TUESDAY MORNING OCTOBER 7 1919

VOL. XXXIX—No. 14,209 TWO CENTS

Capital and Labor in Conference Seek Basis of Amity

W.V.A. Committee Hears Important G.W.V.A. Suggestions

Washington, Oct. 6.—Representatives of the public evinced a spirited desire for action, rather than oratory, at the opening session today of the industrial conference called by President Wilson.

Apparently with the determination of differentiating this conference from many similar gatherings held in Washington, the public delegates demanded that sessions be held night and day, if necessary, to establish a basis for harmonious relations between capital and labor during the present abnormal economic conditions.

Opening the conference, Secretary Wilson of the department of labor told the delegates representing capital, labor and the public—that a splendid opportunity for service to mankind lay before them in the establishment of relationships between capital and labor that would be found, he said, adding that surely human intelligence could devise some acceptable method of adjusting that relationship.

After expressing regret that President Wilson could not be present, Mr. Wilson said the world faces the most difficult peace-time problem it had ever had to deal with, because of the wastage of war. The material resources of the world are being depleted, he said. The power of replacement of the things destroyed had been seriously impeded, and industry disarranged. This, with financial inflation in all commercial countries, has "played havoc with the relative values of money, wages and commodities," he said.

"The effect of these things has been reflected in the high cost of living," Mr. Wilson continued, "and the consequent demand for higher wage rates to meet the increasing burden of the family budget. Yet, increases in the wage rate do not always give relief."

"The more productive we are the sooner we will replace the wastage of war, return to normal price levels and abolish the opportunity for profiteering."

KING OF BELGIANS ON CANADIAN SOIL

With Queen and Prince, Pays Visit to Niagara Falls.

Canadian Press Despatch.

Niagara Falls, Ont., Oct. 6.—For something less than a month today, Albert, the soldier king of the Belgians, with his heroic consort, Queen Elizabeth, and Prince Leopold, the heir apparent, were on Canadian soil, but in that short time their conversation spoke volumes for the bravery of the Canadian soldier, the kindness of the Canadian people and the grandeur of Canadian natural scenery.

Respecting the Canadian soldier and his work in Flanders, King Albert, being a stalwart fighter himself, was well qualified to speak.

"The Canadians," he declared to the Hon. N. W. Rowell in good English, but his own native accent and emphasis, "were always in difficult places, but they always held their ground."

The visit of the Belgian royal party to Canada was practically unheralded, although it was the first occasion on which reigning royalty had ever entered Canada.

King Albert, who is 53 years of age, crossed the bridge and pay a flying visit to the Canadian side.

Mr. Myers, of the civil service commission, defended the new classification as it applies to the department of agriculture.

Mr. A. K. Maclean remarked that men would be less disposed to threaten to leave the service if a superior officer in the department of agriculture.

"During the course of his remarks," Mr. Jameson said, "Mr. Grisdale said that the civil service commission sent him a man who was no good."

"The position was advertised in the usual course and three applications were received, two from returned men and one from a civilian. The examining board reported that one returned man possessed no qualifications."

Other returned men had 70 per cent. of marks, and the third, the civilian, had 100 per cent. Seventy per cent. of the returned men were obliged under the civil service act to give preference to the returned man.

"The commission's difficulties were somewhat augmented," Mr. Jameson commented, "by the fact that the civilian was the brother of the deputy minister, Mr. Grisdale."

London, Oct. 6.—Polling takes place tomorrow in the Rushmore division of Manchester by-election.

Washington, Oct. 6.—The senate today adopted and sent to conference a bill providing fines of \$5000 and five years imprisonment for persons convicted of transporting stolen motor vehicles from one state to another.

John J. Sullivan, no home, was arrested by Police Constable Green on King street last night on charge of having drugs in his possession for other than medicinal purposes.

Fire, the cause of which is unknown, did \$1000 damage to a garage at the rear of 19 Bond street early this morning. The garage is owned by Edward Taylor and contained a truck and motor car, both of which were a total loss.

