Can't Dispute Such Newness In Men's Clothes

As it is found at this store, and even to equal it is simply impossible. 'T would be different if the makers of our clothing were satisfied to use the same models as the other fellows do, but they don't, and instead they do as the best tailors must—wait for Fashion's latest dictates and follow them.

We've no exclusive styles, no more than has your tailor—our clothes are built to conform with styles as you see them on the fashion plates and are fashioned and tailored in a way to leave nothing to be desired by you ever so exacting.

You can't question this store's Quality in clothes because it is the Highest possible, which it always has been; nor could you wish for better, more generous or complete showing of the latest styles, fabrics and shades.

We have left nothing to be desired, knowing that you will look to us for style standards, the best varieties and the most satisfactory quality as you always have done.

In New Method Suits

The trend, especially among the higher priced ones, is toward darkish grey mixtures and brown effects relieved by overlaid of brighter hues, the sorts you'll find among the tailor's showings. Neat, fancy Worsteds and attractive Cheviot mixtures are among the much-sought-after as are the plain blues and blacks. Styles are three and four-button single-breasted and two and three-button double-breasted suits—shoulders generously broad with the backs cut not as close fitting as last year. Prices start at \$7.50 and stop at \$15.00.

In New Method Overcoats . . .

The newest are of Shetlands and Tweeds and are very full both in back and front. But for dress the average man will wear the single-breasted garments of plain black and Oxford greys, undressed Worsteds, Vicunas, English Costings and Friezes—they are rather long and cut rather loose and full. All styles here. Priced from \$7.50 to \$18.50.

CHAMBERLAIN'S VISIT TO AFRICA

Suggestion That Situation is Perilous—Bitterness Has Grown.

Transvaal and Free State Colors Freely Worn—Secretary to Study Situation.

New York, Oct. 27.—Gloomy accounts of the state of affairs in Cape Colony, the Orange Colony and the Transvaal have been received from time to time through private channels, but there has been a tendency to discredit them, cables the London correspondent of the Tribune. The announcement of Colonial Secretary Chamberlain's decision to proceed to South Africa in order to examine on the spot the troubles presented by the termination of the war and the settlement of affairs in the new British colonies, consequently caused the utmost surprise in political circles. It is tolerably certain, declares the correspondent, that if the situation had not been one of peril, the Colonial Secretary would have left the whole matter absolutely in the hands of Lord Milner. The feeling between the British and Dutch people in Cape Colony just now is said to be more bitter than it was in the days before the war. The Transvaal and Free State colors are worn freely in the Dutch towns of the Cape.

DISREGARDS PRECEDENT.

Ever since Mr. Chamberlain became Colonial Secretary he has disregarded precedent. One notable instance, which has a slight resemblance to a master stroke of policy now in vogue, was his visit last autumn to Malta to enquire into the petition of the Maltese against compulsory adoption of the English language. When he returned to London he consulted with his colleagues, and soon afterwards came an intimation that the objectionable edict had been withdrawn. It is possible that it is experience which has prompted him to study for himself the requirements of affairs, not only at the Cape but in England's two new colonies, so as to be able to initiate and carry out an imperial policy which will be best suited to the requirements of the whole of British South Africa.

A NEW DEPARTURE.

London, Oct. 27.—In an editorial article, today, on Colonial Secretary Chamberlain's approaching visit to the South African colonies, the Times says:—"It constitutes, we trust and believe, a new departure in the conduct of the Empire. We sincerely hope that this statesmanlike departure from the routine rules of the administration may bear such fruit as to insure that it will become a precedent. Nothing we are confident, could contribute more effectually to the growth of imperial feeling at home and in the colonies than a series of such visits to scenes of the operations of the British possessions successively. Can we doubt that the step will deeply impress Europe, and perhaps more deeply still our kinsmen beyond the Atlantic, with the significance of our desire to bring the Empire we have built up by the contentment and loyalty of its peoples."

BIG SUCCESS

Annual Supper and Entertainment of the Park Street Church Last Night.

The ladies of Park street Methodist church gave their annual tea last evening and deserve credit for probably the best tea that has ever been served in the church.

A large number greeted the efforts of the ladies and enjoyed the excellent supper and program. The tables were tastefully decorated with flowers and the Sunday school hall presented a very pretty appearance. The ladies in charge of the tables were Mrs. Williams, Mrs. Toie, Mrs. Dell, and Mrs. Tillson had one table. Mrs. Jones, Mrs. James, Mrs. V. G. Munn, Mrs. Dunkley, Miss Jones and Miss Dunkley had another; Mrs. White, Mrs. Oatheart and Mrs. King had one in one of the wings; Mrs. Laird, Mrs. Harrington and Mrs. Wemp had the centre table; Mrs. Gammage, Mrs. Shaw, Mrs. Galbraith and Mrs. Dale had another; Mrs. Piggott, Mrs. Henry Stephens, Mrs. W. E. McKough and Mrs. Massey had the end table with Harry Massey and Percy Piggott waiters; the wing near the church was occupied by Mrs. G. G. Taylor, Mrs. Bogart and Mrs. Moore's table.

After the sumptuous repast adjournment was made to the church, where a most pleasing program of singing and addresses was given under the direction of Miss Ethel Webster as follows:

Chairman's address—O. L. Lewis. Anthem—Uphold ye Portals Everlasting. Solo—Apart—Miss E. Dolson. Address—Rev. T. T. George. Trio—Miss Webster, Mr. Lowe, Mr. Plewes.

Solo—Cast Thy Bread on the Waters—Mr. H. Davis. Address—Rev. Mr. Knowles. Solo—Mrs. Bogart. Address—Rev. Mr. Treleven. Anthem—Infirmum. Soprano obligation—Miss Webster. O. L. Lewis made an excellent chairman.

WOULDN'T MOVE

The white horse used last evening in the presentation of Kerry Gow, the firemen's benefit, became enamored with the Opera House and refused to leave the portals of the place where pretty actresses, good bad and indifferent exhibit their versatile powers of entertainment to a fickle public. The horse, like many girls, became enamored with the glamor of stage life. The men took a good deal of the glamor out of the animal when they tied him to a plank and slid him down the stairs to the street. This same method is recommended to the parents of daughters who have longings for the life of an actress. It will take all the romance out of it.

COMMISSION IS NOW IN SESSION

Both Sides to Dispute Represented Before Coal Strike Arbitrators.

Baer Objects to Mitchell Appearing as Representative of the Workmen.

Washington, Oct. 27.—The anthracite coal strike commission met at two o'clock this afternoon in the hearing room of the interstate commerce commission. All the members of the commission were present, occupying seats upon the bench. President Mitchell, by him, was his visit last autumn to Malta to enquire into the petition of the Maltese against compulsory adoption of the English language. When he returned to London he consulted with his colleagues, and soon afterwards came an intimation that the objectionable edict had been withdrawn. It is possible that it is experience which has prompted him to study for himself the requirements of affairs, not only at the Cape but in England's two new colonies, so as to be able to initiate and carry out an imperial policy which will be best suited to the requirements of the whole of British South Africa.

The commission decided to begin its investigations into the conditions in the anthracite coal regions Thursday afternoon at two o'clock in the hearing room of the interstate commerce commission. No. 1, in which Scranton is located.

