PASTORAL LETTER OF BISHOP CASEY

Striking Epistle on The Subject of Faith

LENENT MESSAGE

The Writing of the Bible—What Christianity Has Done For Children and for Women, For Prisoners and for Slaves—Collections for Ruthenians

In all the Catholic churches of the diocese yesterday a scholarly Lenten pastoral letter by Bishop Casey was read. The subject was Faith. His Lordship read the letter at the 9 o'clock mass in the cathedral and his effective reading was aided by explanatory comments on various portions of the pastoral. The letter follows:—

The Pastoral To the Clergy, Religious Orders and Laity of the Diocese of Halifax, Health and Benediction in the Lord

Dear Brothers: No one can read the New Testament, thoughtfully, without being struck by the importance which is attached to the subject of faith. It is the victory which overcame the world, the flesh and the devil. It is the power which made the world new. It is the power which made the world new. It is the power which made the world new.

These and numerous other such texts of the New Testament, and the necessity of faith without any ambiguity, and yet there is confusion almost without measure in the world in regard to faith, as is evidenced by above 300 sects of professing Christians outside the church, and the attempted union of modernism with the church.

It will be of much advantage and edification to have a clear idea of what faith was in the time of the apostles, for it cannot be different now without abandoning principles. It is as we have it in our day, that the New Testament was not yet written in the early years of apostolic teaching, and the Bible, as we have it in our day, was a future work for the church's zeal.

DOOR IS SHUT IN FACE OF MEAT TRUST

Australia Serves Sharp Notice on Business World and Seeks to Mean It

Melbourne, Australia, Feb. 27.—The Commonwealth of Australia served notice on the business world today that it would not harbor foreign trusts. The following memorandum on the subject was given to the press by Sir R. W. Best, minister of trade and customs:

For several months past it has been an open secret that representatives of the American meat trust have been in Australia with the object of extending its operations here. The government is determined to take drastic measures to discourage and if necessary to prohibit its operations here.

The action of the government will extend to meat operations of all kinds whether conducted directly or indirectly and will not permit the repetition in Australia of the scandalous methods characteristic of monopolies in other parts of the world.

GETS VERDICT FOR \$472.50 AGAINST SHIP

Robt. Campbell Sued S. S. Alamo Owners for \$10,000—The Segee Case

Mr. Justice McKeown this morning gave judgment in the case of Robert Campbell vs. The Segee. The case is an instance of the law of torts, and the plaintiff is entitled to recover the sum of \$472.50 from the defendant.

His Honor gave a verdict in favor of the plaintiff for the amount of \$472.50. The defendant is ordered to pay the costs of the action.

THE FRENCH CABINET RESIGNS

Briand Carries Out His Programme and Ministry Retires From Power

Paris, Feb. 27.—Premier Briand, who succeeded Clemenceau as head of the French cabinet, from which all elements not thoroughly in sympathy with his attitude toward labor had been eliminated.

The situation at present is wholly different and the hickerings of parliament and the intrigues of various bodies supporting Briand have been abandoned.

For a year and a half Briand had successfully combated the socialist parties on the grounds that he had not effected the late minister's program, and on last Friday night when he was appointed to the premiership he was able to announce the separation act of the government.

The abolition of the Briand ministry leaves the socialist in power at least temporarily. Louis Malvy and Paul Monnier, leaders of the Radicals, were jubilant at the success of their campaign against the premier.

As the result of the political upheaval, Briand's friends today declared that there was a personal element in his resignation.

SUCCESS IN HANDLING ITS 'PHONES'

Manitoba Revenue for Last Year Shows Great Gain

Winnipeg, Feb. 27.—A report of the Manitoba government telephone system shows that the public owned plants have more than 3722 farmers were connected with the system.

The number of subscribers increased by no fewer than 8236 so that today the total number of subscribers is 23,443.

The growth of the long distance lines is also a feature. There have been 1181 miles of long distance lines added to the system, while the increase in revenue from this source was 10 per cent.

The government system now owns 330 offices and 111 exchanges.

It will interest eastern Canada to know that the government communications board is to be able to secure a satisfactory service with eastern cities, both Canadian and American.

A step in this direction was taken during the winter when a new copper line was built from Winnipeg to Minneapolis and Chicago.

