

A Terrific Gale

Sweeps Along the Coast of Great Britain. Many Vessels Driven Ashore by the Storm. Parts of Russia Buried Under Five Feet of Snow.

A Tough Draft of the Home Rule Bill Before the British Cabinet - Mr. Gladstone's Estimate for His Contingency - Tennyson - The Hawaiian Ministry - Gusted by a Want of Confidence Vote.

The Hawaiian Cabinet Canceled. HONOLULU, Oct. 27.—The Hawaiian Cabinet was ousted Oct. 17, on a vote of want of confidence by the Legislature.

A \$3,000 Suit. DUBLIN, Oct. 27.—The Court of Queen's Bench has issued a writ of execution against Wm. O'Brien for \$3,000, the amount of a judgment given against him in a libel suit.

Russian Threats. ST. PETERSBURG, Oct. 27.—The Novoye Vremya threatens that France and Russia will retaliate if the German Government persists in advertising its Military Bill after it is disapproved by the Reichstag.

Five Feet of Snow! ST. PETERSBURG, Oct. 27.—A very heavy snow storm has been prevailing in Russia, and in many places the ground is covered to the depth of five feet. Railway traffic has been interrupted in every direction.

Europeans in the Dohme Army. PARIS, Oct. 27.—A dispatch from Lagos says: Several Europeans have been observed in the Dohme Army, Col. Dohme, the French commander, offers a reward of 2,000 francs for each captured.

Gladstone's Home Rule Bill. LONDON, Oct. 27.—It is reported that the Cabinet council today Mr. Gladstone submitted a rough draft of his Home Rule Bill, which will be considered at a series of meetings of a strong committee of members of the Cabinet.

The Cholera. VIENNA, Oct. 27.—An outbreak of Asiatic cholera is reported in the vicinity of the Tettus, Styria. Eight suspected cases were reported in Vienna today. Several suspicious cases of a choleraic nature are reported in Belgrade.

Steamship Magnates Meet. COLOGNE, Oct. 28.—A meeting was held here today of representatives of the North German Lloyd, Hamburg-American, the Netherlands, American and the Red Star steamship companies. It was agreed to work the east bound steamer traffic on the pool system.

In Memory of Metz. BERLIN, Oct. 27.—A banquet was given at the Kaiserhof this evening in commemoration of the capitulation of Metz and in honor of the late Prince Frederick Charles, Emperor William, who presided at the banquet, extolled the Prince's services to the army and to the fatherland.

Argentine Revolutionaries Successful. BUENOS AIRES, Oct. 27.—The revolt in Santiago del Estero has assumed such proportions that the Federal Government has decided to intervene.

A Battle Which Lasted Two Days. A battle which lasted two days has taken place between the rebels and the Government supporters at the capital, and resulted in a victory for the rebels, who drove the Government forces out of the city.

Gladstone and Tennyson. According to the London correspondent of the Western Mercury Mr. Gladstone's first head of Lord Tennyson's death in a curious way. No telegram announcing the event was sent to Havard.

The contents of a paper which he saw from the railway carriage on his journey to Havard to preach the harvest festival sermon. The canon had no opportunity of seeing Mr. Gladstone before the service, and his allusion in the pulpit to the laureate's death was the first intimation passed away.

On the morning of that day he had received a letter from Mr. Hallam Tennyson, who said that his father had been delirious, and in this state had been murdered. Mr. Gladstone's first intimation of the death of Tennyson was the last regarded his great contemporary.

Disastrous Storms. LONDON, Oct. 27.—A heavy gale swept over the channel all day yesterday and during the night. The storm was particularly severe on the southeast coast of Ireland. The channel steamers are greatly delayed.

The steamer Jessie, of Dundalk, was driven on the Cleopatra rocks and several other vessels went ashore. Today a severe wind and rain storm rages off the mouth of the Tyne. The schooner Resolute while attempting to enter the harbor was driven ashore. A tremendous sea was running and the schooner soon pounded her bottom out.

A New York dispatch says: The Tenthredin left Quarantine this morning and passed up to her dock after one of the stormiest voyages from Liverpool she has ever encountered. It was reported this morning that two of the cabin passengers had become insane as a result of the stormy weather. It was said they lay on the deck by the terror created by the supposed imminent danger of the steamer foundering in the heavy gale that blew for two days.

A Liverpool pilot who took out the City of New York remains aboard the steamer, having been unable to land on account of the rough weather. The passengers remaining at Queenstown are complaining loudly of the City of New York's failure to take them, some being separated from relatives who embarked at Liverpool. These passengers will be obliged to wait for the Cunard steamer Auroras, which will leave Queenstown on Sunday next.

On the way to the gale and the sense of prevailing in the Irish Channel, the steamer City of New York, which sailed from Liverpool yesterday was unable to call at

Admits His Guilt!

Neill-Cream Has Poisoned Several Canadian Girls. All Buried Without Suspicion of Unnatural Death.

His Awful Deeds on a Par With "Jack the Ripper's." One of the Most Startling Confessions of Modern Times.

LONDON, Oct. 28.—Thomas Neill-Cream has confessed that from 1874 to 1881, when he was arrested in Chicago, he made a practice of poisoning dissolute girls in Canada. His numerous victims, he says, were buried without suspicion on the part of anybody that they had died unnatural deaths.

A medical expert who has examined Cream says that he did not intend to do him any harm, but that he was misled by the fact that he had seen a list of names of girls who had died of poisoning, and he had been told that they had been poisoned by a man named "Jack the Ripper."

His Last Duel Fought. LONDON, Oct. 28.—Harry Vane Milbank, who posed as a duelist, has died at Davos Platz, capital of the district of that name in the canton of Grisons, Switzerland. He was added to the long list of victims of his own constitution by his excesses.

Milbank's greatest claim to notoriety outside of numerous duels which he alleged he had fought, lay in the fact that he went to New York with Hallett Alsop, known as the latter's second in the duel with Coleman Drayton, which agitated the public for some time last March.

British Cabinet Rumors. LONDON, Oct. 28.—Semi-official denials have been issued as to the steps reported to have been taken by the Cabinet at its meeting yesterday to decide upon a successor to Sir William Vernon Harcourt in the event of the latter's eye trouble preventing him from filling the position as Government leader in the House of Commons, which position devolves upon him in consequence of Mr. Gladstone's decision not to take the leadership except upon occasions when important measures are before the House.

