NEW DEVELOPMENT IN MURDER CASE
Strange Actions of Man Near Chesley Street

The murderer of little Sadie McAuley is still at large. The length of time which elapsed between the murder and the finding of the body has made the task of locating him a difficult one.

This morning the detectives went to the house of the little girl in Chesley street which had been picking berries in the park on the evening day, and who had been accosted by a young man suspected of being the murderer of the little child.

Believe Premier Meighen Wants to Hasten Election

More Than Half the Cabinet, However, is Against It.

No Decision Reached in Saturday's Conference—Lack of Confidence in Cabinet Through Failure to Reorganize—The Liberal and Farmer View.

Montreal, Aug. 15.—A Gazette special from Quebec says:—Premier Meighen met his cabinet on Saturday, and it is believed the chief subject of discussion was the political situation, with the crucial point whether to meet the electors or parliament.

The case of the government's dilemma is quite apparent. Premier Meighen assumed office in July, 1920, under peculiar circumstances. While respected and trusted personally, he inherited a dilapidated cabinet that had not the confidence of the electors.

The Liberal's Idea. The government is not ready for an election. The Liberal party had been doing well during the past year little has been done to obtain an organization. No do the Liberals want an election.

Mr. Hiram Hornbeam and the Times reporter sat on a sheltered verandah looking out upon a landscape clothed in mist, through which at intervals came showers of rain.

Crucial Period In The Irish Negotiations

ALTHOUGH THERE IS VIRTUAL DEAD-LOCK, HOPE IS NOT YET DEAD

Sir James Craig Says He Will Not Meet DeValera Again Until He Recognizes Status of Northern Ireland—English and Irish Press Comment.

London, Aug. 15.—Great Britain today faced a crucial period in the negotiations looking to the establishment of peace in Ireland. The action of the British government yesterday in making public letters exchanged between Premier Lloyd George and Eamon De Valera, Irish Republican leader, showed the people that a virtual deadlock existed and although the door was declared to have been left open for further parleys, it was apparent that the situation was one of considerable gravity.

The government terms were, in brief, as follows:—Dominion status for Ireland, with complete autonomy in financial matters, but without tariff or trade restrictions between the islands, Ireland would remain defense forces and police, but her territorial forces would be kept within "reasonable limits."

De Valera's Reply. Mr. De Valera, in reply, demanded full independence for Ireland and suggested to the British government that the British commonwealth group, treaties regarding trade and immigration should be revised.

Three Home Runs—Decision by President Hydlar in "Infield Fly" Protest—Late Sport News.

New York, Aug. 15.—A major league record for 1921 was set by the National League yesterday when there was no change of pitchers in the four games played. In the American League, Jones of Boston, shut out Washington, with four hits, while Faber, of Chicago, restricted Cleveland to five hits and one run.

Home run drives decided two games. Whitely's homer gave Pittsburgh a 1 to 0 victory over Chicago. Frank Frisch, the Giant third baseman, made a home run with two on bases in the first inning, matting the Giants more runs than Philadelphia made in the entire game.

New York, Aug. 15.—Dismissal of the report of the Pittsburgh Nationals of a New York victory July 29 was announced today by John A. Heydler, president of the National League.

Mr. Heydler said that no appeal could be taken on an umpire's decision in matter of fact and judgment and sustained Klem's ruling that the hit ball was not an infield fly. The ball first hovered over foul ground and then was blown on to fair ground where Catcher Snyder, of New York, dropped it after making every effort to catch it.

SOME CHANGES ARE MADE IN PROPOSED VEHICLE BY-LAW (Continued from page 1.) Paving Matters. Mr. Frink read a report with reference to a petition from residents of Green street from Harding to James Street, praying that the street be paved. Included in the petition were signatures from residents of Park Street. He had a report from the road engineer recommending that the work be done and estimating the cost at \$2,948. Mr. Frink moved that the work be done and paid for by bond issue. The matter of this and considerable expense would be entailed. If the owners wanted to lay the work at their own expense it would be all right, provided that they made no claim thereby to the property paved.

Mr. Frink said that a delegation of property owners in Douglas avenue asked that an eight foot, instead of a six foot sidewalk be built west of Bentley street. He reported that the contract would have to be varied to permit of this and considerable expense would be entailed. If the owners wanted to lay the work at their own expense it would be all right, provided that they made no claim thereby to the property paved.

CRUCIAL PERIOD IN THE IRISH NEGOTIATIONS

(Continued from page 1.) "It would be tragic if they were," newspaper men said, "and it is strongly to be hoped there will be a satisfactory settlement, thereby avoiding the possibility of intensified warfare, which if it occurred would open an appalling prospect. Nothing should now be said or done to make more difficult the task of those who have the destiny of Ireland in their hands."

The Freeman's Journal said the official publication of the letter from General Smuts to Mr. De Valera by the British government last Saturday gave that document an importance which it might not otherwise possess, "but which it would be unwise to ignore."

"Publication of the contents of that letter," the newspaper added, "was accepted by the government as General Smut's interpretation of the letter would be an act of deception. The government, therefore, is no longer a letter of private advice, but a document of binding consequence."

Most of London's newspapers, in their comment on the new developments in the Irish situation this morning, reflected the belief that the government's proposals offered a generous settlement.

"They showed great statesmanship, courage and decision on the part of the government," said the Times. "Broadly these concessions represent the extreme limit to which this or any other British government is likely to go. Mr. De Valera's reply approaches more closely to the tone desirable in such negotiations than any of his past utterances. It is a reasoned refusal, which appears deliberately to avoid any final rupture. The premier's reply is the only possible rejoinder, and we hope the Irish people will be satisfied."

CRUCIAL PERIOD IN THE IRISH NEGOTIATIONS

(Continued from page 1.) "It would be tragic if they were," newspaper men said, "and it is strongly to be hoped there will be a satisfactory settlement, thereby avoiding the possibility of intensified warfare, which if it occurred would open an appalling prospect. Nothing should now be said or done to make more difficult the task of those who have the destiny of Ireland in their hands."

The Freeman's Journal said the official publication of the letter from General Smuts to Mr. De Valera by the British government last Saturday gave that document an importance which it might not otherwise possess, "but which it would be unwise to ignore."

