April,

## SALUTATORY.

In presenting to the Public the first number of the "SAINT JOHN BUSINESS DIRECTORY," it has been the object of the Publishers to meet a demand, which, for several years, has been daily increasing in the community.

Although a great deal of pains has been taken to secure correctness in arranging the names of individuals under the various Business Heads, still, unavoidable errors may be discovered. As we propose publishing a second number in December next, we would respectfully request any person observing any such inaccuracy, to furnish us with a written correction, directed to either of the Publishers.

To enhance the value of the book, we have connected with it an Almanac, for the current year; a list of Public Officers, Provincial and City; and such other information as would give additional interest.

In the second number we shall publish a much larger amount of interesting matter, and shall also attach a well executed Plan of the City to each copy of the Directory.

To those friends who have kindly furnished us with information for the present number, we would respectfully tender our warmest thanks.

**PETER STUBS,**  
**Saint John,**  
**BARRISTER & ATTORNEY AT LAW,**  
**NOTARY PUBLIC,**

And Solicitor for Letters Patent for New and  
 Useful Inventions in the Province of New-  
 Brunswick.

**Summary of the Provincial Law in re-  
 ference to Letters Patent.**

The Governor is empowered to grant Letters Patent for fourteen years, upon the application of an inventor, or discoverer, made under oath.

A description of the invention with drawings and references thereto, and a model, in certain cases, to be lodged in the Provincial Secretary's office. If the discovery consists of a composition of matter, specimens of the ingredients thereof are to be left at the Secretary's office.

If a person entitled to a Patent in this Province die before it is granted, his Executor or Administrator may obtain the same. Letters may issue to the assignee of any person entitled to a patent. A foreign patent can be assigned, and the assignee will be entitled to Letters for this Province, during the remainder of the time such Patent has to run. Every Provincial Patent is assignable, in whole or in part.

Letters Patent may be extended beyond the original time for 7 years, under certain circumstances. The penalty for infringing on a Patent is three times the actual damage occasioned by such offence, recoverable in the Supreme Court. A Patent becomes void if not introduced, or manufactured in the Province within three years.

**OFFICIAL FEES ON PATENTS.**

JOHN WILSON, JR., Collector.

OFFICE—No. 56 Prince Wm. st., Corner of Church st.  
Hours, from 10 A. M. to 3 P. M.

Residence of Superintendent—13 Leister street.

The first Act for Incorporating a Water Company in Saint John was passed by the Legislature in 1826—the capital stock £10,000. The sum was too small to carry out the intentions of the Directors, and although the Company was organized, and 10 per cent. of the Stock paid in—the money was restored, and no further proceedings had under the Act. In 1832 and 1835, other Acts of Incorporation were obtained, extending the capital stock to £20,000, and the Company organized in 1836. The works were completed upon the Report of Col. Baldwin, C. E., who recommended the water to be taken from Lilly Lake in a sluice to a cistern near the Aboideau, and from thence pumped by a steam engine to a Tank near the Block House. The water from this source was first introduced into the City in October, 1838. This means of supply was found not to answer the purpose—and the Company resolved to abandon Lilly Lake and the Engine House, and obtain a supply at a greater elevation. In 1848, they obtained an increase of capital of £10,000, and laid an iron main of 12 inches from Little River to the Aboideau. This work was completed in 1851, and the increased supply brought into the City in the month of September. The increasing wants of the City and the adjoining Parish of Portland, the latter being totally destitute of water supply—and the former only supplied in certain districts—together with the imperative necessity existing for a larger supply in case of calamity, and the Company not being able to pay more than six per cent. per annum to a

