TERRIBLE EXPERIENCES OF THE CREW OF THE SOVINTO

Within Reach of Land Ten Men Lost Their Lives on North Shore of P. E. Island—The Others Were Saved Only by a Miracle.

CHARLOTTETOWN, P. E. I., Nov. 8.—The wrecking of the Russian ship Sovinto, from St. John's, Labrador, with a million and a half feet of deal, on Carew's Reef, Priests Point, on Tuesday night, was attended with many thrilling features. When she struck three of her four masts went by the board, tearing open her decks and scattering her cargo among the mountainous breakers. The ship broke in two with 17 men, including the captain, on the larger section and three men forward. There was no life saving apparatus on shore, so, expecting to help from that quarter, the seventeen launched a life boat which was struck by the giant combers and swamped. The men were thrown into the water, some swimming, others clinging to planks. Three returned to the ship, one to the smaller portion. Seven perished, either by drowning, striking against reefs or against rocks. Seven landed safely and are now all well. Wednesday night three more were drowned. Thursday morning two were rescued at great risk of life by Austin Grady, and D. Campbell, two young men, from the shore. Thursday night the last man on the vessel after exposure six hours, was rescued by a boat from the shore. The following are the names of the drowned: Bloomrose, sailmaker, aged 70; Steinson, aged 35, carpenter; Theodora, aged 22; Grano, cook, aged 40; Westerland, aged 22; Lindgren, aged 45; A. B. Raumo, Finland; Dlasberg, aged 15; Heisterberg, Finland; Gurtson, steward, aged 20; Heisingborg, Sweden; Frederick, aged 31, Christiania. Bloomrose leaped overboard from the smaller portion of the ship on Wednesday night saying "I could hold out no longer."

NEW YORK, Nov. 8.—One woman is dead, a man is in a hospital suffering from severe burns, two thousand persons fled from their homes in panic and thousands more passed a sleepless night as a result of a series of incendiary fires in the 100 blocks bounded by 6th and 1st street and Columbus and West End streets. Scores of persons whose lives were endangered by flames or choking smoke were rescued by firemen.

Many of the rescues were of a highly sensational character and were witnessed by thousands who crowded the streets around the burning buildings. In all there were five fires, every one of them incendiary, between the midnight and 3 o'clock. The woman who lost her life was Mrs. Caroline Swain, 70 years old. She lived at 107 West Sixteenth street, adjoining one of the buildings which was fired. She died of heart failure induced by fright. Adriaan Thompson, 49 years old, of 119 6th street is in a hospital with his hands and feet severely burned as a result of climbing down a red hot fire escape. He is in a serious condition. The rapidly succeeding fires, the crowds of excited spectators and the terrifying rumors spread through the neighborhood with the constant appearance and re-appearance of the fire engines and the big squads of police raised the people throughout the district to a high pitch of excitement which did not lessen until daylight brought a measure of assurance that the incendiarian was stopped for a while. The excitement spread even to Broadway and in the Marie Antoinette, Madison, Knickerbocker and other big hotels the guests were aroused by the constant appearance of the fire engines for the rest of the morning discussing the situation. All the houses where the fires occurred were flat houses. Three of them were occupied by whites and two by negroes, most of the tenants were negroes who fled through the flames. The loss was about \$25,000. Frank Morris, of Boston, a vaudeville performer, was arrested on suspicion of setting the fire. The police alleged that in each of the fires tenants reported that when they fled from their apartments Morris was the first person met.

LONDON, Nov. 8.—Esme W. Howard, British consul general at the island of Crete, has been appointed to the recently created post of councillor of the British embassy at Washington and will be acting ambassador during the interim pending the appointment of a successor to Sir Mortimer Durand.

Esme William Howard is 43 years old and has a varied career in the diplomatic service. At the foreign office he is considered to be one of the most able of the younger diplomats. His wife, Lady Isabella Howard, is a daughter of the Earl of Newburgh, Prince Gustavian Bandini. Both Lady Howard and her husband are very popular socially.

The Associated Press learns officially that although Sir Mortimer Durand is coming home at the end of the year he has a two months' vacation due him, so the appointment of his successor will not be officially pronounced until the expiration of his leave.

NEW YORK, Nov. 8.—Latest returns from all sections of state indicate that the official count will be necessary to determine whether Mr. Linn Bruce, Republican, or Lewis H. Howe, Democrat, and his independence League, was elected lieutenant governor in last Tuesday's election. With incomplete and partially estimated returns from every county in the state, Chanler's possible plurality has been set down at 671. The incompleteness of the figures upon which this calculation is based makes it possible that the official returns will show a variance in either direction. Corrected returns from six counties on which yesterday's figures were based show a gain of 62 votes in favor of the Republican candidate. Additional returns received since last night reduce Chanler's estimated plurality of 1700 to 671.

LIMA, Ohio, Nov. 8.—An advance of from five to ten per cent. in the wages of all employees of the refining branch of the Standard Oil Company was announced here today. The advance affects immediately nine hundred employees of the Solar Refinery here and the army of employees at Welker, Ohio; Oil City, Pa.; Bayonne, N. J.; Denver and Chicago. No notice of like advance has been received by the pipe line department but rumor has it that the voluntary advance will extend to every branch of the company.

CURZON NOT LIKELY TO SUCCEED DURAND

NEW YORK, Nov. 8.—The London correspondent of the Times says a personal friend of Lord Curzon of Kedleston, says that the chances are strongly against his succeeding Sir Mortimer Durand as ambassador at Washington. Lord Curzon's present visit to America is thought to be purely a family affair.

NEW YORK, Nov. 8.—Edward M. Brooks, an actor, and Miss Dorothy M. Rander, an 18-year-old school girl of Manchester, N. H., were married in the private chambers of District Attorney Jerome in the criminal court building today. Brooks was arrested here on Oct. 18 on a charge of abduction preferred by Miss Rander's parents. It was alleged that the girl became infatuated with Brooks while he was playing in Manchester and that when he left the city she went with him. Brooks was arraigned today, but he was not called upon to plead.

NEW YORK, Nov. 8.—Edmund H. Moore, professor of chemistry at Columbia University, died yesterday at his home in West Nyack of typhoid fever. He was 35 years of age.

THE LORD MAYOR'S PARADE

LONDON, Nov. 8.—Sir William Trevelyan's term of office as Lord Mayor of London was inaugurated today with the time honored pageant, but the usual symbolic cars were eliminated from the procession, which was representative of the civic history of London for the past seven centuries each century being represented by a figure depicting the most famous Lord Mayor of the period surrounded by his retinue garbed in the dress of the period. The streets as usual were brilliantly decorated.

