

**SOLDIER SETTLERS
MAKING GOOD**

Reports for Past Year Show
Large Measure of Success
Throughout Canada

Ottawa, January 17.—The close of the calendar year finds a large proportion of the war veterans who took up land under the government's scheme of financial aid making good progress. Figures given out by Major John Barnett, Chairman of the Land Settlement Board, show that 23,508 returned men have received assistance by way of loans and 6,844 others have gone on free lands without loans, a total of 29,352. Officers who have been accepted by the board as qualified number 21,199. More than 4,000 men have been trained on farms under the supervision of the field staff and there are still 806 receiving training.

Loans disbursed to settlers amount to \$30,445,991. Settlers made initial payments on their land amounting to \$5,819,464 and in addition have repaid interest and principal due amounting to \$1,654,060. Six hundred and fifty-nine have repaid their loans in full, a majority of them continuing to farm. The annual collection activities of the board are now under way. Up to the twenty-first of December 47 per cent had met their obligations in full or in part. Owing to the late threshing in the West and the delays experienced in some districts in mar-

keting the grain crops the full report on collections will not be available for some time, but the receipts from this source are running between \$90,000 and \$100,000 a week. Seventeen per cent of the settlers with loans have discontinued their farming operations. Many of the failures have been due to death, or to recurring illness from war wounds, or to domestic troubles. The soldier settler who had no reserve fund accumulated during the boom years and who in addition to lack of capital was inexperienced or was overtaken by family illness or other mishap naturally was the first to feel the pressure.

Among the other activities of the board during the year were the locating of fifty Hebridean families on desirable farms in Alberta, and the finding of employment, principally on farms, for thousands of British harvesters, many of whom intend to go on land of their own when they have gained adequate experience of farming and conditions in Canada. Approximately five and a half million acres are occupied by returned men and it is estimated that more than 600,000 acres have been broken to the plow since the inception of the land settlement plan.

Qualifying It.
"I never believe in expensive clothes," said the economical Mr. Underwood to his friend. "Cheap things can be just as good. This suit I'm wearing cost me five pounds. If I'd told you it cost ten pounds you'd no doubt have believed me."
"Yes—if you'd told me over the phone," said his friend.

**DO YOU HATE
TO GO TO WORK?**

A New Disease for Lazy Men or
Women Called Ergophobia
Discovered in New York

Hate to go to work? Have you periods when you just want to sit still and do not do anything but sit? Does the prospect of the world mere rolling around without any effort on your part appeal to you? If so, be careful. If you're plugging along you are all right now, but if you let your feelings take possession of you then you are an ergophobic. Ergophobia is a morbid fear of work. Most humans show at least a trace of it. The toiler who looks out of the window and wishes he was somewhere else is an incipient case. He who gets up in the morning or late afternoon with an inclination just to drift along in a lazy current of days, weeks, months and years is a real case.

Laziness a Disease.
Thus laziness is not a vice. It's a disease. Oftentimes this is but a symptom, the real sickness being some physical ailment which makes work harmful and injurious. Occasionally, some mental defect is back of it. The malady, however, is curable. Dr. I. L. Naeher is responsible for these statements. Dr. Naeher has had abundant opportunity to verify his conclusions. He is physician to the New York Municipal Lodging House. This is the largest shelter for the homeless in the world.

"I made nearly 100,000 examinations of about 22,000 individuals in 1923," said Dr. Naeher, writing in the Medical Times. "In more than 70 per cent of the examinations physical defects were found which handicapped the individuals to such extent that they were unable to hold their jobs. Special examinations were made from time to time to determine the prevalence of particular forms of defects and diseases in the class of men that made up the bulk of the lodgers."

"At these special examinations, it was found that more than 50 per cent had pyorrhea and 33.1-3 had lower limb defects or hernia. Among these last, there was a notable lack of work involving much standing or walking and in the hernia cases, there was also the fear of work requiring lifting, straining and work in which both hands were simultaneously employed."

"In dealing with the problem of the derelict, this medical feature has never been considered as it is a basic cause for his apparent laziness, shiftlessness and lack of ambition, the problem of how to deal with him has never been successfully solved."

"Those who study the non-criminal derelicts and social outcasts divide them into three classes: Hobo or tramp, bun or drunkard and panhandler or beggar. There is, however, another type of derelict which never been separated and classified—namely, the ergophobic. This individual does not suffer from 'want-werust,' may be a drinker but he is not a bum and he seldom makes street-begging a vocation although he is sometimes forced to beg a meal. He has an extreme aversion to labor and is afraid to do anything that would require muscular effort."

"In the eyes of the public he is lazy, shiftless, poor and a nuisance. Yet, that laziness is really due to an abnormal mental condition, an unnatural fear of something unknown or an undefinable anxiety and an intense aversion to physical activity. 'Occasionally, there is a fear that has a more or less rational basis as a fear of injury or impairment of health, of debasement or failure, but in the case of the ergophobic it is impossible to convince him that the fear is groundless. In some cases this fear comes suddenly, in others it develops gradually while some individuals exhibit at times extraordinary energy and at other times a determined opposition to any form of labor or an apathy from which they can not be roused."

FIRE-PROOFING WOOD
Wood is such a convenient material, on account of the ease with which it is worked, its relative strength, its low cost, and attractive appearance that if it could be rendered fire-proof it would be almost ideal for many purposes. The Forest Products Laboratories of the Forestry Branch, Department of the Interior, are investigating various processes for rendering wood resistant to fire. The Laboratories point out that it is possible, by impregnation with certain salts, to render wood fire-retardant, that is to decrease its natural inflammability very considerably. It can thus be made extremely difficult to ignite and the persistence of glowing embers can be prevented. This is an important step in the desired direction and in view of the progress already made, it is hoped that the processes may be made even more efficient.

Use the Want Ad. way

**MADE FIFTEEN
TRIES BUT FAILED**

Then Unsuccessful Suicide drops
Dead When Rich Friends
Care For Him

Berlin, Jan. 17.—Having from despondency which had caused him to make fifteen attempts at suicide, in all of which he was thwarted, Julius Jahn, 55, dropped dead this week just as rich relatives were ready to care for him.

Jahn had met with a series of reverses since the war. He had lost his savings, and repeatedly lost his job, for which he was unfitted. He threw himself out of a high window, only to fall upon a soft stack of straw. He tried hanging, but his friends invariably cut him down. He placed the muzzle of a pistol against his temple, but the housekeeper had snatched the weapon. He was so far as to set his house on fire, but the firemen were alert enough to extinguish the flames before they could reach him. Numerous dives into the river always ended in well-intentioned rescues.

Finally when he lost another job, a letter came from well-to-do relatives in Holland, offering to take care of him for the rest of his life, and provide him with every possible comfort. Accordingly, he organized a joyous farewell party to all his friends and neighbors, which lasted till time for the train that was to take him to another destiny.

As he lifted his hat at the door, bidding his guests a last adieu, Jahn fell across the tiny veranda containing his belongings. Gasping, he died of apoplexy before a physician could arrive.

Here and There

Quebec city is again becoming the Mecca of wintering tourists. The hotels are nearing completion and a score of all kinds including toboggan sliding on the four-track chute on Dufferin Terrace, are in full swing.

The mild weather prevailing in Quebec until recently has had a lumbering operations in the province. This situation, according to Mr. Piche, Chief Forester, has been adjusted, however, by late snow, and the total cut has been brought up to normal.

There are 300 ports and harbors on the coast of Canada. The majority are, of course, small affairs, the big ports not exceeding six. Montreal, ranks sixth among the world's ports and third on the basis of export business done during the year 1922, which it is open.

Newspaper production in Canada for the year 1923 was 1,166,225 tons, as compared with 999,998 tons for the same period in 1922, the increase being equal to 17 per cent. The estimated production for the year is 1,270,000 tons, or 128,000 tons over that for 1922.

The value of Canada's 1923 grain crop is estimated by the Dominion Bureau of Statistics at \$292,572,300. The total value of the grain crop is credited to the three prairie provinces. It is interesting to note that the figures for Manitoba and Saskatchewan are below those of the year 1922, those of Alberta are above by over \$45,000,000.

Grain marketed along the Canadian Pacific Railway in 1923 totalled 187,643,224 bushels, an increase of 33,324,619 bushels over any similar period in the railway's history. The increase in bushels shipped was 12,066,730, or 9.2 per cent over 1922, and \$1.1 per cent of the total amount marketed had been shipped by December 3rd.

Government statistics estimate the apple crop of Canada for 1923 at 10,794,500 boxes, which, at an estimated average of 22 lbs. a box, makes the value a little over \$21,000,000. By provinces the estimated production is: Ontario, 5,250,000 boxes; British Columbia, 5,124,000; Ontario, 2,275,000; Quebec, 110,000; and New Brunswick, 35,500.

A herd of 20 buffalo is soon to be shipped from Wainwright Park, Alta., to the Yukon, where a game preserve is to be laid out in the central part of the territory. This announcement was made here by Robert Lowe, of White Pass, Yukon Territory, on his way back from Ottawa, where he arranged for the shipment.

The Banff Winter Carnival is to be held from February 2nd to 9th, 1924, both days inclusive. A widely varied and attractive programme has been arranged, culminating in a Grand Carnival on the 9th, when the Carnival Queen for 1924 will be announced and crowned.

Among the New Year's honors for 1924 one of the most popular is the award of the R.N.R. by the R.N.R. to the King's Captain S. Robinson, R.N.R., who it will be recalled, is distinguished himself in command of the Canadian Pacific S.S. "Empress of Australia" during the Japanese disaster in 1923.

The beauties of the Laurentian Mountains, which have already attracted the attention of moving picture producers, are continuing to draw such attention. The latest to make use of the beauties of the Laurentian Mountains is the Duxbury Pictures Corporation, starring Alma Robinson and Conrad Nagle, which has been shooting at Gray's Lake, N.B. The picture, "The Rocks Inn, N.B. Jovite, over the New Year holiday period. A feature of their work has been the co-operation of the Chateau Frontenac, the team led by Maurice, a veteran of five years service in the North.

**THE DEVASTATED
REGIONS OF FRANCE**

Expect That the Work of
Restoration Will be Completed
This Year

Paris, Jan. 17.—Restoration in the devastated regions of France is going ahead so rapidly that, it is believed, by the end of 1924 only a few parts of northern and eastern France will still bear testimony of the horrors of war which swept over those districts.

France set to work immediately after the war, and has spent thus far 101,000,000,000 francs in repairing damage to property and persons. At present 20,000 factories, of 22,900 destroyed, have been restored and are in operation. Close on 3,000,000 acres of ground have been made arable, and 698,000 dwellings have been rebuilt. The population which before the German invasion was now returning slowly, and in a few months, it is expected, the normal quota of inhabitants will be working and living again in the affected regions.

Much money, however, must still be spent in the north, and the French treasury plans to advance \$18,000,000,000 francs more for this year's work. Miss millions of francs are to go to persons who have suffered through the war.

The Graphic \$2.00 year.

**Foot Saved
in 4 Days!**

"Nothing but Zam-Buk could have done it," says Mrs. A. Berryman, 180, John St., Hamilton, in describing how her right foot, crushed by a wagon wheel, was healed. "The foot was terribly bruised, blackened and inflamed, and I laid away with pain. When it was quite impossible for me to move about, my husband's mother got me to try Zam-Buk. It was surprising. Within TWO DAYS all swelling and discoloration had disappeared and pain was banished. In FOUR DAYS, the foot was as good as new. Zam-Buk, I could get about as usual. The injured foot was thoroughly healed."