Before the opening of the proceedings, the members of the commission and the representatives of the contesting parties were photographed. Judge Gray, the president of the commission then read the order of the President creating the commission and in a general way outlined the procedure to be followed in the presentation of the issues. He said that, in accordance with the immemorial practice among English-speaking people, the commission would first receive the statement of the demands of the miners, who were to be regarded, for the purposes of this case, as the prosecutors. The reply of the other side could then be heard, Judge Gray said, in order that the commission might have before it a definite issue.

At the conclusion of Judge Gray's remarks, President Mitchell said that he had with him the formal demands made by the miners upon the operators. At the suggestion of Judge Gray he read the demands adopted by the Shamokin convention, the rejection of which resulted in the strike. Walter Edward Weyl was also present as a representative of the miners. The hearing room was crowded with the people interested in the case and with spectators.

President Baer objected to the appearance of Mr. Mitchell as a representative of the United Mine Workers of America but said he had no objection to Mr. Mitchell's appearance as a representative of the anthracite coal miners generally. Mr. Baer's object was to avoid the recognition of the mine workers' union as an order. Mr. Mitchell replied that the objection as to his status was not involved in the case. He said that he appeared as a representative of the anthracite coal miners and distinctly refrained in his reply from mentioning the union.

Presidents Baer and Thomas suggested that the commission proceed at once to the coal fields in order that it might be informed at the outset as to the conditions there. It was agreed that Mr. Mitchell should file with the commission next Monday a detailed statement of the claims of the miners. The statement he read to-day was a preliminary statement of the case. The representatives of the operators announced that they would file an answer to this statement of Mr. Mitchell on Monday, within three days of that time. It was suggested that each side to the controversy appoint an expert to go through the books of the coal companies to secure data upon which to work, but President Baer and other representatives of the companies immediately objected and suggested that they would furnish whatever information it needed.

This question, precipitated a long discussion, in which the coal presidents and the miners' representatives took part.

The commission adjourned to meet in Scranton next Thursday morning. Before adjourning it was agreed that the operators shall submit sworn statements as to their pay rolls, etc., and that Mr. Mitchell shall have an

THE TRANSVAAL NEEDS MONEY

Paralyzing Effect of High Cost of Living—Reduction of Railway Rates.

Supposed to be the Only Panacea, and Lord Milner Can Hold out no Hope.

Johannesburg, Oct. 27.—The present enormous cost of living exercising a paralyzing effect in this city. The only panacea is supposed to be in the reduction of the railway rates. However, in the absence of the Transvaal loan, it is difficult to see how the government will be able to reduce the rates, at least to the extent that it is anticipated will be needed. Money must be forthcoming from some source during the next half year. There will be no satisfactory reduction of current prices until competition is keener. When this is the case the system of plunder practiced by shopkeepers and others under the pretense of high customs and railway rates will inevitably receive its death blow.

REPATRIATION OF BURGHERS.

A banquet was given on Saturday evening to Lieutenant-Governor Lawrence of the Transvaal. Lord Milner, Governor was present. The Lieutenant-Governor, in replying to the toast of his health, said that the government had at last overcome the physical difficulties in connection with the repatriation of the Boers. Forty thousand Boers had been repatriated from the burgher camps and none had returned to them. Seed would be distributed in the middle of December to Boers returning to their farms. Lord Milner, in toasting the chairman, said that in regard to its contribution toward the expenses of the recent war, the Transvaal must trust to the good sense and generosity of the British public. Imperial credit would greatly assist the development of the colony, and if great prosperity resulted, it was only reasonable that they should contribute from their abundance. It was not intended to place any burden on the colony which might delay its progress. The governor added that he could not hold out hopes of any considerable reduction in railway rates or customs duties, since revenue must be obtained from somewhere.

BOGUS HOLD-UP

Niagara Falls Young Man Confesses to a Remarkable Trick.

Niagara Falls, Ont., Oct. 27.—The young man Mason Logan, who was supposed to have been held up and clubbed into insensibility, robbed of this week's salary and his body afterwards placed on the trolley tracks in the Queen Victoria Park, last Monday evening, when riding home on his wheel, and which was found by the conductor and motorman. Chief Mains made up his mind young Logan for some reason worked out his own "hold-up," and to-day young Logan made a clean breast of the whole affair, admitting it was his own work, saying he had been living beyond his means, and was behind, and his creditors were pushing him hard, and he devised the "hold-up" scheme to get their sympathy, and placed his wheel on the rails and laid down between the tracks himself just before the car came along.

One of the best features of the Central school concert on Nov. 7th will be a grand march by 36 girls introducing interlocking stars and secret society emblems. The prices are 15, 25 and 35 cents.

QUIET WEDDING

A very pretty though quiet wedding took place this morning at St. Joseph's church, the Rev. Fr. James officiating. The contracting parties were Mr. D. J. Morand, son of ex-Treasurer Morand, of Sandwich, and Miss Lettie S. McQueen, youngest daughter of the late T. McQueen, J. P. C. K. of this city.

The bride was charmingly gowned in a beige cloth, trimmed with Irish point lace and carried a bouquet of white caryophylls. The bridesmaid was her sister, Miss S. A. McQueen, graduate nurse, of Toledo, Ohio. The groom was supported by his brother, G. Morand.

After partaking of a sumptuous dejeuner, the newly married couple left on the R.I.S. Wabash train for the west where they will spend their honeymoon, and will later take up their residence in Windsor.

LOCAL PRESS BEEN BOUGHT

Rev. Mr. George Makes Strong Hints That Papers Were Purchased.

Heard They Had Been Subsidized by the Liquor Interests—Notice Not Printed.

During the evening service at the Victoria Avenue Methodist Church on Sunday, Rev. T. T. George, speaking on the prohibition question, made some very strong statements in reference to the local press. His statements were received with much surprise, and created quite a sensation among those in the congregation.

A prohibition convention is being held in the city to-day, and Mr. George claims that some time ago he sent a notice of this meeting to each of the local papers and the item never appeared. He said:—

"I gave a notice of this convention to reporters on each paper and told them that if there was any charge the prohibition party would pay it, but if it was put in without charge the party would be very grateful. This notice did not appear in either paper. I have heard a rumor that the newspapers in other places have been bought over by the liquor party, and I have also heard the same rumor in Chatham."

As far as this journal is concerned nothing is known concerning the intentions of Rev. Mr. George. The statement of the reverend gentleman to the effect that he supplied one of The Planet's reporters with an announcement of the Prohibition convention and that this journal failed to publish the same, is not the fact. The insinuation that The Planet and its contemporary have been subsidized by the liquor interests has so far as this journal is concerned—no shadow of foundation and is a statement that does little credit to the spokesman, his calling, and the cause he represents.

It is a matter for sincere regret that a minister should, from the pulpit, make such reprehensible comments without any apparent effort to ascertain if they are in any way warranted.—Ed. Planet.

Col. J. B. Rankin has received Sergt. Max. Fruser's coronation medal. It is made of bronze and is as large as a fifty cent piece, only thicker. On the obverse side is a profile of the King and Queen and on the reverse side is the following lettering: "R. VII. June 26, 1902." One of these medals was presented to each Canadian private who attended the coronation with the Canadian contingent.

