The Customs ruling that Canadian goods from the East shipped by the Panama Canal to Vancouver, must pay duty because they touch New York, is not good sense and not good business. We want to keep our Can-

adian trade, not have it diverted to the United States, and even if the railways do lose the freight, it is better to keep the business at home by allowing free water competition. The spirit of the British North America Act requires that this ruling be abolished.—Toronto Mail and Empire.

The Grievances of the Maritime Provinces

(From Saturday Night.)

Another grievance is that at the time of Confederation, all the four provinces which entered it, being independent, self-governing colonies, controlled their own natural resources, their forest wealth, mines, fisheries and so forth. All these, except the sea-fisheries, each has ever since retained. The Maritime Provinces claim that when they entered Confederation, they became partners and joint-owners with Ontario and Quebec in everything that went to make up the Dominion of Canada. Included in this was what was then called the North West Territory. A large part of this territory has since, with the consent of the Maritime Province's representatives in Parliament, been divided up into the provinces of Manitoba, Saskatchewan and Alberta, but when these provinces were created, the Dominion Government retained control and ownership of the natural resources contained within each, and has ever since received whatever profits arose therefrom, giving each of the provinces concerned an amount for the withholding of their resources. Now each of these provinces is demanding that the control and ownership of the natural resources within their respective boundaries shall be handed over to them unconditionally. The Maritime Provinces maintain that as they have a proprietary interest, as original partners in the Dominion Federation, in the natural resources of the former North West Territory; and if these resources are to be handed over to the new provinces, they (the Maritimes) should receive compensation for relinquishing such interest in them. They contend that geographically situated as they are, bounded on three sides by the Atlantic and on the fourth by the United States of America, territorial expansion is denied to them, and it is impossible to allot to them—as has been done to all the other provinces—enormous areas of new territory, with all the boundless natural wealth it contains. They have no objection to each of

YOUNG DAUGHTER MADE WELL

Mother Tells How Her Daughter Suffered and Was Made Well by Lydia E. Pinkham's Vegetable Compound

Vancouver, B.C.—"My daughter is a young girl who has been having severe pains and weak and dizzy feelings for some time and had lost her appetite. Through an older daughter who had heard of a woman who was taking it for the same trouble, we were told of Lydia E. Pinkham's Vegetable Compound. My daughter has been taking it for several months and is quite all right now. It has done all it was represented to do and we have told a number of friends about it. I am never without a bottle of it in the house, for I myself take it for that weak, tired, worn-out feeling which sometimes comes to us all. I find it is building me up and I strongly recommend it to women who are suffering as I and my daughter have."—Mrs. J. McDONALD, 2947 26th Ave. East, Vancouver, B. C.

From the age of twelve a girl needs all the care a thoughtful mother can give. Many a woman has suffered years of pain and misery—the victim of thoughtlessness or ignorance of the mother who should have guided her during this time.

If she complains of headaches, pains in the back and lower limbs, or if you notice a slowness of thought, nervousness or irritability on the part of your daughter, make life easier for her.

Lydia E. Pinkham's Vegetable Compound is especially adapted for such conditions.

DEAFNESS

NOISES IN THE HEAD absolutely cured by "LARMALENE" the new Continental remedy which instantly operated upon the affected parts with complete and permanent success. Astonishing cures are recorded. Mrs. K. Wilkinson, of Stroud, writes—"I feel a new woman, for I can go to bed and get a good night's rest now, which I had not been able to do for many months. It is a wonderful remedy, and I am delighted to recommend it." Nothing equals this new preparation, and every sufferer should give it a trial. THE POOR RETURN

THE FARMER GETS

A New York paper recently published a letter it received from a Virginia farmer who translated the cost of construction, at current wages, into food at the price the farmer gets.

"It takes 63 1/2 dozen, or 762 eggs to pay a plasterer for one day of eight hours."

