up to the rules suggested. About the only way to bring about such a state of affairs will be to form a national association with absolute control over all championship contests as the Amateur Athletic Union controls athletics in this country. A national organization for boxing is badly needed and it is too bad that one does not exist here, so that it could be af-

filiated with the organizations in England, France and Australia.

It is about time that some of the referees around the country, not only in the middle west, but also in the east severely reprimanded boxers for fouls committed in the ring, which are usually classed as unintentional. During the last month or two several boxers have been quite badly injured by being fouled in a contest and the contention has always been raised that the foul blow was an accidental one. This may be true, and we hope it is, but at the same time if the referees were more severe with the boxers, it would put a stop to the practice and benefit the game in more ways than one.

There are some boxers who have a habit of hitting low whenever they are hard pressed. They may do this with the intention of trying to get a solar-plexus blow, but in their anxiety to do so, they are not so careful as they might be and as a result fouls are frequently committed. If a boxer were warned at the first attempt of such work and disqualified on a repetition, he would be more careful in the future.

It is for the referees to see that the rules are more strictly enforced regarding fouls, and we hope it is not to protect the clubs, but to protect the boxers themselves from being seriously injured. A foul fighter has no business in the ring and wherever one is caught doing anything of that kind intentionally he should be barred for all time. However, there are few boxers who would so act deliberately, but at the same time by being permitted to "get away" with very close work, they become careless and therefore are more liable to commit fouls.

that the Cobequid, which was stranded on Trinity had disappeared and had evidently slipped into deep water during Sunday's storm. All the gas buoys in the bay, the inspector said, are in good condition.

GOOD RESULTS OF WAR OFFICE ADVERTISING

London, Jan. 28—The working out of the scheme for recruiting the British army by means of newspaper advertisements, which was recently tried by the War Office, offers excellent testimony of newspaper publicity.

About ten days ago the War Office inserted in most newspapers alluring announcements detailing the advantages of enlistment in the army and inviting would-be-recruits to write for a booklet containing further information. Fifty thousand copies of this booklet were prepared and it all has been applied for.

The result shows that the advertisement reached the quarters which it was desired to reach. What results have been attained in the increased number of enlistments, however, is not yet announced.

THIS IS FOR MEN

It is for men who open their eyes in the morning upon a world that looks blue and discouraging for men who feel tired, dependent and out of luck; who have lost the fighting spirit—those fellows who have almost concluded that nothing is worth fighting for—who have pains in the back, and who don't get rest from their sleep, and who wish that they were strong as they used to be. It is all a matter of nervous energy—that is what ambition comes from—and that is what you can get from Dr. McLaughlin's Electric Belt. It is an invigorator of men.

It will make you strong. It will send the life blood dancing through your veins, you will feel the exhilarating spark warm your frame, the bright flash will come to your eye and a firm grip to your hand, and you will be able to meet your fellow-man and feel that what others are capable of doing is not impossible for you. This grand appliance has brought strength, ambition and happiness to thousands in the past year.

What would you not sacrifice to feel as you did a few years ago; to have the same snap and energy, the same gladness, joyous, light-hearted spirit, and the physical strength you used to have? You know you are not the same man you were, but would like to be. You can be.

Dr. McLaughlin's Electric Belt makes you noble; it causes the nerves to tingle with the joyous exhilaration of youth; it fills the heart with a feeling of gladness, makes everything look right, and makes the nerves like bars of steel. It has cured Nervous Debility, Weakness of every kind, whether in Nerves, Stomach, Heart, Liver or Kidneys, Rheumatism, Pains in the Back and Shoulders, Sciatica, Lumbago, Indigestion, Neuralgia, Constipation, Dyspepsia and all troubles where new life can restore health. It does all this while you sleep by pouring electricity, which is nature's energy, into your nerves and blood.

