CANADA HOUSE,

CHATHAM, N. B. NEW BRUNSWICK.
WM. JOHNSTON, Proprietor.
CONSIDERABLE inquiry has been made on this house to make it a first class Hotel, and travelers will find it a desirable temporary residence both as regards location and comfort. It is situated within two minutes walk of steamboat landing. The proprietor returns thanks to the public for the encouragement given him in the past, and will endeavor by courtesy and attention to merit the same in the future.

"Wilbur House,"

Bathurst, Gloucester County, N. B.

This House, which has been enlarged and thoroughly repaired, and refurnished, will be open to the public on Monday next, 12th June.

As regards situation, it is located in a very pleasant town, and being in close proximity to the Bathurst Chalmers, is one of the very best summer resorts for tourists and families who leave the heated cities to seek the invigorating air of the North. The County excels in beautiful scenery and excellent fishing grounds. The hotel is within easy reach of the International Railway, and every effort will be made by the Proprietor to secure the comfort and pleasure of all who may patronize the establishment, which will be in the very best style.

THE UNION ADVOCATE, WEDNESDAY, AUGUST 30, 1876.

Hole again to-night, Jamie my man, she said; and then mums' speak, nor let anybody know thou's there, nor shows so much as the nose out of till the two had men have gone away, and Abel Roshon or thy dad comes back to the Skive. Dost thou understand?

She had been stripping off her warm woolly petticoat as she spoke thus, in which she now proceeded to wrap Jamie, putting Miles' heavy jacket over all; and then snatching him up in her arms, she ran to the little ledge of her gunner's cabinet, the entrance only just large enough for Jamie, encumbered as he was, to wriggle through, but expanding inside into a tiny cavern.

Mam would have liked much to say a few farewell words to the child whom she hardly expected to see again on earth, but there was no time to do so. She heard the voices of the two men as they were descending the ladder to come in search of her, and had barely time to imprint a last lingering kiss on the lad's lips, and to see him creep quietly into the hole, when a yell of triumph from Black Steve proclaimed that she was seen, and that the gunner's cabinet was fairly hostess from the dangerous neighborhood of the Hole. Then, pre-empting that her foot had slipped, and that she could go no farther, she sat down on her knees on the rock, and waited with clasped hands and bowed head for what might happen next.

WEDNESDAY, AUGUST 30, 1876.
To The Public.

As the greater portion of our exchanges and correspondence reaches us by the night express trains, we have decided to publish the *Advocate* at noon every Wednesday, instead of in the morning. By doing so we can give later local and general intelligence to our readers than we went to press on Tuesday nights, and we have hitherto done so. By this arrangement we can also publish any advertisements or matters of importance that may at times be received on Wednesday morning. The *Advocate* will be distributed at Chatham from the Post Office and at Mr. W. Ambrose's, and in Newcastle by the carriers, immediately after dinner every Wednesday. Friends everywhere are requested to send as brief reports of meetings, news, enterprises, new buildings, accidents, farming times, or anything else of interest to the reading public. Parties unacquainted to preparing news items for publication, will kindly send along to the office, and we will fully make whatever corrections may be necessary.

N. B. Rifle Association.

The Annual Competition of the above Association commenced at Sussex on Tuesday last week. We find by our exchanges that the command devolved upon Lieut.-Col. Maunsell, with Lieut.-Col. Maclean as umpire, and Capt. Staples as Range Officer. There were 105 competitors present at the opening—Kings County sending 46, St. John 28, York 13, Carleton 10, Northumberland 8, Charlotte 6. The proceedings did not appear to excite much interest, the number of visitors being small.

The following is from the *Telegraph*:

RANGE, BUTTS AND TARGETS.

As few people who read the reports of rifle competitions ever visit the range, a description of the range, butts and target is given.

