Committees of British Board of Trade Report on Question of Trades After the War

MANY SUGGESTIONS Imperial Conference Suggested to Utilize the Wool Resources of Empire

By Courier Leased Wire London, June 14.—(via Reuter's Limited)—The reports of several committees appointed in 1916 by the Board of Trade to consider the position of the various trades after the war, with reference to international competition, were published here this evening.

Other recommendations are that an adequate economic survey be made of the natural resources of Great Britain and of other parts of the Empire; that iron and steel manufacturers associate themselves for the purpose of export trade in the form of common selling organization and that national selling organizations be formed for the purpose of marketing British iron and steel products in an efficient and economic manner; that anti-dumping legislation be introduced, similar to that in force in Canada, and that no iron or steel be imported into the United Kingdom, which does not bear readily a recognizable mark of origin.

The recommendations further recommended that every endeavor should be made to co-ordinate economic policy of the United Kingdom with that of the Dominions and the Empire generally.

U. S. BLAMED. Amsterdam, June 14.—The United States is blamed for Costa Rica's declaration of war against Germany by the Koelnische Volks Zeitung, which says: "President Wilson will find that at the final settlement the votes will not be counted, but weighed and Costa Rica will have to account to us for all material damages, even when full allowance is made for its dependence upon the United States."

WEATHER BULLETIN Toronto, June 14.—The eastern low area is moving slowly across the Gulf of St. Lawrence with diminishing energy and an area of high pressure has come in over Lake Superior from the northward.

FOE INCREASES WEIGHT OF ATTACKS ABOUT VILLERS

Repulsed in Efforts to Reach Compeigne, the Germans Now Concentrate on New Sector—Have Failed Completely to Drive Back Montdidier Region

By Courier Leased Wire Repulsed in their efforts to reach Compeigne and to drive the French back in the Montdidier region, the Germans are increasing the weight of their attack northeast of Villers-Cotterets with the apparent hope of forcing a passage between the Villers-Cotterets forest and the Compeigne forest, and thus overrunning the French resistance east of the Oise.

South of the Aisne, on a front of three miles, the Germans have pushed back the French about one mile in two days. Bitter fighting continues in this region, and the French resistance northeast of Villers-Cotterets and Compeigne was powerful enough to prevent the enemy from advancing further westward. The Germans have a foothold in Lavresine, but have been unable to complete the occupation of the village.

While attempting to outflank the formidable natural barrier of the Compeigne forest, the Germans have shown no desire to try a frontal attack against the new French line north of Compeigne forest. There has been no fighting here, and the battle fronts west of the Oise and south of the Aisne, although closely related, have not been connected yet.

CROWN PRINCE STILL BATTLING FOR OISE

Continues Desperate Attempt to Overcome Difficult Forest Regions—Makes Very Slow Progress in Advance on Compeigne

By Courier Leased Wire London, June 14.—The German Crown Prince continues his desperate attempt to overcome the difficult forest regions barring his way into the Oise Valley, and although by heavy fighting he gets a little nearer to Compeigne, his progress is very slow.

Thursday's reports are considered satisfactory on the whole by observers here. The enemy has progressed about a mile on a very narrow front northeast of Villers-Cotterets, but the French troops are showing such determination and valor in counter-attacks, that although reports from Paris indicate it may be necessary to give further ground in face of superior numbers there exists a spirit of quiet confidence and trust in General Foch's prudent handling of the situation.

Both the French and German communiques indicate the terrible nature of the struggle in the northeast of the Oise, the Germans having to admit the loss of some guns. It is clear, too, that the American forces in the region of Compeigne are showing grit in holding off German attacks, which gives the enemy great and unexpected trouble.

LIBERAL CANDIDATE

By Courier Leased Wire Toronto, June 14.—Hartley H. Dewar, K.C., now member of the Legislature for Southwest Toronto, is to be the Liberal candidate in North Ontario federal bye-election, to fill the vacancy caused by the death of Col. Sam. Sharpe. It is said he has been promised the far a ers united support. He was called on by a number of them at the recent convention here.

THE LATEST VIEW OF RHEIMS. This is from a photo received in Canada recently, of the city of Rheims, France. At first glance it looks more like a flame swept town in upper Ontario during the shows the remains of the famous cathedral.

GIRLS' WELFARE DISCUSSED BY NATIONAL COUNCIL OF WOMEN

Variety of Matters Dealt With at This Morning's Session—Recognition of Services of U.A.D.'s Favored—Election of Officers to Take Place This Afternoon

The National Council of Women put through the majority of its adjourned business this morning, and was prepared to proceed with the election of officers immediately after the noon recess. Important communications from the U.O.D.E. were also to be discussed, it being expected that the press will be excluded from the session.

At the opening of this morning's session, Mrs. E. A. Hamilton of Toronto, addressed the Council, moving the following motion: "Resolved that The National Council of Women be asked to urge consideration by local Councils and Federated Associations of the Women's Patrol System as adopted in Great Britain and elsewhere."

The speaker outlined the progress of the Protective Agency, instituted under the auspices of the National Service Committee of the Y.W.C.A., but now established as an independent institution. All possible arrangements were taken to provide innocent amusement for the young men and women.

Women of character, between 25 and 50 years of age, were needed to carry on the work. Hamilton was now starting a Protective League, and others were likely to follow. In the United States, the agencies working along these lines had the sanction of the Government, which lent them material authority as well as moral support.

It might be found necessary, in some localities, to have women policemen to carry on the work. Mrs. George Watt seconded the resolution and Mrs. Plumtree spoke in her stead, explaining the aims of the "Girls' Patrol" standing for the protection of girls of every age and class. In this protesting the girlhood of the nation, the society was protecting the health of the nation.

Mrs. Murray of Halifax told of the Y.W.C.A. work in that city. "The best way to protect your girl is to protect the girl first," she declared. Mrs. Sanford of Hamilton recounted the work done in that city. Voluntary efforts had been made in the past, but it now seemed that further action was necessary.

The motion carried unanimously. Mrs. O. C. Edwards, in view of the number of resolutions still to be dealt with, suggested that the time accorded speakers be curtailed, the mover being allowed five minutes, the seconder two, and other speakers, limited to seven in number, one minute each.

Dr. Patterson, seconded by Mrs. Morris, moved, "Resolved that the National Council of Women, through all local councils, do urge women of Canada to conserve supply of wool by stopping the purchase and knitting of fancy woolen sweaters, thus releasing more material for making articles necessary for the continuance of the war."

MONROVIA BOMBED BY HUN SUBMARINE

Capital of African Republic of Liberia Was Shelled for Hour and a Half—German Proposed to Take Over Monrovia as Sub. Base

By Courier Leased Wire London, June 14.—(By The Associated Press)—An eye witness of the bombardment of Monrovia, capital of the African republic of Liberia, by a German submarine, has arrived in London and says that the submarine was of a large type, with two large and two small guns. The hour and a half bombardment of the city resulted in four women being killed and three persons being injured. Most of the shells fired ap-

peared to have been shrapnel. The damage was slight, except for the destruction of the French wireless station. The U-boat commander told the mayor that he intended to take over Monrovia as a submarine base. A despatch from London, April 13, said a German submarine had bombarded Monrovia, April 10, destroying the wireless station and sinking

forcing the registration of all keepers of boarding or rooming houses.

The resolution carried. Space at Exhibition. That a request go to the Board of Directors of the National Exhibition that space be granted the National Council of Women. Mrs. Hamilton, moving the above, emphasized the importance of obtaining such space in order to receive the co-operation of all federated societies in national movements inaugurated by the National Council.

Mrs. A. M. Huestis of Toronto also touched upon the importance of instructing advanced women's work in this way. The formation of a national committee in this matter was suggested by Miss Murray. Mrs. Murray of Halifax seconded the motion and both resolutions carried.

Pins for V.A.D. Dr. Patterson moved:—"That the National Council consider the training and standing of Voluntary Aid Nurses in Canada and that a badge or pin be issued in recognition of their services. Dr. Patterson pointed out that girls doing manual work received a pin at the hands of the government and felt that V.A.D. nurses should receive similar recognition, while at the same time the pin would serve as a badge of honor for regular trained nurses.

Mrs. Huestis, recording the motion, pointed out that girls doing manual work received a badge from the government. "The V.A.D. problem is yet to be solved," was a message read by Mrs. Fairbairn from Mrs. Smilie of Montreal. The latter also proposed the proposal of a badge to be given by the government.

Mrs. W. C. Tilley at this juncture read the report of the nursing committee, which deplored the suggestion of lowering the standard of training. The V.A.D. is recognized under the Geneva Convention, she said, uniform and a badge of her order, and the committee felt that further distinction by the government was unnecessary.

Mrs. Plumtree pointed out that her resolution as follows: "Ability of its resumption sooner of shenanigans, but think it probable that the issue will be decided in favor of the fact that so many of the finest young women have responded to the need for help in military hospitals and convalescent homes, and have taken the training of the St. John's Ambulance Corps, and given their services wherever needed, the National Government that it give an appropriate pin to V.A.D. workers, who have given satisfactory service for months."

Mrs. Tilley inquired whether the pins given munitions workers were not paid for by the girls. Mrs. Rose explained that the money paid was returned when the girls served for six months on munitions work. The motion carried. Child Welfare. Mrs. Mary Parr addressed the council "Child Welfare in Ontario," outlining briefly the work carried on throughout the province. The need of strong backing was felt, and an appeal was made to the council for interest and co-operation such as could be derived from no other source. Infant mortality was high in Ontario, and in the present period of national stress, when conservation of life should be at a premium.

Conserve Wool. Mrs. Carpenter, seconded by Mrs. Morris, moved, "Resolved that the National Council of Women, through all local councils, do urge women of Canada to conserve supply of wool by stopping the purchase and knitting of fancy woolen sweaters, thus releasing more material for making articles necessary for the continuance of the war." Mrs. Morris, of Peterboro, explained that the demand for wool was far in excess of the supply at the present time. Conservation was necessary, and the women of Canada should make this sacrifice, in order to conserve both wool and time. Mrs. Watt pointed out that the conservation of time was the chief object served by this resolution. Mrs. McWilliams moved in amendment. And that manufacturers be requested to cease making fancy woolen sweaters of the kind of wool of which they are knit. Mrs. Plumtree suggested that the Continued on Page Four

# CANADIAN RAILROADS

Make a Splendid Showing as Compared With States

**By Courier Leased Wire.**  
 Montreal, June 14.—Heavy comparisons of Canadian Railroad conditions with railroad conditions in a certain foreign country not far from here have come to the general secretary of the Canadian Railway War Board, in an interview today. "They come generally from a few persons too indolent to inquire the facts or too ill-natured to join the rest of Canada's shippers in speeding up the loading and unloading of cars and in filling every car to its utmost capacity. While the railroads, government-owned and otherwise, have concentrated on delivering the message to Garcia these people are digging up statistics about engine and car repairs in the United States or other data equally irrelevant as an excuse for sticking to their old fashioned selfish methods of increasing profits." "What Canadians should know and remember is this: That no foreign railway service operating over long distances, like Canada's can for one instant compare its record with Canada's railway record. Canada, with two ports, instead of a dozen, with single tracks, with hard winters, with labor shortage and scarcity of cars and engines, carried a heavier share of traffic and had breakdowns of more than local and short effect.