These denials, however, fail to reassure the Liberals, who know the truth of the statements made regarding Sir William's condition. Although Sir William's eyesight is threatened, he is an active worker with business as long as it can be conducted through this means, but it will be otherwise during the diversified work inside the House of Commons.

Among the various rumors concerning the proceedings at yesterday's Cabinet Council the Times seems to have a report that approaches nearest the facts. It says Mr. Gladstone keeps the main question of home rule out of the question of his colleagues altogether. He keeps the secret "up his sleeve," and leaves it doubtful whether the present measure is anything more than the bill he presented in 1886, with some illegitimate variations regarding the release of Fenian convicts.

Cabinet is trying to force a middle course between all the Fenians and satisfying the bulk of its supporters, who oppose any interference with the course of the law.

THE COAL TRADE.

The Barons Will Not Advance Prices for November. NEW YORK, Oct. 27.—The eastern sales agents of the anthracite coal companies have decided not to advance prices for November. The production for November is expected to be 3,500,000 tons, against 4,300,000 tons in November last year.

ACCIDENT IN PITTSBURG.

All the Passengers in a Cable Car Injured. PITTSBURG, Pa., Oct. 27.—A peculiar accident occurred on Pennsylvania avenue today. The slot of the conduit of the cable line had been closed by a heavy iron wagon crossing the track. The first car to approach was No. 103. The motor man did not notice the danger ahead, and when the car reached the obstruction it stopped with a jerk. The force of the shock was so great that the front truck was completely demolished. The car was crowded at the time and all the passengers were injured. Frank Vincent, the gripman, was seriously hurt.

The car stopped at the front end of the car. It is feared he was injured internally. Conductor Irwin and Thomas Rose were badly bruised and cut about the head. Among the passengers seriously injured were Miss Seely, of New York; Mrs. W. A. Berger, of the East End; Miss Seely was badly cut about the head and face and her right ankle was broken. Many others were seriously injured and removed to their homes.

UNDER THE SEMAPHORE

Mr. Morford's New Position - Grand Trunk Changes. The New England traffic managers have agreed to restore rates before the close of navigation.

Mr. J. B. Morford has been appointed to a position at Kensington, in the M. C. R. yards at Chicago. The position is said to be that of general yardmaster.

The assessment on the C. S. Railway property in Windsor is \$108,850. Heretofore they have only paid school rates amounting to about \$440. Next year they will not be exempt and their taxes will be over \$2,000.

A meeting of the representatives of lines out of New York and into Canada, was held on Thursday in New York. Rates covering wool, molasses and tea were agreed upon. Inequalities in freight charges were adjusted and rates put on an even basis.

Mr. R. T. Leslie, for many years connected with the Grand Trunk Railway at Hamilton, has been promoted from the position of baggage-master there to that of assistant general baggage-master at the western division, with headquarters at Toronto. Mr. Leslie was one of those whose position was cut off with the superintendent's department. His new position will be quite a promotion.

A Burglar Promptly Cared For.

CINCINNATI, O., Oct. 27.—A case of unusual promptitude in the administration of criminal justice was that of Charles Boyer, who committed a burglary at 5 o'clock this morning in this city and ate his supper at Columbus. Boyer was caught in the act. He pleaded guilty, was sentenced to five years' imprisonment and was taken to Columbus this afternoon.

THE PRESIDENTIAL RACE.

Cleveland's Chances in New York Greatly Increased. The Democracy United—Effects of the Wisconsin Apportionment Bill.

NEW YORK, Oct. 27.—The entire county Democracy ticket has been withdrawn from the local field. This ticket had been endorsed by the anti-snapper, Mugwump committee, who were opposed to the political methods of Tammany. Thus an important factor, which threatened to lose Mr. Cleveland the electoral vote of New York State, has been overcome.

MADISON, Wis., Oct. 27.—The Apportionment Bill was adopted by the Democratic caucus with a single exception, and passed both Houses. The law will give the Democrats a majority of 12 or 14 on a joint ballot.

IN LABOR'S FIELD.

Trouble With Types in a Toronto Printing Office. Great Excitement Caused by the Carmaux Strike.

PARIS, Oct. 27.—The Carmaux strikers have telegraphed to all the miners' unions in France begging them to send coats for the use of the strikers. The strike committee, replying to a deputation of non-striking miners who asked how long the strike was going to last, said that they did not know when the strike would end, but that they intended to remain out as long as they could.

PARIS, Oct. 27.—The Chamber of Deputies today by a vote of 324 to 198 rejected a motion to grant amnesty to the convicted Carmaux rioters. It also rejected a motion of 399 to 99 to a motion to reject the troops now at Carmaux.

M. Marce, a former Minister of the Interior, declared the strikers' rejection of M. Loubet's award was the first act of practical socialism that had occurred in France. The weakness of the Government had encouraged the Socialists. M. Marce further commented upon the situation growing out of the strike and declared that the trouble was now almost certain to end in a general strike.

CONCORD, N. H., Oct. 27.—The Concord branch of the Granite Cutters' National Union has rejected the offer of arbitration from the manufacturers.

PARIS, Oct. 27.—Deputy Dely called attention in the Chamber of Deputies today to the recent conflicts between French and Belgian miners at Lens. He accused the mining companies of discharging French miners because they had voted against replacing them with Belgian miners.

M. Vatte, Minister of Public Works, denied that the dismissal of French miners at Lens was due to political considerations, and added that it would be useless to make exceptional laws against foreigners.

M. Languet, an ardent socialist, interrupted M. Vatte and declared that capitalists were conspiring against universal suffrage. He proposed that masters who employ foreigners be required to obtain a special license. This motion the Chamber referred to a committee.

MEMPHIS, Tenn., Oct. 28.—The Order of Train Dispatchers has been organized here with 152 charter members. The constitution and by-laws adopted embrace the protective features.