"Publication of the contents of that letter," the newspaper added, "was accepted by the government as General Smut's interpretation of the letter would be an act of deception. The government, therefore, is no longer a letter of private advice, but a document of binding consequence."

Most of London's newspapers, in their comment on the new developments in the Irish situation this morning, reflected the belief that the government's proposals offered a generous settlement.

"They showed great statesmanship, courage and decision on the part of the government," said the Times. "Broadly these concessions represent the extreme limit to which this or any other British government is likely to go. Mr. De Valera's reply approaches more closely to the tone desirable in such negotiations than any of his past utterances. It is a reasoned refusal, which appears deliberately to avoid any final rupture. The premier's reply is the only possible rejoinder, and we hope the Irish people will be satisfied."

SAYS MAN SHE KILLED WILL BE HER SPIRIT LAWYER AT TRIAL

New York, August 15—Prison has brought to Miss Olivia M. P. Stone, the nurse who on last Friday night shot and killed Ellis Guy Kinkaid, a Cincinnati attorney, whose common-law wife she claimed to be, a realization of the seriousness of her situation, and deep remorse over her crime, it was apparent to interviewers.

She was incoherent almost to the point of hysteria as she declared vehemently her love for the man whom

she murdered, and when she swore that she loved him with an unceasing love. "Ellis will be my spirit lawyer," she cried again and again. "He will be with me at my trial."

"He always said that if he died first he would watch over me. I have confidence that he will help me when I am on trial. I won't be with him, but he will be with me. He is with me now to see that everything comes out all right."

She expressed a wish to the authorities to see the body of her victim. "I love only him. I want to look upon his face once more," she declared, and when she was informed that his body already had been taken west she added: "I would love to have had one more look at my dear boy. He was a wonderfully brilliant man, one of the greatest criminal lawyers in the country. What I have done is forever preying on my mind, and I can neither sleep or eat."

THE WELCOME RAIN.

It would seem that the danger from forest fires is pretty well over for this year in this portion of the province. Yesterday's mist and rain greatly increased the feeling of relief. The woods and fields were thoroughly soaked, and although the moisture would not penetrate the soil under the trees it would at least wet the surface. No doubt fire still smoulders under the surface in some places, but not where it would be likely to spread. The drought is broken and with reasonable caution there should be no more danger to the settlements. Dislike of a rainy Sunday was nowhere in evidence yesterday, for recent experience has given startling emphasis to the value of intervals of wet weather. On every hand the hope was expressed that the sky would not clear until the last members of the forest fires had been extinguished. To the man in the country, as he looked over the parched fields, and remembered the dried-up brooks and wells, and the mist on the hills was a source of great comfort and the patter of the rain upon the roof the most welcome of all sounds. All nature seemed conscious of the beneficent change that had come to pass in a few hours. The air was more pure and invigorating, and with new feelings of safety and confidence the people looked forward to the morrow. They were no longer jaundiced and depressed, but felt a new interest in life. It was as if a miracle were being wrought before their eyes.

THE DEMOCRATIC ATTITUDE

President Harding will be in a far more fortunate position than his predecessor was in connection with any action he may take in promoting the association of the nations to ensure world-peace. The Democrats are committed to the principle of a League of Nations, and if the Republicans can develop, with the aid of the other powers, a scheme satisfactory to all, whether it be called a League of Nations or some other name, the Democrats will not be at all likely to emulate the example of the Republican senators when President Wilson sought the same end. They will have a fine opportunity to taunt their opponents, if they feel so inclined, but they cannot very well repudiate their own policy. The outlook for a favorable outcome of the conference at Washington is therefore bright, so far as the United States is concerned, and other powers will be only too glad to co-operate to the end that the Americans may abandon a policy of isolation and join with them to bring about better relations and better conditions throughout the world. The tariff will give the Democrats an attractive fighting ground, since there are Republican members of congress who have broken with their party on that issue. The next congressional elections will rouse the country on that issue, and it will be bitterly fought. In the meantime President Harding and his advisers will have a fairly free hand to discuss disarmament and kindred subjects with the other powers, and with Secretary Hughes as head of the American delegation there is good reason to believe that a hearty spirit of co-operation may be developed at the coming conference.

WORK IN WINTER

The problem that presents itself every winter, and that will be exceptionally acute during the coming winter, is that of finding employment for persons whose activities cease with the autumn season. They have in the United States what is called the Committee on Elimination of Waste in Industry, and in a recent report it makes the following recommendations regarding seasonal employment: "Allowance of a small margin of profit for both labor and capital during the winter months, development of methods of conducting the work in cold weather, arrangement of work to provide indoor operations in cold and stormy weather, organization of a clearing house for co-ordination of activities, increasing the usefulness of employment bureaus, and educating the public. "Contractors must prove to the public that they can carry on operations during the winter period as economically and substantially as during other periods of the year. To do this contractors, labor, transportation and material men in a locality must get together and, after joint study of the situation, agree to reduce profits and wages an amount that will offset the increased cost of carrying on work in winter months. "The education of the public is vital to a sensible distribution of work throughout the year. Owners making indoor repairs or slight additions should be encouraged to have this work done in the off-peak season. Old buildings to be demolished should be placed in a bush about two feet above the ground. The parent robins at once seemed to be perfectly satisfied with the changed conditions and reared their children to adult size.—Philadelphia North American.

of co-operation no good result can be achieved. In all the large cities there will be a great deal of unemployment next winter, and special efforts are necessary to relieve the situation.

Summarizing a statement in the Labor Gazette regarding the decline of wages in England, the Ottawa Journal says: "Up to the end of June an average reduction of 15 per cent. had taken place in the scale of wages paid to workers in Great Britain; and the process of deflation is far from complete. For the most part these decreases have been made effective in instalments, following agreements between employers and employees. During the month of June revisions were made downward in the case of a little over a million wage earners. In the cotton trades the reductions already amount to 20 per cent. and in the course of two or three months they will reach 25 per cent. In the engineering and shipbuilding trades a slash of 8 per cent. is to be followed in September by another of similar proportions."

