### THE SURRENDER AT DEWETS JORP

Painful Impression in Great Britain.

The Press Makes No Attempt to Conceal the Irritation Caused by the Action of the French Deputies.

London, Nov. 30 .- The disaster at Dewetsdorp caused an unpleasant sensation throughout Great Britain. The censorship continues so strict that there is no hope of arriving at a clear conception of the actual position of affairs in South Africa. For instance, independent accounts of the subsequent proceedings and the recapture of Dewetsdomp give ample details, not omitting to announce the capture of two Boer wagons and a quantity of loot; but there is not the slightest mention of the surrender of 400 British troops and two guns, which were not even disabled, inasmuch as the Boers were able to use them against the British relief forces. The "ubiquitous Dewet" seems again to have gotten away, and so far there is no news that the captured British have been liberated.

ADVERSE COMBINATION. Taking into consideration the enigmatheal military situation north of the Orange River, the smouldering rebelfion in Cape Colony, the rumors that France has promised Mr. Kruger to press arbitration on England if he is able to obtain the support of Germany, and that Lord Kitchener after all is not to be given the chief command in South Africa, the British government will meet the new parliament next week at an exceedingly inopportune

### FRENCH SYMPATHY WITH KRU-

No attempt is made to conceal the extreme irritation felt at the adoption of a vote of sympthy with Mr. Kruger by the French Chamber of Deputies. The morning papers are unanimous in declaring that no intervention of any kind will be allowed to change British policy.

M'ARTIAL LAW PROPOSED. The Daily Mail publishes an interview with Mr. Zietsman, a Loyalist member of the Cape Assembly, who is now in England, as a delegate of the vigilance committee. Mr. Zietsman admits the gravity of the situation. but says he does not fear a general rising, although he thinks it may be necessary to send thiops into most! disaffected districts, Graef Reinet, Stellenbosch, Worcester and Parri, where mob riots are likely to occur. tie advocates the proclamation of martial law and expresses the opinion that "the only thing which prevents a rising is the tack of arms and ammunition."

DOUBLY UNFORTUNATE. The Morning Post, reviewing situation, says: "The surrender at Dewetsdorp looks still worse in the light of the suggestion that probably half the towns we have garrisoned in the territories of the republic are in no better situations to resist attack." The Standard describes the disaster "depliorable, unaccountable, and, at the present juncture, doubly unfortunate."

A GARRISON RELIEVED. Vryburg, Cape Colony, Nov. 30.-The garrison of Schweizer-Reueke has been relieved by a column of troops sent from here. The beleaguering Boers resisted, but were driven off.

KRUGER'S PLANS UNKNOWN. The Boer sympathizers at The Hague are generally disappointed and dissatisfied that Mr. Kruger has changed his plans, says the New York Herald's dispatch from Antwerp. Some persons think that the Dutch Government itself has been instru-Mr. Kruger are unknown,

The hopes I then expressed have been amply fulfilled. ### Reception of the Canadians

AT SOUTHAMPTON.

London, Nov. 29.-The weather was wretched and depressing when three companies of Canada's first contingent under Col. Otter landed at Southampton this morning, says a dispatch from that place. As the Hawarden Castle neared the quay side the crowd cheered vociferously. The cheers were redoubled when the Canadians were recognized aft with an officer waving the regimental colors. Volleys of questions were shouted ashore. The contingent looked remarkably fit and well, their general physique being the subject of general comment, though seen side by side with some of the

flower of the British army. The colonel said the behavior of the Canadians had been excellent during the twelve months' campaigning, especially considering that 90 per cent of them had never before been under fire. "The hardest fighting was at Paardeberg. 'Bobs' had given final judgment as to the behavior of the Canadians in action there."

A happy idea, and one which pleased the men greatly, was the presentation of maple leaves, forwarded through Capt. Vaux, by Canadian ladies, to be worn as souvenirs. Among the heaps of telegrams was one reading: "Loving welcome greetings to every Canadian on board, from Canadian mothers and daughters. Well done, Canada." Coll. Otter and the other officers are profuse in expressions of gratification at the warm welcome ex-tended to the Canadians by the people of the mother country.

A CONTINUOUS OVATION.

Another London cable says: Lord Stratheona, Canadian high commissioner, headed a deputation of prominent people that assembled this morning to greet the officers and men of the Royal Canadian Regiment, on their arrival in this city from Southampton, where they landed a few hours before from the Hawarden Castle, fresh from South Africa. NOTABLES WELCOME THE SOL-

DIERS. Among those who accompanied Lord Strateona and welcomed in hearty British style his fellow-countrymen, who have won the admiration of the mother country for their deeds of mental in keeping him away from Holland until the enthusiasm shall calm.

London, Nov. 30 .- Her majesty, and crowd had assembled at the station dressing the Household Cavalry as cheered the Canadians as they stepalong with these notables, and loudly ped from the train. The regiment formed in parade order, and marched through the streets to Kensington Barracks, and was tendered ovations all along the route, which was crowded with citizens. At the barracks the colonel read to his men the Duke of Connaught's letter of welcome. Gen. Trotter also heartily welcomed the contingent in a brief but stirring speech. All the officers and men looked exceedingly well. Lieut. -Col. Buchan, Capt. Mason and Lieut. Temple especially. They were all greatly pleased with their reception.

### THE HEARTIEST. Still another cable dispatch says:

The heartiest welcome awaited the Canadians this afternoon on reaching Addison road station from Southampton. General Trotter, commanding the home army, headed the group of staff officers and others present, including Lord Onslow, representing the colonial office, and Lord and Lady Strathcona, Col. Lake and Col. Mac-Kinnon, of the City Imperials, and Chaptain Moyd, of the Queen's Own Rifles. As the train entered the station the band of the Scots Guards played the national anthem. crowds outside the station, who had been waiting for several hours, cheered enthusiastically. The cheers were renewed as Col. Otter, Col. Buchan, Capts. Fiset, McDonald, Burstall, Lawless, Mason and Almond, and Lieuts. Swift, Calliwell, Lafferty, Temple, Carpenter and the 280 men alighted. The men were drawn up on the platform, and were inspected by the staff

officers and Lord Strathcoma. Along the crowded streets, and headed by the band of the Scots Guards and the Coldstream Guards, the Canadians marched to Kensington Barracks, meeting with the warmest reception en route. At the barracks they were formally received by the Duke of Abercorn, Lord Grey and others, on behalf of the reception committee. The Canadians leave for Liverpool on Dec. 10.

