MEN'S FURNISHINGS.

We wish to announce that we have reorganized our Men's Furnishing Department and are now in a much better position than ever to serve you. This department will be under the management of Mr. Charles Clapperton, who comes to us highly recommended.

Our new stock of Fall and Winter Furnishings is fast arriving. In some lines we have bought too heavy and are compelled to reduce the stock in the face of a busy season.

20 doz. Men's Elastic Ribb Unshrinkable Underwear to clear at 69c per garment.

Men's Soft Finish All-Wool Hose in heather mixtures, greys and black at 22c per pair

Men's Flannelette Night Shirts, extra value at 75c and 85c each.

A special new line of Men's Lined Dressed Kid Gloves, good value at \$1.25, our special price 90c a pair

Also many other new lines which are exceptionally good values.

Special prices on Stanfield's Unshrinkable Underwear

New Coat Shirts for the coming season in smart, stylish patterns, also a full range of white goods for evening wear.

New Silk Neckwear in the latest combinations of shades, rich patterns that are correct for the fall trade

Come in and see us at any time. No trouble to show our stock and quote prices. Special orders taken for Men's Fur-lined Coats

Geo. G. McKenzie & Co.,

Agents for "Hawes" Hats. FURNISHERS. W. G. & R. and Barker Collars

RIVER BRIDGE NOW ASSURED

Thomas Malcolm Announces Intention of Proceeding at Once

WILL COST \$600,000

Provision Will be Made for Electric Car Service on Structure

The constitution for the construction of the bridge across the Restigouche between Campbellton and a point in Bonaventure county is now assured. Thomas Malcolm announces that he has completed arrangements for the immediate construction of the bridge.

It will be 3,300 feet long, with sixteen piers besides the approaches, and the cost will be about \$600,000. In addition to a steam railway track, accommodation will be provided for a highway and a electric car line. The bridge will connect the Atlantic, Quebec and Western Railway and the International Railway now under construction.

The prediction was made in "Events" some time ago that work on this bridge would be commenced before July next and the prediction is now verified. It is likely that the first active work on the construction of the bridge will be begun early next spring.

The Parisian is showing a fine range of ladies coats, ranging in price from \$2.75 to \$18.00

SENATOR EDWARDS GETS THE LEBLANC PROPERTY AND WILL DEVELOP IT

Price Paid in Bonaventure Deal Which Was Consummated on Saturday Was About \$150,000

JOHN HALL KELLY BRINGS ABOUT SALE

On Saturday last R. N. LeBlanc of Bonaventure sold out his mill and property at that place to Hon. Senator Edwards and Angus McLean for the sum of one hundred and fifty thousand dollars.

The transaction took place at the Chateau Frontenac, Quebec, and was brought about by John Hall Kelly, M. L. A., who held an option on said property.

The deed of sale comprised Mr. LeBlanc's mill, the Western Barachois or the Bonaventure River which Mr. LeBlanc held under a patent issued a few years ago only, a water lot of 61 acres on the Bonaventure river and also Mr. LeBlanc's good will.

Mr. LeBlanc was also retained by Senator Edwards and Mr. McLean as manager of the Company.

"Bob's" many friends in Campbellton will be pleased to hear of this splendid deal that he has made and which he had been looking forward to for many years. Six or seven years ago Mr. LeBlanc secured all the little parcels of land that could be secured at Bonaventure and also a number of little islands in the Bonaventure river and

Barachois. The people did not understand at the time his anxiety in this respect but see through it today. He simply held the commanding situation on the Bonaventure river which was essential to the successful operation of the limits held by the Company.

They now hold sixteen hundred miles in one block on the Cascapedia and Bonaventure rivers and Mr. LeBlanc has received instructions to commence operations immediately and to send men to the woods.

Next summer the construction of the mill will be under way. The sale of the Robitaille limits was brought about last winter by John Hall Kelly who made the question of the operation of these limits his main object since he is a member of the Quebec Legislature.

Speaking to a representative of the Events yesterday Mr. Kelly said that the operation of these limits meant the livelihood of many a family in the county.

Mr. Kelly is the legal attorney of the new company and is very enthusiastic about what they intend doing in Bonaventure Co.

Send along your ballots with names for Campbellton's new daily paper.

THIS PREDICTION TURNS OUT TRUE

No Summer for 1907 Predicted as Far Back as 1837

APPEARED IN ALMANAC

Present Year Will Go Down in History as Year Without a Summer

While nearly all sections of Canada and the United States, as well as many sections of the continent of Europe enjoyed very little summer weather during the past season, probably few if any districts, enjoyed less than the Restigouche county. Here there were not more than two or three summer days throughout the season. Rain fell almost constantly and heat was altogether at a discount.

In view of the climate conditions of the past season it is interesting to note that as far back as 1837 it was predicted that there would be no summer in the year 1907. A correspondent sends to "Events" the following Associated Press despatch sent out from Washington, Pa., on June 12th last:—"John C. Markley today received from a daughter in Anderson, Indiana, a clipping from an almanac published in 1837, in which the prediction was made that the year 1907 would have no summer. The almanac was found among some old papers.

We Trust Doctors

If you are suffering from impure blood, thin blood, debility, nervousness, exhaustion, you should begin at once with Ayer's Sarsaparilla, the Sarsaparilla you have known all your life. Your doctor knows it, too. Ask him about it.

Ayer's Sarsaparilla
We have no secret! We publish the formula of all our medicines.

A BAD STOMACH!

THAT IS THE SECRET OF DYSPESIA.

This disease assumes so many forms that there is scarcely a complaint it may not resemble in one way or another. Among the most prominent symptoms are constipation, sour stomach, variable appetite, distress after eating, etc.

BURDOCK BLOOD BITTERS
It is a positive cure for dyspepsia and all stomach troubles. It stimulates secretion of the saliva and gastric juices to facilitate digestion, purifies the blood and tones up the entire system.

Mrs. M. M. Menden, Brook Village, N.S., writes: "I suffered from dyspepsia. I tried everything I could get, but to no purpose. Then finally started to use Burdock Blood Bitters. From the first day I felt the good effects of the medicine. I can eat anything now without any ill effects, and am strong and well again."

Telegraphic Ticks

A fatal accident occurred at Pilot Mount, Manitoba, on Saturday. A number of children who were playing on the railway when a traction engine drawing separator passed. Little Doris McJanet jumped on the separator tongue and overbalancing, fell beneath the machine both wheels passing over her body and killing her instantly.

The Daily Graphic's mammoth balloon which left the Crystal Palace London on Saturday night has succeeded in its attempt to break the over sea record.