LOANOV, Oct. 28.—The impression is growing in Lancashire that the threatened strike of the cotton spinners will be averted. It is asserted that the negotiations looking to arbitration of the employers in dispute with the members of the federation of master cotton spinners upon finding that there was little disposition among the members of the federation to adopt a lock-out in view of the improved condition of the cotton market. This view of the situation appears likely, judging from the fact that Mr. Mawdsley, secretary of the Amalgamated Association of Operative Spinners, has declined to call a special meeting of the association to discuss the question of arbitration. The next regular meeting will be held on the date fixed for the strike to commence. A cotton authority in Lancashire, discussing the situation in the cotton market, said that the trouble is to be found in the fact that the cotton market is not so good as it was some time ago. The productive capacity of the British mills far exceeds the legitimate demands of trade.

TOKYO, Oct. 27.—The composers in the office of the Evening News are not at work today. The typesetting machines have been introduced in the office, and a difficulty has arisen between the manager and the men as to the scale of payment on a new basis. The men want to be paid by the hour, and the manager wants to pay by the piece. Only two machine experts are at work today, and it is doubtful if the paper can be produced.

Several Persons Injured. CLEVELAND, Ohio, Oct. 28.—An explosion following a small fire in the mantle and grate warehouse of A. C. Teichout & Co., on Michigan street, occurred about 11:30 this morning. Several persons were badly injured.

Another Fiery Orb. CITY OF MEXICO, Oct. 28.—The Seatec Observatory reports the discovery on Monday of a comet in the constellation of Cancer, giving its position as ascension right, 8 degrees, 43 minutes; declination north, 16 degrees, 50 minutes.

Eight in an Elopement Party. DAYTON, Ohio, Oct. 28.—William Shupe lives at Harbison station. Shupe has been reported at police headquarters that Marion Weinstand, a section hand, has fled with his wife and eloped, and not satisfied with this, had also taken his six children, Mrs. Ada, Clarence, Louise, Pearl, and Lucinda.

Mysterious Murder at Chicago. CHICAGO, Oct. 27.—E. Kennard, 63 years old and very wealthy, was found today dead at a desk in his library with his head split open. The tragedy occurred at a place called Milrose. Robbery was the apparent motive. The corpse in the house had been pulled up in places as if the robbers were searching for hidden valuables.

Ralph Ahi, a broker, dropped dead on the floor of the Boston Stock Exchange Thursday.

Chief Dealy found the rig and afterwards captured Tweddie, who was committed for trial.

The plan for Robert Downing opens at Tyn's on Monday. Primrose & West's minstrels appear at the Grand on Friday next. Rhos inflicting in New York State and will shortly appear in London.

"Joshua Simkins" is playing to all the small towns in Western Ontario. The "East Mall" is booked right through to Ottawa, playing at all the larger places en route.

W. A. McConnell has signed a contract with Robert Downing to manage that actor's tour for the next three years. Thos. B. Perry, formerly manager of Peter Baker, is business manager of Primrose & West's "Eight Bells Company."

Arthur Rigby, who has appeared as a stump speaker in minstrelsy, goes out with "The Natural Gas Company" on Nov. 1. It is reported that Mrs. Jennie Kemball, the mother of Carline, has received \$95,000 in cash, insurance on the life of her late husband.

William Black, an advance agent of several attractions that visited London, and manager of "The Kid Company" this season, was taken to Bloomingdale Asylum Oct. 17, suffering from paresis. Some four or five years ago, at fair time, when E. A. McDowell opened here in "Wedding Bells," which was a failure, he worked the city for two weeks. Since then he has been in Hamilton's "Fantasma." He was formerly treasurer of the Fifth Avenue Theater, New York.

Harry Williams' "Waifs of New York" Company will no doubt meet with a hearty reception at the Grand Monday next, and they deserve it, for without a doubt it will be one of the best attractions of its kind here this season. It is just the kind of an entertainment that our readers can take their wives and sweethearts to for an enjoyable evening.

To-night the "Hand of Fate" Company give their first performance at the Grand. This comedy-drama is sure to please every one, as it is given with a competent cast, while the scenery is said to be perfect in every detail. The blizzard scene is decidedly realistic and the effects produced are very striking. Some highly favorable criticisms of the piece have appeared, and anything with good scenery is almost sure of a full house in London. The company appear at a matinee to-morrow and also in the evening.

"Virginius" has maintained its popularity on the stage for many years by the sheer force of its own overmastering excellence. This great play has had many expenients, but none have been able to equal the metropolitian papers declare that Robert Downing is the greatest. Mr. Downing will come to the Grand Opera House Wednesday night, Nov. 2, in this play, supported by Eugene Blair and a large and powerful company, and the following night he will present the powerful play, "The Gladiator," with the same excellence of cast and superb scenic mounting.

The Woodstock Sentinel Review says of Sara Lord Bailey who appears in this city Nov. 3, Miss Bailey's presence is decidedly prepossessing. She walked on the platform like a Greek goddess, and her every gesture and motion was the perfection of gracefulness. In face features decidedly handsome, and she enabled her to depict with look as well as with words every motion suggested by her selections. As an elocutionist Miss Bailey is perhaps not excelled even by Mrs. Siddons. Her clear, sweet cultivated voice is held in perfect control and is capable of an almost infinite variety of tone and pitch and expression. Her rendition of "Life for Life" was magnificent, especially the rescue scene which thrilled her audience almost as the real incident would have done. Her humorous selections were also well given.

An Ottawa Conservative's Views. An Ottawa dispatch says: Mr. John Peter Grant, of New York, brother of Sir James Grant, M. P. of this city, and a leading Conservative, is here on a visit. He said today: "I am a full fledged citizen of the United States now and think it a grand country. With its vast extent of territory, variation of climate and activity in business it is not surpassed by any country on earth. I tell you that notwithstanding the prejudice existing in Canada against annexation to the United States it is bound to come, and when it does come Canada will enter on an era of prosperity hitherto unheard of, and Canadians will be able to do as much at home as they are now doing across the line. What I have said is the solid truth, and Canadians will find it out."

—BROWNING.

London, Friday, Oct. 28.

A STRIKING PRESENTMENT.

