FRENCH STRIKE Foe AGAIN ON SOMME FRONT

Allies Advance Near Le Transloy and Saily Villages.

WEAR DOWN GERMANS

British Aerial Department Does Scouting Work for Battle.

Special Cable to The Toronto World. London, Nov. 10.—In operations about Salilisel and northeast of Les Bouafs, the French, under General Fayolle, captured several trenches and sections of trenches from the Germans this afternoon in a movement to capture Le Transloy and to turn the Germans out of the St. Pierre Vaast wood, southeast of Salilisel, north of the Somme.

The present operations continue to be of the methodical siege variety, and the French are not striving to win startling results in a heap so much as to seize some important key positions to assist them and the British in the enveloping movement upon Beaumont and Peronne. The object of the allies continues to be the wearing down of German manhood by process of erosion rather than by process of gigantic sudden blows.

The French progress about Salilisel provoked the Germans to a counter-attack. This was easily repulsed by the French. They threw a curtain of fire and caught the enemy in the open with disastrous results for him.

South of the Somme continuous bombardments prevailed and the firing became particularly violent at intervals in the Pressoir and Ablancourt sectors.

On the British side of the battle front artillery battles continued. The Germans used great quantities of gas shells in the night. Their trench mortars became lively northwest of Festubert and they were speedily silenced when the British batteries opened on them.

An improvement in the weather has brought about a great revival in aerial activity on the British and the French fronts. As the stormy weather of some days had compelled the machines for the most part to keep under cover, it was necessary to survey the German positions carefully in order to ascertain the state of their defences and where new trenches had been constructed. Many bombing raids were also carried out by the Royal Flying Corps against the communications, billets, and stores. Being thus attacked in their own territory, the Germans attempted to drive off the British machines and much air fighting prevailed. The feature was an encounter between a British squadron of thirty and a German squadron of forty machines. The German squadron was broken up and dispersed. In other fights, nine other machines were driven down in a damaged condition and six machines of the beaten squadron also fell out of control.

It is believed that the return of fair weather and the great aerial activity presage the fighting of another big week tomorrow or Sunday.

Before Verdun a heavy artillery action continues to prevail, especially between Darnioop and the Haudeumont quarry.

DISGRACED RECTOR WINS WAR GLORY

Son of Late Canon Farrar Left England Under Cloud.

DECORATED FOR VALOR

Splendid Exploits With Foreign Legion Win High Recognition.

New York, Nov. 10.—The Evening World today says: Another man has emerged from the European war purged of disgrace, according to information received today. Frederick P. Farrar, of the French foreign legion, has been decorated for valor in the field and acclaimed for conspicuous gallantry.

He disappeared five years ago after his many friends here and in England learned that, as the Rev. Frederick Percival Farrar, rector of Sandringham, domestic chaplain to King George and honorary chaplain to Queen Alexandra, queen dowager of Great Britain, he had been dismissed from his court posts. He had not been (Continued on Page 7, Column 1).

NICKEL LOADED ON THE DEUTSCHLAND REACHED INTERNATIONAL NICKEL CO. THRU CANADIAN COPPER CO., SUDBURY

Says The Providence Journal

German Submarine Ready to Sail at an Hour's Notice Has 360 Tons of Nickel on Board, Which is Part of a Consignment Purchased From the International Nickel Company at Communipaw, N.Y., in November, 1914, While Two Hundred Tons More Are Stored Apparently For Export by Another Submarine.

TAKING ANOTHER RISE OUT OF YOUR UNCLE SAMMY

RUSSIANS THROW BACK FOE THIRTY MILES IN DOBRUDJA

ITALIANS ADJUST LINES UPON CARSO PLATEAU

Allies Resume Local Fighting to Prepare Ground For Another Big Advance.

Special Cable to The Toronto World. London, Nov. 11.—Fighting on the Carso Plateau in the direction of Trieste has resumed in a local way by the Italians, who have captured certain projection sections of the Austrian defences, so as to straighten their line. Thirty prisoners were taken in these operations. Owing to their heavy losses sustained in the offensive and in the repulse of their counter-attacks, the Austrian troops remain in the trenches to which they have been driven, and they show no signs of coming out to attempt to regain their lost ground.

Reinforcements were moved up by the foe to take the places of those killed, maimed and captured, in spite of the interference of a heavy Italian bombardment. The weather has again become unfavorable, with mists hanging low, and artillery observation is impeded. Meanwhile the Italians are pushing forward up to the new line of defence occupied by the Austrians.

BRITISH RAIN BOMBS ON U-BOAT SHELTERS

General Sakharoff Wins Signal Triumph Over Von Mackensen — Begins Assault on Cernavoda Bridgehead.

Special Cable to The Toronto World. London, Nov. 10.—In a rapid advance in which thirty miles were covered inside of twenty-four hours, Russian troops on the right wing of the allies in the Dobrudja have reached a point two miles west of Cernavoda and they have already begun to assault the famous bridgehead. They have just captured in sharp fighting, Dunareav, taking a number of prisoners. This point is two miles distant from Cernavoda, upon which the Russians are executing a turning movement.

The Russians have also occupied in the drive Hirsova and Mustudj, and they have taken an important height southwest of Kasemidja.

Owing to the Russian ability to make such rapid progress, it is believed here that the forces under Von Mackensen are being very severely handled. He has with him a contingent of Turks, and these are said to be unreliable in case of a rapid retreat.

Has Big Cossack Force. General Sakharoff, it is believed here, has a large force of Cossacks under his command and he is therefore possessed of the power of great mobility. It is hoped in his rapid advance that he will overtake and capture some of the heavy guns employed by Von Mackensen in his advance, but other observers of the war express the conviction that Von Mackensen had sent his heavy batteries to aid the Teutons in Transylvania and the Bulgarians in Macedonia and that he is therefore handicapped should he attempt to make an early stand. It is figured out that the Russians caught the German field marshal napping. Germany still refuses to admit that he had retreated fifty miles inside of three days, but reports today that in the (Continued on Page 2, Column 5).

ANOTHER STEAMER SUNK WITH CARGO OF COTTON

German U-Boat Torpedoes Ship Liverpool Bound From Alexandria.

Boston, Nov. 10.—The British freight steamer Gulf of Suez, bound from Alexandria, Egypt, for Liverpool, with a cargo of cotton has been sunk in the Mediterranean by a German submarine, according to private advices received here today. The steamer had sent her heavy batteries to aid the Teutons in Transylvania and the Bulgarians in Macedonia and that he is therefore handicapped should he attempt to make an early stand. It is figured out that the Russians caught the German field marshal napping. Germany still refuses to admit that he had retreated fifty miles inside of three days, but reports today that in the (Continued on Page 2, Column 5).

Special to The Toronto World.

Providence, R.I., Nov. 10.—The Providence Journal will say tomorrow (Saturday) morning: "The German submarine Deutschland is now ready for sea or can be made ready at an hour's notice."