The balloon crossed the north sea to Denmark and travelled over Scandinavia with great speed. The aeronaut's bearings were lost in the fog and an exciting descent was made at Brook, in Sweden, Sunday.

Commander John Bradford Briggs, United States navy retired, was picked up Sunday by the police while wandering aimlessly in the streets and placed in a hospital for the insane. Subsequently he was turned over to Captain John B. Fremont, naval attaché to the American embassy who placed him under medical treatment. He seemed to be suffering from the hallucination that he was being persecuted.

A petition asking that the sentence of death on Thomas F. Collins, sentenced to be hanged on November 15th for the murder at New Ireland of Mary Ann McKeown, be commuted to life imprisonment is being circulated and largely signed in Albert county. This course is the only one left open to the friends of the condemned man as the decision of the jury in the last trial was final so far as the courts of law are concerned and no action was taken by the defence council to have the case reserved. The petition has been gotten up by persons in the county who have been interesting themselves in Collins' case ever since the beginning. The petition will be laid before the governor in council by Collins' attorneys, H. A. McKeown, of St. John and J. C. Sierron, of Moncton. Collins still protests his innocence.

McGale's Butternut Pills
If your tongue is coated—if you have pains after eating, itching, bad breath, indigestion, nausea—get a box of these mild, safe, purely-vegetable Pills. Made of concentrated Butternut Extract—one of Nature's finest remedies for stomach and liver troubles.

They will clean out the clogged intestines—and make you eat, sleep, feel, as you should.

Goldfield Topic.

GOLDFIELD NEVADA

Is near some of the sensational producers of the Diamondfield district and will soon be classed as one of the prominent properties of the great Gold Camp
The TOPIC consists of 20 acres, from the surface and location shaft of which rich specimens of gold ore have been taken. The property will be put close inspection by mining men familiar with the outcroppings of the district and will be found to possess the "ear marks" of a producing mine
Such properties as the

Great Bend, Daisy, Diamondfield, Black Butte Black Ants, Vernal, Etc.,

Whose stocks are selling at from 50c to \$3.50 per share, that started at a few cents per share, are in close proximity to the TOPIC, and we firmly believe that the TOPIC WILL EQUAL any of them

It is your opportunity to make money with us by helping develop this property. BUY A LIBERAL BLOCK of this stock while you can get it at the present price and so share in the advance which is bound to come.

SEVEN AND ONE-HALF CENTS per share is the price today, cash or installment. Ten per cent. Additional stock given FREE when full amount of cash is sent with the order. Act quickly. Things are doing in Goldfield these days!

REMEMBER, We own 35 acres adjoining the \$10,000,000.00 Stevens Mine in Clear Creek County, Colorado, and the present price of the stock is only 7 1/2 cents per share; buy now, tomorrow may be too late.

NOTE AND COMMENT.

The silly season for party political writers is now in full bloom.

How many readers of "Events" favor an I. C. R. crossing down town?

What about that reduction in the telephone tolls between Campbellton and Dalhousie?

The contest for a name for Campbellton's new daily paper closes on Saturday. Send in your ballots.

Are the people of this town content to pay twenty-five cents on every message they deliver over the phone to Dalhousie?

The purchase of the Bonaventure property by the Senator Edwards seems to indicate that that gentleman has abandoned his Dalhousie project.

The suggestion made by a writer in the St. John Globe that Mr. Turgeon, the defeated attorney general in Saskatchewan be brought to New Brunswick and made attorney general here, is a first rate one. We are confident that Mr. Turgeon would fill the position with distinction and that he would have no trouble to find a seat.

In the meantime, we point with pride to the not debatable proposition that the good old province of New Brunswick is moving onward and that the American capital which is at present pouring in is an evidence that outsiders have faith in the future of the province and in the men who are guiding its destinies.

The demonstration at Halifax on Tuesday in honor of the Hon. W. S. Fielding, was something more than a party affair. It was a magnificent tribute from all the leading interests in Nova Scotia to a native son, who by never failing integrity and commanding ability, occupies a position today scarcely subordinate to that occupied by any other man in Canada.

Mr. Malcolm's announcement that he has completed arrangements for the construction of a bridge across the Restigouche at Campbellton will be welcome news, not only to the people of this town, but to the people of all sections of the Bay Chaleur country who desire to see Campbellton fully established in its position as the trade centre for the whole district.

When the courts of this country decide that irresponsible newspapers may with impunity say what they choose about the private character of a public man, is it any wonder that the present government experiences difficulty in obtaining a suitable man for attorney general? Honorable men will not enter public life at the risk of having their names defiled, dragged in the mud by party hacks.

The intent of the parole system in Canada is to give the offender a chance to better himself and serve society as an honest man. Law is not meant to do more than protect the public at large; and that law is best which not only protects but which gives the first offender a chance to try again. It might be that another institution, separating the first offender from

the out and out degenerate would serve a good end. At least it would be another step toward civilization.

People of London, Ontario, in moderate circumstances and unable to fit to New York or Chicago whenever they feel so disposed doubtless appreciate an opportunity to see such an excellent comedian as De Wolf Hopper. The opportunity came on Saturday night last, but not as early as expected. Owing to a railway accident Mr. Hopper and his company did not reach the theatre until 10 o'clock, and it was two o'clock Sunday morning before the performance was over. Now that beautifully rigidly pious law known as the Lord's Day Act is dragged into service in order to prosecute the theatrical people, it will probably take only a few more similar cases to induce the people of Ontario to rise up and smite this class law a knockout blow.

PLAGUE OF PLAGUES.

Week by week the death reports show varying virulence in most of the maladies that sweep humanity from the earth. Sometimes there is no smallpox, sometimes little or no diphtheria and scarlet fever, and in typhoid and kindred febrile disorders there is a fluctuation showing that conditions control the appearance and severity of the malady. With tuberculosis there is little of this hopeful sign. The death rate may advance or go backward, but the march of the white plague goes on. We think the Province should take the most energetic and drastic steps in its power to curb this greatest of all diseases. Other provinces and states are moving energetically in the right direction. Private enterprise is aiding. No cause is more worthy. We know something of how to control other diseases and science is hopeful, but tuberculosis is yet unconquered. All civilization should lend its help to the big experimental movements now afoot in different parts of the world. We owe it to ourselves, to our families and to future generations to do so. It is far more important a matter than our petty political problems over which we daily wrangle and we hope some united effort will be made in the near future to deal with it.

SIDE LIGHTS.

DR. COOK is the name of the latest newspaper victim to be nearing the north pole.

SUSSEX is to have an exhibition next year. How could Sussex resist the temptation with such excellent material as the Honorable George W. Fowler to draw from.