If the inspectors would arrest every motorist who follows the ruts in the road made by the wheels of other cars, deepening them so that they make two convenient channels for the rain to wash out the road surface, they would confer an even greater benefit than when they arrest a man for speeding. Gentlemen, get out of the rut. Give the roads a chance.

LITTLE DAUGHTER OF REV. A. F. ROBB IS DROWNED IN KOREA

Many friends in St. John and other parts of the maritime provinces, will receive with deepest sympathy for her parents, news of the death by drowning while in bathing at Wonsan Beach, Korea, of Marjorie, the engaging little eight-year-old daughter of Rev. A. F. Robb, formerly of St. John and now of the Presbyterian Mission in Korea. Mrs. Robb, mother of the child, who is a daughter of the late Rev. Robert Cunningham of New Glasgow, went into the water to try to save her very nearly losing her own life, while also falling in her gallant attempt to save that of the little one. Marjorie is recalled here as a pretty, unusually bright and lovable girl of about six, her parents having said a visit home two years ago. To all who met her then, news of her passing will be very sorrowful news indeed and it will be received with deepest sympathy for her parents.

ROBINS BUILD THEIR NESTS UNDAUNTED BY MISHAPS

Robbins, as a rule, are very persistent in building in certain places, and when these birds have been known to rebuild their bulky nests of mud, leaves, grasses, etc., four times in a few weeks, when persons destroy their homes which were objectionable over doorways and on pillars of porches. Miss B. P. Yardley of Providence, R.I., occupies a beautiful cottage at Buck Hill Falls, Monroe county, where she spends the summer. Recently Mr. and Mrs. Caldwell Webb of West Chester, Penn., came home from a week's outing at Buck Hill Falls settlement, where they go annually to study bird life. They were much interested in a pair of robins who were much interested in the commodious porch in front of the Yardley domicile. The robins built a nest on a rafter and by some accident, when about finished, it was disturbed and fell on the porch floor, but fortunately was but slightly damaged by the mishap. The feathered home-builders were much distressed, and a workman picked the nest up and carefully placed it on the seat of a chair. This act of kindness satisfied Mr. and Mrs. Webb, who quickly got to work on the nest, and in four days, after the unexpected happening occurred, there were two eggs in the nest. Miss Yardley, who is a bird lover, and other members of her household refrained from using the porch, hoping that the birds shall not be molested in rearing a family. Mrs. Lydia Hoopes of West Chester has a spacious lawn with large and beautiful trees at her home on North Franklin street. A pair of robins, last year, constructed a nest in one of these shade trees. This nest with four young was blown to the ground by a violent storm. The half-fledged young and nest were picked up and placed in a bush about two feet above the ground. The parent robins at once seemed to be perfectly satisfied with the changed conditions and reared their children to adult size.—Philadelphia North American.

The Times publishes herewith complete statistics of the City Baseball League, which was won by St. Peter's team. The list gives the teams batting averages, fielding averages, as well as the pitcher's record, league standing, leading hitters, leading run getters, stolen base records and individual fielding averages. St. Peter's are leading in both fielding and batting. Ray Hansen is leading the pitchers with eight wins, two ties and no losses. YESTERDAY IN THE CHURCHES

Rev. M. F. McCutcheon, S. T. D., of the First Baptist church, Montreal, who accompanied by his wife and children, is spending his vacation in the maritime provinces, occupied the pulpit of Central Baptist church here yesterday in the absence of the pastor, Rev. F. H. Bone. Mr. McCutcheon was principal of the Newman street school in the city before he entered Acadia to study for the ministry. At St. David's church, Rev. Gordon Dickie, secretary of the social Council, Montreal, conducted both services on Sunday. Mr. Dickie was minister of the old St. Stephen church before its amalgamation with Knox church. Mr. Dickie will remain in St. John until Tuesday, being the last Sunday preceding the anniversary at the service in the church in the morning reference to the coming celebrations were made. The special preacher was Rev. Ralph Sherman, of St. George, formerly curate of Trinity church, St. John. Rev. J. H. A. Anderson, formerly of St. John Presbyterian church, conducted the services at Knox church.

FREAKS OF SOUND.

(Philadelphia Ledger.) If, when the air is still, you stand near a high wall and speak a word loudly it will come back to you as if repeated by an invisible person. It is, of course, an echo. Parallel walls separated by a few hundred feet, as in a canyon, may so reflect a sound as to cause it to be distinctly heard again and again in a long-dying series of repetitions. If the reflecting walls are irregular, the repetition instead of being distinct to the ear, will be more jumbled and unintelligible reverberations. This is noticeable in certain caverns. Prof. W. J. Humphreys, an eminent physicist, describes a curious phenomenon which he calls an "acoustical mirage," sounds uttered at a distance on the surface of the earth seeming to come from high in the air. Such an uplifting of sound (corresponding to the uplifting of a landscape by a visual mirage) may occur when a stratum of warm air at the surface is overlaid by cooler air. The sound travels faster at the top, and so appears to come from aloft. A balloonist can often hear the cathedra of his own voice when he cannot, by shouting, gain the attention of people standing on the ground below him. It is because he—at an altitude of 1,500 feet, perhaps—is in a region of silence, whereas they are immersed in a flood of sound.

THE CHURCHES

The British anniversary of the dedication of St. Paul's church is to be celebrated on Tuesday, August 16. Yesterday, being the last Sunday preceding the anniversary, at the service in the church in the morning reference to the coming celebrations were made. The special preacher was Rev. Ralph Sherman, of St. George, formerly curate of Trinity church, St. John. Rev. J. H. A. Anderson, formerly of St. John Presbyterian church, conducted the services at Knox church.

WILL REBUILD MILL

Campbellton, N. B., Aug. 12.—Plans for the reconstruction of a better more efficient mill to replace the one recently destroyed by fire are being made by the Richards Lumber Company, who expect to proceed with the construction of the new mill as soon as possible. Although generally no lumber has been shipped from this port by water this year, with the exception of shingles and shingles, there are indications at present of the mills closing down. It is understood that the crews which will go into the woods this coming winter will be considerably reduced in number in comparison with recent years but plans are being made to carry on some operations, although the curtailment will be great even when compared with last year's small cut.