How Can You Doubt It? Read the Letters Men Write Me—They Want Others to Get Relief.
Dear Sir,—I can honestly say that your Belt is a wonderful cure, as I do not feel an ache or a pain since using it.

Jack Lockyer, 155 Wharfedale road, London, Ontario.
I cured me of my urinary troubles and nervousness, and my stomach is also all right.

Dear Sir,—I am pleased to state that the Electric Belt I purchased from you some time ago has completely cured my Rheumatism and can cheerfully recommend it to anyone suffering from that complaint. I would not part with my Belt for \$100.00 if I could not get another like it. Wishing you every success.

Robert Wightman, Clifford, Ont.
Tell me where you are, and I'll give you the name of a man in your town that I've cured. I've got cures in every town. That's enough. You need the cure. I've got it. Come and get it now. The pleasurable moments of this life are too few, so don't throw any away. While there's a chance to be husky and strong, to throw out your chest and look at yourself in a glass and say: "I'm a man," do it and don't waste time thinking about it.

CALL TODAY
Come and see me and let me show you that I have, or if you can't then cut out this coupon and send it in. It will bring you a description of my Belt, and a book that will inspire you to be a man among men; all free.

M. L. McLAUGHLIN,
237 Yonge Street, Toronto, Canada.
Dear Sir,—Please forward me one of your books as advertised.

#### THEIR CHILD DEAD

There will be much sympathy for Mr. and Mrs. John Corr, of Brussels street, in the death of their four year old boy, John Joseph, which occurred yesterday.

#### MARRIED LAST EVENING.

The wedding of J. Hanford Ogden, formerly of Amherst, N. S., to Miss Nellie Major, youngest daughter of Mrs. Ellen and the late Albert Major of this city, took place at seven o'clock last evening at the home of Rev. J. J. McCaskill, who performed the ceremony. The bride wore a suit of blue corduroy velvet with picture hat to match. She was attended by Miss Jessie Stone and Bert. Major was the groomsmen. The bride has received many pretty and useful presents. Mr. and Mrs. Ogden will make their home in Chesley street.

#### SURPRISE PRESENTATION

About 100 friends of Mr. and Mrs. D. Henderson gathered at their home in Paradise row last evening and tendered them an enjoyable surprise. Towards the close of the evening Walter McKenny, in behalf of the young people, presented to Mrs. Henderson a costly set of china. After games and music, refreshments were served. The gathering dispersed at an early hour this morning. The committee in charge was composed of Misses Edna Davidson and Alma Harrison, Charles Eldred and Ford Shonk.

#### BURIED TODAY

After requiem high mass in St. Joseph's church, Silver Falls, this morning at nine o'clock, the body of Sister Mary Monica, of the Sisters of Charity, was taken to the new Catholic cemetery for interment, which took place in the section reserved for the Sisters there. Rev. A. J. O'Neil was the celebrant at the mass, and in the sanctuary were Rev. M. O'Brien, Rev. J. J. Walsh, C.S.S.R., and Rev. Father Holland, C.S.S.R. Following the body to the grave were the boys of the Silver Falls orphanage. Father O'Neil conducted the services at the grave.

#### THE LATE M. NOAH SCRIBNER.

The death of M. Noah Scribner occurred on January 10 at the home of Fred Vaughan, Perry's Point, Kings County. Mr. Scribner was a resident of Belle Isle, was seventy-nine years old. He is survived by one sister, Mrs. John Erb, of Kings County, and two daughters, Mrs. John W. Hargrove, 99 Sheriff street, St. John, and Mrs. James Saunders, Kingston, Kings County, and ten grandchildren. He was twice married. His first wife was Harriet, daughter of Foster Morrell, and his second, Mrs. Hunter of Belle Isle, both of whom died before him. Mr. Scribner's funeral took place on January 14, and the interment was made in the Belle Isle burying ground.