TUESDAY, OCTOBER 28.

WHY SO MANY CHURCHES?

A delegation of British Congregational Ministers have been touring Canada for the purpose of discovering what can be done to improve the standing of that particular denomination in the Dominion.

The leader of the delegation, Rev. A. W. Rowland says: "It is difficult to understand why every sect and denomination should consider it absolutely necessary to get in every place that has any kind of population without thoroughly realizing whether the congregation that can be secured will be sufficient to support it."

If Mr. Rowland had lived in Canada for fifty years he would have learned that in the past religious bitterness has been as marked as political animosities. That accounts for the large number of church edifices throughout this province particularly, that are kept open in order to maintain, as the members and congregation think, the dignity of their particular sect.

If Mr. Rowland should return to Canada twenty years hence, he will find a different condition of things. The divisions are rapidly crumbling, and we believe that before two decades have passed, the spirit of union will prevail to such a degree that there will be fewer churches and larger congregations in Ontario, and more missionaries for the Northwest. What Mr. Rowland noted has been deplored for many years by the best and most thoughtful men in all the denominations, but it has been a difficult thing to combine congregations which had slight disagreements in doctrine.

FRIENDS ONCE, CRITICS NOW.

The retirement of Mr. Tarte from the Laurier government has set the tongues of many of his former admirers wagging. When Tarte was in the cabinet he was the greatest Minister of Public Works that had ever served the Dominion.

The Globe has abstained from a critical analysis of the ex-minister as an administrator, but it suggests that his Paris speeches were not just in line with true British sentiment. By and by, possibly in the near future, we shall be given pen pictures of Tarte by the Liberal newspapers that will make us all wonder how Sir Wilfrid tolerated his busy lieutenant for six long years.

Meanwhile there are strengthening indications that if Tarte has the ministers against him he has a considerable section of the rank and file of the Liberal party with him. Certainly the strongest card Tarte played while in the cabinet was the one which caused him to leave it. His is not only the right view but it is the popular view. While he

continues, as he has been doing, to advocate higher protection he must prove an important factor in the development of a more thoroughly Canadian policy, and one that will redound to the country's benefit.

THE GOSPEL OF ENCOURAGEMENT.

Men need encouragement to-day more than they need cheap beef or a full coal bin. These things feed the body, but by encouragement the spirit is kept from fainting and made to hope for the best.

And at this moment the voices are loud in the street that make for discouragement and despair. On all hands and in nearly every department of life the things are many which chill enthusiasm and draw the nerve of high endeavor.

And this is the time for men of undaunted courage to preach the gospel of heartening. The people need it, and their leaders need it most of all.

So, too, when we survey the social, the industrial, the educational, or the religious field. At every turn may be seen the things that dishearten—the entrenched social evil, the heartless industrial oppression, the burdensome educational fetich, the dead-weight of religious formalism—and everywhere men who should be in the forefront are sinking to the rear with the slaves.

And weak men cannot catch the accent of the prophet of encouragement. At such a time as this it is not the easy gospel of an endless summer afternoon the shallow message of a cheerful disposition that is needed, but the firm-voiced word born of high conviction that rings clear against the grey of autumn skies.

The encouragement we need is based on the assurance that above us and around us in the universe there is "A Power not ourselves, making for righteousness." We have read history badly if we do not see the increasing purpose running through the ages, and we but badly understand what we see if we catch no beckoning, encouraging, heartening, foreign of "That far-off divine event."

TARTE AS A BIRD.

Perhaps Mr. Tarte, like the cuckoo, was crowded out of the nest because he had grown too big for it.

PUTTING HIMSELF ON A WAR FOOTING.

For a little while Mr. Tarte will be quite busy sharpening up a large and varied selection of knives.

NOT A WHIT TOO SEVERE.

The Comments of Mr. Justice Street upon the methods employed to procure evidence in behalf of the petitioner in the South Oxford election protest, were not one whit too severe. It is a great pity that a man of Mr. Jackson's standing should have lent himself to a course of conduct for which no justification can be found.

A CHEAP VOTE GETTER.

The Laurier Government's—Labor Gazette blazons on its pages the resolutions of the Trades and Labor Congress condemning the calling out of the militia during strike riots and advising workmen not to join the force.

Over 10,000 Tons of Anthracite Reached New York and Vicinity Sunday.

New York, Oct. 27.—With tracks comparatively free from passenger traffic, all the anthracite roads rushed trains eastward on Sunday to fill the gap in the coal market caused by the great strike.

The coal will be divided into small lots and then put on the retail market to-day with the understanding that consumers shall not be required to pay more than \$6.50 a ton for it in any instance.

Many dealers who still have coal bought at high prices during the strike will still charge \$2.50 a ton more than the dealers who are handling the new supply.

A Maddened Steer Nearly Pinioned Little Joe Schneider to a Door.

Detroit, Oct. 27.—Joseph Schneider, living at 605 Dix avenue, last Friday afternoon saw his young son come running toward the house pursued by an angry steer.

While the beast was struggling to escape from the broken door the boy squared out of the maddened animal's reach and ran into the house.

A block away the animal attacked Mrs. Katherine Duggan, of 205 Sixteenth street, and tossed her several feet in the air.

Miss Mount, of Chatham, was the guest of Miss Pearl McLaughlin on Sunday.

J. Carrier, of Tilbury Corners, is suffering from an attack of scarlet fever.

SHE WAS GIVEN UP.

Doctors Held Out no Hope to Mrs. Huffman of Napanee.

A Wonderful Case And One Which Goes to Show The Wonderful Advancement Recently Made in the Science of Medicine.

Napanee, Ont., Oct. 26.—(Special)—This town has furnished a case which has caused considerable talk in the county.

Mrs. John C. Huffman had been troubled for over six years with female weakness and kidney trouble. The pain was so great that she could not bear it and her kidneys gave her so much bother that she could not entertain any company in her home or take any social pleasure whatever.

In addition to these symptoms she had all the pains, headaches, and weakness of Female Trouble.

Mrs. Huffman tried physician's treatment and many other medicines, but instead of getting better she was gradually growing worse and was very much discouraged.

As she had tried so many other things without being able to get any help, she was very doubtful, but concluded to try this remedy.

She used six boxes and was completely cured. She is to-day sound and well, without a single symptom of her old trouble left.

They can confidently recommend Dodd's Kidney Pills to every woman in Canada for they cured me completely and mine was a very bad case.

CUPID'S WORK

Fireman Frank Says he Was Keelod Over When he Met Ada in Her Finery.

Detroit, Oct. 27.—"Say, when she slid her mit into mine and said 'Hello, George,' in a voice as sweet as a nightingale, I just had the voice to say 'Hello, Ada,' then I was led into the parlor, and for the rest of the evening I was in a trance, dreaming of birds of paradise and floating, purring waters, and every blank thing like that you could think of."

This was the first experience of Geo. D. Frank, day fireman in the Oriental hotel, in his quest for a wife. Two weeks ago he inserted an "ad" in the News which set forth that he was lonely and wished a wife.

George D. Frank was found this morning in the fire room of the Oriental. His face was covered with the grime from the furnace. He is a handsome chap, of athletic build, and not more than 25 years old.

