SON CO'S MANUAL TRAINING MEDALS AWARDED TODAY

Big Crowd Expected at the Exhibition This Afternoon-- Several Good Attractions Provided--Judging of Horses Will be Completed--The Dog Show Ended.

The management are expecting another large crowd at the Exhibition grounds today, as there are special excursion rates from all points between Halifax and St. John, and as far as Lewis, and from all points north of Moncton, and on the P. E. I. Railway. The weather is ideal, being the finest yet since the Fair opened. If today's total equals Friday of 1901, and the fine weather continues over tomorrow, the aggregate attendance of the Exhibition two years ago should be exceeded.

W. W. Black, of Amherst, who takes the lion's share of prizes in live stock, had the only entry in the class for draught horses, which was judged this morning. His grade Clydesdales were awarded first prize, without having been called upon to show how great a load they were capable of moving.

MANUAL TRAINING EXHIBITS. Collective exhibits from schools--1st, diploma and silver medal, Woodstock; 2nd, diploma and bronze medal, St. Stephen's-Milltown; 3rd, diploma, Campbellton; special award, St. Andrews.

ST. CATHERINES, Ont., Sept. 7.—The unusual sight of a steady run on a chartered bank was seen here yesterday when all day long crowds passed to the wicket of the Sovereign Bank.

ST. JOHN'S, N.B., Sept. 7.—The French shore question has been revived under a new aspect. A French vessel within territorial waters on the northeast coast having complained that people on the coast destroyed her fish, British and French warships investigated and the Imperial government invited the colony also to investigate and punish its subjects if found to be in wrong.

MONCTON, N. B., Sept. 7.—The last act in the case of Gallagher vs. the City of Moncton, took place this morning when mutual releases between the two parties were exchanged. The cases had been standing for many years and were recently settled by arbitration.

Continuous advertising has tremendous accumulative forces.—Cyrus Curtis. The O'Brien case which was to have come up at the county court this morning was adjourned until 2:30 this afternoon.

GARNEGIE TALKS ON THE NEW SPELLING

Roosevelt's Action Supported in Britain. He Says the First Lot of Words Selected Were Agreed Upon by the London and American Societies.

NEW YORK, Sept. 7.—A London despatch to the Times says that Andrew Carnegie in a letter to the London Times refers to his defense of President Roosevelt's spelling order and his advocacy of spelling reform.

"There needs that only one step be taken by your government to continue this reform, namely, the appointment of such a committee as advised from the larger list for immediate adoption. If such a commission were appointed I doubt not that it would endorse the selection made for the president by the American board and the language would be one."

"It is never to be forgotten that amended spellings can only be submitted for general acceptance, it is the people who decide what is to be adopted. If such a commission were appointed I doubt not that it would endorse the selection made for the president by the American board and the language would be one."

COLLINS CASE GOES TO THE JURY THIS AFTERNOON

HOW A FRENCH GROGGER LOST IN THE GAME OF LOVE. His Bride's Mother Wanted Him, His Intended Ran Away, and He Hanged Himself.

PARIS, Sept. 7.—A drama could be made out of the story of a grocer's marriage at Grenoble. He was seven and twenty, ambitious and pleasing. He was introduced to a rich tradesman with a still buxom wife and a pretty daughter of eighteen years.

"There needs that only one step be taken by your government to continue this reform, namely, the appointment of such a committee as advised from the larger list for immediate adoption. If such a commission were appointed I doubt not that it would endorse the selection made for the president by the American board and the language would be one."

KING EDWARD ANNOYED BY QUIRIOUS CROWDS. Is Not Permitted to Enjoy in Peace a Daily Walk in Marlborough.

MARLBOROUGH, Sept. 7.—In answer to the story that the king made an appointment to meet an American girl who wrote him that she was about to marry a dear friend of his, it is stated that no incident of the sort described ever occurred.

The king, wishing to escape their attentions, sought refuge on a favorite bench in a bay off the promenade overlooking the public gardens, but this only had the effect of increasing the size of the mob.

LABOR PARTY STILL PILING UP THE DEMANDS. Wants Nationalization of Everything Worth Speaking About in Britain.

LIVERPOOL, Sept. 7.—Without any discussion the trades union congress, at its session today unanimously instructed the labor members of parliament to introduce a bill providing for the nationalization of all railways, canals and mines in the United Kingdom.

CHARLOTTETOWN, P. E. I., Sept. 7.—The schooner Alana from Pictou to Charlottetown, with coal for her owner, A. Down, was dismasted and driven ashore at Point Prim yesterday. She is a total loss. The crew saved. Loss six hundred dollars. No insurance.

NOTHING TO WISH FOR. "She has everything she wants." "Everything?" "Positively everything." "No wonder she is discontented."

GOLF

MARITIME CHAMPIONSHIP.

The Maritime Ladies' Golf Association reached the semi-final stage in the championship match yesterday afternoon. Miss Vera Robinson defeated Miss Helen Smith, and Miss Hazel Thomson defeated Miss Parks. This afternoon Miss Robinson and Miss Thomson will play off for the maritime championship.

In the consolation match which was completed yesterday afternoon, Miss Robertson captured the cup.

Miss Muriel Robertson won the contest in approaching and putting yesterday morning. Miss Barber took second place.

