VOL. XXXI., NO 81.

SATURDAY EVENING, JANUARY 27, 1894.

Marks the Meeting of William and Bismarck.

The Emperor Hugs and Kisses His Old-Time Opponent.

Military Prisoners Released in Observance of a Royal Birthday.

Report That Archbishop Corrigan Has Been Summoned to Rome-The Khedive Must Behave Himself.

Sent For.

Rome, Jan. 26 .- It is reported here that the Pope has summoned Archbishop Corrigan, of New York, to Rome. After King Lo.

LONDON, Jan. 26 .- A Cape Town dispatch to the News says that Commissioner Loch has sent Goold Adams with 500 men and four Maxime guns to bury the bodies of the men of the Wilson party and then to search for King Lobengula.

Fatal Boiler Explosion.

PARIS, Jan. 26. - A boiler in a laundry at Boulogne-sur-Meine, a suburb of Paris, exploded to-day, partly wrecking the building. A number of women were caught under the debris. One has been taken out dead.

Emperor William's Birthday.

BERLIN, Jan. 26 .- In observance of his birthday the Emperor has granted an amnesty to all military prisoners who were sentenced to less than three weeks' confinement, and whose offense did not consist of ill-treatment of subordinates.

Settled.

London, Jan. 26.—The last Egyptian incident is generally regarded as closed by the Khedive's declaration. The gist of the editorials published this morning is that the Khedive must understand the warning that Eugland cannot and will not tolerate the deliberate defiance of her authority in head and wounded him in the face. The

Suicide Followed Influenza.

London, Jan. 26. - The Vienna correspondent of the Standard says: Constance Fenimore Woolson committed suicide on Thursday by jumping from the window of a house in Venice, where she had resided seven months. Death was almost immedate. Miss Woolson had suffered from influenza for four days, but she had been eccentric for a longer period.

The Parish Councils Bill. London, Jan. 24 .- A meeting of Conservative peers was held to-day at which the policy of Lord Salisbury in regard to the Parish Councils Bill was approved. Lord Salisbury stated in the House of Lords yesterday that while he approved the general principle of the bill he might feel obliged to insist upon an amendment in committee of the clauses dealing with ecclesiastical charities, the poor law and land allotment. It was also decided to amend the Employer's Liability Bill so as to allow the members of trades having workingmen's insurance fund partly supported by the masters to exempt them-

selves from the provisioni of the bill. Kissed the Old Man's Cheek.

BERLIN, Jan. 26 .- When the Bismarck party arrived at the castle Prince Bigmarck and Prince Henry descended from the state coach and entered, the Emperor, who was standing at the foot of the stairs to receive his guest, wore as a special mark of honor the uniform of the Bismarck cuirassiers. His reception of the old statesman was of the warmest and most cordial manner, His Majesty embraced the prince with the utmost heartiness, and a kiss on the ol man's cheek sealed the reconciliation between the Emperor and the greatest of his subjects. Prince Bismarck's gravity of demeanor during his reception by his Majesty was much com-

Luncheon was served in the Emperor's private room at 1:45 o'clock. Covers were laid for only three persons, the Emperor, Empress and Prince Bismarck. After leaving the palace, the people, who were densely massed in the vicinity, broke through the police lines and tried to unhitch the horses harnessed to the Prince's carriage. They wanted themselves to draw him back to the castle. The police, however, prevailed upon them to forego their intention. The crowd was so thick that it was impossible for the horses to go faster than a slow walk, and as the carriage moved along the crowd surged along with it, everybody singing patriotic songs. At 6:15 o'clock dinner was served in one of the rooms set apart for Prince Bismarck's use. The Emperor took dinner with the Prince.

As previously arranged Prince Bismarck's started on his return to Freiderichsruhe. At exactly 7:10 o'clock the Prince appeared, leaning on the Emperor, and together they entered the carriage. Then broken and doctors entertain little hope of amid the blare of trumpets the drive to the his recovery. station commenced. The crowds still lingered along the streets and cheer after cheer was given as the Emperor and the Prince and the military calvacade swept along. The train for Freiderichsruhe left the station at 7:25 o'clock. When the Emperor and the Prince entered the royal waiting room his Majesty threw his arms about the Prince and embraced him repeatedly.

His Majesty celebrates the anniversary of his birth to-morrow. To-night most of the illuminations prepared in honor of the Emperor's birthday were displayed.

Commenting upon the reconciliation between the Emperor and the Prince the North German Gazette (semi-official) says: "It is nearly four years since the Emperor has been face to face with Prince Bismarck. To-day the Prince will be his Majesty's guest, and the ex-Chancellor will realize that the gratitude of the court and the people for his incomparable services remains unaltered. Every patriot thanks the Emperor for preparing so joyful a day for Germany. May this feast of reconciliation bear

arrived in Friederichsruhe at 11 o'clock. He looked cheerful and hearty. The road from the railroad station to the palace was illuminated.

Among Berlin correspondents on the London dailies the concensus of opinion is that the Emperor has greatly increased his personal popularity by his courtesy to

Vaillant's Fate Sealed.

PARIS, Jan. 27 .- The Court of Appeals having sustained the sentence of death upon Auguste Vaillant, who threw the bomb in the Chamber of Deputies, the only hope he now has of escaping the guillotine is in President Carnot, who has it in his power to either pardon Vaillant or commute the sentence. As yet, however, Vaillant has not signified any intention of asking for clemency.

Will Satolli Be Recalled?

Rome, Jan. 27 .- A report is in circulation in the German diplomatic circle here to the effect that Mgr. Satolli, the apostolic delegate to the United States, is to be recalled, owing to the failure of his mission and to his having incurred the hatred of both Catholics and Protestants. In Vatican circles the circulation of this report is taken as an indication of a desire to combat the Papal policy and to create confusion. Berlin En Fete.

BERLIN, Jan. 27 .- To-day is the 35th anniversary of the birth of Emperor William, and the whole city is en fete in honor of the occasion. The houses that were decorated in honor of the visit of Prince Bismarck retain their flags and guard has been well whipped." buntings and all the Government and municipal buildings are handsomely adorned. The celebration of the occasion began at midnight by the pealing of all the church bells and the firing of an Imperial salute by the artillery.

French Occupy Timbuctoo.

Paris, Jan. 27 .- A dispatch to the Journal des Debats from St. Louis, Senegal, states that a French military column has occupied the city of Timbuctoo. The French forces, it adds, occupied the city without esistance. The paper lays great stress upon the importance of the French occupation of the city. Timbuctoo, it points out, is the chief religious city of the Western Soudan, and is the leading trade center of that vast territory.

Barcelona's Governor Shot.

BARCELONA, Jan. 27 .- As the Civil Goventrance to the Prefecture yesterday, a workman fired a pistol at the Governor's Governor's secretary promptly seized the assassin, who loudly proclaimed himself an Anarchist. He had an accomplice, who escaped in the excitement. A dynamite explosion took place to-day in the harbor works. Two persons were killed and several injured. The outrage is attributed to Anarchists.

FENCES BURNED FOR FUEL.

Suffering in Indiana Owing to the Failure of the Natural Gas. Indianapolis, Jan. 27. - The natural gas supply in the suburb of West Indianapolis gave out Wednesday night, and for ten hours the people of the suburb were without any fire except what could be made by burning old plank and fencing. None of them had any coal on hand and the houses were as cold as barns. In a number of cases the residents tore down their fences for fuel, and in others planks were torn off the barns. The residents put their children to bed, and many of them suffered from the extreme cold, the mercury gradually falling till it stood 9 degrees below zero. It appears that there was some trouble with the regulators that shut off the supply. The regulators were examined and a supply of gas turned on, but it is so weak that it does not warm the houses.

Stole Cash and Cashier.

GUTHRIE, Okla., Jan. 26 .- Three members of the Dalton gang rode into Pawnee last night and entered the bank, but finding the safe locked with the time lock took \$100 out of the cash drawer and rode away, carrying the cashier on a horse three miles into the country and compelling him to walk back.

The Baby Died, Too. AUBURN, N. Y., Jan. 27.—The Keller infant in arms, which was shot by its mother Thursday night, died last evening, making the third victim of the tragedy. Mother, mother-in-law and child will be buried together to-morrow. The coroner's jury found that the mother committed the

murders and suicide while insane. A Deadly Dispute. New York, Jan. 27.-Robert Johnson and Charles Allen, colored coachmen of Elizabeth, N. J., got into a dispute while drunk on Wednesday night over the respective fighting merits of Corbett, Mitchell and Peter Jackson. They finally drew revolvers and fired at each other. Johnson was hit in the thigh, and may lose his leg. Allen was shot in the abdomen

and may lose his life. A Terrible Accident. STONEY POINT, Ont., Jan. 27 .- W. Welsh, ex-reeve and grain merchant of

Stoney Point met with a severe accident at 5:30 last night in trying to adjust a belt in his grain elevator. It slipped off the stay was short and at 7:10 this evening he pulley and caught him around the neck. He was wound around the main shaft and made several revolutions before the engine could be stopped. The breast bone was

Russia Will Buy in America. PITTSBURG, Pa., Jan. 27.-S. Theodore Mertinage, a former captain of the Russian navy, and at present naval attache for the Czar's Government, with the Russian legation in Washington left for the city last night after a visit here to inspect the gun projectiles made in Pittsburg. When asked about his visit he said: "At present Russia huys armor plate and projectiles in Europe. Whether my Government intends to purchase any in this country I do not know. I was ordered, however, to report the facilities for shipment to Russia. We have never before looked to America for naval armament, as your industries in this line are only of recent development. The secret of the preparations for defense which are being made by European nations is that none of them wish to be caught unawares by their neighbors." It is intimated here that the Russian

Government is likely to place heavy orders in this country soon for naval supplies.

