

# MAGYARS HAPPY IN CANADA

## THE BRUNSWICKAN

CANADA'S OLDEST OFFICIAL STUDENT PUBLICATION

VOL. 89 NO. 22 FREDERICTON, N.B., FRIDAY, JANUARY 18 Price 5 cents per copy

Above are pictured representatives of the students and Faculty of Sopron University who passed through the UNB campus on their way to the University of British Columbia. They are pictured with Dr. Colin B. MacKay, president of the University.

### "FREEDOM TRAIN" MAKES FIRST STOP IN FREDERICTON

The 'freedom train' which is transporting the Hungarian students, from Sopron University, across Canada made its first stop on Monday and Tuesday. The first North American University that the Hungarians had an opportunity of seeing was the University of New Brunswick.

Perhaps the first thing that was noticeable to the students here was the happiness which seemed to prevail among the two large bodies of Hungarian students. They seemed to be glad to be in the Country which had 'adopted' them after the revolution in their homeland.

As they were shown about the university they were inquisitive and willing to learn. The interpreters, who spoke mostly German, could find nothing but praise for the students from behind the iron curtain.

The work of showing the students around the campus was successfully done by the Forestry Association, from their ranks most of the interpreters were found, and most of the organization was achieved. The Foresters themselves had raised the money to pay for incidentals on the visit. The Hungarians were provided with cigarettes and Year Books. With the latter they seemed very contented, they found the survey of campus activities an admirable introduction to the student life in a Canadian University.

Perhaps the two most distinguishing features of our guests were the lack of scars of battle and, to a Canadian, the huge

quantities of hair. The first was a welcome but unexpected sight, it seemed amazing that a body of men who had held out against troops for a week, and left the country with their guns still in their possession, could be left unmarked. As for the hair one of the students claimed that he would not get it cut until the Russians had left Hungary. The general consensus of opinion suggested that his hair was going to grow quite long.

Needless to say the students were all sorry to have to leave the country of their birth, and the people they knew and loved, but they seemed to think that if they had to leave there were few better places they could have come. So they continue their journey out to the University of British Columbia with only one complaint, and that quite a general one at this time of year, the cold.

## SRC DANCE A SUCCESS

### STUDENT AWARD POINTS REVISED BY COUNCIL

Highlighting the first spring meeting of the Student Representative Council was a report on the highly successful dance held in the Students Centre Saturday night last. Figures reveal that 400 students attended the affair, bringing a net profit to the SRC of \$62.60. Discussion followed as to the exact nature of the dances in the future. The original proposal allowed student organizations on the campus to sponsor the dances one a week and receive the profits derived therefrom. Final recommendation of the SRC, following considerable and heated discussion, allowed all student organizations to hold the dances, with the stipulation that the SRC receive 20% of net profit.

Miss Pat Millar, 2nd. Vice-president, then took the chair to lead discussion on the revised statement of Student Activity Awards. These awards allow outstanding work achieved in students at UNB recognition for campus organizations other than athletics. The awards, grouped in four classes are computed on a point system. Lengthy discussion ensued regarding the respective merit of certain point awards. Among those dealt with specifically, were changes in the AAA, Drama Society, SRC, Social Committee and Brunswickian. The report was finally accepted.

WUSC official, Ron Pearsall, expressed the opinion that the World University Service desires closer contact with the SRC. He suggested a person on the council be appointed official spokesman for WUSC. Mr. Pearsall singled out the Vice-president as the most likely candidate. Vice-president McAllister pointed out that the duties of the Vice-president were heavy as it is, and any further responsibility might prove excessively onerous.

WUSC also made it known that they solicit a \$100.00 bursary from the SRC to augment the \$500.00 currently awarded the WUSC overseas Scholarship winner. President MacDonald reminded the council members that this years council has no power to sanction expenditures involving next years council. Mr. Pearsall had stipulated next fall as the time for the award. A motion allowing for instruction

### ISS Meets Tonight

Will Discuss Hungarian and Mid-East Situations

The meeting of the International Student Society which was scheduled for last night and was postponed, will be held tonight. The location and time will be the same—the Oak Room of the Student Centre at 8 p.m.

On the agenda for this, the first meeting of the term will be the election of officers, followed by a general discussion. The subject of the discussion will be the situations in the Middle East and Hungary. In addition to these two activities the society will discuss plans for its forthcoming dance, and for the Winter Carnival. The meeting will close after a short film on international trade and co-operation has been shown. The faculty advisor to the Society, Professor Miller of the Philosophy department, will preside over the meeting.