Zam-Buk is the powerful anti-septic, healer which quickly cures the skin of corruption and disease and grows new tissue. It is the common ointment or salve can possibly compare with Zam-Buk. Get a box to-day! 50c. all dealers or FREE SAMPLE for 10c. postage from Zam-Buk Co., Toronto.

ZAM-BUK
For Healing!

**MEGAN LLOYD GEORGE
PLANS TO WRITE US UP!**

BY WANDA VON KETTLER.

London, Jan. 15th.—Megan Lloyd George is going to write a book about us. Yes—all about us—scraps and candy and American boys and girls and things.

This isn't official. It's just "Megan-official."

Ever since the 21-year-old daughter of Britain's most famous statesman returned home from her trip to America with her distinguished father and pal, she has been dodging reporters who have been trying to put this question to her.

"I haven't said I am going to write a book," she protested to me. "Oh," said I, "shall I contradict the report in America?"

"Oh, no!" put in Megan with speed. "Don't do that. I haven't said I'm not going to write a book. I just haven't officially said that I am."

That settled it. Remained for me to find out what she was going to put into that book. I cautiously queried her.

Office Buildings.
"You're an American girl," she said, "and you've been in my country just a little while. Well, things here are different to you, so doubt, I've got some very things over there were different to me."

"What impressed you the most? Let's see—Oh, I know—the New York skyscrapers and the candy."

"That made us both laugh."

Miss Megan is small of stature and small of build. Warm and smiling, she is a very pleasant person. She is a very pleasant person.

**SECRET THIEF
WAS A LOVER**

Robbed Post Office After Get-
ting Sweetheart Out
of the Way

London, Jan. 17.—A young man calmly unlocked a side door of Greenwich well Green sub-post office in full view of hundreds of people one Saturday afternoon recently, took \$3,000 in currency notes and 400 in other from the safe, and vanished. Behind the exploit lies, it is believed, one of the most remarkable and ingenious conspiracies of recent years.

The boys which opened the door of the post office and the door of the safe belonged to Miss Margaret Lindsay, the pretty young assistant post-mistress. The man who used them was the lover she had promised to marry.

Six months ago she met the man who is known as Jack Devaney and who lives in apartments near the post office. One day he arranged to take Miss Lindsay to a football match. She locked up the post office and put the boys in her bag as usual and went straight to his lodgings. There she met a girl whom Devaney introduced as his sister. He said that he could not go to the football match because of an urgent engagement, and called Miss Lindsay to go with his sister. She consented, and at Devaney's suggestion, left her handbag in his room "for safety."

When the two girls returned from the match the bag and Devaney were missing. The sister left the house, and as she did not return Miss Lindsay rushed to the post office, to find that it had been robbed.

**RENOUNCES RIGHT
TO DANISH THRONE**

Danish Prince Will Marry Miss
Booth of Ottawa

Copenhagen, Dec. 26.—It is officially announced that Prince Erik of Denmark on the occasion of his betrothal to Miss Frances Booth, of Ottawa, renounced his right to succeed to the throne and his title of Prince. King Christian has, however, conferred on him the title of Count of Rosenborg.

Ottawa, Dec. 26.—Prince Erik of Denmark tonight denied that his engagement to Miss Lois Frances Booth of this city, had caused him to renounce his title of Prince. While he admitted that he would have to renounce any right to the Danish throne, he denied that King Christian had taken his title of Prince away.

The Logic of the Case.

PIPE ORGAN 2000 YEARS OLD
Historic Carthage Excavation Also Reveals Powder And Bronze

Count Barry Esmon de Proven, archaeologist, author and artist, who was in charge of the work of excavating the remains of the ancient metropolis of Carthage under the supervision of the French government, is a famous man who has made the name of Carthage famous to the world.

A terra-cotta organ with pipes and pedals, more than 2000 years old, and a bronze statue of a woman, were found in the ruins of Carthage. The organ was found in a room which was used for the purpose of a temple. The statue was found in a room which was used for the purpose of a temple.

RUMOR SAYS L. S. BROWN IS TO RETIRE

Will be Succeeded by W. A. Kingsland, Now of Toronto

That L. S. Brown, General Manager of the C. N. R. Atlantic Region, will shortly take a six months' leave of absence at the end of which time he will retire from the service, is still currently reported in railway circles, despite information recently given out to the contrary.

The report which comes to the Montreal Times from a very well informed source also states that Mr. Brown will be succeeded by Mr. W. A. Kingsland, Assistant General Manager of the C. N. R. Central Region at Toronto.

Mr. Kingsland is not unknown here as being General Manager of the C. N. R. Eastern lines until the three operating regions were created by Sir Henry Thornton early last spring.

Mr. L. S. Brown left Thursday afternoon for Montreal on private car 55 attached to the Ocean Limited to confer with executive officials.

LOW TOURIST FARES TO THE MARITIMES

Canadian National Railways Will Help Boost Eastern Summer Resorts

With the idea of inducing large numbers of tourists from the Central and Western States to take advantage of the excellent summer holiday facilities afforded by the Maritime Provinces, the Canadian National Railways have arranged to put in force this year special reduced tourist fares from Chicago, St. Louis and contiguous points to the Maritime Provinces.

These low summer tourist fares will go into effect on May 15th and will have a return limit of October 31st, thus extending to all tourists from these points to the Maritime Provinces, the benefit of the full tourist season. The development of these plans will be carried forward by the Canadian National Railways with an extensive and attractive advertising campaign in the newspapers and periodicals in the cities and communities affected—featuring the splendid facilities and opportunities offered by the Maritime Provinces to summer tourists. New booklets dealing exclusively with the advantages which the Maritime Provinces have to offer from historic, scenic, sporting and other viewpoints will be issued and circulated by the Canadian National Railways.

The Canadian National Railways are co-operating closely with the tourist associations in the Maritime Provinces with the view to increasing the volume of this desirable traffic from western territory to the Maritime Provinces.

BEGINS ROUND THE WORLD SERVICE

Eighty Year Old Mariner Inaugurates Sailing Every Two Weeks for Travellers

San Francisco, Jan. 16—Modern Magellan today can start twice a month on the voyage that the early Portuguese navigator found so difficult and perilous, for the Dollar Steamship Company has an around-the-world service with fortnightly sailings.

Of modern navigation and on this theory Captain Robert Dollar, picturesque figure of the maritime world, has begun in his eightieth year the first such regular passenger service in history.

A fleet of seven liners will be used for the world travellers. The company's list calls for a sailing every two weeks from New York, Boston, Los Angeles, and San Francisco. The ships will call at 21 ports in 111 days. Ports of call will include Havana, Colon, Balboa, Honolulu, Kobe, Shanghai, Hong Kong, Manila, Singapore, Penang, Colombo, Port Said, Alexandria, Genoa, and Marseilles.

Other liners in the around-the-world service are the President Hayes, President Garfield, President Taft, and President Van Buren. The vessels are of identical dimensions—325 feet in length, with 62 feet of beam and a displacement tonnage of 21,000—have been equipped similarly.

The Dollar Steamship Company, which has been in the shipping business for more than 80 years, is now owned by the Dollar Steamship Corporation, which has been organized to operate the around-the-world service.

The Dollar Steamship Corporation, which has been organized to operate the around-the-world service, is now owned by the Dollar Steamship Corporation, which has been organized to operate the around-the-world service.

RESTIGOUCHE MUNICIPAL COUNCIL NOW IN SESSION

Business of County Being Transacted at Dalhousie This Week, Affairs of County are in Good Shape.

The annual meeting of the Restigouche Municipality Council met at Dalhousie Tuesday.

The new Council is composed of the following:—Durham—Arcandale Murchie, Paul Doyle.

Colborne—Alex S. Arseneau, Jackson Miller.

Balmoral—Edward Savoie, Fidele LeBlanc.

Dalhousie—Philbert LeBlanc, John McKinnon.

Addington—H. C. Gillis, P. S. Martin.

Eldon—Murdoch Firth, James Chesser.

Grimmer—J. L. Levesque, Joseph Belanger.

St. Quentin—Joseph Sonier, Alfred McEnt.

Town of Campbellton—Joseph Duncan.

Town of Dalhousie—Andrew Barberie.

The council appointed Coun. Murchie chairman for the purpose of electing a warden.

Coun. A. S. Arseneau was elected warden.

Arden taking the chair Warden Arseneau thanked the council for the honor done him and hoped that all would co-operate with him in transacting the business of the council promptly and squarely.

The minutes of the July session were read and approved.

The Council then adjourned until 2 p. m.

Tuesday Afternoon

The council reassembled at 2 o'clock, all the councillors present.

The minutes of the forenoon session were read and approved.

The Secretary-treasurer, read the following communications:—

From the Restigouche Sub-District Board of Health asking for an appropriation of \$2000.

From J. King Kelly, Secretary of the N. B. Union of Municipalities stating that Dr. Anglin would be glad to come before the council and deliver his paper "Unnecessary Cost of Insane," and also answer questions.

Dr. Anglin's expenses would be paid by the government.

From the town of Campbellton including a bill for \$200.00 taxes.

From the Chief Fire Warden G. H. Prince, thanking Councilors for the good work done during last year in preventing and fighting forest fires.

From Mr. M. A. Kelly, Clerk of Court enclosing account for \$62.50.

From St. Quentin Road Dist. No. 2 requesting that \$100 be assessed for winter roads.

A request that taxes be struck off record from Jos. Savoie of Kedgwick. He stated he was sick, and could not earn enough to keep his large family.

A number of residents of Kedgwick who had their property destroyed by fire asked that the taxes assessed on this property be struck off.

The White Water Club asked that their valuation be reduced from \$5000 to \$1000 as they did not own, but leased only, their fishing rights.

Assessors recommended reduction and a refund of taxes.

Francis Mott sent in an account of \$200 for keeping his sister, Mrs. Alain.

Richard Firth claimed he had paid taxes on property and asked for refund. This tax was collected in Eldon.

On motion A. McG. McDonald, Sec. of the Restigouche Sub-District Board of Health was heard.

WILL DEVELOP ST. LAWRENCE POWER

Ontario's Premier Makes Definite Statement to Prescott Board of Trade

Prescott, Ont., Jan. 12—Hon. G. Howard Ferguson, Premier of Ontario, definitely stated at a banquet given in his honor by the board of trade here last night, that the St. Lawrence power would be developed at an early date and that in four years Prescott and Sudbury county would enjoy the blessings of cheap and abundant power. He said that the Ontario government, as far back as 1916, had realized that the water power of the St. Lawrence would be needed for supplying Ontario with hydro power and had been securing information regarding the resources.

The Hydro Act required that where any district pays more than cost, the money must be refunded and not applied to any other district.

The monthly statements in general regarding hydro show a gradual reduction in the cost of production of power, due to the increase in consumption.

The Sussex rates are 9 cents for the first 30 hours, while the power and domestic heating charge is 4 cents. The service charge is 75 cents. The town uses half the hydro for street lighting and pumping.