The River of Disappointment. "Great Jerusalem, captain, I don't want you to put anything in the paper about this affair of the heart, for it might queer the whole business."

"I've knocked about in all quarters of the world, and the only hobby I ever had was women. I've had blondes, brunettes, reds and yellows, peroxide, southern girls, northern girls, eastern girls, western girls and Spanish dancers, but of all the girls that I have run across, Ada is the one for whom I longed most."

"The other letters I laid aside came from all parts of this state and adjoining states. Some were written in postoffices, as could be told by the blooming government ink. Others were written in custom house, some were from a room recently deserted, some from young girls who were unhappy at home while a few were from old maids and these I laid reverently aside, blessing the senders for their interest in me."

BELLE OF THEM ALL

"But, say, were you ever in love? Were you in love in your old school days and your mother called it 'puppy love' I was in those old days, but never since that time until now. Say, it's wonderful how beautiful the moon looks to me now, and the stars never seemed so bright as they do lately. The moon and stars are beautiful things when you're in love aren't they? Lord, I never knew how much happiness there was in this world until I met Ada. I thought as I stepped up to her home for the first time that I'd find her waiting for me to take her to the theatre dressed in a bumping coat and wearing a last year's hat with a rooster stuck in it. But darn me if she didn't knock me a twister."

"When she slid her mit into mine—but say, I told you about that. I didn't tell you, though, about her make-up. There she was, my queen, in silks and diamonds, and an automobile coat that would put a crimp into any Jefferson avenue fairy that ever swung out of a coupe."

"Just then the steam gauge on the boiler showed that the fire was getting low, so Frank jumped to his feet, seized the shovel, and whistling a snatch from 'Cavalleria Rusticana,' shovelled coal until large bands of perspiration stood out on his forehead and running down the sides of his face over furrows in the grime on his cheeks."

PLOT AGAINST EMPRESS

St. Petersburg, Oct. 26.—The police have captured an accomplice in the reporter plot, recently unearthed at Copenhagen against Emperor Edward VII and in a critical condition.

A despatch from Copenhagen, dated Oct. 24th, said the dowager Empress of Russia, who is a daughter of King Christian of Denmark, was the object of the strictest surveillance by the police owing to what they considered to be an authentic report that several anarchists were on their way to Denmark in order to assassinate her.

THE ASSIZES

At the fall sittings of the High Court, which opened yesterday before Mr. Justice Street, the case of Thibodeau vs. Baby, an action for damages, was finished to-day. The jury returned a verdict in favor of the defendant, dismissing the action. Geo. G. Martin, Chatham, and John A. Robinson, St. Thomas, for plaintiff; John Reeve and M. Wilson, K. C., contra.

In the case of Ward vs. Porter, the Judge dispensed with the jury and heard the evidence. After hearing Walter Mills, solicitor for the defendant, the Judge gave judgment for the plaintiff. This was an action to set aside a transfer and assignment of a note and chattel mortgage upon certain property in the Arlington Hotel, Bridgetown, which mortgage and note had been transferred from N. W. Porter to his son Albert H. Porter. M. Wilson, K. C., Chatham, and W. F. A. Campbell for plaintiff, and Walter Mills contra.

BACK IN MONTREAL. Montreal, Oct. 27.-Hon. J. I. Tarte has returned to the city from Sault Ste. Marie, where he went a few days ago, to the opening of the new power canal, with a party of capitalists and others. He expressed himself as delighted with the trip. Mr. Tarte goes to Ottawa to-night on personal business. His future movements are undecided, as it may be necessary for him to go to Paris, where several members of his family are at present sojourning. If he finds it unnecessary to make the trip he will settle down to editorial work.

SUNDAY SELLING

Rev. Mr. George says it goes on in Chatham-Temperance Convention.

The County Temperance Association is holding a convention to-day in the I. O. O. F. Auditorium. There are over 90 delegates present from all over the county. President E. E. Parrott is conducting the business of the meeting.

The convention opened this morning at 10 o'clock. Mr. Parrott made a stirring speech in opening, expressing great hope of victory in the coming campaign, and giving striking illustrations of the evil wrought by the liquor traffic. Others present also made short speeches. Rev. T. T. George, the secretary of the Kent County Association in speaking of the city hotels, made some strong accusations concerning them. He stated that a certain gentleman was boarding at one of the most fashionable hotels in the city and on Sunday morning he had noticed a line of men waiting for the bar keepers to open their doors. Mr. Parrott replied that the officer of the government was here and should attend to such cases.

Committee on resolutions, finance, and campaigning were appointed and other arrangements were made towards completing the organization of the party in preparation for the fight.

In the afternoon the reports of the different committees were read. The convention was still in progress at the time of going to press.

EVENTIDE WEDDING

A very quiet event, in the wedding of Miss Minnie Symes to Melvin Wigle, of Windsor, took place at the residence of the bride's mother, Mrs. Thomas Edmondson, Emma street, at 8.30 last evening. Mr. Wigle is formerly of this city, but for the past two and a-half years has held a position as stenographer in a Detroit city office.

Mr. Wigle is a popular Windsor young man, but the happy couple will take up their residence in Toronto.

Only immediate friends and relatives of the contracting parties were present at the ceremony, which was performed by Rev. Rural Dean McCosh.

Miss Agnes Kerr, of this city, was bridesmaid, while Bruce Symes, brother of the bride, assisted the groom.

After the nuptial ceremony a sumptuous repast was served amid the happy wishes and congratulations for the young couple.

MR. SHAMBLEAU IS SUSPENDED

Kent's Warden Takes This Action Pending an Investigation.

The Government Auditor Finds Some Discrepancies in the Account of Romney Tp.

County Treasurer A. L. Shambleau was suspended last evening. Warden Rankin and County Solicitor Walker visited Mr. Shambleau at his home and gave him notice of his suspension.

This course was taken as the outcome of revelations made in the auditing of the books of Romney Tp.

Some time ago Romney began to suspect something was wrong, some where and Percy Cahoon started a movement to have the books of the township of Romney audited. A petition was forwarded to the Government and Government Auditor F. H. Macpherson, Windsor. On was assigned to the work. After auditing Romney's books Mr. Macpherson came to Chatham to audit the Romney township books in the hands of the County Treasurer. The auditor was admitted to the work and four days afterwards he wrote the following letter to Warden Rankin:-

Warden Rankin: Dear Sir,-In connection with the inspection audit and examination of the accounts of the Township of Romney, upon which I am at present engaged under order-in-council, I have had occasion to examine the Romney Land Register in the office of A. L. Shambleau, County Treasurer, and find that entries have been made in the Land Register, showing taxes to have been paid, in sums aggregating some \$2,000 in excess of the amounts entered in the County Treasurer's cash book and accounted for to the township. I think proper to at once notify you of the result of my examination that you may take such steps as you may seem necessary to protect the interests of the county.

Yours truly, F. H. MACPHERSON.

Warden Rankin came in to the city on receipt of this message and began investigations.

The Treasurer, who was ill, was summoned from his home yesterday, but he was taken with a fainting spell and had to be removed to his home. Pending an investigation, the Warden will be instituted, the Warden has suspended the county treasurer.

The Warden is now in possession of the office and with the assistance of County Clerk and the auditor is attending to the duties of the office, paying the jurors, witnesses, etc., in connection with the fall sittings of the high court.