TAKES YOUR HAT, GIVES NO CHECK

Mamie Lorne Handles 200 of Them at Lunch Time and Never Makes a Mistake - Feat Astonishes Patrons.

(N. Y. Times) For a long time memory classes have been a feature of the training of youth, but there have been many doubters as to its importance in preparing the mind for future problems. However, one of the most striking examples of the value of such mental discipline is the finish acquired by the hat check girl at the Vanderbilt Hotel in applying it to her work, where, in spite of the fact that she handles hundreds of hats, coats, bags, wraps and umbrellas a day, she never makes a mistake.

HAS NO PAIN NOW

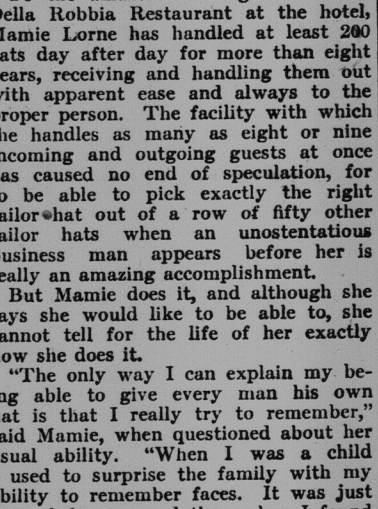

What Lydia E. Pinkham's Vegetable Compound Did for Mrs. Baker and Mrs. Kiever.

Vancouver, B.C.—"I am pleased to say that Lydia E. Pinkham's Vegetable Compound has done me a lot of good. I can now walk about without the aid of a support and feel real strong again. A nurse advised me to take the Vegetable Compound and it is certainly helping me. It seems like Heaven to be relieved after months of pain." Mrs. W. B. BAKER, 3574 10th Ave. West, Vancouver, B.C. "I have taken Lydia E. Pinkham's medicine and they have done me a lot of good. Since then I have been able to do my housework and I have a lot of work to do as we live on a farm. Seeing your advertisement in the papers was what made me think of writing to you. I hope this may help some one else." Mrs. H. W. KRIVAS, Upper New Horton, Albert Co., N.B. "The reason women write such letters to Lydia E. Pinkham's Vegetable Compound is that it has brought health and happiness into their lives. Freed from their illness they want to pass the good news along to other suffering women that they also may be relieved. If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co., Lynn, Mass.

It acts on the stomach, liver, bowels and kidneys, improves digestion and assimilation, overcomes biliousness, corrects constipation and quickly relieves sick headache.

Correspondence on Irish Question Is Made Public

Deadlock Reached But Negotiations Still Proceed

De Valera Holds Out for Independence; Britain Offers Autonomy in Finance, Taxation and Military Forces for Home Defence; Lloyd George Against Secession

London, Aug. 14.—The correspondence between the British prime minister, Mr. Lloyd George, and Eamonn De Valera, the Irish republican leader, made public by the British government this evening, shows that while there is a deadlock on the question of independence for Ireland, the negotiations are still open.

Great Britain offered Ireland complete autonomy in finance and taxation, military forces for home defence, her own police and, among other things, control of the Irish postal services.

British Have No Better Terms

In his reply to Mr. Lloyd George, Mr. De Valera argued for independence and offered to submit the Ulster questions to arbitration.

In his final letter, Mr. Lloyd George denied Ireland's right to secession, and offered arbitration for Irish questions and expressed the hope that Ireland would accept the British terms, which he declared were the best that could be offered.

The British proposals, which are dated July 29, said: "The British government is actuated by an earnest desire to end the unhappy and unproductive correspondence between Great Britain and Ireland, which has produced so many conflicts in the past and which have done more to shatter the peace and well-being of Ireland. At the present time they are long with His Majesty the King in the words of his gracious speech in Ireland last month, for a satisfactory solution of those age-long Irish problems which for generations embarrassed our forefathers as they now weigh heavily upon us and they wish to do their utmost to secure that every man of Irish birth should work in loyal co-operation with the free communities on which the British empire is based." They are convinced that the Irish people may find as worthy and complete an expression of their political and spiritual ideals within the empire as any of the numerous and varied nations united in allegiance to His Majesty's throne and they desire such consummation not only for the welfare of Great Britain and Ireland and the empire as a whole, but also for the cause of peace and harmony throughout the world.

Moved by these considerations, the British government invites Ireland to take her place in the great association of free nations over which His Majesty reigns. As an earnest of their desire to obliterate old quarrels and to enable Ireland to face the future with her own strength and hope, they propose that Ireland shall assume forthwith the status of a dominion, with all the powers and privileges set forth in this document. "By the adoption of dominion status it is understood that Ireland shall enjoy complete autonomy in taxation and finance; that she shall maintain her own military forces for home defence, her own constabulary and her own police; that she shall take over the Irish postal services and all matters relating thereto, education, land, agriculture, mines and minerals, forestry, housing, labor, unemployment, transport, trade, public health, health insurance and liquor traffic, and that she shall exercise all those powers and privileges upon which the autonomy of self-governing dominions is based subject to the considerations set forth in the ensuing paragraphs.

"Guaranteed in these liberties, which no foreign people can challenge without challenging the empire, as a whole, the dominions hold each and severally by virtue of their British fellowship, a standing amongst the nations equivalent to that which they possess as individuals, but to the combined power and influence of all the nations of the world. "That guarantee, that fellowship, that freedom, the whole empire looks to Ireland to accept."

Six Stipulations. Then follow six stipulations. The first says that the common concern of both countries in the defense of the interests on land and sea shall be recognized. "Great Britain," it adds, "lives by the sea, her food and her communications depend on the freedom of the great sea routes. Ireland lies at Britain's side across the seaways, north and south, that link her with the sister nations of the empire, the markets of the world and the vital sources of her food supply. "In recognition of this fact, which nature has imposed and which no state-ship can change, it is essential that the royal navy alone should control the seas around Ireland and Great Britain and that such rights and liberties should be accorded to the Irish state as are essential for the naval purposes in Irish harbors and on Irish coasts."

"In order that the movement toward limitation of armaments which is now making progress in the world should not be hampered in any way, the Irish territorial force shall within reasonable limits conform in numbers to the military establishments in other parts of the island."

