Beck's Ability Injured By Ruthless Autocracy-How \$11,000 of Public Money Went For Beck's Radial Propaganda—Disregard For the Law.

There is one unfortunate side to the character of Adam Beck which militates against the record of ability he has to his credit.

Adam Beck is an autocrat. He is an autocrat in that he has no regard for the rights of others, nor for the law of the province, when it crosses his plans.

#### THE CODE OF HONOR GOES. Parliament's code of honor under the Garrow resolution, un-

questioned for over 20 years, says he should not participate in a political campaign, because he is a public employee. Beck wants to be elected-the code of honor doesn't matter.

#### RIGHTNESS DOESN'T MATTER.

In 1919 Beck realized that Conservative party politics were hurting hydro and he quit the party with that as his reason. But now Beck wants to be elected—the Tory camp is his only chance—the rightness of it doesn't matter.

#### PUBLIC MONEY DOESN'T MATTER.

Parliament tells Beck he may spend the people's hydro money for certain things, and that he may not spend it for other things. Beck ignores parliament. Last year he spent \$11,000 of the public money on hydro propaganda in the political campaign, contrary to instructions.

Beck wanted to win-the rightness of it didn't matter.

#### A DANGEROUS PARTNER.

It is this characteristic—this ruthlessness—this disregard for the rights and interests of others, which makes Beck, in spite of his ability, a dangerous partner of a man like Howard Ferguson. Ferguson has the same trait of character-his timber performances prove it. And Ferguson is an unscrupulous politician. With Ferguson able to take advantage of Beck's ruthlessness, where is Ontario's non-partisan hydro heading for?

#### PUBLIC MONEY FOR PROPAGANDA.

There can be no mistake about Beck's ruthlessness and disregard in the spending of public money. IN THE CAMPAIGN OF 1922 FOR HYDRO RADIALS, BECK ORDERED THE SPENDING OF \$11,000 OF PUBLIC MONEY TO SPREAD PROPAGANDA IN THE HYDRO MUNICIPALITIES.

THIS IS A MATTER OF SWORN AND SOLEMN EVIDENCE TAKEN BY THE HYDRO ELECTRIC INQUIRY COMMISSION, AN IMPARTIAL JUDICIAL BODY, WHICH IS NOW SITTING IN PRIVATE ON ACCOUNT OF THE ELECTION CAMPAIGN.

The evidence of Beck's misuse of public funds was taken on Feb. 21, 1923, and on Feb. 27, 1923. This is the way it was reported in the Toronto Mail and Empire.

which must be regarded as the most honorable and most influential of Ontario's Conservative papers:

Under the heading "MONEY FREELY USED IN RADIAL CAMPAIGN—EVIDENCE AS TO ILLEGAL EXPENDITURES BY THE HYDRO COMMISSION-DIVERTED THE FUNDS," the Mail and Empire on Feb. 23 gave the following report

"Some rather sensational evidence was given before the Gregory Commission yesterday regarding expenditures made by the Provincial Hydro Commission during the recent municipal election campaigns in Toronto, Hamilton and other places. Admissions were made by Chief Engineer F. A. Gaby that \$11,000 had been spent for propaganda purposes for which no legal authority existed. Mr. Gaby. in defending these expenditures, stated that Sir Adam Beck had told him to go ahead, as he (Sir Adam) had received the assurances o the provincial government that an order-in-council would be passed authorizing such expenditures, but as a matter of fact the order was never passed, and further the government had expressed disapproval of the spending of moneys as proposed by Sir Adam Beck. It also came out in evidence that T. J. Hannigan of Guelph, secretary of the Municipal Hydro Radial Association, of which Mayor Maguire is president, received a salary of \$4,000 per annum to carry campaign work. It was admitted the legality of this paymen had been questioned."

Under the heading "DISPUTE AUTHORITY FOR HYDRO SPENDING-MATTER OF \$11,000 BEING PROBED BY GREGORY COMMISSION-USED IN CAMPAIGN," the Mail and Empire, on Feb. 28, gave this report:

"The Gregory Commission concerned itself yesterday with a matter of \$11,000 which had been spent by the hydro in connection with the radial campaign in Toronto and the Niagara peninsula, and there was some difficulty over the point as who authorized the expenditure. Sir Adam Beck said it was spent under an estimate which had been been presented to Uremier Drury, and he claimed that the deputy prime minister, Mr. Horace Wallis, had promised that this expenditure would be legalized by a special order-in-council. Mr. Wallis, upon being called, denied any such representation, while the premier and the government member on the hydro commission, Hon. D. Carmichael, disclaimed any understanding of this nature. Sir Adam also stated that the item had been initialed by Mayor Maguire in connection with the submission of bylaws in various municipalities, and he understood that Mayor Maguire and Col. John Currie, M.P.P., had seen the premier with regard to the matter. Some the \$11,000, it was brought out, had been spent on advertising in St. Catharines, while the bulk of it went for propaganda in one way or

Try One Firm. It was first deemed advisable by the city authorities to issue a blanket suit through the courts, but the city solicitor advised that it would be much more satisfactory and less expensive to test out the council's ac-tion with but one firm. In this way a precedent would be established, and more than likely, in the event of the courts sustaining Mayor Wenige and his associates, the other firms woul tender their taxes without further

Although the amoun this much was offered, the County of Middlesex having put up \$2,000 and the province the remaining thousand. The county's offer was of the province still stands, as far as

announced shortly after he and his brother had escaped from the Lon-don jail, where they were waiting to be tried on a charge of murder arising out of the attempted bank robbery at Melbourne. The escape took place in September, 1921, and the money was offered for the arrest or for information leading to the arrest of either of the men. Several weeks ago Sheriff Carter arrested a man on the charge of stealing an automobile and, after having taken his fingerprints and Bertillon measurements, it was found that the auto thief was none other than the much wanted and lost Sid Murrell. Since that discovery Mur-

rell has been kept under close guard

and is awaiting either extradition or deportation, applications having been

made to the American authorities for the return to Canada of the man, who will be tried for his life on the charge of murdering Russell Camp Latest reports from the States say that Murrell is trying to enlist the sympathy of American soldier organizations through his war career and the plea that the Canadian government is hounding him to jail and s responsible for his being in his present plight, through non-payment

of pension, insufficient hospital treat-ment and lack of recognition of the rights of the returned man. Would Not Bear Weight. Referring to this report, Mr. Elliott stated that he did not think that Murrell's war service would bear weight either one way or the other

AIRS TIMBER DEAL

Special to The Advertiser. Woodstock, June 20.-Hon. F. C. Biggs, minister of public works, in a vigorous two-hour speech, made a complete defence of the record of the Drury Government, and particularly of the highways policy and administration at the annual picnic of North Oxford U.F.O., held four miles north of Woodstock this afternoon. In addition to Mr. Biggs. John Lillico, D. M. Ross and Malcolm Mc-Vicar addressed the gathering.