TWO BABIES WERE CRUSHED TO DEATH

Accident in Worcester Hospital Elevator

Worcester, Mass., Jan. 15—Caught between the door and the ceiling of a hospital elevator, two babies were crushed to death in the city hospital last night. The mother of one watched her baby die. Miss Ruth Beck, a student nurse, who was in charge of the children in under a doctor's care suffering from shock. The babies, one a daughter born Dec. 21 to Mrs. Edward Young, and the other a son born January 3 to Mrs. Harvey, with seven other infants were on their way to the nursery after having been with their mothers.

The nine children had been placed in a long crib on a truck and wheeled onto the elevator. Officials said the elevator was slightly below the floor level and Miss Beck gave it a slight tug to bring it up a few inches. The cage shot up and the crib slid partially out. Before the lift was stopped the two babies had been crushed against the ceiling.

The other seven escaped injury. Three separate investigations were started after the accident by the police, district attorney and hospital authorities.

Attorney Benjamin Warren met his death a few weeks ago in an accident in this same elevator.

DISCOVER NEW FISHING BANK

It is reported by the Department of Marine and Fisheries that a new fishing bank, approximately 200 miles in length and 90 miles in width, has been discovered off the coast of Labrador. This fishing ground, which, it is stated, abounds in cod and halibut, will likely prove a valuable acquisition to the already known fishing banks. The depth of the water is 76 fathoms, and the same soundings, varying but little prevailed over a large part of the bank.

Where He Found It.
"You are looking unwell this morning, old fellow."
"I feel very ill, indeed. Didn't have a wink of sleep last night."
"How was that?"
"When I got home I couldn't find my latch key, and had to sit on the doorstep all night. Didn't find it till morning."
"Where was it?"
"In my hand."

FOREST OFFICIALS BACK FROM OTTAWA

Aerial Photographs Taken in the Vicinity of Sussex Were Shown

Interesting exhibits shown in connection with the Federal-provincial forest protection conference, held last week in Ottawa and attended by representatives of the various provinces, were aerial photographs of some ten square miles of territory in the vicinity of Sussex, photographed in connection with the topographic surveys of that area which are being carried on in this province.

These photographs show up with remarkable distinctness the nature of the country in the future mapping system carried on in the province, according to G. H. Prince, chief forester of the Department of Lands and Mines who has returned from Ottawa.

In connection with the policy of establishing forest fire lookout towers in this province, which has been followed for a number of years, Mr. Prince said that the St. Maurice Forest Protective Association placed an order for 32 steel towers recently. This association is one of the oldest forest protective associations in the Dominion and has carried on extensive operations with aircraft. The system of lookouts and patrols was one of the matters discussed by the conference, and the delegates went on record as favoring the continuance of this policy.

That the relative humidity of the atmosphere is the greatest indication of the fire hazard, was one of the interesting findings submitted to the conference for consideration. It was shown that with a low humidity, below 40 per cent, forest fires occur more rapidly than with a heavy percentage of moisture in the air, irrespective of other conditions. As a result of this finding the conference decided to ask for further services from the Meteorological stations of the Dominion in predicting danger periods.

STANDSTILL BY THE GOVERNMENT

Ottawa, Jan. 12—The Government is prepared to offer the 160 British harvesters, now stranded in Toronto, work on the farm and will pay their transportation to the place of employment. On the other hand, the Government has no intention of supporting men who will not accept work when it is offered to them.

SUSSEX LIGHT RATES CUT IN HALF

Hydro Has Prov'd Satisfactory, Says Mayor McKenna

St. John, N. B., Jan. 12—Sussex has received \$1,954.09 from the N. B. Hydro Commission in a readjustment of its rate for the six months period ending October 31, 1923, the N. B. Commission advised yesterday. This was confirmed by Mayor McKenna, Sussex, who, in conversation over the long distance, stated that hydro has proved satisfactory and economical, cutting the Sussex rates in half.

The N. B. Commission reported that under the Sussex contract, hydro was to be furnished at cost not to exceed 3 cents a K. W. H. The audit of Price Waterhouse Co., for the period ending October 31 shows that it cost the commission \$2,901.59 to deliver to Sussex 155,523 K. W. H. during six months. This figure out at 1,767.23 per K. W. H. The town was charged 3 cents, or a total of \$1,755.68. Hence, the rebate of \$1,954.09.

The Hydro Act required that where any district pays more than cost, the money must be refunded and not applied to any other district.

The monthly statements in general regarding hydro show a gradual reduction in the cost of production of power, due to the increase in consumption.

The Sussex rates are 9 cents for the first 30 hours, while the power and domestic heating charge is 4 cents. The service charge is 75 cents. The town uses half the hydro for street lighting and pumping.

AN INDIAN WAR VETERAN

The death of Joseph Sapier, aged 26, an Indian belonging to Newcastles, N. B., took place at the St. John County Hospital at an early hour this morning after a lingering illness. The deceased, who enlisted in the 1st Depot Battalion in St. John and later was transferred to another unit, served some time in France. He was admitted to the Lancaster Military Hospital in 1922 and later removed to the military section of the County Hospital at East St. John. He was attended by his father, Joseph Sapier, who was present at the time of his death. Arrangements are being made by the D. S. C. R. to have the body sent to New castle for burial.

Sapier was a skilled basket worker and exhibits of his work at the fall exhibition and Red Cross garden party excited much interest—St. John Globe.

Where He Found It.
"You are looking unwell this morning, old fellow."
"I feel very ill, indeed. Didn't have a wink of sleep last night."
"How was that?"
"When I got home I couldn't find my latch key, and had to sit on the doorstep all night. Didn't find it till morning."
"Where was it?"
"In my hand."

CONTROL ESCUMINAC LUMBER COMPANY

W. D. Gunter Heads New Concern With Federal Charter to Operate in Quebec

Fredericton, Jan. 11.—Fredericton men compose the Escuminac Lumber Company, Limited, which has been incorporated under a Federal charter and has already taken over timber limits at Escuminac on the Quebec side of Bay Chaleur, which have been purchased from the W. H. Miller Company, of Campbellton.

Some years ago the Miller interests took over the so-called Coverby limits at Escuminac. These were added to considerably until at the time of transfer there were about 64 square miles in all. They are regarded as highly valuable limits and the estimates of the quantities of lumber upon the lands run into huge figures.

The new company have already commenced operations upon the Escuminac property and will get out between three and four million feet of lumber there this winter. They will have manufactured under contract in that district and during next summer they plan construction of a large mill at Escuminac, after which their annual cut will probably be from ten to fifteen million feet.

Officers of the company, who also control the new enterprise are: President, W. D. Gunter; secretary and treasurer, Stanley Douglas; additional directors, J. Howard Richards and Ralph D. Gunter, all of Fredericton.

While Mr. Gunter declined this morning to discuss that feature of the matter, it is reported that the new company paid between \$90,000 and \$100,000 for the limits and rights they have acquired.

PLAN TO BOOST TOURIST TRAFFIC

Association Will be Formed That Will Meet Men to the Province

St. John, Jan. 12.—An association is to be formed at once to exploit the possibilities of tourist traffic in New Brunswick. It is known the hunting and fishing resources, climate and expanse of wilderness are capable of drawing many tourists to New Brunswick and thereby circulating millions of dollars of additional money.

The project, to be a success, requires the co-operation and backing of the public as the expenditure will be large and once the undertaking is commenced it must be carried out, those interested in the project say.

The first meeting will be held Thursday evening in the rooms of the Tourist Association, Standard Bank Building, Germain and King streets. It is hoped many citizens will attend.

The project was discussed for two years but no action taken. It is proposed to develop the territory between the St. John and St. Croix Rivers at once. This expanse of land reaching from the coast to the Canadian Pacific Railway contains many lakes and rivers, amply stocked with fish. Its forests abound in game.

The idea is to make this the starting point and erect the first camps on this territory. As the scheme proves successful it is proposed to branch out to other parts of the province.

Last year Maine realized \$51,000,000 from tourist traffic while New Brunswick only \$900,000 from the same source last year.

The citizens of New Brunswick should boost this project to the limit. It means prosperity. Every-

PREMIER VENIOT'S WIFE PUTS OUT FIRE

Bathurst Department Called to Senator Turgeon's Home and to Hospital

Bathurst, Jan. 13.—On Sunday evening the fire department was called out for what was supposed to be a fire at the residence of Hon. O. Turgeon. A great quantity of smoke in the house was found to be from a hole in the furnace pipe and the services of the firemen were not required.

An alarm on Tuesday afternoon took the firemen to the J. H. Dunn Hospital at West Bathurst, where a blaze had mysteriously broken out in the wall between two rooms. The fire although causing a lot of smoke, had made only slight progress between the walls when the firemen reached the scene, and after breaking through the plaster to get at the flames were able to extinguish them by the use of the chemicals. The damage to the building was not very substantial and the staff of the hospital deserves great commendation for the prompt action they took in having the outbreak controlled as well as for the effective steps they took to insure the safety and comfort of the patients of the institution while the excitement lasted.

While the firemen were at the hospital a blaze was discovered at the residence of Premier Veniot, some clothing having caught fire in the kitchen. Mrs. Veniot was able to extinguish the fire without calling the fire department.

body is invited to attend the meeting Thursday night.

To the Electors of the Town of Campbellton:

It is conceded by all that the present is a critical time in the affairs of Campbellton, and never has more interest been shown, in the selection of men to guide the destinies of our town for the coming year. . . . After a number of largely attended, and very representative meetings the following gentlemen have been chosen:

For Mayor NORMAN C. McKAY.

**For Councillors WARD 1.
H. M. ARMSTRONG,
C. T. COOL.**

**For Councillors WARD 2.
JAMES H. MOORES,
J. CLIFFORD MacDONALD**

**For Councillors WARD 3.
H. VERNON RAMSEY,
P. W. CALDWELL.**

**For Councillors AT LARGE.
JAMES W. PATTERSON,
EUGENE SAVAGE.**

There are a number of very important matters which will come under discussion during the pending contest, and it is our desire to inform the Electors where we stand in regard to these various issues.

HYDRO

We fully appreciate the fact, that Campbellton needs additional Electric energy, but before the people are committed to any definite procedure, we feel that the ratepayers should be given ample time to consider the matter and consider the following points:

1st. Can 2500 H. P. be developed at Great Falls on the Upsalquitch River?

Ans. According to all available information, we are not satisfied on this point. If the survey made has been based on the government report of the flow of the Upsalquitch, the data so far obtained cannot be depended upon.

2nd. Would this amount of power be sufficient to supply the town's needs and leave a surplus for important industries?

Ans. We venture the statement that within four or five years, the town alone will require over 1000 H. P., and with one proposed industry asking for over 4 times the entire development little could be done for smaller industries that might establish here.

3rd. Would 2500 H. P. at an estimated cost of \$440,000.00 be a profitable development?

Ans. This is a question on which more detailed information is necessary.

4th. Will Grand Falls be developed in time to solve our Electric Power problem?

Ans. We have the assurance of the Premier that this question will be decided during the month of February, and we therefore consider it advisable to wait until some definite statement is made.

5th. In the event of Grand Falls being developed within a reasonable time, would it be necessary to make a large outlay for the enlargement of our present plant?

Ans. With the development of Grand Falls will end our power problem. Premier Veniot has promised that if they decide to develop Grand Falls, they will build a transmission line from Campbellton to their Tetagouche plant and provide sufficient power to guide us over. As we can carry on with our present plant until next fall, when it is hoped the Tetagouche power will be available.

6th. Are the figures quoted in connection with the proposed Upsalquitch project reliable?