The fourth stipulation it is declared that Great Britain shall have all the necessary facilities for the development of air defence and communications. Contribute to Defense.

The fourth expresses the hope that Ireland will, of her own free will, contribute in proportion to her wealth to the naval and military forces of the empire and assumes that voluntary recruits will be permitted, particularly for those famous Irish regiments which so

long and so gallantly have served his majesty in all parts of the world."

Complete autonomy in finance and taxation, with the agreement that there shall be no tariffs and other trade restrictions between the two islands, is provided in the fifth stipulation.

The sixth declares that Ireland is to assume responsibility for a share of the United Kingdom's present debt and pensions. In default of an agreement, the share would be determined by an arbitrator appointed from within the dominion. The document proposes that the conditions of settlement be embodied in the form of a treaty, to which effect shall be given by the British and Irish parliaments.

"The document concludes as follows: "The British government will, therefore, leave Irishmen themselves to determine by negotiations between them whether the new powers which the new pact defines shall be taken over by Ireland as a whole and administered by a single body, or taken over separately by southern and northern Ireland, with or without a joint authority to harmonize their common interests. They will willingly assist in negotiating such a settlement if the Irishmen should so desire. "The future of Ireland within the commonwealth is for the Irish people to shape. In the foregoing proposals the British government have attempted no more than a broad outline of a settlement, the details of which they leave for discussion when the Irish people have signified their acceptance of the principle of this pact."

"THE HARP THAT ONCE"

The Showman—It's now or never, boys! Let's patch up the poor old harp and have some harmony at last!

The document is signed by David Lloyd George.

Mr. De Valera's Reply.

On Aug. 10, Eamonn De Valera addressed the following communication to Mr. Lloyd George:

"Sir,—On the occasion of your last interview I gave it as my judgment that the Dail Eireann could not, and the Irish people would not, accept the proposals of your government, set forth in draft July 29. Having consulted my colleagues, and with them given these proposals most earnest consideration, I now confirm that judgment. "The outline given in the draft is self-contradictory and the principle of the pact itself not easy to determine. To the extent that it implies recognition of Ireland's separate national identity and her right to self-determination, we appreciate and accept it. "But in the stipulations and express conditions concerning your government's interference in our affairs and to a control which we cannot admit. "Ireland's right to choose for herself the path she shall take to realize her own destiny must be accepted as indefensible. It is a right that has been

maintained through centuries of oppression at the cost of unparalleled sacrifices and untold suffering. We cannot propose to abrogate or impair it, nor can Great Britain or any other foreign state or group of states claim to interfere with its exercise in order to serve their own special interests."

"As for myself and my colleagues our deep conviction is that true friendship with England, which military coercion has frustrated for centuries can be obtained most readily now through amicable and absolute separation. The fear which we believe groundsless, that Irish territory may be used as the basis for attempts upon England's liberties can be met by reasonable guarantees not inconsistent with Irish sovereignty. "The most explicit guarantees, including the dominion's acknowledged right to secede, Mr. De Valera continues, "would be necessary to secure for Ireland an equal degree of freedom. There is no suggestion, however, in the proposals made of any such guarantee. "Instead, the natural position is reversed. Our geographical situation with respect to Great Britain is made the basis of denial and restrictions unheard of in the case of dominions. The smaller island must give military safeguards and guarantees to the larger and suffer itself to be reduced to a position of belated dependency. "Obviously we are unable to urge acceptance of such proposals upon our people. A certain treaty of free association with the British commonwealth group as with a racial league of nations, we would have been ready to recommend, and, as a government, to negotiate and this responsibility for had we an assurance that the entry of the nation as a whole into such an association would secure for it the allegiance of the present dissenting minority. To meet those sentiments alone this step could be contemplated."

World Negotiate Treaties. "Treaties dealing with proposals for free inter-trade and mutual limitation of armaments are ready at any time to negotiate. Also mutual agreements concerning air, railway and other communications, and generally for the smooth commercial intercourse essential to both nations. But all such treaties and agreements we would require submitted for ratification, first to the national legislative assembly and afterwards to the Irish people in a manner showing that their decision was a free decision of the people, and not of military compulsion."

Mr. De Valera offers to leave the question of Ireland's share of the national debt to arbitrators, one each to be appointed by Ireland and Great Britain and the third chosen by agreement. "I am nominated, say, by the president of the United States," he declares the question between the political minority and the great majority of the Irish people must be left for the Irish people themselves to settle. "We cannot admit the right of the British government to mutilate our country either in its own interest or at the call of any section of our people," he continues. "We do not contemplate the employment of force. If your government stands aside we can effect complete reconciliation. We agree with you that no common action can be secured by force. Our regret is that this wise and true principle which your government prescribes to us for the settlement of our political problems it seems unwilling to apply consistently to the fundamental problem of the relation between our island and yours. "The principle we rely on is one case we are ready to apply in the other; but should this principle not yield to immediate settlement we are willing that this question, too, should be submitted to external arbitration. "The road to peace and understanding lies open."

Lloyd George's Reply.

Mr. Lloyd George's reply, which was dated August 13, was as follows:

"The earlier part of your letter is so much opposed to our fundamental position that we feel bound to leave you in no doubt of meaning. You state that after consulting your colleagues you confirm your declaration that our proposals are such as the Dail Eireann could not and the Irish people would not accept. You add that the outline given by your draft is self-contradictory and that the principle of the pact offered you is not easy to determine. We desire, therefore, to make our position absolutely clear. "In our opinion nothing is to be gained by prolonging the theoretical discussion of the national status which you may be willing to accept, as compared with that of the great self-governing dominions of the British Common-

wealth, but we must direct your attention to one point on which you lay some emphasis and on which no British government can compromise, namely, the claim that we should acknowledge the right of Ireland to secede from her allegiance to the king. "No Right to Secede. "No such right can be acknowledged by us. The geographical propinquity of Ireland to the British Isles is a fundamental fact. The history of the two islands for many centuries, however, is a sufficient proof that their destinies are indissolubly linked. "Ireland has sent members to the British parliament for more than a hundred years. Many of her people during that time have enlisted freely and gallantly in the forces of the crown. Great numbers in all the Irish provinces are profoundly attached to the throne.