Mr. Biggs dealt with many in portant matters under review in the present campaign. He commended the achievements of Hon. Manning Doherty, and reiterated the oft-repeated statement that this minister vas entitled to the major portion of the credit for removing the cattle em-bargo. The administration of the department of lands and forests, Shelvin-Clarke deal and the resultant law action in the courts were given a thorough airing, and the speaker strongly condemned the administra-tion of Hon. Howard Ferguson.

Attacks Backus Deal. The Backus deal Mr. Biggs characterized as the worst transacti put through in Ontario. He also dealt rith Mr. Ferguson's record in connec tion with the Kapuskasing colony for returned soldiers, which he classed as the worst kind of waste of the people's money

Turning to the roads department Mr. Biggs answered many of the questions which have been in the minds of the electors in this riding. He intimated that in making an 86-foot highway the department had been building for the future, and had also left room for the planting of shade trees along the entire 1,800 miles of highway. He analysed the cost of the roads and highways of the province and stated that more than road expenditures went back to the municipalities towards the county and township roads, and less than half was expended on the provincial high-

Explains Error.

The error made in sending out to the Oxford county council the figures for the county's share of the cost of the provincial highway was explained by the minister, who said the total given at first, \$95,000, represented the amount to be paid the ounty by the government subsidy on county road construction, while \$32,670 was the county's share of the highway which had to be paid to the province.

This statement brought loud an plause from the audience. Oxford county, said Mr. Biggs, had paid \$633,771 on county road work in the past three years, and the grants made to the county by the province for the same purposes amounted to \$599.399 twenty per cent on the provincial highways, and Mr. Biggs gave pledge that, if again returned power he would at once introduce a program of sports was carried out and music supplied by the Ingersoll

rvin S. Cobb Is The Advertiser's Latest Contributor -Premier Drury's Exclusive Interview.

Confessions are always interesting to read. From De Quincey's "Confessions of An Opium Eater" to Margot Asquith's confessions of political and social life in England, there have been any amount of self-revelatory opuses penned by men and women, famous and infamous.

"Stickfuls," a series of six articles starting in The Advertiser next week, are the confessions of a reporter. A reporter is usually regarded as a most obnoxious person. He's always "snooping" into other people's business. But, as most reporters know, the average broad-minded citizen is only too ready to have his business "snooped" into.

Irvin S. Cobb, who wrote "Stickfuls," proves this, and a great deal more. For the first time in Cobb's long journalistic career he lays bare the glamor, romance, rewards and disappointments of a newspaperman. The role of the omniscient scribe reveals the famous humorist at his best. Satire, narrative, wit and sound information are here admirably blended into a supremely interesting series of articles.

"Stickfuls" bring the public into close contact with newspaper work. Cobb tells how he got his first "story," how he rid himself of the numerous fallacies concerning newspapers which at present possess a large proportion of the public. Here he relates tales of the venturesome reporter, whose "beat" in the mystery of the night leads him frequently into webs of destiny. Here he tells of that little band of "night workers" who labor while others sleep, who delve into the gruesome channels of darkness, striving desperately, using every agency of wit and ingenuity to get the "story" that thousands of readers may know the news of the day over their breakfast tables the following morning.

Oh, Min! Have you been following adventures of the Gump family as depicted by the famous cartoonist, Sydney Smith, in The Advertiser every day? Gump doesn't know what he'll do with all that money he's receiving from an unknown source. And Barney Google, too, is waxing fat and corpulent on the earnings of Spark Plug. Only Mutt and Jeff seem to be well acquainted with old man Hard Luck. But whether they're in luck or out of it they're always on hand in The Advertiser every day to make its ubscribers chuckle.

Fatigued from .numerous political speeches of the past week, Premier Drury arrived in the city unexpectedly on Monday and evaded a wouldbe delegation who waited at the C. N. R. depot for his reception. The Advertiser discovered the premier in his room at a local hotel. To Dr. Stevenson he declared he would not be interviewed or photographed under any consideration. But Mr. Drury was finally persuaded when The Advertiser approached him. The result was an exclusive interview on the Ontario temperance act, and the giving of a statement on a question the public had long desired a definite pronouncement upon.

COMPETITION UNFAIR

Special to The Advertiser. Brockville, Ont., June 21 .- A resolution calling for the taking of immediate steps to curb smuggling from the United States into Canada along the boundary line, and with particular reference to the St. Lawrence River frontier, was adopted a the annual meeting of the Eastern Ontario and Ottawa section of the Retail Merchants Association held here yesterday. The resolution points out that smuggling, especially by women, has become general at all points of the boundary line, leading to a depreciation of legitimate rev enues to the Dominion government and unfair competition for retai merchants, and calls upon the On-tario provincial board to take steps to have a permanent woman custom officer stationed at Brockville and ..... 8 Buchanan .....15

The sending of a monster delega-ment with a view to having transient traders, hawkers and peddlers placed upon an equal taxation footing with permanent retail merchants is foreshawed in a recommendation passed to the provincial board by the section, which also placed itself on record as being in favor of the continuance of the manufacture and sale of oleomargarine in Canada. Henry Watters, Ottawa, was elected president, with the following. additional officers: First vice-presi-

dent, Alfred Goulet, Bourget; second vice-president, W. Y. Hill, Kingston; third vice-president, A. Sweet, Winchester; treasurer, T. W. Collins, Ottawa; secretary, J. C. Mrs. E. K. Swindall, a supporter of Richard Chapple. Liberal candidate for East Middlesex, addressed the workers at McCormick's factory durworkers at McCormick's factory during the lunch period today. The meeting was held on the factory lawn, and the speaker was given a splendid reception.

She was introduced by the Liberal candidate, Mr. Chapple, who stated that he was not only an east end Liberal; but also a neighbor of the McCormick employees his store being

Liberal; but also a neighbor of the McCormick employees, his store being near the factory, had given him a speaking acquaintance with over half the employees. He asked that they give particular attention to the points which his supporter, Mrs. Swindall would bring out in support of the Liberal platform.

Mrs. Swindall, in giving her address, confined her remarks to a scorching denunciation of the Drury expenditures, the waste and extravagance of the late government.

She asked the employees if they were going to stand by and see more of this waste and mal-administration or whether they would support Mr. Chapple and in this way bring about a cessation of the terrible orgy of rash expenditures.

WOULD CRACK AND BLEED

Eczema or Salt Rheum, as it is commonly called, is one of the most agonizing of skin diseases. The intense burning, itching and smarting especially at night or when exposed to heat, are almost unbearable and relief is gladly welcomed.