The range is located on a field 90 yards by 200 yards, bounded by a four square butt, each butt having two targets attached to their sides, making eight targets suitable at 600 yards. The range is a very large one erected on an elevated bank. The target is 6 feet in height and 12 feet in width, the butt being 2 feet in diameter. This has been specially laid out for the 500, 600 and 1000 yards range, for which prizes in the form of medals and the object being to favor the introduction of long range firing in this Province. Inside each butt there are two markings. Each marker is supplied with two spotting discs and round wads of cloth to paste over the hole made by the shot. The target is marked the shot as follows: As soon as the marker hears the shot strike the target he pulls the target in, and the target is done by a lever attached to the target. He then hoists a disc denoting the value of the shot, placing a spotting disc on the target by the bullet and turns it outwards, thereby showing the exact place where the shot struck, a matter of great importance to the competitor.

The targets are made on canvas mounted on an iron ring, bolted to the ground, thereby preventing any fatalities.

The present targets were designed by Lieut.-Col. Deerp, and were pronounced a success by every competitor at this meeting. The manufacture of the same has been done under his direct supervision.

First Competition, Association Cup and \$100 in prizes.—Open to all members and affiliated members of the N. B. Provincial Rifle Association. Ranges 400 and 600 yards, 5 rounds at each. The first prize, Cup and \$20, was taken by W. Langstroth, 8th Cavalry, with a score of 42 points. Ensign Loggie (a native of Chatham) secured second place and \$11.41 points. Among the winners we find only one other Northumberland man, Sergt. A. Cameron of the 73rd Battalion, who won the 19th prize, \$2.00, making 31 points.

Second Competition, open to all comers. Ranges for Snider-Enfield, 600 and 800 yards, for small bore rifles, 7 rounds at each range. Lieut. Hart won the first prize, \$15, with a score of 56 points. Northern prize winners were Sergt. A. Hay, 7th Battery, Sergt. A. Cameron, the former making 41 points, the latter 38, each taking \$2.00.

Third Competition, open as in the first match. Ranges, 200, 500 and 700 yds., 7 rounds at each. The first prize, National silver medal and \$1.00, fell to the noted Capt. Bixby, St. George Infantry, who made 83 points. No. 7 Battery was represented among the winners, Gunner H. Pallen making 75 points, taking the 9th prize, \$4.00, the brother, Corp. J. Pallen, securing 16th prize, \$3.00, with a score of 63.

Fourth Competition, for Governor General's silver and bronze medals and \$120. Open as in first match. Ranges 200, 500 and 600 yards, 7 rounds at each range. First prize, silver medal and \$12, was won by Lieut. Worden, 8th Cavalry, 84 points; 2nd, bronze medal and \$10, Sergt. Hunter, N. B. E., 83 points; 17th, \$2.00, Sergt. A. Cameron, 73rd, 75 points; 24th, Ensign Loggie,

Reformed Episcopal Church.

The Rev. Wm. McGUIRE, of Chatham, R. E. Church, is about resigning his charge in connection with this Church, to take charge of St. Paul's Church, Detroit, the change being caused by the health of his family.

On Sunday afternoon last, the Rev. gentleman delivered a farewell address to the congregation, on the 3rd verse of the Epistle to St. Jude—'Containing earnestly for the faith once delivered to the Saints'—and 2nd Corinthians, 6th ch., 11th verse—'Wherefore come from among them, and be ye separate, and will I receive you, and ye shall be as my sons and daughters, saith the Lord Almighty.'

The Rev. gentleman commenced by saying that the Rev. Ep. Church was based upon the duty laid upon its founders by these passages of scripture. It was their solemn duty to stand by the faith once delivered to the Saints, and to retire from a system which upheld another Gospel. He wished to utter another statement made in regard to the Church of England, which he made during the delivery of a discourse at his late visitation of St. Mary's, in Chatham.

The substance of his statements was that the Rev. gentleman was the same as the Rev. of our fathers. In regard to the Prayer Book, Mr. McGuire said that there had been manifold and serious alterations in it since the time of our fathers—that it is the book of Edward the Sixth, of Hooper, Carpenter, Latimer and Ridley. Among these changes he specified—1st.—The substitution of the word 'God' for 'Jesus Christ' in the Creed and the Lord's Prayer. 2nd.—The substitution of the word 'God' for 'Jesus Christ' in the Creed and the Lord's Prayer.