### DOORS CLOSED IN BOY CASE

#### Will be Disposed of Tomorrow—Officials and Others Express Their Views

The case against six boys charged with stealing from various stores in the city was resumed in the juvenile court this morning behind closed doors and after the evidence of several more witnesses was taken some very forcible remarks were made in the court room by the magistrate and others who are interested in the welfare of the city and are agitating for moral reforms.

J. King Kelley, K. C., quoted from the Children's Protection Act dealing with the responsibility of parents and the rights of officials to inquire into cases of boys up to fourteen or girls up to sixteen who are seen in the streets after seven o'clock in winter or nine o'clock in summer without their parents or guardian.

Rev. W. R. Robinson referred to the prevalence of the cigarette habit among boys in the city and five out of the six admitted that they were cigarette smokers. Mr. Robinson spoke of the fact of small boys smoking in the public streets and that apparently no effort was being made to have the offenders punished. In fact he said that he had often seen small boys smoking in the presence of the policemen. He said that if parents did their duty these boys would have been kept in at night, and that the parents could have and should have found out where the boys got the articles they had.

Adjutant Cummings said that the Children's Protection Act was in operation in Hamilton, Ont., and was similar to ours and if enforced in St. John as it should be, conditions would probably be as good as those in Hamilton as far as the children were concerned.

J. Boyd McMann, truant officer, spoke of the work he had in connection with getting boys to go to school and said that when they were playing truant, the parents, instead of assisting him, usually shielded the boys. Mr. McMann spoke of the favorable state of conditions on the West Side where the law was enforced by Sergeant Finley in regard to keeping the children off the street. He said that Sergeant Finley would report to him as to any boys seen in the street in the afternoons when they should be at school. There had been no cases of truancy reported from the West Side since the first of the term and that during the previous term the record for the West End was very creditable.

The magistrate commented strongly on conditions existing in the streets and called upon the police to see that the law laid down in the Children's Protection Act should be enforced. He also severely criticized parents in allowing their boys and girls to run the streets especially at night.

The boys were remanded again and the magistrate said he would consider how he should dispose of them tomorrow. He intimated that he would not be able to deal lightly with two of them, Frank Nyberg and Arthur Kelly.

Evidence was given yesterday after-noon by Mrs. Jones who made the arrests and merchants and clerks who told of the thefts and, in some cases, identified the boys and the stolen goods. The magistrate commented severely upon the police allowing such small boys to be out so late at night. He also blamed the parents for their lack of oversight and said that in several of the cases the parents were more to blame than the boys.

Sergeant Finley told of waiting with Policeman Briggs until midnight for Colohan to return to his home, to arrest him. The boy had articles which he confessed were stolen from J. M. Roche & Co., Ltd., Emerson & Fisher, Ltd., Woolworth's and M. V. Paddock's stores. The police went to the Nyberg home and took the two boys. Donald admitted stealing from T. G. Allan's King street, West End, Blake and Johnston's, West End, F. V. Woolworth's & Co's, M. V. Paddock and R. J. Cox's harness shop, Frank admitted stealing from W. Tremaine Gard's and from Epstein & Co., Union street. The sergeant recovered several articles and also a quantity of goods which they said McClavery had placed under their steps. McClavery had some stolen articles in his possession and admitted taking them from Allan Gundry's store. He had sold a flash light which the police have recovered. Wilson and Kelly were arrested in Rockland road about one o'clock in the morning. They were returning from West St. John and Wilson said he knew the other boys had been stealing but denied that he had.

Evidence regarding the thefts from the stores was given by Miss Florence Halpin of Allan Gundry's, Miss Graham of Blake & Johnston's, W. O. Stapleton of Woolworth's, M. V. Paddock, R. J. Cox, Arthur Alway of Roche's and H. D. McCarthy of Gray's shoe store.