### Campus Calendar

Saturday, Jan. 19—Semi-Formal, 8:30 p.m., Student Centre.  
 Sunday, Jan. 20—Film Society Presentation, 8:30 p.m., Memorial Hall.  
 Monday, Jan. 21—WUSC Meeting, 7:30 p.m., Oak Room, Student Centre.  
 Radio Club Meeting, 7:30 p.m., Electrical Engineering Building.

to next years council on this matter was passed.

### CONTRIBUTIONS NEEDED FOR ART FESTIVAL

The Festival of the Arts which is to take place in the Art Centre from February 3rd to the 10th solicits creative work from all members of the University. Both the students and the faculty are eligible for this competition. The arts for which exhibits are required cover wide fields: painting, handicrafts, carving, music, photography, poetry, and any other written material.

People wishing to enter these competitions are asked to bring their exhibits to the Art Centre before January 30th.

### YEAR BOOK PHOTOS BEING TAKEN NOW

The Photo Editor of the Year Book, Ian Mathiason, announces that all Societies must make arrangements for their year book photos before next Tuesday.

The following societies have still to make arrangements with Mr. Mathiason, the Intermediate and Junior Class executives, the Band, Radio Club, NFCUS, the executive of the Lady Beaverbrook Residence, the Ladies Society, the Education, Engineering and Debating Societies, and the Curling and Flying clubs.

It is essential that if the deadline for the Year Book is to be met that these clubs have their photographs taken. The result of procrastination will be a late Year Book.

Engineering Society Meeting, 7:30 p.m., Civil Engineering Building.  
 Tuesday, Jan. 22—Ski Club Meeting, 7:30 p.m., Oak Room, Student Centre.  
 Thursday, Jan. 23—Business Administration Society Meeting, 7:30 p.m., Oak Room, Student Centre.  
 Saturday, Jan. 24—Semi-Formal, 8:30 p.m., Student Centre.

## CARNIVAL AHOY!

### UNA Offers Sculpture Prizes

CARNIVAL PARTICIPANTS ATTENTION! — Have you ideas for a United Nations snow sculpture?

A prize of \$50.00 in cash and rewards in the form of valuable United Nations games have been offered by the Vice-President of the United Nations Association in Montreal, Mr. Albert Rakovsky, for the best performance in any category of participants for snow sculptures who have as their theme an idea expressing an activity of the United Nations, or one world. These special prizes have been offered for the U.N.B. Winter Carnival.

The U.N.A. in Fredericton will gladly supply literature, posters and information to participants who want ideas or wish to study details. Entry forms can be obtained through the Carnival students' Committee. The contest is open to everyone in the Fredericton area, both on and off the campus. Sculpture judged by the local UN organization.

### Tickets Go On Sale Next Week

Here we hope to answer the many queries which have been heard about the campus during the last two weeks concerning tickets for the forthcoming Winter Carnival. Tickets will go on sale on Wednesday 23rd of this month, price one dollar.

The tickets will be on sale from that date on at the Library and the Bookstore. There will be booths in the Forestry, Arts and Engineering buildings from time to time and at Creaghan's and George's during the afternoons. In addition the tickets can be obtained from members of the Student Council and from members of the Carnival Committee.

This, the second year of the Carnival, will see a restricted sale of tickets for the first time. Only two thousand tickets will be sold for this popular event. The committee reminds prospective buyers that tickets can be bought for individual events but by buying a ticket for the three days a considerable amount of money can be saved.

## FOR ENGINEERS ONLY . . .

There are many firms coming to the University during the next week, but they seem to be interested in only half the graduates. Of the six companies who will have representatives on the campus five of them wish to see only Engineering graduates. The others will see graduates in science. The arts and business graduates seem to be completely ignored.

Here is the schedule for the following week:

Jan. 17, 18—Canadian National Railways, Trophy Room, Gymnasium—'57 Graduate & Undergraduate Engineers.  
 Jan. 17—Avro Aircraft, Ladies' Rest Room, Gym—'57 Graduates: Engineers and Science.  
 Jan. 21, 22—Hydro-Electric Power Commission, Ontario, Students' Centre—'57 Graduates: Engineers.  
 Jan. 23—Factory Mutual Engineering Division, Massachusetts, Trophy Room, Gymnasium—'57 Graduates: Engineers.  
 Jan. 23—Ford Motor Co. of Canada, Students' Centre—'57 Graduates: Engineers.

