Rev. R. B. Cochrane Declares Present Generation Better Than Past.

MISSIONS REPORT

Rev. Dr. A. Gandier Gives an Outline of Conditions in Mother Country.

Canadian Press Despatch. Toronto, June 8 .- Young people of 1925 are brave, honest and religiuos the Presbyterian assembly was told today by the Rev. R. B. Cochrane, minister of College street church where the sessions are being held. Dr. Cochrane came vigorously to the defence of modern youth while presenting the report of the board on work in Sunday schools and among young people.

"There is." he said, "a good deal of indiscriminate and loose criticism of the youth of today. I have ministered for ten years in this church, in the boarding house and college dis-trict, and to my mind this criticism is almost altogether unfounded.

"The youth of the church, as I know him, belongs to a splendid hopeful, adventurous generation. The youth of today is intellectually honyouth of today is intellectually hon-est, he has a determination to know the truth. He hates intolerance. He is a little impatient of dogma. He does not find it easy to subscribe to creeds of the past, but he has a pas-sionate love for righteousness. He rails at the church largely because he thinks the church is not on the job as it might be. The youth of to-day is more religious than the youth day is more religious than the youth of any other day. I hope the United church will have the spirit and out-look to challenge such a youth as I have described. It will be a church looking to the future, not the past; a church with a world outlook putting emphasis on the essentials."

The morning session was occupied with presentation of Dr. Cochrane's report and with a report on foreign missions given by Rev. Dr. Gandier, principal of Knox college. Dr. Cochrane declared that the Sunday schools had more than kept pace with the growth of the church at large since 1875, and he urged still greater co-operation.

### REPORTS ON MISSIONS. Canadian Press Despatch

Toronto, June 8 .- The report of the Presbyterian foreign mission board was presented to the general assembly this morning by the chairman, Rev. Dr. Gandier, principal of Knox college. Dr. Gandier, who had just return-

an church in Scotland, said the for-eign mission boards of those churches emphasized precisely the same points he wished to make here. "Never." he said, "was the world so consciously in need of Jesus Christ as today": never were the people in the different fields so re-ceptive as today with opportunities so many and so promising; and the so many and so promising; and just when the success of the work ur-gently demanded expansion, the state of the funds demanded retraction.

Commission Makes Decision On Beer Sale After Little Discussion

MAY BE MONOPOLY

Desirable That Other Permits Should Not Be Issued At Port.

The London & Port Stanley Railvay commission decided at a meeting this morning to make application for a permit to sell 4.4 beer at the cafeteria on the board walk at Port Stanley. Application will also be made for permission to sell the new beverage in the Bridge street booth if, after investigation by General Manager Richards, such a step should appear desirable.

After considerable discussion, the commissioners reached the decision that, as it was inevitable that the new beer would be placed on sale at the Port this summer, it was in the best interests of all concerned that C. N. R. Lunch Counter Serves the cafeteria should take over the sale of the beverage, under the strictest supervision, rather than allow permits to be secured by some of the privately-owned booths along the board walk.

The Only Permits.

Passengers on trains through London now have an opportunity of sampling 4.4 beer while the trains make their ten-minute stops. The Canadian National Railways lunch counter in the depot has received a license and the beer is frothing from the faucets.

The customer cannot drink it at the soda fountain, however—this trick beverage that has kept the wets number of citizens who are patrons heat-stricken area.

After considering the problem from all angles, the outstanding point seemed to be that the new beer would certainly be sold by somebeer would certainly be sold by some-body at the lake resort, and it seemed obvious that, such being the case, the municipally owned and con-trolled establishment would be the most desirable place of sale, espe-cially as it was altogether likely that application for a permit by the Lon-don & Port Stanley commission would be the means of preventing the issuance of a permit to other individuals, since the Toronto authorities would then be able to point out that the new beer was al ready on sale at Port Stanley. The commission was finally unanimous in instructing Manager Richards to apply for the necessary permit.