"This has been due to the layout of the Canadian railroads, to their experience in trans-continental operations, to Sir Arthur Harris' expert handling of overseas export traffic in co-operation with the admiralty and fast, but not least, to the Canadian Railway War Board, which has practically united the Canadian railroads into one great system for national service irrespective of which road obtained most of the business."

**CHARGED WITH MURDER.**  
**By Courier Leased Wire.**  
 Montreal, June 14.—Charged with the murder of Henry Bowman, a returned soldier, of Kingston, on January 16, Alexander Chaput was arrested here last night. According to the police reports, the body of the soldier was found lying in the street, dressed only in underwear and the rest of his clothes in a bundle by his side. The body was frozen stiff. An autopsy showed that the man died of wounds on the head and at the request of the jury returned a verdict of murder by unknown persons.

# A REVIEW OF THE SITUATION

German attacks on each side of the French salient between Montdidier and Soissons seems to have been definitely checked. Halted in their rush toward Compiègne, and unable rapidly to outflank the French by their onslaught southwest of Soissons, the enemy has apparently ceased his plunging tactics which began last Sunday, and for a time threatened the vital French positions. The French official statement says that only local fighting has occurred along the front of attack during the past few hours.

The latest German attempt to break through the French lines last night but five days before it reached the phase of equilibrium which has marked the end of the critical periods in the Picardy, Flanders and Aisne drives. The Germans have been held both at the Aronde and Matz Rivers to the west of the Oise. They have failed to make serious attacks against the new French positions east of that river. Southwest of Soissons they advanced approximately a mile over a four-mile front but their progress was so slow that after the inception of the fighting little anxiety was felt concerning future events in that region. The soldiers further south have been heavily bombarded by the enemy, but no further infantry attacks have been launched.

An inference that might be drawn from the apparent haste of the Germans in beginning the great attack east of Montdidier almost as soon as their sweeping advance on the Aisne front had been checked at the Marne, is that another German offensive might speedily be launched. It is not improbable, according to French opinion, that this offensive will fall on the British front further north, either in front of Amiens or in the Flanders' sector, where the Germans may attempt to cut their way through to the channel ports.

In this connection the British official statement speaks of a strong local attack by the Germans in the region of Marris, on the extreme western angle of the Flanders salient. This attack was completely re-

**Lift Off Corns Doesn't Hurt!**

Few drops stop soreness, then corn or callus lifts off with fingers.

Few Drops Stop Soreness, then Corn or Callus Lifts off With Fingers.

The world owes thanks to the genius in Cincinnati who discovered freezone.

Tiny bottles of the magic fluid can now be had at any drug store for a few cents. You simply apply a few drops of freezone upon a tender, aching corn or a hardened callus. Instantly the soreness disappears and shortly you will find the corn or callus so loose and shriveled that you lift it off with the fingers. Not a bit of pain or soreness is felt when applying freezone or afterwards. It doesn't even irritate the skin or flesh.

For a few cents one can now get rid of every hard corn, soft corn, or corn between the toes, as well as painful calluses on bottom of feet. Everyone who tries freezone becomes an enthusiast because it really doesn't hurt or pain one particle.

## KILLED BY KICK OF HORSE

### Sad Fate of a St. Williams Farmer

Simcoe, June 14.—Charles Johnston, a St. Williams farmer, and brother-in-law to Senator McCall, proprietor of a Calborne street feed barn, and of Frank E. Johnston, of St. Williams, was killed yesterday by a kick from his horse. He was in the act of putting his team in a friend's stable, where he and Mrs. Johnston were invited to dinner.  
 The animal kicked him as it reached its place in the stall, striking him in the abdomen. He walked to the house and fell dead. The physician called stated that large arteries had been severed.  
**Odd Ends of News.**

Street oiling operations began Wednesday evening and yesterday another tank was run on. Mr. Carter's star was in the zenith when he held off on Tuesday, tearing a storm which came and would have carried the oil to the gutters.  
 John A. Rose, of Wilson avenue, retired gentleman, aged 77, and a member of the county constabulary, suffered a fracture of a broken leg in a fall on a stairway in his residence.  
 Tyrus Mabee suffered a severe stroke on Wednesday evening. He is quite an elderly gentleman and brother-in-law to Senator McCall and Mr. W. C. McCall, municipal clerk.

The Council met yesterday afternoon and re-considered the estimates on the chairman's revelations. The correction necessitated an increase of three mills. There was, therefore, no bluff about the contention voiced in these columns, that raising was necessary to keep down the rate.  
 The work at the cannery factory is so far advanced that in a very few days the whistle will blow for help for the berry pack.  
 Our friend, B. Lynn, of Lynedoch, is to be congratulated on the business-like report compiled for the Grand Jury at the Sessions.  
 Farmers west of St. Rowan have been harvesting hay all week.

due to the County of Norfolk on that only three indictments have been handed us for consideration at the general session now sitting, the several crimes in question being, if we may use the term, of a minor nature. We have handed in true bills on these indictments.  
 "We also beg to report that we have visited the Industrial Home and find things there to be in their first class condition, considering the age of the property.  
 "We have had handed us for our inquest, a recommendation from the county council of the county of Norfolk, that the constabulary be put on a more efficient basis. We feel that a head constable should be appointed, a capable, efficient man with sufficient remuneration to compensate him for his full time at such employment, the present system of constables to be, as at present, under his supervision but we recommend that a new schedule of fees be made, based on the present worth of money; in the absence of evidence on the points raised on the council's recommendation, we submit our inability to deal with the matter further than is continued in the above suggestion, but wish to put ourselves on record as being squarely behind the administration of justice for the county as proceeding from the present clerk of the peace, all of which is respectfully submitted."

J. B. Linn, Foreman.  
**War Worn Veterans Returning.**  
 Pte. James Holden and Pte. Fred Ball are expected to arrive in Simcoe to-day from overseas and we understand that there are others with them.  
**Press Photographs.**  
 Mrs. Dutton and children will shortly leave Simcoe with her family for Fort William, where Miss Hilda is engaged on the public school staff.  
 Mr. Wm. Bottomly was taken suddenly ill yesterday evening while spending a social hour with some gentlemen friends. He rallied in an hour or so.  
 Miss Teesdale, milliner, with Miss Graham left for home yesterday before commencing to take a rest through ill health.  
 Dr. Richardson and family will say good-bye to Simcoe in a day or so. Dr. McGilvery is already in town to take up the practice without interruption.

MONDAY, JUNE 3, 1918

THE SITUATION.

The German offensive has once more spent itself and the gallant French have fought the enemy to a standstill in counter-attacks. The advancing waves of the Hun were completely repulsed and they were finally forced over the Matz River. As the net outcome of his latest endeavor the foe has won a small additional footing, but nothing to what he had in mind at the commencement and his losses have been stupendous. It is stated that in the effort to make good the wastage even wounded men and invalids are being returned to the fighting lines. It is announced that U. S. troops reaching France are commencing to attain a numerical force and efficiency which will soon make them a big factor. Meanwhile Foch and the rest are confident that the Germans can be efficiently held.

British armies continue their notable activity and several additional tons of bombs have been dropped on Toulon centres and marching troops. There have been many air battles, with the foe by far the heavier loser.

HATS OFF TO CANADA.

Says the Boston Transcript: "Mr Root showed his customary keen perception of the historic significance of events when, at Toronto recently, he said: 'We bow to this warrior country.' Our own half million of soldiers in France certainly must stand at their proudest salute when the half million of Canadians who preceded them there pass by. The response of Canada to the call of this war was not merely the response of obedience to the British Empire. It was a brave, an instant, a most spirited answer to the call of civilization, liberty and that enduring peace of the world which can be based only on the triumph of right over wrong. Canada did not falter nor bargain nor question. She responded with her noblest manhood and the blows which she has struck an enemy, quite as much ours as hers, have had their full force in holding back the German invader from the free lands. On Vinny ridge that advanced point to which the Canadians carried the standard, they still stand like a rock. If the United States had answered the great call with the promptness and with the proportion of its man power with which Canada responded, the German armies would have been hurled back beyond the Rhine long ago. Yes—we take off our hats to Canada."

HON. DR. CODY ON EDUCATION.

Here are some expressions of the new Minister of Education for Ontario, in connection with the important portfolio which he has just undertaken to administer: "Education may be used to lower the moral standard of a nation. We have before us to-day an example of how education may produce moral nakedness and ghastly, yes, savage ideals. That has been the result of the education carried on in the schools and universities of Germany. Let us seek to raise ideals in our schools which shall make for a national greatness, that shall make Canada, in the years to come, one of the greatest servants of the upbuilding of the race. "The allied nations are fighting for democracy as opposed to autocracy. Democracy is a noble, a religious thing. But the Allies are fighting not only to make the world safe for democracy, but also to make democracy safe and serviceable for the world. And no democracy can be safe and serviceable without two factors—honesty and intelligence. It is here where the schools come in. The school is an integral part of any stable democracy. "Germany constrained education in terms of intellect, while Great Britain construed it in terms of character. In spite of the limitations of the British system, it is surely a nobler type of manhood. Let Ontario, let Canada, continue her educational system along the broadest possible lines, that her sons and daughters might be blessed with cultured minds, devout spirits, and be socially efficient. "These utterances have the right ring about them. Democracy is coming into its own, but the foundations must be laid on a sane and intelligent way in order to secure the greatest all round benefit to mankind in general. "12 dozen Tookie Bros. Fine Shirts. Regular \$1.25; all sizes, to-morrow, clear, at 89c. at Ludlow Bros. "Child's Mary Jane Pat. and Gun Metal Pump, size 8, 9, 10, to clear for \$1.48, at Ludlow Bros."

THE EASY APPEAL.

Under the above caption The Philadelphia Ledger writes that Americans should not fall into the habit of foisting all the difficult problems of industry and everything else upon the shoulders of a long-suffering but over-burdened Government.

"The frequent temptation to appeal to the federal government to assume control of some industry in order to solve every labor or other problem that has become troublesome is one that good Americans should resist. It threatens to become a habit, under the stress of war conditions. "Washington has been petitioned by citizens of a mid-western city to take control of their local street railway company for the period of the war because employers and employees cannot agree and running street cars is an essential industry in these days. "This is but one of several instances where it is or has been proposed to break deadlocks by the ready method of asking the federal government to step into control. "It behooves every employer engaged in an essential industry to maintain friendly relations with the individuals upon his pay roll if possible, to the end that America's industrial speed may not be diminished and American arms weakened. Industrial peace is necessary if the nation's part in the war is to be creditable. Every unnecessary concession at home merely encourages our enemies abroad. "The national government has enough to do in these days without being burdened with tasks which others should assume. Wisdom dictated the control of the trunk line railroads, but the government should not be compelled to operate street car lines in order merely to relieve the company, its employees and the community from the responsibility which rests primarily upon them in settling their problems and keeping their systems in operation for the country's good. "Here is a form of shirking which cannot well be tolerated. It is perfectly understood that certain activities cannot be permitted to stop while the nation is at death's grip. The national interest cannot be sacrificed to any other consideration. Instead of relieving anyone from the necessity of settling his own problems in this direction, the facts should make everyone the more earnest in his efforts to do his part in keeping war-making America running at top speed."