THE BOYS WELL PLEASED. The Canadians were interviewed at Kensington Barracks. They express great pleasure at their reception, which was all the more remarkable, as the Guards arrived at the same hour at a different station, which tended to divert public attention. The Duke of Connaught's message of welcome is especially appreciated, also Gen. Trotter's cordial recognition of the value of Canadian services from a military standpoint. The accommodation at the barracks is comfortable. The officers amusement parks. In England, early quartered in Kensington Palace pecially, they have lately been instal-Hotel. The composite regiment of the

Household Cavary also returned on the Hawarden Castle. The troopers' rival in London was marked by the scenes of enthusiasm which have so often been rehearsed in the metropolis during the past year. Great crowds awaited the cavalrymen and the cheering was lusty and long throughout their march to the quarters. Paddington, where they detrained, was ablaze with color, as were the streets along the route. Several regimental bands added to the general gaiety, and the throngs sang "God Save the Queen" in chorus. A portion of the Household Cavalry detachment proceeded to Windsor, where they were received at the railroad station by the mayor and corpora-

Officer in Charge of German Column in China Is Dead.

Cold Weather in the Far East-Hostile Natives Resort to Sniping.

Berlin, Nov. 20 .- A special dispatch from Pekin to the Tageblatt announces that Col. Yorck, commander of a German column, who was reported to be at the point of death in consequence of inhaling fumes from a stove in his bedroom, died Nov. 27, at Hivaivai. His body will arrive in Pekin today. Field Marshal Count Von Waldersee will bring in Yorck's column.

UNITED STATES TROOPS LEAVE. Tien Tsin, Nov. 28.-The 15th United States Infantry has departed for Tong Ku, where it will embark for Manila.

HOSTILE NATIVES. It is reported that cold weather is driving the hostile natives into outlying villages, where there is much restlessness. Scouting parties constantly out re-port sniping along the Pekin road and

on remote trails, but severe reprisals are lessening it.

THE RUSSIANS SUITED. St. Petersburg, Nov. 29.-The announcement from London that the powers had yielded to the American view concerning capital punishment and indemnities, has made a good impression here. United States Minister Tower has transmitted the note of the United States, but it is understood be has not received an answer. In fact,

it is said, the note does not require a formal reply.

UNITED STATES POLICY. London, Nov. 30.-The Times, dealing editorially with the China problem, says: "It seems superfluous for the United States government to flout its own plentpotentiary where there was not the least probability that he would have any opportunity of signing an agreement. The action of the Wash-Ington administration is chiefly interesting because it was expected that after the presidential election a more definite and a stronger line would be adopted. It may, however, be argued, that the United States only publishes, and does not create, the differences

which undoubtedly exist among the European powers."

GERMAN OPINIONS. The Berlin papers resume their criticism of the course of the United States government, based upon the latest news from Washington. The Berliner Neustchrichen says: "The United Neustchrichen says: "The United States, with Russia, is China's chief defender." The Lokal Anzieger says:
"Renewed evidence of the separate
policy of the United States." The Freissigne Zeltung infers from Ambassador White's visit to the foreign office and Dr. Von Holleben's call upon President McKinley and Secretary Hay, that serious differences of opinion exist between the United States

### and Germany." ST. ANDREW'S IN LONDON

Manufacturers' Association Wants the Personaity Tax Abolished.

Toronto, Nov. 30 .- President P. W. Ellis, of the Canadian Manufacturers' Association, yesterday presented a memorial to the assessment commission on behalf of the manufacturers football game from the roof of a glass of the province, after careful inquiry manufactory, shows fourteen names. from men all over Ontario. The memorial gives as its most important lapsed. The injured now being cared from men all over Ontario. The mepoint the "practically unanimous expression of manufacturers that the present system of assessment of personalty is unfair and unjust, and that its enforcement would be destructive Rekfelt, 21 years; Wm. Valencia, 18 to the industries of the province."

The memorial states that only the practical non-enforcement of the law enables manufacturers to build their factories in the big municipalities. The association asks that the personalty tax be abolished, and that in its place a business tax be levied, based on the rental value of the premises occupied. 15 years. If such a tax is imposed, the association asks that it will be obligatory on all municipalities, so as to secure uniformity of taxation for manufacturers in various parts of the province. The memorial asks that the power of municipalities to grant exemption from taxation to manufacturers be continued so long as present conditions remain, especially if the taxation of personalty is not abolished at the close of the sion were adjourned sine die, owing to the fact that the judicial members have to attend the court of appeal.

### IF THE LIVER IS DERANGED

There Is Fallow Complexion, Full ness About the Lt mach and Pains in the Shoulders and Back -Dr. Chases Kidney-Liver P.lls Act Promptly and Directly on the

Liver.

By a careful consideration of the following symptoms you can decide for yourself if your liver is torpid or inactive. The liver is the largest organ connected with the digestive system, and as a filterer of bile from the blood is to a very large extent responsible for the health of the whole body. A sense of fullness and oppression

about the stomach, a pale, sallow complexion and pain in the shoulders and back are among the first indications of a disordered liver.

Then there comes indigestion, wind the stomach, headache, coated tongue, a bitter taste in the mouth, depression of spirits and despondency. The bowels become irregular, and constipation and looseness alternate. The bile left in the blood by an inactive liver poisons the blood and causes liver spots, blotches and pimples.

So great is the influence of the liver

over the health of other organs that physicians have called the liver the governor or controller of the body. The prescription from which Dr. Chase's Kidney-Liver Pills are prepar-

ed was perfected by the doctor in his immense practice, and has proven the greatest liver regulator ever discovered. It acts directly and promptly on the liver, making it active and vigorous as a filtering organ. At the same time it regulates and tones up the kidneys and bowels and sets the whole filtering and excretory system in healthy working order.

Notwithstanding the fame of Dr. Chase's Kidney-Liver Pills throughout this continent, you will never fully realize and appreciate their value until you have actually used them, and only then can you fully understand why they have such an enormous sale.

In these days of experimenting with all sorts of new, untried remedies, appliances and treatments, it is a comfort and pleasure to know that you can turn to this prescription of Dr. A. W. Chase and find in it a safe and certain cure for the many dangerous and complicated disorders of the liver, kidneys and bowels. ### A MISTAKE

AS TO TIME

How the Date for Restoration of Peace Is Delayed.