### CONGREGATIONAL CHURCH **HEARS REV. G. LLOYD EVANS**

A high tribute to the Canadian church union movement was con-cained in the Sunday morning sermon of Rev. Griffith Lloyd Evans, of Dedham, Colchester, England, at the First Congregational church here. Mr. Evans, who has been transferred to Canada, is on his way to attend the meetings of the United church in

Toronto on June 8, 9 and 10.

Mr. Evans predicted that the union movement would bring a new era of religious interest to the dominion and his closing message was an appeal to the congregation to give the United church an unfalling support. A greeting from the west was brought to city Congregationalists by Rev. D. S. Hamilton of Winnipeg, an outstanding church figure of the prairie provinces. Mr. Hamilton delivered a short address at the morning service.

The senator, who was accompanied on his tour of this province by J. W. Purcell, an engineer of the Ontario hydro commission, was a guest at the home of Sir Adam Beck Saturday morning and spent some time interviewing the chairman of the hydro commission. He expressed himself as being tremendously impressed with what Ontario has accomplished in the upbuilding of its hydro system under public ownership. CAN'T DISCOURAGE KITTY.

Undeterred by the fact that three former flances, D. F. Kelleher, Harry Boland and Michael Collins were killed in Irish warfare, Kitty Kiernan an nounces her engagement to Gen. Felix Cronin of the Free State army.

For, on the face of it, the flapper has none of the qualities that fit her to be a good wife. She knows nothing of domesticity. She recognizes no law but her own sweet will. Her one aim in life is to have a good time. She is idle, extravagant, selfish. She has no ideal of duty. She considers all the old wifely virtues of patience, self-sacrifice and selfabnegation as passe as hoop skirts. And she frankly marries with one eye on the altar and the other on the

But the situation is not so desperate as it appears, nor is the flapper as red as she is painted. Somewhere in her little attenuated body there still beats a heart. Under the bobbed hair there is an unsuspected brain and often there even remains the rudiments of a moral sense that has been atrophied, but killed, by kissing and necking and petting parties.

So it not infrequently happens that after marriage the flapper does a lightning-change act, and becomes a sensible and helpful wife. Having had all the gay times she wants, she is ready to settle down to the serious busi ness of life. The French say that the reformed roue makes the best husband, and the flapper proves that this theory may apply to the feminine sex also.

Certainly, we have all seen frivol us girls turn sedate as soon as they married; jazzy girls, who danced their slippers off their feet every night, and who never thought it was 2:30 p.m. at the Argyle continuing late until it was early, turn into home bodies who didn't even care to go to the movies. We have seen joy riding girls pushing perambulators and extravagant ones turn stingy when it was their own money they nother's heart quails within her as had to spend, so there is no telling she tries to forecast the kind of which way a flapper is going to flap

### What is the Real Reason for the Mental Force and Physical Endurance of the "Go-getter"?

Grape-Nuts is made of pure wheat and malted barley. More than three-fourths of the content of Grape-Nuts are the precious carbohydrates.

In Grape-Nuts the carbohydrates have been dextrinized, that is, scientifically broken down into the form your body most readily

Grape-Nuts comes in crisp, golden kernels which you must chew. This starts the process of digestion where it should properly start-in the mouth.

THE "go-getters" in business today—and in home and social life, too—have healthy, active minds and vigorous social life, too-have healthy, active minds and vigorous bodies because they have learned to carry out the most important law of living. They practise every day the law that doctors are stressing now more than ever before—the law of

The foods we eat have a tremendous influence on our mental and physical well-being. They have the power to build us up or to drag us down-to make us "go-getters" or to put us in that too-numerous class of people who suffer from tiredness, nervousness and a general low state of vitality.

Our daily foods, no matter how much nourishment they may contain, must come to us in the proper form for instant, easy assimilation.

One-half of all we eat should be the precious food elements called carbohydrates. Grape-Nuts, which is made from whole wheat and malted barley, is three-fourths carbohydrates in the form of dextrins. Twentytwo hours of slow baking has changed the carbohydrates into the most easily digested food substance known!