CANADA'S NEXT VICTORY LOAN

Will be Floated in October Next—Will be the Greatest Financial Effort Yet Recorded

By Courier Leased Wire. Ottawa, June 14.—Preparations by the finance department for well in advance are being made the successful flotation in October next of Canada's next victory loan, which will probably be the greatest financial effort in the history of the Dominion. It is thought here that the amount asked for in the prospectus will be \$250,000,000, with a real objective of \$500,000,000. No doubt is entertained as to the ability of Canada, even after four years of war, to raise this huge sum, but the effort will be a prodigious one backed by the most efficient organization which can be brought to the next four months. The money is needed to meet the Dominion's growing military expenditures, and to furnish Canadian credits from which Great Britain may purchase Canada's production of munitions, airplanes, grain, meats, cheese, and other food stuffs and supplies. No other means exist whereby Canada's products may be purchased. The minister of finance believes in one great effort every year, in order that the business of the Dominion may not be disturbed by campaigns at intervals of four or six months. He is entirely confident that the coming victory loan will eclipse all former efforts both in the number of subscribers and the aggregate of their subscriptions.

THE OFFENSIVE IS STOPPED

By Courier Leased Wire. Paris, June 14.—In its summary of the expert opinion of the Havas Agency notes the unanimity with which commentators have abandoned their reserve of the past few days, and agree with M. Barres, of the Echo de Paris, in his opinion that the offensive against Paris is ended for the present at least. They admit the possibility of its resumption sooner or later, and see further hard struggles ahead, but think it probable that the heavy fighting, when it is resumed within a few days, will be on another front. The results of the offensive against Paris are enumerated by M. Barres thus: "A territorial gain absolutely out of proportion to the losses sustained. Compaigne still in French possession. The Allied reserve manoeuvring forces intact."

In another article, The Echo de Paris confidently declares that just as the Germans did not get Compaigne, so they will never get Paris. The enemy, it points out, has been mastered on ground of his own choosing. M. Clemenceau's organ, L'Homme Libre, expresses no surprise at the slackening of the bombardment, the enemy, it declares, has engaged eighty divisions since May 27, nearly half of which left fifty per cent. of their men on the battle ground. It expresses the opinion that General Ludendorff has a maximum of thirty reserve divisions, of which two-thirds have already taken part in the struggle. The Havas correspondent at the front says the indications are that the Germans have exhausted themselves on the Montdidier—Noyon front, which fact is compelling their inactivity, whereas the French are extremely active in this area. Regarding the German effort to get through Villers-Cotterets forest, he estimates that the Germans used no more than five divisions (nearly 70,000 men) on a front of three and a quarter miles, and declares that this operation, which was to decide the issue of the present German offensive, has already failed.

Ladies' Brown Oxford low heel; special rate to \$3.99, at Ludlow Bros. Mrs. Watt, Miss Murray and Mrs. Burnett were appointed. Mrs. W. E. Sanford, treasurer of the International Council, read a letter from the Greek council, telling also of a visit she had paid to Greece some years ago, and of the high state of efficiency to which the council there was developed. The letter, from a council officer, denounced the duplicity of ex-arch Constantine toward the allies, and recounted the events attending his deposition from the throne. Communications from Denmark and Holland were also acknowledged.

DUKE AT GUELPH.

By Courier Leased Wire. Guelph, Ont., June 14.—The Governor-General and suite spent a busy day on this, their second day here. At 4:45 a. m. His Excellency inspected several thousand school children at the Exhibition Park. They presented a fine appearance, headed by the cadets and the Duke warmly commended them on their appearance. National songs were rendered, concluding with "God Save the King." The Duke and Duchess of Devonshire afterwards proceeded to the military convalescent hospital, after an inspection of which the party proceeded to the Ontario Agricultural College, where they were entertained at luncheon and afterwards inspected the grounds and buildings in which His Excellency displayed much interest and asked

Ladies' Black Canvas Oxford, leather lined, for 79c. A fine hour shoe. At Ludlow Bros.

Margaret Garrett's Husband

By JANE PHELPS

AWAKENING DISTRUST.

CHAPTER LXXXI. For a few minutes after we sat down to dinner Mrs. Baldwin and I chatted upon indifferent matters; but gradually she led the conversation back to Robert and his liking for Bohemian people.

"Have you ever dined at the Revere?" she asked. "Once," I replied. "Didn't you like it? I'm just crazy over the place, and Joe is nearly as bad." "No, I did not enjoy it at all," I replied, a remembrance of the disagreeable evening I had spent making me speak rather snappishly. "That's strange! doesn't Mr. Garrett like it either?" "Yes," I admitted reluctantly. "It is one of the places he used to go before we were married."

"Oh, so he knew all that clever crowd before you were married, did you know them too?" "No, when I met Mr. Garrett his mother had just died, and he of course was not going out—at least to such places," I explained. "Oh!" was all the reply she made, but that single expletive was so charged with understanding, that I felt myself flushing. Then she asked: "How long did you know him before you were married?" "Only a short time. He and his father never agreed. I suppose he felt uncomfortable after his mother died and wanted a home of his own." I again explained, never dreaming how much I was telling this clever, cynical woman.

"I see," said Mrs. Garrett, of course you will do as you please, but if I were you, and he would take me, I should go every single place my husband did. Joe won't take me, or you better believe he'd get no chances to lunch or dine with other women—that is unless I made no reply.

"But, Mrs. Baldwin," I commenced to argue, "I do not believe a man should have any interest outside of

home and his necessary business affairs. If I join Mr. Garrett in his outings with people of whom I do not approve I have no argument left against his going. No, I trust my husband absolutely. In time he will give up people of whom I disapprove."

"I wish I had your faith—for your sake," she replied. "No, you are wrong," she went on after a moment's silence. "No man who is interested in the vital things of life, who craves the companionship of clever men and women will ever be made to give them up by the tactics you propose. You had far better give up your ideas of domestic felicity along with him, and become his companion. If you do not there are plenty of charming women who will. And you aren't so young that you do not know what the result is sure to be."

"You mean to intimate that I shall lose my husband?" I demanded, indignantly. "What else? He will not be happy with you if you cross him in all his desires, his social instincts and pleasures. "Do you practice what you preach with Mr. Baldwin?" I asked as we rose from the table. "Or does he never give you occasion?" I added rather disagreeably. I am afraid. "When I was first married I made the mistake of finding fault, of crying and nagging Joe whenever he stayed out a moment longer than I thought he should. I used to accuse him of being with other women, and all sorts of things, until one day he told me that he had had the name, and that he would never have the game. It was a vulgar way of putting it, but it woke me up, and ever since then I have been busy trying to show him he needn't be uncomfortable with me. But—," she hesitated. "I waited too long. I was too late. The mischief had already been done. Now I live in the hope that some day he will return to me. I keep watch of him, I know what he is doing, but he does not mistrust that I do. I am telling you this Mrs. Garrett so that you

won't make my mistakes. I like you, I know your type, the home girl who has never been accustomed to the gayer side of life; a side that is just as wholesome, just as true as is the strictly domestic side if a man and wife can enjoy it together. But to send the man out alone—believe me it is fatal.

"After Mrs. Baldwin left, which she did early, I sat thinking over what she had told me. I was not at all convinced by her reasoning. Joe Baldwin and Bob were two very different persons. Mr. Baldwin was rather ordinary—that is, besides Bob, and would be influenced by things which in no way would affect my husband. "Poor woman," I said aloud as I shall lose my husband?" I demanded, indignantly. "What else? He will not be happy with you if you cross him in all his desires, his social instincts and pleasures. "Do you practice what you preach with Mr. Baldwin?" I asked as we rose from the table. "Or does he never give you occasion?" I added rather disagreeably. I am afraid. "When I was first married I made the mistake of finding fault, of crying and nagging Joe whenever he stayed out a moment longer than I thought he should. I used to accuse him of being with other women, and all sorts of things, until one day he told me that he had had the name, and that he would never have the game. It was a vulgar way of putting it, but it woke me up, and ever since then I have been busy trying to show him he needn't be uncomfortable with me. But—," she hesitated. "I waited too long. I was too late. The mischief had already been done. Now I live in the hope that some day he will return to me. I keep watch of him, I know what he is doing, but he does not mistrust that I do. I am telling you this Mrs. Garrett so that you

I undressed. Then I forgot all about her advice in wondering what Bob was doing, if there was anyone there beside him and John Kendall. Then also I dwelt, on the fact that he had lunched with that Chicago woman. Why had he not told me. Perhaps it was while Donald was ill and he had forgotten it. I would ask him about it as soon as he came in the next night. Of course it was business; but others might not think so. I should ask him to promise not to lunch again with any woman but me.

To-morrow—Robert is annoyed at Mrs. Baldwin.

## INDIA STANDS FOR EMPIRE

What She Has Done is Only a Foretaste — German Propaganda Has Proved Abortive

By Courier Leased Wire  
 London, June 14.—The Maharaja of Patiala, who is representing the princess of India at the Imperial War Cabinet sessions, interviewed by Reuter, says that, speaking on behalf of the ruling princes, what India has done was only a foretaste of what she will do for a definite and common empire. India today was surer than ever of the greatness, justice and humanity of the Allied cause, and proud to take her full share in the great work of removing from the world its greatest menace.

German propaganda had been active in India, he said, but India would have none of it. There was no country in the Empire where British rule was more valued and loved than in India, and it was absolutely essential for India's welfare.

Recruiting was very satisfactory; it would be still more satisfactory, and all requirements would be fully met. Regarding any menace from Russia towards India, owing to the Russian debacle, the Maharaja said that India will be quite ready to do everything necessary to prevent the introduction of German influence political or commercial, and maintain the integrity of its borders. "We can also rely in this regard on the promise of His Majesty, the Amur of Afghanistan, who has already afforded such convincing proofs of the loyalty of his word," said the Maharaja in conclusion.

### SYMPATHETIC STRIKE

By Courier Leased Wire  
 Sydney, N.S., June 14.—The possibility of a sympathetic strike among the steel workers of Sydney and Sydney Mines was discussed here last night on receipt of news from Glasgow. There is understood to be an agreement among the men under which they were all to go out in case of a strike at any of the plants. J. C. Douglas, M.P., got in touch with the men's leaders, both here and at Sydney Mines, and it is stated that as the result, there will be no strike in Cape Breton for the present at least. At the request of the men, he wired the department of agriculture suggesting that Senator Robertson and J. C. Waiters be sent to Cape Breton at once to discuss the situation with both the workmen and the company. The award of the royal commission is generally unacceptable to the men.

## SALTS IS FINE FOR KIDNEYS, QUITE MEAT

Flush the Kidneys at once when Back hurts or Bladder bothers.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of fullness, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

Men's Tweed work pants, regular \$3.50 values, in fine worsted and tweeds, 5 pockets. To-morrow, your choice, \$2.75 at Ludlow Bros.

WIFE DESERTION.

By Courier Leased Wire Montreal, June 14.—That wife desertion is on the increase in Montreal appears to be established by the report of the charity organization society of this city, which has just been issued, and which gives the number of desertions for May at 128, as against 78 for May of last year.

Local News

MEET TO-NIGHT.

The Committees on Buildings and Grounds and Finance meet to-night at 8 o'clock.

