31ST YEAR.

A Day in the House—Or Making the Next Prime Minister.

"And what do they make the Queen-bee out of?" asked Mary. "Out of honey," said the Beaver. "That's too sweet. They make them out of stings and stings and stings."

Tuesday was an ordinary day in the house of commons at Ottawa. It is true an effort was made to raise a question claimed to be of far-reaching importance, namely that inasmuch as the Canadian Pacific is now paying big dividends and has enormous resources of cash, stocks, bonds, lands, in its treasury there should be some reduction in freight charges;

The member who had the question in charge, a very ordinary mortal hailing from South York, apparently did not understand the situation. He is not much of a speaker at best, rather slow in thought, mainly occupied as his fellow-members think, in looking for cheap advertising for himself.

At all events he made a speech to which half the house listened. As for the members for the west very few of them were actually present. The Hon. Clifford Sifton was in Quebec on Conservative business. His newspaper, the Winnipeg Free Press, the leading paper in the west, seems to agree to a large extent with the arguments of the member for South York.

Sir Wilfrid Laurier did not have to say anything, but he applauded in the most significant way the remarks of Hon. John Haggart. Mr. Haggart made the speech that he has made for sixteen years now on every occasion that this fellow Maclean has raised the matter of railways and the treatment of the public.

About the time Mr. Haggart was making his speech Sir Wilfrid could be seen laboring with two or three back-siders in his own party and they happened to come from the west. They must have been intimidated by the member for South York and the lack of quality in his argument.

As for the logic of those who opposed him it was of the highest class. It was elegant, it was pointed, it was well-worded and it met with the unanimous approval of the C. P. officials who sat in the gallery.

This Province of Ontario. This gallant gentleman is very much opposed to any kind of disturbance of the credit of Canadian financial institutions at the present moment. The Canadian Pacific has boosted up the credit of Canada, in the most splendid way, and for anybody to attempt to cast a shadow of suspicion on the credit of the country or on the credit of that company is very near to being a socialist or an anarchist, and worthy of close watching.

The officials of the Canadian Pacific sitting in the gallery also thought that Major Currie's speech was an especially good one. It helped to clear the air, and to give the company a free hand to show what it could do for the good of Canada.

Parentetically it might be said that Sir John Macdonald did try to put a clause in the original charter, the effect of which was to make the Canadian Pacific Railway separate and apart from all other railways in the matter of its traffic charges and the regulation of such charges by parliament. It is also true that the ascertained profits of the company on the money invested in the road was to be a part of this program; but Sir John has been dead twenty years, and by judicious manipulation the house and the members of the company have passed from that stage or it is willing to pass from that stage where Sir John left it into another stage where it is on a par with other roads; and having passed Mr. Borden is most anxious to close the door by some special act whereby the Canadian Pacific will have passed forever from the special definitions in the original charter to the ordinary stage of an ordinary Canadian railway; and furthermore, he is most anxious to have it understood that any parliamentary or other move which would go specifically after the Canadian Pacific Railway, no matter what its earnings, without also going after all the other railways, would be most unfair and most unjust.

Therefore, if these arguments are true, and the house believes them as true, further regulation in this country of railway charges is some distance off and when Sifton comes back he ought to be warned against associating himself in any way with the awful failure and the lack of practical knowledge of the member for South York. The latter is simply addicted to running amuck and ought to be shunned by all right thinking men.

Undoubtedly also it is all true what Hon. G. P. Graham, Minister of Railways says, that we have the best railway commission in the world, that the freight charges in Canada are less than the freight charges in any other country in the world including the United States, that when he was in Germany he found that freight there were over and above what they were in Canada, and that passenger rates in Germany were away above what they were in Canada, and that the same could be said of express rates and of telegraph rates. Also that the provisions for the safety of passengers and things of that kind were much inferior in Germany. In Canada we had attained perfection. And so has Graham.

In fact Canada according to this ordinary-in-the-house was in a most splendid condition from a railway point of view and that of all the beneficent institutions that ever came to this country certainly the Canadian Pacific was the best, the truest and the most anxious to do most for this much blessed community of Canadians.

"God save the Seepenaar, and down with all Anarchists like Maclean." That's what the house of commons said on Tuesday. At least that's what it seemed to do. But it did more. For Tuesday the national beehive was really at work and at the most interesting work in bee society—instead, however, of making a queen bee the house was really buzzing over the job of trying to make the next prime minister. Not a bad task to be engaged in after all. Every now and then it takes a day at the job. And when the want is felt they'll find they've got the gent in the hive. They had spent a good deal of time in licking him and kicking him into shape. But their foresight had not been fruitless—he was ready for the job. And this peculiar "critter" is apparently made in no other way. Ask one of them.

CANADA'S FOREST WEALTH THEIR THEME

Second Dominion Forestry Convention Opened in City of Quebec Yesterday—Hon. Clifford Sifton Urges Ontario Park in Territory Between Sudbury and Port Arthur.

QUEBEC, Jan. 18.—The Dominion Forestry Convention, in session here, called by Sir Wilfrid Laurier, and opened by his excellency the governor-general to-day, is national in scope. It is attended by delegates from all parts of Canada, and from all professions, working with the sole object of conserving the forest wealth of Canada. This is the second forestry convention in Canada of such scope and magnitude. The first of these national gatherings was convened by Sir Wilfrid Laurier, under the auspices of the Canadian Forestry Association, in Ottawa in 1906. The convention this year is also held under the auspices of the Canadian Forestry Association, of which Senator W. C. Edwards, the well known Ottawa lumberman, is president.