"It takes 17 1/2 bushels of corn, or a year's receipts from half an acre, to pay a bricklayer one day."

"It takes 23 chickens weighing 3 pounds each to pay a painter for one day's work in New York."

"It takes 42 pounds of butter, or the output from 14 cows, fed and milked for 24 hours, to pay a plumber \$14 a day."

"It takes a hog weighing 175 lbs. representing eight months feeding and care, to pay a carpenter for one day's work."

THIN IMPURE BLOOD

Means a General Weakness and Loss of Health.

If people would realize the importance of keeping the blood rich and pure there would be less sickness.

The blood is the means through which the nourishment gained from food reaches the different parts of the body.

If the blood is impure, the nourishment that reaches the nerves, and organs of the body is tainted with poison and disease follows.

The blood is also the medium by which the body fights off disease.

If the blood is thin and watery the power of resistance to disease is weakened.

If you are weak and run down, if your nerves are frayed, if you lack ambition, have no appetite, and are short of breath after slight exertion,

the trouble is almost always due to poor blood.

In cases of this kind you should take Dr. Williams' Pink Pills to build up the blood.

They help to enrich and purify the blood from first to last, and in this way bring new health and strength to weak, run-down people.

Mrs. John Timmons, Elmville, Ont., tells of the benefit Dr. Williams' Pink Pills were to her, as follows:—"I became very weak and was hardly able to walk and had to be helped upstairs."

"I had no appetite and slept poorly at night. I finally went to a doctor who told me the trouble was lack of blood and that my condition was serious."

"He gave me medicine, which I took faithfully, but did not improve. I was advised to try Dr. Williams' Pink Pills and did so, and after I had taken two or three boxes felt that they were helping me."

"I could eat using the pills for some time longer and quite recovered my old-time strength and feel that I have to thank Dr. Williams' Pink Pills that I am not an invalid to-day."

You can get these pills through any dealer in medicine, or by mail, post-paid, at 50 cents a box, from The Dr. Williams' Medicine Co., Brockville, Ont.

They are the only Asphalt Slates that give a shadow line, which so improves the appearance of a roof—something architects have long wanted in Asphalt Slates. 2. They are scientifically constructed. They are tapered. Being thicker at one end, the butt of the overlapping slate lies flat on the upper part of the slate in the row below. No rain or snow can accumulate underneath—wind cannot get under them and blow them off. 3. A glance at the illustration will show another very decided advantage of the taper—great wear resistance. Being tapered, extra thickness and weight are distributed where extra thickness and weight are needed—in the butt, the part exposed to the weather. GROUP GOVERNMENT DISCARDED

The tremendous over-throw of the United Farmer Labor Party of Ontario at the polls probably spells for a long time at least the end of group government. A two party system seems to suit best the electorate and it is doubtful if group government in any of the Provinces can secure popular favour. The very inception of this class of government arose no doubt from abuses in the old line parties and marked a public protest that arose to no mean dimensions. One great trouble, however, with group governments lies in the fact that they often perpetuate and sometimes increase in other directions abuses which creep into the old established parties. No ideal government can be founded on class or occupational group. The ideal government must exist with a view to preserving the best interests as a whole of all the people. Party purging must come from within and correction of abuses lies in the ultimate analysis with the electorate. Governments, say what you will, are a very fair reflex of the voting population as a whole. The people of Canada are not very prone to change rulers unless the ruling party becomes through long term petty corruption or in appeals to the country makes big tactical mistakes. Strong leadership is, however, an essential, and the party without it will lie in the cool shades of opposition indefinitely.

In regard to Ontario, or, for that matter, any of the Provinces, the farmers have a tremendous influence and far outnumber those electors of any other occupation. Even though they disappear as a party they can use their influence just as effectively in the old line parties in securing essential changes. The electorate generally is broadening in its views and is less than in the past bound to party chariot wheels and is less and less influenced by red herrings drawn across the trail.

