THE EVENING TIMES AND STAR, ST. JOHN, N. B., SATURDAY, MARCH 30, 1918

The Evening Times and Star

ST. JOHN, N. B., MARCH 30, 1918.

The St. John Evening Times is printed at 27 and 29 Canterbury street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act, 1880. Telephone—Private exchange—Manufacturing departments, Main 2417. Subscription prices—Delivered by carrier, \$4.00 per year; by mail, \$3.00 per year in advance. The Times has the largest afternoon circulation in the Maritime Provinces. Special Advertising Representatives—NEW YORK, Frank E. Northrup, 301 Fifth Ave.—CHICAGO, E. J. Powers, Manager, Association B.T.S. British and European—Frederick A. Smyth, 20 Ludgate Hill, LONDON, E. C., England. The Audit Bureau of Circulations audits the circulation of The Evening Times.

THE POWER COMPANY.

Addressing a conference of American mayors in Philadelphia in November 1914, Mr. H. C. Hocken, mayor of Toronto, said:—
"I agree that there should not be any conflict, certainly not any acrimonious conflict, between a municipality and the public utilities corporations. But we have found in the city of Toronto that some public utilities corporations are very hard to deal with. We have about made up our minds to have the public utilities municipally owned and operated, for the people and by the people. Whether that would be possible elsewhere is a matter for each particular city to decide. But in the city of Toronto we have made some advance in that direction."

A much greater advance has been made by Toronto since 1914, and that city will carry out the policy described by Mr. Hocken. The citizens have voted overwhelmingly in its favor. It is now for the people of St. John to consider whether they should not take similar action. They should at least insist upon such a measure of control as will protect the city from the evils of over-capitalization, exorbitant rates and inefficient service. In other words, they should insist upon municipal control, if not ownership; and all modern charters contain a clause enabling the municipality to take over the plant at any time under proper conditions of transfer. The legislature should be asked to provide for a revision of the charter of the New Brunswick Power Company, so that the element of municipal control will enter into it to protect the rights of the citizens. St. John's experience has been similar to that of Toronto, and of many other cities where public rights have been assailed by private interests. It is time for a change.

CHILDREN'S AID SOCIETY.

In the Ontario legislature last week a tribute was paid by the premier, the leader of the opposition and other members to the very valuable work done by the Children's Aid Societies. Very high compliments were paid to Mr. J. J. Kelso, superintendent of neglected and dependent children for the province, who was active in the work before a Children's Protection Act was passed, and whose work was praised by one of the speakers last week as standing out prominently among that of social service workers of the province. The Children's Aid Society of Ontario have had to deal with more than 100,000 children in the last twenty-five years, and have placed between 14,000 and 15,000 in foster homes. Of these it is estimated that 95 per cent have made good, and every one of them is estimated to be worth \$20,000,000 which would operate the road. This is traction history in a nutshell. Earnings that, in part at least, should have been put into improvements and up-keep have, in many cases, been drawn out to pay dividends, and stock has been watered and credit exhausted to maintain extravagant organizations and to pay fancy salaries to useless and incompetent officials. Such properties cannot be really helped until they are thoroughly reformed and completely reorganized. Everywhere the people are waking up.

The Toronto Globe hopes the employment of boys on the farm will result in attracting many of them permanently to the land. It says:—"That the new experience in farm life which several thousand boys and young men from the high schools, colleges, and universities will obtain during the coming summer months will induce not a few of them to select agriculture as a permanent vocation there can scarcely be any doubt. It is to be hoped that the present movement to secure boys and young men for the farms of the country during the next six months will to some extent correct the undesirable tendencies of the past. The agriculture departments in connection with the federal and provincial governments should grasp the opportunity which the present situation affords for carrying on a campaign of education, with this end in view, among the young men who are temporarily enlisting their services in farm work."

The petition of the power company to the legislature is an attempt to conceal with words the facts of over-capitalization, watered stock, and all the information so vainly asked for by Audit or Mackay. The legislature must see to it that these facts are brought out before any further action is taken. Next week will set the War Gardens Association of St. John fairly on its way, to make the gardens and vacant lots hereabouts help to win the war. Every citizen should join.

While there is still deep anxiety regarding the war situation, British people will observe the Easter festival with a sense of relief which could not have been felt a week ago. The German long range gun, by killing women and children, in a church near Paris yesterday, added to the determination of the French people to fight to a finish.

The power company wants "temporary" higher rates. Once up, who ever saw rates come down to the old basis?

THE BRIGHTENING OUTLOOK.

Von Hindenburg will not be in Paris the first of April, and so another German boast is to be unfulfilled. The news from the battlefield is of a reassuring character. All the correspondents appear to be convinced that the German effort to get between the British and French armies is doomed to failure, and that the German drive will end at the point of a narrowing wedge without having accomplished its purpose. Unless they can accomplish the destruction of the French or British armies the great object of the battle will not be attained, and today's reports indicate that this cannot now be accomplished. One report says: "The hinge between the English and French armies will never be broken, as the junction is now covered by French forces strong enough to meet all eventualities." No less than eighty-seven divisions, including the pick of the German troops, were launched against the British front, and in view of the tremendous losses that cannot be repeated, while the enemy advance toward Amiens has not been completely stopped, it has been re-acted, and the situation is regarded by the British as hopeful. The appointment of Gen. Foch, the brilliant French strategist, to supreme command of the Allied armies will unify their efforts and should produce the most satisfactory results. The spirit of the British troops is magnificent. We are thrilled as we read of soldiers who had fought for three days, being then ordered to make a new attack, singing Tipperary and rushing at the front which will hold the enemy in check and in the end inflict defeat upon him.

HERE'S ANOTHER EXAMPLE.

St. John will be interested in the following story from the Christian Science Monitor, telling how a traction company fleeced the Rhode Island people:—"An illustration of the way in which traction lines should not be operated hereafter, whether under public or private control, there is available testimony taken before the joint legislative committee on Rhode Island Company affairs. Here it was shown that the trolley system under inquiry had earned, since 1908, \$8,000,000 on which it paid dividends of \$8,000,000 and then borrowed more than \$8,000,000 with which to operate the road. This is traction history in a nutshell. Earnings that, in part at least, should have been put into improvements and up-keep have, in many cases, been drawn out to pay dividends, and stock has been watered and credit exhausted to maintain extravagant organizations and to pay fancy salaries to useless and incompetent officials. Such properties cannot be really helped until they are thoroughly reformed and completely reorganized. Everywhere the people are waking up."

The Toronto Globe hopes the employment of boys on the farm will result in attracting many of them permanently to the land. It says:—"That the new experience in farm life which several thousand boys and young men from the high schools, colleges, and universities will obtain during the coming summer months will induce not a few of them to select agriculture as a permanent vocation there can scarcely be any doubt. It is to be hoped that the present movement to secure boys and young men for the farms of the country during the next six months will to some extent correct the undesirable tendencies of the past. The agriculture departments in connection with the federal and provincial governments should grasp the opportunity which the present situation affords for carrying on a campaign of education, with this end in view, among the young men who are temporarily enlisting their services in farm work."

The German long range gun, by killing women and children, in a church near Paris yesterday, added to the determination of the French people to fight to a finish.

The power company wants "temporary" higher rates. Once up, who ever saw rates come down to the old basis?

USE THE WANT AD WAY

LIGHTER VEIN

An Arkansas negro preacher labored hard in offering "free salvation" to his congregation. At the close he took up a collection. An old brother in the back seat said: "See here, brother, if salvation is free why are you 'goin' ter take a collection?" "Brother, de wahsh in de ribber an free if yo' go down afah it, but if yo' have it piped up to yo', yo' must pay fo' de pipin'."

In an Ohio town is a colored man whose last name is Washington. Heaven has blest him with three sons. When the first son arrived the father named him George Washington. In due time the second son came. Naturally he was christened Booker Washington. When the third man child was born his parent was at a loss, at first, for a name for him. Finally, though, he hit on a suitable selection. The third son, if he lives, will go through life as Spokane, Washington.

PREDICTS GREAT FUTURE FOR JEWS IN PALESTINE

Alexander Sachs, spokesman of the Zionist movement in Canada, had a most glowing prophecy as to the future of Palestine made to the members of the Canadian Club, at the weekly luncheon in Montreal. For twenty centuries, he said, Palestine had been the Belgium of the world, and he regarded it as a most significant fact that the first small nation to regain its freedom in the great world war for freedom which was now proceeding should be the Jewish nation of Palestine. That had been accomplished by the British people, and the debt of gratitude of the Jewish people towards the British Empire was immeasurable. He believed Palestine was destined to be the pivotal point of the whole world. Through it would run the great highways connecting the east with the west, highways from Paris to Peking, from London to Madras, and from the Cape to Petrograd. As an instance of what this would mean, he said that delegates from Australia to an empire conference could reach London in fifteen days, while by aerial transportation it would be possible to go from London to India in three days. So important would Palestine become as the pivotal point of travel and commerce that Jerusalem would be the logical place for future peace conferences, instead of The Hague. Palestine, he said, embodied in itself the future of the world, and the geographical structures in the world. It was a country with a climate over a large portion that was comparable to the climate on the Pacific coast of this continent, but it was twenty times as fertile as that coast. It would support a population of from 20,000,000 to 30,000,000 people. The River Jordan, which the British had just crossed, would irrigate the country, and it would provide 50,000 horse-power for use in a district of which Jerusalem would be the centre. There would be enormous agricultural development by the Jews, while Mesopotamia, which bordered it, and which had also passed under the protection of the British Empire, would by its bountiful fertility, solve the food problem of the world. What was taking place in Palestine he described as an exact fulfilment of the Prophecies of Isaiah and Ezekiel. The British campaign there, while thrown into the background by the stirring events in France, was of the utmost importance in that it was destroying the Mittel-Europa scheme of Germany, the consummation of which would have meant the disruption of the British Empire and the enslavement of mankind under a system which turned every country it touched into a land of plantations for the maintenance of barracks.

BE PRETTY! TURN GRAY HAIR DARK

Look young! Nobody can tell if you use Grandmother's simple recipe of Sage Tea and Sulphur. Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyley's Sage and Sulphur Compound" you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost. Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive. Wyley's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

Foley's Shoe Linings THAT LAST TELEPHONE MAIN 1601 Don't Let The Pain Burn Thru To The Hot Oven

Cough Nearly Gone in 24 Hours

That's the usual experience with this home-made cough syrup. Coughs disappear in 24 hours. Anyone who tries this pleasant tasting home-made cough syrup, will quickly understand why it is used in more homes in the United States and Canada than any other cough remedy. The way it takes hold of an obstinate cough, giving immediate relief, will make you regret that you never tried it before. It is a truly dependable cough remedy that should be kept handy in every home, to use at the first sign of a cough during the night or day time. Any druggist can supply you with 2½ ounces of Phlox (20 cents worth). Pour this into a 16-oz. bottle and fill the bottle with plain granulated sugar syrup. The total cost is about 50 cents and you have 16 ounces of the most effective remedy you ever used. The quick, lasting relief you get from this excellent cough syrup will really surprise you. It promptly breaks the inflamed membranes that irritate the throat and air passages, stops the annoying throat tickle, loosens the phlegm, and soothes your cough until you are able to sleep. There is a highly concentrated compound of Phlox with full directions for its use. A guarantee of absolute satisfaction or money promptly refunded goes with this preparation. The Phlox Co., Toronto, Ont.

The British campaign there, while thrown into the background by the stirring events in France, was of the utmost importance in that it was destroying the Mittel-Europa scheme of Germany, the consummation of which would have meant the disruption of the British Empire and the enslavement of mankind under a system which turned every country it touched into a land of plantations for the maintenance of barracks.

All Colors for All Purposes.

Emerson & Fisher Ltd.

PRODUCE MORE AND WIN WAR

Teachers Told How To Use Their Influence

Boys to the Farms — Dr. Abbott and Archdeacon Cody Speak at the Technical School in Toronto

Food and famine were the subjects placed before the teachers of Toronto in the Technical School recently by Dr. Abbott and Archdeacon Cody. In the plainest manner and with the utmost candor, and suggestions were made to the teachers as to how they might help in the solution of the problem. The meeting was organized by the Food Resources Committee of the School Board.

Dr. Abbott said that in spite of all that had been said and read the people of Canada scarcely realized that Canada was at war. The teachers had been called together that their influence might be enlisted in the cause of greater production. He read the cable from Canada and for the greatest possible increase in the production of wheat, and he showed that without this production the dependence of the allies upon Canada for only one thing, a vital dependence, and a committee had been considering in the parliament building that afternoon how to increase the average yield in Ontario.

Look to America for Food.

As to the food supply the allies were looking to Canada and the United States, because the supplies from India, Australia, and the Argentine were not available. The supply ships could go from Halifax and New York, but they could not go from the west coast of America. Moreover, Lord Rothermere had pointed out that the world "shortage" now was not sufficient to describe the situation. He had used the word "famine."

It was not even a question of transportation. "The actual food supplies do not exist," he said, "and they will not exist unless we produce them."

What was to be done? It was necessary that 85,000 men, women and boys should go on to the farms. There must be 15,000 boys from Ontario, and the influence of the teachers in this one movement, used rightly, would be incalculable. He asked them to be agents of publicity in this matter. He also pressed upon them the house gardening movement. Food conservation was no longer adequate, he said. There must be greater production. "We are not far from a condition of famine," he said. "There is not enough food to go round."

British Best Fed Army.

Archdeacon Cody spoke to the teachers on the present outlook in the war. "Our army at the front," he said, "is the best fed army in the world today. We must not stint them. If there is not enough food to go round somebody must go short, and those who go short must be the men at the front; and we are willing to go short if by going short they may go long and go strong. The spirit behind an army is as important as the spirit of the army, and that links up the whole situation. There is no class distinction in the army."

Texture, Pattern, Cut, Finish and Fit—All Right—

These are the distinguishing features of Semi-ready garments and service. In our splendidly replete showing Spring and Summer 1918 models Suits and Top-Costs—\$18 to \$50 will be found many exclusive designs.

SHARP DEBATE OVER RESPONSIBILITY FOR STRIKE IN GERMANY

(Correspondence Associated Press.) New York, Mar. 27—Socialist and anti-Socialist newspapers of Germany have been indulging in a sharp and rather unmitigated debate since the ending of the great strike in February, over the question as to who or what party was responsible for the serious labor disturbance. According to German newspapers received here the Socialist party not only refused to disapprove of the strike but tried to fix the blame for it upon the government, asserting that its methods of dealing with the public were responsible for the strike trouble.

The North German Gazette, an official organ, declared that the strike was a form of war sabotage in the interests of peace.

Dr. Drews, the Prussian minister of the interior, said the strike served immensely the interests of Germany's enemies but that the confidence of the government and the Prussian people had not been shaken and it would, as heretofore, press the internal reforms.