Steamers Arrived.

London Newspapers Express No Sympathy for Mitchell.

The Fight Was "a Dirty Sample of a Dirty Business."

Arrangements for a Local Hockey Match on Monday-Curling and Other Sporting News.

ATHLETICS.

AFTER THE FIGHT. Corbett is required by his bond, which is for \$5,000, to be present and stand his trial at Jacksonville, Fla., on Feb. 28.

London newspapers, in their comments on the prize fight in Florida Thursday, express no sympathy with Mitchell in his defeat. The Evening Standard says that the fight was a peculiarly dirty sample of a dirty business.

The St James' Gazette says that the modern prize fighter seldom fights. He would rather wear dress clothes, drink champagne and converse with sporting re porters. The Star says: "Now that Corbett has

pricked the Mitchell bubble we will probably hear less of that cowardly ruffian for a time. The only satisfactory feature of the degrading exhibition is that one black-Corbett, in speaking of the fight, said:

'I am sorry I gave way to my bitter feelings toward him, as it made me look as though I fought without the slightest judgment; but it's all over now, and I bear Mitchell no malice. JACKSON VS. CORBETT.

PITTSBURG, Pa., Jan. 26 .- Peter Jackson said this evening in reference to the report that he would meet Corbett before the National Sporting Club in England that he knew nothing of such an arrangement, but is willing to meet Corbett there if necessary. The agreement is that the match is to take place where the largest purse will be paid.

THE DUVAL CLUB COLLAPSED. JACKSONVILLE, Fla., Jan. 26.—The Duval Athletic Club no longer exists. It broke up in a row to-day. Some hard names passed between one of the members and Bowden, whose management was severely ernor was entering his carriage at the criticised. Bowden has washed his hands of the whole business. The other members of the club are going to reorganize with outside capital. The club took in about \$31,000 from admissions. They will come out about even unless they are put to heavy expense in defending the prosecutions which have been brought. CORBETT'S MONEY.

JACKSONVILLE, Fla., Jan. 27.—Before ton bank to be placed to his order. The bills, which he presented to his trainers, seconds and friends. As he stepped aboard the train the champion was presented with a gold watch charm in the form of a globe representing the world; on this was inscribed: "To James J. Corbett, champion ot the ---," the last word being supplied by the globe itself. A LOCAL EXHIBITION.

A large crowd assembled at the Forest City Athletic Club rooms Thursday evening to witness the athletic entertainment given by its members.

Messrs. Beling and Minhinnick, middleweights, opened with a three-round boxing contest, which was much appreciated. Mr. Ollie and Mr. Bolton gave a very neat exhibition of sparring, and deserved the applause they received. To the amusement of the spectators Mr. Sharkey's and Mr. Tracy's colored attendants gave a very funny exhibition of the manly art, with honors about even. Bill Harding handled the clubs like an old-timer, and won wellmerited applause.

Next came a three-round contest between Messrs. Alex. Furness and J. Welch, lightweights. It was a very lively set-too, keeping the audience in roars of laughter. The wind-up between Jack Crawford and Jack Chevasse was very interesting, Crawford showing up to great advantage over his opponent. Too much cannot be said of the untiring efforts of Mr. Al. Furness and Mr. Crawford to make the affair a success. No doubt a big house will greet the club next time. Mr. Gavin Park acted as referee to the satisfaction of all. THE CUE.

DEATH OF BILLY BURLEIGH. KALAMAZOO, Mich., Jan. 26.-William Burleigh, once a famous billiard and pool player, died here of consumption this morning.

HOCKEY.

A LOCAL MATCH. The first hockey match of the season in London will be played at the Princess Rink Monday evening. It is a return game between London and Petrolea. The latter team was defeated by London prior to the late unlamented thaw, and are coming here with the commendable intention of getting even. The local club will do its best to disappoint them in a friendly manuer. The contest starts at 7:30 p.m. and ends at 8:45. After that spectators may skate for half an hour. They should turn out in large numbers to give the knights of the shinney as warm a reception as is possible in an ice rink. It will be a lively battle. CURLING.

Prospect Park defeated Brampton at curling on Friday by 76 to 44. GALT GETS AWAY WITH HAMILTON,

GALT, Ont., Jan. 26 .- A friendly match was played here to-day between the Hamilten Thistles and Galts, four rinks a side. The home club winning a very enjoyable game by 9 shots. THE TURF.

HAS GOT WISDOM. Dr. G. J. Fitzgerald, of Lucan, brought three valuable horses home with him from Brooklyn, N. Y. The chief and most valuable one is Wisdom, a full brother to Fantasy, record 2:083. The other two have well known pedigrees: Esquimaux, a race horse by Duke of Magenta, a prominent English turf winner; and the other, Temple, by Tremont, a horse never beaten. Mr. Fitzgerald has been to New York, visiting his son, Chris, chief sporting editor of the New York Sun. The latter witnessed the Corbett-Mitchell fight and reported the details for the Sun. Mr. Fitzgerald, the father, will shortly move to London, having decided to locate here. THE KENNEL.

morning. Loss on building \$700. The household effects down stairs were saved. HALIFAX, N. S., Jan. 26 .- Fire late tonight destroyed a building in upper Water street owned by Senator Power and occupied by John H. Phillips, hatter, and a number of tenants. Loss about \$5,000. The tenants had a narrow escape.

A GIRL THIEF.

The Ringleader of a Gang of Robbers-Her Novel Scheme.

New York, Jan. 27 .- Carli Petersen, s pretty Swedish girl, 17 years of age, was a prisoner in Jefferson Market Court yesterday on the charge of heading a gang of thieves that have been looting residences on the west side. She is slight, with an open, honest face that made a strong contrast with the bedizened women who were prisoners in the same line.

A Monograph on Hamlet. There were about 80 persons present at a Shakesperian evening in the school room of St. James' Presbyterian Church last night, in which members of the Ninety Three Reading Club and the South London Reading Club took part. Selections from "Hamlet" were recited by Miss Connell, Mr. G. N. Weekes and Mr. John Andras. The latter gentleman, who is principal of the Huron Boys' College, then read a remarkably fine treatise on the immortal play. It was entitled "A Monograph on Hamlet," and was interesting and suggestive, containing, as it did, a philosophical treatment of the tragedy. A discussion was indulged in by Messrs. G. N. Weekes, John M. McEvoy, and Rev. M. P. Talling.

The Middlesex County Council Concludes Its Labors

After a Busy Four Day's Session-Bridges Recommended for Construction -Other Business,

Friday Afternoon.

At the meeting of the council this after-

noon the report of the road directors was

brought up and discussed. It was the second report of the directors and recommended (1) that no action be taken on the resolution re building of a bridge at Kilworth; (2) that in regard to the petition of the residents of London West re granting the street railway company privileges to run horse cars over Kensington bridge, under well-defined regulations, the prayer of the petition be granted; (3) that the chairman of the petitioning committee be instructed to draft a petition in accordance with the request from the county of Grey, to be forwarded to the Legislative Assembly; (4) that no action be taken in regard to the resolution of Deputy Reeve Scarrow, asking that a bridge be constructed over the River Thames at the Wharncliffe road; (5) that no action be taken in the communicathat the report of the Proof Line Road Company be filed.

The second clause created some discussion. Mr. Elson strongly objected to such privileges being granted. He said that it would be very dangerous, and were a netition against such action circulated through the western portion of the county it would be almost unanimously signed.

Reeve Spence and Deputy Reeve Scarrow both defended the clause, and spoke in its support. Mr. Spence said that such a change would create no more danger than at present, when a big 'bus is in use. It would, in fact, be a great benefit to the public in general, and especially for Lon-

don West. Mr. Hardy tried to show "inconsistency" on the part of Mr. Scarrow by saying that the latter on their return from a tripon Thursday had piloted them through the village and over the bridge.