DISCUSS SALARIES OF POSTAL WORKERS

Commons Civil Service Committee Hears of Alleged Inequalities.

Ottawa, Oct. 6.—Problems affecting the new reclassification of postal employees engaged the attention of the special committee considering the bill to amend the civil service act, at its afternoon session.

Mr. Stacey drew attention to the fact that the minimum salary for grade one rural postmasters is \$3000, while the salary for those in the same grade in large cities is \$4500.

H. M. Mowat wanted to know why the postmaster of Dawson City, with a population of 2000, should receive a \$6000 salary while the postmasters of Montreal and Toronto get only \$4300.

Mr. Teiford replied that in fixing the salaries they had to make them bear some relation to the salary received by the deputy postmaster-general, who receives \$6000 per annum.

Mr. Teiford told the committee that the tendency of the new classification had been to reduce some of the maximum salaries of postoffice officials in regard to which there had been some complaints.

Mr. Myers, of the civil service commission, defended the new classification as it applies to the department of agriculture.

Mr. A. K. Maclean remarked that men would be less disposed to threaten to leave the service if a superior officer in the department of agriculture.

"The commission's difficulties were somewhat augmented," Mr. Jameson commented, "by the fact that the civilian was the brother of the deputy minister, Mr. Grisdale."

Note the Features From Nature's Standpoint Marked 1, 2 and 3

1—Shows extension heel, which gives extra support to this part of the foot.

2—Shows the height of the shank with the slope from the inside of the shank to the outside.

3—Shows the inner sole cut away and lifted up to fit snugly into the arch of the foot.

A Shoe That Conforms to the Natural Lines of the Foot and Allows the Toes, Bones and Ligaments "Free Play"

A Shoe That One May Wear With Satisfaction and the Best of Foot Comfort From the Very First

This shoe is made on natural lines, with no extra weight. The flexible outer sole is built close up to the arch. The inner sole is cut away, and ordinary lacing makes the shank hug the foot so that the shoe fits like a glove and supports the foot.

It's a boot with glazed kangaroo uppers and oak tanned soles. Sizes 7 to 11. Widths A to D. Price, \$13.00.

DOES the arch expand and spring the body along with an elastic stride?

Is it possible for air to circulate and reduce perspiration in summer, coldness in winter?

If Not, Wear the "Educator" or "Packard" Arch-Up Shoe

Do you experience foot-tiredness or the discomfort of bunions and corns?

Then Wear the "Educator" or the "Arch-Up" for Relief

YOUR FEET
Do They Tire Easily?

Have you calluses, bunions or weak arches? Do your feet give you discomfort in any way. A slight ache may be the forerunner of a broken arch. Consult the foot specialist about it, in the Boot Section, he's ready at all times to give advice, prescribe treatment, and fit scientific corrective appliances. Make an appointment by phone. Consultation is free. Children are specially invited, and will be given the same consideration and thoughtful care as adults.

This is the "Educator" at \$12.00

A Shoe That is High Enough, Wide Enough and Long Enough, Allowing for Ample Expansion

The toe can quickly adjust itself either sideways, forward or upward.

If you have foot troubles or foot tiredness, go barefooted for relief, or wear the "EDUCATOR," which comes as near to barefootedness, perhaps, as any other shoe and yet at the same time is good looking in shape.

In short, the "Educator" is a shoe that is easy to wear, but hard to wear out, because of the dependable leather and careful workmanship employed in the making.

Here Are a Few of the Leathers and Prices

At \$12.00 are black kid Balmoral or Blucher styles, black calf, brown calf Blucher, and the kid arch support in Balmoral.

They're in the wide and roomy shape, and have perforated toe caps, hooks and square custom heels.

METHODIST WORK AMONG INDIANS

Board Makes Recommendations Re Furloughs—Superannuation Fund Established.

Work among Indians in Canada formed the feature topic at the Methodist Mission Board yesterday.

