CONSERVATIVES AT CARAQUET.

Messrs Hazen and Morrissy Address the Convention and a Public Meeting.

CANDIDATES CHOSEN.

Made Serious Charges Against the Government in the Matter of Stumpage Dues.

Caraget, Oct. 11—The convention called to choose candidates for the opposition was held yesterday. About twenty-six delegates were present from all parts of the county. These met in the afternoon and chose Messrs. A. J. H. Stewart, J. W. Dumas and A. J. Witzel as the standard bearers of the party. The names of Fred Young and D. T. Robichaud, editor of La Justice, were also submitted to the convention, and received a good vote on the first ballot.

A public meeting was held at 8 o'clock. An address was read to Mr. J. D. Hazen by A. J. Witzel on behalf of the delegates. When Mr. Hazen rose to reply he was greeted with loud applause. He began by thanking the electors of Gloucester for the splendid reception they had given him and expressed his pleasure in having the opportunity of visiting the prosperous village of Caraget and being among its Acadian population. He said that the reason the opposition was not very popular in the county at previous elections was that he and the organizers of the party had not visited the county. He regretted that Dr. Landry, one of his candidates for Kent, had found it impossible to be present. The two Acadian candidates for Kent, he said, are two men who would do honor to the Acadian people. Mr. Hazen made a general criticism of the present administration, laying stress on the enormous expenditure for the construction of the Central and International railways. In reference to the vacant portfolio that Premier Robinson is offering, he said that he is looking for a new colleague outside the legislature, which proves that there is not a man among his supporters in the house capable of being a minister. He also condemned the highway act. Messrs. Ferris, La-Billio and Premier Robinson, said the speaker, had declared in the house that the Act was most popular and was working satisfactorily, but the government now say that if they have another session, they will repeal the act, thus making a laughing stock of the public. Regarding the public debt Mr. Hazen said that twenty years ago the debt per capita was \$3.00 and now it was at \$26 per capita. The public debt exceeds eight millions. Mr. Hazen said that the present government thought they were ruling by right. Mr. Pugsley, while being now a federal minister, still had everything to say in the organization of the campaign and had taken upon himself the privilege of defending Mr. Robinson when the latter was attacked and had

"Very truly,
(Sgd.) James Beveridge."

The chairman said that he had met Mr. Beveridge on Thursday, and the latter had told him that he would endeavor to be present at next meeting.

W. A. Hickson claimed that, as meeting adjourned on Wednesday to hear Mr. Beveridge, and Mr. Beveridge did not think it worth while to come, therefore there was no further business before this meeting.

It was decided to continue the meeting.

Mayor Miller read a letter from Mr. Beveridge dated Sept. 10th, in which the latter asked for free site, of 20 to 30 acres with shore rights and boom privileges, free water up to 200,000 gallons a day, water rights on brooks running through site, and tax to be based upon present value of land for twenty years after mill was finished. In return he would erect a one-machine paper mill, to employ 60 persons. Would double mill's capacity as soon as possible. This proposition was different from one submitted by Board of Trade. Mr. Beveridge was asking too much.

Mr. Hickson—Mr. Beveridge was treating this meeting with contempt. He should not receive any further consideration. We all want industries, but let them be without bonuses.

D. Morrison, M. P. P.—He had never heard Mayor Miller's letter before. Messrs. Miller and Morrissy were appointed a committee to see about these things and get opinions on properties. The Board of Trade merely submitted these schemes to the ratepayers. Mayor Miller had seemed interested.

Mayor Miller—We didn't get opinions.

Mr. Morrison—He (Miller) had not reported to the Board of Trade. It was his bounden duty to do so. He would tell Messrs. Miller and Hickson that he (Morrison) was not prepared to vote for Mr. Beveridge's proposition. He had thought that to secure a pulp mill at an outlay of \$3,000 would be a good plan. Messrs. Miller and Hickson, last winter, wanted certain things stopped, he went to the Board of Trade and had the Board telegraph Frederickton to have them stopped. He was told that Mr. Hickson had stated that members of the Board of Trade were promoters for Mr. Beveridge. If Mr. Hickson was not satisfied he should come to Board of Trade to advocate his views. Town should take steps to find out at once just how much water could be supplied to any industry. He would vote against guaranteeing water. He rather approved of Mr. Hickson's motion of Wednesday, night, but wondered at his inconsistency in opposing a bonus with one breath and moving to give exemption with the next.

Mr. Hickson denied that he had insinuated anything against Board of Trade. He was not afraid of the competition of a new industry, and he had never compromised. He had always paid as high wages as anyone. By bringing capital into the town we benefit the community.

Mr. Morrison—I agree with you. Mr. Hickson—When he and Hon. A. Ritchie were aldermen he had voted in favor of a promoter who had promised to employ 200 men. But that party had not kept his agreement.

Mayor Miller—At a Board of Trade meeting Mr. Beveridge's letter had been read two or three times.

Mr. Morrison—I was not there.

Mayor Miller—Mr. Morrissy and he had seen the Misses Falconer. They were to answer the committee next day. He had not heard from them next day. He was out of town last Monday when Board of Trade met. He opposed calling public meeting before any definite plan was before them.

Ald. McMurdo—There had been lots of useless talk. No one knows where either we or the Board are at. Proposition should have been placed before Town Council, and then submitted to vote. Mr. Beveridge should have been here to-night.

John Lindon thought that perhaps enough water was wasted to run a pulp mill.