ROGOWY, Russian Poland, Nov. 8.—The Cossacks have thus far been unsuccessful in their pursuit of the revolutionist train robbers numbering a hundred well armed men who surrounded this station last night, threw a bomb at the mail car of a train, detailed it, killing or wounding several soldiers of the escort, and fled with a sum of money now said to amount to \$50,000. The robbery was well planned. It occurred at 9 o'clock when the train was changing engines. The station master declares the revolutionists hid in the neighboring forests and were excellently disciplined, their commander being a man of military bearing. When the robbery was completed the revolutionists transported their booty to two wagons and marched off in military order singing socialist songs.

EXPERT TO EXAMINE SUSPENSION BRIDGE

William Hildenbrand, a New York Engineer, Engaged.

N. B. Petroleum Co. Want to Transfer Properties to English Syndicate—Gold Storage for Carleton Co.

FREDERICTON, N. B., Nov. 8.—At the meeting of the local government held this morning, William Hildenbrand, an engineer and contractor, was employed to make a thorough test and examination of the St. John Suspension Bridge.

A delegation was heard from the New Brunswick Petroleum Company which asked permission to have their leases assigned to a new company, composed mostly of English capitalists with a capital stock of seventy-five thousand pounds. The delegation will receive a further hearing this afternoon.

A delegation from Carleton County was also heard this morning asking for assistance towards establishing cold storage. The solicitor general and commissioner of agriculture were appointed a committee to examine and report. Miss Mowatt was granted leave of absence.

IT IS OUR OWN FAULT IF WE ARE NOT PROGRESSIVE

SAYS THEY KILLED A VALUABLE DOG

Two Fairville Young Men in Court on Serious Charge.

Firearms Were Flourished by the Parties Concerned—Dog Was Most Cruelly Injured.

A case of cruelty to animals was taken up in the police court this morning, when Hartley London and James McMaster of the Strait Shore road were charged, acting together, with shooting a dog owned by Thomas Leatham of the Manawagonish road. The two are youths and were represented by Daniel Mullin, K. C., while J. B. M. Baxter conducted the prosecution. S. Merritt Wetmore, secretary of the S. P. C. A., also watched the proceedings. While the complaint was made against the two youths named there were others in the party, Robert Wilson and Robert London. The defendants pleaded not guilty.

Thomas Leatham, the owner of the dog, said that on Tuesday last the dog, which was a fine St. Bernard, had a sore paw and was walking on three legs. Between seven and eight o'clock that evening he found his dog lying on the kitchen floor in a pool of blood. The poor animal was in great agony with its hind quarters badly torn by a charge of gun shot. He valued the dog at \$100. He got Policeman Lawson to examine the dog, and the policeman shot the animal.

A witness said that complaints had been made that the dog had bitten a boy named Wright and club. The members could meet often and discuss the questions of the day. They should also pledge themselves to advertise St. John at every opportunity.

J. N. HARVEY is in favor of a 100,000 club being formed, and says that he has thought of the matter before. If the club will only induce people to come here, he says it will do little good, but if new industries will be obtained, the results will be gratifying. Mr. Harvey thinks St. John is as good a manufacturing centre as can be found in the maritime provinces.

P. NASE is in favor of the movement, and says that St. John needs more people. If such a club is formed, he thinks he would help to increase the population.

T. H. ESTABROOKS, T. H. Estabrooks thinks the idea an excellent one. Certainly such an organization could be made to do a lot of good for the city. The club should be in every respect a citizens' club. It should not be controlled or run by one class of people, but should have as its members people of every class and business who have any thought of all about their city. Mr. Estabrooks thinks the club should begin with 60,000 as its goal instead of 75,000 or 100,000.

A. L. LANTAUUM, A. L. Lantauum said he would be very pleased to see such a club formed, and thinks a great deal of good might be done by such an organization.

JOHN E. MOORE, John E. Moore thinks the club a good idea. If the city would offer inducements to new citizens to come, such as establishing factories and manufactures here, there is no doubt the population would easily be brought up to 100,000.

APPLICATION FOR NEW TRIAL IN COLLINS CASE

Recorder Skinner, for the City, Supports His Argument Chiefly on the Ground of Mis-direction.

FREDERICTON, N. B., Nov. 8.—The Supreme Court is engaged today with the case of Collins against the City of St. John. The action was tried before Judge Landry and a jury at the St. John circuit, and was brought by the administrator of Mrs. Jane Collins, a woman who lost her life by stepping from the ferry boat on to the floats. The charge was one of negligence on the city's part and the jury returned a verdict of \$1,000 damages for the plaintiff's. Recorder Skinner this morning moved for a new trial, basing most of his argument on the ground that the judge misdirected the jury.

Mr. G. V. McInerney is opposing the motion, and the case will likely occupy the entire day.

The Union Clothing Manufacturing Company of Montreal, in August last secured Moses Fickler, a Jewish merchant of Fredericton, on a bill of exchange for \$12,000. The writ was issued against him by J. King, Kelly out of the St. John county court. An application was recently made to Judge Forbes, of that court, on behalf of the plaintiffs for leave to sign judgment against Fickler for the amount of the costs. The suit was proceeded with against Fickler for the costs, and Judge Forbes delivered judgment, holding the plaintiffs were at liberty to sign judgment for the costs and granted them leave accordingly.

A young man arrived here the other day from St. John on the P. and B. liner Olinda and who was very much displeased over his thirty-six hours sail. He was a St. John stevedore and while at work on the Olinda sauntered to the galley where he stretched out and soon fell fast asleep. In the meantime the Olinda had taken on all her cargo and put out to sea, and not till the boat began rolling did the stevedore wake up when his surprise can be better imagined than described. When he arrived at Halifax his thoughts were directed as to how his wife was going to get money enough to return home, and when he was offered a job he gratefully accepted.—Halifax Echo.

H., will be provided with uniforms and suitable meeting places. Sergt. J. McCarthy, of the 82nd Regt., and Sergt. J. Stanton, late of His Majesty's forces in Ireland, will be the instructors. The plan has been adopted in American cities, and it is thought will be a success here. St. John is the first time city to take up the idea.

His Counsel Appeals for Time in Order That the Countess May Consider

PARIS, Nov. 8.—The final word today in the divorce proceedings brought by the Countess de Castellane against her husband, was Maitre Bonnet's assurance of Count Bonnet's undying affection for his wife and the demand that the case be adjourned for a fortnight in order to give the countess an opportunity to reflect upon the advisability of a reconciliation. This court refused and adjourned for one week, when its decision—either the ordering of an inquiry or the granting of a divorce—will be handed down. Today's proceedings were confined largely to the charges opposing counsel offered the charges yesterday against Edmond Kelly, counsel for the countess. Kelly has denied these charges indignantly and makes the countess charge that the count himself proposed making his wife believe that he, Kelly, had organized a plot to bring about the count's political destruction.

The argument in the creditors' case was opened by the lion's share of the money involved was owing to traders. It is stated upon authority, that this claim will be contested by the countess' attorneys, who are said to be setting all legitimate bills.

