PROBS—FAIR

PRICE TWO CENTS

## BOTH WINGS OF ALLIED ARMIES MAKING PROGRESS, BUT NO DECISIVE RESULT YET

### Von Kluck's Army Fighting Desperately to Prevent French From Encircling It--Third Week of Battle and Opposing Armies Fighting With as Great Fury as in Opening Days -- Germans Bring Up Reinforcements to Stiffen Wing Against Outflanking Movement -- Allies Awaiting Arrival of More Men -- Indian Troops Landed, but Location Not Announced -- Belgium Once More Theatre of Activities, and Forces of King Albert Making Splendid Showing.

Another day has passed, and the situation between the allied armies and the Germans in Northern France is still described by the French official announcements as satisfactory, with here and there progress along the line, but not a sufficient advance to the north and east to strike a decisive blow at the German right wing.

The battle of the Aisne gives every indication of being the greatest battle in history as to time, losses and, possibly, in significance with respect to the outcome of the greatest war the world has ever seen.

British reinforcements, consisting in part of trained East Indian troops, and in part of Territorials, composed of a Scotch regiment, which includes many sharpshooters who have won fame on the ranges in times past, have reached France to strengthen the small British army which for many weeks past has been doing yeoman service beside its French allies. Colonial troops are also on the way to the battlefield, not a few of whom have seen service in the South African and other campaigns.

On both sides there have been innumerable offensive movements, the Germans, while relying upon their entrenchments to keep off the advance of the opposing forces, not hesitating to assume the offensive in fierce assaults upon both French and British at short intervals.

Likewise, the Germans are continuing their campaign in Belgium by an attack on the outer defences of Antwerp, and according to a Rome despatch are rushing thousands of troops and an immense supply of war material to the Russian frontier in a supreme effort to ward off the Russian advance.

In the eastern theatre of war Germany has taken into her hands the direction of the campaign against the Russian Emperor's hosts.

While Berlin officially is silent on the progress of the war, the Berliner Tageblatt, in a leading article, expresses the confidence of the German people that further news from the battlefronts will be in favor of the German arms.

## ALLIES STEADILY GAIN IN FLANKING MOVEMENT

### German Troops Wearing Out Under Terrible Strain -- Latest Prisoners All Old Men -- British Despatch Riders Win High Praise For Daring and Effective Work.

At the battlefront, Oct. 1, via Paris, 9.21 p. m.—The generals in command of the allies are full of praise for the corps of despatch riders who, since the beginning of the great battle of the Aisne, have kept up communications between the various corps along the line now spreading from the Somme to the Meuse, and along the frontier of Alsace-Lorraine.

The corps of despatch riders is composed mostly of volunteers from British universities, many of them very wealthy youths, who night and day have made dashes throughout the country, carrying messages which have kept the brigades and army corps in close touch and enabled commanders to send reinforcements to points where they were most needed.

On many occasions these despatch riders mounted on motor cycles through their audacity and speed have scattered reconnoitering parties of German cavalry, sometimes facing enormous odds in their dangerous work.

The recent terrible hand-to-hand conflicts on the western and eastern wings arose from the attempts of the German and the allied generals to execute flanking movements in great force at the same time in the open country. The lines of the armies have been growing even longer in the last few days, in a mutual endeavor to overtop each other. The wings have been heavily reinforced, but the allies have been able to bring greater power to bear, and not only have prevented the

## PARIS FEELS VICTORY IS IN THE AIR

### French Capital Gay Once More -- German Commanders Realize Their Desperate Positions--Plans Frustrated.

London, Oct. 2 (2.41 a.m.)—Despite the fact that thousands of Frenchmen are laying down their lives and thousands of wounded are arriving daily from the front, Parisians, says the Paris correspondent of the Daily Telegraph, are regaining some of their customary buoyancy of spirit.

"Victory is in the air. All indications point to the fact that the German commanders and the German troops are realising for the first time that they are in a desperate position. Their attacks during the last few days, delivered as they were at no decisive point with overwhelming numbers, but haphazard all along the line, show that they have been driven desperate and that their plan of campaign has been completely frustrated.

"The German right wing is completely in the air. It rests on no fortress or entrenched position and daily its position becomes more critical."

## RUSSIANS ARE AGAIN VICTORIOUS DRIVE THE GERMANS OUT OF QUARRIES

### London, Oct. 1, 11.35 p. m.—A Petrograd despatch to Reuters' Telegram Company, says:

"In the Suwalki district from the left flank of the German the Russians effected two determined attempts to force a passage of the Niemen river between Orlita on the north and Druskeniki on the south. Military critics point out that with the capture of Augustowo and Keptyowo, the Russians have broken the German centre. The German line extended from Osowetz to Simno, and the Russians with great bravery have expelled the on the lakes, which are divided by only from two to five miles of dry land.

"According to the newspaper, the German losses at Druskeniki amounted to twenty thousand. The rains have mired the roads, so that many German guns have been embedded and lost."

"A prisoner taken here, who was formerly a professor in one of the universities, said that the casualties during the past fortnight have been terrible. French bayonet charges have left the plains along the Aisne strewn with dead."

+++++ KILLED IN BATTLE +++++  
London, Oct. 1 (10.15 p.m.)—  
+ Captain the Hon. William Amherst Cecil, of the Grenadier Guards, and heir of Barons Amherst of Hackney, has been killed in action. His name is the only one appearing in the list of casualties issued to-night, under the heading of killed. Otherwise the report records one officer died of wounds and that other officers, previously reported as missing, are now known to be prisoners of war.

## A VETERAN CHURCHMAN HAS RETIRED

### Dr. Albert Carman, Who Was Thirty Years in Methodist Church, Appointed Superintendent Emeritus.

Ottawa, Oct. 1.—Rev. Dr. Albert Carman, who for over thirty years has been General Superintendent of the Methodist Church in Canada, will practically retire from active office when the Quadrennial General Conference, now in session here, rises in a few days. This afternoon an unanimous vote of the conference decided in favor of the recommendation of the superintendence committee to appoint him as superintendent emeritus for the next four years, with the same salary as is paid to a general superintendent.

Rev. Dr. S. D. Chown, of Vancouver, was again elected General Superintendent with the proviso that his term of office be for the next eight years.

A motion, submitted by Rev. Dr. W. H. Hearst, of Amherst, N. S., to appoint a General Superintendent, with jurisdiction in the Maritime Provinces, was voted down by an almost unanimous vote. All the other General Conference officers were re-elected, with the exception of Rev. Dr. James Woodworth, Senior Superintendent of Home Missions, who was retired. The recommendation of the committee that he be paid a bonus as a retiring allowance found general favor.

The other general officers elected were: Bookroom, Seward, Central Section, Rev. Dr. William Briggs; Eastern Section, Mr. F. W. Mosher, Halifax; editor Christian Guardian, Rev. Dr. W. B. Creighton; editor Sunday School papers, Rev. Dr. A. C. Crewe; General Secretary Education Society, Rev. Dr. J. W. Graham; General Secretary Temperance and Moral Reform Society, Rev. Dr. T. Albert Moore; General Secretary Young People's Societies, Rev. S. T. Bartlett; General Secretary Home Missions, Rev. Dr. J. Allen; General Secretary Foreign Missions, Rev. Dr. Jas. Endicott; General Secretary Young People's Forward Movement, Rev. Dr. F. C. Stephenson.

## THE GERMANS PREPARING FOR DEFEAT

### London, Oct. 2, 2.10 a. m.—A Rotterdam despatch to the Daily Telegraph says:

"The Germans in Rotterdam are agitated at the tone of the German newspapers which arrived today (Thursday). Only one meaning can be attached to what they contain—they are preparing the German people for defeat, and the ruin of their hopes.

"Official messages ask that judgment be suspended if news should arrive that the German troops have been compelled to abandon certain positions.

"The British troops are mentioned as pushing on by the sheer might of their masses, and the French are admitted to have taught a severe lesson.

"A week ago such statements would have meant the suppression of the newspaper printing them."

## THE MONCTON FREIGHT SHEDS BURNED DOWN

### Moncton, Oct. 1.—The I. C. R. freight shed here was burned down by fire which started about six o'clock this evening. The shed was badly gutted and freight damaged by fire and water, loss being estimated at \$15,000. Origin of fire is mysterious, and it is understood the I. C. R. will hold an investigation.

## GERMAN AEROPLANES FLITTED

Paris, Oct. 2 (1.06 a.m.)—Two German aeroplanes were observed Thursday morning flying towards Paris by way of Compiègne. Immediately several French aviators climbed into their machines and flew up, prepared to meet and attack them. The Germans, however, seeing the French aeroplanes coming in their direction turned about and disappeared.

## INDIA TROOPS ROYALLY RECEIVED AT MARSEILLES; WAS IMPRESSIVE SIGHT

## W. H. HEARST NEW PREMIER OF ONTARIO

### Will Succeed Sir James Whitney—Was Youngest Member of Ministry -- The Changes in Cabinet.

Toronto, Oct. 1.—It was officially announced tonight that Hon. W. H. Hearst, minister of lands, forests and mines, in the Whitney government, and the youngest member of the cabinet, was tonight summoned to Government House and asked by the Lt. Governor to form a new government. This disposed of the much vexed question as to who would succeed the late Sir James Whitney. Mr. Hearst will continue to hold the portfolio of lands, forests, and mines, and will be the only change in the personnel of the government is the appointment of Findlay G. Macdunn, member for West Elgin, to the portfolio of public works resigned by Hon. Dr. Reame. Hon. I. B. Lucas, provincial treasurer, succeeds Hon. S. H. Hendrie, the new Lieutenant Governor, on the Hydro Electric Commission.

Sir Adam Beck is no longer a member of the government without portfolio, his dropping out being at his own request, on the re-organization of the government. His wish for a long time has been to devote his whole attention to the hydro electric development, with which his name is so prominently associated.

The new premier has represented Sault Ste Marie since 1908, and entered the cabinet in 1911, in succession to Hon. Frank Cochrane, who at the last Dominion election entered the Borden government.

## Citizens Waited Their Coming With Great Anxiety and Cheered Them to Echo When They Arrived—French Bring in Thousands of Senegalese Troops From Africa.

### By MALCOLM McCASKILL. Special to London Daily Telegraph and St. John Standard.

Marseilles, Oct. 1.—This is to tell you, in the consor's good time, which will be when they are on the firing line, how Marseilles waited for the Indian troops, and how in the end they came. When I left England I was assured that they had been landed and that I should reach here only after the last man of them had been hurried to the front; but a week after I arrived we were still waiting and looking more eagerly every day to see "Les Hindous" begin to pass. We saw everything else. We saw "Tommys" and "Turcos" fraternizing with Senegalese and Indian troops, we saw "Simples Soldats" by the dozen score at the cafe tables along the Cours Belouza and down the Cannebiere; we saw the Senegalese marching through the streets by the hundreds of thousands; we saw British naval officers, magnificent in their physique wearing the trim dark blue coat, brass buttons, and white capped; we saw officers of the French navy; we saw Dragons with casque and crinoline in field uniform and without either; we saw Hussars in sky blue and Hussars in the darker blue tunic of service; we saw officers of the line and of the artillery with a red band running down their trousers; we saw all grades of French military medical men with their stethoscopes; we saw Italian Volontaires setting off for Montellimar, playing the Marseillaise and the Italian national air with a big Garibaldi.

lan in a big red shirt and a little Garibaldian in a little red shirt at their head.

All these things we saw and others, but never the Indians. I looked for them each morning from the high places, and one morning I mounted the high bridge of steel which crosses the Vieux Port and from its height I saw far below the house tops of that extraordinary quarter with its incredible buildings that tower above its streets of incredible narrowness—mediaeval Marseilles that must, I suppose, soon pass.

At last one morning they really did come. I was watching before dawn. It was not yet day when the first line came around. Across the sea not yet turned to blue they stretched farther and wider. They stirred as they came more than the waves in which they moved. As they came nearer we could make out their movements on the decks of one or two of the boats. For the most part the decks seemed to be deserted. Preparations for debarkation were already proceeding or else "revellin" had not yet been sounded, but on two of the vessels, huddled together under awnings, stretched to shelter the troops from the heat there were veritable forests of forms moving.

