was so marked on the bottle. When his head began hurting him so bad and he was talking about getting out of the world, I put the bottle in the stove. I first saw the bottle of polson in a trunk. I never touched it and said nothing about it to anyone. He never mentioned having it to me. I never saw it again until I put it in the stove the last of last November. I found it in the trunk in the same place where I saw it first. The trunk was always kept locked and the key was left in the drawer in the sewing machine. The day I first found the polson I was looking in the trunk for the deed of the place out of mere curlosity. I think the deed is in the house yet. My husband did not know I was looking there. When I threw the bottle away it appeared to have as much in it es when I saw it first. I did not tell my husband when I destroyed it. To the best of my knowledge I destroyed all the strychnine that was in the house. My reason for destroying it was be-

A LITTLE TOO EARLY.

Wednesday evening Prof. D. H. Knowlton, secretary of the Maine Pomological Society, concluded the judging of the fruit exhibit. In conversation with a reporter he said yes-

found in another column.

The Attendance Thursday was spoi

ed by the disagreeable weather, rain

and continuing during the afternoon.

Had it not been for this the attendance

would undoubtedly be a record break-

not complain. Correct returns will be

er, but as it was the management can

encing to fall about two o'clock

terday. "It is too early to get an exhibit of good fruit and besides that this season is about three weeks later. Altogether the fruit growers labor under a very great disadvantage this year in ndeavoring to put on a good exhibit. Despite these difficulties there is a very good display of well grown fruit. One or two exhibits are especially B., 971-2 points; 3rd; Bertrand Goodworthy of notice. peed, Penniac, N. B., 77 points, 4th. "George McAlpine's dislay is the best shown here this year and on the whole is better than the Nova Scotia exhibit I am very much gratified at this as it

clearly shows that New Brunswick is 2nd; Geo. W. Sharpe, Woodstock, N B., 97 points, 3rd; Winslow McLeod capable of producing fruit that is equal to any raised in Nova Scotia. The enobsquis, N. B., 961-2 points, 4th. truit in this exhibit is well grown and Class 5-French Coachers. selected "A . R. Gorham has the second bes

show in the county and general exhibits. His fruit too, is well grown and of good quality. "A considerable improvement has Pullen, city, 3rd. been made of late in regard to the

handling of fruit. Still there is room for considerable improvement. Speci-1st. mens should have unbroken stems, be Sec. 4-Stallion, 1 year old (1 entry)free from spot and worm, in their J. S. Sanborn, Lewiston Junction, Me.,

natural color, so as to show the bloom 1st. of the fruit, and of uniform size and Sec. 5-Stallion, any age (2 entries)color.

"The counties are not well representdiploma ed in the county exhibits. It is a very desirable thing that these classe should be filled. They show the resources and possibilities of the county esides adding a local interest to the exhibition.

"S. L. Peters makes a model superintendent. He has the exhibition well in hand, admirably arranged and cared

"The specimens of preserved fruit seemed especially good. I do not know whether it is due to the formula. used in the preparation or to the care used in putting up the fruit. It probably is both." Prof. Knowlton left yesterday after-

noon for his home in Maine. THE KING'S WHEEL.

There is also a splendid variety of turkeys, ducks, geese, pidgeons, rabbits, guinea pigs, pigeons, etc. Every visitor to the exhibition should take in the poultry house. W. A. Jack is again in charge and is ever willing to impart any information desired concerning the exhibits.

BUTTER MAKING COMPETITION. Wednesday the butter making competition will commence in the Agricultural Hall, under the supervisi of Messrs. Tilley and Daigle. The competitors are Clarence N. Goodspeed Penniac; Lorne A. Gibson, Marshfield, P. E. I.; Havelock Cheese and Butter

Co.: C. F. Alward Edward Wheaton. Petitcodiac; W. W. Eveleigh, Sussex; Harry Hughes, Petitcodiac; S. L. Peters, and E. J. Peters. Queenstown; Clifton N. Wilson, St. Andrews. Ripered cream will be supplied by

the department and the churns are now in place. The competitors will line up for the start at half-past two and at the word will get to work. There will be some swift churning then as every one of the starters is an expert with a provincial reputation. When the butter is made it will be judged. The time taken in bringing the butter and the manner of churning will be taken

into account as well as the quality of the butter, its texture and color. The competition will be continued to day and Friday. A great deal of interest is taken in it as different sec

tions of the province are backing their favorite butter makers. HE DOES HIS WORK.