British Garrison at Dewetsdorp Captured by Boers-British Reoccupy the Position-Gen. Delarey in a Tight Place.

Cape Town, Nov. 30 .- In the course of his address to the refugees' committee on Tuesday, Sir Alfred Milner admitted that there had been a general miscalculation as to the time when peace would be restored. Guerilla operations intended to inflict the maximum of injuries upon the victors were causing delay, and he finally pointed out that those fit and willing to render military service could hasten their own return and that of the other refugees by joining the volunteers in the

RAIDERS ARE BOLD. London, Nov. 30 .- A dispatch, dated Co.esourg, Cape Colony, Nov. 29, says: Boer rangers have reached the Orange haver. They have fired into the British camp, on the Cape Colomy side, at Sandritt, killing one man and wounding two others.

CHASING THE ENEMY. London, Nov. 29.-Lord Roberts calbles the war office from Johannesburg, Nov. 28, that Col. Plumer drove 500 Boers from Dewagen Drift, killing three, on Nov. 23. Colonel Campbell carried the Boers' main position at Tigerskloof. The British had a lieutenant killed and a major severely wounded, and one man killed and two

wounded. DELAREY SHUT IN

A dispatch from Johannesburg, undated, of the 25th, says that Gen. Deharey, with a command of 800 men, attacked Gen. Clements on Friday, northwest of Krugersdorp. The Boers brought a gun into position on the hills during the night and began shelling the British camp at 3 o'clock in the morning. After an hour's firing the British guns silenced the single one used by the Boers. Severe fighting followed, in which the Boers suffered heavily. The British buried 25 burghers and took twenty prisoners. Delary found himself in a difficult position, and asked for an armistice for 24 hours. This Gen. Clement's agreed to, but at 3 o'clock on Saturday afternoon the Boers resumed firing. It is reported Delarey is surrounded, and It is impossible for him to escape.

CAPTURED PROVISIONS. Pretoria, Nov. 29.—Co.s. Plumer and Hickman, during Gen. French's operations at Klip Riversburg, captured three wagons loaded with provisions that were identified as being part of the supplies that were distributed by the British for the relief of the Boer inhabitants of Johannesburg.

PLUCKY CANADIANS. Gen. Smith-Dorrien's column returned to Belfast after a five days' march from Bullstroom. They had only one casualty. On the return journey the Canadians, while scouting, rode close to an ambush pre-pared by the Boers. Realizing their position they sprang from their horses, turned them loose and sent them galloping back to the column. then sought cover on a slight They ridge and poured a hot and accurate

Mr. Pethick has written for the December Century a vivid account of an incident of the siege which involved the legationers in imminent peril, from which they were rescued, not without some loss of life, mainly through the skill and courage of Herbert G. Squiers, first secretary of the United States Legation, an exarmy officer of tried ability. As a re-sult of this service, Mr. Squiers was appointed chief of staff to Major Sir Claude Macdonald, the British minister, who commanded the forces of defense.

Sudden Death of Mrs. George Thempson-Demise of Mrs. Ann Evans.

Advertiser Agent, J. D. Meekison.

Struthrey, Nov. 30 .- The death occurred very suddenly on Sunday evening last of Mrs. George Thompson. Deceased had been in good health and had attended church both morning and evening. After the evening service, she decided upon calting at Mr. Jas. Chalmers' to view the remains of the late Mrs. Ann Evans. When she reached the corner of High and Princess streets she experienced a terrible suffocating feeling. She was taken into the residence of Mr. Cuddy. Dr. A. Thompson was speedily summoned, but was unable to do anything effective, and she passed quietly away. Deceased was the eldest daughter of the late Andrew and Mary Lee. She was born in Argyllshire, Scotland, in 1845. In 1859 the family came to Canada, and settled in Strathroy. Some time after she married Mr. George Rapley, of the fourth line, Adellande, who some five years after their marriage. In 1874, she was united by marriage to Mr. George Thompson. Besides her husband five children survive her: Mrs. H. Thompson and Mrs. T. Pearce, of Strathroy; Mr. George Rapley, of Orillia, and Scobie, Andrew, and Lee Thompson at home. By her death St. Andrew's Church loses one of its most active workers. The funeral took place Wednesday and was largely attended.

### SAN FRANCISCO Fifty Injured

DISASTER IN

By the Crashing in of a Roof Where People Were Watching a Football Game.

San Francisco, Nov. 30 .- By the collapse of the roof of the San Francisco glass works at Fifteenth and Bryant streets, this afternoon, nine people were killed and about 50 more or less injured. They were watching a football game between the Stanford and University of California teams, when the roof beneath them gave way, precipitating them to the floor of the factony. Some of them fell upon the furnaces, and one man of unknown identity was burned almost to a crisp. At the time of the accident there was but one doctor on duty at the hospital, and he was totally unable to attend to cases as they came in. A summons was sent out immediately, calling upon doctors in the neighborhood to come

to render assistance. RIGHT OVER THE FURNACE. The crowd was gathered upon the roof of the building directly over the furnace of the glass works. When the roof collapsed the occupants were precapitated upon the heated top and rolled off. Fully 40 were seriously injured. Seven of the dead are woys, ranging in age from 10 to 15 years. They were found lying in a row, and many of them were badly mangled.

200 ON THE ROOF.

There were more than 200 people on the roof when it collapsed. Those fortunate enough to be on a side section of the building hurried down and helped remove the injured. The heat around the furnace was so great, however, that to many no assistance could be rendered, and they slowly roasted to death.

20,000 PEOPLE NEAR BY. Not 200 yards away were 20,000 people watching the football game, and when the news became known there was untense excitement among them. The ushers went through the crowd

calling for doctors, and many surgeons

hurriedly left the game. The Southern Pacific Hospital, with-in two blocks of the scene, was soon overcrowded, and many of the wounded had to be turned away. They were burried to St. Luke's, the receiving hospital and near-by drug stores.

The coroner did not have enough wagons to remove the dead, and they were taken away in express wagons. Many private carriages were waiting outside of the football grounds, and these were pressed into service to take away the wounded. It is reported that one man, Joseph

body incinerated. WARNING WAS TOO LATE. The manager of the glass works realized the danger before the accident occurred, and sent for the police to compel the crowd to leave. Just as a squad of six officers arrived the roof went

### ABOUT HEART DISEASE.

Ninety Per Cent of It Really Caused From Poor Digsstion.

Real organic heart trouble is incurable, but scarcely one case in hundred is organic.