H. H. Stuart agreed with the resolution, adopted by the N. B. Union of Municipalities in St. John last February, condemning the granting of a bonus to any industry.

Not a pint of water was given to a common man, why give 200,000 gallons a day to a paper mill promoter? Not one foot of land was given to a common man coming into the town, why give 20 or 30 acres to a corporation? No workman was exempted from taxation, why exempt Mr. Beveridge for 20 years? 60 new workmen coming into town would doubtless benefit the community, although the first result would be an all round increase in house rent. Let us have all the industries we can get. Let us assist them as far as our finances will permit. But let nothing be given away for nothing. Let the town retain possession of all it invests in the mill. Why should the town build the mill and let Mr. Beveridge take all the profit? That would be poor policy.

Mr. Stuart then moved the following:—

"Resolved, That the meeting of the ratepayers of Newcastle declare itself in favor of helping Mr. James Beveridge build a paper mill here; that it request the Town Council to vote any sum up to \$5,000 for that purpose and endeavor to supply water for the operation of such mill; the town to reserve as stock the whole value of what assistance it renders the enterprise."

"And that in agreement entered into a penalty shall be provided for a sum to be fixed by Town Council to be paid to the Town in case of violation of the agreement by Mr. Beveridge."

The resolution failed to secure a majority of votes; and the only counter proposal now for Mr. Beveridge to consider is the resolution carried at Wednesday's meeting.

The chair was taken Monday night at 8.15 by E. A. McCurdy; Ald. C. J. Morrissy, secretary.

The following letter was read by the secretary:—

"Chatham, N. B., Oct. 12, 1907.

STORMY MEETING WEDNESDAY EVENING.

The Pulp Mill Proposition Submitted by Mr. Beveridge Pretty Well Thrashed out.

Suggestion That Town Retain as Stock What Money it Puts Into The Work.

The public meeting in the Town Hall on Wednesday evening, called by the president of the Board of Trade, was largely attended.

Mr. E. A. McCurdy, manager of the Royal Bank, was chosen chairman, and Ald. C. J. Morrissey secretary.

The chairman explained the object of the meeting and then read the following proposition from Mr. Beveridge:

"Free site, water up to 200,000 imperial gallons per twenty-four hours, water and train privileges, certain fixed assessment for twenty years, fire protection, right of water in brooks, if any running through property. He will employ sixty persons from January to December running night and day except Sundays and holidays."

W. A. Hickson being called upon said he would speak later. "You don't state anything about the proposition," said he; "you want information beforehand."

John Morrissey, M. P. P.—The Board of Trade have been dealing with this matter for some time. He would like to see them all discuss the proposition. The Board of Trade are only taxpayers. Some men do not take enough interest in our town to become members of the Board. He would like to see industries located here. He paid his taxes and likely paid more in proportion than some of our mill men. Other towns vote industries concessions, and we must do the same if we want to get them. He asked the people here to endorse 'what is proposed' as far as they had gone. The people are the bosses, and they will have to vote on this matter before this or any other proposition is final.

Mr. Hickson—What will these concessions cost?

Mr. Morrissey—About \$3,200. The question was, would they authorize the council to go ahead and make a proposition to Mr. Beveridge and then report to the people?

His Worship Mayor Miller was the next speaker. He was present as a citizen only. He was a member of the Board of Trade and Town Council. He was one of a committee of three appointed by the Board, and not yet to his knowledge had this committee met to prepare a report. There were several properties between the river and the Falconer land. What about the proprietors of those? It had been his special care to promote industries, but he was going to be cautious. Mr. Beveridge had come to him as Mayor, and in his office had said that he did not think he would need more than 200,000 gallons a day, and he had the money to build the mill. The town would have to supply the water, whether or not it would interfere with the town supply. When the town had bored before it had taken water from Mr. Creaghan's well Mr. Hennessy, who had been chairman of the Board of Trade for several years, was a very self-sacrificing man. What had cost him \$300

Indigestion

Stomach trouble is not a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop to the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Acting directly on the stomach nerves alone brought that success and favor to Dr. Shoop and his Restorative. With out that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, flatulency, bad breath and sour complexion, try Dr. Shoop's Restorative—Bottles of 1/2 doz. and see for yourself what it can and will do. We sell and cheerfully recommend.

Ritchie—More, more! But citizens would have to pay the bill. If Ritchie, who had been here forty years in business, should ask a bonus people would laugh at him. Would the townsmen ask him to assess himself to build up another industry? Labor men are tickled by promise of employment; but such concerns as Beveridge are of little value to towns.

Mr. Morrissey said that the Mayor Ald. Belyea and himself had been appointed a committee to see about options on the proposed site. The first day, Mr. Miller and he had seen about the lands, but could get nothing definite from Mr. Anderson about the boom privileges. The Mayor had called at his (Morrissey's) office and said he would call a public meeting, which should have been held two weeks ago. His Worship stated he went to St. John for information about these sites, when in fact he was going to St. John anyway, and he asked Miller to see the gentleman who held a mortgage on one of these properties. The Board of Trade had authorized him and the secretary to call this meeting. It was no more than right that every taxpayer should know what is being done in this matter. He had no personal interest in Mr. Beveridge. He wouldn't lose five minutes sleep if the people turned this industry down. We should submit this to the people and let them act. They should agree to give Mr. Beveridge concessions to the extent of \$5,000. It was worth this. Our workmen paid too much tax in proportion to what the moneyed people paid. Mr. Beveridge says there is plenty of water in the Falconer fields for him. No man at the Board is insane enough to give concessions which will interfere with our water supply. He advised the people to attend the Board of Trade meetings.