The superintendent of the agricultural department, S. L. Peters, is pne of the familiar figures about the exhibition. For years he has been one of the very best workers in connection with the big show, and his interest in it is shown by the amount of time and labor he gave towards making his department a success. In his section pf the exhibition one is always struck

with the neatness of the display and city, 3rd.

JAS. H. MCAVITY, display. Sheaves of grain are grouped a of the the eldest son of the late Thos. Mcis thatched with the straw. Engrav-Avity, Esq., who for the larger portion of his life was actively engaged in the trans-continental line and pictures of manufacture of iron and brass goods, farms and harvesting scenes in the

SEMI-WEEKLY SUN, ST. JOHN, N. B., SEPTEMBER 10, 1902.

those of the fruit growers, so that it

ecomes necessary to fix the dates when the most important interests will be best secured. This year, the lateness of the season seems still more unfortunate, as fruit is at least two or

three weeks later than usual. Notwithstanding the disadvantages eferred to, the fruit gapwers of New Brunswick have made a creditable showing of fruit. Nova Scotia was also represented in the exhibit, but growers from there assured your judge tins for retailing Extracted Honey (1 that their fruit was too green to put in

exhibition. In general, the fruit was iac. N. B., diploma. as good as the unfavorable condition would lead one to expect. The exhibits of Geo. McAlpine convinced me that New Brunswick can grow as fine fruit odiac, N. B., diploma. as Nova Scotia. In this case, the New Brunswick fruit was the better. Several of the country exhibits are

eserving of special mention. That shown by Mr. McAlpine was especially good, containing a large variety of well grown fruit, including the small fruits. The exhibits easily won the highest prize, both in country and general exhibits. Mr. Gorham also had a well arranged, creditable exhibit. While the others were less extensive, they were good: though your judge in one case felt it his duty to award second prize where there was no competition. From what I learned, the exhibitors ardly realized the full meaning of the products called for, as there were only a few plates of apples and one plate

The idea of offering prizes for local (N. B.) products is an excellent one, and your judge hopes you may feel like continuing it in the future, until N. S., 2nd. all the counties shall be well repre-Elsewhere I have offered a few sug-

gestions for the consideration of your executive committee. I hope you may find them helpful in your future work. It gives me pleasure to commend the work of S. L. Peters in the charge of the fruit and other exhibitions in agricultural hall. The exhibits are well arranged, well cared for, and very at- B., 2nd. tractive to visitors. You are fortuntries)-W. M. Thurrott, Maugerville, ate in securing such efficiency. I wish to thank your association for the cordial reception I have received Sec. 35-Squash, 2 Essex Hybrid (3 while stopping in your beautiful city, entries)-Bertrand Goodsped, Penniac, and to congratulate you on the grand success of your exhibition, which is

indeed a grand "gala day" for all the people of St. John, and many visitors from far and near. All of which is (3 entries)-W. M. Thurrott, Mauger- most respectfully submitted. D. H. KNOWLTON, Judge of Fruit.

SHORT TALKS. Friday morning Prof. Geo. E. Day of Guelph Agricultural College gave a talk on Beef Cattle, illustrating it by the use of some of the animals entered in that class. In the afternoon Dr. J. entries)-A. & C. A. Harrison, Mauger- H. Reed, also of Guelph, spoke on the subject of Light and Heavy Horses. Both speakers had audiences, which if not large, were exceedingly appreciative. Many questions were asked and

from the start, and has been one of its most reliable guides up to the present time. Mr. Burditt represented the industries of this province in 1876 at the Centennial Exhibition at Philadelphia

RELEASED BEDSPRINGS MAKE A ROUGH HOUSE.

(Richmond Times.) In E. M. Andrew's furniture store the colored porter was opening up a shipment of bed springs, which, for space saving, had been tightly corded. The bundle was standing up against the wall in the rear of the store, fronting the basement stairs on the opposite side of the room. Negro-like, the porter, with his pocket knife, gave a slash at the cord; the springs suddenly expanding, sent him clear across the room, hurling him down stairs like a missile from a catapult. The narrow stairs kept the whole outfit of springs from following. They, being checked by the stair facing, rebounded to all parts of the room, knocking over furniture and breaking a valuable mir-

Meanwhile there was a commotion in the cellar. Mr. Faulkner manager of the store, and Mr.Hundley, chief clerk, had gone down to enjoy a cool melon

