

Brazil First to Recognize Parent Nation as Republic

PROVISIONAL PRESIDENT THEOPILE BRAGA, FIRST CHIEF OF THE NEW REPUBLIC OF PORTUGAL.

Lisbon, Oct. 14.—The provisional government has received a telegram from President Comtesse de Switzerland, announcing that government's recognition of the Portuguese republic.

The government has issued a decree granting general amnesty to all military and naval offenders. The patriarch of Lisbon, Mgr. Fonti, it is announced, has signified his allegiance to the new regime.

The huge iron safe containing the treasure of Quelhas convent, which reverts to the government, have been placed in the Bank of Portugal.

There is an unconscious revelation of the manner of the man who is now at the head of national affairs in the brief autobiography of President Braga written by himself a few weeks ago at the request of the Paris newspapers.

He bore up in this struggle with unconquerable pride. In 1872 he presented himself as a candidate for a few years of modern European literature at the higher Lisbon classes.

MECCA FOR TOURISTS

Fred M. Dean Declares St. John-Moncton Road 50 Per Cent. Better than Nova Scotia Highways.

"New Brunswick has very good roads. I've travelled in auto cars over country roads in Ontario, Quebec, Ohio, Minnesota, many other states of the union and in Mexico and South America and I should say that New Brunswick, considering its population and other conditions has better country roads than many other parts of the world.

These are the words of Fred M. Dean, sales manager of the Royal Motor Car Company of Canada, Limited, with headquarters at St. Catharines, Ont. Mr. Dean, who is an Ontario man, has recently made an automobile tour to Halifax and back in company with Paul Hanson, of the Dunlop Rubber Co., and others. He is stopping at the Royal.

"Yes, I've travelled over quite a number of roads in this province," he added, "and I consider that they are in better condition than the roads of other provinces. Of course they are not as good as the roads of western Ontario where they have been building some of the best country roads of the continent, but I should say they were better than the roads of eastern Ontario, Quebec and many of the states in the American union."

Better Than in N. S. "On our recent tour to Halifax we had an opportunity to see the roads in their own right. We had fine weather going and returning practically all the time coming back."

CANADIANS ARE INDICTED

Number of Claimants to Coal Lands in Alaska Under Ban for Making Dummy Entries.

Washington, Oct. 14.—After months of secret effort and patient waiting, the officials of the general land office were able to announce today the indictment of a number of claimants to valuable coal lands in Alaska.

The indictments were handed down in the United States district court sitting at Tacoma, Wash., and the information that they had been returned was conveyed in two telegrams received today by commissioner Dennot from special agent Christensen, in charge of the Alaska matters, to whose efforts the findings are especially due.

The first message contained the announcement of the action against the English group and said that indictments had been returned against C. F. Munday, A. H. Stracey, A. Ritchie Shields and E. E. Stegley. A few minutes later came the second telegram telling of the indictment of Cornelius Christopher, George Simmons and Mortimer C. Sweeney of the Seattle group. He added that warrants would be issued as soon as the indicted men could be located.

Canadians Indicted. The first group of defendants takes its name from the fact that a number of people in western Canada are supposed to have been in the claims taken up by this party.

Stracey, one of the men indicted, is a resident of Vancouver and is charged with being instrumental in making some of the claims. Munday is a prominent attorney in Seattle.

The charge against the indicted men is that the entries were made in the names of 15 "dummies." Most of the entries were made in the name of Washington and their claims are said to have been located with an agreement to deed to third parties as soon as parties willing to become interested could be found by the locator.

There is to be a further understanding that the locator should receive a large percentage of the sale price. Both groups of claims figured to a considerable extent in connection with the Ballinger-Pinchot inquiry.

Charges of fraud as to the entries were made two years ago, and it was asserted that investigation had been for some sinister purpose.

It is also known that another federal grand jury sitting at Spokane with the district court of the eastern district of Washington, is considering still further charges of fraudulent coal entries in Alaska, and that results are expected from these investigations, similar to those obtained at Tacoma.

Outbreak in St. Mary's College Caused Panic Among 500 Students but No One Was Injured.

Montreal, Oct. 14.—An outbreak of fire early this afternoon in St. Mary's College, the institution of the Jesuit fathers on Bleury street, caused a stampede among the 500 boys at their desks. A second alarm was rung in the school, but the outbreak was speedily discovered.

MEXICAN GULF THREATENED

First Tropical Storm of Season Which Worked Havoc in Cuba Yesterday Sweeping Westward at Rapid Rate.

Tampa, Fla., Oct. 14.—The first serious tropical storm of the year after sweeping Cuba last night and today, and doing minor damage to shipping in West Indian waters is tonight approaching the Florida gulf coastline.

The centre of the disturbance which is scheduled to sweep both the northern and southern shores of the gulf, was reported about 40 miles west of Havana at six o'clock, moving north-west at the rate of 60 miles an hour, accompanied by a heavy rain and high seas. At Key West a 50 mile gale was reported throughout the day.

A report that a steamer had gone aground just outside the harbor was denied.

There was an increasing wind tonight and the barometer fell rapidly. Pensacola reported at 9 o'clock a brisk wind, falling barometer and high tides.

BIG REWARD FOR INFORMANT

Writer of Anonymous Note Which Led to Arrest of Duveen Brothers May Receive \$500,000.

New York, Oct. 14.—An anonymous note sent to Wm. Loeb, Jr., collector of the port of New York, precipitated the sensational raid yesterday on the Fifth avenue establishment of Duveen Brothers, art dealers, and the arrest of two members of the firm Benj. J. and Henry J. Duveen, charged with conspiracy to defraud the government out of more than one million dollars by under valuing imports.

Mr. Loeb made this announcement tonight, but for the present he declined to make public the name of his informant, and it may be kept secret until the Duveens are placed on trial in the event of a fine being imposed or duties recovered from the firm, or its members, it was pointed out tonight the anonymous informant will be eligible for the reward given by the government for evidence resulting in such convictions.

If the alleged frauds prove as extensive as customs officials have stated, this money will probably be between \$100,000 and \$500,000. Another arrest and the immediate release of the prisoner was one of the developments in the case today. James J. Arman, secretary of the Duveen firm, was taken into custody, but his discharge was asked by the government attorneys when he was arraigned before United States Commissioner Shields, on the ground that evidence to convict was lacking.