"These facts permit of one answer, and one only, to the claim that Great Britain should negotiate with Ireland as a separate and foreign power. "When you, as the chosen representatives of Irish national ideas, came to speak with me, I made one condition only, of which our proposal plainly stated the effect—that Ireland should recognize the force of geographical and historical facts. "We are profoundly glad to have your agreement that northern Ireland cannot be coerced. This point is of great importance, because the resolve of our people to resist with full power any attempt at secession by one part of Ireland carries with it of necessity an equal resolve to resist any effort to coerce another part of Ireland to abandon its allegiance to the crown. "We gladly give you the assurance (Continued on page 14, fifth column.)"

LOCAL NEWS

BAND CONCERT TONIGHT

The Star's band will give a concert on the grounds in front of the General Public Hospital this evening for the benefit of the patients.

THREE CONVENTIONS

Three conventions are scheduled in Halifax for next week, which should attract a large number of visitors. The electrical men hold away for two days, the Foresters three days, and the undertakers three days also.

PRINCE EDWARD STREET

The changing of the name of Brunswick street to that of Prince Edward street was completed this morning when signs with the new name of the street were put up and the old ones taken down. The signs were placed at all intersections of streets with Prince Edward street.

SHIPE AND DUCK SHOOTING

A report was received in the city today that a number of men were violating the game laws by shooting wild duck and snipe on Boyle's marsh, about four miles from the city on the Red head road. The shooting season for snipe, duck and other small game does not start until September 1, while the season for moose and deer does not start until the 15th of that month.

THE EDITH MCINTYRE

The schooner Edith McIntyre, which went ashore at Tiner's Point on Friday, is still wedged tightly in the rocks. Repeated efforts have been made by the tug Lord Beatty and the steamer Aberdeen to haul her off, but each time they report failure. The vessel was sailing light when she struck, and later, when she filled with water, she settled down tightly. The only way to move her now is to blow the rocks away and it is unlikely that this will be done, as it is expected the first rough weather will cause her to break up. The sails and all other movable articles have been salvaged, according to word received this morning by Nagle & Wigmore, local agents.

CASE DISMISSED

The case against Robert J. Ritchie, charged with receiving stolen goods, knowing them to be stolen, was dismissed in the court this morning. Magistrate Ritchie said that he found that the owner of the automobile, Daniel Coushins, from which the stolen parts were said to have been taken, had refused to make a complaint at the request of the informant, K. A. Wilson, whereupon Mr. Wilson laid the complaint. He said he also found that the informant had not given any evidence as a witness. For these reasons the case was dismissed.

ECHOS FROM THE PAST

Looking over some files of old St. John papers, one finds many interesting personal items. For example, in the Morning News of Nov. 1, 1867, which Edward Ward was the editor, the following appears:

Samuel Watts, Esq., editor of the Carleton Sentinel; J. E. McCready, Esq., of Pictou, and Peter Miller, Esq., of Chatham, have been appointed clerks in the House of Commons at Ottawa. The same issue tells of a dinner given to Hon. Peter Mitchell, minister of marine, by the Students Club of Quebec; of the appointment of S. H. Whitlock as registrar of probates in Charlottetown, and of G. M. Campbell as privy secretary to the lieutenant governor. There was also a report of the election of officers in the St. Patrick's Debating Society, as follows:—R. J. Ritchie, president; J. S. O'Brien, senior vice-president; F. McPak, junior vice-president; James Daley, recording secretary; P. Gallagher, financial secretary; John Carlin, treasurer; Michael Cole, librarian; Cornelius P. Keane, assistant librarian.

WARSHIPS WILL BE HERE ON SEPT. 2

In Meantime They Will Attend N. S. Tercentenary at Annapolis Royal—From Here to Quebec and Montreal.

Halifax, N. S., Aug. 15.—H.M.C.S. Patriot sailed today for Charlottetown where she will join the Aurora and Patrician, which sailed from Sydney today for the P.E.I. port. The Patriot was delayed at Halifax owing to the death here of one of her chief petty officers. The squadron is scheduled to return to Halifax on August 20 and remain here until Aug. 29, when the ships will sail for Annapolis Royal, there to participate in the celebration on Aug. 31, of the tercentenary of the granting of the Nova Scotia charter to Sir William Alexander.

MRS. EDDY LEFT \$6,000,000 ESTATE

\$800,000 Said to be Left to Dalhousie, Making Gifts to University Total Half a Million.

Halifax, N. S., Aug. 15.—The Herald today carries the following despatch from its Ottawa correspondent: While particulars of the will of Mrs. E. B. Eddy, who passed away in Hull last week, have not been made public, your correspondent learns that Mrs. Eddy left an estate valued at more than \$8,000,000. It is understood, in addition to the large amount given to Dalhousie during Mrs. Eddy's life time, her will provides for an additional \$800,000, making her total gifts to the Nova Scotia university more than half million dollars.

REORGANIZATION OF POSTAL SERVICE

Twelve Districts now Replace Original Nineteen—Announcement of Local Officials—Some Here Placed on Supernumerary List.

In the final reorganization of the postal service in the St. John postal district, the office under the control of the acting district superintendent of postal service presented an active appearance Thursday, Friday and Saturday of last week.

Mr. Middlebrooks, representing the federal government council at Ottawa, and Mr. Crocheire, a member of the divisional superintendent's staff at Montreal, were present and made the necessary changes, and gave instructions toward the amalgamation of the post office inspectors' office and railway mail service branch of both New Brunswick and Prince Edward Island. The whole postal service of Canada has been readjusted. The department branches at Ottawa, under the new order of things, have been reduced to five. The postal service branch will be presided over by a general superintendent of postal service, and associated with him are two divisional superintendents, one for the east and one for the west.

The Local Officials.

The former post office inspector, H. W. Woods, now acting district superintendent, will preside over the St. John district. Associated with him are three post office inspectors, Alexander Thompson and John Emerson of St. John, N. B., and John E. Wheat, with headquarters at Charlottetown, and Dawson McKendrick as head railway mail clerk.