"Every possible precaution has been taken to prevent the knowledge of contents of her cargo from becoming public property. The Journal, however, has secured all the details concerning this cargo. It consists of nine carloads of nickel, averaging forty tons to a car, and ten carloads of crude rubber, averaging eighteen tons to a car, making a total shipment of five hundred and forty tons. In addition to this material, the Deutschland now has in her hold three carloads of a chemical known as chromium, and one carload of vanadium, both used in the process of hardening steel.

"There still remains in the warehouses of Eastern Forwarding Co., of New London, a consignment of over four hundred tons of crude rubber and two hundred tons of refined nickel, which is apparently stored for export by another submarine.

"All the nickel aboard the Deutschland is part of a large consignment which was purchased in November, 1914, from the International Nickel Co., at Communipaw, N.J. The Journal discovers that this consignment was taken by the purchasers, ostensibly German-Americans, but really men acting for Dr. Heinrich Albert, fiscal agent for the German Government in this country, and transported to the storehouses of the Nassau Smelting and Refining Co., at the foot of West 29th street, North River, N.Y.

"The nickel was then transferred at various times to the New York Dock Co. in Brooklyn, where it was stored in warehouse No. 104 and placed in casks weighing from nine hundred to fourteen hundred pounds.

"The metal was partially in ingots and largely in a form about the size of buckshot. Just before the arrival of the Deutschland last July, the parties supposed to be controlling this nickel became active and every effort was made to cover up the source of supply by a series of rapid shipments to various points. The last of the shipments took the consignment intended for the Deutschland at Baltimore, to Pittsburg, over the Baltimore & Ohio Railway. The cars containing this nickel remained in the yards at Pittsburg for four days and were then reshipped to Baltimore, being ultimately shipped to the docks of the Eastern Forwarding Co. in that city.

"The next movement of nickel, which remained after the first departure of the Deutschland, came in the beginning of last September, and soon afterwards a number of carload lots were received by the Eastern Forwarding Co., in New London. Two of the cars arrived in New London on Sept. 14, one on the 15th and four on the 18th. On Sept. 25th, two cars, containing both nickel and (Continued on Page 2, Column 5).

rubber, reached New London, and these were followed on Sept. 29 by another car, containing both nickel and rubber. On Oct. 11 another car of nickel was received, and during the next eight days twenty-nine cars of rubber, three cars of chromium and one car of vanadium.

"All this freight was transferred immediately on arrival over a spur track to the warehouses of the Eastern Forwarding Co., on the state pier at New London. It was unloaded by employees of the company and immediately after being placed in its warehouses the nickel was taken from casks to shoi bags, in which form it has been placed aboard the Deutschland for its approaching voyage. A large quantity of nickel which reached the New London docks in ingots is still stored in the warehouses there. The metal which was purchased from the International Nickel Co. reached that corporation from Sudbury, Canada, thru the Canadian Copper Co.

"Every effort that has been made to ascertain the facts concerning the cargo of the Deutschland has failed. The Journal's request to the treasury department for this information was referred to the state department, which ruled that the publication of manifests is purely an international matter without international character, and that the treasury department was free to do as it saw fit, whereupon the treasury department ordered the suppression of the manifest. Treasury officials have stated to The Journal that the manifests of these submarines would never be made public. Representatives of The Journal have been aboard the steamship Willehad during the past week. They report feverish activity in the effort to load the Deutschland in the shortest possible time, and every indication that for some reason she is to leave port at the earliest moment.

"It has also been ascertained that since the arrival of the Willehad at New London, altho naval officers and government inspectors sealed that vessel's wireless apparatus, the captain of the Willehad has sent messages over his wireless to sea several times within the past few weeks. The part of the apparatus known as the machine was sent to New York several weeks ago by the captain of the Willehad, ostensibly for repairs, but really in order to throw United States naval officers off the track and to make it appear that her wireless could not be operated until the return of this machine. As a matter of fact, the wireless operators of the Willehad have rigged up temporary instruments which can send, tho they cannot receive. On both Wednesday and Thursday nights of the present week such messages have been sent from the Willehad thru this temporary apparatus to some unknown vessel or vessels off Fisher's Island and Long Island Sound."

Canadian Press Despatch.

New London, Conn., Nov. 10.—The Deutschland, the German merchant submarine which arrived here on Nov. 1, is loaded and is ready for her dash home-ward. The exact time of her departure was a matter of conjecture tonight, but it was generally believed she would sail within the next 48 hours. The value of the cargo is said to be in the neighborhood of \$1,500,000, consisting largely of crude rubber, nickel, zinc and silver bars. The value of the latter is declared to be \$250,000.

The engines and other machinery of the submarine were tested today. A sixty days' supply of provisions was loaded tonight.

The Globe Steel Safe, as Illustrated, for Office or Home

Not Only Provides Safety for Important Papers and Other Valuables, But Provides the Satisfaction of Knowing That They Are All Right.

THE GREAT CONVENIENCE of a Globe Steel Safe to the busy man who hurriedly places important documents and records in it for protection against fire and prying eye when leaving the office, entirely over shadows its comparatively small cost.

The satisfaction to the members of the household when not at home that the heirlooms and valuable receipts are secure till one's return, makes the ownership of a Globe Safe desirable.

The Globe Steel Safe is built of double walls of cold-rolled steel sheet, insulated both on the outside and inside and with air-tight chambers, making combustion impossible. The case is not soldered or riveted together, but forced together under tremendous pressure. Fitted with Yale key or combination dial lock and made in various sizes. Owing to its light weight, this safe can be rolled on its castors, even the largest size, on any ordinary house floor without damaging carpets or floors.

As illustrated, size 66 inches high, 36 inches wide, 25 inches deep. Case only \$99.00

Household Safe, size 48 inches high, 36 inches wide, 25 inches deep. Case only \$60.00

NOTHING TO SAY ON HYDRO ISSUE

Premier Unwilling to Make Statement Regarding Canadian Niagara.

LACKED INFORMATION

Needs to Study Nesbitt's Statement Very Carefully Before Replying.

Premier Hearst was unwilling yesterday to make any statement on the Hydro situation as precipitated by Sir Adam Beck, who said that the Canadian Niagara Power Co. had failed to live up to their undertaking to supply the Hydro with 50,000 horse power before the end of the year.

The premier had not seen the interview given by Hon. Wallace Nesbitt and A. Munro Grier, K.C., yesterday. He could not be prepared to say anything regarding it until he had had time to consider that interview very carefully.

Not Prepared to Speak. As for the intervention of imperial authorities on behalf of the American company manufacturing electrodes, the premier understood that the appeal from the company had gone direct to the imperial government which had forwarded the communication to the Dominion Government thru the usual diplomatic channels.

Mr. Hearst said he was not prepared to speak off hand of the details of the arrangement made between the Hydro and the power company. He would need to look into the correspondence and other data on the matter before he expressed himself.

Hon. Wallace Nesbitt and Mr. Grier said the statements made this week by Sir Adam Beck of their failure to keep their promise to supply the Hydro with 50,000 h.p. were misleading.