Today, before the letter was received, Mr. Burnside had sworn out a warrant for Sheldon's arrest.

DID NOT REACH SETTLEMENT

Southern Cotton Men Opposed to Formation of "Guaranty" Co. and Conference with British Bankers Failed.

New York, Oct. 14.—Due largely to the uncompromising attitude of some southern cotton exchanges, the plan to create a "guaranty company" to overthrow the difficulties now attending the European acceptance of American cotton bills of lading, received a decided set back today. It was expected that the committee of American bankers and Sir Edward H. Holden, representing the European banking interests would ratify yesterday's action and work out details of the plans, instead of which the meeting broke up abruptly with a general misunderstanding.

"We are far from agreed," said Joseph T. Talbert, vice-president of the national city bank which has been taking an active part in the proceedings. It was learned after the conference that the protesting southern exchanges openly condemned the "guaranty company" plan as unreasonable and visionary. This opposition was so pronounced that it caused the American committee to pause. The outcome was hardly generally disappointing, however, for some of the conferees are inclined to adopt a policy of inaction in the belief that the foreigners will soon extend the acceptance of American cotton bills from Oct. 31 to Dec. 31. In that event the American committee will have ample time to arrive at a definite understanding.

THE STRIKE SETTLED.

Augusta, Me., Oct. 14.—The strike in the offices of Burleigh & Flint, publishers of the Kennebec Journal and state printers, which began last night, and continued today on account of a disagreement over a new wage schedule, was amicably adjusted this afternoon, and the strikers returned to work tonight.

SHELDON IS HEARD FROM IN NEW YORK

Writes Letter to Office Manager Promising to Pay Back all if He is Allowed to Operate.

WARRANT OUT FOR HIS ARREST.

Special to The Standard. Montreal, Oct. 14.—C. D. Sheldon, the financial wizard, whose sudden departure many people in Canada are mourning, was heard from today. Two letters dated New York yesterday were received from him today. One of these was received by David Burnside, his former office manager and the other by H. B. O'Neil, one of Sheldon's agents.

In both letters Sheldon claims that he went to New York to get friends to meet the demands upon him, and that he failed in doing so, but that his New York backers are willing to set him up in business in New York. He adds that he will make money enough to come back and pay up all he owes.

The letter to his former manager which is rather unique, follows: Dear Mr. Burnside:—As I write I can see no other way but for me to operate here instead of returning to Montreal. Others are interested with me in the funds on deposit here. This has been the case since last January when they assisted me at the time of the decline in the market. They will allow me the capital to use in this market, but not to pay out in a sum like that of the past week or two.

Will Still Operate. This does not mean that I am to forsake my Montreal friends. I shall operate with capital large enough to enable me to pay them all within a reasonable time. This I shall do. The only danger is that some may be disposed to interfere with me, which would delay me and possibly make my efforts useless. I think you know me well enough to understand that I shall not let any one lose by me if I can possibly help it.

I realize fully the position that this places you in and many others. I was fighting for you all more than myself at the last.

I can not dwell upon these things now, but I can only say that I will work to relieve the situation at the earliest possible time. I will let you know my address and get into communication as soon as it will do.

If I could control matters there, I would put my property at the riding academy into your hands, but probably that is already attended to in some way.

It was hard to lose the fight there—as much or more for my friends' sake than my own. But words fail. Shall do all I can and as soon as I can to help all who have stood by me.

(Sgd.) C. D. SHELDON. Today, before the letter was received, Mr. Burnside had sworn out a warrant for Sheldon's arrest.

MINISTERS UP IN ARMS

Incidents in Connection with Eucharistic Congress Subject of Comment at Moncton Meeting Last Evening.

Addresses were delivered by Revs. McClatchy, MacDunn, Pinkerton, Batty and Clarke. A letter was also read from Rev. W. B. Sisam, rector of St. George's Church of England, intimating that Roman Catholics were specially favored.

Miss Merritt, honorary organizing secretary, Miss Douglass Young, of Kingston, Miss Auden and Miss Hughes, representing the Daughters of the Empire, are in Moncton and a meeting has been called for tomorrow afternoon for the purpose of organizing a local chapter. Saturday evening the visiting ladies proceed to St. John and afterwards to Fredericton, where they will be the guests of Lieutenant Governor Tweedie.

USED ONCE A MONTH IS BUSINESS PHONE

Chairman Mabee Lays Down Rule that Full Rate May be Charged for Phone Used in Profession.

Special to The Standard. Toronto, Oct. 14.—That a business telephone used but once or twice a month is still a business 'phone, and the subscriber liable for the full amount was the principle laid down by Chairman Mabee, of the board of railway commissioners this morning in rejecting the complaint of Miss Ethel Bayly, a trained nurse, regarding the rate charged by the Bell Telephone Company for a 'phone in her house.

It had been pointed out that Miss Bayly did not have her name in the telephone register as a nurse, and that she used the telephone for direct business more than once a month.

Chairman Mabee held that the fact it was used by Miss Bayly in her professional capacity took it out of the purely "Residence" class.

People's Pulpit.

Sermon by Charles T. Russell, Pastor Brooklyn Tabernacle ZIONISM IN PROPHECY Address to a Jewish Mass Meeting—The Hippodrome Jammed

New York, N. Y., Oct. 10.—The unusual spectacle of 4000 Hebrews enthusiastically applauding a Gentile preacher, after having listened to a sermon he addressed to them concerning their own religion, was presented at the Hippodrome yesterday afternoon, where Pastor Russell, the famous head of the Brooklyn Tabernacle, conducted a most unusual service. In his time the venerable pastor has done many unconventional things. His religion is bounded by no particular denomination and encompasses as he says, all mankind. His ways of teaching it are his own. But he never did a more unconventional thing than this—nor a more successful one.

He won over an audience that had come—some of it, at least—prepared to debate with him, to resent, perhaps what might have appeared like a possible intrusion. "Pastor Russell is a trying of teaching it to the Jews to Christianity," was the word that many had received before the meeting. "He wants to proselytize us."

In the crowd which filled the big show-box were scores of rabbis and teachers, who had come to speak in case the Christian attacked their religion or sought to win them from it. They had questions and criticisms ready for him. He was received at first in a dead silence.