S. KERR & SON.

Only six horses, Joe Hal and Park Campbello having been drawn. In the third heat Kate Willard, the pole horse, shot ahead of the rest right at the start. Walter K. followed her, and Ituna went after him. The last named made a bad break and fell away behind. For a quarter of a mile Kate Willard and Walter K. put up a eat race, and then Charles M. closup on them and the three battled hard for the supremacy. At the completion of the half Kate Willard had a ew feet the better of Walter K., and Ituna had got right up on them. During the first part of the next quarter Walter K. passed Kate Willard, and then Ituna passed him, and at the third quarter pole Ituna was the leader. On the home stretch Ituna drew rapidly away from the othe horses. She won almost as she pleased. Walter K. was seepnd, Kate Willard third, George fourth, Charles M. fifth and Morley King last. The time was 2.25 1-2 Ituna moved away from her oppon

ents early in the fourth heat and was never headed. It was a fast heat considering the condition of the track Kate Willard and Walter K. fought hard for second place. The latter shot past Willard near the third, quarter pole and beat her out. Charles M.

went better this time and came in Morley King did not start in the fifth heat. Ituna led for a short time, but Charles M. forced himself ahead on the back stretch and at the quarter he was eading with Ituna second and George team will take place.

Ituna and Charles M. were head and head and George was doing good work. A break by Charles M. lost him a lot of ground, and Ituna secured a lead which none of the other horses could hope to cut down. Ituna finished a winner at a jog with Charles M. second, Kate Willard third, George fourth and Walter K. fifth .- Time, 2.25 1-2.

The complete summary follows: Free-for-All-Purse, \$500

Dr. Chase's Ointment

rassa's article in the Monthly Review will understand why an imperialist believes the problem so momentus. Premier Ross in his letter to the Times in Sept., 1901, urged Britons to emigrate to Canada, giving a number of reasons for strengthening that element of the colonial population. Yet Sir Wifrid goes to France to suggest a direct steamship line, and urges France to send immigrants to Canada. While Chamberain is exhausting his eloquence to persuade Englishmen to immigrate to Canada and other colonies of the empire, Laurier is busy trying to stimu-late a stream of French emigration.

DEATH OF GEORGE A. MAHOOD.

Liver

Stomach and

Liver Troubles.

Indigestion and Severe Headaches **Resulting From a Sluggish**

> DR. CHASE'S KIDNEY-LIVER PILLS.

The liver is responsible for more ills and suffering than is generally supposed. Once the workings of the liver are disordered the blood is not properly filtered, and foul impurities are lodged in all parts of the system. Much of the success of Dr. Chase's Kidney-Liver Pills is due to the fact that they act directly on the kidneys, liver, and bowels, making them active and regular.

Mr. B. Knowles, broommaker, 586 Main Street, St. John, N. B., writes:-"For years I suffered from kidney and liver disorders. I had severe pains in the back, and they caught me espe-cially when I stooped over. I was also troubled with indigestion and severe headaches

"I began using Dr. Chase's Kidney-Liver Pills and cannot speak too highly of this medicine, for it has done me a world of good. The back pains and headache have been entirely cured, and my digestion is good." Dr. Chase's Kidney-Liver Pills, one

School of Science. ley, in the spring, and this has always resulted in a good stand of clover before the close of the season, as it grows rapidly after the grain is harvested. If the land is intended for grain the ploughing under of the clover is done late in the autumn; if a crop of potatoes or Indian corn is to be grown the next season the clover is left till the following spring, when about the second or third week in May the clover will be quite heavy and furnish a large amount of material for turning under. It may be urged that the burying of crop of clover is waste. This in a measure may be true if the farmer has sufficient stock to consume it, for by feeding it there is the opportunity of converting a part into high-priced animal products and returning to the soil practically 75 per cent. of the fertilizing elements of the crop in the waste product of the animal economy.

reached by the roots of other farm

crops; therefore the turned-under clo-

ver crops can be considered as adding

largely to the mineral supply of the

superficial soil layer. The feature spe-

cially worthy of note, though, in this

connection is that this mineral food

now offered as humates for the use of

succeeding crops is much more avail-

able than before the clover appropriat-

ed it; it has practically been already

digested, and is, therefore, more easy

of assimilation. To these benefits must

be added the good work that clover

does as a "catch" crop, preventing the

loss of soluble nitrates and other plant

a committee to present a resolution on the subject. Business was adjourned till Saturday mor