The action of the heart and stomach are both controlled by the same great nerves, the sympathetic and pneumogastric, and when the stomach fails to properly digest the food and it lies in the stomach fermenting, gases are formed which distend the organs, causing pressure on the heart and lungs, causing palpitation, irregularity and shortness of breath.

The danger from this condition is that, the continued disturbonce of the heart sooner or later may cause real organic heart trouble, and in fact frequently does so.

Furthermore, poor digestion makes the blood thin and watery and defi-cient in red corpuscles, and this further irritates and weakens the heart. The most sensible thing to do for heart trouble is to insure the digestion

and assimulation of the food. This can be done by the regular use after meals of some safe, pleasant and effective digestive preparation, like Stuart's Dyspepsia Tablets, which may be found at most drug stores and which contain the necessary digestive elements in a pleasant, convenient

Thousands of people keep well and vigorous by keeping their digestion perfect by observing the rule of taking one or two of these tablets after each meal, or at least after each hearty

Stuart's Dyspepsia Tablets contain U. S. P. pepsin, diastase from malt and other natural digestives which act only on the food, digesting it perfectly and preventing acidity, gases, and the many diseased conditions which accompany a weak stomach

When Stuart's Dyspepsia Tablets are used you may know you are not taking into the system any strong med-icine or powerful drug but simply the natural digestive elements which every

weak stomach lacks. So widely known and popular have these tablets become that they are now sold in the United States, Canada and Great Britain.

The French Government Decline to Discuss the Transvaal Question.

ASHANTEE CAMPAIGN ENDED. London, Nov. 20.—The following dispatch has been received from Col. Wilcocks, commander of the British troops at Coomassie, Ashantee, dated Nov. 24: "The campaign is ended. The troops in excess of the garrison will leave here in a few days."

SYMPATHY BUT NO SHEKELS. Paris. Nov. 30.-In the chamber of deputies yesterday M. Cochery, acting president of that body, announced that M. Denys Cochin (Conservative) had presented an interpellation as to the intention of the government regarding arbitration in favor of the Boers. The minister of foreign affairs, M. Delcasse, replied that there was no use in oper ag a debate on this subject, as in for an policy, especially, such dis-cussions were useless and often dan-

At M. Cochery's request, M. Denys Cochin, withdrew his interpellation, and proposed the following motion: "The chamber of deputies, on the occasion of the arrival of the President of the Transvaal in France, is happy to address to him a sincere expression of its respectful sympathy." The motion was adopted unanimously, and the 559 voters cheered when the result was an-

### As Sized Up in England.

Old country newspapers of repute have sized up the result of the Canadian general elections, which seem to have caused more than usual interest in the motherland. The London Daily News, for example, discusses the rerult more especially in its relation to the attitude of parties with regard to the war in South Africa. "In the case of Canada," suys this representative English journal, "Liberalism was secure against attack, because Sir Wilfrid Laurier had promptly and unreservedly put himself at the head of the national sentiment, which, having recognized the justice of the British cause in South Africa, was eager to take its share in defending it. The Parliament of Canada had early in the day passed a remarkable series of resolutions, declaring, on the strength of Canadian expressions, its adherence to the principle of the British policy In the Transvaul. It is a remarkable fact, which Liferals nearer home would do well to ponder, that no more eloquent statements of the justice of the British case have been made than by the French-Canadian who is Prime Minister of the Dominion, and who has now received an overwhelming vote of thanks from the electorate."

Let the unprejudiced reader ponder this declaration, and the further truth that the Canadian Government, of all the Governments of the Battish Empire, was the only Administration that sent contingents to help the motherland in her struggle for fair play and freedom in South Africa without first consulting Partiament. The culting of Parliament, and obtaining from the representatives of the people the mandute to send the men, and spend the money, was the constitutional course, but the Laurier Government did not lose time by pursuing that course; it simply ascertained une trend of public opinion and acted. No other Government of Canada had ever gone to the aid of the Empire by sending a contingent, fully equipped, to aid her in the hour of need.

prompted the London Daily News to pay the above well-merited tribute to the worth of Sir Wilfrid Laurier, which is indorsed by such thoroughgoing imperial journals as the London Spectator and the Pall Mail Gazette. The tast-named shows that the disillusioning of the British public has been very rapid since Sir Charles Tupper was wont, with considerable success, to impress them with the idea that his party was the only really loyal body in Canada. Says the Pall Mall Gazette:

"There was a time when it was supposed that the Conservatives were the most zealous supporters of this policy (a loyal achesion of the Dominion to imperial interests). The contrary has proved the case, as was proved when the most practical test was applied. Wilfrid Laurier inaugurated that system of differential duties favorable to British imports into Canada which has proved so beneficial to both the countries concerned. He had intimated his desire to extend that policy so far as is consistent with the idea of protection to nutive industries aimost universally held in the Dominion."

Even the London Standard, the chief exponent of the British Conservatives, sees through it all. "The flactious polkey of Sir Charles Tupper," asserts the Standard, "has had its own unnatural and certainly just reward in the loss of his seat at Cape Breton, his first defeat in all his political ca-

The united testimony of the leading journals of all shades of politics in Great Britain is certainly a strong rebuke to the Canadian Opp sition leaders who endeavored to prejudice the Liberal party in the eyes of Englishspeaking electors by condemning Sir Wilfrid for not moving fast enough, and tried to stir up strife and gain votes among the French speaking population by contending that the Prime Minister should be condemned for sending troops at all. The defeat of the Opposition leaders, almost without exception, and the triumph of the Liberals by as large a majority as that which sustained them in the last Parliament, is the answer of the electorate to this most unfair and unpatriotic method of campaigning.

Sugar Beet Culture in Oniar o. The Peterboro Examiner voices the general impression when it says that the belief exists in agricultural circles that legislation of some sort to encourage the growing of sugar beets may find a place among the Government's measures next session. The manufacture of beet sugar is a flour-Ishing industry in the State of Michigan, and there does not seem to be any good reason why similar operasugar beet fectory has been establish- ducers to raise and put on the mar-

### Our Municipal Policy-VII.

7. The health and cleanliness of the city to be maintained and improved. A systematic scavenger system to take regularly all house refuse from all central portions of the city.