portion of the Stockholders, rendered it impossible for them to yield to the growing wants of the City and Parish; it was resolved at a public meeting called on the 30th August, 1854 for the purpose, that some immediate steps should be taken to carry out the scheme on a large and more extended scale, and obtain a transfer of the Stock, on certain terms, from the Company to the City and Parish. Commissioners were appointed in 1854 to arrange with the Company—who agreed to dispose of the stock and works of the Company for the sum of £28,902 15s. 9d. In 1855, an Act passed the Legislature transferring the Water Company and the works into the hands of three Commissioners, for the City of Saint John and Parish of Portland—with power to issue Debentures to the extent of £75,000, and requiring them to proceed immediately with an improved water supply. By this Act all property in the City and Parish where mains pass, is in each year, rendered liable to assessment, whether the water be taken or not; it is levied, raised and collected at the Commissioners office, on valuation, mode of occupation, and probable consumption. Assessed owners of property can, on written application, have service pipes led to their property, as far as the side line of the street, in front thereof, at the expense of the Commissioners—but inside fittings have to be at the cost, care and risk of the owner or occupant. The Commissioners do no inside work—but require that competent Plumbers be employed to do the work;—all waste of water is strictly prohibited, under penalty of immediate shut off—and a charge of 10s. for turning on the same. The Commissioners, their officers, and servants, to have access to all premises and vessels supplied. Hotels, Steam Engines, Factories, Baths, &c., are supplied by agreement. Wilful and malicious injury to the works is made felony by the Act. The Assessments and rates and arrearages due the Commissioners are to be paid after 30 days notice;—if unpaid at the expiration of that time, to be recovered by distress warrants on goods and chattels found on the premises. Appeals for reduction of rates require to be made to the Common Council before the expiration of the 30 days notice. The half-yearly coupons of the Debentures issued by the Commissioners are payable at the office on presentation on the 1st day of May, and 1st day of November, in each year.

Large Stock of

### AGRICULTURAL IMPLEMENTS,

Including Threshing Machines, with Double and Single Horse Power; Seed Sowers, Straw and Turnip Cutters, Churns, Cultivators, Ploughs, Harrows, Agricultural Boilers, &c., &c.

Also—Kitchen Ranges, Cooking Stoves, Ship's Cambooses, Register Grates and Franklins, Close Coal and Parlor Stoves, of all sizes and patterns, which, from the introduction of Machinery, they are prepared to Manufacture and Sell at Lower Prices than those imported from the United States.

They also Manufacture, to order, STEAM ENGINES, MILL MACHINERY, STEAM BOAT SHAFTING; all kinds of Hammered Shapes, Ship Knees, Ship Steerers, Patent Windlass, Cast Iron Capstans, and Ship Castings of every description.

They would also inform the public, that they are Sole Proprietors and Manufacturers of Emerson's SHIP WINDLASS, the superiority of which, over all others, has been fully and satisfactorily demonstrated by numerous trials of its capabilities.

**FIRE DEPARTMENT.**

The present Volunteer Fire Department was organized in the year 1849, and is composed of one Hook and Ladder and eight Engine Companies.

The Firemen of the City of Saint John are celebrated for their activity, zeal and efficiency—the laurels they have gained in every instance where their services have been called into requisition demonstrate this fact.

There are sixty men attached to each Engine, who receive Certificates of appointment from the City Corporation. Each Fireman is exempt from Militia duty, from serving on Juries, and from the payment of City Rates, to the amount of Five Pounds yearly. He is required to serve for a period of fourteen years, when he is allowed to retire with certain privileges.

The Apparatus of the Department is of the best de-

Warrants in favour of the Civil List are by Law annually drawn upon the Provincial Treasury to the amount of £14,500. The charges on the Fund at present amounts to £11,975 14s. 0d. The balance is carried annually to the credit of the Surplus Civil List Fund.

The salaries of the Chief Commissioner of the Board of Works, the Post Master General, and Justice Neville Parker are paid out of the General Revenue, by Warrants on the Treasury, and are not chargeable on the Civil List Fund. The Clerks in the Crown Land Department are paid out of the Casual and Territorial Revenues, by Warrants on the Receiver General.

Salaries by Law paid out of the Civil List Fund:—

**SAINT JOHN SUSPENSION BRIDGE COMPANY.**—

The project of constructing a Suspension Bridge over the River Saint John, near the City, originated with William K. Reynolds, who after two years of persevering exertion succeeded in obtaining a Charter and forming a Company for this purpose.

The Bridge was erected in 1852, at a cost of £20,000. Mr. Reynolds being the Contractor, and Capt. Edward W. Serrell, of New York, Chief Engineer. Its dimensions are as follows:—Span, 650 feet; Width of Roadway, 23 feet; Height of Towers, 52 feet; depth from floor of Bridge to top of high water 72 feet—suspended from 10 cables, each containing 300 strands of wire, making total of 3000 strands.