DRAFT PLAN FOR HOME RULE IN IRELAND

Report that James Bryce Was in Consultation With Irish Leaders on This Matter.

DUBLIN, Nov. 8.—The Evening Herald declares that it has reliable information to the effect that at a recent conference attended by James Bryce, Chief Secretary for Ireland, John Redmond, leader of the Irish party in the House of Commons, John Dillon, member of parliament for East Mayo, and Sir Anthony Patrick MacDonnell, under Secretary to the Earl of Aberdeen, Lord Lieutenant of Ireland, Sir Antony read the draft of a plan for the reorganization of the Government of Ireland. The draft provides for the establishment of a central or Castle Board, an educational department of agriculture and for the transfer of land. It creates an Irish council, with between two-thirds and three-fourths of the members elected on the existing parliamentary franchise and the remainder on a restricted franchise, or nominated. Clergymen of all denominations are eligible for membership in the council. Ireland is to retain her present representation in Parliament, the police are to remain under imperial control, but the force will be reduced numerically and the judicial system unaltered.

Mr. Redmond and Mr. Dillon are to oppose the police and the judiciary clauses, but it was pointed out to them that certain members of the cabinet were obdurate on these questions. The proposed measure is not yet complete, but the essential features have been settled definitely and the entire cabinet is agreed thereon.

WINDFALL FOR A TORONTO WATER

Peter Morrighia, of Rossin House, Receives Good News. Father Was Wealthy Restaurant Keeper in London, England, but Peter Was Nearly Disinherited.

TORONTO, Nov. 8.—That he is entitled to a third share in an estate of an estimated value of \$100,000, roughly \$100,000, is the pleasing news which Peter Morrighia, a waiter in the grill room at the Rossin House, has recently received from England. Mr. Morrighia, who is generally known by his friends by the more English-sounding name of Morgan, is of Italian parentage, but was born in London, England, and 13 years' residence on this side of the Atlantic has not deprived him of his London accent. His father, Charles Morrighia, carried on a very successful Italian restaurant on the Westminster Bridge Road, right opposite the point where the present London county council street cars start from, and amassed quite a small fortune during the 20 years that he ran this business. On Oct. 11 last the old man, who was over 70 years of age, died at Gravona, on Lake Como, Italy, where he had provided himself with a beautiful furnished home in which to spend his retirement. His estate of \$23,000 is to be divided amongst Peter and his two sisters, Mrs. West and Mrs. Alutto, both of London. In spite of his unexpected windfall Mr. Morrighia is still following his employment as a waiter at the Rossin House, but intends to leave for the Old Country to claim his inheritance either at the end of the present month or the beginning of next. He has already received letters from friends corroborating the story of his fortune. Messrs. Taylor, Wilcox, Ames and Co., solicitors of Bank Chambers, Strand, W. C., have written to him, and he has obtained a copy of the will, which confirms his anticipations as to the amount he will receive. As a matter of fact, however, Peter was very nearly disinherited. He revealed the Old Country at the coronation, and his father suggested that he should remain at home and manage the restaurant as a waiter. As he knew he would be expected to work from 8 in the morning until after midnight, Peter declined, with result that there was a scene, and the father vowed that his son should not receive a cent of his money. Morrighia, senior, and this apparently has not been altered, so that Peter and his two sisters, Mrs. West and Mrs. Alutto, and his wife, an Oshawa girl, is at present under treatment in St. Michael's Hospital.

ANOTHER LOST TRIBE FOUND IN THE NORTH

A Race of People Who Had Never Seen White Men. They Were Discovered on Prince Albert Land—Dress Like Natives of Greenland.

VICTORIA, B. C., Nov. 8.—Details of the finding of a people who had never seen white men on Prince Albert Land, in the Arctic, were given today by an officer of the revenue cutter Thetis, who learned the facts from Captain Klunkinberg, of the steam whaler Olga, who found the people. Last winter when his vessel was in the ice near Prince Albert Land, Captain Klunkinberg, accompanied by an Eskimo, started inland on a hunting expedition. He went 50 miles in a northeasterly direction over the snow, finding traces of people and finally overtaking 150 or more of them. When they saw him they came towards him, armed with copper knives and bows and arrows. They held these above their heads and he pointed a rifle at them. One advanced alone and the captain laid down his rifle, the native putting down his weapons. They became friendly and by means of signs Captain Klunkinberg learned that they were an old woman, who came from Prince William Land, they had never seen white men previously. He visited the village and found about 600 people, all of whom lived by hunting and fishing. They use the most primitive utensils, fashioned from bone and native copper. Their dress was not like that of other Eskimos, but similar to that of the Greenland natives, made of soft, tanned skins and sewed with deer sinews. Their winter houses were of sod, with an inner lining of skins and different in shape from those of other Eskimo tribes. They are nomadic. His article seemingly brought from civilization, seen by Captain Klunkinberg, was a piece of steel, evidently from some ship, which was converted into a spearhead.

SAY JAPANESE TAKE THEIR FISH

Indians Will Send Delegation to Ottawa With Complaint—Want Re-distribution of Land.

VANCOUVER, B. C., Nov. 8.—Claiming that the Japanese are gradually depriving them of one of their principal sources of livelihood by embarking in the business of catching the dog salmon on a wholesale scale, the Indians located at the northern end of Vancouver Island and on the mainland opposite, intend to send a delegation to Ottawa to protest. The delegation idea has caught the fancy of the Indians, and to them it presents almost illimitable possibilities for the fighting of the wrongs which they allege they suffer from with the advance of a too competitive civilization. The salmon trouble is not the only one these northern Indians claim to have. They declare that in their agency, that of Alert Bay, the lands reserved for them are so poorly divided that there are some Indians without any real estate at all, while others have far too much. They want to explain these matters at first hand to Hon. Frank Oliver, Minister of the Interior. The complaint of the Indians with respect to the Japanese taking their dog salmon may be well founded. The originals some years ago found that they could salt, export and market these salmon in Japan at a handsome profit. Year by year the export trade in these fish has been built up till at present many thousands tons are annually sent from Vancouver and Victoria to Japanese ports. While the salting business was commenced by the Japanese on the streams in the vicinity of Vancouver, each succeeding season has sent them steadily advancing northward. Now, the Indians claim that because of this Japanese competition, they cannot secure sufficient dog salmon for their needs. ALIB THE INDIAN SOCIALISTS With respect to the land question the Indians say that there are eighteen thousand acres under reserve in their agency. They say that half of that acreage is held by the Navite tribe, which in the last three decades has been divided in numbers that now numbers only about seventy. The remainder of the land is held to be so unproductive that the members of one little tribe have none at all. Whether or not the Socialist idea penetrates to the Indians is a moot question, but those who are standing around watching their neighbors harvest the crops are enthusiastic supporters of the principle that there should be a new idea in land all round.