Disease comes suddenly, and we seldom know where it comes from. A prominent medical man fears now an epilemic of diphtheria. What would the cause of such an epidemic be? A couple of months ago we had many cases of typhoid fever, and have some cases yet. It does not appear to attack the weak, and one is at a loss to know why it selects its victims. Anyone can point out strong, healthy men

who have been victims of this disease. London is a healthy city, but London as a city, and every individual in it, will reach the best results in health by adopting all the precautionary means in their power, and by observing all the rules, the simple rules of health, as far as they can. It is the duty of those charged with the management of public affairs to attend to this on behalf of the public.

Nearly every city of any size and prominence has a .scavenger system-Toronto, Hamilton and like cities-and why not London? In some parts the need of this is badly felt. We have heard of many houses where they go to the trouble of burning up all the refuse. How much safer for health if that refuse were regularly taken away by the city carts. In Chicago there are boxes placed in the backyards, into which the refuse is thrown, cause or another, merely stayed at and it is regularly collected and dis- home, and are dangerously liable to of the city. Large portions of it may next time, be of use. It is a suggestion that could not cost much in the trial, and one which, if once introduced, would never

be abandoned. A systematic scavenger system is a part of the work of public cleanliness Church Missionary Association held that should be attended to; and if our water system and our sewer system are also improved, then we may look for less sickness and fewer deaths from any of the causes produced by uncleanness. We know that in pointing out these facts, we are hable to be told we have good water. So we have, and we ought to be thankful for it. We are liable, also, to be told that London's bill of health compares favorably with that of any other city. We say that is no answer. London has no right to have any removable cause of disease in existence. The want of a scavenger system can be remedied; the existence of vile sewers can be remedied, and so with any other existing evil. What we point out is that it is the

duty of our municipal rulers to do all they can do to keep down and remove all causes of sickness and death in the city which may fairly be attributed to public causes, such as sewers, garbage or the like. If they do there will be fewer fever and diphtheria cases in our hospitals.

### This Winter's Farmers' Institutes.

Mr. G. C. Creelman, superintendent of farmers' institutes, has just completed arrangements for the holding of over 700 meetings during the coming months of December, January and February. All the delegates who have been apointed to address the various institute meetings are practical men, who have studied closely the subjects they are advertised to dis-

Besides the regular topics there are three special subjects that will receive attention this winter, and the following instructions have been issued to the delegates by the superintendent:

"Last winter, at the request of the Provincial Minister of Agriculture, the 'Bacon Hog' was discussed at all of our meetings. The wisdom of this course is already manifesting itself. A better class of hogs are being offered for sale this fall than ever before. The registrar of live stock for the province states that for the first time the bacon breeds lead in the number of thoroughbred animals registered, and we are receiving inquirles from all parts of the province in reference to the breeding, feeding and tions could not be successfully carried finishing of this class of animals. I am arranging for a series of special poultry meetings in connection with our regular and supplementary meetings, but the number of farmers who will attend these district meetings must of neccessity be limited, and I request that you acquaint yourself with what has been done and what is being done in this country to promote this industry. Special instruction on poultry matters will also be furnished at the Winter Fair, and you will there obtain practical hints and information that should be useful to you in your winter meetings."

The Toronto Telegram points out to any over-sanguine Ontario Conservatives that the recent vote in this province, while less than the Liberals looked for, "does not exactly indicate the strength of the Conservative party in the same province." It thinks that some Liberals, from one posed of, so as not to harm the health turn up all right in the Liberal ranks

The Huron Auxiliary of the Canadian its annual meeting last night in St. James' school room, South London. The Bishop of Huron presided and the opening services were conducted by the rector, Ven. Archdeacon Davis. The annual report, which was read by the secretary, Rev. G. B. Sage, stated that two massionaries, Rev. E. W. Crawford and Mr. Harry Watson, had gone from the diocese this year, and another, Dr. Walter Crawford, will soon go to England to equip himself as a medical missionary and oldain British degrees. At the end of that period his services will be placed at the disposal of this auxiliary. The receipts and expenditures of the C. C. M. A. will in future be included in those of the D. and F. M. S., and the foreign work of the association will be adequately set forth in the Epiphany appeal. Treasurer J. K. H. Pope reported recelipts for the year of \$2,379 11, an increase of \$622. A resolution of sympathy for Rev. Mr. Westgate, who is working in South Africa under great difficulties, was adopted. During the evening addresses were

delivered by Bishop Baldwin, Rev.

"Is your mamma cross? Mine is awful cross! Does your mamma say Hush!' when you laugh or make a little bit of a noise? My mamma does.

She has nerves, papa says." The mother who overheard this account of herself would feel heart-broken to think of the shadow cast by her misery on those she loved. Yet her condition is Her nerves are strained to the point of torture. Lack of appetite and loss of sleep increase her weakness.

Such a condition may, in general be traced to disease of the delicate womanly organism, a cure for which is found in use of Dr. Pierce's Favorite Prescription. It establishes regularity, heals inflammation and ulceration and cures female weakness. It tranquilizes the nerves, encourages the appetite and in-

### WEAK LUNGS NEED CONSTANT CARE.

The Slightest Cough or Cold should be Promptly Treated by Dr. Wood's Norway Pine Syrup.

There are many people who have weak lungs and need to be constantly on their guard. The arch enemy of the raceconsumption-is ever ready to pounce upon those who neglect coughs and colds, and claim them as its victims. Those who catch cold easily should never put off treating a cough in its first stages by the use of Dr. Wood's Norway Pine Syrup. It will not only cure the cough quickly, but the healing balsamic properties of the pine it contains will strengthen the lungs

and help them to resist cold. Miss Grace Lynch, Blackville, N. B., writes: "I have been troubled with coughs, colds and weakness of the lungs for a long time and could get no relief until I took Dr. Wood's Norway Pine Syrup which soon made a complete cure

### THE ATTORNEY-GENERAL SPEAKS

Final Decision Given in the Municipal Election Matter.

Aldermen To Be Elected by General Vote-Highest Men to Constitute Council.

The judgment of Attorney Gibson upon the meaning of the municipal act has been received by Mayor Rumball. His answer to the questions of the mayor and city solicitor was delayed by his departure from Toronto almost immediately afterwards. As soon as he returned he wrote: "I am of the view that the number of aldermen to be elected continues the same as hitherto, that the aldermen are not to be elected by wards or for wards, but by the general vote of the electors quali-fied to vote at municipal elections, each elector having the right to vote for the whole number in the wards in which he possesses the necessary qualifica-tions. This might result in all the elected candidates coming from one ward or the general distribution of them, as the came may be. That, I take it, was the idea of giving the municipalities the option of taking advantage of the system. Apparently the names of the candidates for mayoralty go on each of the ballot papers, thus affording a strong temptation to repeating, though, of course, there only the one vote for mayoralty.