## ST. JOHN MECHANICS' INSTITUTE—

This Institution was formed in 1838. It is under the Direction of a President, two Vice Presidents, a Treasurer, a Corresponding Secretary, a Recording Secretary, and a Board of Directors—three-fourths of whom are Mechanics. These are all elected, annually, from among the Members, whose number now amounts to nearly four hundred. Prosperity has attended this Institution since its first establishment. In 1840 its popularity lead to the necessity of erecting a Building for the use of its Members. This Building contains a Hall for Public Lectures; a large room, in which the Gesner Museum is deposited; a Library Room; a News room; and other rooms, which are appropriated to particular objects. The New Room is constantly supplied with the latest papers—both Domestic and Foreign, and the best Magazines and Reviews of the Mother Country and United States. The Library contains now upwards of 3000 volumes, and every year receives additions of new works, of sterling worth. The Museum, which, by the liberality of those who purchased it in shares from Dr. Gesner, is now the property of the Institute, contains a large and valuable collection of Minerals; a great variety of Zoological Specimens, and many Chinese, Indian, and other Curiosities, and frequently receives additions from sea Captains, and others, who get into their possession foreign articles of an attractive description. The Hall, which, in its original state, could accommodate from seven to eight hundred people, has been lately so enlarged, that accommodation can be given to seven hundred more. This Hall is exceedingly useful, and appears to be the most eligible place for Societies to hold their Annual and other Public Meetings. The Members of the Institute have been favoured with courses of Lectures in the Hall every Winter.

**SAINT JOHN SOCIETY LIBRARY—**

This Institution was formed in 1811. In that year a number of gentlemen impressed with the importance of having a good Library in the City, met together for the purpose of establishing one, among whom were Major General Hunter, William Campbell, Robert Parker, William Hazen, Jr., John Robinson. Dr. Adino Paddock, Joseph Leonard, Thomas Milidge, Jr., C. J. Peters and Thomas Wetmore.

A Constitution was adopted on the 12th Dec., and each member was required to pay in Five Pounds, and an annual subscription of Twenty-Five Shillings. Ward Chipman, Esq., was the first President, and John Robinson, Esq., the first Vice President. The number of its members was limited to fifty, but subsequently the shares were divided, and the Library is now owned by one hundred Proprietors, who pay an annual subscription of Fifteen Shillings. Non-Shareholders pay an annual subscription of Twenty-Five Shillings. The Library now contains about Four Thousand Volumes of Books, besides the current numbers of all the leading Reviews and Magazines published in England and the United States. Library open from 3 to 4 p. m. daily.

**Officers.**—President—George D Robinson, Esquires. Vice President—I Woodward, Esquire. Committee—W H A Keans, and W J Starr, Esqs. Secretary and Treasurer—J R Ruel, Esquire. Librarian—John McKean.

CHURCH OF ENGLAND YOUNG MEN'S CHRISTIAN SOCIETY.

The formation of Young Mens' Societies can be traced back to the latter part of the reign of Charles the Second. In that period of abounding iniquity associations of young men for the purpose of mutual edification in godliness were established. The first was formed in London in 1678, and in twenty years afterwards there were twenty distinct Societies in that City and its suburbs. Nor were these devoted young men without their imitators, for similar Societies were soon established at Cambridge, Gloucester, and

other Towns in England. Under the encouragement of the Archbishop of Dublin similar Societies made their appearance in the Kingdom of Ireland; in Dublin alone from beginning with one Society, numbering three or four individuals, they in a few years increased to nine or ten distinct kindred institutions. These associations were subsequently merged first in the Societies for the Reformation of Life and Manners, and then in the Societies for Promoting Christian Knowledge and Propagating the Gospel.

The Constitution of one of these Societies in 1678 contains the following provisions, which clearly shew the excellent designs of the Founders:—

I. "That the sole design of this Society being to promote real holiness of heart and life, it is absolutely necessary that the persons who enter into it, do seriously resolve to apply themselves in good earnest to all means proper to make them wise unto salvation.

II. "That, in order to their being of one heart and of one mind in this design, every member of this Society shall own and manifest himself to be of the Church of England and frequent the Liturgy and the holy exercises of the same. And that they be careful withal to express due Christian charity, candour and moderation towards all such Dissenters as are of good conversation.

III. "That the members of this Society shall meet together one evening in the week at a convenient place, in order to encourage each other in practical holiness, by discoursing on spiritual subjects and reading God's holy word; and to pray to Almighty God and praise his name together. And to this assembly any serious person may be admitted upon request.

