First Picture Today In Times' Miss St. John Contest For Queen

Photographers Busy on Portraits—Independent Judges Will Make the Final Selection at Close of the Competition on January 27.

The Times prints in today's issue the first picture of a candidate to be nominated for the position of Carnival Queen and who will preside over the winter festivities here next month.

The task of selecting the young lady who will receive the title of Miss St. John will be entrusted by the Times to a committee of representative citizens, all of whom will be entirely independent of the press and of the members of the committee which has in hand the carnival arrangements.

CANDIDATE NO. 1.

Those candidates who are to be considered for the title of Miss St. John will be selected by a committee of representative citizens, all of whom will be entirely independent of the press and of the members of the committee which has in hand the carnival arrangements.

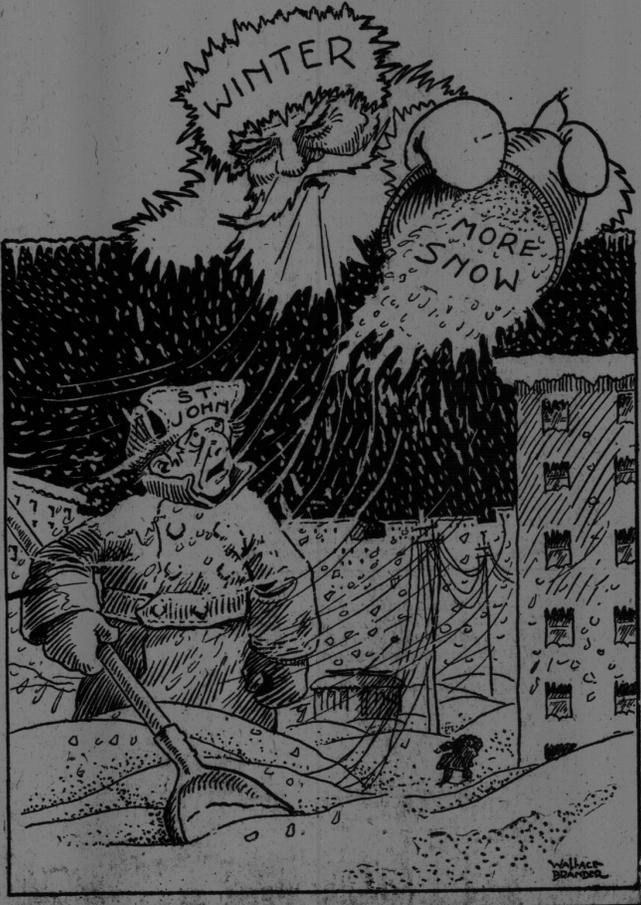

Registration form for the Carnival Queen Contest, including fields for Name, Address, and a note to cut out on a dotted line.

COST OF COUNTY INSTITUTIONS FOR THE YEAR. Estimate is \$278,958—Matters for Council Meeting This Afternoon.

Probably a Total Loss, Says Captain. The latest word received by R. C. Elkin, local agent for the schooner General George C. Hogg, which is stranded on Big Cranberry Island, is a telegram from the master, Captain Haughan, saying that the schooner would probably be a total loss.

Veteran Dies Suddenly in Fredericton. Fredericton, N. B., Jan. 16.—While sitting at the home of his daughter, Mrs. James Cameron, King street, listening to her reading a newspaper, Sgt. Richard W. Gregory, died last night from heart trouble. He was 80 years old.

HEY! HAVE A HEART!

FRENCH EXTEND LINES; ALL OUTLETS FROM RUHR INTO GERMANY CONTROLLED

Germans Found In Wilful Default of Deliveries—Some Indication of Lessening of Resistance—First Death in French Occupation.

Duesseldorf, Jan. 16.—The French now control every outlet from the Ruhr into Germany, whether by rail or water. The lines were extended today through Dortmund to Luenen on the Lippe, and thence to Witten, which is seven kilometers south of Dortmund.

Paris, Jan. 16.—The reparations commission today decided that Germany had wilfully defaulted in kind for 1923. France, Belgium and Italy so voted. Kambal Cook, representing Great Britain in place of Sir John Bradbury, who was reported as indisposed, abstained from voting.

London, Jan. 16.—The French authorities at Essen have ordered the German police to arrest the instigators of a demonstration at the Kaiserhof Hotel yesterday, says a Reuter despatch from Berlin. Chancellor Cuno, replying to a telegram from the Essen Town Council has promised the city government to do everything possible to alleviate the "hard lot" of the residents.

As Hiram Sees It

"I see," said Mr. Hiram Horton to the Times reporter, "they found out there in Egypt the tomb of a king that died thirty-five hundred years ago. He was a rich old fellow and they buried all kinds of valuables with him. I wonder how many thousand years people was livin' afore that I s'pose old Tutankamen had some relics his folks hed dug up from thirty-five hundred years afore his time. Sort of sets you thinkin' don't it?"

MATCH FOR SIKI AND HARRY GREB

Arrangements Said to be Under Way—Late News of Sport.

Paris, Jan. 16.—Battling Siki has been matched conditionally against Harry Greb, for a bout next May, according to the Journal. The match is subject to the condition that Siki previously defeat an opponent whose name will be announced soon.

BOMBING AND SHOOTING IN IRISH CAPITAL

Dublin, Jan. 16.—Confusion and terror prevailed in the heart of the city for a time last night in consequence of much bombing and shooting. The Royal Barracks, headquarters of the Irish command, the Freeman's Journal and garage occupied by National troops were among the places attacked, but it is not known whether there were any casualties.

Fortune Smiles On Halifax Man; May Become British Peer

H. V. Horton, War Veteran, Now Lives in Humble Obscurity. Notified That Death of a Relative Will Probably Give Him Title and Large Estates in Kent—Only One Boy Out of Family Left to Share With Him.

Halifax, N. S., Jan. 16.—Herbert Victor Horton, veteran of several campaigns, who has lived here for many years in humble obscurity, may find himself elevated to the British peerage. He has received a letter from an English firm of solicitors, advising him that he is likely to inherit the title and estate of the late Sir Samuel Woodwells of the House of Gravesley, Great Waltham, near Chelmsford, Kent, England, and will leave for England soon to investigate.

Mr. Horton comes from a line of fighters and is said to be connected both on his father's and mother's side with some of the foremost families in Great Britain. He left home at the age of 14 and joined the imperial army for service in Sierra Leone. He has since served in Bermuda and Halifax. His wife was from Three Rivers, Que. He died a year ago. His family was badly stricken by the explosion in Halifax in 1917 and he has lost five children from injuries they received at that time. A boy of nine is the only member of his immediate family surviving to participate in the good fortune he believes has befallen him. His mother resides in England and has also advised him of his good fortune.

CITIZENS TAKE STRIKERS IN HAND

Some Hundreds Make a Round-up After Depredations on Railway Line. Harrison, Ark., Jan. 16.—A citizens committee today was questioning about 25 alleged strikers on the Missouri and North Arkansas Railway, rounded up yesterday from points along the road by several hundred men who came here after announcing that they would resort to "armed action" unless depredations on that line ceased. Some alleged strikers were driven from town while others, hearing that the citizens were coming, fled.

Periodically, bridges on the road have been burned and snow completely piled up between points. It is estimated that more than 800 citizens, some from points as far away as 150 miles, came here yesterday to round up the strikers.

P. E. I. RAILWAY IS ONLY PARTLY FREED FROM SNOW

Halifax, N. S., Jan. 16.—This morning found the railways in Nova Scotia and New Brunswick largely recovered from the snowstorms and freight and equipment wrecks. Prince Edward Island and Newfoundland, however, had made small progress towards freeing themselves, the island reporting only eighty out of 270 miles of railway clear. Cape Breton reported that a new fall of snow had started there today.

SIR THOS. WHITE NOT IN PLAN FOR HOUSE WET PARTY

Toronto, Jan. 16.—"There is no truth whatever in the statement," said Sir Thomas White, yesterday, referring to reports that an anti-prohibition group might be formed in the legislature and that Sir Thomas would be approached in the matter.

DRIFT ICE FIELD BETWEEN CAPE BRETON AND NEWFOUNDLAND

North Sydney, N. S., Jan. 16.—A field of drift ice thirty miles in extent between Cape Breton and Newfoundland was reported by the steamer Kyle, which arrived here last evening. The ice was mostly small pan and was about twenty-five miles off Flat Point. A westerly wind is carrying it off the Cape Breton coast. The steamer Sedic Mac, 60 tons, which sailed from here on Thursday morning, put back into port last night, giving up her attempt to reach St. Pierre.

GREY TRESSES OF PHAROAH'S QUEEN AGAIN SEE LIGHT

In Alabaster Box Removed from Tomb. Big Crowds at Luxor—Chariot Wheel and Ebony Box Removed from Royal Burial Place—Studded With Precious Stones.

Luxor, Egypt, Jan. 10.—If Howard Carter had prepared for years he would have been unable to preach a more eloquent or moving sermon on the impermanency of the individual than he did unconsciously in the Valley of the Kings this morning.

It was a glorious day, warm and tranquilly clear. There was an abnormally large crowd near Tutankhamen's tomb, composed of visitors from the Luxor hotels and passengers from the steamers and private dahabieh stopping at Luxor. Soon after 11 o'clock they were rewarded by the sight of the windows of one of Tutankhamen's chariots. The fact that even the wheels were studded with the finest gems known to the ancients, and that the shafts were of American; but many of them were outpoken on the subject of Pharaoh's selfishness in piling a fortune on the tomb of his son, and that hundreds of thousands of his subjects were dying from starvation and the flooding of his overcast whips.

FRUIT FROM TOMB

Luxor, Egypt, Jan. 14.—The numerous visitors had the advantage of a beautiful morning at Luxor to visit the Valley of the Kings, and watch Howard Carter remove several interesting objects from the tomb of Tutankhamen. The number of stools of different designs were taken out, including one lovely ebony stool inlaid with ivory, which brought a vision of ancient luxury to the onlookers. Two wooden bows were then brought out and two sistras. Evidently Tutankhamen was musically inclined, as it is unlikely they would be placed among his furniture if he did not have an affection for them.

An exquisite alabaster vase followed, and then came perhaps the most interesting objects of all. On one stretcher Mr. Carter brought out a curious basket containing fruit and a white box shaped like a huge Easter egg containing a haunch of venison, game, etc., for the sustenance of the king in the next world.

Shoots Teacher; Kills Himself

Mariette, Ohio, Jan. 16.—After perhaps fatally shooting Alice Dunbar, 26, a school teacher at a lonely point on a road near her home late yesterday, Dow Nice, 30, went to his home where he shot himself. Nice, according to advices from Athens, recently was released from the state hospital for the insane, where he was said to have been committed after a similar attack on another girl. He is said to be wealthy.

BRITISH AGENT IN PETROGRAD THEIR FIRST SINCE WAR

Can Carry on Many Ordinary Consular Duties Without British Formal Recognition of Soviet Regime.

Washington, Jan. 15.—For the first time since the war an official representative of Great Britain has been assigned permanently to Petrograd, according to official despatches reaching Washington.

Memel Insurgents Want Removal of German Civic Heads

(Canadian Press Despatch.) London, Jan. 15.—The insurgents in Memel, while originally demanding annexation of the district to Lithuania, now will be satisfied if the German directorate which governs Memel city is removed, according to advices received here.

Memel city is mostly German, but the suburbs are preponderantly Lithuanian, and this section of the population is greatly displeased with the city's administration.

During the war Germany lost 210 submarines and 73 destroyers.

OPENING OF NEW PARISH HALL

Delightful Entertainment in St. John the Baptist Y. M. S. Quarters.

The St. John the Baptist Young Men's Society held their formal opening last night in the new parish hall, formerly the Wiggins' Orphanage. There was a large gathering present, including members of the other organizations of Catholic young men in the city. Thomas Killen, the honorary president, presided and the meeting was opened by Daniel Doyle, the president. On the platform were Rev. J. J. McDermott, J. A. Barry, Peter Starkey, Hon. R. J. Ritchie and John Stanton. The new society received congratulations from the representatives of the other societies. Those speaking were as follows:—Assumption Society, Charles Morris; C. M. B. A., William Magee; St. Peter's Y. M. C. A., William Conroy; E. C. Stephens; Mooney; A. O. H. John Stanton; Y. M. C. I., James Quinn.

Each item of the entertainment programme was heartily applauded. The programme included the following numbers: vocal solos, by David Higgins; recitations and a solo, by Harry McQuade; vocal solos, by E. Butler; step dance, by Philip Hunt, and a recitation by Thomas Killen. Arthur Godaese was the accompanist for the singers and also gave several piano solos. While refreshments were served Joseph McDermott was at the piano. The men's committee, which had charge of the musical programme consisted of R. Killen, Joseph Doody and Daniel Doyle. The convener for the refreshments in the men's committee was Daniel Griffiths. The ladies who assisted in serving the refreshments were Mrs. Harold Doyle, Mrs. Frederick Doyle, Mrs. A. Farrell, Mrs. John Lowe, Miss McCarthy, Mrs. T. Killen, Miss M. Johnston and Mrs. R. McCarthy.

It was decided last night that the next social event under the auspices of the society would be a sleigh drive.

LOCAL NEWS

Frank Gilchrist was before the court yesterday at noon charged with assaulting his wife. Mrs. Gilchrist gave evidence and the case was committed to John Bubba was arrested yesterday afternoon on a charge of assaulting Christina Chisholm and was taken before the court at once. He pleaded not guilty and put up \$200 for his appearance this afternoon.

Unable to carry his heavy weight of snow the roof of the Syrian Hall in Prince Edward street crashed in on Saturday morning. Fortunately no one was injured, as any persons in the building were on the lower floor. Thomas Stephen, the owner, was in the building but as the upper floor collapsed the weight imposed upon it furthered damage was done. A short time ago the hall was used as quarters for the free kindergarten and the children were housed on the upper floor. It is very fortunate that the accident did not occur during their period of occupancy.

The large audience which was present in the schoolroom of the Portland Methodist church had an enjoyable evening. Rev. Major Harry B. Clarke, M.C., gave his interesting illustrated address "With the Snowball Brigade in Vladivostok," and solos were sung by Miss Nina Brown and E. C. Givens. Louis Munn was the chairman and the programme was given under the auspices of the Ladies' Aid of the church. During the evening candy was sold and the proceeds of the evening, which will amount to a large sum, are to go towards the payment of the recent renovation of the church.

The St. Stephen troop of Girl Guides, of which Miss Elsie Lawson is the leader, has been announced as the winner of the New Brunswick prize for the Junior first aid contest held under the auspices of the St. John Ambulance Association, Canadian branch. The prize is a first-aid box, fully fitted. Five units in each province were eligible to compete in the contest and there was to be a prize for each unit in each province. The units were the rifle corps of colleges or schools, the cadet corps, the Girl Guides, the Boy Scouts and the groups of kindred bodies which do not specifically come under the first four headings.

LOCAL NEWS

In 1922 grain exports from the port of St. John totalled 15,378,048 bushels as against 10,428,105 for 1921, a gain of approximately fifty per cent. The prospects are bright for a record year this year.

The regular meeting of Loyalist Temple Pythian Sisters was held last night in the Temple building, Main street, with M. E. C. Mrs. Ivers, presiding. Routine business chiefly was dealt with. Plans were made for holding a Valentine tea.

Daniel Bridgen, an employe of the Atlantic Sugar Refineries, was taken to the General Public Hospital last night, suffering from a sprained ankle, the result of an accident while working in the refineries. It was said that he would be able to return to his home today.

Because of the storm, the meeting of the St. John Chapter of the Graduate Nurses which was to have been held last night was postponed until this evening.

As most of the members of Union Jack Lodge, P. A. P. B., were working last night, no meeting of the lodge was held. The next meeting will be held in February.

Ernest Shipman of New York arrived in the city yesterday from London, Ontario. He said that the motion picture "Blue Water," was one of the best that had been produced in New York. It has arrived in St. John and will be given a private screening shortly.

F. C. Beattie, manager of the Stetson Cuff Company's local mills, and Dr. A. P. Barnhill, of the law firm of Barnhill, Sanford & Harrison, accompanied by Mrs. Beattie and Mrs. Barnhill will leave New York on the steamer Olympic on January 20 for a trip to the continent. They expect to be absent about three months.

Calvin McLean of Johannesburg, South Africa, has arrived in the city on a visit to friends. With the exception of slight furries which vanished as soon as the sun came out, this is the first snow he had seen in thirteen years. He is manager of a gold mine about thirteen miles from Johannesburg, a graduate of McGill in mining engineering and a former student of Rothesay Collegiate School.

The members of the Baptist Institute and their wives, were the guests yesterday afternoon of Rev. Dr. and Mrs. David Hutchinson at their home in Main street. Rev. C. R. Freeman, the vice-president, acted as chairman and Rev. Isaac Brindley read an interesting paper. Refreshments were served at the tea hour.

The Lent-a-Hand Circle of the King's Daughters held their annual meeting last night in the Guild with Mrs. G. Wilford Campbell presiding. The resignation of Mrs. Campbell, as officer, was regretfully accepted. Officers elected were as follows:—President, Mrs. J. S. Frost; secretary, Mrs. Walter Craig; treasurer, Mrs. Leonard Lingley; members of the hospital committee, Mrs. H. W. Belland and Mrs. Ernest Waring; members of the telephone committee, Mrs. Milton Smith, Mrs. McKinley, Mrs. C. Johnson and Mrs. W. R. Bennett.

The Centenary Church Mission Circle met last night at the home of Mrs. A. Anland, Queen street, with Mrs. R. B. Irving, the president, in the chair. A very interesting programme was enjoyed. Miss Helen Pendleton and Miss Helen Fenwick were assisting in the study period were Miss G. Hennigan, Miss H. Brittain, Mrs. H. A. Goodwin and Miss Faith Henderson.

The Carleton Corner Band annual meeting was held last evening in the band rooms. Reports showed that a very successful year had just been completed. The officers elected for the coming season were as follows:—President, George Palmer; vice-president, H. Stackhouse; manager, W. W. Donohoe; secretary, H. Newman; assistant secretary, Clark's; treasurer, A. L. Bell.

An alarm was rung last night at 6:50 from Box 283 for a fire in a three storey building in Wright street owned by C. H. Townsend and occupied by W. C. Flowers, Thomas Griffin and Gordon Ross. The origin of the fire is a mystery. The motor apparatus attempted to go to the scene but because of the deep snow the motor or ladder truck could go only to the corner of Stanley and Winter streets, following the car line. The fire engine from No. 4 station was taken up Wright street with the aid of four horses and arrived safely on the scene. Probably damage to the extent of \$1,000 was done covered by insurance.

Reports submitted at the annual meeting of the Union Club last evening showed the organization to be in a flourishing condition. During the year there had been an increase in membership. The number of members on Jan. 1 was 445, including all classes. The election resulted in H. B. Robinson again being selected for the office of president and William E. Golding for vice-president. The members of the committee are P. S. Crosby, D. W. Ledingham, F. W. Fraser, S. Allan Thomas, W. C. Birrell and H. H. Peters.

LOCAL NEWS

The annual meeting of the Willing Workers of the Germanist Baptist Church was held last night at the residence of the president, Mrs. W. C. Cross, in Germain street. During the year the society raised the gratifying large sum of \$1,014.88 and the report presented showed that the year had been a very successful one. Mrs. Cross presided and was re-elected to the office of president. Other officers elected were as follows: First vice-president, Mrs. Alfred Morley; second vice-president, Mrs. Harp Spear; secretary, Mrs. Frances Robinson; treasurer, Mrs. W. P. Boanick.