They came to the ships side and looked toward land, in the brown heat we made out above the turbans and the dark faces a British flag. The ships picked up the pilots one by one and went sailing in. Has the East ever sent to the West a richer argosy or one more dear? As the ships turned to enter the harbor there were cries of "vive L'Angleterre" and "vive Les Hindous" to which the far travellers added their lustiest "Heep, heep hurrahs."

## A TERRIBLE DESOLATION NOW REIGNS IN BELGIUM

### J. H. Whitehouse, M. P., Tells of Awful Destruction Wrought by Barbarous Invaders in Once Happy Country -- Germans Placed a Bomb in Every House.

London, Oct. 1 (1.05 p.m.)—A graphic picture of the desolation of Belgium was brought to London today by J. H. Whitehouse, member of parliament from Lanarkshire, who had just returned from a tour around Antwerp for the purpose of assisting in the relief measures.

Sir Whitehouse said: "Hundreds of thousands of trees had been cut down, so that at some points of our journey we had the impression of passing through a wilderness of roots. The tree trunks had all been removed, so as to afford no cover to the enemy. All houses had been blown up or otherwise destroyed. Later we passed through the country which had been flooded, as a further measure of defence. The damage resulting from these precautionary measures alone amounted to £10,000,000 sterling (\$50,000,000).

Ordinary Life Arrested.

"In the villages, all ordinary life was arrested. Women and children were standing or sitting dumb and patient by the roadside.

"I had read newspaper accounts of the destruction of Termonde, and had seen photographs, but they had not conveyed to my mind any realization of the horror of what actually happened. Termonde a few weeks ago was a beautiful city of about 18,000 inhabitants.

"I went through street after street, square after square, and I found every house entirely destroyed with all its contents. It was not the result of bombardment; it was systematic destruction. In each house a separate bomb had been placed which had blown up the interior and set fire to the contents.

"This sight continued throughout the entire extent of what had been a considerable town. A blind woman and her daughter groped among the ruins. They were the sole living creatures in the whole town.

"I inquired what had become of the population. It was a question to which no direct reply could be given. They had fled in all directions. Some had reached Antwerp, but a greater number were wandering about the country, panic-stricken, and starving. Many were already dead.

"We are, therefore, face to face with a fact which has rarely, if ever, occurred in the history of the world—an entire nation is in a state of famine, and that within half a day's journey of our own shores.

"To the conditions of famine and homelessness which exists on such a stupendous scale there must be added one which is bad—the mental panic in which many survivors remain.

## CANADIANS IN LONDON

London, Oct. 1.—Sir Charles Ross, Bart., Lt.-Col. Frank Strange, Canadian Ordnance Corps, Lt. Trevor Williams-Taylor and Captain Winfield B. Sifton of Montreal, have arrived in London.

# FLEECE FIGURING ALONG THE BATTLE LINE

## PRUSSIAN REGIMENT SACRIFICED THEMSELVES TO SAVE GERMANS

### Hurled themselves repeatedly against French in effort To Cover Retreat of German Columns on Rheims:—Repulsed Each Time and Only Few Score of Splendid Regiment Left.

Bordeaux, Oct. 1, 1914, p. m.—The defeat of 15,000 Prussian soldiers who attacked the French center on September 26 is described today in the Petite Gironde.

As soon as news of the German advance was received French cavalry was sent to hold the enemy at Auberville, Department of Marne, to give the artillery and infantry time to come up from Souain, a place near Auberville. But while the French dragoons were preparing for the defence of Auberville a brigade of Death's Head Hussars, avoiding the village, came across the vineyards and fields, with the intention of surprising the French artillery on the march.

It was a critical moment. The French dragoons were two miles ahead, and the infantry two miles behind the sabred across their guns. The Hussars were only three-quarters of a mile away, galloping furiously. In two minutes the guns were unlimbered, and lined up the road. The enemy then was only 500 yards away, and the command could be heard to prepare to charge the guns.

In the charge the Prussian cavalry gathered speed with every yard. When they were 200 yards away the French guns aimed, and there was a dash of fire. Through the blue smoke the artillery men could see the enemy's horses rearing, and officers trying vainly to rally the broken ranks. A second time the battery vomited death into the doomed brigade. A great silence succeeded the thunder of hoofs

and the shouting of men. Two thousand horsemen lay as if struck by lightning. Here and there a wounded horse struggled to shake himself clear from the heap of dead.

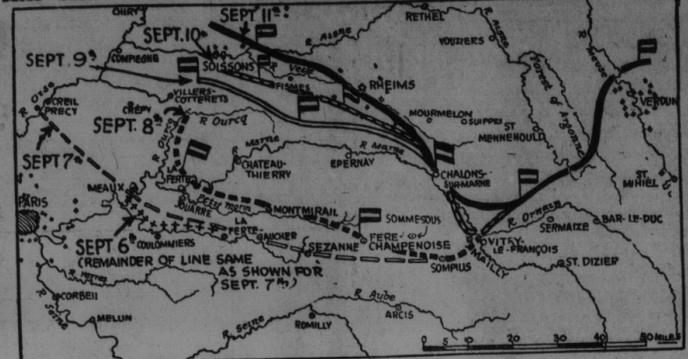

But the artillerymen did not wait to gaze long on this scene of carnage. They limbered up the guns and rattled off to aid the dragoons who were hard pressed, and falling back along the highway. The guns were a welcome relief. This time the struggle was more even. The German quick-firers returned the fire with interest, but the French infantry arrived and deployed among the vines, a bugle rang out, and their bayonets flashed in the sun as they dashed forward.

**Sacrificed Themselves in Van.**

Without cavalry to aid it, the Prussian Guard was obliged to fall back. A battalion of Zouaves glided behind and occupied the valley of the Stuppes, threatening to place the guard between two fires. A regiment of Grenadiers sacrificed itself to cover the retreat of the German columns on Rheims. Five times the Grenadiers hurled themselves against the French. They were repulsed every time.

Then first one, then two, and then ten of the Grenadiers threw down their arms. A hundred men, mostly wounded, were all that were left of a splendid regiment. But their sacrifice had not been useless, for it enabled the column to get safely under the guns of the forts at Berru and Noisiel.

MAP SHOWING RETREAT OF THE GERMANS SINCE SEPTEMBER 6

While the German left wing has remained practically stationary from Vitry le Francois to the neighborhood of Verdun since September 6, and the center at Vitry has begun to retire before the allies, the right wing has been gradually retreating, as shown on the map. La Ferte-Gauchier was the Germans' furthest point south on September 6. They were defeated at Prey on September 7 and driven back to the Precy-Meaux-Sennans line. On September 8 they were on the Ourcq and the Petit Morin. On September 9 they were driven back toward Chateau-Thierry but on September 10 they were on a line from Soissons to the Upper Marne, and September 11 found them retreating toward the Upper Oise and the Aisne.

## VOIK KLUCK'S ARMY FIGHTING DESPERATELY TO PREVENT FRENCH FROM ENGAGING IT

(Continued from page 1)

London, Oct. 1 (9.50 p. m.)—The battle of the Aisne, now nearing its third week, will soon end, in respect to time, that great contest fought at Muden nearly ten years ago. But still no decisive result has been achieved by either side.

The French official communication issued this afternoon, which was condensed into about thirty words, since the war began. It records that progress had been made by both right and left wings of the allied armies, and gives absolutely no details of the extent of the progress between the lines.

Military experts, however, read that the great claws, as they have been described, continue to open out to clutch at the outspread wings of the German army, and particularly the right wing, which, forming the up-right portion of the L, now has its back to the east and is fighting with desperation to prevent the French from encircling or smashing it along most of the front, estimated at 180 miles in length.

Neither side has been able to move forward, while the infantry has also been unable to meet attacks and counter attacks.

For a time the Germans had the better of the artillery fighting, as they possessed the biggest guns. This is now said to have been overcome, for the French have brought up additional artillery, including some big new guns, which are credited with being able to outrange the German guns by seven hundred yards, and which are being used to drive the Germans out of their fortified positions.

Both sides appear to be full of confidence. The Germans, who are bringing up reinforcements to meet the attempts to outflank them, are in what appears to be almost impregnable positions, and are using them skilfully and fighting hard to retain them.

The allies on the other hand, place their hopes in the arrival of reinforcements on their left and the possibility of finding a weak spot in the German front. The Indian troops should now be with the British army, the official bureau having today permitted the publication of the fact that they landed in France on Friday last.

### Infantry and Artillery Figuring Now in the Operations

The artillery has played by far the greatest part in the struggle, but on the German right the lighter guns, cavalry and infantry are doing most of the fighting, and doing it with stubbornness and disregard of life. That people so often said in recent years modern soldiers would never display.

There have been unprecedented artillery duels between the rivers Oise and Aisne, and between the Oise and the Somme, which have taken a heavy toll of the opposing armies, followed by cavalry and infantry charges, in which first one side and then the other side would gain, or be compelled to give ground.

Still they have held on, the German wing being extended further northward since the French made another move to work around it. With an unlimited supply of troops this might go on for an indefinite period, but with the forces at the disposal of the two staffs this operation must soon come to an end.

### Territorials on the Ground

Of course, it is not known whether the Indian troops are going, but it is believed that the left wing will be stiffened by them. Some of the Territorials have also reached Field Marshal French. These include the London Scottish, one of the best of England's volunteer regiments, recruited from Scotchmen in London. They have reached a high state of efficiency, and in their ranks are some of the best marksmen in the empire. Among them are a number of men who competed for the Palma trophy with the United States a few years ago.

A call has also been made for British railway men to go to France and assist in the workings of the railroads there. So that, before long, there will be a considerable, instead of a small, British army in France.

### Belgium Again Theatre of Activities

With the German attack on the out-lying fortifications in Antwerp, Belgium has again become the scene of serious operations. The invaders, so far, have confined their attack to the forts protecting the river crossings between Malines and Antwerp.

A German report says that two forts have been silenced, but the Belgians deny this, and declare that the forts stopped firing as a ruse, and that when the German field artillery approached to take them they re-opened fire, decimating the Germans, who had to retire, leaving behind several guns.

There is no indication of the strength of the Germans at that point, but it is presumed that they have launched no mean force against the formidable defences of the temporary capital.

According to a Rome despatch the Russian ambassador in that city has issued a statement to the effect that the Russians have destroyed the Austrian army in Galicia, and that they are now turning their attention to the taking of Przemyśl and Cracow.

A great battle is impending before Cracow, and upon its result will depend the future movements of the Russian army. Victory to the Russian troops would permit of a junction of these forces with the Russian central army, and an advance into Silesia.

Russians Drive Germans Back Thirty Miles

In the north, the Russians have, ac-

### NOT SUCH AN EASY TASK AS THEY EXPECTED GERMAN PAPER ADMITS

#### Obstancy With Which French Come Back to The Attack Has Taught Kaiser's Men a Salutory Lesson—Takes a Roseate View of The Situation.

Amsterdam, via London, Oct. 1, 9.25 p. m.—The Berliner Tageblatt, in a leading article, says:

"The German people await anxiously, but with confidence, further news from the French war theatre. The news of the great advance of the French troops against the flank of our line would not unbalance us. We know that our front line is protected by broad echelons which are ready to oppose such an enterprise.

"Even if the French or English forces advance still further in a north-west direction they will always encounter echelons which our commanders have kept back in expectation of such advances.

"The influence of the British reinforcements makes itself more and more felt. They are effective to impede, though their progress will not be lasting. Victory must be ours all the same. If it is gained after difficulty it will be all the more worth while.

"The centre of the battle front is silent, listening breathlessly to the struggle on both wings. Around Verdun a decision comes nearer; we have forced our way through the forest of Argonne, but found on the heights on the west of the Meuse a strong position which the enemy had prepared. The French are experts at building positions in their rear. We know that such positions were, as far as possible, constructed long before the outbreak of the war."