### Inept and Inactive . . .

One of the latitudes allowed a newspaper editor is the right to publicly castigate groups or organizations, allegedly operating for the public good, but in reality, doing little or nothing to justify the position of trust placed in them by their subscribers. The "Brunswickan", his year, has modestly refrained from this practise, hoping that in time, the deficiencies would dissolve themselves. However, clinging tightly to the responsibility we fondly feel is still ours, as a student newspaper of the University of New Brunswick, we can no longer refrain from comment on at least one such group. In this case, time seems to have failed miserably in its curing process; failed, unless we are to regard silence, immobility and incompetence as symptoms of good health.

It was only last spring that the Brunswickan launched a program designed to acquaint the students with the deficiencies of the local committee of the National Federation of Canadian University Students. The end result was a student referendum that indicated, on the surface at least, an overwhelming confidence in NFCUS. Immediately preceding the vote and directly afterwards, the committee in question indulged in what were, to some extent, activities partially justifying their position. Since that time, not only has nothing further been accomplished, but what progress that had been made was nullified through a complete break-down of activity.

It is fairly common knowledge that the students contribute about \$500.00 a year to the National Federation. In the past, the "Brunswickan" has been reproached for assuming that you, the student, should expect some return on your investment. "The returns are not tangible . . . they are national in scope . . . one cannot measure them in dollars and cents." Now, that's all well and good. However, the problem remains: in what, exactly, are we to measure our return on investment? Surely not in terms of incompetence, waste and stagnation? Yet that's all the student at U.N.B. can observe.

As far as we can determine, there are only two emphatic activities of NFCUS: the National Conference and the International aspect. As for the first, its intrinsic value has never been questioned; yet its practical advantages, as evidenced in our representatives at least, are negligible. Each year, delegates from all parts of Canada congregate for a few days to, as the name suggests, confer. The inspiration and spiritual uplifting are apparently, of vast proportion. Yet, the life of this inspiration must be inversely proportional to the distance home from the conference; for, excluding one very enthusiastic speech to the SRC, nothing more takes place.

The latter aspect, that of the International program, we will be the first to applaud. If this were the only program of the National Federation, we would support it unquestioningly. To shoulder the responsibility for Canadian student representation abroad, and do such a magnificent job, is truly an accomplishment of which to be proud. Unhappily, however, the Federation indulges in several minor activities which invariably run amuck. In addition, about two-thirds of the total national budget is allocated to salaries.

During the annual conference of the Canadian University Press, representatives of U.N.B. had the good fortune to exchange a few words with the National President of NFCUS, Mr. Gabriel Gagnon. We were, naturally, curious to discover if the situation at U.N.B. was common. Much to our astonishment, we found out quite the opposite. It is sufficient to report that Mr. Gagnon was appalled at the condition of NFCUS at U.N.B.

The only way for a university to benefit from NFCUS is to have a strong, active and imaginative local committee. It has been remarked that the local committee is not important; yet we maintain that the only way the value and benefits of such a National organization can be impressed upon the students is through decisive local action, involving the student directly. We are not advocating another referendum. Apparently it did not work. The only way to achieve success is to bring the local chairman of NFCUS before the students' council and dismiss him! At that point, another chairman should be found, whose capabilities would more easily be directed towards activities of this sort.

### Letter to the Editor

"NO DRINKING" SAYS TUXIS

EDITOR,  
The Brunswickan,  
Sir,

It is a sad antithesis that we, who look with admiration on Hungarians standing by their convictions of government, morals, and religion even in death, have not the intestinal fortitude to stand for our better judgment in danger of appearing as individuals with minds of our own.

One student society felt its lack of popularity was due to its failure to organize during the first month a certain function improperly named a "Smoker". Certain faculties tried to outdo each other in consumption ratios as their smokers. Shortly before Christmas even the girls proposed plans for a smoker of their own, asserting their ability to feel as little pain as boys do. The general male attitude on the campus was: "That's okay for us, but not for the girls. I drink myself, but I don't want MY girl to drink!"

Reasons for not wanting a select group to drink apply to all with equal gravity. Anyone with the ability to enter college knows full the dangers and liabilities connected with it, and I do not propose to spend this space preaching negatively. On the positive side, if any readers know anything alcohol has done constructively apart from the erection of both male and female alcoholic wards in the Provincial Mental Hospital, please let me know immediately.

If you can prove drink will help me save money, drive my car better, get better university marks, feel more at ease, or increase my powers of reason and judgment, then I will immediately resign my position and invest my savings in that Queen Street building nefariously indicated by a sign reading: N.B. Liquor Control Board.

