See Display of Fine Lace Curtains **Richmond Street Window**

Note the Price Tickets---\$4.50 to \$20 Pair

Samples of some of our Fine Lace Curtains are being displayed for a few days in south Richmond street window. The curtain trade is much bigger this fall than for some seasons, owing somewhat to the extreme heat and dust of the past summer, as we are told by many who did not anticipate any wants until house-cleaning commenced, when they found that the hot sun and dust had played havoc with the lace curtains.

This showing is but a few designs of our great range of hand-made Curtains which are bought direct from the makers and submitted to you at the lower prices. These designs have been personally and carefully selected to secure the best effects at the different prices, which makes your selection easy.

Irish Point, Brussels Net, Real Arabian, Battenburg, Marie Antionette, Fine Duchess, Venice Point, in Maco, two-tone, white, ivory and Arabian, prices ranging from, per pair\$3.00 up to \$20.00

NOTE-We would draw your attention particularly to our values at \$4.50 and \$5.00, also the finer makes which have all the artistic touches of handsome and stylish designing, in all the different makes, at, per pair \$6.50 to \$7.50

Special Arabian Curtains, \$4.00 Pair

These are 50-inch by 31/2-yards long, made of serviceable net with lace edge, artistic and serviceable, hand-made goods direct from France. Were you to buy the net and lace edging for making these styles would cost you at least \$5 a pair, yet we give you your choice of this handsome collection, 50 inches wide by 31/2 yards long, at, per pair \$4.00

BATTENBURG CURTAINS-Special values at \$3.50, \$4.50, \$5, \$5.50, \$6, \$7.50, up to \$24.00 pair. SECOND FLOOR—TAKE ELEVATOR.

SPECIMEN BRICKS.

Speaking of scandal, let us look at a tew specimen bricks.

Several pages of the Opposition handbook are devoted to the Moncton land deal. AN EMPTY MANIFESTO.

After reading Mr. Borden's eleventhhour manifesto, one is moved to inquire why he put his name to such meaningless document. It contains nothing that he has not said a hundred times in his stumping tour. It is marked by the same vagueness of language and absence of definite ideas He argues for better facilities and more favorable rates for transportation: for "more comforts and conveniences of modern civilization," to keep young men on the farm; for free rural mail delivery; cheaper and wider honest administration of the public revenue reform of the civil service: stringent election laws, and thorough enforcement therof: thorough contro of public utilities; exclusion of undesirables from the country: a fiscal policy that will develop our natural national waterways and ports; the promotion of preferential trade within the empire, and the unimpaired maintenance of provincial rights. With all of these the Liberals are in accord. Most of them have been realized through the efforts of the Liberal party. The leader of the Opposition

"Says an undisputed thing In such a solemn way." What does Mr. Borden purpose doing that has not already been done, or is not being done, by the Government? His talk of "restitution to the people of their pillaged public domain" is election clap-trap. Some of his prominent supporters in the west are among those who have secured timber lands from the Government on precisely the same terms-open competition-as the men who are characterized as public robbers. Will he restore to the people the thousands of square miles given away by the old regime

Mr. Borden says nothing about the tariff that means anything; nothing about the public ownership plank of Welland canal; nothing that commits To sing and praise and laugh and laze him to a single new plan or project for the development of the country. Why this empty declaration should be put forward with all the solemnity of a manifesto

Both teams were at their best, and there was a great deal of good open play, with plenty of sidered as within sight at the Federal kicking. After about five minutes' play, Grafton worked the ball down to the Dundas 20-yard line by fine kicking, and a fine run by Sage, when Binkley muffed. On a scrimmage schoolboys have been eating Grafton punted, the wings followed up closely, and while the Dundas backs were watching for the ball to settle, Grafton broke through the line, grabbed the ball, and slid over for the second try. It was one of the headlest and prettiest plays of the day. Wright could not convert the goal.

After the kick-off, a series of punts followed, in which Harrison punted with a little better direction than Grafton. Dundas got the ball and G. Harrison punted to the dead-ball line,

London kicked, but Harrison turned, and Dewitt was downed on London's ten yards' line. Mallett took to 11 to 5. Both teams got tries in the the ball on the run and kicked. Yohn caught it, but in attempting to return the punt he fumbled, and Martin fell on the ball for a try. Dundas failed to convert.

