DAD WAS NEAR.

In whispers glowing, rapturous and fervent, they spoke of what would be when they twain became as one. Wrapped in each other's arms and the friendly darkness born of a purposefully extinguished chandelier, they reposed not of the complaining creak of the overburdened chair which supported their united weight; neither heard they a suspicious sound which floated in through the keyhole, a sound as of a fat and elderly man breathing heavily outside that aperture.

"Only think, sweetest! sweetest! Just think, dearest darling!" he whispered, ecstatically, "won't we be happy when we're married and have a house of our own? Love, kisses, bliss—"

"Rarest! rarest! my dear! my dear!" cooed the young man, "said a sepulchral voice, solemnly."

The chair was suddenly relieved of its double burden, the gas flared up brazenly but when they opened the door a moment later, awkwardly bidding each other good night, the hall was empty, and they saw and heard nothing to account for the warning voice.

But far away up the staircase an elderly man, with a cruel smile on his face and a substantial corporation beneath his waistcoat, crept stealthily, in bestocking understandings, to his night's resting place.—Tit-Bits.

AGRICULTURAL ITEM.

"What did Go-bang do with the money he earned by writing articles showing how to get rich raising chickens?"

"He lost it running a chicken farm in New Jersey."—Boston Gazette.

WORDS OF THE WISE.

Life has no blessing like a prudent friend.—Euripides.

Example is the school of mankind; they will learn at no other.—Burke.

Live with wolves, and you will learn to howl.—Spanish Proverb.

A straight line is shortest in morals as well as in geometry.—Rabelais.

RIGOROUS STRIKERS.

Eleven Policemen and Twenty Strikers Injured in Rochester.

ROCHESTER, N. Y., June 25.—The anticipated trouble with the strikers came this morning. The marching men numbering about 1,000, clashed with the police at Mill and Commercial streets at 5.30 o'clock this morning and many heads were broken. A volley was fired over the heads of the strikers when the police were assaulted with bricks, stones, shovels and pieces of wood. The dispersing of the strikers then prevented serious bloodshed, for the next volley from the strikers would have been directly at the police.

As it was, 11 policemen and 20 strikers were injured. The police say the shooting was precipitated by a shot from one of the strikers. As the column of marchers turned into Mill street they encountered fifty laborers employed by the Rochester Gas and Electric Co. digging a trench at the junction of Commercial street and with a about the strikers advanced on a run and drove the workmen from the trench. The latter sought refuge in the power house of the company, and the police undertook to disperse the mob when the trouble came.

WEDDED IN HALIFAX.

HALIFAX, N. S., June 25.—An interesting social event was the wedding of C. Walter Cahill of Sackville and Miss Susan E. Elder of Hantsport, at the latter place today. Rev. G. R. White officiating. The bride was attended by Miss Annie S. Fitch, Wolfville, and Miss Ella Smith, Hantsport. The costume of the bride was a handsome gown of mauve satin, trimmed with cream. The bridesmaids were Misses Gertrude Robertson, Adria Coalfield, Hattie Mumford, Ethel Lawrence, Principal Shields and Editor S. A. Marchant. After the wedding a reception to the guests was given at the residence of the bride's mother, Mrs. W. G. Elder. Friends were present from Halifax, Kentville, Wolfville and Windsor. Mr. and Mrs. Cahill left on the western bound express on a wedding journey.

BRIEFS BY WIRE.

S. S. Empress of India left Hong Kong for Vancouver at noon today. At 12.30 P. M., Stephen Clark, a gambler, while in a jealous fit last night, killed Pearl Clark, a handsome woman, 28 years old, and then fatally stabbed himself.

Sixteen persons were killed and about fifty seriously injured in a collision of train No. 3, the West bound Wabash limited, nine miles west of Peru, Ind., at 12.30 today. The dead are all Italian immigrants en route to Colorado. Many of the injured undoubtedly will die. The engine plunged through a trestle undermined by recent rains.

AN OIL WELL.

DENISON, Texas, June 25.—A large oil gusher was brought in today at Redfork Creek station, north of Denison, on the Frisco railroad extension. The gusher was tapped by the Penna. Oil Co., operating in the oil fields of the Indian territory, and the oil spouted 400 feet in the air. The well was struck at a depth of 530 feet and pressure is so great at the top that any means of capping the top cannot be used.

SHOT "THE KID."

NEW YORK, June 25.—Geo. Coomb, aged 12, shot and fatally wounded Johnnie Coomb, aged four, in Erie, Pa., yesterday, says a World despatch. George and Johnnie were playing "cowboy."

"Tim Buffalo Bill; look out for me," said George, who was swinging a rifle and strutting about. "See me shoot the kid," he said. "Look out, there."

