R E P O R T .

THE Committee have more than ordinary satisfaction in presenting to the friends and supporters of the WESLEYAN-METHODIST MISSIONARY SOCIETY the Twenty-first Annual Report of the Society's operations.

Through the abounding goodness of Almighty God the lives of all the Missionaries have been most mercifully preserved, and a degree of success has attended their labours, although not as great as could be desired, still sufficient to encourage them to persevere in their work of faith and labour of love. On several of the Missions, during the year, the Holy Spirit has been poured out, and sinners have been converted. And it is not a little encouraging to know that not only have sinners in the destitute settlements been converted to God, but also that some few pagan Indians have been induced to turn from dumb idols to the living God. Considering the feebleness and paucity of revivals throughout the entire Continent generally during the past year, the Committee cannot but express their unfeigned gratitude to Him who giveth the increase, that not only have the numbers on the various missions remained undiminished, but that, on the whole, they present an increase.

Another gratifying circumstance in the history of the past year, and which the Committee with pleasurable

feelings cheerfully record, is the increasing liberality with which the appeals of the Society have been responded to during the year. Notwithstanding the liberality evinced in former years, the receipts of the year just closed exhibit an excess over the receipts of the preceding one of more than £450. The Committee rejoice in this augmentation of the Society's funds, not only because it is a satisfactory indication that as the operations of the Society are more generally known they are more generally approved; but, because means are thus furnished whereby the number of Missions may be increased, and the calls that have been frequently made for additional labourers may be responded to in such a manner as the Great Head of the Church, by his providential openings, would seem to demand.

No less gratifying is it to the Committee to know that, while a large increase was being made to the funds of the Society by its friends in this Province, the friends of the Indians in Great Britain, on the application of the Rev. Peter Jones, generously subscribed upwards of one thousand pounds for the special purpose of establishing and maintaining Manual Labour Schools among the Indians.

The Committee submit the following details:—

INDIAN MISSIONS.

The Society, commencing its labours among the Aborigines of Canada, has always felt a deep solicitude in their welfare; and the success that has attended the efforts made for their amelioration encourages the

Society to persevere in the work that has so signally received the approbation of God. The Indians in Canada, exclusive of those in the Hudson's Bay Territory, present an aggregate sufficiently large—diminished as the number has been by intemperance, and other vices introduced by the White man, and presented to the Indians as a compensation for their fertile lands and beautiful lakes—to awaken the inquiries, Cannot more be done for them? Is the number of missionaries employed commensurate to their wants?

The Indians of Canada may be classed as follows:—

	Canada East.	Canada West.	Total.
1. Iroquois and Mohawks of the Six Nations	1721	3042	4763
2. Hurons	189	88	277
3. Algonquins and Nipissings, including those about the source of the Ottawa	1200	91	1291
4. Abenakis, about	500		500
5. Tetes de Boules of the St. Maurice	300		300
6. Micmacs, Amalacites, &c., of Gaspé, about	500		500
7. Ojebways, or Chippewas, Mississaguas, Ottawas, Pottawatimies, and Delawares		5641	5641
	4410	8862	13272

The importance of establishing Manual Labour Schools among the Indians has long been felt; and there is now every prospect that at a very early period Schools will be established,—the Indians themselves largely contributing out of their annuities towards their establishment. The Rev. Peter Jones, who has been for two years engaged in promoting this desirable object, thus reports:—

RIVER CREDIT MISSION, October 12th, 1846.

To the Corresponding Secretary of the Missionary Society of the Wesleyan Methodist Church.

REV AND DEAR SIR,

For the information of all interested in the civilization of the Indians, I beg, through you, to submit the following Report:—

Having obtained permission from the Brockville Conference in 1844 to visit Great Britain for the benefit of my health; and being authorized by the Missionary Committee, and my fellow Indian Chiefs,

to collect funds for the purpose of establishing Manual Labour Schools for the benefit of the Indian population, I crossed the great waters in the Autumn of the same year.

All our great and wise men who are acquainted with the habits of the Indian tribes, agree in the necessity and importance of such schools being established, in order to effect their entire civilization, and raise them to industrious habits, and make them useful and happy subjects of our beloved great mother the Queen.

The Indian parents have repeatedly acknowledged and mourned over their want of government and knowledge in training up their children in the way they should go, especially in teaching them habits of industry; and I have often heard them say that they would gladly consign them over to the care of suitable teachers for a certain number of years.

As a proof of this I will make the following extracts from appeals sent by them, through me, to Christians of every class and denomination throughout Great Britain :

“The OJEWAY nation of INDIANS of the Mississagua Tribe, residing at the River Credit in Canada, are desirous of learning the arts of civilized life, instead of depending upon the precarious subsistence of the forest and the chase.”

“Their Missionaries, who have been the means, through the blessed Gospel, of exciting in them this desire for civilization, have also taught them, that to continue to lead the life of the warrior and the hunter, as the only one worthy of their forefathers, is at variance with the precepts of the Gospel, which enjoin peace and labour as the duties of a Christian.”

“To enable them to obtain a correct knowledge of such duties, funds are necessary for the establishment of Manual Labour Schools. They have therefore commissioned their beloved friend and brother, KAHKEWAQUONABY, (the Rev. PETER JONES,) to solicit the aid of all Christian people on behalf of the poor Red Men of the forest, desirous of being reclaimed from the habits of savage life; and in return for which, their grateful prayers for the welfare and prosperity of their kind benefactors, will not be forgotten.”

Done and signed in Council of the Sachems, Chiefs, and Principal Men of the above Tribe, at the River Credit, the nineteenth day of October, 1844.

From the Chiefs in Council, at Munceytown, on Thames, Canada.

We, the Ojebway Chiefs of Munceytown, salute our beloved brother, Kahkewaquonaby, with our warmest feelings of affection and respect.

Brother, We have learned with heartfelt satisfaction, that you are about to cross the Great Salt Lake for the purpose of appealing to the generosity of our English brethren, to assist in raising funds to establish Manual Labour Schools for the benefit of your poor Red brethren in this Country: We authorize you on our part to plead for us; and we pray the Great Spirit to give you success, preserve you and your dear family in your long voyage, and grant you a safe return.

JAMES MASKINNONJIE,

And four other Chiefs.

Certified,

J. B. CLENCH, *Superintendent of Indian Affairs.*

I am happy to state that, as far as I travelled in England and Scotland, I met with a kind, Christian reception; and it was truly pleasing to see the deep interest excited in both Countries, especially in Scotland, in behalf of the long-neglected Aborigines of this Country. It rejoices my heart to know that my Indian brethren have gained the prayers and sympathy of hundreds of British Christians, who, previous to my appearance amongst them, felt little or no interest for the Red Indian. Believing that the Great Spirit is the hearer and answerer of prayer, what can equal the blessing of being remembered at the Throne of the Heavenly Grace by those who know the worth of prayer?

I feel greatly indebted to the various Ministers who opened their churches and chapels to me for the purpose of making appeals to the good Christian people, and to the several gentlemen who aided me by letters of introduction.