THE STOLEN GEMS TO BE SOUGHT HERE

Robbery on Steamer Believed to Be Work of Woman Leader of International Gang

New York, Feb. 27.—That a woman leader of an international gang of jewel thieves stole \$130,000 worth of gems from Mrs. Marwin Drummond, wife of a London banker, and widow of Marshall Field, Jr. of Chicago, some time on Saturday night on the Hamburg-American liner America, while the vessel was nearing this port, is the theory upon which the police are working today.

It is believed that those responsible for the theft may first attempt to escape to Canada, particular attention is being paid to that end of the work and dominion authorities have been asked to help in the hunt.

The robbery, which was the boldest of its kind in the history of trans-Atlantic travel, has the police of two continents busy trying to unearth the identity of the members and locate the headquarters of the band which operated upon the big trans-Atlantic liner.

The Hamilton Bowling and Athletic Club, under whose auspices the affair was to be held, the club management claim that they will proceed. A test case is likely.

U. S. Secret Service agents will help in solving the case in the belief that the gems were taken on Saturday night.

"KNOCKOUT" BROWN IS ILL WITH LA GRIPPE

Says, However, He Will Be Able to Meet Wolgast on Friday—Late Sporting News

Hamilton, Feb. 27.—Chief of Police Smith said yesterday that the police would not allow the boxing bouts tonight and that he had so advised the management of the Hamilton Bowling and Athletic Club, under whose auspices the affair was to be held.

Wolfe's companion, Wolgast and Hogan's adversary is illuminating. He met them both within about a fortnight. "Hogan," he said, "is a better man than Wolgast. He knows more about boxing and is a harder hitter."

NO CAUSE FOR ALARM

When the terms of the proposed trade agreement with the United States were announced, the opponents of the government at Ottawa examined them with a determination in some way to make political capital and to create a popular prejudice against the government. They might have taken a broad view, and considered the whole question in its relation to the general welfare of the country; but that would not be politics, and these gentlemen must play the game.

The appeal to patriotism and to prejudice is a favorite device of the beaten politician, and it has been adopted in the present instance. All Canadians are loyal, and some are strongly prejudiced against the United States. With all the art of the trained politician, Mr. Foster and others set out to inflame the public mind against the new trade agreement. It would be, they said, a death blow to imperial preference, although the preference has not been disturbed. It would divert our trade westward for months and months, and ruin our national ports, although to-day, without reciprocity, more than one-third of the winter exports from St. John are from Chicago, Kansas City, St. Louis, the Twin Cities and other United States sources. It would lead to the destruction of our forests, although these are controlled by the provinces and are not affected by the agreement. It would not benefit our farmers. It would lead to further tariff reductions and the ruin of our industries. But, above all, it would lead to annexation. This last was the trump card, for the Canadian people are sensitive on the question of annexation. The campaign has been carried along with great vigor, and has even affected some Toronto members of the Liberal party, who represent ancient prejudices or modern vested interests. They are quoted with joyous appreciation by the men whose aim is to marshal all available forces to discredit and defeat the government at Ottawa. They have been greatly aided by a sensational press, which has tried to outdo Hearst's New York American in efforts to lash the country into frenzy. On this point the Montreal Witness very properly says:—

"Those who have been inclined to take fright at this wild alarm have only to consider for a moment where it comes from and what it is for. The same interests are at work in England and the United States, and the same tactics are being followed in all three countries. The Bennett annexation resolution in congress, which had only the mover to support it, was part of the same stage play."

There is no cause for alarm. No true Canadian or imperial interest is endangered. It is simply proposed to enlarge the markets of Canada, which all Canadian governments have always sought to do. A busier and more prosperous Canada will not be a less loyal Canada. The British government sees no menace to the empire in these negotiations. The Conservatives in Canada and the Unionists in Britain are seeking political capital. The high tariff men in Canada and the United States are fighting for their own hand. But the great mass of the people of these neighboring countries will welcome this freer intercourse and more friendly feeling, which will be of mutual benefit and will bring into more friendly relations the two great divisions of the Anglo-Saxon race.