Warden Rankin says that he has never been in during his municipal life, but that he intends to do his duty, no matter how difficult the task.

A special meeting of the County Council will be called for next Monday to deal with this matter.

Mr. Shambleau has always been one of the most popular of Harrison Hall officials, and is one of the most kind hearted and generous men that ever lived. "He hasn't an enemy and his many friends trust that the apparent cloud may be all dissipated and that Mr. Shambleau will be completely exonerated in the matter.

GRAND OPERA HOUSE COURSE

The Grand Opera House Course (known to the years by the name of the Lyceum Course) opens on Tuesday evening, Nov. 4th with the performance of the Grand Samois Opera Co., which has the reputation of being the greatest grand concert organization in America.

A change has been made in regard to the tickets for the complete course of seven concerts. This season a book containing seven coupons has been issued, each coupon giving the name of the attraction and their appearance at the Grand Opera House in Chatham. This book must be presented at the box office, and on payment of the price of ten cents, admission will be granted. The sum of ten cents extra will be charged for reserved seats.

Manager Brisco has adopted this plan to simplify matters, as last season considerable grumbling was heard owing to the fact that several of the numbers were missed by the subscribers and no rebate was obtainable. Mr. Brisco gives his assurance that there will be no misapprehensions regarding the tickets or attractions, but that they will come off just as the course books state. The following is a list of the attractions: Nov. 4th; The Concert Co., Tuesday; The Haythorne Musical Club, Tuesday, Nov. 20th; The Parker Concert Co., Thursday, Dec. 11th; The Swiss Ball Quin, Thursday, Jan. 15, 1903; The Bostonian Ladies' Quartette, Monday, Feb. 16; Wilson, Frye Combination, Monday, March 23rd; Melvin, Monday, April 6th. Those who have not the book of coupon tickets may get them at the reserve seat. The plan of seats always opens three days before the date of attraction for course book holders only.

The course this year has every prospect of being a very attractive and entertaining one and the theatre-going people of Chatham should congratulate Manager Brisco upon his success in securing the worthy sum- mers he has for the Grand Opera House Course. The reserve seat sale for the Grand Samois Concert Co., who appear here as number one on the course on Friday evening, opens on Friday evening, Tuesday evening, only. On Monday the sale opens to others. To those who have not books the prices will be 25c, 35c, and 50c.

Cries for help emanating from the vicinity of the market square, attracted the attention of Officer Dodson last evening. He went to investigate and found two colored men pounding a white man named Purdy, a farmer from Chatham township. The colored men saw the officer coming and made off, eluding the eager pursuit of the officer. Purdy was used pretty rough, being knocked down and severely kicked in several places.

Anne Morrow, wife of Joseph Carswell, Park avenue, passed away yesterday in the 68th year of her age. She was born in Ireland, came to Chatham with a little girl and lived here up to the time of her death. Besides her husband five sons and one daughter survive. They are: William H., and James H., of this city; John and George, of Bay City; Dr. R. H. Carswell, Kansas City, and Mrs. Daniel Jordan, Jr. of Chatham. The funeral will take place Wednesday afternoon at 2.30 from the family residence, Park avenue.

NEW BLOCK

Albert Sheldrick, the enterprising King street merchant, tailor, has purchased the Post Office Book Store property, which has belonged for some time to Mrs. Wm. Berry, of Pincher Creek, Albert, N. W. T. Mr. Sheldrick has been negotiating for the property for some time and has just closed the deal. His intentions are to tear down the present building and put up a fine up-to-date structure for himself. The property is right at the head of King street and in the busiest part of the city, and has a frontage of a little over 31 feet.

TALE OF THE STREET

It is generally in cities of larger size than Chatham that the main streets are the male flirts' campaigning ground, but even in this city there are occasional displays of boldness on the part of the youth who wears cuffs, currysomes his finger nails and then stands prominently displayed on the streets so that fair and comely girls may become enmeshed of his dainty and egotistical appearance. Such a one is a certain bank clerk, who answers to the name of Jerry. The lad and a companion were standing in front of the Rankin hotel when two young girls came along.

"Aren't you going home?" asked Jerry of the girls.

"One of the girls answered, "Yes, in a little while."

"Which way are you going?" again queried Jerry.

The girl pointed out a general direction and the bank clerk said all right. Shortly afterwards the girls separated and started homewards. Jerry noticed this and followed one of the girls. He caught up to her in front of Dr. Holmes & McKeough's office and asked permission to walk with the maiden, but the maiden turned him down.

"What is the matter; are you frightened?" queried Jerry.

"Afraid of you?" almost laughed the maiden, as she drew herself up to her four feet four, and towered over the young bank manager in embryo. Jerry stook to his quarry and which ever way she offered to go, he was at her side. Jerry was very glad and only asked permission to stay with the maiden till the fellow with whom the girl had a date should come along. The young lady couldn't move any way without Jerry, so she stood still and waited. Pretty soon a tall dark young man with a black moustache came along, and the quick-witted girl saw a way to get rid of her unwelcome suitor.

The girl turned to the man and said, "The girl who was waiting for you is waiting for you at the bank." The man, who was very glad to get away from the girl, turned and went off in triumph, leaving the maiden young woman standing disconsolately gazing after the man who had just seen the girl safely home.

COLONIAL PORTLAND CEMENT COMPANY

In compliance with the wishes and request of some of the citizens of Chatham, a meeting was held last evening at the Garner Hotel in this city for the purpose of hearing addresses and explanation to be given by Mr. E. L. Buell, the president, of Detroit, Mich., and Dr. Sanson, of Windsor, Ont., one of the directors of the Company, who are now erecting a modern and extensive plant for the manufacture of Portland cement at Wierston, Ont. This plant, we are informed, is to be a model of its kind in all respects, furnished throughout with the latest and most modern machinery known to experts skilled in the science of building plants of that character.

The meeting, while not large owing to the unfortunate late arrival of Dr. Sanson, who had been delayed. Many who had come to the meeting and departed with the property believing there would be no meeting. Yet those who remained exhibited marked appreciation in the able explanatory address by Dr. Sanson, president of the Company, acquitted himself in an able manner by elucidating in clear and forcible explanations backed by satisfactory reports from persons who have examined the property and letters from intending purchasers, all of whom have since become subscribers on the merits of the location and quality of wood and clay, the close proximity of the plant and material, together with the shipping facilities by both water and rail, showing conclusively that this property when completed, together with the product, will be seldom equaled and never excelled, but will stand as a peer among cement plants both in this country and the United States. Samples of the original wood as taken from the bed in its crude state certainly shows that it is of excellent quality. Samples of cement prepared in fine shapes, together with wickets made with this cement, ever shown, for which Professor Carpenter of Cornell University, who is one of the most able authorities on cement matters, claims an unusual degree of tensile strength, in fact placing it at the head of the list.

Mr. Rathbone, who accompanied the above named gentlemen, read a paper on the colonial growth of this industry for the past fifteen years and still increasing at a marvelous rate, and still with all the increase the supply is far short of meeting the rapidly increasing demand. The magnitude of which no one can comprehend or estimate. This paper gave many facts and figures highly interesting.