In the various cities, towns, and villages I visited in England and Scotland, our latest resources of information show that

Our latest resources of information show that the receipts of the Wesleyan Methodist society, for the year ending December 31st, 1845, were £112,823, equal to \$546,063. This sum, which exceeds the amount raised in any previous year, enabled the society not only to meet the current expenses of the missions; but also to pay off the old debt, and report a balance on hand of £700, or \$3,381. The Wesleyan Methodists contributed during the year, on an average, \$1.22 each for foreign missions; in Scotland and Ireland contributed an average of \$1; in Wales 60 cents; and in foreign mission stations 80 cents each.

to collect funds for the purpose of establishing Manual Labour Schools for the benefit of the Indian population, I crossed the great waters in the Autumn of the same year.

All our great and wise men who are acquainted with the habits of the Indian tribes, agree in the necessity and importance of such schools being established, in order to effect their entire civilization, and raise them to industrious habits, and make them useful and happy subjects of our beloved great mother the Queen.

The Indian parents have repeatedly acknowledged and mourned over their want of government and knowledge in training up their children in the way they should go, especially in teaching them habits of industry; and I have often heard them say that they would gladly consign them over to the care of suitable teachers for a certain number of years.

As a proof of this I will make the following extracts from appeals sent by them, through me, to Christians of every class and denomination throughout Great Britain :

“The OJEBWAY nation of INDIANS of the Mississagua Tribe, residing at the River Credit in Canada, are desirous of learning the arts of civilized life, instead of depending upon the precarious subsistence of the forest and the chase.”

“Their Missionaries, who have been the means, through the blessed Gospel, of exciting in them this desire for civilization, have also taught them, that to continue to lead the life of the warrior and the hunter, as the only one worthy of their forefathers, is at variance with the precepts of the Gospel, which enjoin peace and labour as the duties of a Christian.”

“To enable them to obtain a correct knowledge of such duties, funds are necessary for the establishment of Manual Labour Schools. They have therefore commissioned their beloved friend and brother, KAHKEWAQUONABY, (the Rev. PETER JONES,) to solicit the aid of all Christian people on behalf of the poor Red Men of the forest, desirous of being reclaimed from the habits of savage life; and in return for which, their grateful prayers for the welfare and prosperity of their kind benefactors, will not be forgotten.”

Done and signed in Council of the Sachems, Chiefs, and Principal Men of the above Tribe, at the River Credit, the nineteenth day of October, 1844.

In presence of

SAMUEL BELTON, *Missionary.*

DAVID SAWYER, *Interpreter.*

been held—one at Orilla, on Lake Simcoe, and the other at Munceytown; the result of which has been that nearly all the Tribes receiving annuities have generously agreed to appropriate one-fourth of their land payments per year towards this most desirable object—yielding about £1500 per annum.

The Government propose to aid the Missionary Society in the establishment of three Schools amongst the Chippeways, namely, one at Owen's Sound, a site for which has been selected; another at Munceytown, where the Indians have agreed to give 200 acres of their rich land, beautifully situated in the centre of the Indian settlement, and also a donation of £500 towards the erection of the buildings; and the third is the Rev. W. Case's School, at Alnwick, which is to be enlarged.

I am informed that the Government intend to establish a School on the Grand River, for the benefit of the Six Nations, who have agreed to devote part of their funds for that purpose.

Thus it will be seen that the Indians are not insensible to the importance of having their children educated and trained for usefulness.

I have given out a contract for the clearing of 30 acres of the School land at Owen's Sound, and we intend to commence the erection of the buildings early next spring.

Since my return to Canada, I have done all in my power to facilitate the establishment of the proposed Schools.

Soon after the last Conference I visited Montreal, and, in company with the officers of the Indian Department, had an interview with Lord Cathcart, who highly approved of the plan of having Manual Labour Schools established for the benefit of the Indian tribes, and expressed much interest for their welfare and happiness.

I was present at both the general Councils referred to above, and have twice visited Munceytown and Owen's Sound. In my interviews with the various tribes, I gave them an account of my recent visit to Great Britain, and the kind reception and success I met with there, which has afforded them much encouragement and satisfaction, as the following resolution will show:—

In General Council, held at Munceytown, on the River Thames, Canada West, the 21st day of August, 1846.

The Reverend Peter Jones (Kahkewaquonaby), Missionary and Indian Chief, addressed the assembled Chiefs and Warriors, and gave a full account of his recent visit to England and Scotland, showing the kind Christian reception he had met with amongst the people of that country, and of his having succeeded in collecting the sum of £1002 11s. 10½d., sterling, towards the establishment of Manual Labour Schools, for the benefit of our Indian youth in Canada West; therefore,—

Resolved unanimously,—That our thanks be tendered to our good Christian friends, for their hospitality and friendship to our brother, Kahkewaquonaby; and we take an early opportunity

REPORT.

to acknowledge, with grateful hearts, our sincere thanks for their liberal donations in behalf of our Manual Labour Schools.

CREDIT.

This mission is situated on the western bank of the River Credit, about 16 miles from the City of Toronto, and 14 from the confluence of the river with the waters of Ontario. The Credit has long been deemed an interesting and important mission. The abject condition of the tribe (Chippewa) previous to the introduction of the Gospel among them; the amazing change effected, consequent upon its introduction, upon the life and habits, as well as upon the spiritual and social condition of the recipients of its saving truths; the consistency of the tribe in general, notwithstanding the exposed situa-

tion and still unsettled state; the numbers who have gone forth from them to labour on other missions; together with other considerations which might be named, have contributed to render this one of the most interesting of the Indian Missions; and nothing but a strong persuasion that the condition of the tribe will be greatly improved thereby, could prevent the expression of regret at the prospect of their removal from the village they have so long occupied; and where the God of Missions has been so long with them.

The Missionary thus writes from this mission:—

CREDIT MISSION, May 20th, 1846.

To the Corresponding Secretary of the Missionary Society of the W. M. Church in Canada.

REV. AND DEAR SIR,—In making out our Annual Report of this Mission the present year, I find that we differ but little from the state of last year; with the exception of our Indians ceding their lands to Government, and their homeless condition in consequence.

The year has not passed by without some conversions and additions to the Church; but owing to some removals, our members stand lower than last year.

Those who have removed are not lost: they yet stand in other departments of the Church, pious and useful, which is fully evident from letters recently received from some of them. Brother David Sawyer, who has long served the Church here, as an Interpreter, and Local Preacher, is now teaching a school, and preaches on Sabbath, at Owen's Sound, writes thus:—

“Dear Brother Belton,—I send a few lines to you to inform you how we are at present. We are doing well, both in body and soul; my family are well; my children seem to have better health since we came here. I think Owen's Sound is healthy place, and I think by all means let all the Indians come as soon as possible to settle on it. Our Indians at this place are doing well in religion, and most of them are faithful and well established in the faith of the doctrines of the Gospel. We have good times in our meetings. Most of the Indians have been fishing, and just returned, and come home with peace and joy in the Holy Spirit. Although the Traders have been tempting some of them with *fire-water*, yet none of our Indians have tasted a drop of the *fire-waters*. Since I have been with these Indians, I have felt more love to God and more love to my fellow-men: the best of all, I have more enjoyment in the Religion of Jesus Christ. The more I endeavour to discharge my various duties, the more I have love to God and man. When I think of the sufferings of Christ

for man, how little I have to suffer for him, although I have left all my comforts of life, friends, father, mother, brothers, sisters, lands, houses, and worldly pleasures; and yet this is a very small thing when compared with what Christ has suffered for us. One thing is very remarkable with me in preaching the Word of God,—the more I enjoy it myself.”