### FARCICAL CONCERT

London Times So Styles the Union of the Powers in China-Treasurer to Lose His Head.

Tien Tsin, Nov. 30 .- Tung Wen Huan, provincial treasurer of Chi Li, who was sentenced to death by the international military tilibunal at Pae Ting Fu, is being brought here to be publicly beheaded by the city government executioner. This is the request of Hao Ting Fu military authorities.

A FARCICAL CONCERT. London, Nov. 30 .- Dr. Morrison, wiring to the Times from Pekin yesterday, says: "M. De Giers (Russian minister), who has previously assented to all the terms of the conjoint note, incouding the death penalty clause, has now intimated to the Chinese envoys that Russia will insiste either upon the revision of the death penalty clause, substituting the provision that the guilly shall be punished by the Chinese in a manner acceptable to the powers or that the terms of the note shall not be irrevocable, but may be modified by

negotiations with the Chinese envoys. Russia has thus again proclaimed how farcical is the so-called concert. The Chinese envoys are kept well informed regarding the discussions and disputes of the ministers at their meetings. So indunate, indeed, are the re-lations of Li Hung Chang with the Russians that there is no reason why he should not be invited to attend the conferences of the ministers. Japan requires that the note be amended by stipulating that China will erect a monument to the murdered Sugiyama, her chancellor of legations."

### TURKEY AND UNCLE SAM

May Soon Settle Their Little Dispute

Quietly.

London, Nov. 30 .- Nothing in regard to the United States battleship is coming direct from Smyrna. The authorities there are evidently censoring the dispatches.

Constantinople, Thursday, Nov. 29 .-The opinion is expressed in diplomatic circles that the American claims arising from the Armenian massacre "may now be reguled as practically settled. as an irade providing for the building of a cruiser in the United States is officially promulgated." The question of the consulate at

Harpoot remains open, the porte persisting in its refusal to grant an exe-quatur to Dr. Thomas K. Norton. MRS. MAYBRICK'S CASE.

New York, Nov. 30 .- Renewed efforts in the interest of Mrs. Florence Maybrick will be made by Ambassador Choate, in accordance with instructions given by Secretary Hay, says a Herald dispatch from Washington. Additional evidence, showing that Mr. May brick was addicted to the use of the drug from which he died has been gathered and forwarded to Ambassa-

dor Choate for presentation to the Right Hon. C. T. Ritchie. London, Nov. 30.—The officials of the United States embassy say they have not received any instructions in regard ot taking further steps for the release from Woking prison of Mrs. Florence Maybrick, who is undergoing imprisonment for life after being convicted in 1889 of poisoning her husband with

London, Nov. 30.-A Reuter dispatch from Constantinople says it is suggested that Russia is prompting the porte to refuse to grant an exequatur to Dr. Norton. The dispatch adds: "It is an open secret that they dislike the foreign consuls in Asia Minor, especially the Americans, whom they suspect of aiding the American mission work in Armenia."

THE WINNIPEG LIQUOR LAW .. Winnipeg, Nov. 30 .- Mr. H. M. Powell. Q.C., has been requested by the judges of the court of Queen's bench to look into the question of the rights of the Hudson Bay Company in regard to the liquor act and the case submitted to the court by the provincial government, and to assist the court in finding out what the position and rights of the company are. At the re-cuest of the government Mr. Mulock, Q.C., will appear in support of the

TROUBLE IN TEXAS.

San Antonio, Texas, Nov. 30.—One man killed and five others wounded, one fatally, is the result of a clash last night between the union and the nonunion forces in the telephone strike in-augurated here on Nov. 3. The dead: Wm. Lacey, policeman; wounded: O. D. Blanton, striker, will die; Martin Wright, president of the Electrical Workers' Union, shot in the left arm; Sandy Smith, employe of telephone company, two others, names unknown. Smith did all the shooting. In company with other employes of the company he started out to repair broken wires. The men had police protection. Smith started to clamb a pole. crowd of men surrounded him, and began throwing stones, after which he ran into the Robinson stables to escape the crowd. The latter followed, and the fight was continued in the stables. Shortly afterwards came the shots. Smith and one of the strikers were placed in jail.

PRICKED HIS FINGER AND DIED. Boston, Mass., Nov. 30 .- J. TO MARK NIAGARA'S CHANNEL. Washington, Nov. 30.—Early in the last session of congress, Congressman Alexander was asked to have the west channel of the Niagara River marked with targets or beacons, to be located on Canadian territory, and along the west side of Grand Island. Before action could be taken it was necessary to receive the consent of the Canadian Government. Mr. Alexander obtained this right. The work is to be done early in the spring, and at the outset the spar-buoys will be used. Should these prove insufficient, however, cargets or beacons will be considered.

LAPLAND FOR THE LAPLANDERS Chicago, Nov. 30 .- Four Laplanders, survivors of a party of fifteen who left their native land three years ago, with 500 reindeer, which the United States Government desired to test in Alaska, passed through Chicago, en route home. Through an interpreter, Jacob Lett said that the government's experiment with the reindeer had been unsuccessful for several reasons. He

The country did not suit either us or the reindeer. It was cold enough, but it was different in other ways. The deer did not get the same things to eat that they did in Lapland, and they did not get the same treatment. I do not know why the country proved so unhealthy for the Laplanders. Anyhow, it killed the most of our party.

### THE ST. OLAF WRECK

Searchers Find the Body of One Victim-Wreckage Washed Ashore.

Quebec, Que., Nov. 30.-The schooner Marie Josephine reached here from Seven Islands, the scene of the wreck of the steamer St. Olaf, yesterday

morning.
The search party worked for two days with thirt ymen and fifteen dogs to recover the passengers and the St. s crew, but, as already reported, without success. When the schooner left Seven Islands four men had been left on Boule Island in case any of the passengers or crew had possibly survived. The ruins of the St. Olaf were strewn all along the beach, and there is nothing but the captain's cabin, which could not be carried by an ordinary man for any distance. Among the articles found were a tan leather pocketbook, containing \$21. a new pair of gloves, some stockings, shirts, pipes, a box of preserves, two compasses, and other small articles. No coats were found, showing that probably the crew and passengers, finding the water cold, had put on all

their clothing.