But the pastor did not seek to convert the Jews, to their unbounded delight, he pointed out the good things of their religion, agreed with them in their most important beliefs as to their salvation, and finally, after a warm advocacy of the plan of the Jews establishing a nation of their own, brought about a tumult of applause by leading a choir in the Zionist anthem: "Hatikva—Our Hope."

A more interesting audience the Hippodrome never held, perhaps. From all parts of the city came serious-minded Hebrews to hear what it was an alien, a Gentile, might have to say to them at a service held during their week of feasting, Rosh Hashana. They were quiet, well-dressed, thinking men and women.

Among them were many prominent figures of the Hebrew literary world. Some of these escorted Pastor Russell to the Hippodrome in a motor car and then took places in the auditorium. The literary men recognized the pastor as a writer and investigator of international fame on the subject of Judaism and Zionism.

With a powerful yet charming voice that filled the great playhouse, the unconventional clergyman made his every word audible to every hearer. His tones pleased their ears, his graceful gestures soon captivated their eyes, and in a few moments his apparently thoroughly knowledge of his subject appeared to their minds. Though still silent, the 4000 were "warming up" to him.

Reserve and Doubt Vanished. It was not long before all reserve and all possible doubt of Pastor Russell's entire sincerity and friendliness were worn away. Then the mention of the name of a great Jewish leader—

who, the speaker declared, had been raised by God for the cause—brought a burst of applause. From that moment on the audience was his. The Jews became as enthusiastic over him as though he had been a great rabbi or famous orator of their own religion. He hailed them as one of the bravest races of the earth—having kept their faith through the persecutions and cruelties of all other people for thousands of years. And he predicted that before very long they would be the greatest of the earth—not merely a people, any longer, but a nation. By a system of deductions based upon the prophecies of old, the pastor declared that the return of the kingdom of the Jews might occur at so near a period as the year 1914. Persecution would be over and peace and universal happiness would triumph.

He brought his address to a conclusion the pastor raised his hand again to his choir. This time they raised the quaint, foreign-sounding strains of the Zion hymn, "Our Hope" for a moment the Hebrew audience could scarcely believe their ears. Then, making sure it was their own hymn, they first cheered and clapped with such ardor that the music was drowned out and then with the second verse, joined in by hundreds.

At the height of the enthusiasm of the Zion hymn, the pastor prepared to conclude his address. He turned to the meeting and with the end of the hymn, he was congratulated by scores of men and women who had come in indifferent, if not hostile, frames of mind, and he made a friend, they all declare, of everyone who had heard him.

What Pastor Russell Said. The speaker read to his audience many quotations from the prophecies of the Bible relating to Zionism, the first one of which was Hebrews 11:10—"Thou shalt arise and have mercy upon Zion; for the time to favor her, yea, the set time, is come. For thy servants take pleasure in her stones, and favor the dust thereof. Then shall the Gentiles fear the name of Jehovah, and all the kings of the earth thy glory. When the Lord shall build up Zion, he shall appear in his glory."

Pastor Russell declared that while once he had been inclined to discard the Bible as unreliable along the lines of Higher Criticism, he had subsequently given it very earnest study, entirely apart from all creeds and theories of men. This study had greatly enlightened his mind and had given him a very different view of the sacred Book. He now has absolute confidence in it. He now realizes, not only that there is a Creator, but that he is definite, orderly in his dealings with humanity, in his shaping of earth's affairs. For instance, the first Psalm quoted mentions the time, for the return of Divine favor to Zion.

So he finds matters all through the Scriptures. In due time David, Solomon and others represented Jehovah in the Kingdom of Israel and "sat upon the throne of the Kingdom of the Lord." Later the Kingdom was taken from Zedekiah, the last of the line of David to sit upon the throne of God's Kingdom. None of them was designated the Kingdom of God. None of them was given perpetuity of rule.

But Gentile governments were promised a lease of power during the period when Israel was in bondage from God's favor. Then at the end of the appointed time the Gentile lease of earthly power in turn, and God's original promise to Israel to represent his Kingdom in the world, would return. These are the set times referred to by the Psalmist—God's promise to David—"The sure mercies of David"—were that of the fruit of his loins one should sit on the throne of the Lord forever. The real purport of this promise was that Messianic rule would be the root and offshoot of the Davidic line and blessed of the Lord; his Kingdom should be an everlasting one, and the music of the world to all other people for thousands of years. "In thy Seed shall all the families of the earth be blessed."

Zedekiah Rejected—Nebuchadnezzar Acknowledged. So long as God acknowledged the nation of Israel as his Kingdom their kings were his representatives; but when Zedekiah was rejected it was inconsistent on the Lord's part to recognize the Gentile governments, as above suggested. Of King Zedekiah we read, "O thou profane and wicked Prince, whose time has come that iniquity should have an end. Remove the diadem. Take off the crown. This is not to be the same. I will overturn it until He come, whose right it is (Messiah), and I will give it unto him" (Ezekiel xli, 26, 27). It was at this very time that God gave the lease of earthly power to Nebuchadnezzar and his successors, as is related in Daniel's prophecy. Nebuchadnezzar dreamed, but discerned not his vision. Daniel the Prophet, made prisoner at an earlier date, was, by Divine providence, introduced to the king as the one person in all the world able to rehearse the King's dream and to give its interpretation and his power so to do is declared to have been of the Lord.

Nebuchadnezzar's Vision of Gentile Dominion. The vision was of a stupendous image. Its head of gold represented Nebuchadnezzar's Empire—Babylon. Its breast and arms of silver represented the Medo-Persian Empire, its belly and thighs of brass represented the Grecian Empire. Its strong legs of iron represented the Roman Empire, East and West. Its feet of iron and clay represented Pagan Rome. The iron counted to represent civil governments and the miry clay, making them appear like stone, represented ecclesiasticism as it is now mixed up with the politics of the ten kingdoms of Europe. The whole period of time in which these various Gentile governments would dominate the world would last until Messiah's promised Kingdom. And this period is symbolically stated to have been "seven times;" that is, seven years—evidently not literal years, but symbolical.

ed and still waiting for God's own time, and for the fulfillment of Isaiah xl, 2—"Comfort ye, comfort ye, my people; speak ye comfortably to Jerusalem, say unto her that her appointed time is accomplished, and her iniquity pardoned; for she hath received of the Lord's hands double for all her sins."