Also, a Letter from Mrs. SUTTON, a native of this place, who removed with her family to Owen's Sound, last winter. While residing here, she was Leader of a Class of young women, who have felt her loss severely. She writes as follows :—

“Dear Brother and Sister Belton,—Sweet and reviving is the thought, that we are not to continue long in this world, but hope soon to rest in the city of our God. My dear brother and sister, be patient in all your trials and hardships, remembering that you are labouring for God, and not for man alone. The Saviour will give you an unfading crown of glory in due season. I often think of the glorious day when I shall meet you and all good Missionaries in the kingdom of our Saviour. I shall then be always with those dear friends who have taught me to love the Lord, and who have told me so much about heaven, and taught me to love and serve Christ. I hope you will not forget to pray that I may possess more of the spirit of Christ. O, dear brother and sister, how much it would rejoice my heart to see you all this evening, and converse with each other. But our good Lord has separated us, perhaps never to see each other again in this world. I often think of the day I left the Credit. It was a solemn hour, and I trust it was a sweet season to our souls. We wept, and prayed, and sang together before our dear Saviour, and longed for that blessed day when we should meet to part no more. You will forgive me for not writing sooner. I think of you every day. I often think of the happy hours we used to spend together, while I was with you at Credit. But the happy hours are gone, I fear never to return. I hope, if we may not meet in this world, we may in heaven, where we shall never be separated. O, my dear friends, do you not sometimes long to see that glorious day when Christians shall be gathered from all parts of the world to sing the praises of our dear Redeemer! What a day it will be for Christians; and shall we be among the number? Sometimes I fear I shall not be; my wicked heart is so prone to sin. But I know the blood of Christ is sufficient to wash away all my sins, and prepare me for his glory. I will therefore commit myself to God; it is all that I can do. O how good it is to be at the feet of Jesus! * * * We have no doubt of the propriety of the change which the Indians are about to make in their location; especially if they get on deeded land, with a certainty of their improvements going to their children.”

There is a melancholy reflection connected with their removal; and that is—the breaking up of this Mission Station, which has stood so long as a monument of christian benevolence and missionary

labour ;—but the mind is raised from its gloom by the testimony which it has afforded, that the benevolence of the christian public and the labours of the missionaries have not been in vain ; very many have turned from dumb idols, and extreme degredation, to the service of the living God ; they have lived peacefully and happy, and died triumphantly ; while there are still many living testimonies of the power of saving grace. * Soon they who have sown, and those who have reaped, shall rejoice together, and be pillars in the house of God, to go out no more forever.

Yours, &c. S. BELTON.

GRAND RIVER.

The Tribe on the Grand River, the Mohawks, were the first to receive the Gospel at the hands of the Methodist Missionary in Canada. The Mission is situated on the northern side of the Grand River ; but latterly the major part of the Tribe has been residing on the southern side of the stream, about fourteen miles from the town of Brantford. The devoted missionary, Rev. H. Biggar, who has been labouring here for four years, reports as follows :—

In presenting to the Society this my fourth Annual Report, I regret that I have not the pleasure, as on former occasions, of reporting an accession to the numbers of our Zion. There has, however, been no particular declension, except what naturally arises from the peculiar situation of this mission. Composed of Whites and Indians,—many of the former having settled on Indian lands previous to their surrender to the Government, and when their lands were brought into market were unable to meet the payment, and consequently obliged to dispose of their possessions and leave this part of the country. This has caused a continual waste in our numbers ; and, besides this, other drawbacks incident to the work in general : such as deaths, and others removing from their steadfastness in Christ Jesus. Notwithstanding, in this department of the work, during my stay, we have an increase among the Whites of nearly 100 members, and among the Indians 25.

The work among the Whites already, independent of the Indians, would form well nigh enough for any circuit, and will be yearly increasing in proportion to the lands becoming settled ; but anything like ample support, at the present, would be out of the question. The settler has now to struggle with the payment of his lands.

With regard to the Indians, we have been rather stationary, nor is there much probability that it will be otherwise, until there be a chapel erected on the south side of the river, convenient to the Indian settlement. The Missionary Committee, at the last Conference, resolved

on doing so—ground was procured and preparations were making—but, to our surprise, the bounds of the Indian reservation, which we had supposed permanently fixed, became unsettled; and, as far as my knowledge extends, continues so to this day. It was thought prudential to delay until things become more permanently arranged.

The Indians are tolerably well supplied with Schools on the south side of the river, kept up by the New-England Society's Agents, and Agents of the London Wesleyan Missionary Society. I need not express my views of their utility and whether they are Schools of the Indian's liking. But one thing I may say, they now are too much huddled together for general benefit.

A small remuneration is given to the School Teacher on this side of the river for instructing as many Indian children as may attend.

MUNCEY.

The Muncey Mission is in the London District, on the River Thames, about 23 miles from the District Town; and is composed of three different Tribes: the Ojibwas, Munceys, and Oneidas. The Indians on this Mission have, in a most praiseworthy manner, exerted themselves in providing suitable church accommodation; and, for several years, have nobly contributed to the Missionary and other benevolent institutions. The Revds. S. Waldron, and A. Sickles, the Missionaries at Muncey, thus report:—

In closing our labours on this Mission for the present year, we find much cause for gratitude to the great Head of the Church, inasmuch as his great and precious promises are literally fulfilled on our behalf! When the enemy came in like a flood, he lifted up a standard against him. It is true our spiritual atmosphere has not only been cloudy, but stormy; for a part of the year, so much so, that, at one period, fears were entertained by some relative to the safety of the mission; but the storm has gone by, and we now have additional proof of the genuineness of both our anchor and our anchorage ground. At the present time, our horizon is brightening. About 60 were admitted on trial during the year; but owing to removals and exclusions, we report a small decrease. The Oneidas have erected a fine Chapel, 30 by 42, entirely at their own expense, amounting to about £300—a credit to the Mission and an honour to themselves. Good attendance generally on all the means of grace. The day and Sabbath Schools are kept up; but we hope for an improvement in our school department ere long. Habits of industry and cleanliness are gradually strengthening, and as their hunting fails, they betake themselves to their farms for supplies; and, in our opinion, they only require suitable encouragement for a suitable time, and they will support themselves respectably.

SAHGEENG.

This Mission is situated on the eastern shore of Lake Huron, and is the most distant from the White settlements and nearest to the pagan Indians of all the missions under the fostering watch-care of the Wesleyan Methodist Church in Canada. Still the Missionaries have not laboured in vain during the year. Owing to the unexpected cessation of the labours of the Missionary appointed by the Conference at an early period of the year, the services of the Missionary at Owen's Sound were shared in by this Mission. Brother Williams thus writes in relation to Sahgeeng:—

Brothers Neeland and Sawyer and myself visit Sahgeeng occasionally, crossing from the Sound by the Indian path, twenty miles. They are located near the mouth of the River, where it pours its volumes of waters into the great Lake. These brethren are lovers of Jesus; many of them faithful and pious; others of them need much care and cultivation. Altogether, we have reason to praise the Great Head of the Church for the privilege of preaching the Gospel to these new settlers and the aborigines of our country; for the pleasing evidence many give of having received it in the love and power thereof; and for the blessed hope that many souls have received the seed which may yet bring forth to the abundant harvest.