The only body recovered was that of Marie Page, a girl of between 15 and 18 years of age. She had a black waist on, over which was fastened a life-preserver, and the clothing on her lower extremities had been almost completely torn off by the rocks. She was lying on the beach, half in and half out of the water, and was frozen

Blood was found on the snow, from about twelve feet above the water line and the bush, but this might have been the blood of sea birds which had been beaten against the rocks by the wind. as many of them were found dead by the searchers. The snow was from two and a half to three feet deep on the beach, and in the woods, where it had fallen without drifting, it was twelve inches deep. The captain of the Marie Josephine says that from the morning of the day of the disaster the snow and wind were terrible. Toronto, Nov. 30 .- The work of sav-

ing the schooner Augusta, which is on the rocks opposite Port Credit, is becoming more difficult than was at first expected. Capt. Ure of the wrecked Augusta, and Capt. Quinn of the Jessie Drum-

mond, and the owners of the vessels. have forwarded to the government a complaint that the foghorn on island was not sounded last Saturday night during the snowstorm, in which both vessels missed the harbor-

### Amusements.

It is only a few weeks ago that Lord Roberts, at his headquarters in Pretoria, gave the British Biograph Company's operator an opportunity of securing a splendid view of himself and staff at work at the former capital of the Transvaul. This spiendid picture, together with many other new stenes in South Africa, including the unfurling of the mag at Bloemfontein, and the latest developments in the war, are to be presented by the biograph at the opera house on Thursday, Friday and Saturday, Dec. 6, 7, and 8, afternoon and evening. The views presented by the biograph are enunely disunct from other pictures seen here, and are all new They include views of the return of the Canadian troops at Hallifax, and by special request three of the famous Pope Leo views will also be given. Mr. Owen A. Smily, the well known enter-tainer, will add to the enjoyment.

THOSE STOLEN BILLS.

Windsor, Out., Nov. 30.-F. H. Baines, who was manager of the Napanee branch or the Dominion Bank when it was robbed of \$10,000 in unsigned notes in 1897, said the \$10 Dominion Bank bills circulated in Windsor, were stolen from the Napanee Bank, and the fictitious name of G. Sills," has been forged. "No such person," said he, "has ever been connected with out bank. Matheis and Simpson likely got the bills through a third party. Mr. Baines went to Sandwich jail and took a look at the prisoners. He will return to Toronto, and come back to Windsor for the trial, Dec. 4. Yesterday Matheis and Simpson were measured and photographed for identification in other cities.'

### PARALYSIS CURABLE.

Stricken Ones To Be Seen Everywhere -This Form of Living Death Cured by Dodd's Kidney Pills.

The most startling example of human he plessness is the paralytic. The victim excites your commiseration, but resents your pity.

He of the palsied hand stiffly press-

ing the benumbed side is to be seen everywhere we go. The most convincing proof that this dtiable condition is the outcome of kidney disease is the fact that Dodd's Kidmey Pills cure it. Not generally recognized as a kidney

disease, it succumbs to kidney treat-Did you ever know of a cure? Just think a moment! If you do it must have been the work of Dodd's Kidney Pills, for no other

### An Up-to-Date Concern.

A collar or a cuff is an insignificant erticle, unless, of course, you happen to have none ready for a party, for instance, when they have an awful importance, but a person would be surpaised to see the marvellously intricate machinery that is now used to put these little bits of wearing apparel in the nice condition that is always desired. No institution in Canada affords a better illiastration of this than the Partsian Laundry Company, whose excellent work has become so enormously popular here. Not in London alone, but in Toronto, Hamilton, and all over Western Ontario, is this so, and it is interesting indeed to watch the evolution from the somed goods to the clean, starched garment. A shirt comes into the great receiving room, is marked carefully, then washed, starched and dried, dampened again and passed on to the ironing machine. Six of these are used on each shirt, one for the ouff, another for the bosom, the yoke and sleeve, the body and neckband. All other goods, too, go through similar elaborate treatment before evolving as the crisply-cleaned article. New machines are being contimually added, such as a five-ton mangling and ironing machine for flat work, a steam-heated machine for putting on the dull finish, and one heated by gas for the glossy finish. The firm is strictly up-to-date in its methods and apparatus, and the amount of its work may be judged by the fact that three bookkeepers are employed all the year round, and eight delivery rigs are used.

### BASEBALL.

FLYS. Pitcher Rusie is out of the game for good. It is understood that he will write a book on baseball. In addition to leading the National League with the bat, Wagner really leads the outfielders. Barry, of Boswho is placed at the head, played

only 23 games in the outfield, while Wagner played 117. President Hart stands ready to pay the \$1,000 for Hartzell to the Indianapolis club as soon as the yellow-haired outfielder signs a contract to play

with the Orphans. Henry W. Putnam, well known in sporting circles all over New England, died at the Salem (Mass.) hospital on Nov. 27. Mr. Putnam was best known as a baseball manager, having had charge of clubs in Massachussets and Pennsylvania.

Reviewed by Her Majesty, Queen For Coal. Victoria.

Her Majesty Thanks the Brave Fellows for the Splendid Service They Have Rendered the Empire-Were Photographed at the Queen's Request.

London, Nov. 30 .- The members of the Royal Canadian Regiment, who have just returned from South Africa, were enthusiastically received by the people of Windsor this morning. The soldiers then proceeded to the castle, and were reviewed by the Queen in the quadrangle.

Her majesty, addressing the Canadians, thanked them for the immense services they had rendered to the empire. The officers were then presented individually, after which

[Special to Advertiser per C. P. R.] Ottawa, Ont., Nov. 30 .- A cable was received today from Col. Otter, stating that the Canadian troops got most enthusiastic receptions in England and that they intend sailing for Canada by the Lake Champlain (Elder-Dempster Line) on Dec. 11.

" HE IS BRAVE "

A Boer Fighter's Opinion of the Canadian as a Soldier.

Buffalo, Nov. 3 .- Among the guests at the Hotel Broozel, this city, is Christian Dordman, a Boer refugee, en route to Texas, where he expects to make his future home. Although of Boer ancestry, Dordman is a British subject, and might be treated as a rebel and shot to death. For that reason he is in the United States, having been rendered unfit for further military service by reason of bullet wounds received while serving un-

der Dewet. He praises the Canadian troops, and says that the colonial, unlike the re-gular British soldier, who will march right up the hill to sure death, will locate sure death and outflank it. "He is brave, and you want to look out that he does not make a fool of you, and of sure death, too," said

Lord Fielden was in no way daunt-

ed by the darkness of the night. If the

stars had been shining, the woman, let

her have been whom she might, would

never have ventured, through the park.