"God moves in a mysterious way His wonders to perform; About 20 years ago Providence raised up for your people a great leader, Dr. Herzl, whose name is now a household word with your race. While your people were unready for any message that I could give them they were ready for what God sent them through Dr. Herzl—a message of hope, a message of national aspiration which quickened the pulse of your people in new hope respecting the future of the Jews. Dr. Herzl's endeavor was to have the loyal sons of Israel rise from the dust and aspire to be a nation amongst nations and to provide a home for the persecuted of their race in the teachings of my Master, Dr. Herzl struck the popular cord in the hearts of the people. At first it was purely political and the name of Zion meant little of anything religious; but gradually Dr. Herzl and all the leaders of the counsels of your people began to see that the religious element of the movement was the strongest, the teachings of my Master, Dr. Herzl has been succeeded by Dr. Nordau also evidently a man of great talent and great patriotism; but Zionism languishes and discloses no secret when I tell you that amongst the leaders as well as amongst the rank and file, Zionism is trembling in the balance and fearful of coming to naught. It has spent its force along the lines originally inaugurated; but it will not fall, as many fear. Without assuring the role of a seer I answer you that Zionism is about to take on fresh vigor; that its most prosperous days are yet to come. According to my understanding of the Hebrew prophets the time of Jacob's trouble is not yet ended. Further "persecutions" of Russia may be expected and further atrocities in Roumania and elsewhere. It is sad indeed to be obliged to admit that these tribulations will probably come to you from professed Christians. How ashamed I feel of those who thus dishonor the name and the teachings of my Master, I cannot find words to express. They are deluded. They have misunderstood the Teacher whom they profess to follow. The thought is that God will torment eternally all who do not profess the name of Christ. Controlled by delusion they are serving the god Adversary and dishonoring Jesus. But as the trials and difficulties of the patriarch Joseph were God's providences to lead him on to influence and power and honor, so will all these experiences and persecutions work blessings for your race and tend to drive them out of their present satisfaction and make them long for home for Palestine. These experiences in connection with the voice of the prophets, which will henceforth more and more ring in your ears will be the promises of God to accomplish for you more along the lines of Zionism than personal pride and national patriotism.

It is not my thought that the eight million of Jews in the world will all go to Palestine, even though it has been estimated that, under most favorable conditions, the land could support more than twice that many. It is my thought that some of its most earnest and saintly people will go to Palestine quickly, that the re-education there will be astonishing to the world. Further, it is my thought that Jews in every part of the world, in proportion as they come under the holy influences of God's promises through the prophets, will encourage those that can better than themselves and by financial assistance and the establishment there of great enterprises. Permit me to suggest that in time of trouble, incidental to the transfer of Gentile rule to the power of Messiah, all financial stocks will be jeopardized. Many of your race, and especially those who surely take pleasure in forwarding the work of Zionism, as soon as they realize that it is of God, foretold through the prophets. And those of your race, and especially those who surely take pleasure in forwarding the work of Zionism, as soon as they realize that it is of God, foretold through the prophets. And those of your race, and especially those who surely take pleasure in forwarding the work of Zionism, as soon as they realize that it is of God, foretold through the prophets.

Then Messiah's Kingdom, symbolized by the stone, will not only fill the place where the image stood, but, gradually increasing, will fill the whole earth. From this standpoint, said the speaker, it is not difficult for us to believe the words of the Psalmist that there is a time for God's re-education. Zion, yea, a set time—fixed and unalterable. The speaker would not pretend to say the day or month or year in which these things would be accomplished—in which the Gentile lease of earth's dominion would expire and Messiah's Kingdom assume control. He did, however, offer a suggestion: So far as he could discern, the time for these stupendous events is very much closer than many of us had supposed. The seven times, or years, of Gentile domination, reckoned on the basis suggested in the Scriptures themselves, should be interpreted a day for a year, lunar time. Seven years in lunar time would represent 2,520 days and these, symbolically interpreted, would mean 2,520 years—from the time Nebuchadnezzar, the head of the image, was recognized down to the time of the expiration of the lease of Gentile power in the feet. So far as Pastor Russell has been able to determine, the year of Zedekiah's destruction was 606 B. C. This calculated the 2,520 years of Gentile lease of power will expire in October, 1914. There are some who claim that Zedekiah's dethronement should be dated B. C. 588. If this be true it could make a difference of but eighteen years and give the date 1932. Pastor Russell's convictions, however, favor the 1914 date.

Zionism's Future Assured. For more than 20 years I have been presenting to "Christian" people the views I am today presenting specially to Jews, at the invitation of your committee. Thirty years ago I attempted to tell to Israel the good tidings that God's set time to remember when the stone shall smite the image in Zion had come. But that seeming, I was too early. God's set time for Israel to hear was still future. I wait.

Frederickton, Oct. 14.—Frederickton people when they awoke up this morning and found the ground covered with snow, were convinced that the weather man had got mixed up in his dates or something of that kind. The snow fell in slight flurries in the early hours of the morning and was later taken from sight in a hurry by a warm rain.

Happenings of the Week

That the season has positively commenced was proven this week by the numerous and varied forms of entertaining which hostesses have indulged in for the fun loving world. The country no longer claims the city folk, except the lovers of the class, but once again the wheel of society revolves right merrily. That cupid has taken up permanent residence among the society favorites is shown by the number of wedding dates, so many in fact that it is only possible to chronicle a few of them. Hiding is the latest out door sport which the younger set have annexed to their already crowded hours of diversions. Just with October in full swing who can resist the call of the whip or the answering gleam of the eyes from those who are mounted on raptive nags that tell the story of the gallop to come.

On Monday evening Mr. Kenneth Inches entertained delightfully at a dinner in honor of Miss Natalie Jewett, of Boston. Mrs. H. C. Schofield as chaperone received the guests wearing a gown of black crepe de chene with narrow pleated edges of white lace on the sleeves and yoke. Among the guests were: Mrs. W. H. Harrison, white crepe de chene, gold Persian embroidery; Miss Jewett, white Brussels lace; Miss Rogers, Nile blue satin; Miss Grace Fisher, pale pink satin with seed pearls on corsage; Miss Frances Stetson, yellow satin with inserted bands of black and white embroidery on waist; Miss Katie Hazen, pale pink satin; Miss Mabel McAvity, pale blue silk, pearl sequin embroidery; Miss W. MR. PUGSLEY'S BACKDOWN.