Since 1906 there has been formed the commission of conservation, composed of about 30 leading citizens, with Hon. Clifford Sifton as chairman. These two bodies are co-operating through this convention. The commission of conservation is the technical body created to get exact data to be used in advising and informing governments and other official bodies, while the Forestry Association is a popular body consisting now of over 2500 members, which any well-wisher of Canada may join, and which exists to arouse and direct the need for action on rational and scientific lines.

Wasteful Methods. Sir Wilfrid Laurier, the chairman, in calling upon his excellency to open the meeting, dwelt on the beneficial results which had flowed from previous conventions and from the establishment of the commission of conservation and allowed to go on unchecked, while on the other hand he pointed to some of the older countries which are now deriving a permanent and increasing revenue from their forests.

Hon. Clifford Sifton. Hon. Clifford Sifton, in his address in his usual vigorous style, said the time for talking was past and that now there should be action. He referred particularly to the loss from fires and the danger of water-powers being alienated from the people. He pressed for the extending of the fire protection system throughout Canada, and told what had been done in various provinces in this respect.

The territory between Sudbury and Port Arthur was a disgrace to Canada, as it had been destroyed by fire. The Ontario Government could establish a good park there and within twenty years it would be a source of substantial revenue.

Mr. Sifton also said that it had been proposed by a conservation committee that if the railroads started a fire they would have to pay a fine of \$1000 unless they controlled, and that they were provided with necessary fire appliances. Sir Wilfrid Laurier had already approved of the principle, and Mr. Sifton suggested that if this amendment was endorsed by the present convention it would be greatly fortified.

Hon. Jules Allard, minister of lands and forests for Quebec, dealt with the improvements made in the regulations in the last few years, which had resulted both in increased care of the forest and increased revenue. He took occasion to refute a statement going about that the developed water-powers of Quebec did not exceed 50,000 horsepower, and showed how large an asset the water-powers of Quebec were.

FUR WEATHER. An old-fashioned winter it has been so far, and as the days go by probability still tell of more cold to come. It's healthy air we're breathing anyway, and if you are warmly clothed there is pleasure in the breathing. Nothing so good as a fur garment to make an old-fashioned winter pleasant. In the big sale at Dineen's you'll find some tempting bargains from day to day. To invest a little money now in furs will prove profitable because prices are soaring. Dineen prices are latched at the wholesale point.

FOREST RANGER SIFTON: "Halt! there."

STOCK SUBSCRIPTIONS SECURED BY FRAUDS

Travers Explains How W. J. Lindsay Got Subscribers for Stock by Presenting Deceptive Document for Signature—Old Writ Against Directors Shows That Prospectus Was Misleading.

For the first time in days there were no public developments in the Farmers' Bank case yesterday. This does not mean that there was nothing doing for all day long the bank office was busy with the preparation of facts which will to-day be formulated into further charges in connection with the disposition of the funds of the bank. Whether these informations which are to be laid will be followed by warrants or summonses is not known, but it is understood that at least one man prominent in the city's business affairs will be charged with implication in the crash.

For days it has been known that the former general manager, W. R. Travers, has stood ready to make a full and exhaustive disclosure of the doings of himself and co-conspirators since the bank's beginning and last night it became known that he had already made many statements involving W. J. Lindsay and others.

Travers declares that many of the subscriptions to stock which were obtained by Lindsay, were secured by a direct fraud. He says that one of the methods of doing this was to secure signatures to a paper which purported to be merely a petition for the formation of a bank but which was really in such a way that the unwitting signers bound himself to take quantities of the stock of the bank. Travers declares that in his desk at the bank's office are many complaints from those who were thus fooled and that some had merely undertaken the signature contract to purchase shares so fraudulently secured while others who were prepared to make a final fight of it were allowed to withdraw.

Writ Sheds Light. In this connection, the writ issued by William Laddlaw, K.C., on behalf of certain stock subscribers, is enlightening. It was issued Oct. 22, 1909, at the Ontario Court of Sessions. It alleged that the names of many had been set down as subscribing to \$10,000 of the stock, whereas the signers had merely undertaken to sign a contract to purchase shares so fraudulently secured while others who were prepared to make a final fight of it were allowed to withdraw.

WHY NOT FRAUD?

Here is a question that is puzzling many: "W. J. Lindsay 'and others' (Travers and Nesbitt) are charged by information and warrant with 'conspiring, confederating and agreeing' to secure from the treasury board of Canada the certificate of the board allowing the Farmers' Bank to commence the business of banking in Canada, by fraud." The certificate was granted upon representations stated by Curator Clarkson to have been fraudulent.

Why is this not fraud, and why are these men not charged with 'securing the certificate by fraud,' which is an extraditable offence, and why was the saving grace of the word 'conspiring' allowed to appear in the charge?

ANOTHER JOBLESS ARMY

Ad. Asked for 100 Men, But Unemployed Host Were Disappointed. It may have been the work of a practical joker, but several hundred men, the majority of the Englishmen, viewed the situation seriously.

DYNAMITE MADE GEYSER

Charge of Twenty-one Sticks Resulted in Water Spouting 25 Feet High. In the dead stillness of the night a group of roughly dressed men gathered in the heart of the great city, putting lovingly innocent-looking sticks of dynamite, and muttering strange words. At that moment it seemed that London anarchists had arrived in Toronto, but enquiry revealed that it was the staff of Matheson Brothers of Streetville, preparing to blast soft rock at the bottom of the 350-foot shaft sunk during the past month on James-street, for the Bright Simpson Co.