Mr. Scarrow-The reason of my piloting you through was because you were all right on gravel roads in the country, but when you get into a large place like Lon-

don West you get lost. After a good deal of cross-firing the third clause was struck out and the following supplied in place of the second: "That a committee be appointed, consisting of Messrs. Gilmour, Elson, Scarrow, Steele and C. C. Hodgins to consult with the City Council or a committee therefrom for the purpose of considering the propriety of said they had been robbed. In each granting the request of the street railway case the theft had been committed company and also to consider the terms on by a servant girl, who would remain which such petition should be granted, the

The to township councils the power to have the assessment of the township made triennistolen is so great that it is believed the ally instead of annually, and to grant to township councils power to unite the offices of treasurer and collector; the request of the first and second clauses be granted, but no action in the third; (2) that no action be taken in the communications from D. J. Walker in re the appointment of county officials; the Single Tax Association and the request re reduction of fees of county

officials appointed by the Legislature; (3) that the petitions from the county clerk of Grey re passenger rates on railways and the resolution of Messrs. Hull and Scates be granted. Report adopted. County Treasurer McEvoy presented an abstract statement of the receipts of Middlesex county from Jan. 1, 1893 to Jan. 6, 1894. From 1892 there was a balance of \$32,094 33, and the proceeds of the sale of debentures amounted to \$43,850. The total receipts were \$188,755 46, and was mads up of county rates, wild land taxes, interest

account, division court fees, jail maintenance account with the city, city re London East debt, and numerous other items. The treasurer's statement of disbursements was also submitted for the same period. The total amount appropriated was \$143,541 40, made up of redeemed debentures, \$45,000; redeemed coupons, \$32,615; and various other items, leaving a cash balance on hand of \$44,213 06. Both

were adopted. The first report of the house of refuge committee recommended that the tender of E. F. Parsons for beef be accepted at \$5 50 per 100 pounds; that a number of accounts be paid, and that the amounts named as the grant towards the insane and destitute be paid to the local treasurers where said persons resided. Adopted.

The finance committee presented their second report, recommending that the jail surgeon be paid \$1 for examination of prisoners; that the usual grant of \$100 be made to the Twenty-sixth Battalion Band; that the treasurer's statement of nonresident land fund be filed; and that a model school grant of \$150 be made to the railway from Winnipeg, Man., to Louis-Strathroy School Board for 1893 and a similar sum for 1894. Adopted.

A motion by H. Owens and D. Gillies that a night watchman be appointed at the House of Refuge, a quantity of hose be supplied and several repairs made was

Five motions were referred to the educational committee. They were all in A motion to reconsider the petition for the erection of a bridge between Caradoc

and Delaware was referred to the road directors. The council adjourned till 9 o'clock in the morning, when it is expected the business will be disposed of in short order.

Saturday Morning. The January session of the Middlesex County Council for 1894 is concluded. It resumed at 9 o'clock this morning and conducted business till 12, when, all business having been completed, an adjournment was made until the first Tuesday in June. The members of the council were highly satisfied with the manner in which the new warden fulfilled the duties of his office, and he secured many congratulations.

Report No. 3 of the road directors recommended that in regard to the tenders for an iron superstructure over Doty's creek on the town line between Nissouri and Dorchester on the Governor's road, the tender of G. & J. Brown, Belleville, for the sum of \$898 40 be accepted, said bridge to be completed on or before July 1, contractor to forfeit \$15 per day for every day thereafter, and should the said company refuse

to sign the contract the tender of the Central Bridge Company be accepted that a sub-committee consisting of Messrs, Scates, Campbell and Hardy (for the west), Duffin, Robertson and Dreaney (for the east), Morgan, Corbett and Augustine (for the north), act in conjunction with the engineer in opening tenders for bridges; that a committee of Messrt. Dreaney, Duffin, D. Campbell, the engineer and chairman of the board be appointed for the purpose of locating the site of the bridge asked for by the ratepayers of Caradoc and Delaware, report to be submitted at the June session.

C. C. Hodgins and R. Dreaney moved

that it be referred back with instructions to amend the first clause by awarding the contract to the Peterboro company. Lost; report adopted.

From the report of the jail committee it was seen that the institution had been visited and everything found in a satisfactory condition. Twenty-two prisoners were confined therein-nineteen males and three females. The report also recommended that no new handcuffs be supplied; that no action be taken in the request of the Law Association re changing of library. Several minor improvements in the buildings will also be made.

Three tenders had been received for the county printing, and the contract was given to the Strathroy Dispatch.

Recommendations for appointments in the second report of the educational committee were as follows: 1. That James Sadler be appointed trustee on the Lucan High School Board. 2. That the resignation of Thos. Hossack, M.D., be accepted, and that J. R. McCombs be appointed in his place on the Lucan board. 3. That James English be re-elected on the Strath. roy Collegiate Institute Board. 4. That W. G. Lumley, M.D., be appointed to the Glencoe board. 5. That Howard Gardner be appointed to the Wardsville board and Thomas Glasgow to the same board in place of Thomas Harold. Adopted.

An important resolution was moved by J. A, Leitch and C. C. Hodgins as follzene That in the opinion of this council it would be in the best interests of this county to have all county officials appointed by the county council and that the said officials be paid a salary commensurate with the services rendered, and that a copy of this resolution be forwarded to the representatives of this county in the Ontario Legislature." Carried.

In regard to the resolution of the reeve of London West, the house of refuge committee recommended that Mrs. Smith be granted \$100 for the keeping of three indigent per-

sons. Carried. The following committee were appointed to act in conjunction with the hospital trustees on matters connected with the institution: Messrs. Elson, Murray, Wilson, C. C. Hodgins and Scarrow.

The first report of the committee re 100foot bridge recommended that the county pay its proportion of cost of repairs to Bice bridge on con. 8, McGillivray. Plans had been submitted to the committee for the following bridges: For bridge over the Sauble River on con. 18, East Williams; for bridge over the Sauble River, between cons. 4 and 9 of McGillivray, this bridge to be an iron superstructure and concrete abutments. It was recommended that both be approved of.

The special bridge committee, appointed to report re changing site of Byron bridge, and to whom their report of yesterday was referred back, reported that the contract for the erection of a stone pier for the said bridge be not awarded; that the bridge be allowed to stand over for another year, and in case it was swept away by a spring freshet the committee advised that it be replaced by a wooden structure, as it was thought unwise to erect a permanent bridge on the present

site. Adopted. Wm. Caw, M.D., was reappointed high school trustee for Parkhill high school. Carried.

The name of Henry Hardy was also added to the committee to act in conjunction with the city re street railway matters.

The Rome, Watertown and Ogdensburg Railway Company has declared a dividend of 11 per cent. on the capital stock, payable on and after Feb. 15. An application will be made to Parlia-

narrow eacape for his life, which was the outcome of a bold attempt to break jail. James Dougherty, better known as "Mary Anderson's lover," shot a Dr. Lloyd at Flatbush, L. I. He was sent to Auburn, thence to Mattawan. Nolan opened the hall door which leads to the corridor, when Dougherty and a man named Frederick Bennett forced their way outside. Dougherty placed a handkerchief over Nolan's mouth to prevent him from giving any alarm. Nolan now being at their mercy, they wrenched the keys from his hand, opened the door of his private room and forced him inside. Then they took his key and prepared to escape. Nolan was en approved indorsed paper, with interest at 7 per cent, List on premises and with Messrs. Gibbons, McNab & Mulkern, London. C. B. STARVED TO DEATH! Sad Fate of One of Barnum & Bailey's

Former Employes. NEW YORK, Jan. 26 .- John Reilly, 40 years old, formerly a canvasman with the Barnum & Bailey show, died from starvation to-night in Bleecker street. Reilly had been out of work for a long time, and was waiting for the circus season to open, livin the meanwhile at the mission and lodg-

ing house in the Bowery. He had not a cent to-day, and told the people at the mission to-night that he had eaten nothing for two days. He was given a ticket for a meal in the soup house of the Industrial Christian Alliance on Beecker street. While on his way there he fell from exhaustion and loss of nourishment.

He died within a few minutes. An ambulance surgeon said death was caused from want of food. Nothing save the meal ticket was found on the body when it was searched.

May Hold a Dinner-Postoffice Doors Again-The Car Shops Matter-Registered Letters-The Street Railway Deadlock-Ex Mayor Taylor Resigns.

The matter of the entrance to the postoffice bobbed up again serenely at the monthly meeting of the Board of Trade last night. "It's the meanest entrance in Canada," said Mr. Greer, "and it's a perfect nuisance." Continuing, Mr. Greer stated that the postoffice people were willing to place the letter-box in the desired position but would not change the doors. It was a

disgrace to the Government, he said.
Secretary Nelles—Mr. Moore states that the doors were made for the convenience of the inside not the outside, and the inside claim that it was not; that they have not half room enough as it is.

ENGLISH ESTATES FRAUDS.

The Old Story-How Shysters Succeed in Bleeding Their Fortune. Hunting Victims.

TORONTO, Jan. 26 .- There is scarcely a day passes but reports become current to the effect that large amounts of money are awaiting claimants in England. In nearly every case the rumors prove false, and

the Queen's Bench Court, London, Eng. It prove that one Hager Lawrence, a poor ship carpenter, of Troy, N. Y., was the Jacquess returned to America, and, it is Cassels. They gave it as their opinion that if Lawrence could prove his parentage the estate would go to him. Lawyer Thomas \$75,000. Two years ago the case of Lawrence was dismissed by the House of Lords as frivolous and vexatious, and permission was then asked to commence another suit against the Earl of Abingdon, who retains possession. The Lords refused to allow another suit to be instituted. Then Jaquess asked that Lawyer Thomas should give an account of the \$75,000 he had received, but Thomas does not seem anxious to do this. Jaquess brought suit against Thomas last week, and yesterday Mr. Justice Collins declared:

"There is a question whether Jaquess is entitled to the assistance of this court. That depends on whether Jaquess was a party to the gross fraud admitted by Thomas to have been carried out by him. The master has investigated the matter, and I do not disagree with his finding. I could not take upon myself to say that Jaquess is fraudulent, but I am not certain that he is clear of fraud, and I should be sorry by my judgment to place any obstruction in the way of persons who may have any right as against Jaquess. It must not be thought that this court has absolved Jaquess from all suspicion of fraudulently combining with Thomas."