In the course of a feeble attempt to excuse Mr. Pugsley's ignominious back down in the case against Mr. Gershon S. Mayes, the Times makes the following statement: "Mr. Mayes sued for \$62,871. The Standard carefully refrains from any mention of this fact. Of this amount \$5,090 was not disputed, either by the department or its engineers, but the check was held back because the department contended that Mr. Mayes had not finished his work. In the settlement the crown agreed to pay this \$5,090. It also agreed to pay the sum of \$4,660 on two other claims amounting to \$16,140, and Mr. Mayes abandoned the balance, besides \$41,641 which he claimed on other accounts."

In regard to the ridiculous assertion that the amount of \$5,090 was not disputed, it is only necessary to quote two paragraphs of Mr. Mayes' claim and the crown's answer to them as filed in court.

Mr. Mayes in his petition claimed:—
Section 5.—That a statement of account given by the minister of public works to your suppliant on the 22nd day of August, 1908, showed the amount then due to you suppliant on the said four contracts to be \$56,591.63.

Section 6.—That your suppliant has since received the sum of \$51,501.63 on account of the amount due as shown by the said statement, leaving a balance of about \$5,091.00 due your suppliant.

To this the crown pleaded by the first paragraph of the original statement of defence "that at the time the said statement of account was given as alleged in the fifth paragraph of the suppliant's petition NO AMOUNT WHATSOEVER WAS DUE TO THE SAID SUPPLIANT AS THE SUPPLIANT WELL KNEW, and the statement was given by the said minister of public works in reliance on false representations made by the suppliant to him that the said amount mentioned in said statement was due to the suppliant."

These extracts are not like the vain imaginings of the Times. They are taken from public documents and can be inspected and are on record at the court at Ottawa. The Times will find some difficulty in harmonizing its statement that the amount of \$5,090 was not in dispute, with Mr. Pugsley's defence that "no amount whatever" was due to Mr. Mayes as he well knew.

At the opening of the court counsel for the crown applied to amend this original statement of defence by striking out all the words after "minister of public works," substituting the following "in reliance on the certificates of the chief engineer which were based upon the certificates of the resident engineer, as correctly showing the sea measurements of materials dredged by the suppliant as certified to by the inspectors, whereas the minister subsequently learned, as the facts are, that such certificates of the resident engineer did not state correctly the quantities of dredged material as measured and certified by the inspectors, but contained a percentage in addition, which the resident engineer had at the request of the suppliant improperly and contrary to the terms of the said contracts between His Majesty and the said suppliant added to the quantities as measured and certified by the inspectors."

This amendment was also abandoned by the defence. The question will naturally be asked why did the crown abandon its defence that this amount of \$5,090 was not due to Mr. Mayes and subsequently agree to pay it in full? Why make Mr. Mayes a gift of \$5,090 to which he was not entitled? There can be only one answer as The Standard stated yesterday. Mr. Pugsley and his friend Mr. George McAvity, who was subpoenaed by Mr. Mayes on the previous day, were not prepared to go on the stand and submit to cross-examination by Mr. Mayes' counsel—anything but that. So Mr. Pugsley capitulated. The whole groundwork of the defence was swept away to save a desperate situation. Mr. Pugsley has no love for Mr. Mayes. There was no question of an amicable settlement. It was imperative. There can be no other explanation.

The other items in Mr. Mayes' claim were on a different basis. In these Mr. Pugsley and Mr. McAvity were not immediately concerned. When the Times says that Mr. Mayes abandoned part of the balance due "besides \$41,641 which he claimed on other accounts," it omits to mention that Mr. Mayes could not recover this latter amount without the engineer's certificate which he claimed was improperly withheld.

BRITISH COLUMBIA'S GENEROUS CONTRIBUTION.

The generosity of the West is instanced in the contribution from the government of British Columbia to the Campbellton fire fund. In a communication to Premier Haes, Premier McBride of British Columbia incloses a cheque for \$2,500, and expresses the sympathy of the government of the Pacific province for the people of the stricken North Shore town. This is practical sympathy and British Columbia knows its value. The fires in Fernie and Vancouver and the awful disaster in the mining town of Frank have not been forgotten.

The Victoria Colonist has the following comment on the generous action of the British Columbia government in its issue of October 7th:—

"In token of the sincere sympathy of the people of British Columbia for their unfortunate fellow Canadians who suffered so severely by the great fire which destroyed the New Brunswick city of Campbellton and to relieve the distress of the sufferers by that disaster and assist them in starting life anew, the government of British Columbia yesterday morning decided to make a contribution of \$2,500 to the Campbellton relief fund, and a cheque for this amount was immediately forwarded by

Premier McBride through the Hon. J. D. Hazen, prime minister of New Brunswick.
"It will be remembered that the people of the sister province of New Brunswick were generous contributors to the funds for the relief of Fernie when the coal city of the Crow's Nest Pass emerged from its trial by fire some few years ago. The action of the British Columbia government in making the present liberal donation to ward the relief of distress in Campbellton will be taken throughout Canada, as emphasizing the spirit of Canadian kinship from ocean to ocean that was so eloquently enunciated by Premier McBride during the visit to this capital of Sir Wilfrid Laurier, a few weeks ago."

BRITISH SHIPPING SUPREMACY.

A recently issued return of the British Board of Trade presents the up-to-date statistics of the world's shipping. They show, as the Manitoba Free Press points out, that Great Britain continues to hold her extraordinary and almost incredible supremacy on the high seas. The more the following figures are considered, the more wonderful they appear:—

The World's Ocean Merchant Navies Compared: 1908. (Sailing and steam vessels.)

	Tons.
United Kingdom	11,500,000
Remainder of British Empire	1,700,000
Germany	2,800,000
France	3,400,000
Norway	1,600,000
Italy	1,000,000
United States	900,000
Japan	1,500,000
All other nations put together	4,900,000

Total of all the world's 29,300,000

The above statement, however, understates our mercantile supremacy. The first reason for this is that 10 out of 11 of British ocean ships are steam vessels, which are, of course, much more effective, ton for ton, than sailing ships. The following are the figures for steamships only:—

	Tons.
United Kingdom	10,100,000
Remainder of British Empire	900,000
Germany	2,300,000
France	800,000
Norway	800,000
Italy	600,000
United States	600,000
Japan	1,200,000
All other nations put together	3,300,000

Total (all the world's) 20,600,000

But even this does less than justice to the facts of the case. In the above tables each ton ranks for as much as every other ton, as though all the tons were equally effective. In practice this is not the case. A considerable proportion of the tonnage other than British is of poor quality; indeed, no small part of it consists of second-hand vessels sold out by British owners and replaced by up-to-date craft. Therefore, in real effective tonnage, the United Kingdom owns, at the present time, more than one-half of the world's sea-going ships.