A novelty in presentments was introduced by the grand jury at the Frontenac Assizes in Kingston. The grand jury thus addressed the presiding judge:

"With other parts of the Dominion we rejoice over the fairly abundant harvest recently gathered, but we deplore the general dullness in trade, the depression of agricultural lands, and regret the loss of population in this and the adjoining counties. While admitting the difficulties in improving the condition of the people by legislation, we would earnestly hope that the Dominion Government may speedily take such steps as may greatly improve the circumstances of the agriculturist and the artisan."

This grand jury, undeterred by the fear that they may be traduced by the apologists for wrongdoing, and denounced as promulgators of "blue ruin," prefer to tell the truth regarding affairs as they find them and to call for a remedy. It is not more legislation that is required, but the withdrawal of the class laws that are now on the statute books, which enable a small number of persons to collect tribute from their fellows.

The step necessary to the promotion of our prosperity as a country is the relief of the people from all vexatious tax burdens, giving no man an advantage at the expense of his neighbors. That accomplished, millions of dollars now filched from the people, and expended in corruption or for the enrichment of men already wealthy, will remain in their possession, to be spent in improving their position, in forwarding the development of this really magnificent country, and in generally keeping the wheels of commerce and of industry in profitable motion.

The Kingston grand jury can expect no aid from the courts in the promotion of the laudable object they so forcibly espouse, but they are to be commended for using their prerogative to bring before the country sound views in regard to a vitally important matter. The wrong being established, it is time that every earnest Canadian, who is contented to make a living without participation in any thimble-rigging gongee games, should follow the example of this grand jury, and allow no reasonable opportunity to pass without protesting against the system, and calling for a remedy.

AN OTTAWA dispatch says that Dr. Montague wants to enter the Dominion Cabinet because "every Ontario Conservative member denounces Mr. Carling as a weak man," and as "days are numbered." His days were numbered last winter, but Judge Elliot, despising the ruling of six Superior Court judges to the contrary, added to them by giving him Mr. Hymn's seat. No wonder that even his political associates despise a man who would accept a seat that he knew he had no more right to than the Czar of Russia.

WAR AT LONG RANGE.

If our namesake in the British metropolis is correct it will soon be possible for the French Government, in the event of hostilities with England, to set up a "melinite gun" at Calais and mow Dover down. Then the gun can be moved along to a fresh spot, where another British town may be destroyed. What will the Britishers who have been so strongly opposed to the construction of a channel tunnel, lest it might afford a chance for underground invasion from France, say to this new proposition? We are not to suppose that in the event of war the British authorities would let still and let their neighbors batter down their cities. That would not be natural. But the fact that weapons of warfare have been perfected to such an extent as to suggest the possibility of throwing bombs of destruction twenty miles or more must give rise to the inquiry whether warfare has not reached a degree in destructiveness and in horror to call for an earnest effort on the part of every civilized nation to have it set aside in favor of peaceful arbitration. Too long has the brute side of humanity been appealed to in the settlement of international disputes.

This latest plea put forth for the system of high taxation is that it makes things cheap. A farm is a thing. It has certainly lowered the value of farms.

"We are just running along like a sleigh upon bare ground, keeping our heads above the water," said Erasmus Wiman at Halifax the other night. This is an epigram which should live alongside the "ingenious policy of drifts."—(Montreal Herald.)

Yes, the simile is pretty good, but is not the epigram a little mixed?

ON THE DECLINE.

William Morris, who has been favorably spoken of as a probable poet laureate, says that he decidedly desires the abolition of the office. Few persons, he adds, would trouble themselves about anybody holding the post if Lord Tennyson and Wordsworth had not held it. This declaration, while further cheapening the honor of the position, may be taken as a refusal in advance by the poet of Socialism, who thus leaves the field to Swinburne or Sir Theodore Martin, if they covet the appointment. The last named is said to stand high in favor with the Queen, the consent of whom must be obtained before an appointment is made, because of the fact that he wrote a flattering "Life of His Royal Highness, the Prince Consort." Sir Theodore is a poet, though not of the first rank, and he is a translator as well. He married the noted actress, Helen Faucit, whom De Quincy described, after seeing her as Antigone, as "the most faultless of Grecian marbles," and to her he dedicated his translation of "Vita Nuova" in the following lines:

Beloved, whose life is with mine own entwined,
 In whom, while yet thou wert my dream, I
 lived,
 Warm with the life of breathing womanhood,
 Thy Shakespeare's visionary eye divined;
 Pure Imogen, high-hearted Rosalind,
 Kindling with sunshine all the dusk green
 wood!

Or changing with the poet's changing mood,
 Juliet, and Constance of the queenly mind;
 I give this book to thee, whose daily life
 With that full pulse of noblest feeling glows,
 Which lent its spell to thy so potent art.
 Thy, these whose every act, my own true wife,
 The grace serene and heavenward spirit shows
 That robed Beatrice in Dante's holy light.
 It need surprise no one if Gladstone
 consents to appoint the Queen's nominee.

If he dies he will devote his life insurance to clear off the entire liabilities. If every insolvent would make as fair an offer as that, there would be few kicking creditors.

THE "FAKE" BUTTER RECIPE.

Much interest has been aroused by the ADVERTISER exposure of the fake known as "Black Pepsin," which has been advertised as adding enormously to the production of butter. The drug has been freely recommended by various Canadian contemporaries on the strength of an alleged report of a South Australian committee. Similar experiments, we are led to believe, have been advertised in the United States within the last year or two, but we have reason for believing that there is really nothing substantial in them. Different substances have been suggested, all, however, having the result of incorporating the cheese in the butter, and of increasing the percentage of water from 15 to 40 per cent. This seems to be nothing else than a method of making soft cheese resembling butter in consistency, the pepsin being used instead of rennet. Rennet is the digestive extract of calf's stomach, of which ordinary pepsin is the principal ingredient or constituent. Our adulteration laws are very strict in regard to butter—probably the strictest in the world—and it is scarcely possible that the authorities would permit the sale of a substance so made up as "butter."

We understand that the authorities at the Ontario Agricultural College have the whole matter under investigation, and in due course they will give to the public the result of their inquiries.

POLYGAMY is said to be on the decline in Utah. What wonder while millinery bills continue to mount up as they do.