SNAKE ISLAND.

This Mission is situated in Lake Simcoe, and is under the superintendance of the Rev. J. Baxter. Both the Preachers of the Newmarket Circuit jointly labour on this Mission in connexion with their circuit. A Teacher is regularly employed who resides on the Island. There are about 60 Indian members of Society; and 30 children who are taught in the school.

OWEN'S SOUND.

The Owen's Sound Mission, situated as it is, in a fertile section of the country, and to which the attention of the Indians is being awakened, cannot fail to become one of the most important missions connected with the

Indian work. It is established on the shore of a long narrow bay that juts into the land from the southwestern extremity of the Georgian Bay.

During the year it has had the services of Brothers Neelands and R. J. Williams, as Missionaries, and of Brother D. Sawyer, an Indian, as School Teacher. The Mission, from the reports received, appears to be in a prosperous condition. The following letter is from D. Sawyer:—

Newash, May 21st, 1846.

Dear Brother,—I am backward to attempt writing and sending the following statement of the past state and present prospects of this Mission, for it is a new thing for me to write this way. I never did so before.

I have great reason to give thanks and praise the Almighty God and Saviour Jesus Christ, who is the head of his flock in this wilderness as well as in the great city.

These Indians are of three different Tribes—Ojebways, Potawatamies, and Otahwabs—numbering in all 176 : 74 children and young people, and 102 adults ; out of these we have 70 members in society. Last year there were 51 Indian members ; so our increase is 20 this year. Three have been expelled or dropped during this year ; none withdrawn or removed. The deaths are 3—1 adult and 2 children. Some of the brethren and sisters are doing very well in religion. Paganism is dying very fast here, only very few that way now.

This Mission is the last of all our Indian Missions,—only a little more than four years since it began. The first Christian Indian who settled here was James Newash. He is now quite blind, but a very good man. He came here after Sir F. B. Head drove them away from their homes at Coldwater. Other Indians followed, so that now we are getting a settlement ; and now that our Credit brethren are coming, we shall have a great place for our home when all are gathered. We have very good land ; good fishing on the coasts. Our village looks well ; we have seven hewn log houses, eight frame houses, a good mission house, and a large chapel, school-house, barn, &c. All these buildings have been made and paid for from our annual land payments. These brethren have done liberally to the Mission funds this year, by paying my salary : they have also paid £4 4 3 in quarterage towards the support of the Rev. J. Neelands and R. J. Williams, who have this place in the plan, visiting every two weeks, preaching to us the words of the Great Spirit, and advising for our good in this world. The Mission School has not been kept very regular this year. When I first came here, I tried to do all I could in the school ; but after a while I was directed to visit Sahgeeng, as there was no Missionary there. This broke off a great deal in my

keeping the school. The number of children is as follows:—40 altogether in the village; average number in school 20; about half under 10 years, the other half over 10 years; about 10 of these spell well and read in the Testament; the others in A B C, one, two, and three syllables. As there is likely to be a great many children next summer, we hope a regular Teacher will be sent. * * *

We hope to become a happy, useful, and prosperous people, with all our hearts filled with gratitude to the Wesleyan-Methodist Society, as the great means under God in bringing us from our past dark and sunken condition to a happy and prosperous one.

In closing the labours of the past year, we see abundant cause of thankfulness to the Great Spirit, for the degree of prosperity which He has been pleased in giving us, in our feeble efforts among this dear people, and we give all the praise and glory to Him.

This is all I have to say.

R A M A.

The Indians on this Mission are located on the north-west shore of Lake Simcoe. A part of the Indians, however, under the watch-care of the Missionary here, are situated on Beausoliel Island. The number in the two places is reported to be 124. The members are in general steadfast and exemplary; and the prospects for the future are of an encouraging character. The Indian Superintendent, Mr. Anderson, says in his report,—“Prior to the year 1830, these Indians had become much demoralized, were in the constant habit of drinking to excess: not one of them could read or write; and they scarcely knew anything of religion.” Now, however, he states,—“Habitual intoxication is unknown; the Sabbath is strictly observed; their religious duties carefully attended to; and reading and writing, with a moderate knowledge of arithmetic, is almost universal among the young people.” There is, in addition to a Missionary, a School Teacher in Rama.

S C H O O G O G.

This Mission is situated on an island in Lake Schoogog, about 30 miles west from Peterboro'. The Indians who reside on this island are of the Mississagua Tribe.

The Teacher, Mr. G. D. Fletcher, who is likewise a Local Preacher, and who has endeavoured to make himself useful in the latter, as well as in the former capacity, has furnished the following report:—

I transmit with pleasure the following brief report of this Mission : it is brief, because nothing of importance has taken place since I wrote last, with the exception of some removals, which have somewhat reduced our numbers ; but, thanks be to God, those removals have not, I trust, been to the world, but to other Missions. During the year, we have been blessed with a pleasing degree of temporal and spiritual health ; but two have died, and but two have been entirely cut off from the Church. On the whole, I hope there is an increased desire for holiness of heart.

The entire population of this Mission is 100 souls : this census, however, includes some whose whereabouts is not always certain, but who still profess to be of us ; as such cannot be called regular members, in the strict sense of the word, I do not feel safe in returning more than about 40 who wait constantly on the ordinances of the Church.

With regard to the School, it has been kept up with but two weeks' intermission at the time of Camp Meeting and the fall hunt. There are thirty scholars in attendance, ten of whom are writing, and four in arithmetic. There are four classes who read in the Testament, all of whom constitute a catechism class, and are advancing in the study of the Wesleyan catechism.

In conclusion, I would say,—May the good Lord bless this people with every rich blessing out of Christ !

FRENCH RIVER.

Early in March last, the Chairman of the Toronto District made arrangements with several Indian brethren to visit the northern shore of the Huron Lake, where there was a number of scattered Indians living without the advantages of a Missionary. Early in the spring a pious Indian youth was sent from Coldwater to remain with the Indians until the Conference. The exploring party found the Indians who were anxiously waiting for a Missionary. On a Council being assembled, and a proposition made to send them a Missionary, the Chief spoke as follows :—

“ I am glad to meet you this day in Council on those good things. We are thankful that the ministers of Jesus don't overlook us, but

think about sending a minister to us, to teach us the knowledge of God. We heard the good word many years ago, and some believe and turn to Jesus; but we had no one to care for us—no one to preach the words of the Great Spirit, so we all backslide in our hearts; our minds had very little light, so we do most like the heathen; but we are very sorry, we blame the ministers because they don't send sooner to us. We are glad to find that this year we may have a Missionary. I shall love him very much, and be much with him, and hear him tell us of the good way. Our resolution is this, to give up every bad thing and follow to know the Lord; and now I pray that the head ministers may send a good Missionary, who will bring the Bread of Life and give it us. This will be great things to us. This is all I have to say."