### SIXTY BOYS ORGANIZE AT EVERY DAY CLUB WITH OWN OFFICERS

#### Enter Into Project With Enthusiasm and Successfully Launch Organization

Sixty boys assembled at the Every Day Club last night, organized themselves into a boys' club, elected officers, and appointed committees to have charge of the room and the various games each evening, and thus successfully launched an organization which promises to be of much benefit. Of course there is a small executive of citizens and a competent caretaker to make suggestions to the boys until they are thoroughly organized.

They entered into the spirit of the proceedings with great enthusiasm, and the election of officers was keenly contested. The boys decided that they would make a nominal weekly charge for membership, so small as to be within the reach of every boy, and Harry Scott, the very efficient caretaker of the hall, was unanimously chosen as the treasurer of the fund, which is to be used to get little things that may be necessary.

There are six committees, each consisting of three boys, who have charge of the games and tables and each committee will frame rules, and these will be enforced by the united energy of the club. These lads have had no previous experience in organization, but their enthusiasm is good to see. Mr. Howard, physical director of the Y. M. C. A., has promised to assist the executive in getting leadership for a part of two evenings each week in physical drill for the boys, and it is hoped that individuals and organizations will volunteer now and then to go down and give the boys an occasional half hour of bright entertainment. This club would seem to offer an opportunity to those who are interested in boys and in encouraging them to avoid the temptations of the street.

### HUSBAND AND WIFE; THE LATTER FORMERLY OF THIS CITY, DROWNED IN THE WEST

Miss Elizabeth Furlong yesterday received a telegram from Rupert Sharpe, of Montreal, stating that his sister, Mrs. Louis Jones, and her husband, the president of a bank in Santa Barbara, Cal., had been drowned, but no further particulars were given. It is feared that they were victims of the floods now devastating that part of California.

Mrs. Jones was formerly Miss Elizabeth Sharp, of this city, and had three brothers, Rupert, Otto, of Upper Canada, and LeBaron, in Brooklyn, N. Y.; and two sisters, Mrs. LeNoir of Halifax and Miss Robena in Montreal. Mr. and Mrs. Jones had three children, the youngest only three months old.

Mrs. Jones was educated in the Sacred Heart Convent here, and then went to the Lowell General Hospital in Lowell, Mass., where she became a professional nurse. It was there she met Mr. Jones. She had travelled extensively, one journey being through Europe and the Holy Land. While in Rome she had the privilege of an audience with Pope Pius X.

Many friends here were shocked in reading in the Telegraph that she and her husband had met death by drowning.

### ROYAL EDWARD AWAY

Royal mail steamer Royal Edward sailed this afternoon for Bristol direct with fifteen cabin, thirty-seven second class and about 300 third class passengers. She also took away something more than 1,000 packages of mail and a full cargo of general freight.

Her first class passengers included C. A. Atchey, Montreal; J. B. Adams, Berkshire, Scotland; W. A. M. Campbell, Regina; Mr. and Mrs. A. Lapierre, Mr. and Mrs. D. Lapierre, Mr. and Mrs. F. Levey, Montreal; Mr. and Mrs. J. F. Lunney, Regina; J. N. Lorraine, Toronto; Mr. McDowell, Montreal; Dr. Polant, Victoria, and Miss C. Reardon, Cork, Ireland. John Skonron, of this city is also among the passengers.

Three cars of mail for the Royal Edward arrived today over the I. C. R. from the west on a special train.

## Boys' Reefers

We have Reefers made just as they should be made that is, with all the good points that make a Reefer comfortable. Don't let the Boy go about with his hands in his trouser's pockets, trying to keep warm, when we can make him so comfortable for such a small outlay.

We propose to clear our stock of all odd pieces of Worsted and Tweeds in winter weights and at the same time to give employment to the employees in our custom department during the normally dull season.

Good chance to prove us tailors if you're dissatisfied with the one you now have, or wish to wear made-to-order clothes instead of the ready-to-wear sort. No risk to you—same broad Oak Hall guarantee takes care of you.

There will be no slighting of workmanship because of the lowered price—each suit will be made as well and as carefully as if you paid the regular price.