Lunch and tea were served on the grounds. The Misses Smith were in charge of the arrangements, and a large number were entertained at the club house.

The annual meeting of the Maritime Association will be held this morning at ten o'clock at the club house.

This afternoon at four o'clock the various prizes will be presented by Mrs. George McAvity.

SKATING

AT ST. ANDREWS.

At the St. Andrews rink last night a couple of very interesting races were witnessed by a large number of spectators.

In the first race Gleason defeated Knowlton. The distance was half a mile and the time 1:54. Gleason got a slight advantage at the start and increased his lead until in the last lap he caught and passed his opponent. Olive and Nixon then raced a mile, also starting from opposite sides of the rink. Nixon got a good lead but fell, giving Olive a considerable advantage. Nixon recovered quickly and in a couple of laps regained his place beating Olive by the time of 3:33.

The officials were Joe Page, starter; E. L. Jewett, W. R. Enokhart and L. G. Berryman, timers; F. Potts and F. Alward, judges.

Tonight Finley, the eleven-year-old boy will race Nixon for a half mile. Despite the difference in age Finley is expected to make a good showing against his more experienced opponent.

It was announced last night that Billy Merritt had accepted Ned Nelson's challenge for a mile race. The contest will take place this evening.

The LaRog children appeared again last night and delighted the spectators with their extremely graceful and skilful skating.

THE TURF

AT MOOSEPATH PARK.

In spite of the inclemency of the weather yesterday afternoon witnessed some of the finest racing ever seen at the Moosepath race course. In three straight heats, Burline, in three straight heats, was the winner of the 2:30 class.

In the 2:15 class, Belfry Chimes won in three straight heats. The last heat in this race was probably the most exciting, as Daisy Wilkes was right up to Belfry Chimes, which horse only finished a neck ahead. While in the 2:15 class, the time made was 2:14.4, 2:14.4, 2:14.4.

The officials of the day were Frank Power, starter; A. A. Sterling, Frederick; E. LeRoll Willis, Sydney; E. L. Jewett, St. John, judges; W. E. E. Wilson, W. S. McKay, timers; James McGivern, clerk of course.

THE HARTFORD RACES.

HARTFORD, Conn., Sept. 6.—Of the large list of entries received, only three horses started in the free-for-all trot in the grand circuit at Charter Oak Park today. Sweet Marie being the first to start in fine style, being forced to trot second to Wentworth in the third heat. The Sterling mare went twice in the final heat and went beaten under the wire by a head. Wentworth trotting a game race, all the way. Angles, the winner of last year's \$10,000 stake brought up the rear in all three heats. Sweet Marie was the favorite in this event.

The 2:12 pace was won in straight heats by Owales, Long John taking second money and Merry Me, third. Bonnie Stenway pad things his own way in the 2:16 pace and took the race in straight heats. Moore taking second money and Captain Derby, third.

LEWISTON RACES.

LEWISTON, Me., Sept. 6.—The racing today was a disappointment. Three heats were sufficient to decide the winners of the three afternoon races.

YACHTING

VIM WINS AGAIN.

MARBLEHEAD, Mass., Sept. 6.—Today's race, the third of the series between German and American yachts in the Boston cup, was won by the Vim, owned by Commodore Park, of the American Yacht Club, of New York.

The Vim was the winner of yesterday's race, the second of the series.

The Tilly VI, German, was the second boat to finish, but a protest was entered against her by the Wannsee (German) because of a foul which took place on the line just as the boat was started.

The Caramba (American) was the third boat across the line, five minutes and forty seconds behind the Tilly. Next came the Wannsee, 59 seconds

BOX OF SAND MAKES

PARISIANS SHIVER

PARRIS, Sept. 7.—The discovery of a wooden box with a protruding fuse in the garden of the late Grand Duke Paul Alexandrovitch of Grand Duke Paul Alexandrovitch in St. Cloud created a great sensation today. Investigation showed that the box was filled with sand. The police are searching for the person who placed the box where it was found and believe that the practical joker is a discharged servant.

NELSON IS ALL RIGHT;

HE IS GOING FISHING

GOLDFIELD, Nev., Sept. 6.—The report that "Battling" Nelson was dangerously ill, and was likely to die as a result of the beating he received at the hands of Joe Gans Monday night, is so far from true that Nelson left Goldfield this morning for Truckee, for a fishing trip. Aside from some bruises and internal hemorrhages, Nelson was not severely hurt in the fight with Gans. His face was beaten up as a natural consequence of frequent collisions with Gans' fists, but nothing more serious.

Why?

You do not appreciate B. B. like
others do is that an imitation has been
given you in place of the genuine

Campbellton Tribune: Much sym-
pathy is expressed for Mr. and Mrs.
Robert Porter, Athol, in the death of
their three-year-old son by poisoning
on Saturday afternoon last. In the
morning when the order for groceries
was delivered it included a small bottle
of carbolic acid. The child got hold of
the bottle of carbolic acid and drank
about half of it. Shortly after he
was found stretched out upon the
floor, and medical aid was at once
summoned. Dr. Pinesault lost no time in
hurrying out, but it was then too late
to save the little one's life, although
he lived for about two hours after the
doctor's arrival.