THE FRENCH CRISIS

The chief trouble of the Briand government in France has been the religious question. The Radical-Socialists charged that M. Briand had not enforced the laws against religious bodies. A cable from Paris says:—

"M. Malvy, a member of the Radical-Socialist party, claimed that the laws of 1901 and 1904 rendered dead letters, although religious orders were prohibited unless authorized by the government. He declared that monks were numerous, and their schools were flourishing as before the laws were passed. The teachers, who had adopted lay dress instead of the cassock, had re-opened schools which the law had closed. There had been 1,719 prosecutions for these violations of the law, which had resulted in only 103 condemnations. The law regarding church property was evaded by the formation of friendly civil societies, which acquired the property on behalf of the orders."

It would appear from this that the government, which was denounced for its

INDIGESTION GOES AND YOUR STOMACH FEELS FINE AGAIN

Stomach Gas, Heartburn, Headache and Dyspepsia, Misery Ended With a Little Diapepsin

There would not be a case of indigestion here if readers who are subject to Stomach trouble knew the tremendous anti-ferment and digestive virtue contained in Diapepsin. This harmless preparation will digest a heavy meal without the slightest taste or discomfort, and relieve the sourest acid stomach in five minutes, besides overcoming all flat, Nauseous odors from the breath.

Ask your pharmacist to show you the formula, plainly printed on each 20-cent case of Pape's Diapepsin, then you will readily understand why this promptly cures Indigestion and removes such symptoms as Heartburn, a feeling like a lump of lead in the stomach, Belching of Gas and Eructations, Flatulency, Food, water, brash, Nausea, indigestion, indigestion, and many other less serious symptoms. You will not need any other medicine, for your stomach, liver and intestines clean and fresh.

If your Stomach is sour and full of gas, or your food doesn't digest, and your bowels don't move, get a 20-cent case from your druggist and make life worth living! Absolute relief from Stomach misery and perfect digestion of anything you eat is sure to follow five minutes after, and, besides, the case is sufficient to cure a whole family of such trouble.

Simply a harmless, impotent preparation, the Diapepsin, which will always, either at daytime or during night, relieve your stomach misery and digest your meals about as handy and valuable a thing as you could have in the house.

CONQUERING THE AIR

The following review of the progress made in the conquest of the air during the last three years will be read with great interest:—

"A new epoch had made its advent in the domain of aeronautics. Even as recently as the midsummer of 1908 Wilbur Wright set the record of altitude flight for the aeroplane by ascending 90 feet. This was at a tournament in Le Mans, France. When at the same place a few weeks later, he went up 2,000 feet, the world wondered. Just over a year ago Herbert Lahman, the Frenchman, at Chalons, France, went up to the height of 1,488 feet. That was the record up to 1910. In the first month of last year Paulhan, another Frenchman, ascended 4,194 feet, the achievement this time being made in America. But by a series of marvellous exploits, participated in by men of several of the nations, the altitude record was pushed up to 11,474 feet by Arch Hoxsey at Los Angeles on December 20, a few days before he fell to his death. It may be said, of course, that altitude flying is not the most important feature of the work of the aeroplane. In distance travel the record is fully as remarkable. While Hoxsey went up to a height a little over two miles from the earth, Rolls, the British aviator, who has since joined the list of killed, flew across the channel between France and England and returned without alighting, while Chavez, the Peruvian, sailed across the Alps. A few days ago the Frenchman, Legouyas, was in the air for six hours, and flew a little over 200 miles. As this distance was made in a circular course, the record would undoubtedly have been greater if a straight-away flight had been made. Nevertheless the aeroplane has now traversed, without alighting, a distance of over 200 miles, and has done it in faster time than any locomotive or than any other land conveyance could have done it. The greatest distance made in 1909 was 150 miles, which was travelled in a little over four hours. Clearly, the aeroplane is something more than the toy which it appeared to be even as recently as 1907."

A SOUVENIR

I found them in a book last night,
Those withered violets;
A token of that early love,
That no man ever forgets,
Pressed carefully between the leaves,
They keep their color still;
I cannot look at them today
Without an old-time thrill.

Ah me, what tricks does memory play!
The passing years have fled,
And hope's dream has faded,
Alas, have long been dead,
And this is all that I can say,
When all is said and done,
Those flowers remind me of some girl—
I wish I knew which one!

—From "Heart Throbs."

IN LIGHTER VEIN

SLIGHT MISUNDERSTANDING.

"John, did you take the note to Miss White?"

"Yes, but I don't think she can read it."

"Why?"