What they had done was to promise 25,000 h.p. this year and the rest as soon as they were able. They claimed further that they were losing \$120,000 a year thru supplying power to the Hydro.

Sir Adam is reported as reiterating his previous charges against the Canadian Niagara Power Co.

TWO THOUSAND SOLDIERS ARE NOW IN HOSPITALS

Half the Tuberculosis Patients Were Discovered Before Leaving Canada.

The military hospital commission is caring for 2081 disabled Canadian soldiers, according to a statement issued yesterday. Of these 426 are in the sanitarium for tuberculosis, 1624 are at convalescent hospitals, while 39 are in asylums for insane. Half the cases of tuberculosis were discovered before the patients left for overseas.

The number of soldiers sent back to Canada as medically unfit, up to October 31, was 6,264. Of these 961 were suffering from wounds, shell shock or gas, 122 were insane and 245 had tuberculosis.

Avenue Road Extension Must Be in Straight Line

The works committee's meeting yesterday was one of the lightest of the year. The biggest thing up for consideration was the joint report of Commissioners Forman and Harris and City Solicitor Johnston, advising that before the Upper Canada College people be allowed to subdivide part of their property, the city be given some definite assurance that provision would be made to allow Avenue road to continue on a straight line.

The committee passed the recommendation without discussion. Aldermen McBride and MacGregor made an unsuccessful attempt to have withdrawn the by-law which prohibits storekeepers from using more than eighteen inches of the street line for display purposes.

"Let them encroach during the Christmas rush anyway," argued Ald. MacGregor. Commissioner Harris recommended strongly against it and said it would be better if they were kept off the street line altogether.

AN ATTRACTIVE EXHIBIT.

With the opening of the hunting season, Nov. 1st, the Grand Trunk Railway System installed in one of the windows of their city ticket office, corner King and Yonge streets, a very attractive exhibit of trophies of the hunt. The display consists of mounted heads of moose, deer, elk, bear, caribou and mountain sheep, procured in territory served by the Grand Trunk. This display, however, is of particular interest to hunters of deer and moose who annually visit the "Highlands of Ontario" where they abound, including "Muskegon Lakes," "Lake of Bays District," "Maganetawan River," "Lake Nipissing," "Kawartha Lakes," "Simagami, and districts contiguous to Algonquin Park. Information regarding open seasons in different districts, railway fares, etc., may be had on application to Mr. W. J. Moffatt, city passenger agent.

ENGLISH AND FRENCH MONEY

A. F. Webster & Son, 53 Yonge Street, are glad to be able to advise that they have received a considerable quantity of French bank notes to be used in sending remittances to the soldiers at the front. These are a great convenience when making purchases in France, as the notes do not require to be exchanged. Passengers going to England may also secure English, Scotch or Irish bank notes.

In a joint report Works Commissioner Harris and City Solicitor Johnston declare that out of 700 stores using outside counters for display, only 282 conform to the by-law which restricts encroachments beyond 18 inches.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody Will Know.

The use of sage and sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or straggled appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

As well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

Toronto May Still Have Trolley Freight Service

Toronto may still have a trolley freight service on its streets in spite of the fact that officials are absolutely opposed to any such scheme. The Toronto Suburban Railway Co. has received authority to connect up its C.N.R. Guelph line at Lambton, which means they have a thru right of way down to Dundas to Keele, up Keele to St. Clair, along Ford to Davenport and from there right to the North Toronto Station.

City representatives opposed the Lambton connection before the Ontario Railway Board, but lost out. They wanted to appeal, but the township, whose fight it really is, refused to allow Toronto to carry the case further.

Says Coal is Scarce, But No Justification for Prices

Property Commissioner Chisholm says he was misquoted yesterday on the price of coal. He declares that he did not state there was no shortage of soft coal; on the contrary, he admitted it was scarce, but did not believe there was any justification for \$15 per ton coal. No later than the 7th of November, according to the commissioner, Toronto paid \$8.10 for smokeless coal on the Toronto tracks.

TO COAL CONSUMERS OF TORONTO

ECONOMIZE ON COAL

Decreased production at the mines, owing to scarcity of labor and lack of transportation facilities, has caused a decided scarcity of Coal. To prevent the situation becoming acute, we advise the public to practise the most rigid economy in the consumption of coal.

Do not expect immediate delivery of large quantities.

Co-operation between dealer and consumers will materially relieve situation.

ADVANCE IN BEEF MAY BE EXPECTED

Too Many Cattle Are Being Killed Now Instead of Next Spring.

MEAT WASTE IS LARGE

Butcher Says Large Percentage of Every Carcase Must Be Thrown Away.

That the price of beef, the only meat which so far has not increased in cost to the consumer, will make an advance in the near future because thousands of cattle are being killed now instead of next spring, is the opinion of George Dann, 384 Harbord street, a butcher of repute with more than fifty years' experience in various activities of that occupation.

Mr. Dann submitted comparative figures based upon his own business, which show the remarkable increase in the price of all fresh meats in the last year. His prices are likely to vary slightly from other butchers.

How profits to a butcher are lost thru waste in cutting, of which the people have no appreciation, was shown by Mr. Dann in declaring his belief that a third of every beef he buys must be thrown away into the bone-box, given away for dog meat or sold at the small sum of 10 cents a pound.

Mr. Dann declares that he fills two 100-lb. bone-boxes with waste every day. At the same time he is buying the beef at certain prices and selling it for certain prices with a fixed profit for the whole. The waste represents the butcher's loss.

In backs of bacon there is a waste of 2 pounds in 8, which sometimes sells for 15 cents a pound and sometimes is thrown away. In the shank bones of beef there is considerable waste; there is 4 pounds waste in each shoulder, one pound waste in each hind quarter and 4 pounds waste in each salt box. Mr. Dann declares that the one-third waste on each beef is waste irrespective of that done in cutting.

In every loin of pork there is 3 pounds waste Mr. Dann says, represented in the ends which people use to buy. These are either sold for 10 cents a piece or thrown away.

Some Price Comparisons. Last year Mr. Dann says that his

profits were less than \$400 and at the end of 1914 he had a deficit of \$421.50, while this year so far his stock in trade has cost him \$10,500 and his sales have amounted to a total of \$10,624. Prior to July, 1915, Mr. Dann had the assistance of two men to whom he paid wages.

Following are the prices at which Mr. Dann bought and sold last year and the corresponding prices this year:

1915—Loins of pork, bought at 20 3-4c lb., sold at 25c; 1916—bought at 22c lb., sold at 25c.

1915—Calves bought at 13 1-2c lb., sold according to cut; 1916—bought at from 18 to 20c lb.

1915—Lambs bought at 13 1-2c lb.; 1916—bought at 17-18c lb.; legs sold last year at 25 and this year at 27c lb.; neck and breast last year sold for 12 1-2 and are selling at the same price this year, and chops last year sold at 25c lb. and this year sell at 28c lb.

1915—Hogs bought at 13 1-2c lb.; 1916—bought at 16 1-2c lb., sell according to cut. Butts bought at 15 1-2c last year and this year, 19 5-4c lb., sold last year at 18c, and this year at 22c lb.