The rifle, which he did not think was loaded, was discharged. The bullet penetrated Johnnie's left side and came out at his back.

WRECKED ON NEWFOUNDLAND.

ST. JOHN'S, Nfld., June 25.—The steamer Lusitania, with 500 passengers on board, was wrecked last night off Cape Ballard. The steamer belongs to the Orient Steam Navigation company and was bound from Liverpool for Montreal in charge of Captain McNeay. Cape Ballard is situated on the coast of Newfoundland about 80 miles south of St. John's. The Lusitania was built at Liverpool by Laird Bros. in 1871 and is 330 feet long.

LATER.

It is reported a boat upset and 20 persons were drowned. Passengers stampeded and fought for boats, but were driven back by crew. Except reported loss of boat, passengers and crew were saved.

BACK FROM THE WEST.

Edward Bayfield, of Charlottetown, who has recently been visiting different points in the Northwest Territories, came to the city today. Mr. Bayfield says that from an observer's point of view the crop prospects throughout Manitoba and Assiniboia were never better than at present. There is this year a large increase in the number of acres of land under cultivation and the weather so far has been all that could be desired. The different kinds of grain are all looking well, especially the wheat, which is in a much more advanced stage than is usual at this time of the year. The farmers are well satisfied with the outlook, and everything indicates that the farming industry in the west will be an unusually successful one this year.

A RADICAL DEFEAT.

LONDON, June 25.—The election just held to fill the vacancy in the house of commons for the Stratford-on-Avon division of Warwickshire, caused by the death of Victor Gollancz, resulted as follows: P. S. Foster, unionist, 4,765; Bolton King, radical, 2,977.

POLICE COURT.

Guthro the Wife Beater Again in the Tolls.

The Peculiar Case of a Box of Rings—Some Pugilistic Youngsters.

Daniel Shanlon is a sailor. He also is a cripple, owing to an accident, which rendered his left arm permanently useless, and his leg very weak. But in spite of these drawbacks to the proper enjoyment of a spree, Daniel has a strong passion for strong drink. The feeling in court today was that the one who had given liquor to a person in such a condition deserved almost any punishment. Unfortunately the court could not find any evidence against him. He was, however, charged with being drunk and fined 10s. He, this morning, begged to be allowed to rejoin his ship, the Susan and Annie, now lying at Carleton, and probably to sail tonight. Sgt. Ross was instructed to see Shanlon safely on board his vessel.

Robert Spicer, who was arrested last evening by Officer Semple on the charge of stealing a box containing eight rings and a chain purse from Arthur Walker's shop on Mill street, after some deliberation today pleaded not guilty. Mrs. Mina Walker took the stand and told how on coming into the shop she noticed Spicer hiding something under his coat. He left the shop and she shortly afterwards missed the box of rings. She notified the police and Spicer was arrested. Mrs. Walker's sister stated that she had been in the shop when Spicer came in, and went out for a moment. On her return the prisoner was standing where she left him. The rings were on a shelf, which Spicer could reach by leaning over the counter. Officer Semple gave evidence as to making the arrest and finding the missing rings on Spicer, and then the prisoner himself told his story. He was standing in the store and reached over to get the rings in order that he might look at them. Then he heard someone coming and fearing that he might be suspected of stealing on the counter when he got a chance. But the chance did not come, and he was compelled to leave the store with the things hidden under his coat.

The magistrate remarked that Spicer's story might go in some places, but it was hardly a probable one. Spicer is only about eighteen years of age, and belongs to Nova Scotia, but has recently been working in Moncton. He was remanded to jail and advised to write to his friends in Nova Scotia.

Joseph Guthro, who has achieved an unenviable reputation as a wife beater, occupied his accustomed seat today. Joseph always sits with his back propped up against the post, and wears a look of supreme contempt of the world at large. Mrs. Guthro gave a resume of Joseph's conduct during the past six or eight months, showing to the court what a model husband he had. He has for a long time been in the habit of beating her and even did so while she was sick with inflammation of the lungs, two months before the baby was born. He sold the furniture and left her in such a helpless condition that while he was in jail for his offence she was entirely dependent upon the kindness of neighbors.

He got out of jail two weeks after the baby was born, and his first act on going home was to pull her out of bed. He has abused and ill-treated her in every possible way, and does not support her or their four children. On the eighth of June she was again compelled to leave him arrested and he got clear on Friday last, after giving a solemn promise never to drink nor to beat her again, and also stating that he would go to Montreal. But he forgot his promise and was once more disturbed. Joseph is indignant at his wife's conduct and upbraided her for her actions. He advised her to get a better place to live this year than she had last summer. Cross examined by Joseph, Mrs. Guthro stated that she does not get drunk, does not smoke and does not use abusive and obscene language towards him. As the prisoner wished to call some witnesses the case was adjourned until Friday.