In regard to the subject of furloughs for missionaries amongst the Indians the board decided that the only recommendation it could make in the matter was to urge its missionary workers to take an annual six weeks' holiday at such a time as would least interfere with their work.

The board adopted the principle of a time limit of ten years for Indian missionaries except in special cases.

An annuity of \$200 was granted to Mrs. Dudoard in consideration of her long and efficient services as school teacher and interpreter.

The board called attention to the fact that while there are about 18,000 Indian children of school age, 6,000 of them are not attending any school while the average attendance of the 12,000 is only about 6,000.

Rev. Thompson Fervier was reappointed superintendent of Indian education, and Rev. Arthur Barner was reappointed superintendent of evangelistic work in Indian Reservations.

A superannuation fund for lay missionaries was established, whose object shall be to assist in the support of superannuated lay missionaries and the widows and children of deceased lay missionaries.

The greetings of the Woman's Missionary Societies were read by Mrs. E. W. Ross, for many years the honored president of the society.

Rev. Mr. Ono, of the Japanese conference, briefly addressed the board, giving a most interesting account of the progress of the work in the dominant empire of the east.

Executive Committee. Rev. Dr. Hearst, G. N. Hazen, Dr. W. R. Young, Dr. S. J. Shorey, Dr. W. Sparling and Messrs. E. J. Davis, Thos. Hilliard, W. H. Goodwin, C. B. Keenleyside were elected to the executive committee of the board.

The board considered the subject of female immigration and while approving the efforts of the federal government to safeguard the interests of such immigrants, it requested that provision be made for representatives of the churches upon the council which deals with the matter.

A grant of \$340 each was recommended to the proposed new Japanese missions for the Okanagan, and the proposed new Chinese mission for Saskatchewan, and the proposed new Chinese mission for Toronto.

The Revs. S. S. Osterhout and John Robson, and Messrs. Savage and Harris were reappointed a committee on oriental work.

Calgary—Dr. Ritchie of Cochrane, who was seriously injured Thursday by the overturning of his car, died in a hospital here.

BLUSHING BACKWARD PEOPLE are usually the victims of Weak Nerves, Amblyopia, the "go-ahead" spirit, self-confidence—all these are indispensable factors to SUCCESS, yet they seem hopelessly beyond the reach of the poor nerve sufferer.

ANNOUNCEMENTS Notice of future events, not intended to raise money, 2c per word, minimum 50c; if held to raise money solely for patriotic, church or other purposes, 1c per word, minimum \$1.00; if held to raise money for any other than these purposes, 6c per word, minimum \$2.50.

THE LORETTO Alumnae Association will hold their regular quarterly meeting on Tuesday, Oct. 7, at 4 o'clock, in Loretto Abbey. There will be a lecture by Mrs. Lindsay Crawford and a musical program.

AERO CLUB OF CANADA—Grand opening smoker at new club rooms, 34 Yonge street, Toronto, Wednesday, October 8th, at 8 p.m. Entertainment. All returned flyers and club members please attend.

ADDRESS INCORRECT.

In yesterday morning's World the address of Frank Coleman, who was arrested for the theft of a motor car was given as 75 Sackville street. This address was given by the police, and has since been found to be incorrect.

NELSON DAY CAMPAIGN

Kingston, Gananoque, Cobalt Follow Toronto's Example by Tag Day.

Toronto's example in setting aside a tag day in connection with the Nelson Day campaign to raise \$500,000 for the work of the Navy League of Canada is being followed in other wide-awake places throughout the province, among them being Kingston, Gananoque and Cobalt.

R. H. Rogers, the Kingston chairman, reports that the moving picture theatres of the lines, city have agreed to donate one night proceeds to the drive. J. C. Eccles, the Cayuga chairman, states that the meeting addressed by Major the Rev. T. Crawford Brown worked up enthusiasm to such a degree that the district will readily raise its quota.

C. P. Mulrhead, the Bowmanville chairman, assures headquarters that the drive will meet with success there. John McQuaker sent a similarly optimistic report from Owen Sound.