After expressing the opinion that the German armies between Verdun and the Argonne constitute a great menace to the French, the article continues:

"But the obstinacy of the French attack, which the enemy had prepared, and the advance against us deserve just appreciation and will have taught a lesson to all who expected an easy task."

### Cut This Out

#### Famous Recipe for Catarrrhal Deafness and Head Noises.

If you know of someone who is troubled with head noises, or catarrrhal deafness, cut out this formula and hand to them, and you will perhaps have been the means of saving some poor sufferer from total deafness. It has been proven conclusively that catarrrhal deafness, head noises, etc., were usually directly caused by constitutional disease, and that salves, inhalers, etc., merely temporize with the complaint, and seldom, if ever, effect a permanent cure. This being so, much time and money has been spent in vain in perfecting a pure, gentle, yet effective tonic that would quickly dispel all traces of catarrrhal deafness from the system. The effective medicine which was eventually formulated and which has aroused the belief that catarrrhal deafness will soon be extinct, is given below in understandable form, so that anyone can treat themselves in their own home at little expense.

Secure from any good druggist in St. John 1 oz. of Parmitin (Double strength) about 75c. worth. Take this home, and add to it 1/2 pint of hot water and 4 oz. of granulated sugar; stir in a spoonful of lemon juice, and keep until dissolved. Take one tablespoonful four times a day.

The first dose should begin to relieve the distressing head noises, headache, dullness, cloudy thinking, etc., and hearing rapidly returns as the system is invigorated by the tonic action of the treatment. Loss of smell and mucus dropping in the back of the throat are other symptoms that show the presence of catarrrhal deafness, and which are overcome by this efficacious treatment. Nearly ninety per cent. of ear troubles are seen to be directly caused by catarrh, therefore, there must be many people whose hearing can be restored by this simple home prescription, who are suffering heretofore with head noises, catarrrhal deafness, or catarrh in any form, should give this prescription a trial.

### WHAT WE DO

Starch Work; Flat Work; Wet Wash; Dyeing; Dry Cleansing; Pressing; Carpet Cleaning; Feather Bed and Pillow Renovating, etc., etc.

**UNGAR'S LAUNDRY**  
Dyeing and Carpet Cleaning Works, Ltd.  
PHONE 55 28-44 WATERLOO ST.

### DIED.

**YOUNG**—In this city on the 30th inst., at her residence, 41 Spring Street, Eliza, widow of William Young, leaving one sister and one brother to mourn.

**FUNERAL** on Friday, October 2, from her late residence. Service begins at 3.30 o'clock.

**COLEMAN**—Suddenly at Providence, Rhode Island, Sept. 30, Frank Coleman, son of Warren and Sabra Coleman, of St. John.

**FUNERAL** in Providence on Saturday.

**DUNLOP**—In this city on the 30th inst., Mary Jane, wife of James Dunlop, aged 78 years, leaving her husband, three daughters and one son to mourn.

**FUNERAL** Friday, October 2nd, from her late residence, 42 Charles street. Service beginning at 2.15 o'clock.

### FUNERAL NOTICE.

Members of Carleton Union Lodge, F. and A. M., will meet at their hall, 120 p. m., tomorrow (Saturday) to attend the funeral of their late brother, James Masson. Full regalia; members of sister lodges invited to attend.

By order,  
F. W. WETMORE,  
Secretary.

### Dominion Trust Company

"The Perpetual Trustee"  
Head Office, Vancouver, B. C.  
Paid Up Capital and Reserve over \$5,000,000.

NO TIME LIKE THE PRESENT for investing money in Mortgages.

We will place money in this way, and unconditionally guarantee its repayment with five per cent. interest, payable semi-annually, or we will invest money in the same highest class of mortgage but without the additional security of our guarantee, netting you from six per cent. to seven per cent.

Trustees and other requiring safety of principal above every other consideration, will find the advantages of our certificates unrivalled.

# HATLINE

## Elegant Velvet Hats

A rich variety of Paris patterns in every fashionable color, is prominent among our most attractive features for the week-end. Velvet Millinery is especially popular this season, and you should see our display before deciding on your winter hat.

MILLINERY TRIMMINGS, including all the most novel and popular features from French and American style centres, are of exceptional interest among our offerings for today.

You are welcome to consult our four milliners who recently visited New York, and who will be pleased to help you in the selection or creation of your "new hat."

# FIGHTING AGAIN IN BELGIUM

## QUEEN'S CANADIAN MILIT. HOSPITAL READY FOR WOUNDED SOLDIERS

Work of Mercy will be inaugurated as soon as official approval is given—Urgent need for Motor Ambulances—Quebec suspends Crown Land Regulation to encourage Mining Prop Industry.

London, Oct. 1.—The Queen's Canadian Military Hospital at Shorncliffe is almost ready for opening. The beds, operating theatre and apparatus are all complete, but the official visit of the War Office representatives, who must approve the arrangements, will not be made until next week. As soon as the official approval is given, the work of the hospital will be inaugurated. The matron in charge, Miss McMahon of Toronto, is already there, and she will be joined by the other nurses at the end of the week.

Interviewing an official of the British Red Cross today, your correspondent was informed that the need for motor ambulances is great. The society is now filling within one week an urgent order for one hundred and has sent over a dozen daily to France. When the wounded are picked up on the firing line, they are first conveyed to emergency shelters some distance behind the line, and here they frequently have to wait a long time before being transported to a base hospital. If motor ambulances are supplied in adequate numbers, the delay would be much less.

The need for the Canadian Women's Supplementary Naval Hospital at Haslar, near Portsmouth, has not been pressing so far, as a naval officer in town yesterday reported that there are no patients even in the Admiralty Hospital, which is capable of taking one thousand patients. This is owing to the fact that the fleet is in the North Sea, and the wounded there have been cared for at Harwich or Aberdeen.

Thermos Bottles would be appreciated. The suggestion made by an ex-Canadian journalist, A. H. Bate, now a member of the cabinet staff, that gifts of thermos bottles would be appreciated by the naval officers in the North Sea, has brought a pleasing response, over two hundred have been received. A similar action in the interest of the men on watch off the Canadian shores would probably be appreciated.

With the object of encouraging the mining prop industry, in connection with which British representatives recently sailed to Canada to find a new supply owing to the cutting off of the Baltic trade, the Quebec government has suspended Article No. 13 of the Crown Lands Law.

This means the removal of the restriction that wood cut in the province must be manufactured there. Mine proprietors desiring to import wood props will be free to do so on affidavits filed at the Quebec agency here that the wood will not be used for any other purpose. Applications from the mine proprietors here have already reached the Canadian lumber merchants for props, hence Agent General Dr. Pelletier has been instructed to the above effect.

Sir Lomer Gouin, the premier, has cabled Dr. Pelletier that a further consignment of Quebec's gift of 3,750 boxes of cheese has been shipped by the Granpian for Liverpool.

## MOTHER! THE CHILD IS COSTIVE, BILIOUS

If tongue is coated, breath bad, stomach sour, don't hesitate.

Give "California Syrup of Figs" at once—a teaspoonful today often saves a sick child tomorrow.

If your little one is out-of-sorts, half-sick, isn't resting, eating and acting naturally—look, Mother! see if tongue is coated. This is a sure sign that it's little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhoea, sore throat, full of cold, or is constipated, give California Syrup of Figs, and in a few hours all the constipated poison, undigested food and sour bile gently moves out of his little bowels without griping and you have a well, playful child again.

Mother can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then see that it is made by the California Fig Syrup Company. Don't be fooled!

## HAMPTON PLANS CAMPAIGN TO HELP BELGIAN REFUGEES

Special to The Standard  
Hampton, N. B., Oct. 1.—At a large and highly representative meeting of the residents of the shiretown of Kings county, held at the court house this evening, with E. A. Schofield in the chair and Frank S. Compton as secretary, it was decided to assist the Belgian relief fund by money to be raised by two concerts to be given on the afternoon and evening of Thanksgiving Day, October 12th.

It was decided to request the Wardens of the county to call a special session of the municipal council at an early date for the purpose of making a substantial grant to the Patriotic Fund, and the Belgian Relief Fund for both of which money and goods are urgently needed.

Committees were formed to carry out the plans suggested and they are to report at an adjourned meeting to be held at the same place on Saturday evening next at eight o'clock.

One Real Lucky Man.  
"He's the luckiest man in town."  
"That so?"  
"If his hat were to be taken from a restaurant rack by mistake it would be by a man who left a better one behind."

## REV. R. H. STAVERT GIVES LECTURE AT BLOOMFIELD

Bloomfield, Oct. 2.—Rev. R. H. Stavert, Field Secretary of the New Brunswick branch of the Dominion Alliance lectured in the hall here on Wednesday evening last. W. E. E. Wetmore occupied the chair and introduced the lecturer. Mr. Stavert used a stereopticon and threw on the screen a large number of slides illustrating the evil effects of tobacco and alcohol on the human system and showing the havoc wrought by liquor traffic in the different spheres of life.

The meeting closed with the singing of the National Anthem.

## CURED OF PILES and Eczema

By Using Three Boxes of Dr. Chase's Ointment

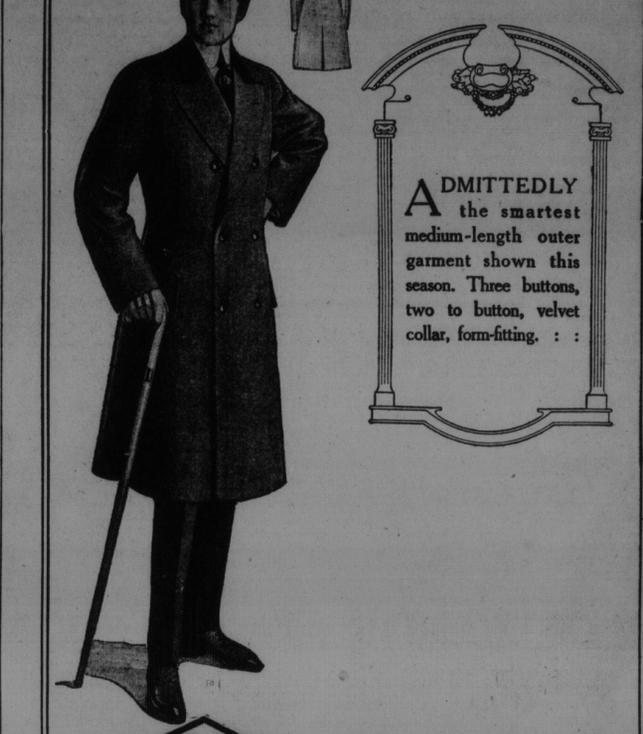

Mr. Abram Bahr, Herbert, Sask., writes: "I want to say that I was troubled with eczema and piles and suffered greatly from the itching, burning sensations caused by these annoying ailments. I sent for a free sample of Dr. Chase's Ointment, and this did me so much good that I bought three boxes more, and after using same was cured of both eczema and piles."

This is the kind of letters we receive daily from people who have been cured of these distressing skin diseases by the use of Dr. Chase's Ointment. No matter how skeptical you might be, you could not read these letters for many days without concluding that Dr. Chase's Ointment is undoubtedly the most prompt relief and certain cure for these ailments.

If you have doubts send for a free sample box and be convinced. It was by use of a free sample that Mr. Bahr was convinced of the merits of this treatment. For sale at all dealers, or Johnson, Bates & Co., Limited, Toronto.

## CALLING OUT OF POLICE NOT ACCORDING TO LAW, COMMISSION REPORTS

London, Oct. 1, 10.50 p. m.—The Royal Commission appointed to inquire into the events of July 26 last, when four people were killed and many were wounded in Dublin during a fight with the police and soldiers, following the landing of guns by Nationalist volunteers at Howth, nine miles from Dublin, today reported that the employment of the police and military was not in accordance with the law.

The report further says that Assistant Commissioner of Police Harroll was responsible for the calling out of the military, and for the orders issued to the police.