The Girls' Association of St. John's (Stone) church had an interesting meeting followed by a pleasant social hour last night. Miss Edith Skinner, the president, was in the chair and there was a large attendance. Mrs. Alfred Morley gave a graphic description of the work being done through the W. A. in Vancouver, and in the social period a guessing game was conducted and solos were sung by Miss Donkin, Miss Compton and Miss Dunham. Miss Ward was announced as the winner of the guessing competition. Refreshments were served at the close of the meeting.

The annual meeting of the Cedar Hill Cemetery Co., Ltd., was held last evening in the chapel at the cemetery when officers were elected as follows: President, W. H. Allingham; vice-president, Thomas Rippey; secretary, George Vincent; treasurer, W. George Rippey; directors, W. J. Linton, George Hartshorn and J. W. Williamson. The receipts for the year amounted to \$5,013.45. Among the expenditures was a part payment on new cemetery ground in the Manawagonish road, where a plot of eight acres has been acquired. The expenditures amounted to \$8,919.80 and the assets of the company were placed at \$13,115.04.

captured were W. J. Within, captain of the Canadian schooner "Saucy Lass"; John H. McCathion, a former U. S. army captain, reported to be very wealthy, and Urban W. Hall, captain of the schooner Victory.

Both boats were seized and two members of the Saucy Lass are said to have confessed to the entire transaction. Bail of \$10,000 each was required.

Ashore at St. Pierre, St. John's, Nfld., Jan. 16.—A message was received on Sunday from the British Consul at St. Pierre saying that the schooner General Jacobs, of Grand Banks, was ashore at Langiads, but the crew were safe.

SHORT'S Dyspepticure

ACTS LIKE MAGIC IN ALL STOMACH TROUBLES

Fast Becoming Famous as a quick and sure relief for Headache, Sleeplessness, Nervousness, and all other troubles resulting from Defective Digestion.

Fast Becoming Famous as a quick and sure relief for Headache, Sleeplessness, Nervousness, and all other troubles resulting from Defective Digestion.

Too many parties? Late hours and a bad taste in your mouth? Try a Teaspoonful of Dyspepticure at night and see how fit you feel the morning after.

Bluenose Broilers By Mrs. Doane

The following recipe, submitted by Mrs. H. W. L. Doane, Bedford, certainly deserved the prize it won:

Split fresh cod, haddock or halibut and remove bone. Spread flat and cut in squares, leaving skin on. Place on broiler skin side up and broil. Then place in pan skin side down with a lump of butter on each piece and season with salt and pepper. Remove from oven as soon as butter melts and serve at once.

National Fresh Fillets

All meat—bones and skin removed—so you don't pay for waste and your fish is ready for the pan. Made from hand picked haddock and cod. Replaces in every respect the fish you buy at the store. They're fresh, not smoked. A new treat—try them.

The Evening Times and Star

ST. JOHN, N. B., JANUARY 16, 1923.

The St. John Evening Times is printed at 27 and 29 Canterbury Street every evening (Sunday excepted) by The St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act.

A NOTABLE BOOK.

In his book, 'The Making of a Premier,' which is a brief biography of Right Hon. W. L. Mackenzie King, C. M. G., Prime Minister of Canada, Mr. Owen E. McGillicuddy has rendered a service to the country, not only in making the people better acquainted with a most interesting personality, but by setting out in clear relief the salient features of a most interesting career.

King suffered during the war period, his tribute to his friend Harper, and the visit alone, on the evening of the day he was elected in North York, to the graves of his parents in Mount Pleasant Cemetery. Altogether 'The Making of a Premier' is a book that will interest every Canadian.

A SPORTING OFFER.

There is a suspicion that when Commodore Stewart of the Chatham World was in France he paid a clandestine visit to Nancy and learned from M. Coue how to become younger and younger every day. The very name of the city would attract his bachelor heart, and it is certain that he does grow younger day by day.

Frankly the Commodore expresses the fear that the editor of The Times may not have an artist's eye for female charms, and suggests that there might also be a family reason such as appealed to Mr. Hiram Hornbush when he thought of Hamner. All this is clear evidence that the Commodore is deeply moved by the prospect of so much loveliness, and his heart yearns for the vision splendid which will be the ample reward of his judges. There is one serious objection, however, to leaving the decision to the Commodore. He ought to know his own weakness by this time. In his eye every member of the gentler sex is perfection itself.

Of the effect of the revenue from liquor upon the policy of the Quebec Government the Montreal Gazette says: "The substantial returns from the operation of the Quebec Liquor Commission have made possible expenditures upon which, otherwise, the Administration could not have embarked. So fruitful has this source of revenue been that the Government has been tempted to overlook, or at least, to insufficiently consider the wisdom of some of the enterprises upon which it has embarked. A full purpose often induces prodigality, and if the funds from the sale of liquor have not actually burned a hole in the Government's pocket, they have softened the dictates of prudence, with the result that returns which were to have been employed in reducing the public debt have found their way into new enterprises and the province has assumed new obligations of a permanent nature, some of which might, with advantage, have received more consideration than was given to them."

In his address at the annual meeting of the Charlestown Board of Trade, retiring president E. H. Beer said: "Generally speaking, prices for Prince Edward Island produce are considerably higher than before the war, while the cost of the farmer's ordinary purchases are slowly but surely getting back to normal. The decrease in the prices of farm produce, however, has been much greater than the reduction in the prices of the goods required by the farmer. This has had a marked effect on the purchasing ability of the farmer with the result that our merchants are not finding the improvement in trade so long and earnestly sought for. Labor and transportation charges are two important items in the cost of stocks of goods landed in the general stores, and the reduction of these costs will bring the prices of commodities nearer to the ability of the people's purses. These reductions cannot be much longer delayed."

The Civic Power Commission is calling for tenders for the sub-station and also for the necessary switching material, and expects to have both in readiness for use by the first of May. The Commission is getting on with its work in a very commendable way.

France is experiencing difficulty in getting coal from the Ruhr mines, but she has the whip hand and will have her way now, whatever the ultimate result.

A LITTLE BIT OF EGYPT.

(A. J. R. Winnipeg Tribune) "Tutankhamun was one of the famous heroic kings of the eighteenth dynasty who reigned from the worship of Aten to the worship of Amen." King Tutankhamun of Egypt, who overthrew Amen, and backed a winner in his stead, that dreaded god, One wondered how he met the folks who dug him out of jail.

With laughter, quip, with gibe or jest, or just a long-drawn wail, Said he, "Hurrah! I'm glad I'm out, I've been in quite a spell," Or did he wag his head and say he wasn't feeling well, And fuss and beg to be walled up and would they let him stay!

A sample of old Egypt's knack of putting things away. I think the old boy got right up and threw his cerements down, And stamped around mad-like and conjured up a frown; And the way the hieroglyphs bombard the rare air Would teach a modern traffic cop divinely how to swear.

He said in not just the most refined of Egyptian, "You're peering scientists! You're resurrection fea! Has modern culture never learned that when a man is dead, It isn't chic to dig him up and stand him on his head."

"He! there my Nilsson! Serfs and Slaves, Brutes! at my command, Thrust these vile meddlers into crates and have 'em here at hand, That I may twist their noses off and show them that it's rude To break into a monarch's grave by methods harsh and crude."

Thus spoke old Tank, the long-lost king, who'd sat on Egypt's throne: He did, did he? Not to your neck— I merely pulled a bone; Tank was too good to care a snap who sat upon his head, Three thousand years among the shades make mosey one good dead.

LIGHTER VEIN. Did't Work. Mr. Justjoined—"What on earth are you trying to do?" Mrs. Justjoined—"I was reading about cooking by electricity, so I hung the chops on the electric ball, and I've been pushing the button for half an hour, but it doesn't seem to work."

Convincing. "You say your fiancée is a good cook. Have you ever seen any concrete evidence of it?" "Well, I've eaten her biscuits."

Quite a Comedown. "Since Ethel married she has stopped wearing French heels; her husband disapproves of them." "I always said she'd lower herself by marrying that man."

Unfamiliar. The Old One—"Yes, this is sunset painted by my daughter. She studied abroad several years." The Young Man—"Ah yes; I understand now. I can't remember having seen a sunset like that in our country."

Standing By Him. Brown, a newly wedded suburbanite, had promised to take his wife to a six o'clock. At midnight his wife frantically sent six telegrams to many of his friends begging them to bring each if her husband was stopping with him over night.

Toward morning hubby and his broken down auto were found by a messenger boy rapped up with six telegrams. All of them read: "Yes, John is spending the night with me."

WHY THE FACE IS LATHERED BEFORE SHAVING. (Yorkshire Post.) Why does lathering the face make shaving easier? Here is one explanation given by a writer in one of the scientific magazines: "When a barber applies a heavy coat of lather to a long beard, the lather tends to hold the hair upright. In the first shaving the microscope shows that the cuttings are nearly at a right angle to the length of the hair, but the second time over, when the call is for a 'close shave,' short, rapid strokes are made several times repeated.

"When the lather is off the barber will occasionally wet his fingers, because the face gets too dry. Indeed, there is nothing to maintain the perpendicularity of the beard. It bends away at it like a batsman flattening a cricket pitch."

"Lathering," says another writer, "has the effect, when properly done, of reducing the bulk of the soap and increasing the number of bubbles whereby water is kept in close opposition to the skin by the surface tension. This is a roundabout way of using water as a lubricant for the efficient and easy passage of a razor across the skin, but once the lubricating qualities of water are recognized as of value in such circumstances, it is but a short step to applying the water direct and shaving while the skin is well oiled. This is the method long in use by the Orientals, and is one that can be thoroughly recommended for trial. Apart from its economy, the skin is not so liable to irritation, the edge of the razor is not so easily dulled, while the whole operation is completed in half the time."

A Double Mile of Elms. (Manchester Guardian.) The famous mansion of Stowe is soon to house a new public school and it will then have no use for its mighty avenue with 25 miles of elms in double rows. In order to save these from falling into the hands of the timber merchant, a London architect has very handsomely come forward and bought the whole avenue, complete with two lodges, for nearly fifteen hundred pounds. The purchaser is not in a position to "keep up" this curious elongated strip of real estate, but he has become its owner for the time-being in the hope that some public body will ultimately consent to re-purchase the avenue and preserve it as a historical—and very beautiful—example of the grand manner in gardening. It may be hoped that his confidence will be justified, for the purchase would be an awkward piece of property to have left on one's hands.

In one year the United Kingdom delivered 3,400,000 letters, an average of 74 to each person of the population.

WORTH \$300,000,000.

An ambitious statistician has figured that if John D. Rockefeller had kept all of the Standard Oil stock he had previous to the dissolution of the company in 1911, and had retained all the subsidiary shares which he received as a result of this splitting up of the parent company, his holdings at today's prices would be worth approximately \$300,000,000.

When the old Standard Oil of New Jersey was being sold to the Standard Oil of New Jersey, Rockefeller had not been a stockholder in that company since 1920. A substantial percentage of the shares was transferred to his son, John D., Jr., who at the present time owns 114 per cent. of the outstanding common.

Although the largest stockholder of Standard Oil of New Jersey, John D. Rockefeller, Jr., is not a director of that company or any other Standard Oil company.

While no official information is available, it is believed that Mr. Rockefeller has disposed of the Standard Oil of New Jersey stock he received in 1911 when Standard Oil of New Jersey was forced to divorce its subsidiaries.

LORD BYNG'S ADVICE. (Montreal Gazette.) Addressing the young men and women at McGill University, His Excellency the Governor General, Lord Byng, gave further evidence of his sound commonsense and practical every-day business ability by pointing out the requisites of leadership.

Lord Byng's address was chiefly noteworthy for the emphasis he laid upon the necessity of a perfect character as part of life's education; the pregnant reference of His Excellency primarily connoting "what we may need." The idea is a product of early Victorian days, and is a multum in parva world of telephones, trains, airplanes, wireless and radio developments.

There is little of the veneration nowadays for the literary giants of the past, but Alexander the Great patronized Aristotle, although there is much hope that the literary giants will return again to the world.

One of the greatest privileges mankind can enjoy is freedom to a really good library. Among the best authors can we find a suitable recompense in the pursuit of knowledge. Many of the greatest writers in the world's history had hard struggles for existence, although they were not always successful after their deaths.

Lord Byng has made reference to the writings of men like Benham, John Stuart Mill, Matthew Arnold, Herbert Spencer, and he could have added many more names without attempting to exhaust a title of those literatures of the past which are so valuable to us.

Matthew Arnold's Hebraism and Hellenism are as essential nowadays to the young man as they were to the young man of the past. One of the greatest privileges mankind can enjoy is freedom to a really good library.

MARVELOUS FILM AT THE IMPERIAL

"Loves of Pharaoh" Shown at Big Keith House, Master Production—Large Crowds Attend.

Presenting one of the most magnificent picture subjects seen here in many months, "The Loves of Pharaoh," Paramount European production, was shown with unqualified success at the Imperial theatre yesterday and will be concluded today. The scenes are laid in Egypt in the days of the Pharaohs, and to say that they are massive and that as a spectacle, this picture is unrivalled, is expressing it mildly.

Nor is the story lost in the spectacle. The people of the play, Pharaoh Amenes, the all-powerful King of Egypt, and his wife, the beautiful and beautiful, but tender and a vain supplicant for love at the feet of a freer-spirited slave girl, is made a true character by Pharaoh and father of Ramses, as the King of the Ethiopians is clear and definite and contrasting.

More expressive than any picture that has been seen on the screen, and the new Balkan actress, Dagny Servaes, is a handsome woman who is also able to act. She gives the slave girl all needed vitality. Henry Ledtke, too, as the young Egyptian whom the slave girl loves, gives an animated and accurate performance.

So there is story as well as grandeur to "The Loves of Pharaoh." It is one of the truly exceptional works of the screen. It is really the love of Pharaoh, but, unlike other kings, who for a kiss or love of a pretty woman have plunged their country into war, Pharaoh never gives a kiss, much less the love of Theonis, Theonis is a Greek slave girl, and is found fetching water from a stream by Ramsis, who falls in love with her and brings her from Ethiopia to Egypt, where she meets Sothis, architect to Pharaoh, and father of Ramsis. Pharaoh falls in love with her, and when the King of Ethiopia demands the return of the slave girl war is declared, and the Queen's consort, the Queen, the Egyptians are losing the war when Ramsis rallies the Queen's forces and wins a splendid victory and also is made the Queen's consort. It is one of the most spectacular screen productions of the season.

The Imperial presented all the elements of the screen up to date and this ancient story in all its marvelous detail and absolutely astounding massiveness and splendour. The list of the Keith house's long list of entertainment triumphs, if not a wonderful lesson in Egyptology. It certainly surprised those who saw it yesterday, great bodies of citizens and their escorts who included clergymen, professional people, school teachers and others who are held only by the best, most illuminating pictures.

IT'S A SAD WORLD.

(Detroit News.) Dispatches from Moscow—You may take up on your individual, great body of citizens and their escorts who included clergymen, professional people, school teachers and others who are held only by the best, most illuminating pictures.

Sympathy is profound, regret overwhelming. Not so much because Big Bill has lost his job in Siberia, for that is a despicable and unwelcome fate, but because it is always open to him in the United States, Uncle Sam, with splendid war-time generosity, has kept just for Haywood a position and hold for many years, salary no object, but with food and clothing thrown in.

What hurts in the Haywood case is the despicable ingratitude which prompted his retirement. Comrade Haywood, it will be remembered, gave life-long service in America to agriculture and kicking against every governmental. When all was said and done, he had turned over to his friends and comrades the entire fruits of his life's labors, to wit, several terms in prison and a jumped bail bond. Without saying a word to anyone, he went to Russia.

Russians, he stood for awhile at the right hand of Trotsky and watched the Soviet troops parade by. Unhappily, Soviet adherents adhere to the same theory that life is a workaday thing. Therefore they thought themselves of the idea that Big Bill should have a job. He was quite worthless in his plans, so they invented for him an autonomous industrial colony in the Ural mountains. Here they told him to gather kindred spirits from abroad, to accomplish 100 per cent. production with a minimum of labor and quite without capitalistic gold. Bill took charge. He was partially successful, wonderfully for such a new venture. He achieved the minimum of labor and absence of gold. Production, it is true, was somewhat short—say about 100 per cent.

The ungrateful and hungry colonists spent their time agitating and kicking against the government. Haywood, quite naturally, accepted this as a betrayal, as well as an unwarranted theft of his stuff. He resigned, and is back in Moscow, meditating on the question whether the downtrodden of the human race are worth all he had for them.

THE FASTEST LOCOMOTIVE.

The New York Central has sent its famous locomotive, 999, to the scrap heap. As far back as 1893 this engine, built by Charles H. Brown at the throat, reached a speed of 112 miles an hour between New York and Buffalo. No other steam locomotive has ever run as fast.

There was a glimmer about 999 which even the swiftest airplane cannot dim. It made the Empire State Express a symbol for speed. Men who were small boys in the '90s must feel today a thrill at sight of the old engine numbers. How many thousands watched for 999 coming up the valley of the Hudson or driving west across the State!

Nine ninety-nine meant even more to the railroad men than to small boys and the public. Whenever the engine was brought into the shops for repair special mechanics were assigned to work on it, special tools were used to put it in good condition. The locomotive was built in 1892 in West Albany. It was rebuilt twice, once in 1905 and again in 1921. Beginning in 1910 it was unable to stand the pace on the main line and was put to pulling slow trains on a branch line running to the Pennsylvania coal mines.

Five babies were recently born to Mrs. Willard Prestage, who lives near Monroe, La.

Now Boys--for Hockey. There'll be plenty of crisp, cold days, with good ice for hockey, yet. For good fast games, the best Hockey Sticks, Goal-Keepers' Gloves, Pucks and Shin Pads go a long way in the chance to win. Our HOCKEY SUPPLY DEPARTMENT is sure to interest you. Drop in any time. EMERSON & FISHER, LTD.

SHOE-PACKS. For winter wear, what could be more suitable for the great outdoors, than Shoe Packs or Larrigans. Just the thing for boys going to school, to keep their feet comfortable and at a very moderate cost. YOUTH'S, all Oil Tan, sizes 11 to 13. \$1.75. MEN'S, all Oil Tan, sizes 1 to 5. \$2.85. NOTE—These require to be fitted about two sizes larger than the sizes of the shoes, to allow for extra hose. Skowhegan Paste to keep them waterproof, per tin, 20c. WIEZELBROS SUPERIOR FOOTWEAR 243 Union Street

You Take Colds very easily this time of year. One of the easiest ways is to step out of a warm bath into a cold bathroom. A Perfection Oil Heater will keep the bathroom at a good temperature and help save your health. Better get one, at once. PHILIP GRANNAN, Limited 568 Main Street. Phone Main 365

FOLEY'S STONE CROCKS. Keep the Butter Sweet. SOLD BY ALL DEALERS. Made by Canadian Workmen of Canadian Clays With Canadian Coal. COMPARATIVE TAXATIONS (Ottawa Journal) A recent article by H. E. Fisk, an official of the Bankers' Trust Company, of New York, gives the following calculation of the respective rates of taxation per head for 1921 in the several countries named—

Table with columns: Country, Taxation Per Head, 1921. Great Britain: \$72. Belgium: \$72. France: \$86. United States: \$26. Italy: \$8.

It is to be remembered also in the case of France that while taxation in 1921 was \$36 per head, there was in addition a huge deficit in her national financial showing for the year, which had it been met by taxation would

As regards the British case, Mr. Fisk has assuredly not over-rated it. Mr. Baldwin, Chancellor of the Exchequer, has just said in New York that the present recent British rate of taxation is about \$100 per head.

The various figures indicate both the courage of Great Britain and the distress of France, and why France is not feeling at all tender-hearted about Germany.