William London, Arthur London and Hartley London appeared to answer a charge of assault. Roddy Kane, something certainly had happened to Kane's face and the London boys and their mother explained how it did happen. Arthur London and Roddy Kane wanted to fight last Sunday evening, but after receiving advice decided to do it on a week day. On Monday they went into London's barn and sailed in London's two or three brothers came in to stop the fight, and found it very difficult as the two belligerents were too caught in the mud up to their necks. In the mix-up that ensued Kane thought the three Londons had assaulted him, but appeared satisfied with the explanation given by them today. Arthur London and Kane were held on a charge of fighting, but after a time were allowed to go and the matter dropped.

Patrick Heffron was reported by W. E. Fottis, market clerk, for bringing into the market carcasses of lambs with the head and feet on and cutting them off in the market. He was fined five dollars, the penalty being allowed to stand over.

A DEADLY TORNADO.

NEWARK, Ohio, June 25.—A tornado swept over Newark yesterday evening. The upper portion of the new factory at the E. H. Everett Glass Works was blown away and seven men were fatally injured. Walter Dickinson, a 19-year-old boy, was killed. Others injured were E. O. Harris, George Smith, Edward Smith and Charles Miller. The damage to the building is estimated at \$10,000.

THOSE ROYAL WINES.

Richard Croker and Other Americans Are Among the Purchasers.

NEW YORK, June 25.—The second day of the auction sale of King Edward's sherry drew large attendance, says a world despatch from London. Many well known Americans were present, and they were among the most active bidders. Wines from the Buckingham palace cellar were sold off. Most of these were of old vintage, dating from 1869 to 1879. J. Pierpont Morgan bid in several cases, as did Charles Yerkes and Foxhall Keen. Richard Croker's representative bought 51 dozen bottles of pale golden sherry from St. James palace, bottled in 1879. These will be shipped by Mr. Croker as a present to the Democratic club. The Tammany leader's agent also bought liberally from Buckingham palace bins. American theatrical persons bought freely, and the auctioneers received several commissions to bid in lots for New Yorkers, including the proprietors of well known hotels. The bottles are blown with the royal arms.

NO TRAITORS WANTED.

MELBOURNE, Victoria, June 25.—Amid scenes of excitement in the crowded galleries the federal assembly by a vote of 64 to 17 expelled Mr. Findlay, editor of a labor organ, for republishing in his paper the article from the Irish People of Dublin, dated May 10, violently attacking King Edward, which caused the seizure of the last mentioned weekly periodical by the police of Dublin, Cork, Limerick and other towns of Ireland.

FOR THE ARCTIC.

ST. JOHN'S, Nfld., June 25.—The Peary Arctic club's steamer Erik, Captain James A. Farquhar, has arrived here from London. The captain, officer and crew for the northern cruise will be shipped here, after which the steamer will proceed to Sydney, C. B., and take on coal and stores for final departure for the north about July 15.

SOUTH AFRICA.

CAPE TOWN, June 25.—Jacobus Botha, the member of the Cape assembly for Alwal North, has been captured by the Boers and publicly flogged. In addition his house was burned. The reason assigned for this treatment is that Botha voted in favor of the treason bill.

WONDERS OF WATCHMAKING.

Queer Timepieces Owned by Two of England's Queens.

Among the treasures of a Swiss museum is a watch in the top of an old-fashioned pencil case, is the tiniest watch ever constructed. It is only three-sixteenths of an inch in diameter, and its little dial not only indicates hours, minutes and seconds, but also the days of the month. So perfectly formed is this Illiputian watch that it keeps excellent time and is a marvelous piece of mechanical workmanship.

Two of the most elaborate and curious of watches which the world has ever seen belonged to Queen Elizabeth and her unfortunate contemporary, Mary, Queen of Scots. Good Queen Bess had a watch made for her in the form of a duck, with beautifully chased feathers, the lower part of which opened. The face was of silver, with an elaborate gilt design, and the whole was kept in a case of brass, covered with black leather thickly studded with big silver knobs.

The ill-fated Mary was the possessor of a watch in the form of a skull. The dial was introduced where the palate should have been, and the works occupied the place of brains in the cranium. In the hollow of the skull, moreover, was a bell which had works of its own and by means of which a hammer struck out the hours upon it.