URGED REDUCED IMPLEMENT DUTIES

Arthur Meighen's Motion Discussed, But No Division Taken—Changed Conditions, He Claims, Make Reduction Essential—Mr. Knowles on Infant Industries

OTTAWA, Jan. 18.—(Special).—Arthur Meighen (Portage la Prairie) introduced his resolution calling for a reduction in the duties on agricultural implements in the house of commons to-day, thereby discounting the attitude of W. E. Knowles (Moose Jaw), a Liberal, whose notice on the order paper last year prevented other members from bringing up this question. Mr. Meighen made a careful and well-thought-out speech. His arguments were conclusive, and the statistics he offered were from government returns. Mr. Knowles, on the other hand, made a weak almost apologetic reply. It is interesting to note that after Mr. Meighen had concluded his remarks, Hon. John Haggart, one of the Conservative old guard, left his place in the front and went to Mr. Meighen's desk, congratulating him with the words, "Well done, money well done." There was no division, and the subject will probably go to the foot of the order paper. It is doubtful when it will come up for final disposition.

An Exotic Plant. In his opening sentences Mr. Meighen made it clear that he proposed to argue the question from the standpoint of a man who believed in sane and reasonable tariff. There was no member on either side of the house who would not be compelled to admit the necessity for a sane protective scheme in Canada. The one exception, he remarked facetiously, was the member for Red Deer, Dr. Michael Clarke, an exotic plant, who by assiduous care was able to keep alive his free trade beliefs.

After referring to the policy of the government on trade matters, Mr. Meighen said: "The gravest charge which I will always have against this government is that they preach a doctrine in which they have no real belief."

A second charge was that in attempting to continue the national policy, they had overlooked the guiding principle, that, as the manufacturing industries developed and acquired a hold on the national policy, it was essential that duties should be reduced in order to meet changed conditions. The government, he thought, had become a slave to those who held them in power and maintained them there.

History of Implement Tariff. Taking history for his witness, Mr. Meighen quoted from speeches of Sir John Macdonald and Hon. Geo. E. Foster to show that it was the intention of the founders of the national policy to give the farmer a reasonable market before reducing the tariff. When in 1894 the tariff on agricultural implements was reduced from 25 to 20 per cent., Mr. Foster contended that the intention of the then government was to create a condition that would tax the ingenuity of the manufacturers to retain the home market from the government blue books to show that the

M'CURDY'S FLIGHT

WASHINGTON, Jan. 18.—The course of the aeroplane flight next week from Key West, Fla., to Havana, Cuba, which will be attempted in connection with the Havana aviation meet, will be piloted by a flotilla of three boat destroyers of the United States Navy, for the guidance and protection of J. A. D. McCurdy, the Canadian aviator.

The flight will be attempted on Jan. 26. The distance from Key West to Havana is between 80 and 90 miles as the crow flies.

"THE FASCINATING WIDOW"

Julian Eltinge, the star of the "Fascinating Widow," first made his appearance as an impersonator of the fair sex with the Boston Cadets, and up to the present time he has been a reigning sensation. He will be seen in the big musical production next week at the Princess Theatre.

QUERIES FROM THE WILD WEST

WINNIPEG, Jan. 18.—(Special).—The Tribune to-day says editorially: "Why should Leader Borden join with the minister of railways and the government in criticizing and swamping Mr. Maclean's resolution re P. R. rates? The kind of thing has a disturbing effect upon the voters."

"Where was the valiant Sifton when Billy Maclean's resolution came up in parliament yesterday? Very likely he was out trying the mottle of a blood horse! Now if The Free Press wants to be consistent and desires the public to take any stock in the anti-C. P. crusade, let it gearify Clifford Sifton for shifking his responsibility in parliament yesterday on Billy Maclean's resolution. "When corporate interests are threatened, how those party leaders crowd together!"

## NORTH BAY TO THE FRONT BIG PLANS NOW SUGGESTED

President Ferguson of the Board of Trade Tells of Progress With Harbor Extensions.

North Bay is destined to be a great railway centre, perhaps the greatest railway centre in Ontario outside of Toronto. For this reason, and also because President Ferguson of the Board of Trade is one of the big men of Canada, what he said in his address to his board last week, is worthy of more than passing notice.

North Bay sees its future as a railway centre, and leaves no stone unturned to have its dreams come true. President Ferguson refers in his address to the projected and suggested railway extension. At various times he has seen the president of the Canadian Northern Railway, Sir William Mackenzie had assured him that in securing provincial and federal aid, the construction of the Canadian Northern Transcontinental from Selkirk to Ottawa, via the Sturgeon River and North Bay would be immediately proceeded with. Sir William determined to construct what he termed "The Grain Route," from the great lakes to Ottawa, or more properly speaking, tapping the Canadian Northern Transcontinental line at about the Township of Chisholm, forming a "Y" which would take to North Bay. This, perhaps, would require the co-operation of Parry Sound and the intermediate towns, with North Bay.

President Ferguson expressed the opinion that the Georgian Bay Canal, even if it costs \$100,000,000, should be built and would be begun soon. As a member of the executive of the Canadian Federation of Boards of Trade and Municipalities he had discovered that many of the larger cities in Canada agreed with him on these points.

In his address he declared: "It is on behalf of the Georgian Bay Canal is not only bearing fruit in the Dominion, but has at last taken root in the mother land. The ultimate result is not only bound to hasten the construction, but will go a long way to assisting the financing of the undertaking. The next move is expected to be made by Montreal. The annual meeting of the federation is to be held in Ottawa on the first of February, and in my judgment the last effort necessary to assure the early construction of the canal will be made."

In the near future the Ontario Railway Commissioners intend to spend much money in extending the facilities in North Bay. Approximately \$1,500,000 will be spent in the construction and improvement of the line from North Bay northward. Owing to the fact that this road will be constructed through property which is at present of little value, it will create ideal sites for industries which can be sited at extremely low prices. The C.P.R. contemplates improving their workshop facilities which will give the railway an increase in its staff of from 75 to 100 families.