OUR philosophic friend declares that nothing pleases a fly quite so much as to be mistaken for something to eat; and if it can be baked in a cake and palmed off on the unwary as a currant it dies happy.

FILL IN BLANKS AND MAIL AS ABOVE

THE MARKET for deals is reported to have slumped badly of late, but judging by the lumber deals put through on the North Shore during the past few weeks we should judge that it was never in better condition.

PROVINCIAL paper states that Dr. McAllister of Sussex has sold Weary Willie to H. F. Hughes and given up horse racing. A man who owns a horse by that name is very apt to be compelled to give up racing.

ACCORDING to an eminent scientist the eye of the average man opens and shuts four million times every year. We infer from this that Campbellton men who take an "eye opener" only once a day, and that in the morning, are not average men.

Tale Of The Town.

There is an old Indian living down Carleton way who enjoys a high reputation in his own country as a weather prophet. Early last spring he came out of the woods and predicted that there would be no summer. His prediction was fulfilled.

The other day he reappeared in Carleton. He had just come out of the woods where he had spent some days in getting a line on the coming winter. He told a group of admirers in front of the new Wilfrid Hotel that there would be little snow this winter. He advanced as his reason for predicting this, the fact that the flies and insects in the woods were preparing to hibernate not higher than a foot above the base of the trees. Whenever there is a winter of deep snow they always prepare to hibernate much higher so as to be above the level of the snow.

TO HAVE POWERFUL ICE-BREAKER.

Ottawa, Oct. 10.—Hon. L. P. Brodeur, Minister of Marine and Fisheries, states that Canada is to have the strongest and most powerful ice breaker in the world. While in Europe, Mr. Brodeur went thoroughly into the question of ice-breakers. He looked at ice-smashers in Germany and Russia, and discussed with the leading authorities of Europe the question of constructing an ice-breaker which would penetrate the Northwestern land Straits winter pack of ice. He said he found several firms on the other side who would undertake to build an ice-breaker and to guarantee that it would run regularly between P. E. I. and the mainland without being held by ice. Tenders will shortly be called for the construction of a boat of 6,000 horse-power capacity and a guarantee to keep running, no matter how thick the ice.

MacKenzie and Mann, representing Moose Mountain Col., who have big iron deposits north of Perry Sound, ask Toronto for 350 acres of land in Ashbridge's Marsh, to establish a smelter and allied industries to employ 15,000 men. Nothing but the gift of land is asked.

St. Michael's C. T. A. Society at Chatham, is building a new opera house, which will cost \$10,000. The building will be closed in this fall. The building will be 139 feet long by 49 feet wide and will be divided into an auditorium and stage. The auditorium will be 100 x 49, and the stage 30 x 49.

Richibucto correspondence of the Telegraph dated 12th instant, says, W. F. Copp, of Newcastle, is again in town. He has leased the Kent Hotel, furnished, and will take possession in the coming week. In conversation with Mr. Copp, we learn that he has not completed the negotiations for the transfer as yet.

C. F. CLARE,

The Jeweller,

CAMPBELLTON, N. B.

TOWN TOPICS

The remains of James Young who was instantly killed by an L. C. R. shunter in the Ashby mill yard on Thursday afternoon were forwarded by undertaker Graham Friday morning to his late home in Grand Caspédia.

Mayor Smith, of Moncton furnished a little excitement by shooting a cow moose a day or two ago. It is only fair to the mayor to say he shot the animal by mistake and as soon as he discovered his error he reported the matter to the game warden. There is a heavy penalty for shooting a cow moose, but what will be done in the case is not yet known.

Theophilus, DesBrisay died Friday morning at his home, Newcastle, where he had recently moved. He was a son of L. P. W. DesBrisay, who was at one time a well known lumberman on the North Shore. Mr. DesBrisay married Miss Mary Richardson, of Richibucto, in 1877, sister of the late Caleb Richardson and leaves a wife and five children, Mrs. C. B. Stevens, of Amherst, George, Mary, Arthur and Harold still at home.

R. W. Coombs, who has been in the employ of the Massey Harris Company in this city for a number of years, will leave this evening for Campbellton, where he will take charge of the firm's business in that section, says Saturday's St. John Globe. Mr. Coombs and child will remain in Moncton for a time visiting relatives before going north to take up their residence in Campbellton. The removal from St. John of Mr. Coombs takes out of this city one who in his day held the foremost place among our athletes, and one who is recognized as an authority on all matters of amateur sport. Mr. and Mrs. Coombs have many friends who will regret their removal from the city.

Probably the L. C. R. is more interested in the assumption of work at the Springhill collieries than any other large consumer of coal. Since the inauguration of the strike the fuel problem for the L. C. R. has become serious. Some weeks ago the L. C. R. found it necessary to supply its needs. Recently so serious has the situation become that private coal was confined by the road in order to prevent a shortage. The L. C. R. depends very largely on the Springhill Mines for its coal supply, purchasing as high as a hundred thousand tons a year from these collieries. Some weeks ago the L. C. R. found it necessary to almost beg some of the Cape Breton coal companies to fill a contract for them and even then the demands for coal were only barely met. Had the Springhill strike continued into the winter it is very probable the government road would have been seriously embarrassed. If not actually tied up for want of fuel. Even now with the prospect of the Springhill Mines starting up at once it will be some time before the L. C. R. will be able to get what coal is required. It is usual to have a large supply ahead at different coaling stations along the North Shore but at the present time the lines in this quarter are practically empty. There will be an easier feeling, however, now that the main source of fuel supply is to be again put in operation.

A Campbellton despatch of recent date says the Franciscan Fathers of the Roman Catholic diocese of Three Rivers have instituted proceedings to recover the bodies of several of their departed brethren which were buried in the crypt of St. James' church in the town of Three Rivers in the 18th century. At that time the church was owned by the Franciscan order, but in the reign of King George III., following the overthrow of French power in America, in the last year of the reign of King George III (1759), the property was forfeited to the crown. King George handed the church over to the Anglican body, which has controlled it ever since. The opinions among the congregation of the church are divided on the subject. Some members favor allowing the Franciscans taking up the bodies on the terms which they propose, that is, to restore the church to the state in which it now is and pay damage considered reasonable. Others maintain that their church should not be invaded by adherents of any other denomination. The fact that the church was given to the Anglican church by direct grant is invoked against the interference of the court. The opinion expressed by many is that the grant from the King does not exclude the church from the jurisdiction of the courts of the land which are established to administer the King's laws in this portion of his empire. Some years ago an attempt was made by the Franciscans, and some of their friends to purchase the church property. A price was offered, and some of the congregation thought it sufficiently high, but others thought that if the Franciscans wanted the church, they should be prepared to pay more, and the sale was never put through. There is a conflict of opinion on the identity of the bodies buried in the crypt. The Franciscans state that so far as they know nobody was ever buried there since the church was forfeited by the crown from their community, while on the other hand, it is said that during the first years of British occupation several Anglicans were buried in the crypt.