Try substituting Grape-Nuts for the principal dish which you now eat } at either breakfast or lunch, or both. Notice the result!

Grape-Nuts is available from all grocers in wax-wrapped packages. Four heaping teaspoonfuls, sufficient for each helping, costs less than one cent. Serve with milk or cream just as it comes from the package.

Western Union Also Hammered Down 2-Oil Shares Remain Stiff.

Associated Press Despatch.

New York, June 8.—Professional selling was resumed later in the morning following the marking up of the call money renewal rate to four percent. Finding that buying support was lacking for standard shares, speculators quickly threw overboard most of their pet specialties, causing a number of sharp recessions. Weakness was most pronounced in the public utility group, despite the buoyancy of electric power issues. General Electric was hammered down 3½ points and Western Union and International Telephone two points each before noon. American Can, Gulf States Steel, Iternational Paper, Radio, Cast Iron Pipe and Maxwell "B" certificates lost two to three points. Oil shares, however, continued to offer stiff resistances to selling pressure, with Pan-American, Marland, Phillip and Houston joining the upward procession.

### CHICAGO

Associated Press Despatch.
Chicago, June 7.—Cooler weather and rains led to an early setback in wheat prices today. On the down turns, however, active buving developed and rallies ensued. The buving was largely based on the assertion that irreparable crop damage had already been wrought. Opening quotations, ict 3 & lower, were followed by an additional decline and then by a reaction of about 1½c from the early bottom figures

Rains brought about lower prices for corn and oats as well as for wheat. After opening at ½c to 1½c off, the corn market sagged a little more and then recovered to a moderate extent.

### RECORD CROWD

The best that the Bakermen could get out of Saturday's double-barrelled affair was an even break, thus ending a tete-de-tete which lasted the full week with the men of Lee and left nothing for the profit side. London gained up the game they lost in the Kitchener series by taking the abbreviated end of Saturday's bill 8 to 4, after they had dropped the first one 5 to 4 to the Colts. The largest crowd of the season saw two games that were ragged and sagged at times, but which made up in other spots for this lack. Besides the bleacherites had a chance to exchange pleasantries with Knotty Lee, and this kept them from dwelling overmuch on the sizzling hot weather and the rough places in both ames. Connie Fields faced Deloof, who knocked off third basing for the day to assume hill dutles, in the cowcatcher end of the program. Kitchener earned two runs and London a bare one, thanks to errors, so the Colts won on their merits. Deloof was taken out to start the ninth, when Klein opened with his second triple of the game, and Piecoots was given the task of smothering a Tec rally, which he did effectivelly. Although the Colts nicked Fields for 11 hits, they were scattered until the ninth, when Deloof's double and singles by Orms and Beatty crashed over two runs and assured the Colts the game. Klein's triple in the London half was scored by Alton who was pinch-hitting being outed at first. Baker singled and was all for prolonging the rally. He nabbed second on a pretty delayed steal, but Vermilyea filed out and Stimpson grounded out to Knothe.

A walk. sacrifice and Knothe's single through third started the Colts off with a run in the first. Knothe tripled in the third with two gone, and Sandquist's misplay on Loepp's smash scored him. Keating then hit to Vermilyea, who lost the play at first and also the play at home.

One Hit Until Sixth.

He kept threatening to throw to home plate, using the same motion are a one-armed man trying to shake off a chunk of flypaper, and finally got the ball away as Loepo crossed with a run. Deloof allowed but one hit until the sixth, and then his support suddenly crumpled. Hatch and Knothe misplaying between a single by Stimpson and Klein's smashing triple. Deloof amad Klein's smashing triple. Deloof amad Klein's smashing triple. Deloof amad klein's smashing triple. Deloof smeared the rally by taking a brine-soaked ball on his bare arm that Fellds shot at the mound and recovering it in time to rifle an out at first. Young Mr. Murphy out in left field, stopped the seventh by making a beautiful one-hand catch of a blow that Vermillyea had labelled for two bases at least. Stimpson's single which followed was therefore wasted, as it afterwards proved, and a run which would have tied didn't materialize.