Altogether, President Ferguson's remarks bring up-to-date the plans of the thriving northern town so that by a little imagination the great development proposed in New Ontario can be grasped.

**Death of H. W. Barron.**

Death took place yesterday of H. W. Barron, a late resident of Toronto, who died at his home in Toronto, and retired from business several years ago. He was well known and respected as a prominent wholesale liquor dealer.

## EAST AGAINST WEST

**Montreal Board of Trade to Oppose Reduction in Rates Over Rockies.**

MONTREAL, Jan. 18.—At its closing meeting here this afternoon the re-elected council of the Montreal Board of Trade instructed its transportation officers to appear before the railway commission and oppose the application of the Vancouver Board of Trade for a reduction in the rate charged by the Canadian Pacific Railway from British Columbia coast points to points east of the Rockies in British Columbia, Alberta, Saskatchewan and Manitoba.

The board bases its opposition on the ground that it is unfair to expect the railway to haul freight across the Rockies for the same money as it receives for the haul across the level prairie.

## PRaised BY THE JEWS

**Roosevelt Taught the World That Jews Were Entitled to Square Deal.**

NEW YORK, Jan. 18.—The delegates to the 22nd council of the Union of American Hebrew Congregations, in session here, voted unanimously this afternoon to hold the next conference at Cincinnati in 1912.

At the dinner to-night the delegates listened to addresses by Theodore Roosevelt, Mayor Gaynor, Oscar Straus, Dr. David Philipson of Cincinnati and Jacob H. Schiff, who also acted as toastmaster. Gov. Dix sent a telegram of greeting.

Col. Roosevelt, as the guest of honor, was praised by the toastmaster as "one who more than any other American, living or dead, has taught the world the lesson that, equally with any other citizen of this country, the Jew is entitled to the square deal."

The special editorial in this week's Sunday World, printed in two colors, is entitled "You Must Help Yourself to Success." This article contains a lesson for everyone, no matter in what walk in life they may be. Be sure you secure a copy of this week's Sunday World.

## IN THE POLICE COURT.

**Arthur E. Frawley, a C.P.R. fireman, who lives in West Toronto, out up on a street car on Monday, and, after insulting two ladies, knocked the conductor out with some vicious blows. He was fined \$40 and costs with the alternative of three months in the Central, when he appears before the magistrate yesterday.**

**John Generoux, charged with beating his wife, was allowed to go, as his mother said she was there at the time and did not see him touch the woman. "The whole case is bad," declared Crown Attorney Corley. "He was born in an atmosphere of prostitution and has lived in it ever since."**

**Percy Langston got \$50 worth of goods from George Reed on a phoney order, and 30 days in jail was meted to him.**

**Four young chaps, M. Gillis, E. Piet, T. Sinclair, W. Long, charged with stealing five babies of hay from the premises of Enoch Middleton and selling it. Long and Piet were discharged on lack of evidence, but the other two got 60 days at hard labor.**

**Thos. F. Loughheed, charged with illicit intercourse with a young girl, and with bringing her to a house of ill-fame, was remanded until the 25th.**

**W. B. NICOLL BURIED.**

W. B. Nicoll, a well-known Toronto barrister, was buried yesterday from the residence of his niece, Mrs. A. Wright, Crescorne road. The interment took place at St. James' Cemetery.

The deceased was thought to be recovering from an attack of grip when he died suddenly while sitting in a chair. He was the son of the late Dr. W. B. Nicoll. He was at one time prominent as a cricketer player and yachtsman.

## WANT CITY ADVERTISED BUT DIFFER IN METHODS

**Board of Trade Would Control Department—Other Interests Think Otherwise.**

That a department of publicity and industry should be established in Toronto was the unanimous opinion of a strong deputation from the board of trade, Retail Merchants' Association, license holders, transportation men and other interests, that appeared before the civic legislation and reception committee yesterday; but as to which body should retain supervision over it there was a division of opinion.

R. S. Gourlay, president of the board of trade; G. T. Somers, vice-president, and Frank Morley, secretary, thought it should be under that body, while George Giddard, president of the Retail Merchants' Association; Stephen Murphy of the Niagara Navigation and Erie Canal Company, favored a citizens' committee. Then, again, there was a feeling amongst the aldermen that the city should have control.

**Broader Board of Trade.**

In the discussion the new policy the board of trade proposes came to light.

George Giddard of the Retail Merchants' Association said the board of trade didn't represent all the interests of the city, and before such a department was put in their charge they should broaden their scope. G. T. Somers replied that the board of trade intended to take in other interests.

Mr. Morley said retail merchants should affiliate with the board of trade.

The committee left the matter over for two weeks.

**Increased Library Grant.**

The committee decided to ask legislation giving the city power to increase the library grant from one-quarter to one-third mill, which will give about \$100,000 for upkeep alone. Any increased building accommodation will have to come out of the general taxes.

Legislation will be sought giving the fire wagons right of way over the city streets. The city solicitor advised that the city couldn't prohibit the attendances of children under 14 at night performances of moving picture shows, but suggested that a by-law might be passed under the Children's Protection Act.

## HAMILTON COLLEGIATE

**Deputation Asks for Special Curriculum and Increased Grant.**

A deputation representing the Hamilton Collegiate saw Hon. Dr. Pym yesterday afternoon. They asked that the curriculum should be so arranged as to include technical courses, which should count in marking high school standing of students, that the \$200,000 grant of last year, which was not paid, be paid as an arrears, and that in addition the grant this year be \$5000.