## DEMAND FOR BIT PROPS IN GR. BRITAIN OFFERS FINE TRADE OPENING

Special to The Standard  
Ottawa, Oct. 1.—A delegation representing the British Board of Trade and the mine owners of Great Britain has been touring Canada and is now on the way to Newfoundland making inquiries into the possibilities of securing a permanent supply of pit props in this country. It is an opportunity to supply 20,000 tons a week. British colliery owners have been paying half a cent per foot, but expect to pay hereafterward one cent per foot. The lumber used is spruce, pine, hemlock and tamarack. In British Columbia the collieries have been paying three quarters of a cent and in Nova Scotia one and one tenth.

If Canadian lumbermen want the market they can get it at the price paid in Great Britain, but serious competition is threatened by Mexico. A valuable permanent industry is in prospect and the timber for pit props only takes fifteen years to mature.

## Deserters

ARTEMUS WARD, the famous American humorist, whose humor sometimes was a lance-thrust, once said that he was willing to sacrifice all his first wife's relations on the altar of his country. Many a man has been willing to let others do his fighting for him—willing, also, to share the rewards of peace and victory. Men of this type belong to the deserter class.

In Canada are hundreds of business firms striving with all their might to make better times for themselves and their communities. To them all honor.

But there are other firms—manufacturers, wholesalers and retailers—who are "standing pat," "playing safe," doing absolutely nothing to build up business. They are mere lookers on, not participants in the valorous struggle of their brethren to maintain and establish good times.

Look about you and you will find in the advertising columns of this and other newspapers many messages from firms with a sturdy confidence in the future.

Lifter or Leaner—which are you?

Children Cry for Fletcher's

# CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Dr. J. C. Fletcher, and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

## What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Soothing Troubles and Diarrhoea. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

## THE WAR SITUATION.

If the official reports issued from London and Paris tell the whole truth there is yet no decisive result from the Battle of the Aisne, although it is admitted that the allies have made some successes. Unofficial reports, however, all of which have been passed by the censors, are to the effect that the German right wing and right front is in a precarious position and it is also of interest to note that maps and diagrams of the line of battle, published by Upper Canadian and United States newspapers, show the German right as beaten back and almost enveloped at the extreme end by the allied lines.

It was announced yesterday that the Indian troops had landed in France on Friday last, and also that some of the territorialists from Great Britain had reached Sir John French. Success in the operation, therefore, may yet go to the force which can bring up the greatest number of fresh soldiers and with the allied lines before strengthening by such prime fighting men as the Indian troops and the territorialists. It appears the advantage in this respect is with them. The Germans, however, are putting up a brave and stubborn fight and, judging from the despatches of last night, the battle may yet continue several days before it is decided.

In the East the Russians and Germans are preparing for a battle which, in number of men engaged, is expected to approach the conflict on the Aisne. The Russian ambassador in Rome announces the destruction of the Austrian army, but this has already been announced from Petrograd. The situation between Austria and Italy is unchanged, except that Austria has hastened to comply with Italy's demand for an explanation and indemnity for mine outrages in the Adriatic. Italian participation in the hostilities therefore is not yet at hand.

There seems to be some uncertainty regarding the relations of Great Britain and Turkey. Both nations declare that they are unchanged but at the same time the British naval mission which has been engaged with the Turkish navy since the Balkan war has returned to England. Whether this is or is not of importance has not yet been revealed.

There is a renewal of protest on the part of some English newspapers as to the rigid censorship. One London publication declares that the policy of "war in the dark" does not appeal to the British people, naturally consumed with anxiety, and is not calculated to create enthusiasm in recruiting. On the other hand, however, is the evidence that recruiting in Britain is proceeding with all possible speed and that offers of men and munitions of war are coming in from all parts of the Empire more rapidly than they can be availed of. Apparently the men can be secured just as quickly as they can be organized and prepared for active service.

## BUSINESS AND PATRIOTISM

It was wise to merge the local patriotic fund with the larger Dominion fund. If our fund had been maintained in its distinctive character it could have been augmented only by subscriptions from the territory it is supposed to cover, or by offerings especially designated for it. By merging with the larger fund St. John and New Brunswick will share in the advantage of the very large subscriptions received from the great Canadian corporations, banks, etc., which have been given to the Dominion fund.

The response from this city while very good, is hardly so large as in some other cities of the same size, but it is likely that there are yet many citizens whose subscriptions to date do not represent the limit of their generosity. It is well to remember, also, that there may be other calls upon the people during the winter months. There may be more or less idleness, directly due to the conditions imposed by the war in Europe, there may even be some destitution and citizens fortunately situated, whose earnings show little diminution, will doubtless be ready and willing to assist those whose means of livelihood may be removed, or interfered with.

There is every reason for confidence; there may also be reason for the exercise of prudence. Eventually Canada will benefit as the result of this war, but before the end comes there is likely to be some dislocation of business; maybe a slackening of industry, possibly a lack of employment. Workmen deprived of employment, through no fault of their own, will require attention as well as families whose breadwinner is actually descending the honor of Canada and the Empire on the battlefield. It is the duty of the patriotic Canadian to aid the funds created for the benefit of

the soldiers and their dependents; it is an equally urgent duty to take measures that will, as far as possible, keep conditions in Canada near to the normal. Manufacturers and business men will not be fulfilling their whole duty if they make contribution to the patriotic funds and then curtail production and lessen employment in their own industries. It thus adds to the distress in their respective communities. As far as can be the wheels should be kept turning. The employe also has his duty. In times of prosperity he has had employment at good wages; now, when business may become in a condition where it will require extra care and attention, if employment and production are to continue, it is the duty of the employe to watch his employer's interests with redoubled vigilance. Canada will come out all right, but it is a time when all should work together, cheerfully, confidently, making the very best of conditions as they present themselves. This is the duty at hand; its full and complete realization will be the best test of our patriotism.

## THE WAR'S END, AND AFTER.

Speculation as to when the war will end, and what will happen after, is becoming a favorite pastime with newspapers south of the international boundary line. It has not been generally indulged in in Canada. One United States newspaper has interviewed forty of the active staff of the United States army and their opinions run all the way from four to eighteen months as the period of duration. The favorite guess is one year, while six months appears to be a close second. In all cases but one the view is that Germany and Austria will be crushed. The one exception says he thinks Germany has a fighting chance to win. In the other cases it was felt the allied armies would show superiority, and the great resources of Great Britain and Russia would prove the determining factor. Resources of all kinds were held to be largely on the side of the allies.

The collapse of the German advance on Paris was referred to as an indication of what the future has in store for the Kaiser. It was felt that with equal numerical strength the allies would drive the invaders back into Germany and then the campaign would be pursued up to the city of Berlin itself before the final settlement was made. As to the result following the war, the German loss of territory, and the reconstruction of the map of Europe, the most general opinion was in accordance with what has already been published as the view of British newspapers. One observer, who has spent years in Germany, deals with the political future in a way that seems to spell the downfall of the German Empire and the establishment, in its place, of a republic. In the course of an interesting article he is represented in an exchange as saying: "The most important result of German defeat is yet to be considered. We must believe it would be the end of the imperial dynasties of both Germany and Austria. It will be remembered that the defeat of France in 1870 made France a republic, never again to be ruled by king or emperor. We may expect a like result in case of the defeat of the present two emperors. They would have utterly lost their prestige in their own countries, and would be held responsible for loss of national honor as well as for terrible loss of property and life. It is they that have inaugurated the war; and the dynasties must suffer for it. The socialists are already strong in Germany, dangerously so, and they are already anti-imperialist. They would even now acclaim a republic. They are not so strong in Austria, but Hungary is only loosely attached to Austria, and when the political revolution comes that will make Austria a republic, it is likely that Hungary will set up for herself, as she tried to do in the early '50s under Kossuth, whose son is now a chief Hungarian leader."

A contributor to a western newspaper is seeking to prove by literature that the German hate of the English is not a recent product. He quotes a passage from Goethe, who makes one of his characters say, "Tell me not of the sulien, sodden Englishman." It is doubtful if much can be proven by such argument. At any rate it is not easy to establish that German writers have been more disrespectful to their treatment of the English, than the English poets in their references to the men of the Teutonic race. Shakespeare, in his Merchant of Venice, causes Nerissa to ask of Portia, "How like you the young German?" It may be recalled that Portia's reply runs something along this line, "Very vilely in the morning, when he is sober; and most vilely in the afternoon, when he is drunk; when he is best, he is a little worse than a man; and when he is worst he is little better than a beast." German literature contains no estimate of the Englishman that can compare with the Shakespearean "roast."

An exchange states that since the outbreak of hostilities 38,000 Germans have received the decoration of the Iron Cross, Germany's most valued war honor. The very fact that so many soldiers have been given it may detract from the prestige of the Iron Cross. England's greatest honor in the way of decoration is the Victoria Cross, given only for a deed of exceptional heroism. If it were distributed wholesale, as the Iron Cross appears to have been, it would soon cease to be the most coveted distinction that a British soldier could win. King George is an honorary colonel in the Austrian army, and the Czar of Russia holds a similar commission in the German forces. It is fair to assume these offices have been declared vacant, or, if they have not, they will be after the war. But then there may be no German or Austrian armies after this war.

## In Lighter Vein

**Zeal**  
Angry Householder—Why don't you stop? The fire is all out.  
Captain of Village Hose Company—I allow it is; but there's three winders not broke yet.

**No, indeed**  
Bix—You may depend upon it that your friends won't forget you as long as you have money.  
Dix—That's right; especially if you have borrowed it from them.

**Love and War**  
"Want to leave me, Mary? I thought you were quite comfortable. What is it for—something private?"  
"No, mum, it's a sergeant."—Exchange.

**The Mother of Invention**  
"I say, sergeant, this meat is like a bit of leather, and the knife's blunt."  
"Then why the devil don't you stop the knife on the meat?"—London Mail.

**Our Opulent Help**  
Applicant—I'm afraid, mum, I can't take the place.  
Lady of House—But the wages are liberal and the work is not hard.  
Applicant—That's all right, mum, but you haven't any garage for me runabout.

**Painful Publicity**  
"The streets of New York are a blaze of glory—a veritable riot," explained the American. "Why, there's one electric sign with 100,000 lights in it."  
"Doesn't that make it rather conspicuous, old top?" asked his British friend.—Harper's Weekly.

**Excursion Rates**  
The excursion train was well filled. When the conductor came around, a comfortably seated passenger said to him, "Der ticket dakes me two ways for von price, don't it?"  
"Yes," replied the conductor. "Well, den, shust detel me vich is der vay dot cost nodings, I vant to enchoy me der free ride."

**Had To**  
"What do you suppose makes the baby cry so awfully loud?"  
"Why, both its parents are hard of hearing, you know."

**Cured**  
He—When I was a boy I was once thrashed for telling the truth.  
She—That cured you, I suppose?—London Opinion.

**What Ails Jones**  
Knicker—What is the matter with Jones?  
Bocker—If he takes a vacation they wonder how he can afford to; and if he doesn't they wonder if his accounts are straight.

## On The Way

The Canadian volunteers have started from Valcartier (the Khan).  
R. K. Kernigan (the Khan).  
We know not where we're going. We care not how we go. To find the fruiting battlefields Of glory and of woe. Mayhap it is to Belgium. Perhaps to far Cathay. We don't know where we're going. But we are on our way.

We only know they've called us. The battle-tide is rolling. Breast high 'round the world. East or west, or north or south. We know not where we're going. But we are on our way.

Our flag is just as sacred On Belgium's fields of woe As floating o'er our village in old Ontario. So blithely we go sailing Across the ocean grey. We don't know where we're going. But we are on our way.

Tre flag we love's in danger; Oh, stirring days are these. The flag that braved a thousand years Has to the world-wide breeze. We hear the trumpets sounding. Our hearts are light and gay. We don't know where we're going. But we are on our way.

We come from a throned people To shatter a foe or throne. Hasten to the world-wide battle. Men of the Northern Zone! Crossing the deep-sea ocean. Hastening to the fray. We don't know where we're going. But we are on our way!