The pre-eminent success which

# TELLS DYSPEPTICS

Avoid Indigestion, Sour Acid Stomach,

Indigestion and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach. Chronic "acid stomach" is exceedingly dangerous and sufferers should do either one of two things. Either they can go on a limited and often disagree with them. that irritate the stomach and lead to excess acid secretion or they can eat as they please in reason and make it a practice to counteract the effect of the harmful acid and prevent the formation of gas, sourness or premature fermentation by the use of a little Bisurated Magnesia at their meals.

There is probably no better sefered.

the use of a little Bisurated Magnesis at their meals.

There is probably no better, safer or more reliable stomach antiacid than Bisurated Magnesia, and it is widely used for this purpose. It has no direct action on the stomach, and is not a digestent. But a teaspoonful of the powder or a couple of five grain tablets taken in a little water with the food will neutralize the excess acidity which may be present and prevent its further formation. This removes the whole cause of the trouble and the meal digests naturally and healthfully without need of pepsin pills or artificial digestents.

Get a few ounces of Bisurated Magnesia from any reliable druggist. Ask for either powder or tablets. It never comes as a liquid, milk or citrate, and in the bisurated form is not a laxative. Try this plan and eat what you want at your next meal and see if this isn't the best advice you ever had on "what to eat."—Advi.

Carroll was frankly puzzled. The case differed widely from any other with which he had ever come in contact. Usually, there was an array of persons upon whom suspicion could be justly thrown; a collection of suspects from whom the investigator could take his choice, or from whom he could extract facts which eventually might be used to corner the guilty person. In the present case, there was no one to whom he could turn an accusing finger.

It didn't take Peter but a moment or two to reach that 'hole under the big stump. Just outside it he stopped, and sat up to see what would happen. #### HOT FIGHT IN NORTH OXFORD. Special to The Advertiser by a Staff Reporter.

Woodstock, June 21.-The fight between G. F. Mahon, Liberal, and D. M. Ross, Conservative, in North Oxford is developing into one of the hottest seen in this riding in years. Mr. Mahon's candidature is fast gaining ground and optimism abounds at Liberal headquarters that he will be returned the victor by a

substantial majority.

Mr. Mahon is conducting an aggressive campaign in all parts of the north county. Last night he spoke at Lakeside and charged the Drury government on many counts, laying particular stress on administrative extravagance. He also took a fling at G. Howard Ferguson and the Con-

servative party. The Liberal candidate speaks a Tavistock this evening, and on Friday the people of Bright are expected to turn out en masse to hear the popular Woodstock barrister.

votes.
Mr. Hörton spoke at Dutton last night. W. Tolmie of Rodney and J. B. Davidson of St. Thomas also addressed the gathering, which was extremely attentive and at the end displayed unstinted enthusiasm.

The West Elgin Liberal leader pointed out the need for a sound ousiness administration in the province. He said the conservation of funds was a prime requisite if Ontario was to enjoy the prosperity her abundant resources entitle her to. Mr. Horton declared he had thor-oughly investigated the measures which led up to a removal of the British cattle embargo and charged Hon. Manning Doherty and the Drury government with imputing to themselves credit that did not belong to them. The federal government had acted upon the suggestion of the Hon. Mr. Marshall of Alberta, min-ister of agriculture, and it was through their combined efforts that the embargo had been removed. He could not agree with Doherty, therefore, when the latter attempted to lead the electors to believe he had been responsible for lifting the em-

Melbourne, June 21 .- The electors of Melbourne and surrounding dis-trict turned out 300 strong to hear Charles Macfie, Liberal candidate for West Middlesex, discuss provincia: issues here last night.

Mr. Macfie touched on the wild expenditures of the Drury government and flayed Hon, Frank Biggs and his henchmen for inefficient and unnecessarily extravagant highway building. He also took up the ques-tion of agricultural education. Mr Doherty, he said, claimed great credit for educating the farmers to new and better methods of conducting their farms. Upon investigation, Mr. Macfie declared, he discovered that agri-culture ministers of both Liberal and had been much more, active and effective in providing farmers with a systematic course of education.

THE RADIO DESK. "What is home without a radio?" might be asked in these days, when practically every dwelling flaunts an aerial wire overhead and a radio set To gather round the switchboard in the evening, when bedtime stories, concerts, lectures and enter-tainers of sorts fill the air, is the program in many thousands of homes, and father often goes on tinkering with the knobs long after the rest of the family is abed, for I believe that in many cases the fun of operating the radio receiving set is greater than listening to the attractions broadcasted on it.

"I wouldn't mind a bit," said one woman, "if the whole apparatus didn't look so unkempt and like a machine shop. It is really splendid for Tom to have it to experiment with, and I know he enjoys it hugely; but it takes up a whole corner of the living-room and looks like a junk heap. We have to have it here, of course, for the neighbors often run in and this is the only room large and pleasant enough to receive them in."
"Well, you'll have to get one of
these radio desks," said a friend from the city. "The radio control is all handled from a switchboard tucked away into a charming slant-top desk, which closes up when the radio is not which closes up when the tandsome in use and looks just like a handsome in use and looks just like a handsome piece of living-room furniture. manufacturers have even copied the designs of the old mahogany colonial

But that was not nain question at the moment. The of most importance was how more liquidation was to come as turday and Wednesday, how many stocks would have to be unloaded tect margin accounts badly cripby the slump, and how long it ld take for these offerings to be red by substantial buyers.

ording to the gossip of the street house which failed yesterday was ying a good many more stocks than vas credited with. Lamson Bros.—We look for trading markets now, but a good advance later in wheat.

Clement Curtis—Some local houses reported a better tone to their cables.
Harris Winthrop—Traders have become discouraged over the utterances of politicians in regard to the wheat situation.

Jones, Easton. McCallum—Despite the action of prices, we direct your attention to what promises a change in the underlying situation. In the first place, private and public cables note a less favorable outlook for the European crop, one of these cables saying:

"Situation is discouraging." In the second place, it is to be noted that the world's supplies of old wheat have been decreasing rapidly in the past six months, and are now only slightly larger than a year ago at this time.

New York Failures Have Cleared Sky of Menacing

Clouds. Reported for The Advertiser
by Johnston & Ward.

Montreal; June 21.—Consensus of opinion among the brokers is that the worst is over in the local market. Yesterday's shake-up has improved the technical position of the market and rendered most is the issues more appealing to the trading public. There is nothing fundamentally wrong in the situation. The failure of a number of New York houses is just as much a bullish factor as otherwise, because it clears the sky of a menacing cloud which has been overhanging the market for months. The industrial situation in Canada is in exceptionally good position, and the latest proof of it is shown in the publication of a special report by the Canadian Pulp and Paper Association, reporting the second largest export of newsprint in May.