1915—Butter bought at 33c lb. and sold at 38c; 1916—bought at 45c and sold at from 45 to 48c.

1915—Sides of bacon bought at 22c lb. and sold at 35c; 1916—bought at 25c and sold at 30c lb.

1915—Bacon bought at 25c and sold at 30c lb.; 1916—bought at 28-32c lb. and sold at 35c.

1915—Fresh eggs bought at 29c a dozen and sold at 33c; 1916—bought at 28c a dozen and sold at 44c.

1915—Newly-laid eggs, bought for 40c a dozen and sold at 45c; 1916—bought at 60c a dozen and sold at 60c.

1915—Cabbage, bought a dozen for 30c and sold at 53 each; 1916—bought 8 dozen for \$1, and sold at 10c each.

1915—Cauliflower, bought at 70c a dozen and sold at 80c each; 1916—bought at \$2 a dozen and sold at 20c each.

1915—Carrots, bought at 50c a bag, and sold at 5c a small measure; 1916, bought at \$1.25 a bag and sold at 10c a small measure.

1915—Turnips, bought at 25c a bag and sold 2 for 5c; 1916, bought at \$1 a bag and sold at 3 for 10c.

1915—Onions, bought at \$1 a bushel, and sold for 10c a small measure; 1916, bought at 4c a pound, and sold at 5c a pound.

1915—Potatoes, bought at \$1.20 a bag, and sold at 25c a peck; 1916, bought at \$2.25 a bag, and sold at 40c a peck.

1915—Milk-fed chickens, bought at 12 1/2c a pound, and sold at 23-25c a pound; 1916, bought at 25c and sold at 27c a pound.

Mr. Dann maintains that the profits of the butcher have been cut considerably thru the advance in prices. In addition to the increased cost of meats he says that paper and twine are now costing more. Paper, which formerly bought at six quires for \$1.40, now buys at four quires for \$1.40, and wrapping paper, which was formerly bought at 2 1/2 cents a pound, now buys at 6 1/2 cents a pound, and some butchers pay seven cents. A spool of rolling twine which formerly cost 25 cents apiece,

now costs \$1 each. He says that during the past summer his twine, paper and ice (necessaries upon which no return is expected), cost him an average of \$20 a week. This amount is increasing, he estimates.

LAZINESS A FACTOR.

High Cost of Living Editor: Dear Sir,—I agree with "A Visitor" that there is a good deal of laziness among the women of our big cities, for if every woman did as much cooking as I do, she would not have much time to go out.

I bake my own bread, cook for nine and ten people all the time, and find it a great deal cheaper to cook everything at home. The stores would have to go out of business if the women of Toronto do all their cooking as I do.

But, even at that, I find it very hard to get along, and things will be no better till the people rise up and make the government take control of everything, and break up these blood-sucking parasites which are the direct cause of all our living problems.

A Working Man's Wife.

High Cost of Living Editor: Dear Sir,—Since it is my privilege to be a regular subscriber to The Toronto World, perhaps I may safely feel that The World's invitation to its readers to contribute to the investigation and discussion of the high cost of living includes me also, for I would not be an uninvited guest.

If so, here goes. The answer to the high cost of living problem is to me the simplest under the sun. There is no real problem in it, and why are so many commissions appointed in so many countries to investigate what is as plain as a, b, c?

The answer is that there are too few producers and too many consumers. Food, clothes and homes are provided by labor, but they are needed by all. If only small percentages of the population is engaged in the actual production of necessities, if many of them are withdrawn in onlookers and to manufacture war munitions, if much of the production of those who remain at essential labor is exported to Europe, the resulting shortage of the necessities of existence will soon become acute. We arrive at a point where there is not enough to go around. Then bidding for what there is becomes keener and prices rapidly advance; the advances depending upon the extent of the shortage.

In the bidding, of course, those with the money get the goods after bidding the highest cash price. They lack nothing. Those with little money, and many of them happen to be actual producers, are compelled to subsist on less of the necessities than formerly. Thus is the shortage met.

There are obvious ways to remedy such a trying situation. We must either put an embargo on the shipments of necessities from our shores or across the American border, or we must put all consumers to work at useful production. Perhaps we could do both. There would then be no problem at all.

Black Safety Tread Tires

Help the Grip of the Brake

WHEN you slam on the brakes in the tight pinch of sudden danger, it puts confidence in your heart and firmness in your hand to know that you have Goodrich Black Safety Tread Tires under you.

Note the common sense of the non-skid pattern of the Goodrich Black Safety Tread. Its five parallel fingers and cross-ties throw a right-angled bar against any skid—forward or side.

That is why, rain or shine, it helps put fair weather under your car.

Moreover, that simple, effective design takes the wear off the body of the tire, and gives it longer life.

Small wonder that when one considers Goodrich Black Safety Tread Tires are sold on a one-price basis, the same prices to everyone—the Fair-List Prices—knowing motor car owners regard them as the ideal fabric tires.

DRASTIC ACTION TO PROTECT CONSUMER

Federal Order - in - Council Would Put Strong Curb on Combines.

"UNDULY" IS OMITTED

Any Agreement to Enhance Price of Necessaries Made Criminal Offence.

Ottawa, Nov. 10.—The full text of the government order in council designed to control the cost of living in Canada, shows that the new regulations are much more drastic than anticipated. There is distinct provision against the accumulation of food products, save such as are required in the ordinary course of business. Under the Combines Act, it was made an offence to "unduly" enhance the price of commodities by means of combination. In the order now passed, as regards the necessities of life, "unduly" is eliminated, and any combination or agreement to enhance the price of food or clothing or fuel is made a criminal offence. Wide Powers Conferred. It is made an offence to agree to limit facilities for transporting, producing, manufacturing, storing or dealing in any necessary of life, to re-

strain or injure trade or commerce in relation to any necessary of life, to prevent limit or less the manufacture or production of any necessary of life, or to enhance the price thereof and to prevent or lessen competition in the production, sale, transportation or supply of any such commodity. Wide powers are conferred upon the minister of labor whose department will be the medium of action for the

federal government, while extensive authority is likewise given the municipality, which is empowered to demand production of full business returns from any persons or firm, under oath, where it is suspected excessive prices are being demanded. The minister of labor has the same power. Necessaries of Life. The order in council defines as "necessaries of life" a staple or ordinary article of food, whether fresh,

preserved or otherwise treated, clothing and fuel, including the products, materials and ingredients from, or of which any thereof are in whole or in part manufactured, composed, derived or made. Penalties for infraction of any of the regulations is a fine not to exceed \$5000 or imprisonment for any term up to two years or both.

ARE POTATOES HELD FOR HIGHER PRICES?

Charge is Made That They Remain in Cars Awaiting Rising Market.