Neither could score during the rest of the quarter, and the half ends with the score London 11, Dundas 6. Fast Football.

The third quarter was very close. Both teams played fast factball, and there was little to choose between them. Both tried the kicking game, and played straight football with few trick plays. Harrison added a point to the score when he punted to Grafton, and the latter was forced to rouge. The quarter ended with the score London 11, Dundas 7.

SENIOR ARGONAUTS WIN FROM MONTREAL

Toronto, Oct. 17.-The Argonauts proved too strong for the Montreal team this afternoon, and after a hard game came off victorious by 19 to 13. The Argonauts have improved greatly in the past week and deserved to win. There was no scoring in the first quarter. But in the second the Argo wings broke through, blocking a kick behind the Montreal line, scoring a touchdown. Montreal got the next touchdown, but before half time, the Toronto team had brought the score third quarter, and rouges in the last period brought the final score 19 to 13 in favor of the Argonauts.

Hon. George P. Graham Thanked by Railway Men

His Attitude Toward Railway Brotherhoods Contrasted With That of Hon. John Haggart.

The Conservative Railway Expert Says Employes of Intercolonia; Had No Right to Organize --- Mr. Graham Says Organization Is a Benefit to the System.

When Hon. Mr. Graham became Minister of Railways the railway men of Canada were liable to be prosecuted under the railway act for even a mistake they might make. They were also liable, like every other citizen, to prosecution under the criminal code for anylo ss of life or property caused by their neglect of duty, no matter what excuse they had.

Mr. J. Harvey Hall, Legislative representative of the Railway Brotherhoods, accompanied by Mr. Wm. J. Dowell, of Brockville, and others, waited on Mr. Graham and discussed the situation with him several times, with the result that the objectionable clause was repealed during last session and today the railway men of Canada are free from the injustice of a double liability to prosecution.

So thoroughly was Hon. Mr. Graham's action in this respect appreciated by the railway men of Canada, that the following letter was sent to the minister of railways by their representative, Mr. Hall:

Ottawa, Ont., July 17, 1908. Grand Union Hotel.

The Hon. Geo. P. Graham, Minister of Railways, Ottawa, My Dear Mr. Graham-I desire, before the close of the session, to thank you, on behalf of the railway men of Canada, for the deep interest that you have taken in considering the questions that have come before you in which they were interested.

I sincerely trust that the repeal of Section 415 of the railway act, will relieve them of what I believe, and am quite sure you felt yourself, was an injustice to them, and you can rest assured, so far as I am personally concerned, that I appreciate the interest that you have taken in this question, and I feel just as sure that the railway men of the country will feel satisfied that they have in you, as minister of railways, a gentleman who not only understands their needs but has the courage of his convictions to the extent that he will remedy any evils brought to his attention by their rep-

With best wishes, believe me, Very truly yours, (Signed)

J. HARVEY HALL, Legislative Representative.

Hon. John Haggart, ex-minister of railways, who would be made minister of railways if the Toriest got into power, has not only taken his position squarely against the eastern section of the National Transcontinental Railway, from Quebec to Moncton, but he has attacked the railway brotherhoods. Mr. Haggart occupies the seat in the House of Commons next to that of Mr. Borden and Mr. Foster, and when railway matters are before the House he is put up to speak for the Opposition. When Hon, George P. Graham, minister of railways, made his statement on the Intercolonial last session. Mr. Haggart made the reply for the Opposition, and so well did he represent the view of that side of the House that no other leader of the Opposition deemed it necessary to add a word. Mr. Graham had paid tribute to the railway unions, and this is the Hansard report of Mr. Haggart's reply, which must be taken as setting forth the attitude of the present Opposition toward the brotherhood question:

Mr. Haggart-My honorable friend denied the charge that his department was subject to political influence. He denied that men were promoted and kept on owing to the recommendations of certain members of Parliament, political supporters of the Government. He said that the Minister of Railways had no political influence at all over his department in that respect, that all the influence was in the hands of the union, to which 65 per cent of the employees on the Intercolonial Railway belonged. He said that the promotions and salaries were dictated by the union. That was a most extraordinary statement. Just fancy the absolute control over the employees on the Intercolonial Railway being, not in the department at all, but in the hands is controlled by these very employees. If that the case, then the minister has no control over the expenditure of the running of the road. He cannot dismiss or promote a man except with the consent of the union. This is a most extraordinary position. WHY, A GOVERNMENT RAILWAY, UNDER THE CONTROL OF THE PEOPLE OF THIS COUNTRY, SHOULD NOT HAVE A UNION ON IT AT ALL. The employees on the Government Railway have Parliament to look to, if the minister does not do them justice. The absofute control over the Intercolinial Railway should be in the hands of the minister and his officers subject to the authority of Parliament. The retention of a man or his dismissal or promotion should be in the hands of the Government officers; and until it is, you cannot expect any different results than those you have at present.

This is what the chief railway critic of the Opposition, one of the big men of the Tory party, had to say. Contrast it with the generous and frank statement of the Minister of Railways, Hon. George P. Graham, in making his statement, said:

Mr. Graham-It may be said: But why do you employ men belonging to these unions? I have been approached on this matter by several men, who have said to me: You are allowing the Intercolonial to be run by unions. I say, no. This is the age of organization, and the employees of the Intercolonial Railway or of any other railway have as much right to form a combination for the protection of their own interest as has the Manufacturers' Association or any other organization. I have been asked why I allow the unions to control the Intercolonial Railway. The unions may make mistakes; they do; sometimes they are unreasonable, as well as trade unions. Sometimes they ask for things that I think they should not have, and they do not get it if I think they are unreasonable. But take them all in all, the labor organizations so far as the Intercolonial Railway is concerned have not been unreasonable. When I have met their officials or representatives In any capacity whatever, they have sat down and reasoned things out with me in a very intelligent manner, and up to date we have been able to come to conclusions which have been in the interest of the proper running of the road. I have come to the conclusion that the presence of labor organizations, such as I have mentioned, IS A BENEFIT TO THE MANAGEMENT OF THE ROAD RATHER THAN A DETRIMENT. I think this is an answer to some critics who have suggested that the Intercolonial, being a Government road, should not recognize labor unions. While it is a Government road it has to be run on these lines like any other road.

What do the railwaymen of Canada say to this? Do they want Haggart, who starved the service, is opposed to improvements of the road and ostile to the brotherhoods, or Graham, whose attitude is friendly to their interests, who stands for expansion and development, and who is a member of a Government which granted demands which Haggart denied?

Twelve Bohemians of Paris Spring New Sensation.

Paris, Oct. 18.—Twelve men, mostly carefully dressed in frock coats and fashionable clothing, entered a restaurant in the Rue Rambuteau last evening, and, reserving a private room, ordered a sumptuous repast, for which they insisted on paying in advance on condition that nobody should enter during the evening, including

CUROL HEALING IS WELL DONE!

The healing done by Curol is well done, for it positively will not heal until the wound is clean and free from impurities. Not so with salves containing Zinc. Mercury, Lead, etc. These poisonous salves may heal quickly, but do a great deal of damage by driving the impurities into the body, often causing very serious consequences. You should shun such and use only a salve free from these

In Curol we have the embodiment of the best healing properties known to the medical world. There is a total absence of rancid, fatty substances so often found in cheap ointments, and Curol does not cake, clog or become hard. It is immediately absorbed by the skin and thus penetrates to the seat of the disease. This fact alone makes Curol popular. It is pure, and we have no hesitation in saying the best 25-cent salve on the market.

Advertiser Correspondence

To the Editor of The Advertiser:

Dear Sir,-I would like to use your column to publicly express my thanks to the Phoentx Insurance Company, of Brooklyn, who, through their agents, Messrs. G. M. Gunn & Son, of this city, had a policy on my furniture only while contained in my house in Hale street, Pottersburg. A few days before the fire burnt up the Canadian Packing Company, I was appointed superintendent for the packing company with a residence in the factory, and I moved all my furniture into the factory, an entirely different location where the hazard was much greater, and the same was totally destroyed. gave no notice of such removal to the insurance company, and, therefore, had no legal claim on them, but they have generously paid me 50 per cent of my policy of \$500, amounting to \$250. Thanking you, I am, yours truly, THOMAS CHR. OLSEN,