If, in that far off battle, I and my comrade fall Then, in that far off battle, We answered our country's call. Dying, we both shall whisper, "We don't know where we're going. But we are on our way!"

## Terrific Cost of Modern Warfare.

(Mail and Empire.)  
To the average man there is just about as much difference between \$20,000,000 and \$50,000,000 as there is between a trip to the moon and a trip to Mars. One figure is as stupendous as the other, and therefore it is not important for the purposes of this article whether the daily money loss occasioned by the war is \$40,000,000 a day, as made by Albert Gary, of the United States Steel Corporation, or \$51,125,000, as made by Dr. Charles Richet, statistician of the University of Paris. Dr. Richet's estimate was made before the war began. Mr. Gary's after returning from Europe with the war raging. Another estimate was to the effect that it was costing Germany about \$30,000,000 a day. It is to be observed that no estimates are below \$40,000,000.

On this basis it is interesting to compare the magnitude of the present struggle with some that have preceded it. In fifty-eight days, then, the warring nations have spent \$2,250,000,000. The Franco-Prussian War, which lasted 246 days, cost about \$48,000,000, according to some estimates, and this probably does not include the pensions. If the present war were to continue at the present rate as long as the Franco-Prussian War, it would cost \$16,200,000,000, and that it may last this long is a possibility which Kitchenier is taking account of. It would appear to be absolutely impossible for the struggle to drag on as long as the American Civil War, but in that event it might cost in the neighborhood of a hundred billions of dollars, a total that the human mind is unable to comprehend. It is not reasonable to suppose, however, that the expenses in the last days of the war are at least as in the early stages. At least the army that is losing has fewer men to feed and pay and provide for by tens if not hundreds of thousands. But if the present war continues for two years it will cost the nations engaged in it as much as the following: The Napoleonic Wars the War of 1812, the Mexican War, the Crimean War, the American Civil War, Franco-Prussian, Russo-Turkish, Boer, Spanish-American, Russo-Japanese and Balkan. It has been estimated that these wars cost in the neighborhood of \$32,000,000,000, and that some 5,000,000 men lost their lives. It is by dividing the number of dead into the cost that some enterprising statisticians have found how much it costs to kill a man in war, and it appears that \$3,650 is necessary. It is impossible to check this estimate in the present struggle, since losses of dead, wounded and missing vary so widely. It has been announced, however, that up to the present time the British cas-

## Observe the Men On Any Train.

When it leaves the station you'll see many of them pull out their watches. It doesn't matter to these men whether the train is on the minute or not. They are looking at their watches because they take pride in the accuracy of their time-pieces. That's a matter of great personal pride with all watch owners. You can get a watch you'll be proud of—one you can swear by—at Sharpe's. It need not cost you much money, for accurate watches can be had at very moderate prices. Of course you'll take the most pride in a solid gold watch—so examine them. You can buy lifelong pride in a watch at a pleasingly reasonable price at Sharpe's.—Waltham, Hamilton, Howard, Elgin and Decimal Movements.

GANDY & ALLISON, Sole Agents — North Wharf

Aid for Belgians. Local people are to be given a chance to contribute to the fund for the relief of the people of Belgium, who through their heroic efforts against the Germans, gave the other powers of Europe a chance to assemble their forces and head off the Teu-

tons from Paris and the fertile fields of France. The first steps towards the formation of a local fund for the aid of this valiant little nation were taken yesterday morning when the Citizens' Patriotic Committee discussed the matter and decided on a public meeting today at noon in the Board of Trade rooms, when the matter will be more fully considered and some definite plan adopted. Mayor Prink was asked to call the meeting and he followed the suggestion of the committee. It is expected that many citizens will attend and prepare themselves to help to raise a fund for the assistance of the Belgians.

Fredericton, Oct. 1.—The case against the Crystal Steam Ship Company, for carrying liquor into this city, was before Magistrate Limerick this morning, the company acknowledging the offence and paying a fine of \$50. The case arose out of the recent raid at the company's wharf in this city, the liquor being seized after the arrival of their steamer D. J. Purdy. Mr. J. C. Purdy, of St. John, secretary-treasurer of the company, was here today in the interests of the company.

Captain Estabrooke of Grand Manan is at the Victoria.

PATRIOTIC CONCERT WAS BIG SUCCESS

Goodly sum realized for Patriotic Fund by entertainment in St. Mary's church, last evening.

The patriotic concert held in the schoolroom of St. Mary's church last evening was a success in every way. It was realized in aid of the Patriotic Fund. The schoolroom was nicely decorated with flags and other ornaments, and the arrangements generally were carefully carried out by a competent committee. Ven. Archdeacon Raymond announced the different numbers on the long programme, and everything went smoothly, the work of those who had kindly offered their services being much appreciated by a very large audience. Although the S. R. O. sign was not in evidence, it might well have been, for all the seats were quickly taken by those who knew that not only were they helping a worthy cause but that they were sure of an enjoyable evening's entertainment. There was a good muster of men of the 3rd Regiment, C. G. A., from Partridge Island, some of whom helped, by song and dance, to make the event the success that it undoubtedly was. The following was the programme:

Selections by St. Mary's Band: "A Long, Long Way to Tipperary," and national airs; tableaux, "Under the Union Jack," and "The British Empire"; pianoforte selection, Mrs. J. B. Jones; song, Mrs. Read; song "Stop Your Ticking, Joe," and dance, Gunner Rankin; recitation, Miss Tillie Ross; song, "Goodbye, Sweetheart," Sergeant Wallace; step dance, Bombardier H. Phillips; song, Mr. Slack; selection by St. Mary's Band; flag song and chorus, Mrs. Ferris and chorus of girls; recitation, Roy Harding; song, Mrs. Ferris; song, "While You Wait," Corporal Clarke; song, "A Long, Long Way to Tipperary," Mr. Peacock; lighthead fling and exercises, Mr. Ross' children; song, "Tatie Fagan," and dance, Gunner Moran; song, D. Pidgeon; selection by St. Mary's Band; song, Fred MacNeil; song, "The Rads in Navy Blue," Rev. P. Hunter; drill and National Anthem, E. W. Wilber was accompanist.

WEDDINGS.

Burke-Ryan. In the Cathedral of the Immaculate Conception yesterday morning at nine o'clock, a pretty wedding was performed by Rev. M. P. Howland, with nuptial mass, when he united in marriage Miss Mary Burke, daughter of Mr. and Mrs. James Ryan, and James E. Burke, son of Mrs. and the late Timothy Burke, late inspector of inland revenue.

The bride was given in a white crepe de chene costume hand-embroidered, with Princess lace trimming. She wore a veil and orange blossoms and carried a white prayer book. Her sister, Miss Helen Ryan, was bridesmaid, dressed in pink tulle silk with shadow lace. She wore a black velvet hat with ermine trimming, and small pink ostrich tips, and carried pink roses. The groom was supported by Frank J. Burke. The ushers were Frank J. O'Neill and Lenoard A. Conlon. Appropriate hymns were played by the church organist, A. S. Godsoe. After the ceremony a reception was held at the home of the bride's parents in Sydney street, where a dainty wedding breakfast was served. On the C.P.R. leaving at noon Mr. and Mrs. Burke left on a honeymoon trip to Upper Canadian cities and will go as far west as Michigan. The bride's travelling suit was of Mexican blue with black hat. On their return they will reside in Rockland Road. Many costly and useful remembrances of the happy event were received, including an electric reading lamp from the groom's associates in the C.P.R. freight agent's office.

Mackay-Harmer. A very pretty wedding took place in the Presbyterian church, Norton, at two o'clock on the afternoon of Wednesday, Sept. 30, when Miss Ada Amey Harmer of Norton was united in marriage with Rev. Jameson F. Mackay of Harvey Station, York county.

The church was very prettily decorated for the occasion, and was crowded to the doors. The ceremony was performed by Rev. H. H. Stavert, B. D., Most Worthy Patriarch of the National Division of the Sons of Temperance of North America. The bride was attended by her sister, Miss Gussie Harmer, while the groom was ably supported by Mr. William Ross, L. L. B. of St. John. The bride was beautifully robed in a white Point d'Esprit with Irish crocheted lace over white satin and wore a Juliette cap with veil and orange blossoms, and carried a showery bouquet of white bridal roses, leaning on the arm of her brother, Murray, who entered the church to the strains of Mendelssohn's wedding march, excellently rendered by Miss Nellie McFarlane.

The bridesmaid's gown was of white embroidered organdy with lavender and white sweet peas. She wore a black picture hat and carried a shower bouquet of lavender and white sweet peas. The flowers for the occasion were Misses Ruby and Ruth Harmer. They were prettily dressed in white embroidered net and wore Juliette caps.

Dr. Chase's Ointment will relieve any skin ailment, such as eczema, psoriasis, etc. It is a certain cure for all such ailments. Sample box free if you mention this paper and enclose 10 stamps.

PUBLIC FINANCE FOR THE CROSS SOCIETY NOW

Organization doing splendid work, but donations will be of great assistance —To purchase supplies.

Up till now all cash donations to the local Red Cross Society have been carried to simply buy the material to carry on Sewing Circles and give out quantities of knitting, in which work splendid results are evident by the steady increasing number of cases or boxes of hospital supplies, which are being shipped each week to the Cross Depot, Quebec.

A donation of \$50, received recently for The Red Cross Fund, was the local branch in a better position to start on this second phase of their work. This amount, however, is three-quarters of all hospital supplies have to be purchased, for which there is now no provision. With grateful acknowledgement to a Canadian lady, now residing in England, for a substantial starter, the St. John branch of the Canadian Red Cross Society now appeal, not only to the city of St. John, but also to the Province of Brunswick, as well, to raise a fund, such as we may well be proud to have placed to the credit of our city and province.

The young couple left on the C.P.R. going west. Before returning they will visit Montreal, Ottawa, Toronto, Niagara Falls, Chicago and other Canadian and American cities. The bride's wedding suit was of Belgian blue, alligator cloth, trimmed with black plush and blue hat to match. The popularity of the young couple was testified to by the large number of beautiful presents, including a handsome piano, mission oak parlor suite, a silver service, a set of silverware and several cheques ranging in amounts from \$10 to \$200. The bride will be at home at Harvey Station after October 15.

Sherwood-Gillies. At Hatfield's Point, Oct. 1.—A very pretty wedding was solemnized at the residence of Mr. and Mrs. Arthur Gillies, Belleisle, King's Co., N. B., Wednesday evening, Sept. 30th, when their daughter, Edna Susanna, became the bride of Mr. Sherwood Gillies.

The bride was given in a white crepe de chene costume hand-embroidered, with Princess lace trimming. She wore a veil and orange blossoms and carried a white prayer book. Her sister, Miss Helen Ryan, was bridesmaid, dressed in pink tulle silk with shadow lace. She wore a black velvet hat with ermine trimming, and small pink ostrich tips, and carried pink roses. The groom was supported by Frank J. Burke. The ushers were Frank J. O'Neill and Lenoard A. Conlon. Appropriate hymns were played by the church organist, A. S. Godsoe. After the ceremony a reception was held at the home of the bride's parents in Sydney street, where a dainty wedding breakfast was served. On the C.P.R. leaving at noon Mr. and Mrs. Burke left on a honeymoon trip to Upper Canadian cities and will go as far west as Michigan. The bride's travelling suit was of Mexican blue with black hat. On their return they will reside in Rockland Road. Many costly and useful remembrances of the happy event were received, including an electric reading lamp from the groom's associates in the C.P.R. freight agent's office.

Seely-McAllister. A pretty wedding took place at Lorneville on Wednesday afternoon, September 30, when Miss Bessie A. McAllister, of Lorneville, was united in marriage to William T. Seely, of West St. John. Miss Martha McAllister, sister of the bride, was bridesmaid, the groomsmen being A. C. Smith, jr. The ceremony was performed in the Presbyterian church, Lorneville, by Rev. J. A. Morrison, Ph.D., D.D., of the First Presbyterian church, Carleton. The bride looked charming in a handsome gown of white silk, with bridal veil and orange blossoms; she carried a bouquet of white roses. The bridesmaid was attractively gowned in pink, and carried a bouquet of pink daisies.