## NEW YORK EXPERT TELLS HOW WHEEL GUARDS WORK

**Public Utilities Commission Finds Them Good Protection—Few Trailers Elsewhere.**

Clifton White Wilder, electrical engineer for the inspection department of the New York State Public Service Commission, with Greater New York under his special supervision, gave evidence at the street railway trial yesterday afternoon regarding appliances to prevent street car accidents. In his opinion "wheel guards" were an essential feature of a street railway. The Watson and Jenkins fender used in Toronto had been approved as "first class" by the public service commission, but was not used. Another device could be used in addition to the wheel guards, but were not insisted upon while the wheel guards were "rigid" fenders, and were tied up as the cars came into congested districts, leaving the wheel guard to do the work. Wheel guards were used exclusively on 400 cars.

**Acts as a Scoop.**

The wheel guard was described as a tray or scoop, set right in front of the front wheels under the cars, and sagging within 3 inches of the rail. Thirty-six inches ahead of this and about flush with the front of the car hung a screen to within 5 inches of the wheels. This screen would swing back at a pressure of 18 pounds, and in swinging would trip the tray which immediately dropped so as to scrape on the rails and gather up any object which passed under the gate or screen. "It is essential that some device of this kind be under the car to provide for a small body such as a child by the roadway, which does not take up much room and is not rigid," said witness.

Witness said that Philadelphia was the only city in the States that had trailers, according to his knowledge. He did not think there was any protective device between motors and trailers in Philadelphia. The commission, but the traffic had so increased as to confront them with many problems.

**Care "Loaded Judiciously."**

Justice Riddell: "Could we give you pointers on overcrowding?"

"Some cars I have seen here, have been loaded as judiciously as any I have seen in New York," smiled witness.

The only solution was to add tracks and equipment. In 1910 New York had added 10,000,000 car miles. In 1908, before wheel guards were installed, 246 persons were killed, while in 1909, after installation, there had only been 161 fatalities, and these had been due to colliding with pavements or against the front of the car.

There was only one case in which the wheel guard failed to pick up a man without the commission being able to discover the cause of the failure in the mechanism.

The trial stands adjourned until Wednesday next at 11 a.m. and Mr. Drayton was given permission to hold his prosecution open, so he may have the benefit of any developments in the railway board's session, which opens to-day, when the result of their finding regarding the P-A-Y-E system will come out.

**Passed Car at Speed.**

W. J. Brandon was yesterday fined \$5 for driving his auto past a street car at a rate of ten miles an hour.

Arthur Allan and S. Fordham paid \$1 and costs each for obstructing street cars.

W. Elliott was fined \$1 for working a horse with a sore shoulder.

## ONTARIO'S LIQUOR LAWS REQUIRE TIGHTER LIO

**Local Option Deputation Make Suggestions to the Provincial Secretary.**

A local option deputation waited upon W. J. Hanna yesterday afternoon with requests for more rigid enforcement clauses in the law.

Among those present were: Rev. G. A. Woodside, Rev. W. J. Cadman, R. D. Little, Wm. Leggett and T. Jamieson of Owen Sound; Rev. J. McKenstry and N. B. Allan, Shelburne; Rev. Henry Harper, Orangeville; Rev. J. Buchanan, North Dundalk.

The deputation from Owen Sound asked that the lessee be held responsible for the illegal sale of liquor on his premises. It was stated that an elaborate system of subletting had been evolved there.

Hon. Mr. Hanna said that if the deputation could submit a more effective clause than the present one the government would adopt it.

Another request was that the right of search be extended to the person of the bartender.

Would the deputation favor going to the extent of the Manitoba Act and endorse unlimited search? asked the provincial secretary. The question was not answered.

The deputation asked that all persons providing accommodation for travellers in local option municipalities should be licensed.

## Happy, Happy, Use TIZ

**Marvel For Sore Feet. Acts Right Off.**

**Sore Feet? Never After Using TIZ—**

Good-bye sore feet, aching feet, swollen feet, awfully feet, smelling feet, tired feet.

Good-bye corns, callouses and bunions and raw spots.

You've never tried anything like TIZ before for your feet. It is different from anything ever before used.

It acts at once and makes the feet feel remarkably fresh and sores and other foot remedies clog up the pores.

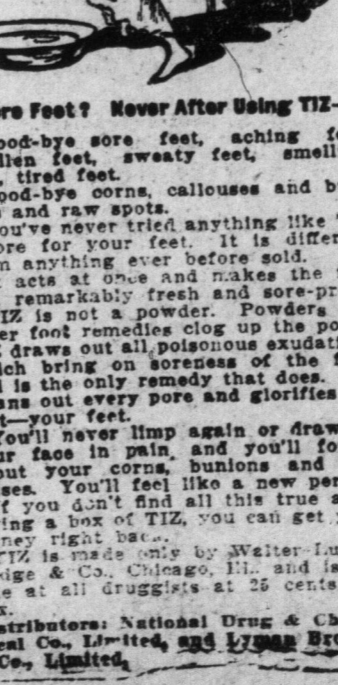

TIZ draws out all poisonous exudations which bring on soreness of the feet, and is the only remedy that does. TIZ cleans every pore and glorifies the feet—your feet.

You'll never limp again or draw up your face in pain, and you'll forget about your corns, bunions and callouses. You'll feel like a new person.

If you don't find all this true after using a box of TIZ, you can get your money right back.

TIZ is made only by Walter-Luther Drugs & Co., Chicago, Ill., and is for sale at all drug stores at 25 cents per box.

Distributors: National Drug & Chemical Co., Limited, 225 Yonge Street, Toronto, Ont.

## A WOMAN'S BACK.

**Not One Woman in Twenty Has a Strong Back.**

The kidneys are to blame nine times out of ten.