The Social Democratic party leaders were accused of encouraging the strikers. Retorting to this charge the Berlin Vorwarts, an outspoken Socialist organ, quoted Prime Minister von Dandke of Bavaria as having thanked the Demo-

cratic Socialist leaders, in a speech in the Bavarian Chamber of Deputies. "For assuming control of the strike movement as thereby the strike would be forced into normal channels."

In the course of the heated arguments in the budget committee of the Prussian Diet on February 8 a Socialist member attributed the strike to increased difficulty in obtaining food, to inefficient government measures for food distribution, to postponement of the franchise reform, methods of censorship and the existing state-of-siege. He declared that the prohibition of public meetings in Berlin and the dissolution of the strike committee had caused bitterness. "Phillip Scheidemann, the Socialist leader, the speaker declared, had been brutally handled by the police while studying the strike situation in Berlin. The Socialist committee man said that the strike was of spontaneous origin."

A Progressive member of the committee, commenting on the strike, said that some of the measures put in force against workmen were causing increasing restlessness in the non-socialist workmen's circles. A Socialist deputy was quoted in a German newspaper, as saying that the ruling classes above all were responsible for the strike, but he added: "The Russians, however, would greatly err if they believe that there would soon be a chaos in Germany similar to that in Russia."

A question as to the future status of the Socialists in the majority party bloc of the Reichstag was raised by some of the critics. The Vorwarts asserted that the Socialist party had not changed its attitude since the beginning of the war and that this meant that, as heretofore, it was willing to defend the country against foreign plans of conquest but would combat the intention noticeable in Germany to continue war until open or masked annexations had been achieved. The party, added the Vorwarts, will continue to act as the protagonist of civil freedom and political equality."

Thirty returned soldiers who are going on the land in Northern Ontario, under the Ontario government's land settlement scheme, were chosen at a meeting held this week. There were present A. A. Grigg, Deputy Minister of Lands and Mines; J. C. O'Connor, representing the Great War Veterans' Association, and J. B. Laidlaw and William Banks, sen. of the Soldiers' Aid Commission of Ontario. Lieut. Col. James, who is in charge of the scheme, was also present. The party left that night for Kapuskasing.

We have any number of smart, attractive shoe styles in seasonable types that will delight you. Hand-some Grays, Browns, Tans, some very smart Two-tone Models, High Lows and Cuban Heels, Light Weight and Medium Soles, Cloth and Leather Tops.

"Dorothy Dodd" and "Queen Quality" Footwear were always leaders in every respect. The "Bell Shoe" is the best Canadian shoe made, noted for Style, Fit, Quality. We have other famous lines, such as "The Hartt Shoe," "The Just Wright Shoe," "The Invictus Shoe," "The Romper Shoe" for children, and last, but not least, our "W. & R. Specials" for Ladies and Gentlemen.

Our Oxfords
 Have Arrived

All the charm of Spring is manifested in the handsome Oxford styles we are now showing.

Here is just one of the many smart models that are sure to be in the fore among Fashion's Favorites for this season.

Street Pumps
 For Early Spring

Wear them now with spats, and then when the warmer days come you have what amounts to a new pair of dainty street shoes by simply putting aside the spats.

We have many styles that will please you, and what is more in keeping with the smart tailored costume than the combination of pumps and spats?

Roumania's Oil Fields Seized By Germany

Washington, March 29—Germany, having subjected Roumania to the sacrifices of a conquest province, state department advisers today say, now has demanded that the little state turn over all her valuable oil fields to a German-controlled corporation.

U. S. RESOLUTION ADDS 700,000 MORE MEN TO AMERICAN DRAFT ARMY

Washington, March 29—The resolution amending the selective draft act by requiring registration of youths reaching twenty-one years since June 5, 1917, and estimated to add 700,000 more men to the roll of eligibles was adopted late today by the senate. It now goes to the house.

ALL THE WAY FROM IRELAND ALONE

Little Harry Fegan Makes Long Trip to Toronto From Dublin Without Being Scared

(Toronto Telegram.)
 "Where's your son? Take me to see the monkeys in the zoo."
 They were real Irish grey eyes with a glint of tears in them, and rather quivering little lips which made the request. Brave wee eight-year-old Harry Fegan arrived at his parents' home at 180 Stanley street, this morning, from Ireland, and only the prospect of seeing some real live monkeys kept the little lad from bursting into tears from sheer homesickness for his Irish home, and as a result of the long trip across alone.

Four years ago Mr. and Mrs. Alfred Fegan came to Canada, leaving Harry in Dublin, but intending to send for him right away. However, with war conditions and the arrival of another little son, Harry was allowed to remain there with friends. Last fall the parents looked his passage for Canada, but it was not until two weeks ago that he started off, by way of Dublin, Holy-Head, Liverpool, and finally New York.

This morning civic officials brought him home in an auto, quite unexpectedly, for his mother had not looked for him until the end of the week.
 Of this trip across Harry had little to say, for at present his heart is longing for Ireland and the friends he knew. Canada, his brothers and parents are unknown and strange to him.

"I'm going back home next week," declared the sturdy little chap in his sailor's outfit of dark blue tunic, with four brass buttons, and short blue trousers which showed a strip of fat brown knee above the home knitted blue socks. "Coming over here were lots of soldiers. I was on a government transport and slept with two officers."

That his parents set out and go back to Ireland next week is the lad's plea and first thing upon arriving he wrote a letter back to his "mother" in Ireland sending her "two and six-pence" of the money given him by officers on the boat and promising to return soon.
 "I wasn't sick coming across the ocean, but I was coming across the Channel." Just how he actually arrived at his home in Stanley street even the mother is not sure, for the little traveller himself, however, he "just got off the train and into a taxi to come home." A small box of clothes, with his address on it, and his passport, comprised his entire baggage.

ORATORIO IN ST. ANDREWS.

"Seven Words From the Cross," an oratorio by Dubois, was rendered in a masterly manner last evening by the choir of St. Andrew's Presbyterian church. There was a large audience present to hear it.

The vocal part of the oratorio was under the instruction of Miss Louise Anderson, and showed the careful training that the choir has received. The solo parts were taken by Miss Louise Anderson, Miss Gene Anderson, Thomas Guy and Mr. Bowman. The oratorio was excellently rendered and greatly enjoyed by those who heard it.

Commander Locker-Lampson, M. P., who had charge of the British armoured-car squadron in Russia, says that in the fighting on the Mas plain his orderly found a Turkish prisoner wearing a swallow-tail coat, on the buttons of which were the words "Conservative Club."

ATTACKS NEAR ARRAS FAILED

(Continued from page 1.) Held to their positions and wavered but slightly before the enemy onslaught.

There was hard fighting on both sides of the Scarpe to the north of the most desperate conflict was staged about Reuux, which was the scene of sanguinary struggles last year.

The maximum price the company may charge for gas for heating and illuminating purposes is hereby increased to two dollars per company per foot.

The maximum price for electric current for power and light supplied by said company is hereby increased to the rate herebefore charged by the Saint John Railway Company for power and light.

The expenses of such report shall be paid by the company.

Another Riot in Quebec

The riot was renewed in Quebec last evening, evidently by the same gang of men who carried out the riot the night previous.

HUNS START NEW DRIVE IN RUSSIA

Army Strikes 300 Miles South of Moscow

MORE GERMAN TREACHERY

Despite Armistice, Turkish Troops Were Ordered to Harass Retreating Russians; Germany Makes Weak Counter-Complaint About U.S. Ambassador's Statement

London, Mar. 30.—The beginning, by the Germans on Wednesday, of an offensive in the direction of Kursk, 300 miles south of Moscow, is reported in the Petrograd newspapers, according to a Reuters dispatch from that city.

London, Mar. 9.—(By Mail)—That Kurdish tribesmen, who have been used repeatedly by the Turks in their campaigns against the Armenians are urged to take advantage of the armistice in Asia Minor and attack the withdrawing Russian troops is seen in a document which has come into the possession of the British war office.

Moscow, Mar. 28.—(By the Associated Press)—Germany has protested again to the Bolshevik government against the declaration of American Ambassador Francis that Russia will become a German province if it submits to the peace terms of the Central Powers.

The parties and factions in Ukraine are taking various attitudes as regards the boundaries. Some Germanophiles even insist that Ukraine touches the Caspian Sea.

The members of the French and the Italian embassy and the Serbian legation, having succeeded in making their way out of Finland, returned yesterday to Petrograd. They left immediately for Moscow.

The death of Ole Mofstoft occurred in the General Public Hospital on Friday, March 29. He was a native of Norway, and was twenty-six years old.

Washington, Mar. 30.—A Mitchell Palmer, the Allen Property Custodian, announces one of the largest single items of enemy cash so far received by him.

Mr. Palmer said that this item of enemy money was held by a banking institution in one of the largest cities and its enemy character was determined through the vigilance of the Allen Property Custodian to that end.

The sacred patriotic concert at the Imperial theatre yesterday afternoon proved a great success and a record audience filled the building.

THE MESSAGE OF EASTER
Do you hear it, the message of Easter, That's voiced from the soul of the birds?

And the Lilies' Oh, list to their message, That's whispered in fragrance and bloom.

Of the life that is perfect in purpose, A beam where the Master has room!

For the message of Easter is courage, That lives through earth's darkness and cold.

And love of the Christ that is risen, Still lives in the hearts of His own.

And the rest of the life shall be truer, Because of each new Easter day.

For Easter

One of the best selections of 20th Century and other fine tailored suits and overcoats we have ever offered.

Novel, smart styles to suit the young man who must have the latest—greens, browns, greys and mixed effects. New close-fitting coats with and without belts.

More conservative models for those who prefer them, in Spring Overcoats and Suits.

Prices \$15 to \$35
Gilmour's 68 King Street

SATISFACTION IN GLASSES

That distinctive kind of optical service that insures complete satisfaction to the wearer, is at all times at the service of those who come to us when in doubt about their eyes or their glasses.

STUDENTS MAKING GOOD PROGRESS

Returned Soldiers Preparing Themselves at Halifax Technical College, For Future Positions

(Halifax Chronicle) Fifty-seven returned soldiers, the large majority of whom have been discharged as medically unfitted for further service on the field, are now busy each day at the Nova Scotia Technical College preparing themselves for future positions by taking the eight months' course of study under the superintendence of Professor Ayres and Instructor C. S. Maclean, B. A., B. Sc., of Campbellton, N. B.

Five departments are now in full swing at the college, and it is pleasing to note that the students are progressing in their studies and exercises very favorably in the one branch taken up.

Mr. Palmer said that this item of enemy money was held by a banking institution in one of the largest cities and its enemy character was determined through the vigilance of the Allen Property Custodian to that end.

THE MESSAGE OF EASTER
Do you hear it, the message of Easter, That's voiced from the soul of the birds?

And the Lilies' Oh, list to their message, That's whispered in fragrance and bloom.

Of the life that is perfect in purpose, A beam where the Master has room!

For the message of Easter is courage, That lives through earth's darkness and cold.

And love of the Christ that is risen, Still lives in the hearts of His own.

And the rest of the life shall be truer, Because of each new Easter day.

LOCAL NEWS

BANK CLEARINGS
Bank clearings for the month of March, 1918, were \$2,169,414 for March, 1917, \$8,929,619, and for March, 1916, \$6,719,912.

POLICE COURT
Four men charged with drunkenness were brought to the police station last evening. They were before the police court clerk in the absence of Magistrate Ritchie this morning and remanded.

INTERRED IN HOLLAND.
An official communication from Ottawa to H. P. Stevens of Sussex, announces that his son, Lieut. R. B. Stevens, is interred in Holland. Mr. Stevens thinks that there is no good reason to assume, from his son's cable received last week, that the latter had reached Holland by crossing from Bad Colberg, where he was located previously in a German detention camp.

CARLOADS OF ONIONS.
It is estimated that more than thirty carloads of onions came from Ontario to St. John last fall, and were held in warehouses at a higher price. The great bulk of them were held all winter, and there are still many carloads in warehouses.

The percentage of loss by deterioration will be very large. The food control department does not appear to have heard of these onions—except those that went to the dump.

REAL ESTATE NEWS

Transfers of real estate have been recorded as follows:

St. John County—
Extras of J. R. Gillis to M. J. H. Mulholland property in Garden street.

United Baptist Church to T. J. Mercer, \$3,000, property in Sussex.

PARIS STIRRED TO STERNER RESOLVE THAN EVER IN WAR

Killing of Women and Children in Church on Good Friday Makes Feeling Run High

Paris, Mar. 30.—The killing of women and children by a shell from the German long range gun yesterday, has caused a feeling of horror and intense indignation in Paris. The German explosive missile fell amid a gathering of peace-loving people, who were attending church, and were beseeching heaven to send an enduring peace on the day on which they were commemorating the greatest sacrifice ever offered that peace should reign on earth.

Feeling runs high in Paris. It is a no peace crowd that walks the streets or congregates in the cafes, theatres and churches. The stern resolution to conduct the war to a successful termination is written on the face of every one.

Fifty-four Women.
Paris, Mar. 30.—Rescue parties at work in the church which was struck yesterday by a shell from a German long range gun have found more bodies. It is now known that fifty-four were killed.

THREE BODIES OF HALIFAX DEAD ARE JUST NOW FOUND

As Snow and Ice Covering Melts, Two Men and Little Girl Are Revealed

Halifax, N. S., Mar. 30.—After having lain in the roadway since the awful catastrophe of December 6, two bodies were found early last evening by workmen employed by Cavichio and Pagano in clearing away the debris. The body of Thomas Wais, a cooper, who lived at 685 Barrington street, and who at the time of the explosion was at work for Furness, Whiby & Company, at the sugar refinery wharf, was found in Campbell road near the foot of Kenny street and not fifty feet away was found the body of a little girl. The latter is not yet identified. Both bodies were in the road which has been constantly travelled over by the men and teams at work on the ruins. They became revealed only as the snow and ice melted. The body of Bertram Earle was found on Thursday.

FOOD CONTROL BUREAU TO OPEN FISH STORES

Cheaper Prices in Montreal and Other Centres on "Cash and Carry" Plan

Montreal, Mar. 29.—The food control bureau at Ottawa is preparing to supply cheap fish in Montreal and other centres in Canada by opening retail stores and selling fish at a low price on the "cash and carry" system—that is, customers paying cash and carrying their own parcels. An announcement to this effect was made by G. W. Jones, of the food control bureau here yesterday.

ANNUAL REPORT OF HON. P. J. VENIOT

Expenditures on Provincial Public Works \$1,365,352

BALANCE OF \$477,624 ON HAND

Over-Expenditure in Only One Account, That of Motor Vehicles and Amount Small—The Figures in Detail

The annual report of Hon. P. J. Veniot, minister of public works for the province, shows a total expenditure of \$1,365,352.86 in 1917. There remained on hand at the end of the year unexpended balances totalling \$477,624.51, the largest balance being in the accounts for permanent roads and permanent bridges. The only account showing an over-expenditure was that of motor vehicles, which ran \$208.82 over the appropriation.