Ans. According to the information given out we have no reason to believe that they are reliable. Facts gathered from other Hydro enterprises have repeatedly proven that correct Hydro estimates are very improbable.

7th. Considering the present bonded indebtedness of the town would it be possible to sell at a reasonable figure another half million worth of bonds?

Ans. In the event of an endeavor being made to place such a large amount of bonds on the market, the matter would be thoroughly investigated by the bond houses, and, in the event of their report not being favorable no bond company would handle the issue. This matter would also require government investigation before the necessary Legislature could be secured.

OUR POLICY

If elected, Our Policy for the coming year will be one of strict economy. The improvements made during the past few years with regard to our water and sewerage systems and permanent sidewalks and streets has caused a considerable addition to our bonded debt, and we believe that for some time to come further capital expenditure would not be justified.

We therefore pledge ourselves to keep down expenditure in all departments to a point consistent with good service.

(Signed)

NORMAN C. McKAY,
H. M. ARMSTRONG,
C. T. COOL,
JAMES H. MOORES,
J. CLIFFORD MacDONALD,
H. VERNON RAMSEY,
P. W. CALDWELL,
JAMES W. PATTERSON,
EUGENE SAVAGE.

GOLDENBERG'S CLEARANCE SALE

Is Now in Full Swing

The keenest shoppers who know values are taking advantage of this sale. In justice to yourself and your family you must attend this Great Money Saving Event!

WE HAVE

Bargains for Men Bargains for Women Bargains for Children Bargains for the Home.

Come now before it is too late and get your share of these Bargains.

To out-of-town buyers within a radius of 25 miles we will pay return one way Railway Fare with every \$25.00 purchase.

To town buyers with every \$25.00 purchase we will give Free 2 pairs ladies Silk and Wool Hosiery or a Man's Silk Muffler.

Newsy Notes of Town and Country
Happenings Gathered by Graphic Reporters

BORN
To Mr. and Mrs. E. J. Harris a daughter on January 14th at the St. John's Memorial Hospital. 1 p.

BATHURST WINS
FROM CHATHAM
Chatham lost her first game of the season to the fast Bathurst sextette Tuesday night—score 1-0.

IN LIQUIDATION
The Graphic has been informed that the late Folgerwood Co. Municipal, has gone into liquidation. A number of local shippers of pulp wood stand to lose a considerable amount.

PRESBYTERIAN SERVICES
Sunday, 20 Jan.
Matins—11 a. m.
Robinsonville—8 p. m.
Uplandville—7 p. m.
Full further notice the services at Matins will be in the morning instead of in the evening as formerly.

RIVER FROZEN
The Restigouche River was open from Oak Point to the Bay Chaleur on Tuesday. The heavy frost of Tuesday night froze the river over, and fishermen are hoping to get out in a day or two. The lack of ice has seriously interfered with small fishing, and a great loss to the country.

TIMBER LIMITS SOLD
The sale of the Nouvelle timber limits in Bonaventure County, Que., by Chappell Ltd., of Sydney, N. S., is a transaction of interest.
The Fraser Companies acquired the upper tract which comprises 168 square miles. The lower portion on Steward's Brook was bought by J. & A. Culligan of Culligan, N. B.

A NEW VALUATION IN NORTHUMBERLAND CO.
Newcastle, N. B., Jan. 16.—The Northumberland County Council are opening a session here this afternoon with the valuation as one of the subjects for consideration at the meeting. Choices of the upland village was said to rest between Capt. John Ford of Ladlow and Capt. Richard Gill of Nelson.

FIRE TUESDAY
An alarm was rung in from box 21 about 9 o'clock Tuesday evening for a fire in Seneau's Bakery. The fire which appeared to have originated in a wood-burning stove in the front of the building, worked down between the floors necessitating the tearing up of a small area of the top floor. The damage which was not very great was covered by insurance.

EVENING VOCATIONAL CLASSES REOPENED
The Evening Vocational Classes held in the Grammar School, were started again on Tuesday night, January 15.
Classes were opened in the following subjects:
Advanced Dressmaking—Teacher, Miss Annette (Beggan).
Elementary Dressmaking—Teacher, Mrs. Richard.
Typewriting—Teacher, Mrs. G. Guay.
Bookkeeping—Teacher, J. E. Valin.
Motor Mechanics (Advanced Class)—Teacher, A. Jamieson.
Motor Mechanics (Beginner Class)—Teacher, A. Jamieson.

There is still opportunity for anyone to register in these classes. Registrations will be received until Tuesday, January 22. To register, phone 955, or come to the class on Thursday or Tuesday evening at 7:30.

We have some registrations for Plain Sewing also for the course in Grammar School. Registrations would be glad to receive registrations in these in sufficient numbers to organize classes in both.

Those who attended 50% of the classes last term and who are not registering for work this term may have their registration fee refunded if they call at the Grammar School on Thursday or Tuesday evening.
J. K. VAILLIS, Director.

You can buy Ladies' Braces at Goldberger's sale for \$4.95.

ELECTION CARD

To the Electors of the Town of Campbellton, Ladies and Gentlemen:
We are appealing to you again for your support in the coming Civic Election to be held on the twenty-second day of January, A. D. 1924.

Our record for the past three years we can truly look upon with pride. Upon taking office three years ago, we found our sewerage system on Main, Dundas, Hill or Grand St. streets, altogether inadequate.

As you are aware the sixteen inch water main, located at the corner of Dundas, Hill or Grand St. Street, this system has been extended.

The next serious question that confronted the Council was the water shortage; this was the water supply from Christopher Brook, eight miles from our town; the source of that supply as designated by him, was at a point where the old N. B. R. crossed the Christopher Brook, which was a charge and held for the arrival of the Police officer from Bathurst.

No other arrests were on the book for the week. Several cases were occupied the attention of the court.

PERSONALS

Mr. W. H. McKeown is spending a few days in New York where he is attending the Automobile Show.

Mrs. Wm. Thompson and son, Mark, at Ashville, spent last week in Pope Lodge.

Miss Nan Corbett of Newcastle, left last night for Boston after spending a few days in town the guest of her sister Mrs. E. B. Andrew.

Mr. D. A. Stewart was in Dalhousie Wednesday.

Mrs. John Cameron and daughter Ruth left on the Limited last night for Montreal.

Friends of Mr. and Mrs. R. L. Connel who are now residing in Saskatoon will be sorry to learn of the death of their infant daughter, Janet Shirley.

Business Locals

You can buy a heavy Wool Sweater with roll neck for sport wear at Goldberger's for \$3.95.

CRUSHED BONE

We have a quantity of crushed bone on hand suitable for hen feed. Price Good. FLOYD'S MEAT MARKET, O'Leary St.

AGENTS WANTED—Applications for the position of Salesmen will be received by the Fuller Brush Co. Ltd. Applicants must be over 25 years of age. Married men preferred. Experience not necessary. Opportunity for advancement. Apply stating age, etc., to 11 Imperial Bldg., Montreal. 8 Jan 17

TRESPASS NOTICE

All persons are hereby notified not to trespass on or cut timber from my lands situated in the Parish of Elton, County of Restigouche, on the southwest side of the Restigouche River, six miles above the mouth of the Upsalquitch River.

Dated at Campbellton this 2nd day of January 1924.

DRESSMAKING WANTED—Mrs. M. Pollock is now prepared to do up to date and first class sewing including tailored suits, wraps, dresses and evening gowns. McKensie Building, Phone 412. Jan. 17 2 w. p.

ELECTION CARD

Having been requested by many citizens to offer as a Councilor at Large in the election to be held on the 22nd inst., we have accepted the nomination. And as it is impossible for us to see each and everyone of you we will therefore take the opportunity to ask your kind support. Our motto for the coming year will be economy in so far as is consistent with good management.

Thanking you in anticipation, We remain, Yours truly, GEO. ST. ONGE, BEN GORHAM.

ELECTION CARD

Being asked by a number of the ratepayers of Ward II to offer as a councillor for this ward in the coming election, I have consented to do so. If elected I will endeavor at all times to protect the interests of the electors and give faithful and conscientious service at the council board.

DR. J. A. ROY, V. S.

ELECTION NOTICE

Public notice is hereby given that at a court for the nomination of candidates for Mayor and Councilors for the Town of Campbellton held by and before me on the 15th day of January instant, more than the requisite number of candidates for the offices of Mayor, Councilors-at-Large, and Councilors for Wards One, Two and Three respectively, was duly nominated, namely:

For Mayor—Joseph Duncan, N. C. McKay.

For Councilors-at-Large—A. B. Gorham, Jas. W. Patterson, Eugene Savage, George St. Onge.

For Councilors for Ward One—E. M. Armstrong, A. C. Belle Isle, C. T. Cope, H. A. Eagles.

For Councilors for Ward Two—J. H. Moore, J. C. McDonald, J. A. Roy, V. S.

For Councilors for Ward Three—P. W. Caldwell, Thos. Ellsworth, D. K. Graham, E. V. Ramsey.

A poll will therefore be opened in each of the several wards of the Town on Tuesday, Jan. 22nd, at the following places:

For Ward One—At Hudson McKensie Store, Water St.

For Ward Two—At J. G. McKensie Store, Water St.

For Ward Three—At the Thompson Building, Corner Subway and Water.

Short polls will open at ten o'clock a. m. on the several streets closed by law.

I will be at the Council Chamber, Rossberry St., at five o'clock p. m. on the 22nd inst., to receive the returns from the several wards and to declare the candidates having the greatest number of votes to be duly elected.

Dated at Campbellton, N. B., this 16th day of January, 1924.

John T. Reid, Town Clerk.

Spit Blood

Some of the results obtained by users of Carnol are almost beyond belief. Carnol, if taken according to directions, will relieve almost any case of a run-down nature. But, as disease develops slowly, it takes time to eradicate it. No wonder Mrs. DesRoche recommends Carnol after what it did for her.

An attack of flu in the fall of 1918 left me in such a weakened condition that I could not walk across the kitchen. For nearly two months I spit blood and my neighbors, as well as myself, thought I was in the first stage of consumption. My weight, when I took sick, was 120 pounds, and I shrunk from that to 98 pounds. On the recommendation of my doctor, I began to take Carnol. Before finishing the first bottle I felt a marked improvement. I then took four bottles and my improvement was so marvelous that at the end of six months I weighed 130 pounds—the most I ever weighed in my life. I can safely recommend Carnol to anyone in a weakened and run down condition, as being the best as well as the most palatable tonic on the market today. My little girl aged eight years took a cold in the head and chest. She was so bad she could scarcely breathe. I gave her Carnol in hot water and the next morning she was able to get out of bed for the first time in several days.—Mrs. Mary A. DesRoche, Summerside, P. E. I.

Carnol is sold by all good druggists everywhere.

Of Interest to Women

Recipes for Some Tasty Meat Sauces

(Unless otherwise specified, the recipes given here are designed for four persons.)

The clever cook looks carefully to the kind of sauce she will serve with her meats. No one would think of serving turkey without its cranberry sauce, but how many women think of adding the right touch to plain everyday boiled beef by serving horseradish sauce with it?

Fish is improved when accompanied by a sauce. Oyster, egg, lemon, bechamel and brown sauce add much to any fish.

Roast veal, which in and of itself is a tasteless meat, gains interest and flavor if served with tomato or onion sauce.

Boiled mutton and caper sauce are quite as inseparable as roast pork and apple sauce.