The Charlo mills will likely close down for the season next week.

John Bassit's office at Upper Charlo was broken into one night last week and \$50 and a watch carried off. The burglars also took out all of his papers but left them on the roadside, where they were afterwards recovered.

The Henderson Company, who have bought the Calhoun Mill property at Jacquet River, are preparing to carry on extensive lumber operations at that place. They have put up a large office and are now at work upon a big boarding house for the men. Wm Calhoun expects to finish some time in November and will return to Albert county.

A non-political banquet will be tendered Hon William Pugsley at Sussex within the next few weeks. A committee is now making necessary arrangements for the function which is sure to be very largely attended. The new Minister of Public Works has a host of friends in Kings County and they promise to make the banquet a memorable event.

The opening of the reading room, game room and gymnasium, in the Baptist church on Thursday evening was very successful. A large number of men were present and expressed themselves as delighted with the movement. New features will be added as the work develops. After the work gets fairly started a regular class in gymnasium work will be started. The leadership of Mr. Hichins, the physical director.

After a bitter campaign in the by-election at Prince Albert, Sask., rendered necessary by the resignation of Attorney General Lamont, Bradshaw, the equal rights candidate, was elected on Saturday by a majority of one over A. E. Turgeon, liberal. There are nearly three hundred contested ballots, and upon these the eventual result likely depends. Mr. Turgeon is a son of the popular M. P. for Gloucester.

Events regrettably record the tragic death of William Wilson, eldest son of Mr. and Mrs. Calder which occurred, Thursday, 10th inst. Mr. Calder apparently in good health, drove to town Wednesday morning, returning in the evening with a heavily loaded truck-wagon on which he was sitting. The horses taking fright, he was suddenly thrown from the wagon, falling beneath it and the horses in which manner he dragged suspended from the pole for several miles. On arriving home he was found in a precarious condition having his clothes torn, and his back badly mutilated. Dr. Proulx was called in attendance, but the injured man passed away the following evening having borne his suffering with great fortitude. Deceased leaves to mourn his loss, a father and mother, two sisters and six brothers two of whom are home, three working up at Kedgwick, who through some misunderstanding did not receive tidings of his death in time to be present at the funeral; also one who resides in Vancouver. The funeral which was held Sunday was one of the largest ever seen in the vicinity. Rev J. McPherson officiating, in the absence of Rev. C. A. Hardy. The funeral contributions by kind friends were very choice, especially the cross sent by William Bronchet. The pall bearers were, Gilchrist Adams, William Bronchet, John Fraser, James Oatman, Andrew Dixon and Fred Adams. The family have the sincere sympathy of the community in their sad bereavement.

Farmers Institute meetings are being held in this part of the Province in the interests of dairying and agriculture in general. On Oct. 11th, a very successful and interesting meeting was held at Point la Pêche. The farmers present took a deep interest in the discussion. Mr. Stevenson from Hamilton, Ontario, addressed the meeting on the dairy cow with much satisfaction. He also contrasted the dairy business with that of beef production, showing conclusively that the same amount of feed fed to a dairy cow will give double the profit than if fed to a beef steer. C. F. Alward of King's Co., N. B., spoke on "Seed Selection" and by means of a number of charts obtained from the Agricultural College at Guelph, Ontario, showed how necessary it is for farmers to make a better selection of their seed grains. In his talk he did not ask the farmer to take up work that would be expensive or hard to do but on the other hand could be easily obtained. He showed by actual experiments which had been carried on at Guelph that the farmer could increase the production of their field crops at least 25 per cent by careful selection of the larger seed. If farmers would take more pains in seed selection they would not be called on to change their seed grains as often as they think. On Oct. 12th, the delegates drove to Dundee where another meeting was held. The farmers in that vicinity are becoming more interested in dairying where a cheese factory can be reached within a distance of three miles. The speakers pressed upon them the importance of engaging more, especially in that particular line of industry on their farms.

Social And Personal

J. A. Stevens is in Moncton today.

Miss Helena Harquail of Dalhousie is visiting friends today.

Mr. and Mrs. W. A. Mott are visiting in St. John.

Thos Craig of Upper Charlo is in town today.

Miss A. Connors has accepted a position as book keeper for J. E. Miller.

Earl Roberts has just celebrated his twenty-fifth birthday.

John Hall Kelly, M. P. P. for Bonaventure was in town yesterday.

Charles Murray of St. John, spent Sunday in town.

Fred McRae arrived home last evening from his vacation.

Miss Susie Scott of Dalhousie, is the guest of Mrs. Edw. Alexander.

J. H. Kelly of St. John has accepted the position as manager in Geo. G. McKenzie & Co's Grocery Department.

Chas. Clapperton has accepted a position in Geo. G. McKenzie & Co. Men's Furnishing Department.

Miss Mullie Doherty came up from Dalhousie on Monday for a day or two to visit her parents here.

A. E. G. McKenzie of Campbellton has been admitted as an attorney-at-law.

Police Magistrate Matheson has fully recovered from his illness and is now attending to his duties.

Dist. Supt. Price returned yesterday from a trip to Moncton and Fredericton.

Dan Henderson and family of North Sydney, C. B. were in town yesterday visiting his brother, A. M. Henderson.

Mrs. D. K. Cool and little son returned last week from a short visit in Campbellton. —Newcastle Advocate.

Premier Laurier and Hon. W. S. Fielding passed through here, Monday morning on their way to Halifax.

Madame Yuliste Harrison was the guest of Hon. Josiah and Mrs. Wood while on her recent visit to Sackville.

Miss Gertrude Adams has returned from a pleasant visit to Boston and Moncton.

Mrs. James L. McDonald, who has been very ill for several days is somewhat improved today.

Miss Nellie Lockhart of Petit-diac visited Mrs. George Fawcett this week on her way to Winnipeg.

M. P. Nowlan of Halifax is here relieving V. K. Scott, agent of the Canadian Express Co. who is on a trip to St. John and Halifax.

Mayor Garneau of Quebec shot a fine moose last week on the preserves of the Laurentides Fish and Game Club.

Mechanical Foreman Devereaux of the L. C. R. is in St. John this week attending a session of the Exchequer court.

Rev Mr. Coleman and Mrs. Coleman are receiving congratulations on the arrival of a young daughter at the Rectory.