Losing Hair

That is too bad! Been coming out
for a long time, has it? So much the
worse! But it is not so bad as it might
be, for you can stop this falling, and
stop it falling hair, cures dandruff, and
keeps the scalp clean and healthy. We speak from long experience.

ST. JOHN, N. B., SEPT. 7, 1906.

AMUNDSEN'S TRIUMPH.

A despatch of more than one
hundred words published in Tuesday's
papers, a brief and simple statement
of fact absolutely without comment
and seemingly of little importance to
anyone, announced the successful
completion of an undertaking which has
for hundreds of years occupied the
minds of the world's foremost explorers
and scientists. Captain Roald Amundsen
in his little fifty ton ship, The Gjøa,
has sailed through the northwest
passage, the Arctic waterway from the
Atlantic to the Pacific, thus accom-
plishing a feat, previous attempts
which have cost the lives of many
scores of heroes. Involved enormous
expense and held for years the interest
of the world.

It is true that knowledge gained
during the past three or four centuries
has shown that this passage is of but
little value. Formerly it was sought as
a new route to India, later its accom-
plishment was desired by scientists for
the sake of the definite information
which would be gained in fixing the
geography and topography of the northern
lands. But centuries ago it was learned
that no short route to India could be
found in such a direction, that it is
not wanted anyway; but within the
past fifty years the explorations of men
of different nations have furnished
much of the material required in pre-
paring maps of the Arctic seas.

Yet to Captain Amundsen and his
brave crew belongs the honor of reach-
ing that goal which so many sought
in vain, and there can be no doubt that
this intrepid Dane has secured definite
knowledge which will be of the utmost
importance in the world of science.

Captain Amundsen, however, cannot
claim the honor of being the first to
make the passage from ocean to ocean
by the northern route. That distinction
belongs to Captain McClure, who in
1856 and after three years of hardship,
with assistance able to complete
his journey from Behring Sea to Baffin
Bay. Captain McClure travelled part
of the distance by sledges. For his
accomplishment he received the British
honors of knighthood and a reward
of ten thousand pounds.

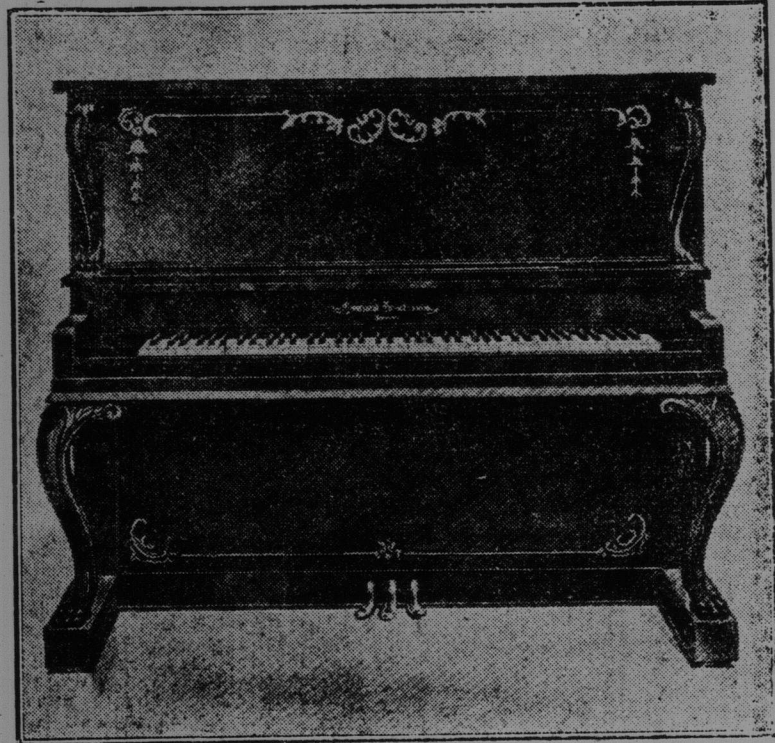

To secure authenticated information
as to the search for this northwest
passage, it is unwise to go farther back
than the thirteenth century when the
Normans then the world's greatest
sailors, sent many ships to Baffin Bay,
through Barrow Strait and into Mel-
ville Sound. Along the shores in these
places records have been found of the
visits of their ships, but it does not ap-
pear that any determined effort was
made to reach the Pacific, and the
voyages were in all probability under-
taken chiefly for the purpose of fishing.
Then followed a period of three hun-
dred years of practical inactivity, and
the next voyages of importance were
those fitted out by Frobenius in the
years 1578 to 1579. On these he estab-
lished the fact that there are between
latitudes 60 degrees and 83 degrees two
wide openings on the coast of America
leading to the westward. Frobenius's
voyages were made for the sole purpose
of discovering a northwest passage to
India, and the same was true in the
case of John Davis, the next to make
the attempt. Davis made three trips,
and caused great confusion in the
minds of geographers by asserting that
Frobenius's maps were incorrect, and
upsetting all previous ideas. Davis
had entered what is now Hudson
Strait and sailed to Davis Strait.