Mr. Hickson said that it was not a question of \$5,000. What Mr. Beveridge wanted was to get other people to take stock so that he would have a fat job.

Mayor Miller wished to make his position clear in the matter. If he had promised to call a public meeting, he had since learned enough to justify him in not calling it. Mr. Beveridge had stated in his office that if the town's water supply be endangered as the result of digging a well for him, it was up to the town to make the best of it. Furthermore, the Misses Falconer were not willing to sell. He was opposed to digging a well for Beveridge.

Ald. Morrissey—It is simply another well.

Mr. Miller—Ald. Morrissey stated some time ago that the Anderson factory was using 28,000 gallons of water per day, while Anderson says only 1,800. Who was right? Ald. Morrissey was authorized to put a meter on the factory two months ago.

Ald. Morrissey admitted he had made the statement; and said that he would put the meter on just as soon as it was repaired.

Mr. Morrissey blamed the Mayor for not reporting to the Board his reasons for changing his mind.

Moved by Mr. Hickson, seconded by Mr. Ritchie, that Mr. Beveridge be exempted from taxation on all improvements and capital used in business except value of lands for twenty years. Carried.

Moved by John Morrissey, seconded by Mayor Miller that the meeting adjourn until next Monday night. Carried.

At the eighteenth annual meeting of the I. C. R. Employees' Relief and Insurance Association, held at Moncton on the 10th, delegates were present from all sections of the road and the usual routine business was transacted. The question of improving the present system now in operation as regards the payment of district doctors was considered and it was decided to go further into the matter and report at a future meeting. The report of the pension committee appointed to look after the interests of the employees in connection with the creation of a pension fund was adopted. The cases of H. McTier, George Malcolm and J. A. Sims, all of Halifax, asking for special hospital treatment was considered. The case of W. J. Phalen, of Halifax, was referred back to the committee in that district for further enquiry. The standing committee was instructed to arrange to have a district doctor attend employees at Springhill Junction and vicinity. The following officers were elected: President, D. Pottinger; vice-president, Thomas Williams; auditor, William Brown. A resolution was passed thanking Mr. J. J. Wallace, past vice-president, for his long service in that office.

The Natural Cure For Rheumatism

"Fruit-a-tives" remove from the blood the poison which causes Rheumatism.

Rheumatism means poisoned blood. The kidneys, bowels and skin should rid the system of waste matter. If either of these vital organs become weakened or diseased, the body cannot throw off this waste fast enough.

One of these body poisons is UREA, which is eliminated both by the kidneys and skin. If the skin action is poor—if the kidneys are inflamed—urea stays in the system—is changed into uric acid—carried by the blood to the nerves and joints—and causes Rheumatism.

"Fruit-a-tives" cure Rheumatism because they eliminate urea, by increasing the action of bowels, kidneys and skin.

This is the only possible way in which Rheumatism can be cured to stay cured. And "Fruit-a-tives" is the only remedy in the world that completely eradicates the disease from the system.

"Fruit-a-tives" are fruit juices in which the natural medicinal action of fruit is many times increased by the process of combination.

Then tonics and antiseptics are added and the whole made into tablets, 50c a box—4 for \$2.00. At all dealers or from Fruit-a-tives Limited, Ottawa.

TO HAVE POWERFUL ICE-BREAKER

To Keep Northumberland Straits Open in Winter Time.

Ottawa, Oct. 10.—Hon. L. P. Brodeur, Minister of Marine and Fisheries, states that Canada is to have the strongest and most powerful ice breaker in the world. While in Europe, Mr. Brodeur went thoroughly into the question of ice-breakers. He looked at ice-smashers in Germany and Russia, and discussed with the leading authorities of Europe the question of constructing an ice-breaker which would penetrate the Northumberland Straits winter pack of ice. He said he found several firms on the other side who would undertake to build an ice-breaker and to guarantee that it would run regularly between P. E. I. and the mainland without being held by ice. Tenders will shortly be called for the construction of a boat of 6,000 horse-power capacity and a guarantee to keep running, no matter how thick the ice.

Under the speedy trials' act the Queen's County court at Gagetown last week, Judge Wilson tried Jas. W. White, a white man, and his wife, Celia, a dusky belle, on the charge of bigamy. The outcome of the trial was that the pair will reside at Dorchester penitentiary. Mr. Little for a term of five years and Mrs. Little for two years. Little is a man 60 years of age. Little is a son of the late Dr. Little, who resided at Jemseg, Queens County, where he was a pretty prominent man.

SYNOPSIS OF CANADIAN NORTH-WEST.

Homestead Regulations.

Any even numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency for the district in which the land is situated. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1). At least six months' residence upon and cultivation of the land in each year for three years.
(2). A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.
(3). If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father (or) mother.

(4). The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line, exclusive of the width of road allowances crossed in the measurement.

(5). A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the Agent for the district of such intention.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Deputy of the Minister of the Interior.

WORKING TO GET PARDON.

Collins Friends are Circulating Petition to be Presented Governor-General.