SPREAD FIENDS CURED. (Halifax Chronicle.) Detroit sends auto speeders to be examined as to their mental condition. Some of them are found to be mental defectives, and are forbidden to drive cars. But not only does this system weed out the worst cases, it restrains all speeding. Nobody wants to be suspected of mental incapacity, and sent for examination. Besides, nobody is any too sure how the examination would turn out.

THE FRENCH AGGRESSION. (Ottawa Journal.) Economically, politically, and even in a military sense, France may be better off by taking a course fraught with incalculable menace to Europe, but

100 YEARS OLD IN 1923. Women of notable achievement whose centenaries will be celebrated in 1923 include Charlotte M. Yonge, one of the most prolific writers of the Victorian era; Augusta Theodosia Drake, member and historian of the Third Order of St. Dominic; Elise Vogel Polko, who not only attained fame as a singer, but also won notice in the field of literature; Sara J. Lippincott, American writer and journalist who became well known under the pen-name of "Grace Greenwood"; and Mariette Alboni, a famous representative of the old Italian school of singing.

Government

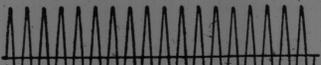

Lesson No. 267.
HETERODYNE RECEPTION.

In order to render audible, in the receiving telephones, the unmodulated continuous waves employed in radio telegraphy, it is necessary to modulate periodically the oscillations of the incoming radio waves. This is accomplished by use of the "heterodyne" principle of reception which consists in superimposing the received oscillation upon a locally generated oscillation, differing slightly in frequency, with the result that tone variations or "beats" of an audible frequency are produced in the telephone receivers.

If, for example, the incoming signal, consisting of undamped oscillations of constant amplitude having a frequency of 81,000 cycles per second, is combined with a locally generated oscillation having a frequency of 80,000 cycles per second, the resultant oscillation will increase to a maximum and decrease to a minimum at the rate of 1,000 times per second. In other words, a "beat" note will be produced having a frequency of 1,000 cycles per second, which is within the range of frequencies capable of producing audible sounds in the receiving telephones. "Beats" of this same frequency would result if the locally generated oscillation had a frequency of 82,000 cycles per second as the resultant "beat" frequency is always equal to the difference between the received and locally generated oscillations.

(1) Incoming Oscillations.

(2) Locally Generated Oscillations.

(3) Resultant Oscillations.

In the accompanying diagram, Fig. 1 shows the incoming oscillations which have a frequency above audibility and a constant amplitude of comparatively small value. Fig. 2 represents the locally generated oscillations differing slightly in frequency and having a constant amplitude of approximately three times the magnitude of the incoming signal. In Fig. 3 is illustrated the "beats" resulting from superimposing the oscillations of Fig. 1 upon Fig. 2.

There are two methods in general use for producing local oscillations.

namely, the "self-heterodyne" method and the "separate heterodyne" method. If a regenerative circuit employing "tickler" coupling is so adjusted that the energy fed back from the plate circuit to the grid circuit is sufficient to produce oscillation, then the vacuum tube operates simultaneously as an amplifying detector and as a local oscillator, this being termed the "self-heterodyne" method of reception.

If a separate tube is used to produce the local oscillation which is then impressed by coupling upon the circuit containing the detector tube, this arrangement is known as the "separate heterodyne" method of reception.

Under normal conditions, frequencies are employed which are greatly in excess of those stated above, for example, an incoming signal having a wave length of 400 meters oscillates at a frequency of 750,000 cycles per second so that it would be necessary to adjust the frequency of the local oscillator to either 751,000 or 749,000 cycles per second in order to obtain a beat frequency of 1,000 cycles per second.

"Heterodyne" reception is extremely sensitive and it has been demonstrated experimentally that signals can be rendered audible when the power has the value of 0.015 microwatt. This sensitivity permits the reception of signals over a wide range and due to the fact that the audible note may be varied, through adjusting the local oscillator, it is possible to eliminate to a great degree the interference from other stations. In the "Super-Heterodyne" method of reception, developed by Armstrong, the high frequency of the incoming signal is reduced to lower but inaudible frequency suitable for being amplified by a radio-frequency amplifier.

**SOCIETY TURNS TO
OLD-STYLE SHAWL**

But Gay, Colorful Weaves Would Startle Grandmother—Unique Designs.

New York, Jan. 16.—Back to the old-fashioned shawl lady is going this spring. Back to the days of grandmother's little shawl wrap.

But, oh, what a far, far cry that bygone age when the small, somber square, folded diagonally, protected old shoulders from the nipping winds of winter and early spring!

The shawl, you see, has evolved, just as motorcars and airplanes and men have evolved. And after a several years' sleep in the cobwebs of obscurity it will blossom forth with April into a thing of beauty and a joy forever.

A tour of Fifth avenue shops, large and small, today showed me that shawl is not the prime quality of the 1923 shawl.

Indeed, not! But if the soft silks and wools out of which it is fashioned lend a cozy warmth to delicate flesh, why, so much the better.

One of the nationally known fashionable houses in New York placed the shawl before me in autumn colors, green, brown, purple, exquisitely woven together in leaf and grape patterns, producing a subtle, rich effect like the haze hanging over October mountains.

Other shawls I saw, too, resembling stained glass cathedral windows in color and motif. And throughout the myriads of paisley patterns I noticed that some color more predominate in the general scheme, brick dust, dull blue, rose, maize or wine.

Perhaps the shawl is folded across and worn like a stole. Then again if one has the heart to snip the lovely silken fabrics, it may be cut up into a bright blouse, or even into a whole dress. A modification that is bound to appeal to the flapper is the neckerchief, so new that only the daring forecasters are wearing it as yet. This variation is much like the old-time bandana, peculiar to the south's negro "mammy."

Of course, an old glorified bandana. Knotted loosely and carelessly about the throat, the neckerchief brings about a whiff of the cowgirl of the plains.

RECENT DEATHS
Joseph H. Daley.
The death of Joseph H. Daley occurred at his residence, 16 High street, yesterday afternoon. The late Mr. Daley, who was in his seventy-third year at the time of his death, survived by his wife, three sons, Frank, at home, Clarence and Chester, in Toronto, and two daughters, Nellie, of Seattle, Wash., and Gertrude, at home. The late Mr. Daley was a well-known resident of the North End and was employed as checker with the C. N. R. for the last thirty-five years.

JAPAN LEADS PROCESSION OF NATIONS IN BICYCLES
Tokio, Dec. 7.—(By mail.)—In comparison with its population, there probably are more bicycles used in Japan than in any other country in the world, not excluding England, where the bicycle is still largely used for pleasure trips.
In Japan, however, they are used more for commercial purposes, being better adapted to the narrow streets than wagons or motor trucks. There are now more than 2,000,000 of them in use in the country, the total licensed at the end of 1921, when the last returns were compiled, being 1,800,383. As each bicycle pays a yearly tax of eight yen, a considerable revenue is obtained from this source.
Most of these bicycles are made in Japan, but Great Britain heads the list of countries sending these machines here, the United States being second with less than half the number sent by England.

ELECTIONS IN TWO BIG CITIES OF QUEBEC DEFERRED
Quebec, Jan. 16.—(Canadian Press.)—Premier Taschereau announced yesterday that in two constituencies the elections will take place on Feb. 12 instead of the 5th. These counties are Gaspé and Charlevoix-Saguenay, which are so large that it is next to impossible to travel throughout them in one week. The nominations there will take place on Jan. 29, the same date as in the other counties.

Beautiful Fabrics For Home Sewing

Fresh, Crisp, Washable Fabrics, Hangers of Warm Days to Come

For winter's sewing you will find here an excellent variety of washable materials in the most wanted weaves.

Almost any shade which fashion or your fancy might dictate can be found among them. Patterns are gay or decidedly dainty and are showing in variation enough to please the most exacting.

For Children's clothes, House dresses, Summer frocks, Blouses, etc., the pieces mentioned below are ideal:

SPONGE CLOTH (Rattine) in peach, Copen, helio, green, grey, delft, rose, matis and white..... 70c and 85c yd

PRINTED VOILES in attractive new patterns..... 60c yd

VOILE WITH RAUINE OVERCHECK—These are showing with colored grounds and overcheck of white. Very new and effective..... \$1.65 yd

GINGHAMS AND CHAMBRAYS in various stripes, checks, and block checked patterns; also the plain shades in popular demand..... 25c and 35c yd

(Wash goods Dept., main floor.)

Just Arrived! New Spring Dress Goods

You'll find it a wise idea to choose materials now, for garments you'll be needing a little later. Our new assortments offer fine latitude for choice. Fabrics are smart and authentic—just what you'll like for sport's apparel or evening garments of many kinds.

NEW HOMESPUN STRIPE SKIRTINGS showing with light grounds and contrasting stripe of henna, orchid or princess blue. An additional silk stripe also adds to the effect. A decided novelty for spring. 56 in. wide..... \$2.25 yd

NEW SPORT HOMESPUNS showing in forecasted, fashionable shades for spring. Among them: flame, foliage green, orchid, princess blue, fawn, light grey and others. 56 in. wide..... \$1.85 and \$2.10 yd

SPORT FLANNELS in every new staple shade. 57 in. wide..... \$1.25 yd

NEW SILK AND WOOL JERSEY CLOTHS for blouses, sport suits, etc. Showing in light green, rose and peach. 66 in. wide..... \$4.60 yd

COAT CLOTHS in soft, beautiful materials. You'll need to see these to appreciate their splendid value. 54 to 66 in. wide..... \$2.95 and \$2.40 yd

(Dress goods Dept., main floor.)

TO ENCOURAGE FRENCH PEOPLE TO DRINK WINE

Paris, Jan. 15.—Henri Cheron, minister of agriculture, has undertaken to teach the people of France to drink wine, instead of liquors of high alcoholic contents. He has issued a circular to his staff throughout the country to encourage the people "to drink a glass of good French wine," asserting that the Government laboratory tests show that wine contains vitamins necessary to health and that wine not only does not develop alcoholism but "it has been established that alcohol is prevalent where too little wine is used."

He particularly encourages wine drinking because the yield this year is double that of last year, and also because the vintage is good. The minister is preparing a label that will guarantee wine as being French wine.

GETS DIVORCE IN 10 MINUTES

Mrs. Minot, Granddaughter of Senator Lodge, Tells of Deserter.

(Boston Herald.)

At the end of a hearing that occupied only ten minutes in Superior Court at Salem yesterday, Mrs. Constance Gardner Minot, granddaughter of Senator Henry Cabot Lodge, was granted a decree of divorce. The husband, Winthrop Grafton Minot, defaulted.

Judge Flynn said that he would rule with reference to the custody of the children, William and Anna, at a later date, when an agreement concerning their education was signed by all parties. Mrs. Minot has assented to it, but it awaits the signature of the father.

Maid is Witness.

The only witnesses were Mrs. Minot and her maid, Mrs. Mott. They related the facts of her marriage and the desertion alleged in her libel. The maid corroborated her statements.

Under Judge Flynn's order, Mrs. Minot's divorce will become absolute after six months. Minot may not marry for two years, and should he contract a marriage outside of the state he will be subject to the Massachusetts law if he returns.

Minot, Harvard graduate and Oxford student, was in the diplomatic service and had influential sponsors, including Senator Lodge. He was in Berlin prior to the entrance of the United States into the war, and on his return to this country he established residence in New York, where he now lives.

Mrs. Minot appeared in the ranks of Republican women speakers in the last presidential campaign. She also spoke in the sixth Essex congressional campaign.

MISS ST. JOHN:

Have you during the Xmas season been neglecting yourself in buying the useful little gifts for your friends, and now, alas, when the mercury drops to the zero mark and you glance in your bureau drawer to take stock, as it were, of your warmer underthings, you realize that you must have some new ones for these wintry days. They drop in at twenty lines of the celebrated Harvey Knit underwear in the latest styles at below ordinary prices. All sorts of needed garments in this special lot.

DIFFERENTIALS IN TWO BIG CITIES OF QUEBEC DEFERRED
Quebec, Jan. 16.—(Canadian Press.)—Premier Taschereau announced yesterday that in two constituencies the elections will take place on Feb. 12 instead of the 5th. These counties are Gaspé and Charlevoix-Saguenay, which are so large that it is next to impossible to travel throughout them in one week. The nominations there will take place on Jan. 29, the same date as in the other counties.

DIFFERENTIALS IN TWO BIG CITIES OF QUEBEC DEFERRED

CITY'S SUFFERERS THROG CLINICS AS COUE WEAVES HEALING SPELL

Patients Pay Tribute to Magic of Frenchman, as Potent Phrase "Ce Passe" Banishes Pain and Tames Stuttering Tongues; Some Yet Skeptical.

(Shbell Ross in New York Tribune.) Weaving his spell like a magician, with subdued mutterings, closed eyes and the flicker of restless, groping hands, M. Emil Coue brought the atmosphere of his simple home at Nancy, where the sick of Europe flock to him, into a darkened room in the MacDowell Club, 108 West Fifty-fifth street, yesterday.

EMIL COUE.

In the course of the morning between fifty and sixty persons attended two clinics, a pitiful group of afflicted men and women who hoped to find relief in the pharmacist's simple creed of willing oneself well. Most of those who came were too intelligent to expect cures—they came for help. And most of them left declaring that some good had been done them.

One woman, however, tears arrested in her painstricken eyes, limped up to a member of Coue's committee after her treatment and wailed: "Why can't I throw away my crutches as they do in Nancy? Why can't he cure me?"

It was explained to her that the reports of his cures in Nancy were exaggerated and that as a rule he helped, rather than cured. Instantaneous cures were effected only when the ailment was born of the mind and controlled by it. The woman left feeling worse than when she came.

Works With Swift Skill.

The second clinic was attended by eight men, twenty-four women and one child, a pretty little girl who came with her mother. She is asthmatic. Coue arranged his patients in a semi-circle and moved rapidly among them, keeping up a running fire of comment, darting at a case, getting his facts like lightning and ministering with trained, tender hands.

On the committee managing the clinic are Mrs. Edward C. Bodman, Mrs. Howard Mansfield and Mrs. Charles Sprague Smith, who is vice-president of the MacDowell Club. The Marchesa Manucci Capponi, who has been appointed by Mr. Coue to carry on his work and head his institute when he leaves, was present at the clinic, but remained in the background.

All the patients who were able to get to their feet rose when the black-coated, apple-cheeked Frenchman arrived, rubbing his hands and beaming cheerily at the assembled group. He went from one to the other, speaking to some in French, to others in English, questioning them closely about their ailments. One man of thirty-five, gaunt-eyed and emaciated, said that he had seen 150 doctors, and most of them had diagnosed his illness as cancer of the stomach.

Asthmatic cases were lightly passed over by Coue. He considers them the easiest of all to cure, since he considers asthma a "psychic disease." While the entire group appeared to be lulled by the swift ministrations of the little Frenchman, he drew out a paper to read some notes and at the same time quietly slipped on eye-glasses. Patients were amazed to open their eyes later and find that the impetuous Coue, who thinks the blind can see, the deaf can hear and the dumb can talk, should be wearing glasses. He explained that that it was so dark in the room he could not see to read without them.

"You must realize that you can do what you want to be, within the realm of possibility," he said to the charmed semi-circle. "You must believe so that

point indicated the man who yawned incessantly. He came on Saturday and again yesterday. As a rule he yawns on an average of seven times a minute, according to his own assertions. He did not appear to yawn once during yesterday's session, but a reporter who saw him leave the building surprised him in the middle of an enormous, satisfying, jaw-cracking yawn.

In a small, quiet voice a woman related that her "doubting brother, a hard-headed lawyer from Boston," whom she had brought to Saturday's clinic has felt no pain since. He suffers from spinal arthritis.

M. Coue seems to do well with stuttering cases. One of his first patients yesterday was a girl from Jersey who stammered painfully.

"Now say, I am not going to stammer," he urged. She started, but stammered at once.

"Now, as long as you think you are going to stammer you are going to stammer. Now believe it," continued M. Coue. "Say 'I am sure I am not going to stammer.'"

Very slowly, with much hesitation, she said it. He was equally successful with a young boy and a youth of about twenty. The latter responded to treatment at once and in great glee. Coue slapped him hard on the back, saying, "It's done."

"But I can't always do that," protested the youth. "Don't say you cannot. Say you can, you can. You are more than half cured already," remarked Coue.

Asthmatic cases were lightly passed over by Coue. He considers them the easiest of all to cure, since he considers asthma a "psychic disease." While the entire group appeared to be lulled by the swift ministrations of the little Frenchman, he drew out a paper to read some notes and at the same time quietly slipped on eye-glasses.

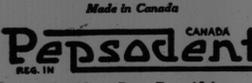

Patients were amazed to open their eyes later and find that the impetuous Coue, who thinks the blind can see, the deaf can hear and the dumb can talk, should be wearing glasses. He explained that that it was so dark in the room he could not see to read without them.

"You must realize that you can do what you want to be, within the realm of possibility," he said to the charmed semi-circle. "You must believe so that

Nice Teeth Combat that film if you seek that supreme charm

A few years ago, beautiful teeth were seen less often than now. Now millions show them. You see them everywhere. People are combating film. Tooth troubles were almost universal. Now people combat the cause in a scientific way. Won't you now learn what brought that change about? Film—the enemy. Film is the great tooth enemy—that viscous film you feel. It clings to teeth, gets between the teeth and stays. It absorbs stains, then forms dingy coats. Tartar is based on film. That's why teeth lose their luster.

The New-Day Dentifrice

A scientific tooth paste based on modern research, free from harmful grit. Now advised by leading dentists the world over.

WINTER ECZEMA 'CHAPS' & COLD-SORES

KEEN wintry weather brings a host of skin troubles. Cold-sores, chapped hands, unsightly face-sores and blotches, become a source of discomfort and annoyance. To end the trouble and make your skin clear, healthy and flexible, give the face, arms and hands, a nightly dressing with pure herbal Zam-Buk.

Zam-Buk instantly soothes the smarting irritation, kills disease germs, and quickly heals all soreness, roughness and chafing, which, neglected, often develops into eczema or other chronic skin disease. Use also Zam-Buk Medicinal Soap and enjoy real skin health.

This was an obstinate case. Mrs. Henry Amey, 42, Lyall Avenue, Toronto, says—"My daughter's face and neck were a mass of eczema. Her doctor prescribed treatment for over two months, but to little avail. I was about to call in a skin specialist when I heard of Zam-Buk treatment rescuing other sufferers from this dread disease. So I got a box of Zam-Buk and a tablet of Zam-Buk Medical Soap. In a few days these wrought a decided improvement. Day by day the sores gradually healed, and within a month my daughter's skin was thoroughly cleared of the terrible disease."

FREE SAMPLE BOXES of this great skin remedy! Send 1c. stamp (for return postage), give name and address, and receive Zam-Buk, Dept. St., Toronto. 50c. box, all dealers.

the suggestion shall reach you. First thing you know, your digestion and powers of assimilation will be good. Then your sleep will be good. Your physical organism will be working well. With perfect physical functioning, your troubles will disappear. When I count three, open your eyes and you will feel much better.

"Now I have done my part; you must do yours," advised Coue. "You must repeat, 'Day by day, in every way, I am getting better and better.' When you pain bothers you you must say, 'Ce passe, ce passe,' so fast that no evil thought can intrude itself."

NORWEGIANS TRY ELECTRIC LIGHT TO LURE DEEP SEA FISH TO NETS London, Jan. 15.—The Norwegian Mercantile and Shipping Gazette states that an experiment is being made in catching fish with the aid of electric light. The first time such a method has been adopted in Norwegian waters, writes a correspondent to The London Daily Express.

There is a great quantity of herring in the Hardanger Fjord, but the fish lie at a depth too great for them to be caught in nets. Mr. Thor Egeland therefore equipped an expedition to endeavor to attract them to the surface by means of electric light reflected from the deck of a steamer.