Henry Hudson is the next name
which stands out prominently among
those of Arctic explorers. After two
voyages to the northeast and west, he
was sent by a number of English mer-
chants to explore the northern coast
of America. He discovered, in 1610,
Hudson Strait which Davis had seemingly
overlooked, and the great bay, both of
which now bear his name. Hudson's
career was cut short by the infamous
conduct of his crew in abandoning him
in an open boat. His work was
carried on by Sir Thomas Button,
Thomas James and Luke Fox, who
completed the exploration of Hudson
Bay between the years 1612
and 1622. During this time too
William Baffin made most
valuable discoveries to the northward,
his great achievement being in enter-
ing and exploring what is now Baffin
Bay. Still the attempt to find a north-
west passage was not abandoned, and
John Scroggs who in 1672 was sent to
relieve some other explorers brought
back what he claimed was absolute
proof of the existence of such a pas-
sage. As a route to India it had been
given up as hopeless but as a scientific
enterprise the exploration was con-
tinued. Several naval expeditions under
Captain Middleton were sent out from
the Pacific and in 1781 Alexander Mac-
kenzie entered the mouth of the Mac-
kenzie river. The Russian nation had
not been idle during all this time, and
in 1725 Captain Vitus Behring was put
in command of an expedition. He
made several voyages through the
Behring Strait and the knowledge
gained in the northern seas proved of
great value to geographers. In 1773
Captain Cook who had won fame in
previous voyages was sent from Kan-
chika to search for a northeast or
northwest passage. His work was
chiefly of value in definitely deter-
mining the coast lines of northwestern
America and north eastern Asia. An-
other dull period ensued until in 1813
Sir John Barrow promoted the first
of those enterprises in which John

Franklin was engaged. David Buchan
and Franklin had no success in their
first voyage. They were followed by
Captain John Ross and Lieut. Parry.
They visited the waters explored by
Baffin in 1616, and Parry came to the
conclusion that a wide opening west-
ward extended through Lancaster
Sound. He made a second voyage,
passed through this sound, and away
westward to Melville Sound. For the
next few years Parry, Franklin and
Captain Beechey worked towards the
common goal of starting from different
points and endeavoring to make their
expeditions meet. Franklin went north-
ward through Canada, Beechey east-
ward from Behring Strait and Parry
westward from Baffin Bay. John and
James Ross spent four winters of
great hardship in the Barrow Strait
district but were eventually rescued,
and brought back with them much in-
formation of value. The success of this
expedition and the completion of the
tracing of the Arctic coast of America
by the Hudson Bay Company, gave
rise in 1845 to a fresh attempt to make
the northwest passage. The tragedy of
this, the last expedition of Sir John
Franklin, in the Erebus and Terror, is
one of comparatively recent date, as
are also the accounts of the various
expeditions which have been sent out
to secure particulars of his fate.

Franklin learned enough to assure
himself that a northwest passage exist-
ed in the Behring Strait where he re-
mained almost in sight. Among the relief
expeditions was one of two ships the
Enterprise and Investigator under
Collinson and McClure. They became
separated but both entered the Behring
Strait and Collinson made a remark-
able voyage along the northern
American coast. McClure reached al-
most to Barrow Strait where he was
stopped by the ice. Turning southward
he spent a second winter on the north-
western shores of the land, and then
made a sledge journey eastward to
Melville Island. He was about to aban-
don his ship, the Investigator, when
a large sloop of war, the Albatross,
succeeded in breaking through the ice
and was abandoned after a year, but
Sherard Osborn who had been with
Belcher sent out again in the Resolute
covered the position of McClure with
the Investigator, and in the spring of
1853 the expedition was sent to the
British Government with Sir Ed-
ward Belcher in command. This was
abandoned after a year, but Sherard

RIVERSIDE'S NEW INDUSTRY

HOPWELL HILL, Sept. 6.—Work is progressing on the woodworking factory of Capt. Edmund Kinnle at Riverside, and although the buildings are yet in an uncompleted state, the machinery has been in running order for some time and the firm is already filling orders. Capt. Kinnle was burned out a year ago, and his rebuilding on a larger and better scale has shown a very commendable enterprise, as well as a confidence in the business prospects of his native place, and it is hoped the industry will have a successful future. The new establishment includes four buildings—warehouse, dry-house, blacksmith's shop and the factory proper. The latter is 7338 feet and is fitted up with planer, moulder, buzz planer, hand saw, two saw tables and turning lathes. The machines all rest on stone piers, making a very firm foundation. The main shaft is over 50 feet long and is driven by a 65 h. p. engine, there being two boilers of 75 and 30 h. p. respectively. The boiler house, adjoining the main building, is of brick

and will have a metal roof, affording a great protection against fire. The factory will also have adjoining a rotary saw mill, so that the stock may be made right up from the logs, making a pretty complete equipment. C. H. Bray is foreman of the establishment.

"KERRY COW" AT THE AUDITORIUM.