It would appear that the claimant Lawrence did not bother his head about the case, but left everything to Jaquess, who seems to be out \$75,000 on the deal. He can't find Thomas now, and will probably return to America a sadder but a wiser

A Dear Baby Saved!

A Toronto Mother Speaks.

The Statement Indorsed by a Wellknown Druggist.

When babies fail to thrive upon cow's milk-when they become weak and puny, and sicken when fed on common prepared foods, then does Lactated Food, when used, show its great superiority over all other forms of infant nourishment.

Lactated Food can justly claim that it "Saves babies' lives." The proprietors of Lactated Food have abundant proof to show that after other foods failed to sustain life, the Lactated Food made strong

and fat the weak and emaciated babes. Mrs. Boddington, of Toronto, makes a statement regarding the virtues of Lactated Food; she says: "I used cow's milk, but baby did not thrive. I afterwards commenced using your Lactated Food, and found that baby soon improved, and has since been contented and well."

The above statement is vouched for by Mr. A. P. Stirrett, druggist, Dundas street, Toronto, Ont.

"Basil Labeuf, will you tell us how you came to set fire to the barn," said Crown Attorney Clark.

"On Monday," replied the witness in a firm voice, "I was in the barn of the Stuart House, when Charley Stuart called me to one side and said, Do you want to make \$5?' I told him that I would like to do so. Then he called me out of the bar and said, 'I have just got a letter from by brother Fred, who is awaiting trial at Buffalo, and he told me to get this done, as it will help him in his case. There is no danger, and I will get you the ball of twine to do it. He wendinside and came back with the ball, walked with me as far as the barn and said he would give me all the money I wanted. After telling me to run home as soon as I started the fire and to come back when the bells rang, he left me. I did as I was told, and Stuart went back to the bar."

Lawyer Hanna cross-examined that witness, but failed to shake his testimony. This concluded the evidence and Mr. Hanna asked that the amount of Stuart's bail be fixed. "I commit the prisoner for trial," said Magistrate Bartlett, "and will have to refuse bail, as the offense charged is one where there can be a sentence of imprisonment for life. The judge may do so, but I will not."

LONDON MANUFACTURERS AND THE HIGH TAX POLICY.

The Toronto Manufacturer still professes to be very much astonished that the ADVERTISER should keep a standing announcement of the advantages of London as a commercial and manufacturing center in its columns, and yet regard the policy of high taxation as inimical to the best interests of the city. Our contemporary makes believe that the manufacturers of London are united in asserting that they are puny, helpless infants, unable to hold heir own in the business world unless granted special advantages at the expense of the general taxpayer. It exclaims in effect, "How can the ADVERTISER have the hardihood to advocate the changing of the high protective policy for a tariff for revenue only with free raw materials when it knows that the manufacturers of London say they cannot prosper except they have a 'protective' tariff?" Our reply has been and is that while a portion of the manufacturers of London are in favor of a "protective" policy, as against a tariff for revenue only, and are entitled in this free country to so maintain, another portion-which we have roughly stated at one half-are in favor of the Liberal trade policy. The Toronto organ challenges us to the proof, and incidentally mentions the names of six Londoners who, it asserts, are opposed to our views. Of these one has not been a manufacturer in London for many years, and his vocation is now simply a commercial traveler for a Petrolea oil concern, while another signed the nomination paper of Mr. C. S. Hyman, M.P., a short time since. This leaves four London manufacturers that our contemporary professes to believe would be unable to do business except under a "protective" tariff! And it challenges us to produce the names of manufacturers who adhere to the Liberal policy of extending trade, not by restricting the business of the country by vexatious tariff impositions, but by supplying raw material free, and by imposing such taxes only as are needed to economically conduct the public business. The most convenient list at our hand is that of the manufacturers who indorsed the Liberal policy by signing Mr. Hyman's nomination paper in the late bye-election for the Dominion House of Commons. Here it is:

Frank E. Leonard, senior partner of E. Leonard & Sons, manufacturers;

John J. Magee, manufacturer; John Smith, carriage-maker;

John Campbell, carriage manufacturer; John Ferguson, furniture and casket manufacturer:

John Marshall, hat, cap and fur manu-

Wm. M. Spencer, oil refiner; D. S. Perrin, biscuit and confectionery manufacturer;

David Schwaitzer, manufacturer;

R. C. Macfie, manufacturer: Jas. Kilgour, furniture manufacturer:

John Clark, boot and shoe manufacturer, R. Lewis, stained and other glass manuacturer:

Geo. Burns, clothing manufacturer; W. R. Hobbs, beveled glass, stained glass and mirror manufacturer;

Thos. S. Hobbs, beveled glass, stained glass and mirror manufacturer:

John M. Dufton, woolen manufacturer; R. W. Bennett, furniture manufacturer; Wm. Stevely, manufacturer plumbers' furnishings, etc.;

A. Smith, eigar manufacturer;

H. McKay, cigar manufacturer; D. W. Blackwell, furniture manufacturer;

O. E. Brener, eigar manufacturer. We trust our contemporary is satisfied with this list. If it is not we believe that t can be added to. It certainly shows it says that the Toronto organ of the mon- of the Administration dare not do so polists misrepresents the situation when openly.

it claims that the independent manufacturers of London are all on its side. We hold that these men are competent to iudge as to whether the "N. P." has or has not been a failure, and they have declared that a change is necessary.

Our Toronto contemporary simulates in-

dignation because the ADVERTISER claims

that the tariff enables some manufacturers to profit at the expense of their fellowsnot all, recollect, for the tariff has distinctly injured the business of not a few independent manufacturers, as that stalwart Canadian maker of implements, John Watson, of Ayr, long since prophesied it would. It is particularly wrathy because we adduced Massey, of Tororto, and Drummond, of Montreal, as men who had unduly made large profits out of the operations of the tariff, to the detriment of the country at large as well as the smaller cities, and it deftly tries to have us make all the manufacturers co-defendants with these two millionaires by the grace- of the high tax policy. We respectfully decline, and we will give our reasons for saying that these two beneficiaries have been specially favored. When the N. P. came into force, Massey was comparatively a poor man. He is now a millionaire and able to present a hall costing \$100,000 to the citizens of Toronto. The tariff on agricultural implements has been maintained at 35 per cent, to enable him to accumulate this wealth, If the tax had been left at 15 per cent., or even at 25 per cent., Massey would have had to be contented with his hundreds of thousands instead of his millions; the Toronto people would have been without their music hall, or would have been compelled to subscribe for it themselves; there would have been less inducement for Massey to buy up the smaller implement making concerns, and other cities would have been benefitted; the farmer would have been able o purchase his implements at a cheaper rate; he could have money in his pocket that goes to enable Massey to pose as a philanthropist for the benefit of Toronto; and the money thus left in the possession of the farmer would be spent, not in Toronto, but in the purchase of commodities manufactured in London and other centers of

population. So much for Mr. Massey.

As for Mr. Drummond, he is the head of the sugar combine, and we purpose having no very long argument with his Toronto sugar manipulator is a disinterested, patriotic "protectionist." But the other it has never recanted, that the Canadian be imposed for the maintenance of crimrefiners of sugar take from \$600,000 to \$800,000 a year out of the people of Canada, by aid of the "protective" tariff that it now regards as sacred, more than even it regards as fair "protection." The Canadian tariff has not since been changed. It certainly permits the refiners to charge 80 cents for every 100 pounds of refined sugar sent out more than British sugar could be bought for. The "protection" in the United States, under the McKinley tariff, is but 50 cents per 100 pounds. The Canadian Manufacturer has maintained that the "protection" given to the United States refiner is far too large, and it has protested against the powers given to Senator Drummond and others to tax the people to a much greater extent. Yet it pounces upon the ADVERTISER as an enemy of the London manufacturers because we adduce the chief of the sugar refinering manipulators as an instance of high tax injustice that injures the consumers at large and the legitimate manufacturers who do less business here because of the wholesale drain of money to Montreal. Our contemporary would have been more discreet if it had confined itself to a general advocacy of the high taxation system as an enricher of the people. When it gets down to particulars it is certain to land in

-The great interest taken in the Corbett-Mitchell prize fight proves that the love of the brutal yet prevails to a very considerable extent in every community. Prize fighting is but one remove better than bull baiting. Many men who express disgust at the low civilization of Spain and Mexico, where they have their Sunday bull fights regularly, read every detail of the prize fight, in which men, not bulls, pound and lacerate each other till the upper portions of their bodies are often past recognition. The evolution from the barbaric in sport proceeds but slowly. What would happen but for the repression provided by law?