DIED IN MAINE. The Independent Reporter of Shownegan, Maine, says—John Allen Clark, the small son born July 29 to Mr. and Mrs. John Clark of Athens, died Dec. 28, after a few days illness. Everything that loving hands could do was done for the little fellow, but with no avail. Mr. and Mrs. Clark have the sympathy of the community in their bereavement.

Opera Conductor Pleads "Enoch Arden" Law Scurl Asks Freedom From Wife He Has Not Seen Since 1909 in Berlin.

New York, Jan. 12.—A petition under the "Enoch Arden" law by Alessandro Scurl, assistant conductor at the Metropolitan Opera House, for freedom from his wife, whom he has not seen since 1909 in Berlin, was filed today with Supreme Court Justice Mitchell L. Erlanger.

The court will withhold decision pending determination of its jurisdiction over Scurl's union, which was solemnized in Rome during 1903. The conductor is a native of Rome, but has taken out his first citizenship papers in this country.

Scurl told the court his wife, who was Miss Elin Louisa Warburg, of Stockholm, Sweden, refused to accompany him to New York when he came over thirteen years ago to seek fame here, preferring the life of European capitals. He last heard from her in 1915, when she wrote she was ill of arsenic poisoning, he said, and repeated efforts to communicate with her since have failed. They were married when both were music students in Rome.

Scurl has been on the conductors' staff at the Metropolitan for five years, being principally engaged in rehearsing the ballet. He is also a music teacher, with a studio in the opera house building. He is represented by Wilkinson & Chadsey, attorneys of Elmhurst, L. I.

CHILD BURNS TO DEATH, DEAD MAN UNAWARE OF CRISIS London, Dec. 21.—(By mail)—A child in flames on the floor of a room, screaming in agony. A deaf man sitting in the same room oblivious of the child's peril, lit the gas. A piece of cloth which rested on Scurl's union, which was solemnized in Rome during 1903. The conductor is a native of Rome, but has taken out his first citizenship papers in this country.

INDIANS MAY CARRY CASE TO THRONE IF NOT SOON SETTLED

Six Nations Insist on Paying Half Expenses of Arbitration Board to Adjust Dispute Between Themselves and Canada.

(Canadian Press Despatch.) Oshkosh, Ont., Jan. 15.—Another appeal to the foot of the throne is contemplated by the Six Nations Indians if a settlement is not made soon of their difficulties with the Canadian government. This was the information given this afternoon by Chief David Hill, secretary of the Six Nations Council.

In December, last, after a conference with Hon. Charles Stewart, superintendent-general of Indian affairs, a board of arbitration was agreed upon by both parties. Since then there has been a hitch in the appointment of this board. The Indians insist on paying one-half of the expenditure in connection with it. They feel that if the Canadian government paid all the expenses the members of the board might be inclined to favor the party paying them.

The Six Nations Council also wants a further conference to decide a few details in connection with the appointing of the members. Regarding the coming of the detachment of ten Royal Canadian Mounted Police to a permanent post in Oshkosh yesterday, William C. Johnson, president of the Great War Veterans Association, said that his body would make an official protest against the post being stationed here. The returned soldiers, as well as a great many other members of the reserve, keenly resent the Canadian government showing its authority in this manner.

PROHIBITION IN ONTARIO

Farmers' Sun Says Temperance Must Still be Preached

The Law Will Stand, But There will be Laxity of Enforcement Unless the People Wake Up — The Farmers are Solid.

(Farmers' Sun.) Under the caption "Is Prohibition an Issue?" The Toronto Globe, using as a text the open letter to Mr. J. J. Morrison from H. W. Clark of Fergus, which appeared in The Sun on Saturday, indulges in some speculations which reveal a need for enlightenment on the part of that estimable journal, if it is not, innocently, of course, to point out that, since the Government and the Liberal members are apparently ready to stand by the O.T.A. and Hon. G. H. Ferguson is probably too shrewd to impel his party's chances by giving the Liberty League programme a place in the party platform, there remains only Mr. Morrison and his followers whose views have not been clearly defined.

"It would be," says The Globe, "a remarkable development were the rural electors of Ontario at the coming election to be asked to choose between rival Farmer candidates—some pledging with Drury for prohibition and the firm enforcement of the O.T.A. others with Morrison against persistence in the endeavor to stamp out the drink traffic by law rather than by voluntary effort.

"That would assuredly make prohibition an inescapable issue." Mystery to Sun Editor. How Mr. Morrison's address to the Good Templars could be so interpreted as to justify the suggestion that the United Farmers of Ontario, who are pledged to the support of the Ontario Temperance Act, may be split into two rival camps, with prohibition legislation as an issue, is too deep a mystery for The Sun to explain, but the communication from Mr. Clark and comment in various newspapers, notably The Godefrich Signal, which rather crudely asks if J. J. Morrison is trying to "snuff" the O.T.A., indicates a rather extensive belief that the U.F.O. Secretary declared himself in opposition to the continued enforcement of the O.T.A.

In his Good Templars address, as reported in The Globe on December 8, Mr. Morrison said: "We have ceased to teach temperance and are trying to do it with a club. I want to tell you it won't work out; not because the Ontario Temperance Act is a bad measure, but because no law can function properly without the support of public opinion."

"We have changed our system from moral suasion to force. Together they would be a great team; alone, force is not a success." And, driving his point home, he said: "With the inauguration of prohibition, workers believed their cause won and slackened their efforts. Already there were signs that victory was slipping from them. If we are to hold what we have gained we must revert to the old methods of disseminating propaganda."

Need for Education. There is nowhere in The Globe's report of Mr. Morrison's address anything that, rightly interpreted, was an expression of opposition to the enforcement of Ontario Temperance Act. As a lifelong temperance man who fought for prohibition legislation at a time when the liquor traffic had yet to be stamped out, Mr. Morrison's position is clear. He was talking to other temperance men, who, having achieved their objective in legislation, were viewing with some uneasiness the persistent undermining of their hard-won position.

If we are to hold on to what we have gained we must revert to the old methods of disseminating propaganda."

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Colds, Toothache, Earache, Headache, Neuralgia, Lumbago, Rheumatism, Neuritis, Pain, Pain

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacid of Salicylicacid. While it is well known that Aspirin means Bayer Manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

A Prosperous Year

The London Life Makes Remarkable Progress During 1922

NEW BUSINESS written by this all-Canadian Company amounted to nearly \$87,000,000—a net increase of 18 p. c. Insurance in force was increased 16 p. c., now amounting to almost \$130,000,000. During the year, a new high level in Surplus Earnings was reached, and generous bonuses were voluntarily declared to policyholders in the Weekly Premium Branch.

Table with 4 columns: Item, 1912, 1917, 1922. Rows include Income, Total Assets, Net Surplus (Govt. Standard), Insurance Issued, Insurance in Force.

The year's report shows that: The Company's Investments are in an exceptionally satisfactory condition, with Interest Earnings averaging 6.78 p. c.—an excellent Gain for the year. The Mortality Experience in the Ordinary Branch was low, amounting to only 86 p. c. of the Expected. All Accruing Profits at the Company's high scale of Dividends (running to more than 200 p. c. of Estimates) have been fully provided for, a practice followed by this Company for 25 years. Every actual and contingent liability has been ascertained and accounted for, and, in addition, the Net Surplus has been increased more than 70 p. c.

The London Life Insurance Company. Policies Good as Gold. LONDON, CANADA. HEAD OFFICES. Agencies in all principal cities. City Manager, J. W. McCARTHY. C. P. R. Building, Corner King and Germain Streets.

Mr. Morrison told them, and those who believe in prohibitory legislation and are able to look facts squarely in the face, whether they are pleasing or not, will agree with him. It is all too true that, when we secured prohibition as the price of a long, bitter struggle, we ceased, very largely, to preach temperance. Organizations like that of the Good Templars, which years ago laid the foundations for the strong temperance sentiment which made the Ontario Temperance Act possible, have seen their membership dwindle. Prohibition was brought about by education, yet today temperance education is given little, if any, attention, even in our churches. Instead of regarding the fight as a continuing one, temperance people have been prone to leave it to the law officers. Instead of teaching people their duty as good citizens to support a law that means so much to the Province, we have been busy, through our police forces, in promoting a healthy fear of violations. And a new generation is growing up that has little personal knowledge of the evil from which prohibitory legislation in its various forms has delivered us. A new generation that is getting its ideas from a subtle propaganda that misrepresents the Ontario Temperance Act as a needless infringement upon the liberty and privileges of the citizen.

On Statutes to Stay. The Ontario Temperance Act is on the statute books to stay. It was the result of a campaign of education, more than any other element in the Province, ensured its retention when it was voted upon in 1919, and despite nonsensical speculation about a pro and anti line-up it will be the farmers who will stand by it. They will need to. The O. T. A. today is the target of a campaign of attack that is not less dangerous because it is largely under cover. Law enforcement is discredited, suspicion is implanted, prejudice and resentment aroused. This campaign will come to nothing before an enlightened and instructed public opinion, but as Mr. Morrison said, "public opinion will not take care of itself." The people of this Province are still in the main behind the O. T. A., but there is no use in shutting one's eyes to the fact that temperance sentiment, particularly in the larger centres, is not as strong as it was. If the O. T. A. is

to continue an expression of public opinion in Ontario it is time that some heed was given to warnings such as that Mr. Morrison gave the St. John's Good Templars a week ago. RESOLUTION ASKING BEER AND WINE IS SUBMITTED IN N. Y. Albany, N. Y., Jan. 15.—A concurrent resolution, intended to memorialize Congress to modify the Volstead Act so as to permit traffic in beer and wine was introduced in both Houses of the Legislature tonight by the Democratic

leaders, Senator James J. Walker and Assemblyman Charles D. Donohue. In the Senate James the resolution was referred to the finance committee, but the assembly, on the objection by Simon L. Adler, Republican floor leader, deferred action on it until tomorrow. The resolution was recommended by Governor Smith in his message to the Legislature.

The Epworth League of Centenary church held its regular meeting last night, and the minister, Rev. R. G. Fulton, presided. Following the usual programme, the meeting adjourned for the members to enjoy friendly games of badminton.

There's nothing like a good cup of tea. It stimulates and invigorates. It soothes jumpy nerves and takes away that tired feeling. And to make good tea, you need the right pot. This SMP Enameled Ware Tea Pot steeps the tea to perfection. Keeps it right, too. An SMP Tea Pot never gets rusty or stale, as the hard enamel is non-porous and non-metallic, like all SMP Enameled cooking utensils. It is as smooth as china and as strong as steel. But be sure to get genuine SMP utensils, each carrying the SMP trademark. Ask for

SMP Enameled WARE. Three finishes: Pearl Ware, two coats of pearly grey enamel inside and out; Diamond Ware, three coats, light blue and white outside, white lining; Crystal Ware, three coats, pure white inside and out, with Royal Blue edging. **"Volcanic Garden"
Of Alaska Active
After Many Years**

Eruption of Pavlof, Dormant Since 1790, Vindicates Forecast of Explorer Who Led Five Tours.

Washington, Jan. 15.—Pavlof volcano, reported recently to have lost its entire top in a mighty explosion, and latest of the world's peaks to break into eruption, has, like Mount Katmai, which blew up in 1912, again put America's great Alaskan "volcanic garden" on the map, says a bulletin of the National Geographic Society.

"This peak is in a region in which volcanoes and one-time volcanoes are as thick as prairie dog mounds on a western plain, the bulletin says, 'but most of the time they are dormant. It is as though nature were playing a gigantic game of drop-the-handkerchief with fire from below, for after delays of greater or less length up pops a molten stream unexpectedly through some peak, which perhaps has not erupted in hundreds of years.'

This seems to have been the case with Pavlof. It is situated almost at the tip of the long, narrow Alaskan peninsula that stretches out toward Asia and sends its offspring, the Aleutian Islands almost to the shores of that continent. For years vessels have passed near it and no activity other than a slight smoking has been observed.

Pavlof is one of the great series of volcanoes that connects this continent with Japan, it is pointed out, the interesting and scientifically important fact of which is that it crosses ranges of the country's highest mountains and again appears from out of the sea's depths.

Dr. Robert F. Griggs, who led five expeditions into the Alaskan volcanic region for the society and who recently published his report in popular form, said only a few months ago of the region:

"No man may predict how long the present quiescent condition will continue on Bogoslof, the most active of these volcanoes. From past experience it is evident that a new upheaval is likely to occur at any time. It is probably, however, that the next great eruption will come not from Bogoslof or Katmai, but from some of the half hundred unknown peaks.

"The eruption of Pavlof seems to vindicate the prediction. There has been no real eruption there since long before Alaska passed from Russian hands to those of the United States in 1867.

**SOCIAL SERVICE
FOR HOSPITALS**

(Toronto Globe.)

That hospital social service had become a permanent institution, and had shown itself to be a very necessary part of the whole structure of the well-equipped modern hospital, was the statement of Miss Margaret Brogden, chief of Social Service, Johns Hopkins Hospital, Baltimore, in her instructive address at the annual meeting of the Social Service Association, Toronto General Hospital, held at Holwood, the residence of Lady Flavelle, yesterday.

The true function of the hospital should be to provide a public health centre for the whole community, declared the speaker. Health was neither the privilege of the wealthy, nor the benighted gift of the rich to the less fortunate; it was the birthright of every child, and the care of the community's health meant the care of all its members. In these days of advanced medical science, when the old family physician had been replaced by specialists, the social worker formed a vital part of the diagnostic and therapeutic department in connection with a hospital. To her fell the delicate task of discovering the patient's history, his environment, and of providing the human touch between hospital and patient.

Miss Knisely, of the Social Service Department, in her report, gave a graphic account of the growth of the work. At present there is a social service staff of one head worker, assistant, six workers in special departments, and two secretaries. Through this department over 5,000 received advice, super-

**A Carnival of Jewelry Values
Before Stock Taking!**

This time you get a third and a half off Jewelry, Silverware, Clocks and Cut Glass of everlasting beauty, It sounds amazing, yet you can see for yourself—make your comparisons and do your choosing with the shrewd satisfaction of having bargained from a firm that needed money more than goods. We have thousands yet to raise by the power of a cut-price and a money-back guarantee of quality.

Only a 4 Day Sale—And Here Are But Twenty Typical Prices

\$30 Bracelet Watch—Half

Fine Filled Gold Case and Bracelet, tiny and trim, fitted with a fifteen jewelled movement, and a full guarantee. Exactly half price at \$15. And with each one a ribbon band worth \$1.50 given free.

With a heavier filled gold case and \$32 value—this week \$16.

All Pearl Strands—Half

If you fancy one at \$165, take it for half. If it is one of the \$5 lengths of indestructible French Pearls—take it for half. Every single strand of Pearls is half price this week. Cream, rose, silver lustre, every tint. And all are matched or graduated perfectly. The clasps are something special, those of the better ones being 18 karat white gold set with a solitaire Diamond.

Imported Ear-rings—Half

All New York importations and novelty shapes, featuring Jades, Jet Pearl settings, Tangene, Turquoise, Onyx, Hyacinth, etc. Former prices \$2 to \$8. Sale prices just half.

Brilliant Bar Pins—Half

Long bar and crescent shapes with French Rhinestones set in Sterling Silver. Natural prices \$2 to \$4.50. This week's sale, no more than half.

French Ivory Sale

A \$15 Brush and Comb, stamped genuine French Ivory of heavy quality and real Russian Bristles—\$3.65. Look again at the total reduction, then grasp an idea of other possible purchases.

Rings and Umbrellas

One fifth off all Diamond rings, and one-third off all other rings and hundreds of them to dazzle you. Isn't that a wonderful offer?

Coming to Umbrellas—they're all half price this week. Former prices \$7.50 to \$20. A variety of fancy handles and the better ones have coverings of pure silk.

Cut Glass at 50 P.C. Off

Frappes that have been \$8, \$9 and \$10 the half dozen are reduced by half to clear before stock-taking. Cut and etched in these designs—grape, butterfly and ivy.

SOME PLACES WITHOUT MAIL FOR A WEEK

Bad Along the St. Martin's Railway—The St. George District Gets Service by Steamer.

The rural mail deliveries in this section of the province have been rather badly upset for the last few days by the heavy snow lying in drifts on the railways and roads generally traversed by the mail carriers.

Places on the St. Martin's Railway, mail for which passed through Hampton, have not received or sent out any postal matter for several days. Every effort possible is being made to restore the service to the points temporarily cut off, but it may be some time before some places are reached.

CARNIVAL BOUT PLANS PROGRESS

Idea is Elimination Between Paris and McIntyre; Healey to Meet the Winner.

Edward Farren, who last night discussed with the executive of the Carnival Committee the question of holding a boxing bout here during Carnival Week, announced this morning that he had made considerable progress in his negotiations to stage a championship match during the festival period.

Mr. Farren got in touch with "Neddy" Healy, of Halifax, who agreed to participate in a bout here during Carnival Week. There have been many reported attempts recently to bring together Healy and Johnny McIntyre of Sydney, and friends of Gordon Paris have been anxious to see him in a go with the Halifax boxer.

Both Paris and McIntyre were seen last night and they agreed to meet in a preliminary bout on the 22nd. The winner to be matched with Healy for the main Carnival bout. As McIntyre is now welterweight champion for the Maritime Provinces, his go with Paris will be a championship bout, and likewise, in the match during Carnival Week, Healy will have an opportunity of taking the championship.

Even since the match between Healy and McIntyre in Halifax, over which there was considerable discussion as to the referee's decision in awarding the bout to McIntyre, many efforts have been made to get the two to meet again. Several times it was reported that a bout between the two would be staged in St. John, but Mr. Farren said today that he had negotiated for a contest here.

Friends of Paris contend that, after the good showing he has made recently, he is entitled to meet McIntyre to decide which one of the two will participate in the Carnival bout with Healy. The bouts would be staged in the Opera House.

HELP THE COAL MAN TO GET TO DUMPING PLACE

A prominent coal dealer of the city, in conversation with a Times reporter this morning, said that the delivery of coal would be greatly expedited if the tenants and landlords of houses ordering coal would co-operate in the matter of snow removal. At the present time the dealers were doing the best they could to make deliveries but it was possible only to deliver one-half or one-third the coal which would be delivered under ordinary circumstances. Efforts had been made to secure extra teams but the city had employed a great many of them in removing snow from the streets and the companies were making out as best they could. By consuming a large amount of time in delivering one order the orders of some which might be in great need were held up and everyone needing coal would get it much quicker if the way for the delivery were made easier. The dealer in question said that this suggestion was thrown out in a friendly spirit for the benefit of the community in general at this time when deliveries were so difficult.

THREE CHILDREN OF ONE FAMILY ENTER RELIGION

Within the last five months, Mr. and Mrs. F. P. Curran, of 483 Annette St., Toronto, formerly of St. John, N. B., have had the happiness of seeing three of their children enter the religious life. Their daughter Mary entered the Carmelite Order in Buffalo, N. Y., on August 15, Eleanor (formerly a graduate nurse of St. Mary's hospital, Rochester, N. Y.) joined the Notre Dame Order in Baltimore, Md. Their brother, Thomas, entered the Redemptorist College at Brockville, Ont., to study for the priesthood, in September. Their father has been in poor health for the last three years.

Mr. Curran was formerly of the Canada News Depot in the railway station here.

TWO SCHOONERS GET TO YARMOUTH SAFELY

Yarmouth, N. S., Jan. 16.—The two three-masted schooners, M. O. Crowell and Chataqua, arrived here today from New York reporting the worst passage those on board had ever experienced.

LOCAL NEWS

SIR HENRY NEWBOLT.