One of the choicest rarities of the Bernal collection was a book shaped watch. This curious time indicator was made by order of Bogislav XIV, Duke of Pomerania, in the time of Gustavus Adolphus. On the face of the book, where the dial of the watch is set, there is an engraved inscription of the Duke and his titles and armorial bearings, together with the date, 1627. On the back the engravings are also very finely and skillfully executed, among them being the portraits of two gentlemen of the seventeenth century. The dial plate is of silver, chased in relief, while the insides are beautifully chased with figures of birds and foliage. The watch has two separate movements and a large, sweet toned bell. At the back, over this bell, the metal is ornamentally pierced in a circle, with a dragon and other devices, while the sides are pierced and engraved with a complicated design of beautiful scroll work.—London Tit-Bits.

MISSIONARY SOCIETY PROTESTS.

PHILADELPHIA, June 25.—At a meeting of the Chinese American Missionary Society, held here, resolutions were adopted protesting the selection of Wu Ting Fang, Chinese minister, as orator of the day at the Fourth of July celebration in this city. The resolutions aver that Minister Wu covertly aided the Boxers in their massacre of the Christians in China, and are signed by Richard J. Harris, secretary, and John L. McIntyre, D. D., president.

THE WEATHER.

TORONTO, June 25.—West and east. Light variable winds; fine and warmer today and Thursday.

The people of Sussex will learn with pleasure that the Frederickton Exhibition association have decided to change the dates of their show, which will be held on Sept. 17, 18, 19 and 20, and will not conflict with the dates of the Sussex exhibition.

Edward Crossin, who was taken to Frederickton yesterday, was brought before the police magistrate this morning. He pleaded guilty of stealing the bicycle and was remanded until Saturday for sentence.

ST. JOHN STAR.

ST. JOHN, N. B., JUNE 26, 1901.

ST. JOHN SHOULD HAVE IT.

The question of what St. John will do to induce the Breeders' Association to hold the fat stock and dairy show in this city in the latter part of December is now to be considered. Other maritime province towns want the show, which it is believed may be made an annual event of great interest and value. The town of Guelph, Ont., thought so highly of an annual show of this kind that it spent \$10,000 to provide quarters for it, in competition with the town of Brantford, which also wanted the business such an exhibition would bring to the town. Some expenditure will be necessary if the maritime show is to come to St. John, as suitable winter quarters for the live stock would have to be provided. It is for the city council to consider how much they would be justified in expending, and if an arrangement can be made in consideration of that expenditure to have the show held here each year for a term of years, as was done in the case of Guelph.

CANADA AT PAN-AMERICAN.

It is gratifying to learn that the Canadian building at the Pan-American exposition is claimed by many visitors to be the handsomest on the grounds. Although July 1st is the day set apart for the formal opening of this building, it has already been informally opened to the public. It is thus described:—

It is situated at the east side of the grounds, just off the Mall, near the dairy building, in a plot surrounded by flower beds and artistic shrubbery lands. Its exterior is of Swiss style of architecture, with flowering vines and plants on the roof and balconies. The main hall of the ground floor is devoted to a comprehensive agricultural exhibit, all the grains and wheats of Canada being shown either in glass cases or else fashioned in quaint designs, in the border around the wall near the ceiling. In the centre of this large hall is mounted, under a glass case a monster stuffed buffalo, owned by the Canadian government. It is claimed to be the largest specimen of buffalo ever known and is highly prized by the dominion government. Its appearance at the Pan American is the first outside of Canada. It has never before been loaned for any exhibition. As of painting that attracts considerable attention is one by Paul Wilson, a noted Canadian painter, called "The story of the great North-West." It illustrates the retreat of the red man with his pony, his gun, and his traps, before the Scotch settler, with his agricultural implements and his plough horse. There are exhibits in the mines building, forestry, fine arts, live stock, etc., as well. The building is called "The Pan-American Home."

WITH SILENT CONTEMPT.

The United States government is "amused" and "surprised" at the report from Canada that the United States government has suggested that the Alaska boundary question be submitted to the arbitration of Russia. In spite of their annoyance however, and contrary to all precedent the officials have decided to treat this report with silent contempt, lest a formal denial would be undignified for such a body as the government of the United States. It is a pity that the effect of this dignified silence is marred by the above explanation.

A diver in Lake Champlain has recently brought to the surface gun carriages and other relics from the schooner Royal Savage, sunk by the British in 1776. These relics will probably find their way into a museum.

A new epidemic has broken out among horses in Manhattan, New York. The veterinarians are at a loss to understand the disease from which in a week's time ten thousand horses have succumbed.

BOARD OF WORKS.

At the board of public works met yesterday it was reported by a sub-committee appointed to inquire into the claim of S. Schofield, in regard to wharfage, that the harbormaster was justified in making the change, but all circumstances considered, it was decided to make a rebate. Claims for extra pay by ferry men were referred to Ald. Waring, Armstrong and the director. The director reported that, in accordance with an order of council, a steam roller for use on sidewalks could be obtained for \$2,500. Filled. The application of J. G. Jordan for increase of pay was also filed.