Liquidation was still in evidence at the opening of the Montreal exchange, probably the result of calling of marsins, but as Wall Street-opened on the strong side and maintained firmness, the local market was not slow to follow suit, and all along the linet substantial recoveries were reported under the leadership of the pulp and paper group. Abitibi, from an opening of 61, sold up to 62½. Brompton from 35½ climbed to 36½, Laurentide improved from 55 to 96%, Price Bros. gained ¼ to 43½. Spanish River advanced 1 point to 90, while the preferred remained unchanged at 1944. All were active.

Public utilities also displayed activity and strength, with Bell Telephone at 124%, Brazilian 48, Detroit United up 1 point to 73, Montreal Power up 1 at 119. Shawinigan and Twin City remained unchanged at 117 and 73 respectively.

Dominion Textile featured its group with an advance of ¾ to 68½. Steel mained unchanged at 117 and 73 respectively.

Dominion Textile featured its group with an advance of % to 68%. Steel shares showed steadiness, with Steel of Canada at 70. British Empire second preferred at 22% common at 7%, and the first preferred at 66.

TORONTO STOCK EXCHANGE. TORONTO STOCK EXCHANGE.

Canadian Press Despatch.

Toronto, June 21. — Light trading marked this morning's session on the local stock exchange with prices showing but little change from yesterday. Brazilian and Toronto Rails were unchanged at 48 and 80, respectively. Twin City lost ¾ at 72¾, while Winnipeg Rails advanced ½ to 36. Steamship, common, which has not been traded in for some time, appeared this morning at 12½ for an odd lot. The last previous sale on the local exchange was at 17. The preferred was off 5% at 46%.

STANDARD MINING EXCHANGE. STANDARD MINING EXCHANGE.

Canadian Press Despatch.

Toronto. June 21.—A decline in the volume of transactions was evidenced at this morning's session of the Standard Mining Exchange, sales aggregating 78,661 shares. Atlas sold unchanged at 6½. Keora sold a fraction lower at 12¾. McIntyre, after opening 10 points lower, at 18,15, regained its loss at the noon close. Teck-Huphes lis loss at the noon close. Teck-Hughes opened unchanged at 138, and after suffering a 1 point decline, closed at 137. In the silvers, Beaver sold fractionally lower at 33%. There was no trading in the miscellaneous group.

Offerings Are Very Heavy and Cause Rapid Declines in Prices.

Strawberries were again the feature of a busy session at the local square offered for sale. From every section the yield this year is reported to be one of the largest on record. With a few showers to assist in ripening the fruit, succeeding markets will experience still more numerous offerings. Prices are settling to a great extent. SUGAR

New York, June 20.—The raw sugar market was steady and unchanged early today, at 5½c for Cubas, cost and freight, equal to 7.03c for centrifugal. There were sales of 27,000 bags of Cubas for June and July shipment to a local refiner.

Reports of a better demand for granulated and the steadiness of the spot market caused considerable covering in Taw sugar futures, and prices at midday showed advances of 14 to 47 points. There was a better inquiry for refined sugar, both in the way of withdrawls on old contracts and new business, prompted by the continued warm weather. Prices were unchanged, at \$9.25 to \$9.99 for fine granulated. Reower, and it was not long before the

well supplied with this much-desired fruit.

New beets were also on the square in large quantities, and were being sold at \$1 per dozen bunches. Homegrown tomatoes and cucumbers are popular at this time, the former ranging from 40c to 50c a pound, and the cucumbers at 10c to 15c.

Poatoes are slow of sale at \$1.25 to \$1.35 retail.

Owing to light receipts hay has met a slightly better demand this week. There were six loads on the square, and they were all sold before noon at \$10 to \$12.50 per ton. and they were all sold before noon at \$10 to \$12.50 per ton.

The arrival of several carloads of oats will no doubt lower the price of this grain. Three or four loads were sold at \$1.85 to \$1.92 per cwt., but it is predicted that this quotation will recede somewhat during the next few days.

Wheat is slow of sale, the latest transactions being made at \$1.20 per bushel. bushel. In the vegetable and garden plant section trade is fairly good, and each day brings additions from the new

Winnipeg, June 20.—In sympathy with the United States markets, the local grain market was under some considerable pressure today, and prices for both futures months dropped away, July closing with a net loss of 2c and October 2% of from yesterday's finish. Reports of increased sales at the seaboard for Canadian wheat and the firm tone of the cash market had a stimulating effect during the greater part of the session, but there was a good deal of spreading between here and Chicago, the difference between the two markets being from 8c to 9c, with the local market bearing the brunt of the selling. In the future coarse grains markets both oats and barley were steady, being only slightly affected by the decline in wheat, but the outcome of business massing was not large. The cash market was stronger today on a light volume of business, at premiums 1/3c better than yesterday. The bulk of today's trade was in the lands of exporters. All grades of cash cats were in good demand, but only small offerings came out. There was practically no demand for rye and bariey, while American crushers were in the market for any odd cars of flax offering.

# The Rights of Hydro

### **MUNICIPALITIES** ARE AT STAKE

Premier Drury has clearly stated that Hydro must become an appendage of the party in power. That is, it must come solely under control of the government and the "municipalities have nothing to do with the appointment of the commission," must have no representation whatever on the board.

The Toronto Star, under the same ownership as The London Advertiser, demands that Sir Adam Beck be removed from the chairmanship of Hydro because he has dared to take issue with the Drury Government and become a candidate in this election as a champion of the municipalities, one of the most important of which is London.

Yet on January 8, 1917, the Star in an editorial under the heading "Municipal Control," said:

> "Municipal control of power development at Niagara Falls was proposed by the Liberals in the Ontario Legislature. They moved an amendment to the bill for government control, the amendment providing that the municipalities now under agreements with the commission for the supply of power from the Niagara system, and such other municipalities as may hereafter become entitled to receive power from the said system, may acquire the ownership of the power development at Niagara authorized by the act upon terms and conditions similar to those upon which they are acquiring ownership of the transmission lines and distributing systems.

> "On New Year's Day nearly all Ontario municipalities to whom the question was submitted voted by large majorities for MUNI-CIPAL CONTROL. THE GOVERNMENT SHOULD HEED THE VOICE OF THE PEOPLE, AND RETRACE THE STEP WHICH WAS TAKEN BECAUSE OF JEALOUSY OF SIR ADAM BECK."

Why does the Star today completely reverse its position, and that of the Liberal party in 1917, and support the contention of Premier Drury that Hydro shall become a tail to the kite of the party in power?

Why do Drury and the Star threaten to dismiss Sir Adam Beck from the chairmanship of hydro because he dared to demand the rights of the municipalities which the Star in 1917 told the government should be given to them by retracing "the step which was taken because of jealousy of Sir Adam Beck."