Sir Henry Newbolt, who was to have been in St. John on January 25, will not arrive until the 28th and will speak here on the 29th. From here he will go to Fredericton to address the university and Normal School. He will go thence to Moncton and on to Halifax. The local committee of the National Council of Education, under whose auspices he will appear here, will meet in the Board of Trade rooms tomorrow afternoon at four o'clock to make arrangements.

C. P. STEAMSHIPS.

The steamer Montclare of the Canadian Pacific service is due in the city on Sunday with a total passenger list of 799. From Glasgow she has booked thirty-five cabin and 800 third class passengers, besides a large quantity of large general cargo. F. M. Donald, of St. John, who is ticket agent aboard the Montclare. Local people will be interested in the announcement that C. P. R. headquarters this morning that the Marloch from St. John arrived at Liverpool on January 15 at 8:30 p.m. The vessel carried several St. John passengers.

DEATH OF WILLIAM COOPER.

William Cooper, a life-long resident of Gagetown, died this morning after a short illness at the home of his son-in-law, J. A. McGaw, here. He leaves three sons and three daughters. The sons are Fenwick W. Cooper, of Gagetown; James H. of Everett, Mass., and R. E. Hazen, of New Hampshire. The daughters are Mrs. J. A. Cooper, of Bathurst; Mrs. E. H. Ross, of Hampstead and Mrs. McGaw, of St. John. His wife died about a year and one-half ago.

The funeral will be held from the residence of his son in Gagetown to St. John Church Cemetery, on Thursday afternoon.

KING'S LAW SCHOOL.

King's College Law School opened for the second term of the scholastic year on Monday with a lecture by Dr. F. J. G. Knowlton on Insurance. Most of the out-of-town students have returned to resume their studies and a successful closing term is looked for. Among the students to arrive yesterday were Thomas Green, who spent the holiday season in Ottawa, visiting his brother; Harry Joseph, Bernard McLechey and Harvey T. LeBlanc. A practice of the law school hockey team has been called for tonight in the Arena. The first game for the budgeted lawyers will be Friday or Monday. The winter team is looked for as the local school have some fast players. Among the outside games which have been played, the manager, under consideration is a contest with King's College at Windsor.

VATICAN AWAITS FURTHER NEWS FROM MEXICO

Painful Impression Produced by Expulsion of Apostolic Delegate from Country. Rome, Jan. 16.—News of the action of President Obregon of Mexico in ordering the expulsion of Mr. Filippo, the apostolic delegate, produced a deep and painful impression at the Vatican. Pope Pius yesterday asked Cardinal Gasparri to acquaint him with the details, but the papal secretary of state said this far he was in possession of none of the circumstances.

The pontiff thereupon ordered him to await reliable information before taking any action. Mexico City, Jan. 16.—Federal authorities have ordered the police to permit no demonstrations in connection with the departure of Monsignor Ernesto Filippo, who has been expelled by President Obregon for participation in a religious ceremony alleged to have been held in violation of the constitution.

The police were instructed to allow no public protests against the expulsion order. Workmen's unions, which had organized for today, were likewise informed that their plans would have to be abandoned.

Mr. Filippo denied himself to visitors yesterday, pleading pressure of work. Hundreds of protests against the expulsion have been received from Catholic organizations in all parts of the republic. Mexico City, Jan. 16.—The Mexican Government has been informed that the order expelling Monsignor Ernesto Filippo. This statement was made yesterday by G. Valenciana, acting head of the department of interior.

NEW ATHENIA IS NOW COMPLETED

Latest Addition to Anchor-Donaldson Line—Maiden Voyage in April. The announcement has been made by the Robert Reford Company that the new oil-burner Athenia, the building of which, to the order of the Anchor-Donaldson Line, was postponed owing to strikes on the Clyde, is now rapidly nearing completion and will open the St. Lawrence season for liners.

The new liner is scheduled to sail from Glasgow April 19, and will make her first sailing from Montreal May 4. She will be the only liner of the post war type to run exclusively from Montreal to Glasgow, and the latter port will now have a greater line connection with Canada than ever before.

The Athenia, like the oil-burners of the Cunard Line, requires only one funnel, which will be black with a white stripe. She is 520 feet long, 66 feet wide, with a depth of 42 feet and a tonnage of 14,000. Her passenger accommodation will be the largest of any ship running to Glasgow, being 816 cabin and 1,000 third-class.

A feature of the new liner is the cabin accommodation provided on the shelter deck which runs almost the full length of the ship and is designed to house 162 cabin passengers. The public rooms and cabins are all to be heated by steam radiators. The public rooms are all situated on the promenade deck and include lounges, drawing-room, smoke-room and a veranda cafe with a special feature in the form of a nursery for children, where the kiddies will be looked after by stewardesses during the play hours and all sorts of toys and games provided. Nursery rhymes and woodland scenes will form the rural decorations for this room.

THE 1905 SNOW RECORD HAS BEEN SURPASSED

Since December 1 This Winter 68 Inches Has Come to St. John.

Weather forecasts for tomorrow indicate cold weather with a northwesterly wind accompanied by some snow flurries. The mere mention of more snow sends a shudder up and down the spine of the householder as he surveys the largely mountainous piles of snow in front of his house and in his yard. From the first of December to date—forty-seven days—sixty-eight inches of snow has fallen and the city is not yet. In 1905 during the months of January and February sixty-seven and one-half inches of snow fell and pictures taken at that time show a condition of affairs very similar to what we see today. The snow fall in the first two months of 1905 was spread over a period of fifty-nine days and was less than has fallen in the last forty-seven days.

The item of expense incurred by the clearing away of the deep banks of snow is by no means insignificant and causes the tax-payer to groan. Mark Twain said about the weather "Everybody talks about it but nobody does anything." The best we can do is to bend ourselves to the task of recovering from the burden. We don't have earthquakes or cyclones in this country. Fredericton, N. B., Jan. 16.—Two and a half inches of snow which fell here last night brought the total snowfall in Fredericton this winter up to a fraction of an inch more than five feet. It has been snowing on seven of the last nine days here.

HALIFAX GETS DISTRESS CALL

Italian Steamship Montello in Trouble About 600 Miles Away—Help on the Way. Halifax, N. S., Jan. 16.—The Italian steamer Montello is in distress in the north Atlantic and sending out S. O. S. calls, according to a resident message from Louisbourg, C. B., timed 10:30 a.m. It reads: "S. O. S. call from the Italian steamer Montello, latitude 38.40 north, and longitude 66.60 west. Steamer Eastern King going to her aid. Call being broadcasted via Marconi."

The steamer reported in distress is believed to be the Italian steamer Montello, 3,900 tons, Captain Sturlese, which sailed from Philadelphia Jan. 9 for Montreal. The Eastern King is an American steamer bound from Montreal to New York. The position given in the wireless despatch would place the Montello, about 600 miles south by east of Halifax.

CANADA WINS STRATHCONA CUP

Scots Met Third Defeat in Montreal Last Night—Lost Before at Truro and Here. Montreal, Jan. 16.—The Strathcona cup, dated by the late Lord Strathcona for competition between Scottish and Canadian curlers, was won by Canada here last night when in the third match of the present tour the visiting Scotsmen were defeated, the score being 132 to 110. The rules of the competition provided that three out of five games constituted victory. The Scotsmen lost at Truro by thirty-four shots, and at St. John by twenty-five, so last night's match was decisive, even though two more test matches are scheduled for Toronto and Winnipeg.

The curling was featured by the first appearance of the Scottish team captain, Col. Robertson-Aikman, who has been ill since his arrival. He made a great comeback, and his team, together with that of Skip Jackson, were the only two to win outright for the Scots.

NURSE BURNED TO DEATH IN OTTAWA

Miss Ross was Preparing a Turkish Bath for Patient in His Home. Ottawa, Jan. 16.—Miss Beatrice Margaret Ross, twenty-six, a student nurse of Montreal, was burned to death, when her clothing caught fire at the home of her aunt, Mrs. J. B. Fraser, 80 Cooper street, last night. Mr. Fraser, sixty-five, her patient, was also severely burned about the face, hands and body in attempting to assist her in combatting the flames.

Mr. Fraser, who had been ill for years, had been ordered to take Turkish baths, and Miss Ross was preparing a portable Turkish bath cabinet in the bathroom. Flames from an alcohol lamp ignited the clothing of the young woman.

MONTREAL WAREHOUSE BURNS; LOSS ABOUT \$150,000

Montreal, Jan. 16.—The olive oil warehouse of A. Kouri, at the corner of Champ De Mars and Bonsecours street, was completely destroyed by fire last night, entailing a loss estimated as high as \$150,000.

During the months of January, February and March our stores will close at one o'clock on Saturday

QUICK JUSTICE IN HALIFAX COURT

Within Twelve Hours of the Crime Two Sentenced to Penitentiary.

(Halifax Echo.) Some time about midnight Sunday night two men beat up and robbed of \$123 a man named Wm. McDonald on Upper Water street, and inside of twelve hours two men, James Kent and Michael King, were convicted and sentenced to five years each in Dorchester penitentiary. When McDonald reported the matter his face was badly cut and bruised and he bore all the evidence of a severe assault. The two men had disappeared and McDonald reported they had taken \$123 from his pocket as well as beating him up. Sgt. "Boo" Young and Officer Whinger traced two men to the Victory Cafe, Barrington street, and finding they answered the description of the hold-up robbers arrested them. When searched they were found to have \$88 between them, one having \$43 and the other \$45. They had from St. John, N.B. The pair were charged with robbery violence and pleaded guilty. One stating they took McDonald's money because they knew where were rough characters about. McDonald said that when he was being attacked, he had pleaded for mercy without avail. Sundrying Fielding immediately sentenced Kent and King to five years in the penitentiary and expressed the hope they would mend their ways. Police Clerk Orlin photographed and finger printed Kent and King. Kent is known to have been finger printed at Ottawa, Ont., and also in the United States where he was in the army.

GOOD THINGS COMING TO THE THEATRES OF ST. JOHN

VALENTINO'S SUCCESSOR

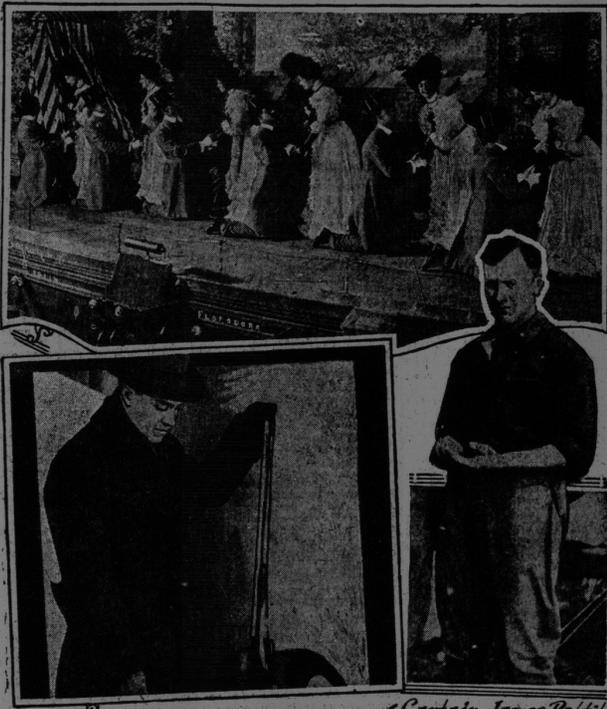

Joseph Schildkraut, handsome young actor, who plays the heroic lover-role in D. W. Griffith's super-magnificent production of "The Two Orphans," otherwise known as "The Orphans of the Storm." Mr. Schildkraut, according to metropolitan critics and reviewers, has supplanted Roger Valentino, the swarthy Spaniard, as the idol of feminine picture goers. His performance in the great Griffith feature—soon to be seen here, by the way—is most gratifying.

OAK HALL'S 34TH BIRTHDAY SALE TO START THURSDAY

It is an established custom at Oak Hall, St. John's leading wearing-apparel store, to have a great celebration in January of each year, to commemorate the birth of their business which took place in January, 1889. This will be their thirty-fourth birthday, and the great celebration will start Thursday morning of this week. Very careful preparations have been made for this great event. The managers of the various departments have brought in great quantities of the finest merchandise procurable, and all at big price concessions, so that following the usual Oak Hall policy of quick turnover at a minimum profit, the savings the public will be able to make will be full worthy of a quick response. Besides all the special purchases, it is Oak Hall's custom to offer practically their entire stock of men's, women's and children's wearing apparel at substantial reductions, so that no matter what one's requirements are, a big saving can be made by attending Oak Hall's birthday sale on Thursday and the days to follow. Of particular interest in this sale are items of outstanding importance that will be offered each day and for that day only, so that a careful perusal of Oak Hall's daily advertising will prove advantageous.

Police Hold Beauty Of Original Floradora Sextet As Murderess

Above - THE ORIGINAL FLORADORA SEXTET WITH MRS. MARY WELLS ON RIGHT END. BELOW - THE GUN WHICH SHOT PETTIT BEARS TELL-TALE FINGER PRINTS -

New York, Jan. 15.—Fingerprints on a gun which killed Capt. James Pettit, thirty-two, known among the duck shooting sportsmen of Long Island as "Captain Jim" and "Big Jim" have led to the arrest of Mrs. Mary Elizabeth Wells, who twenty years ago was captivated by "Billie" Wells of the original Floradora Sextette. Pettit, well known in Long Island

sporting circles, was killed with one of his own shotguns. The fact that he was so thorough a gunning enthusiast may have resulted in revealing his slayer, for he had covered the barrel and stock of the gun with vaseline to prevent rust, and on this covering of grease the fingerprints were found. A woman of striking appearance even today, five feet six inches tall and crowned with an abundance of auburn hair, "Billie" Wells is a well-known figure to patrons of the Massapequa Inn at Freeport, Long Island, which Pettit owned, and where she had lived since July, 1921. Mrs. Wells told police that Pettit had often beaten her in drunken rages, but she remained, nevertheless, and appeared at his parties. She said she had quarreled with him because he was "drinking up all his money," but that she was not present when he was shot.

King's Son to Wed Lady Elizabeth Bowes-Lyon

FEAR THAT FOUR FROM HERE ARE LOST AT SEA

The wife and family of Captain Thomas Anderson of the steamer Brettonia, mentioned in the Times yesterday, have given up hope of seeing him again. Captain Anderson left New York on December 10, and had not since been heard of. He assumed command of the steamer at this port on November 29, and sailed for St. Pierre, going from there to Boston or New York. Owing to the severe storms which have swept the seas since then fears have been entertained for the safety of most of the men who go down to the sea in ships. Mrs. Anderson and four children, the eldest thirteen, reside in King street, West St. John. Other local men on board the steamer were Leslie Patterson, David Pittman, manager of the Sydney Wine Company, of 21 and 22 South Wharf, and Edward McNulty of West St. John. It will be remembered that McNulty was severely burned in a motor car accident in Douglas avenue early one morning last summer.

The engagement of Prince Albert, Duke of York, second son of King George and Queen Mary, to Lady Elizabeth Bowes-Lyon, has been announced in a court circular in London yesterday. The announcement dispels of the rumor of the engagement of the Prince of Wales to Lady Elizabeth.

PRINCE ALBERT DUKE OF YORK

LADY ELIZABETH BOWES-LYON

The official announcement of the betrothal was sanctioned by King George "with the greatest of pleasure." The Duke of York is very popular and his choice of a bride of his own country is a source of gratification to the nation. He served in the navy during the war. Lady Elizabeth, who is the third and only unmarried daughter of the Earl of Strathmore, has been much in the society of royalty during the last two years. She is pretty, high spirited and clever and is an accomplished hostess. She is twenty-two years of age. The Duke of York observed his twenty-seventh birthday on December 14 last.

REAL ESTATE NEWS

The following real estate transfers have been recorded recently in St. John County: H. B. Belyea, per mortgage, to K. A. Wilson, property in Middle street. R. Magee to Grace M. Fulton, property in Fairview street. A. J. Harrison, property on Crescent Heights.

HAWAII ROCKED BY EARTHQUAKE; GALE RAGES

Honolulu, Jan. 16.—A howling fifty-five mile gale, the stiffest ever recorded in the islands, accompanied by sea earthquake shocks, swept and roared Hawaii yesterday, last night and early this morning, causing at least one death. Miyaki Maru, a Japanese maid, was killed by a falling tree. Reports of the damage still are being awaited from the other islands. Following the wind and rain of yesterday that crippled all the public services, unroofed houses and flooded others, two sharp tremors were felt at 2:30 o'clock this morning, but from these no damage has been reported thus far.

CHILD DIES AS MOTHER PRAYS FOR ANOTHER ONE WHO IS ILL

New York, Jan. 16.—Mrs. Olympia Colona prayed for an altar in her home for the recovery of a child seriously ill, one of the altar candles ignited a Christmas tree which had not been removed after the holidays and caused fire that smothered to death another child, Antoinette, one year old.

EATING UP A LOT OF THE CITY'S MONEY

For the fourth storm up to last Saturday night, before a really concentrated attack was made on the result of the last snow storm, the cost of removing the snow from the city streets amounted to \$16,172.50, so Commissioner Frink announced this morning. He was unable to say how much the present mass of snow would cost for removal, but a large crew of men, numbering between 100 and 200 have been at work since Saturday, including all day Sunday and part of Monday night. The public works crews have been called upon in several cases to tunnel and cut through snow drifts from the street to the houses where sickness prevailed or where the people were getting in coal supplies.

DEATH OF CHILD

Many friends of Mr. and Mrs. Arthur VanWart, 14 Visart street, will sympathize with them in the death of their infant son, Donald Stewart, which occurred this morning at their home at the age of eleven days.

Clayton Co. Undertakers and Embalmers. 81 Princess St. Phone M. 718. We are at your service day or night. Out of town orders receive our prompt attention.

IN MEMORIAM

EDWARDS—In loving memory of Frederick J. Edwards, who died January 16, 1920. We do not forget you, we loved you too dearly. To let your memory fade from life like a dream; The lips need not speak when the heart mourns sincerely, And the thoughts often rest where they seldom are seen. WIFE AND CHILDREN. COBHAM—In loving memory of Andrew Donald Cobham, aged four years five months, passed away suddenly on Jan. 16, 1920. Gone but not forgotten. Dear is the grave where our loved one is laid; Sweet is the memory that never will fade. FATHER, MOTHER, SISTERS AND BROTHERS. EDWARDS—In loving memory of our dear Husband and Father, Frederick Joseph Edwards, who departed this life Jan. 16, 1920. Three years have gone but still we miss him. Friends may think the wound is healed Little do they know the sorrow Lies beneath the heart concealed. WIFE AND FAMILY.

OLIVER LODGE INSTALLS OFFICERS

The installation of officers of Oliver Lodge, No. 19, I. O. O. F., for the coming year took place last night in the C. O. O. F. rooms, Germain street. The ceremonies were in charge of District Deputy Grand Master M. D. Brown, assisted by Grand Marshal W. J. Watson; Grand Warden W. H. McBride; Grand Financial Secretary W. R. Sanderson; Grand Treasurer J. Harry Robson; Grand Recording Secretary C. W. Segger; Grand Scribe Guard A. Boyer; Chaplain Charles Ledford; Organist F. W. Stanton. After the installation, refreshments were served and most speeches were given by the newly elected officers and also the retiring officers. The officers for the ensuing year are: Noble grand, Charles F. Whitecombe; vice-grand, J. R. Hazard; R. S. N. G., Charles McFarlane; L. G. A. Boyer; L. S. V. G., G. P. Drake; Warden, Percy Wilson; conductor, Fenwick; chaplain, John Murphy; treasurer, John Jackson; financial secretary, G. C. Pool; recording secretary, F. A. Corringham; G. E. Nasor; O. G., Fred Sinclair; R. S. S. W. McBride; L. S. S., James E. Dinmore; past grand, A. E. Jenner.