"That is the kind of encouragement coming in from all over the province," remarked A. M. Holbertin, at headquarters. "Folks here are busy in election activities, are helping us too. They realize the valuable national character of the work of the Navy League and appreciate the necessity of funds to carry it on."

Ontario is famous for its public spirit, and with the great help coming from Toronto can be depended upon to raise the \$25,000, which is its share of the required half million.

WOMEN'S INSTITUTES

When the big meeting of the Women's Institutes takes place next month in Toronto it will open up a new phase of the life of the association, being the first annual meeting of the federation of the institutes of the provinces.

Mrs. Arthur Murphy, judge and author, will preside as president of the federated body.

Mrs. J. F. Price of Calgary, corresponding secretary, is in Toronto in the interests of preliminary work. An illustration of the development of the institutes of the west, Mrs. Price reports that the membership of Alberta has increased from 4,000 to 15,000. Some of those who are expected to be present are the vice-presidents, Mrs. W. Todd of Orillia, and Mrs. J. P. Campbell, Fredericton, N.B., treasurer.

The institutes of Great Britain will be represented by Mrs. Chas. Robson, Winnipeg; Mrs. B. Wileman, Duncan, B.C., and Mrs. Alfred Wait.

THE "FAKIRS" FAIR

His honor the Lieutenant-Governor and Lady Hendrie have given their patronage to the fakir fair to be given in aid of the Western Hospital under the women's board of the hospital of which Mrs. W. J. Wilkinson is convener.

FIFTY CHILDREN CARRY DIPHTHERIA

Health Department Troubled at Results of Tests in Schools.

"Carriers" of diphtheria, some 50 in number, have been sent home from the city schools and the health department are having a little trouble over the presence of the germ as evidenced by the tests made among the pupils. Investigation began when nurses found that children from the Morse School were absent and further steps showed indications of diphtheria.

There have been two deaths, one a pupil at Morse and the other at Ryerson, but there are few other clinical cases. Many of the kindergarten children at Morse School have been sent home as carriers. Cases have also occurred in the Leslie Street School and at St. Joseph's, where the outbreak is but slight.

HALF-MILLION EXTENSION.

Bishop Fallon, of London, Ont., has \$500,000 in hand for the extension of St. Peter's Seminary, as part of a plan for a million dollar endowment for a Catholic College. The plan is to include the removal of St. Assumption College, Windsor, and the Ursuline Academy, Chatham. Both the college and the academy will seek affiliation with the university. Plans for the extension of the Western University are also maturing.

TWO YOUNGEST TAGGERS

Aileen and Willie Lowe, aged 5 and 9, were the youngest taggers out on Monday for the crippled soldiers. They were their posts at 7 a.m. before many of the older taggers were out of bed. One gentleman jumped out of bed, and said to Aileen he had been looking for the smallest girl since morning, to get a tag from, now he found her at 5 p.m.

RED CROSS DONATION.

CASES THAT MUST BE LOOKED AFTER

Victory Loan Money to Care for Tubercular Patients From Army.

About four thousand tubercular patients from Canada's wonderful half-million fighting men have been treated thru the work of the department of soldiers' civil re-establishment. The actual number of cases up to August 31 this year was 3,000 and of that number 2,332 were restored to gainful work. Truly it is a most encouraging showing.

This work must be kept up as long as there are returned soldiers in need of it. The expense must not be considered for a moment. The nation owes everything to such men and the debt must be met as far as practicable thru the medium of the Victory Loan, 1919.

As there are so many other urgent calls upon the proceeds from the new loan it is imperative that each citizen must invest every dollar he or she can raise in Victory Bonds. The money is urgently required to keep the country prosperous and enable the bondholder to acquire more money. As an attractive business proposition it has no superior, for every man, woman and child Dominion stands to benefit by it. At the same time the bonds bear a generous rate of interest and should the holder be compelled to raise upon them at any time they will be readily negotiable.