In a last effort to cheat the gallows, friends of Thomas F. Collins, the young Englishman under the sentence of death for the murder of Mary Ann Macaulay at New Ireland, Albert county, in August 1906, are now circulating a petition throughout Albert county with a view to having the death sentence commuted to one of life imprisonment. The petition is being largely signed and will be laid before the Governor in Council by Collins' attorneys, Messrs. H. A. McKeown, St. John, and Mr. Jas. Sheren, Moncton.

The petition, was started by those in the county who have taken an interest in the young Englishman ever since he was imprisoned charged with the terrible crime. He was sentenced to be hanged on November 15th. It being the second time he has been given the death sentence, the step now being taken is the only one left open. The decision of the last jury, so far as courts of law are concerned, was final and there were no grounds taken by counsel for a reserved crown case. The evidence against Collins was altogether circumstantial and this leads his friends to hope that the commutation may be granted, as has been done in other cases where the evidence was of a circumstantial nature. Awaiting his end in the county jail at Hopewell Cape, Collins still maintains that he is innocent of the crime.

\$100 REWARD, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

OBITUARY

RICHARD ATTRIDGE.

On Sunday, October 6th, Richard Attridge died at his home in Doaktown. His family were all at his bedside. In the Presbyterian church on that date the Sabbath School observed Children's Day, and the services were being conducted by Mr. Attridge, who was the Superintendent of the school and appeared in his usual good health. There was a good attendance at the service, which was going along very nicely, when the pastor, Rev. Mr. McDonald, observed that Mr. Attridge seemed to be suffering. Mr. McDonald went to him and Mr. Attridge told him he was suffering intense pain. He was assisted to the door by Dr. Weir, who was in the church, and one or two friends. He was suffering greatly but quite conscious. The doctor had him taken home and gave him the closest personal attention during the afternoon. On reaching home he was able to converse with his family, but after about an hour or two he passed into a comatose state from which he never revived.

Mr. Attridge was about 71 years of age, and leaves a family of two sons and three daughters. He has been a strong personality on the Miramichi for years. He has represented the parish at the council board, has been school trustee for years and superintendent of the Presbyterian Sunday School for 20 years or more. His life has been influential for good, and he was much respected. Mr. Attridge was twice married, his first wife was Miss Freese, of the Miramichi, and his second wife Miss Perley, of Chatham. Five children survive him.

His remains were laid away in the Presbyterian burying ground on Wednesday, the 9th inst.

WANT EXPORT DUTY ON PULP.

Canadian Paper Makers ask Premier Laurier to Introduce Legislation to That End.

Ottawa, Oct. 10.—The paper makers of Canada are applying to the government for legislation to preserve the supply of forest raw material for the manufacture of paper. A delegation of the leading paper and pulp makers of Ontario and Quebec waited on the Prime Minister and the Minister of Customs yesterday and asked that the exportation of pulpwood be prohibited. The following resolutions were presented:

"Whereas, it has been the policy of the federal government to encourage and promote manufacture within the bounds of the Dominion by duties sufficiently high to protect the home manufacture and by bounties to encourage the use of home raw material, and

"Whereas, the federal government has expended large amounts to promote agriculture and to encourage immigration from the Motherland of home raw material, and

"Whereas, we have within the bounds of Canada a natural product in spruce pulpwood capable of providing employment for a large number of our present people and for many who may come to find homes here, and

"Whereas, this wood is being grown in Canada and shipped as pulpwood to the United States to keep pulp and paper mills in that country running, and

"Whereas, our present natural advantages should make pulp and paper our greatest industry, and

"Whereas, the exporters are stripping the lands of wood, while those with permanent interests in the country are striving to conserve the forests, and

"Whereas, the crop of pulpwood is of very low growth, and the supply is already becoming inaccessible, and

"Whereas, the free export of pulpwood to the United States combined with the tariff against our pulp and paper favors the development of the paper industry in the United States rather than in Canada;

"Therefore, your petitioners humbly pray that the exportation of pulpwood be prohibited by the federal government."

The post office department has completed its statistics of the British mails coming into Canada by the Canadian steamers for the months of July and August, and the figures show a phenomenal increase. The total increase in the number of bags coming into Canada from Great Britain during the months of July and August, as compared with the corresponding figures of 1906, is 162 per cent. The number for the months of July and August, 1906, being 2,120 bags, while for the same months in 1907 there were 5,569.

NOT SO CERTAIN.

Several of the opposition papers are calling attention to the returns for the last election in Gloucester county, which show that the three defeated candidates polled almost as many votes as the three successful parties. They forget to mention that at the last election every man of the six candidates was a declared supporter of the government; and that, therefore, the electors voted for individuals only, not on the government and opposition policies. There was no political principle at stake then—whichever candidates won, the government was safe. The issue will be different when the men of Gloucester again go to the polls, and the result remains to be seen.

NAME THE PARTIES.

According to the correspondent who sent us the account of the Caraque convention which appears in another column, Mr. John Morrissey, M. P. P., intimated at that meeting that large amounts due to the province for stumpage had not been paid. This is a very serious matter and he who makes such charges should furnish the names of the parties who are not paying the full amount of their stumpage, the names of the government scalars who allow such proceedings to pass unreported, and the names of the particular members of the government or legislature who may have a hand in this matter. Vague and indefinite statements will not do in this case. If it is true the country wants proof. If untrue, the injured parties should be given a chance of clearing themselves. Let any such charges be specified. The country wants to know the facts. If graft exists, let it be brought before the light.

WHAT WILL BE DONE?