As there are some people who absolutely object to meat sauces, the meat, not over it. This way the full flavor of the meat is preserved and the sauce acts as a complement to the meat instead of overwhelming it.

Meat stock, drawn butter or white sauce form the foundation for most sauces.

Drawn Butter Sauce.

Six tablespoons butter, 3 tablespoons flour, 1 1/2 cups boiling water, 1/2 teaspoon salt, 1/4 teaspoon pepper.

Melt butter in sauce pan, stir in flour and make perfectly smooth.

Add water slowly, stirring constantly. Season with salt and pepper and boil three minutes.

Onion Sauce.

2 eggs yolk Another yolk 1/2 cup cream, 3 tablespoons butter, 2 table

spoons flour, 3 medium sized onions, 1/2 teaspoon salt, 1/4 teaspoon pepper.

Peel onions, put in cold water, bring to the boiling point and drain.

Return to sauce pan with boiling water to cover and simmer one hour.

When half done add 1/2 teaspoon salt. Drain onions and chop coarsely.

Melt butter, stir in flour and when well blended, slowly all milk, stirring constantly. Season with salt and pepper and add chopped onions. Simmer three minutes, stir in cream and serve in tureen.

Tomato Sauce.

Two cups canned tomatoes, 1 small onion, 2 whole cloves, 1 1/2 cups drawn butter sauce.

Put tomatoes, onions, peeled and sliced and cloves in a smooth sauce pan. Simmer for half an hour.

Strain and add to hot drawn butter.

Bechamel Sauce.

One cup white stock, 1/2 cup cream, 2 tablespoons flour, 3 table

spoons butter, 1 small onion, 1 "bouquet-garni" (parsley, thyme, bay-leaf), 6 peppercorns, 1 teaspoon salt, 1/4 teaspoon nutmeg.

Melt butter, stir in flour and slowly add stock, stirring constantly. Add all the remaining ingredients except the cream and let simmer half an hour. Rub through a strainer and reheat with cream.

NECK

The most beautiful neck in France is owned by Collette Lull. At least that is the story reaching this country following a unique contest in Paris. How do you think it compares with American necks?

The True Artist Has the Mother Instinct

New York.—The true artist is also a mother!

Before hearing the protests of those who believe themselves true artists and are not mothers, let us give Mrs. Gertrude Ross, pianist and composer, opportunity to explain this dictum of hers.

"The mother instinct is the basis for a woman's artistic expression," she elaborates. And she goes on:

"With the awakening of the mother instinct, women develop and expand artistically. Their capacity for living and feeling is heightened."

ature makes herself manifest in the mountain form or in mother love, it is the basis for drama and art."

Upon which, Mrs. Ross points to her own example. Her career as a composer began with a lullaby she had devised for her daughter and which Madame Gaski introduced to the public. Her latest achievement is the score for "The Pilgrimage of the annual religious pageant given near Hollywood, Calif.

Lullaby is starter

"Had it not been for the success of that lullaby," she remarks, "I would probably never have written the music for 'The Pilgrimage'."

It seems a far cry from the simple melody of that first lullaby to the score of America's Passion Play, yet it is just this classic simplicity that

Wife and Hubby Should Have An Occasional Spat

(By Marian Hale.)

New York.—The family quarrel is an excellent institution so long as you don't overdo it, according to Henry K. Marks, physician, psychologist and author of "Undertow."

"You may depend upon it," he remarks, "the husband and wife who have it hot and heavy for a while and clear up the atmosphere are much more healthy physically than the couple who never have even a tiff and are always in accord."

The woman who doesn't assert herself and take her husband in hand once in a while is really nothing more than a moron. Men never have given women anything, except what they wanted them to have, without a struggle. And they never will. Men aren't built that way.

"This is true in the home as well as in political and social life. Women have to know what they want and fight for it. If they don't develop a spine for themselves eventually they become colorless, vague, negative."

Independence Wins

"The clinging vine has never done anything for herself or for her race. And she is bound to find herself in time with nowhere to cling. Economic pressure, if nothing else, is forcing every individual to fight for himself, and those who can't will fail."

Likewise, Dr. Marks advises you not to be deceived by the over-solicitous, over-devoted wife. Instead of being prompted by real love, it may conceal actual hate.

"Many a woman realizes she hates her husband," the doctor continues. "She regards it as a shortcoming on her part and her first impulse is to conceal her discovery. So she tries to atone for what she believes is her guilt in not loving her husband by going to the other extreme and showing the most exaggerated solicitude for his welfare. But she is just as much of a neurotic as the woman who flies into hysteria."

Don't Fool Yourself

If we could take a look into the psychological life of the Pollyannas about us we probably would find their omnipresent optimism and another form of over-compensation, he says.

"Pollyannas conceal their fears and their honest doubts beneath an armor of forced gladness," he explains. "It isn't natural to smile all day and be cheerful when the cook leaves or the baby spills ink on the new rug any more than it is never to quarrel or lose your temper when your husband gets too unreasonable."

"So don't be afraid of a good spat now and then, or a fit of the blues or any of those honest emotions that you may feel ashamed of afterwards. They are healthy—they are normal and healthy-minded."

is predominant in this last production and that is the sense of greatness. That is true of her other music.

In whatever setting she places her songs, they are almost sure to hark back to the lullaby motif. "The Japanese Lullaby," "The Babe's First Cry," "The Cowboy's Roundup Lullaby" are some of her songs for children.

Imagine a roundup in lullaby form.

Lives in Song

The message of the desert country, of Spanish California, of the great open spaces where music is born, comes to the audience in her songs. Her home itself is the materialization of song—built on piles near the sea in California, so she may always hear the music of the waves.

Back of all is the mother instinct, she repeats.

"We women are primitive creatures," she declares. "After all there is not so great a difference as you would imagine to the life of a wild animal. The woman who cannot combine her profession and homemaking has neither the versatility nor the vitality of the true artist."

Not Fanaticism

When anti-prohibitionists get calling temperance people names they very seldom fail to hit in the charge that prohibition is genuine fanaticism, and all who advocate it are the worst kind of fanatics. But fanaticism is something which is not based upon reason and facts, and unfortunately for the liquor trade prohibition does happen to be based upon these very things, and the charge which have come over the temperance campaign in recent years reveal very clearly the fact that the prohibition of to-day is based less than ever before upon appeal to sentiment, and very much more upon the

and the experience and common sense of the ordinary man. Years ago we heard a good deal about the husband's wife and children but they were passed beyond that.

Today we have passed beyond that and we are meeting a business proposition with business arguments and facts, and we find the appeal is not ineffective.

Our opponents make much of the argument that we have no right to say it is a sin to take a glass of beer; but this is precisely what we do not say. In fact we are not concerned in our argument half so much

Many New Brunswick Homes Test New Treatment

Spasmodic Croup and Childrens Colds

Vicks Wins Most Enthusiastic Praise

New Brunswick Mothers Like Vicks VapoRub

A CASE IN PORT ELGIN

Mrs. Adolphe P. Cornes, of Port Elgin, N. B., writes: "I never used a remedy that was more satisfactory than Vicks VapoRub. I gave it a test one night on my baby who was sick with bronchitis and was surprised at the results."

REPORT FROM SHEDIAK

Mrs. Joseph Hebert of Shediac, N. B., writes: "When we were all sick with gripple we used Vicks VapoRub and found it very good in every way. I will never go without Vicks in my home."

WOODSTOCK "GREAT RELIEF"

Mr. J. A. Troy of 76 Emerald St., Woodstock, N. B., says: "I find Vicks VapoRub a great relief to me for I am troubled with asthma. It certainly makes my breathing much easier. Would advise any person bothered with asthma to try Vicks. It cannot help but satisfy."

Never let a Cold get a start

Skeptical at first about external treatment for cold troubles, New Brunswick people have been completely won over by the remarkably quick action of Vicks VapoRub.

For Vicks medication takes effect immediately it is applied in two distinct ways. First it is absorbed through and stimulates the skin like a liniment, poultice or plaster. Second its ingredients are released by the body heat as vapors and are inhaled with each breath directly into the nose, throat and lungs. It is an obstinate cold that can resist this direct double action.

Vicks is composed of Camphor, Menthol, Eucalyptus, Thyme, Turpentine and other of the world's best remedies for congestion and inflammation—whether in the air passages, such as croup, colds, catarrh or bronchitis, or on the surface, like cuts, bruises, burns, sores and stings.

Vicks is a family standby in the States. Over 17 million jars are used yearly. During its introduction in New Brunswick last winter several thousand samples were given out by druggists to poor, responsible families, to be tested out. Alongside are reports from some of these people who have kindly consented that their experiences be published.

VICKS VAPORUB
OVER 17 MILLION JARS USED YEARLY

Some Reports from New Brunswick Mothers

MONCTON SENDS FOLLOWING

Mrs. Ambrose M. Fairweather, of 288 Cornhill St., Moncton, N. B., writes: "I have used Vicks VapoRub on my baby when he had a chest cold and found it very satisfactory. Vicks is something every mother should keep on hand all the time."

SACKVILLE "BEST EVER TRIED"

Mrs. Norman Ames of Bridge St., Sackville, N. B., writes: "I have used Vicks VapoRub for a cold and have found that it will break up a cold over night. Vicks is one of the best remedies I have ever used."

ST. JOHN "NEVER YET FAILED"

Mrs. Hiram C. Dorey, of 88 Dorey St., St. John, N. B., says: "My little boy used to cough terribly every night. One night I rubbed on some Vicks and he did not cough at all that night. Vicks has never yet failed."

If you prefer to test Vicks before purchasing, clip this coupon, mail it to the Vicks Chemical Co., 844 St. Paul St., W. Montreal, P. Q., and a free test size package will be sent you promptly.

Tea and Carnation

YOUR favorite cup of tea will be greatly improved when served with Carnation Milk. Use it diluted—one part Carnation, three parts water. Then you will always keep Carnation handy for "tea-time"

Carnation is just pure fresh milk, evaporated to double richness, kept safe by sterilization. Not only safe but convenient and economical. Order several tall (16 oz.) cans or a case of 48 cans from your grocer. Write for a free copy of Carnation Recipe Book.

How to use Carnation Milk in Tea and Coffee

In Tea: To retain the full, fine flavour of the tea, dilute Carnation Milk with three parts water.

In Coffee: To give your cup of coffee an appetizing flavor with a golden brown color, use Carnation undiluted as it comes from the can.

For more information, write for free copy of Carnation Recipe Book.

N. B. COMPENSATION BOARD DISCUSSION

The Conference at St. John's Concluded and New Up To Government:

St. John, N. B., Jan. 12.—The conference of the New Brunswick Workmen's Compensation Board and the Compensation Act, the three days' meetings and hearings in St. John's have been concluded at 5 o'clock yesterday afternoon in the New Brunswick Telephone Co. Ltd. assembly hall. At the conclusion of the hearing by Hon. Dr. E. J. Vaillet, the Premier, and Hon. J. P. Byrne, the Attorney General, the Premier thanked those who had laid their views before him, and said he hoped that out of the mass of facts, figures and statistics the Government would be able to reach a conclusion.

There were some things that had not been made clear and the Premier hoped that the representatives of Labor would be able to make the various points still hanging fire and let the Government know their views before the Legislature met. He also expressed the same desire regarding the employers. He was particularly eager to get the views of the Labor men as to the \$5,000 liability limit, which had been amended so that the amount was now unlimited. This amendment had been the cause of a 50 per cent. increase in compensation.