While the commission was in session the mine operators proposed to place a special train at the disposal of the commission if it was decided to visit the mines. After the adjournment the commission, in executive session, decided to reject this offer of the operators.

The first days of the commission's investigation will be devoted to an examination of the mines and homes of the miners, starting in the vicinity of Seranton. The entire anthracite field will be covered. The Shamokin convention, which Mr. Mitchell read as the basis of the demands of the miners is—First, for an increase of twenty per cent. in wages of those not engaged by the day; second, a reduction of 20 per cent. in working hours of those engaged by the day; third, the payment for coal mined by weight at a minimum rate of 60 cents per ton of 2,240 pounds; fourth, a wage agreement between the operators and the miners for adjustment of wages. But it was apparent that the recognition of the miners' union would be an important and knotty problem for the arbitrators.

Preceding the discussion over opening the books to the experts, Mr. Baer said the operators would be prepared to meet the miners in the region and to assist in giving all information. Many of the individual operators are not represented, and they were not consulted and were not compromised by the letter he had written. Judge Gray suggested that they could be represented. At the meeting next Monday they would determine which of the companies could be taken up first, and the place of meeting could be determined by the location of the coal company taken up. Mr. Baer made a point of saying that the case of each coal company would be dealt with separately. He would contend for the sliding scale in the regulation of wages. "I shall urge the adoption of that profit-sharing plan," he said, "which gave us peace formerly in our relation to our employees."

Mr. Thomas, of the Hillside Iron

& Coal and the Pennsylvania Coal Company, said he noticed that the word "arbitration" had been applied to the commission's work, while he wanted it considered as an investigation. Judge Gray said the President's instruction settled that as an arbitration.

Mr. Truesdale said that his company had a plan by which it was hoped to speedily adjust the differences between his company and the men. This plan was for the miners to appoint a committee to meet a committee of his company and discuss their grievances, and if there were any such that could not be settled, then those issues should go before the commission for the final arbitration. Mr. Mitchell said, "if we are able to agree as to what rates are paid for different classes of workmen, their monthly and annual earnings, that would form a basis of any arguments that might be made on either side."

SAINTLY SCAMP

Sold Women Bogus Divorce Decrees in Paris at Very High Prices.

Paris, Oct. 27.—The great Humbert swindle has a rival in the series of frauds now laid at the door of a coterie led by Canon Rosenberg, Abbe Guillot and a banker named Malleval, among whose associates were an alleged prince, a baroness and a dramatist. Their operations have just been brought to light through complaints made to the police by Mrs. Civet, a woman of independent means, who, on the advice of the abbe, had intrusted \$100,000 to Malleval, who disappeared.

Mrs. Civet was drawn into the dealings with the people she now accuses through her desire for a separation from her husband. She had procured a civil divorce and wanted an annulment of the religious ceremony. Malleval, going by the name of Gadober and calling himself the grand chancellor of the archbishopric of Smyrna volunteered to intercede with the pope in her cause for \$12,000. He got the money, spent it and was arrested. Rosenberg then promised to use his good offices at the Vatican, but nothing came of his promises, and Mrs. Civet finally, realizing that she was fooled, went to the police.

Rosenberg has a fascinating personality. He is tall, handsome, has engaging manners, is a brilliant talker and inspires confidence. Some who refuse to believe that he is not the saintliest man on earth. His parents having made a sensational conversion to catholicism at Tours, he went into the church and in 1885 obtained the canonry of Tours, but his business instincts got ahead of his religious inclinations. Some time later certain fitted women who had followed his counsel found themselves penniless, and he himself had become bankrupt with liabilities amounting to \$625,000. Then he was suspended by his superior.

His next move affected pious women who desired divorces. It is alleged that he passed himself off as the bishop of Cyprus, that he said he had been appointed vicar-general by the Marquis archbishop, who has the power to annul marriages without appealing to the pope, and he is accused of granting imaginary divorces to sanctimonious women. This brought him in a handsome revenue, it is reported, until Mrs. Civet's action put an end to the business.

Rosenberg is also charged with sending young women to gamble for him at Monte Carlo, and with ordering wine on credit and selling it wherever he went. His audacity knew no limit.

Boudaine was an extraordinarily clever man, and it is asserted that he operated with signal success in France, South America, Holland and England. Boudaine is said to have had a telephone through which, when he had a prospective client in his office, he held imaginary conversations with men like J. Pierpont Morgan and Baron Rothschild.

WAGGONER DEAD

His Relatives Claim That When Rational he was the Atheist of Old—His Conversion.

Marshall O. Waggoner, the man who made himself famous throughout the country by his public denunciations of the Bible, and who, two years ago, brought further attention to himself by his claims of conversion to the teaching of Christ, died Friday night at the Emergency hospital from old age.

Mr. Waggoner was ever an eccentric character. The things he said one day were the opposite of his statements of the day before. Although claiming to be converted, it was his order, when taken sick, if he died, he was not to be buried by a church. He will be given a Masonic funeral.

His relatives say that the conversion of the famous atheist was nothing more than the fickleness of a mind made childish from grief and sickness. Previous to the time of his conversion, Waggoner with his second wife, the woman he loved, in his peculiar way, went to Europe on a pleasure trip. Many valuable things were brought home with them, among them a valuable oil painting. When he arrived at Toledo he traded the painting for a horse, which ran away and killed his wife.

All his life he had espoused the cause of atheism. A year after the tragic death of his wife he found several papers and letters she had written expressing her strong belief in the Christian faith. The fact that she had born all his aggressive language against the faith that she believed in, without ever complaining to him or antagonizing him about his belief, overwhelmed him.

At that time the gramophone had just been invented. He became interested in the working of the machine, and purchased one of the best obtainable. Evenings he would sit in his study with his talking machine, and listen to its unusually clear tones still brooding on the death of Mrs. Waggoner. One evening as he sat in the gloom, as was his custom, the sweet notes of "Nearer, My God, to Thee," came from the instrument. He listened spellbound. Then came the grand old hymn, "Jesus, Lover of My Soul." When the last notes died away, the old man, who for over 70 years had cursed God and all believers in the Almighty, fell on his knees in prayer.

The morning light found him still kneeling before the gramophone praying. A little later he started his acquaintance by espousing Christianity, and burning his valuable library of infidel works.

CURE SICK HEADACHE.

Floyd Dyer, a Detroit street car conductor, and, realizing that he was far from well, he came to Detroit to live with his nephew and Mr. Dyer's father-in-law, Samuel Alexander, the well known horticulturist, of Birmingham. "Uncle Marshall, in my opinion, never was really converted," said Mr. Dyer to-day. "At times, in fact, quite frequently, he would rouse himself out of his nervous state, while conversing with someone, and become himself again. At those times he would rave against religion as much as he ever did."

"Although at one time well off, he died practically worth about \$2,000, the result of his fortune. He would drive a sharp bargain, and the next moment would throw money left and right. When his Persian cat died he had a coffin valued at \$15 made to bury him in, and was indignant because the authorities refused to let him put it in the cemetery."

LEAVES ON THE TRACK.