So often an abstainer is encouraged, begged, insulted, and bribed by danger of losing popularity to take that first drink, and this brings satisfaction once more to those who hate to see someone with far superior will power standing aloof from their inability ever to say "NO".

In an institution where we attempt to find and discuss the truth, why can't we also practice truth in everything? Instead of saying: "I'm going to the Smoker to have a ball", say: "I'm going to the Drinker to go broke, spend the night in jail, and feel rotten for a week." To that you reply, quite hurt: "But we can handle our liquor!" You will have to demonstrate that first of all, because I too have attended and know just how well students handle it.

The sign in front of military bars is quite regularly: "Men come in; dogs stay out!" I propose it is the men who stay out. I was tempted to present this opinion before Christmas, but I feel it now bears far more weight with the unanimous support given by the ninety members of the only organization attempting effectively to represent the high school and university students of the Maritime Provinces. I refer you to the official journal of the Thirty-fourth Session of the Maritime Tuxis and Older Boys' Parliament, page ten, Resolution Number Two, which states:

Be it resolved:  
That we, the members of the Thirty-fourth Maritime Tuxis and Older Boys' Parliament, continue to abstain from the use of alcohol and show a strong influence against its use, especially in our schools and colleges.

I will not go into the Parliament as such. Suffice it to point out two Provincial premiers and Canada's greatest commentator John Fisher as former members and presently active advocates of this conference and parliament system. If you have not the courage to stand with these true leaders and future leaders because "the gang" might laugh at you in your honesty, then at least express an anonymous opinion in our university paper or to me, as several have done, of your intentions to earn respect now and later at the cost of erstwhile friends who are too ashamed even to call a Smoker by its proper name.

Malcolm E. Harris,  
Premier  
Maritime Tuxis and  
Older Boys Parliament

Editors note:

We might point out that any letters submitted to the Brunswickan in the future should be of reasonable length. The above was printed in full only because it was felt that the views expressed must clearly be those which influenced the founders of our province.

### SMT will run a Special Ski Bus

A ski bus will run to the hill on Saturday and Sunday. The bus will leave the SMT terminal at 9.15, and go to the hill via the campus. Skiers may stop the bus anywhere along its route.

### Letter to the Editor

The Editor,  
The Brunswickan,  
University of New Brunswick.

Dear Sir:

The November 30, 1956 edition of the Brunswickan featured an article on the 1956 U.N.B. Christmas cards. At the time of issue, it was dubious as to how the students would accept a different card from that offered in previous years. The response has clearly indicated that the students want quality, simplicity, and design in a University Card.

We would like to take this opportunity to thank the students for their wonderful response to the sale of these cards. To those students who were unable to obtain them, we extend our apology. However, we could hardly have anticipated the large increase in sales which has occurred. Sales this year increased by over 200 dozen cards.

The University has long felt the need for a higher standard of Christmas card. We endeavoured to fill this need to the best of our ability, at the same time retaining the moderate selling price.

We are pleased that we were able to present such an acceptable card and it is our sincere hope that a high standard card is maintained in the future.

Yours very truly,

Bill and Roy McEwen.

**Marvin J. Meloche**

"Too full o' the milk of human kindness to catch the nearest way."

MacBeth 1, 5.

Twenty years ago, Dr. W. J. Wright brought to this campus a young man, well-trained and with wide experience in Geology. Between the two of them they performed the almost herculean task of organizing and administrating the Geology Department and Mines Branch. Today, Dr. Wright has left the campus but his younger assistant remains.

This month, we celebrate the 20th anniversary of Dr. Graham MacKenzie, head of the Department of Geology. The department has come a long way during that time from its original two man team. Today, we have four men who have the very high degree of ability and experience to have attained the Ph.D. level in the field; we have a large and swiftly growing student body and finely equipped laboratories and highly adequate modern equipment. Dr. MacKenzie is known throughout the province as one of the men who sparked the finding and developments in northern New Brunswick. The recurring echoes of his contributions will be heard for many years in the further development of the province.

But it is neither as a successful organizer nor as a provincially known geologist that Dr. MacKenzie has endeared himself most firmly in the hearts of those who know him well. He has a quiet and unassuming dignity but he is persuasive from the very force of his ideas. He is kind, almost to a weakness, always ready to listen to and discuss the problems of his students and express a personal interest in them.

Although these thoughts express the opinion of a personal columnist, I know full well that it concurs with the universally accepted opinion of his students and associates. We know that the proud achievements of his past will merge into equally distinctive accomplishments in the future; we know too that his unflinching humility will always be with him.