One man or corporation makes a million dollars by improper manipulation of a railroad franchise, or some other method known to high finance. Another man or corporation makes one dollar by selling a case of butter prints that are short in weight. There is a good deal of difference between a million dollars and one dollar, but is there any difference in moral significance between the two acts?

Complaints have been made to the Times that the New Brunswick creameries are selling short weight butter. It is charged that they do so to shut out competition of Quebec and Ontario makers, and that by selling short weight they can meet the western price and make a snug profit.

The Times yesterday investigated the matter, and the local samples of butter weighed all were short except the product of one creamery, and this one, a leading grocer states, had also been remonstrated with for selling short weight.

What is called a two pound print was found in most cases to be an ounce or more than an ounce short,

which would mean a difference of a cent per pound to the consumer. The grocer does not lose, since he merely acts as a middleman and makes his profit on the print, whatever its weight.

At the present price of butter the consumer would naturally prefer to have full weight, and not to pay at the rate of thirty-two cents per pound for wrapping paper.

We have lately heard a good deal about the price of milk, and the necessity for a higher price to save the producer from loss. Something more must be said on the latter question. Whose duty is it to see that goods are not sold short weight, and why is that duty not better performed?—St. John Evening Times, Oct. 11, 1907.

Wedding Bells.

Two weddings of more than local interest took place, one at Clifton, and the other at Salmon Beach, Gloucester Co., on Wednesday the 9th inst.

At three o'clock in the afternoon, Miss Pearl Ada, youngest daughter of Mr. Richard Knowles, Clifton, was married to Mr. Allan Buttimer, of Salmon Beach, in the presence of the immediate relatives. After lunch, the bride and groom, accompanied by a number of their friends, drove to their home at Salmon Beach, where a reception was held, and at eight o'clock, Miss Nettie Buttimer, sister of the newly married groom, was married, in the presence of a large number of guests, to Mr. Walter Peters of Canby. Numerous and valuable presents testified to the high esteem in which the respective brides were held. It is needless to say the brides looked charming and were most beautifully and becomingly attired. Miss Nettie Buttimer was the recipient of an address and of several pieces of parlor furniture from the congregation and friends of the Methodist church at Salmon Beach, in appreciation of her services as organist and showing the great regard in which she is held in the community. Rev. A. D. McCully of Bathurst, officiated at both marriages.

ANDERSON-TAYLOR.

The following concerning two popular natives of the Miramichi, appears in the Times of Orono, Maine:

The marriage of Walter T. Anderson, of Berlin, N. H., and Miss Sadie J. Taylor, of Orono, took place at the home of the bride on Wednesday evening, Sept. 25.—Rev. J. M. Brodie, pastor of the Congregational Church, officiating. The single ring service was used. The bride was gown in white and carried white carnations. She was attended by Miss Isabella Fletcher, who was also gown in white and carried pink carnations. The best man was a brother of the bride, George Taylor. Refreshments were served, Edward Jordan being the caterer for the occasion. There were many friends from Brewer and Bangor present. Mr. and Mrs. Anderson were the recipients of many valuable and costly presents.

REDBANK.

Redbank, Oct. 14.—Not seeing any notes from this place for some time I thought I would write a few.

We are having a few fine days now, and the people are taking advantage of them digging their potatoes, which are turning out very good in this part of the country. Miss Effie Matchett is spending a few days in Chelmsford.

Miss Maggie J. Matchett left last Wednesday for Lawrence, Mass., where she intends spending a few months.

We congratulate Mr. and Mrs. Fred McAllister on the arrival of a baby girl.

Miss Mary Mullin has returned home from Newcastle, where she has stayed a good while.

Hannah Nowlan intends spending a few days in Newcastle this week.

Bertha Matchett is the guest of Mrs. Fred McAllister.

Mrs. J. Nowlan and Mrs. A. Tozer spent Saturday in Strathadam, the guests of Mrs. Ed. Menzies.

WHITE MOOSE SHOT

IN YORK COUNTY.

T. U. Maxon, and J. Dudley Dow, sportsmen of Pokok, York county, have returned from a hunting trip on the head waters of Little Pokok, where they had the rare fortune to secure a white moose. The moose shot by Messrs. Maxon and Dow was only a fair sized one, his antlers measuring about 45 inches. It was reported by a party of local sportsmen that they had seen either the same one or another white moose last year about this time, probably the same one, as a white moose is a pretty rare thing.

Electors.

A very successful Liberal meeting was held in the Temperance Hall, South Nelson on Friday evening. Hon. J. P. Burchill was chairman, and he and Mr. W. S. Loggie, M. P., addressed the audience on the issues of the day, being enthusiastically received and listened to with attention.

Mr. Loggie spoke for almost an hour, reviewing the political situation thoroughly.

Mr. Burchill spoke on the duty devolved upon voters, and ended on the success of the Liberal administration.

BISHOP KINGDON

PASSES AWAY.

The Beloved Anglican Prelate
Died at his Home in Fton.
on Friday Night.

His Lordship the Right Reverend Holmworth Tully Kingdon, D.D., D. C. L., Church of England Bishop of the Diocese of Fredericton, died at 11.45 p. m. Friday evening, 11th instant. Bishop-Coadjutor Right Rev. Dr. Richardson succeeds him.

Bishop Kingdon was born in London, England, on April 16, 1835, of a noble family whose ancestry may be traced back as far as 1450. He graduated from Trinity College, Cambridge, in 1858; officiated in England until 1881, when he became Coadjutor Bishop of Fredericton in 1881, and later Bishop of that diocese.