Allen Doone in the title role of Joseph Murphy's old Irish play, "Kerry Cow," made a big hit at the Auditorium Theatre yesterday. The plot of "Kerry Cow" is the old tale of the grasping landlord who holds the mortgage on the farm and will not relent unless the poor but honest father consents to force his daughter to marry the villainous mortgage holder. This melodramatic plot is treated in a refreshing way, with the soft pedal on the "melodrama." The situations are good and Allen Doone makes Dan O'Hara, the Kerry Cow (Gow is Irish for blacksmith), a bright, likable fellow. There is no bloodshed and there are no heavy

situations that leave the audience gasping and weak when the hero thwarts the villain. Mary Fernier as Nora Drew, the girl whom Dan will marry in a few days after the last act ends, was good. The love scenes between Nora and Dan, which were frequent, were never overdone.

A feature of the play is the scene in the blacksmith shop, where Kerry Gow makes a horseshoe at the blazing forge and shoes the villain's horse, which may win the race on which all the hopes of the Drevs are staked, "as well as though it were the horse of my best friend." The news of the race is brought to the Drevs by carrier pigeons, which fly in and light on the dovecot.

Mr. Doone won the audience in the first act with his love song, "Sweet Nora Drew." E. H. English was a good friend of the lovers as Raymond Drew, J. J. Hyland made the villain a very probable character; he never ranted and his villainies were not the usual preposterous horrors committed by the ordinary bad man. The company gave good support.—Kansas City Times March 6th.—Adv.

PROF. C. C. JONES IS CHANCELLOR

Was Appointed Mathematical Professor Yesterday.

He Was Only Applicant for Both Positions—Will Immediately Accept—Prof. Murray Not Heard From

FREDERICTON, N. B., Sept. 6.—The University senate, which this afternoon appointed Prof. Cecil C. Jones professor of mathematics, considered the short time it was in session for names—J. W. Clawson, Dr. Phillip Cox, Dr. Bradford and Prof. Jones. The

PROF. CECIL C. JONES.

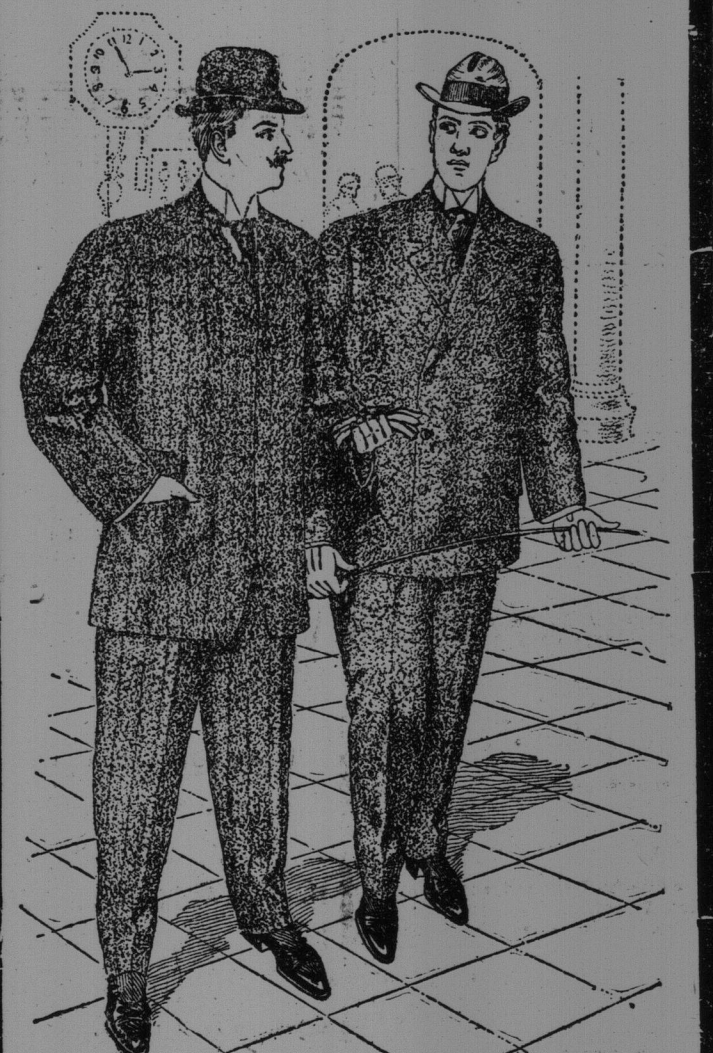

first three were applicants for the mathematical professorship, while Mr. Jones applied for both the professorship and chancellorship. As the appointment, however, carries with it both positions, the only applicant for both received the appointment. A number of the senate strongly urged that action should be delayed in the matter, but the opinion of the majority favored settling the matter up at once. Up to a late hour tonight Mr. Jones had not been heard from, but it is pretty likely he will take for granted that as he was an applicant he will accept. The position of chancellorship is a most important one for besides being the head of the University, he is also a member of the senate and of the board of education. The salary is \$2,000, with residence and light and fuel supplied. Former chancellors also held the position of superintendent of the meteorological system worth about \$400 and this no doubt will also go to Mr. Jones. The senate, it is understood, today considered no names outside of the applicants, though it is understood that Prof. Walter Murray, of Halifax, was telegraphed to last evening, but as Dr. Murray is not at present in Halifax no answer was received. Probably he had been heard from his name might have been considered along with the others today. No appointment of chancellor was made, as this appointment is made by the government, but the appointment of professor of mathematics today was clearly made, with the understanding that the government would make Prof. Jones chancellor if Mr. Jones will accept. Premier was present at the senate meeting this afternoon.