The summary of the expenditures is as follows:

Service	Appropriation	Expended
Ordinary Bridges	\$ 407,133.29	\$ 417,143.38
Ordinary Roads	189,488.95	189,488.95
Roads—Special Improvements	82,787.15	82,787.15
Roads Permanent	590,000.00	334,066.63
Legislative Buildings and Offices	29,296.78	29,296.78
Normal Schools	10,033.36	10,033.36
Provincial Hospital	28,000.00	28,898.92
Steam Navigation	25,467.00	25,467.00
Wharves	7,900.00	4,382.07
Miscellaneous	11,978.42	11,978.42
Motor Vehicles	6,000.00	6,208.82
Permanent Bridges	735,080.45	428,679.66
	\$1,759,228.80	\$1,365,352.86

TEN DEATHS FROM PNEUMONIA IN WEEK; CITY TOTAL IS 25

Ten of twenty-two deaths in the city for the week as reported to the local board of health were due to various forms of pneumonia. This large percentage, though alarming, is not considered unusual for this time of year, as March is often the worst month of the year for this disease. This is particularly the case this year on account of weather conditions. Pneumonia, though considered contagious, is not a notifiable disease in St. John.

Eight deaths were due to bronchopneumonia, three to heart disease, two to pneumonia, two to measles, and one to each of the following causes: Malnutrition, heart failure, premature birth, chronic bronchitis, catarrhus of the lungs, pulmonary embolism, pernicious anaemia, pulmonary tuberculosis, cerebral spinal meningitis, hemorrhagic neumatism.

FORMER ST. JOHN PLAYER BOUGHT BY CONNIE MACK

A despatch from New Britain, Conn., says that Merwin Jacobson of that city has received word from Manager Jack Dunn of the Baltimore Club of the International League that he has been sold to the Philadelphia Athletics.

Jacobson practically started in his baseball career when he joined the St. John team in the N. B. & Maine League and later was with the Marlboroughs. His good work during that season attracted the attention of baseball men and it was not long until he began to climb towards the pinnacle of his ambitions—the major league.

ONE ST. JOHN MAN IS IN THE LIST

Ottawa, Mar. 29.—Casualties:

INFANTRY.
Killed in Action
G. R. Carrie, Dundas, P. E. I.
Wounded—
Lieut. T. E. Logan, New Glasgow, N. S.

Gassed—
E. McLaughlin, Moore's Mills, N. B.; F. A. Mueckler, St. John, N. B.; J. Wilcox, Halifax.

Ill—
F. Gallant, Paquetville, N. B.

ENGINEERS.
Wounded—
A. Chisson, Halifax.

EGGS FOR EASTER BREAKFAST ARE 55c.

With eggs at 55 cents a dozen, many citizens of St. John will find the traditional Easter eggs a luxury this year. Eggs are not very plentiful even at 55 cents, but there is a fair supply on hand. There is a very good market this week with prices high. Strawberries make their debut to 1918 also at 60 cents a box. Many new vegetables are coming in in larger quantities and conditions tend towards the normal again after a hard winter.

Butter is at 50 cents a pound, turkey and chicken 60 cents and fowl 55. Beef sells from 15 to 35 cents a pound, real 22 to 25, pork 22 to 25, steak 22 to 25, lamb 25 to 35 and mutton from 22 to 30. Veal sells at 25 cents a head and lettuce 10 cents. Tomatoes are 40 cents a pound, spinach 41 and rhubarb 10 cents a pound. Bacon is 40 cents and ham 45.

MACAULAY BROTHERS & CO.

STORES OPEN TILL 10 P.M. SATURDAY FOR EASTER SHOPPERS

New Velour Coatings

Mole color, in new green, rose, black, navy blue, brown, wine and sand color. Samples by mail.

Where Will You Buy Your Easter Overcoat

We have always maintained that the character of the store is one of the most important things to be considered in clothes buying. It's more so today. The size of the store, its resources, its buying power, its record of progressiveness for square dealing and last but not least VALUE GIVING. These things are more important now than ever.

Don't fail to see our wonderful Overcoat values!

Staple Grey Chesterfield Overcoats... \$15, \$18, \$22.50, \$25, \$30
Plain Grey Slip-on Overcoats... \$20, \$22, \$25
Fancy Tweed Slip-on Overcoats... \$15, \$18, \$20, \$25, \$30.
Many with silk fittings.

The Trencher, a young man's Belted Overcoat, in fancy Scotch Tweeds... \$15, \$20, \$25, \$30
Knit Craft Overcoats, a novelty, warmth without weight... \$25

Take elevator, 2nd floor.

OAK HALL SCOVIL BROS., LTD.
ST. JOHN, N. B.

Dear Mary:—

I urge you to be particular about the furnishings for your hall. It makes the first and last impression when people visit you. A neat hall is a warm welcome and a cordial invitation to come again. Because people stay in the hall a short while is no reason why you should neglect it just to save a little money.

Go right now to my furniture store and buy what you need for your hall. Tom will pay for it alright and be glad you've bought it when he sees it.

Ta Ta HELEN

P. S. There's only one store for furniture and rugs—it's

Look at your Hall Furniture Then come look at ours.

FUEL OUTLOOK NOT SO BLACK

Canadian Engineers Are More Hopeful This Year

NATURE GENEROUS

Chief Need in Proper Facilities For Production and Distribution of Our Own Resources

Solution of fuel difficulties is occupying the major share of attention at the annual meeting of the Canadian Society of Civil Engineers Tuesday in the Physics Building of the University of Toronto.

"The fuel situation of Canada, as a view it, is not a gloomy or discouraging one, for we are endowed with fuel deposits on a magnificent scale. All that is necessary now is that their proper exploitation and economic use be assured," was the assuring statement of E. P. Hazard, who delivered the first paper on "The Fuels of Canada."

The situation which Canada is facing today is attributed to conditions obtaining in the United States. While not wholly dependent on the United States for its fuel supply, Canada is dependent to the extent of 55 per cent of its total coal requirements and 98.2 per cent of its crude and refined oil products.

Lignite and Peat Available. He analyzed Canada's fuel resources, their location and extent, which showed the necessity for the excessive imports. In addition to the coal reserves there are 37,000 square miles covered with peat deposits. Of this amount 12,000 square miles are scattered through the central provinces. He dealt in his address with the preparation of lignite and peat for economic utilization, and expressed the opinion that only a small amount of the money would be necessary, compared with the immense value which the solution of the important problem would bring to the country, would be required to demonstrate that lignite of the west could be converted into a fuel satisfactory for domestic and industrial processes.

Referring to the bituminous and lignite mines in the west, he said they have never been able to turn out a maximum amount of coal, because of the high cost of labor. A tribute to the records the railways have made was paid by Mr. Neil.

Foresees Cheaper Fuel. In speaking on "The National Development of Canada's Coal Resources," W. J. Dick, Mining Engineer of the Commission of Conservation, painted a rather fanciful picture. "It is not beyond the bounds of reason to foresee a condition whereby a householder in the place of his ton of anthracite," he said, "which he now welcomes for \$11, will receive a ton of smokeless coal, without slate, a month's supply of cooking gas, forty miles of motor fuel, enough fertilizer to start a small garden, and far sufficient to allay the dust in front of his house—all for less money than he now pays for inferior coal."

Any reform in the domestic fuel in central Canada should see a reduction in the cost of domestic heating, and a mitigation of smoking, he claimed. He could see no possibility of Nova Scotia competing with the United States as regards bituminous coal, and for the present at least, central Canada would be dependent on the United States for bituminous coal to replace the anthracite.

DRINK HOT WATER IF YOU DESIRE A ROSY COMPLEXION

Says we can't help but look better and feel better after an inside bath.

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leaves in the alimentary organs a certain amount of indigestible material, which if not eliminated, forms toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and poisons from the stomach, liver, kidneys and bowels, before putting more food into the stomach.

Men and women with sallow skins, liver spots, pimples or pallid complexion, are those who wake up with coated tongues, bad taste, nasty breath, others who are bothered with headaches bilious spells, acid stomach or constipation should begin this phosphated hot water drinking.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs.

MOTHERS PRAISE BABY'S OWN TABLETS

Every mother wishes her little ones to be well—thousands of mothers have learned the secret of keeping them well. They have found by experience that an occasional dose of Baby's Own Tablets will prevent sickness, or if sickness comes on suddenly the Tablets will promptly give relief. These mothers have nothing but praise for the Tablets. Among them is Mrs. Gustave Lord, St. Perpetue, Que., who says:—"I have been using Baby's Own Tablets for my little ones for a number of years and have found them a perfect medicine. They regulate the bowels; stop vomiting; in fact they are good for all the little ailments of childhood." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

PARIS WAS SHELLED ON GOOD FRIDAY

Paris, March 29.—The long range bombardment of Paris was resumed shortly after 3 o'clock this afternoon. Seventy-five persons were killed and ninety wounded, most of them women and children when a shell fired by a German long range gun fell on a church in the region of Paris while Good Friday services were being held, according to an official communication issued this evening.

Among those killed was H. Stroehling, councillor of the Swiss Legation in Paris. This same church was struck by a shell during the celebration of high mass last Sunday and many casualties resulted.

NEW ENEMY GUN NOT GIGANTIC?

Believed It Has Three Powder Chambers

An Engineer's Views — Noted Detroit Inventor, Now in Toronto, Gives Theory of Foo Weapon Which Bombarded Paris

(Toronto Globe.) J. E. Desmond of Detroit, a prominent American engineer and inventor of pneumatic devices, who is here at the request of the dominion government to give practical demonstration of certain devices of which he is the inventor, claims that the large gun which has been pouring shells into the city of Paris is no bigger than the largest gun used by the Allies on the western front.

Mr. Desmond says the gun, which, in his belief, is not 120 feet long, but one of the same type used to throw shells thirty-three miles, fitted with auxiliary powder chambers, which are the prime factors in firing a shell for such a considerable distance. He claims that the new gun used by the Germans is something similar to an invention he experimented with some years ago.

The primary is charged with a rather slow-burning powder. The initial charge is a slow explosion followed by an intense heat, the first auxiliary charge medium, while the second auxiliary charge is four times as great as the first. When the projectile has reached the second auxiliary charge, which is exploded by the intense heat, the recoil has been overcome and the velocity becomes tremendous.

Mr. Desmond advances the theory that by the use of the small gun equipped with the auxiliary powder chambers there is less air resistance and less recoil. No matter how great or how large the velocity is increased fifty per cent by adding the multi-charge. The gun was not necessarily have to be 120 feet long, as supposed, to throw a shell between seventy and seventy-six miles. Invented Steam Injector.

As an inventor of pneumatic devices, Mr. Desmond has seventy-two patented devices, all of which are now in use. While Gifford of France was the original inventor of the steam engine injector, which controls the steam in a locomotive, the original steam injector was made of seventy-five parts, which Desmond subsequently reduced to fourteen parts, the latter being used almost exclusively on locomotives in every part of the world.

Mr. Desmond is also the inventor of the bicycle pump, the emery dresser, the pneumatic starter for automobiles and numerous other contrivances used in practically every branch of the manufacturing industry.

ST. JOHN AS A WORLD PORT.

At the last regular meeting of the council of the board of trade a committee was appointed to give consideration to certain phases of St. John's situation which have a bearing upon its future as a national port. It was the feeling of

the council that the time was opportune to secure, if possible, complete co-operation and cooperation of all port interests, so that every obstacle in the way of the progress of the port might be removed by the time the end of the war had been reached. It is expected that this subject of port expansion will be more fully discussed at the regular meeting of the board next week. Members having views on the subject are invited to attend and express them.

Dunlop "Gibraltar RedSpecial" Belting
Abnormal Friction Pull vs. Elasticity of Friction

BETWEEN every ply of specially-selected, heavy Cotton Duck in Dunlop "Gibraltar RedSpecial" Belting is a layer of pure Rubber which, through a Dunlop calendering process, so permeates the fabric that it binds the several plies into one integral piece.

Some belt manufacturers offer to sell their product on the basis of "Heavy-Poundage in a Friction-Pull" Test. To obtain the latter result it is not necessary to secure such an expensive Rubber Friction as is used in "Gibraltar Red Special." This fact alone ought to be a pretty good gauge of the value of the "friction-pull" test.

In buying "Gibraltar RedSpecial" you get the advantage of years of careful laboratory work on our part with this result: The friction is of that "just-right" elastic quality which allows for the give and take necessary in rounding the pulleys; hence the reason "Gibraltar RedSpecial" is known for maximum Power, Speed and Service.

Note the Short Grain Rubber Friction
This Belt Section illustrates a Heavy "Poundage-Pull" Friction. To secure this result the Friction Grains are short and stiff. Elasticity and Flexibility have been sacrificed to secure such a result.

Note the Long Grain Rubber Friction
Dunlop "GIBRALTAR REDSPECIAL" has a Friction of Special Friction. Dunlop Rubber that retains its life indefinitely. "Note the long grain Rubber Friction," as illustrated. Elasticity had not been sacrificed for Abnormal Friction Pull.

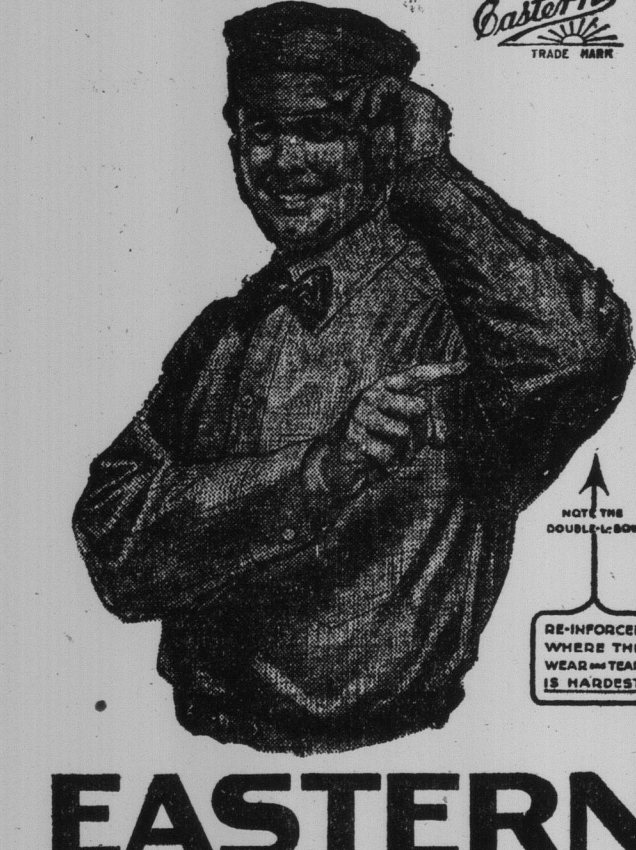

The Dunlop Unreserved Guarantee
If you have a difficult drive anywhere in your factory drop a line to our Head Office, or to our nearest branch, and we will send a man experienced in belt engineering to examine your requirements. If it is an instance where the "Gibraltar" Belting may be suitably employed we will recommend its use and we will stand behind our recommendation with the fullest guarantee ever issued by a firm producing rubber products.