GREEN HUNTERS SHOT HORSES, THINKING THEM TO BE MOOSE

An Authenticated Story From Northern Woods Which Reads Like Extract From Comic Paper.

TORONTO, Nov. 8.—Some of the little amenities of the modern Nimrod's life are illustrated by several stories which have come down from the hunting grounds of the North. One of these resembles the anecdotes which appear annually at this season in the year in comic periodicals. Two sportsmen, whom rumor sets down as woodsmen from the ropulous centres of the United States, were scouring the woods north of England, the terminus of the Temiskaming and Northern Ontario Railway, in search of moose. Suddenly the shadowy form of a large quadruped was seen in the forest ground. One shot brought it to the ground. Another luckless animal strayed into range and received three bullets. The jubilant hunters rushed forward to examine their quarry, when to their chagrin they found the inanimate carcass of two horses. The owner, who was packing supplies to the North, had camped in the neighborhood and had turned his team out to graze. The incident cost the hunters \$900 in good cash.

FATAL ACCIDENT ON THE GRAND TRUNK

SHIRBROOKE, Nov. 8.—A fatal accident occurred on the Grand Trunk a short distance from Coaticook station about seven o'clock this morning. Four section men were proceeding westward on a handcar. A light engine left Coaticook, westward bound, and came suddenly upon the handcar. Two men jumped in time and escaped injury, while another was badly injured. W. D. Sage fell on the rails and the engine passed over him, death being instantaneous. He leaves a wife and family of three.

THE UTE INDIANS ARE NOW AS MEEK AS DOVES Are Going Back to Their Reservation Under Escort of Cavalry. OMAHA, Neb., Nov. 8.—According to advices received at army headquarters the Ute Indians who have been causing trouble in Wyoming and Montana, are expected to arrive at Fort Meade, S. D., about November 14th. They are going overland and the report that they were to go by train from Nevada, Oregon and the Indians are escorted by the Sixth Cavalry from Fort Meade under command of Colonel Rodgers. Two troops of the Sixth and Eighth troops of the 10th Cavalry under Col. Augur, will remain in the field on scouting duty to round up any Indians who may break away from the main body. All stories of clashes or ill-feeling between the soldiers and the Utes, are denied. The best feeling is said to exist, the soldiers and Indians hunting together in amity. Captain Carter P. Johnson, of the Tenth Cavalry, who has had as much experience with Indians as any white man in America, accompanies the Indians. He will remain with them at Fort Meade and go with their representatives to Washington to visit the President when the latter returns from Panama.

LABORATORY GEMS. Artificial Emeralds and Sapphires Come to Market.

NEW YORK, Nov. 7.—New kinds of emeralds and sapphires have made their appearance in the wholesale jewelry district and it is stated that the products are of such quality that they are really all that the sale of natural emeralds and sapphires will be injured, just as the trade in commercial fakes and inferior goods is injured by the appearance of the real thing. Emeralds that are free from defects and of such quality that they will be almost as valuable as rubies, both kinds of stones being in great demand. Sapphires bring almost as high a price as diamonds. All the new stones were placed by Collector Stranahan in the class of non-enumerated manufactures on which the tariff law puts a duty of 20 per cent. The importing concerns paid the duty but filed a protest, setting up the claim that the stones were of the value of precious stones, not of polished. Evidence is to be presented before the board in the coming week by H. Washburn as attorney for the importers in the test cases. While the duty will be cut in two if the importers win, yet this result, it is said by men in the jewelry trade, would be of little benefit in connection with the effect of giving prestige to the articles by a government classification as precious stones. The so-called emeralds, according to a preliminary statement made to the general appraisers on behalf of the importers, are really aquamarines, a much cheaper stone, to which the name emerald has been applied by a secret process, supposed to include the application of intense heat and strong acids, jewellers say that if such a process has been discovered it will mean a revolution in the emerald trade. The cheap aquamarine and the costly emerald both belong to the beryl group of minerals and have the same specific gravity, hardness and other qualities, there being no difference except the color. It is expected that testimony will be offered to show that the sapphires are made by the same process as reconstructed rubies, both being of the corundum group. The rubies, it is known, are made from alumina, powdered and fused at an intense heat and passed through a special machine from which emerge the globules afterward polished as gems. To make sapphires instead of rubies would require only a change in coloring from red to blue. In talking in coloring the manufacturers are said to find their chief difficulty in obtaining a uniform red color, and sometimes a blue stone has come out of the machine with one end red and the other blue. Some of the experts in the Maiden Lane district are incredulous as to any of the new stones, limiting their term to those of the same chemical composition as the natural stones. The doubters think that the stones in question may be doublets composed of two pieces of transparent stone at the bottom of which is colored glass. Because of the great skill of Parisian chemists in imitating the natural stones, prominent dealers express the opinion that this country should have a law similar to one in force in France, as a result of which a reconstructed stone must be sold explicitly as such.

NO COUNTRY IS LIKE CANADA AUCTIONS.

Mr. H. J. Logan, M. P., Returns From England—Gives Impressions—Imperial Preference. (Montreal Herald.) Mr. Hanco J. Logan, M. P., for Cumberland in the Dominion House, who returned Sunday on the steamer Victorian from a three months' trip to the mother country, where he was under the treatment of an eye specialist, states that Canada occupies a good deal larger place in the minds of the English people than it did on the occasion of his last visit, four years ago. Mr. Logan, who spent several months in the hospital at Ottawa last year, is now better in health, but how far he has benefited from the treatment of the eye specialist he can hardly yet say. He was ill for some weeks in London, but recovered during the latter part of his stay and was able to see a good deal of the country. Mr. Logan remarked, in the course of an interview with The Herald that the greatly increased stake that the English capitalists and investors have now acquired in Canada has considerably broadened the interest felt in the Dominion. There could be no doubt whatever that Canada today stood higher in the estimation of the English people than the United States or Australia, or any other land inhabited by the English-speaking race. Speaking of the question of tariff reform, Mr. Logan thinks that the feeling in favor of protection is growing, but it is that aspect of protection which would prevent other countries from dumping their manufactured products on the British market, and thus disturbing the manufacturing conditions of the country, causing the partial shutting down of factories and a restriction on employment. Of this other aspect of it which was implied in Mr. Chamberlain's imperial preference policy which would give to the colonies an advantage in the matter of food production and so forth—it could not be the case that there was any growth of public opinion in its favor. It was obvious that what the masses were afraid of in the imposition of a small tax on grain against foreign countries was the fear that it would result in an increase in the price of food without any guarantee of a corresponding increase in wages.