Ald. Christie, Maxwell and Armstrong were appointed to prepare a map of the city showing street lines, etc., the cost not to exceed \$1500.

Ald. McMullin, McGoldrick and Millidge were appointed to confer with the I. C. railway authorities as to whether the new pier might be regarded as a public wharf.

Ald. Millidge was directed to look after the matter of the steps, from Moors to Rockland street, which are used by the public.

A SUCCESSFUL CAREER.

The Globe interviews Dr. J. D. Maher and presents a list of Testimonials and References received by him of which any young man might be proud.

Where people from all parts of the city and country go when in quest of good dental work. The Hale method of Painless Dentistry used exclusively at these offices. Has done more to bring the importance of the care of the teeth before the public than any other dentist in this province.

Our contemporary, the Globe, on Saturday evening, printed the following interesting interview with Dr. J. D. Maher, of North End, which will, no doubt, be perused with interest by readers of the Sun. It is quite a tribute to Dr. Maher as a Surgeon-Dentist.

Who is there that does not know the pangs of an aching tooth, and how many thousands in this city have cause to thank Dr. J. D. Maher for the introduction of the now famous Hale Method of painless dentistry, which after eight years' constant use in this city is today more popular than ever?

It is a question whether there is another dental office in Canada that turns out such thorough and such a quantity of dental work as do the Boston Dental Parlors of St. John, of which Dr. Maher is proprietor.

After ten years of constantly increasing and strictly up-to-date practice, Dr. Maher has well established himself in his profession that his name is a household word in the Maritime Provinces wherever the subject of dentistry of a superior character is discussed.

Employing only those who are adapted to the business, it is no wonder that the quality of the work is of so high a character. Thousands of patients feel grateful for the easy and painless manner in which they have had teeth extracted or filled.

Patients from all parts of the Maritime Provinces, Maine and elsewhere may be found daily at his offices awaiting treatment, which is the very best compliment that could be paid. When a reporter called the other day he was surprised to find that all the offices had been refurnished from top to bottom, presenting a beautiful appearance. The place was recently beautifully decorated by Mr. Joseph Cras. The walls are covered with choice steel engravings, and the rooms furnished with the best of everything by Messrs. M. R. & A.

New dental chairs, fountain spittoons, saliva ejectors, and all the latest and best appliances have been introduced. This has been one of the chief factors of his success, and he spares no pains or money to secure the best of everything for his patients, and his charges are as reasonable as they could be—only the very best materials being used.

No students are allowed to practice on patients, as he considers it an injustice to have uneducated, inexperienced youths tampering with the teeth of an unsuspecting people who go to a dental office in good faith and pay their money expecting to get reliable work.

All kinds of dental work are performed there, and several sets of artificial teeth shown the reporter, some on gold, some on platinum, others on silver, aluminum and rubber, containing gold crowns, gold fillings, etc., whilst the specimens of crown and bridge work made at these offices, and in which a special pride is taken, cannot be surpassed in Canada.

These offices, which are under the charge of a lady assistant, are open daily from 9 a. m. until 9 p. m.

We present today cuts of the rooms, which fail to do them justice, as they cannot easily be photographed, however, the work performed by Messrs. Erb and Wesley is particularly good, considering the disadvantages.

The introduction of the new famous Hale Method has revolutionized dentistry in this province. Dr. Maher can very justly lay claim to being the "Father of Painless Dentistry" in New Brunswick, and the Hale system cannot be used by any other dentist in the city of St. John, although Dr. Maher, as sole agent in Canada, has sold to other dentists the exclusive right to use it in certain parts of Canada. That he can do all he claims is vouched for by hundreds of our most reliable citizens.

He is also registered in the United States, and is the only dentist in Canada not practicing in Nova Scotia at present who is entitled to do so, being fully registered in that province. He expects to open a branch office in Halifax as soon as he can complete arrangements, as a large practice awaits him there.

He is at present arranging for a branch office here in the South End, which will no doubt be in keeping with the one in the North End, which has no superior in Canada.

Now that the vacation is coming parents should not fail to have their children's teeth attended to, as they are powerful factors in assisting digestion, which means good health. We highly recommend anyone who may be in need of such services and desirous of obtaining reliable dentistry to visit the Boston Dental Parlors, 527 Main street, North End, where an examination of the teeth will gladly be made free of charge, and where one may feel assured of obtaining efficient workmanship.

We present here a few names and testimonials of the many hundreds of which Dr. Maher has been the recipient, the fact of having the endorsement and the permission to use the names of the following best known and trustworthy officials, clergymen, physicians and citizens is a notable proof of the position held by him as a dentist in this province.