KNOX SUNDAY SCHOOL ANNUAL

The annual meeting of the monthly meetings of the officers and teachers of Knox Sunday School was held last evening in the ladies' parlor, and the following officers were elected for the ensuing year: F. Corringham, Superintendent; Herman T. Campbell, Assistant Supt.; Miss F. A. Calc, Recording Secretary; Davie Legate, Secretary; Robert McAfee, Treasurer; Mr. Storm, Distributor of Supplies; Hugh Campbell, Librarian; Miss Elizabeth Campbell, Miss Gretta Hayter, Assistant Librarians; Miss Florence B. Cummings, Primary Superintendent; Mrs. T. H. Reed, Cradle Roll Superintendent.

F. A. Corringham read the report which he intended giving at the annual congregational meeting. This report showed that while the school had not advanced much in point of numbers, better work was being done. The staff was composed of earnest teachers, and the point was emphasized that keeping of the school open during the holiday months was well worth while. He expressed gratification over the fact that a young member's Bible class had been organized by R. Garfield Barton under the auspices of the Sunday school, and most of the teachers voiced their hearty approval. The treasurer's report showed a small balance on the right side, and Miss Cummings showed that really good work was being done in her department, in spite of adverse conditions. A report was also read by Miss Cummings, (one of the leaders for last year's C. G. I. T. work) for Miss H. Scott, who could not be present. Mid-week meetings had been held, and a very enjoyable mothers' and daughters' banquet given in April. Altogether, the reports for the year were decidedly encouraging.

BOARD OF TRADE MATTERS

A communication has been received by the local Board of Trade from a Dakota concern inquiring as to lumber conditions in New Brunswick. A reply has been sent asking more definite advice along the lines in which information was desired. The Board of Trade has intimated to the city in a letter this morning that an effort was made to secure increased grain-handling facilities for the West Side piers.

CHURCH SOCIAL

A very enjoyable social was held last evening in the school room of the Douglas avenue Christian church by the "Tens" of the church. The night was known as Friend Night and each member was requested to bring a friend. A short musical programme included solos by Miss Hilda Williams and John McEachern, accompanied by Miss Wheaton. After games, music and choruses had been enjoyed, dainty refreshments were served by the "Tens" to their guests.

PORT OF ST. JOHN

Sailed Today. S. S. Lord Londonderry, 3680, Hedges, for Belfast and Dublin. S. S. Montezuma, 3187, Stewart, for Bermuda and the British West Indies. S. S. Canadian Carrier, 1908, Robson, for Cardiff and Swansea, via Halifax.

MARINE NOTES

The Lord Londonderry sailed this morning for Liverpool. The Montezuma, from Liverpool, will arrive here about Sunday. The Montezuma sailed this morning for the West Indies, via Bermuda.

PERSONALS

Mrs. T. Clifford of Oak Point and her daughter, Mrs. A. Demerson, of this city, left on the Montreal train on Monday evening for a visit to relatives in Montreal and Ottawa.

Friends of D. H. Ryan, assistant superintendent of the C. P. R., New Brunswick district, will be pleased to hear that his condition has shown signs of improvement within the last few days.

Mrs. Thomas A. Daley, Union street, returned home on Saturday after spending four months in New Bedford, Mass., New Haven, Conn., and New York, N. Y.

Commander E. Landy, of the C. P. R. steamer Bolingbroke, is being greeted again by his many friends in the city. He arrived in port with his vessel on Sunday afternoon.

Thomas Stephen left last evening for Ottawa on a business trip.

LOCAL NEWS

AT THE CATHEDRAL

A special high mass was celebrated in the cathedral this morning by the Rev. William M. Duke in honor of the Immaculate Conception and to ask divine blessing upon the families in the new year. Tomorrow morning there will be a special requiem high mass for the deceased members of the parish.

WARNING SHIPPING

During the high storm last week, the Northwest Lodge, Brier Island, gas buoy broke from its moorings and went adrift. It was last reported at eight near Sanford, Yarmouth County, and will be replaced at the first opportunity. In order to safeguard shipping in the meantime, wireless messages are being sent out twice daily by the Cape Sable station warning ships that the buoy is adrift.

TOO MUCH PAREGORIC

The five-month-old child of Mrs. Esther Corning, 87 British street, was taken to the hospital this morning by order of Dr. Warwick, who says the infant is suffering from malnutrition and the effects of paregoric. On the bottle from which the mother fed the child this morning, the paregoric was taken in this warning: "It is unlawful to administer this preparation to a child under two years of age."

THE TRAINS

The Boston train was running two hours late today at noon. Owing to the fact that there will be no Halifax train to leave St. John this evening, train No. 14 was held this afternoon to wait for the arrival of the Boston train. Otherwise the passengers going east would be compelled to stay over in the city until tomorrow.

INFORMATION ASKED FOR

D. W. Ledingham, local acting Italian consul, this morning received a telegram from the Italian consul-general in Ottawa asking for any word as to the whereabouts of Tarantino Angelo. The telegram says that the man is condemned to death and asks particulars as to the reasons for the sentence. As far as can be learned there is no man of that name who has been condemned to death in this part of the Dominion. No further particulars were given in the telegram received.

BURIED TODAY.

The funeral of Arthur N. Shaw was held this afternoon from his late residence, 292 Main street. Interment was in Fernhill. Service was conducted by Rev. H. B. Clarke and Rev. Dr. George Steel.

REFINERY WORKING

After being shut down for about three weeks for overhauling and repairs the plant of the oil refiners at Eschen, Jan. 16.—The Ruhr Valley coal commissioner to make deliveries to the Entente, have decided to place them under all direct military control, which assurance was immediately given.

DOUBT WISDOM OF RESISTANCE.

London, Jan. 15.—The opinion was expressed in some responsible British quarters tonight that the Berlin government is pursuing a blundering, foolhardy policy in forbidding coal deliveries to France and Belgium, inasmuch as it is considered this policy will give support to the French extremist views and probably lead to further occupation of the Rhine-land and more drastic administration of it.

MUSSOLINI'S VIEWS.

Rome, Jan. 15.—Premier Mussolini told his cabinet today that Italy had never proposed a continental campaign against Berlin but had advised France to limit military action in the Ruhr valley to the utmost, and not shut the door upon a possible agreement.

GRANDSON WAS XMAS PRESENT FOR BONAR LAW

Baby Boy Comes to His Eldest Daughter, Lady Sykes

A Story of Lord Londale and the Servant Who Trimmed Him in Three Rounds—What They're Talking About in London.

(From Our Own Correspondence) It is quite certain that no other Christmas present could have delighted Bonar Law so much as the little grandson presented by Lady Sykes. The young mother is the Premier's eldest daughter, and after the death of her mother and up to her marriage nearly three years ago, was his constant companion and attentive housekeeper. After Bonar Law's serious breakdown last year she accompanied her father to the South of France, and acted as his nurse until he pulled round, after which she played tennis with him and kept him from overdoing things physically.

She is an attractive personality, pleasant in looks and manner, with any amount of sound practical sense, and the kindest disposition imaginable, absolutely unspoiled by West Side life. Her marriage to Sir Frederick Sykes set the fashion for honeymooning by aeroplane. Sir Frederick played a notable part in the fighting overhead on the western front, though he looks the mildest-mannered man that ever dropped a bomb, and once he resigned his post as Chief of Civil Aviation he has been made M. P. for Sheffield. He has the distinction of being one of the few members of the present Parliament who had not yet made a maiden speech.

Viscountess Rhonda, whose matrimonial affairs have just been adjudged in the Divorce Court at her father's emphatically the daughter of her father. Though no longer a lady in the woman's sense, she still possesses a certain well-preserved handsomeness on ample and robust lines, and might, had she been a really fashionable lady in the sense, have made a most imposing figure in the beau monde. But Lady Rhonda is what the groundlings call a "high brow," with very definite and practical common sense, and she is certainly the most vital personality behind the women's movement in this country today. She can be exceedingly gracious and charming, but also rather dominating, and like her distinguished father, likes nothing less than having her own way, which is, it is added, always a very agreeable thing to have sense way. She is very wealthy, with all sorts of business interests, but the most capable business woman in London, well able to conduct big and little commercial enterprises without the assistance of superfluous males. Probably her greatest ambition is a seat at Westminster—in which house, would be a matter of complete indifference to her.

What this Buffalo Physician Has Done for Humanity

The picture which appears here of Dr. Pierce of Buffalo, N. Y., was taken in 1910. As a young man Dr. Pierce practiced medicine in Pennsylvania and was known far and wide for his great success in alleviating disease. He early moved to Buffalo and put up in ready-to-use form, his Golden Medical Discovery, the well-known tonic for the blood. This strength-builder is made from a formula which Dr. Pierce found most effective in diseases of the blood. It contains no alcohol and is an extract of native roots with the ingredients plainly stated on the wrapper. Good blood, vim, vigor and vitality are sure to follow if you take this Alterative Extract. Dr. Pierce's Golden Medical Discovery clears away pimples and annoying eruptions and tends to keep the complexion fresh and clear. This Discovery corrects the disordered digestion, acts as a tonic and purifies the blood. All druggists. Liquid or tablets. Send 10 cents to Dr. Pierce's Branch Laboratory in Bridgeburg, Ont., for trial package tablets.

Clears the Head Instantaneously

VapoRub Salve is a Real Boon For Catarrh Sufferers

Melt a little Vicks VapoRub in a spoon. Inhale the vapors. Then insert some in nostrils, snuffing it well back. You will be delighted to see how it clears the head. Catarrh sufferers seem to think they have to endure it forever because they live in a "catarrh climate." The disease is hard to get rid of, but Vicks brings welcome relief and in many cases persistent use has wrought permanent benefit. Vicks is a quick-acting treatment for all cold troubles—absorbed like a liniment and at the same time inhaled as a vapor. Mrs. M. Stefano, of 645 Somerset St., Ottawa, Ont., says: "When I first heard of Vicks VapoRub I decided to try it, as I had a severe cold in my chest and catarrh in the nose. I had been bothered with catarrh for over a year and every time I got in the bath I thought it would clear up. I applied Vicks to my nose and chest and rubbed it well in. The morning after I was up for three nights and on the fourth day my cold was better. I applied it on my nose for one week for the catarrh didn't come back. I highly recommend Vicks VapoRub. At all drug stores 50c a jar. For a free test size package, write Vicks Chemical Co., 344 St. Paul St., W. Montreal, P. Q.

WOMAN SO ILL COULD NOT STAND

Says Lydia E. Pinkham's Vegetable Compound Made Her Well and Strong

Glens Falls, N. Y.—"For over two weeks I was so ill I could not stand on my feet, and my husband and I had to be carried to my room. The doctor said an operation might be necessary. I read testimony about Lydia E. Pinkham's Vegetable Compound and began to take it. Before I had finished taking the first bottle I saw that good was being done. I am now well and strong, doing all my work for a family of four, all my washing and my sewing, which I think is remarkable, as I had not been able to run my sewing machine, but had done all my sewing by hand. I truly feel that there is no other remedy like Lydia E. Pinkham's Vegetable Compound. My name is Mrs. GEORGE W. BURNELL, Glens Falls, N. Y."

Free upon Request

Lydia E. Pinkham's Private Text-Book on "Ailments Peculiar to Women" will be sent you free, upon request. Write to the Lydia E. Pinkham Medicine Co., Lowell, Mass., U.S.A. Each book contains valuable information that every woman should have.

A Great Pastime

This year's Hippodrome pantomime, "Cinderella," is the best London has seen for a long time. In some respects it is the best ever staged. It is lively, funny, tuneful and really beautiful; in fact, the stage settings, which afford evidence that we are learning something at last from the Russians, are a long way ahead of anything ever seen before the pantomime line. The fine old story of Cinderella is charming to look upon, and danced by heart. Miss Daisy Burrell, Cinderella is charming to look upon, and danced by heart. Miss Daisy Burrell, Cinderella is charming to look upon, and danced by heart.

A Gallant Commander

One memorable fact about Lieut. General Harper D. S. O., who met death so tragically in a motor smash last week, seems to have been overlooked. He was the General Officer commanding the Fourth Division on the Western front and the Southern District at home since the peace, but his tomb bears brighter laurels than any other. General Harper commanded for nearly three glorious years one of the most famous fighting Divisions in France—the gallant "Fourth Division." During the war from Neuport to Rosell, and its battle honors were won wherever the fighting was most critical. Rugged Goals. It is rising rugged generation going to redeem our modern degeneracy in the matter of rugged place-kicking? Old players, who follow the game today, are constantly impressed by the shocking bad place-kicking which throws many victories away. In some recent school matches, including the remarkable defeat of Denstone by Blundells in London, some good place-

kicking was shown. Blundells converted every one of their nine tries, some of the goal-kicks being taken from the touch line. An old Cambridge, Leicester, and other forward recalled to me, discussing this matter, the incredible facts of the famous Bancroft senior, the father of the famous Bancroft junior, who evaded the greatest names in rugby annals. He used to amuse his admiring competitors sometimes by giving an exhibition of his kicking in a half-time. Bancroft would kick a clean goal, first with the right and then with the left foot, from the middle of the centre line. And then place another beauty, clean between the posts and sailing high over the bar, from the junction of half-way and touch lines.

Lady Rachel Cavendish. Fortunately the latest mishap in the hunting field to Lady Rachel Cavendish is not the only one. Lady Rachel is one of the most attractive figures in society. Her sister, Lady Rachel is one of the most attractive figures in society. Her sister, Lady Rachel is one of the most attractive figures in society. Her sister, Lady Rachel is one of the most attractive figures in society.

Lady Elizabeth Butler, the famous artist, whose "Scotland for Ever" and other pictures are so familiar, is the elder sister of the late Mrs. Alice Meynell, poet and essayist. Her father, the late T. J. Thompson, a Cambridge graduate, who died in his early life to the education of his two daughters, with whom he spent many years in Italy, Born in Lausanne, Lady Butler was educated at the Convent of the Sacred Heart, and then at the Convent of the Sacred Heart, and then at the Convent of the Sacred Heart.

Horror every day has trebled. Today the figures of these have been added, not of course, to the collection in the famous chamber, but on a special date in the large hall upstairs. The exhibition is by Charles Chaplin, Lloyd George, Bernard Shaw, Jimmy Wilde, and the orchestra. I was anxious to have the exhibition, but the exhibition is by Charles Chaplin, Lloyd George, Bernard Shaw, Jimmy Wilde, and the orchestra.

The thing to collect today is not the old master, or the precious piece of china, or the rare and beautiful animal, but the first edition. The thing to collect today is not the old master, or the precious piece of china, or the rare and beautiful animal, but the first edition.

Your Rheumatism—its origin

You would not have rheumatism if your kidneys performed their proper function expelling uric acid from your system. Uric acid causes rheumatism, lumbago, sciatica, and other ailments. What you need is GIN PILLS. They act directly on the kidneys, the source of all the trouble. They neutralize the uric acid, relieve the congestion and cause the kidneys to perform their work. Thousands have found quick and permanent relief from rheumatism by using GIN PILLS.

Loosen Up That Cold With Musterole

Have Musterole handy when a cold starts. It has all the advantages of grandmother's mustard plaster WITHOUT the blister. You just apply it with the fingers. First you feel a warm tingle as the healing ointment penetrates the pores, then comes a soothing, cooling sensation and quick relief. Made of pure oil of mustard and other simple ingredients. Musterole is recommended by many nurses and doctors. Try Musterole for bronchitis, sore throat, stiff neck, pleurisy, rheumatism, lumbago, sciatica, neuralgia, congestion, pains and aches of the back or joints, sore muscles, sprains, bruises, chilblains, frosted feet, colds on the chest. It may prevent pneumonia and "flu." 40c and 75c, at all druggists. The Musterole Co. of Canada, Ltd., Montreal.

WHERE COLDS STRIKE

The throat, breathing passages and lungs are the weak spots at which colds strike. And these are the very organs most difficult to treat, because they are so inaccessible. A powerful, penetrating, and their superiority over remedies which are swallowed into the stomach is therefore obvious. For convenience this powerful remedy is available in the form of a tablet form. To reach the remotest parts of the breathing passages and lungs, heating, soothing and strengthening every part with a powerful germicide, and their superiority over remedies which are swallowed into the stomach is therefore obvious.

INSULIN IS SUCCESSFUL IN MONTREAL. Marvelous Results Achieved in Diabetes Cases. Saved Several Patients—Victims in Coma Stage, Have Been Given New Chance for Life, Dr. I. M. Rabinowitch Says.

Montreal, Jan. 16.—For nearly three months the Montreal General Hospital has been using the insulin treatment for diabetes, developed by Dr. Banting and his associates at Toronto University and the Toronto General Hospital. As a result of the insulin treatment on more than twenty-five patients at the Montreal General Hospital, it was said by Dr. I. M. Rabinowitch, the Montreal chemist, who has had care of the insulin work, that results which he characterized as wonderful and striking had been obtained.

Dr. Rabinowitch said that since the insulin treatment had been used, it had undoubtedly saved the lives of several patients brought in in an acute form of diabetes, and given them an opportunity to renew their fight against the disease with a much better ultimate chance. "But it must be borne in mind," emphasized Dr. Rabinowitch, "the insulin treatment is not administered as a cure. It is only an emergency relief. The only cure for diabetes still stands as the diet alone, which must be followed before permanent relief or recovery can be hoped for. But with the insulin treatment and the diet, the patient, by day, has a far better chance of living than before this discovery. We have had several acute cases at the hospital which have been brought in, suffering from diabetic coma. Before the insulin treatment that was simply the precursor of death. There were no deaths treated with it." Dr. Rabinowitch said that in each case with the insulin injections, he was able to bring the patient back to consciousness, and the patient, in normal condition, and put him once more in position to fight the disease by the diet cure. That is a very real success.

Striking Instance. As an instance Dr. Rabinowitch cited the case of a twelve-year-old girl who was brought to the Montreal General Hospital at one o'clock on the morning of December 2, in a state of diabetic coma. She was given a shot of insulin, her blood tested from time to time, and after three hours she was given another injection. The result was that by seven o'clock that morning, instead of being dead, she had regained consciousness. The insulin treatment was continued, the injections being gradually reduced from three to two, then to one daily, and eventually discontinued. Finally, on December 22, the girl was discharged, and she was apparently much better, and since then she had been in ordinary health, being kept on a strict diet.

The main difficulty, so far, said Dr. Rabinowitch, was that no way of administering the insulin was yet known, except by injecting it into the tissues immediately under the skin—not into the blood itself, although it eventually reaches the blood. What they were hoping for was a method of administering it internally, like any other remedy, but at present if administered internally by the digestive juices, and was inoperative. The result was that it could only be administered at present in hospitals by the use of hypodermic syringes, and experts to give the subcutaneous injections. Should science devise a method whereby the insulin could be administered internally, patients recovering could be sent home, with instructions how to take it, as with any other medicine.

Dr. Rabinowitch, "but at present we are leaving such experimental work to Dr. Banting and his associates at Toronto University. They originated the treatment and are entitled to the full credit for their marvelous achievement. We here are deeply grateful to them for their generosity to the world, and for supplying the hospital free of charge with an ample weekly supply of the insulin, which has already so marvelously proved its value."

FREED CONVICT LEAPS TO IT

Nelson, Out After 21 Years, Fears None of the Gloom of Fiction. When Oscar W. Nelson walked briskly through the outside door and into the open air at the state prison yesterday afternoon, a free man after spending a third of his lifetime in the institution, he shattered all the precedents established in fiction by the famous prisoners of history, by laughing aloud as he jauntily lighted a cigar and fairly skipped into the limousine that was to be the first step in a 4,000-mile journey to rejoin his family in Stockholm, Sweden.