Let your Phonograph be a Pathephone
It Plays Any Record

The outstanding feature of the Pathephone is its wonderful tone—the fulness, the mellowness, the depth of the music as it pours forth, is rich, natural and indescribably sweet. This is due to a combination of scientific principles in its construction.

FOR instance, you have doubtless heard about the genuine Pathe Sapphire Ball that is used on the Pathephone instead of the old-time steel needles, which, besides requiring constant changing, mar and scratch your favorite records. This Sapphire Ball, in conjunction with the secret Pathe method of recording, reproduces music in a clearer, more natural tone than you have ever before heard on a phonograph.

THEN the Pathe all-wood sound chamber, built on the violin principle, transmits a sweet, rich tone, impossible to obtain from metal or parietal chambers.

Send for Pathe Catalogue. It contains scientific explanation of exclusive Pathe methods of recording and reproducing sound, together with interesting data on Period Furniture. Will be mailed free on request.

Grows Her Own Vegetables

Mrs. C. J. Doherty Endorses The Home Garden Movement

MRS. C. J. DOHERTY, Wife of the Minister of Justice.

"A few practical and patriotic women in each community—women who are thorough housekeepers—were to give demonstrations on the proper use of substitutes, and on how to buy and prepare food in the most economical manner. It would reach women who are not touched by newspaper or platform publicity, and I believe it would have far-reaching results."

What, after all, are luxuries in food? One man's necessity is another man's luxury. To a certain percentage of the community roast beef is and always has been a luxury—not to be had except on very special occasions. To others it is a commonplace on the table.

"When I was in the States recently I visited the School of Domestic Arts and Sciences, Chicago, where great work along this line is being carried on. Their motto is one that applies to Canada quite equally well: 'The spirit and efficiency of the home underlie human welfare and the very life of the country.'"

"After what she heard at the women's conference with the cabinet, Mrs. Doherty thinks that it would be impracticable to attempt to enforce rationing in a great, sparsely populated country like Canada, with eighty per cent. of her people in the country and the small towns and villages."

"The 'farm slacker' is no better than the man who would not get into khaki when the call for recruits came. The ravages of famine can surpass anything that a human foe can do in weakening the morale, and food that is supplied for men's bodies as surely as ammunition for their guns in time of war."

"It takes time to free people from the shackles of habit, however. The enervating life of the city has its grip on many a man who would be a thousand times better if he were on the land. It is frequently a sign of physical deterioration and corresponding mental decline that a young man will hang around a store from preference, doing namby-pamby work behind a counter and spend his nights in the pool-room or the moving picture house. This state of affairs is not peculiar to the city. Every community has its percentage of loafers. In the village and small town there is always the man who wastes his time at the corner grocery store. This spirit of idleness is the kind of thing that breeds dry-rot in a nation."

"The time has come when the man who cannot serve in the army, and who is not engaged in other essential industries, must go back to the farm. He is needed for the second line of defence. There is no use blinking at facts. Every thinking person must now be aware of the salient features of the food situation of Europe. And anyone with a conscience must ask himself, 'How does this affect me? Am I a parasite or a producer?'"

"The American Bell Telephone Company's earnings last year increased \$30,000,000."

"That is not to say that they are not governed largely by patriotic motives also, but in the poorer classes, especially, you find that things are cut so fine that little margin is left for needless extravagance. Again, people of means, who are dominated by purely patriotic motives, are glad to curtail their usual food supplies, and I think that the Government has been set up all by Government House is excellent."

"It would be a good thing, I believe, if knowledge were more generally diffused on the use of substitutes. There are so many women who are both ready and willing to economize, but they don't know the best way to set about it. They are heavily handicapped because they haven't the necessary knowledge of food values."

"What would you suggest as being the best means of reaching all the women? Mrs. Doherty was asked."

"If a few practical and patriotic women in each community—women who are thorough housekeepers—were to give demonstrations on the proper use of substitutes and on how to buy and prepare food in the most economical manner, it would reach women who are not touched by newspaper or platform publicity, and I believe it would have far-reaching results."

"Everybody agrees that we must do without luxuries in food as in everything else at the present time," says Mrs. Doherty, "but everybody cannot agree as to what luxuries are. The term is relative to one's means."

"After all it's the financial pinch rather than the patriotic motive that pulls a great many people up short on this issue. Money only goes half as far as it did formerly, and it's a problem for most housewives to run their homes comfortably even on a greatly increased salary."

"That is not to say that they are not governed largely by patriotic motives also, but in the poorer classes, especially, you find that things are cut so fine that little margin is left for needless extravagance. Again, people of means, who are dominated by purely patriotic motives, are glad to curtail their usual food supplies, and I think that the Government has been set up all by Government House is excellent."

Women and The Farms

Halifax Writer Says Duty of Every Nova Scotia Woman, Every Nova Scotia Girl is to See That the Men Folk Fight or Farm; Women Must Show the Way to Loafers, Funkers, and Pink Tea Tango Boys!

(Written for the Halifax Herald by Isabel M. Ross.) While it is undoubtedly the right and patriotic thing for women to go on the farms this year yet it is only natural that they should ask themselves 'Am I taking the place of a soldier or am I standing as a shield between the man who finks his duty in the great outdoors and the work that is awaiting him there?'

There are two distinct classes. No man of spirit wants to see a woman working in the fields to feed him while he continues to fink, mope-like, among the city amusements which lure him. Yet that is what many of the parasitic class are doing.

"The 'farm slacker' is no better than the man who would not get into khaki when the call for recruits came. The ravages of famine can surpass anything that a human foe can do in weakening the morale, and food that is supplied for men's bodies as surely as ammunition for their guns in time of war."

"It takes time to free people from the shackles of habit, however. The enervating life of the city has its grip on many a man who would be a thousand times better if he were on the land. It is frequently a sign of physical deterioration and corresponding mental decline that a young man will hang around a store from preference, doing namby-pamby work behind a counter and spend his nights in the pool-room or the moving picture house. This state of affairs is not peculiar to the city. Every community has its percentage of loafers. In the village and small town there is always the man who wastes his time at the corner grocery store. This spirit of idleness is the kind of thing that breeds dry-rot in a nation."

"The time has come when the man who cannot serve in the army, and who is not engaged in other essential industries, must go back to the farm. He is needed for the second line of defence. There is no use blinking at facts. Every thinking person must now be aware of the salient features of the food situation of Europe. And anyone with a conscience must ask himself, 'How does this affect me? Am I a parasite or a producer?'"

"The time has come when the man who cannot serve in the army, and who is not engaged in other essential industries, must go back to the farm. He is needed for the second line of defence. There is no use blinking at facts. Every thinking person must now be aware of the salient features of the food situation of Europe. And anyone with a conscience must ask himself, 'How does this affect me? Am I a parasite or a producer?'"

LEGAL TABLE SALT advertisement with logo and text: THE HARDY LITTLE SPOUT LETS THE SALT RUN OUT, LEGAL TABLE SALT, FREE RUNNING, THE CANADIAN SALT CO. LIMITED.

The farmer is in dire need of his assistance. It is no longer fashionable to be a lily-fingered Beau Brummel. It is a matter of reproach, not only to say necessary to do something, but to produce something—above all, produce something. And last something is food!

There are countless other ways and means by which women, with the exception of a little sewing, can simplify modern trade conditions, lessen the complexity of the industrial system and the time and energy that are most needed for the place where they are most needed—on the land.

And when they have done their duty in this regard yet another responsibility rests on them—one that should be pleasant rather than onerous. The Canadian Food Board has sent out a S. O. S. call for 25,000 boys. 'S. O. S.' signifies Soldiers of the Soil. These boys are going to render service that will make their mothers and every one belonging to them proud of them for all time.

"It makes the country-woman mad to come to the city and find husky men running devotory and being 'half a yard of ribbon over a counter.' It doesn't make us particularly anxious to go back and help those who are 'half a yard of ribbon over a counter.'"

"The women of Canada have not been the same way. They don't begrudge one iota of their labor for the man in khaki, but they would not go on having dinner at 8 o'clock in the morning and still be used to spending the live-long day in outdoor work so that she has some right to be a bit grumpy."

Once again—if they only will—they can supply the inspiration and help to fill up the ranks of the agriculture army. Only the other day one of the wisest men in the cabinet remarked: "The cry of the world for food now has a positive pang in it."

Can a Canadian woman listen to that and not be hurt and touched by it? Doesn't it clutch the heart with its grim portent of worse to come? If a starving child were waiting outside her doorstep—a haven of warmth, nourishment and safety within, a howling wilderness without—would she go on having dinner and let its cries roar feebler till they were no more? Alas! Europe today is like that waiting child, and we, in the midst of our plenty, should have a sense of responsibility infinitely greater than anything we feel now.

The chairman of the Canadian Food Board would enlist the services of all the women of the Dominion in a mighty and immediate effort to clear the pool-rooms, to sweep the street corners clear of loafers and to fill the 'kiddie'-with men. It can be done from the home. Every woman has an influence over some man. She can shame, if not inspire him into doing his duty.

There are hundreds of men all over the country who are doing 'soft jobs.' It is time for the women to make themselves felt on this question and to have no compunctions about taking up any kind of work that they can do as well as men, outside the latter, if necessary. The man who is 'the woman's work must go. He is wanted in the fields of Canada."

BAKER'S BREAKFAST COCOA advertisement with text: BAKER'S BREAKFAST COCOA, The food drink without a fault, Made of high grade cocoa beans, skilfully blended and manufactured by a perfect mechanical process, without the use of chemicals. It is absolutely pure and wholesome, and its flavor is delicious, the natural flavor of the cocoa bean. The genuine bears this trade-mark and is made only by WALTER BAKER & CO. Limited, Montreal, Can. Dorchester, Mass. Established 1780.

VALE OF GLENDALOUGH (Christian Science Monitor.) The vale of Glendalough is known as one of Ireland's beauty spots. It is in the heart of the Wicklow mountains and in these days of motors is easily reached by road. The road from Rathfarnham winds along the valley, at the bottom of which the cheery little river, fed by the stream which forms the Glendalough lakes, bubbles its way to the sea.

The little village, which takes its name from the valley, lies round a bend of the road just as it drops down to the lake level. Where the valley widens out at the foot of the mountains two lovely lakes have formed and it is at the lower end of the second lake that picturesque Glendalough nestles under the hill.

Here, early in the sixth century, a celebrated monastic establishment was founded by St. Kevin, and here may still be seen the remains of what are known as "The Seven Churches" and the picturesque slender round tower, which is still in a state of perfect preservation. History says that St. Kevin's dwelling on the northern shore of the lake was a hollow tree, and on the southern shore a cave, only accessible by boat, as a perpendicular rock overhangs it from above.

The monastery founded by St. Kevin was repeatedly laid waste in the eleventh and twelfth centuries, and the ruins bore an indifferent reputation as a veritable den of robbers. The foundations and broken walls of several churches still remain, but the most interesting building is that known as St. Kevin's kitchen, or house, a little church-like building. The addition of a bell turret and chancel has practically changed the structure into a church, though these were probably added at a later date.

The round tower, similar to others in Ireland usually found in connection with ecclesiastical structures, is very interesting. Professor Petrie, who is regarded as an authority on old Irish architecture, says that they were probably designed to serve the twofold purpose of bell-towers, and strongholds in which the monks could retire in case of sudden attack. The earliest seem from certain evidence to have been built about the ninth century. The ornamented doorways are almost always placed well above ground level and the tower is divided into stories twelve feet in height, each lighted by a small window. The lowest story has no window and is often built as a solid structure. The walls are from three to five feet thick. Some seventy of these towers still remain in Ireland, of which thirteen are perfect. That at Glendalough is over sixty feet high.

Nine hundred cases of eggs from China have arrived in New York. Beauty is more dependent upon a clear complexion than upon regular features. A woman may have a pug nose and a large mouth but if her skin is clear and her teeth good she will be attractive. The dentist can remedy defective teeth and a short treatment with our Alternating Method of Oil Cream for use at night and a Venereal Cream for the day will make a wonderful change in a few days. If you desire for \$2.00 a box of our Alternating Method of Oil Cream for use at night and a Venereal Cream for the day we will mail you a postal order booklet and samples of Mahalia Face powder and Scent.

Unselfish Service advertisement with logo: S.O.S. Soldiers Of the Soil. Men may go to the front and fight but boys can go to the farm and help raise the food for the fighting men. You see the war is a circle of duties. It is the duty of the fighting man to fight, but he must have food or he cannot fight. And it is the duty of the farmer to grow crops and produce the food but we must help to do it. So Canadian boys have a chance to do their part to help the farmer who grows the food to feed the fighting men. The Canada Food Board has organized this army of boys, and it calls for 25,000 sturdy, clear brained Canadian lads from the cities and towns, from the villages and the farms to join this army of food growers. Every boy of 15 to 19, inclusive, is eligible. It is a national army just as truly as that of the soldiers who go to France. The young Soldiers of the Soil who serve their country on the farms of Canada this summer will be presented by the Dominion Government with Bronze Badges of Honour, just the same as the soldiers who go to the front are decorated with service medals. Enrollment in the Soldiers of the Soil begins on March 17 and will continue for a week following. By April 18 Canada wants an army of 25,000 boy Soldiers of the Soil. Enroll with High School Teachers, Y. M. C. A. Secretaries, Boy Scout Masters, and others in your neighborhood. CANADA FOOD BOARD Ottawa Henry B. Thomson, Chairman

THE WRENS
Women's Branch of Service in The British Navy

Because the "Wrens" (the Women's Auxiliary Army Corps) have succeeded beyond all possibility of adverse criticism and have more than justified the experiment which authorized their organization the British government has created a similar branch of service in the navy. Officially this body, which is in process of organization, is known as the Women's Royal Naval Service but for short it is called the "Wrens."

Dame Katherine Furse, G. B. E., is director of this new branch of women's work and she brings to the undertaking all the wisdom resulting from her three years' experience in organizing the V. A. D.'s. No one need be told of the efficiency and value of that body for the V. A. D.'s have gone from service to service and each has proved more valuable than the last.

Support and substitution are the reasons for the existence of the "Wrens" as they are for that of the "Waves" and through them men are released for naval duty. They work under the direct supervision of the second sea lord of the board of admiralty. It is indeed thrilling to know that in its hour of need England's navy is able to call upon her daughters but invites their aid; even more thrilling is the fact that England's daughters are both willing and able to answer that call—able because ever since the war began they have voluntarily trained themselves for this very service which their broad vision showed would be needed.

The work to which the "Wrens" are called is both difficult and dangerous, but none the less welcome because of that. It means that, today, women are actually in the firing line.