Dr. J. D. Maher, Boston Dental Parlors, No. 527 Main St., St. John: Dear Sir—I have read with a great deal of interest your letter of the 13th ultimo, addressed to the Board of School Trustees of the city of St. John on the subject of "Examination of Children's Teeth." I am convinced of the importance of the matter of which you treat, but at the present time there may be many difficulties in the way of carrying out your suggestions.

Many parents would consider it an interference with their individual rights, and the trustees of school boards would hesitate, under the present state of the law, before allowing such examination to take place. I think, however, you deserve credit for bringing this matter before the public, and in due time your efforts may bear fruit. Yours sincerely, L. J. TWEDDIE.

TESTIMONIALS: Governor McClellan writes: Government House, Fredericton, N. B. Dear Sir—I afford me pleasure to state that Mrs. McClellan has derived great satisfaction from your dentistry treatment, and not only the painless extraction, but also the subsequent work.

I am, yours, etc., A. R. McLELLAN. To Dr. Maher, D. D. S., St. J. Hon. L. J. Tweddle, Premier.

Dr. J. D. Maher, Boston Dental Parlors, No. 527 Main St., St. John: Dear Sir—I have read with a great deal of interest your letter of the 13th ultimo, addressed to the Board of School Trustees of the city of St. John on the subject of "Examination of Children's Teeth." I am convinced of the importance of the matter of which you treat, but at the present time there may be many difficulties in the way of carrying out your suggestions.

Many parents would consider it an interference with their individual rights, and the trustees of school boards would hesitate, under the present state of the law, before allowing such examination to take place. I think, however, you deserve credit for bringing this matter before the public, and in due time your efforts may bear fruit. Yours sincerely, L. J. TWEDDIE.

Mrs. de Soyres, wife of the Rev. J. de Soyres, 105 Union street, writes: St. John, N. B., 18th June, 1901.

Dear Dr. Maher—The work which you did for me is more than satisfactory. Yours sincerely, M. de SOYRES.

The late Hon. James Mitchell, when Premier, wrote: St. Stephen, N. B., April 12th, '97.

Dear Sir—I am pleased to find attached to your testimonials some of the leading names in New Brunswick, recommendations from whom should be an honor to any young man. Your letter addressed to the Board of School Trustees of the city of St. John on the examination of children's teeth is worthy of due consideration.

Dr. J. D. Maher, Boston Dental Parlors, North End: Dear Sir—I have carefully perused your article in the Gazette of April 13th, relating to the examination of teeth of children attending the public schools in this city, and feel that it would probably be of great service, but many of the parents might prefer their own particular dentist. However, it is a matter open for much consideration.

Yours truly, A. T. DUNN.

OPERATING ROOM, No. 1.

Hon. H. R. Emmerson, M. P., ex-Premier, writes: Dr. J. D. Maher, 527 Main St., St. John: Dear Sir—I certainly have a very high appreciation of the value of your suggestions to the Board of School Trustees of your city. That more attention is not given to the subject by all of us is certainly a matter of some surprise, or at least should be. The value of your many testimonials as to the merits of the so-called "Hale Method" would indicate that had Burns lived in these days he never would have had occasion to write his feeling "Address to the Toothache." I sincerely trust that you may energetically pursue the path which you have so clearly mapped out; public attention will surely be attracted by the necessity of some action. It does not require a Shakespeare to teach us. "For there was never yet philosopher "That could endure the toothache patiently." Although he took occasion to tell us so.

day to Miss Eliza Roselle Moffatt,
daughter of James Moffatt.

CIRCUIT COURT.

A True Bill Found Against
Nixon on One Charge.

The Case of Harry Nelson Was Con-
tinued and a Number of Witnesses
for the Defence Were Examined.

At the circuit court this morning the
grand jury met in the matter of the
King v. Nixon. The interest in the
cases before the court brought a large
number of spectators. His honor, in
addressing the jury, said that this was
probably the last time he would need
their assistance this session. The case
was that of Robert Nixon, charged
with adultery, and the other with un-
lawful and indecent assault.

To find a true bill on the first count
it is not necessary anything but that
the act was done; on the other it will
be needed to know whether force was
used. The witnesses were sworn and
the grand jury retired.

The case against Harry Nelson was
then taken up. The prisoner went on
the stand. He testified that he kept
books in his own handwriting.