WAS "EASY MARK" FOR HIS FRIEND

MONTREAL, Nov. 8.—Rito Erbsen, fifty years of age, a Swedish, applied to the police court for a warrant for the arrest of a quondam friend and fellow worker on board a steamship on Lake Ontario, Erbsen, who bore marks of dreadful injuries, stated that in June last while at work on a vessel, he was badly injured by the explosion of a boiler, so badly that his life was despaired of. He was removed to the hospital at Niagara out of which he has been but a short time. When he was taken to the hospital he had in his possession having a life-time, some \$3,500. These he handed over to his friend with the request that should he die they were to be handed to his relatives and should he recover to be handed back to him. But the friend had disappeared. So had the money. Erbsen does not know where, although he believes he may have crossed to England and thence made his way to Sweden. The police magistrate referred Erbsen to the detective department and the officers have been ordered to look into the matter, with a view of locating the missing money.

STABBING AFFRAYS.

SHREVEPORT, La., Nov. 8.—Dr. P. Johnson, a farmer of Bossier Parish, was fatally stabbed and his seven-year-old child seriously wounded by William Martin, a negro, today. The men had quarreled over the ginning of some cotton. Martin was arrested. TAMPA Fla., Nov. 8.—Albert W. Wrenn, assistant agent of the Southern Express Co., here, was stabbed to death tonight at 6:55 by H. A. Day, a mail route contractor, who handles mails between trains and the post office in this city. The men quarreled regarding Day's placing his mail wagons at the depot so as to interfere with the express business.

ST. JOHN, N. B., NOVEMBER 9, 1906.

THE TELEPHONE FIGHT.

Moncton people, or some of them, are up in arms against the policy introduced by the telephone combine, and there has been excited talk of expropriation proceedings, the formation of a new company, and several other plans all calculated to prevent the exercise of such unfair or unreasonable methods as are in the power of any monopoly.

It seems that before the merger of the New Brunswick and Central Companies, agents of one or both endeavored to secure as many subscribers as possible in the different sections covered, in order that the field might be fully served, and thus to prevent competition. Low rates were offered, lower than are given as a rule, and many subscribers are still enjoying the benefits of the bargain made.

The hope that rates would be reduced by competition between the two big companies was dispelled when the merger took place. Another new corporation might be formed to compete in the provincial field, but as men seldom go into business for the sake of charity, such a new company would undoubtedly be swallowed up by the combine.

OUR OWN FAULT IF WE DO NOT PROSPER.

One of the leading manufacturers in this city said a week or two ago at a public meeting "There is no reason why we should not have many more important industries than we now have, unless the people of St. John are greater fools than others." This citizen, one who has taken a keen interest in the progress of the city, is at the head of the largest manufacturing plant in operation here and is in a position to speak from personal knowledge.

There are many lines of industry which might be developed, and indeed at the present time several new projects are under consideration. The board of trade committee has obtained a mass of information all of which goes to show that the advantages which St. John can hold out to intending investors are more attractive than in almost any other city in the maritime provinces.

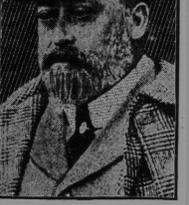

HEROES, ALL.

Time and again have the praises of the Northwest Mounted Police been sung throughout Canada, and it again becomes fitting to draw attention to the heroism and devotion displayed by one of these men, although his work is no different from what is being done every day by members of the force. Constable Selzer, a young man drawing perhaps a dollar per day, was sent in February last from a point on the west coast of Hudson Bay to search for a ship, the Ernest William, and report as to her liability to the customs. He was away for two months, exposed during all that time to the intense cold of an Arctic winter, yet he pushed on and on, and accomplished his mission, covering in the entire trip 850 miles. He suffered from hunger, and indeed for a time even when meat was plentiful he had to eat it frozen as the supply of alcohol and wood gave out. The diary kept by the constable is what might be expected from such a man, brief entries which only hint at the sufferings endured, but which do not contain even a suggestion of weakening determination.

THE KING'S BIRTHDAY.

In honor of the birthday of the King a royal salute was fired at noon today from Barracks Square by No. 3 Co. C.A., under Major Robinson.

LONDON, Nov. 9.—King Edward is celebrating his 65th birthday quietly at Sandringham surrounded by his family. He is in excellent health. Very many congratulatory messages reached His Majesty during the day and many valuable presents were received from the sovereigns of Europe and personal friends. The customary salutes were fired by the warships at the naval centers.

Bluffing. (From the Washington Star.) It maybe in yer system there's a little sporting streak.

You'll understand the joy of which I'm tryin' fur to speak. When you're kind of losin' courage an' yer luck is runnin' hard. An' ye hold a lookin' flush an' rate and draw a single card. An' it ain't the card ye wanted, but ye feel a thrill of pleasure such as comes to yer dream. Life's a golden dream of glory when ye bluff goes through!

We're all a-bluffin' more or less fur big or little stakes. We keep a face that's smilin' an' conceal the heart that aches. As we risk our time an' money in the provincial field, but as men seldom go into business for the sake of charity, such a new company would undoubtedly be swallowed up by the combine.

A CURIOSITY IN FIGURES.

The following remarkable contribution to the curiosities of figures consists of two series of numbers, of which no description is necessary, as they speak for themselves. Perhaps there is no special profit in them, but they are worth preserving nevertheless:—

JOHNNY OBEYED.

Mrs. Flint was a very stern woman, who demanded instant and unquestioning obedience from her children. One afternoon a storm came up, and she sent her son John to close the trap leading to the flat roof of the house. "But, mother," the young John said, "John, I told you to shut the trap."

MOTHER TO BLAME.

There is an extremely pretty girl in Brooklyn who has not been blessed with an oversupply of this world's goods. Recently she met a young man who is decidedly well off and who immediately began to show her considerable attention. The young man in question is of an extremely bashful disposition, and one evening recently, when the girl's mother appeared abruptly in the sitting room at a most inopportune moment, he literally bolted.

WESTERN EXPRESS HELD UP BY BANDIT

One Man Went Through all the Pockets.

Made the Pullman Conductor Walk Ahead and Wake the Sleeping Passengers.

Western Express, Ills., Nov. 9.—The operator at the Chicago and Alton R. R. station here reports that the Golden State Limited passenger train east-bound on that road was held up and robbed one mile east of Glasgow, about 2:30 o'clock this morning. The bandits went through the sleeping cars and day coaches by the conductor of the train who locked the doors. No one was injured and the cars were not damaged.

KANSAS CITY, Mo., Nov. 9.—The Alton officers in this city say they have a report that one man boarded the rear sleeper of the Golden State Limited at Slater, Mo., fifteen miles west of Glasgow and with a revolver in each hand forced the Pullman conductor and porter to walk ahead of him and awaken the passengers. He was prevented from entering the second car by the conductor who closed and locked the door, and the robber escaped by jumping from the train. The amount of booty is thought to be small.