Another advance in the price of potatoes is predicted by wholesale and retail dealers because of the probability of the western supply being cut off. The failure of the Ontario crop and the competition of the American buyers in New Brunswick are also assigned as reasons. While wholesalers and retailers are complaining of a scarcity of potatoes it is contended that many box cars and refrigerator cars are standing on sidings awaiting to be unloaded. It is said that 150 cars stood between York and Bathurst street one day last week ready to be unloaded. The average carload of potatoes is 500 bags, and the average weekly increase in price is \$65, while the average weekly loss thru demurrage is \$16. The dealers' average weekly gain thru not unloading his cars amounting to approximately 10 cents a bag, is \$40. Under this arrangement the dealer is 10 cents ahead on each bag of potatoes he is not to unload. The dealers have held the price as low as they have been and that as soon as these stop the prices will soar again.

This Ointment Possesses Power to Heal the Skin

Two Cases Which Prove the Extraordinary Healing Power of Dr. Chase's Ointment.

The use of Dr. Chase's Ointment is wonderfully satisfactory because you can actually see the results accomplished. It is surprising what change can be brought about in a single night by this great healing ointment. Mr. George Beavis, 119 James street, Peterboro, Ont., writes: "As a healing ointment, I consider Dr. Chase's the best obtainable. I had a large running sore on my leg, and although I had tried all the prescriptions of two doctors I was unable to get any relief from the pain or to get the sore healed. One day my druggist handed me a sample box of Dr. Chase's Ointment, and I used it with such good results that I decided to give the ointment a fair trial. Altogether I used four boxes and am glad to be able to say that the sore on my leg is entirely healed up. Since this experience with Dr. Chase's Ointment I have recommended it to many people."

Mrs. W. W. Oliver, Fort George, Annapolis Co., N. S., writes: "I am going to tell you my experience with Dr. Chase's Ointment. There was a spot came on my face something like a mole, but it kept getting worse, and several doctors whom I consulted said it was skin cancer, and that it would have to be cut or burned out. I intended having this done, but changed my mind when my brother recommended Dr. Chase's Ointment. Before I had finished one box of the ointment this skin trouble had gone, and has not bothered me since. I cannot praise Dr. Chase's Ointment too much, and you are at liberty to publish this letter. If you have never used Dr. Chase's Ointment send a two-cent stamp for a sample box, and mention this paper. Price sixty cents a box, all dealers, Edmondson, Bates & Co., Limited, Toronto.

The Victory of the Plain People

The re-election of President Wilson means a great deal more than many people in Canada, or for that matter in the United States, appear to realize. It is a triumph for the plain people. The progressive, clear thinking, good living people of the west have declared by their ballots that the Democratic party as reorganized by Mr. Wilson is the party of progress, and that the Republican party under the nominal leadership of Mr. Hughes has become the party of reaction.

Why Not Enforce the Law From Ottawa?

The Dominion Government by order-in-council has strengthened the criminal code provisions against combinations in restraint of trade. It is now declared a criminal offence for persons or corporations to combine to enhance prices, and the onus is no longer upon the crown to prove that such prices have been advanced "unduly."

THIRD VICTORY FOR UNIVERSITY COLLEGE

Defeat Victoria Eighteen to Six in Mulock Cup Fixture at Stadium.

University College won their third Mulock Cup game yesterday at the Stadium when they took Victoria into camp to the tune of 18 to 6.

The ground was slippery after Thursday's rain and made the footing anything but certain. It was fairly close for half the journey, but Arts opened up in the third and final quarter when it was an easy run home.

University College held the Vice goalless in the opening quarter and run up six points themselves. Flynn recovered when one of his backs fumbled a pass and went over for a try. McGarvath converted.

Luko was given a nice pass early in the second period and scored five points for Victoria by guiding over the line. Cooley failed to convert. It was even up at the half three nil to nil, as Drulard was forced to rouse and the points were six all.

Victoria made a bad fumble in the third round and only saved the day when a wing man grabbed the ball behind his own line and forced to fall on it for a safety touch. This gave University College a two-point margin when they changed ends.

It was all Arts in the last quarter. Flynn galloped over for two tries by breaking thru the centre. They were both unconverted and the final score was 18 to 6.

The teams: University College (18): Flying wing, McGarvath; halves, Flynn, Sinclair, Bell; quarter, Drulard; scrumming, Bourgoines, Robertson, Laurier; middies, McDonald, Irwin; mackies, O'Connell, McMurray; outsiders, Ballantyne, Popok.

Victoria (6): Flying wing, Bull; halves, Cooley, Erik, Luke; quarter, Sheridan; scrumming, Lang, Caver; Trimble; insides, Wheatley, Hendry; middies, Albright, Crossen; outsiders, Ruyck, Parsh.

The Mulock Cup standings is as follows: Won. Lost. To Play.

Table with columns: Team, Won, Lost, To Play. Rows include University College, St. Michaels, O. T. C., Senior Meds, Victoria, Trinity, etc.

Upper Canada Seconds Beat S. A. C. Seconds

The Upper Canada College seconds defeated St. Andrews seconds yesterday afternoon at Deer Park, by 17-8.

The U.C.C. lads have had a very successful year, having defeated Technical School, Trinity College, Port Hope, and Highfield of Hamilton.

U.C.C. kicked off against a high wind, which continued throughout the game, consequently the team with the advantage kicked a great deal. The play was fast from beginning to end, with U.C.C. pressing most of the time.

For U.C.C., the running and kicking of their centre half was first-class, and their line held well. The line-up was as follows:

U.C.C. (17)—Flying wing, Prince; halves, Lindsey, Tyrrell, Menendez; quarter, Macintosh; scrumming, Demehy, Stowe, Mackenzie; insides, McEwen, Hutson; middle wings, Sime, Hyland; outsiders wings, Gledhill, Ballantyne.

S. A. C. (8)—Fullback, Bullock; halves, Calvert, Lees, Macintosh; scrumming, Lightbourne, Thorley, Flawan; quarter, Harris; outside forwards, Wood, middle, Seyer, Secord; inside, Earl, Holday.

Referee—Burkart.

WINNIPEG AMATEURS SIGN WITH PORTLAND

Vancouver, B.C., Nov. 10.—Stan Marples, Clem Loughlin and Dick Irwin of Winnipeg, three of the best-known hockey players in the Dominion, have decided to forsake the amateur ranks for the professional game, according to a wire received by Manager Savage of the Portland Club today.

Rumor has it that the C.C.A.H.A. is being formed to combat the O.H.A., mainly on account of the difficulties that arose last winter, wherein the O.H.A. was slated because it had two members on the executive board of the Canadian Amateur Hockey Association, which is locally argued, is the real controlling body of amateur hockey in the Dominion.

IS NEW ASSOCIATION RIVAL TO O. H. A.?

Ottawa, Nov. 10.—In the Central Canada Amateur Hockey Association being formed to combat the O.H.A., this question is being freely discussed in local sport circles tonight, and from Quebec comes the opinion that the Montreal and Quebec ends of the proposed formation can see no advantage in the creation of such a body.