THE Sarnia Canadian does not like Mr. Wiman, and it is tied up to the men that profit by restricted trade. It therefore warns our countryman to be careful how he expresses himself, or he may be sent "back in a hurry to New York with a coat of tar and feathers." This is the Bourbon idea of free speech.

A FEW weeks ago, by a majority of nearly three to one, the people of Manitoba voted in favor of prohibition. Now the so-called Royal Commission is gravely spending time and money in Winnipeg, presuming with the object of discovering what the people want! Was ever a more grotesque spectacle presented?

THE COAL OIL TAX.

[Montreal Star.]

The facts of this iniquitous coal oil tax are very inadequately understood. Reckoning on the face of the figures, oil sold at wholesale in the United States at from 5¢ to 6¢ cents per wine gallon, paying a duty of 6¢ cents per wine gallon, is thus taxed at from 75 to 100 per cent. ad valorem. This, however, does not tell the whole tale. The Canadian law requires oil to be brought into the country in barrels of 50 gallons each, while it is carried all through the United States, and from Petroleum all through Canada, in tank cars. But the Canadian importer of American oil must buy his oil barreled in Pennsylvania. This means that he buys his barrels of American and not of Canadian coopers, that he must pay freight on his barrels, must pay duty (40¢ cents each) on his barrels, and must stand quite a loss for deterioration of the oil. The figures quoted above as the wholesale price to Canadians include the cost of the barrels, which is a large item. If we could buy it in tank cars, the price would come much lower. That is, the oil itself does not cost anything like even 5¢ cents per gallon wholesale; a nice part of that sum going for American made barrels. But the villainous specific duty is unmoved by this fact, and exacts its 6¢ cents per wine gallon, no matter how low the price of oil bulk falls. The barrels pay duty on their own account; and we have reason to believe that investigation would show that the people of Canada are paying something like 200 per cent. ad valorem on their American coal oil. Such a deliberate plundering of the farmers in the interests of a so-called industry in Lambton county, Ontario, is intolerable to the last degree.

The Blair Government in New Brunswick has secured another supporter as the result of the casting vote of the sheriff of St. John county. That constituency thus returns two Government members instead of one of each party as previously announced.

TOPICS OF TO-DAY.

The city of Hamburg has lost thousands of her wealth producing people and fully 10,000,000 marks by the cholera. It pays to look out for drinking water and to have a good sewerage system.

Tolstoi has deposited a manuscript of his memoirs with the curator of the Rumyantsov Museum, not to be published until ten years after his death. He is now engaged on a book dealing severely with the militarism of modern Europe.

Sir Archibald Geikie of the British Association, after much careful thought and patient investigation, together with a deal of figuring, has come to the conclusion that the world is between 73,000,000 and 650,000,000 years old.

The cost of shouting "Vive la France!" one time in Alsace-Lorraine has been fixed at 20 marks. Joseph Eugene Lemoine, a journalist who lives in France but gave utterance to his patriotic feeling in Metz, has just found this out.

There is a peculiar case in northern New Hampshire where husband and wife are both preachers of the Gospel, and each is settled over a parish in that region. Their parishes are about ten miles apart. The pastors frequently exchange with each other, and it is a very convenient family arrangement.

The will under which the now Dowager Duchess of Sutherland was bequeathed an addition of £50,000 a year to her income was only signed by the late duke within 24 hours of his death. The legal battle which will take place over the duke's bequest will be fought out by all the parties to the bitter end.

The author of "The Englishman in Paris," at first supposed to be Sir Richard Wallace, and afterward a journalist named Vandar, is now thought to be a combination of contributors who have put their reminiscences together. The papers of Sir Joseph Olliffe, an English physician of a long and large practice, are believed to have produced a large part of the book.

Many of those attractions which combine to make Paris the most delightful city in the world will be described by Theodore Child in the November number of Harper's Magazine. He will conduct the reader "Along the Parisian Boulevards," and will show how the city appears at different seasons of the year, as well as some of the conditions of fashionable life, the brilliant sunshine of living Paris, its intensity and ardor. The article will be illustrated with seven full-page engravings from drawings by Lepere and Renouard.

Cashmere, a country that was made known to the west by Marco Polo, has a name which is the English form of a Sanskrit expression meaning "the dwelling place of the Holy Man." Holy men seem to have much vogue and potency in those regions. Last year the British force that was sent against the Black Hill tribes, some distance west of Cashmere, retreated rather suddenly without subduing the wild men who had been raiding upon the peaceful inhabitants of the upper Indus. The story got abroad later that a "Holy Man" had suddenly appeared to the troops and told them that unless they at once turned back he would utterly destroy them, and, to convince them of his exalted character, he had caught in his hands bullets they fired at him and remained unharmed. Thereupon the soldiers thought it was high time to go home. Perhaps the story is not true, and it is certain that the sacred character who figured in it did not appear in behalf of the Hill tribes during the last campaign, for the Indian troops have inflicted severe punishment upon the marauders and destroyed their chief town.

THE Methodist Magazine for November, 1892. Price \$2 a year; \$1 for six months; 20 cents per number. Toronto: William Briggs. The contents of this number are of an unusually varied and interesting character. The editor contributes the first of two handsomely illustrated papers on "The City of the Sultan," describing his recent visit to Constantinople; also a timely paper on "Whittier, His Life and His Work," with portrait and other cuts. A fine criticism on "The Poetry of Whittier," by the late Dr. Niles, is also given. An exquisitely illustrated article by Dr. Adolphus Sternberg describes the rugged and picturesque passes and iron gates of the Lower Danube. Another illustrated article records the heroic experience of Miss Maraden, "A King's Daughter Among the Lepers of Siberia." A portrait and sketch of the late Thomas Cook, founder of the famous tourist agency, by Dr. Watts, of England, is of great interest. A striking story, "The History of a Failure," is a fine bit of literary irony, showing the hollow-ness and mockery of a secular philosophy, and its powerlessness to sustain the soul in the great sorrows of life, and another installment of Mrs. Barr's Scotch story, "A Conflict with Conscience," is strongly written. The Pan-Protestant Council and Tennyson's poetry are discussed editorially.