TOWNSHIP HEALTH BOARD.

The Township Board of Health meet this afternoon in the Court House.

BUILDING PERMIT.

Wm. Clouse, Stewart street, has been issued a permit through the City Engineer's office for the erection of a \$50 frame stable.

COUNTY COURT.

The case of Fisher vs. Martin commenced this morning in the County Court with J. W. Bowby for the plaintiff and W. S. Brewster for the defendant.

WITH THE FIREMEN.

Repairs are being made to one of the motor trucks at the Central Fire Hall. Several new men are being tried out as drivers as it will be necessary for every member of the staff to be acquainted with motor driving. It is expected that firemen will man the new motor ambulance which will arrive here in a few days.

MEMORIAL DEDICATED.

In memory of the late Alfred Hunt, killed in action last month, a white marble tablet suitably inscribed, has been placed in St. Luke's Church, where the late Lieutenant was for many years a loyal adherent. The memorial was subscribed to by the members of the Boy Scouts, Girl Guides and other friends of the deceased officer. The tablet was dedicated on Sunday last.

CONTRACT LET.

The contract for the construction of an addition to the boiler house of the Cocksfoot Flow Company, doubling its present capacity, has been secured by Schultz Bros. Co., and work will be commenced immediately.

SOLDIERS HOME

Pte. H. Livingston, youngest son of Police Magistrate and Mrs. W. C. Livingston, arrived home from the front this morning at 2 o'clock. Owing to the early hour there was no delegation from the city to welcome the veteran home. Ptes. L. H. Cross, 102 Eagle Ave., and J. Whitehead, Main St., were expected home at 10.30 this morning, but were delayed till this afternoon in Toronto.

MANUAL TRAINING EXHIBIT.

There was an attendance of over 500 in Victoria Hall last night. Other than the parents a large number of the school children were admitted to view theirs and others work. Government Inspector Leek was in the city yesterday and visited the exhibit. He expressed his opinion that only one other city in the province was up to the Brantford standard. Group photographs will be taken of the best technical work for government records.

BLUEBIRDS WON.

The Bluebirds defeated the Dodgers 13-6 in a softball game played on Greenwood diamond on Wednesday night. Ayres featured for the winners with a home run with the bases full.

BASEBALL TO-MORROW

At Agricultural park to-morrow afternoon, two city league baseball games will be played. They are Gordage vs. Verity, and Pratt and Letchworth vs. Motor Trucks. It is expected that good ball will be exhibited.

WEDDING BELLS

The marriage took place on Tuesday June 12 of Captain William B. MacDermot and Miriam R. Heath, daughter of Mr. and Mrs. James Heath of this city. The ceremony was conducted by Rev. Chas. S. Oak and directly after the couple left for Fort Riley, Kansas, where Capt. MacDermot is Canadian representative of the Canadian Army Medical Corps.

CELEBRATE SIGNING TREATY.

The Polish people of the city will hold a patriotic celebration in the observance of the signing of the armistice on the signing of an ancient treaty which made Poland one of the first free and democratic nations of Europe. Among the speakers of the afternoon will be officers from the Legion at Niagara Camp, who will deliver appeals for recruits.

POLICE COURT.

Hugh Farrell, eighteen-year-old Brantford boy arrested in Michigan and brought to Sarnia, was brought back to the city last night by Detective Sibley. Farrell, it is claimed, absconded some months ago with \$3,998 of the funds of the Bank of Nova Scotia, for whom he worked. He appeared in Police Court this morning and was remanded till tomorrow when L. E. Boyd, of Toronto, will appear for him. Woricep Rehill was found on Monday night in a drunken condition in charge of an automobile. He gave the police a lengthy run, speeding about North Ward like a champion. The police with the aid of a motorcycle were able to head the intoxicated Italian off some distance out the Hamilton road where he was arrested without difficulty. He appeared in the Police court this morning charged with being intoxicated and in charge of a motor car. He was fined \$10 on the first charge and the same amount on the second. He therefore, thought George Hill, charged with non-support, was given a week to arrange matters with Mrs. Hill. Harry Taylor, charged with speeding, was unable to attend court and the case was adjourned one week. The first arrested in the city this year wherein a motorist has been charged with driving without his lights lit was on the slate. Stewart Hamble appeared on this charge and was warned and permitted to go. The magistrate emphasized the fact that further negligence on the part of motorists in cases of this sort would be dealt with severely. Tom and Mary Smalczok, charged with breaching language, were warned and allowed to go after paying \$6-35 costs.

Ernest C. Fox, of Victoria, has recently obtained an appointment as inspector of branches in the National Bank, South Africa.

FARMERS WILL APPEAL AGAIN

Decide to Renew Demand for Leniency Respecting Their Sons

MORE STRONG TALK

Proposal to Ask for a Dissolution of Parliament is Dropped

By Courier Leased Wire Calgary, June 14.—Expressing their determination and willingness to do their full share and give their best services in winning the war, but clearly stating that the enforcement of the amendments to the Military Service Act is a far more serious situation among the farmers of Alberta, the full executive board of the United Farmers of Alberta has memorialized the Dominion Government. The memorial was taken up by H. W. Wood, the president, and delivered in person to Hon. T. A. Crerar, Minister of Agriculture, Mr. Woods came to Calgary yesterday, and the statement, which has been locked in a safe ever since his departure, was released for publication. This is the official position of the United Farmers of Alberta: "We, the directors of the United Farmers of Alberta, in session assembled, do hereby memorialize the Governor-General-in-Council of the Dominion of Canada as follows: (1) "We desire to assure the government that we are willing to do our full share in giving our best service in winning this war, and do not desire to shrink any responsibility that is ours in this time of danger. (2) "We do, however, assure the government that the situation among the farmers of Alberta is so serious that it calls for the greatest possible wisdom in council and steadfastness of purpose to maintain that hearty support that a loyal people owe to their government in such a time as this. (3) "And again we have been compelled to view with great alarm the situation which is being created in this province by the recent military measures, and especially the latest order in council, April 20, 1918. The seriousness of this situation is only now becoming clearly apparent, and this organization feels that the government cannot duly have appreciated the far-reaching effects of the measures that have been taken. The directors of the United Farmers of Alberta, therefore, have thought it their duty to place this memorial before the government, so that assuming any responsibility for any further measures which may be undertaken consideration, the government will be clearly advised as to the seriousness of the situation.

GERMAN VESSELS TAKEN. By Courier Leased Wire Lima, Peru, June 14.—The Peruvian Government through its military forces has taken possession of the German vessels interned at Callao.

This action by the Peruvian Government follows upon the breaking of relations with Germany by Peru early last October. Peru broke with Germany because Germany failed to reply satisfactorily to demands concerning the sinking of Peruvian banks. For refusing to allow Dakota vigilantes to search her home for a son-in-law wanted for hoarding, Mrs. E. L. Ferras, a wealthy widow, was shot dead at Hazelton.

MARKETS

Table with market prices for various goods including Oats, Straw, Wheat, Barley, Cabbage, Carrots, Potatoes, Turnips, Lettuce, Tomato plants, Asparagus, Fish, and Meat.

WAS SINKING. By Courier Leased Wire London, June 14.—A British steamship arriving here today reported that she received wireless messages from the British steamer Koonun last night, that she was being attacked by a German submarine. Two hours later word was received from the vessel that she was sinking. The Koonun, a vessel of 5,371 tons, said she was off the Virginia Capes. She was last reported as leaving Manila.

BRITISH CASUALTIES. By Courier Leased Wire London, June 14.—British casualties reported in the week ending today totalled 34,171 officers and men, of this number 4,447 being killed. The casualties were divided as follows: Officers, killed or died of wounds, 231; men, 4,216. Officers, wounded or missing, 399; men, 28,225.

AGAINST NEW MINISTER. By Courier Leased Wire Toronto, June 14.—It is altogether probable that J. G. Corneil, reeve of Scarborough township, will oppose Hon. G. H. Henry, newly appointed minister of agriculture in the Ontario Government, who is appealing to the electors of East York for re-election.

Advertisement for CANADIAN CASUALTIES. Text: AGREEMENT ATTACKED. By Courier Leased Wire Amsterdam, June 14.—The reported secret agreement to make Austrian Galicia a separate province was attacked in the Hungarian Chamber Thursday by Count Theodor Batthyanyi, a member of Count Karoly's independent party, according to a Budapest despatch. He interpellated Premier Wekerle also with reference to the Government's attitude on other phases of the Polish question. Count Batthyanyi declared that a separate Galician province was in accordance neither with Polish nor Hungarian interests, asked whether steps had been taken to prevent a realization of the project. Premier Wekerle, in his reply, said he regretted that the Count during his speech had subjected the action of the German Government in the deliberations regarding Poland to scathing criticism based on one-sided information.

**CANADIANS NEVER MORE EFFICIENT**

**Gen. Currie Says Corps Never Failed—Will Die Rather Than Give Way**

Canadian, June 13.—Sir Edward Kemp gave a dinner last night in honor of Sir Robert Borden and colleagues. The guests included General Currie, who made a remarkable impression in a short address he delivered. The company was entirely Canadian, including many Canadian Generals on leave from the front, also General Turner and others of high command in England.

Gen. Currie said: "When we first came to England we were not regarded as the finest soldiers in the world. We had many things unjustly said about us, with the consequence that the Canadians went to France determined to prove for our own sake and for Canada's sake that Canadians were fit to take their place beside the veteran soldiers of the British army."

Never Failed.  
"I want to deny that Canadians or other overseas troops are always placed in the hardest part of the line. That's all poppycock. But I will say that the temper of the Canadian soldiers is that there is no position they are asked to take that they will not take. I never knew the Canadian Corps to be in finer fighting fettle than to-night." "Though serious, there is no need in hiding the truth," he said. "I believe the truth has been hidden too long. The Germans have made four great blows which succeeded. We must hold the line until the Americans develop sufficient strength to turn the scale. I believe that, given a fair chance, the boche can be kept back. The Canadian Corps is going to die rather than give way."

More Efficient.  
"Personally I think the great factor is that if we stop and fight the boche we can kill a sufficient number that will make him sick. I believe that is the temper animating the whole army, and I know we shall never take such delight in killing him as when we next meet him. It comes to a question of who can stand killing the longer."

The Canadians in France are now more efficient than ever. We could not be in that position unless we were backed up by General Turner and the Staff in England. There is a feeling of co-operation which never existed before, and the better the liaison we have between France and England and Canada the better it is for the fighting forces.

Far From Base.  
Sir Edward Kemp, in proposing the health of Sir Robert Borden, said the Ministers in Ottawa sometimes displayed a misconception of what was going on here and in France. The Staff in England, however, were most desirous that every inquiry should be made as to what was done here. He was three thousand miles from his base, and it was sometimes very difficult for him to photograph the minds of his colleagues in Ottawa as to the exact circumstances which ruled matters in England and France.

Desires to Do Duty.  
Sir Robert Borden, replying, said amidst laughter, that there were times when the Ministers in Ottawa would be very glad to be three thousand miles away. "There are men in the Canadian Government to-day," continued Sir Robert Borden, "who have been strong political opponents for many years past. I have been associated with them more than eight months now, and I can truthfully say that since the new Government was formed there has not been any purpose or intention except a desire to do their duty to the country and to you who are fighting."