THE HAT SHOP

Ottawa, Nov. 10.—George Boucher and Clinton Benedict, and possibly Jack Darragh, are about the only hold-outs that the Ottawa Hockey Club, to wit, Ted Dey, will have to deal with this season.

Such information leaked out this afternoon, and with it the straight inside prediction that Shors, Nighbor and Gerard were willing to sign up at any time at the price offered. In fact, the clubs have most of their men signed at reduced salaries.

From Montreal comes the information that Bert Lindsay, who pulled Wanderers out of many a tight game last season, is in Ottawa and may not be with the red-bands this season. Hargo is mentioned as his successor between the Wanderer poles.

Of the Ottawa players, three of them are willing to ascribe their John Hancock to a contract at any time it is offered. Gerard and Nighbor are likely to be the two highest-priced men on the Ottawa team, it is said, getting around \$900 for the season.

Looking toward Toronto, Cameron, Cy Demmey and Skinner are assigned. Cameron is working in a munition plant, and is not a very dependable player. Demmey wants to hold down his Ottawa position. Skinner, following a fracas in the blue shirts' dressing room last season, had the last-throw of his eye disrupted, and is said to have declared he would never play with Toronto again.

Down Wanderer way, Sam Lichtenhein claims to have signed six players, including Adams and Whalen, last year with St. Paul. Sammy says he is not going to sign any players this year who depend on hockey alone for a living, and that he will not play players who are not helping the patriotic cause in some way.

George Kennedy is apparently too much engaged in staging "patriotic" flatbouts to hand out hockey dope.

From Quebec little is heard, and there the whole N.H.A. situation rests, from an Ottawa standpoint. The next stage of development of the N.H.A. meeting in Montreal Saturday, when the schedule will be drafted and the constitution for the season revised.

ONTARIO FOOTBALL ASSOCIATION

ONTARIO CUP FINAL EATONS vs. HAMILTON WESTINGHOUSE Varsity Stadium Today (Sat.) Nov. 11

Kick-off at 2:45. Admission 25c. Extra time will be played if necessary.

Swings frequently rolled off Gibbons' ducking shoulders. The St. Paul man kept the lead in the period. Gibbons' "ethem" in... 1 2 3 4 5 6 7 8 9 10.

Gibbons left jabs, supplemented by a sensational right to the head, gave him a lead in the closing of the round; he shaded Dillon to the ropes. They rushed into clinches when the Indianapolis boy started his terrific rights. Gibbons round, started his terrific rights. Gibbons round, started his terrific rights.

Round 9.—When the ninth round opened Gibbons showed great skill in ducking before the onslaught of swings of the Indianapolis man. Dillon attempted to duck under three high swings and came back with short lefts and a right to the body.

The fighting was fast at the end of the round, with Gibbons slipping from the reaching swing of the Indianapolis fighter effective rights to the body. Gibbons slipped away from three successive swings, but Dillon found the reaching swing gained from a breakaway and landed his most effective blows of the fight to Gibbons jaw and body.

Dillon pressed another advantage and when Gibbons broke away from a clinch, he was unable to evade the Hoosier's lead encompassing swings, and the final session went to Dillon. Dillon's round.

ROUND SAW LEONARD SOAK HIM. CROWD STAYED THE TEN.

New York, Nov. 10.—Benny Leonard of New York defeated Stanley Soukup of Yankton of Denver in 10-round bout here tonight. Leonard was the aggressor through, scoring a clean knockdown in the eighth round. Leonard weighed in the pounds and Yankton 134½. A big crowd saw Leonard soak him.

Anson Says of Third Big League—No Good

Captain Anson, seen at Shea's Theatre yesterday, was outspoken in regard to the establishment of a third major league.

But that does not mean that Toronto should stay out of the big show. The old slugger thinks well of the baseball proposition, and if the Leafs could get into an opening in the National or American, he would not have an interest himself in the Toronto Club.

Anson likes the city splendidly, if we only had public golf links, a few more of the kind in Chicago, Philadelphia and all the large places across the line.

TEN TEAMS TIED IN BOSTON BIKE GRIND

Boston, Nov. 10.—Ten teams contesting in the six-day bicycle race were still tied for the lead at ten o'clock tonight. Each team had covered 1044 miles and 5 laps at that hour. Cameron, who paired with Wiley, lost a lap at 7:30 o'clock. But the special effort on the part of the rest of the field to hold the team back.

Volley Ball Standing At West End Y. M. C. A.

Thursday night at West End Y.M.C.A. the Volley Ball League took a more interesting character. Adams' team defeated that of Mason Wilson in the second game. These teams split the two games played, and as this was Wilson's first loss, it was a very popular one with the rest of the teams. The scores were: First game, 10-11, and second game, 21-5.

In the second two games played between George Chisholm and Thomas Giles, Chisholm captured both, winning the first by 21 to 8 and the second by 21 to 10. The standing of the league to date is as follows: Won. Lost. Mason Wilson 3 5 George Chisholm 3 5 Harvie Adams 3 5 Thom Giles 3 5

BOON WILL MANAGE MONTREAL WANDERERS

Red Band President Announces This Fact—Eastern and Western Hockey News.

A Montreal despatch says: Rumors that Dicky Boon would manage the Wanderers this season were set at rest by President Lichtenhein of the red-hooded club.

Wanderers are angling for a couple of Eastern Township amateur stars, and expect to announce them within a few days. President Lichtenhein is not selling Gordie Roberts to the club, but will loan him for the season, as he expects Roberts back the following year.

Pittsburg sends this: An effort is being made to revive interest in hockey locally by reorganizing the Businessmen's Hockey League, which last year crumbled much interest.

The Stratford Hockey Club held their annual organization meeting to elect officers and discuss prospects.

Six Wanderer contracts have been signed and returned to date, is the statement made by President S. E. Lichtenhein.

heln of the Wanderer Hockey Club. Others are expected within a few days, Gordon Roberts, for many seasons a mainstay on the forward line, who has gone west to practice medicine, will probably figure in the line-up of the Vancouver Club for following negotiations with Frank Patrick, president of the P. C. H. A., the Wanderers, on whose reserve list Roberts' name still appears, have consented to loan him to the western club.

Vancouver contributes this: According to reports from Portland, Ed Savage, manager of the Portland Rosebuds, is losing no time in getting the players lined up for the approaching season's campaign. Besides negotiating with Winnipeg amateurs for his club, the Portland manager has his strings out for all last season's players.

If the Ottawa Club ultimately succeeds in rounding up all its players, there will be a fair combination in the red, white and black. With Benedict for the nets and Gerardi and Eboze on the defence this department will be in capable hands.

The veteran Quebec hockeyist Jack Maris, is likely to play in an exhibition soccer game against the 17th at the capital this week.

Five of last season's London O.H.A. junior team are available for the coming season in Elliott, Phillips, McKay, Smith and Waiden. It is proposed to recruit from the Church League to fill up the ranks.

Stan Marple, Clem Loughlin and Dick Ervin of Winnipeg, three of the best-known hockey players in the Dominion, have decided to forsake the amateur ranks for the professional game.