In the case of officers and those in the ranks, the greatest care is used in selection. Fitness is the great thing kept in mind. Personality is all-important. Birth and education are indispensable qualifications for those highest in rank and a knowledge of the work-a-day world is of decided advantage. Application for enrollment must be made at the Professional Registry, Ministry of Labor, Queen Anne's Chambers, S.W. Personal application is preferred to that by letter. The age limit is from twenty-five to forty-five.

When accepted, the applicants referred to become "section leaders" and may rise to the rank of "principal." A short period of special training will follow (probably given by a "WAVE" who has mastered details of service and discipline).

"Pape's Diapiesin" Ends all Stomach Distress in Five Minutes
Time is! Pape's Diapiesin will digest anything you eat and overcome a sour, gassy or out-of-order stomach surely within five minutes. It soothes your meals don't eat comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Get from your pharmacist a fifty-cent case of Pape's Diapiesin and take. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal griping. This will all go, and besides, there will be no sour food left over in the stomach to poison your breath with noxious odors.

Pape's Diapiesin is a certain cure for all cases of indigestion, because it takes hold of your food and digests it just the same as if your stomach wasn't there.
Relief in five minutes from all stomach misery is waiting you at any drug store.
These large fifty-cent cases contain enough "Pape's Diapiesin" to keep the entire family free from stomach disorders and indigestion for many months. It belongs in your home.

GIRLS! BEAUTIFY YOUR HAIR AND STOP DANDRUFF

Hair Becomes Charming, Wavy, Lustrous and Thick in Few Moments
Every Bit of Dandruff Disappears and Hair Stops Coming Out

For a few cents you can save your hair. In less than ten minutes you can double its beauty. Your hair becomes light, wavy, fluffy, abundant and applies a young girl's after applying some Danderine. Also try this medicine on a cloth to clean the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Danderine beautifies the hair. Danderine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yet really new hair growing all over your scalp. If you care for pretty, soft hair, and lots of it, surely get a small bottle of Danderine from any drug store or toilet counter and just try it.

and this will be followed by training in the strictly naval service. The main body of the "Wrens" are known as "naval ratings." Included in these are cooks, stewards, telephone and wireless operators, writers (clerks), and aeroplane mechanics. Application for admission to any of these groups must be made through an employment agency in the usual way and Crystal Palace is to be the training station.

Women and girls living at home will be employed as Wrens whenever possible and when off duty will become private citizens. For all classes the uniform is dark blue—the color that belongs to the navy. The lower grade wear a frock coat; higher ranks wear a natty skirt and coat, but Dame Furse and her four assistants wear skirts and coat of fine-faced cloth and three-cornered hats with the royal navy crown and badge on a piece of St. Patrick's blue.

GIANTS' STAR PITCHERS PERFORM
New Style of Play Introduced — Some of the Recruits Released
Marlin, Texas, Mar. 26.—Instead of playing nine innings in their game today, the Giant regulars and Yungans played two halves. First, the regular team batted until twenty-seven men had been retired, and then the youngsters had their fling at this new game. The second team had quite a little difficulty in getting wise to this new method of scoring, and were defeated, 9 to 0.

The queer game brought out some pretty good pitching, as Causey, Perrett, Johnson and the youngsters to two hits. What was of more importance, however, was the fact that Perrett, Schupp and Pol Perrett were doing their first pitching since McGraw started the season in batting practice. This afternoon he pitched against the regulars until nine men were put out, and during the time Doyle was the only one who could nick his left-handed shoots for a hit.

Perrett, who also wore a sore arm for some time, pitched against the youngsters until he had retired twelve men and he got rid of eleven before Joe Will made the first Yanigan hit. Before Perrett went in to pitch, Joe Schupp, who had been farmed out to Rochester last season, got rid of the first nine youngsters to face him.

Joe Schupp, one of the young infielders, who is making his third visit to the team, was the first to get a hit. He was the first to get a hit in 1917 and 1918, the club now is obliged to release him outright. Pitcher Wilbert Hebbel of Bush, Idaho, Mike Hogans of Cohoes, N. Y., and Outfielder Clarence Pitt have been turned over to Kansas City under optional agreement.

McGraw expressed himself as greatly pleased with his flight to Waco with Major Gilkinson yesterday, says it was one of the most thrilling experiences of his life. The distance from Marlin to Waco, twenty-six miles, was covered in twenty minutes.

WAR FEATS OF AN ALPINO STRONG MAN

(By Lewis H. Freeman, in the April Popular Mechanics Magazine)
Perhaps the most spectacular cinema film ever produced was that one in which the incomparable Italian actor, Maciste, fights—more or less single-handed—a battalion of two of Austria's Kaiser's regiments among the eternal snows of the high Alps. And perhaps the one most spectacular scene of this whole great film is that in which the hero, in order to bring about the discomfiture of his enemies, carries up a slippery mountain path on his stout feet a gun which, if it had been the real thing—would have weighed two or three hundred

But there is at present wearing the eagle feather of the matches Alpino—formerly a miler in the Italian lead fields—of scarcely less physical strength than the doughy hero of "Calabria," who has, moreover, performed feats of strength and prowess in actual warfare equal to those enacted by his famous cinema prototype for the camera. I heard of him first last winter, when Col. "Peppino" Garibaldi, grandson and worthy successor of the "Libertador," told me of his first last winter, when he was completely relieved of these troubles and had been unusually well ever since.

"Fruit-a-lives" is fresh fruit juices, concentrated and increased in strength, combined with finest tonics, and is a positive and reliable remedy for Headaches and Constipation.

ALARM IN GERMANY OVER GREAT LOSSES
London Times says Judges-General Foch May Have Important Post; British Press Comment
London, Mar. 29.—The Daily Chronicle today says:

"An announcement bearing on the coordination of British and French military operations in France may be expected almost immediately. Under the contemplated arrangement an important role will be assigned to General Foch."
The Times, summarizing on Thursday's fighting, says that on the surface the German position in the West is unfavorable. The Germans captured the important railway junction of Mont Didier, South of the Somme, were compelled to relinquish Perriers and Arras. The situation is probably better than it seems. There is no longer the smallest doubt the enemy offensive was terribly costly. One proof is that Ludendorff himself has been moved to issue an explanation of the price of the advance.

FOR MARRIED MEN ONLY
When your razor is dull as a hoe, ask your wife if she will let you use Putnam's Corn Extractor; it's the only painless and safe cure. All dealers sell "Putnam's" at 25c. per bottle.

LICHNOWSKY MAY BE VICTIM OF HUK REVENGE FOR FRANKNESS
Zurich, Mar. 28.—The Germania of Berlin, announces that Prince Lichnowsky will be brought to trial on a charge of violating official secrets and acting contrary to orders. A prisoner found guilty on this charge is liable to a term of imprisonment or a fine not exceeding 5,000 marks.

CHILD'S TONGUE BECOMES COATED IF CONSTIPATED
When Cross, Feverish and Sick Give "California Syrup of Figs"
Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely. A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sour, then feverish, head hot, sleep all cut naturally, breath is bad, system full of cold, sore throat, stomach ache or diarrhoea. Listen, mother! See if tongue is coated, then give a spoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food pass out of the system, and you have a well, playful child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.
Ask your druggist for a bottle of "California Syrup of Figs" which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with content.

NO MORE NERVOUS BEST LIVER AND HEADACHES

BOWEL LAXATIVE FOR FAMILY USE
"Cascarets" Regulate Women, Men and Children Without Injury
Take When Bilious, Headachy, for Colds, Bad Breath, Sour Stomach.

Instead of nasty, harsh pills, salt, or other dangerous cathartics, why don't you keep Cascarets handy in your home? Cascarets act on the liver and cleanse the bowels without griping and sweeten the stomach. You eat one or two at night like candy and you wake up feeling fine, the headache, biliousness, bad breath, coated tongue, sour stomach, constipation, or bad cold disappears. Mothers should give Cascarets, mild, feverish or bilious children a whole Cascarets any time—they are harmless and safe for the little folks.

MISS ANNIE WARD.
112 Hacen St., St. John, N. B.
"It is with pleasure that I write to you of the great benefit I received from the use of your medicine, 'Fruit-a-lives.' I was a great sufferer for many years from Nervous Headaches and Constipation. I tried everything, consulted doctors, but nothing seemed to help me until I tried 'Fruit-a-lives.' After I had taken several boxes, I was completely relieved of these troubles and had been unusually well ever since."

MISS ANNIE WARD.
"Fruit-a-lives" is fresh fruit juices, concentrated and increased in strength, combined with finest tonics, and is a positive and reliable remedy for Headaches and Constipation.
50c a box, 6 for \$2.50, trial size 25c. At all dealers or Fruit-a-lives Limited, Ottawa.

AMSTERDAM SURPRISED AT COMMENT IN AMERICAN NEWSPAPERS
Amsterdam, Mar. 28.—Great surprise has been caused here by American newspaper comment on the alleged refusal of Holland to accept American grain in return for the use of Dutch ships. Nothing is known of such a refusal, and the semi-official news agency at The Hague is informed that the Dutch foreign office has taken no step that could possibly warrant the impression in America that Holland has refused the grain.

MIDDLE AGED WOMEN
Are Here Told the Best Remedy for Their Troubles.
Freemont, O.—"I was passing through the critical period of life, being forty-six years of age and had all the symptoms incident to that change—heat flashes, nervousness, and was in a general run down condition. It was hard for me to do my work. Lydia E. Pinkham's Vegetable Compound was recommended to me as the best remedy for my troubles, which it surely proved to be. I feel better and stronger in every way since taking it, and the annoying symptoms have disappeared."—Mrs. M. Gonzalez, 215 Napoleon St., Fremont, Ohio.

North Haven, Conn.—"Lydia E. Pinkham's Vegetable Compound restored my health after everything else had failed when passing through change of life. There is nothing like it to overcome the trying symptoms of menopause."—Mrs. F. Florence Lamb, Box 197, North Haven, Conn.

In Such Cases
LYDIA E. PINKHAM'S VEGETABLE COMPOUND
has the greatest record for the greatest good.
LYDIA E. PINKHAM MEDICINE CO. LYNN, MASS.

VACANT LOTS AND BACK-YARD GARDENS

Campaign for 1918 Embraces All Cities, Towns and Villages in Canada—Now is the Time to Organize
(By Frederick Abraham, Chairman Vacant Lot and Back Yard Garden Section, Canada Food Board.)

The production of food was never of more vital importance than in the year 1918. The food situation of the world is not only grave today, but it will be increasingly so during the progress of the war and for a considerable time thereafter. The Canada Food Board's duty is to see to it that food production this year be at its maximum. During the last year or so the cultivation of vacant lots and home gardens in many towns and cities was attended with highly satisfactory results. In Montreal for instance, it is estimated that not less than \$100,000 worth of vegetables and fruits were grown on vacant lots. Calgary had 1,118 lots under cultivation covering an area of 220 acres. It is important that this movement should be instituted in every town and city in the Dominion.

Where there are no organizations the mayor of each municipality should at once call a meeting of its citizens, including women, for organizing purposes. These meetings should be held in the homes of its prominent citizens, the clergy, the press, horticulturists, heads of various societies, public houses, etc. A permanent chairman or president and as many officers as may be thought advisable should be elected at this meeting, and at least two committees formed, to include vacant lots and home gardens.

To these can be added committees on publicity, fertilizing and such others as may appear necessary. The town or city should be divided into districts, each in charge of a chairman and a local committee. The importance of this movement is so important that it is important to secure the attendance of those who are disposed to cultivate vacant lots. The importance of these local meetings cannot be too strongly emphasized. The sub-committees will attend to such duties as the securing of vacant land, getting cultivators interested, etc.

The workers should be grouped on land as near their homes as possible. In this connection it will be found that, except in rare cases, the average citizen has sufficient time and strength to cultivate only a lot 10x100 feet.

It is desirable that the growth of only standard vegetables should be encouraged, such as potatoes, beets, carrots, beans, lettuce, onions, parsnips, etc. These are high in food value and are easily grown by those who will volunteer.

Doctors Stand Amazed at Power of Bon-Opto to Make Weak Eyes Strong—According to Dr. Lewis
Guaranteed to Strengthen Eyesight 50% in One Week's Time in Many Instances
A Free Prescription You Can Have Filled and Use at Home
Philadelphia, Pa. Victims of eye strain and eye weakness, and those who wear glasses, will be glad to know that according to Dr. Lewis there is real hope and help for them. Many whose eyes were failing from this remarkable prescription and many who once wore glasses say they have thrown them away. One man says, after using it: "I was almost blind, but after using it for a few days I can read everything without my glasses and my eyes do not hurt any more. At night I feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without my glasses, but after using this prescription for 15 days everything seems clear. I can read even fine print with ease." Another who used it says: "I was bothered with eye strain caused by overworked liver eyes which induced severe headaches. I have worn glasses for several years both for distance and work and without them I could not read my own name on an envelope on the typewriter. I have worn glasses all day long, but after using this prescription for 15 days I can do both now and have discarded my long-wearing glasses altogether. I can count the fluttering leaves on the trees across the street now, which for several years I could not do. I have been blind for several years, but after using this prescription for 15 days I can now see the trees and the ground under my feet. I cannot express my joy at what it has done for me."

It is believed that thousands who wear glasses can save their eyes by using this prescription for 15 days. Write for a free prescription for 15 days everything seems clear. I can read even fine print with ease. Another who used it says: "I was bothered with eye strain caused by overworked liver eyes which induced severe headaches. I have worn glasses for several years both for distance and work and without them I could not read my own name on an envelope on the typewriter. I have worn glasses all day long, but after using this prescription for 15 days I can do both now and have discarded my long-wearing glasses altogether. I can count the fluttering leaves on the trees across the street now, which for several years I could not do. I have been blind for several years, but after using this prescription for 15 days I can now see the trees and the ground under my feet. I cannot express my joy at what it has done for me."

MOTHER AND CHILDREN HAD AWFUL COUGHS

WERE CURED BY DR. WOOD'S RAYWAY PINE SYRUP
Mrs. Arthur Appleyard, Novar, writes: "This winter my children and I had awful colds and coughs which we got by being in drafts. I tried a number of different remedies for us, but got no relief. I thought I would try Dr. Wood's Norway Pine Syrup, and I found it a most excellent and sure cure. It gave relief to the tickling in the throat and stopped the cough, and with a few bottles we were all cured."

Dr. Wood's Norway Pine Syrup is a remedy that has been on the market for over twenty-five years, and we can recommend it as being, without doubt, the best cure for coughs and colds that you can possibly procure. There are a lot of imitations on the market, so when you ask for "Dr. Wood's" see that you get it. Put up in yellow wrapper; three pine trees the trade mark; price 25c and 50c; manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

under for this work, many of whom will be amateurs. For instance, tomatoes and strawberries will highly palatable, are low in food value. Only seed of proven quality should be sown. It is just as cheap to raise good as poor produce. These suggestions are naturally not intended for the experienced gardener.