Jarvis Purdy was called by Mr. Ha-
sen. He said among his duties in con-
nection with his father's store was at-
tendance at the May Queen. He never
saw Nelson there this summer, if he
had been there he would have seen him.
He was not present on the 10th, was
at Grand Bay. He was at the boat on
the 13th. He did not see Nelson there.
They went down together at witness
request on Monday, the 17th, the day
the prisoner was arrested. Last sum-
mer witness saw prisoner at the boat
very often, and several times he asked
him to get letters for D. J. Purdy while
witness was looking after goods ship-
ped. If Nelson had been on the wharf
on the 13th he would have seen him.
He has asked other people to get let-
ters for him.

Cross examined by Mr. Pugsley: The
prisoner would know how he was in the
habit of getting Mr. Purdy's letters.
Witness arrived at the boat on Mon-
day, the 10th, 10 minutes past five, af-
ter returning from Grand Bay. He was
told then that his father's letters had
been obtained. On the 13th witness
was present some time before the ar-
rival of the boat. There were about
seventy-five or one hundred people
there. He would have seen Nelson if
he were there. He got his own letters
first and then remained about, the
wharf about half an hour.

N. Hickey, a barber in Harry Nelson's
shop, testified that he had work-
ed for him about three months. Nelson
was in the shop on the 10th about
10 minutes after two, when he said he
was going to the hall game. Witness
saw him again between twenty min-
utes and ten minutes to five, getting
off a north bound car. Noticed the
time by a clock on the shop wall. Nelson
then came into the shop. John O'Neill
was in the shop at the time. Nelson
said he might go to the hospital. It
was about a quarter to three. He
came back about twenty minutes to
five. Tommy Burns and Fred Shan-
non were in shop. Nelson went out for
a few minutes and then came back.

Cross examined by Dr. Pugsley: He
said he had not talked this matter over
with the prisoner.

The grand jury returned at this
stage and the foreman reported that
they had found a true bill for adultery
and a bill for unlawful and indecent
assault in the matter of Robert Nixon.
The jury were then discharged. The
prisoner was brought in and arraigned.
He pleaded not guilty.

The cross examination of Mr. Hickey
was brought out, but nothing new
was brought out.

Mr. Hassen asked for a subpoena for
John Branscomb and Fred Shannon.
Thomas J. Durick, druggist, testified
that he has known Nelson for ten
years. He bears a first class charac-
ter in the north end. Witness saw Nelson
on Monday, June 10th. He was in
witness's shop shortly after twenty
minutes to five. He was only in one
or two minutes. He came back and
made a purchase, and left. The store
about five. Witness judged that it
would be impossible for the prisoner
to get to Indiantown and back in the
intervening time between his first and
second visits.

Jarvis Purdy, recalled, testified un-
der cross examination of Dr. Pugsley
that it was about three weeks before
the 10th of June that he had conversed
with Nelson.

Harry Nelson testified that he at-
tended the ball game on Monday, June
10th. They remained during the entire
game, and came out four or five min-
utes after the game.

Cross examined by Dr. Pugsley: The
game commenced at 2.45.

Re-examined by Mr. Hassen he said
that the game lasted in his opinion
between an hour and a half and an
hour and forty minutes.

J. Fred Payne of the Sun testified
that he was present at the game be-
tween cross examination of Maine and
the Alerts on June 10th, and that he
scored the game. (Witness produced his score
book). The game started at 2.45. It
lasted 2 hours and 35 minutes. He knew
Nelson slightly about five years. He
knew a good character.

The witness was cross examined by
Dr. Pugsley in regard to his method
of fixing the time.

William Kelly testified that he was
with Nelson and sat next him during
the game on Monday, June 10th. He
thought it was about twelve minutes af-
ter the game was over before they
came out. It would take ten minutes
to get from the grounds to the cars at
Hagmarket square.

Miss Margaret Smith, a nurse at the
General Public hospital, testified that
she had known Harry Nelson when at
school. She saw him at the hospital
in Ward B on Thursday, the 13th. That
was between three and four o'clock.
He came in for hot water. She saw

him again about half an hour after-
wards, when he came for water.

Cross examined by Dr. Pugsley: The
witness could not tell when Nelson
went away.

Miss Hall, a nurse in the General
Public hospital, testified that she had
seen Nelson at the hospital between
three and four Thursday, the 13th. He
shaved three patients.

Cross examined by Dr. Pugsley, she
said that in her opinion Nelson was
there three-quarters of an hour.

Herbert Dobson, conductor, employ-
ed by the St. John street railway, was
called. He was on the Paradise Row
route on the 13th. Nelson got on his
car at Middle street, at the junction
of Brunswick. It was about twenty af-
ter four.

Cross examined by Dr. Pugsley, he
said he would not swear but what Nelson
got on his car on the trip that
started at 4.15.

Re-examined by Mr. Hassen, he stat-
ed that Nelson transferred to Pres-
well's car at head of King street. That
must have been at 4.25.