The Premier remarked that he knew that Labor and the employers would not agree and this was a case where the Government would be obliged to "take the bull by the horns" and decide one way or another. He would like the opinion of both sides. The Government had only one object in view, declared Hon. Dr. Vaillet, and that was to provide a workable act. The Government was pledged to compensate the injured and to protect the employer. He agreed to the principle. The Government would recognize, he added, the rights of the working men of the province.

The afternoon session was mainly occupied with the discussion of the report of F. W. Wagoner, a former station master, who represented all the employers in the province, except the Canadian Pacific Railway. The discussion was largely between Mr. Wagoner and E. Compton Chalk, expert of the firm of Price, Waterhouse & Co., accountants, who were engaged by the Government to make a report on the compensation system in New Brunswick.

The two experts disagreed on numerous points, most of which were discussed briefly at Thursday afternoon's hearing. The subjects of discussion included charges, capital costs, business tables and other technical points. Mr. Chalk and Mr. Wagoner both defended the Workmen's Compensation Board has made several mistakes, but defended the Board in general from the charges and criticisms made by Mr. Wagoner. Just before the session closed, the employers' side was presented.

SECTION HAND SAVES

London, Jan. 15.—The prompt action of a section hand prevented what might have been a terrible disaster to an express train near Weybridge. Just before the London to Bournemouth express was due, the man noticed a distinct crack in the rail over which the train was to pass.

There was no time to reach the signal, but he rushed between the rails towards the express. He placed detonators on the rail and the driver warned by the explosion, slowed up. The train just passed. Mr. Chalk said that it could be pulled up, but at such a slow speed that the rail stood the strain. Had the train retained its speed it is hardly possible that the train could have kept the rails.

Did they marry in haste and repent in leisure?

No, they married in haste and repent in leisure.

SO DIZZY SHE HAD TO GO TO BED

St. John's Women could hold nothing on stomach—nausea and ran down—Dreco restores her to good health.

The case of Mrs. E. Golding of 108 Prince Edward Street, is but typical of the wonderful benefit of Dreco to all sufferers from indigestion and stomach troubles. A young woman, who was rapidly being overcome by the severity of her sufferings until Dreco brought the comfort and happiness of health into her life again.

"I have only used one bottle of Dreco," says Mrs. Golding, "and I am even so much better. I was a martyr to stomach trouble and indigestion. I was so bad that everything I ate would cause me to vomit and make me so dizzy that I would have to go to bed. I was also very nervous and had head trouble, but all this has gone now. It is because of Dreco. I am building up my strength and feeling better than I have for some time."

There is nothing so simple as Dreco. It is a natural food and is easily absorbed. It is a natural food and is easily absorbed. It is a natural food and is easily absorbed.

CANADIAN HATCHERIES TAKE UP PROPAGATION OF BROOK TROUT

Maritime Province Streams Being Depleted of the Speckled Beauties Through Increased Popularity of the Automobile and the Improved Roads.

Ottawa, Jan. 10.—Improved roads and increased popularity of the automobile are resulting in a heavier toll of trout being taken from streams in the Maritime Provinces, according to officials of the Federal Fisheries Department.

To make good the anglers' inroads upon the fishing streams of New Brunswick, Nova Scotia and Prince Edward Island, the staff of the Midwestern, Windsor, Bedford and Mar-

garie hatcheries have taken up the propagation of speckled or brook trout upon a more extensive scale than formerly. Last season they prospectured a large part of Nova Scotia in search of places where trout eggs were obtainable in reasonable quantities. Owing to the extent of the district to be covered only a small area was examined and no large finds made. The work will be carried on this year.

At the Fisheries Convention, which has been in session here since Monday, concluded its work yesterday, when it adopted a number of resolutions dealing with the subjects which have been discussed.

Ways in which the Federal Government might assist the province in forest conservation were suggested. The general opinion was that the Dominion Government might develop the air service protective powers and could help the provinces to establish telephone lines, trails and lookout towers in forest areas. The importance of the air had an important effect on the fire hazard, it was felt that the Federal meteorological bureau could furnish valuable information in this connection. Campaigns to educate people along lines of forest protection were urged by the conference, which suggested the literature sent out for this purpose by the provinces might be carried free through the mails.

Its a poor rule that won't work both ways, you know."

W. C. T. U.

PROHIBITION ADVANCE
United States is bone-dry in all States and Territories, the Philippines excepted.

Canada has six Provinces dry, as well as 85 per cent. of the other three.

Newfoundland and Labrador are under bone-dry Prohibition.

Mexico has four States—bone-dry and a fifth, some in support of American Prohibition.

Pacific Islands of Papua and Samoa have Prohibition.

New Zealand has twelve large districts under Prohibition, and the Maori "King's Country."

Australia claims several dry areas in all States.

Greenland is under bone-dry Prohibition.

Finland maintains Prohibition against determined opposition of wine-producing nations.

Iceland under Prohibition, with sole exception of wines.

Faroe Islands and area covered by North Sea Fisheries under Prohibition.

Great Britain has Prohibition fifteen hours a day in London, and sixteen hours a day in the country; and prohibition for all young people under eighteen. Three thousand dry parties in England; 845 dry areas and Total Prohibition on Sunday in Scotland; Total Prohibition on Sunday and many dry areas in Ireland and Wales—Intercolonial Record.

TO BRING SETTLERS FROM THE U. S.

L. B. Boyd Made C. N. R. Superintendent of Lands and Colonization

Montreal, Jan. 16.—The appointment of Mr. L. B. Boyd, formerly of the Soldiers' Settlement Board of Canada, as Superintendent of Land and Colonization in the United States is announced by Mr. W. D. Robb, vice-president, in charge of Lands, Colonization and Development of the Canadian National Railways. The appointment of Mr. Boyd follows closely the announcement of the principles of policy to be adhered to by the National System in the field of immigration and colonization during the year, and is made for the purpose of introducing more direct and aggressive methods in this important work in the republic. Hitherto the Canadian National Railways have maintained an office in Chicago for the colonization of farm lands in Canada. This office is abolished, and a new one opened at St. Paul, which is closed to and in more direct connection with those sections of the United States from which prospective settlers are to be expected generally.

NORWAY IS TO WIPE OUT PROHIBITION

King's Speech Announces Bill Making Free Sale of Alcoholic Liquors.

Christiania, Jan. 15.—In the throne speech at the opening of the Storting on Saturday the ministry announced a bill abolishing what remains of the prohibition law. By the measure there will be free sale of alcoholic liquors, the revenue from which will be used to meet the deficit in last year's budget.

Its a poor rule that won't work both ways, you know."

W. C. T. U.

PROHIBITION ADVANCE
United States is bone-dry in all States and Territories, the Philippines excepted.

Canada has six Provinces dry, as well as 85 per cent. of the other three.

Newfoundland and Labrador are under bone-dry Prohibition.

Mexico has four States—bone-dry and a fifth, some in support of American Prohibition.

Pacific Islands of Papua and Samoa have Prohibition.

New Zealand has twelve large districts under Prohibition, and the Maori "King's Country."

Australia claims several dry areas in all States.

Greenland is under bone-dry Prohibition.

Finland maintains Prohibition against determined opposition of wine-producing nations.

Iceland under Prohibition, with sole exception of wines.

Faroe Islands and area covered by North Sea Fisheries under Prohibition.

Great Britain has Prohibition fifteen hours a day in London, and sixteen hours a day in the country; and prohibition for all young people under eighteen. Three thousand dry parties in England; 845 dry areas and Total Prohibition on Sunday in Scotland; Total Prohibition on Sunday and many dry areas in Ireland and Wales—Intercolonial Record.

GOBBLER SHOCKED
HUMANE SPINSTERS

Reverted From Christianity When
Flocking Operation Nearly
Finished

Pittsburg, January 17.—Tender-hearted and humane spinners, who for the last few days have been flocking the New Year festive board, Miss Sarah Hamlin and Miss Catherine Manning, spinners, residing in the east end, decided that the business end of an ox or clover was too cruel an instrument to use on their turkey, so they decided to eat his life with a pillow.

Undoubtedly the big Tom was willing to go to his end, following the line of the least resistance, so he calmly sat under the pillow and let the chloroform on a rag was applied to his mouth and nostrils.

So far, all went well. The gobbler then rolled over, and lay quiet. In 20 minutes the women pronounced life extinct and began dry plucking their bird.

But the trouble was brewing and it came with a flood, when the Tom, nearly dead of feathers, flapped wildly and let out a high sounding falsetto cackle.

Humane Agent L. W. Ahn, who learned all the details later, declared that in his wildest days, that gobbler never ran faster, flew higher or dodged quicker than he did in the home of the two spinners. In fact they could not keep up with him and finally he rushed down the street to the nearest butcher shop and summoned help.

There is not much more to say except that the butcher, after dispatching the Tom, admirably said: "That was the fastest turkey I ever chased, a fact attested by the condition of his feathers, furniture and other things over which the near naked turkey and his pursuers had fed."

A BATTLE OF GIANTS
(Toronto Globe)

Technicians and mechanics in the United States are talking of the contest between the steam locomotive and the electric locomotive at the Erie Works of the American General Electric Company the other day. It is described as a battle of giants, each being the mightiest of its kind.

The electric monster was one of ten 2,700-horsepower engines, being built for the Mexican Railway, and the steam rival was one of the most powerful Mikado-type freight locomotives of the New York Central.

A four mile track was laid and the two behemoths were coupled together to lead a power race. The test was repeated several times with the same result. Another type of electric locomotive won the speed demonstration, with a record of 106 miles an hour.

The electric locomotive had already been proved, especially in the mountainous sections of the United States, where it carries loads of water power is not too distant. The motive power of the future where cost of making the change is the only obstacle in a large part of this continent. Few railways are in a condition to incur enormous additional capital expenditures. The steam engine is likely to survive for many years for that reason and for many years more in territory where water power is limited. But time is on the side of electricity and every increase in the price of coal brings the revolution nearer. In fact the revolution has already begun.

MINNESOTA BANKERS AND BUSINESS MEN are paying a striking tribute to law and justice in Canada. They are sending the Canadian officers who tracked down and captured two desperate criminals, escaped convicts from Kingston penitentiary, will be a significant recognition of the efficiency of Canada's administration of justice.

It is not a new thing, this American admiration for Canada's excellent record in this respect, remarks the Winnipeg Tribune. For many years Americans have been noting, sometimes in amazement, the fact that the United States in criminal statistics. Thousands of articles on the subject have appeared in the American press. Of late the admiration has been growing, because of the failure of their own law authorities to cope with parole breakers of crime.

CURE FOUND FOR
DREADED LEPROSY

So Says the Superintendent of
Institution at Tracadie,
N. B.

Ottawa, Jan. 17.—In a report to the federal department of health, Dr. J. A. Langie, superintendent of the Leprosy Institution at Tracadie, N. B., expresses the conviction that the causal agent of leprosy is a bacterium, and that the treatment developed by modern medical science is a cure for the dread malady.

Canada has two leprosy stations, one at Tracadie, N. B., and the other at D'Arcy Island, B. C. The medical officer at D'Arcy Island reports steady improvement in the condition of the five patients under his care; where the oil treatment is also employed. He acknowledges the courtesy of American health officers in Honolulu, who furnish the preparation free of charge. The five patients at D'Arcy Island are Chinese, and in addition, a Russian afflicted with the disease is receiving treatment at the William Head quarantine station.