Hockey has not yet received proper attention from the fans. Nothing has yet been heard from "Joe" Hall.

Quebec are trying to sign up a new wing player, George Carney of the Sons

of Ireland team, who won the Quebec City League championship. He is big and fast and should easily make the grade.

Jack Fournier, "Skene" Roman and C. Lannemy all have good jobs in the city.

Lieut. "Pete" Charlton, the well-known hockey player, has recently received his commission and is attached to the staff of Woodcote Hospital, Surrey. "Pete" went overseas with the 54th Battalion and has been in the Norfolk War Hospital at Norwich since last May, suffering from heart trouble caused by long service in the trenches.

A presentation to T. Emmet Quinn, the retired president, will be one of the features of the meeting at Montreal. It is likely that a dinner or luncheon will be tendered the ex-leader of the N.H.A., accompanied by some token of the esteem in which he is held.

London, Nov. 10.—The prospect for the introduction of the pari-mutuel system in England, supported as it is by so many influential racing men, is very good, in spite of many serious obstacles.

TENER THINKS BASEBALL HAS REAL FINE OUTLOOK

McGraw Case Closed, Says National League Chief—Next Season.

Pittsburg, Nov. 10.—President John K. Tener of the National League thinks baseball will have another banner year in 1917, despite the agitations which have stirred the sporting world since the 1915 season passed into history.

"In many respects," said the former governor, "the season closed recently was one of the greatest in the history of baseball. There were great races in both circuits, and the attendance was very satisfactory. So far as the next year is concerned, I can see no reason why the game shouldn't enjoy more fine successes."

Mr. Tener also commented on the McGraw incident in Brooklyn, and reiterated that the case was closed. "It's the only way to handle the matter, and everybody would think the same way if they knew the exact details," said the National League chief.

The bookmakers pay no license fee; consequently the Jockey Club may favor the new method or follow the plan of extracting revenue from bookmakers.

Licensing has been advocated before, but with strong opposition. A licensed man, no matter how new, is practically guaranteed safe by the clubs, and a backer will not use him for the "old and tried" man.

London, Nov. 10.—The prospect for the introduction of the pari-mutuel system in England, supported as it is by so many influential racing men, is very good, in spite of many serious obstacles.

Quite recently patrons of a well-known New York restaurant, who were in the habit of leaving their cars unattended outside, uncovered the methods of a new kind of practical joker—new because he was practical. It appears that almost every day someone would have trouble in getting his car started. After he had tinkered for a few minutes an obliging mechanic would stroll on, proffer his aid and have the engine running in no time. Two actors happened to compare notes one day and found that this incident had occurred to both of them. They immediately became suspicious and on leaving the restaurant saw the man working on a car a short distance down the street. By quick action one of them pounced on him and caught him. He was the obliging mechanic, and after his arrest it developed that he had deliberately disconnected portions of the cars' electrical systems and then had collected substantial rewards from puzzled owners for services rendered in starting the machines. Judging from a bulletin from the Automobile Club of Maryland, the trick had been played before elsewhere: "With the opening of the theatres the club will again have uniformed watchmen stationed at them, whose duty it will be to assist members and friends in locating a suitable place for the parking of their cars, and informing them of the requirements of the law with regard to dash lights burning, proper position of rear license tags, etc. "They will also record the time of arrival and departure of the cars, their contents, extra tires and any defects in the way of leaking radiators or gasoline tanks, flat tires, etc., will be noted on the card and fastened to steering wheel of the car. "They are instructed to give motorists any assistance required in getting their cars started. "This service is absolutely free, being entirely optional with the motorist, but they must not be solicited by watchmen." WOODSTOCK COLLEGE BEAT ST. THOMAS. Woodstock, Nov. 10.—Woodstock College defeated the St. Thomas College Rugby team here this afternoon by a score of 12 to 0. A touchdown in the first and another in the second half, both being converted, accounted for twelve points scored by the local legions. AUSTRALIAN LIGHTWEIGHT WHO. Miss Helen M. Merrill, honorary general secretary of the U. E. Loyalist Association of Canada, gave the following statement to The World yesterday:

While Mr. James H. Clark, Boston, the distinguished historian and author of "The Loyalists of Massachusetts" is of the opinion, and his finding may not be refuted, that the American Revolutionary War had its inception amongst the Puritans in two bodies more than a century and a half before the first shot was fired at the Battle of Lexington, April 19, 1775...

As a result of the action, commonly known as the Boston Tea Party, one of the laws enacted by the British Parliament in April, 1774, closed the Port of Boston; another annulled the charter of Massachusetts and ordered the appointment of a council by the governor on a royal writ of mandamus...

WOMAN SUES CITY FOR INSURANCE ON HUSBAND

Mr. Justice Kelly Has Reserved Judgment in Action of Mrs. Phoebe Lancaster.

Justice Kelly in the non-jury assize court at the city hall yesterday reserved judgment in the suit of Mrs. Phoebe Lancaster against the City of Toronto and the Metropolitan Life Insurance Company for \$1000, the amount of a policy placed on the life of her husband, Pte. Henry R. Lancaster. Lancaster went overseas with the Princess Pals, was invalided home from the effects of being gassed, and died at his home, 224 Vaughan road, on February 2. They had lived in Toronto for six years, and Mrs. Lancaster stated that she did not know that their home was outside the city limits.

It was alleged by the defendants that the policy had been issued in mistake, and that as the soldier was not a resident of the city, the city had no power under its statutes to place insurance on his life. Henry Briggs, representing the insurance company, stated that it was not a case of extra hazard, but that when the agreement was made, the question of residence had been raised by the city, whose powers were defined by law.

No Frozen Milk This Winter --Nor Frozen Salesmen A block of frozen milk—an inch or two standing out of the neck of the bottle—is a serious thing in the morning's rush for breakfast. Simply because in the past milk has been left standing several hours on your verandah between the early hour of delivery and your breakfast hour, this winter we are adopting a later delivery system. Later Delivery System You will be able to take your milk supply immediately within the house—no more waiting till it thaws before using. You will be saving our salesmen, hardy as they are, the rigors of early morning cold and frost-laden hurricanes. Simply order an extra supply on the day before the new "no-frozen-milk" delivery starts. It will keep fresh and sweet and improve the cream in the bottle. Save enough milk every night to serve at next morning's breakfast. THE 18 TICKETS \$1 FARMERS' DAIRY Phone Hill 4400 Day Delivery Will Be In Force on and After November 15th

Court Orders Reassessment On Toronto Hotel Properties

Judge Winchester in the county court yesterday restored all the business assessments on the Toronto hotels. The total amount of assessment cancelled by the court of revision was \$1,557,073, and the reversal of judgment by the court means \$32,000 added revenue to the city.

James F. Haverson, K.C., appearing for the hotels, did not attempt to defend his case. He admitted there was no case for the hotels in regard to business assessments.

The court also ordered a reassessment on hotel properties. Mr. Haverson strenuously maintained that the hotels were over-assessed and the court's order in that the new assessment be made, having in mind values of surrounding properties.