East Liverpool, Ohio, Oct. 26.—While descending a steep hill in the central part of the city to-day, a street car of the East Liverpool & Rock Springs line became unmanageable, the brakes refusing to work on account of leaves on the track, and despite the motorman's efforts to stop it, dashed wildly down the hill, left the track and ran nearly a square over the paving bricks, finally stopping only a short distance from the river. John Wallace, a pottery worker, leaped from the car, fell seriously hurt. Motorman C. R. Rauch escaped by jumping. There were eight passengers on the car and a panic prevailed among them.

IT IS DOUBTFUL

If Local Application Alone Ever Cured a Case of Catarrh.

Most remedies for the treatment of catarrh, are in the form of sprays, inhalers, powders, washes of salves, all purely local applications and many of them often give temporary relief, but the reason some of them ever really cure chronic catarrh is because catarrh is not a local disease and it cannot be cured simply by treating the local symptoms. The more serious forms of catarrh, like catarrh of the stomach and catarrh of the bronchial tubes, cannot be reached at all by local applications and the fact that neglected catarrh of the head very soon involves the bronchial tubes, stomach and liver, demonstrates that the disease is a blood disorder, a constitutional malady and not at all a local disease. To really cure catarrh the system must be cleansed from catarrhal poison by an internal remedy which acts effectively upon the blood and liver.

The success of Stuart's Catarrh Tablets is because it drives out of the system, through natural channels, the catarrhal poison and the mucous lining of the nose, throat and trachea are freed from the excessive mucus which collects and causes the hacking, spitting and gagging, because the excessive secretion is not furnished from healthy blood.

Stuart's Catarrh Tablets contain many of the same valuable antiseptics used in sprays and inhalers, but instead of being applied to the inflamed membranes of the nose and throat they are taken into the stomach and thus reach the blood, the real seat and cause of the disease.

Too many cooks make cowards of us all.

MURDER CHARGED

Husband Disappears Suddenly and the Wife is Arrested in Toronto.

Chicago, Oct. 26.—The arrest of Mrs. Augustin Laubeg, in Toronto, on Oct. 18 on charges of shoplifting leads the police here to believe that she is the same woman as Mrs. Augusta Meyer alias Laubeg, who disappeared from her home at 285 North Franklin street on Monday morning, October 6, fearing that she would be arrested for the murder of her husband.

Suddenly Left Chicago.

When Mrs. Meyer disappeared from her home here, 285 North Franklin street, on Monday morning, October 6, fearing she would be arrested for the murder of her husband, she told a lodger in the house that she was going to the bank and would return, but she failed to do so. She took her nine-year-old daughter, Marie, with her, but took no clothes or furniture from the house.

Husband's Disappearance.

The attention of the police was called to the Meyer case by the discovery of human bones buried under the basement at 21 Charles place, the former home of Mr. and Mrs. Meyer. The husband had disappeared mysteriously early in 1901 from the Charles place home just previously to Mrs. Meyer moving to Franklin street. When questioned by the police, Mrs. Meyer claimed that her husband was in California, and she produced a letter purporting to have been written by him, but dated the same day. This is the only letter from him she could produce. No other friends to whom he pretended to write after arriving in California have heard from him, and the police search in San Francisco has failed to locate him.

Several days before the disappearance, Meyer, who had a newspaper stall on a street corner, told several of his friends that he was going to California in search of better employment. He was to have been accompanied by his wife's brother, Magnus Koepke. Meyer had saved \$2,500 and intended to open a restaurant in San Francisco. On the day of his disappearance he and Koepke were seen to go to the Grand Central depot, but an expressman, Thomas Martin, stationed at the corner, saw a man, whom he knew, return to a street car. Koepke was also seen later near the home on Charles Place.

Other Evidence.

Geo. Blickhausen, living next door, is positive that he also saw Meyer return and enter the house, and later heard sounds of a fierce struggle in a room on the second floor, followed by death-like silence. The struggle and subsequent silence was also noticed by Blickhausen's mother. Mrs. Meyer claims that her brother is now in Africa, and cannot tell what has become of Meyer's savings. She admits that he gave her part, but does not know how much. In February 1901, several days after the disappearance, a number of arrests were made, but as no evidence could be found the parties were released.

HER ARREST IN TORONTO.

A woman giving the name Augustin Laubeg was arrested in Toronto in T. Eaton's departmental store on October 18. She had \$1,063 concealed in her clothing at the time. When arrested she was with her ten-year-old daughter Marie. The child has been noted stealing ribbons in the same store a few days previously, and had been allowed to go with a warning. She was seen again and watched closely the day before the arrest. On Saturday, October 18, the mother and child were seen in the store and the child was caught stealing small articles from a counter and talking to her mother. A message was sent to Detective Blickhausen, who went to the store and arrested the two. The money found on the woman consisted of three \$100 bills, four \$50 bills, and the balance in \$10 and \$5 bills. The detectives visited Mrs. Laubeg's rooms at 166 Centre avenue, and found there three bundles of wearing apparel, which were believed to have been stolen from departmental stores.

Mrs. Laubeg said she came from Germany to New York about three months ago. She claimed to have come to Toronto only ten days before the arrest. She stated also that she was a widow, and had saved up money from her earnings at housework in Germany and New York.

In the police court here Mrs. Laubeg appeared on Monday, Oct. 20, pleaded not guilty and was remanded for a week. Her case comes up this morning.

CURE OF CONSUMPTION.

London, Oct. 26.—Great interest is felt throughout Europe in the first meeting of the International Tuberculosis Congress at Berlin last week. Some of the proceedings were too technical for popular discussion, but astonishing progress is already recorded in conquering the deadliest malady of the human race.

Thus, the English delegate reported that the death rate in the United Kingdom in 1898 from consumption was 38 per 1,000. This has been reduced to 13, or more than 60 per cent.

The delegates to the congress last week visited the great public sanitarium in the pine forests, an hour's ride from Berlin. They found there not only the finest modern equipment for the cure of the disease, but what Professor Brouardel, of Paris, described as an entirely novel and momentous experiment in the realm of social policy. These great institutions provide every accommodation at public expense to working-class victims of the scourge. The delegates were very much impressed and the English representative declared his intention to induce a deputation of English workmen's friendly societies to visit the sanitarium.

It requires a lot of nerve to tell some men the things they ought to know.

NAMED AFTER A SQUAW

How Fort Garry's Name Was Changed to Winnipeg

An interesting story of how the name of Fort Garry came to be changed to Winnipeg was told to The Globe by Mrs. Charles Garratt, of 88 Teraville street, Toronto.

Mrs. Garratt is an aged woman, and her recollections of Fort Garry in the sixties and early seventies is now food for pleasant retrospect.

It was while thus engaged that they met their most serious reverses. Mrs. Garratt had returned to Toronto to endeavor to repair her health...

A WORD TO FARM TOILETS

Paine's Celery Compound

The Home Friend of the Farmer and His Family in the Autumn Season.

After the labors and toils of the summer time, and harvesting crops in early autumn, many of our farmers, their wives, daughters and sons, find themselves in a condition of health demanding careful attention...

To the thousands of rickety, sickly and half-dead men and women in farm homes we recommend with all honesty and confidence the worker's friend, Paine's Celery Compound...

WORLD OF SPORT

FOOTBALL

A meeting of the executive committee of the Chatham football club is called for this evening, where it is earnestly requested that every member be present.

THE LEAGUE TEAM.