At the close of the fiscal year eleven patients were under care at Tracadie, six men and five women. One new case, a Chinese, whose trouble was diagnosed in a Montreal hospital, was admitted during the year. Seven of the patients are French-Canadian natives of Tracadie and surrounding country, one is a Chinese, one an Indian, one of French and Scotch descent and one a Chinese. No deaths occurred at the station during the year.

HEALTH RECORDS
SHOW IMPROVEMENT

Every Birth Should be Recorded
in Fairness to Child—
Increase Shown

Few things are of more importance in the life of a child than the registration of its birth with the government authorities. The Department of Health has this work in charge and last year succeeded in registering the births of over 11,000 children born in New Brunswick.

This was the largest number of births registered in one year per head of population in the registration area in Canada.

The Department wishes to do as well this year and every year—that is, it is anxious that not a single birth occur without being duly registered.

There is an official called the sub-registrar who goes from house to house in each parish, town and city in New Brunswick. He will supply anyone who makes application to him with a blank certificate of registration and this certificate when filled in can be returned to him free of postage if marked "Vital Statistics" with the name and address of the registrar.

These certificates are most carefully filed with the Department and certified copies of them can be obtained at any time they may be required. A dozen other most useful purposes.

To know the birth-rate, moreover of any parish, town or province is one of the most important advantages possible in reducing the death rate and in controlling preventable sickness. G. G. M.

CONVICTIONS UNDER LIVE STOCK PRODUCTS ACT

"You will be fined \$5.00 and costs in each case or 10 days hard labour and if you come up here again for putting out bad eggs for sale you will not get any fine, you will go to jail for a long term." These were the words of a Cambridge magistrate last week in convicting 21 Moreau for offering eggs for sale that were unfit for food, and the offering for sale of eggs which were not marked, or improperly marked, according to the "Regulations Governing the Marking and Grading of Eggs."

A Dominion Egg Inspector before the court that this man had been warned seventeen times. On one occasion the Inspector found 5 dozen and 8 eggs offered for sale labelled "fresh-laid." These graded 2 dozen and 3 firsts, 2 dozen and 4 very poor seconds and 8 rots.

Similar charges were also made on the same day against Rodninsky & Co., and Vainberg & Co. In each instance there were several charges against the defendants, the magistrates inflicting fines of \$5.00 and costs on each charge.

The egg regulations under the "Live Stock and Live Stock Products Act 1923" have been effective since last July, and although many infractions of this law have been made unconsciously, or under misunderstanding of its meaning, it is now being made evident that the Dominion Department of Agriculture is not prepared to excuse violations indefinitely. All charges made by the Dominion Department of Agriculture.

A dual purpose animal the bull is one of the most valuable animals in the world. It is not only a source of food and clothing, but it is also a source of power. It is the only animal that can be used for both purposes. It is the only animal that can be used for both purposes.

The Peace River country demands equalized freight rates and direct communication with Vancouver. That is the country in which the people are not prepared to accept a monopoly and the problem is transportation. Mr. Lomer Gougeon says he has quite a number of people of both countries who would like to see a high tariff.

BUCKLEY'S

NEW LAMP BURNS
94 P. C. AIR

BEATS ELECTRIC OR GAS
A new oil lamp that gives an amazingly brilliant, soft, white light even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean safe. Burns 94 p. c. oil and 6 p. c. common kerosene (no oil air).

The inventor, J. M. Johnson, 264 Craig St. W., Montreal, is offering to send a lamp on 10 days' FREE trial or even to give one FREE to the first user in each locality who will help him introduce it. Write him today, for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

Nervous Feeling Due
to Gas on Stomach

Pressure of gas on heart and other organs often causes a restless, nervous feeling. Simple burping, bismuth, etc., as mixed in Adierka, expels gas and relieves pressure and nervousness almost INSTANTLY. Acts on BOTH upper and lower bowels. Laxative and purgative. Never thought was in your system which poisoned stomach, causing gas and nervousness. EXCELLENT to guard against appendicitis. A. McE. McDonald, Druggist.

Well Equipped
Nurse was bringing Little Betty
home from a party and took her hand
to help her up a high curbside.

"Good gracious, my dear," she cried, "How sticky your hands are!"
"Do you mean me?" replied Betty solemnly. "If you had two meringues and a chocolate éclair in your muff."

WEAK, RUN DOWN
AND AILING

Lydia E. Pinkham's Vegetable Compound Brought Relief When
Other Medicines Failed

Fort Mann, B. C.—"I took Lydia E. Pinkham's Vegetable Compound because I was tired and run-down. I had headaches and no appetite and was troubled for two years with sleeplessness. I tried many medicines, but nothing did me any real good. While I was living in Washington I was recommended by a stranger to take Lydia E. Pinkham's Vegetable Compound. I am stronger and feel fine since then and am able to do my housework. I am willing to tell you these facts as a testimonial."

Mrs. J. C. GREAVES, Fort Mann, B. C.

Now Claire Scott holds the spotlight as New York's prettiest girl. She won a recent beauty contest and as a reward will be featured in a new movie. These beauty contests certainly seek out pretty faces, don't they?

A Polyglot Porter

Investigation revealed that the hustler had a staff of baggage handlers, a veritable Mezzofanti, a student who for sheer love of the language picks up languages in the easy manner he does milneas. He is known about the station as Number Eighteen, though this has no reference to his linguistic accomplishments. His name is John Cox and his country of origin is British Guiana, though he does milneas. He is known about the station as Number Eighteen, though this has no reference to his linguistic accomplishments. His name is John Cox and his country of origin is British Guiana, though he does milneas.

SOCIAL & PERSONAL

Mr. W. S. Richards was in Bathurst on Tuesday.

Mr. A. S. Arsenault of Upper Charlo was a visitor in town on Monday.

Mrs. Russell Weir has returned to her home in Oshawa, Ont., after visiting friends in town.

Mr. Ted Richards has returned to Bathurst to continue his studies at Rothesay Collegiate.

Mr. Neil Richards has returned to Rothesay to resume his studies at Rothesay Collegiate.

Miss Gertrude Titus left on Sunday for Mount Allison Ladies' College to resume her studies.

Miss Edith Wran left yesterday for Rothesay to continue her studies at Netterwood.

Hon. H. C. LaBelle of Dalhousie left on Wednesday for St. John to attend a meeting of Tourist Association.

Miss George McDonald and her guest Miss Billings (Winnipeg) left on Saturday for New York to resume their training at St. John's Hospital.

The many friends of Mr. Harold Millican who has been ill with pleurisy for the past few weeks will be glad to know that he is much improved.

Miss Gertrude Stickney, who has been spending the holidays with her parents Mr. and Mrs. J. M. Stickney of St. Andrews has returned to Campbellton.

Miss Robertine G. MacIntyre who was spending the holidays with her parents Mr. and Mrs. Henry MacIntyre returned to Montreal on Tuesday.

Wilfred J. MacIntyre and Charlie MacIntyre left for Detroit on Tuesday's limited after spending the holidays with their parents Mr. and Mrs. Henry MacIntyre.

Mr. J. J. MacDonald who has been a member of the J. & D. A. Harquail Co.'s office staff for the past five years has severed his connections with the firm and left Tuesday evening for his home in St. Mary's, Ontario.

Mrs. David Harris who has been a patient at the Soldiers Memorial Hospital for the past seven weeks has recovered sufficiently to leave. She will be the guest of friends in town before returning to her home in Flatland.

Messrs. Arnold Jardine, Charlie LeBlanc, Horace Jardine, John Dickie, Jack Howard, John Alexander, George Dewar, Fred Harding and Gordon Anstee were in Bathurst on Friday attending the Intermediate Hockey game between Campbellton and Bathurst.

Mrs. Ray Farrer very pleasantly entertained a number of friends last Thursday evening in honor of her niece Miss Sylvia Dow who has been visiting her for the past two weeks. A very dainty lunch was served. Misses Alice Broderick and Isabelle Farrer assisted in serving. Mrs. Isaac Farrer poured the tea. Those present were Mrs. Isaac Farrer, Mrs. Winston Ferguson, Mrs. John MacDonald, Misses Sylvia Dow, Emily Farrer, Isabelle Farrer, Rose Farrer, Elva Ferguson, Margaret Broderick, Isabelle Broderick and Alice Broderick. Messrs. Ray Farrer, William Robinson, Herbert Meyer and Howard Mann.

Many Campbellton friends will be interested to know of the wedding of Edith Temple Allen, daughter of the late Fred S. Hilyard and Mrs. Bertha Hilyard, who resides in Halifax, but who was formerly a resident of Fredericton, where her late husband was postmaster. Mrs. Allen was married to Mr. J. W. Gillin on Dec. 15 in Fredericton, where she met him while travelling for a large publishing house. Mrs. Gillin was one of the most popular girls in fashionable circles in Fredericton and St. John and Campbellton where she lived for several years. Her uncle Mr. Edward Hilyard and Mr. Herbert Hilyard. She is a granddaughter of the late Senator Thomas Temple of Nova Scotia. Mrs. Gillin will receive many expressions of good wishes from her many friends here.

Mr. Herman Redstone is in town on a business trip.

Mrs. Jack Lawlor left on Wednesday for Boston.

Mr. George L. Kerr of Montreal was in town last week.

Miss Edna Farrar is visiting in Montreal and Ottawa.

Mrs. Milton Doherty of Bathurst was in town on Monday.

Miss Bertha Wyers R. N. of Wyers Brook, is visiting in town.

Mr. Harold Conrad of New Richmond is visiting in town.

Mrs. David Doherty of Charlottetown spent a few days in St. John.

Mr. Murdoch Forth of Robinsonville was in town on business.

The many friends of Mr. John Ferguson will regret to hear that he is ill at his home here.

Mrs. T. Gordon Williams and little son, Mr. F. D. Sheals.

Mr. Dawson MacKendrick of St. John is in town where he attended the funeral of the late Miss Lavina C. MacKendrick Wednesday morning.

Mr. Andrew Duncan, who has been visiting friends in Beaverbrook and Newcastle, returned to his home in Campbellton.

Mrs. Sylvia Dow has returned to town after spending a pleasant visit of two weeks with her aunt, Mrs. Ray Farrer of Kedgewick, N. B.

Mr. W. E. McCarty who has been the guest for the past three weeks of his son Mr. F. J. McCarty and Mrs. McCarty has returned to his home in St. Stephen.

Mrs. B. A. Weatherby was hostess at a bridge of two tables on Thursday afternoon last. The guests were: Mrs. Harding, Mrs. Sheppard, Mrs. Myles, Mrs. Evans, Mrs. Dinwiddie, Mrs. McNutt, Mrs. Davidson, and Mrs. Stuart.

Miss Mary Price entertained at a bridge of three tables on Wednesday last week. The guests were Misses Jessie Ferguson, Maurice Cook, Beatrice Acton, Winnie Delaney, Lillian Hamilton, Vera McLeod, Blanche Crockett, Lydia Matthews, Helen Crockett, Mrs. F. M. Ward, and Mrs. Fred Thomas.

Mrs. H. A. Carr was hostess at a bridge of two tables on Thursday last in honor of Misses George McDonald and Frances Billings. The prize was won by Mrs. E. P. Mowat. The guests were Misses George McDonald, Frances Billings (Winnipeg), Mrs. Thompson, Gertrude Thompson, Edith Lunan, Mrs. J. Clifford McDonald, Mrs. E. P. Mowat, Mrs. J. Wesley McDonald.