Douglas-McDonald. A marriage in which many New Brunswick people will be interested, took place in the Fort Massey Presbyterian church, Halifax, on Wednesday afternoon, when James W. Douglas, manager of the Royal Bank of Canada at St. Stephen, was married to Miss Elizabeth McDonald, daughter of W. K. McDonald of Halifax. The wedding ceremony took place at six o'clock Wednesday afternoon, with Rev. R. W. Ross officiating. The bride was attended by Miss Hilda Wood and Miss Florence Morrison, while the groomsmen were Mr. C. A. McDonald, a niece of the bride, was flower girl. Burham Mitchell, manager of the Royal Bank of Canada at St. John's, Newfoundland, supported the groom. After the ceremony a wedding supper was served in the Birchdale Hotel. Following a reception was held and the happy pair left for Montreal, New York and Boston. Their future home will be in St. Stephen. Many beautiful presents were received.

APPROPRIATE SALARIUMS

Citizen's Committee agree to proposal to erect building on Brittain street adjoining Evangeline Home

At a conference of members of the executive of the Citizens' Patriotic Campaign Committee and officers of the Salvation Army held last evening the plans of the army officers to put up a building on Brittain street, immediately adjoining the Evangeline Home, said building to be large enough to accommodate 70 or 80 men, and also provide facilities for industrial work were approved, and the treasurer of the fund was authorized to pay over cash in hand as required when the contract for the building was let, and sanction arrangements for collecting the amounts pledged.

The work of the army will be carried on in the Evangeline Home until next year, when it is intended to utilize the property already in the street, with extensions for work in connection with the maternity hospital for children's homes. The following letter was read at the meeting: September 30th, 1914. The Executive, Citizens' Patriotic Campaign Committee, St. John, N. B. Gentlemen:— We deeply regret that difficulties arising from the loss of so many of our chief officers in the Empire disaster has delayed matters in connection with the Metropolitan scheme. We are now in position, however, to present definite proposals, which we submit herewith, trusting they will meet with your approval. It was considered advisable to abandon the original proposal to build on the Prince William street site as it was not deemed desirable to build on a site which would not be much more expensive than was anticipated, but would be lacking as there would be no stable or yard.

Attention was called to our property on St. James' street which comprises two forty foot lots, one of which runs through the whole block to James' street, having a 40 ft. frontage there. On the St. James' street lot, there is a substantial solid brick building, now known as the Evangeline Home in which is carried on our Women's Social Work. With some of the members of the Citizens' Committee this property was inspected and all were agreed that the building, the location and ground space would make a more suitable place for carrying on our men's social work. Instead of building on the old site, it is therefore proposed: 1. To transfer the men's social work to the St. James and Brittain street properties referred to, adapt the new building for its work which includes Metropolitan purposes and erect a new brick building on the Brittain street lot which would accommodate seventy or eighty men, and also have some facilities for carrying on our industrial work. 2. It is proposed that the women's work be carried on in the present building until next year, when care will be taken to find a location more suitable for its work which includes rescue, children's home and maternity hospital. It being intended to utilize the present property with extension for this purpose, unless something more suitable be found. The plans and specifications for the new building are now placed before you, and if approved, the contract will be let and the work commenced at once, so as to have the building ready for occupation this winter. If the executive approves of the proposal herewith submitted, we would suggest that your treasurer be authorized to pay out as expeditious as cash is already on hand, also authorize our collectors to secure further payment on prominent names, and also have that the work may be proceeded with as rapidly as possible. Thanking you for your continued interest in this undertaking, we are, Sincerely yours, L. E. TAYLOR, Divisional Commander. GIBBON MILLER, Architect. JAS. E. CALVERT, Subscribers' Dept.

OBITUARY.

James Masson. James Masson, of Fairville, a well known carriage manufacturer, died yesterday morning at 6.30, in the hospital, and the news of his passing has caused general regret not only in the city, but also in the surrounding district, where he had made his home for the last fifty years, but also in St. John, where he was well known and respected. Mr. Masson was seventy-five years of age and a native of Elgin, Morshire, Scotland, coming to this country in the early sixties, he was for a few years employed with the Harris Car Works in the city. He located in Fairville in 1864 and established himself in the carriage business. In the fire of 1892 his property was destroyed, but immediately he rebuilt and his equipment and premises are now up-to-date and commodious. As a pious manufacturer Mr. Masson was perhaps more extensively recognized

"Sweet Betsy's mighty queer," said Jack. "She puzzles me, I find; For when her clothes are on her back Has been on her mind."

as possessing superior ability than in carriage making and for years his exhibits in the exhibitions were favorably commented upon, winning the highest honors.

He had filled the office of police magistrate until 1912, when increasing responsibility obliged him to give up the position. When the fire department was organized in Fairville he took a prominent part and when the present system was inaugurated, he became one of the first fire wardens. His faith in the future of Lancaster expressed itself in many ways, and he was first president of the Board of Trade and later an honorary president. A Scot through and through, Mr. Masson always closely followed the activities of St. Andrew's Society with which he was connected; also he was a Free Mason, enrolled in Union Lodge, Carleton. Besides his wife he leaves a daughter, Mrs. B. A. Worrall, and four sons, Charles, Frank, Joseph and George. One by one the old landmarks are passing, but none will be more generally missed than Mr. Masson, whose genial face and kindly word seemed part and parcel of the village daily life.

Mrs. Henry J. Bennett. Albert, Oct. 1.—The death of Mrs. Henry J. Bennett of Hopewell Cape took place at her home Thursday morning at one o'clock. The sad news was a shock to the numerous friends and acquaintances of the deceased lady. Mrs. Bennett was apparently in her usual health until about two a.m. on Wednesday morning, when she complained of some slight indisposition. Medical attendance was promptly given, and it was thought that the attack was not serious. Late in the afternoon, however, the disease took a turn for the worse, and despite all that the three skillful physicians and the best of nursing could do, the patient sank rapidly and passed away at one a.m. Thursday morning, less than twenty-four hours from the time she was first stricken. Pertinent to the cause of death, Mrs. Bennett was the widow of Henry J. Bennett of Hopewell Cape; a daughter of the late Captain David Stiles of Hopewell; was about seventy years of age; a lady of high intellect and exemplary Christian character and life. Her surviving family are Misses Evelyn and Mildred Bennett at home, Richard B. Bennett, M. P. of Calgary, George, who has gone to the front in the Canadian contingent and Captain Ronald V. Bennett now at home; one sister, Mrs. Lucy Turner, the widow of Hon. G. S. Turner, also survives. The funeral will take place on Saturday at two p.m. Interment will be made in Riverview cemetery. R. B. Bennett, M. P., is on his way home. Edward Ryan.

"A friend in need is a friend indeed." This was the case with Edward Ryan of South Boston, who died here Wednesday in the care of friends. Mr. Ryan, who was 39 years of age, was at one time a resident of St. John's, Nfld., but for some years past had been residing in South Boston. He was a widower with one daughter, and there was also residing in South Boston three sisters. Some weeks ago Mr. Ryan left Boston for his old home in St. John's, Nfld., where he sold some property. It was just three weeks ago, when, while returning to his home in South Boston he was passing through St. John, and being ill when he reached here the United States officials refused to allow him to proceed to his home and sisters in the States. Fortunately Mr. Ryan met friends in this city who immediately went to his aid and took care of him. He was well looked after but despite all that could be done for him he passed away on Wednesday last. When it was seen that he was seriously ill word was sent to his home in South Boston and Miss Lora Ryan, one of the sisters, hastened to this city and remained with her brother until his death. The St. John friends were most kind to him during his illness for which Miss Ryan was very thankful. The remains were taken by Miss Ryan to Boston on Wednesday evening and interment takes place there.

# INDIAN TROOPS LANDED IN FRANCE

## GERMAN ATTACK ON A RUSSIAN SEAPORT

Forty of enemy's ships attempt to land forces at Windau, in the Baltic, but are driven off by fire from forts.

Tokio, Oct. 1.—A severe engagement has been opened by the German warships which cannonaded the Japanese positions near Tsing Tau, the seat of government of Kia Chow, the German leased territory in China. Two officers were killed, German aeroplanes assisted the warships.

Rome, Oct. 1.—The Austrian government has replied to the Italian protest against the floating mines in the Adriatic Sea. Austria deplors the sinking of the Italian vessels and promises to take measures to remove the menace to shipping and to fully indemnify the families of the victims.

London, Sept. 30.—According to a Rotterdam despatch to the Daily Mail, private information from Berlin says that before the retreat to the western frontier the German commissariat broke down completely. For a fortnight a majority of the Germans lived on bread and water. So great was their suffering that large numbers entered the hospital with nervous breakdowns; many became insane.

Paris, Oct. 1.—A Petrograd special to the Havas Agency, dated Sept. 30, says:

The details of the naval engagement which occurred on Sept. 24, off the coast at Windau, a Russian seaport in Courland, on the Baltic, have been made public. It appears that a German squadron, comprising forty ships of all classes, appeared off the harbor and was prevented from landing forces by the heavy fire from the forts. One officer and two sailors were killed and three more were drowned.

The ships withdrew but on the day following two cruisers returned, opened fire and destroyed the lighthouse. They killed a civilian and a number of soldiers, but were driven off again by the fire from the forts.

**VESSEL ABANDONED.**  
After ten days of work the entire cargo of lumber from the schooner R. L. Tay sunk in collision with the passenger steamer Rose Standish off Long Island has been saved. The vessel was abandoned.

**BLOWN ASHORE.**  
Several Schoes were blown ashore on the northern coast of Newfoundland in a severe gale that lasted from Saturday until Monday.

# GUNS OF BELGIANS DRIVE GERMAN BESIEGERS BACK FROM ANTWERP FORTS

Fire from Forts So Deadly Enemy Forced to Change Positions Several Times—War Office Says Troops From India Arrived On French Soil Last Friday.

Paris, Oct. 1, 11.05 p. m.—The following official announcement was issued tonight:

"This evening there is nothing of particular importance to describe except in the region of Roze (a violent action has successfully turned in our favor, and in the Arzonne where we have made progress at several new points.

The general situation remains satisfactory."

Amsterdam, Oct. 1, via London, 7.45 p. m.—A despatch to the Handelsblad from Maastricht says that the Germans in the Belgian province of Liege have issued a proclamation directing that no Belgians between the ages of twenty and forty-five years who are liable for military duty shall cross into Holland. The correspondent says that the Germans are arresting and sending into Germany all the Belgians in this category whom they can find. Many, however, have eluded capture and arrived at Maastricht.

London, Oct. 1, 7.32 p. m.—The foreign office issued a statement tonight stating that the report published in London today, saying the situation between Turkey and Great Britain and her allies were critical, was not authorized, and did not represent the views of the government.

### Indian Troops are in France.

London, Oct. 1, 7.30 p. m.—The war information bureau made it known today that Indian troops were landed in France last Friday. The point of landing was not stated, but it is presumed that the troops disembarked at Marseilles.

Callao, Peru, Oct. 1.—The Kosmos steamer Marie arrived here today with the crew of the British steamer Bankfields, which was sunk by the Germans off Eten, Peru.

The crew of the Bankfields have appealed to the British consul here in the hope of obtaining their liberty. The men said that their ship carried a cargo of sugar, valued at \$300,000. The Marie was followed into port by the German steamer Amasis, also of the Kosmos line.

### Belgian Guns in Antwerp Forts Harass Germans.

London, Oct. 1, 5.26 p. m.—A despatch to the Evening News from Antwerp says that the German attack on Antwerp continued throughout last night with little interruption. The Belgian forts replied so effectively, it is reported, that the Germans several times were compelled to change the position of their batteries.