The primary work of the committee on home gardens will be to encourage the cultivation of vegetables in spaces usually devoted to flowers. Aside from the patriotic feature of the work it gives a direct money return while adding to the food wealth of the community. It is the intention of the board again to prohibit the cutting of again vegetables in eastern Canada to Oct. 15, 1918. This will further emphasize the necessity of garden production on the widest possible scale.

In many places very effective work was done by the freemen and the police. Their gardens were often models in this connection and an incentive to other groups.
Ludwig Dreynfus, who died in New York recently, left over a million dollars to Jewish charities.

New York school children sold \$1,000,000 war savings stamps in two days.

When Cross, Feverish and Sick Give "California Syrup of Figs"

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely. POOR DOCUMENT

THE EVENING TIMES AND STAR, ST. JOHN, N. B., SATURDAY, MARCH 30, 1918

FOCH TO SUPREME COMMAND OF FRENCH AND BRITISH

London, March 29—The Post says that the French and British governments have decided to appoint General Foch generalissimo on the western front during the present operation.

London, March 29—Official information has reached Washington that the French chief of staff, has been appointed to supreme command of the Allied and American forces in France. This means unification of all the armies opposing the German, a step which means and French military men long have urged and which apparently brought about by recognition of the imperative demand for concentration to hurl back the gigantic thrust of the enemy in France. When he sent a cablegram to General Foch today congratulating him "on his new authority." There was no explanation at the White House of what the president meant and it is understood that there will be no official comment until after an announcement comes from France.

The president's message said: "May I not convey to you my sincere congratulations on your new authority? Such unity of command is a most hopeful augury of ultimate success. We are following with profound interest the bold and brilliant action of your forces."

General Ferdinand Foch is of Basque origin. He was born at Tarbes in 1851, but was raised at Metz. Rather than become a German after the annexation of Lorraine, Foch preferred to return to France and help to prepare France for her revenge for the taking of Alsace-Lorraine.

He entered the Polytechnic School with the number 72. He left it in the 45th of his class—a rank that was not considered as justifying hopes of a great future. He never dazzled by his brilliance but he showed that wonders could be accomplished by application. He never ceased study, except to teach.

Foch began by mastering the strategy of the war of 1870 in the minutest details. Knowing the mentality of the Germans, he counted upon their repeating in future conflicts the manoeuvres that had succeeded. He also expected them to make some of the old mistakes.

In his teachings at the Superior War School and in his writings he held always the idea of an inevitable aggression by Germany, sprung with lightning-like rapidity, after long premeditation, and most minute preparation—the swift thunderbolt of the opening to develop into a struggle of colossal proportions.

To parry the blow, Foch said repeatedly, France must have a staff working in the same direction, practicing the same doctrines under a vigorous and audacious chief, shirking no responsibility, preserving the equilibrium of his mind and the force of his intelligence under formidable difficulties, and exercising without hesitation the most reputable rights over his subordinates.

His eyes in a space of less than two minutes. His report says: "The lights of the submarine disappeared and the stern rose clear out of the water. She remained in this position for fifteen seconds and then disappeared. A moment later the stern and rudder came up again and remained steady above the water at an angle of thirty degrees before passing finally from view."

NEW CONSCRIPTION BILL IN ENGLAND IS TALKED OF

London, March 29—The parliamentary correspondent of the Daily Express says that powerful influences within the government are pressing for the introduction, when parliament reassembles on April 9, of an entirely new conscription bill, which would raise the age limit to between 45 and 50 years, and which would apply conscription to Ireland and the dominions. The bill is a volunteer home defence force.

UNITED CHOIRS IN CANTATA

The united choirs of St. James' and the German street Baptist church, assisted by other local talent, rendered the cantata "From Olivet to Calvary," to an audience which packed the lower floor and balcony of the German street Baptist church last evening. Dr. P. F. Bonnell was the narrator and his fine baritone voice was greatly appreciated by the assembly. The solo parts in the cantata were taken by the following: Miss Ethel Parlee, Miss Dorothy Creighton, Miss Dorothy Key, Dr. W. P. Bonnell, R. E. Holder, H. E. Collins, T. Kingsmill, and Mr. LeRoy. The united choirs were assisted by Mrs. Harrison, Mrs. Burnham and T. Kingsmill of the Stone church. Dudley S. Robinson directed the rehearsals and played the organ with great effect. During the cantata an excellent quartet was sung by the following: R. E. Holder, Mrs. Harrison, Miss Creighton and Mr. LeRoy. After the conclusion of the cantata all the vocalists and those who took part in the cantata met at Dr. W. P. Bonnell's residence, 40 Queen square, where the remainder of the evening was most enjoyably spent. Refreshments were served.

"NERVILINE" STOPS EARACHE IN 10 SECONDS, FIXES TOOTHACHE IN 2 MINUTES

It seems to possess almost some divine power over pain. RUB ON NERVILINE. Toothache is usually due to neuralgia in the gums or to the congestion and swelling of the nerve pulp. "Nerviline" relieves congestion, you easily see why it cures toothache. "Nerviline" does more—cures any ache anywhere in any part of the body. It is in a joint or muscle; it may be in the back or in the neck; it may be in the head or chest. "Nerviline" will reach it; "Nerviline" will drive it out.

Girls! Make Beauty Cream! Lemon Juice Whitens Skin

Prepare a quarter pint for few cents and massage face, neck, arms and hands. Try it and see!

Any grocer will sell you two fresh lemons and your drug store or toilet counter will supply you with three ounces of orchard white. Put these in a bottle and shake well. Here you have a whole quart of the most wonderful lemon lotion at about the cost one must pay for a small jar of the ordinary cold cream.

CAN'T BEAT "TIZ" WHEN FEET HURT

'Tiz' for Sore, Tired, Puffed-up Aching, Calloused Feet or Corns

"I used 'TIZ' every time for any foot trouble." You can be happy-footed in a moment. Use 'Tiz' and never suffer with tender, raw, burning, blistered, swollen, tired, aching feet. 'Tiz' and only 'Tiz' takes the pain and soreness out of corns, callouses and bunions. Get it as soon as you put your feet in a 'Tiz' bath, you just feel the happiness coming. 'Tiz' is the best foot powder on the market. They take the pain and soreness out of your feet and cause sore, inflamed, aching, swollen feet. 'Tiz' is a great 'Tiz' instantly draws out all the poisonous exudations which puff up your feet and cause sore, inflamed, aching, swollen feet. 'Tiz' is a great 'Tiz' instantly draws out all the poisonous exudations which puff up your feet and cause sore, inflamed, aching, swollen feet. 'Tiz' is a great 'Tiz' instantly draws out all the poisonous exudations which puff up your feet and cause sore, inflamed, aching, swollen feet.

IN BETTER HEALTH THAN WHEN THE WAR BEGAN

French Troopers Have Prospered Under Rules of Camp and Battlefield

French Front, Feb. 28—(Correspondence Associated Press)—French armies in the field are more healthy than at the beginning of the war say the medical reports. This is attributed to hygienic precaution and the betterments introduced in the housing and care of the men. Typhoid and analogous diseases have become very rare. During the first ten days of January this year the medical reports were reported as the total in all the French armies, whereas in December, 1914, and January, 1915, the average reached well over four figures and was very disquieting. The disappearance of these dangerous maladies is attributed by the doctors to the introduction at the end of January, 1915, of compulsory inoculation of the troops with anti-typhoid serum.

MEAT CAUSE OF KIDNEY TROUBLE

Take Salts to Flush Kidneys if Back Hurts or Bladder Bothers

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally. Salts to flush the kidneys tell us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel the uric acid. If you are sluggish and weak, then you suffer with a dull misery in the kidney region, sharp pains in the back or side, headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. Urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night. To neutralize these irritating acids, to cleanse the kidneys and flush out the body's uric waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is not a habit-forming drug, it is a natural salt, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder trouble. Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

WILL CULTIVATE THE VACANT LOTS

Formation of War Gardens Association to Promote the Work of Food Production in the City

To accentuate the difference between vacant lot talk and a lot of vacant lots the War Gardens Association of St. John has been brought into being. The promoters are leading members of the Rotary Club, of the Board of Trade, the Retail Merchants' Association and of good citizenship generally. Its main purpose is to produce food for home consumption and thus relieve the front line areas for export to the soldiers and civilians of Great Britain and the allied countries. Incidentally, other valuable purposes will be served. This will develop as the work of the association progresses.

HOW ONE MAN PRODUCED

H. W. Laird, of Fordwich, Ont., on 200-acre farm, made an unusual record last year in the production of food. His record looks like a fairy tale, but it is quite within the bounds of duplication by many others, if help is secured or man's energy is equal to the task. During the last twelve months he put on the market 22,400 pounds beef, 109 pounds pork, 11,221 pounds milk, 248 pounds butter-fat, 1,010 pounds maple syrup, 338 dozen eggs. He also raised two draft colts and seven brood sows.

THE SPRING TONIC FOR PALE, THIN PEOPLE

If You Want to Gain in Weight and Recover Your Appetite, Energy and Ambition, Try This Well Known Remedy

With the passing of winter many people feel weak, depressed and easily tired. The body lacks that vital force and energy which pure blood alone can give. In a word, what is needed is a blood-purifying, nerve-restoring tonic is needed to give renewed health and energy. Dr. Williams' Pink Pills are an all-year-round blood-builder and nerve tonic, but they are especially useful in the spring. Every dose helps to make new, rich, red blood, and with this new blood returning strength, cheerfulness and good health quickly follows.

A COMPLETE WRECK

Mrs. C. Forsythe, R. R. No. 2, Fisherville, Ont., says: "At the age of four years my daughter Viola was feeling very much run down in the spring. Then she was attacked with whooping cough which left her a complete wreck. She had no appetite, could not sleep at night and was subject to chills which sometimes kept her in bed for the day. She was doctoring steadily, but not apparently getting the least benefit, and I naturally grew very anxious. One of my neighbors suggested giving her Dr. Williams' Pink Pills, and I got a box. When she began using the pills she weighed only 87 pounds. Before the box was all gone I sent and got six more boxes, and under their use she constantly grew stronger. Her appetite improved, the color came back to her cheeks, she could sleep well, and looks like a new person, and with all this while using the pills she gained twenty pounds in weight."

A SPRING COLD

Mrs. Chas. Winegarder, Delhi, Ont., says: "Last winter my daughter Ruby was taken with a bad cold. She seemed weak, had a constant pain in her side, grew pale, and as the remedies usually used in cases of this kind did not help her we feared she was going into a decline. I decided to give her Dr. Williams' Pink Pills and got six boxes. Before she had used them all, she was again well and strong. The cough had left her, she had a good appetite, the pain in her side disappeared, and a nice rosy color had returned to her cheeks. I have therefore much reason to speak warmly in praise of Dr. Williams' Pink Pills."

FREDERICTON FIRE

Fredricton, March 29—Fire broke out in a set of buildings in the heart of the city this afternoon. Eighteen head of cattle and ten horses were in the stable when fire originated. All stock but one horse was got out. Fire spread to adjoining buildings, but was extinguished before it got headway. Property of Seale & Lamson suffered \$8,000 loss.

TOO LITTLE EXERCISE

THE necessity of using medicine to regulate the action of the liver, kidneys and bowels is largely due to the changed conditions of life during recent years.

Our fathers lived a life of activity in the open air. If they ate heartily they had sufficient exercise to keep the liver and bowels active and to thereby remove the poisonous waste from the body. To-day we get too little exercise and too little fresh air. The food we eat is more concentrated and artificial. The result is much discomfort and the development of serious disease from constipation of the bowels and torpid condition of the liver. Kidney disease, rheumatism, lumbago, backache—all have their beginning in the inactivity of the liver and bowels.

DR. CHASE'S KIDNEY-LIVER PILLS

The great secret of keeping in health is to look to the regularity of these filtering and eliminating organs, and Dr. Chase's Kidney-Liver Pills is the most satisfactory medicine obtainable for this purpose. If you read the reports appearing in this paper, from time to time, from persons who have used this treatment with good results, you will find that Dr. Chase's Kidney-Liver Pills are effective where ordinary medicines fail. This success is due to their combined action on the liver, kidneys and bowels. One pill a dose at bedtime as often as is necessary to keep the bowels in healthful action, will also ensure the regularity of the liver and kidneys and thereby keep from the accumulating poisons which cause disease and suffering.

INJURED BY CARTRIDGE

The young boys, Fred Morrison and Charles Colwell, had their faces seriously burned yesterday afternoon by the ignition of the powder in a cartridge that they were playing with. The boys, who are about twelve years of age, and who reside in the North End, had, earlier in the day, been playing on the dump and had found a loaded cartridge. They took this cartridge to the home of Charles Colwell, 176 Adelaide street, and Fred Morrison is a son of Arthur Morrison, also of Adelaide street.

CARLOADS OF WHISKEY

There are thirty freight cars loaded with whiskey and other liquors in the Toronto terminals. According to the new order in council, all orders for liquor to be handled by express or railway companies must be in the hands of the companies by Saturday midnight. A margin of one month will thus be allowed for delivery. The advertising of native wines will be stopped, according to the statement of Chairman Flavell of the Ontario License Board.

PERSONAL AND SOCIAL NEWS OF THE WEEK IN ST. JOHN

A large contingent of St. John people are at present enjoying life in the open air in Florida, South Carolina and in cities nearer home. Weary of the sight of snowbanks and ice in their native city, these travellers seek any sort of an excuse that enables them to leave for a time their uncomfortable surroundings. That the Easter festival accomplishes their object is each season more evident. In the cities to the south of us, Spring is far advanced, indeed friends now in Florida and in the Carolinas, in writing home, speak of the loveliness of the violets and roses growing in such profusion out of doors that they have but to stretch forth their hands to possess and enjoy them. Easter Sunday, in New York, provides a sufficient reason for being in that city and although the terrible strain under which the peoples of the entire nation have labored this week must of necessity leave its impress on all that goes on, in the churches or on the promenade, that which occurs in the one or the other place, will, on that account, be none the less impressive and interesting. In St. John the week has been very quiet observed. Society in general has busied itself with church-going and with furthering patriotic entertainments. Many ladies have given their time and attention to the effort which the Soldiers' Field Comforts' Association, Mrs. George McAvilly president, is making today to continue the invaluable work the society has been doing since the beginning of the war for the continuance of which funds are urgently needed. Thus it is that while many St. John people are away from home enjoying the balmy breezes of the southern resorts, others in the midst of surroundings not so congenial, are daily doing their bit for their country. Later on when the travellers return and have resumed their patriotic duties, performing them all the better for the vacation they enjoyed, those who are now "carrying on" may discover opportunities for taking the holidays now denied them.