There is nothing in reason or equity or fair play to support the preposterous claim of Drury, the Star or The Advertiser that the Government should control the municipalities in their management of hydro.

The government is precisely in the position of a bank which loans money on good security. It is good business and within the rights of a lending bank to safeguard its loan by seeing that the money is used for the purpose for which it is loaned. Beyond that the bank has no right to interfere in the management of the business-has no right to hire and fire the men who run the business.

The government lends money to the municipalities, and the act provides every possible safeguard for the proper use of the money so lent.

But Drury and his supporters want to go further. They demand that the municipalities shall have nothing to say about the management of their own business. They demand that entire control of hydro shall be in the hands of the government of the day.

Drury talks as though the money loaned to the municipalities was an actual capital expenditure of the government. It is nothing of the sort. It is merely a well-secured, absolutely safeguarded loan.

Adam Beck is opposing the pretensions of Drury, the Star and The London Advertiser.

Once more, as on many occasions in the past, Adam Beck stands stoutly in the breach as the champion of the municipalities. London will back him to the hilt on June 25-back him with the biggest majority this city ever gave to a public man.

EDITORIAL.

## The Truth

The above election advertisement is a misrepre-

sentation of fact.

The Advertiser is urging that hydro be managed for the municipalities by non-partisan public officials TO PREVENT its becoming the tail to any party kite.

1. THE COMPANY—Belgo Canadian Paper Company, Limited, is being incorporated under the laws of the Province of Quebec to acquire the properties and business of The Belgo Paper Company, Limited, which is one of the largest and lowest-cost producers of newsprint paper in Canada, owning and operating at Shawinigan Falls, P.Q., a modern newsprint paper mill with a capacity of over 90,000 tons of newsprint per annum, now being increased to 115,000 tons per annum. The business has been in successful operation during the past twenty years.

2. PROPERTIES—The plant is one of the most efficiently equipped newsprint mills on the continent, being a complete and self-contained unit, including groundwood and sulphite pulp and newsprint mills, with the necessary auxiliary equipment. The Company's limits consist of 15,000 acres of freehold timber land and 1,800 square miles of leasehold timber limits in the Province of Quebec, located on the St. Maurice River and tributaries, estimated to contain 6,000,000 cords of pulpwood, sufficient without benefit of regrowth or reforestation for forty years' operations at the increased capacity. The location of the mills at Shawinigan Falls is most advantageous with relation to supplies of raw materials and markets for finished products.

3. MANAGEMENT—The management of the Company will remain in the hands of those responsible for the attainment of its present outstanding position. The President, Mr. Hubert Biermans, has been the active head of the business since its inception.

5. EARNINGS—Net earnings, as certified by Messrs. P. S. Ross & Sons, Chartered Accountants, Montreal (after deducting maintenance, repairs and allowance for bond interest and sinking fund on \$3,000,000 First Mortgage Bonds), available for depreciation, income taxes and preferred dividends, have been as follows:—

Yearly Output 

Average Yearly Preferred Net Earnings Stock nearly 4 times

The additional equipment increasing capacity to 90,000 tons per annum began operation on March 1st; not earnings for the first two months following such increase amounted to \$244,000, equal to 51.6% on the Preferred Shares, or over 7½ times two months' preferred dividend requirements. Commencing November 1st next, the completion of another newsprint unit, now being installed, will increase production to 115,000 tons of newsprint annually.

6. PREFERRED STOCK:-(a) Preferred shares are preferred both as to assets and dividends.

(b) Dividends on Preferred Stock are cumulative. (c) During the life of the Twenty-Year First Mortgage Bonds now outstanding the Company will not make any capital expenditures, except for necessary renewals and replacements, nor pay any dividends on its common shares, which would reduce current assets below 150% of current liabilities, or net current assets below 25% of outstanding Bonds.

(d) Dividends accrue from July 1st, 1923, the first dividend being payable on October 1st, 1923. We offer the above stock if, as, and when issued and received by us, subject to legal details being approved by E.G. Long, K.C.

PRICE: \$96.50 per share, yielding 71/4%

Payable July 3rd, 1923. We recommend these shares for investment

Application will be made in due course to list these shares on the Montreal and Toronto Stock Eachanges.

# WANT AD TIPS

When You Sell, Sell Right Said the office manager: "Before I left the Bivens Manufacturing Co., two different concerns had made me

offers. One offer was equal to the salary I was getting, and the other was a little better. When I decided to make a change, I didn't 'have to' use a Want Ad. Two or three of my friends, when I told them I planned to insert one, were "I said: 'Since I am going to sell my services now for an indefinite period, perhaps for years, I want to sell them right. You might call either of these offers I have received accept-

able. But what I want is the best opportunity the market affords. The way to get in touch with the most employers, and locate the best connection for me, is a Want Ad.' "I ran a Want Ad for several insertions, and thereby came to this fine house—a bigger job, with greater responsibility, and a salary \$40 a month better than the higher of the two offers I mentioned. A Want Ad found for me the best connec-

tion in the market. I sold right." Many of the most profitable Want Ads inserted are those of men and women who could sell without a Want Ad, and realize they could. If a survey should be taken of the conditions under which a representative group of Want advertisers first used a Want Ad, it would reveal, without any doubt, that most did when they found it hard, perhaps impossible, to sell without one. First they endeavored to sell in the haphazard, something-will-turn-up manner. At last, desperate, they turned to the Want Ad section, and found a buyer. Every reader, however, should realize that Want Ads are

often equally indispensable, though a sale could be made without them.

Want Ads save great time and labor in selling, They enable the user to sell right, and to know that he is selling right. They get before the advertiser the maximum number of possible buyers. Someone among them is the right man, with the right offer.

When you sell, sell right. The Want Ads will help you to. (All Rights Reserved.)

Hence the London Chamber of Commerce can point with pride to its choice of London's civic flower,

the peony.

Chosen rather for its beauty than from any materialistic point of view, the peony has already repaid the city for its place in the sun in a most

for its place in the sun in a most tangible manner.

Because the peony is its civic flower, last year London was signally honored. Never before in the history of the American Peony Society has a city of less than 100,000 population been chosen as the center for the annual peony show. Not only in this manner did London achieve distinction through its civic flower, but among the American horticulturists it has been very definitely put on the map.

Due in no small measure to whole-hearted local support, the success of the exhibition was the commencement of an international advertising cam-paign for the city of London. London Given Publicity.

London Given Publicity.

One prominent American grower returned to his home town so enthused over the splendid results that he was able to convince his local newspaper with very little difficulty that the International Peony Show, held in London, Ontario, was worth the entire four pages of a photographic Sunday supplement. Londoners will remember the exquisite masses of bloom which were thus displayed in portrait, and beyond this, one or two of the finer London gardens were shown, and the Armories, which last year was the exhibition building. A second grower, at his own expense, issued between two and three thousand pamphlets dealing with the peony, the success of the exhibition, and the pride of London in its civic flower.