MUST HAVE VOTE BY BALLOT. Mr. Martin, M. P. for Winnipeg, during his recent trip through the Northwest, found universal dissatisfaction with the high tax policy and with the persistent refusal of the Dominion Government to let the people vote by ballot at Dominion elections. Mr. Martin has promised to bring in a bill at the ensuing session of Parliament, providing for the holding of the elections in the Northwest under the same ballot law as in other parts of Canada. The reform has been too long delayed. In the last campaign, the absence of the ballot enabled the Government at Ottawa to exercise a tyrannizing influence over many electors who were inclined to vote against the Advertiser is not far wrong when the high tax policy, but being in the power

SCHOOL BOOK REFORM. When Dr. Ryerson left the Ontario Education Department there were no fewer than 57 different text-books in the Ontario public schools! Hon. Geo. W. Ross succeeded in reducing the number to ten, all of which are more attractive and cheaper than similar works under the old regime. Chairman Dewar, of the London School Board, never uttered a truer sentiment than when he said that in recent years there had been vast improvements in our educational facilities. Let the progress continue.

-The Toronto Empire claims, in its news columns, that reciprocity in coal will have the effect of reducing the price of soft coal in both Canada and the United States. And reciprocity in many other articles would have the same result. Freedom to buy and to sell always benefits the masses.

BINDER TWINE TO BE CHEAPER. A good deal has been said and written about the manufacture of binder twine at the Central Prison for the use of Ontario farmers, and not a little misrepresentation has been indulged in recently by those interested, for selfish purposes, in decrying the Ontario Administration. Hon. John Dryden, Minister of Agriculture, the other day addressed his constituents on this and kindred subjects. He lucidly explained how the Government had undertaken to supply the farmers with this commodity. Brickmaking, he said, had played out for want of clay, and as it is desirable to keep the prisoners employed this new industry was put in its place. And another explanation was that farmers were the victims of a huge monopoly, and the Government determined to aid them in getting cheaper twine. "Monopolists," continued Mr. Dryden, "tried to prevent the Government from getting the machinery, and, therefore, unexpected delay in beginning the manufacture was the result. In future they had decided to manufacture only one quality of twine, and that the best grade. The output last year did not exceed \$100,000 worth, but though sold at less than 10 cents per pound there was quite a margin of profit. They expected to reach an output of about \$300,000 this year, and there will be a substantial reduction in price. He would use his influence to have the farmers supplied at first cost. Some complaints had been made because Mr. Noxon had been appointed, but the wisdom of the appointment was demonstrated by his success as a manager of this industry, and he had already saved the Government more than twice his salary, All the twine had been sold, and everything has gone on satisfactorily." This will apologist. It is sufficient for our reply that be good news for the taxpayers at large as to the dress. The "Cravenette" is the we quote the Manufacturer against the well as for the farmers. It is not right that best for first-class wear and faultless Overcoats Manufacturer. The Toronto organ would prisoners should be kept in id eness at pub- fit. Navy and Black are the colors at present have us understand that the lic expense, and it is well when a Govern- most worn. Nobody questions their ment can do a great good to seven-tenths of the population, while relieving the entire taxpaying community of a very day the Manufacturer confessed, and material tax that would otherwise have to

> -At Delhi the other day Mr. John Charlton, M.P., spoke on the standing of the Ontario Government. Its entire management, he said, had been prudent, economical and honest. It had given the Province of Ontario a splendid system of charitable institutions and enormous educational grants, for which the ratepayers of the Province had never been assessed single dollar. It was a farmer's Government, as its agricultural commission, its dairy commissions and schools, its agricultural college and its aid to agricultural societies and institutes fully demonstrated. The head of its agricultural department was, and always had been, a practical farmer, while in the case of the Dominion the office of Minister of Agriculture had for many years been filled by a London brewer, whose successor is a Quebec lawyer, who, it is reported, has lately learned that a cow's tail is not a pumphandle designed for use at milking-time. There was much laughter at this sally.

### That Tired Feeling TEMPERANCE WORK IN WATERLOO

The marked benefit which people overcome by That Tired Feeling derive from Hood's Sarsaparilla, conclusively proves that this medi-

Two Men, Including a Clergyman, Killed in the Caboose.

RALEIGH, N. C., Jan. 26 .- The accommodation freight train which was standing at the water tank at Henderson, on the Seaboard Air Line, was run into by another freight at 5 o'clock this morning. L. Bow-man, of Richmond, and Rev. Mr. Shaw, of Portsmouth, who were in the caboose of the first train, were killed, and Mr. Brody, of Warrenton, had his thigh broken. The first train was several hours late, and a flagman was sent back, but not far enough to stop the second train.

INSOMNIA PARTIES THE LATEST A Buffals Belle's Unique Plan of Wooing the Drowsy God.

A society young woman of Buffalo has devised a novel entertainment, which is shortly to be made public. It is to be a reception for people who can't sleep at night. Among her friends, says the Medical Record, are a great many delightful people who are troubled with insomnia, and who confess that they spend many frightful, wakeful hours walking the floor, looking out of the wisdows, rocking in easy chairs, trying to read or write, and in other useless and tiresome occupations. When her plars are fully matured this wo nights in every week, to be at home to those distressed riends from mid night until morning. The guests are requested to appear in any unique, respectable bedroom gown, bath robes not excluded; the lights are to be dim, soothing music and stupid conversation will be the only diversions permitted, hot chocolate and light wafers will be served, couches and easy chairs will be provided in abundance, and the insomnia victims are earnestly desired to fall asleep as soon as possible. It is whispered that prizes will be offered for the first snore, but this detail is not authentically announced. The reception is to be a fact, however, and an eager expectancy as to invitations is in the air.

Meeting of the County Temperance As

sociation-Election of Officers. BERLIN, Ont., Jan. 26. - Waterloo County Temperance Association met here yester day and continued in session until late last night. Mr. J. S. Hardie, of Ayr, was elected president, and congratulated the county and Province on the growing tide in favor of prohibition. The temperance people of this county, he said, are not going to lay down their weapons, but rather with renewed vigor fight the good fight for prohibition, which was plainly visible on the horizon.

Mrs. James R. Cavers, of Galt, gave an excellent address on the franchise to women and handled the subject remarkably well. Among other things she said that at present women stand on a level with criminals, lunatics and aliens, neither of which have a voice in our legislative halls, which the ballot gives them unless it be limited to a very few ladies. But she hoped and believed that the time was close at hand when the women of Canada would knock at the door of our Legislature and demand equal rights in this respect to male and female.

In the evening an immense gathering greeted W. W. Buchanan, of Hamilton, and J. W. St. John, of Toronto, who in turn exhorted a firm and unyielding attitude on the part of temperance workers until the day dawns which shall usher in prohibition, peace, prosperity and content-

### BUSINESS IN THE STATES.

A Decidedly Better Outlock-The In-

dustrial Situation Improved. NEW YORK, Jan. 26 .- R. G. Dun & Co.'s Weekly Review of Trade says Secretary Carlisle's decision to issue bonds and the early reports of large bids for them helped to accelerate the recovery of industries and trade, as was hoped last week, giving a solid basis for greater confidence regarding the financial future. The revenue is still small and the volume of domestic trade is still small. The increase in the number of hands employed adds to the purchasing power of the people, and dealers' stocks are so reduced that any sign of larger competition quickly gives mills more orders. In short the conditions are such that if not interrupted by adverse forces they should naturally bring a steady revival of business. Industrial gain is more definite than a week ago. Few establishments have stopped work, while many have resumed or increased production, and as these are works employing thousands each the increase is considerable.

The failures were 430 this week, against 255 last year.

BRADSTREET'S REVIEW. New York, Jan. 23. - Bradstreet's says: Business failures throughout the Dominion this week number 48, compared with 48 last week and 48 in the week a year ago.

### IN MURDERERS' ROW.

The Fearful Fate of Painter Creates a Vivid Impression.

CHICAGO, Jan. 26 .- Painter's death had remarkably depressing effect on men confined in Murderers' Row in the county jail. Patrick Eugene Prendergrast, condemned to die for the murder of Carter Harrison, took no pains to conceal his grief over the execution of Painter. He occupies cell No. 33 with Murderer Craig, and when he had satisfied himself that Painter had marched to the scaffold (where he was so bunglingly executed), he climbed into the upper bunk and began to pray, "Oh, God have mercy on an innocent man," he repeatedly cried, wringing his hands with anguish. "He is being murdered, even as they would murder me."

Daniel Coughlin was not himself to-day. The cause was to be found in the horrible double hanging of George Painter. Ten days ago the alleged murderer of Dr. Cronin was removed from the boys' department of the county jail to a cell in the "murderers' row," where Painter was confined. When the guards came to take Coughlin to the court room this morning they noticed that his eyes were heavy and bloodshot. He had passed a sleepless

Legal Decision Adverse to Railway Employes.

Cost of the Lenigh Strike-C. P. B. Shops Reopened-Worsted Mills Shut Down.