MONTREAL SHIP LABORERS STRIKE FOR MORE PAY

MONTREAL, Sept. 6.—One hundred and fifty ship laborers working for the Canadian Pacific Steamship and Dominion lines are out on strike. They have been receiving twenty-cent an hour for day work, thirty for night work and forty for Sunday. They demand twenty-five, thirty-five and fifty cents an hour. This the companies do not feel they should pay, as the men are only laborers. Their work is chiefly building cattle stalls on steamers and kindred work. They are not carpenters, and almost any man who can drive a nail can be ship laborer. The demands met with a prompt refusal. The greater number of the strikers were employed by the Canadian Pacific. The company at once put fifty sailors at work and several carpenters and this afternoon a good sized crowd is going from the railway to the steamers. With these the company claims the work can be done, and meanwhile men are being hired to permanently replace those who are out. The Dominion line is also filling vacancies and business is not suffering, according to the statement of the officials.

Letters testamentary of the estate of the late James V. Brown of St. Marys have been granted to his widow, Mary Ann Brown, and Wm. R. Floyd, the executrix and executor named in the will. The estate is valued at \$7,810 real and \$1,200 personal property. The testator by his will left \$1,000 to his daughter, Mrs. Geo. Floyd, who resides in the west, and the balance of the estate to his widow for life, with power to use the principal as she may see fit. The balance after the widow's death is to go to the daughter, Mrs. Floyd. E. R. Chapman, proctor.

Result of Analysis of Milk in Canada.

More Gold Discovered in Ontario—Ocean Records Broken—Stuffing the Doukhobors.

LONDON, Eng., Sept. 6.—The Society for the propagation of the Gospel has received a donation of \$10,000 from an American donor who requests that the money be devoted to the extension of church work in Western Canada, in view of the influx of colonists into the district.

OTTAWA, Sept. 6.—The chief analyst of the dominion has examined 219 samples of milk taken from all over the dominion. There were 189 genuine, eighty-five adulterated. None of the samples from Nova Scotia or New Brunswick were adulterated. There were two adulterated from P. E. Island, two from Quebec district, six from Montreal, seven from Toronto, six from London, five from Manitoba, three from Calgary, four from Ottawa and six from British Columbia.

The imperial dockyards at Halifax, will, in all probability be transferred to the Canadian authorities about the middle of October. The minister of marine is now in communication with the admiralty in regard to the transfer. Canada's offer was accepted some time ago by the home authorities.

The order-in-council appointing W. T. R. Preston trade commissioner to Japan, China and Corea, has been approved by the governor general. It is likely that he will assume his new duties at an early day. Mr. Preston will report direct to the minister of trade and commerce.

Gold is reported to have been discovered in paying quantities on the farm of Henry Hurdman in Early Township. The discovery was made while boring for water.

LONDON, Eng., Sept. 6.—Louis Birt, just returned from a trip across the dominion, in the course of a lengthy letter to the Liverpool Daily-Post Mercury, warns every one going to Canada that it is no place for those "born tired." All work in Canada from the president of the C. P. R. down.

MONTREAL, Sept. 6.—The Dominion liner Ottawa arrived here at ten o'clock tonight, beating all records for the Liverpool to Montreal trip. Leaving Quebec at eleven o'clock this morning, the Ottawa, drawing 24 feet 6 inches, came up through the most difficult part of the channel by night. The time of the Ottawa from Liverpool was exactly seven days, a whole day better than the best previous time for the same trip. She had on board 200 passengers, most of them Americans from the western and middle states, who are crossing by the Canadian route in rapidly increasing numbers.

HALIFAX, Sept. 6.—Two coal workers on the steamer Basuta were almost killed today. They were knocked off the gangway by a flying tub of oil and hurled into the hold of the ship thirty feet. Their skulls and legs were fractured and ribs broken. Both may recover.

WINNIPEG, Sept. 6.—Because they refused to eat, fourteen Doukhobors in Regina jail have to be fed by scientific method of pumping nourishment into them. It was a case of being either forced to take food or starving to death, and three times daily they are forced to eat.

DIGBY, Sept. 6.—A despatch received from the customs department, tonight sustains the seizure of the Italian bark which was made at Digby for not reporting, and she will be compelled to pay a fine and all other charges before receiving her clearance papers at Annapolis for Buenos Ayres.

HALIFAX, Sept. 6.—If there is one thing more than another that Halifax people prize it is the public gardens. At a recent meeting of the city council it was decided to remove the fence. This action was rescinded tonight when the aldermen voted almost unanimously for reconsideration and for the erection of a new iron fence to cost \$10,000.

KASIER STARTLES GERMANY.

Appointment of Dernburg as Head of Colonial Office a Great Surprise. BERLIN, Sept. 6.—The Kaiser's appointment of Bernhard Dernburg as head of the Colonial Office has caused a sensation throughout the empire. The choice of a hustling financier to fill a post traditionally given to aristocratic bureaucrats is regarded as a revolutionary step.

Herr Dernburg is wholly without political experience, but he has a great reputation for energy and daring. He began life as a factory clerk. He emigrated to New York, where he was for some time employed in a bank. Much influenced by his American experience he returned here a confirmed admirer of transatlantic methods, which he immediately adopted when rapid advance placed him in a controlling position.