This year, although the exhibition is to be held under the auspices of the local Horticultural Society, in cooperation with the Ontario Peony Society, American growers have by no means allowed their interest to

Thus, as has been said, although London adapted and cultivated its civic flower from a deep pride in everything that is an integral part of its municipal life, yet there is much satisfaction for the Chamber of Commerce, the Horticultural Society and the citizens in general, in thinking that its civic flower, translated into terms of progress, at a point where London must either stand still or forge determinedly ahead, is making an important contribution to its social and economic welfare.

tactions had gone battling into the London half of the ninth, tangled and knotted up at 2 to 2, and the Rapids were playing the game under protest as a result of one of the funniest and at the same time most chaotic plays seen here this season at least. Houran, who relieved Grimm to start this frame, had filled the bases on Schaefer's single. McNamara's intended sacrifice bunt, and his own mess-up of Boyle's sacrificial offering toward third base.

Pep Haines started the jam when he had the same the force-out of Schaefer, the double killing being completed at first base. Clancy, when he got the ball, for no known reason threw the ball to third, and Roper touched out McNamara, who had been there for some time, and then Schaefer was seen ambling in the vicinity of the plate, so Roper pegged for a second putt-out on Schaefer, apparently completing a "quadruple" play as far as tag-outs were concerned. There was much heated discussion, both teams swarming on Umpire Griffin, and then Wells protested on something; what, no-body knows, as McNamara was perfectly safe, having been forced to go to third, and Boyle was safe on second, so not more than two men could have been killed off. If anybody had a right to protest it was Schaefer for being tagged out so much. Stimpson drew a walk following this clamor, and Getsie sliced a bunt toward third, which nobody could take, McNamara coming in with the winning run.

Both got their pairs of runs before this at one crack. The Londoners got theirs first, successive singles by McNamara, Boyle and Haines doing the trick. After that Grimm held the Londoners until the 8th, when he walked two. The Rapids gathered theirs in the fifth. Barbelon's more or less excusable error, a choice, Clancy's double and O'Brien's single turned the trick. They threatened both in the 7th and 8th, Thut and Barbelon both starting nice double plays, which staved off trouble, and retired the side.

TILLSONBURG NINE WINS ON INGERSOLL DIAMOND

Ingersoll, June 20.—In the Oxford-Elgin League of the O. B. A. A. series Tillsonburg easily defeated the homesters at Victoria Park this afternoon by the one-sided score of 21 to 6. The visitors took kindly to the offerings of the local pitchers, and batted them freely throughout the game. They also played snappy ball in all departments, while the locals were below their usual form. Tillsonburg scored in every inning but two, and in the third sent seven runners across the plate.

HAM. BROS. SOFTBALLERS QUIT BRANTFORD LOOP

Special to The Advertiser.

Brantford, June 20.—Considerable excitement has been caused in sporting circles over the decision of the Ham Bros. softball team to drop out of the City Softball League and play independent ball. Their action practically means a break up of the city circuit. The principal cause assigned is the playing on their team of George McConnell, formerly the star pitcher of the Cordage Company team in the Interfactory League, which action barred the player from participating in further games in organized leagues. Rather than leave McConnell in this predicament, the whole Ham Bros. team preferred to stay with him. The Hams have arranged to play an exhibition match with the Hamilton Knights of Pythias team in this city on Monday next, and McConnell will be on their line-up.

Special to The Advertiser. St. Thomas, June 20 .- Playing errorless baseball, the St. Thomas O. B. A. A. nine shut out the Grennan Cake team of Detroit here this afternoon by the score of 4 to 0. The Detroiters have won the class A championship of the United States two years in succession and claim not to have lost a game in two years. This record was broken here today by the St. Thomas S. is is illings and Farley with a two-bagger to the left field. He had wonderful support, the Saints being on their toes all the time.

There was little action in the first three innings, but it was in the fourth that the home team tacked up the first run in the game. Arlein lined a nice one to the right field for a single, and Billings sacrificed. Riseborough grounded to third, taking second, when Arlein was being squeezed out between second and third. Cabot grounded to the infield, and Riseborough came home on Young's wild throw to first.

The Cake team, who are managed by Harry Howick, formerly of the St. Thomas Canadian League team, tried hard to get to McPhee in the remaining sessions, but Daniel was airtight, and they were held to seven scattered hits, only good for one base. Smith pitched a good game of ball, and only six bingles were batted off him, but he weakened slightly in the sixth. "Snapper" Binns, who is hitting well over the 500 mark in the Southern Ontario League, set off a bomb in the sixth when he nicked the club for a single to the left field. Arlein flied to Carolyn on first, and the outlook was not bright, but he dropped the ball. Binns was out, as he hugged the bag, thinking it was on first, and the outlook was not bright, but he dropped the ball. Binns was out, as he hugged the bag, thinking it was a sure out. Four misplays were credited to the visitors, while the Saints' play was errorless. McPhee did not walk a man, while Smith walked three, and Thompson, who relieved him in the seventh, walked two. Harry Howick renewed many former acquaintances while in the city, and despite the beating was as joyial as ever.

Roy Farley, who played shortstop for St. Thomas and known as "Fat," made his debut of the season when he replaced Riseborough on short in the sixth. # Down the Line In All Sports

Whether someone pulled a boner yesterday in that chaotic ninth or somebody was real brilliant will never be established, though the "experts" amongst the fans have plenty of solutions for the play. Bobby Wells bases his protest, it afterwards developed, on the fact that Schaefer, by strolling into the plate quite a long time as time goes in those sort of situations, after he had been called out, needlessly drew a throw on which an error might have been made, and was therefore the sort of "nuisance" on which protests may be based. Schaefer can be given credit, on the other hand, with thinking that Wells didn't touch the plate on the force-out there, and he was therefore sneaking up on the plate, and was going to

After the last tear had been wiped away over the "glorious passing" of one Jimmy Wilde, the first sob descriptions of the fight have been re-read in the cold light of reasoning and gloomy thoughts of coal bills, it begins to strike one that after all for a tenth the sum and much less the average Sharpe, c.f. Cold reason says that Jimmie waited for two sufficiently lucrative offer, accepted it and took his last throw, knowing more or less the certainty it was likely to be. And yet the ever gullible public either grab it up in the shape of high-priced seats or vivid descriptive articles in the press, forgetting how many knockdowns they could assimil-