**Bowling**

The Dufferin bowlers were beaten on their own greens last night by the Heathers, 133-90. The scores:  
Dufferins: H. S. Farrar, J. Fennell, O. Morris, H. R. Howie, R. McGregor, G. Kieley, A. McAdam, H. B. Stone, A. Squibb, A. McIntyre, H. Henderson, T. A. Cowan, A. F. Wicks, D. Snider, C. Taylor, G. Broatch, T. G. Davis, G. Ellis, R. Gowman, S. G. Bull, W. Wanklin, R. C. Burns, E. M. Buck, Dr. Watson, W. H. Hamilton, N. F. Lettich, T. S. Wade, S. R. Macerett.  
Heathers: J. F. Cooper, W. Moss, D. Morrison, G. Pickles, G. Cromar, J. Broadbent, J. A. Ogilvie, T. Cooper, Dr. Stevenson, D. Cooper, D. McPhail, J. I. Miller, W. P. Brown, P. H. Phelps, J. Hurley, S. Pilling, Rev. J. W. H. Mills, R. T. Whitlock, F. Read, J. Ryan, J. Cousland, Dr. J. W. Porter, E. C. Tench, Jas. Harley, Rev. C. F. Logan, A. McFarland, B. A. Caspell.

**British Troops Still Get Souvenirs**

London, June 13.—No longer are British soldiers on leave seen streaming out of the big London railroad stations with trophies of the great war in the form of a German helmet, rifle, bayonet or a few odd bombs and shells to decorate the walls of their home. An army order long since issued, but only very recently put rigidly into effect, forbids the carrying off of these trophies from the battlefield, and now hawk-eyed military police watch the leave boats.

But all the orders in the world and all the precautions ever invented will not stop souvenir hunters. And the Tommies have the craze worse than the Germans. They have taken to specialize in railway straps, hotel soap and towels and chips of granite from old castles. To carry the stuff home the soldier will try all sorts of subterfuge. They will carry their souvenirs about with them from rest billets to the trenches, sometimes even refusing to dump it when going into action. They guard their treasures like a diamond for months, and will sacrifice little comforts that mean so much in the line in order to stow a harmless German button or the piece of a shell in their sack.

**Big Loss.**

By Courier Leased Wire.  
Indianapolis, Ind., June 14.—A large frame elevator at Beach, Groves, near here, owned by the Cleveland Grain Company, was destroyed by fire early this morning with a loss estimated at between \$200,000 and \$300,000. An investigation has been started in an effort to determine if the fire was of incendiary origin.

**Sporting Comment**

Brantford United will make their debut in the Provincial Soccer League on Saturday afternoon, when they will meet the Royal Air Force at Agricultural Park. The locals took on Toronto Scottish, leaders of the provincial league, last week, and while they were beaten by the champs, put up a very creditable showing in view of the fact that no league soccer has been played in Brantford for years, and it is hoped that the present time will witness a revival of the sport. The game will take place after the two baseball games, and Mayor MacBride will kick off. The proceeds of all games, after deducting expenses, will be devoted to local charities.

Following is Brantford's lineup for Saturday:  
Goal, A. Johnson; (captain) W. Holland, F. Burns, F. Westcott, J. Holland, A. Rhodes, W. Vipond, D. Linn (vice-captain), L. Perrin, W. Richardson. Reserves: N. McLeod, W. Smith, J. McGratton, E. Goodridge.

**Why Marquard Leans.**  
A dislocated shoulder has put more than one ball player out of commission permanently. Then, again, as in the case of Mike Doolan and Rube Marquard, it has been a positive benefit. How Doolan's injury to his shoulder made him a sensation as an underhand thrower has been told, but Marquard's history in that respect is not so well known.

Fans have often wondered what gave Marquard a list to starboard that causes him to appear as if he were about to topple over. Most of them have put it down to the fact that in his early youth he was tall, gangling youth, whose frame was shot up faster than the flesh could accumulate. Such always have a tendency to become round shouldered or to take on a list to one side or the other, but that was not the explanation of Marquard's peculiar attitude when standing at rest or when walking.

What threw the Rube out of plumb, so to speak, was not a dislocated shoulder, but two dislocated shoulders. Like Doolan, his shoulders went astray in a football game. And

they never entirely went back. To this day there is a large knot at the base of each of his shoulder blades. One is thus led to speculate whether by that accident, Rube acquired some physical attribute that accounts for his efficiency and enabled him when with the Giants to pile up a record of 19 straight winnings. Similarly, would have Three-Fingered Brown ever have been the pitching star he was if an accident had not robbed him of two of his fingers?

Assist Nature. There are times when you should assist nature. It is now undertaking to cleanse your system—if you will take Hood's Sarsaparilla the undertaking will be successful. This great medicine purifies and builds up as nothing else does.

**WORKMEN ARRESTED.**  
Dublin, June 14.—(By the Associated Press)—The police raided a workmen's club in York street last night and arrested from thirty to forty of the hundred persons assembled. A large and threatening crowd in the street during the raid was dispersed by the police, who used their clubs.  
The charge against the men arrested is understood to be that of drilling in the hall of the club. Those in the club who were not arrested denied that there was any drilling, declaring that dancing chiefly supported the club.  
Alderman Kelley, the Sinn Fein representative at the anti-conscription conference and other Sinn Feiners are members of the club.

## DAMAGE BY LIGHTNING

Proper Rodding Would Have Prevented \$331,450 Loss.

Dating for Lambs at Weaning—Different Ways Fruits and Vegetables May Be Used as Substitutes for Foods Our Army Requires.—(Contributed by Ontario Department of Agriculture, Toronto.)

**A**s a comprehensive conclusion from our investigations, we have found that if all the buildings in rural Ontario were rodDED more than 95 per cent. of the annual damage to buildings by lightning would be prevented. The method by which this conclusion was arrived at was as follows: In 1912 eighteen insurance companies in Ontario kept special records for us; from their reports we learned that out of every 7,000 unrodDED buildings insured by them 37 were struck by lightning, while in every 7,000 rodDED ones only two were struck by lightning. The rods prevented damage in 35 cases out of an expectancy of 37, showing an efficiency of 94.7 per cent. Since that we have determined the efficiency for the years 1913, 1914 and 1915. The results for the four years are as follows:

| Year.                  | Efficiency of Rods. |
|------------------------|---------------------|
| 1912                   | 94.7                |
| 1913                   | 92.9                |
| 1914                   | 93.8                |
| 1915                   | 98.9                |
| Average for four years | 97.2                |

To apply these figures: The report of the Superintendent of Insurance shows that in 1912 the insurance paid on losses caused by lightning was \$262,322. No doubt the actual loss exceeded the insurance by perhaps 1-3 or 1/2. If so, the actual loss was \$350,000 or over. 94.7 per cent. of this equals \$331,450, which represents the amount of damage that has been effected that year if all the buildings had been rodDED. Investigations along similar lines in Iowa have shown an efficiency of 93.7 per cent. for rods in that state, based on the report of 55 mutual companies each year for eight years. In Michigan the efficiency of lightning rods has been shown to be from 88 to 92 per cent.

These few facts, which are all matters of record in published reports, establish beyond question the conclusion that if all buildings in rural Ontario were rodDED 95 per cent. of the annual lightning damage to buildings would be eliminated.—Prof. W. H. Day, Ontario Agricultural College.

**Care of the Weaning Lamb.**  
For best results lambs should be weaned at between four and five months. It has been found that under conditions prevailing during the hot dry months of mid-summer the ewes will drop off considerably in their milk flow. The lambs receive comparatively little nutriment until soon learn to depend upon pasture. They should receive the very best pasture available. Nothing fits it better than a patch of rape sown at the proper time so as to be ready for pasture when the lambs are weaned. Care should be exercised in turning the lambs on the fresh rape to avoid bleeding and bruising. If no rape is available fresh clover will give satisfactory results. In addition to pasture a feed of grain once a day will push the lambs along to a good finish. At no time should it be necessary to feed over one-half pound of grain per day to each lamb while on pasture.—J. P. Backville, B.S.A., Ontario Agricultural College.

**Uses of Fruits and Vegetables.**  
The drastic regulations set forth by the Canada Food Board lately, have caused much anxiety to many people who feel that the market is short of produce either being considered unpatriotic, or going without sufficient food to nourish their bodies. This is a mistaken idea. In their excitement they have forgotten for the moment to recall the long list of available substitutes which can wholly replace the Allied demands, and to remember that for most of these stand fruits and vegetables.

Fresh vegetables not only contain a high percentage of water—a necessary requirement of our bodies—but also a large amount of mineral salts and acids which act as blood purifiers and body regulators; they also serve to prevent too great concentration of food and thus aid in the digestive process. Dried vegetables on the other hand, are rich in tissue-building material, dried peas and beans containing as much protein as our best cuts of beef, in addition to containing a large percentage of starch.

While fruits are usually noted more for their flavor, mineral matter and water than for anything else, still we must not forget that bananas, dates, figs, raisins and prunes are high in food value, some containing as high as 60 per cent. of sugar. For this reason they are a valuable substitute for cane sugar. They might well be given to children in place of candy, and when served in combination with puddings, or salads, reduce the amount of sugar needed, and add much to the value of the dish.

Vegetables and fruits should form a large part of the diet during the winter, as well as the summer months, and it is therefore to our advantage to see that they are canned or dried at the proper time for future use. Much valuable information on the canning and drying of fruits and vegetables may be secured from the Women's Institute Branch, Ontario Department of Agriculture, Geo. A. Putnam, Superintendent of Women's Institutes.

Hugo von Buelensleben, a nationalized German-American and inventor of device to enable planes to remain stationary in the air, is held in \$10,000 for pro-Teston talk.

## NATIONAL COUNCIL FAILING BEHIND ON ITS SCHEDULE

Effort to be Made to Bring Session to a Close Tonight

Protracted discussions upon several subjects at yesterday morning's session of the National Council of Women having delayed the program mapped out for the annual convention, three sessions will be held today, morning, afternoon and night. This afternoon the election of officers will be held, and tonight an effort will be made to complete the postponed business of yesterday, so that the convention may be brought to a close with the executive meeting on Saturday morning.

Yesterday afternoon the Council held a brief session, hearing papers on two subjects, "The Need of Home Nurses" and "Training of Nurses in Unions and Their Relation to Women and Children." At the close of the session, the delegates were the guests of a number of women at a motor trip about the city, all the points of interest being visited, and later in the evening at a lawn tea at the golf club. A number also attended the concert in the Ontario School for the Blind last night.

### THURSDAY AFTERNOON.

**Nurses Needed at Home.**  
A discussion on the nursing question, and more particularly the shortage of nurses in Canada, served to open the session. Miss Gunn of the Canadian Association of Trained Nurses addressed the Council. She told of the large number of applications received from Canadian nurses to go overseas, feeling that the most serious shortage of their first responsibility. There was no shortage of nurses from overseas work, but great need for nurses was felt in every sphere of civil life in Canada. At all times the number of applications for the regular nurse's training is noticeable throughout the Dominion. The fact that the women who qualify as V.A.D. nurses handicaps the training of home nurses.