Miss Margaret McPherson, formerly of Campbellton, is now managing the millinery business at Chatham, formerly conducted by Miss Creighton.

Miss Florence S. Russell of the Great North Western Telegraph service in Campbellton, visited her parents, Mr. and Mrs. J. B. Russell, last week. —Newcastle Advocate.

A delightful farewell party in honor of Miss Harper was given, Tuesday evening by Mrs. Dr. Lunan. Miss Harper has accepted the position as organist at St. Luke's church, Chatham.

The King is not expected to arrive at Sandingham for the winter until Saturday, November 2. The Court will be in residence at Windsor Castle from Friday November 15, until about Tuesday, the 26th.

Secretary MacKie, of the Canadian Club has received a wire from Rudyard Kipling, stating that he will arrive in Toronto on Friday. The Canadian Club will therefore hold its next meeting Friday evening at 5.30, at McKenleys, and Mr. Kipling will be a guest.

Miss Annie Carr, daughter of Rev. Dr. Carr, expects to leave the last of this month for Charleston, South Carolina, where she goes for the benefit of her health. Miss Joudry who is leaving at that time from New York will accompany her as far as that city.

The opposition convention at Carleton Place, Thursday, selected Messrs A. J. H. Stewart, A. J. Witzell and J. A. Dumas as candidates in Gloucester. Speeches were made by Messrs J. D. Hazen and J. Morrissey, M. P. P's.

ON TAXING DOGS.

To the Editor of Events:—Our long suffering people still continue to bear with this ever present dog nuisance, and our city fathers who are wholly responsible for this state of affairs, apparently seem quite indifferent, at least no remedy has been found to date. Economy seems to be the cry on every hand and yet here is a leakage of \$150.00 each year. The law requires all dogs to wear a collar and numbered tag, then

let this law be enforced. The writer knows the difficulty in this connection, then let me suggest that full power be given the chief of police and if necessary give him all dog taxes for this year, and all dogs on which the regulation tax has not been paid, be gathered in and destroyed in a humane manner. This can be done and the streets will then be rid of roo savage, half starved mongrels and the year following, the collection of dog taxes will be an easy matter.

Taxes.

WANT EXPORT DUTY ON PULP.

Ottawa, Oct. 10.—The paper makers of Canada are applying to the government for legislation to preserve the supply of forest raw material for the manufacture of paper. A delegation of the leading paper and pulp makers of Ontario and Quebec waited on the Prime Minister and the Minister of Customs yesterday and asked that the exportation of pulpwood be prohibited. The following resolutions were presented:

"Whereas, it has been the policy of the federal government to encourage and promote manufacture within the bounds of the Dominion by duties sufficiently high to protect the home manufacture and by bounties to encourage the use of home raw material; and

"Whereas, the federal government has expended large amounts to promote agriculture and to encourage immigration from the Motherland of home raw material; and

"Whereas, the export of pulpwood from Canada, a natural product in pulping capable of providing employment for a large number of our present people and for many who may come to find homes here; and

"Whereas, this wood is being grown in Canada and shipped as pulpwood to the United States to keep pulp and paper mills in that country running; and

"Whereas, our present natural advantages should make pulp and paper our greatest industry; and

"Whereas, the exporters are stripping the lands of wood, while those with permanent interests in the country are striving to conserve the forests; and

"Whereas, the crop of pulpwood is of very low growth, and the supply is already becoming inaccessible; and

"Whereas, the free export of pulpwood to the United States combined with the tariff against our pulp and paper favors the development of the paper industry in the United States rather than in Canada;

"Therefore, your petitioners humbly pray that the exportation of pulpwood be prohibited by the federal government."

"You Will Suffer all Your Life."

SAID ALL THE DOCTORS

Half a dozen of the best physicians told Mr. Baker that he had Chronic Rheumatism, and would have it as long as he lived. One day Mr. Baker read in a paper of a man who had been told by doctors that his case was hopeless—and who had been completely cured by GIN PILLS.

The two cases were so much alike that Mr. Baker decided he would invest \$10 in a box of GIN PILLS and give them a trial.

It was the best investment he ever made. Before the first box was taken, he felt better all over, so he got another. He took that and bought a third, getting better all the time.

Stineville, May 8, 1906.

I have been greatly benefited by your GIN PILLS, and all who have used them in this neighborhood speak very highly of them. One of my neighbors, Mr. X, who suffered for years with Rheumatism and who has spent hundreds of dollars with specialists without receiving the slightest benefit, was entirely cured by two boxes of GIN PILLS. He is maintaining his vitality from the "household."

Yours truly, B. L. BAKER.

We don't even ask you to buy GIN PILLS—but to try them at our expense. While we mention this paper, and we will gladly send you a free sample of these wonderful Kidney Pills that cure Rheumatism. The Bole Drug Co., Winnipeg, Man.

Sold by all dealers—\$10 a box, or 6 boxes for \$50.00—sent on receipt of price.

WATCH The Kidneys

They are the most important secretory organs. Into and through the kidneys flow the waste fluids of the body, maintaining poisonous matter taken out of the system. If the kidneys do not properly perform this matter is retained, the whole system becomes disordered, the following symptoms will follow: Pain in the small of the back and loins, frequent urination, swelling of the feet and ankles, or urinary trouble.

When any of these symptoms manifest themselves you can quickly rid your body of them by the use of the best of medicines for the kidneys.

DOCTOR KIDNEY PILLS

Mr. John L. Doyle, Sutton, West., writes: "I was troubled with a pain in my back for some time, and using two boxes of Dr. Doyle's Kidney Pills I was entirely cured and can say highly in their favor."

Price 50 cents per box, or 3 for \$1.00 at all dealers, or The Loan Medicine Co., Toronto, Ont.

Farm Facts and Fancies

POTATO BLIGHT

EARLY BLIGHT

This disease, which was originally discovered in America, is very common and often serious. It is, curiously enough, frequently found in crops affected with late blight and in many cases has been nearly as destructive to the foliage as the latter disease.