The superintendent's staff will be divided into three sections, the operating section, enquiry section, and office section. Mr. F. Griffith, W. Hatch and Miss L. L. Howard are the principal clerks in charge of these several sections. Besides this, there will be a district sorting examiner. This position has not yet been filled.

The city offices under the district superintendent are Charlottetown, Fredericton, Moncton and St. John.

Mr. Wheat and one stenographer will remain in Charlottetown. The balance of the staff will be located in the St. John post office building, occupying the long room on the second floor facing Prince William street.

The changes made placed on the supernumerary list a number of clerks both in Charlottetown and St. John, some of which have been in the service for a number of years. The combined staff now consists of twenty members, and it is felt that the changes will effect some improvement in general, and go a long way in putting the postal service of Canada on a uniform and business-like basis.

POWER BOAT CLUB ANNUAL SERVICE

Many People Attend in Spite of Threatening Weather—Impressive Sermon by the Chaplain.

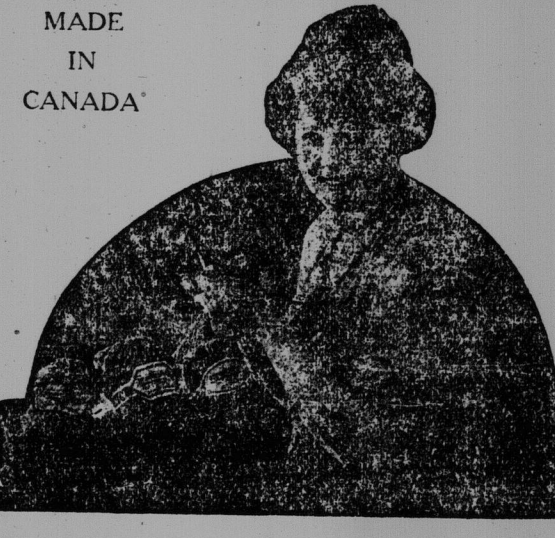

The Power Boat Club held its annual service yesterday morning at Public Landing, the presiding Rev. Craig W. Nichols, chaplain of the club. It was a rough morning on the river, rather misty, with quite a strong wind. It had been intended to hold the service out of doors, and a temporary stand for the preacher had been prepared, but the damp and chill air, with a threat of the rain which came later, caused a change and the congregation met in the church, which was crowded by club members and residents at the Landing. The feast was under command of Lieutenant Barton, and a large number of boats went up from headquarters. The impressive service was attended by a choir in the choir were the Wiggins Orphanage boys. The music was of a very high order, and Chaplain Nichols gave an impressive sermon. A special collection was taken. Following was the order of the service:—

Doxology,
The General Confession,
Collect,
The Lord's Prayer,
Hymn—Rock of Ages,
Psalms 8 and 11 (read responsively),
Hymn—Jesus, Keep Me Near the Cross,
The Scripture Lesson,
Prayers,
Hymn—Unto the Hills,
Sermon,
Hymn—Jesus Saviour Pilot Me, (sung by the Wiggins boys),
National Anthem,
Benediction.

Monod, Honorable M. Laroche, Honorable M. Dufort, Honorable M. Gervais, Honorable M. Mathias, Honorable M. Tetreault, Honorable M. Bastien.

Report Submitted by the Board of Directors at the General Annual Meeting of the Shareholders on the 10th of August, 1921:
Gentlemen: We have the honor to submit for your approval the General Statement and the Profit and Loss Account of your Bank for the fiscal year, ending the 30th of June last.

During this period, our banking operations have progressed in a very appreciable manner, as will appear by the actual figures of more than one item of the General Statement and Profit and Loss Account.

Our commercial loans are of one-third in excess of the highest figures reached in former years and we have been glad to notice that shorter terms of credit are now quite generally favored by traders and manufacturers. Such present measures are necessary to solve as favorably as possible the problems imposed on our Country by the actual universal crisis.

We may also add that our large accounts and important customers, but also ordinary and smaller clients have benefited from our discount operations.

In order to materialize our desire to help in her present difficulties our former mother country, France, we have authorized the issue of a loan of \$6,000,000 of the City of Paris 6 per cent. Debentures redeemable in Canadian Gold on May 1, 1930.

The success of this loan depends on the purchase of foodstuffs for the municipal stores of the City of Paris, thus creating a new and advantageous market for the products of this Country.

As stated at our last meeting, the Paid-up Capital of your Bank has been increased from \$2,000,000 to \$3,000,000. The allotment of this new capital has been the occasion for our shareholders to give us their approval.

The General Statement submitted for your approval has been prepared according to our methods of the past in the most conservative and prudent manner. Ample reserves have been set aside for all doubtful items and those considered bad have been entirely written off.

During the period under review the proportion of our Treasury and Liquid Assets towards our total obligations to the public has been kept at a high figure; this prudent conduct, our ever-ready establishment of a large number of shares, we consider as being the most important duty of all banks in our Country, bound as they are to be at all times ready to meet any emergency.

The total Assets of your Bank as at the end of June last, 1921, for the preceding year, the increase being over \$6,522,000. The immediately available assets amount to \$2,396,227 of which over \$1,145,000 is in cash or in Canadian gold and debentures; and \$6,125,000 in Federal and Provincial bonds and debentures; and \$6,125,000 in Federal and Provincial bonds and debentures; and \$6,125,000 in Federal and Provincial bonds and debentures.

In spite of the continuous increase of all our expenses, the net profits of the year, after deducting the necessary reserves and provisions for bad and doubtful debts, amount to \$425,547, this being an increase of \$91,765 over the total of the previous year, which was \$333,782.

In addition to the above of the premium received on our last issue of stock—\$200,000—enabled us to transfer the sum of \$800,000 to the Reserve Fund, the total of which is now \$1,600,000 or nearly fifty per cent (50 p.c.) of our Paid-up Capital, which is \$3,000,000.

We also think advisable to state for your information that the total amount of the continuation of the Government of Canada, in the form of a loan of \$1,000,000, Federal Provincial or Municipal, paid by your bank during the last fiscal year, reaches the considerable sum of \$1,000,000 or nearly \$600,000 per month.