The darkness had favored her, it would

also favor him in finding her. He

thought that the best thing to do first

was to go down to the lodge and see if any person had been noticed there.

The people at the todge had seen no

strange woman had passed through the

gates-in fact, no person could pass

through their without their knowledge,

nor and they believe that it was like-

ly any person could get into the park by the other entrances.

Lord Fieden's suspicions increased.

The woman had evidently gained ac-

More than an hour passed, and he was no nearer the object of his search.

He felt inclined at last to go indoors.

Once more he stood so still that he

could almost hear his heart beating.

Surely there was a sound at last-

grass, the crackling of underwood. Yes, he was right! The footstips came

nearer. He stopped for a moment to think how he could best capture the

trespasser. If he crossed the grove, she could hear him, and again hide in the darkness—this time perhaps in such a way that he could not find her. He began noiselessly to retrace

his steps, only pausing now and then to listen if the other stealthy foot-

steps failtered.

He reached the end of the grove and

stood waiting. He was brave and fear-less as a lion, but there was a queer

sensation at his heart as the stranger drew nearer and nearer.

The footsteps grew more distinct now that the grove was passed, and

presently they sounded quite close to him. He put out his hands and they

grasped a woman's garments. The wo-

man stopped with a faint, low cry.
"Who are you?" he exclaimed; but

there was no answer; it was too dark

to see. He only knew that he clutched

a tall figure that seemed frozen with fear. There was silence for a minute, and then the woman struggled violent-

and then the woman struggled violently to free herself, all without a word.

"You shall not go," cried Lord Fielden, "until you have told me who you are, and what is your business here, and then I will let you go."

A Romance.

Lord Fielden was listening intently. "Did she speak to you, Gertrude?"

"No-only a few words. I think she said, 'I am quite well.'" "Did you notice her voice; any pe-

culiarity in it?" he asked. "No, I cannot say that I did. But you see, Harry, it was no fancy. Was it, broad staincase. She stopped half-way, fielden?" Lady Fielden?"

"No, my dear, I begin to think not. Harry, you had better take a couple of men out with you and search the grounds. I feel uneasy." 'I will go first mysen," he said, and

But he found no one. Clos window, however, there was a broken spray of passion flower and some rose leaves, as though some one had pulled aside the branches in order to look in. That was the only suspicious circumstance. Then the butler and two footmen accompanied Lord Fielden through the grounds. Mme. St. Ange, from her hiding-place among the ferns, saw the reflection of the light that they car-

ried, but they failed to discover her. Harry was grave and thoughtful that evening. Lady Fielden said that there was no cause for any anxiety; evi-dently it was a woman who had some idea of begging from them, and who

was curtous to see the inmates.
So the household retired to rest, and a little anxious and more on the alert than usual. The rumor that a woman had made her way through the park and had been found looking in at the dining-room window had somewhat startled the servants, but no one was seriously alarmed. Lord Fielden was the only one who could not rest. idea had entered his mind. Who could be rude and abrupt to the beautiful and kindly girl? Who would come and kindly girl? Who would come creeping up to the house and run such a risk as standing by the window, unless it was some one whose interest it was to watch Gertrude, and who had a keen curiosity to see her? ### LARGE SHIPMENT OF HOLIDAY PCULTRY

\*\*\***\*\*\*** 

Ten Carloads of Turkeys Will Be Sent to England From This City.

On Tuesday next a shipment of ten carloads of turkeys, the largest ever sent out of this city, will leave the London Cold Storage Company's establishment for England, there to be disposed of for the Christmas trade. The shipment will comprise 30,000 turkeys, while 6,000 chickens will also be sent at the same time. The shipment is being made by Mr. A. J. King, the first Canadian to ship plucked birds to the markets of the old country. Mr. King and his staff have been engaged in the work connected with the present shipment for over a month, and have gathered the birds from all parts of the country. Yesterday three car-loads of birds came down from Lucknow, and were unloaded at the cold storage siding. Many of the turkeys, probably one-half, will go to England with their plumage on, Mr. King having found that in parts of the old land there is sale only for unplucked birds. Plucked or unplucked, the turkeys are packed into cases, averaging fifteen to a case. They are assorted according to weight, and hens and cocks are put up separately. The plucked birds have all their feathers removed save on the hip bones, and are each wrapped in parchment paper. At the cold storage the birds are kept in a room some 20° below freezing. The price paid for these 30,000 birds was 6½ cents, live weight, and 71/2 cents dressed, delivered. Mr. King says farmers should begin feeding in September. He believes that the export trade in poultry will increase enormously in the next few years. London is the center of an ideal poultry-raising section, and has every facility for the work.

### Chicago Marine Band.

The Auditorium was crowded to the entrance last night at the concert given by the famous Chicago Marine Band, under the conductorship of T. P. Brocke, who has done so much to bring the band to its present state of excellence. The afternoon concert was also well attended. The programmes at both concert were made up mainly of essentially light and popular selections. At the evening concert the first movement from Schubert's "Unfinished Symphony" was rendered with a skill and sweetness that made it easily the choicest number on the programme, while the mozaic from "Carmen," and Mr. Simon's trombone solo of his own composition, "La Capniccio," were also highly enjoyable.

# The Necessity Of a Change.

It is necessary for the welfare of our being, in order to preserve our health, that we should have an occasional change.

A change of dress is as essential as a change of climate.

Means are required to accomplish either.

In the matter of dress, Fit-Reform disposes of this question, as it gives to the consumer two suits at the cost of one as offered by the merchant tailor, and thus answers one of nature's demands.

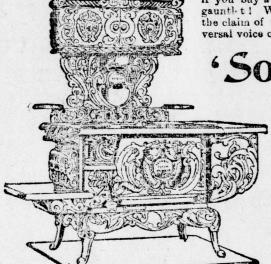

We invite inspection at our health resort.

The lighter pieces were inspiringly rendered. Miss Harriet Dement Packard's soprano solo, "Love's Dream," and her encore, were pleasant interpolations in the programme. At the afternoon concert the band's rendition of the ever-popular "William Teil" overture completely charmed the audience, while the balance of the programme was given in a most pleasure-imparting style.

A PILL FOR GENEROUS EATERS There are many persons of healthy appetite and poor digestion who, after a hearty meal, are subject to much suffering.