The public generally approves the appointment, hoping that Herr Dernburg will straighten out the complicated muddle existing in the affairs of the Colonial Department. It is predicted that he will have a tough struggle against militarism and bureaucracy.

Herr Dernburg abandons an income estimated at \$100,000 for an official salary of \$17,500, but he is reputed to have immense independent wealth. It is anticipated that his energy will galvanize German colonial enterprise in a manner that will affect all the world, especially Great Britain. The great interest being taken in the Salvage Corps carnival to be held at St. Andrew's Hallway on Monday night next reminds one of old times when a carnival was a carnival in every detail as well as name. A liberal amount is to be given for prizes, and the number of inquiries that are being made daily at the rink is indicative of the large number of costumes that are being prepared. No skaters allowed on the floor unless properly equipped and masked or "made up." Tickets can be secured from any member of the Corps and should be procured at once before they are all gone, as no more will be issued after the present lot are sold.—Adv.

EXHIBITION ATTENDANCE STILL AHEAD OF RECORD

Yesterday's Number, 14,531, Was Less Than Record For Same Day in 1904 But Total is 560 Greater

Table with columns for Date, Attendance, and Total. Rows include Saturday, Monday, Tuesday, Wednesday, Thursday, and Total to date.

The attendance at the Exhibition yesterday was 14,531, or 2,849 short of the record for Thursday in 1904.

While it is admitted on all hands that the industrial exhibits are superior to the Fair of 1904, and the scheme of lights and decoration more attractive and harmonious, the agricultural products were lighter, due in some measure to the fact that it is rather early.

Considerable routine work was done yesterday by the judges. The judging of the cattle and horses was about finished, while Mr. Butterfield, the poultry judge, who arrived yesterday morning from Sherbrooke, made a start in the poultry department, and expects to finish today.

Another feature will be an exhibition of jumping by the mare Anita, owned by Jas. D. Reid of Fredericton.

The races at Moosepath this afternoon will no doubt prove an irresistible magnet for the horsemen.

On Saturday the closing day of the big fair, the motor boat races on the harbor will be a unique event to the majority of the visitors.

The air of the Pike seems to be productive of wonderful results. The great snake is growing bigger and the Ewart is growing smaller.

SALOON KEEPER CHARGED WITH ARSON

MONTREAL, Sept. 6.—Alphonse Daigneault, an east end saloon keeper, was charged with arson in the police court today and pleaded not guilty.

After referring to the fact that the Conservative party in England had for so long been identified with the imperial idea that the name synchronized for imperial unity, he went on to say that the change did not imply any weakening in the affection of the British people for kith and kin across the seas.

Word was received from St. Martins yesterday, that the portable mill owned by Fownes and White at Hanford Creek, had been totally destroyed by fire. There was no insurance.

The ladies of Zion Methodist church will hold rummage sale during the second week of September. All contributions will be gladly sent for by telephoning F. S. Purdy, Tel. 496. 28-4-week.

No pair of eyes have the same refraction, and some have a very marked difference. By testing each eye separately this can be verified. D. Boyaner, optician, 35 Rock street, makes a correct examination and gives the correct lens for each eye.

William H. Carroll is the only nominee in the field for Governor of Massachusetts. It is expected that he will appear later. Mr. Carroll was born in New Brunswick thirty-six years ago and left here when nineteen years of age.

It was expected that Dr. J. A. Morrison would preach in St. David's church tomorrow. Dr. Morrison, will not however, be able to be in the city. The services will be taken by the pastor, Rev. A. A. Graham.

This morning about nine o'clock a heavy telephone cable broke clear of the wire support and in its fall near the corner of Sydney and Union streets, a lady and a horse just escaped injury. A gang of men were soon on the scene and made repairs.

The city ambulance was called out twice this morning. It was called to convey a sick girl from a Charlotte street home to the hospital, and shortly after went to the Union depot and took Wm. McDonough to the hospital. Mr. McDonough came from Hampton and was suffering with appendicitis.

The development of all Canadian industries should be a source of pride to all true Canadians. No industry has shown more rapid growth in the last few years than the Hewson Woollen Mills, and no one could visit the Exhibition without examining the samples of this firm's products exhibited there.

Yesterday Sister Patrick celebrated her twenty-fifth anniversary as Mother of St. Patrick's Industrial School, Silver Falls. Sister Patrick was born in Westmoreland Co. and is a daughter of the late Mr. and Mrs. Dennis Mahoney. She entered St. Vincent's Convent on Cliff street in 1872, and remained there for nine years.

Some time ago three members of the legislature in a joint letter, recommended that an expert be obtained to test the stability of the Suspension bridge. This was thought necessary on account of the largely increasing traffic over the bridge. Mr. LaBilliole in answer to the letter, said that the bridge was, in the opinion of the department, quite safe. However the wish of the members will be carried out and an expert obtained as soon as possible.