The party who were sent out to French River, and who held the Council with the Indians, say:—

"They spoke of settling in one place those scattered people. The Chief agreed to this, and promised to see another Chief (his relation) living near him about this. There appeared a willingness to settle for the sake of the Gospel. The Chief said he had plenty of good land, in a little bay, three miles south-east from the mouth of the river. He promised to get bark and other materials for a temporary house for the Missionary at once. The last words of this Chief were, to send a Missionary without fail. He sends his love to the Missionary Society. After this, the brethren made the best of their way home, landing May 16th. The Methodists belonging to this Chief are six men, six women, and five children. I suppose these were baptized. The pagans are about fifty souls. Besides these, there are fifty more in the compass of 40 miles round. There are also a few families two days' journey east, toward Penetanguishene. Lake Nippising, 70 miles north, is inhabited by over 100 Indians; nearly all these are pagans, a few Romans. The brethren think that most of these above might be gathered into two missions, and do well."

In June, Brother Herkimer, a devoted Indian Missionary, was appointed to the Mission, whither he proceeded in July, attended by the prayers of many for the success of this new Mission among the wandering pagans of our land.

MISSIONS AMONG WHITE SETTLERS.

The prosecution of Missionary labours among the Destitute Settlers demands the largest sacrifice of personal comfort at the hands of the Missionary; and the Committee rejoice that men are to be found willing to forego the advantages and comforts of cities, towns, and old settlements, and cheerfully to endure the hardships and privations incident to a Missionary's calling in a new and sparsely settled country, in order to break to the Destitute Settler the Bread of Life. It is gratifying to perceive that some of the missions hitherto enjoying the aid of the Missionary Society, have nobly commenced the effort to sustain themselves as Circuits without any aid from the Missionary Fund. This has enabled the Society to extend the sphere of its operations, to send missionaries into some townships recently settled, and to increase the number of missionaries in those places where the circumstances of the country demanded an increase of labourers.

This department of the work has enjoyed, during the year, a measure of success, which will be the more readily perceived by reference to the following reports from the several Missionaries.

M O N O.

The Mono Mission is a toilsome field, embracing eight townships; but the labour that has been expended upon it, has not been expended in vain. The Missionary, Br. Smith, thus writes:—

While retrospecting the past year, it is with the strongest emotions of gratitude to Almighty God for the success that we have had, notwithstanding the many disadvantages under which we have laboured. This mission is very hard to travel; embracing no less than 8 townships with bad roads, lonesome woods, and a poor and ignorant people.

But the Lord has blessed the effort that has been made in His name ; and has made his own gospel the power of God unto salvation to many on this widely extended station. There is now 10 classes, and 267 members ; and they are all in a prosperous state. The support derived on the Mission has been very poor this year, but a view of the great reward in the heavenly Kingdom bears us up, and induces us to labour on at God's command. We hope the time will soon come when the Mono Mission will become famed for piety, and able, and willing to support their ministers. The Lord is blessing many of them in their temporal and spiritual concerns. May the great Head of the Church visit this mission speedily with the gentle showers of heavenly grace, that this wilderness may bud and blossom like the rose !

BARRIE.

The Rev. H. Dean furnishes the following report of the state of the Mission:—

Another year has passed by, and it becomes my duty as the Superintendent of this Mission to make a report of the state of the work in this portion of the vineyard of our common Lord. At the last Conference a portion of the Barrie Mission was attached to the Albion Circuit embracing 42 members ; one appointment with 7 members was attached to the Mono Mission ; and one class of eight members of coloured people united with the African Methodists ; so that our number was reduced from 258 to 201. At the same time the white part of Lake Simcoe Mission was attached to the Barrie Mission. On this ground I found 26 members divided into 3 classes, which increased our number to 227. These changes not only gave less members and more labour ; but, at the same time, lessened our prospect of support.

The part given to the Albion Circuit was by far the best part of the Barrie Mission, whilst that part taken from the Lake Simcoe Mission was still poorer than any part of the Barrie Mission. These facts may account for any discrepancies that may appear between this year and last. The Societies are in a quiet, and in some parts, in a prosperous state. The numbers on this Mission are 200. There has been raised on the Mission towards our support £59 5 9½ ; for the Missionary Society £20 ; for the Contingent and other Connexional Funds £2 8 5 ; in all £81 14 2½. With some individual exceptions the Mission has done what it could.

ST. VINCENT.

The St. Vincent Mission, at no very distant day, will, no doubt, be among the most promising Circuits in the Province. Although the country is new, it is rapidly

filling up, while the rich lands, and the natural advantages it enjoys, together with the industry of the settlers, induce the belief that it will soon become a flourishing section of the country. The spiritual state of the Mission is encouraging. Br. Williams has furnished the following brief report:—

The St. Vincent Mission extends through the whole of the township of St. Vincent and a part of the townships of Euphrasia and Sydenham, embracing the White Village in the latter township; also a part of the townships of Derby, Sullivan, and Holland; running South of the White Village about 40 miles, on the Garafraxa road, leading to Oakville on Lake Ontario. There were two new lines surveyed last autumn, parallel with the Garafraxa road, each about 50 miles in length; and free grants made, of 50 acres, with 50 more reserved, to each actual settler, the reserved 50 to be paid for in the term of 9 years, at the price of wild land. These lines are settling rapidly, and will form an additional field in this interesting portion of the Lord's vineyard for Missionary culture. We have about 25 appointments or congregations, 11 classes, consisting of 152 church members, with promising prospects of increase. The fertile soil, the fast-rising village, with such a vast extent of well watered forest lying on the south shore of such a large sheet of water as Lake Huron, with the prospects of such facilities for exports and imports from and to the above place, warrants our confidence that this will become a densely settled country. And it is a pleasing reflection to dwell upon, that as soon as the weary emigrant raises his homely log hut here, he is blessed with the glad tidings of salvation through the benevolent exertions of the friends of Missions. The Temperance cause is advancing here.

BROCK.

This Mission is composed of destitute settlers, there being no Indians within the bounds of the Mission. Two missionaries have been labouring the greater part of the year in this field of toil and self-denial, visiting in their regular rounds, eight different Townships—four in the Huron District, and an equal number in the Colborne District. There are 25 appointments, which, in visiting, requires the missionary to travel upwards of 200 miles. Some success has attended the Mission during the year. The number in Society, as reported by the Superintendent, is 174.

GUELPH.

The prospects on this Mission are fair; and praiseworthy efforts have been made during the past year to erect two churches in different parts of the Mission. The labours of the missionary are necessarily arduous—the journeys being extensive—and in summer seasons, 60 or 70 miles of the journeys have to be performed on foot every 4 weeks. The missionary, Rev T. Cosford, states:—

The field of labour in which we were stationed last Conference, is very extensive and highly interesting, embracing, as it does, the following Townships, viz:—Guelph, Eramosa, Erin, Nichol, Garafraxa, Woolwich, Waterloo, Wellesley, and Peel. The land in those Townships is of an excellent quality and well watered, and although the inhabitants are, at present, generally poor, they are industrious and will, if Providence favour them, in time, be wealthy, and will liberally support the operations of our Missionary Society in other parts of the work.

Our Society in Guelph remains about as it was when my last communication was written.