### Another Casualty List Issued by Germans

Berlin, Oct. 1, via The Hague and London, 3.35 p. m.—The thirty eighth German casualty list made public today, contains about 8,000 names. It includes three major generals, one killed and two wounded. Major General Scherbening was killed, while Major General Emmelst was slightly wounded and Major General Oskar Reuter, was dangerously wounded.

London, Oct. 1, 2.45 p. m.—A correspondent of the Daily Despatch writing of the fighting at Perrone says "There came a new and decisive factor and a complete surprise for the Germans. From the slopes to the northward three batteries of heavy guns suddenly opened fire on the German positions. The range these guns destroyed completely the German battery with the first five discharges, and thereafter rendered untenable position after position that the Germans had tried to hold.

"Right and left the slate gray guns were spitting death on the level streets below them, their caissons beside them and their horses and forces out of sight in a depression of the field at the rear. Straw houses and barns rendered them invisible from the front."

## BUYING AIRCRAFT FOR ITALIAN GOV'T

Agent arrives at New York to purchase high power machines to add to Italy's Aerial Fleet.

New York, Oct. 1.—With a commission from the Italian government to purchase aeroplanes and air craft motors of high power, Enea Bossi, Italian agent for an American aeroplane manufacturer, was a passenger on the steamship Tomaso Di Savoia from Genoa, which reached New York today.

"The Italian government now has seventeen dirigibles, two of which are as big as Zeppelins, two hundred and eighty biplanes and seventy hydroplanes," Mr. Bossi said.

"Seven of the hydroplanes are equipped to launch torpedoes. At the break of the war I turned over to the government several flying machines, one of which was of six hundred horse-power, designed for a trans-Atlantic test."

TRY UNGAR'S LAUNDRY.

## TURKEY SEEMS TO BE ANXIOUS FOR TROUBLE

London, Oct. 1.—Turkey, the London Daily Telegraph says, it understands, is about to make a demand concerning the station of certain British warships with which it will be impossible for Great Britain to comply, and it is likely, therefore, to bring Turkey into the European war.

The Telegraph instances many indications of the Turkish policy, such as the Ottoman government's ambiguous conduct in relation to the German cruisers Goeben and Breslau, the invitation to German officers to go to Constantinople, the mobilization of Turkish troops in Syria, and the closing of the Dardanelles, and adds: "If Turkey chooses war let her clearly understand that it will mean the end not merely of Turkey in Europe, but of the Turkish empire, and that the allied powers will exact the fullest retribution."

## PLACED ON LIST OF CONTRABAND OF WAR

Unwrought Copper, Iron Ore, Rubber, Hides and Skins included in list.

Washington, Oct. 1.—United States Ambassador Page, at London today cabled the State Department that the British government intends to treat as military contraband of war the following:

Copper, unwrought; lead, pig sheet or pipe; glycerine, ferrochrome; haematite, iron and magnetic iron ore; rubber, hides and skins, raw or rough tanned, (not dressed) leather.

## NOT WAR OF THE GERMAN PEOPLE, BUT OF THE MILITARY BUREAUCRACY

Montreal, Oct. 1.—"Why Britain is at War," was the subject of Frith Peterson's address at the opening of McGill University's Academic year this afternoon. Principal Peterson argued that it was not a war of the German people, but of the military bureaucracy, which had been led by arrogant pride to a desire to enforce its ideas of culture and rule by despotic force on the whole world, and had recognized that as a first step in this direction Great Britain and France must be destroyed.

The Principal announced that three hundred McGill students had formed the nucleus of a university regiment. The Duke of Connaught, who was accompanied by the Duke of Devonshire, presided and His Royal Highness referred to the war in which Great Britain was engaged in as a righteous war, and he said it must be fought out to a finish.

## RETREAT ONLY ALTERNATIVE LEFT GERMAN

Cannot stand hammering of Allies much longer, and have failed to break through their lines.

London, Sept. 30.—The Daily News military expert, writing Tuesday, says "If we were anxious on Saturday about the German movement in the Woerwe directed against the Verdun defensive line, we have now been fully reassured. It is clear that it is dragging and may now be regarded as a feint.

"What seems probable is that when Von Kluck asked for reinforcements the German general staff had nowhere to draw on except Lorraine, and the offensive power of the German armies on the eastern frontier had to be sacrificed to the vital necessity of keeping the right wing of the German army from losing hold of its communications with Belgium. If the reinforcing troops had been forty-eight hours later on the Oise than they were the German army would by this time have been in full retreat to the Rhine.

"The counter march of two hundred thousand troops from east to west by means of Belgian railways was a brilliant stroke of strategy. It gained time for the Germans, but time is of no use to them except to prepare their armour proper a little longer. Judging by the mixture of troops which were sent up as reinforcements, they were drawn by hook or crook from whatever corps could spare them.

"Exhaustion is already beginning to make itself felt. Sooner or later the German staff must recognize this and adapt their strategy to meet the altered conditions of the campaign due to the tremendous waste of men brought about by the use of obsolete battle tactics. What is certain is that the German army cannot stay indefinitely where it is, and it cannot go forward. There is nothing left for it to do but go back.

"If we look at the map, with the positions of the troops as now located in this afternoon's Paris communication, we see that von Kluck has been outflanked and that his army now is facing two ways, part of it looking west and part looking south. Comment is unnecessary. Speculation is superfluous. Unless a miracle intervenes there is nothing left for the German commander except to defeat his enemy—and this he has already failed to do—or leave a position which is no longer tenable."

## FUND OPENED IN MONTREAL TO RESTORE LOUVAIN UNIVERSITY

Montreal, Oct. 1.—A campaign for the collection of funds to aid in the restoration of the wonderful old University of Louvain, destroyed by the Germans has been inaugurated in Montreal under the auspices of Laval University.

## AUSTRIANS AND GERMANS CAN BECOME CANADIAN CITIZENS DESPITE WAR

Ottawa, Oct. 1.—Owing to the doubt existing among judges as to the proper course to pursue, the Justice Department will issue a ruling that, notwithstanding the war, Germans and Austrians may take out Canadian naturalization papers if they have been in the country three years and complied with the legal requirements.

### HOPEWELL HILL.

Hopewell Hill, Sept. 29.—The Misses Palmer and MacDonald of Dorchester have returned to their homes. Partridge are reported very plentiful this year, one hunter having seen thirty in one day.

Heavy rains have prevailed for the past three days accompanied on Monday by hail, and snow, which at time of writing, is still falling.

Rev. Mr. Snell of Harvey occupied the pulpit of the Methodist church on Sunday evening in the absence of Rev. Thomas Stebbings who is attending general conference at Ottawa.

Rev. Herbert De Wolfe has returned from his vacation and took his regular services on Sunday.

The general store of Miss A. R. Peck is being raised and preparations made for a concrete foundation and

## SECURITIES RULING STEADY IN LONDON

London, Sept. 30.—Securities have been steady in the street but there are no features to the dealings.

The position of London's securities situation may be summarized thus: The open account of contango has been reduced to £35,000,000, which is a third of normal average. The banks' loans to the stock exchange interests are estimated at £20,000,000. The banks' loans to the public on securities aggregated £250,000,000.

The treasury has not yet fully approved the proposals formulated by the stock exchange committee relative to reopening of the exchange. Counter proposals have been advanced. The negotiations are taking a favorable shape.

Rates for loans were easy but discounts were firm.

Raw rubber is more scarce and the price is dearer owing to delays in making shipment. This has helped rubber shares.

## ONTARIO CABINET MET YESTERDAY

Toronto, Oct. 1.—This afternoon Hon. Dr. Fyfe, who presided over the meeting of the Ontario cabinet members today, said that no information could be given regarding cabinet matters at present.

Hon. W. H. Hearst declined to be questioned about his rumored call to the premiership, and volunteered the information that he would say something as soon as he could. His chance is generally conceded.

The installation of a furnace, Mr. and Mrs. Grace of Moncton and Mr. and Mrs. Anther Lander of Hillsborough motored through the village yesterday.

P. G. Moore, G. W. P., is absent this week in the interests of the temperance order.

Dr. H. W. Murray of Shediac is in Peck is being raised and preparations made for a concrete foundation and

MAYOR MARTIN ORDERS CIVIC EMPLOYEES TO TAKE HALF HOLIDAY

Five hundred City Hall workers had to take it whether they wanted it or not.

Montreal, Oct. 1.—Over five hundred permanent officials at the City Hall were summarily ejected from their offices this morning when Mayor Martin suddenly decided that the unveiling of the King Edward monument on Phillips Square warranted the proclamation of a civic half holiday.

NERVOUS DYSPEPSIA, GAS OR INDIGESTION

"Pape's Diapepsin" settles sour, upset stomachs in five minutes.

Time it! Pape's Diapepsin will digest anything you eat and overcome a sour, gassy or out-of-order stomach surely within five minutes.

If your stomach is not comfortable, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Get from your pharmacist a fifty-cent case of Pape's Diapepsin and take a dose just as soon as you can.

These large fifty-cent cases contain enough "Pape's Diapepsin" to relieve the entire family from stomach disorders and indigestion for many months. It belongs in your home.

YARMOUTH COUNTY FAIR OPENS WITH LARGE ATTENDANCE

Special to The Standard. Yarmouth, Sept. 30.—The annual Yarmouth County Exhibition opened today with a good attendance.

Cattle are exceptionally good particularly in the working oxen. Lunenburg is generally looked upon as the leading county in this respect, but a gentleman who was present at both says they will have to take second place this year.

Swine are shown in great numbers. In spite of the cold, backward season, fruit-followers and vegetables are very much above the average.

The season has proved to be a good growing season for vegetables and there is a splendid display of all kinds. For the first time in years the space allotted to vegetables is filled up and the exhibits are of such general excellence that the judging is not yet over.

In domestic manufactures, the products of the town and factory every department is filled. Of all the business houses it is only the fish firms which generally do not have sufficient enterprise or public spirit to make exhibits.

On the whole we are proud of our exhibition.

NEWCASTLE POLICEMAN DIES SUDDENLY FROM BLOOD POISONING

Special to The Standard. Newcastle, Oct. 1.—Thomas Hill for twenty-one years night policeman here and a most efficient and conscientious officer was found dead in bed shortly before noon today.

Deceased was fifty-nine and a prominent Orangeman and Forester. He leaves a widow, about eight years younger, and three children.

SAYS MR. McLELLAN'S STATEMENT ABSURD

To the Editor of The Standard. Sir,—In justice to myself I think it only fair that I should be permitted to have the following letter, which was unsolicited on my part appear in your valuable paper:

St. John, N. B., Sept. 23, 1914. W. W. Clark, Esq., Chief of Police, City.

Dear Sir,—I read the evidence of Commissioner McLellan in this morning's paper.

In view of the fact that during my theatrical experience I have no recollection of your even approaching me for any courtesies, which would have been a pleasure to proffer, the entire statement of Mr. McLellan is absurd, and I absolutely and emphatically deny same.

Yours truly, F. G. SPENCER.

Trusting you will kindly publish, I am, Yours truly, W. WALKER CLARK.

JURY BRINGS IN MURDER VERDICT

Montreal, Oct. 1.—The coroner's jury brought a verdict of murder against J. N. Lapres for shooting Jules Lavergne, in the latter's photographic studio, 360 St. Denis street, last evening.

Lapres lies dangerously wounded at Notre Dame Hospital. The son of his victim, young Rene Lavergne, (whom he first attacked, shooting twice), shows slight improvement in the General Hospital, and may recover.

Lapres claims he shot in self-defence.

C.P.R.'S CLAIM AGAINST STORSTAR'S OWNERS IS THREE MILLIONS NOW

Extra million is to cover actions for damages through loss of life in sinking of Empress of Ireland.

Montreal, Oct. 1.—By an amendment made in the Admiralty Court today the Canadian Pacific Railway has changed the sum of its suit for damages against the owners of the Empress of Ireland from two million dollars to three million.

FINE OF \$200 IMPOSED ON MILLTOWN DRUGGIST

St. Stephen, Sept. 25.—The enforcement of the Canada Temperance Act which has been carried on of late under the auspices of the Dominion Alliance, is progressing with much energy.