Rhode, Curry & Co. have received an order for two C. P. R. wing snow-plows for the Canadian North railway. SKATE AND DANCE TONIGHT. Tonight in Victoria Rink a King's Birthday programme of skating music and a dance will be held. After the fun on the rinks is over the dancing will commence. This will attract numerous lovers of the fantastic art, as well as a dozen or more of opera rollers into one. All that the children have done in the way of songs, dances, marches, ballets, etc., since coming to this land will be gone over in part, giving a list of selections thirty strong.

THE NEW LEGISLATURE IN THE PHILIPPINES

Will Consist of Eighty One Members— Will Not Be Called Unless the People are Good

MANILA, Nov. 9.—According to the proposed election law the coming Philippine assembly will consist of 81 members representing each one a population of 90,000. The election of members of the assembly is to be held July 1, 1907, and the assembly is to convene within 90 days after election. The Philippine commission will submit the proposed law to public discussion after November 25. The election must be ordered by the President after March 7, 1907, and the assembly is to convene in the act of Congress. If there is an insurrection before then the proposed law will be null and void. The proposed law was decided upon after much discussion, participated in by representatives from the two years of peace provided in the act of Congress. The Philippines are generally pleased with the proposal which is based on election laws of New York, Massachusetts and California.

Minard G. Foster has been fortunate in receiving from the British war office a duplicate of his South African medal to replace the original which was destroyed when Mr. Foster's home in Crouchville was burned in the early spring. The duplicate was secured through the efforts of Lt.-Col. White, who kindly interested himself in the matter. Mr. Foster had to make many declarations as to the loss of his medal, showing that the war office is very careful in issuing duplicates, and will not do so if it found that the originals are lost through any neglect or carelessness on the part of the owner.

Rev. J. D. Freeman, pastor of Bloor street Baptist church, left yesterday morning for Nova Scotia, called by the seriousness of illness of his father—Toronto World.

Tonight is "ladies' night" at St. Andrew's Rollaway, and the same rule will prevail as on last Friday afternoon and evening. Tomorrow night will be men's night. Fast skating allowed. The children's carnival, which will take place Saturday afternoon, Nov. 17th, is creating great interest among the children, and parents are interested almost as much. Already several suits are being made, and several children are correspondingly happy.

Mr. N. Curry, president of Rhodes, Curry & Co., has been in Montreal for the past few days. He is expected to return at noon today and we understand that he is bringing a good order for passenger equipment for the Canadian Northern Railway—Amherst News.

Miss Edith Fleming has returned from a visit to relatives at Lynn, Mass. Thomas Rippey and his bride, of the West End, returned last evening from their wedding journey through Nova Scotia.

Society

It is a noticeable feature in the social life of St. John this autumn that the afternoon whists are not at all popular. Scarcely any of these energetic but somewhat so far, and this, it is generally admitted, is a great relief to all. Last season bridge was carried to the limit, and there were numerous clubs in which the members not being satisfied even with the afternoon games, frequently met in the forenoon. In place of these whists, teas and at homes are now the vogue, and there seems no falling off in the numbers held weekly.

Mr. Robert Irving left on Wednesday evening for a brief visit to Toronto.

Mrs. A. Gordon Cowie entertained at bridge last evening.

Mrs. J. A. Likely was at home to a large number of friends on Thursday afternoon, introducing her daughter.

Mrs. George Warwick has issued invitations to an at home on Friday.

Mrs. William Harding, of West End, was hostess at an enjoyable At Home on Wednesday afternoon.

Mrs. Mary Thompson gave a thimble party to a few friends on Tuesday afternoon.

Mrs. Thomas Bullock is visiting her mother, Mrs. Chestnut, at Fredericton.

Mrs. George Schofield, Wright St., entertained on Tuesday and Wednesday of this week.

Canon Richardson has been confined to his home through indisposition for a part of this week.

Mrs. W. Frank Hatheway entertained a few friends on Tuesday afternoon to meet Prof. Kidner, who was a guest at her home while in the city for a few days. Mrs. Hatheway was assisted by Miss Miletta Hatheway, Miss Purves and Miss Blanche Allen.

A large number of ladies attended the lecture given in the Natural History rooms yesterday by Miss Eleanor Robinson, the subject was Oxford, Lou Purves and Miss Blanche Allen, and Miss Robinson, who spoke from personal experience, gave a most interesting and enjoyable address.

Mrs. A. G. H. Becker and family left on Tuesday for Toronto to join Rev. Mr. Dickie.

The marriage took place in Montreal on Wednesday of Miss Agnes V. Hingman, formerly of St. John, and Capt. F. Fieldhouse Clarke, of Deer Lodge, Ont.

Miss Grace Miller, of Sydney, who has been visiting friends here, has returned home.

Miss Jean Mosher, of Windsor, is the guest of Miss Jennie Colter, Charlotte street.

Mrs. M. J. Harding, Miss Florence Harding, C. P. Allan, Mrs. Allan, and Miss S. E. Allan, were among the passengers on the Empress of Ireland on her last trip from Quebec.

Mrs. G. Y. Dibble, of Fredericton, is spending a few days in town a guest at the Royal.

The bridge whist party given by the members of the Neptun Rowing Club last night proved a very enjoyable affair. Sixteen tables were occupied by the members and their friends. The first prize was won by R. S. Ritchie. A. L. Fowler and Horace G. Porter tied and drew for second and third places and John H. Sayre took fourth prize. Refreshments were served by a committee of members at the close of the evening.

Miss M. Emily Morrison, daughter of Andrew Morrison of the general offices of Montreal, is visiting her aunt, Miss Lydia R. Morrison of this city. Miss Morrison is a nurse of the Newport Hospital, R. I.

Miss Edith Fleming has returned from a visit to relatives at Lynn, Mass.

Thomas Rippey and his bride, of the West End, returned last evening from their wedding journey through Nova Scotia.

COMMERCIAL.

STERLING SILVER IS UP TOO.
NEW YORK, Nov. 9. — Following the recent advance in sterling silver knives, forks and spoons, the manufacturers of plated silverware announced new price lists on these articles yesterday. The International silver company which compiled several affiliated concerns put up its prices one of the officers said, from five to ten per cent. on all plated ware. Hollow ware which includes pitchers, bowls and various kinds of others, remains at the old prices.

SPECULATIVE CONTRACTS, O. K.
ST. PAUL, Minn., Nov. 9. — The U. S. court of appeal yesterday handed down a decision upholding the validity of contracts for the purchase and sale of grain for future delivery, and it is practiced by the Chicago Board of Trade and the Merchants' Exchange of St. Louis. The case is that of Thomas A. Cleage, Jr., appellee, against W. H. Laidley and others, appellants. Cleage, Jr. dealt in about 14,000,000 bushels of grain and less than 2 per cent. of it was delivered. He testified that he did not intend to deliver or to receive any grain under his contracts unless forced to do so in order to prevent his contracts from being closed out under the rules of the board or the exchange.