Rev. Dr. Carman presided over the deliberations of the superannuation fund commission yesterday. The clerical treasurer read the report of the committee, which was considered eminent satisfactory. A report for the quarterly conference, which meets in Montreal next week, was referred to the general conference. The financial statement of the fund was also presented. This is the first time in twelve years there has been a surplus in the superannuation fund. A number of applications were considered, together with special grants. The commission's report, to be forwarded to the general conference proposes a more equitable scale of assessments and provision for a special reserve fund. The surplus on the surplus in the annual account to be available to meet any possible deficiency that may arise.—Toronto Star.

FIRST VISIT TO ST. JOHN IN THIRTY SEVEN YEARS
Aged Victoria County Couple are Taking It the Exhibition

Among the visitors to the Exhibition this morning were Mr. and Mrs. Crawford. Mr. Crawford is eighty-seven years old and his wife is eighty-five. They came from Victoria county this morning for their first visit to St. John in thirty-seven years.

Both Mr. and Mrs. Crawford are still hale and hearty and took a great interest in the show. They also enjoyed the leading features of the Exhibition, the phase of the Fair being new to them.

CATHOLIC CLERGYMEN EN ROUTE TO HALIFAX
Mgr. Sharrill Among Those Who Will Attend the Consecration of Archbishop McCarthy.

A number of prominent Catholic clergymen passed through the city this morning on their way to Halifax to attend the consecration of Archbishop McCarthy. Among those on the train were Archbishop Dubham, Ottawa; Father Connolly, S. J. Guelph; Monsignor Sharrill, and his secretary, Dr. Simont, Montreal; Father Fitzpatrick, Bonaventure; Father Scanlon, Grafton, Ont.; and Canon Plantin, Ottawa. Bishop Casey also accompanied these gentlemen. The consecration sermon will be preached by Father Connolly, of Guelph.

PROF. JONES ACCEPTS THE APPOINTMENT TO THE U.N.B.

Prof. C. C. Jones has definitely decided to accept the appointment as professor of mathematics offered to him by the senate of the University of New Brunswick. This position, by agreement with the government, carries with it the position of chancellor of the University. His resignation as professor of mathematics at Acadia will be handed in within the next week or so, to take effect before the beginning of the college term.

ST. ANDREWS RINK.
At the St. Andrew's Rollaway tonight the management will give their patrons another treat even bigger than the one of last night. Here is the programme. The 62nd Band will furnish music up to 9.30 for skaters. At 9.40 the La Rey children, the world's champion juvenile fancy and trick roller skaters, will give their exhibition. After their performance there will be two more, the first between Finley, the eleven year old wonder, and Black, of Amherst, a very fast boy skater. The distance will be a half mile, and it will be a dandy race. After this race there will be a one mile race between Merritt, the 5 mile champion of the world and Dalton. The latter feels confident that he can defeat Merritt and challenge him and this race is the result. For one mile Dalton is about as fast a skater as there is, and if Merritt beats him he will have to skate mighty fast. Visitors who have never seen really fast roller skaters should go to St. Andrew's Rink. Any one of the above events is worth the price of admission alone, but the price for all the events is the regular one no extra charge being made.—Advt.

ANOTHER POSITION.
Miss Edith Barker, of Bath, N. B., has been selected by the Employment Bureau of the Currie Business University, Ltd., to fill a position as stenographer in the office of F. F. Collier & Son, publishing house.

Warning to Exhibition Visitors.
We are obliged each exhibition year to turn away hundreds who come to St. John for the sole purpose of having their teeth attended to, but who neglect the main object of their visit until a few days before their return home.

We would therefore advise all to call early and avoid the usual rush so that they may not be compelled to return home disappointed at being unable to avail themselves of our SUPERIOR WORKMANSHIP AND ATTRACTIVE FEES.
Parents should remember that the vacations are drawing rapidly to a close, and that as they value the health and welfare of their own children and those of others they should see to it that their children's teeth are in proper condition. We can put their teeth in the condition they should be, without affording them any pain and we can do it reasonably. Call at once.

QUARRELLED OVER BOAT RACE, BUT ARE FRIENDS AGAIN

West Side Men Stook Hands in Court— Several Drunks Disposed Of.

There were five prisoners in the police court this morning and all were given the limit.

John Syron was arrested for bagging in the C. P. R. station and pleaded not guilty. Policeman Smith said that Syron was annoying passengers, bagging tobacco, and he was drunk. Syron has been on the chain gang for about a month and was liberated on Tuesday last with the understanding that he was to leave town and try to get back to New York. He was sent into jail and told that he was liable to six months. Harry Guy, drunk on Church street, was fined \$4 or ten days.

Wm. Beckwith lying drunk in the old burying ground, was told he should be ashamed to drink till he had to lie down. He was fined \$4 or 10 days jail.

Joseph McNulty got drunk yesterday and this morning was asked to pay \$4 or go to jail for ten days.

Theophilus Marchant, drunk on Paradise Row, was fined \$4 or 10 days jail.

Elliah Ross and George Belyon, of Carleton, were in court reported for fighting. They acknowledged that they had been mixed up in a boat race dispute. They were sorry for what had happened, shook hands in court and the case was laid over for a week.

The man Duffy arrested a few days ago charged with stealing \$16 from George Brown, was heard this morning. He explained that he thought part of the \$16 which he thought had been loaned to him and intended to pay it back. Brown was not anxious to prosecute and the case was dismissed.