Our Head Office and Branches have been visited by competent inspecting officers. During the past year, we have established four regular branches and fifteen sub-branches and we are now operating in the Provinces of Quebec, Ontario, New Brunswick and Prince Edward Island one hundred and eight branches and one hundred and twenty-seven sub-branches.

The Auditors appointed at our last annual meeting, according to the prescription of the Bank Act, have carefully examined our variation of the Assets and Liabilities and our General Statement; their certificate annexed to the report of the Board of Directors is proof of their complete satisfaction.

The Board of Censors have given the most devoted attention to the interests of this Institution, as shown by their monthly task in the examination of the investment securities.

We now feel it is our pleasant duty to testify to the devotedness of our entire staff. All of them desire to show their appreciation of the continuous efforts of your Directors towards the betterment of their present situation and for the protection of their old age, by the creation of a Pension Fund, which will allow them to rest during their old age.

For the Board of Directors,
(Signed) H. Laporte, President,
Tancrede Bienvenu, Vice-President and General Manager.

ALASKA'S DEER INDUSTRY.

Dr. Nelson of Biological Survey Tells of Development Plans.
Dr. E. W. Nelson, chief of the United States Bureau of Biological Survey, in a recent bulletin of the American Game Protective Association states that large numbers in winter, while the reindeer industry in Alaska, the Biological Survey is arranging to obtain young bulls of the large wood-archipelago of the Alaska Panhandle.

Another serious menace to their conservation is the hunting done by crews of fishing boats which operate along the coast and sometimes kill these deer in large numbers. At times many deer carcasses have been carried southward on these boats to the United States. To prevent the killing of these animals as far as possible by men from fishing boats, the secretary of agriculture recently established a new open season to extend from Sept. 1 to Oct. 15, the opening date being at a time when most of the boats have left Alaskan waters.

This change should be of marked assistance in enforcing the law. As is the conditions it has often become exceedingly abundant. Far to the westward it has been successfully introduced in Kodiak and adjacent islands and on certain islands in Prince William Sound. Unfortunately for these deer, the heavy winter snows on the mountainous lands they occupy commonly force them down near the shore, where they often suffer severely for lack of food and become easy prey for wolves and hunters.

Even in summer when numerous they are often found near shore, where they are easily killed by day or night. Many reports are current that wolves destroy large numbers in winter, while the Indians kill them throughout the year, in some places slaughtering them in a most wasteful manner.

This change should be of marked assistance in enforcing the law. As is the conditions it has often become exceedingly abundant. Far to the westward it has been successfully introduced in Kodiak and adjacent islands and on certain islands in Prince William Sound. Unfortunately for these deer, the heavy winter snows on the mountainous lands they occupy commonly force them down near the shore, where they often suffer severely for lack of food and become easy prey for wolves and hunters.

STREET ACCIDENTS WERE NUMEROUS

Several accidents occurred over the week-end, happily none of them of a very serious nature. The first of these was about 2:35 on Saturday afternoon when street car number 80 collided with an automobile driven by Samuel Seelye. The automobile had its rear fender bent and running board damaged to some extent. This accident happened in Mill street. The street car was undamaged in the collision.

A boy, about 5:45 on Saturday, ran into the carriage of Dr. Lanney and was knocked down and had his face slightly cut. He also received a severe shaking up. He soon recovered, however, and seemed to be little the worse of the accident.

Dr. Mary McLeod tripped on Saturday evening on North Wharf about 7:45 and fell and had her face badly cut. She was removed to her home in J. C. Chesley's automobile.

About 9 o'clock on Saturday night, just when traffic was at its height at the head of King street, a young lady

created some excitement by fainting. She was carried by the traffic officer there to the Ross Drug store where she was revived and was able to continue her way to her home.

HAMPTON CHURCH HONORS WAR HEROES

The historic parish church of Hampton, situated at Lakeside, was the scene of another memorable event yesterday morning. The occasion was the unveiling of the war memorial. The memorial was subscribed for by the members of the congregation and was unveiled by Mayor Schofield, formerly church warden, in the presence of a large number of the parishioners.

The memorial is in the form of a brass tablet and is a very handsome piece of work, done by C. H. Flewelling of St. John. It bears the following inscription: "To the glory of God and in memory of the men from St. Paul's church, Hampton (N.B.) who gave their lives in the Great War. Arthur Adams, Henry Dibblee Belding, George Edward DeMille, Freeman J. McManus, George Robert Perkins, Robert William Otty Barnes, John James Bloomfield, Egbert Holden Frost, George Nugent, Nelson Otty, Robert Percy Weaver, 1914-1918. Erected by the congregation."

The service was conducted by the rector, Rev. C. Gordon Lawrence, and the unveiling ceremony took place after the reading of second lesson.

Owing to frequently recurring breaks in the water pipe which runs under the railroad at the Marsh road, a crew from the water and sewerage department worked Saturday afternoon to complete the building of a concrete tube through which the pipe has been laid. The leaks had been caused by the jarring of the trains when crossing the road. Stringers were built in to absorb the jars and no further trouble is expected from this source. Little inconvenience was caused to residents in the vicinity as the water was turned off for a very short time.

that we will concur in any settlement which Southern or Northern Ireland may make for Irish unity within the six conditions already laid down which apply to southern and northern Ireland alike; but we cannot agree to refer the question of your relations with northern Ireland to foreign arbitration.

Vital to Common Welfare.

"The conditions of the proposed settlement do not arise from any desire to force our will upon the people of another race, but from facts which are as vital to Ireland's welfare as to our own. They contain no derogation from Ireland's status as a dominion; no desire for their ascendancy over Ireland, and no impairment of Ireland's national identity."

"Our proposals present to the Irish people an opportunity such as has never dawned in their history before. We have made them in a sincere desire to achieve peace, but beyond them we cannot go. We trust you will be able to accept them in principle. I shall discuss their application in detail whenever your acceptance in principle is communicated to me."

Comedy Twist

There is no comedy as funny as that found in human life as it exists in every city and town. The quaint characters one meets in daily life furnish vast amounts of humor that is unusually funny. The author who depicts these people in their natural environs has created a masterpiece. In this production real types were used and under the direction of G. V. Seyferitz they do the natural thing. It is a film that stands by itself.