"Because she is blind, sir. While I was in the room she asked me twice whether my hat was, and it was on my head all the time."

UPTO-DATE

"There is a thoroughly up-to-date love story."

"How's that?"

"They got married and live happily ever after."

HE GOT HIS.

Standing by the entrance of a large estate in the suburbs of Glasgow are two huge dogs carved out of granite. An Englishman, going by in a hack, thought he would have some fun with the Scotch driver.

"Whenever they bark, sir, it's the straight-forward reply—New York Times."

DIFFICULTY.

Sister—"Why don't you marry her?"

Brother—"I'd like to; but, unfortunately, she has an impediment in her speech."

"What is it?"

"She can't say 'Yes.'"

DIFFERENT PATHS.

Ashley—"Old man Muncher's three daughters took different paths when they left home."

Seymour—"Different paths?"

Ashley—"Yes, Annie took an allpath, Esther a homeopath, and Rachel an otopath."

PURIFIED HIS BLOOD

Dr. Morse's Indian Root Pills Healed Mr. Wilson's Sores

When the sewers of the body—bowels, kidneys and skin ducts—get clogged up, the blood quickly becomes impure and frequently sores break out over the body. The way to heal them, as Mr. Richard Wilson, who lives near London, England, found, is to purify the blood. He writes:—

"For some time I had in a low, depressed condition. My appetite left me and I soon became thin and feeble. I tried medicine by the score and used many kinds of remedies, but without satisfactory results. At last I was advised to try Dr. Morse's Indian Root Pills, and I looked about for some medicine that would accomplish this."

At last Dr. Morse's Indian Root Pills were brought to my notice and they are the best medicine I have ever used. I have never known. My blood was purified in a very short time. I have had up my indignation vanished. They always have a place in my home and are looked upon as the family remedy."

Dr. Morse's Indian Root Pills cleanse the system thoroughly. Sold by all dealers at 25c a box.

The Street Railway
Editor Times and Star—
Sir—As usual a street railway owned by
a private company is not a success from
a citizen's point of view, although it might
be very satisfactory to the shareholders'
views and pockets.

A street railway should belong to the
people, how much longer will our citizens
throw their franchises away in this man-
ner? and then have the company refuse
to study the convenience of the people?
Surely if other cities in Canada can own
and operate their street railway systems
why not St. John? and then the people
would run the cars more efficiently, and
also would run them where they were re-
quired to suit the convenience of the pub-
lic.

I append the following extract from the
Vancouver World.

"Vancouver, B.C., is a city with a popu-
lation of about 40,000. It is operating a
street railway on a 3 cent basis, a
month at the business and pays gov-
ernment."—Edmonton, Alta., is controlling its own
street railway, and it paid from the
city.

It is time that the people of St. John
controlled and owned their own street
railway system, other great cities own them

like London, Birmingham and Glasgow,
why not St. John?

Instead of sending to the directors of
the St. John company, the people should
take hold of the reins themselves.

Yours for better civic government.
F. HYATT.

Boxing Notes
Jimmy Clabby and Harry Lewis will
meet in London, on March 15, according to
the latest advices from England.

Clabby, the Australian, light-
weight, and Bunny Ford, the hard-hitting
New Haven boxer, have been matched
to meet in Waterbury, on March 22.

Jack (Twin) Sullivan and Johnny
O'Keefe will box in a new arena now be-
ing built in Denver.

The Boston Herald says:—"Jack John-
son does not think that Langford's vic-
tory over Bill Lang was any great feat.
There are several who think the same way
about Johnson's hollow victory over Jeff
Fries. Johnson bids to become about as
unpopular a champion as we have had in
the heavyweight class."

The matter of weight has finally been
adjusted between the two high speedsters
in the lightweight class, Owen Moran and
Peckey McFarland and the pair have
agreed to meet at 135 pounds at 6 o'clock
on the night of March 14. It will be a
10-round bout at the Fairmont A. C., of
New York.

Two experts, who ought to know what
they are talking about, Dick Howell of the
Bridgeport Sunday Herald and Mosey
King, the clever little boxing instructor at
Yale College, say that Alf Lynch had far
the better of Frankie Burns, the New
York heavyweight, at New Haven last
Tuesday night. Their word ought to be
worth something from a boxing point of
view.