WON'T CONTEST ELECTION

When asked by The World if she had any intention of seeking a place in the legislature, Miss Constable Bolton said not at present as she does not think the time opportune. "I would not run in any case except for the government," said Miss Bolton. "The Conservative government did such splendid work during the war that I think they should be having reconstruction. There are so many good men running now that I don't think any woman should run against them."

O'Connor to Act Drastically If Milk Men Threaten to Quit

Moncton, N. B., Oct. 6.—W. F. O'Connor, vice-chairman of the board of commerce, who is on a tour of the maritime cities to investigate complaints in regard to the high cost of living, arrived in Moncton Saturday afternoon from Montreal and immediately opened an inquiry into the complaint laid by the city council of Moncton against the local milk dealers.

In reply to a threat on the part of the milk men to sell their farms and quit the milk business and move to town, Mr. O'Connor sharply retorted that the board of commerce was prepared to deal drastically with such threats.

THE TWO OFF-ONS

Henry P. Dixon's musical burlesque show at the Star Theatre all this week.

The performance is divided into two acts, which are filled with humorous complications and witty dialog.

The list of fun makers have been chosen with a view to make the musical extravaganza a success and, judging from the reception accorded to its first appearance here, it has come up to the highest expectations.

The entire show is a mixture of jolly fun and fun with a lavish expenditure on costumes and scenic and novelty effects.

A number of high-class specialties are also introduced, which are ably assisted by a heavy chorus of vivacious and pretty girls, selected with a view to singing and dancing ability.

The following popular cast of fun makers head the list: Harry Le Van, who has a way all his own of producing a laugh; Claire Devine, the prima donna who has a charming personality and an excellent voice; and Nellie Greenwood, who carries the honors of the show.

BRIGHT OFFERING AT GRAND

"My Soldier Girl" Made a Decided Hit With the First-Night Audience.

"My Soldier Girl" the offering at the Grand Opera House this week is an enterprising production, with numerous musical numbers and a company that puts vim into the merry-making. The show is thoroughly appreciated by the large audience.

CATARRHAL DEAFNESS MAY BE OVERCOME

If you have Catarrhal Deafness or head ache, or a growing hard of hearing, go to your druggist and get 1 ounce of Parmitin (double strength), and add to it 4 pint of hot water and a little granulated sugar.

This will often bring quick relief from the distressing head noises. Closed nostrils should open, breaking head noise, and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take.

WASAPIKA SHOWS GREAT PROMISE.

Northern Miner Gives Impressions of Leading Properties of District. The Northern Miner says in its current issue: "After a visit to the Shining Tree camp the writer predicted in The Northern Miner of August 20 that crosscutting of the Wasapika vein at the 100-foot level indicated that the width of the body at that depth would be from sixty to seventy feet wide. Early this week, when the writer again visited Shining Tree, the crosscut had gone thru fifty feet of quartz and schist. While the root wall was encountered in the crosscut, some crosscutting west was being done to locate the hanging wall. It was expected by the management that it would be found in about ten feet more work. This would make a possible body sixty feet in width. That at least a large part of this body carries good gold values were shown by the presence of visible gold. For the most part the gold to be seen must be located with the aid of a magnifying glass, but some splendid specimens of coarse gold along with the iron sulphides were taken out at the time of the writer's visit. While assays were not completed early this week, sufficient information was obtainable, however, to indicate that the Wasapika has become one of the most promising properties under development in northern Ontario. At the West Tree. There was no activity on the West Tree on Oct. 6, but continued to be men preparing the camps for the winter. One of the directors, Mr. Mackay, is now in charge of the property. When these alterations are completed the camp and new equipment received, the sinking of the shaft, now down between 60 and 70 feet, is to be continued to a depth of 150 feet at 150 feet a level will be established and the vein drifted out to under the shaft sunk by the Dominion Reclamation Company of Cobalt, when it had the property under option in 1916. Diamond drilling is progressing at the Herick. In addition to the vein hole at a depth of about 50 feet, the vein on which a shaft was sunk 50 feet, is to be continued to a depth of about 400 feet. The only information available was that the diamond drill indicated a greater width than on surface, and the values had shown a tendency to increase as well. The second drill hole should cut the vein within the next week of other properties. On the Wakenda property adjoining the Herick, and where conditions geologically are very similar, camp work is being done on what may be found to be the Herick vein or one parallel to it. An Atlas adit has been started on a vein that cuts thru a high hill rising from the lake. The work had only been started and no idea of results was obtainable. There are also other properties under exploration and development in Shining Tree, Work on the vein at a smaller scale than at the properties mentioned. Many prospectors are in the field and the district is becoming increasingly active. Around Shining Tree Lake there are a number of properties under option.