All of the gloom, the set, half-dazed expression and the stumbling walk that, in stories, have been attributed to every ex-convict since Monte Cristo were conspicuously absent. Eager to Go. Parole Officer William Robinson, who accompanied him on his trip to New York by the Fall River line last night, and who will see him safely aboard the Swedish-American liner Drottningholm before she sails tomorrow morning, had to hurry to keep abreast of the eager little man as he ran down the steps leading to the ward.

Nelson was released at 4 o'clock and between that time and 6 o'clock when he boarded the boat train at the South Station, he visited the office of the commissioner of charities and correction at the State House, saw the sights along Beacon street and Commonwealth street, and together with Officer Robinson and two friends from Worcester, took supper at the home of Robert M. Washburn at 236 Bay State road. Mr. Washburn has been particularly interested in Nelson's case and has been one of the prime movers in obtaining his release.

Nelson was pardoned by Gov. Cox on Christmas Day after he had served 21 years and nine months of a 30-year's sentence for stabbing to death Gustaf E. Erickson, a Worcester on the night of Nov. 19, 1900. According to the terms of the parole it was understood that Nelson must return to Sweden and remain there for the remainder of his term of imprisonment for life. Carl W. Johansson, the local Swedish consul, immediately communicated with his home government and a little later in the afternoon Nelson was permitted to be permitted to return to Stockholm, but that his fare would be paid as well. The fact that all the evidence against Nelson was circumstantial and that many influential Swedes, feeling that he was unjustly condemned, had tried from time to time to effect his release, and Nelson had had much to do with this decision.

Ever since the first day that Nelson, or Nelson as his name really is, was taken to Charlestown he has been a model prisoner. Not once has he been in trouble for any infraction of the rules and he has always persistently declared his innocence of the crime for which he was convicted. His family consisted of two brothers who know nothing of his life during the last quarter century and who believe he is dead. He has insisted that they should not be informed of his return and is planning to surprise them by walking in unannounced. When Erickson was stabbed to death with his own knife as he lay in bed beside his wife, Mrs. Erickson was at first arrested, but was later released when she described a man that she claimed was the assailant of her husband. Nelson has inquired for Erickson earlier in the evening, and was convicted largely because the account he gave of actions on the night in question was partially disproved. However, he claimed that he slept in a barn and never entered the Erickson home, and since then has always insisted that he had no part in the killing. The sleigh drive planned by the Trinity Club for last night was postponed on account of the snowfall until next week but the entertainment which was to have occurred at the same time as the drive was held last night. Rev. A. E. Gabriel presided. Winners in the guessing contest were Miss Francis Gilbert, Miss Mildred Wetmore, Miss Ines Bidwell and Fred Stroh. Those assisting with the programme and the refreshments were Mrs. Russell Sturdee, Miss Pauline Biederman, Miss Ray Cavley, Miss Simpson, Miss Grace Robertson, Miss Nellie Upham, Miss Maud Magee, Miss Ida Northrup, Miss C. Seeds, Miss Bessie Henderson, Mr. Gregory, Mr. Lester Mowry, the president, was in the chair and the meeting was largely attended. The treasurer's report showed a satisfactory balance, and the names were made for sending a complete outfit for a girl in the Chaplain Indian Mission school. In the devotional period there was a Bible reading by Mrs. H. G. Harrison and an interesting paper, which Mrs. E. P. Wright had prepared telling of the work of the W. A. A. in Canada, was read by Mrs. H. Usher Miller in the absence of Mrs. Wright. At the close of the meeting refreshments were served. If a diver rises to the surface too quickly when he has been at a depth of several hundred feet his blood will froth like soda water.

MORNING NEWS OVER THE WIRES

John Shank's furnished an alibi and was dismissed by Judge Slipp at the York county court last evening on a charge involving a young girl. J. R. Brown was elected mayor and Harry Dunbar, C. M. Aughterson and Alfred Page councillors at the Woodstock town election held yesterday. The vote was the largest in many years. M. J. Rutledge, the new town manager, will assume office in March, having a sympathetic council. Ollie Child, the veteran American League umpire, was exonerated from all connection with the murder of Edward J. McGeehan, 26, who was shot to death during a drunken brawl, in an alleged confession made by Geo. C. Reed late yesterday in New York. Exports from the Miramichi to the United States were valued at \$3,256,803 for the year 1922, according to figures compiled by R. A. N. Jarvis, the American consul agent at Newmarket. The increase over 1921 is more than a million dollars.

Relieves Dyspepsia

M. D. advises: "Persons who suffer from severe indigestion and constipation should take after each meal and at bedtime, fifteen to thirty drops of the Extract of Roots known to the Drug Trade as 'Mother Steig's Genuine Syrup.' Get the Genuine. 50c and \$1.00 bottles."

Quickly Relieves Constipation

Don't let constipation poison your blood and curtail your energy. If your liver and bowels don't work properly, only take CARTER'S LITTLE LIVER PILLS and your trouble will disappear. Lack of appetite, headache and bloated belly are signs. Purely vegetable. Small Pill—Small Dose—Small Price.

CONVERSE ACROSS THE ATLANTIC

New Epoch in Wireless Telephone—New York Voices Heard in England. Last night science triumphed over 8,000 miles of space and wintry seas and New York voices were distinctly heard and recognized in Great Britain. Messages were sent out by the American Telephone and Telegraph Com-

WOULD WAKE UP SCREAMING

"The Least Sudden Noise or Loud Talking Would Startle Him." "Up to the age of eight, my boy was a strong healthy lad, full of life and energy. While playing leap frog one day with some boys of his own age, and while in a stooped position, a big boy jumped on his back and in falling my boy caught his foot in an iron grate and dislocated his hip. The pain was so great that he fainted and the other boys were so frightened they ran away. For hours he suffered terrible pain and when found and brought home was very weak, with his thigh and leg swollen twice its size. The doctor set the bone but the pain and exposure were too much for the poor boy and he became unconscious. A high fever set in and for weeks he lay between life and death raving for hours at a stretch. One day he opened his eyes and murmured 'Mother,' but this was the only word he could utter. He was so weak, but I knew the worst was over. He got stronger but for months was in a nervous condition. The least sudden noise or loud talking would startle him and he would begin trembling. He was quite lame and the swelling still remained. The doctor gave him a tonic and told me to rub the leg with olive oil. This reduced the swelling and took away the lameness, but the nervousness remained. The poor child would waken in the night screaming at the top of his voice. The doctor gave him several different tonics but they were no use. I found a circular about Carnol and it seemed so different from other tonics I had heard of, that I thought I would get a bottle. Three bottles were all that was needed to make my boy like his own self again. It is hard to convince my friends that the change in him now is entirely due to Carnol. Of course I still have to watch him and give him Carnol occasionally but I know that he will soon be as strong again as ever he was."

CANADA LIFE GROUP RECORDS

1922 Business Unparalleled in Company's History

Canada's First Life Assurance Company Celebrates Diamond Jubilee

Canada Past and Present Contrasted in Word Picture By Canada Life President

Mr. H. C. Cox Outlines Remarkable Record of Progress At Annual Meeting Capacity Audience Hears Most Unusual Address

MANY FIRMS SECURE GROUP INSURANCE FOR THEIR EMPLOYEES IN 1922

Group Business in Canada Life Now Exceeds \$10,000,000. A further indication of the permanent value of Group Insurance is shown by the results of the Canada Life Assurance Company for 1922. New business during the year in the Group Insurance section amounted to more than \$16,000,000 and was contributed by forty different groups.

CANADA LIFE policyholders are scattered far and wide, and it is with the desire of reaching them in the quickest and most readable form that this report is being published in the newspapers by the Company. A booklet containing even more complete particulars will be mailed upon request.

RESULTS IN 75TH YEAR INDICATE PRESENT POSITION OF CANADA LIFE. Proofs of Success Taken From Audited Facts and Figures. More than \$77,400,000 new business has passed through the Home Office of the Canada Life in the past twelve months.

Substantial gains are recorded in every department of the business for 1922. Not one single item of business can be found where an increase was not made. The total business in force in the Canada Life now amounts to \$360,981,195.49.

The total assets of the Company are now \$86,654,497.77, making an increase over 1921 figures of more than \$6,654,000. In 1922 the "mortality" was unusually favorable. The saving from this, when added to earnings from other sources, makes a total surplus of \$8,068,171. The net surplus earned was \$2,694,000, which is the largest amount earned in any year of the Company's history, extending over 75 years.

The Company has opened several new branches in the Southern States, including Alabama and Florida in the east, and California in the west. This last named completes a line of agencies on the Pacific Coast from the Mexican border to Prince Rupert.

BUSINESS MEN BIG PURCHASERS OF LIFE ASSURANCE

Secure It to Protect Capital and Credit

HAS STRONG ENDORSEMENT OF BANKS

The enormous increase in Life Assurance being written today is partly due to its recognition by Business Men as a safeguard for their business interests. They are finding that banks are looking to this source as collateral for loans, and that in their financial reports Dun's and Bradstreet's are including life insurance with the assets, which tends to create confidence in a well-managed company.

A Cash Fund for Emergencies

Many a business firm has been pulled through a crisis and tied over until business emergency through the value in a Business Insurance policy. Many firms have found it a good plan to establish an emergency fund by regular deposits put into some special account, and have then turned to Life Insurance. It surpasses all other resources, because the cash value of the policy becomes instant cash upon the "great emergency" where a larger number of business men sooner or later.

The "Shock Absorber" for Business

The fact that the death usually comes at the most inopportune moment makes clear the necessity of a "shock absorber," so that the business will not stagger under the severe blow. Frequently firms have been forced to liquidate—often at a tremendous loss, because of the death of the one who has made the business insurance. A short time ago a case came to our notice where a husband's interest in a business which was quite successful under his management, but which was left to his wife, was lost after a short time after his death.

OF PARTICULAR INTEREST TO ALL POLICYHOLDERS

\$7,767,673 Paid on Maturing Policies, Death Claims, Etc., in 1922

The contingency fund of \$500,000 which was established several years ago in the Canada Life in order to meet any emergency which might arise has remained untouched, but is a continual safeguard to policyholders.

The excellent rate of interest earned on investments was increased last year—which is particularly gratifying and in line with Canada Life policy of "Conservative Progress."

"The Company always seeks to obtain perfect and ample security when investing its funds, and will not be tempted by high rates of interest upon doubtful investments." This has been the policy of the Company for more than 60 years.

The services of specially trained representatives are always at the disposal of policyholders, for purposes such as change of beneficiary and adjustments of insurance, as well as for taking new policies.

It is always wise to remember the purpose for which life insurance has been secured, and to bear in mind the wisdom of keeping policies intact. Nothing should be allowed to interfere with this protection, which has been secured for dependents and personal protection.

It is also wise to remember that payment of premiums is an investment—not an expense. It gives you an opportunity to make sure of your own future, and to make sure of independence for your loved ones when it is no longer possible for you to do so.

Canada Life Impregnable. The recent years of war and influenza have served to show the financial strength of the Canada Life. No halt was made in its rapid expansion, not a single dollar was cut from its regular scale of dividends to policyholders, and the Company in accord with its traditional policy, went on investing safely, paying claims promptly, practicing economy, and maintaining the principle of equal justice for all.

Mr. Cox spoke as follows: The explanation of our meeting in this place, rather than in our own Directors' Room, lies in the fact that, in the large number present. As three-quarters of a century have passed since the founding of our Company, it was thought the occasion might properly be marked in a special manner, and to this end many of our field representatives were invited to join the usual gathering of policyholders and shareholders.

In 1847, in considering the present position of an institution like ours one is apt to lose sight of the romance and magnification surrounding its birth. While Upper and Lower Canada still were in a state of anarchy, the first ocean steamship entered the harbor of Quebec, and more years before the first railway connection between Toronto and Montreal, while messengers and mail still travelled by coach, when the entire population of Upper Canada was less than that of the city which we now meet, when perhaps only one person in this room was old enough to remember the day when a banker of Hamilton, having learned of the advantages of life assurance, which was then only in infancy on this Continent, although firmly established in Great Britain, conceived the ambition to procure those advantages for himself and his family.

While all these factors make for increase in the selling of life assurance, we must always bear in mind that true progress is measured not so much by the increase in the amount that remains sold. In other words, it is the continuing policy which is of value to the insured and the insurer. With the rapid and frequent fluctuations in the market for labor, for commodities and for securities there is a constant need for the insurance in the effort to make reduced incomes meet increased demands, to keep life insurance at least a bare subsistence, and unless one has a thorough understanding and appreciation of the relation it bears to his entire economy, the line of insurance which he chooses is a point in his direction. To anticipate this situation which arises at some time or other, is the duty of the every assured requires no imagination, but to provide against it, with the aid of the insurance company, is the duty of the individual.

Life Insurance Then and Now. The story of the institution's uninterrupted progress is most interesting. In the early days the Company did not escape the epidemic and opposition usually aimed at a new departure, but its founders fought on, and one of the first to be mentioned in the scattered press was a travelling lecturer, whose duty it was to set out clearly and concisely the theory of life insurance and the benefits it afforded.

The Company always seeks to obtain perfect and ample security when investing its funds, and will not be tempted by high rates of interest upon doubtful investments." This has been the policy of the Company for more than 60 years.

The services of specially trained representatives are always at the disposal of policyholders, for purposes such as change of beneficiary and adjustments of insurance, as well as for taking new policies.

It is always wise to remember the purpose for which life insurance has been secured, and to bear in mind the wisdom of keeping policies intact. Nothing should be allowed to interfere with this protection, which has been secured for dependents and personal protection.

It is also wise to remember that payment of premiums is an investment—not an expense. It gives you an opportunity to make sure of your own future, and to make sure of independence for your loved ones when it is no longer possible for you to do so.

Canada Life Impregnable. The recent years of war and influenza have served to show the financial strength of the Canada Life. No halt was made in its rapid expansion, not a single dollar was cut from its regular scale of dividends to policyholders, and the Company in accord with its traditional policy, went on investing safely, paying claims promptly, practicing economy, and maintaining the principle of equal justice for all.

penditure, will comment itself to all who have at heart the advancement of their country. Encouragement should be and is being given first to those of British origin, and while that, for various reasons, should extend at the moment more particularly to those who qualified and willing to go on the land, the gradual implementation to be seen in general trade conditions, with a pleasing and promising decrease in unemployment, the admission of a reasonable number of otherwise skilled workmen.

1922 a Remarkable Year. In commemoration of the Company's seventy-fifth year of operation, our objective for 1922 was set at seventy-five million dollars of new business, and I am happy to say that this has not only been attained, but has been exceeded by nearly three millions. It was felt that we asked much of our associates in the field when this figure was named, but they undertook the task with the spirit of 1847, and never once slackened their effort until it had been accomplished in fullest measure.

MR. HERBERT C. COX, President Canada Life Assurance Company.

great grain-growing and stock-raising country are large borrowers, sustained by their courage in the past and by their conviction for the future. Many find themselves for the moment overburdened, but the loaning companies, for the most part, are creating them with that courtesy and consideration which the unusual situation demands, and which they are bound to extend to the borrower.

Conserving Business. While all these factors make for increase in the selling of life assurance, we must always bear in mind that true progress is measured not so much by the increase in the amount that remains sold. In other words, it is the continuing policy which is of value to the insured and the insurer.

The removal by Great Britain of the cattle embargo, which has for so long been a thorn in the flesh of our cattle raisers, will eventually result in a revival in this industry, although its effect may not be very obvious for some time. Meanwhile, the sentimental value of the step is important. When the full force of the change asserts itself, however, we may look for greatly enlarged herds, and our ample supply of fattening grains, combined with our climate, will give us an advantage over other cattle-raising countries.

Immigration Necessary. Those of you, and there are many, who have travelled through those "Whispering Streets" which the Great Lakes cannot but have been impressed by, are people who are struggling with the great problem of the prairie. The enterprising private corporations is helping Government, the Salvation Army, and our ample supply of fattening grains, combined with our climate, will give us an advantage over other cattle-raising countries.

Conditions in West Unusual. The general conditions under which life insurance companies have functioned during the past year have shown wide variations. In the West, where our operations have been handicapped by the loss of crops in some districts, and by the somewhat disappointing returns realized by the individual in others, the average price of wheat and the total value of all field crops are both higher than a year ago.

The natural buoyancy and optimism of the prairie farmer will carry him through much, but it does seem that for the last five or six months his hopefulness has not extended to life insurance. This depression can be only temporary, as it is scarcely possible that there can continue for long a cost of production so high in relation to the available price at market. As a matter of course and of necessity those who are building up their

margin of security is ample. We have continued to invest in Great Britain the funds arising from our business there, but if the recent improvement in the exchange situation permits we shall, before long, be able to transfer them to Canada, where they will be more profitable.

Our experience in Great Britain has been most happy and is full of promise. Despite the widespread depression and varying disturbances of the year, with a general election as climax, our associates there have just completed a new high record for our twenty years of effort in that country. While congratulating ourselves upon this success, we may not also feel that it does much to strengthen the bonds of empire and to further that mutual confidence and respect which are such a conspicuous and important link in our imperial relationship.

Investments Carefully Selected. In 1922 Mr. A. G. Ramsay came from England to Canada, and his assessment of our Company. One of his earliest declarations of policy was that "the Canada Life is the policy of the future." He has always been able to obtain perfect and ample security upon "doubtful investments." For forty years we have been adhering to the motto of his successors, "to invest in the best, and to hold it until it is worth selling."

Extending Operations. Our forces in territory already occupied have been strengthened and enlarged, while it has been thought desirable to extend our operations to the United States to include Alabama, North and South Carolina, Georgia and Florida in the east, and California in the west. The last named will complete a line of agencies on the Pacific Coast from the Mexican border to Prince Rupert, of which some are already successfully active, and all will, before long, be valuable producers.

During 1922—The Canada Life Assurance Company

Made the following substantial progress:

Table with 3 columns: Item, 1922, 1921. Total Income for 1922: 17,990,000 (vs 2,451,000). Dividends to Policyholders in 1922: 1,817,000 (vs 304,000). Total Payments to Policyholders in 1922: 7,767,000 (vs 1,182,000).

Above, in brief, are the results for 1922, as shown by the Financial Statement.

Below are some of the noteworthy achievements of the year:

- 1. Dividends on most classes of policies have been increased.
2. Made the largest surplus earnings in the history of the Company, extending over seventy-five years.
3. Further increased the average interest earnings to 6.26%.
4. Continued to improve service to public by special educational training of field force, more representatives having benefit of this instruction than in previous years.
5. Placed more insurance with present Policyholders than in any other year, and increased public interest in Monthly Income, Business, Estates and Group Insurance.

(A Complete Annual Statement Will Be Mailed Upon Request.)

WHAT'S DOING IN THE MONEY AND STOCK MARKETS TODAY

GLASGOW PLANS CATTLE WHARVES

Is Getting Ready for a Revival of Trade With Canada.

London, Jan. 16.—The corporation of Glasgow is making preparations on a big scale for the reopening of the Canadian cattle trade following the recent lifting of the embargo against Canadian cattle.

QUEBEC ACTION FOR BANKRUPTCY ACT CHANGES

Montreal, Jan. 16.—As a result of a questionnaire recently issued to all manufacturers of the Province of Quebec asking whether they favor the present Dominion bankruptcy act and what suggestions they have for its amendment, the Canadian Manufacturers' Association has called a meeting of the various commercial organizations of this city for next Thursday.

SUGAR FROM NIPPA PALM

Experts Find Tropical Plant Also a Source of Alcohol. London, Jan. 16.—The Nippa palm, which grows over extensive areas in British North Borneo, can be used as a source of sugar and alcohol, according to a report submitted by experts after an extensive investigation.