Plecoots, who beat Harris his only game this season, didn't repeat Saturday. Stimpson and Cross. and Brower's sacrifice fly echoed out in staccato for three successive singles by Vermillyea, Stimpson and Cross. and Brower's sacrifice fly echoed out in staccato for three counters. The Bakermen repented in the third, and gave back the runs they took

Cotts Tie Count.

They picked another cluster of errors three this time, from the vineyard of misplays, and, with two hits, they enabled Knotty's men to tie the count. Knapp walked to start it. Hatch knocked a ball which zig-zagged drunkenly down to the hill. Piecoots lifted a fly into the sun, which Klein dropped after mitting it, filling the bases. Harris leaped high in the air after Orme's high bounce and started a double-play through the plate to first. bases. Harris leaded his added of corme's high bounce and started a double-play through the plate to first. Murphy, however, singled two runs in, stole second, and went to third on Vermillyea's boot. He scored when Baker changed his mind and went after Knothe's short fly to left, only to drop it. Four hits and two successive errors by Hatch enabled the Tecs to pull the game out of the heat for good. Kernan cleared the bases with a hard-hidouble, almost to the fence, and Klein's single brought, in another run. Baker singled to third, and Klein counted as Hatch overthrew first.

Murphy's triple and Beatty's sacrifice fly to center tallied the Colts other run in the fifth. Knothe singled, but Loepp forced him for the third out.

It was not a good game of ball, but still was interesting because of the closeness of the score.

George Nethercott started Bill Cabot against the Terriers, but he lasted only an inning. He was wild. Two hits off him, a batter hit by pitched ball and a walk which forced in a run netted three runs and with another walk in the second and a single he gave way in favor of Bill Billings, who was hit hard. He gave all that was in him, but wore himself out and in the eighth with one out and two hits registered off him he walked off the mount, and Tiny Monk, the Cats' ace, was sent in to stave off disaster, but he falled under the Terriers' assault and had his first defeat of the season chalked up against him.

Friendy Graham went eight and a third innings for Galt and pitched a good game and would not have been in the trouble that he was had it not been for his support weakening at times. He deserved victory, but Kress got credit for it, going in the ninth with one out and one on. In the second the locals had a bad inning. With two down and two on an error and an error of omission got Graham in deep water and three successive singles resulted in a sextet of runs. Then in the eighth with one out and two on Lynch had a pair of boodles, and Norman Himes, after taking a throw at second for a force-out in trying for a double, threw wildly over first, and three runs were counted to the count and force the locals to show their stuff to win.

George Nethercott used no less than 12 players. Buck Graham retired in the seventh after being hit in the leg by a foul ball, Binns replacing him.

Clare Hoffman made two spectacular one-hand running catches in right field. Watts had a trio of healthy blows, and Lynch more than redeemed himself for his three miscues by his triple, driving in the winning counter.

Despite the hot weather, a crowd of about 2,500 witnessed the game.

While the home team made seven errors, they whaled three visiting heavers for 12 hits and 13 runs. Haynes was the big sticker of the day, getting a homer, three-bagger and a single. Not until the sixth frame did Pequegnat's lads get a hit, the manager himself being unable to connect all day. Powers took the honors in the field, while Davies had five put-outs at center. Goyer was knocked out early, and Whetstone could have gone sooner. Foole came in, but was very wild finishing the game. The Cordage meet Preston here Wednesday afternoon, and hope to get an even break in the tanding by prancing on the Preston.

time? By BOB CRUICKSHANK
One of America's Greatest Players.