The cause of this disease is in the infection of the plants by a fungus known as *alternaria solani*. This alternaria belongs to a group of fungi which for the most part live on dead organic matter, but which are capable of becoming parasitic upon living plants when the latter have become weakened or injured in any way by excessive heat, drought or other diseases. It either first attacks the stem close to the ground and gradually works its way upwards, causing the leaves to curl inwardly and then finally the whole stem dies, or else the leaves are the parts primarily affected and wither away leaving the haulms often completely defoliated. If an affected leaf is examined it will be found covered with small more or less circular light brown colored patches of dead tissue. These dead areas spread more slowly than the somewhat similar patches of late blight, nevertheless they often become confluent and cover the greater part of the leaves. The diseased parts curl up and become hard and brittle, while the remainder of the foliage loses its usual healthy green color and becomes a sickly yellow and quite unable to perform its usual functions. If examined under a microscope these brown patches will be found to be covered with masses of club-shaped spores borne on the ends of delicate light brown filaments, which form a sort of network over the diseased areas. The spores are olive brown and are divided into numerous cells by septa which cross one another at right angles. They are easily detached and may be carried by the wind for long distances, so that they can be readily spread over large areas. Whenever a spore happens to fall on a potato leaf it germinates rapidly and grows into the tissues of the leaves, producing the dead patches mentioned above. Each spot on a leaf, therefore, represents a separate point of infection. Though this disease usually makes its appearance quite early in July and is known as Early Blight, it may be found in active condition during the month of September. It is most destructive in dry seasons or in neglected fields where the plants are not making vigorous growth. The effect of its attack is that the leaves lose their power of elaborating the food material necessary for the development of the tubers, so that these fail to develop, turn soft and will not keep.

The spores live through the winter on the dead haulms of affected plants; these, therefore, should always be burnt as soon after the potatoes are harvested as possible.

It is believed that the spores of the fungus do not live through the winter. If that be true, the mycelium of the fungus must either live over in the dead tops, or else the tubers carry the disease from one season to the next. The latter is thought more probable, as the blighting of the tops, if not checked by spraying, is very likely to be followed by rot of the tubers either before or after digging. It is, therefore, of the first importance that none but perfectly sound potatoes should be used for seed.

The appearance of diseased tubers is very characteristic. Numerous sunken, dead brown patches are developed on the surface of the tubers. These may remain firm and hard for some time, but generally they become soft and the whole tuber rapidly rots. This rot is accompanied by a peculiarly fetid odor quite distinct from the rots caused by bacteria, etc.

It has been almost conclusively proven that the rot of the tuber which follows an attack of late blight is really due to infection by the spores which have fallen upon the soil and which in the course of the season are carried by rains into contact with the tuber itself. Here it may begin growth at once, or it may develop after the potato has been dug and stored. Sometimes a crop is thus lost even after it has been harvested. Thorough spraying with the copper sulphate solution here acts in two ways. It not only prevents the formation of any considerable number of spores, but the spores which do happen to reach the soil are destroyed.

Quinsy, sprains and Swellings Cured.

"In November, 1901, I caught cold and had the quinsy. My throat was swollen so I could hardly breathe. I applied Chamberlain's Pain Balm and it gave me relief in a short time. In two days I was all right," says Mrs. L. Cousins, Otterburn, Mich. Chamberlain's Pain Balm is a liniment and is especially valuable for sprains and swellings. For sale by all druggists.

Knicker—Do you consider poker a game of chance?
Bocker—Purely. Sometimes my wife finds it out and sometimes she doesn't.

Just where the Danger Lies.

In many catarrh snuffs, cocaine is the largely used ingredient; in consequence the drug habit may be formed. It is really cured of catarrh, to do so quickly, safely and pleasantly, doctors say Catarrhazone is superior to any other remedy. It heals sore places, stops discharge, prevents hawking, spitting and bad breath—does this by first destroying the cause of the disease. Catarrhazone is no experiment, it is a tried and proven cure that is guaranteed for bronchial, throat, nose and lung catarrh. Two sizes, 25c and \$1.00 at all dealers.

SCOTT'S EMULSION

WOMAN'S WORLD

Continued from page 3.

al. It is often an affair of health. The nerves are out of order and the will becomes weak. People shrink from their fellow-creatures and are filled with an unreasoning horror of meeting or speaking to them. The best cure for this kind of shyness is fresh air, exercise, and cheerful society. But there is another shyness and one harder to cure, which comes from mental causes. Its afflicted possessor may be in robust health, and yet so tormented by this inward enemy that she finds all intercourse with other people positively alarming.

To meet strangers causes her a severe struggle. She would gladly turn down the first street corner to avoid bowing to even an acquaintance. In either case, the root of the matter is self-consciousness and it is only by losing that self-consciousness that self-possession can be gained. As long as one thinks about oneself at all, one will be liable to shyness. The only cure is to thrust all recollection of oneself into the background as possible, when one would gradually become natural happy, and at ease. To overcome shyness and blushing there is nothing like mixing with people and every effort possible should be made to achieve this. Force yourself to speak to everyone you come in contact with, no matter what it costs you at first. Go on bravely; never mind how much you may blush and stammer. Persist in it, and it will grow easier and easier. Never shrink from putting yourself into positions which may draw attention upon you.

The specific cause of late blight is a minute fungus to which the name *Phytophthora Infestans* has been given. It is first indicated on the leaf by a slight reduction in the intensity of the coloring matter; this is rapidly followed by the appearance of small brownish blotches. These spots soon increase in size and the tissues die, turning dark brown or nearly black. In dry weather these patches do not increase much, but in humid weather they spread over the leaves with great rapidity. After destroying the leaves the disease travels down the haulms and in severe cases the whole of the aerial portion of the potato plant may within a few hours become a blackish mass of rotten plant debris which emits an evil odor.

It is believed that the spores of the fungus do not live through the winter. If that be true, the mycelium of the fungus must either live over in the dead tops, or else the tubers carry the disease from one season to the next. The latter is thought more probable, as the blighting of the tops, if not checked by spraying, is very likely to be followed by rot of the tubers either before or after digging. It is, therefore, of the first importance that none but perfectly sound potatoes should be used for seed.

Thousands of women are wan, pallid, "under and dispirited. What they need is that nourishing tonic, Ferrozone. Soon they regain those laughing eyes, bright spirits and rosy cheeks. Ferrozone does this and more as Mrs. L. P. Adriaens, of Whitney Pier, C. B., testifies. "My daughter was very much run down and had considerable troubles at times. Often I was at a loss to know what to do. I was advised to give her Ferrozone and I did so. Ferrozone cleared up all her trouble, made my daughter healthy and well. Ferrozone gives good appetite, regulates, strengthens. I consider it a medicine every woman should use regularly if she wants to feel her best." Rebuild with Ferrozone; it is the King of all cures. Price 50c per box at all dealers.

NEVER SUSPECTED.

(Judge.)

"Why" he asked, "do girls like so much to display diamond rings on their fingers?"

"Well" she replied as she carelessly twirled the jewel on her third finger, "you know there is nothing like a shining example to stimulate one when he has a purpose in mind."

When she had time to speak again she cried: "Oh Fred, I hope you don't think I was trying to throw out a hint. I never suspected that you cared for me at all."