Bishop Kingdon was married in 1890 to Mrs. G. M. Marsh. One child, a daughter, came from this union.

The late Bishop was a fine scholar. He had a fine library, and was himself the author of several works of merit.

MINERS RETURN TO WORK.

Halifax, Oct. 11.—The strike at the Springhill mines, which has involved 1,600 men, has lasted for nearly eleven weeks, and has cost the men in wages more than \$200,000, was to-night declared off by a joint meeting of the two P. W. A. lodges at Springhill, in which the miners are enrolled. They accept the award of the board of conciliation, subject to explanations made by Judge Graham, who was its chairman, on the award which at first they rejected. The strike began on August 1st.

still a strong hand in the management of public affairs. In concluding, Mr. Hazen paid an appreciative tribute to the ladies, and hoped that the county of Gloucester would send three of his supporters to the next parliament.

Mr. D. T. Robichaud, following, gave a review of the way in which our provincial transactions were carried out and the results. He dwelt at some length on the increase of the teachers' salaries which Mr. Hazen had promised to carry out. He referred to the intention of some of the prominent men of the government party to run the next election on Dominion party lines. He was strongly opposed to this policy. They could not put this into effect as some of the counties would elect Liberals as supporters of the opposition; it could not be made general and the electors of the county of Gloucester should not let themselves be duped by the perfidious schemes of the government. What shows that the government is not sincere in this is that nothing is mentioned of it but on the eve of the elections.

In 1903, although the contest was carried out on party lines, three conservatives were chosen and Mr. Tweedie was glad to accept them as his staunch supporters.

Mr. John Morrissey was the next speaker. He referred to some special transactions of the government, claiming that they had a most dishonest method of looking after the public affairs. He claimed the government is composed of grafters. He alleged that large amounts due to the province for stumpage were not collected, stating that while 490,000 feet of lumber was exported from this province, only \$130,000 was collected in stumpage. That was the regular stumpage on very little more than one million feet. He believed in alloting to monopolies only the tracts of land they needed and giving the rest to the young men of the country. He also denounced the new road act, which gave the privilege to the superintendents and their families only to work and keep the monies. He also referred to the wish of some of the supporters of the government to run the elections on party lines. He himself was a staunch Liberal but was a sincere supporter of Mr. Hazen's. As the hour was late the candidates said only a few words, promising to soon discuss political matters more fully. Votes of thanks were tendered Mr. Hazen, the ladies and Mr. C. C. Poirier, the chairman.

BUILT UP HER HEALTH**SPEDY CURE OF MISS ECOLLSON**

She is Made Well by Lydia E. Pinkham's Vegetable Compound, and Writes Gratefully to Mrs. Pinkham.

For the wonderful help that she has found Zula Ecollson, 6 Erie St., East, St. Thomas, Ont., believes it her duty to write the following letter for publication, in order that other women afflicted in

**Zula Ecollson**

the same way may be benefited as she was. She writes:

"I heartily recommend Lydia E. Pinkham's Vegetable Compound as a tonic and regulator for female troubles. I suffered for four years with displacement and no one but those who have experienced this dreadful agony can form any idea of the physical and mental suffering those endure who are thus afflicted. Your Vegetable Compound cured me. Within three months I was fully restored to health and strength and now my periods are regular and painless. What a blessing it is to obtain such relief when so many doctors fail to help you. Your medicine is better than any doctor or medicine I ever had."

No other medicine has such a record of cures of female troubles as has Lydia E. Pinkham's Vegetable Compound. Women who are troubled with painful or irregular periods, backache, bloating (or flatulence), displacement of organs, inflammation or ulceration can be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Her experience is very great, and she gives the benefit of it to all who stand in need of wise counsel. She is the daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge. Address, Lynn, Mass.

INDIANS HOLDING THEIR OWN.**Inspector West Says Births About Equal Number of Deaths.**

Edmonton, Alta., Oct. 9.—Inspector C. H. West, formerly of Regina, is in the city, from Lesser Slave Lake, where he has been stationed for the last seven years. Speaking of his work among the Indians, Dr. West said that he had charge of the Beaver Indians, Crees, Chippewans, Slaves, and other tribes. The Indians were just holding their own in point of numbers, the deaths each year being about equal to the births.

Speaking of the country in the Slave Lake and Peace River district Inspector West grew enthusiastic. He thought the Peace River country would be opened and settled before the Saskatchewan country. The crops in parts of Alberta were excellent this year and were harvested before the frost.

On Tuesday last week, Senator King and Mr. George McAvity, Commissioners of the Central Railway, conducted some fifty guests over the line from Norton to Minto, returning that night. On the way, the machine shops were visited, and at the Minto terminus, the coal mines were inspected. The visitors came away greatly impressed with the wealth of the Minto district, and the possibilities of the Central.

The following were the guests of the commissioners: Col. H. H. McLean, R. B. Kessen, E. M. Shadbolt, George Robertson, M. P. P., T. B. Blair, W. E. Foster, J. B. Cudlip, J. W. V. Lawlor, J. B. CUT THIS OUT AND SAVE IT.

There is so much Rheumatism here in our neighborhood now that the following advice:

Get from any good pharmacy one-half ounce Fluid Extract Dandelion, one ounce Compound Kagon, three ounces of Compound Syrup Sarsaparilla. Shake these well in a bottle and take a teaspoonful dose after each meal and at bedtime; also drink plenty of good water.