THE SOVEREIGN LIFE ASSURANCE COMPANY OF CANADA

REPORT OF THE BOARD OF DIRECTORS For the Year Ending December 31st, 1910.

To the Shareholders and Policyholders of the Sovereign Life Assurance Company of Canada.

Your Board of Directors have much pleasure in submitting the Annual Cash Statement of the Sovereign Life Assurance Company of Canada for the year ending December 31st, 1910, accompanied with a statement of the Assets and Liabilities.

Your Board is pleased to report that the splendid financial position which your Company occupies today, as exhibited by this Statement, should, with economical management, be a guarantee of the Company's future prosperity.

The income of the Company during the year from premiums and interest amounted to \$1,838,536.61, being a considerable increase over last year.

An earnest endeavor has been made to invest during the year \$175,450 in first mortgages in city property and improved farm lands in Western Canada at 7 per cent and 8 per cent, and in no case has the money advanced been in excess of 25 per cent of the appraised value.

Careful attention has been given to the investment of the Company's funds in first-class bonds, mortgage securities and on loans on the Company's policies, fully protected by the reserve.

The total assets at the close of the year amounted to \$785,283.04, being an increase over the previous year of \$182,892.15.

It is gratifying to know that the death claims which matured during the year amounted to \$5,376, being but 23 1/2 per cent. of the expected claims, demonstrating the great care that has been exercised by your Medical Referee.

An earnest endeavor has been made to confine the operating expense to a reasonable limit consistent with due efforts for new business. The results show that a saving of \$7,000.21 was effected during 1910 over 1909, or slightly over 7 per cent. of your premium income.

The agents throughout the field and the Head Office staff have demonstrated their loyalty throughout the year, and are entitled to much credit for their able efforts in furthering the Company's best interests.

The Case of Alderman Grant of Ottawa Whose Record Proved Best Argument for Commission

(Ottawa Free Press).

One of the strongest arguments in favor of the municipal administration of Ottawa by Commission instead of as at present by a board of aldermen, is the case of Alderman Grant.

In Rideau ward Alderman Grant has the equivalent of a "pocket borough." As everybody knows, it is a very small ward and its limited population has, by reason of an agreement at the time the district was annexed, the same representation on the council as the central or Victoria or Dalhousie or Wellington wards, the biggest and most highly assessed city.

For some reason or other, Mr. Grant has been able to secure the untiring friendship and support of a number of the residents in Rideau ward. They do not form a majority of the voters, but by "plumping" for Alderman Grant they are able to give him a lead of anywhere from 3 to 25 votes in the annual elections.

Alderman Grant knows that he can count on the support of these plumpers, who either take no interest at all in the affairs of the city.

A GREAT Silk & Satin Sale

2,000 yards of Silks and Satins to go on sale Tuesday morning at prices that represent only a fraction of their worth. We secured these Silks from a large concern going out of the silk business, and they are without doubt the biggest silk bargain that has ever been offered in St. John.

We have decided to make them up into three lots. The prices will be 19, 25 and 37 1/2 cents a yard.

Among the lot are 900 yards of Satins, suitable for evening dresses, waists, linings, fancy work, etc.

Another lot consists of **Herca uncuttable Taffeta Silk**. This is a very heavy silk and will give the best of satisfaction, suitable for waists, dresses, linings, trimmings, etc. It would make splendid underskirts as it has a particularly good swirl.

Then there is a lot of **Moire Shot Silks**, suitable for waists, dresses, trimmings. Also **Cords** in light and medium shades, suitable for evening dresses.

In either one of these lots you will be sure to find silk or satin to satisfy any requirements.

MRS. MAHONEY IN MUNICIPAL HOME

Her Husband Tells the Sad Tale of a Wretched Home Life

Patrick Mahoney, constable on the government steamer Lansdowne, called at the office today to deny statements made by his wife, that he had ill-used her and had neglected to provide for her. He said that he has been for fifteen years aboard the Lansdowne, and that his record will bear him out as being of temperate habits and of good character. He says that he has been married to his wife for seven years and while the first year of their married life was happy, she has always been addicted to the use of liquor, but took the pledge and for a time kept it. For some years, Mr. Mahoney asserts, she had him a dog's life, through which she done everything for his benefit and for her comfort. According to his story she preferred the company of dissolute characters and continually gave away money and the household effects to her companions.