I would recommend that the left heel be kept on the ground at all times while using the mashie niblick. This stroke requires a very sligh body movement, which does not necessitate raising the left heel at all. This will make for better control and assist in executing the com-pact backswing that the shot re-quires. After the ball has been hit. the right heel may and should be raised from the ground slightly. This movement will tend to relieve any tension of the muscles, and aid the player in controlling the entire finish-

### BRANTFORD SECOND TEAM LOSE 10-9 IN GUELPH

Special to The Advertiser.
Guelph, June 7.—Guelph intermediates defeated Brantford 10— Special to The Advertiser Margistrate Maxwell at St. Thomas on Tuesday-morning on a charge of damaging an L. & P. S. Railway coach, at stop 23 last Sunday.

The company officials claim that York was driving recklessly when the accident occurred, and did not have brakes on his car. The accident took place early last Sunday morning, when York was driving his car toward the tracks at stop 23. When the train hove in sight, he jammed on his brakes, but they failed to work and he crashed into the side of the front coach, ripping off two sets of steps and causing other damage.

The summer schedule on the L. & P. S. Railway will come into effect next Sunday morning, when the cars will run every hour to the beach. Officials intend opening their beach theatre next Monday night.

Members of the London Musical Art society choir will stage their annual banquet and frolic at the Orion hotel on June 17.

Sports will be run off in the afternoon, after which a supper and dance will be held. Prof. A. D. Jordan will be in charge of the affair.

THE POOR STORK , BECAUSE OF HER LONG

BILL, COULD NOT EAT AT ALL

Special to The Advertiser by Staff Correspondent, Chatham, June 7.—Two warm weather stories are going the rounds in this city, the truth of which is vouched for by responsible citizens. The yarns indicate that a mother hen can

quit the job and the sun will take her place.

Mrs. J. McDonald a week ago purchased a dozen eggs and placed them in a cupboard. On Tuesday she was doing some baking and desired to use a couple of eggs. Just as she was going to break one of them she became suspicious, and, putting it to her ear, thought she could distinguish a sound of life. Wrapping a piece of fiannel around the egg she placed it on a window sill, where it would get full benefit of the sun. Thursday a chick was hatched.

day a chick was hatched.

A couple of days ago a hen sitting on a nest was frightened away by a dog and refused to return to the nest. The owner, Mrs. Reed, decided to waste no more time with the hen, and destroyed the nest and put the eggs on the ground in the yard preparatory to burying them. The eggs were forgotten, and for two days and two nights they remained there, getting the full benefit of the sun's rays during the daytime. Remembering the eggs Mrs. Read went to bury them and was supprised to the eggs, Mrs. Reed went to bury them, and was surprised to find five healthy chicks hopping around the yard.

# M. C. R. SPECIALS

Wolverine Fliers Average 70-Mile Clip From Detroit To Falls.

Special to The Advertiser by a Staff Correspondent. St. Thomas, June 7.—Three non-

ton M. C. R. trains, carrying the firemen's brotherhood from their convention at Detroit to Niagara Falls for a day's outing, set a record run this morning, making the 240-mile dash from Windsor to the Falls in 198 minutes, 200 minutes and 203 minutes.

For several days the three big passenger locomotives which were to haul the trains have been undergoing repairs at the local shops. They were given a fresh coat of paint and the wheels were edged with white steel. The engines and coaches were decorated with banners and ribbons, which flapped back and forth as the trains rushed through the city at a 40-miles-an-hour clip.

Center street was lined with waiting people watching the fleeting trains. The first one went through at 9:56, the second at 10:03 and the third at 10:27. An average clip of 70 miles an hour had been maintained through the country, which was lowered to 40 miles in the city. All the level crossings in the city were guarded by watchmen to pro-tect the public. General Superintendent J. L. Mc-

Kee travelled on the first train, J. E. Jennings, general superintendent of motive power, was on the second, and motive power, was on the second, and the assistant superintendent of motive power, Mr. Kneesely, was on the third. Local men who were travelling in an official capacity were Trainmaster McIlroy, R. D. McDonald, G. M. Fulton, road foreman of engines, District Passenger Agent C. L. Singer, and Superintendent Donahue. Two firemen rode on each engine, and the best men on the road were at the throttles. The last non-stop trip that was tried was many years ago, when the trip was made in 217