We suffer great inconvenience for want of a Chapel; and our succeeding to any great extent without one, is very doubtful. Our prospects are otherwise fair, notwithstanding the difficulties with which we have to contend.

Since last Conference we have nearly finished our Chapel in Elora, and are now building a frame Church in the Township of Eramosa, the site for which is properly deeded to the Conference. During the year we have taken up nine new appointments; formed four new classes; taken into Society, on trial and otherwise, 45 members; Dropt 22; expelled 1; removals 8; and 1 died; leaving a net increase of 15.

We have 18 regular appointments in four weeks, and travel 250 miles over roads of the worst description. During the last spring and fall, on account of the state of roads, and destitution of feed for our horses, we were obliged to travel from 60 to 70 miles of that distance on foot.

We have two Sabbath Schools in a prospering state, the officers of which, are devising means to render them more useful and efficient.

Our funds are all in the advance. The Quarterage, and the Contingent and Superannuated Preachers' funds, are nearly double that of last year.

Guelph Mission stands unrivalled, this year, in point of liberality to the Missionary cause, all circumstances being considered, having

raised the noble sum of £36, where one farthing was not realized last year. Our prospects throughout the Mission are encouraging; and I trust that the Lord of the harvest will pour out His Holy Spirit upon and revive his work throughout the length and breadth of our field of labour.

Y O R K.

This Mission, upon the whole, appears to be in a flourishing condition. Piety is advancing on the Mission; and the liberality exhibited during the year by those within the bounds of the Mission is worthy of commendation. The Rev. S. Hurlburt reports as follows:—

We deem it unnecessary to say much in what may be called a Report of our Circuit or Mission, as it remains nearly the same as last year. Although it embraces some villages and neighbourhoods which cannot properly be called "poor and destitute," yet there are many new settlements, visited by us, which are as properly "Missionary Ground" as any of the Domestic Missions in the Province; and, as the more wealthy portions of the Circuit are not able to support the ministry for the whole work, an appropriation has been made from the funds of the Missionary Society.

At the last Conference a change was made in the bounds of the Circuit, by which it has received an accession of members. Besides which, two small classes have been organized during the past year, numbering, the one nine and the other seven members. There are now on the Circuit twelve classes, numbering in all one hundred and sixty-eight members. There have been seventeen persons received on trial, and sixteen received by letter during the year; two have died, who, we hope, have made a happy exchange. Thirteen have removed from the Circuit; sixteen have been expelled, and seven withdrawn; showing an increase of two members only, above what we had at the commencement of the year. The different Connexional funds have been well sustained. We have received for the Contingent Fund nearly £5; for the Superannuated Fund £3 10; for the Missionary Fund something more than £50. This liberality on the part of the public shows plainly the value set upon our ministrations. It is in contemplation to build a parsonage for the Circuit. A beautiful site has been offered by a friend in the village of York; and several of our friends are willing to assist in this with a praise-worthy liberality. This, when consummated, will greatly add to the comfort of the preacher's family. There is, perhaps, some hope that this may be done before the close of this Conference year.

The progress of personal piety among our members has not been so great as could be desired; but we trust the influence of Methodism has, as a general thing, been progressive. Though we thus speak of

Methodism, and rejoice to see this peculiar organization of the Christian Church prosper, yet we do rejoice to see and hear of the progress of piety and scriptural morality in any part of the Church, whoever may be the instrument. True piety, or godliness, never was promoted by a selfish bigoted spirit. The interests of an exclusive party cannot live without such a spirit while true piety—scriptural holiness cannot live in such a spirit. Therefore we repeat, that we do rejoice in the progress of scriptural piety or godliness whoever may be the instrument employed.

Many of the classes are scattered through the woods, living remote from each other, rendering that frequency of communion with each other, so essential to spiritual prosperity, exceedingly difficult, yet our labours have not been in vain. Some few have been converted during the year, others have been reclaimed and gathered into christian communion and fellowship, who previously had wandered.

TILBURY.

The Rev. D. Hardie has furnished the following statements in relation to the Tilbury Mission:—

This Mission lies north of the Gosfield Circuit, and is situated on what is called the Middle Road, leading from Chatam to Sandwich; and it embraces the townships of East Tilbury, Rochester, and Maidstone. The land along the road is good, but very low and swampy; and, were it not for the new turnpike-road, the ditches and top-drains that take off the surface water, a great part of the land would not be worth living on. These impediments have been greatly against the settlement and improvement of these new townships. Also, the former bad roads and the distance from market have kept the settlers very poor in their circumstances; but as the new road is nearly completed, there is now a fair prospect opened to invite new settlers to come in and take up the land. New settlers have come in during the past year, and among them, one or two members of Society. Last year this Mission was supplied with the labours of the Rev. S. Snider, who resided on the Mission and gave Sabbath preaching at six different places; but since the Mission has been united to the Gosfield Circuit, we have only been able to give them week-day preaching, and that only once in two weeks, in connexion with the regular Circuit work. In consequence of the change, from Sabbath to week-day preaching, our congregations at first were small; however, during the latter part of the winter, our congregations began to increase; and, since the opening of the spring, they have increased from 25 to 35 hearers, and at some appointments to 40.

We have four regular appointments on the Mission, and two occasional. A new class of nine members has been formed in West Tilbury. There are four classes on the Mission, and three class-leaders. The number of members in society is 53: so that there is

a small increase this year. A Sabbath school has been organized of 20 scholars, and two teachers. We have no chapels, nor even school-houses to preach in on the Mission: with the exception of one school-house back from the road—our meetings are held in private houses.

The people, of late, have manifested a deep interest in the means of grace; and have listened with great solemnity to the Word of Life; and have, apparently, been edified.

Our prospects on the Mission are brightening, and the field is fully ripe for missionary culture; and I hope the day is not far distant when it will richly repay all the labour and expense of the Society with a golden harvest of precious souls brought to the Lord Jesus Christ.

WARWICK.

This Mission is situated in the Western District; and has been the means of affording the means of grace to many new settlers, who, in their father-land, were accustomed on each returning Sabbath to go up to the house of God, but who, on their arrival here, would have been destitute of the privilege of so doing, had it not been for the Missionary appointed to this field. From time to time conversions have taken place, affording pleasing evidence of the approbation of the God of Missions. The number in society is reported to be 200.

DEVONSHIRE.

No report has been received from this Mission, and the Committee are unable to supply the deficiency. The Committee can therefore but express their regret that no information in relation to Devonshire can be communicated through their Annual Report.

NORWOOD.

This Mission embraces the townships of Otonabee, Dummer, Asphodel, Belmont, Percy, and Seymore. The present condition of Norwood is thus stated by the Missionary:—

Norwood (late Asphodel) Mission includes the same six townships which were reported in forty-four. We have sustained a loss of twelve

in number, owing to different causes, but principally from removals from the Mission, as we have received more on trial than we have expelled and dropped.

Our Connexional Funds, except the Contingent, are in advance of the last year, though our opportunity for collecting is greatly diminished by the removal of Mr. Wilson and all the friends connected with the public works.

We have 16 classes, 18 preaching places, and 256 members.

CARTWRIGHT.