The brokers to whom he became indebted filed a creditor's petition in bankruptcy, on which Cleage was adjudged to be a bankrupt.

NEW YORK, Nov. 9.—Early dealings in stocks were on a small scale and at lower prices last night. Pullman was a notable exception, and was lifted 3 1/2 by the report of the plan for the distribution of the surplus to stockholders. American Woolen broke 2 3/8 on account of the intended increase in the preferred stock. Great Northern, pfd., declined 1 1/2 and Northern Pacific, National Lead, Sugar, a substantial fraction.

TEEN MEN WERE DROWNED FROM FINNISH BARK

More Bodies Recovered Near Priest Pond Yesterday — Last Man Had Miraculous Escape — Deal Raft Comes Ashore from Wrecked Bark Adeona — No Sign of Life There.

CHARLOTTETOWN, P. E. I., Nov. 8.—Teen men were drowned from the Finnish bark *Sovinto*, wrecked on Tuesday night off Priest Pond. Four bodies have been recovered. Last night only six men had remained on board, four on the forward section and two on the after. The latter two were picked off by a dory from the shore last night. One of the four men, aged seventy, unable to endure the terrible exposure, leaped overboard and was drowned. The other two were washed overboard, but the fourth held on. All day today he was observed from the shore walking backward and forward holding on to a line. At night-fall he seized a plank, leaped into the raging breakers and by a miracle escaped destruction, being dashed on the shore by a huge wave and rescued by willing hands unharmed after sixty hours' exposure and without food for that time. The *Stanley* had left Charlottetown today for the rescue, but only got as far as Georgetown. A special train left Charlottetown with the *Alm's* life boat, but it will not be hoisted, as the last man has left the ship. Of twenty-two of a crew, eleven were rescued. They are nearly all natives of Raumo, Finland, where the ship belongs. The captain tells a most thrilling story. When the vessel struck on Tuesday night at nine o'clock three of her men went by the board and she broke in two. He reached shore next day at noon, being one of the fifteen who left in the life boat which capsized, through seven out. One man got back to the wreck. The others landed safely.

DEAL RAFT FOUND.

REXTON, N. B., Nov. 8.—The finding of a deal raft on the beach today, on which are six loops of rope, by which it is supposed six men of the crew of the bark *Adeona* have been lashed in an attempt to reach the shore, lead people to believe that all of the crew have perished. The deals in the raft have been recognized by Stevedore A. Fraser as part of the ship's cargo. All attempts to reach the vessel have as yet been fruitless. There are no signs of life on board the wreck. The wind is still blowing a strong breeze from the north.

WRECK SHIFTS SHOREWARD.

RICHIBUCTO, N. B., Nov. 8.—The bark *Adeona* shifted a little nearer shore in the gale which blew last night, accompanied by a high tide. The sea was too heavy today to make any attempt to reach the wreck. A life-raft was washed upon the beach today. It had been strongly constructed and provided with life lines. This incident only adds to the mystery surrounding the terrible event. Whether it was constructed on the *Adeona* and used by any of the crew, or whether it marks another tragedy of the sea, far north of this harbor, will probably never be known. An examination of the boat which left the wreck shows that the painter was chopped off close to the boat. This would indicate that all the crew were on the boat or that those remaining on board refused to leave.

The burial of the two bodies recovered took place this afternoon at three o'clock from the undertaking rooms of O. K. Black. There was a large attendance. Rev. J. R. Martin, rector of St. Mary's Church, conducted the service and made an impressive address. The hymns, *Nearer My God to Thee*, and *Rock of Ages*, were sung. The funeral procession was headed by Rev. Mr. Martin and Robt. Hutchinson, K. C., the Norwegian consul. Each casket was conveyed with a separate train to the cemetery and the remains were placed in separate graves, side by side. Although laid to rest in a strange land and among strangers, yet deep sympathy was shown for the occasion. Tears flowed from many eyes.

OFFERED LOAD OF HAY FOR VOTE

More Deputy-Retiring Officers tell of Ballot Switching

None of Them Able to Identify Any of the Defendants in the London Election Case

TORONTO, Nov. 8.—Slight deviation from the ordinary trend of events in the London conspiracy case was shown this morning when Frank Hutchinson swore to having been offered \$5 by a man named Charles Stevens if he would vote for Gray, the Conservative candidate. The same witness said that during the Robinson-Rutledge election, Rutledge, the Conservative candidate, had offered him a load of hay for his vote. Hutchinson's story was contradicted by Stevens. More deputy retiring officers from White-Comstock election in Brockville, told of receiving instructions in art of switching ballot, but none of them were able to identify any of the defendants. O'Grady, Reid, Wylie and Mulloy. At the conclusion of this morning's session the case was adjourned until next Wednesday, when it is expected that one day will complete it. Joe E. Campbell, the first witness, told DuVerney that he was a resident of London.

"Do you know James McCormack?"

"Yes, sir."

"Did he canvass you for your vote?"

"Yes, sir."

"In what election?"

"By-election."

"Did you get any money afterwards?"

"Not directly."

The magistrate—"Oh, not directly. Did you get any indirectly?"

The witness told the magistrate that he was at a lodge one evening after the election and when he pulled his handkerchief out of his pocket he pulled out an envelope with five dollars in it.

"Don't you know how it got in there?"

"No I don't."

"Did he not put it in?"

"No, sir."

Mr. DuVerney—"How do you connect the Lewis hotel with the matter?"

"Well, I went right from home to the Lewis hotel, had a drink of beer and went straight to the lodge room."

GRAVE FEARS FOR SEAFARERS

Have the Finn and Symra Gone to the Bottom?

Mariners Think Big Collier May Have Struck on Byron Island or Bird Rocks—Tug Searching

SYDNEY, Nov. 8.—Report of disaster after disaster in the gale which swept the Maritime Provinces keeps coming in, and the storm is now taking rank with the memorable gale of August 1873, the number of marine tragedies. Besides the loss of life on the New Brunswick and Prince Edward Island coast, the number of vessels are entertained about another, the *Symra*, Captain Holstad, which left Sydney for Montreal Sunday morning, a few hours before the hurricane broke in all its force. She was heavily laden, and it is feared that in a sea which drove the *Reid-Neufundland* company's steamer *Bruce* back into North Sydney for shelter, something which has only happened once since she has been running on this route, the *Symra* would have a poor chance. At any rate she had not been reported in the St. Lawrence up till late this afternoon, and she was due at Montreal on Tuesday. This morning the tug *Douglas H. Thomas* left the International pier to search for the *Finn*, but she has no chance of finding it. It is believed that the *Finn* and *Symra* are both lost. The *Symra* was a large collier, and the *Finn* was a smaller vessel. The *Symra* was carrying a large cargo of coal, and the *Finn* was carrying a large cargo of hay. The Furness Liner St. John City arrived last night from London via Halifax, and the Dominion Liner Indrala, from Glasgow, arrived in port this morning.