IV. "That at such meetings there be no hot disputes about controversial points, State affairs, or the concerns of trade and worldly things; but that the whole bent of the discourse be to glorify God and edify one another in love."

These provisions are admirable, and worthy of imitation at the present day;—this enlightened Nineteenth Century.

About fifteen years ago the young men of London determined to have an organization of their own, and Societies were speedily formed on the ancient model

now, however, not only for their mutual improvement but for the diffusion of christian truth in the Parishes of England, in the missions of her Colonies, and in the vast field which is occupied by the Jew, the Mahomedan, and the Pagan. Great good has already been accomplished by these Associations, and the future will doubtless reveal still greater results from them.

The Church of England Young Men's Society in the City of St. John was formed about three years ago. The objects of it are, primarily, the advancement of moral and religious habits among young men who are resident in the City; and secondly, the general advancement of evangelical religion in the City, Province and elsewhere. To effect these objects, weekly meetings of the members are held, in which the Bible is studied, and Essays upon religious subjects are read. The rooms of the Society are also opened four evenings in the week, where the members can resort for the perusal of Books, Magazines and Newspapers. Courses of Lectures are also delivered every winter by Clergymen and other members of the Church of England friendly to the Association. A Library is being formed of religious books, and other means are about being adopted to promote the great objects of the Society. Each member pays 15s. a year. The annual meeting for the election of officers and the transaction of other business is held on the first Tuesday in January. At the last meeting, the following gentlemen were elected office-bearers for the current year:

President—James R. Fiel. Vice-Presidents—Henry W. Frith and Thomas W. Daniel. Treasurer—C. Kirkpatrick. Corresponding Secretary—R. S. Deveber. Recording Secretary—Thomas Boyne. Committee—Arthur Daniel, C. E. Hook, and J. A. Hoyt.

#### YOUNG MEN'S CHRISTIAN ASSOCIATION.

This very useful Association was established in this City in December, 1854, on the plan of Societies of the like nature begun in London in 1844, and followed since by numbers in the United States and the Sister Provinces. A number of zealous and active young men, belonging to different Evangelical Churches, requested the Ministers of the Protestant Denominations and others interested in the religious welfare of youth to meet together, and having formed a Constitution on the model of the English and United States Associations, and chosen their officers, began to act in a room of the Mechanical Institute, and since removed to Judge Ritchie's

Life members pay £5; annual contributors, 10s. They manage their affairs by a large Committee of active members, who meet every alternate Tuesday evening. The Association meet regularly once a year, besides attending a Bible class every Sunday afternoon; a Literary class every Monday evening; a Prayer Meeting every Wednesday evening—and when called on special occasions. The Rooms are open every evening between the hours of 8 and 10 o'clock, (except Saturdays and Sundays.) They are well furnished, lighted, and cheerful—have a tolerable library—periodicals from various parts of the world, religious and secular; and accommodations to induce young men to pass their leisure evenings in them most agreeably. The Association is in connection with the great Confederation of the United States, the Sister Provinces, and through its delegates with England, France, and other parts of the Continent of Europe.

Their means of doing good are—their Reading Rooms, Season Lectures, Bible Class, Prayer Meetings, Literary Exercises, Attention to Strangers, and intercourse with kindred Societies from other countries.

#### ST. JOHN EARLY CLOSING ASSOCIATION.

The objects of this Association are, an abridgement of the hours of labour in the business establishments of this City, and supplying means of improvement to the young men engaged in these establishments. It was formed in September, 1856, and numbers sixty-two members, who hold meetings every Wednesday evening during the winter months, at the Mechanics' Institute: its affairs are in a prosperous condition, and they anticipate the formation of a Library, or obtaining the use of one in connection with another Institution.

An agreement was very generally entered into by employers some time since, to close their stores during the months of September, October, November, March and April, at 7 o'clock, P. M. December, January and February, at 6 P. M. May, June, July and

August, at 8 P. M., and an hour later on Saturdays, and on the eve of public holidays: these hours, the Association at once adopted, and ask no change, unless it comes from the employers. In some cases this agreement was misunderstood, or not acted upon; irregularity in the hours of closing, had nearly led to a return of the late hours system of former years, when with the advice and concurrence of many of the employers the Association was formed, not for the purpose of forcing (as some have alleged) employers into regularity, but by kindly means, and by making this arrangement understood, endeavouring to secure the full benefits of the early closing movement. Their first Public Meeting was held in the Hall of the Mechanics' Institute on Tuesday evening, the 13th January, at which the Rev. Dr. Gray delivered an Address, in which he urged upon the Association, the necessity of aiming at the adoption of the Saturday half-holiday movement, which has achieved such glorious results for the benefit of the people, in those cities of Britain where it has been adopted. The Officers for this year are—