"August Flower"

For two years I suffered terribly with stomach trouble, and was for all that time under treatment by a physician. He finally, after trying everything, said stomach was about worn out, and that I would have to cease eating solid food for a time at least. I was so weak that I could not work. Finally on the recommendation of a friend who had used your preparations with beneficial results, I procured a bottle of August Flower, and commenced using it. It seemed to do me good at once. I gained in strength and flesh rapidly; my appetite became good, and I suffered no bad effects from what I ate. I feel now like a new man, and consider that August Flower has entirely cured me of Dyspepsia in its worst form. JAMES E. DEDRICK, Sangerites, New York.

W. B. Utsey, St. George's, S. C., writes: I have used your August Flower for Dyspepsia and find it an excellent remedy.

I spent trying to find a cure for Salt Rheum, which I had 13 years. Physicians said they never saw so severe a case. My legs, back and arms were covered by the humor. I was unable to lie down in bed, could not walk without crutches, and had to have my arms, back and legs bandaged twice a day. I began to take Hood's Sarsaparilla and soon I could see a change. The humors became more healthy, the skin began to clear, the scales fell off. I was soon able to give up bandages and crutches, and a happy man I was. I had been taking

TROTTING IN THE MUD.

Result of the Racing at West Lorne.

Eastern League Salaries in Arrears—McLean's Latest Frank—Various Sporting Events.

At Columbia, Tenn., on Thursday, fifteen names appeared to contest for the \$10,000, 250 class stake, but three were drawn after several rounds. The battle of last week between Eminence and Geneva was fought over again. Geneva gave the first heat in 2:14, lowering her record. Direct paced an exhibition half mile in 1:01, the last quarter in 29.

NANCY FAILED TO BEAT HER RECORD. SEDALIA, Mo., Oct. 27.—Ten thousand people assembled at the new kite-shaped track to see Nancy Hanks go against the world's record of 2:04. She made the mile in 2:05. On Line, a 2-year-old, was sent against his world's record 2:11, but could not do better than 2:13. John R. Country, a 2-year-old went to beat his record of 2:13, and made 2:12.

TROTTING AT WEST LORNE, ELGIN COUNTY. This interlarded with the opening of the new driving park at West Lorne Wednesday, and made the track unit for anything like last time.

Named race:
Southern Star, by Canada Southern, 1 1
Whisper Jack, Jun., 2 2
Zedekiah, 3 3
Pammy, Jun., by Jim Putnam, 3 3
Jack Hunkle, by E. E. York, 6 6
Sundown, by Grand Central, 6 6
Alton T., 6 6

The free-for-all had three entries—Southern Star, Fleetfoot and Gen. Sprague. They were all very evenly matched, but Southern Star's previous three heats on the 250 class stake had been drawn after the second. The other horses had it from wire to wire, apparently, but it looked like a job to many of the spectators. The second heat was a dead heat and the judges called Henry, driver of Fleetfoot, up, and told him to drive for the next heat, which he won. The General went out and won the next two easily. Summary:
Gen. Sprague, by Brinker, 0 2 1 1
Fleetfoot, by 0 1 2 2
Southern Star, by Canada South, 3 3 d

The farmers' trot had six entries, and was a close contest between J. R. McKillop's horse, and Hitzel's chestnut mare by Clarence Goldsmith. It was won by a narrow margin in straight heats by the former.

AT NEWARK, N. J. Col. North's 3-year-old colt, El Diablo, won the free handicap sweepstakes of 100 sovereigns each at Newark today.

THE PRINCE OF WALES' FILLY BEATEN. LONDON, Oct. 27.—A match race of six furlongs for 200 sovereigns between Col. O. Montague's 2-year-old colt, Sault, and the Prince of Wales' 2-year-old filly, The Vigil, was won by the former.

STAMBOUL TIME BEATEN BY STAMBOUL. At San Francisco, Cal., Walter Mahen drove the stallion Stamboul a mile in 2:08, Thursday, and was the recipient of officious congratulations as he drew up before the judges' stand. Stamboul never skipped or faltered in the task set out for him, which was to lower the record of Palo Alto of 2:08, the previous best record for a stallion in a race against time. Stamboul made the first quarter in 30, the same on the next quarter, which made the half in 1:01, and to the three quarters in 1:35, finishing strong and game in 2:08. Rozen was started against her record of 2:19, and made the mile in 2:17, the fastest mile ever made by a 2-year-old filly, Sault's time at that age being 2:18.

THE ONTARIO W. C. T. U.

Good Work Done Among the Young People. And Also in the Prisons and Lumber Camps—Interesting Papers Presented and Practical Suggestions Made.

BELLELEVILLE, Oct. 27.—At yesterday morning's session of the Ontario W. C. T. U. convention the executive recommended that four new departments be added to the Ontario work, viz., houses of entertainment, schools of methods, work among Indians and work among colored people; and that superintendents be appointed to take charge of these departments. A telegram was received from 36 New England delegates en route to Denver sending greetings. The president introduced Mrs. Wheeler, an American sister worker come to live in Canada, who was received by the convention, and then in a few well-chosen words paid a graceful tribute to the cordiality of the Canadian sisterhood and the efficiency of their work.

Mrs. Pratt's paper on Sunday school, juvenile work, kitchen garden and Democracy, was presented by the convention. Mrs. Rutherford, during the past year the juvenile department had made a vigorous effort to increase the interest amongst the women in the cause of the children, and the interest seemed to be widening and extending. Medal contests had been entered into by London, Hamilton and Port Perry unions, with the county of Leeds as advance guard, having had some nine medal contests. Hamilton Y. C. have a newswoman's club, with 200 working boys as members, open every night, and school is held nightly, with the exception of Saturday night, which is devoted to Bible class and temperance club. The Band of Hope work is fully reported, total number of hands being 66; number of children 5,997.

The report of Mrs. John Burwash, of Colborne, on prison, police and soldiers, and that during the year meetings had frequently been held at the jails at Peterboro, Brantford and London, and the prospects were bright. Very promising work had been done among the soldiers while they were in camp last summer, but no very active work had been done among the sailors.

Mrs. Hunter, of Pembroke, stated that the season of 1891-92 closed with the best record received of work done by the unions for the lumber camps.