The palm grows commonly in the estuaries of rivers throughout the Eastern tropics and is exploited particularly in the Philippine Islands. The sugary juice is obtained by approaching the flowering shoot, and by repeatedly cutting the end of the stalk the flow can be maintained for two or three months, each stalk yielding from nine to ten gallons. Sugar can be extracted to the extent of about fifteen per cent. The juice can then be fermented for the production of alcohol.

It is a peculiar destiny

in matters of investment, that whatever some men do, apparently, seems to prosper them, while others as consistently fail. YET, if one examines causes, the explanation is not far to seek. The former will keep himself well posted on money markets and business and political tendencies, all of which affect investments, while the latter will perhaps, trust to instinct or so the well-meaning but uninformed advice.

OF course, the only sane thing to do is to keep informed and, if you must have advice, seek it from those whose experience entitles them to give it. WE are in this position; and when asked, are always willing to advise concerning investments. Moreover, at regular intervals, we publish, and mail free to those who wish it, Investment Items, which will, more than anything else, keep you posted upon all conditions as affecting investments.

SEND us your name and address, and we will send you the latest issue of Investment Items. Use this coupon.

NEWS NOTES OF STOCK INTEREST

(McDougal & Cowan, Private Wire) New York, Jan. 16.—Producers and Refiners stockholders approve increase in capital to \$50,000,000. All grades Wyoming and Montana crude have been advanced ten cents a barrel by Mid-West Ref'g Co, effective January 15th. Agreement near between Union Pacific and South Pacific involving ceding of Central Pacific between Ogden and San Francisco, according to report in Omaha. National City Co. and Guaranty Trust to offer \$100,000,000 Ancon six per cent mortgage bonds due Feb. 1, 1925 at 96 1/2 to yield 6.25 per cent, to acquire Chile Copper Co, offering of \$50,000,000 debentures to be made later. Current earnings of Gulf States Steel at annual rate of between \$11 and \$12 a share on the common stock.

REACTIONARY AS THE STOCK MARKET OPENED

Prices Soon Stiffen — Exchange Easier and the German Mark Sinks to a New Level.

New York, Jan. 16.—(opening)—A large volume of overnight selling orders imparted a reactionary trend to prices at the opening of today's market. Ancon and Chile each sold off on publication of terms of the proposed merger, the former dropping a point and the latter a half. A downward tendency also was noted in the independent steels, low priced rails and some of the specialties. Prices stiffened somewhat after the initial selling orders had been absorbed, and fresh buying power made its appearance in a number of special shares. Kresage was pushed up 2 1/2 points and gains of one to 1 1/2 were recorded by Famous Players, Ed. Hartman Corporation, Steel and Tube Pfd, Houston Oil and Endicott Johnson. Gulf States, Republic and Crucible Steels also moved to higher ground but Bethlehem 'B' continued reactionary. Chicago and East Illinois dropped a point and fractional recessions were noted in St. Louis Southwestern Pfd, Chicago and Northwestern and New Haven, but New York Central advanced a half. Baldwin and Coston yielded slightly. Foreign exchanges were easier, demand sterling opening at \$4.668, and then dropping back to \$4.66, an overnight loss of a quarter of one cent. France decreased one point to 67 1/2. German marks established another new low record being quoted at 61.100ths of one cent a hundred or more than 16,000 to the American dollar.

NOON REPORT

New York, Jan. 16.—(noon)—The market presented a spotty appearance throughout the morning with the major activity on the downward side. Special buying in Kresage which extended its gain to 8 1/2 points and in Gulf States, and International Paper and the American Waterworks issue up 1 1/2 to 3 points, temporarily halted the reaction. The general buying power, however, was not sufficient when pressure applied to the copper shares, Bethlehem 'B' and Republic Steels and Baldwin, all of one to two points and Tidewater Oil but part of the market began sagging. Fear of more serious complications in the Ruhr Valley and the concurrent weakness of foreign exchange in France, which caused some selling on the part of small investors and a contraction in pool operations in many stocks. California Petroleum advanced 1 1/2 points but the other active issues showed little recuperative powers at midday. Call money opened at 4 per cent, but eased to 3 1/2 at 4 o'clock.

OPINIONS ON THE MARKET

(McDougal & Cowan's Private Wire) New York, Jan. 16.—Hornblower and Weeks—"We are in a bull market where reactions will only be permitted when insiders see fit to permit them." Houseman & Co.—"Anticipate resumption of firmness and expect to see signs of broadening outside interest in the market." Clark Child—"We hear bullish predictions of crude market and of by-products with prospect of better prices." Block Maloney—"We look for some sinking spells but they should be used to buy the best stocks." Bache & Co.—"Would keep close watch on Rock Island common, and accumulate it. Special liquidation by pool interests brought about excessive decline." Hutton—"This looks like the real move in Southern Railway."

MORNING STOCK LETTER

(McDougal & Cowan, Private Wire) New York, Jan. 16.—Another factor which will enter into the market today is the Anaconda and Chile financing, with this huge flotation coming today. It would be helpful to have a strong market. There was some good buying of the coppers yesterday in the face of weakness in the list in general. The most encouraging feature of the market yesterday, however, was the firmness in the rails. If we go into a strong upward market, as we think we eventually will, the high class rails should do better. Among the low class rails, Pere Marquette and Southern Railway seem to offer the most attractive possibilities. The rubber stocks look like purchases on this dip.

EXCITEMENT ON THE BOURSE IN BERLIN

Berlin, Jan. 16.—The Bourse on Monday witnessed another day of sensational advances in the prices of well-known stocks. The dollar rate at four o'clock in the afternoon touched 12.400 marks.

FINANCIAL NOTES

Montreal, Jan. 16.—Cables 4.70. London, Jan. 16.—Bar silver 32 1/2 an ounce. New York, Jan. 16.—Foreign bar silver 66 3/4.

DR. COOK'S OIL PROJECT

Explorer Promoting Worthless Scheme Says H. S. Houston of Better Business Bureau.

Washington, Jan. 16.—How millions of dollars are lost to the public annually through fraudulent stock flotations and what is being done to remedy the evil through a movement in "practical applied idealism," was the subject of an address delivered here last week by Herbert S. Houston of New York before the National Advertising Commission of the Associated Advertising Clubs of the World. Mr. Houston, publisher of "Our World," is a member of the Advisory Council of the Better Business Bureau of New York City, and of the National Vigilance Committee. These organizations, together with twenty-seven other Better Business Bureaus throughout the country are co-operating in applying the "practical idealism." The publisher stated that the business men of the country are spending \$500,000 a year to buy down stock promotion swindlers and finance an informative campaign which bears the slogan "Before You Invest, Investigate."

Mr. Houston told of an investigation just completed in the Texas oil fields by the National Vigilance Committee, and said that a bulletin would shortly be published, which would seriously inconvenience an exploiter of the North Pole, but we have certainly discovered him, and it would appear that he is in a fair way toward securing as much publicity for his present exploits as for some of his earlier forays into the realm of fancy and imagination," he published said. This scheme, Mr. Houston asserted, led to the rediscovery of our old friend Dr. Cook. "He did not discover the North Pole, but he certainly discovered him, and it would appear that he is in a fair way toward securing as much publicity for his present exploits as for some of his earlier forays into the realm of fancy and imagination," he published said.

GOOD REPORT ON OUTLOOK IN NEWFOUNDLAND

St. John's, Nfld., Jan. 16.—The Newfoundland trade review says Newfoundland has a promising material improvement in trade conditions during 1922, according to Sir Richard Squires, Prime Minister. The outstanding features of the 1922 programme are extensive hydro electric development along the Humber River and paper mill operations. Deflation and reconstruction have been an exceedingly difficult and painful process but the thoroughness with which they have been done means firmer and more rapid progress now that the tide has turned, the report says.

COTTONS STILL ADVANCING

The end of advances in cotton goods prices has not yet been sighted, says a New York exchange. New prices have been named on bleached cotton goods, which are about 6 1/2 per cent higher than those prevailing up to the present. Still further advances in denims have been named by one large producer. The recent price advances have been applied mainly to staple goods. Converters are finding it difficult to put higher prices into effect because of the keen competition for business. Many of them are beginning to fear that a reaction is not far off. In some converting houses there has been a noticeable lifting down of orders since the first of the year, particularly from retailers, who fear that the higher prices will seriously curtail consumption.

TRADE WITH FRANCE UNDER NEW TREATY

Canadian Exhibition to be Sent There—All Provinces Interested—\$50,000 Available.

The appointment of an executive committee with a view of organizing an exhibiting party to the proposed Canadian exhibition in France is provided for in an order-in-council made public last week. Hon. Senator C. P. Beauchamp is chairman of the committee, and Fernand Rinfret, member for St. James, Montreal in the Federal House, vice-chairman. The members are E. C. O'Hara, Deputy Minister of Trade and Commerce; A. W. Tolmie, Exhibition Commissioner, Department of Immigration and Colonization; J. E. Walsh, general manager of the Canadian Manufacturers' Association, and a representative of each of the Canadian, Pacific and Canadian National Railways. The executive committee has not yet had a meeting, so plans for the proposed exhibition are yet to be made. A grant of \$50,000 for the exhibition was made at the last session of Parliament. A committee of patrons has also been named in connection with the exhibition. His Excellency the Governor-General is honorary president, and Rt. Hon. W. L. Mackenzie King, Prime Minister, honorary vice-president. The members of the committee are the Lieutenant-Governors of the different provinces; Sir Lomer Gouin, Minister of Justice; Hon. J. A. Robb, Minister of Trade and Commerce; Hon. Ernest Lapointe, Minister of Marine; Hon. Charles Stewart, Minister of Immigration; Hon. W. C. Kennedy, Minister of Railways; Hon. R. Dandurand, Minister without portfolio; Hon. Hewitt Bostock, Speaker of the Senate; Hon. Rodolphe Lemieux, Speaker of the House of Commons; E. W. Beatty, president of the C. P. R.; Sir Henry Thornton, president of the Canadian National Railway; the presidents of the Boards of Trade, Chambers of Commerce, etc., of the leading Canadian cities, the president of the Canadian Press Association; Miss Carmichael, president of the Canadian National Council of Women.

COPPER COMPANY MERGER PLANNED

New York, Jan. 15.—The Anaconda Copper Mining Company is negotiating for control of the Chile Copper Company in a deal involving \$180,000,000. John D. Ryan, chairman of the former company, is expected to announce the transaction which would combine two of the richest copper companies in the world. World production of steel ingots in 1922 was approximately 89,000,000 tons, against 89,000,000 in 1921 and 71,231,000 in the last pre-war year. Figures are in exclusive of Russia, which, in 1922, made 4,847,000 tons. Estimate for 1922 is based on monthly production figures of various countries so far available, covering 9 to 11 months. Germany and one or two smaller producing countries publish no monthly statistics. Of the 1922 world output United States produced 67 per cent against 49 per cent in 1921 and 45 per cent in 1918. Free world output is at rate of close to 70,000,000 tons a year, with United States producing at rate of 40,000,000 tons. In 1918, there was 38,579 miles of railway in Canada, with capital involved amounting to \$1,998,880,494.

To Our Progressive Manufacturers and Merchants. WE wish to draw your attention to the fact that we are subdividing the large modern Factory Buildings at Glen Falls, owned by the Wm. Pugsley Realty Co. Ltd. and lately occupied by The Ford Motor Co. of Canada, Limited, and that we are prepared to lease space for a term of years on reasonable terms per square foot. These Buildings contain upwards of 36,000 square feet of cement floor space, of which 29,000 square feet is still available.

These Buildings are heated from a central heating plant, are practically fire-proof, being of mill construction equipped with Grinnell Automatic Fire Extinguishers, 30,000 gallon water tower, and a fire pump with a capacity of 750 gallons per minute. Due to the close proximity of the

Hydro-Electric lines and the cheapness and simplicity of distribution, power and light are almost immediately available at a price per kilowatt which is reasonable to assume can never, for many years, be approached no matter how distributed within the City Line.

Shipping Facilities—We have a Railway Spur running to a covered loading platform at one end of the Buildings. This platform is 200 feet in length by 19 feet in width, and will accommodate a train of more than six cars at one time. Coldbrook and Glen Falls now being within the railway yard limits, freight rates are equalized over Canada's great transcontinental railways, the Canadian National and the Canadian Pacific, to all competitive points. British Firms Interested—We have had considerable correspondence with British Manufacturers in many lines of business, who are desirous of negotiating with local manufacturers and merchants of good standing with a view of arranging for warehousing and distribution of their goods on this side of the water, also with a view to interesting local manufacturers to undertake to manufacture or the putting together of many lines of mechanical goods for the Canadian trade. If you are interested in expanding your business we will be happy to discuss the matter with you fully and to furnish you with all particulars.

Housing—Many well situated home-building sites are available at low prices, and on easy terms for such employees as might desire to own their own homes. We are also in a position to assist in the erection of comfortable homes having every modern convenience, such as electric light, telephones, pure running water and sewerage. A prudent and industrious man can own his home at Glen Falls for yearly payments of little more than he pays out in rent, for his own live stock, a market garden and be able to save the greater part of his wages.

As stated above we will be pleased to send full particulars on request and to show those interested over the Factory Buildings and our many industrial and home-building sites.

The Coldbrook Realty and Development Co. Ltd. JOHN A. PUGSLEY, General Sales Agent. Pugsley Building, 45 Princess St., St. John, N. B., Phone Main 385.

CAPITALIZATION: Common Shares (paying 8%) \$1,500,000; 7% Cumulative Preferred Shares 2,000,000; Less: Sinking Fund 204,000; 6% First (Closed) Mortgage Bonds \$3,000,000; Less: Sinking Fund 44,500; Total 4,955,500. THE COMPANY: The Donnacona Paper Company, Limited, operates successfully a large newsprint paper mill at Donnacona, Que., at the junction of the Jacques Cartier and St. Lawrence Rivers. Present annual output 42,000 tons groundwood pulp and 18,000 tons news sulphite pulp, used in the annual production of 30,000 tons newsprint paper. Proceeds of these Bonds will be used to complete construction by January 1st, 1924, increasing output of newsprint paper to 60,000 tons per annum. SECURITY FOR BONDS: Bonds are a first mortgage on mill properties (including new construction), timber limits, water powers, etc., having a total value of \$6,785,338, equivalent to over \$2,300 per \$1,000 Bond. Company's freehold and leasehold timber lands, situated adjacent to the Jacques Cartier and St. Lawrence Rivers, aggregate 595,440 acres and contain approximately 4,525,000 cords of spruce pulpwood. Water powers owned by the Company have a capacity of 24,000 h.p., of which 7,000 h.p. is in operation. Net working capital, after deducting current liabilities, as at November 30th, 1922, without including the proceeds of this issue, \$1,670,202, equivalent to over \$560 per \$1,000 Bond. EARNINGS: Certified annual net earnings, available for interest, etc., three years 1919 to 1921 inclusive, were \$1,128,310, over six times Bond interest requirements. Net earnings for year ended December 31st, 1922 (December estimated), available for interest, etc., are estimated to be not less than \$800,000, as compared with annual Bond interest of \$177,330. We recommend these bonds for safe investment at— Par and accrued interest, to yield 6% Royal Securities Corporation, Limited. BASKETBALL.

St. David's, 37; Germain St. 10. The city Tunis Boys' Basketball League opened last night, when St. David's defeated Germain street Basketball Tunis Boys on St. David's floor by 37 to 10.

RING.

Bell Prevents Knockout. Meriden, Conn., Jan. 16.—Louis (Kid) Kahlan of Meriden won the referee's decision over Mickey Travers

of New Haven here last night. Travers

escaped a knockout when the final bell rang. The sixth meeting between the two fighters, created state-wide interest. Both fighters weighed 130 pounds at three p. m. Kahlan won every round except the third, which was even.

Swift Action in This One.

Philadelphia, Jan. 15.—Mickey Walker of Elizabeth, N. J., welter-weight champion, knocked out Steve Lato of Hazleton, Pa., in the third round of a scheduled eight-round bout here last night. Walker carried the fighting to Lato throughout the short but terrific bout. A series of heavy body punches and a hard left to the jaw finished the Hazleton fighter.

Two Quebec Knock-outs.

Quebec, Jan. 15.—Oscar Deschamps, Montreal lightweight, was awarded the decision over Kid Dube of Lewiston, Maine, here last night. In semi-final rounds of boxing at East Chicago, the knocked out Kid Mitchell of Quebec, in the sixth round. Kid McNaughton of Quebec, flyweight, knocked out K. O. Burke of Toronto, in first round.

Pal Moore by a Shade.

Chicago, Jan. 15.—Pal Moore of Memphis, Tenn., last night gained a shade newspaper decision over Bud Taylor of Terre Haute, Ind., after ten first rounds of boxing at East Chicago. The men fought in at 114-2 pounds each. By virtue of his victory Moore was said to have first called on a bout

with Pancho Villa in Milwaukee, for

the American flyweight championship. All Cleared in Fight Case. Paris, Jan. 16.—All those accused in connection with the alleged "frame-up" of the championship match between Battling Siki and Georges Carpentier are declared innocent in a report submitted to the French boxing federation yesterday by the committee which has been investigating the charges.

Boxing Clearing House.

New York, Jan. 16.—Creation of a national boxing registration bureau to act as a clearing house for information on professional pugilists and adoption of a standardized universal code of ring regulations were favored yesterday by delegates attending the third annual convention of the National Boxing Association which represents boxing commissions in twenty-one states and other countries including Canada, where the sport is legalized.

Greb's Victory.

Pittsburg, Jan. 16.—Harry Greb of American light heavyweight champion, forced the fighting all the way in a ten round bout here last night easily gaining a newspaper decision over Tommy Loughran, Philadelphia.

Closer to Lynch.

Baltimore, Jan. 16.—King Williams, of this city, former world's bantam-weight champion, advanced a notch closer to his proposed match with Joe

KINDERGARTENS IN NEED OF FUNDS Bridge Arranged to Meet the Difficulty—Balance at End of Year Only \$28. The Kindergarten Association fund are running low, according to a report submitted at a meeting held yesterday afternoon in the Board of Trade rooms with the president, Mrs. Allan G. McAvity in the chair. With the paying of December bills there will only be a balance on hand of \$28. A bridge has been arranged for the last of the month to tie over the financial difficulty. Mrs. H. H. Pickett, convener of the educational committee, reported that a meeting of the teachers and assistants had been held at which Miss Katherine R. Watkins, superintendent of Kindergartens at Washington, read a paper. The treasurer, Mrs. H. A. McKewen, reported a balance of \$384.44 in the bank and said December salaries would amount to about \$200. At the meeting Mrs. Nicholas handed in as collections \$48, Mrs. G. C. Poole \$30 and the collection of \$17.05 from the United Women's Missionary Society meeting was also received, making a total of \$300. Gifts from St. Andrews Beneficent Society were acknowledged. It was

IMPERIAL Astounding! That's the Consensus of Opinion of Yesterday's Great Crowds... Who Saw... "The Loves of Pharaoh" A Massive Photo-Epic That Lifts You Body and Mind Into a Period 3000 Years Back in World History THIS IS A VERY DIFFERENT KIND OF MOTION PICTURE. It is something that not only entertains and thrills but it leaves a deep and lasting impression upon the mind of young and old alike. It is a story of the pre-Christian times in the Bible-land of Egypt when the people of God were harassed by the unbelievers. It is singularly interesting also because it links itself with surprising truth and detail into the recent discoveries in Pharaoh tombs in the Nile Valley—discoveries which the press daily reports. A MAJESTIC MUSICAL SETTING TOMORROW! Mae Murray's Best "FASCINATION"