Next to the supremacy of British shipping, the fact of most outstanding interest in the above figures is the contrast between Germany and the United States:—

	Tons.
German ocean ships	2,800,000
U. S. ocean ships	900,000

That is to say the United States, possessing the greatest natural facilities and opportunities for ocean shipping in the world, possesses a mercantile marine only one-third as great as that of Germany, although the latter is largely land-locked in the North of Europe. The explanation is a simple one. The German tariff, although protectionist, is much lower than that of the United States, and among the many free trade items in the German tariff there stands the provision which gives German shipbuilders and German ship repairers absolute free trade. They can import their materials as free of duty as the British shipbuilder.

When Mr. C. H. Cramp, the greatest shipbuilder in the United States, gave evidence before a committee of the United States senate a few years ago, he said:—

"The enormous revenue represented by the freight and passenger tolls on our commerce and travel is constantly drained out of this country into British, German and French pockets, in the order named, but mainly British; while the vast industrial increment represented by the necessary shipbuilding inures almost wholly to Great Britain. . . . The English steamship is a foreign product and its earnings which we pay are a foreign product. . . . The United States is by far the most valuable of all the dependencies of Great Britain."

All the great German seaports are free ports, at which merchandise can be handled or transhipped without being harassed by import duties. This fact plays a part in promoting the growth of the shipping of Germany, a country which has not the grain and cotton and iron and oil and copper of the United States—whose shipping has dwindled.

If there has been oppression and malfeasance in Portugal, if the poor have needed food and willing laborers have sought in vain for work, it does not follow that because the monarchy has been ousted, peace and plenty will reign in the land. In all probability, extravagant and unreasonable hopes have been built upon this conception of a republic; it will be expected to perform miracles and to perform them instantly; to redress evils which have sprung from centuries of perverted custom; to produce practical changes in industrial conditions which are dependent on something far different from the form of government. When it fails to do these things, there must inevitably be a reaction.

(Toronto News.)

It was not generous of the prime minister to suggest that he deserved credit for resisting the "demands" of Great Britain. The mother country makes no "demands" upon Canada or any other of the dominions. The word has no place in our new conception of the Imperial relation. No doubt British statesmen of both parties have greatly desired that Canada should assist in the naval defence of the Empire, but they have been much too wise to attempt dictation or coercion.

(Woodstock Sentinel-Review.)

The people of Portugal seem to have had a good deal of religious teaching of a kind, but they appear never to have mastered the great lesson that it is righteousness that exalts a nation, and the absence of righteousness that causes a nation to decay. And Portugal is not the only nation that has found it difficult to master the same lesson.

If there is anyone in Canada who fully appreciates the ability of Mr. Henri Bourassa to make trouble and keep on making it, that man is Sir Wilfrid Laurier. Which helps in a way to make clearer just why the premier, after a fatiguing trip to the coast, deemed it necessary to address the heart of French Canada.

CLOSING STOCK LETTER.

By direct private wires to D. C. Mackintosh & Co.

New York, Oct. 14.—The stock market today was the most active for some time and again prices are quoted at their highest. The trading was much broader, and a lively interest was developed throughout the general list. The bullish sentiment already demonstrated was intensified by the publication of a statement that a cotton bali guaranty company is to be established to take care of the bills of lading for cotton. This question has been causing more or less apprehension, but now that a form of settlement or agreement is in sight, the financial horizon is cleared. This forward step has been taken by American Bankers' Association and Importer cotton men, with some other interests, and they came to the conclusion of the only possible solution of this difficulty will be the creating of a guaranty company to guarantee the bills of lading. The market has continued to be strong nearly all day. The character of the buying, which has been in large quantities, is considered better than for some time. Larger interests are quoted as taking hold of some of the stocks and helping the market, but this must be taken for what it is worth, as the fact must not be forgotten that the banking interests have been quoted as not favorable to any important advance in stocks now till the money market adjusts itself. In the meantime banks are using cash and money rates are firm. The tendency is for further loss of cash and higher money rates, especially if this buying of stocks keeps on.

CLOSING COTTON LETTER.

New York, Oct. 14.—Firmness of cables and continued bullish reports from interior spot markets caused a good opening of our market, but after a time offerings became quite heavy. This was somewhat checked, but only temporarily, as the local professionals are strongly of the opinion that there should be a reaction. The fear of a gulf storm caused some apprehension on the part of the bears and caused some hesitation among traders. At times the market was more or less quiet, but there was a good demand on the scale down and held well. The workers for a reaction were rather cautious in their efforts for, with the Gulf storm approaching and unlimited knowledge of the position of the longs, they are apt to determine how they stand before taking action. Port receipts today will be close to 75,000 bales. The insight for the week is estimated at 550,000 bales.

Some people simply ask for "underwear." They select a garment—carefully examine shape, material, fit, etc. And decide to try it. The result is pure speculation—upon which health and comfort depend. Do not leave this important transaction to mere chance—Insist on the dealer showing you underclothing with the "sheep" trademark. It's on every garment of "CEETEE" UNDERWEAR and means absolute underwear comfort. A guarantee of the best material and perfect fit. Do not be a "mere chance" buyer. Ask your dealer for "Ceete".

In all sizes for men, women and children.

TELEGRAPH'S METHOD OF RECEPTION

West End Clergyman Attracted by Announcement of Free Tuition Found There Was \$600 to Pay.

Evidence of the manner in which the Daily Telegraph is deceiving its readers by the publication in its columns under misleading headlines, of incorrect statements calculated to prove to the people that the present Dominion government is giving the sons of Canadians a golden opportunity to enter the Canadian navy as cadets, was brought to the attention of The Standard yesterday.