"Narcotics" was the subject of a paper read by Mrs. Cole, of Carleton Place. She suggests that next year the ministers be urged to preach on this subject of tobacco and opium.

President Cavers submitted her report on purity in literature, art and fashion. The thanks of the union, she thought, were due to Mr. John Charlton, M.P., for the very valuable assistance which he had rendered in this department of their work.

Another phase of the subject was seen in the theatricals and cinema posters and pictures of monstrosities which disgrace the streets of our cities and towns and too frequently out country villages. There was great need of more stringent legislation by the Government which will apply to every part of the Dominion.

The question of the bill drafted and introduced by Mr. Charlton last session. Another phase of the subject was seen in the theatricals and cinema posters and pictures of monstrosities which disgrace the streets of our cities and towns and too frequently out country villages. There was great need of more stringent legislation by the Government which will apply to every part of the Dominion.

At the W. C. T. U. meeting this morning Mrs. Wyle read a reply to the greeting from the Provincial Sabbath School Association, in session at Guelph, with reference to Romans, xiv., 17 to 23, and Mark, x., 13 to 16.

Mr. J. J. McLean, chairman of the executive of the Dominion Alliance, read a report from the department of scientific temperance instruction was given by Mrs. Platt, of Pictou.

The election of officers resulted as follows: Mrs. Cavers, president; Mrs. Fawcett, vice-president; Mrs. Wyle, corresponding secretary; Mrs. Rutherford, recording secretary; Miss McArthur, treasurer; Miss Blinn, auditor.

In the afternoon a paper on "Schools of Methods" was given by Mrs. Williams, president of the Dominion W. C. T. U. "Our franchise work" was the title of a paper by Mrs. Rockwell, Kingston.

In the evening Rev. W. Patterson, pastor of Cook's Church, Toronto, addressed a large gathering in John Street Presbyterian Church, and the presentation of the prize banner took place.

SUNDAY SCHOOL WORK.

Proceedings of the Provincial Convention.

The Treasurer's Report—Kind Words From Visitors—Sympathy for President Harrison—"Study of the Bible in Spots."

GUELPH, Oct. 27.—Yesterday, the second day of the Sabbath school convention opened wet and cold, but this did not appear to dampen or chill the enthusiasm of the delegates, who were on hand bright and early to proceed with the work of the convention.

The treasurer's report, submitted by Mr. J. J. Woodhouse, Toronto, summarized, was as follows: Receipts, balance from 1891, \$285 51; arrears, \$317 75; contributions from the counties, \$1,108 98; from cities, \$141; from township, \$5; from Toronto, \$30; from individuals in Toronto, \$319 33; outside Toronto, \$769 50, of which Hon. S. H. Blake had given \$350; from outside Toronto, \$45; collections at the Ottawa convention, \$181 11; collected by general secretary and other workers, \$240 06; other collections, \$73 95; special donations, \$29 34; sale of reports, \$333 64; sundries, \$13 89; advertisements in reports, \$215. Total, \$4,245 03. Disbursements—Convention expenses, \$189 73; expenses of half-yearly executive meeting, \$60 78; postage and telegrams, \$114 04; stationery, \$49 59; sundries, \$4 25; petty expenses, \$10 59; subscription to International Convention, \$200; printing reports, \$770 35; organization expenses, \$95 92; sundries, \$27 34; general secretary's traveling expenses, \$229 55; missionaries' traveling expenses, \$449 78; salary general secretary (A. Day), \$1,000; salary of treasurer (J. J. Woodhouse), \$700; balance, \$369 21. Total, \$4,245 03.

The secretary's and treasurer's reports were received and referred to the standing business committee.

Rev. Joseph Philip, B.D., of London, conducted a normal exercise upon "The Great Apostle and his relation to the early church." The address was full of suggestive information and valuable ideas, and was much appreciated.

In the afternoon 30 minutes were spent in welcoming a number of distinguished visitors, who came with greetings from outside points. The first was S. N. Gilchrist, who had just been elected for the tenth year to the presidency of the Brooklyn Sabbath School Union. He said he brought greetings from 8,000 Sunday schools and 1,101,000 scholars in the State of New York, where they had had an increase of 40,000 during the year, and 28,000 conversions through the work of the schools.

The Brooklyn Union was the largest local Sabbath school organization in the world, had been established 60 years, and was started with but three schools; now there were 163 schools, and last Children's Day were 16,000 scholars, and 60,000 scholars were on parade.

Col. Torrance Fraser, of Montreal, told of the work that was going on in Quebec. For 50 years they had been ingathering and for the past four years they had been upbuilding and organizing as far and as fast as possible.

Rev. F. F. Fotheringham, of St. John, N. B., brought the greetings of the New Brunswick Sabbath School convention recently held in that Province; there were 800 schools, 4,800 teachers and 35,000 scholars, and great attention was being given to normal and primary work.

T. Dransfield, of Rochester, N. Y., by then briefly explained the plan of work adopted by the Sunday School Association of New York State.

Resolutions were approved tendering thanks to all who had helped in organization and urging still further efforts in the future; confirming the proposal to organize the Province in sections, each with its own officers and committee; dealing with normal work, confirming the progress already made, proposing to add such help as could be temporarily secured again to give instruction during the coming year, and calling upon the county and city associations to express an opinion before the next Provincial convention as to the advisability of appointing a permanent normal school.

At this point the president referred in feeling terms to the death of the wife of the American President, and asked the convention to express its sympathy with the family and nation by the adoption of the entire dedication of children to the work of Christian missions.

Rev. A. F. Schaeffer, D.D., of New York, the well-known and admired writer of the "Teaching Hints" in the Sunday School times, gave "The study of the Bible in spots" by means of a blackboard diagram. He divided the whole period that is covered by the Scriptures—4,000 years—into semi-millenniums, the periods being punctuated by the names of Adam, Noah, Abraham, Isaac, Jacob, Joseph, Moses, Solomon, Zerubbabel and Christ. To each of these periods the speaker attached certain prominent features to distinguish them, and filled in leading details as far as his time would allow. The address was a wonderfully full of valuable suggestions and brilliant thoughts.

The closing address of the evening was upon "The divine authority of Scripture, its significance to the Sabbath school," by Rev. Dr. George Fraser, of Hamilton.