Upon this Mission a Church has been erected during the year on the most eligible site in the township of Cartwright; and the work seems to be steadily, though slowly advancing. The Rev. R. Loughead reports as follows:—

In compliance with the duty enjoined upon me, I send you the annual report of this Mission. I have received five on trial, and dropped two; one has removed, and one died. The present number is 101. I have procured the deed of half an acre of land, as a gift for a church, in the most suitable situation in the township of Cartwright, on which we have already built a small church. The friends on this Mission are awakening to the interests of our much-loved Zion; and are, I trust, growing in that piety which regulates the life, and is felt in the soul. May it increase more and more!

MARMORA.

The devoted labourer on this Mission, the Rev. S. Miles, furnishes the following clear and satisfactory report of the state of the Marmora Mission:—

Our fourth Quarterly Meeting having now closed, I take up my pen for the purpose of giving you a brief statement of the work on the Marmora Mission for the last quarter of the present Conference year. In doing so, I have some things to regret, and many things for which I have great reason to be thankful. I have much cause for gratitude to Almighty God, inasmuch as by his blessing upon the humble means of grace at a Protracted Meeting held during the past quarter in Hazard's Chapel, thirteen precious souls, six of whom are heads of families, have been induced to give over their wanderings, backslidings, and sinful practices, and to close in with the offers of everlasting life, and to accept of salvation, through faith in the Lord Jesus Christ. The cause of regret is, that a greater number have not been induced to follow their wise example. The Missionary labouring on this part of our work (as well as his family) has many

privations to endure, and many inconveniencies to try his patience and Christian fortitude, especially in travelling rough roads, and passing over long and very dangerous crossways, while going from one appointment to another; but he meets with an affectionate reception when he gets there, and therefore he feels encouraged to persevere in his labours. The friends, I believe, generally speaking, do what their circumstances will allow to meet his temporal wants, and make him and his family comfortable; but many of them are yet in arrears in paying for their farms, which is a cause of much embarrassment to them. Still the Mission is an important one, and, in all probability, will soon become enlarged in its borders, and consequently increase the labours of the Missionary. In my last report, mention was made of opening a road from Madoc to the Madawaska, and during the past winter many loaded sleighs, conveying provisions, &c. to the numerous lumber-men employed in getting timber in the dense back-woods, passed and repassed from this and other townships, to the River of that name, a distance from the Madoc Mills and Iron Works of from between 40 and 50 miles; so that, in a few years, the blessing of God upon the Missionary labours of the Wesleyan Methodist Church in Canada, a junction will be formed with our Missions at Bonshire and Clarendon, on the Grand River. And, already, in my mind's eye, can I see the devoted and laborious Missionary, fired with the love of souls, and deeply anxious to bring glory to God in their salvation, wending his devious way, through what is now a dense forest, calling on his route, from shanty to shanty, and preaching to the inmates of the same "all the words of this life," and offering Jesus, as the only "name under heaven given among men whereby we must be saved."

On referring to the Schedule for the quarter just past, I find the state of the societies to be as follows:—admitted on trial 13; fully admitted 6; admitted from other circuits 2; removed from the Mission 6; expelled or dropped 2; withdrawn 1. On comparing the Schedules for the whole year, I find the state of the societies as follows:—admitted on trial 24; fully admitted 6; admitted from other circuits 7; removed from the Mission 14; deaths 2; expelled or dropped 6; withdrawn 1; total number now on the Mission 117.

There are also three Sabbath Schools on this Mission, in connexion with our work.

SHEFFIELD.

Although there have not been extensive revivals of religion, within the bounds of this Mission, during the past year, yet it is satisfactory to know that souls have been converted, and that the work of the Lord is advancing in the hearts of the people. The Rev. R. Corson has furnished the following report:—

We have had our last quarterly-meeting, and are about to repair to the District Meeting. I have preached in some fifteen neighbourhoods the last year. However, there is only ten regular appointments. We have had two protracted meetings, and we trust some little good was done. We will have a small increase of three members; but we are not to despise the day of small things. Our funds are much improved. There was only a little over six pounds raised in money on this Mission the last year. This year we have raised a little more than twelve pounds; they have also boarded my little boy for the last six months, and yet I will be deficient in my small salary ten pounds, as it requires the greater part of what we have raised on the circuit to meet my expenses of travelling to and from Conference, the board of my little boy for six months, and my travelling expenses for the year. And I believe you will admit I have not been extravagant as I have deprived myself of a regular home in order to save expense.

AMHERST ISLE.

The following report, from the Rev. J. Black, exhibits the present state of this Mission, and furnishes a suggestion worthy of consideration. It appears desirable that a Missionary be exclusively appointed to Amherst Isle, who, residing there, may possess greater facilities for the successful prosecution of his work. The increased expenditure, involved in such an appointment, has been the chief cause of not appointing a man exclusively to this Mission. Brother Black says:—

Amherst Island is situated south of the Township of Earnest Town (main-land) from which it is separated by the Bay of Quinte which is about 3 miles wide. This Isle is 13 miles long and from 2 to 6 miles broad, containing 1100 inhabitants; some of whom are members of the Church of England, having a resident minister; others are Presbyterians; and many are Romanists, who are destitute of religious teachers of their peculiar creeds.

Some years ago, Methodism suffered here by the introduction of *Irvingism*, the evil effects of which are still visible. Of late, our Society has lessened by removals to the upper part of the Province. I hope that the Missionary who travels the new Townships near Goderich, has, by this time, met with several people there who lately were acceptable members of our Church on this island.

Our Society, at present, consists of 30 members, under the care of two pious Class Leaders. Probably upwards of 100 persons receive religious instruction from the Methodist Minister. We have 5 appointments (in private houses) within a circle of 10 miles. But I find that

the Preachers on Bath Circuit can hardly do justice to the work on this island, especially in the spring and fall seasons of the year. Our going to and fro is frequently expensive, and oftentimes attended with danger; yet, in the language of the last Missionary Report, "It will not do to give up this people and let them struggle alone." They are some of the most stable and worthy part of the population, and do all they can to assist in all our institutions. Consequently, I will therefore cultivate the hope that, at the ensuing annual Conference, the Mission Board will appoint a Preacher to this island; the result, I doubt not, will be highly profitable to many.

WOLFE ISLAND.

This Mission is an island at the foot of Lake Ontario, near the entrance of the River St. Lawrence, containing a population of 1289 souls, the great majority of whom are indifferent to the requirements of religion. The labours of the Missionary have been performed under great disadvantages. Many discouragements have, from time to time, presented themselves; but in faith and love these labours have been continued. There are but ten members in society, showing a decrease of two during the year.

TYENDENAGA.

The prospects on this Mission are more encouraging than they were the preceding year; and a good hope is entertained, that the seed sown will produce an abundant harvest. The Rev. C. R. Allison reports:—

I am thankful to be able to say, that the prospects on the Mission part of this Circuit are brighter than when I made my last report. In accordance with the resolution formed at the commencement of the year, we have attended closely to this part of the work; and, in addition to other duties, have preached nearly 100 sermons in the township of Tyendenega during the year. We have succeeded in establishing some Sabbath Schools, the most important of which is in Shannonville. This has been in operation since the 1st of March, and numbers about 70 children, with an excellent library of more than 100 volumes. The very efficient Superintendent, who, a few weeks previous to the commencement of this School, was a wanderer from home, is now enjoying both the blessing of temperance and godliness. From the result of the effort made in this little village, I am confident a Sabbath

School may be got up, and the Sunday School Guardian circulated in almost any place. We are making preparations to build a Chapel in Shannonville, which will be a great blessing to this part of the work.