Cock-a- Doodle-do

We're justified in crowing over our competitors. Our cocks, stop cocks, etc., are cock of the pipe. Our joints don't leak. Sewer gas we lead out. We don't find it in the house except when we fix some other fellow's plumbing. Ever have your house tested for sewer gas and leaks? That's one thing we do. Then we fix things. It's worth the cost.

TOWN TOPICS

Name contest closes on Saturday.

Two beautiful Scotch roses were picked the other day in Thos. Harper's garden at Oak Bay.

Heine L. O. L. No. 64 meets tonight in their lodge room. Fourth degree. All members please take notice.

Thos. McKenzie had four sheep killed at Craig's Crossing by the up freight on Thursday. There appears to be a lot of accidents at this crossing. Wm. Craig had a cow killed there this spring and also Jos. McIntyre.

The Canadian Courier has awarded a third prize, to Rob. Shives of Campbellton for a photograph of sheep grazing at a point up the Restigouche. The picture was submitted in competition with many others.

Aubrey Henningston, the four year old son of Henry Henningston of O'Leary street was badly kicked yesterday afternoon by a horse. The animal which was one of Chaytor's livery horses was standing on O'Leary street. The boy, it is said, began to tease the animal when it up and kicked him in the forehead. The little fellow was carried into his home and Dr. Pinaut summoned. Four or five stitches were put in the boy's forehead, but it is thought his injuries are not dangerous.

The marriage took place at Point la Nim on Monday evening at 9 o'clock of J. A. McMillan and Miss Effie Dickie. The ceremony was performed at the residence of the bride's father by the Rev. Mr. Kirk. The bride who looked handsome in a gown of white silk was given away by her father. Her sister, Annie, acted as bridesmaid and D. F. McMillan supported the groom. After the ceremony the happy couple left for the Maritime on a trip to St. John, Boston and Lawrence. There were about fifty guests present at the ceremony and many valuable presents were received.

The Stratford Ont., Daily Beacon of recent date has the following good words to say of the Schubert Symphony Club and Lady Quartette, which will appear in the Campbellton Opera House, Nov. 6th.—The programme as provided by the club is one that can stand before a critical audience on its merits, including as it did a variety of classical and popular selections, the rendition of which was perfect. The large audience showed their appreciation of the various numbers in their unstinted applause, encores being given to every selection. The variety of the program, including selections by the lady quartette, dramatic and humorous recitations, soprano, violin, contralto and mandolin solos, appealed to the assembly and they were unanimous in their appreciation.

PROFESSIONAL.

Dr. A. Peirce Crockett, eye, ear, nose and throat specialist of St. John will be at the Royal Hotel (Sprout's) Campbellton, FRIDAY Oct. 25th, where he may be consulted professionally. One day only.

BATHURST Branch
J. M. AITKEN, Man.

Mr. and Mrs. Geo. Dobson are receiving congratulations on the arrival of a little daughter at their home.

By the new I. C. R. time table No. 34 leaves Campbellton at 4.55 a. m. and No. 33 arrives at 3.45 a. m. The accommodation leaves now at 7.30 a. m. and arrives at 9 p. m.

Dr. McCully, who limits his practice to diseases of the eye, ear, nose and throat will be at the Waverly Hotel, Campbellton Tuesday, Oct. 22nd, where he may be consulted professionally.

Father Wallace told "Events" today that satisfactory progress was being made on the new wing of the hospital. The front is being cased in cement brick. This brick is manufactured on the ground.

Manager Dimock has already had one man fined for expectorating on the floor of his new Opera. He is determined to conduct a thoroughly clean and orderly house and should have the support of all right thinking citizens.

The case of Frank Valdon, charged with stabbing two sailors was resumed before Magistrate Matheson yesterday afternoon. The evidence in the case was all heard and adjournment made until Friday when the lawyers on both sides will address the court.

The S. S. Lady Eileen will leave Campbellton on her last trip of the season on Wednesday, Nov. 20th for Gaspé and Quebec, calling at intermediate points. Shippers having cargo for Quebec please advise office at Campbellton as soon as possible so that space may be served.

The splendid moving picture performances will be resumed by Manager Dimock at the new Opera on Friday evening and repeated on Saturday. Excellent new films have been procured. On Monday evening the world famous LaBarre Bros. minstrels will appear at the new Opera. This attraction is another excellent one and should draw a big house.

Hundreds of names for Campbellton's new daily paper have reached this office. There are some excellent names among them, but there is a chance that a better one will be submitted. The contest for the \$10. in gold closes on Saturday, as previously stated, and the announcement of the winner made in the next issue of "Events". The new daily will first appear, as announced, on the morning of Nov. 2nd.

Capt. C. W. Mahoney and family of Parrsboro, N. S., wish through the columns of this paper to express their most sincere thanks to the people of New Mills, N. B., and vicinity for their kindness and aid during their sad affliction and particularly wish to thank Robt. Myles and family and Capt. McLean and Engineer Currie of the Str. "St. Isidore" who did everything that was possible under the circumstances.

Campbellton is believed to be afflicted with a Jack-the-Hugger. Complaint has reached this office that frequent attempts have been made on one or two evenings of late, near the power house, to hold up ladies and hug them. One case in particular which was brought to the attention of this paper was that of a well known lady, who while passing along the street about eleven o'clock a night or two ago was grabbed by a man. She screamed and the man took to his heels.

Mr. Dimock is meeting with every success in his efforts to put on high grade attractions at his new Opera. On Monday the "Sis of New York" company played to a bumper house and proved capital mirth provokers. Last evening Prof. E. K. Crocker opened a two night's engagement with his educated horses, ponies and donkeys. The house was packed and the wonderful cleverness of the animals greatly appreciated. Their tricks were quite marvelous and fully justified the observation of an onlooker that this attraction is the equal of any so far seen at the new Opera. Performance is repeated this evening at 8.15.

The town's bonds amounting to \$25,000 will, it is said, sell at par.

The new concrete sidewalk is now completed as far as Dimock's studio.

The Moncton Transcript calls Hon. R. A. Borden, minister of militia.

There is only a bark and a schooner loading lumber in the harbor now.

A large audience attended the matinee performance of Crocker's trained horses this afternoon.

A. McG. McDonald has on exhibition in his window a large racoon caught by a man named Garceau on the Thompson road.

Congratulations are being extended to Mr. and Mrs. Edgar McKinnon on the arrival of a baby girl at their home, October 9th.

The Shives mills will close down for the season, in all probability the first week in November. The cut this year has been an average one.

The dredge St. Lawrence and tug and three barges left for St. John this week where they will winter. The dredge accomplished considerable work here this summer.