## PUBLIC GRAMMAR SCHOOL.

This Seminary is one of the first established, and is still one of the most efficient Educational Institutions in the Province. It is under the direction of a Board, of which the Rector of Trinity Church is President, the Mayor of the City, Vice President, and the City Recorder, a member, ex officio. The other members, at present, are Judge Parker, Wm. Wright, Esq., Hon. John H. Gray, Rev. Wm. Donald, A. M., Rev. W. Scovil, A. M., and Dr. Livingstone. The Principal is Dr. J. Paterson, who has held the situation of Master for more than thirty-seven years, and under whose unwearied care the School has always been successful, and now maintains a very high character. With a view to relieve the Principal of part of his onerous duties, and at the same time to enlarge the sphere of education in the School, the Directors have just adopted a new plan, with a new division of the labour, as follows:—

To the Principal are assigned the senior classes, whose studies, besides Latin, Greek and French, will embrace Mathematics, Physical Geography, Natural Philosophy, Chemistry, and English Composition.

To a second Classical Master, the Junior Latin Classes,

with Geography, History, Euclid, Algebra, and Practical Geometry.

To a third Master, the English Department, embracing English Grammar, Composition, Elocution, Arithmetic, Writing, and the other usual branches of an English education.

Mr. Blanchard, of Truro, Nova Scotia, and Mr. March, late of the Kentish Schools, England, have been appointed to fill the second and third Departments.

To carry this plan into execution, an enlargement of the School House is necessary; until that is accomplished, Dr. Paterson will conduct the duties of his Department at his own residence.

TERMS OF TUITION.—For English only, £1 10s. For the Junior Classical Department, £2. For the Senior Classical Department, £2 10s. per quarter.

#### COMMERCIAL SCHOOL.

This Institution, situated at the Corner of Sydney and Saint George's Streets has been in full operation for several years under the management of S. D. Miller, who is both Principal and Proprietor. Its object is to give a general and thorough education to pupils of both sexes, at a very moderate price, thereby enabling the humble as well as the more opulent to avail themselves of its advantages.

The Teachers at present are—E. C. Freeze, John L. McInnis, Samuel Armstrong, and Eliza A. Miller.

For Private Schools see Directory.

Bank, Store, and Jail work of every description; Stone Cutters, Brick-layers, Masons, and Slaters Tools; Gear'd and Screw Jacks, Cramps, and general Screw Cutting; Bank, Store, Safe, and Jail LOCKS, both Common and Gun-cotton, and Powder-proof, together with all the varieties of work usually furnished by Establishments of this kind.

A large number of Certificates and other testimonials from persons who have seen and used "BRYANT'S SAFES" (which have always heretofore stood the test of Fire without injury to their contents,) will satisfy the most sceptical, that they are fully equal to any Safes now made.

From his long experience in the business, both in this City, and in New York and Boston, where he has had ample opportunities for perfecting himself in the theory and practice of his profession, and for keeping pace with the useful modern improvements of the day, the Subscriber feels little hesitation in offering his services to a discerning public, believing that strict attention to business, and to the wishes of his patrons, together with a prompt execution of their orders, will ensure to him a liberal share of their support.

ST. JOHN, N. B.

Between Charlotte and Sydney Sts., (South Side.)

**T**HE Proprietor of this Establishment, thankful for favours received during the period he occupied the New Brunswick Hotel, and convinced of the necessity of more and better accommodation for the public, has erected a Large and Substantial Building in Union Street, capable of accommodating from 70 to 80 Boarders. This house is well ventilated, the sleeping rooms are large, and every flat is well supplied with water, and also lighted with gas. The Proprietor is determined to leave no means untried to merit the patronage of the community. Travellers arriving late at night will find the house always open, and ready to receive them; while the conveniences and moderate charges will render it emphatically the home of the stranger. The tables of the house will be supplied with the best the Market affords, and the Proprietor is determined to adhere strictly to the Total Abstinence principle.

Two large Stables have been erected on the premises, capable of accommodating 60 or 70 horses. Good Hostlers always in attendance.