Toledo, O., Jan. 26.—Judge Ricks, in the United States Circuit Court to-day, rendered his decision in the case of the employes of the Toledo, St. Louis and Kansas City Railroad, who asked for an order restraining the receivers from reducing their wages. The receiver, in his answer to the petition of the employes, stated that the reduction was absolutely necessary for the reason that the earnings of the road for the last half of the year 1893, showed a decrease of over \$365,000, or at the rate of \$2,000 a day, as compared with the same period of 1892. The court, after reviewing the statements of the petitioners and the answer of the receiver, and referring to various decisions in similar cases, says that if the reduction was a mere matter of personal preference or sympathy neither the court nor the receiver would reduce ! the wages, but maintain them at the highest point possible and consistent with their duties to the trust imposed; but in this cese they owe a duty to the creditors as well as to the employes, and for the reasons stated the court declines to hear the testimony and investigate the action of the re-

### Proceedings of the Provincial Association in Convention at Toronto-Utility of the Gymnasium-Progress.

Toronto, Jan. 26. - During yesterday's proceedings a short but instructive paper on "Boys' work: How can it be carried on successfully?" by Mr. W. J. Lind, London, was read, in the absence of Mr. Lind, by Mr. F. H. Barron, of Knox College. An interesting discussion ensued, in which the importance of gymnasium work as a means of gaining a hold on boys was strongly brought out.

Mr. D. A. Budge, of Montreal, one of

the veterans in Canadian Y. M. C. A. work, read the report of the provincial committee's work during the past year. In 1883 there were but six associations that had secretaries and assistants-those of Quebec, Montreal, Ottawa, Toronto, London and St. Thomas. There were but seven that had their own buildings, while now there were sixteen that owned their own buildings, and in Peterboro a fund of \$20,000 was available for a building. Forty-one secretaries and assistants were now employed, over four times as many as in 1883. There are now eighteen associations in the Provinces that were not in existence then. During the past year the secretary, Mr. Cole, had devoted a large part of his time to putting new life into the associations at Belleville, where a guarantee fund of \$1,200 for three years had been subscribed to the work; at Galt, where the salary for a new secretary had been secured, and at Brockville, where all liabilities had been paid off and means provided for once more employing a secretary. The report of Treasurer Gartshore, of Hamilton, showed receipts of \$1,675, and expenditures of \$2,121, the chief item being \$1,500 for the secretary's salary. Subscrip-

Picking up from the sidewalk the other morning what appeared to be a gold ring, with empty claws showing the removal of a stone, the finder took it to a jeweler in Eleventh street for inspection. He examined it for a few minutes under a magnifying glass and said: Yes, this is a gold ring of 14 carats.

The stone it contained was a 3-carat diamond. It was worn a number of years on a slender woman's third finger. Then it changed hands and was enlarged by the in-sertion of a piece of gold of inferior alloy, and may have been worn on the third finger of a stout woman or the little finger of a man. The diamond was removed by a clumsy hand, probably by a thief, who either accidentally dropped the ring or threw it away where you found it. I never saw the ring before, but plainly read its history by the same process of observation, analysis and deduction that an Indian unconsciously employs in detecting the testimony of a forest trail."-[Philadelphia Record.

Knocks a Young Lad Sensoless-The Crowd Threaten to Mob the Bully.

NORRISTOWN, Pa., Jan. 26 .- John L. Sullivan showed here this evening. While on his way to the opera house he was followed by a crowd of men and boys. He was accompanied by his valet, Nicholas Murphy, of New York.

Without any provocation Murphy struck 16-year-old Ambrose Beyer with a hat box he carried and knocked him senseless. He was arrested and heavily fined. The crowd threatened to mob him.

### THE SAME OLD CROWD.

(Orangeville Advertiser.) All the so-called "movements" against Mowat can be sifted down to the same old crowd. Ontario knows them, and knows them well enough never to trust them with power enough to do harm. The Liberal party will remain in power at Toronto for many years to come.

### A GREAT HUNT.

(Hamilton Herald.) One of the shining lights at the P. P. A. convention is Dr. G. Sterling Ryerson, the handy letter writer. His is probably after one of Sir Cliver Mowat's great grandfather's sister's uncle's cousin's wife's daughter's sons, who is suspected of having crawled in through the keyhole.

### NO GO IN WINNIPEG.

(Winnipeg Free Press.) During the latest election in Winnipeg the city was placarded with the ensigns of Great Britain and the United States, and the electors were asked to choose between the two, the impudent and mendacious statement being made that the Conservatives stood by the first and the Liberals by the other. The result showed that this particular falsehood is no longer of any avail in Winnipeg.

PETROLEUM WELL IN ENGLAND.

(The Westminster Gazette.) About two years ago a well of water on the premises of Dr. Newton Wade, at Achurch, a village adjoining Shepton Mallet, was found to be strongly impregnated with petroleum, and on being cleared out a brown, oily deposit was found in the bottom of the well. Nothing further transpired at the time, and the water remained clear for about a year, and it was concluded some oil had been spilled in the neighborhood and found its way to the well. There has, however, been a return of the oily contamination, and this time several hogsheads of oil, of a fair quality, were obtained from the surface of the water. Lately there has been another return of the oil, and in consequence experts have been communicated with, and Mr. Topley, of the Geological Survey, and Mr. Boverton Redwood, petroleum expert, have arranged to visit the place shortly. There is some ground for supposing that oil may be found in the neighborhood, as it is just beyond the borders of the Somersetshire coal measures, and but a mile or two from where the shales crop out on the surface at

-The cold spell, while a boon to ice lealers, has caused a rush for relief at the inspector's office. A distressing case was brought to the notice of the inspector this morning. On the Wharncliffe road lives a family of five who are comparatively strangers and who have been suffering from sickness for some time past. When a neighbor visited the home this morning he found a piece of pine burning in a tin drum, and nothing to eat in the house. One of the children was suffering from a nasty looking abcess in the head. The other members of the family were more or less ill, and altogether they were in serious need of succor. This is only one of many cases that are intensified by the amount of sickness prevalent and the cold spell.

Londoners at Petrolea. A number of Londoners attended the bachelors' ball at Petrolea last evening. From all accounts they spent a most enjoyable time. Their hosts showed them every consideration. The social event itself was a great success, almost 75 couples being on the floor. Representatives from Port Huron, Sarnia, Windsor and Detroit, as well as from a number of adjacent towns, were present. Those in attendance from this city were: Mr. and Mrs. Charles Davis, Mrs. James Anderson and Miss Florence Anderson, Mrs. and Mrs. James McCormick, Mr. Henry Abbott, Mr. R. J. Munroe, Miss Greig and Mr. A. E. Franklin.

Lady Aberdeen Coming. A telegram was to-day received by Mrs. E. N. English, corresponding secretary of the Canadian National Woman's Council, stating that Lady Aberdeen will be in London on Wednesday, Feb. 14. The formation of a local council, subsidiary to that already mentioned, will then take place. Her Excellency is expected to make a speech on the work and aims of the National Council, of which she is president. All the details for her reception have not yet been made, but it is probable that special rates will be secured on the railways from adjacent points so that as large and as widely representative body of women in this sec-

tion as possible may be present. The Saturday Market.

This morning's was a type of the usual for lambs at quotations. Following is the general range of quotations: Cattle, butchers' Christmas and before Easter. The attendance was fair, but there was no material change in prices. Provision sellers sat huddled up in their accustomed places, in some cases with a buffalo robe around them to keep them warm. Eggs took a drop in price, selling freely as low as 16 cents and 18 cents. Butter was steady and unchanged at from 22 to 25 cents. The principle products offered were poultry, meats, dressed hogs and hay. Chickens (alive or dead) could be had at 60 cents a pair. Beef was selling from 4 to 6 cents, and many householders were laying in whole sides of beef for use in the cold spell. Business appeared to be quite brisk in the vicinity of the butchers' wagons. Mutton sold at 6 cents and lamb at 7 and 8 cents. Dressed hogs opened brisk at \$6 50 to \$6 75, but dropped to \$6 25 before the market closed. Potatoes sold at 65 to 75 cents a bag, and hay from \$7 50 to \$8 50 a ton with a large supply and fair demand. The grain receipts were few. Wheat sold steadily at 98 cents to \$1; oats from 95 cents to \$1, 97 and 98 cents prevailing.

AMONG THE LODGES. Daughters and Sons of England-I. O. F.

At the last regular meeting of Lodge Royal Queen, No. 25, Daughters of England, the following officers were installed by Worthy District Deputy Sister Roughley: Past president, Ellen McGregor, president, James Court, vice-president. Annie E. Quick; secretary, Samuel T. Cook; treasurer, R. Quick; chaplain, Mary Court; managing committee, Geo. Duckett: Fannie May, Amelia J. May and Jos. Gar-side; inside guard, Emma Ray; outside guard, Hy. Gardener. This lodge, only instituted on Oct. 20, 1893, now numbers 29 members. The addresses of the new officers at the close of the installation, in thanking the members for their confiyear's work. At present every account has been paid and a small balance is on hand. Trafalgar Lodge, Sons of England, held an enjoyable entertainment last evening, in

dence, contained promises of a successful which the following took part: Messrs. Joseph Hook, R. Smith, H. R. Nichols, J. Bentley, R. Rowan and R. Madge, and Misses F. Griffin, M. Dawe, Gussie Graham and E. Griffin. The initiation of a candidate and a laughable farce were also very interesting. Mrs. Griffin, of Askin street, gave great satisfaction by her musical talent. Refreshments were served. The hall was crowded, and a number had

to stand in the ante-room. At the regular meeting of Court Dufferin No. 4, I. O. F., held last evening, the following officers were installed by Atwell Fleming, high treasurer of the High Court of Ontario, assisted by Hy. Gibbons, as supreme vice chief ranger, and Mr. Dick-son as supreme marshal: P. C. R., Alfred Smallman; C. R., Henry Pratt; V. C. R., Neff Paterson; Rec. Sec., John F. Hicks; Fin. Sec., Alex. THE POOR LEPERS.