NEW YORK CAPITALISTS AT MATACHEWAN MINE. Joseph S. Qualey and Berne H. Hopkins of New York, the big men in Matatchewan gold mine (Ontario), at Matatchewan, are now at the mines on a visit of inspection. It is understood that the work during the past season has been very encouraging, and that a much larger and more efficient mining plant will be installed during the coming winter. The recent rains have raised the water in the Montreal river and have thus improved the communications. There has been a great deal of activity in the district during the past season.

NEW LYALL MOTOR YET EXPERIMENTAL. Sensational Rumors Afout Are Depreciated by Company Officials. Montreal, Oct. 6.—The wild bidding for Lyall on the Montreal exchange, which sent the price of the shares up to \$1.35, was wiped out by the closing bid and asked 145 and 150, respectively, against Friday's enhanced price of over 100, was depreciated in fact by the closing bid and in fact conservatively minded quarters, as well. The firm's stocks among the Cobalts were Crown Reserve with a rise of three points to 41 and Timiskaming, which sold at 21 1/2, and the Corporation La Rose at 21, McKinley-Darrah at 72 and Nipissing at \$11.75, were stationary. There was some liquidation of Adanac, the stock selling as low as 11 1/2, a point under Saturday's closing, but rallying at the close to 11 1/2 with the figure bid for more and no stock on offer under 12 1/2. Holders of Cobalt stocks are showing disappointment over the comparative inactivity of these issues in the face of the fact that the white metal commands the highest price on record and gives promise of a further rise. The Cobalt mines are full of water and are being operated so as to bring about maximum production. On all most every hand are reports which indicate a higher efficiency among the workers than during the past two years. This is believed to be due largely to the absence of strike agitation and a realization among the workers that the time has returned when competition for jobs is necessary. During the past two months ore re-covery has increased considerably, and nearly every one of the producing mines of Cobalt. Two months ago silver was quoted at about \$105 an ounce, but is now around \$120 an ounce. The mines, in the aggregate, are producing about one million ounces of silver a month. The extra 15 cents an ounce is indicated to be the result of about \$150,000 a month higher than the value would have been two months ago, or at the rate of \$1,500,000 a year additional income.

KERR LAKE'S YEAR. A New York visit to Hamilton B. Willis yesterday said: Kerr Lake Mines Company, Limited, for year ended August 31, 1919, reports surplus after expenses and taxes of \$622,152, an increase of \$27,012 compared with that of 1918, or \$103 a share on \$5,000,000 capital stock against 99 cents a share in 1918. Income account of Kerr Lake Mining Company, Ltd. shows surplus after expenses and dividends \$302,258 decreased \$719,058 as compared with 1918. Total surplus \$3,036,619, increase \$302,258.

BEAVER MAKES SHIPMENT. Beaver Consolidated, which was the last mine to ship ore prior to the declaration of the Cobalt strike, is again on the shipping list. A full carload of ore was shipped today, containing about fifty tons of ore and concentrates. With silver at its present levels this would have a gross value of between \$25,000 and \$40,000.

BUFFALO'S NEW VEIN. Cobalt, Ont., Oct. 6.—A new high-grade vein is reported to have been discovered near the surface on the Buffalo Mine property by workmen taking out some low grade ore from old workings. While it is early to predict its importance, the vein is said to be of very high grade and of a good width.