Mrs. A. H. Hutton, Jr., McCreary, Man., writes: "Two years ago last spring I had a very severe pain in the small of my back. When I would rise it seemed as if my back would break. My kidneys were very badly out of order, and I would have to get up three or four times during the night. I took one box of Doan's Kidney Pills and they effected a cure."

Doan's Kidney Pills are 50 cents per box or 3 for \$1.25, at all dealers or mailed direct on receipt of price by the T. H. Hutton Co., Limited, Toronto, Ont.

If ordering direct specify "Doan's."

When the blood isn't properly filtered the poisons that ought to be carried off by the kidneys are sent back through the system, and it's hardly to be wondered that backaches and lame backs come to make life miserable.

Doan's Kidney Pills are a specific for all kidney troubles. They begin by expelling all the poisonous matter from the kidneys, and then heal the delicate membranes and make their action regular and natural.

## The distinguishing feature of this week's Sunday World is a page picture, in four colors, entitled "Now Comes the Harem Skirt." It is an original creation of the artist, and the blending of the four colors makes a very attractive centrepiece. This, together with all the other features of a forty-four-page paper, for Five Cents, from newsdealers or newsboys.

**Thirteen Revivals.**

Thirteen evangelistic meetings were held yesterday morning and afternoon. They included services at the G. T. Sheds, Cowan's Echpe Whitehead Co.'s factory and the business house of A. Berthelette & Co.

Argonauts had little trouble defeating Varsity O. H. A. senior team at Mutual-street rink last night. The half-time score was 6-2, and full time 8-3.

Richardson, the Varsity goaltender, despite the number of goals that got past him, played a great game, and when given any chance at all cleared in good style.

Varsity scored the first two goals of the game, the first by Kern by a nice side shot, with Ed viewing the game from the penalty box.

### PRINCELIKE FINISHES FIRST—DISQUALIFIED

#### Cuts Across Field in Last Race at Moncrief and is Placed Outside Money.

**JACKSONVILLE, Jan. 18.**—The first disqualification of the meeting came with the running of the sixth race at Moncrief today, when Princelike, the heavily played favorite, after finishing first, was placed outside of the money by the judges for cutting across his field just after the start, thereby causing some of the riders to pull up their mounts. Edwile, who finished second, got the race, while Falcaide and Merman were moved up to second and third positions, respectively. Summary:

### Cornwall To Vote For Field Captain And Paid President

**CORNWALL, Jan. 18.**—(Special.)—The Cornwall Lacrosse Club executive held a special meeting last night to discuss the proposed changes in the rules which will come up at the special N. L. U. meeting in Montreal on Saturday. President J. E. MacPhee and Past President Wm. Fitzgibbon were appointed delegates to the meeting.

While not in love with the idea, Cornwall is willing to give the paid president a trial. The local delegates will also vote for the restoration of field captains, as it is believed this would give the game more interest and bring in more players. No player can play his best and at the same time carry the worry and care of coaching and directing the rest of the team. With the foregoing exceptions, Messrs. MacPhee and Fitzgibbon will have a free hand.

It is a little early to talk lacrosse just yet, but some of the local fans never let up, even when the mercury is twenty below. They figure out that the Colts should be reckoned as two-year-olds next summer and should be fast enough even to win one game in Toronto. It must be remembered that, while Toronto grounds are fast, the ground at Cornwall is fast. The Factory Town has more games in the past ten years than the two Toronto clubs have in Cornwall.

#### VARSITY ATHLETIC NOTES.

Varsity athletes will be pretty busy for the remainder of the week. In addition to the Jennings Cup hockey games, which are played nearly every afternoon and evening, there will be on Friday afternoon, at 4:30, at the gymnasium, a preliminary basketball game between Arts and S.P.S. At 5 p.m. the Senior Varsity basketball team will play McGill University on the gymnasium floor. If Varsity can win this game, it practically means the championship. They may be handicapped somewhat by the absence of Charlie Gage, who has an injured arm, received in the last game, at Queens. In the event of his not being able to play, the team will be Dixon and Ward, defence; Mel Brock, centre; Davis and Boddy, forwards. This game should be a dandy, and undoubtedly a large number of students will be on hand to cheer for Varsity.

On Friday night the Senior Intercollegiate hockey team will play McGill at Mutual-street rink, starting at 8:15. Varsity were only beaten by one goal at Queens, and are playing great hockey. Angus Campbell will be switched from wing to rover, and the ever-reliable Mike Kennedy will be given a chance to play right wing. Every student who can possibly get away should be on hand to witness this game. Varsity will line up: Goal, Parker; point, Frith; cover, Code; rover, Campbell; right wing, Kennedy; left wing, McSloy.

Following the senior game at Mutual-street rink on Friday night, there will be a junior game between Varsity and Parkdale. This is a Junior O.H.A. championship game, and as Varsity are going very fast this winter, a good game should result. Juniors will line up: Goal, Laird; point, Smith; cover, Caldwell; rover, W. Carter; centre, Campbell; right wing, Sinclair; left wing, Clarkson.

#### Lexington Stays Out of Grand Circuit.

**LEXINGTON, Ky., Jan. 18.**—At a meeting of the Kentucky Trotting Horse Breeders' Association, held in the office of Secretary Horace W. Wilson, at 10:30 o'clock this morning, the following order of events will be contested: 20 yards, 50 yards on back, 100 yards and 300 yards; also neat and fancy diving. This annual event always precedes an afternoon of good sport, and should this year be well attended.