Report From the Canadian Hospital

-A Leper's Sad Lot. OTTAWA, Jan. 27 .- Dr. A. C. Smith, of the Leper Hospital at Tracadia, N. B., has forwarded his annual report to the Minister of Agriculture. The report says: There are on the register to-day twenty patients -eleven males and nine females. Eleven of these are in the first or early stage of the malady, six in the second, and three in the third or final stage. There were six deaths during the year and four new cases were admitted.

The behavior of the inmates, says Dr. Smith, was good. Friends and relatives are allowed to visit the poor unfortunates, but as a general thing a leper's relatives look upon him, when immured in the Lazaretto, as gone forever, and seldom visit them. In the early days of the disease there is seldom much suffering beyond spasms resembling rheumatism, but near the close of life there is much distress, particularly from ulcerated mouth, tongue and throat. The lepers are not in any sense prisoners. There were two escapes during the year, but both were brought back to the Lazaretto.

He Never Came Back.

Bosron, Jan. 27.—Miss Elizabeth Bullock, aged 77, died at her home in Salem last night, after spending 40 years in the house without leaving it. She was not an invalid until shortly before her death. Her sweetheart went west years ago, promising to come back for her. Instead, he married another, and she vowed then that she would never leave the house again. Fire Record.

ORILLIA, Ont., Jan. 27.—About 3:30 this morning fire broke out in a building occupied by E. T. Cooke & Co., merchant tailors. Nothing could be saved. The adjoining building was occupied by Wainwright & Co., harness makers, and was also destroyed. Most of their stock was saved. Both buildings were owned by Mrs. (Capt.) Smith. There was no insurance on them. Cook's stock was insured for \$1,500. Wainwright also carried some insurance. The losses are: Mrs. Smith, \$1,000; Cook, about \$3,500;

Wainwright, \$1,500.

New Kind of Telephone. READING, Pa., Jan 27 .- A telephone invention that may turn out to be very important in view of the approaching expiration of some of the old patents on telephones designed by Edison, Bell and others, has just been perfected by Elias Groff, of Kricks' Mill near this city. At his request a day or two ago a number of Groff's friends met him at Crosskey's hotel to test and examine his invention, which is said to be based upon an entirely new principle in acoustics. After numerous trials, which were attended with excellent results, it was decided that the invention was of such importance to warrant Mr. Groff in applying for a patent, which he will do.

I think that of all the wet and stormy evenings that came to us during that dismal vummer of 188—, the wettest and stormiest was the Saturday when Brown, McShaugnassy and Jepson paid their first visit to me on my house boat.

Brown and McShaugnassy came down together in the afternoon (Jepson sent word that he would follow on in the evening), and as soon as they had dried themselves and changed their clothes (for some of mine) and had had some tea, we settled down to work. We four were collaborating in the writing of a novel, and Brown proposed that we should occupy ourselves, until Jepson's arrival with plots. should occupy ourselves, until Jepson's ar-

should occupy ourselves, until Jepson's arrival, with plots.

"Let each of us," said he, "sit down and exetch out a plot. Then, afterwards, we can compare them and select the best."

This we proceeded to do. The plots themselves I forget; but I remember that at the subsequent judging each man selected

the subsequent judging each man selected his own, and became so indignant at the bitter criticism to which it was subjected by the other two, that he tore it up; and for the next half hour we sat and smoked in

There was a time, when I was very young, when I yearned to know other people's opinion of me and ail my works; now my shief aim is to avoid hearing it. In those days had anyone told me there was half a line about myself in a newspaper I should have tramped London to obtain that publication. Now when I see a column headed with my name I hurriedly fold up the paper and put it away from me subdning my nat. and put it away from me, subduing my natural curiosity by saying to myself, "Why should you? It would only upset you for

In my cubhood 1 possessed a friend. Other friends have come into my life since— very dear and precious friends—but they very dear and precious friends—but they have none of them been to me quite what this friend was. Because he was my first friend and we lived together in a world that was much bigger than this world—more full of joy and grief; and in that world we loved and hated deeper than we love and hate in this smaller world that I have come to dwell in since. to dwell in since.

He also had the very young man's craving to be criticised, and we made it our business to oblige each other. We did not know that what we meant when we asked for "criticism" was appreciative encouragement. We thought that we were strong—one does at the beginning of the battle—and that we could bear to hear the truth told about ourselves.

Accordingly each one pointed out to the other his errors, and this task kept us both so busy that we had never time to say a word of praise to one another. That we each had a high opinion of the other's talents I am convinced, but our heads were full of silly saws. We said to ourselves. "There are many who will praise a man; it is only his friend who will tell him of his faults," Also we said: "No man sees his own shortcomings, but when these are pointed out to him by another, he is grateful, and proceeds to mend them."

As we came to know the world better, we learned the fallacy of these ideas. But then it was too late, for the mischief had been

When one of us had written anything he when one of us had written anything he would read is to the other, and when he had finished he would say. "Now, tell me what you think of it—frankly and as a friend."

Those were his words. But his thoughts, though he may not have known them, were:
"Tell me it is clever and good, my friend, even if you do not think so. The world is very cruel to those who have not vert convery cruel to those who have not yet conquered it, and, though we keep a careless face, our young hearts are scored with wrinkles. Often we grow weary and faint-hearted. Is it not so, my friend? No one has faith in us, and in our dark hours we doubt ourselves. You are my comrade. You know what of myself I have put into this thing that to others will be but an idle half-hour's

reading. Tell me it is good, my friend.
Put a little heart into me, I pray you."
But the other, full of the lust of criticism,
which is civilization's substitute for cruelty, would answer more in frankness than in friendship. Then he who had written would flush angrily, and scornful words

would pass. One evening he read me a play he had written. There was much that was good in it, but there were also fauits (there are in some plays), and these I seized upon and made merry over. I could hardly have dealt out to the piece more unnecessary bitterness had I been a professional critic.

As soon as I paused from my sport, he cose, and, taking his manuscript from the table, tore it in two, and flung it in the fire his opinion of me and my art. After which double event, it is perhaps needless to say

we parted in hot anger.

I did not see him again for years. The streets of life are very crowded, and if we lose each other's hands we are soon hustled far apart. When I did next meet him it

was by accident.

I had left the Whitehall rooms after a public dinner, and, glad of the cool night air, was strolling home by the Embankment. A man, slouching along under the trees, paused as I overtook him.

"You couldn't oblige me with a light, could you, guvenor?" he said. The voice sounded strange, coming from the figure that it did.

I struck a match and held it out to him shaded by my hands. As the faint light illumed his face I started back and let the match fall. "Harry!"

He answered with a short, dry laugh. "I didn't know it was you," he said, "or I shouldn't have stopped you." "How has it come to this, old fellow?" I

asked, laying my hand upon his shoulder. His coat was unpleasantly greasy, and I drew my hand away as quickly as I could, and tried to wipe it covertly upon my handkerchief.

"Oh, it's a long story," he answered, care-tessly, "and too conventional to be worth telling. Some of us go up, you know. Some of us go down. You're doing pretty I suppose so," I replied; "I've climbed a

few feet up a greasy pole, and am trying to stick there. But never mind me, it is of you I want to talk. Can't I do anything for you, Harry?"

We were passing under a gas lamp at the anoment. He thrust his face forward close to mine, and the light fell full and pitilessly

"Do I look like a man you could do anything for?" he said.

We walked on in silence side by side. I easting about for words that might seize hold of him.

"Why did you give up like a weak coward?" I burst out angrily. "You had talent.

You Mould have won what severance."

"Maybe," he replied, in the same even tone of indifference. "I suppose I hadn't the grit. I think if somebody had believed in me it might have helped me. But nobody did, and at last I lost belief in myself. And the same loses that, he's like a balloon when a man loses that, he's like a balloon with the gas let out."

with the gas let out."

I listened to his words in indignation and astonishment. "Nobody believed in you?"
I repeated. "Why, I always believed in you, you, you know that, I—"
Then I paused, remembering our "candid criticism" of one another.

"Did you?" he replied quietly. "I never heard you say so. Good-night."

In the course of our Strandward walking we had come to the neighborhood of the Savoy, and, as he spoke, he disappeared down one of the dark turnings thereabouts.

I hastened after him, calling him by name, but though I heard his quick steps before me for a little way, they were soon swallowed up in the sound of other steps, and when I reached the square in which the when I reached the square in which the chapel stands I had lost all trace of him.

A policeman was standing by the church-yard railing, and of him I made inquiries. "What sort of a gent was he, sir?" ques-

tioned the man,
"A tall, thin gentleman, very shabbily dressed—might be mistaken for a tramp."
"Ah, sir, there's a good many of that sort living in this town," says he. "I am afraid you will have some difficulty in finding him." Thus for a second time had I heard his

footsteps dying away, knowing that I should never listen for their drawing near again.

I wondered as I walked on—I have wondered before and since—whether Art, even with a capital A, is quite worth all the suffering that is inflicted in her behalf—whether she and we are better for all the scorning and the sneering, all the envying and the hating that is done in her name. Jepson arrived about 9 o'clock, in the ferryboat. We were mad acquainted with this fact by having our heads bumped against the sides of the saloon.