**WRESTLING**

The University Wrestling program will begin with a meeting of all interested on Saturday, January 19, at 2.00 p.m. in the conditioning room of the Lady Beaverbrook Gym. Further participation in this sport will depend on the initial turnout.

At 8.30 p.m. Friday, Jan. 18, Red Raiders will be host to the Fort Kent Normal School (Me.) in an N.C.C. game. U.N.B.'s previous game with Fort Kent was won by U.N.B. 76-57 at Fort Kent. A preliminary game will be played at 6.45 between the J.V. and F.H.S. The winner of this game will take over first place in the Junior Collegiate League with both teams having won three games and losing none. This should be the best game of the season. On Saturday night at 7.00 p.m. U.N.B. Varsity Girls play Dalhousie. This is the first game of a total point series in round-robin play between UNB, Dalhousie, Acadia and Mount A for the Maritime Inter-Collegiate Women's Basketball Championship. At 8.30 p.m., the Red Raiders will match shots with the Aroostook State Teacher's College, last year's N.C.C. Tournament winners. The Red Raiders' record this year is three wins and five losses. Two victories this weekend will greatly improve their standing. Everyone should be on hand to see these fast, exciting games.

**Make Plans to Attend the Winter Carnival**

**Carolyn's Comments**

BY CAROLYN SOMERVILLE

The hockey season is now in full swing and the U.N.B. Red Devils are showing a great improvement over last year. At this time I would like to give them my congratulations on the good work they are doing.

Last Saturday night the team went down to a 7-5 defeat in Troy, New York. This indeed was a game well played considering the fact that the Devils had to play American rules. We are all waiting to see the game against Mount Allison when U.N.B. meets them during the Winter Carnival. We are also hoping for a win and from the looks of things now we are almost sure to do so. Best of luck to the team in the coming year.

**Girls At Work**

The Red Bloomers have shown that they have one of the best teams around by winning all three games that they have played. Interest seems to be lacking by the students from Up The Hill concerning girls' basketball. To keep on winning the girls need our support. Let's see they get it.

The schedule for the games to be played by the senior varsity girls is as follows:

- January 19—Dalhousie at UNB.
- January 16—UNB at Saint John.
- February 1—Mount. A. at UNB.
- February 8—Acadia at UNB.
- February 16—UNB at Mount A.
- February 28—UNB at Acadia.
- March 1—UNB at Dalhousie.

**Survival Sessions Underway**

A survival course for UNB students commenced Tuesday, January 15, 1957 and will consist of eight one-hour sessions which will be held from 8-9 p.m. each Tuesday evening.

The course is designed to equip students whose future employment will expose them to the hazards of water travel.

Subjects to be taught include swimming strokes, portage, boat and canoeing, outboard motor maintenance, poleing, boat construction and types, and water safety.

Instructors are Mr. G. W. Birch, Manager of Chestnut Canoe Co.; Prof. E. Hale, Geology Faculty; Mr. James Bruce, Student, Forestry Association; Mr. Earnest Edmondson, outboard motor specialist of Capital Garage, Fred.; Prof. W. H. Hilborn, Forestry Faculty, and L. J. Legere, Athletic Department.

**Bloomers, Dal. Clash on Saturday**

Jean Morrison's Red Bloomers go against the Dalhousie University sextet on Saturday evening in the opening game of Maritime intercollegiate play with the Maritime championship as their ultimate goal. The game will be played in the Lady Beaverbrook Gymnasium at 7 o'clock.

Starters in the game will be the following veterans of last year's team: Iris Bliss, Lois Lange, Janet Hornbrook, Peggy Colpitts, Sally Scovil, Dot McDade, Sheila Caughey, Jane McNeil and Jean Baird. Making their debut with the Varsity team will be Eileen Stiven and Biddy Wilson, freshettes from the city.

The team has lots of potential and this weekend's game will prove its capabilities as it meets one of the stronger teams in the schedule.

**INTRAMURAL BASKETBALL STANDINGS**

**Swim Meet Slated**

The M.W.I.A.U. and the M.I.A.U. Swimming and Diving Championships will be held here on March 8, 1957.