PATRIOTIC NOTES.

Many congratulations were given the members of the Hibernian Club at the public opening of their beautiful new quarters in the arts and crafts building. The event was marked by a tea given by Mr. and Mrs. George A. Reid and many of the fine pictures of the host and hostess were on view on the walls.

Mrs. Richard Greer who is following her husband overseas, will identify herself with Miss Arnold in the field comforts department at Shorncliffe, and work in London with Queen Mary's Needlework Guild.

WILLS PROBATED.

Five estates were filed for probate yesterday in the surrogate court. Probate of the will of Frederick Holmes, which disposes of \$58,313, has been applied for by the widow, Mrs. Elizabeth Holmes. Mr. Holmes died in September 22nd last and the greater portion of his estate passes to his wife. His daughter and son are mentioned as heirs.

By a will made in June, 1906, Jacob Rainie disposed of an estate worth \$6,597. His wife Emma Rainie, is the sole beneficiary.

Capt. Charles E. Wood of the Royal Welsh Fusiliers, who was killed in action in France, left \$8,092. The four children of John Haggood will share in the estate of their father which amounts to \$4,588.

Mrs. Emma Richards sole beneficiary and executrix of the will of her husband, Thomas, has applied for administration. The estate comprises \$8,651.

MEAT CAUSE OF KIDNEY TROUBLE

Take Salts to Flush Kidneys if Back Hurts or Bladder Bothers.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste, get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. The famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure, and makes a delightful effervescent lithia-water drink.

RECRUITING METHODS CONSIDERED WASTEFUL

Officers of Military Districts Discuss Means of Improving System.

By a Staff Reporter. Ottawa, Nov. 9.—A conference of the officers commanding the military districts in Ontario, Quebec and the Maritime Provinces was held today with F. B. McCurdy, under secretary of military affairs, who summed up the conference. There was an interchange of ideas on recruiting, and ways and means of overcoming the present difficulties were discussed.

There was a pretty general opinion that the present system is not very economical and that there is too much overlapping. Ways of overcoming this were discussed and some new policy may be adopted.

R. E. Bennett, director of national service, met the officers and explained the plans of the national service directorate.

URGE SOLDIERS' WIVES TO REMAIN IN CANADA

Warning Given That They May Find Situation Embarrassing.

By a Staff Reporter. Ottawa, Ont., Nov. 9.—Information has been received by the government pointing to the serious position in which all probability the women and families of Canadian soldiers who have gone to live in England during the war may find themselves.

The transportation problem is already sufficiently acute, and when it is considered that a large amount of shipping will be needed to bring the troops themselves back to Canada, the difficulty of providing for the return of the wives and families may be appreciated.

It is strongly urged by the government that all who may be contemplating going to England should seriously consider this question, as it may well prove to be one of great embarrassment to them.

E. L. PEASE IS HEAD OF BANKERS' ASSOCIATION

George Burns, President of Bank of Ottawa, Declines Re-Election.

Ottawa, Nov. 9.—The annual meeting of the Canadian Bankers' Association here today was devoted to routine business and the election of officers.

George Burns, president of the Bank of Ottawa, who for the past two years has been president of the association, and has had a great deal of negotiation with the finance department over war problems, was tendered re-election, but retired because his health is none too rugged. The following officers were elected:

Honorary presidents, Sir Edmund Walker, Sir Vincent Meredith, George Burns; president, E. L. Pease, Royal Bank; vice-presidents, Sir Frederick Bank; vice-president, Sir Frederick Williams-Taylor, Bank of Montreal; C. A. Bogart, Dominion Bank; H. A. Richardson, Bank of Nova Scotia; G. H. Baillou, Union Bank. The executive officers will now be moved to Montreal.

FIRES IN CORNWALL WORK OF INCENDIARY

Local Police Have Arrested Man on Suspicion of Arson.

Cornwall, Nov. 9.—In the arrest of James Burns the local police believe they have the man responsible for four separate fires which have broken out during the last two weeks in buildings in this village and vicinity. On Wednesday night there were three separate alarms rung in four streets in the hotel, Michael Shoen. Burns was suspected of having caused the blazes and was watched. On the third alarm Burns was seen emerging from the spot where the first fire was discovered.

One among the fires which have occurred during this period is the one that caused the destruction of a new barn owned by E. and G. K. Phillips, near Massena, together with the season's crop of hay and grain. The estimated damage is \$10,000. Burns belongs to E. S. Tyrone of Helena, was destroyed by fire on Tuesday night, as also was the home of William Powell. The arrest of Burns has inspired the villagers, who were terrorized by the epidemic of fires, with fresh confidence.

JAILER'S WIFE DIES

Kingston, Nov. 10.—The death occurred of Mrs. Corbett, wife of Charles Corbett, the oldest jailer in Canada, who has held this position here for half a century. She was a daughter of the late Francis W. Smith, for many years collector of customs at Napanee.

Buyers Complain of Poor Quality of Some of Arrivals. PEARS STILL COME IN. Potatoes Remain Firm, But Keep Unchanged in Price.

There were quite a number of outside grown tomatoes on the market yesterday, but some were very poor quality, very few being choice. They sold at 20c to 40c per six-quart basket; green ones bringing 15c per six-quart basket. Hot-house tomatoes continue to be quite scarce.

Fears continue to come in, but are mostly of the "four-quart" kind. Dates at 25c to 40c; the six-quart baskets going at 15c to 20c. Florida grapefruit is arriving quite freely, and is of splendid quality, selling at 10c to 12c per case, according to size.

McWilliam & Everist had a car of western Ontario apples, selling at \$2.10 per bag; a car of No. 3 Spy apples, selling at \$2.25 per bag; a car of No. 3 Spy apples, selling at \$2.25 per bag; a car of No. 3 Spy apples, selling at \$2.25 per bag.

There was a big trade on a brisk live market today. The morning was featureless, with good quality of choice quality interest was not enough to support the market. A lot of what appeared, which caused a sharp break. This made the market very wide.

Cash trade was poor. Oats were quiet. Barley was weak. Flax in good demand.

Porcupine's Possibilities

Gold production by seven Porcupine mining companies this year will approximate \$10,000,000, comparing with \$7,580,766 last year, and \$5,190,794 two years ago.

Dividends by three companies this year will total \$4,160,000, comparing with \$2,200,000 last year, and \$1,410,000 two years ago.

We anticipate an increase of at least 50 per cent. both in production and dividends next year.

Our market letter mailed free on request.

—Is your heart and soul with this brave "Poilu" as he dashes on to Victory?

—Then your hand will be stretched out to him if he falls—you would want to help him.

—Therefore, you will be more interested in the trophies his Government has sent from Paris to Toronto, in order that thousands of brave fellows, such as he, may be helped when they fall.

—For hundreds of thousands of them have been wounded—they are suffering now—they need your help now.

To-day is the last time you can help them in this particular way—by coming and paying TWENTY-FIVE CENTS to the Toronto Branch of the Canadian Red Cross.