G L E N G A R R Y.

The Rev. J. W. McCollum has furnished the following report of the state of the Glengarry Mission:—

This Mission once formed a part of the Matilda Circuit; but, in 1838, I believe, it was thought advisable by the Conference to set it apart as a distinct Circuit, with one stationed Minister. But in 1843 two Ministers were appointed to the Circuit, for the purpose of extending their labours into places destitute of the means of grace; and a part of their salary was paid by the Missionary Society. In consequence of this arrangement, several new appointments were taken up; and, in places where they had been favoured with preaching only occasionally, regular appointments, once a fortnight, were established. Our regular work has been confined to four townships, viz., Osnabrock, Finch, Roxboro', and Cornwall. But, besides these places, I have, occasionally, during the year, preached in the township of Lancaster, and at the Coteau du Lac, in each of which places large and respectable congregations have generally attended; and could they be favoured with regular appointments for preaching, doubtless good would be done; but, in consequence of the state of my colleague's health during the year, we have been unable to visit them regularly. We have on this Circuit four Chapels partly finished, three of which we already occupy for Divine worship; four Sabbath Schools, numbering in all about 130 scholars; and about 280 members in Society. The year now nearly closed has been, in many respects, a year of trial; but whilst we have met with some things to discourage us, we have had much to encourage us still to labour on for the good of immortal souls, and the glory of the Great Head of the Church. Some, it is true, have turned their back to Christ—have turned to their former ways; and we have been under the painful necessity of excluding them from the communion of the Church. But others have manifested an increasing zeal for God, attachment to his people, and the different institutions of his Church; and 14 have professed to experience a change of heart, and have united with us. On the whole, we can say that although we may not be able to report as many names at the close of this year as at the close of last, we can report a better state of feeling among our several societies,—more union, more brotherly affection, and a better state of finances.

In conclusion, I would say that to me it appears very important that this part of our work should still receive assistance from the Missionary Society. In one of the townships which we have mentioned as being included in our regular work, there are residing several hun-

dreds of families, but they have no clergymen of any denomination; and, until a few months past, were seldom favoured with the means of grace. In other parts of our regular work they would be nearly as destitute were it not for our regular visits. Hence the importance of continuing the appointments already taken up. But these appointments cannot be continued unless two Ministers are sent to the Circuit by the Conference. Two Ministers, at present, could not realise from the Societies even so much of their disciplinary allowance as would afford them a slender support. But should aid still be afforded, so that the present amount of labour may be continued, there is every reason to hope, that, in a few years, by the blessing of Almighty God, this Mission will not only be able to support its Ministers; but, like several other Circuits in our Province that were once assisted from the Missionary Fund, will be able to refund to that Society from which their wants have been, in part, supplied; for, already do their subscriptions nearly or quite equal the amount expended for them.

ST. ANDREWS.

On this Mission a plot of ground has been purchased for a Church and a Parsonage, and some steps have been taken towards their erection. The number of members has been lessened by removals to the West, but their places have been supplied by others who were converted during the year. The Rev. M. Baxter writes:—

The St. Andrew's Mission has for many years past suffered numerically by the migration of many of our valuable members to the west—and although as we hope not lost to the church, yet lost to us. In every part of what is now denominated the St. Andrew Circuit the ministers of the Canadian Wesleyan Methodist Church were the first to preach unto men “the unsearchable riches of Christ.” Forty three years ago our venerable Br. Sawyer “cast his bread upon the waters” here, the good effects of which, are seen to this day. In the course of our administration the last year, we trust we did not labour in vain—many found that God “refreshed his inheritance with a plentiful rain when it was weary,” and several were added to our Church.

The want of a parsonage house has long been severely felt—operating injuriously as to the comfort of the preachers—the finances of the circuit—and extension of the cause of Christ. By the blessing of God we are about to remedy the evil. We have purchased an acre of land which will be large enough both for church and parsonage. We have commenced to erect the latter; it is to be of brick, and the dimensions, 30 feet by 25 feet. Up to the present period we have obtained subscriptions to the amount of £77 which, both for members

and well-wishers, we consider very liberal. The House is to cost £100.

We pray God so "to prosper the work of our hands," that in a short time the church also may be erected and that all our "churches may be established and increased in numbers daily."

PEMBROKE AND BONCHERE.

The work is advancing on this Mission; and the liberal offerings of the people are a pleasing indication of their willingness to do all in their power to help themselves. The report of the Rev. H. Shuler will be read with interest:—

Having, through a kind Providence, been spared to close my labours on the Pembroke Circuit for the Conference year, I proceed to furnish an annual report. The most of this Circuit is decidedly Missionary ground. It extends through part of the Townships of Ross, West Meath, and Pembroke, and about 35 miles of unsurveyed land. It extends about 150 or 160 miles, and nearly 100 by canoeing in summer and ice in winter. There is only about one and a-half miles of good road in the entire Circuit, and it will require two preachers to fill the appointments on the Pembroke part of the Circuit this year. We have now a good subscription towards building a Chapel in Pembroke, amounting to £200, and no doubt it will be raised to £250. The people have nobly supplied my family and paid upwards of £30 towards my moving expenses and salary, and over £23 of Missionary money. No doubt, in a very few years, they will be able to support two preachers without any aid from the Missionary funds. The thick gloom which hung over our moral horizon when we came to this Circuit after the last Conference has, in a good degree, passed away; and, by sending two preachers to this Circuit this year, who will regularly attend *all* their appointments, will give an influence to Methodism, which, I conceive, she cannot otherwise obtain. Our increase has not been as great as we could have wished. At the same time, our prospects are beyond our most sanguine expectations when we arrived at the Circuit after the last Conference. I cannot describe our present prospects better than by the expression of our own excellent Circuit Steward, at our last Quarterly Conference, while the tears of gratitude bespoke the inward emotions—"When the preachers were appointed here, I then thought their families would starve; but our prospects are so much better than what I feared, I know not how to express my feelings of gratitude to God. Truly God hath been better to us than all our fears. To Him be all the glory."

The Committee regret that no reports have reached them from the PITTSBURGH, BUCKINGHAM, ST. CHARLES, and SHERBROOKE *Missions*. Whether the Missionaries labouring on these several Missions have forwarded their reports which never came to hand, or whether they have neglected to prepare them, the Committee are not able to decide. If the latter be the case, the Committee would speak in strong terms against such culpable remissness.

CONCLUSION.

The Committee have now submitted all the information they have received in relation to the various Missions, both Indian and Domestic, under the fostering care of the Wesleyan-Methodist Church in Canada; and they rejoice that, upon the whole, it is of such a character as to satisfy the reasonable demands of all the friends and supporters of the Society, and to furnish grounds of encouragement for the future.

The preceding pages furnish gratifying evidence that the words of a dying WESLEY can be adopted by his descendants in this distant Colony, who, with as much truth as triumph, can exclaim—"THE BEST OF ALL IS, GOD IS WITH US!"