The United States has been at war for two years, and has 700,000 extra nurses in service, declared Miss Gunn, whereas in Canada the increase during four years of war has been slight. She suggested that the provincial hospitals arrange their schools and offer special incentives, including a period of time spent in a military hospital, to those entering upon the course of training. It was proposed to have the teaching to the parent school, and have only practical work done in the military hospitals.

Some discussion followed the reading of this paper. Miss Gunn stated that a plan might be formulated, in conjunction with the present national registration, to lay the needs of the nursing profession before the young women of Canada. "Women are being absorbed in many new professions since the war," pointed out Dr. Gatten, considering that the shortage of nurses was only like the general shortage of labor. Miss Gunn felt that many young women now engaged in individual Red Cross work might be better occupied in organized nursing.

Mrs. Murray inquired whether the period of training could be shortened without impairing the efficiency of the nurses. Miss Gunn replied that it would not be advisable to lower the standard of training. She explained that it was proposed, however, to shorten the civil training and coupling with it a period of service in a military hospital.

Mrs. Murray emphasized the importance of publicity, and suggested that an appeal be made in the press for volunteer nurses. Mrs. Gunn believed that the majority of applications received would be suitable for service.

Mrs. Hope inquired whether V.A.D. nurses ever served in other than military hospitals. Miss Gunn replied in the negative.

Mrs. Laidlaw felt that a direct appeal from the Government for applicants for nursing would carry considerable weight. Miss Gordon suggested the formation of a body of volunteer reserve nurses, to be called upon only in cases of emergency. She felt that good would be accomplished by making V.A.D. service count in the regular nursing training.

Miss McIsaac of Alberta declared it a true patriotic duty to launch a universal campaign. "Let us save our babies," she appealed. "For every man from Alberta who has died in the war, seven babies have died in their cradles."

"The present output of our training schools is not meeting the needs of the nation," pointed out Miss Gunn. Mrs. Harrington of the Victorian Order of Nurses outlined the measures being taken in the United States, where training courses were shortened as a war time measure. On the motion of Mrs. Hamilton, the Council agreed to issue an appeal to young women, through the press, the universities and other institutions, to be made in the future.

## Music and Drama

THE BRANT.

George Behan enclosed for his Italian character roles upon the screen, appears at the Brant the last half of this week, in his latest Paramount production "Jules of the Strong Heart," a gripping story of the Canadian woods, in which Behan appears in the role of a rugged French Canadian with the same success that has crowned his previous efforts. The story is one with an appeal to all, and is of double interest to Canadians because the scenes are laid in this country. The Leon Sisters offer an original, and novel which includes balancing feats of expectation. "The Hidden Hand" draws near a close with the showing of the 14th chapter, Doris Kenyon, Arlene Pretty, Mamion Hamilton and Sheldon Lewis are starred in the picture. "The Pathic Gazette" presents all parts of the world in review upon the screen.

### THE REX

Irene Castle, widow of the late Vernon Castle, is seen at the Rex the last of this week in "Sylvia of the Secret Service," an engrossing picture depicting the part borne by a woman in frustrating the plans of America's enemies. Mrs. Castle appears in a role similar to that which she portrayed in the serial "Patricia," which was exceedingly popular when shown here a year ago. "Sylvia of the Secret Service" is produced by Pathé, and is a picture of great interest to all. The Grace Sisters present a clever singing and dancing offering. The tenth episode of the Vitagraph serial "The Woman in the Web," starring Hedda Nova and Frank Glendon, and a rollicking Mack Sennett comedy, are added attractions on the motion picture program.

To the age of 16 years being advocated in Ontario. This speaker argued most heartily, as tending to counteract the exploitation of children at an age when they are most in need of a guiding hand. War conditions have taught many lessons, but none more important than the necessity of a living wage.

Whether the National Council would go on record as supporting organized labor, whether it would take action to prevent the exploitation of women labor, were the questions which must now be decided. The speaker recommended the conclusion that a standing committee, rather than a special committee, on Trades and Labor Councils.

Mrs. Murray seconded Miss Strong's motion for the adoption of the report, and enumerated the aims of the labor movement; higher education and the abolition of child labor, higher wages, better working conditions and equality for equal work. She also moved that a standing committee be appointed on the organization of women labor.

### WABASH CONDUCTOR ALLEGED MURDERER

Also Passenger, Who is Said to Have Killed Him—Hammer Found

Chatham, June 13.—The alleged evidence of the murder of a conductor on a Wabash express, somewhere west of Detroit, was found here to-day in a hammer which a member of the train crew of Wabash Express No. 14 left with the baggage man at the G.T.R. depot here. The report reached here that a passenger assaulted the conductor, and following this either a passenger or a brakeman hit the conductor with a hammer and finished him. The hammer left here had blood on it, and has been returned to Detroit to the Wabash officials. This hammer was found after the train had left Windsor, where a new crew took charge. The deceased conductor is said to be Alex. Grant, who some time ago was a G.T.R. conductor running out of Hamilton.

### FORTY-FIFTY HOURS.

By Courier-Lesst Wire  
Ottawa, June 13.—Official information has been received of interest to the travelling public that the military control of the British consulate, New York, requires forty-eight hours' notice before his visit which is necessary on all passports for journeys overseas can be granted.

### BIG START ON PENSIONS.

By Courier-Lesst Wire  
New York, June 13.—The total number of pensions awarded from the beginning of the war up to May 31st was 34,873 and the total number of gratuities was 3,913 and when the board of pension commissioners took over the work from the pension and claims board, they had a staff of three compared with the present organization of nearly 600 persons.

### SUBJECT TO DRAFT.

By Courier-Lesst Wire  
Washington, June 13.—The Senate foreign relations committee at a special meeting to-day, took up the revised British-American draft treaty which was signed June 2nd by Secretary of State Lansing and Lord Bessborough, the British Ambassador. The treaty as revised, is understood to provide that Americans in Great Britain between the ages of 21 and 31 will be subject to draft and in this country British citizens, including Canadians, between 18 and 25 may be drafted. The treaty was referred to a sub-committee for prompt action.

How into the U.S. Treasury at Washington at the rate of some \$32,500,000 a month—rather less than enough to pay U.S. war expenses for two days out of the thirty.

# FATE OF THE CYCLOPS

### Is Causing Very Much Speculation—There Were More Than 300 People on Board

Washington, June 10.—What became of the missing collier, Cyclops? Interest in her fate has been revived since German submarines have appeared off the New Jersey coast. Is she a prize in some German port the victim of treachery? Does she lie disabled in some unfrequented cove of the tropical seas driven there and helples by accident? Or has she made her last voyage and with more than 300 souls turned up in Port of Missing Men to join seventeen other ships of the American navy that have disappeared just as mysteriously since 1781.

Sailing from Barbados, in the West Indies, March 4, with a complement of 294 men, the great 19,300-ton naval collier has not been sighted since or reported. By order of the Navy Department all available navy craft in southern waters have been making a dragnet search for the vessel, but daily the conviction among officials grows stronger that the great modern mystery of the sea will remain unsolved. But the search for the ship still is maintained with unabated intensity. Cruisers and destroyers have retraced her route. Every island among the scores that dot that portion of the sea is being carefully scrutinized for any clue. But the unremitting anxiety of the searchers has failed to disclose any trace of a ship apparently plucked in a day from the busy lanes of the South American trade routes.

Many Theories for Disappearances. To account for the disappearance of the Cyclops there have been suggested many theories—all possible, none entirely plausible. Was she blown into fragments by a heavy charge of explosives placed in her hold before she left port? This explanation is hardly acceptable because wreckage would have covered the sea for many miles around.

Was she torpedoed and sunk "without a trace" by a German submarine that had crossed the Atlantic to prey upon comparatively unprotected shipping? That theory is discounted, because in such a case at least a few S.O.S. calls could have been sent out before the Cyclops went under. Moreover, floating wreckage certainly would have been found.

Was she attacked and captured by a marauding enemy raider that had slipped into the Atlantic after evading the British fleet? Even if attacked, it is claimed, the collier's wireless would have put her in communication with other naval vessels or merchant shipping.

Did enemy agents carefully "plant" among the ship's personnel, seize control of the Cyclops in the night and dismantle the radio to make wireless communication with the outside world impossible? The explanation has but little support because it is claimed that a small enemy force hardly could be expected to reduce to prisoners a force of nearly 300 men, many of them naval reservists.

Naval Men Blame Storm. Again if taken by an enemy force abroad, where is the Cyclops now? Every day, every vessel capable of admitting a vessel of her draft, has been carefully searched. She had had not enough coal in her bunkers to make the trans-Atlantic trip to some German port. Moreover, one engine was out of commission, cutting down her speed to ten knots. Even if additional coal had been procured, she hardly could have slipped past the British patrols into some German port. For limping fast would have made her an easy victim.

# Lufbery Was Great Airman

### THE air-fighter's risk! Against extravagant odds do they daily venture forth to offer combat! Deadly efficient enemies above; countless missiles of death below; the delicate balance of their machines in flight; an overlooked defect in construction, in material, in engine power, or fuel; nature, with its fogs and snow, gales of wind and holes in the air—all unite against the life of the dauntless air-fighter. History never recorded similar heroism against such desperate odds, says Laurence in Touréris Driggs in the Century.

Furthermore, all this amazing science of war-flying is in the hands of boys and young men. Rarely do we find a successful airman forty years of age. Lt.-Col. Piccio of Italy, with a score of seventeen aeroplanes brought down to date, is the only one of a hostile and watchful enemy sky bring to us frequent revelations of human endurance, human audacity, and superhuman mystery that pale by comparison the wildest legends of the past.

Every nation engaged in this unhappy war has its conspicuous airman. Regardless of nationality, however, the self-same extraordinary characteristics are found in every person who has attained fame in this new and spectacular fourth arm of warfare.

Major Raoul Lufbery, who recently met his death in France, was the ace of aces in the American Escadrille, and for that reason, if for no other, was the most interesting American figure in aviation. He was 32 years of age at the time of his death. At seventeen Lufbery left home for a glimpse of the world. He ran over France, Algeria, Tunis, Egypt, Turkey and the Balkans during the next four years, working at any job that came his way, and moving on when his interest in his new surroundings was satisfied. Returning home in 1906 and finding idleness insupportable, he entered the regular army in 1907 and was sent to the Philippines. Here he distinguished himself as a marksman and won the first place in his regiment in rifle practice.

After completing his service he roamed over Japan and China and India. During his travels he ran across an aeroplane exhibition flight in Saigon. Mare Pourpe, the famous French trick flier, was demonstrating the far feat. His interest in aviation was kindled, and Lufbery continued his aeroplane education for three years under Pourpe. This experience lasted until the beginning of the Great War.

When the war broke out, Pourpe enlisted with his aeroplane in the famous N. 28, and for several months he took a conspicuous part in the nightly bombardments of nearby German factory towns. Until his death he always kept his American friend Lufbery by his side, first as mechanic and later as gunner.

Upon the death of Pourpe in December, 1914, Lufbery applied for permission to fly, vowing to avenge his death, and after a few days at Fort the American mechanic was brevetted and was enrolled in a squadron of bombardiers. In June, 1916, he was taken into the American Escadrille, and given one of the fast-flying Nieuports, armed with a rapid-firing machine gun.

At last the restless and courageous Lufbery found his true vocation. His success was rapid and real. On July 31 he brought down his first aeroplane, one of four airplanes that had imprudently attacked him: Within a week he bagged another. The third fell in flames five days later.