The First White Men to Set Foot Upon Where Now Stands the Flourishing City of Hamilton.

ANOTHER STORY BUT NOT TRADITIONAL

IT COMES FROM ONE WHO WAS RESTORED TO LIFE

Tradition tells us that the first white men | wondered how I lived. Several difbiliousness is entirely gone and my general flourshing city of Hamilton, were La Salle mended to me and tried, but with no benehealth is excellent. I am 60 years old. Parties using it should continue it for some time after they think they are cured. It is by far the best health restorer I know." 3

The Man (with a continue of the c The Man (with an only son)-What kind | The first authentic record of the location of a white settlement on the present city's site, gives the name of Robt. Land as the pioneer, and the date as 1778. It is often difficult to verify traditional history; but, from what we know of this particular section of Canada, we are inclined to accept the story as handed down to us.

In this issue of our paper we are permitted (for the benefit of our readers) to givein a condensed form, a wonderful history or story as related by a gentleman, well and favorably known in Hamilton and in many other cities and towns of Ontario. Mr. John R. Long, of 10 Burlington street West, Hamiltou, is a geatleman who has come very prominently before Hamiltonians this year, as the publisher of the first Guide Book ever issued for the purpose of advertising the "Ambitious City." In this work Mr. Long has scored on immense success, and given such a degree of satisfaction, that he has been prevailed upon to publish an enlarged addition in May of the

Now for Mr. Long's interesting story, true in every particular and detail, and related with a view of benefiting thousands in every section of this broad Dominion. We may remark that this brief story has a special reference to a critical period in Mr. Long's life; it refers to a time when his life was in danger and despaired of; when all hope and deliverance seemed to vanish; when the grim reaper stood ready with outstretched arms to claim his life.

From Mr. Long's let er we give the following extracts: "I was so terribly afflicted with dyspepsia that I came near dying. When sick with this awful disease, I had constantly a heavy load on my stomach which was as sore as a boil. I was continually gasping for breath, sick all over. my system and mind run low, my kidneys were out of order, pains everywhere, costive, always tired and weak, indeed, so weak at intervals that I had to leave my duties to rest; and, as a consequence, I lost my situation, a light, but responsible one. I could not sleep at nights, I rarely ate anything though always hungry, and what little I did eat, nearly drove me crazy. I had no desire for life in this condition.

to set foot upon where now stands the ferent advertised medicines were recommedicine I had decided to buy, as I was tired of trying so many. After taking nearly two bottles of this wonderful Paine's celery compound, I began to feel improved and regained color and flesh, I continued its use for five months, taking five bottles, and at the end of that I was completely cured, and have never been sick since. When I commenced with Paine's celery compound I weighed 123 pounds, at the end of the five months, I had gained 20 pounds. pound a week, and now weigh 143 pounds, the most I ever weighed in my life. And the result is, that to-day I am strong, healthy, and as vigorous as any man, and enjoy my regular meals. Before, life was a burden to me, I was always cross and cranky, and enjoyed no pleasures as others could, and was in a melancholy mood, and people around me often heard me remark I was tired of living.' To-day, I thank God and the makers of Paine's celery compound that I am free from trouble, that I enjoy life, and have a desire to live long. I am cured of that horrible and life-ruining disease, and I testify to the merits of Paine's celery compound, because I know there are hundreds of cases like mine; and I trust this testimony may fall into the

hands of many suffering men and women. Every word I have written is God's truth, and can be vouched for by those who know of my case." What a history of suffering! What a

wonderful history of cure ! Can the records of the many common advertised medicines of our day furnish proof like Mr. Long's? No other can do so, reader; it is only Paine's celery compound that can give satisfaction, relief and cure. If Mr. Long had continued with the medicines that aggravated his troubles, he would not have lived to publish his handsome and valuable Guide Book. There is a warning here to all who are sick and diseased that should not be unbeeded. When you are about to purchase a medicine, do not allow the dealer to persuade you to take something else instead of Paine's celery compound. The something else is for the seller's advantage, not for your good. Demand Paine's celery compound; be firm in your demand; insist upon getting what you ask for, as your very life and existence depends upon the Those around me often spoke of me and best-that which has saved others.

Complications of various sorts arise, but finally are arranged so that all are made happy. Miss Josephine Stanton as Sarana has sung her way into the hearts of all and has been spoken of by competent critics as presenting a picture of ideal love-liness. Miss Adellot Barker, contralto, is ikewise a comedienne of great power. As Balah Sojah Miss Barker causes no end of merriment. Mr. Henry Hallam, tenor, for five years of the New York Casino, possesses voice of vast compass. There will be a change of opera each performance. Matinees will be given Wednesday and Saturday. A Dance at Hyde Park.

A grand ball given by the Excelsion Club of Hyde Park, was held near that village on Wednesday evening, which proved to be a great success. Nearly 40 guests were on the floor of the ball room during the dance. Several came from London, Arva, Wilton Grove and Ballymote. The costumes worn by the ladies were rich and beautiful, and with the graceful forms of the wearers, added much to the pretty picture afforded. The Routledge orchestra, under the direction of Mr. G. H. Routledge, furnished the music, which pleased all present. Following is a list of those present: Mr. and Mrs. D. McMillan, Hyde Park; Mr. C. F. Routledge, Hyde Park; Miss Deacon, London; A. E. Fraleigh, M.D., Hyde

A Scottish Nicht. For three hours last night the members of St. Andrew's Society and Clan Fraser and a large crowd of their friends enjoyed a thorough treat in the Grand Opera House. The occasion was the celebration of the birthday of the national poet, Robert Burns, and a splendid programme was put on. Miss Boon read "Saunders Mc-Glashan's Coortship," causing much merriment and securing an encore, to which she responded with "A Bit Wifie." Geo. Angus, jun., proved himself to be a most

talented violinist. His "Rhapsody of Scotch Airs" was loudly applauded, and he was compelled to play another delightful pieceas an encore. Miss Gilmour is always a favorite with a London audience, and she did herself much credit in singing "O' a' the Airts, the Wind Can Blaw" and "Lang, Lang Syne," both of which were encored. She gave with telling effect "Flow Gently, Sweet Afton." Miss Mutch sang "Tam Glen" and "Caller Herrin." Her reception was most generous, and she was rapturously encored. Mrs. A. E. Cooper's singgan, is visiting Mrs. George Wrigley, city.

—The annual ball of the asylum patients and attendants will be held next Friday with fine effect, "Castles in the evening." Air," and, in response to an enthusiastic recall, "Bonnie Banks o' Loch Lomond." Subsequently, with Mr. J. W. McIntosh, she charmed the audience with that old favorite duet, "The Crockit Babee," which also was vociferously applauded. The audience thoroughly enjoyed the Highland dancing, which is always a feature of the Scottish anniversary. The concert was opened with a lively Scotch reel, in which Miss Katie Ash, Messrs. Wm. Templeton, John Rattray and Frank Wilson participated. Subsequently Miss Katie Ash danced an Irish jig in character; Messrs. Rattray and Templeton gave a double sword dance, and Mr. Wilson a sailor's hornpipe, all of which were were encored with much vigor. Miss Ash was the recipient of a magnificent bouquet. Misses Lilian and Beatrice Shand, fresh from their triumphs of a western trip, had

a warm reception when they appeared in a Highland fling, and they were so enthusiastically encored that they had to return and dance the "Shaun Trews." Later they sang the pretty little duet, with dance accompaniment, "Down Where the Honeysuckle Grows," and as an encore a charming little song and dance was given. They are clever and accomplished. The hit of the evening, however, was made by Goldie, of Philadelphia, the much-heralded Scottish comedian. He kept the house in roars of laughter, and though he was down to sing but three songs, the audience so enjoyed his funny stories and his grimaces that they moved him, by thunders of applause, to appear nine times. Goldie will always find a welcome in London. Mr. J. W.

champion acrobatic skater, will give an ex- McIntosh, who made an excellent master of ceremonies, sang "Mary o' Argyle" with his old-time avigor and was encored. It remains but to be said that Miss Phillips formances in Toronto this week have drawn and Mr. Charles Wheeler proved model accompanists, and that Mr. George Angus played the pipes to perfection. Mr. Donald McGregor, the latest accession to the piping strength of the St. Andrew's Society, made his initial bow to a London

audience, and was well received. He knows how to play, and will be a distinct accession to the society. Regret was expressed that Piper Alex. Milne was unable to appear. The very successful anniversary was brought to a close with the singing of "Auld Lang Syne," led by the performers of the evening and joined in by the audience, and the "National Anthem."

Is almost uniform in the direction of their extending over several years. Frequently the disease is epidemic, becoming definite almost every year in this country. It first made definite inroads in this country three years ago, and this year it seems to have returned in a more virulent form, producing effects far-reaching and uniformly demoralizing to the system, and it becomes absolutely necessary that the system should be kept in a state of perfect health in order to withstand and combat this terrible disease. WILLIAMS' Royal Crown Remedy taken regularly four times a day, with one or two of the Royal Crown Pills three times a week, seems to build up the system and combat the disease better, and with less expense to the patient than anything we know of.