Quebec Municipal Officer Gives Important Evidence

Business was adjourned till Saturday morning.
The reports were read and totalled as followed: In N. S., 19 churches, and 10 in N. B.; 2,326 members, 148 additions, 35 lost by death and removal; 1.187 in the Sunday schools. Value of church property \$47,800; raised for home missions, \$1,200; for foreign, \$700.
Three new houses are under construction and one new church was organized this year. There reports indicate a very good state of affairs.
At 2 p. m. in Young People's Rally, led by J. C. B. Appel, short papers were read by Miss E. Fullerton, Pictou, N. S., "The Young People-the Church's Recruiting Ground." Miss L. Jackson, Port Williams. "The Claim of Missions on Young People." Miss M. Whelpley, St. John. "The Quiet Hour and Tenth Légion." These papers showed much care in preparation and were read in a spirited manner. ithout Fear, Favor, or Affection, He Speaks Plainly His Honest Senti-ments, Adding Some Words of Advice WOLFESTOWN, Que., Sept. 5.-

ning. The

(Special.)-Mr. R. Boulanger, Secretary and Treasurer of this town, is numbered among the most prominent and highly respected citizens of the coun-

Time and again he has been honored by appointments to offices of public trust, and there is no man in our community who commands the universa respect and esteem of all classes of citizens more than Mr. Boulanger.

Those who know him well are awar that for some time he was very ill. and they also know that he was re stored to good health, but many of them may not be aware of the means used by Mr. Boulanger in accomplish ing the wonderful recovery which he has been fortunate enough to bring about.

Dodd's Kidney Pills cured him and he has made this fact public in a grate-ful letter, which reads as follows:-"I desire to say that I was complete ly cured of Kidney Disease and Urin-ary Trouble by Dodd's Kidney Pills.

"I was so bad that I was obliged to urinate often, with much pain. They have relieved me of the pain and the results in every way are satisfactory. "I think it is prudent for every family to keep them and use them.

When a man of Mr. Boulanger's standing puts himself on record so frankly and positively, there can be no loubt but that he has experienced all and more than he states in his letter. Dodd's Kidney Pills have now per-manently established themselves as an infallible remedy for all urinary trouble, and the closing words of Mr. Boulanger's letter are an advice which every household should observe.

TYPHOID AT FREDERICTON. FREDERICTON, N. B., Sept. 5.-Miss Constance Marsh, daughter of Mrs. Kingdon, is critically ill here with typhoid fever. His lordship was wired to at Montreal informing him of the serious condition of Miss Marsh, and he arrived home this afternoon.

Mr. Woodbridge was still under crossexamination at the deal and dumb inquiry this afternoon. Nothing new was

own industries and our own trade. Nhy have we not tion tariff laws and harbors? After all it is purely a question of home har-In discussing the question of bors. fiscal policy let us discuss it in a broad Canadian spirit, look to the great researches of our country, and sink personal and party feelings. That is the position I take and I am not ashamed of it. But other public men are entitled to their opinions too, and after all the people are the judges of D. BASSEN'S_____ the court of last resort, to which these things must be submitted. The petty interests of party should never be per nitted to stand in the way of the na-

tion's progress. Let us show all parts of Canada and all interests represented that we have a common purpose in the building of a nation and invite all to contribute in the promotion of Can adian industries.

A FAMILY NECESSITY. Owing to artificial modern life al

most everybody suffers more or less from constipation, torpid liver and sluggish kidneys, and as Dr. Chase's Kidney-Liver Pills are the most promp and thorough cure for this derange ment, they have come to be considered a family necessity. Hosts of families would not think of being without them. One pill a dose, 25 cents a box.

REGARDED AS AN AFFRONT.

British Flag Displayed Above Stars and Stripes at Goderich. Ont.

WASHINGTON, Sept. 2.- A report has reached the state department from Goderich, Ont., that a citizen or citizens near that place displayed the British flag above the United States flag on a small vessel, which is not Canadian government property. The

report comes from John F. Shirley, U S. commercial agent at Goderich. The staie department made inquiry of the navy department as to the rule and was informed that when the flags of two countries are displayed together they ought to be shown at the same height, and not one on top of the other. Displaying the flags in the manner de-scribed from Goderich would be an af-front to the United States.

Mr. Shirley has been informed of the