The management of the Chatham club urgently requests all the players to be out in uniform for practice tomorrow evening, when the team to play Wallaceburg here on Saturday will be selected. Wallaceburg has a strong fast team, which has already given Chatham a hard tussle and Captain Fetterley is anxious to have the best eleven possible on the field Saturday—and in shape for the game. The practice will commence at 4.30 sharp.

The closest and best contested game of the football season was played on Tuesday last, which has already been between the High school and the Business College.

In a game a few weeks ago the College was defeated three goals to none but since had been doing a little practising and gave the Institute boys a hard fight. Captain Sisson, of the High school team, has his boys in good condition and is bringing out some good material. Among the smaller boys Martin and Dennis are coming stars.

The game yesterday afternoon was a hard fought contest with odds a little in favor of the High school. At the end of time neither side had scored and it was agreed to play an extra fifteen minutes, seven and a-half each way, and still no scoring was done. Another game will be played before long.

The line up was as follows:

C. C. I.
Goal—Thomas.
Backs—Sisson, Wardell.
Half backs—McQuarry, Parrott and Ogilvie.
Right wing—Warrock, Martin.
Centre—Bob Campbell.
Left wing—Dennis, Williamson.

C. B. C.
Goal—Boley.
Backs—McNaughton, W. J. Mounteer.
Half backs—O'Rourke, Lister, Reid.
Right wing—Shupe, Schriren.
Centre—Ford.
Left wing—Duffer, E. S. Mounteer.

Referee—H. W. Anderson.
Goalkeepers—McQuarry and Bates.
Line men—Paterson, Fetterley, Mercer and Abram.
Frank Thomas, in goal for the High school, was quite badly injured in the first part of the game.

WINDSOR WINS.

Windsor defeated Sandwich at Walkerville on Saturday by a score of 3 to 1 in an exciting and fast game of football.

WINDSOR WHINES.

Concerning the game the Windsor Record says:

By winning this game Windsor retains the lead in the western division of the league and stands an excellent chance of playing in the finals. Chatham, in the eastern division of the Peninsular league, is having things her own way and from present indications will be the only formidable opponent Windsor will have. It is the opinion among local football experts that the Chatham team is playing minor organizations for the purpose of cutting down travelling expenses and at the same time deriving valuable experience from the games. From time immemorial the keenest rivalry has existed between the two towns in all branches of athletics and it has always been the highest ambition of the Maple City to sweep Windsor at every opportunity. The Walker cup for which the different teams are playing, is a trophy which has seldom left this city, and when it did go Chatham was the loser. It is sincerely to be hoped that the public will encourage the boys in their worthy effort to revive the game once so popular in this part of the country. The reason for the failure of these treatments is, that they do not reach the seat of the trouble, and hence do not remove the cause, as does Pyramid Pile Cure. A little book describing their cause and cure, is published by the Pyramid Drug Co., Marshall, Mich., and anyone may procure a copy by sending name and address to above firm. As showing the estimation which this remedy is held by the public it may interest the reader to know that its sales now exceed those of all other pile remedies combined.

NERVY FOOTPADS

A Well-Known Windsor Lawyer Badly Beaten in Street by Them.

Windsor, Ont., Oct. 27.—J. W. Hanna, one of the prominent criminal lawyers in Western Ontario, was brutally beaten last night near his home in Windsor. In the fight with his assailants one of his ankles was broken, and when he lay on the ground the two men who had attacked him kicked him in the face. The attack took place about 11 p.m. on Crawford avenue, and Mr. Hanna and his friends find it impossible to ascribe a reason for it. The first notice Mr. Hanna had was to see two men step out of the darkness beside the walk and hit him with a club. The street is dark at the point, and Mr. Hanna, in resisting the pair of ruffians, stepped from the sidewalk, and broke an ankle that had suffered similarly before. He managed to call for assistance, and the men fled when relief seemed about to appear. The more of the men is suspected to have been robbery, but they secured nothing.

An exchange remarks that "marriage for a girl is a profession." And now and then we find one who takes several post graduate courses at it.

Theatrical

A TRIP TO COONTOWN.

At the Grand Opera House tomorrow night.—The popular taste for music has made of the Coon song a fad. The doings of the well darkey and his lady friend have been preserved in many humorous ways, sometimes very nearly bordering on vulgarity, thus ostracizing it from the house of the theatre-goers, who, perhaps, have applauded it at the play more for its quaint and catchy music than for its unquestionable suggestiveness.

The songs used in Pope & Brown's production, "A Trip to Coontown," are examples of the highest type of polite composition given that class of songs, having for its titles expressions frequently used by the darkey in his most serious or humorous moments, such as "I hope these few lines will find you well," "I wonder what is that Coon's game," "There is a warm spot in my heart for you, Babe," "Mr. Coon, you are well right in your place." In all of these subjects the verses are free from any suggestiveness or vulgarity, while the music abounds in jingling and catchy bits that at once place you in good humor and start you humming, enjoying the confidence you can continue to hum the melody after you have reached home and tried it on the piano.

In all the songs written by Messrs. Cole & Johnson the object has been to make them popular in the homes and large sales of their songs in the music stores through the country proves conclusively that they have not failed in this end.

To hear this unique style of song sung in the best possible manner attend a performance of "A Trip to Coontown." That its fresh and pleasing situations, its humorous dialogues and melodious singing will delight you goes without question. It is a charming novelty in these days when we are given to saying there is nothing new under the sun. To witness one performance will convince the most skeptical. The production enjoys the reputation of being reviewed and endorsed by America's foremost critics, a distinction never given a performance done by colored artists. Allen Dale, of the New York Journal, Acton Davis, of the New York Sun, Mr. Nixon, of the Chicago Inter-Ocean, are among the celebrated critics pronouncing it a success, and Pope & Brown Company are the best of color on the stage.

ABSORBING PROBLEM

Of the Present Hour

The absorbing problem of to-day is, how to expend one's income so as to attain the best results; that is, get full value for one's money.

It may truthfully be said that this has been, is, and always will be an absorbing problem to those with limited means; but the fact remains that, with the price of living necessities constantly rising, one must band one's resources more carefully than ever before if he would live within his income. In saying that prices are rising, we except one article which has come to occupy a prominent place in the family medicine chest, and that is the specific for piles or hemorrhoids known as Pyramid Pile Cure; this remedy is still sold by druggists at the old prices of fifty cents, and one dollar, and these prices will remain unchanged. Those to whom this preparation has brought relief and a cure after years of suffering do not need to be told of its merits; others are advised that it is the greatest boon ever discovered, to all those afflicted with any form of piles; it is in suppository form, is easily applied, reaches the seat of the complaint, and gives immediate relief and a lasting cure.

The reader may have tried salves, ointments and lotions without benefit, and feeling that his money has been wasted, resolves to suffer on rather than experiment farther. The reason for the failure of these treatments is, that they do not reach the seat of the trouble, and hence do not remove the cause, as does Pyramid Pile Cure. A little book describing their cause and cure, is published by the Pyramid Drug Co., Marshall, Mich., and anyone may procure a copy by sending name and address to above firm. As showing the estimation which this remedy is held by the public it may interest the reader to know that its sales now exceed those of all other pile remedies combined.

If a man be true, his friends and lovers will see to his dignity.