Miss Connors has resigned her position in the New Brunswick Telephone Co's office here. Walter Scott who was night operator has also resigned and entered the service of the I. C. R. Wesley Devereaux has been appointed in his place.

Two or three trial tests of Dalhousie's new water supply were made last week. The mains along the front street and extending as far as the Roman Catholic church were turned on and found to work fairly satisfactory, though a few leaks were discovered. All the hydrants are not yet installed and the final test will not be made until next week.

At the eighteenth annual meeting of the I. C. R. Employees' Relief and Insurance Association, held at Moncton on the 10th, delegates were present from all sections of the road and the usual routine business was transacted. The question of improving the present system now in operation as regards the payment of district doctors was considered and it was decided to go further into the matter and report at a future meeting. The report of the pension committee appointed to look after the interests of the employees in connection with the creation of a pension fund was adopted. The cases of H. McTier, George Malcolm and J. A. Sims, all of Halifax, asking for special hospital treatment was considered. The case of W. J. Phalen, of Halifax, was referred back to the committee in that district for further enquiry. The standing committee was instructed to arrange to have a district doctor attend employees at Springhill Junction and vicinity. The following officers were elected: President, D. Pottinger; vice-president, Thomas Williams; auditor, William Brown. A resolution was passed thanking Mr. J. J. Wallace, past vice-president, for his long service in that office.

BORN.

At Campbellton on the 12th instant to Mr. and Mrs. J. J. Edgson, a son.

COLEMAN—At the Rectory, Campbellton, on the 15th inst., to Rev. R. J. and Mrs. Coleman, a daughter.

McKINNON—At Campbellton, Oct. 9th, to Mr. and Mrs. J. Edgar McKinnon, a daughter.

WOODWORTH—At Campbellton, Oct. 10th, to Mr. and Mrs. James W. Woodworth, a daughter.

DOBSON—At Campbellton, Oct. 11th, to Mr. and Mrs. Geo. Dobson, a daughter.

RIDDLE—At Campbellton, Oct. 12th, to Mr. and Mrs. Riddle, a daughter.

GIDRON—At Campbellton, Oct. 15th, to Mr. and Mrs. James Gidron, a daughter.

KNIGHT—At Campbellton, Oct. 16th, to Mr. and Mrs. F. W. Knight, a daughter.

WARREN—At Campbellton, Oct. 17th, to Mr. and Mrs. Peter Warren, a daughter.

MARRIED.

At Campbellton on the 15th inst., by the Rev. R. J. Coleman, George Thompson to Eliza Travers.

At Campbellton on the 16th inst., by the Rev. R. J. Coleman, Donald A. Smith to Mary A. Thompson.

BATHURST BUDGET

The County Fair which was held here on Wednesday and Thursday was very successful. Though the number of exhibits was not large, the articles shown were in nearly all cases well worth seeing and the prizes were awarded by the judges after careful inspection to the satisfaction of all. This is the first fair in which such a universal interest has been shown for some years in Bathurst and it is quite safe to predict that the interest will be kept up and each year the fair will be a thing to be looked forward to and many exhibits prepared in advance. The Woman's Department could well be added to and no doubt next year we will see many more articles in home needlework, rugs, knitted articles, etc.

The races which took place on the same days, were a great attraction and drew a very large crowd. The horse owned by S. Williamson was the first money and was the winner in the last race held here. Congratulations to Mr. Williamson.

A very successful and largely attended meeting was held in the Masonic Hall on Friday evening by the opposition party. John Morrissey, M. P. P., who spoke at some length was listened to with much attention, as were all of the speakers of the evening. By their attendance at this meeting it would seem that the Bathurst ladies are showing a very lively interest in politics.

Mrs. John Payne and children have returned from a visit to her people in Maine.

Mrs. John Rennie entertained a number of young people at a dancing party on Friday evening. Everybody had a most enjoyable time.

Mrs. Kate Cinnamon whose health has been somewhat impaired is, under the skillful treatment of Dr. G. M. Duncan, much improved.

Mr. Thomas McManus of the Bank of Montreal, St. John, is spending his vacation here.

New Carlisle News

James Campbell, of New Richmond, was in town a few days last week.

Mrs. Brown is visiting friends in Montreal.

Herbert McKenzie, of New Richmond, was here last week on business.

Mr. Caron, representing Le Soleil, Quebec, was in town Tuesday.

Charles LeBel is visiting relatives in New Carlisle.

Mr. and Mrs. Blackmore are in town and are staying at Mr. Hocquards.

Joseph Young, of Hopetown, was in town last week on business.

Mr. and Mrs. J. H. Kelly left for Quebec last Thursday, where Mrs. Kelly is visiting her old home.

Two weddings of more than a local interest took place, one at Clifton, and the other at Salmon Beach, Gloucester Co., on Wednesday the 9th inst.

At three o'clock in the afternoon, Miss Pearl Ada, youngest daughter of Mr. Richard Knowles, Clifton, was married to Mr. Allan Buttiner, of Salmon Beach, in the presence of the immediate relatives. After lunch, the bride and groom, accompanied by a number of their friends, drove to their home at Salmon Beach, where a reception was held, and at eight o'clock, Miss Nettie Buttiner, sister of the newly married groom,

Mr. Thomas Sullivan who some months ago was obliged, on account of ill health, to discontinue his employment as book keeper in Adams, Burns & Co's office, has after a change and rest returned quite better.

Mr. E. M. Lannigan, the obliging agent of the Western Union Telegraph Co., is having an office erected on Water St.

O. Fenwick went to St. John on Monday to meet Mrs. Fenwick who was returning from a visit to Boston. Both returned to Bathurst on Monday night.

Dr. O. B. Moore went to Carleton Place this week on a professional visit.

Miss Mary Leahy returned this week from Montreal.

Mr. and Mrs. Edward Baldwin are welcoming a baby boy at their home this week.

P. J. Veniot keeps improving each day and his friends are hoping to see him out soon.

Dr. and Mrs. Michaud spent Sunday in Belledune.

The store which is being erected for Mr. H. G. Poirier on King St., is being rushed to completion and is to be ready for occupancy November 1st. It is Mr. Poirier's intention to keep an up-to-date grocery and there is no doubt that he will receive a large share of patronage.

It has been decided to build a stone convent in the town for the Sisters of Charity. The contract for the getting out of the stone has been given and the work will be commenced as soon as possible.

Mr. and Mrs. S. DesBrisay of Madisco and little son were in town this week.

Mrs. H. White, Mrs. J. White and Mrs. J. C. Meahan returned on Saturday from Charlottetown, P. E. I.