MINYNTRE ANNUAL MEETING. The annual meeting of the McIntyre Porcupine Mines Limited will be held at 2 p.m. on Friday, Oct. 24, in the Bank of Hamilton building.

KITCHENER OFFICIAL DIES. Kitchener, Ont., Oct. 6.—Geo. J. Buchaupt, sanitary inspector of this city, died at his home here this morning after an illness of several months. He was in his 66th year. His death fell on the 45th anniversary of his marriage.

CANADA LEADS ALL COUNTRIES! Holland 11c. " per capita Switzerland 13c. " " England 64c. " " France 74c. " " United States \$2.73 " " Canada \$4.00 " "

IF these figures applied to production we would have every reason to be proud—but they do not. They show the per capita FIRE LOSS in six countries.

We talk of THRIFT and yet largely through CARELESSNESS we burned up \$15,673,240.00 worth of Merchandise, Buildings and Food Stuff: in Ontario last year.

DEMAND IS BETTER FOR MINING STOCKS

Davidson Advances a Point—Crown Reserve and Timiskaming Higher. Mining stocks were extremely quiet in the morning session yesterday, but in the afternoon there was a perceptible increase in the demand bringing the total of transactions to nearly 100,000 shares, the largest turnover in nearly a week. Prices, too, were inclined to stiffen, although there were few changes which exceeded small fractions.

Davidson was, as on Saturday, the strongest spot. The opening quotation, \$9, showed a gain of half a point, and the advance was extended to 6 1/2 with the closing at the high of the day. It is understood that New York investors are showing quite a lively interest in Davidson, and the placing of a large block of the stock with British capitalists, which deal is expected to be consummated shortly, should materially strengthen the position of the company. Stocks which showed marked change yesterday included Hollinger at \$6.55, Dome at \$14.75, McIntyre at \$1.35, Wasapika at \$1.04, Dome Extension at 34, Atlas at \$4, Porcupine Crown at 28 1/2 and Schumacher at 25. Teck-Hughes rose a point to 21 1/2, and Dome Lake 2 to 14. The firm's stocks among the Cobalts were Crown Reserve with a rise of three points to 41 and Timiskaming, which sold at 21 1/2, and the Corporation La Rose at 21, McKinley-Darrah at 72 and Nipissing at \$11.75, were stationary. There was some liquidation of Adanac, the stock selling as low as 11 1/2, a point under Saturday's closing, but rallying at the close to 11 1/2 with the figure bid for more and no stock on offer under 12 1/2.

Holders of Cobalt stocks are showing disappointment over the comparative inactivity of these issues in the face of the fact that the white metal commands the highest price on record and gives promise of a further rise. The Cobalt mines are full of water and are being operated so as to bring about maximum production. On all most every hand are reports which indicate a higher efficiency among the workers than during the past two years. This is believed to be due largely to the absence of strike agitation and a realization among the workers that the time has returned when competition for jobs is necessary. During the past two months ore re-covery has increased considerably, and nearly every one of the producing mines of Cobalt. Two months ago silver was quoted at about \$105 an ounce, but is now around \$120 an ounce. The mines, in the aggregate, are producing about one million ounces of silver a month. The extra 15 cents an ounce is indicated to be the result of about \$150,000 a month higher than the value would have been two months ago, or at the rate of \$1,500,000 a year additional income.

PRICE OF SILVER. London, Oct. 6.—Bar silver, 64d per ounce, unchanged. New York, Oct. 6.—Bar silver, \$1.20 1/2, an advance of 3/4.