Knox Church was well filled. Mr. Alex. Mutchmore, ex-president of the association, occupied the chair, and the same speakers filled the programme, with the addition of Mr. W. Reynolds, of Peoria.

Flow in a Boston Prison. Boston, Oct. 27.—A serious outbreak occurred at the House of Correction in South Boston. The police headquarters ordered 60 officers there. The riot started in an incipient way yesterday, but was quelled for the time being. It broke out after the prisoners had entered the workshop this morning. They refused to work and created a terrific din by yelling and pounding upon the wall and floors of the shops. They were finally subdued and locked in their cells. One of the jail officials is said to have been badly beaten by the rioters. The cause of the disturbance is said to be the refusal of Col. Whitton, the warden, to give the yard privilege last Saturday to four noted crooks who recently attempted to escape. Some of the men also complain that their food is unsatisfactory.

THE WEATHER.
Toronto, Oct. 27—11 a.m.—The depres-

sion which was near the New England coast
yesterday has moved northward to the
Gulf of St. Lawrence, and to-night the
pressure is below the average over Northern
Canada from the Gulf to the Northwest
Territories. Showers have occurred to-day
at some points, more especially in Quebec,
but the weather has been generally fair,
with temperature about the same or a little
higher than yesterday.

Minimum and maximum temperatures:
Quebec, 30°-53°; Calgary, 32°-50°;
Edmonton, 30°-48°; Qu'Appelle, 34°-50°;
Winnipeg, 26°-46°; Toronto, 33°-47°;
Montreal, 38°-44°; Quebec, 36°-44°; Hal-
fax, 44°-54°.

TO-DAY'S PROBABILITIES.
Toronto, Oct. 28—1 a.m.—Probabili-

ties for the next 24 hours for the lower
lakes region (covering the peninsula and
as far east as Belleville) are: Southwest
and west winds; some local showers, but
mostly fair and warmer.

PUSHING AHEAD.
That Is What One of London's Prom-

inent Business Men Is Doing.
London is noted for its fashionable mer-

chant tailors, and prominent among them
is Mr. Harry Lenox. He has been in
London for a number of years and has
built up a trade that speaks for itself.
The excellent quality of the goods he
carries, and the perfect workmanship of
the hands he employs, have built up for
him a reputation that will doubtless insure
his permanent and increasing success.
The cutting department is under the per-

sonal supervision of Mr. Lenox, whose long
experience is a guarantee of satisfaction.
In every case a perfect fit is warranted.
The work is done with neatness and dis-

patch and in the latest styles.
Mr. Lenox has on hand a complete stock
of fall and winter goods of the most desir-

able quality, and inspection is invited. His
two, worsteds, serges and fall and winter
overcoatings should satisfy the most
fastidious taste. Mr. Lenox's progressive
business is positive proof that the public
are satisfied with the quality of the work
he turns out, and citizens and visitors can-

not do better than by calling on him on the
corner of Richmond and Carling streets.

Time Proves All Things.
And the wise housekeeper profits by the

test. Pure cream of tartar has been found
by scientific test and by actual use to be by
far the best article which can be used in
the manufacture of baking powder. Among
creams of tartar baking powders none are
more worthy of mention and special recom-

mendation than the Pure Gold brand. •
Give Holloway's Corn Cure a trial. It

removed ten corns from one pair of feet
without any pain. What it has done once
it will do again.

—The Board of Works.

Ald. Garratt (in the chair), Shaw, Jones,
O'Meara, Assistant Engineer Ironsides,

Street Commissioner Owens and Secretary
Bell attended a meeting of the Board of

works at last evening. R. W. Sharpe et al.
applied for a drain on Oxford street be-

tween Richmond and Wellington streets.
It will be advertised. V. Cronyn, president

of the Street Railway Company, asked for
the use of the street sweeper to keep the

snow off their tracks in winter. Ald.
O'Meara moved that it be referred to the

committee. Ald. Jones moved in amendment
that the sweeper be not let, and it carried.

Ald. Hagitt, South London, complained that
Richard Hill had built a fence on the public

highway that he is compelled to remove.
Mr. Ironsides reported that the fence was

on the street. The matter was laid
over. The pay sheet, amounting to \$190.76
and various accounts were passed. An ac-

—Daniel Morden, of London township,

died this morning at an early hour. He

had been ailing for some time, and the past

four weeks has been very low. The cause

of death was malarial poisoning. He was

a well-known farmer, having been born

almost on the place where he lived. His

farm is right on the Proof Line and the old

homestead is near by. His wife is still liv-

ing, and a family of three daughters and one

son survive him. They have the sympathy

of a large number in their sad bereavement.

The deceased was a member of the Metho-

dist Church and a staunch Reformer. He

was also a member of the Woodmen of the

World. The funeral will be held on Sun-

day afternoon at 2:30.

Burke and Wilson Committed.
On the evidence at the coroner's inquest

John Burke and James Wilson, the men
charged with the assassination of Detective

Phair, were this morning committed by the
justice magistrate to stand their trial at the

next assizes.
Eloped With the Hog Money.

The Port Huron Times of Thursday says:
"David Wilson, of Sanilac county, was a

visitor to the city on Wednesday. He told
Times representative that he had been

married eight years, but for the past few
weeks his wife has seemed to think more of

his hired man, George Stockwell, than she
does of him. Tuesday the two disappeared.

A note was left behind, saying that they
intended to spend the remainder of their

lives together and in distant State. Wil-

son said, 'I wouldn't feel so good darning
bad about it if they hadn't taken with them

the \$163 I had just received for my season's
hogs.' Wilson left last night for London,

where his wife has relatives, and where he
expects to find the guilty parties living in a

'distant State.'

On the Free List.
An order-in-council has been passed pro-

viding for the entry into Canada free of
customs duty of horse hair when, besides

being cleaned as provided for free admis-

sion under the terms of tariff item No. 279,
it is also dipped or dyed. Such exemption

from duty will only apply to cases in which
the horse hair so cleaned and dipped or

dyed has been imported by a manufacturer
of horse hair clothing for use in his own

factory in the manufacture of such arti-

cles. Importers claiming exemption
from duty on the articles named will be

required to make affidavit.