Misses Marie and Gertrude Thompson were hostesses at a bridge of three tables on Wednesday afternoon last. The prizes were won by Mrs. J. Wesley McDonald, 1st, and Miss Gertrude Thompson, 2nd. The guests were Mrs. E. P. Mowat, Mrs. J. Clifford McDonald, Mrs. W. G. Mott, Misses George McDonald, Ada Wyers, Frances Billings, Isabel Wran, Roberta Titus, Marion Maloney, Edith Lunan, Harriet McDonald, Mona McLennan, and Jessie McIntosh.

The nurses-in-training of the Soldiers Memorial Hospital entered a bridge at the tea hour on Saturday at the home of Mrs. Wm. R. Millican. Miss Mary P. Bliss presided over the pretty appointed tea table, which was centered with pink carnations and smilax. Silver candlesticks with pink candles were effectively placed among the china and silver. Daffodils and smilax artistically arranged were found in the drawing-room and reception hall. Miss Vivian Graves ushered the guests to the dining-room and the student nurses assisted in serving. The sum of \$40.00 was realized for the purpose of furnishing chairs for the class room of the S. M. H.

He—“Aw, come on out for a ride tonight, I'm harmless.”

The Perfect Lady—“Say, who wants to go out for a ride with a guy that's harmless?”

STRENGTH OF THREE CHURCHES THAT PROPOSE TO FORM UNION

In a comparative statement, entitled “The Strength of the Three United Churches,” issued by Rev. Dr. L. Pidgeon, convenor of the Presbyterian Union Committee, the relative strength of the three churches which are to form the United Church of Canada is tabulated as follows:

Population, Dominion census, 1921	Methodist	Presbyterian	United
Number of members	127,363	107,354	234,717
Total Sunday School force	11,123	10,750	21,873
Givings last year to all purposes	\$129,821	\$9,205,276	\$9,335,097
Ministers stipends raised by circuits or congregations, exclusive of parsonage or manse	113,600	2,820,283	2,933,883
Women's Missionary Society revenues	2,185,000	57,067,429	59,252,429
Real property values	2,725,718	4,077,461	6,803,179
College endowments	121,045	2,919,427	3,040,472
Pension funds	121,115	2,774,477	2,895,592
Mission reserve and trust funds, including W. & F.	261,738	675,456	937,194

It will be seen from these figures, says the statement, that, while the Presbyterian population of Canada exceeds that of the Methodist by 250,078, the membership of the Methodist Church is 37,325 in excess of the membership of the Presbyterian Church. A similar excess is shown in the figures as to Sunday schools, the Methodist Church as compared with the Presbyterian Church.

In property values, the Methodist Church owns over seventeen million dollars' worth of real property more than the Presbyterian Church, while the Presbyterian debt on all real property is \$219,722 in excess of the

WEDDINGS

HEGGART-DEMPSEY
St. Patrick's church, Jacques River was the scene of an interesting event on December 31, when Miss Henrietta Dempsey was united in the holy bonds of matrimony to James W. Heggart of Whitney, Ont. The bride looked charming in a tailored suit of navy port with grey squirrel choker and grey silk velvet hat with tangerine plume.

The marriage ceremony was performed by Rev. Fr. John R. O'Gorman. Mrs. Bernard Young, sister of the bride and Bernard Young acted as witnesses.

The groom's gift to the bride was a chest of “Adam” Community Plate Silver, to Mrs. Young an onyx and pearl ring and Mr. Young, a Trebor pipe.

After a tour to Port Arthur, Fort William and Winnipeg they will reside in Cobalt. Mrs. Heggart was one of New Brunswick's successful teachers having taught in Jacques River school for a number of years and also in Western Canada.

She will be greatly missed from the teaching profession.

OBITUARY

John Ryan
The death occurred on January 1st of John Ryan an old and respected resident of this town. Deceased had been ailing for a number of years and bore his sufferings with great patience. He was born in 1852 and lived all his life in Campbellton. Two sisters, Mrs. Jane Hayes of St. John and Mrs. John Couling of Pokeshaue survive him. The funeral took place Thursday, Jan. 3rd. Requiem High Mass was celebrated. Rev. Father Berube officiating. The pallbearers were William Fraser, Alexander Pinette, Orville Gilker, K. Cool, John Kean and David Roy.

Grand Cascapedia

We are now enjoying some real winter weather and having plenty snow.

Quite a number of men came down from the lumber woods, during the holiday season. Amongst them being Lloyd Campbell, Marcell Harrison, Ray Willis, Benford Harrison, Ellis Robinson, R. W. Dickie, LeCouffe, L. Wing, H. J. Kent, Payne.

After the game a very enjoyable dance was held at Gatin's.

Black Point

The Xmas holidays passed very quietly, the only excitement being a few dances and parties.

A very enjoyable time was held at Mr. Nat. McMillan's homestead when a number of the young people gathered together. Dancing was freely indulged in, until the early hours of the morning.

Miss Roberts has taken up her duties as school teacher.

A number of young people gathered at the home of Alex H. Dickie to see the old year out. A very pleasant time was spent in dancing and other amusements.

Mr. E. J. McMillan has returned from Bathurst, where he has been engaged with the Bathurst Lumber Co.

Miss Henrietta Potter has returned to Bathurst after spending her holidays at her home in Black Point.

A dance was held at the home of Mrs. E. MacMillan recently. Among the guests present were the Misses Margaret and Isabelle MacMillan, Marion and Rita Dickie, Rita MacMillan, Alma Dickie, Messrs. William Anderson, Howard Laughlin, Alex H. Dickie, John and Robert Beatty. Mr. Anderson very kindly furnished the music on a mouth organ.

Mr. and Mrs. Robert Dutch spent New Years with friends in Black Point.

STILLS EXPLODE AND SIX MEN KILLED
Fort Arthur, Texas, Jan. 16.—An explosion of six stills and five men were killed in an explosion of high pressure stills at the Texas Camp Oil Refinery here yesterday, two men are missing, and are believed to have lost their lives, and 32 were injured slightly in the explosion, which caused an estimated damage of between \$50,000 and \$100,000.

Still No. 25 exploded while a crew of men were working on it, according to the official report. The dead and injured were in the refinery, and Fort Arthur, Texas. The 22 slightly wounded were removed to their homes.

BATHURST TRIMS CAMPBELLTON 3-1

A fast and exciting game of hockey was staged in the Bathurst Arena last Friday night when the Campbellton intermediates faced off with the Bathurst team from the “Paper Town”. During the first period the play was fast and furious, both teams going at a fast clip. Individual rushes, excellent stick-handling and close defense were the features of both teams were features of the initial period.

The Bathurst goal tender Lavigne was called upon to make some brilliant stops but cleared his net with a professional air. George Dewar did some effective back chiding in this period. Near the middle of the period Bathurst scored on a pretty rush defence. Both teams were tired out at the end of the period.

Second Period
In this period Bathurst made good use of numerous spurs and kept the speed of their forward line up to scratch. Jack Howard made himself known in the period of his forward work and stick handling but was too light to withstand the weight of the Bathurst defence. De Wolfe scored for the home team in the closing minutes of the middle period.

Final Period
The Campbellton sextette worked hard to recover their lost ground but Lavigne was too much for them. LeBlanc was “on” in good style this period and it was because of his keen eye and snappy work that Campbellton was saved from shame.

Some early H. J. Jardine pulled off a some nice combination but it was broken up in “No Man's Land”. However, about the middle of the period Harding made a bold and daring rush up the ice, skillfully eluding his opponents and passing to Dewar, thus aided in scoring the only goal for Campbellton.

But do the unprecedented gains in rebound off LeBlanc's pads and no further scoring was accomplished.

LINE UP
Bathurst: Lavigne, Goal, LeBlanc, Defence, A. Jardine, DeWolfe, Centre, E. Jardine, Hinton, R. Wing, Dickie, LeCouffe, L. Wing, H. J. Kent, Spare, Harding, Paynes.

After the game a very enjoyable dance was held at Gatin's.

Perkins and Jessup had been having heated words as to which was the best man. The outcome was an agreement to fight a duel after the old time style. According to the rules, they were both to be put in a dark room, each with a revolver in his hand. The first one to find the other was to fire once. After that no more shots were to be fired. About three seconds after the lights were out was enough for Perkins. Thinking to end the agony, he crept into the fire-place and fired up the chimney. Jessup fell dead at his feet.

PERSONAL
Mr. Weston Robertson of New Richmond is in town this week.

The many friends of Miss Mary Fallow of New Richmond will be glad to learn that she is rapidly improving after her recent operation for appendicitis at the S. M. H.

CANON CLOCKMAKER
Forty Given to Churches in His Diocese.

London.—The hobby of Canon Sutton, rector of Brant Broughton, Lincolnshire, is clock-making and clock-collecting, and within a comparatively short time he has presented more than sixty clocks to churches in various parts of the diocese of Lincoln.

Canon Sutton has the assistance of a clever local blacksmith in making the clocks.

His latest gift is that of a striking clock for the church tower at North Overby, a neighborhood in which there has hitherto been no public clock.

A Scot woman was sentenced to six months in prison for stealing a car and who was found of the fact that he was directly descended from the chief of the clan, was having a dispute over the fact he owed a last driver.

The man with the metro talked loud and harshly, and it angered the Highlanders.

“Do you know who I am?” he demanded, proudly drawing himself up to his full height. “I’m a Macdonald.”

The taxi driver smiled.

“I don’t care if you’re an umbrella,” he said, “I’ve got a right.”

PROGRESS OF THE CHURCH
Are churches meeting the growing need for spiritual uplift? During the past year, according to information from an authentic source, American churches made the maximum gain in membership of their entire history—over a million members.

Thirty million copies of the Scriptures were circulated throughout the world in 1922 by Bible societies and the sales of commercial publishing houses. The Bible is today the best seller in the world, and it is offered at a lower price than any other book of its length.

These are happy facts to record. But do the unprecedented gains in membership mean that Christian churches mean what they should? Is this apparent advancement really adequate to the teaching of the gospel and adherence to the principles of Christian living or is union with the church, merely being regarded as a natural step in social progress and the trademark of respectability. Viewing the matter from a general viewpoint it is difficult to weigh the actual import of the apparent spread of Christianity especially when moral conditions the world over are considered. What ever the answers to these questions may be however, the age demands unflinching courage on the part of religious leaders. There is a great work and with untiring effort and indomitable faith in the ultimate good of things the church will eventually triumph even though her progress may not be as rapid as it sometimes appears to be.

TEARS NOT GOVERNED BY REASON
Mrs. A. usually attended the better class of moving-picture theatres but near Christmas in order to save as much as possible for other purposes, she went to one of the cheapest places, her daughter reluctantly accompanying her. The daughter was bored with the sentimental film but her mother did not hesitate to sob in sympathy with the heroine's woes as pictured upon the screen.

“Mother, I wouldn't cry here, while the daughter significantly said, “I can't cry very much.”

Very Talitha
Mrs. P. writes of her colored laundry woman saying to her, “My sister and me, ma'am, we ain't no different from you white folks.”

“You ain't no different from us white folks,” she said, “I'm a white man.”

“You ain't no different from us white folks,” she said, “I'm a white man.”

“You ain't no different from us white folks,” she said, “I'm a white man.”