Croquet. Those who enjoyed the pleasant evening were Miss Crockett, Mrs. E. Church, Miss Mary McLaren, Miss Louise Anderson, Miss Edith Magee, Miss Margaret Kerr, Miss Jean Anderson, Miss Isabel Jack, Miss Ross. As usual the ovation in Stone church on Thursday evening, held under the supervision of the organist of the church, Mr. D. Arnold Fox, was an impressive and beautiful performance. The soloists were Mrs. Bell, Dr. Percy Bonnell and Mr. Kingsmill. Miss Louise Anderson, Mr. and Mrs. J. W. Griffiths and Mrs. Charlton assisted the choir adding greatly to its effectiveness. The church was filled with an interested and devotional congregation. On Thursday afternoon the ladies of St. Andrew's Curling Club held a meeting and distributed the prizes won during the winter. Mrs. Richard Hooper was elected president for the ensuing year. Mr. and Mrs. F. C. Mortimer, of Montreal, are being congratulated upon the birth of a little daughter, born last Sunday. Mr. and Mrs. Stanley Elkin are expected in St. John from Ottawa today to spend Easter. Miss Mary Brookfield, who spent a few weeks in St. John last autumn is, with her parents, at Daytona, Florida. A great deal of sympathy was felt by the citizens when on Tuesday it became known that for a second time the splendid new building of the firm of the W. H. Thorne & Co., Ltd., was on fire. Fortunately the firm is able to keep open its stores for "business as usual." Mr. and Mrs. A. P. Peterson and children left on Thursday to spend a fortnight in New York. Mr. and Mrs. Gillis Keator are in St. John to spend Easter with the Misses John to spend Easter with the Misses Sibley Smith, Duke street. Mr. Keator will leave on Monday for New York. Miss Dorothy Bayard is spending Easter with relatives in Welsford. Mr. George McLeod, of New York, is in St. John for the Easter holidays. Miss Audrey McLeod arrived home from Haverhill this week and is also at the family residence in Burpee avenue for the vacation. Mr. and Mrs. W. F. McDonald, Waterloo street, left on Thursday evening to spend ten days in New York. Mrs. George Beer, after spending some weeks with Mrs. H. B. Robinson, Hazen street, expects to leave on Monday for her home in Montreal. Mrs. E. Boyle Travers, Lancaster Heights, who is enjoying a delightful trip through the southern states with her sister, Mrs. Book, and her husband, who last heard from was leaving New Orleans to go to Memphis (Tenn.). Miss Furlong, who has been visiting friends in New York and vicinity, has returned to Boston and is expected home some time in the near future. Mrs. Allan McAvilly and children left on Monday for her former home in Toronto. Miss Joan Foster and Miss Althea Hazen are among Haverhill pupils home for the Easter holidays. Mr. and Mrs. F. E. Hanington went to Sheldon to attend the funeral of the late Miss Georgia Hanington. Lieut.-Colonel Perley and Major May have returned from overseas but expect to leave shortly for England. Mr. H. B. Schofield is in the south to spend some weeks and was a recent visitor at Alberman Park, Asheville, North Carolina. That a tablet in honor of Miss Eleanor Robinson has been placed in the Public Library by friends and admirers of this talented lady whose death was such a serious loss to the educational work of the city, is but a fitting tribute to her memory. A great many friends in St. John and elsewhere were shocked to hear of the death on Tuesday of Miss Elizabeth Wetmore Clinch as few knew that her illness was so serious a nature. Her relatives have the sincere sympathy of numerous friends. Mr. F. E. Williams, through the Geneva Red Cross, received word on Monday that his son-in-law, Lieut. Claire Gilmour, was reported in the German press as having died. Lieut. Gilmour was last seen falling back of the German lines. WHERE LLOYD GEORGE LIVES AND WORKS (Harold Spender, in the April Century). "The front door of No. 10 Downing street closes behind you, and you find yourself in a small square hall adorned on all its walls with the horns and skulls of deer and antelope, the gift of some sporting premier. Then you pass down a long passage, and notice in an alcove on the left a singularly exquisite bust of the younger Pitt. It is Pitt at the finest moment of his youthful idealism, Pitt, the 'Boy Minister.' At the end of the passage is another hall, larger and well-worned. On the left is a partitioned-off as a waiting-room for visitors; on a mantelpiece within that partition is a bust of Wellington as a young man, also splendidly heroic, instinct with a kind of spotless integrity. "The cabinet room is Lloyd George's favorite working room, and here he spends most of his days. It is singularly convenient for a prime minister's labors. The doors on each side open into the rooms of his secretaries, who can thus be easily summoned. The big table enables maps and documents to be laid out with ease. Here deputations can be received without inconvenient crowding. The war cabinet can join the prime minister at any moment; and as they always meet once a day, and often twice, the prime minister can receive them without constantly shifting his room. "From the council chamber, on the first floor, you mount by a corkscrew staircase to the upper rooms. The walls of the staircase are lined with engravings, in historical order, of the prime ministers of England, presented to Downing street by private beneficence. As you mount, you seem to be moving in the gaze of those great presences who have peopled the house, Chatham, Pitt, Canning, Grey, Peel, Disraeli and Gladstone."

Quick Starting—Quick Power —from any grade of Gas —in any weather

SPEAKING OF Low-grade Gasoline—have you seen the engine that can use it and still give high efficiency?

There is such an engine. You can see it in our Showrooms.

The trouble with Low-grade gasoline is something more than loss of power. If gas does not vaporize fully, raw gasoline enters the cylinders, and starts many kinds of motor trouble.

Now, the problem has been met by a new Chalmers engine—an engine that turns poor gasoline into high power. The secret of this very timely motor development is a "Ramshorn" manifold with a "Hot-Spot" which the gas must strike on its way to the cylinders. The Chalmers "Ramshorn" has no corners or rough surfaces to trap gasoline. Hitting the hot plate or "Hot-Spot" the gasoline is thoroughly vaporized.

These great features are simple and readily understood. Yet how far-reaching in effect!

From any grade of gasoline the Chalmers owner gets much greater power. His motor starts easily; "warms up" quickly on a cold day. He has less carbon troubles. His car runs smoothly.

Already many Chalmers Cars have reported fine performance from this great engine. You can test it, too. Come in any time and inspect to-day's Chalmers. See these new features and try them out. Drive to-day's Chalmers and get a taste of truly efficient motor performance. Let us arrange to demonstrate the Chalmers to you. Ask to take a turn at the wheel.

GOLF

Five are Tie. Pinehurst, N. C., Mar. 29.—Five professionals with 148 tied for low score at the end of the first thirty-six holes of the annual United North and South open golf championship, which began here today. They were James Barnes, Colorado Springs; Emmet French, York, Pa.; Walter Hagen, Rochester, N. Y.; J. Hutchinson, Chicago; and Alex. Ross, Detroit. Nine of the field of fifty which played today will complete in the final thirty-six holes tomorrow. Not more than half a dozen amateurs entered the tournament.

HOCKEY

Pufford Named as Referee. Ottawa, March 29.—Because of the failure of the Vancouver and Toronto hockey clubs world's series contestants for the Stanley cup, to agree on a referee for the final match to be played in Toronto Saturday night, W. Forsyth, Stanley cup trustee, has appointed Harvey Pufford of this city to act in that capacity. Mr. Pufford's assistant will probably be Tom Melville or Russell Bowie, of Montreal, or Charlie McKinley, of Ottawa.

RING

Big Bout for Baltimore. Baltimore, Mar. 29.—Jess Willard, world's champion heavyweight fighter, arrived here today. They will stay three or four days. While they came here to dispose of boxer left over from the fight between both said they will talk with police officials about the possibility of holding the fight between Willard and Fulton on July 4 in this city.

THE TURF

Trainer of Omar Khayyam Dead. Louisville, Mar. 27.—Relatives here today received a message announcing the death at Belmont Park, New York, of Charley Patterson, a widely known figure on the American turf. Patterson trained Omar Khayyam, which won the Kentucky Derby, 1917. During his career he had owned or developed many thoroughbred racing stars, among them being the great Hamburg and the champion Omment.

BASEBALL

"Chick" Farrell Dead. Chicago, March 28.—John J. (Chick) Farrell, second baseman for the Chicago Federal League team under Joe Finker, died of pneumonia at his home here, Braves May Recall Doyle. New York, Mar. 27.—After discussing his case with President Percy D. Haughton of the Boston Braves at Miami, Fla., on Monday, Charles Lincoln Herzog suddenly left for his home in St. Petersburg, declaring that he was being unfairly treated. Incidentally, George Stallings, manager of the Braves, said that he intended to recall Larry Doyle and Jess Barnes. Under these circumstances Herzog's status probably will be reviewed by the National League directors and President John K. Tener unless the wrangle is settled on or before April 16, the opening day of the championship season.

As the controversy now stands, Herzog may become a full-fledged Brave by accepting Haughton's terms which means that the latter is willing to assume the second baseman's 1918 contract with the Braves, calling for a \$10,000 salary. If, however, the Giants turn over infielder Jimmy Smith to the Braves, with no string tied to his release, Haughton agrees to reconsider Herzog's demands. But if all parties to the deal hold off

until April 16 there will be a battle royal to determine whether or not the Braves can recover the services of Doyle and Barnes, and who will pay Herzog's salary.

LAIJOIE WILL NOT PLAY FOR BROOKLYN

is at Present in New York and Says He Will Fight Sale

New York, Mar. 28.—Larry Laijoie, recently sold to Brooklyn by President McCaffery of Toronto, and James C. McGill, owner of the Indianapolis Club of the American Association, were both here yesterday discussing plans for opposing the sale. Laijoie some time ago promised to manage Indianapolis if he was released by Toronto, and Laijoie said yesterday that he proposed to stand by his promise, regardless of what action by the Brooklyn Club followed.

Laijoie was very emphatic when he said that he would not play with Brooklyn during the coming season. He will manage the Indianapolis Club or he will not play at all. Laijoie maintains that his contract as manager of Toronto does not bind him, in the event of the International League falling to operate. Laijoie was declared a free agent under baseball law when he was released by the Athletics two seasons ago, after twenty-two years in the major leagues.

President Ebbers of the Brooklyn Club purchased Laijoie's release from Toronto a week ago from President James C. McGill of Toronto. He took over Laijoie's contract with Toronto and maintains that everything connected with the transaction was executed according to baseball law.

McGill of Indianapolis is anxious to get Laijoie to succeed Jack Hendricks, who is now manager of the St. Louis Cardinals. Laijoie is anxious to go to Indianapolis and does not want to play anywhere else. Both McGill and Laijoie intimated yesterday that they would fight any appeal which President Ebbers might make to the National Commission. It is believed that if the matter cannot be amicably settled between the Brooklyn and Indianapolis clubs, it may be fought out in the courts.

Laijoie's contention is that the Toronto Club is a member of an organization which is practically defunct and that it has no right to hold ball players and prevent them from becoming free agents. Laijoie has believed all along that the International League would declare all its players free agents and would permit them to seek baseball employment anywhere they could find it.

It was on this supposition that Laijoie gave his word to McGill that he would become manager of Indianapolis just as soon as the Toronto Club official declared that it would not operate.

That the Fleming lumber mill and box factory at Hampton are to be taken over by Randolph & Baker of this city is now an established fact.

STORM OVER PLANE SHORTAGE ALSO SHIPS AND GUNS

Year Wasted, Says Lodge in United States Senate — Demand For Whole Truth to be Told People

(New York Times.) Washington, Mar. 28.—In the bitterest debate the senate has known since America's entry into the war, the administration today was accused of having woefully failed to prepare the country for its part in the world conflict. Up to this time, senators asserted, the United States has made a "pitiable showing."

Led by Senator Lodge of Massachusetts, the administration was severely arraigned for having failed to get one American airplane to its forces in France, while its long delay in turning out ships and guns was attacked as evincing a glaring lack of efficiency.

Senator New of Indiana astounded the senate when he declared that of 12,000 airplanes which the Aircraft Production Board had expected to build by July next only thirty-seven would be ready.

Senator Lodge bitterly adverted to the fact that only two ships had been turned out in America's ambitious programme to outfit the submarine.

Senator Poindexter of Washington deplored the long delay of the Shipping Board in supplying ships, telling the Senate that the board had declined offers of shipbuilders on the Pacific slope that would have put many vessels on the ways months ago.

Although spruce was needed in the making of airplanes the senator said, the Aircraft Production Board had brushed aside offers of growers in the west to supply all the spruce the government wanted at its own figure. Full Publicity Demanded.

Aroused over Senator Poindexter's aggressive attack upon the administration, Senator Overman of North Carolina undertook to rebuke the Washingtonian, saying that he ought not reveal facts relating to the war that were calculated to discourage the American nation. Senator Poindexter insisted, as did the other critics of the administration, that the people must know the truth and that the administration's mistakes, unless brought to light, were apt to go on to the end of the war.

As the result of lectures administered to him by both his father and the young woman of his choice, a certain young man decided to turn over a new leaf and show some interest in business.

"Well, Molly," said he to the girl one evening. "I am really going into business in earnest. Made a beginning already today."

"Good!" exclaimed Molly. "And what was the nature of your start?"

"I ordered my tailor to make me a business suit."

Sir George E. Foster Defied The Would-Be Bolters On The Daylight Saving Bill

Second Reading in Commons Marked By Great Excitement

Serious Break Seemed Imminent But Did Not Materialize — Debate Brings Out Strong Arguments in Favor of Measure — Carried "On Division"

(Staff Correspondence of The Toronto Globe.)
Ottawa, Mar. 29.—Something like a battle royal was witnessed in parliament today when Sir George Foster moved the second reading of the Daylight Saving Bill.

The bolters were principally Ontario Conservatives, led by William Smith (South Ontario) and John Best (Dufferin), who never have shown any love for the Union government. They told the government "very positively" that they would vote against the measure. Apparently, a dozen or fifteen of their colleagues were of the same mind, and there were one or two Unionists from the west who were prepared to cast their first vote against the government.

Dr. Clark Threatens.
Dr. Michael Clark of Red Deer said that Sir George Foster had shown much tenacity but little political sagacity in bringing the bill forward, after its defeat a year ago, and he expressed the hope that the government would not stake its life on the issue. He intimated in plain terms that if the thing was forced to a vote and the life of the government was in danger, he would cast his vote against the government.

Party lines were broken. The representatives of rural constituencies vigorously opposed the bill, while city members on both sides of the House were in favor of it. D. D. McKinnley of North Cape Breton, Sir Wilfrid Laurier's English-speaking lieutenant, advised the Minister of Trade and Commerce to withdraw the bill, declaring that "if the minister forces a division it will cause serious break in this House."

The government, however, had the solid support of the Western Unionists, with the exception of Dr. Clark of Red Deer and Thomas Hay of Selkirk, and Sir George Foster decided to take a chance and defy the bolters. "It is not into an unknown sea that we are steering our barque," he said, in closing his debate. Daylight saving had appeared itself in practically all the allied countries in the war, and the government was not wasting time on facts and figures, as some members had charged, but making a serious endeavor to aid in the production of food.