On Oct. 12, 1916, Lufbery shot down a fifth aeroplane, and received the official citations accorded to an ace and the rare decorations of the Croix de Guerre and the Médaille Militaire. Later he was decorated with the British Distinguished Service Medal.

Many miraculous escapes from death gave Lufbery a high reputation among his enemies. Frequently he continued to his aeroplanes, his wings literally riddled with shot and his clothing torn into shreds by the missiles of the enemy. But he was never injured either in combat or by the frequent perils of landing. In June, 1917, he was commissioned lieutenant.

Lufbery had eighteen official successes. At least six other machines have been brought down by him that could not be homologated. In this American hero, as in the intrepid airmen of France and England who have won conspicuous success in aerial combats, we find the dominant characteristics of painstaking thoroughness and ever-present prudence in all the particulars of his work. He was also a crack shot. His death gave the army annals of the United States the name of another hero to be remembered.

Will Enforce Early Marriages. The German commission appointed to examine the decline in the birth rate in Germany has reported a recommendation for the compulsory marriage of Germans before their 20th year is past. Financial assistance would be granted by the state, according to this plan, which provides penalties for those failing to comply. Provision is also made for the punishment of married couples who remain childless.

John Clinie Rose, clerk of the township of Orilla for many years, died after being stricken with paralysis.

# MOYLE-TRANQUILITY WOMEN'S INSTITUTE

### The meeting of the Moyle-Tranquility W. I. was held in the Moyle school house last Friday, May 31, with an attendance of 38. The business of the meeting was attended to and it was decided to accept the offer of the young people of St. James' church to put on the play, called "The Arrival of Kitty." The proceeds are to be used by the Institute for Red Cross purposes.

The government delegate, Mrs. C. G. Clump, gave an instructive talk on "The Women's Institute and Civic Life," also on "The Girl and how She Should Dress."

A couple of solos by Miss Heath and a reading by Miss R. Sharp, were much appreciated by all present.

The former president, Mrs. G. T. Wood and secretary-treasurer, Mrs. E. D. Clump, were presented with the works of Tennyson and Wordsworth, with the following address: "Tranquility, June 3, 1918, Mrs. G. T. Wood, Mrs. E. D. Clump, Dear Friends,—We, the members of the Moyle-Tranquility Women's Institute wish to express to you our appreciation of your years of service in the Institute. Mrs. Wood as president, Mrs. Clump as secretary-treasurer.

By your lofty ideals and steadfastness you have set a high standard for our Institute and have won our lasting respect. By the example you have set us of Canadian Warmth and you have encouraged the spirit of charity, sympathy and kindness among us.

We know we cannot begin to appreciate you for the time and strength, yet we feel it was not done from a sense of duty only, but was a labor of love. We ask you to accept this small token of our sincere regard and hope that in the years to come it will always recall pleasant memories of our work together.

Signed on behalf of the Moyle-Tranquility Women's Institute: Eva Greenwood, Jean Gregory, Margaret Crichton, Elizabeth Barrie, J. A. McClure.

At Peterboro, death occurred of Dr. James Bingham, aged 96 years. Thirteen members of the Galt Fire Department served notice that they would quit.

Rev. Jas. E. Holmes was elected president of the London Methodist Conference.

Rev. C. S. Moore, of Bellevue, was elected president of the Bay of Quinte Methodist Conference.

Huron County Council, now in session, passed a motion granting to the C.A. Red Triangle Fund \$24,000.

**BUILD STEEL STEAMERS.**  
By Courier Leased Wire  
Vancouver, June 14.—According to W. P. Hinton, vice-president and general manager of the Grand Trunk Pacific Railway, work will commence at an early date at Prince Rupert on the construction of at least eight steel steamships of 5,500 tons each. The vessels will be built by an American company using the great drydock and plant at that port.

**TWO AUSTRIAN SHIPS SUNK.**  
By Courier Leased Wire  
Venice, June 13.—(By The Associated Press)—Italian seaplanes have visited the scene of the action Monday where two Austrian battleships were torpedoed by two Italian torpedo boats and have found wreckage a mile square, ten miles north of where the attack took place, having been carried there by the currents. Many dead sailors also were seen in the water and Austrian destroyers were seen towing another destroyer along the coast. The seaplanes also observed the harbor of Pola and ascertained that there is only one Austrian dreadnought there. As there is no other dreadnought afloat anywhere in the Adriatic, Commander Rizzo and his companions in Monday's exploit feel satisfied that they sunk both the Austrian warships.

**MUCH FISH SOLD.**  
By Courier Leased Wire  
Ottawa, June 14.—The Canada Food Board announced today that during the last three days, one wholesale fish dealer of Toronto sold 70,000 pounds of fresh haddock, while other dealers also sold very large quantities of haddock and other fresh Atlantic fish. The demand for this fish has been stimulated to such an extent by a special campaign now in progress in Toronto for increased consumption of fish that large supplies were entirely exhausted, but additional supplies will arrive to-day.

### FRIENDS THOUGHT HE WOULD DIE

"FRUIT-A-TIVES" Conquered Dyspepsia and Restored His Health.

MR. ROBERT NEWTON.

Little Bras d'Or, C.B. "I was a terrible sufferer from Dyspepsia and Constipation for years. I had pain after eating, belching gas, constant headaches, and did not sleep well at night. I lost so much weight—going from 185 pounds to 146 pounds—that I became alarmed and saw several doctors who, however, did me no good. Finally, a friend told me to try 'Fruit-a-tives'.

In a week, there was improvement. The constipation was corrected; and soon I was free of pain, headaches and that miserable feeling that accompanies Dyspepsia. I continued to take this splendid fruit medicine and now I am well, strong and vigorous." ROBERT NEWTON. 50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

### CONSTIPATION CHILDREN

Mothers if your little ones are constipated; if their little stomach and bowels are out of order; if they cry when they eat and are cross and peevish, give them a dose of Baby's Own Tablets—the ideal medicine for little ones.

The system of single tax has been abolished in South Vancouver by Commissioner Gillespie. Rev. Dr. R. J. Wilson is leaving Vancouver after fifteen years of ministry there, and will accept a call to Kingston. Three months in jail was the sentence meted out to two youths at Fraser Mills for "borrowing" an auto for a joy-ride. Building activities at Vancouver show a marked increase, permits issued already in May being \$200,000 in excess of 1917.

### Many Traitors Caught, And French Drag-net Is Now Close to Caillaux

THE conviction of Duval and Leymarie, the French traitors, draws the net a little closer around the clique of French "defeatists" and traffickers with the enemy who, until Clemenceau came into power, laughed in their sleeves at the idea of prosecution. They were sheltered, they thought, behind the voting power of a group of Deputies which no Government could defy without making its tenure of office vexatious and insecure.

Bolo Pasha was tracked down, sentenced and executed. He was an exotic adventurer, only casually allied with the native politicians who were engaged in trafficking in French honor and safety. Bolo played his own hand, although at times his path crossed the paths of the others. But Duval, the director of the German-subsidized "Bonnet Rouge," was a man with important official connections. He was protected by Leymarie, an under officer in the Ministry of the Interior and subsequently the head of the French secret service. Leymarie saw to it that a check for \$30,000, of German

JOSEPH CAILLAUX.

origin, which Duval was caught bringing in from Switzerland, was restored, and proceedings against Duval on that score were quashed. Duval, Almeroyda and the "Bonnet Rouge" staff were hired men, doing Germany's reptilian work. Their paper was subsidized from Mannheim. Leymarie, however, was a political agent of Malvy, the Minister of the Interior, but into the Viviani Cabinet by Joseph Caillaux and retained there under succeeding ministries. Evidence gathered from many sources indicates that Caillaux expected to come into power when France should weary of the war, confess defeat and signify her willingness to accept a German-made peace. The Germans never concealed the fact that he was the man with whom they expected to deal in that contingency. Caillaux himself never disguised his belief that dependence on Germany was preferable to an alliance with Great Britain. The operations of Duval, Leymarie and Malvy—and incidentally those of Bolo Pasha—fitted in with Caillaux's ambitions and policy. Clemenceau was the one force in French politics whom Caillaux's influence in the Chamber of Deputies could not intimidate. He loathed "defeatism," whether accepted as an abstract political theory on which to attain office or practiced shamelessly in the concrete for German gold. By his fearless leadership, France has been saved from a hideous moral infection. He boldly and successfully uncovered a rotteness which had spread to the very core of government. France will settle with all her betrayers, whether they be petty jackals, of foreign strain, like Bolo and Almeroyda, or degenerate Frenchmen who have hated ministries or sat in the highest courts. After Duval, Malvy; after Malvy, Caillaux.

### Intern Dame Fashion.

Women are willing to eat less bread, go without sugar in their tea, eat margarine when they can get it, forswear the butcher even when he does not forswear them, eat porridge for breakfast and go without bacon and eggs. Women, moreover, are willing to wash up dishes for wounded soldiers, drive motor cars full of sick lads, run canteens, do a thousand and one kind of patriotic actions, but few of them are willing to flout Dame Fashion. There used to be sumptuary laws in this country, and they might with advantage be revived "for the duration," and Dame Fashion interned. For as long as fashions are allowed to change so long will women become dissatisfied with clothes which are good and whole, but are not a la mode, are not chic, are not in tip-top style. Why not a clothes card, limiting every woman to three changes of raiment? Many women would regard that as luxury in excess.—London Answers.

### Bishop Butler worked twenty years on his "Analogy," and then wanted to burn it because he thought it not good enough.

Captain J. W. Smith, son of the late Hon. Ralph Smith, M.P.P., and Mrs. Smith, has left Vancouver to join the R.A.F. at Toronto.

### PREMIER HEARST PAID VISIT TO SCHOOL FOR BLIND

Was Present at the Closing Musical Recital Held There Last Night. ADDRESSED PUPILS. Ladies of National Council Also Present in Large Numbers.

"Canada has reason for pride in the manner in which Canadian womanhood has responded to the call for aid, for, as the speech has done in the past, there is much which we yet can do, much which we yet must suffer, in the cause of victory, before it can come to us. In these words the Premier, Sir William Hearst, Premier of Ontario, speaking last night at the closing recital at the Ontario School for the Blind, extended greetings to the members of the National Council of Women present. The Premier in an address to the pupils of the institution laid stress upon the importance of the lessons they were receiving there, and upon the efforts being made by the government to maintain the school at the highest possible pitch of efficiency.

The recital took the form of the usual annual closing exercises, a splendid musical program being rendered in a manner reflecting high credit alike upon the pupils and the staff of the institution. The musicians of the evening were of varied ages, from tiny tots of four up to years of maturity, but each was faultless in his or her performance, so that to single out individual efforts for praise would be both difficult and partial. The hall of the institution was well filled at the opening of the entertainment, a goodly representation from the National Council of Women occupying seats of honor together with Sir William and Lady Hearst, who were present at the invitation of Mr. W. B. Race, principal. Mr. Race in his opening remarks extended a welcome to the delegates to the National Council, remarking upon the happiness of the chance that the council's convention should synchronize with the closing exercises at the O.S.B. He felt that the ladies present, representative of all parts of the Dominion, would be deeply impressed with the educational system in Council of the Blind of the province. Mr. Race added a word of hearty welcome also for a number of ex-pupils who were present.