It is claimed that there are few victims of this dread and torturous disease who will fail to find ready relief in this simple home-made mixture, and in most cases a permanent cure is the result.

This simple receipt is said to strengthen and cleanse the eliminative tissues of the Kidneys, so that they can filter and strain from the blood and system the poisons acids and waste matter, which cause not only Rheumatism, but numerous other diseases. Every man or woman here who feels that their kidneys are not healthy and active, or who suffer from any urinary trouble whatever, should not hesitate to make up this mixture, as it is certain to do much good and may save you from much misery and suffering after a while.

Our home druggists say they will either supply the ingredients or mix the prescription ready to take if our readers ask them.

FARMERS' MEETINGS.

There will be New Brunswick Farmers' Institute meetings held at the following places:

ANTI-JAP RIOTER GIVEN SIX MONTHS.

Not an American But a Former British Soldier First Man Sentenced.

Vancouver, Oct. 9.—William Reed, formerly a British soldier, and the first of the nine rioters, was found guilty by the jury and sentenced to six months by Justice Clement. There was a crowded court room, but the case was featureless. In the court's view of the evidence, the parade had started out with the intention of becoming an unlawful assembly, but Reed had been caught throwing rocks through the windows. The element of American invaders as ringleaders in the riot was not brought out in the evidence. The defence was that Reed had suffered a sunstroke, was highly emotional and carried away by excitement.

THAW'S TRIAL SET FOR DECEMBER 2.

K. Thaw's second trial will begin on Dec. 2. This agreement was reached between District Attorney Jerome, Martin W. Littleton, counsel for Thaw, and Justice Dowling, of the Supreme Court. Mr. Littleton wanted the date fixed for Nov. 1 but Mr. Jerome opposed this and offered the date which was selected.

WHAT IS A BLENDED FLOUR?

Cooking schools and cooking experts have never grown so enthusiastic over any other flour, as they have over blended flour. And the enthusiasm is well merited.

What is a Blended Flour, you ask?

It is a blend, adopted for some time by most millers, consisting of Ontario fall wheat (which is sown in the autumn and reaped in the late summer), and Manitoba spring wheat (sown in the spring and harvested in the fall). The first is mellowed, and given a rich consistency and fine flavor by remaining all winter in the ground, maturing slowly during the summer months. Up in the Northwest they have several hours more sunshine every day in the summer than comes to most southern fields, and wheat matures quickly into hard, flinty grain, containing a large percentage of gluten. These two wheats, when blended scientifically in just the right proportion, make the most nutritious, finely flavored and successful flour that can be obtained.

Blended Flour is unreservedly recommended by those learned in culinary mysteries for both bread and pastry.

There is no doubt that the Blended Flour is the perfect flour.

Victoria County District Lodge I. O. G. T., voted at its last meeting to heartily endorse the actions of the New Brunswick Temperance Federation in requesting from the government of the province the introduction into the legislature and passage of a prohibitory law along the lines of the act now in force in Prince Edward Island, and believe that this should be made a test question at the next general election.

ASK LAND BONUS ONLY.

MacKenzie and Mann, representing Moose Mountain Co., who have big iron deposits north of Perry Sound, ask Toronto for 330 acres of land in Ashbridge's Marsh, to establish a smelter and allied industries to employ 15,000 men. Nothing but the gift of land is asked.

R. C. CHURCH BURNED.

Montreal, Oct. 13.—The Roman Catholic parish church at Cote St. Paul was destroyed by fire yesterday afternoon. How the fire was started no one knows. Smoke was seen issuing from the building, followed by flames, and when the firemen arrived it was found that more help was needed, and Montreal was called in, but even then the flames could not be checked. Nothing but smoking walls was left of the Church. The edifice was valued at \$80,000. It was insured for \$30,000.

"You Will Suffer all Your Life."**SAID ALL THE DOCTORS**

Half a dozen of the best physicians told Mr. Baker that he had Chronic Rheumatism, and would have it as long as he lived. One day Mr. Baker read in a paper of a man who had Rheumatism just like him—who had been told by doctors that his case was hopeless—and who had been completely cured by GIN PILLS.

The two cases were so much alike that Mr. Baker decided he would invest 50c in a box of GIN PILLS and give them a trial.

It was the best investment he ever made. Before the first box was taken, he felt better all over, so he got another. He took that and bought a third, getting better all the time.

Hinesville, May 8, 1906.
I have been greatly benefited by your Gin Pills, and all who have used them in this neighborhood speak very highly of them. One of my neighbors, Mr. X., who suffered for years with Rheumatism and who has spent hundreds of dollars with specialists without receiving the slightest benefit, was entirely cured by two boxes of Gin Pills. He is proclaiming their virtues from the house-tops.

Yours truly, D. L. BAKER.

We don't even ask you to buy Gin Pills—but to try them at our expense. Write us, mentioning this paper, and we will gladly send you a free sample of these wonderful Kidney Pills that cure Rheumatism. The Bole Drug Co., Winnipeg, Man.

Sold by all dealers—50c. a box, or 6 boxes for \$2.50—or sent on receipt of price.

C. GATES, Son & Co.,

Dear Sirs: I can highly recommend GATES' No 1 SYRUP for dyspepsia and indigestion, and also a great remedy, if not a positive cure, for piles, when they are induced by constipation.