Carried "On Division."
When the question was put by the speaker the excitement was intense. The "Ayes" seemed to be as numerous as the "Noes" but Mr. Speaker thought the "Ayes" had it, and declared the second reading carried "on division."

Bill Likely Safe Now.
Of course, there is still the third reading, and a division may take place at that stage, but now that the government is committed to the bill, it is hardly likely that the members who took part in today's filibuster will carry the thing any further. They were merely trying to intimidate the government, and the administration may look forward to similar snags, but now that this attempt to defeat the Daylight Saving measure has failed, it is hardly likely that the attack will be renewed on the third reading, because those who endeavored to scare the government realize that if the government goes down, they will go down, too.

Sir George Foster explained that the bill would come into operation by proclamation of the Governor-in-Council, and that if it did not prove a success it would be unnecessary to repeal the measure, because it would be in effect only for the present season.

The minister of trade and commerce said the scheme had been first tried in Germany, but S. W. Jacobs of Montreal, the first Hebrew member of the House, claimed that it had originated with his people, reminding Sir George that "Joshua commanded the sun to stand still." Capt. Reed of Prince, P. E. I., who spent some years on the bridge of an ocean steamer, favored the measure.

Every Weak Throat Quickly Strengthened And Bronchitis Cured

Grand Results Follow the Direct
Breathing Remedy, Which Cures
Without Drugging

The country is fairly wild over the wonderful recovery that throat sufferers are making every day with Catarrhose. From ocean to ocean letters telling of rapid cures—cures when the complaint was chronic and long standing. It's a brand new principle upon which Catarrhose works—not a single dose of medicine to speak—noting to upset the stomach or spall digestion.

You can breathe through the Catarrhose Inhaler medicated air that is full of healing, soothing balsams, full of piny antiseptic essences that resemble the air of the pine woods in the Adirondacks. The piny vapor has a truly marvellous action on weak throats. It brings strength and health to the bronchitic, stops that hacking, irritating cough, prevents hoarseness and difficult breathing. You can't find anything for weak-throated people on earth more beneficial than Catarrhose. It means heaven on earth to the man that has had bronchitis, catarrh or throat irritation. You will realize this the first time you use Catarrhose, which is a scientific preparation specially designed for diseases of the nose, throat and bronchial tubes. Get the large size, it lasts two months, costs \$1.00; medium size, 50c; sample size, 25c. All storekeepers and druggists, or The Catarrhose Co., Buffalo, N. Y., and Kingston, Canada.

because, as a nautical astronomer, he knew that the farther north one went the more daylight there was, and, therefore, if it was a good thing for the United States, it would be much better for Canada. Several returned soldiers championed the bill because they had seen its advantages in France and Britain. Practically every representative of the farmers opposed the bill, but W. F. Maclean (South York) favored it.

Comparatively New Scheme.
Speaking in support of the second reading of his bill this afternoon, Sir George Foster said that daylight-saving was a comparatively new thing. It had not been adopted for many years in any country. The first daylight-saving legislation was enacted in Germany in the year 1914, or about the time of the beginning of the war. Two years later it had been adopted in Great Britain, but merely as an experiment for a period of five or six months. After this experiment a parliamentary committee was formed in Great Britain to investigate the effects of daylight-saving in the community at large.

Sir George stated that this committee in its investigation had included such countries as France, Austria and Holland, where daylight-saving had been adopted during the years 1915 and 1916. The report of the committee stated that the vast preponderance of opinion in Great Britain was in favor of "summer time," not only as a war measure, but during peace. The effect of "summer time" on the public health was found to be good, and the extra daylight had proven of great value to the workers of Great Britain. Even in the domain of agriculture, where the greatest opposition to daylight-saving had been made, the investigating committee found that it had resulted beneficially.

After the experiment of 1916 in Britain it was decided to introduce it again in the summer of 1917. At this second trial it proved so satisfactory that it was adopted again this year, and the time for its application was extended. This year "summer time" in Great Britain went into force on March 24, and will continue until the 29th of November.

Turning to the United States, Sir George said that the United States last year had conducted an investigation into daylight-saving which had led to the passage of a daylight-saving bill through the upper house. This bill, however, had not been passed into law, and it was considered in late in the year as that.

Argument of Experience.
The argument in favor of the bill, Sir George continued, was now the argument of experience. Previously in Canada two objections had always been made. First, that a daylight-saving scheme should be nation-wide. Secondly, on account of the situation in regard to the United States, it would conduce to smooth working if the two nations acted on a parity. The measure before the house would meet both these objections.

Some opposition had been raised in rural communities, but, Sir George argued, after the experience of ten or twelve great countries, covering three or four years, what held good there should hold good in Canada.

Affects Railways—They Want It.
R. L. Richardson of Springfield, Man., asked if the bill would compel the railways to change their time.
Sir George Foster replied that it would. He added that he had received a communication from the railways today suggesting that the bill should be rushed through the house and go into effect on the same date at the United States legislation.

Says Farmers Are Opposed.
A. B. McCoig of Kent, as an independent Liberal, free to support government war measures, regretted that he must oppose this bill, because it does not give due consideration to the interests of laboring people and producers. There was, he said, a strong demand for such legislation from the agriculturists of his constituency. He believed it would result in a decreased production, because farmers could not go upon the land at the usual hour by the clock because of the dew.

The minister asked Mr. McCoig why farmers could not work the usual number of hours. Mr. McCoig replied that employees would quit at 5 o'clock, which would be really only 5 o'clock, despite the fact that an hour would be lost in the morning. He read resolutions passed by farmers' clubs objecting to the proposed legislation.

Thinks Hardship Especially in West.
Thomas Hay, Selkirk, thought production in Canada would be lessened if the bill passed, and said that in the west particularly the bill would prove a hardship. The evening hours were very long. If the bill went through, workers would be called upon to get to work an hour earlier, but they would not go to bed earlier in the evening because it would still be light; therefore they would lose rest. Daylight-saving had been tried in both Brandon and Winnipeg, and in each case it had been abandoned.

Port Arthur Found It Success.
F. H. Keefer of Port Arthur was strongly in favor of the passage of the bill. It had been tried in Port Arthur, he said, and proven a thorough success. He felt that it would tend to a decided increase in production because it would give all these workers in factories, offices, etc., an opportunity to get out and cultivate vacant lot gardens. These gardens had produced thousands of dollars' worth of foodstuffs, to his own knowledge, in the cities at the head of the lakes. The bill would also prove beneficial because of the extra hours for healthy outdoor sport which it would give to the factory and office workers.

Doctor Gives Three Good Reasons.
Dr. R. J. Manion of Port William said that daylight-saving had been tried in his home city and found most satisfactory. The general consensus of opinion was that it was advantageous from the point of view of health. Sunlight was beneficial, and from a medical point of view the passage of the bill should be encouraged. Economically it would also prove beneficial. It would save coal, which was used in coal oil in those places where the latter was used for lighting. The moral effect would also be good, he said, because he had been informed that the devil always preferred to act in the dark.

O. A. C. MEN IN FRANCE SPEEDING PRODUCTION
Graduates of Ontario Agricultural College Helping French Farmers.

A number of graduates of the Ontario Agricultural College, who are attached to different branches of the Canadian army in France, have been taken out of the ranks and are now serving as experts in speeding up agricultural production in France, according to a letter received by Dr. Creelman, commissioner of agriculture, from his son, Sergeant J. M. Creelman, B. S. A. The idea is to first help the French farmers to greater production, and in addition to produce this summer's crop of potatoes and fresh vegetables to last the Canadian troops for a year. "It is a big job, but one well worth trying," he writes, adding, that much can be learned from the French farmers, especially in horticulture.

Sergeant Creelman states that while working with his battery at the front he received a telegram ordering him to report for duty with the agricultural detail.

It Worked Well Overseas.
E. E. Fraser of Welland approved the bill. He said he had spent some time last summer in England and France, where daylight-saving had been tried with favorable results. Major McGibbon, Muskoka, spoke similarly.

Joshua First Daylight-Saver.
S. W. Jacobs, Montreal, spoke as he was in support of the bill, at any rate as a war measure. He wished, however, to correct the statement of Sir George Foster's in introducing the measure. The minister of trade and commerce had stated that daylight-saving had originated in Germany. "The minister of trade and commerce," said Mr. Jacobs, "evilly misquoted the fact that my great ancestor, Joshua, commanded the sun to stand still some 3,000 years ago and it obeyed."

No Sympathy With Farmers.
Mr. Jacobs declared that he had no sympathy at all with the farmers. "We in the cities," he said, "are forced to pay the exorbitant prices charged by the farmers. It is my belief that they are opposed to us working out little garden plots in spare time in order to reduce prices. That is probably one reason why they are opposing the bill."

Among the daylight-saving advocates of the measure were W. D. Cowan of Regina; H. H. Stevens, Vancouver; T. M. Tweedie, Calgary; Fred Davies, Neepawa; W. E. Euley, North Waterloo; Alphonse Verville, Montreal; Hon. W. S. Fielding, Queen's University, Kingston; P. D. Leduc, Laurier-Outremont; J. A. Leduc, Westmount-St. Henri; W. G. McQuarrie, New Westminster; W. F. Skeble, Kingston; W. F. Maclean, South York; while opposition was voiced by George Boyce, Carleton, Ont.; Donald Macleod, South Oxford; A. B. McMaster, Bromie; S. F. Glass, Middlesex; F. N. McCrea, Sherbrooke; F. T. Pelletier, Matane; Dr. J. P. Molloy, Provencher, and A. B. Copp, Westmount.

ALBERTA'S WORK FOR FARM EDUCATION

Of the total grant of \$215,681 which was made by the Dominion government under the agricultural instruction act, to be spent by the province of Alberta from 1913 to 1917, the sum of \$124,000 has been expended on the operation and maintenance of the three schools of agriculture, \$25,000 on equipment and buildings, and \$17,000 in connection with demonstration farms.

There are seven demonstration farms in the province. These are situated at Medicine Hat, Claresholm, Ollis, Sedgewick, Vermilion, Stony Plain and Athabasca. At three of them—Ollis, Claresholm and Vermilion—agricultural societies have been established. The cost of the principal buildings has been met by the province; the cost of equipment and maintenance, including staff salaries, and of some minor building extensions, has been met for the most part by the federal grant.

The work of the schools is divided into two divisions—agriculture and household science. The main object is to equip farm boys and girls for farm life. About 600 students have passed through the schools since their establishment three years ago.

A course in farming for returned soldiers is now being offered at the Ollis school. As in the regular course, special emphasis is placed on practical rather than on theoretical and scientific work.

FIGHT THE HUN IN BACK YARDS

Toronto Children Are Told About Cultivating Every Piece of Ground

(Toronto Globe.)
The recruiting of soldiers of the soil is this year one of the most important forms of national service, and the fact that the last traces of peas and carrots that can be fought against the Hun, he told of how he planted his own garden several times last year. In August he reaped a crop of carrots, beets, lettuce and parsnips which lasted till late into the fall. He advised the use of every bit of ground, no matter how small, in the production of some kind of vegetable.

Dr. Sinclair reminded his little hearers that production this year is a matter of grave concern, and impressed upon them that in their backyards they, too, can fight a battle against the Hun. He told of how he planted his own garden several times last year. In August he reaped a crop of carrots, beets, lettuce and parsnips which lasted till late into the fall. He advised the use of every bit of ground, no matter how small, in the production of some kind of vegetable.

WOMEN WILL WATCH GIRLS

Permission has been granted the National Council of the Y. W. C. A. by the Police Commissioners of Toronto to patrol the streets in an effort to check young girls from going astray. Two members of the council appeared before the commissioners and outlined the scheme, which was endorsed by the board.

Following the meeting, Chief Grasset stated that the meeting was quite in accord with the views of the police. He pointed out, and although the patrols will have no power to make arrests, it is felt that it will have a great influence on young girls who spend a lot of their time running the streets.

It is the intention of the Y. W. C. A. to inaugurate the new movement by placing two women on duty as the first patrol.

CAMPAIGN FOR 15,000 BOYS

**Government's Plans in Operation to Get
Youths to Work on Farms.**

(Toronto Star, Monday.)
The Ontario government's campaign to enroll 15,000 boys between the ages of fifteen and nineteen for farm work commences today and it is hoped by the end of the week that the whole 15,000 who are asked to sign up as "soldiers of the soil" will be enrolled. It is hoped that the enrollment will be completed this week in order that the farmers may know as soon as possible the number of boys who will be able in order that they will increase their acreage. The enrollment blank which the boys are asked to fill out asks several questions regarding the amount of their experience and the length of time they are willing to work. The minimum wage is \$18 a month and board.

Wm. R. Cook, Ontario Boy's Work Secretary National Council of the Y. W. C. A., has been appointed by the Ontario government and the Canada Food Board to supervise the work in Ontario. Today fifteen workers were sent out through the province to organize the work. An enrollment officer will be in each High School and Collegiate Institute and each town and each district in the province. These men will enroll the boys in the shops, factories and stores. The representatives of the Organization of Resources Committee are to a large extent being used as the enrollment officers. Dr. W. A. Riddell says that the average age of the boys who are being enrolled last year was eighteen, while this year the range of ages extended from twelve to forty. In addition to the 15,000 boys who, it is hoped, will be secured by the "soldiers of the soil" campaign, 7,500 will be secured for spring sowing and 12,500 for harvest work.

GRAY-DORT

The Quality Goes Clear Through

ACCURACY

THERE you have the secret of Gray-Dort goodness—accuracy, balance, precision, smoothness, scientific design—everything that makes for harmony in a motor car.

Take the motor for example. Designed by Etienne Planché, perfecter of the world-famed Peugeot motor. Built by a corps of engineers who devote to it the care given to the costliest motors. Simple and strong; yet so accurate, so finely co-ordinated, that it gives unusual power, speed, smoothness, long-life.

Every other working part is the same. The transmission, the brakes and operating parts—all work smoothly, with watch-like accuracy. And you know the life of a good watch.

The same spirit of harmony makes the body lastingly handsome—the tonneau comfortable and roomy—the driving easy and untroubled—the frame sturdy and safe.

Trouble, as known to most motorists, is absent from the Gray-Dort. It demands the minimum of attention and repairs. Care in manufacture has made it to be relied on—serving not only well and long, but serving season after season unflatteringly.

Undoubtedly Canadian motorists are coming to the Gray-Dort. Ultimately you will join them.

The new Gray-Dort embodies all the good features that won instant success for former models. The 4-cylinder motor is a triumph of smooth, economical speed and power. The chassis is sturdy and quiet. The springs are long. The upholstery is deep. The equipment is absolutely complete from electric starting and lighting to the tools. New lines of beauty have been given this model. The five-passenger touring car is \$1,125; the three-passenger four-door sedan is \$995; the Gray-Dort special, beautifully finished and with extra details of equipment, is \$125 above the list. All prices are f.o.b. Chatham.