CROPS GENERALLY WELL ADVANCED. Report of Department of Agriculture Shows Good Conditions Everywhere. The following is a summary of reports made by agricultural representatives to the Ontario department of agriculture: Plowing and other fall work is more advanced than usual, as timely rains caused the land to work up nicely, and the weather generally has been remarkably open for field activities generally. The new fall wheat has a comparatively late start, and is looking well. That sown late has been favored with suitable weather for a good start. Some farmers in Wellington are growing all wheat for the first time in 20 years. Essex reports that considerable rye is being grown for green manure. The corn crop is looking much better than was expected a month ago, especially in Deeds. Corn is well spoken of, both for husking and for silage, very early and immature. The lack of labor for handling the crop has been the only drawback. Tobacco has been harvested under favorable weather conditions. Tomatoes have given the largest yields in Essex for the last five years, and the general quality has been excellent. Canning companies cannot get sufficient pickers, although they are paying eight cents a bushel. Roots are making great growth with moist soil and warm weather. Lincoln states that grapes shipped by the Grape Growers' Association to the American market have brought \$4 a ton f.o.b. at point of shipment. Pastures are greatly withered by the recent rains, but rather too late to have much effect upon the milk flow. Feed will be comparatively scarce this coming winter, and this, with the slump in prices, has resulted in a considerable number of cattle and hogs being put on the market in an unfinished condition. Leeds, however, describes those marketed locally as being chiefly canners, fat cows that failed to breed, grassed calves, etc. and states that "there is no abnormal tendency to market cattle that would go on to a profit. Dairy cows are selling in Northumberland at \$100 to \$80 to \$150, but around Fort William fresh cows are bringing \$140 to \$160. Oxford points out that hogs in that county have dropped in value from \$24.25 to \$15.50 a cwt. in less than eight weeks. Little pigs have also fallen off greatly in value. Oxford says fifty per cent, while Lennox and Addington state that six and eight-week-old pigs are offering at \$4 each. Leeds' grain is being marketed in Mercier, and is selling at the representative is of the opinion that most of the barley and oats will be kept on the farm for feeding purposes. Peel reports that three more tractors have gone into the township of Chinguacousy during the week.

Budget of Favorable News Creates Fresh Bullishness in New York.

New York, Oct. 6.—Developments over the week-end and those which followed contributed measurably to the expansive trading, and many substantial gains were registered in the course of today's active stock market.

Reassuring advice regarding President Wilson's condition, settlement of the British railroad strike and reports from the principal steel centers were viewed with favor by professional investors and others committed to the long account.

The one discordant note was sounded by the money market, and this was due to the advance from the past fortnight by their advance from the opening rate of 6 per cent to 12 per cent in the last few days.

Equipment Strong. Equipments were led by Northampton Pump at a 15-point gain to the new record of 197 1/2, other features of that group including Baldwin and American Locomotives and American Car at extreme advances of 3 to 6 points.

Crude Oil Advance. New York, Oct. 6.—The advance in price of Eastern Crude Oil in September, while influenced to a considerable extent by the stationary or diminishing productive capacity of the wells in this territory, is also expressive, according to the best opinion available, of the strong tone of the entire crude oil price market.

Wall Street Views. Henry Clews, in his weekly market letter, "The Local Market in French Renten May Bring about the Application to the Stock Exchange for the Listing of these Securities."

Steel to Come Down. Pittsburgh, Oct. 6.—In view of the fact that the steel production capacity of the world has been vastly increased by new requirements, a leading authority holds that extreme prices can not long be maintained.

Sharp Advances in Cotton. New York, Oct. 6.—The sudden ending of the British railway strike took cotton traders by surprise here, and more than \$5 a bale in prices. Buying was stimulated by unfavorable weather in the south, with prospects for frost in the western belt, and reports that the ban had been lifted against clearances of shipping board vessels for Great Britain.

BIG DECLINE IN WALL FOLLOWS SHARP RISE

Net Loss is Three Points—BrisK Trading in Montreal Market.

Montreal, Oct. 6.—Business on the Montreal stock exchange today increased by about 10,000 shares over Saturday and by about 5,000 shares over Friday.

Movement in Loyal again proved of a spectacular character. The stock opened at an over-night rise of 17 points and closed at 136, with the price dropping to 136, with the close at 134, showing a net decline of 3 points on the day.

Among the substantial gains made during the day was one of seven points for Canadian Locomotive which rose 25 to a new high for the year.