#### Inter-Association Baseball.

St. Stephen's Intermediate team A defeated St. Georges in the opening game of the interassociation by the close score of 22 to 20. The teams lined up as follows:  
 St. Stephen's (22)—Forwards, L. Brown, W. Taylor, centre, B. Campbell, defence, M. Hare, F. Tobin.  
 St. Georges (20)—Forwards, J. McKenzie, A. Saunders; centre, A. Cook; defence, C. Edwards, W. Whitley, H. Gilman.  
 Both teams worked hard to win the first game. The former pulled out the victory in the last minute of play.  
 In the junior series, St. Stephen's Juniors defeated St. Simons by 23-10 on the latter's floor.

**Varsity Basketball Card.**  
 Following is the Varsity basketball team's record for their ten-day trip through the northern part of New York State:  
 Varsity 45, Niagara Falls (N.Y.) 23.  
 Varsity 25, Rochester University 27.  
 Varsity 42, Buffalo (Lafayette High School) 21.  
 Varsity 35, Ogdensburg (State Normal) 28.  
 Varsity 22, Canton (St. Lawrence University) 28.  
 Varsity 41, Queens 12.  
 Varsity 28, London 10.  
 Varsity 23, Hamilton 32.

MANY WARM TRIBUTES PAID TO LATE JUSTICE

Bench and Bar Unite in Expression of Loss—His Career.

Warm tribute to the abilities of the late Justice MacMahon was paid in the assizes yesterday by Justice Riddell, who described him as a man of great national powers and of fine literary taste, united with clever judgment...

The speaker thought the late justice excelled most in his knowledge of criminal law, which is the last remaining relic of the logical and consistent body of law governing our ancestors...

Wallace Nesbitt, on behalf of the bar, added that his relations with Justice MacMahon for the past 30 years had been most pleasant. His manner was one of "human politeness" and his painstaking work was conspicuous.

Chief Justice Moss, addressing a large legal gathering in the court of appeal, said the bench and bar had sustained a great loss.

"After a distinguished career at the bar, he was elevated to the bench. He discharged his duties to the public's great satisfaction, and he rendered valuable services to the country. He was kindly in disposition, careful and capable in the conduct of his work, and his bearing won for him the confidence of all...

LATE JUSTICE MACMAHON Whose death is deeply regretted by bench and bar.

valuable services to the country. He was kindly in disposition, careful and capable in the conduct of his work, and his bearing won for him the confidence of all...

Geo. H. Watson, R.C., added a tribute to the bar, and in the single court, Justice Ewing spoke feelingly.

The late Hon. Hugh MacMahon was a son of the late Hugh MacMahon, public land surveyor, a native of Ireland, and descended from eminent Irishmen. He was born in Guelph on March 6, 1836. He entered the board of works for the late Lieut.-Col. Gallaway, C.E., as assistant engineer. Commencing the study of law in 1857, he was called to the bar in 1864, and practiced at Brantford for five years with his brother, afterward Judge Thomas B. MacMahon of Norfolk.

Hugh MacMahon moved to London, and there achieved distinction. As a criminal lawyer he figured as a defence counsel in the sensational Biddulph murder trial. He was made a Q.C. by the Ontario Government in 1876, and in 1888 the Dominion Government honored him in a like manner.

He was a Liberal candidate on two occasions for the house of commons, and in 1883 came to Toronto. He continued in practice here until Nov. 30, 1887, when he was elevated to the bench as judge of the common pleas division of the Ontario High Court. He presided at the Biddulph trial in Woodstock in 1890.

In religion Mr. Justice MacMahon was a Roman Catholic. In 1864 he married Isabel Janet, eldest daughter of the late Simon Mackenzie of Belleville. One son, D'Arcy MacMahon, survives, and Mrs. MacMahon is also living.

Public Amusements

Joseph Medill Patterson and Harriet Ford's undoubtedly great play of an important portion of contemporary life, "The Fourth Estate," will come to the Royal Alexandra Theatre next Monday evening for one week's engagement. As a drama of domestic life, it is one of the most intense and interesting in the conflict between love and duty, this excellently conceived and artistically presented play makes a powerful appeal to the sympathy of the audience...

The New Jersey Lilies Co. is known as one of the best burlesque companies traveling over the eastern wheel of burlesque houses. The two burlesques, "A Complicated Affair" and "A Winning Miss," are both written and produced by the popular and funny comedian, Leon Errol. The New Jersey Lilies Co. will be seen at the Gaiety Theatre next week with a company of forty people and a chorus of the shapeliest and handsomest girls ever seen in the field of burlesque.

Julian Eltinge, whose name is familiar to Toronto theatre-goers, will make his first appearance as a star at the Princess Monday, Tuesday, Wednesday and Wednesday matinee, Jan. 23, 24, 25. The Eltinge offering is a new comedy with music called "The Fascinating Widow," by Otto Haerbach and Karl Hosenka, and authors of "Madame Sherry" and numerous musical successes. Eltinge appears in the dual role of Hal Blake, a college youth, and Mrs. Monte, the fascinating widow. The play is a comedy of the most unusual personality and remarkable ability as an impersonator of feminine types. The finish and perfection of Mr. Eltinge's art cannot be appreciated fully until he has been seen as the fascinating widow, wherein he appears in every sort of feminine attire, from the bathing robe to the bridal gown. "The Fascinating Widow" is said to furnish an abundance of clean, wholesome amusement, and is unique in that no one but Eltinge could play the title role. The company includes among its principals Ruth Mayfield, June Martin, Carrie Fenwick, Eddie Garriss, James Spotswood, Charles W. Butler, Gilbert Douglas, James E. Sullivan and Nina Blake.

The clever, young romantic actor, Wright Lorimer, supported by an extremely large company of well-known artists, will present "The Shepherd King" at the Grand next week. This is the seventh season of Mr. Lorimer's company, but it would seem that its popularity is ever on the increase. Mr. Lorimer's creation of David, the master-singer of Israel, has elevated him into one of the most prominent phases in the profession. Physically and intellectually Mr. Lorimer seems peculiarly fitted for the performance of this role. Indeed, it would be hard to imagine anyone else playing it.