The Telegraph of the 7th inst. contained in the most prominent place on its front page an article, alleged to be a special dispatch from Ottawa, in which it was stated that boys who passed successful examinations for admission to the new naval academy in Halifax would be given an education and after a brief term as cadets aboard ship would qualify for positions as sub-lieutenants in the Canadian navy.

Last portion of this great scheme of a generous government should escape the notice of the readers of the Telegraph, the article dealing with it was headed in large type, in the heading it was stated that there would be "free education for two years at Halifax college for successful students."

A West End clergyman who had a son of the required age, saw this statement and, forgetting for a space the reputation of the Telegraph, thought it might be true. Accordingly he wrote to the proper authorities and in due time received an acknowledgment of his letter and a copy of the regulations for the entry of naval cadets.

As Stated in Regulations. Upon consulting the section which dealt with the expenses of the boys in receiving that education which the Telegraph said was free, he found the following: Section 17—A cadet shall be required to pay annually a fee of \$100 payable in advance. Section 18—In addition to this fee, he will be required to pay a further sum of \$300 for the first year and \$150 for the second year to cover necessary expenses; these further sums will be payable as follows: \$500 for the first year, \$200 in advance on joining and \$100 at commencement of second term; \$150 for second year, \$75 at commencement of second year and \$75 at commencement of second term.

From this statement it will be seen that instead of the course being free as emphasized by the Telegraph, a term of two years in the naval college will cost the parents or guardians of each boy a sum total of \$650. This practically shuts the Canadian navy to the vast majority of the sons of any but wealthy men as far as the matter of naval cadets is concerned. Whatever the government may do there is nothing in the plan of the naval academy and the prospect of becoming a sub-lieutenant to commend itself as a career for the sons of poor men, the Telegraph notwithstanding.

ARE KNOWN AS THE FARMER'S FRIEND

Dodd's Kidney Pills Doing Great Work in The Prairies.

Michael Anderson Joins the Throng who are Shouting their Praises—They Cured His Gravel and Rheumatism.

Pine Valley, Man., Oct. 14.—(Special.)—Michael Anderson, a well known farmer living near here is added to the number of those who have sent the cry of praise to the Prairies, "Dodd's Kidney Pills are the farmer's friend." And truly Mr. Anderson has reason to praise the great Canadian Kidney remedy. Listen to his experience: "I had a bad cold started my troubles," says Mr. Anderson, "and for twelve long years I was a victim of Kidney trouble, Rheumatism and Gravel. Doctors attended me and I tried many medicines but they did not cure me. Dodd's Kidney Pills cured me in less than a month."

It is easy to do anything when you know how. Mr. Anderson went right to the root of his trouble. He cured his Kidneys by using Dodd's Kidney Pills and with the root gone the other diseases disappeared. Dodd's Kidney Pills always make healthy kidneys and with healthy kidneys you can't have Rheumatism or Gravel.

"I Honestly Believe 'Fruit-a-tives'"

THE GREATEST CURE FOR RHEUMATISM IN THE WORLD

Knowlton, Que., Oct. 12th, 1909.

"For many years, I suffered from severe Rheumatism, and the attacks were very distressing and prevented me from doing my ordinary work. I tried many remedies and physician's treatments, but nothing seemed to do me much good, and I was becoming very anxious for fear I would become a permanent cripple from the disease.

I tried "Fruit-a-tives" and this medicine has entirely cured me and I honestly believe it is the greatest Rheumatism cure in the world.

E. E. MILLS.

Such a statement could not be bought from a man like Mr. Mills. He thinks too much of his good name, to sell it or sign it an untruth. Mr. Mills tried "Fruit-a-tives" after all other treatment failed—and "Fruit-a-tives" cured him of Rheumatism. In the goodness of his heart, he wrote the above letter in order that sufferers in all parts of Canada would know that there is one remedy that actually does cure Rheumatism. This testimonial was entirely unsolicited on our part. We did not know that Mr. Mills was taking "Fruit-a-tives" until we received the above letter.

It is a case like Mr. Mills' that proves the marvelous powers of "Fruit-a-tives" in arresting and curing disease. It may be stated, without fear of contradiction, that "Fruit-a-tives" will positively cure Rheumatism when properly used.

"Fruit-a-tives" is the only medicine in the world made of fruit juices and is the greatest Rheumatism cure known to modern science.

The non-jury case of the Sanford Manufacturing Co. vs. the estate of the late R. W. This is an action against the administrator of the estate, who is a brother of the deceased, for the recovery of a judgment obtained against the estate by the plaintiff some time ago. The plaintiff seeks to show that the administrator is personally liable for the amount of the judgment in view of the fact that he allowed the judgment to go by default. Court considers. Judgment will be delivered on Friday next. M. G. Teed, K.C., and J. H. A. L. Fairweather appeared for the plaintiff and W. B. Jonah of Sussex for the defendant.

Charles F. Crandall Halifax, was in the city yesterday on his return home from New York and Montreal.

3 ELEETS ON LAST DAY AT WOONSOCKET

Woonsocket, R. I., Oct. 14.—Three racing events were on the card for the closing day of the five days' meeting at the Woonsocket track today. Two of them were won in straight heats, but the third event went five heats, and then was not finished. To save continuing the meeting another day, however, it was decided to divide the money according to the standing of the contestants at the end of the fifth heat. This gave the race to Awake Boy, the favorite.

In the free for all pace, first money went to Dasten, the favorite, in three straight heats, the final heat being made in 2:14, in the other race

OLDFIELD WON FIRST FIGHT

Famous Auto Driver Breaks Record at Meet from Which He Was Debarred by National Association.