I can also recommend your LIFE OF MAN BITTERS as a purifier of the blood, and speak from experience, as I have used your remedies in my family for many years.

Yours very truly,
C. W. SHORT

SAYS THIS IS BEST

A leading health journal in answering the question, "What is the best prescription to clean and purify the blood?" prints in a recent issue the following:

Fluid Extract Dandelion, one ounce; Compound Salts, one ounce; Compound Syrup Sarsaparilla, four ounces.

Shake well and use in teaspoonful doses after each meal and at bedtime. A well-known physician states that these are harmless vegetable ingredients, which can be obtained from any good prescription pharmacy. This mixture will clean the blood of all impurities. In just a few days the skin begins to clear of sores, boils and pimples. It puts vigor and energy into run-down debilitated men and women. For many years Sarsaparilla alone has been considered a good blood medicine. But while it built up and made new blood, the impurities remained within and by good accomplished was only temporary. Sarsaparilla, however, when used in combination with Compound Salts and Extract Dandelion, works wonders. This combination puts the kidneys to work to filter and sift out the waste matter, uric acid, and other impurities that cause disease. It makes you clean and relieves rheumatism and other ailments and blood-poisoning.

OBITUARY.

JAMES MCCARTHY.

Mr. James McCarthy, a well known and highly respected citizen of Newcastle, passed away on Sunday morning, 13th inst. Mr. McCarthy was in his fifty-sixth year, and was born at New Bandon, coming here twenty years ago. He was married eighteen years ago to Miss Mary Dunn of Newcastle; and his death is the first break in their family. He is survived by his widow and one daughter, Miss Mary, at home. Mr. McCarthy was a mason by trade. He worked ten years for D. & J. Ritchie, and two years on the I. C. R., until he had to give up work on account of illness. Cancer was the cause of death. He was a kind husband, loving father, good citizen and devout Christian. Funeral took place yesterday morning at St. Mary's church, Rev. Father Maguire officiating.

THEOPHILUS J. DESBRISAY.

Mr. Theophilus J. Desbrisay died at his home here on Saturday, 12th inst., aged sixty years. Deceased had suffered some time from paralysis. He was a prominent and much respected member of the Church of England and of the Free Mason fraternity. Born in Richibucto he removed to Chatham in the early seventies, and came to Newcastle to reside only a few weeks ago. The funeral services were conducted by Rev. F. M. Bacon on Monday afternoon, interment taking place in St. Paul's Cemetery, Bushville. Besides his widow, who was Miss Mary Richardson of Richibucto, deceased left five children—Mrs. Clarence B. Stevens, Amherst, N. S.; Miss Ethel May; Lestock George of the I. C. R.; Arthur St. Croix, of the Royal Bank of Canada, and Harold, the last four all residing with their mother in Newcastle.

MRS. J. H. S. SWEET.

The following is from the Victoria Daily Colonist:—"The death took place at the Royal Jubilee hospital Sunday morning, Sept. 22 of Mrs. Sweet, wife of Rev. J. H. S. Sweet, Rector of St. James' Anglican church. She had been ill only a few days and her death was a great surprise, not only to the members of the church, but also to a large circle of other friends throughout the city. The late Mrs. Sweet was a daughter of the Rev. W. R. Vial, and a native of England, but lived for a number of years in Quebec, coming to Victoria from Newcastle, N. B., where her husband had been engaged in church work. She is survived by her husband, one son, John Sweet, barrister of Vancouver; and two daughters, Misses Violet and Mildred, the former being a member of the staff of the South Park school. Interment took place in Victoria."

Rev. Mr. Sweet was once pastor of St. Andrew's church here. During her stay in Newcastle, Mrs. Sweet endeared herself to the congregation by her beautiful Christian character. She was a lady of more than usual intellectual powers, and of considerable literary talent. Her bereaved husband and children have the heartfelt sympathy of the Miramichi friends. St. Andrew's congregation have forwarded a letter of condolence to Rev. Mr. Sweet.

GOOD PLAYS IN

THE OPERA HOUSE.

The Stoddart Stock Co. gave a first-rate show on Monday night, when they played "Only a Country Girl." The Opera House was nearly filled. The leading parts, taken by Mr. W. L. Stewart and Miss Leah Stoddart, were very well acted, and the whole company gave good support. The specialties were excellent, and kept the audience in the best of humor. The company will be here to-night and to-morrow night, putting on new entertainments each night. Last evening the play was "A Soldier's Sweetheart," which was up to the usual high standard. To-night, "The Girl of the Golden West," will be played here for the first time. Thursday, "The Counterfeiters" will be presented.

Messrs. A. W. Rogers, formerly, Mass.; C. B. McKenny, Turner, Mass.; C. B. McKenny, Turner, Me.; and C. A. Hubbard, of Porton, are hunting big game on the Dungarvon stream. They have C. H. Beck as guide and are prepared for a successful trip. These gentlemen had a very successful hunt on the Dungarvon during the last hunting season.

At the public meeting of the Teachers' Institute in the Opera House, on the 24th instant, Master Harrison Gough will be presented with the Lieutenant-Governor's medal which he won in the High School entrance examinations in June.

Miss Mary O'Shea spent Sunday with her brother at Redbank. Dr. McCully, Oculist and Aurist, may be consulted at the Adams House, Chatham, Wednesday and Thursday, Oct. 23rd and 24th. No. 22-23.