CANADA'S PROSPERITY

Through Us Or In Spite Of Us

When the war was on and this country was putting forth every effort, at home and overseas, to aid the allied cause, a great spirit of confidence and faith, of willingness to work, economize and sacrifice, filled every class of the community from the highest to the lowest. As a result, Canada's honourable war record has set her high among the nations, with a place at the Imperial Council table and a voice in international affairs.

SEEDLESS RAISINS

SEEDLESS RAISINS

Canada must and will come, with equal honour, through the troublous times of post-war adjustment. The only question is, will all of us help—or some of us hinder, by pessimism, apathy, or class jealousy?

To the Canadian farmer this question comes with a peculiar force. Agriculture must be the economic balance wheel of this or any nation. It is an occupation where nature herself demands energy, courage, economy, and efficiency. These sturdy qualities radiate from our farms to industries in other walks of life, where so many leaders were country born and bred.

The farm home and farm life as the source of what has been and is the strongest and truest in our national character is interwoven with the history of Canada from its infancy. The settlers on the shores of New Brunswick and Nova Scotia, toiling to clear a patch of forest and sowing their grain among the stumps; Hebert and the pioneers of New France, fighting Indians, enduring privations, wresting merely a rude living from their small clearings, but full of faith in the future, if not for them, then for generations yet to come; the men who rescued Upper Canada from the wilderness; the Red River colonists, who, after two years of complete destruction of their crops, sent a party to the Mississippi for seed grain for the next year and won! These men made possible the Canada of to-day.

The farmers of Canada, then, have a rich history and a noble tradition to live up to. Upon them Canada's progress has always, in the main, depended; upon them it will always, in the main, depend.

We may call attention to the advertisement placed in this issue by the Federal Department of Agriculture. It is more than an advertisement, it is a call to united and cheerful effort, a summons to the Canadian spirit of the "will to win" which has burned so brightly throughout Canada's history—a spirit which is so well shown in a message received in Ottawa only a few days ago from one of the foremost farmers of the Province of Alberta. He says: "It started to rain the last part of the week, and this coming after the recent heavy rains has put the soil in a condition that it has not been in at this time in the year since 1916; the farmers are consequently very jubilant and if optimism could pay debts the farmers of Southern Alberta could, by next Fall, cancel our National Debt."

TO REDUCE POSTAL RATE ON PAPERS

Ottawa.—First reading was given to a bill in the House of Commons reducing the postal rate on newspapers and magazines to 1 1/2 cents per pound. The present rate was 1 1/2 cents, said Hon. Charles Murphy, Postmaster-General, in answer to a former rate of only 1/2 cent per pound. Many representations, he said, had been received, particularly on the part of small town dailies and rural newspapers as to the desirability of a lower rate.

OBITUARY

G. Gordon Gibson.

G. Gordon Gibson, aged 38 years, of Lawrencetown, passed away on Monday evening, June 11th, after a prolonged illness. Deceased is survived by his wife and three small children, his mother and two brothers, Ernest with his mother in Round Hill, and Myer in Dalhousie West.

The funeral was conducted from his late residence, Wednesday a. m. at 10 o'clock by Canon Morris, of Middleton. Burial at Round Hill, conducted by Rev. E. Underwood, of Bridgetown.

Mrs. Louise A. Taylor.

The death of Mrs. Louise Taylor occurred Thursday morning, June 21, at the home of Aaron Phinney, Granville.

Mrs. Taylor was born in what is now known as the Kenneth Leslie home, 88 years ago, from whence she was married, moving to Horton, and later to Hantsport, residing there until the death of her husband, John Taylor, 15 years ago. Since then she has made her home with her brother, the late P. D. Phinney.

Mrs. Taylor was a life-long devoted member of the Methodist Church and her home was well known as an open house to the Methodist Ministry.

The funeral, held Friday morning, was largely attended, interment taking place in Hantsport, beside her husband.