The past few weeks seems to have been the open season for tail-enders in this part of the country. The ten successive games tucked away by the London Tecumsehs finds an echo in amateur baseball circles in the city. The Knights of Columbus went through the entire first series of the Inter-Club League without annexing one single contest, and in their first game in the second series walloped the Hermits to the tune of 19 to 11. Then, again, at Sunshine Park the St. Mary's team were anchored in the cellar until they broke loose and ditched the league leaders, St. Martin's, after which they have successfully manhandled St. Peter's and the Marconi Club, and bid fair to continue on their win streak. Hamilton, June 20.—Hamilton and Muskegon split another double-header here today, the Hams taking the first game by a score of 5 to 4, while the visitors took the second by a score of 4 to 3. They scored four of their five runs in the first inning in the first game on five hits, two of them doubles, and a sacrific fly. Lahaie was forced to quit in the sixth, after a walk and three hits had brought another run across. A walk and two singles got one for Muskegon in the first inning, and McHale's double, Kane being hit. Cozington's double, Kane being hit. Cozington's double, and Swansboro's sacrifice accounted for three more in the third, But three of the visitors reached first after that, a walk in the seventh and two singles in the eighth putting men on. The visitors found Andy Miller easy to hit in the second affair, Kimball', the first man to face him, knocking the bail over the right field fence for a home run. Carlin's errors helped them to score one in the second, and distance hitting gained them two more in the third, doubles by Swansboro and Kelser and Kimball's triple doing the trick. The scores:

# Eight Rinks Survive First Day's Scotch Double Play

Three Thistles Still In-Some of Best Rinks Have Fallen-Consolation Events Are Well Under Way-Tourney Second Largest In Thistle Club History.

third round Free Press Trophy, second Abbott round Nash Trophy and first round angford Trophy games were brought a close in the 13th annual Scotch ubles tournament at the Thistle Club to Johnston and Alton. reens last night. Some of the best rinks in Western Ontario have fallen in the urious competition for the coveted

furious competition for the coveted silverware.

Just once before in the history of the Thistle Club's annual event has the entry mark eclipsed the big turnout of yesterday. That was some few years ago when, as veteran bowlers recalled, 72 rinks entered, and 70 turned up for play. Yesterday 64 rinks entered in the trophy play under perfect weather conditions, and on greens that were lauded as the best in Thistle history.

Today eight rinks are left in the first event, and they are drawn to play at 9 am. Three Thistle rinks are among the eight, but one at any rate must be counted out at the end of the fourth round, since Bluett and Langford meet each other to begin the morning's play.

Today's games are expected to create warmer competition than yesterday's when several unexpected trougings. several unexpected trouncings when several unexpected trouncings were administered to rather formidable rinks. One of these Manson and Dowding, of Toronto Victorias, was eliminated from the first event in the opening round when Sproat and Mc-Millen of Seaforth handed out an 18 to 11 beating. Manson is still in line for the Nash trophy, however, and may be a head man to beat today.

for the Nash trophy, however, and may be a hard man to beat today.

James McDougall's loss, too, was a fough one, but he lost in the face of almost perfect opposition to Frank Brown. McDougall was down six shots. With just the last end to go, and there were spectators present who equaled Jim's faith in himself that he could tie the end. Five shots he lay when the end was finished, and the sixth bowl was so much in doubt that a tape measure was requisitioned before the doubtful and all important bowl was ruled out, giving Frank Brown the doubtful and all important bowl was Campbell fuled out, giving Frank Brown the game, 18 to 17.

With continued ideal weather, all of the three events should be decided to hight. The first event is scheduled to be finished early in the afternoon. It will be evening, however, before the winner in the Nash Trophy event is declared, and possibly late games may decide the Langford silverware.

PLAY POSTPONED GAMES

C.A.A.A. LOOP NEXT WEEK The executive committee of the Catholic A. A. A. Baseball League drafted the following schedule for the postponed games to be played next week at Sunshine Park:

Tuesday—St. Michaels vs. St. Peters.

Wednesday—St. Martins vs. Marconi.

Two veteran and slugging outfielders are leading the American and National league hitters by healthy margins. Zach Wheat of the Dodgers is setting the pace for the Heydler circuit while Harry Heilmann is showing the way for Ban Johnson's proteges. Both are well over the .400 mark.

Except for purposes of intentional hooks the stance with the left foot in front of the fight is seldom used, though Jess Sweetser, national amateur champion, employs it. Goyer pitched well for the Leafs, striking out nine, but he was inclined to be wild. #### The "Party Hobbles" Are On Now.

The Toronto Globe of September 29, 1919, commended Sir Adam Beck for coming out as an inde-

pendent. On that occasion the Globe said:

"He must continue his fight to prevent the undertaking of which he is head becoming the ball of designing politicians. Accordingly, he kicks off the party hobbles and runs free.'

"Sir Adam's action will put an end to a lot of campaign camouflage. He does not propose to trust the future of the people's power project to the men who, at election time, proclaim themselves crusaders in its cause and, when the polls have closed, become effective enemies to its progress. He is unable to accept the electoral claims and protestations of the Conservative ministers."

That was surely high and excellent ground, and the Liberals of London in 1923 subscribe to every word the Globe said in 1919.

The Globe held in 1919 that the Conservative ministers were not safe to be trusted with the future of and decided to hold their next session in London, Enghydro. Has it changed its mind since then, and, if so,

Today, with Sir Adam Beck a straight Conservative nominee, with his headquarters in Conservative rooms, with the party hobbles all in place, the Globe has nothing but commendation for the whole scheme.

The Globe's somersault might well be the envy of any political acrobat.

#### Not An Idea of Real Liberalism.

Mr. C. C. Davies, Progressive member for North Battleford, Sask., writes an interesting letter to the North Battleford News, in which he discusses public matters and gives his views on things as he sees them at Ottawa.

Mr. Davies takes the election expenses of Mr. H. Marler, Liberal member of St. Lawrence and St. George Division of Montreal, showing them to have been as follows:

recures			 \$ 2,111.84
Wages			 27,108.21

A man who spends that amount of money to get elected to the parliament of Canada starts under a handicap. Some person is sure to suggest that he must be there to protect some interest or other.

Real Liberalism, the battle of the common people. never called upon any man, or any association of men, to put up anything like \$42,672.64 for a seat in the Canadian House of Commons.

#### And Now He Wants \$15,000.

Some people are very fussy and too particular and greed for power." about what they eat. Here is David Mark, for instance, who ate a meal in a New York restaurant last November. Sitting beside him was another customer, eating chicken pie. Mr. Mark happened to look at the dish, no doubt wondering if it were good, bad or indifferent.

Now he is suing the restaurant for \$15,000 because he took that look. He claims that tucked away in that chicken pie was a mouse. Yes, sir, a mouse. Had it been a woman, she would have squealed and climbed up on top of the coffee urn, but being a mere man Mr. Mark turned sick and walked out.