Heats in the men's events will commence at 2:30 p.m. and the order of events will be as follows:

- 1. 220 yd. free style; 2. 220 yd. free style; 3. 40 yd. Breast Stroke; 4. 40 yd. Breast Stroke; 5. 40 yd. Free Style; 6. 40 yd. Free Style; 7. 40 yd. Back Stroke; 8. 40 yd. Back Stroke; 9. 40 yd. Butterfly Stroke; 10. 40 yd. Butterfly Stroke; 11. 100 yd. Breast Stroke; 12. 100 yd. Breast Stroke; 13. 100 yd. Back Stroke; 14. 100 yd. Back Stroke; 15. 100 yd. Free Style; 16. 100 yd. Free Style; 17. 100 yd. Butterfly Stroke; 18. 100 yd. Butterfly Stroke.
- Breast Stroke (women); 11. 100 yd. Breast Stroke (men); 12. 60 yd. Back Style (women); 13. 100 yd. Back Stroke (men); 14. 60 yd. Medley Relay (women); 15. 100 yd. Free Style (men); 16. 100 yd. Butterfly (men); 17. Diving (women); 18. 180 yd. Medley Relay (men); 19. Diving (men); 20. 160 yd. Free Style Relay (women); 21. 400 yd. Free Style Relay (men).

**Intramural Water Polo**

These are the results of the first league games:

Engineers	45	9	Science	6
Foresters	19	Soph. Engin	0	
Junior Engin	13	Fr. Engin	2	

**S. C. M.**

As the starting gun for a study group on the theme "racial prejudice", Prof. Lovell Clarke of U.N.B. will give a talk on Africa at Open House this Sunday. We cordially invite you to come, and can make the promise of a spirited discussion after the talk.

**Varsity Swimmers**

Jeff Starr, for the second year, has been elected captain of the Varsity Swimming team. Jeff's specialty is the freestyle. There are twenty-four men on the men's roster. Pam McCready has been elected captain of the Co-ed Varsity swimming team. Pam's specialty is the backstroke and freestyle. She holds Inter-collegiate and Maritime records in these. Following are the dates for the first U.N.B. swimming meets: Feb. 1—U.N.B. Co-eds vs. Mt. A. Coeds; U.N.B. men's team vs. Acadia and H.M.C.S. Cornwallis.

## Unique Bridge Raising Project...

Pictured above during a C.B.C. radio interview on site are two Engineers vitally concerned with this project:

**Dr. P. L. Pratley, (Centre)** well known Consulting Engineer, designed the original structure as well as the raising operation. He spent fourteen years with Dominion Bridge gaining experience before going into private practice in 1920.

**Ross Chamberlain, (Left)** Project Engineer with Dominion Bridge started with the Company on Summer jobs, where he had experience in the shops, office and on erection work, while studying for his B.Eng. degree at McGill University. He later did post graduate work at the University of Birmingham, (England) and has been with the Company since his return in 1953.

At 27 years old, Ross, working with Senior Officials of the Company, is responsible for the engineering aspects of this great undertaking.

## ...unique opportunities for Engineers

One of the most spectacular and complicated works required for the St. Lawrence Seaway is now in progress. It is the permanent raising of the southern end of the Jacques Cartier Bridge... the largest operation of its kind ever undertaken *anywhere*.

The purpose is to provide a minimum vertical clearance of 120 feet above high water level in the seaway ship canal. An interesting feature is that uninterrupted traffic must be maintained over the bridge throughout practically all of the construction period.

The work has been entrusted to Dominion Bridge which built the original bridge in 1929. This project typifies the resources and experience of the Company in the field of structural engineering.

Dominion Bridge, an all-Canadian Company, is the foremost fabricator in this country of bridges and steel structures. Less well known is Dominion Bridge's leadership in other engineering fields. Cranes and other handling equipment, hydraulic machinery, boilers for heating and process steam requirements, mining machinery, refinery towers, pulp mill digesters, oil well machinery—these are but a few examples of the diversification of Dominion Bridge operations.

To-day we have the largest and strongest Canadian force of design engineers in our field. Much of their work is of a pioneering nature, and they are constantly being called upon to solve problems connected with large projects in virtually every type of industry. There is a never-ending challenge. This "Unique Bridge Raising Project" is only one fascinating chapter in their story.

## Build a Future with Dominion Bridge

There are interesting careers awaiting young civil and mechanical engineers in Dominion Bridge Company Limited. With 15 plants from coast to coast, we are now engaged in the largest expansion programme of our 74-year history.

You are cordially invited to write to Mr. W. Hagen, Manager, Robb Engineering Works Limited, Amherst, N.S., for descriptive booklets or further information on any question you may have in mind. Please mention this publication.

CAMPUS INTERVIEW DATE JAN. 22nd