Readville, Mass., Oct. 14.—Barney Oldfield scored his first point in opposition to the American automobile association, the governing body in this country, by breaking the Readville track record for one mile today at a regularly sanctioned meet, from which he was supposed to be debarred owing to his recent disqualification by the association. Driving his Benz, "Blitzen" machine at a break neck speed of better than a mile a minute, Oldfield covered the mile circuit in 50 seconds flat. The former record was 54 seconds, made by Ralph D. Palma in a Fiat June 17, 1908. Oldfield's time is not official, and will not be accepted by the association. It is authentic, however, for it was taken by four stop watches, two of which caught it under 50 seconds. Oldfield's disqualification, which precipitated today's conflict between the representatives of the governing body and the driver, grew out of the cancellation by the association of the racing license recently granted to "Jack" Johnson, the pugilist. Oldfield had contracted for a match race with the heavy weight, and announced after the latter's license had been rescinded that he intended fulfilling his part of the agreement. This led to his own loss of official standing. It was an Oldfield day at the Readville track. Oldfield's Knox stock car, which was driven by Ben Kirchner, won the feature event of the day, a one hour race, travelling 52 3/4 miles. Edward Beverly, in a Simplex, was second, only 3 1/2 mile behind, and A. W. Rogers was third in another Simplex, a mile in the rear of his mate. But two other events were run off, the programme being shortened by darkness. Nelson Slater, a Worcester amateur in a Lancia car, won a five mile match with a Fire Stone Columbus, driven by John Scuyler, covering the distance in 5 minutes 40 1/2 seconds. "Speedy" White, at the wheel of a Cameron machine, defeated George Donahue, in a Moon, in five minutes, 39 seconds. The distance was five miles.

CORRIDEN NOT TO BLAME FOR LAJOIE'S HITS

Chicago, Ill., Oct. 14.—"I found that Corriden had a perfectly logical and, as I believe, an absolutely truthful explanation of the reason why Lajoie made so many hits," said President Johnson after his interview with the St. Louis player. "There has been some misrepresentation over the character of the hits. One that was represented as a bunt, was a low, rife drive which it would have been dangerous to field. Others were cleverly placed bunts that a veteran fielder would have difficulty in getting, and a player new in major league company might be excused for missing them. Any one familiar with Lajoie's skill as a batter, can understand how it would be quite possible for him to make hits against a recruit, when he can turn the trick against the most experienced veterans of the game, time and again. I give Corriden a clean bill and do not think that any suspicion or blame should attach to him. I am very glad to find the facts as they are."

A Willing Fighter

JACK GOODMAN. This husky eastern lightweight, Jack Goodman, is a willing mixer and one of the many boys who appear from time to time before the New York club. Goodman, while not a top notcher, is a fighter who gives spectators a run for their money, hence his popularity with the fans of the city of four million.

ALL STARS AND HIGHLANDERS

Washington, Oct. 14.—The All-Americans and Athletics gave a splendid exhibition of fast baseball today, the former winning by the score of 4 to 1. Walter Johnson was a puzzle to the champions, holding them to five scattered hits until the last inning, when he slackened his speed and two doubles resulted. New York, Oct. 14.—Victory perched on the banners of the New York American league club today when they passed the Nationals in the last innings of a well played contest and won the second game of the post season series by a score of 5 to 4. The game took place on the American league grounds and the stands were packed, but on the whole (the contest lacked the tang of yesterday's game, won by the Nationals at the polo grounds. This was due, perhaps, to reaction, now that the series is under way. It was a pitchers contest between the left-handed Wiltse of the Nationals and Warhop of the Americans and the honors were fairly even until the last two innings, when in the face of a batting rally, Wiltse weakened and lost control. Warhop worked splendidly throughout the game, and his effectiveness increased as the innings passed. After the third inning the Nationals made but one hit off him and his underhand ball came to the plate to break sharply before the Nationals' batsmen in a mystifying manner, causing them to send up weak flies. Devlin alone solved Warhop's delivery making a home and a double, which brought three of the Nationals across the plate. Fletcher, at short, did excellent work.

In the semi-finals today Miss Campbell, whose home is in Hamilton, Ont., defeated her clubmate Miss Florence Harvey, also of Hamilton, 4 up and 2 to play. Mrs. Martin defeated Miss Lillian Hyde, of New York, 3 up and 2 to play. Miss Campbell is the holder of the American Scotch and Canadian titles.

Liable to Prison. Thomas Foley, who was adjudged guilty of stealing a quantity of copper wire from the St. John Street Railway Co., by the police magistrate in the police court on Thursday afternoon, has a stiff sentence hanging over him. Foley was arrested on Sept. 29th last year by Deputy Chief Jenkins, on suspicion of snatching a purse containing \$1 from Mrs. H. B. Schofield on Wellington Row. On this charge he was convicted and Judge Forbes sentenced him to five years in the penitentiary and thirty lashes, which sentence was suspended, but the prisoner was warned that in the event of his being arrested again for any offence, no matter how trivial, the old sentence would come into effect.

Inches prosecuted on behalf of the C. P. R. The men were fined \$10 each or ten days. ABRAHAM WATTERS KILLED ON MANCHESTER COMMERCE

Retired Sea Captain Met Instant Death While Running Winch on Board Steamer—Lead Block Released by Broken Shackle Dealt Fatal Blow—Inquest Will be Held.

Abraham Watters, a much respected resident of the North End, was instantly killed while at work on board the Manchester line steamer, Manchester Commerce yesterday afternoon. It was just ten minutes to five o'clock when the accident took place. Mr. Watters was engaged in driving one of the steam winches in hoisting deals from a lighter into No. 6 hatch at the stern of the steamer. Just as a heavy sling of deals was being hoisted over the side of the ship a shackle, which held the lead block, situated behind him gave way and in an instant the heavy iron block struck the unfortunate man on the head. The blow killed him instantly, and his head was broken in. The force was so great that the man was hurled over the winch and down through the hatchway, alighting in the hold of the ship many feet below the deck. Fellow workmen were quick on reaching the body, and it was seen in an instant that life was extinct.

Coroner Berryman said last night that the blow from the block undoubtedly caused the death, and it was only the dead body that fell into the hold of the steamer. The deceased was a man 59 years of age, and for a long time followed the sea. He held a captain's paper, and was favorably known along the Canadian and United States coast. For the last few years he had been working along shore, having tired of the sea, and while in the employ of the Messrs. Gregory he was one of their most faithful employees. Besides a sorrowing wife there are left three daughters and two sons. The daughters are Miss Louise, who resides in Boston; Miss Gladys, a stenographer in the post office, and Miss Helen, a stenographer in Dearborn's establishment. The sons are Edward, a carpenter, who resides on Adelaide street, and Guy of Duke street, a traveller for Vassie & Co. The funeral will probably take place on Monday. The deceased was an Oddfellow, and had a host of friends who were deeply grieved to learn of his tragic death. Coroner Berryman said last night that he was making enquiries into the cause and that in all probabilities an inquest would be held. A jury may be sworn in today.