There are many magnificent tableaux shown throughout the performance, which depicts well-known scenes of the Old Testament in a most vivid manner. Most then follow the paintings of some of the great masters. There is a strong company in the support of Mr. Lorimer, and among the players are many eminent artists. A wealth of beautiful scenery and costumes is used in the illustration of the piece.

"MANON" WELL GIVEN

Mme. Frances Alda's Second Personal Triumph at Princess.

At the Princess Theatre last night in "Manon," presented by the Montreal Opera Company, Mme. Frances Alda made a striking impression. Her role in Massenet's beautiful opera suited her admirably, and she won a veritable triumph.

The light, graceful music throughout was adapted to her style, and her clarity of tone and enunciation was delightful. At the same time she invested the part with a lively grace which showed that the criticisms leveled at her before that she sang much better than she acted, were a trifle hasty. In the death scene she was thoroughly realistic, and even graceful. Her work from beginning to end fairly stirred the audience.

As usual, the brilliant audience and inspiration of unusually good work by the leading artist keyed the rest of the company up to a high level. More than concert pitch. Mr. Deru as des Grieux was in good form, singing splendidly, and acting with much more conviction than usual. He was ably supported in this by Mr. Aurori as the Comte des Glieux, who was in excellent voice, and sang the Count's song in the second act with a vigor and finish that earned him rounds of applause.

It was one of the most notable performances of the season, both by singers and orchestra.

SALVATION ARMY'S NEW HEAD

Commissioner Rees Warmly Welcomed—Gen. Booth May Visit Canada

Commissioner David M. Rees, recently appointed by General Booth, to become permanent successor to Commissioner Coombs, with complete supervision over the army work in Canada, Newfoundland, and Bermuda, has arrived in the city, and was accorded a hearty welcome by the Toronto staff, whom he addressed yesterday afternoon.

Commissioner Rees stated yesterday that General Booth had recovered from his recent operation, and was enjoying the best of health. He was seriously considering a visit to Canada, and the United States next fall, he said.

Last night a mass meeting was held in the citadel of the army, when the soldiers and officers gave a formal welcome to the new Canadian commissioner.

NOTED EXPLORER DEAD.

LONDON, Jan. 18.—Sir Francis Galton, the noted explorer and writer, died last night. He was born in 1822, and knighted in 1909. He explored Damara-land and South O'Farquharland, Africa, in 1850-52. For many years he was on the council of the Royal Geographical Society.

More Pay for Trainmen.

G.T.R. and C.P.R. shop employees in the Toronto terminals received official notification yesterday of an increase of half an hour's time in their day's work. The men have been working 9 and 1-1/2 hours a day, and at the additional time is only 30 minutes it will make a rather substantial difference in their monthly envelopes. The new regulation will go into effect on Feb. 1.

CHARTER-MONGERING VENTURATED IN SENATE

Senator Davis Would Have State Department Issue on Recommendation of Railway Commission.

OTTAWA, Jan. 18.—(Special).—Senator Davis' bill to remove from parliament the practice of incorporating railroads by a private bill, and have chapters hereafter issued by the state department on the recommendation of the railway commission, got its second reading in the senate to-day. He maintained the present system had led to a large amount of charter mongering. There were charters which had been kept alive for twenty-five years and not a shovel of dirt had been moved. The existence of such charters often operated to interfere with railroad building as capitalists failed to advance funds for a road when there was charter authority in existence to parallel it.

Modeled on Minnesota Act. Senator Davis said he had taken his bill largely from the Minnesota Act. It gave full liberty for building a railroad anywhere to people who would show their good faith by depositing with the government a guarantee of \$500 a mile, subject to forfeit. This would encourage the legitimate railroad builder, and would put a check on the operations of the charter mongers who were now going to England to peddle valueless rights to Englishmen, or stock in paper companies to widows and orphans.

Many Charters, Little Building.

Senator Davis said his plan would save parliament a good deal of time. Leaving out the bills from the four big roads—the C.P.R., C.N.R., G.T.R. and G.T.P.—parliament had in twenty years passed 225 charters, of which only 23 had done any building. No building had been done by 200 of the companies; 78,138 miles of road had been authorized and only 1,849 miles had been built, mainly by one or two companies.

Sir Richard Cartwright stated that he would agree to have the bill given ordinary reading if it was understood that the principle was not thereby endorsed. That would enable the bill to reach the railway committee.

Senator Davis said he was opposed to the bill because he believed that the plan proposed by Senator Davis would detract from the importance of parliament. He thought the present method of granting railway charters was satisfactory.

Valuable Time Wasted.

Senator Domville thought the bill a step in the right direction. Parliament wasted much valuable time dealing with railway legislation. Senator Casgrain said he favored this bill and had introduced a similar measure some years ago. Charter mongers and promoters of fake railway enterprises had made use of the easy Canadian method of handing out railway charters in the form of acts of parliament, and had sold useless bonds in England, thereby shaking confidence in Canadian enterprises.

"PORCUPINE" STOCKS

Kerr Lake Stock Jumps 30 Points Dividend Payers Are Strong

La Rose, Nipissing and Kerr Lake the Features of an Otherwise Dull Market—Lower Priced Issues Easier.

World Office. Wednesday Evening, Jan. 18. Trading in the local mining exchanges to-day was of a perfunctory nature in most instances, and, with the exception of occasional spots of buoyancy, there was little of interest evolved in the transactions. Dealing in dividend paying issues continued the feature, and further advances were realized in connection with several of these stocks.