This afternoon Harry Haley, druggist in the town of Milltown, was found guilty of one charge for unlawfully keeping for sale and several charges for selling intoxicating liquor. The fine imposed was \$200 and costs. Mr. Haley paid the fine immediately.

Crippled With Rheumatism

And Skeptical After Trying Many Medicines—Dr. Chase's Kidney-Liver Pills Cured Him.

When the kidneys fail to purify the blood the poisons left in the system cause pain and suffering, such as backache, lumbago and rheumatism. Read how this skeptic was cured by Dr. Chase's Kidney-Liver Pills.

Mr. F. W. Brown, Kingsbury, Que., writes: "I have been completely cured of backache and lame back by using Dr. Chase's Kidney-Liver Pills. I also recommended the pills to a man who was skeptical, as he said that he had tried nearly everything on earth. Finally he consented to try them, and in the first week, and the pains left his legs until he was so supple he could walk without pain or difficulty."

Dr. Chase's Kidney-Liver Pills have worked wonders in this place, and we think there is no medicine like them." Victim, young Rene Lavergne, (whom he first attacked, shooting twice), shows slight improvement in the General Hospital, and may recover.

Lapres claims he shot in self-defence.

Five Roses Flour. Not Bleached Not Blended. ALWAYS AN EARLY RISER. A SMOOTH VELVETY ELASTIC DOUGH. USE FIVE ROSES FLOUR.

Wash your clothes with GOLD DUST

Good soap washes clothes well—if you use enough elbow grease, but Gold Dust washes them more thoroughly—and with little or no rubbing. Gold Dust saves half your time, and spares your poor back.

Another great advantage of Gold Dust—use any kind of water you like. Gold Dust softens the hardest water and makes it soft as rain water.

Gold Dust is just a vegetable-oil soap in powdered form, with other cleansing ingredients added to make it work more thoroughly and quickly than soap ever can.

This Line is "Busy" Let the GOLD DUST TWINS do your work.

THE N. K. FAIRBANK COMPANY LIMITED, Montreal, Canada.

MR. DAGGETT A HEAVY LOSER IN CENTREVILLE FIRE WEDNESDAY NIGHT

Special to The Standard. Fredericton, N. B., Oct. 1.—J. B. Daggett, Secretary for Agriculture, was one of the heaviest losers in the Centreville fire on Wednesday night.

He was one of the leading stockholders in Delong & Clark, general store, and besides property owned by the firm, he was owner of one of the business buildings burned.

Annual Freshmen's reception is being held at the University of New Brunswick.

The chin it was made to raise trouble. Either dimples or pimples or stubble; then some have the gall.

RODD'S KIDNEY PILLS. CURE FOR GRAVEL, KIDNEY DISEASE, RHEUMATISM, BRUISES, SWELLINGS, DIARRHOEA, COLIC, PAIN IN THE BACK, NEURALGIA, MIGRAINE, HEADACHE, AND ALL AFFECTIONS OF THE URINARY SYSTEM.

Around the City

With Hard Pine The steamer Nero arrived in port yesterday with a cargo of hard pine from Mobile and was moored at No. 4 berth at Sand Point where she will discharge.

Rothsay School Meeting. A meeting of ratepayers will be held at Rothsay this evening at 7 o'clock to consider plans for new school house which it is proposed to build.

Trades Council. The regular meeting of the Trades and Labor Council was held last evening. Most of the time of the meeting was taken up with reports of delegates to the recent convention of the Trades Congress, reviewing the work of that body.

Struck by Car. Whilst attempting to cross the car lines in Stanley street, close to the bridge, at about half-past six o'clock yesterday evening, Mrs. Short, who keeps a small store at the foot of Jeffrey's Hill, was caught by the fender of street car No. 38 and fell. After resting for a short time in the sanitary market close at hand, Mrs. Short was able to walk to her home. It is not thought that her injuries are serious.

Fish Industry. Scott Guphill of Grand Manan, N. B., is in Charlottetown today in the city yesterday. Speaking of the fisheries of the Island Mr. Guphill said the Grand Manan fishermen had had a rather quiet season, but the fishermen of Deer Island, Campobello and along the coast of Charlotte county had been making big catches for some time past. At present there is little doing in the herring fishery of Grand Manan.

Eastern Line. The steamer Calvin Austin arrived in port yesterday afternoon from Boston via Maine ports with a fair number of passengers and freight. The Austin is now on the shore route as the steamer Governor Dingley has been taken off this route and placed on the Boston, Portland route. The steamer Ransom B. Fuller which has been on the Portland run has been sent to Bath and hauled out.

The Crops. One of the local provision dealers stated yesterday that it was estimated the potato crop of the province this year would be about 600,000 bushels, and that the prospects were that prices would be such as to yield substantial profits to the farmers. The farmers of the province have fine crops of all kinds this year. Wheat and oats have turned out well and the crops are larger than for many years past. For most farm products fair prices are the rule, except in the case of apples which at present are selling at a very low figure.

Home for Incurables. A meeting of the commissioners of the Home for Incurables was held yesterday afternoon with Dr. Thomas Walker in the chair. Three female nurses were admitted to the home. All the available accommodation of the home is now taken up, except for a vacancy in the female consumption ward. The house committee reported that the work of installing the electric wiring for the new lighting system had been completed. The commissioners of the home have recently been put to considerable expense, and donations would be thankfully received.

ANOTHER INDUSTRY TO BE STARTED HERE

The Secretary of the Board of Trade was called upon yesterday to inspect a very interesting educational device or toy, which has been patented in Canada, the United States and Germany by Stephen C. Matthews, a St. John man. It is a world atlas in the form of a globe, which is cut into segments, each segment representing a continent, and the countries on each continent being sub-divided, so that the child by adjusting each sub-division or block to its proper place gets a complete idea of the contour and position of every country in the world. A company, known as "The Globe Educator Syndicate Company," has been formed to carry on the manufacture and sale of this useful device. It was at first intended to begin the manufacture in Germany, but the advent of the war has changed the company's plans, and they are now considering the question of manufacturing it in St. John. An industry of this kind established in St. John would be a valuable industrial asset to the community.

R. L. Borden Club Annual Meeting. The annual meeting of the R. L. Borden Club will be held Friday evening at 8 o'clock in Room No. 11, Ritchie Building, Princess St. Business; Election of officers, etc. H. C. MOY, Secy.

ONE DROWNED, TWO INJURED IN ACCIDENT

Ernest Pitt Victim When Scow Turned Turtle.

WERE LOADING STONE INTO WEST SIDE CRIBS

Took Stone From One Side And Scow Upset—Were Badly Bruised—Leaves Wife and Child.

Ernest Pitt was drowned and two of his fellow workmen were injured at Sand Point yesterday afternoon when a scow, from which they were unloading stone for ballast for the cribs of the new wharves, turned turtle. The scow was alongside a crib, that had been placed in position during the morning, and men were on the scow transferring the blocks of stone to the crib work. It was thought that the scow was partly filled with water and when the stone was removed from one side it immediately turned over, dumping the remainder of the stone as well as the men into the water. Pitt and his two companions were carried under the water and were badly bruised by the stone. Pitt was taken from the water and rushed to the General Public Hospital. He was quite seriously injured about the limbs and body. In the struggle he became filled with water and the immediate cause of his death was said to be drowning. His two fellow workmen were also considerably injured from coming in contact with the stone. Their injuries were said to be painful but they will only be laid up for a short time. The injuries received by the men were mostly about the limbs.

The men were in the employ of J. S. Gregory and had been engaged in unloading the stone used for ballast from the scows onto the new cribs. The work of unloading the scows was in progress as usual yesterday afternoon and was about half unloaded when it suddenly listed and rolled over carrying the men with it. Many other workers were near and they immediately drew the struggling men from the water and rendered first aid. Medical aid was summoned and Pitt, who appeared to be in a serious condition was ordered removed to the General Public Hospital. He did not regain consciousness and died early last evening. He resided in the Pokok road, just above the mill of Stetson, Cutler & Co. He was married and is survived by his wife and one small child. It is likely that an inquest will be held.

LESS DIFFICULTY IN SECURING TEACHERS

"The public schools of the province have had less difficulty getting teachers this term than for some years past," said W. S. Carter, superintendent of education for the province, to a reporter. "A few teachers have returned from the west, and not so many teachers are now looking to the west for employment as there was a few years ago. About the usual number of pupils are attending the provincial Normal School this term. There is not as many students attending the University of New Brunswick as was expected, but this condition is said to prevail in practically all the colleges in the country, and is what we might expect during the war."

Election of Officers.

There was a large attendance at the meeting of St. John Council No. 327, Knights of Columbus, held in their hall on Coburg street last evening. Officers were elected as follows:—Grand Knight, W. J. Mahony; Deputy Grand Knight, M. T. Coholan; Chancellor, L. A. Conlon; Treasurer, Henry Regan; Financial Secretary, P. J. Fitzpatrick; Recorder, F. X. Jennings; Warden, G. F. Cunningham; Advocate, U. J. Sweeney; Inside Guard, T. C. Oliver; Outside Guard, Edward Hauser; Trustees, J. L. Mahony, J. A. Quinn and T. O'Brien; Chaplain, Very Rev. Monsignor W. F. Chapman, V. G.

A Fine Moose

A couple of days ago Hanford Evans of Lorneville became the proud possessor of a large moose weighing about 600 pounds. He was hunting in the woods at Black River where the moose was called and he managed to shoot it. The carcass was brought to the city yesterday afternoon in a motor boat and landed at the South Market wharf where it was loaded on an express wagon and sent to the market.

BROTHERS FROM THIS CITY WILL FACE FOE

GORDON NUTTALL, Of the Cable Signal Service Corps.

Among the St. John boys who have gone to the front, are two sons of John Nuttall, viz. Jack and Gordon. Gordon is the younger brother, and is now connected with the Cable Signaling Corps; while Jack is with the 12th Battalion of the 3rd Infantry Brigade. Both boys have worn the uniform before they enlisted for foreign service—Gordon was a bugler with the 62nd Regiment in St. John, while Jack was a bandsman with the R. C. R. at Halifax. Their father, who is overseer at the Cornwall Mill, has been with the 62nd Regiment for the past 26 years, so it seems natural for his two boys to be among the first to offer to fight for the Empire.

JACK NUTTALL, Of the 12th Battalion 3rd Infantry Brigade.

It was not until the last moment that the parents knew that Gordon had enlisted, and they had no idea that their elder son Jack, had enlisted until they learned from Gordon when he arrived at Valcartier that Jack was there and had passed the examination. While Mr. and Mrs. Nuttall took the matter rather hard they are greatly proud of their sons, and express the wish that they will go through the campaign successfully, and like the many friends of the brave young men they feel sure they will do their duty.

WILL HAND KEYS OVER NOVEMBER FIFTEENTH

Delegation from Board of Trade Much Satisfied With Progress on the New West Side Wharves.

A delegation from the Board of Trade composed of Percy W. Thomson, H. C. Schofield, R. E. Armstrong, James H. Doody, C. S. Phillips, and Howard P. Robinson visited the new wharves at Sand Point yesterday afternoon and were shown over the works by Manning W. Doherty, manager of the Maritime Dredging and Construction Co., Ltd. All members of the committee expressed themselves as being well pleased with the progress made and felt that the shed and wharf would be completed in time for the winter business.

GIRL FACES THEFT CHARGE

Miss Willie Finley arrested on suspicion of stealing feather boa from F. A. Dykeman's store.

Miss Willie Finley, a former employee of F. A. Dykeman's dry goods establishment on Charlotte street is at present lodged in the county jail charged with stealing a feather boa from the store on last Tuesday. It has been over a month since the young woman was in the employ of the firm but on Tuesday last she was seen in the store and after she had left the boa was missed. The matter was reported to the police headquarters and the case was given to Detective Killen who arrested the woman yesterday on suspicion. She was taken before the magistrate and remained to jail. This is the second young woman arrested on the charge of theft by the detective in two days.