Furthermore, he hasn't been able to eat meat since,

hence the claim for damages.

Either Mr. Mark or that dead mouse should be entitled to damages, for it was certainly a mean trick to play on the mouse.

Cost of Living Falls \$600.

Mr. C. M. Macfie, Liberal candidate in West Middlesex, is quite certain that the cost of living has come down in Toronto in the last year, if no place else.

Speaking at Delaware, he showed that for two sessions it had been necessary for members of the legislature to have an extra \$600 each time, but when they came to the session just before it was time to appeal to the country, it was possible to get along with-

Mr. Macfie figures that if they did not need the extra \$600 in the session just before a general election they did not need it in the two preceding sessions.

The driver of an automobile in a Sunday afternoon race at Detroit was killed. His car smashed into another that was stalled on the track, and the driver Coming as it does on the eve of an election, such was hurled 50 feet, and picked up dead.

And yet what a protest would go forth if there were a bullfight staged there on a Sunday afternoon, where the chances are that a bull would be killed instead of a man.

We are traveling at a fast pace, and conjuring up queer standards of value. There is an insane effort to pile, pack and cram excitement and amusement and thrills into the week-end in order that some people may

go on making money seven days a week. And back of it all stands that old injunction, "Remember the Sabbath day to keep it holy."

Some day, after we have killed and bruised enough people, a returning sanity may find time to pause and Hardly a day passes without some political leader meditate on that old law. Meanwhile the killing pro-

In this city the owner of a wellsituated acre can collect in one year without any service, as much as the laborer with all his work can get in hundred years. Is it not undoubtedly true that the burden owner fall wholly on industry?

# Looking Abroad

The British Labor party can now proudly claim that at least one of its members possesses all the homely domestic virtues of the poor and none say unctuous, nence the amusement caused by the facetious cross-examination of C. E. Grigsby, a London journalist, who appeared for the flitch. One of his questions to Mr. of the faults and foibles of the criminal capitalistic class, for Mr. Thomas E. Groves, Labor M.P., for the Stratford division of West Ham and his wife were recently adjudged the winners in the contest for the famous Dunmow flitch.

Groves was:

"You say that your favorite author is Charles Dickens, and that having read 'David Copperfield,' you searched for the perfect Agnes, and found her in your wife. Don't you know that Agnes was David Copperfield's second wife."

This quaint yearly custom which dates back to olden times, originated Before M in the village of Little Dunmow, for-merly the seat of a priory, and consists in presenting a flitch of bacon to any couple who can give proof that they have spent the first year of married life in perfect harmony and have never at any moment wished they had tarried in putting on hy-meneal fetters. In place of the monastic juficature of the 16th century a jury of six bachelors and six maidens officiated this year.

The institution of this strange matrimonial prize which had its parallel in Wichanoure in Staffordshire, at St. Moleine in Brittany, and apparently also in Vienna, appears to date from the reign of King John. Nash Injured Players' Cup-tie, on Carling Heights Wednesday evening before a good attendance of spectators, and lost after a most gruelling contest, by 3 goals to 2, the half time score being 2 goals to 1 in favor of Thistles. In the first moiety and after affiteen minutes of spectacular play with superb combination being displayed by both sides, W. O. R. Juniors were awarded a corner when Cameron sending in a hard shot from the kick drove the leather against the upright at alow angle. The sphere caromed past of a very even character, with Thistles pressing hotly and scoring through Saunders and Fisher, the latter giving his side the lead from a cross from Beasley. Thistles' new outside right, both Jags' goals being scored from the head.

In the second half Thistles imme-

both Jags' goals being scored from the head.

In the second half Thistles immediately bombarded W. O. R.'s goal. McLay cleared his lines well, and let Harper, W. O. R.'s outside left, away, who shot for goal, Dave Smith unavoidably swerving the ball past McAuley, thus giving W. O. R.'s their equalizing goal. This surprising piece of luck gave the Blue and White more confidence, and they kept up the pressure with remarkable vigor. Edwards, W. O. R.'s speedy outside right, showed clever combination play with Andy Ford and Co. at this time. A corner was awarded W. O. R.'s and Edwards took the kick, centering beautifully, and out of a scrimmage Harper secured an opening, driving the ball for a goal. It was a great victory for W. O. R.'s and puts both elevens on an equal footing in this particular series.

The line up:
Thistles—Goal. McAuley; backs, Turner and Bruce; halves, Dillon, D. Smith and Fisher; forwards, Beasley, Martin, Saunders and Davies.

W. O. R.—T. Ford; backs, Brown and McLay; halves, Hayes, Cameron and Sien; forwards, Edwards, A. Ford, W. Harper, Lowe and T. Harper.

# Soccer Notes

-By BILLY BISSET-London and District Football Association will hold an executive meeting at the chamber of commerce rooms on Tuesday next. The meeting is to commence prompt at 7:30 p.m. The business is: Draw for the Ontario Amateur ness is: Draw for the Ontario Amateur Challenge Cup competition, district series; discussion of the circular letter sent to all clubs dated June 16, 1923, re injured players' competition re-draw; auditors' report, half-yearly; council member to the O. F. A. report; several important rulings received from the O. F. A., etc.

It is the intention of this column at stated intervals to give a short soccer history of each London and district junior soccerite playing for one of the four L. and D. J. F. A. clubs.

The "straight-as-a-die" Harry, who has been playing great football on the right-back position for Thistle Juniors, was originally a forward, but is filling his new position better than expectations ever warranted.

Harry played on the outside right position for Western Ontario Juniors in 1922, and had six goals chalked up to his credit during that particular season. 

Harry received the "hardest blow" of his soccer football carreer Saturday last in his side's league game with the renowned W. O. R. Juniors.

been the feature of more than one game this season.

Graham, who believes in action, not words, is one of the "never-say-die" type, and never lets up until the final whistle. Bruce, with his true sportsmanship, is a credit to Canadian Junior association football.

The L. and D. J. F. A. at their last meeting granted C. N. R. Juniors permission to play an exhibition game with Battle Creek C. N. R.'s at Springbank Park on Saturday, June 23. The kick-off will take place at 10:30 a.m. Towards the dying moments of the game Harry, while on one of his usual expeditions, secured an opening, sent the leather past Bates with remarkable velocity, only to be beaten in his laudable effort by "the last toot of the whistle."

manship, is a credit to Canadian Junior association football.

Before a game Harry is invariably heard to exclaim, "Well, may the best team win, and may that team be Thistles."

Our last but not least review for this time touches on Graham Bruce, who played such sterling games for Western Ontario Regiment Juniors last year at left back, and who is excelling these displays this season in the same position for Thistles

Graham, who captains the Jags, is some of the mainstays of the team. His superb tackling, placing and kicking has
