25 S Many people object to
26 C shorthand, because it does
27 F away with orthography.
28 O I On that account, they say
29 J I it must be banished from
30 V I the schools where orthogra-
phy must be taught.

2 S Of course those people
are strangers to the art
of Stenography and know it only
through prejudice.

What would they say, if they knew that
shorthand can be employed as a very
powerful means of learning Ortho-
graphy. Hundreds of Schools in France
and England are employing this Sys-
tem of Phonography for that purpose.
Children learn the phonography very
willingly, and very rapidly. Then, they
may be given lessons written in shorthand
to translate into common writing. This
does away with dictation, so tedious,
which absorbs so much time in ele-
mentary schools, a precious time which

can be used to much better advantage.
A good suggestion to the adversaries
of Shorthand is not to be too prompt
in condemning a thing which they
do not know.