Some time ago, on her being discharged from the hospital, he says he made her home comfortable for her reception by purchasing a new bedstead, bed clothing and warm clothing for her. These she later gave away to a girl named Scott, who frequented their house, and his wife's brother also came in for some of the best clothing. He says that he left instructions at Mrs. Barker's store to supply his wife with groceries for which he was to pay \$12 a month, but when he got the bill for four or five months, and still owed Mrs. Barker about \$50, she had plenty of good food, he says, but was extravagant, and gave it away to her friends and companions, also her brother.

Two barrels of coal, which he placed in the house, he says, his wife gave away also, and he added that she sold every thing even to the dishes, to procure liquor and he considers it a god-send that his wife is now in the Municipal Home.

Mr. Mahoney says that when his wife was in the home on a previous occasion she begged him to get her out, promising to keep straight but failed to keep her promise. As an instance of the manner in which she conducted herself, he said that on one occasion she came to the wharf to see him on the arrival of the Lansdowne in port and he gave her \$25, asking that she should not break the bill maker, there was return of citation to pass the accounts of the executors, the widow, Walter S. Saunders and Stewart money he gave her on a number of occasions, she gave away liberally, throwing some of it on the floor at her brother. When she could not get money she would charge groceries to him and sell them and in the particular instance he ascertained that she was selling butter at ten cents a pound.

Mr. Mahoney adds that he has a daughter five years old in St. Vincent's convent.

St. John Railway Company Statement to End of 1910

To Extend Lighting Service into Kings County

The sixteenth annual meeting of the shareholders of the St. John Railway Company is being held this afternoon in the company's office, corner of Union and Dock streets. The company is making a change in its fiscal year, the present report of the directors being for the eight months ended on December 31, instead of December 30, which would be the full year. The report shows that the period was a very successful one, the company making a net profit of more than \$34,000 and paying a half-yearly dividend of three per cent, leaving more than \$10,000 to be charged to profit and loss account.

In the report of the directors, reference is made to a proposal that the electric lighting lines of the company be extended into Kings county and a bill for the legislature is now being advertised to deal with this matter.

The directors of the company are: James Ross, president; Hugh H. McLean, vice-president; R. B. Emerson, James Macdonald, John J. J. Tupper, William Downie, H. B. Robinson and F. E. Seavey.

THE REPORTS

The report of the directors for the fiscal year ending December 31, 1910, is as follows:—

Your directors have much pleasure in submitting a statement of the past year's (eight months) business, showing a net profit, after providing for the interest on the bonds and all other charges, of \$34,840.77, out of which your directors have declared a half-yearly dividend of three per cent, amounting to \$2,000, leaving a balance of \$32,840.77, which has been transferred to profit and loss account.

It was considered advisable to have the company's fiscal year terminate with the calendar year, accordingly the within report covers a period of eight months only.

During the past year replacements have been made in the power house consisting of a 500 H. P. mixed pressure turbine and alternating generator, and a 750 K. W. motor generator set. These are expected to be in operation by the first of March, and the cost of which have been charged to contingent and depreciation account.

Your directors recommend to the shareholders that the company extend their tracks from the foot of Brussels street to King's corner, and to the Fernhill cemetery on the Westmount road, also out to the Crouville road, in all 3 1/2 miles; and that they also be authorized to extend the electric lighting service into the county of Kings.

Respectfully submitted,
HUGH H. McLEAN,
Vice-President,
27th, February, 1911.

PROBATE COURT

In the probate court today the matter of the estate of Mrs. Margaret J. Park, came up. She died intestate on Feb. 10. Her estate is left to the children of her brother, the late John H. Park. Those who are administrators, and letters of administration were issued, and she was sworn in. There is no real estate part of the estate, \$750. Barnhill, Ewing & Sanford, are executors.

In the matter of David Bradle, Mack asking that she should not break the bill maker, there was return of citation to pass the accounts of the executors, the widow, Walter S. Saunders and Stewart money he gave her on a number of occasions, she gave away liberally, throwing some of it on the floor at her brother. When she could not get money she would charge groceries to him and sell them and in the particular instance he ascertained that she was selling butter at ten cents a pound.

Mr. Mahoney adds that he has a daughter five years old in St. Vincent's convent.