Later in the evening Mr. Race announced the presence of Premier Hearst, and called upon him to address the gathering, explaining that Sir William's visit to the school was for the express purpose of visiting the school and speaking to its pupils.

Praise for Mr. Race. Sir William in his opening remarks extended greetings to the National Council of Women, wishing them all success in their convention. The present was a time when the Government need the advice, consideration and co-operation of all loyal men and women. Addressing himself then to the pupils of the institution, the Premier recalled his own early days in the school, and how he had endeavored to give his attention to the Ontario School for the Blind. In search of an ideal principal, he had travelled over the whole of the Province. He sought a man of education, a man of Christian principles, a man of experience, a man with a great, generous heart who could inspire the inmates of the Ontario School for the Blind to his ideals and lofty purposes. Almost at once, his thoughts had turned to the man who had educated all the children of his own family. Mr. W. B. Race, and he had prevailed upon the latter to accept the position. Other situations held forth greater monetary inducements, but Mr. Race came to discharge a duty to the blind boys and girls of the Province. The Government was determined to make the institution second to none in the land, to build up the staff to a high point of efficiency. In these matters the assistance and co-operation of the pupils was essential.

### Appeals to Pupils.

Whatever energies and talents had been given to each of us, we were called upon to make the best possible use of them. There was always a possibility of something better, something higher, there was always a "land beyond" for all of us, all should strive to reach. Sir William pledged the support of the staff and the ceaseless thoughts of himself and his Government, that the pupils might have the best possible equipment for their hard battle with the world. "The present," he continued, "is the most tragic, and yet the most glorious hour in Canada's history. Your brothers, your fathers, have made the name of Canada glorious; thousands of our bravest are now lying in foreign graves, and thousands more may share their fate. We who occupy the centre of the world's

### PRIVILEGE AND A DUTY

An Opportunity to Enjoy the One and Perform the Other on Registration Day, June 22nd.

At the close of the musical program Mrs. Torrington, president of the National Council of Women, returned thanks to Mr. Race for his kind welcome to the members of the council, giving assurance that all had both enjoyed and benefited by their visit to the school, and by the recital given. She made special reference to the poem "The Isle of Prayer," recited by its talented author, the gifted Miss Winifred Davidson, of Meaford, a pupil of the school, declaring that it furnished an inspiration to all. She congratulated the pupils and staff of the institution alike upon the splendid state of efficiency and co-operation existing throughout.

Mr. Race in bringing the meeting to a close spoke a few words of farewell to those of his own party who were leaving for the vacation, admonishing all of them to send him word of their safe arrival at their homes and to return with renewed spirits. To those who were taking their final departure from the institution, he gave assurance that the thoughts of their friends would be ever with them, and that they were the greater for those who left them to go forth into the world.

- Following is the full musical program which was rendered:
Toy Symphony—Muriel Stephenson
Dulcimer—Willie Metcalfe
Violin—Kathryn Sells, Greta Lammie

MISS' OR SMALL WOMAN'S DRESS.

The back closing is a feature which is much used on misses' dresses, and probably the best reason for its popularity is that it gives an unbroken front which adapts itself well to trimming, such as beading, braiding or embroidery.

The miss' or small woman's dress pattern No. 8741 is cut in three sizes—16, 18 and 20 years. Width at lower edge of skirt is 1 3/4 yards.

To obtain this pattern, send 15 cents to the Courier, Brantford, Ont. Two patterns for 25 cents.

QUIETUS FOR ANOTHER YEAR

Given to Question of Elders as Moderators—Case of Dr. Shearer Again Comes Up

By Courier Leased Wire London, Ont., June 13.—The vexed question of the throwing of the office of moderator open to elders as well as ministers, which took up practically all of last evening's session of the Presbyterian Assembly, leading to heated argument with accusations and denials hurled across the floor of the house, was this morning quite peaceably given its quietus for another year, when a new amendment to refer the matter to the Presbyteries, to be reported on to the next Assembly, carried.

The announcement that Rev. Dr. Shearer had accepted the position of secretary of the Dominion Social Service Council, which would have seemed to have left no further grounds for discussion of his resignation, led to another warm exchange of accusations and counter-accusations.

Dr. U. Tanner, of Quebec, said Dr. Shearer's resignation was introduced to the board solely by himself. It was not fair to accuse the committee of trying to oust Dr. Shearer because they had not been able to find a position to keep him.

"It is not by the whispered councils of a politician," he went on, "we are trying to exercise by influence. What we do we do openly."

He accused Dr. Dickie of inconsistency in proposing a new office for Dr. Shearer, which would have made him a dictator.

This Dr. Dickie denied. The position was advisory and left the Assembly supreme.

On motion of President Murray of Saskatchewan, Rev. Dr. Shearer's resignation was accepted to take effect on September 1, and he was made a member of the board of some missions and social service in place of Frank Yask, Toronto.

A resolution of appreciation of Dr. Shearer's service was passed.

LARGE INCREASE IN ACREAGE SOWN

Returns Show Gain in Extent of Land Sown at 1,324,950 Acres

Ottawa, June 13.—An increase of 1,324,950 acres in the amount of land sown to grain and hay in Canada this year as compared with last year is shown in the first preliminary crop bulletin for the season, issued today by the Dominion Bureau of Statistics.

The total area sown to wheat for the whole of Canada for 1918 is estimated at 16,080,800 acres, as compared with 14,755,850 acres, the finally established figure for 1917.

The area to be harvested of fall wheat is 338,000 acres, and the area sown to spring wheat is 15,742,800 acres, so that the increase of the later as compared with 1917, is 1,722,250, or 12 per cent.

The acreage sown to wheat in the Prairie Provinces totals 15,196,300, as against 13,619,410 acres last year; to oats 8,767,000 acres, as against 8,559,500 acres, and to barley 1,845,500 acres, as against 1,850,000 acres.

To wheat, Manitoba, has sown 2,618,000, Saskatchewan 3,226,000 and Alberta 3,366,300 acres. Under oats the acreages are for Manitoba 1,500,000, for Saskatchewan 4,602,000, and for Alberta 2,665,000.

whilst for barley Manitoba has 715,000 acres, Saskatchewan 662,500 and Alberta 467,000 acres. Nearly all the Provinces have considerably increased their acreages under spring wheat. Nova Scotia, by 11, New Brunswick by 24, Quebec by 24, Ontario by 45, Manitoba by 7, Saskatchewan by 11, Alberta by 16 and British Columbia by 6 per cent.

The acreage under oats is also increased by percentages ranging from 3 per cent. in Saskatchewan to 13 per cent. in British Columbia, Manitoba showing no change.

ROGUEING POTATOES.

The average yield of potatoes per acre in the Province of Ontario for the past thirty-six years has been about 115 bushels. The yields vary greatly. In 1917 there were variations in Ontario from twenty-five or less up to seven hundred bushels per acre.

Exercise the Breeding Stock. Exercise is essential for all male breeding stock. At certain seasons of the year it is an easy matter to exercise a bull or a stallion, the bull, the boar, or the ram.

The bull should not be allowed to run loose in the pasture with the cows. In the first place it is a dangerous custom, as it gives abundant opportunity for the bull to attack a person unawares or where escape is difficult.

The main points to be observed in keeping a bull in good condition so as to retain his breeding powers are to avoid excessive use when young and to give plenty of exercise and a moderate ration when mature.

The ram, during the greater part of the year with the main flock gets plenty of exercise, especially if the breeder is aiming for a crop of strong lambs, and gets the flock outside practically every day during the winter.

The boar will do best on a grass plot with plenty of shade during summer, and in a paddock with a small yard during the winter months.

An attempt to bribe an express clerk cost H. Kandelman, a Brooklyn merchant, three months' imprisonment.

WEAR "Fleet Foot" and walk in the most attractive, most comfortable and certainly the least expensive summer footwear you can put on.

There are styles for men, women and children—for all summer sports—for town wear, holiday wear and summer resorts.

Your dealer will help you make the change from leather to Fleet Foot with pleasure and profit to yourself, for "Fleet Foot" costs so much less than leather that it is a real economy to wear them.

None genuine unless stamped "FLEET FOOT" on the sole. The best shoe dealers sell "Fleet Foot."

CANADIAN CONSOLIDATED RUBBER CO. Limited

The railway fare from Camp Upton, L.I., to New York, round trip, has been raised to soldiers not on furlough from 65c to \$4.21.

Jeremiah O'Leary, fugitive from justice, and J. F. Ryan, a Buffalo lawyer, are among those convicted by a U.S. federal grand jury for espionage.

Germany is demanding the release of Franz von Rintelen, one of her dynamitards in the States, threatening reprisals against U.S. citizens in Germany.

OUR BIG ANNUAL Fishing Competition!

Begins on June 14th and extends until Sept. 17th --Both Days inclusive--

WHO is it who can't remember his first fishing experience? When the only preparation was searching mother's kitchen for a piece of string and going to the pin cushion for a pin and then, with a few angle worms, your outfit was complete.

Every Fish must be measured and weighed at our store. Every Fish entering this competition must be caught in the Grand River and Brant County only.

Get in on the first draft and do your share to help win the war by proving your prowess as a provider of the Brainy Diet!

- 1st Prize - A Gold Watch for the largest Small Mouth Black Bass. 2nd Prize - An 18-foot Special Jointed River Rod, for the Largest Pickerel. 3rd Prize - A Nickel Plated 80-yard Click and Drag Reel, for the largest fish of any kind.

ALL STREETS, ROADS AND LANES LEAD TO US FOR "FISHING TACKLE THAT'S FIT FOR FISHING." SEE OUR WINDOW DISPLAYS FOR SATURDAY SPECIALS

Optim Ring Broken

By Courier Leased Wire. Vancouver, June 14.—Seventy-nine tins of opium valued at \$9,000 transported in a trunk from Montreal to this city fell into the hands of detectives last evening after they had followed the drug from the depot to a shack where it was received by two Chinamen, who were placed under arrest. The arrests last evening are believed to be important as a means of breaking up the greatest ring of opium dealers in western Canada, who operate as far south as San Francisco. D120

Rippling Rhymes

OVER THERE. Our boys are swarming over there, as fast and thick as blades; at which the Kaiser renns his hair and hands out smoky phrases. He thought we were so far away, across such wastes of ocean, we'd never cut a notch of hay, but now he's changed his notion. He understood his submarines would keep our boys from landing, but now he wots and also weens he faked his understanding. He thought the Allies would be whipped, he'd wind up the slaughter race, for our soldiers could be shipped across the briny water. But now his hopes are gone to smash their wreck is most distressing, and now he sees, through his moustache, how punks all his gossamer. Oh, now our boys are over there, to swat the Hun and bleed 'em, to can the Kaiser and his heir, and save the world to freedom. And every day another bunch goes sailing 'o'er the water, to demonstrate our western punch, and make the tyrant totter. We'll show the Teuts what force can mean, with never stint or limit; We'll earn a glory most serene, and never can't dim it. Our boys will put Red Bill on ice, and set his doom bells tolling; and it is ours to roll the price, and keep the ball a-rolling. I have a keg of pleasure, and I won't lightly skim it, but dig the bundle up ertoons; with never stint or limit.

For Sale