The new Eastern Liner Governor Cobb called this morning for Eastport, Lunenburg, Portland and Boston. She took a fair cargo and a number of passengers.

This morning a large Newfoundland dog caught a small spaniel dog on Orange street, and before it got through tore nearly the entire breast from the little dog and left it dying in the gutter. The spaniel was owned by Mrs. Farham and was put out of agony by Policeman Silas Perry.

J. W. Vanwart has on exhibition at his store today the carcass of a big bear, weighing about 450 pounds. This animal he hunted in the mountains of about three miles from his home at Newcastle, Queens County. Mr. Vanwart's ability as a marksman is proved by the fact that the bullet hit the bear between the eyes.

John Flood, the well known contractor, has been appointed inspector of work by the Canadian White Co., his duties to be performed during the erection of the new Royal Bank of Canada building. Mr. Flood is an experienced mason and is well qualified to hold this position.

W. B. Murdoch, of Amherst, was in town today. Mr. Murdoch says that Amherst will by the first of February, 1907, have four new factories in operation. These in addition to industries already there and running full blast, will certainly put Amherst at the head of the list of the manufacturing towns of Nova Scotia.—Truro News.

It is stated that there was a rather serious breach of discipline in Winter street school on Wednesday. The story is that two brothers, named Bradley, attend the school, one being in Miss Hayward's class and the other a pupil of the principal, Mr. Stoddart. On Wednesday Miss Hayward found it necessary to reprimand the boy in her room, and as she was doing so the lad became angry. Miss Hayward sent for Mr. Stoddart who came to her assistance, but the elder Bradley learning that his brother was in danger of punishment also went out. The two Bradleys it is said vigorously attacked the principal, and after throwing away his ruler left the school.

The city constable referred to yesterday as having served a summons over a coffin, has taken objection to the remarks in the police court yesterday. He says that he did not know there was a death in the house until after the summons had been served, when on his way out he met the undertaker taking the coffin into the house. He then inquired about the sad case to the lawyers who issued the summons and the matter was dropped for the time. He is very sorry that a wrong statement had been made to the court, and says that if he had known that there was a death in the house he would have not served the summons.

GOT DRUNK INSTEAD OF HAVING HIS TEETH PULLED

The Experience of a Man From Musquash—An Unknown Sailor's Fairy Tale of the Missing Wad.

In the police court this morning one drunk forfeited a deposit of \$3. James Allen pleaded guilty to drunkenness. He said he came into town from Musquash to get some teeth pulled and then got intoxicated. He was fined \$4 or ten days.

Minnie Nairn (nee Burns), pleaded guilty to being drunk and was fined \$3 or two months jail. John Leonard was fined \$4 or ten days.

A sailor giving his name as Bart Grant was arrested in the I. C. C. depot last evening and while in the I. C. C. cells took off his coat and vest. When being transferred to Central station he forgot to put on his vest and complained to the court that there was nine dollars in the vest. The cell was searched, the vest found, but the money was not there. He went to jail in default of paying a four dollar fine.

In the assault case of McAfee vs. Brager the complainant did not appear and the case was dismissed.

Mrs. Chisholm who is charged with assaulting Constable French was in court this morning. The case is set for this afternoon.

STARTING TO REBUILD WATERLOO ST. PREMISES

Gang of Men Went to Work on Ungar's Laundry Today—Other Repairs Being Made.

Work was commenced this morning at rebuilding the gutted premises of Ungar's Laundry. Contractor Hamilton has charge of the work. It is not thought that much of the building will have to be torn down. The repairs will probably be completed in the course of a month. The building will be sufficiently rebuilt to allow the em- ployees to resume work in less time than that. The fire damaged the rear of the building most, and in this portion the carpenters were employed today. It is the intention to Mr. Gillespie to have the building repaired in the old style.

Repairs are also being made on the Myers' property, and as the roof was burned off this building it will be some time before business can be resumed.

The machinery was considerably damaged by water, and work at clearing it has been progressing for several days.

The King brush factory will also be repaired in a few days. The most of the work on this building will be in the interior. The southern end was quite badly scorched however, and new shingles will have to be put on.

CHESTER FLEWELLING IS DEAD IN REGINA

Former Employee of M. R. A. Went West a Few Weeks Ago—He Was Quite Popular Here.

Yesterday word reached Rev. Mr. Wainwright, Anglican clergyman at Kingston, Kings county, of the death of Chester Flewelling, son of Joseph Flewelling, of that village, asking Mr. Wainwright to convey the sad intelligence to the parents of the young man's death, which took place in Regina, Assa., where he went a few months ago.

Chester Flewelling will be well and favorably remembered in this city. Up to the middle or later part of last August he worked in the men's cloth section of Manchester, Robertson, Allison, Ltd., and was a trusted and respected employee of that big concern. In Anglican young men's circles he was an active worker, being a member of the Brotherhood of St. Andrew, and while here belonged to the Army Medical Corps. Deceased was about twenty-three years old.

Being in somewhat failing health he decided to try the western climate, and left with the harvesters in August, landing in Regina. It appears he secured employment as a school teacher, for he was of superior talents along educational lines. During his illness, which was of typhoid, the school teacher associated with him, and the authorities in that work sent advices of him to relatives in Kingston. They said they were giving him every comfort possible, but he was very ill.

It is not known yet whether the remains will be brought home for interment or not. Only a short while before Mr. Flewelling left for the west he was called upon to mourn the loss of a sister.

NO. 3 WILL NOT BE READY TILL LATE NEXT WEEK

Dredging at Long Wharf Has Not Yet Been Commenced.

The dredging at Long wharf has not yet begun. It is stated by the engineer in charge of the work that 25 feet will be dredged on the east and west sides of the wharf.

A number of city fathers and other citizens chose this matter as the chief topic of conversation at City Hall today. It is estimated by some that the dredging at Long wharf will not be finished to accommodate the first winter port boats.

The dredging on the west side is progressing, and more headway is being made by the Beaver, since the ground on Union street has been sloped, preventing the earth falling in at high tide. It is now probable that No. 3 site will be in readiness for the sinking of the crib by Wednesday or Thursday of next week.

FUNERALS.

The funeral of Francis O'Neill was held this morning from his late residence Rockland Road. High mass of requiem was sung in Holy Trinity church by Rev. Father Welsh and interment was made in the new Catholic cemetery. The four sons of the deceased and his two brothers, Thomas, of Yarmouth, and Charles, of Moncton, acted as pallbearers. Mr. O'Neill leaves a wife, four sons, two brothers and one sister, Mrs. E. Gray of this city.