3rd.—The substitution of the word 'God' for 'Jesus Christ' in the Creed and the Lord's Prayer.

The "Waverley."—Owing to the growing popularity of this Hotel under the management of its proprietor, and the increased travel since the opening of the Intercolonial, Mr. Stewart has found it necessary to enlarge the house, and is now making preparations to do so, the contract for which has been given to Mr. John B. Williston. Mr. M. L. Vall, of St. John, has been engaged to superintend some portions of the work.

The intention is to add two stories to the building, making four stories in all, when completed, the whole covered with a Mansard roof, surrounded by an ornamental cresting. The plans showing the Hotel in its finished state, and the work when the work is finished, the Waverley will present a very handsome appearance, second to no hotel in this Province, with the exception of the Victoria Hotel, St. John. The dormer windows, on the curve of the roof, will be finished with segment heads, brackets and dentils, the other work being in the same style.

The front entrance to be finished with paneled pilasters, bracket heads and dentils, the whole showing a rich and handsome design.

This enlargement will provide 16 additional bedrooms, and the Hotel will be finished in good style, with all the modern improvements requisite for the successful carrying on of a first class house.

A number of mechanics are now employed on the work, which it is expected will occupy between two and three months. The business of the house will go on as usual, and the Hotel will be ready to receive guests as soon as the work is completed.

Reform Economy.

How To Build Houses and Ignorance

THE PEOPLE'S PARLIAMENT.

It may not be generally known that

Mr. C. J. Brydges occupies for dining

and sleeping and sitting rooms, exactly

one third of the brick building

erected for the Railway offices at an

expense of \$15,000. These rooms are

let by Mr. Brydges two or three

times a year and for a day or two at a

time, but Reform Economy is such

that they must be kept exclusively for

his occupation and an addition made

to the building to supply accommodation

that would not be needed if these

rooms could be spared for the public

business. This addition is now being

erected at the rear of the building and

some people have been curious and

impudent enough to inquire whence

comes the money for the construction

of this extension, and how the dwell-

ings for Messrs. McNab and Luttrell

were paid for, as Parliament made

no appropriation for these objects.

These enquiries led us to seek out

the facts and as they are rather inter-

esting we propose to share the informa-

tion obtained with our readers, all of

whom will no doubt be glad to learn

how to build houses without money.

It appears that it is the custom of

the Stores Department of the Railway

in delivering supplies to any branch

of the service, to charge the goods at

at a higher price than was paid for

them. The object of this originally

was to make up the loss of the

commission, and to keep the accounts

square. But of course at the end of

the year the balance would be found

to be in the red, and the Stores De-

partment had made a considerable profit

on the goods received and delivered, and

in order to square the books this profit

must be accounted for. This was

done in Mr. Carvell's time (the dark

days of Conservative misrule), by

crediting back to each service a part

of the whole profit proportionate to

the supplies given to that service. By

this plan, of course, the actual ex-

penditure on each branch of the service

was shown. But this mode of doing

the business did not really square

the books, and the Stores De-

partment was still in the red. Now,

in building houses and offices out

of the funds, filling up holes which

they had dug a few years ago, and

other similar amusements. These

buildings are therefore being built

and paid for by the Stores De-

partment, and Parliament has nothing

to say about the matter.

It will readily be seen that under

this peculiar arrangement

The expenditure on track, locomotives

and other services will appear to

be larger than it really is.

That the Railway Superintendent

obtains sole control of a fund unlim-

ited in extent, so he can make the

percentage of profits whatever he desires.

That it gives him the power to ig-

nore the right of Parliament to deter-

mine the expenditure, and in fact gives

him an immense amount of public

money to use as he sees fit, so long as

the expenditure can on any pretext

be charged on the books against the

Stores Department.