Re-examined by Dr. Pugsley, the wit-
ness swore that Nelson was on the car
that left the foot of Main street at
4.11.

A. G. Presswell, a street car conduc-
tor, was called. He was on the Main,
King and Britain street route Thurs-
day, the 13th. He connected with Dob-
son's car at 4.25. Nelson went around
with him to the foot of King street,
where Harry Carr took charge at 4.37.

Cross examined by Dr. Pugsley he
said the car was running on time.

Harry Carr was then called. He said
that he relieved Presswell at 4.35
Thursday afternoon, June 13th. He
left for north end at 4.37.

John Branscomb was then called, but
his testimony was objected to by Dr.
Pugsley as opening up a new case.
Judge McLeod sustained the objection
and the court adjourned until 2.30.

JUNE WEDDINGS.

At the residence of her aunt, Mrs.
James Graham, 227 Main street, at
8.30 this evening, Miss Maud A. Moore,

ter of the late Rev. G. H. Porter, were
married in Fredericton at 5.30 this
morning at the home of the bride's
brother, by Rev. Dr. McLeod and left
for F. E. Island. They will be at their
home in Port Elgin about July 3rd.

Harry Mackay, one of the city assess-
ors of Fredericton, and Miss May
Donahue were married at St. Dun-
stan's church, Fredericton, at 8 o'clock
this morning in presence of a large
number of friends. Breakfast was
served later at the home of the bride's
parents.

At St. Dunstan's church yesterday
morning, Maggie, daughter of Edward
Carey, of Busagornish, was united in
marriage to John Copie, of Donkoven
Settlement. The ceremony was per-
formed by Rev. Fr. Carney. The bride
was attended by Miss Nellie Barry,
and Michael Moore supported the
groom.

Invitations are out for the nuptials
of Miss Jennie, daughter of Wilmet
Gulou, and William McKay.

TEMPLE OF HONOR.

At the semi-annual meeting of the

pleasantly in the country should at-
tend the concert at the chalet, River-
side, tomorrow evening. Trains stop-
ping at the grounds leave I. C. R. sta-
tion at 5.06 and 6.30, returning leave
chalet at 10.10. An excellent program-
me has been prepared and no admission
will be charged. Excursion rates are
offered by the railroad.

RAINBOW AT NIGHT.

Passengers on the C. P. R. from Mon-
treal on Sunday night saw when at
Foster, Que., the rare phenomenon of
a rainbow at night. In one quarter
of the compass was clear moonlight and
in another a shower of rain was fall-
ing. Across a part of the intervening
sky, clear and beautiful, stretched the
arch of a rainbow. This was about
11.30 p. m.

BANGORS COMING SATURDAY.

Word was received this morning from
Manager Burnham of the Bangor New
England League team stating that the
club would positively be in St. John
on Saturday. Smith, the star pitcher
of the team, which is second in the
league race, is a native of St. John,
but has been residing in Lynn, Mass.,
since his boyhood, and Jope, one of
the club's catchers, played in St. John
two seasons.

SPORTING NEWS.

BASE BALL.
Bangor Team Coming.
The Bangor team, which is second in the
New England league race, will be here to
play the Alerts Saturday. This strong at-
traction could only be secured because Sat-
urday happened to be an open date with the
club. The Bangor club is the strongest
aggregation booked to come here since the
visit of the Portland and Montreal two
seasons ago, and it is a matter for argument
if the team is not stronger than the Portland
crew who beat Montreal in a series. A
large guarantee will be necessary to secure
the attraction, and the game will no doubt
draw out all lovers of base ball, because
the interest in the sport has been at a high pitch
this season. Additional interest will be at-
tached to the visit of the Bangor aggrega-
tion for the reason that Harry Jope, who
played two seasons with the Alerts, is one
of the catchers with the team.

Roses Get a New Pitcher.
The Roses have engaged pitcher John
Keira, formerly of the Manchester, New
England, league team. Keira did some
splendid work for Manchester, and will un-
doubtedly be a valuable addition to the north
and team.

STOCK MARKET.
NEW YORK, June 26.—Wall street.—The
stock market was only slightly unsettled in
the opening dealings as the after effect of
yesterday's bank disturbances. Support from
the orders were in the market and there
were many good gains mixed with fractional
losses. Trading was on a moderate scale.
Union Pacific advanced nearly a point, but
lost nearly all of it, and Metropolitan Street
railway and Chicago and St. Louis rose about
a point but lost nearly all of it, and Metrol-

itan Street Railway and Chicago and St.
Louis rose about a point. St. Paul fell 1 1/2,
but rallied a sharp fraction, and Tenn Coal
was off a point. The stock market opened
irregular.