We have not space to treat this

matter more at length at present, but

we cordially commend the subject to

the attention of our readers, and

in Parliament and particularly of the

Speaker—Editor of the Freeman and

M. P. for Gloucester—whose sincere

anxiety for railway grievances we are

always anxious to supply. We will

find the Brydges scheme by which a

Government is enabled to steal its

own money, a very interesting item

not profitable subject for prolonged

discussion.—*Moncton Times.*

The Methodist Church and Sabbath

Work on the Intercolonial.

At a meeting of the ministers as-

sembled in the Counties of Westmor-

land and Albert, on the 24th inst.,

five laymen of the Methodist Church,

from Point de Bate, Bay de Verte,

Shawville and Dorchester, held in the

Halifax has advantage with which

to offset the greater relative distance

from the wheat fields and farms of the

West.—*Halifax.*

KILLED BY A BULL.—In the begin-

ning of last week a bull belonging to

John Ryan, a farmer of Belleville,

Maine, strayed away, and turned up

on the farm of Isaac Porter, Little

Ridge. W. B. M. Ryan, having

learned where the animal was, went

to drive him home on Wednesday last,

and before starting on his return suc-

ceeded in tying the bull's head, and

one of his forelegs together with a

rope. At the St. Croix River he en-

countered a large bull, and the two

locked horns, and the smaller bull

loosened the bull to give him a chance

to swim across, when after crossing

and reaching the railway track the

larger bull turned on him, and gored

him shakily in the leg and side. Mr.

Ryan saved himself from immediate

death by climbing a tree, where he

remained till his shouting brought as-

sistance. He was conveyed home,

but as his bowels were protruding,

there were no hopes of his recovery.

He died the following day, and was

buried on Sunday last.—*St. Stephen*

Correspondence.

DEAR EDITORS:—

I have just been handed a slip cut

from your paper dated the thirty-first

inst., containing a letter from Mr. Burke

Archibald, in which he states that the

measurement made by me for the Ludlow

West Bridge, and the plan and specification

of the bridge, were 90 feet, and two low

6 feet. In reply I beg to say that I mea-

sured the river three times over, and made

the distance 270 feet from bank to bank,

from the ledge on the north shore to a

water line on the south. I then arranged for

an abutment on the north shore, and from

the rock 30 feet, and on the south side

an abutment of 43 feet running out in the

river and back on the land surface, and

approach, leaving a space between the two

abutments of 247 feet which I spanned

with—2 spans, of 116 feet each, and

pier of 15 feet. I now contend that had my

plan been carried out, there would have

been no change in the length of the

spans, and consequently in the size of the

truss timber, but I am credibly informed

for I have not visited the bridge since its

construction, that no abutment whatever

was built on the north side, and the

roadway as high as was designed by my

plan, was 12 feet from low water mark and

the structure now rests on the rock and my

design was three feet higher. Trusting

next time Mr. Burke Archibald goes into

print he will stick to facts, and hoping

in justice to myself you will give this

reply a place in your paper.

I have the honor to be,

Your most obedient servant,

W. B. MURRAY.

St. Mary's, York, 26th Aug., 1876.

Messrs. Editors:—

Am the Editor imposed upon by Police-

man's Cassidy of such a nature that he cannot

possibly fulfil. I have noticed last week more

drunkenness, more row, and the police

records show fewer arrests than for some

time previous. The other day a most dis-

graceful row took place on one of our most

public streets and Mr. Cassidy seemed to be

absent; the same evening another of a

similar nature occurred, and the Police

man's Cassidy was conspicuously absent.

It is said he was repairing his house, and

so on each day, and yet our Police-

man's Cassidy seems to be conspicuously

absent. The Police Committee at night time

can always be found on the arrival of the

Express Train at the Station, instead of

being on his duty. Cannot the Police Com-

mittee definitely define his duties, and

and we taxpayers are paying for the im-

position let at least obtain a little justice.

Mr. Cassidy has no right to be collector of

Dog Tax, or a general runner for Fisher's

back at the station.

L. B. F.
