A Birthday Party

Mr. Thomas Pounder of Boston has been in Athens for several days, visitbeen in Athens for several days, visit-ing his niece, Mrs. James F. Gordon. Mr. Pounder is a welcome visitor to this section, as he has always proved loyal to the friendships formed here. Fifty-two years ago Mr. Pounder mar-ried a Miss Earl of Lansdowne and engaged in business in Boston as a case wear weard and the engaged in business in Boston as a soap manufacturer, and conducted the business successfully for a long period. A few years ago he sold out and invested heavily in real estate in the growing suburb of East Boston. Of this business also he made a success, and soon became known as the leading real estate owner and dealer in that part of the city. During all these busy, prosperous years Mr. and Mrs. Pounder never failed to visit periodically their friends in Athens, Lansdowne and Lyndhurst. Mrs. Pounder died three years ago, but Mr. Pounder con-tinues to come here for a visit every summer. Recently, friends in Leeds county have expressed a desire that some form of a demonstration in honor of Mr. Pounder should be made, and the suggestion has been warmly endorsed by friends in various parts of Ontario and by relatives in Boston. It has therefore been decided that the demonstration shall take the form of a reunion of the relatives and friends in nonor of Mr. Pounder's 74th birthday.

The event will probably take place at Lyndhurst during the latter part of August. Due notice will be given all

THE A. M. S. REUNION

The long talked of Modelite Reunion was held on Newboro Lake last years 'C1, '02 and '03, with a few triends, are now saying that five of the happiest days of their lives were spent

The committee, consisting of Misses Gallagher and Knapp and Messrs. Richards, Rhodes, Stewart and Leadbeater are to be congratulated on the success they have made of the reunion, and the modelites will long owe them a debt of gratitude for the time they have spent and for the trouble they have gone to in order to make every one happy. The greater part of the time was spent in fishing, bunting, etc., and all have voted Newboro Lake the best lake in the world for yielding large members of the "finny" tribe.

On Thursday the Yacht Jopl was chartered to take the modelites and a few of their newly made Newboro their return, they posed for a number of group pictures. Falkner was photographer. In the atternoon, a team composed of Modelites played a game of baseball with the Newboro nine, but suffered defeat by a score of 11 to 3. Bruce and Stewart were the bat-tery for the A.M.S., while Tett and Moriarty looked after the "curlers" for the locals. After the game all the party were entertained at the home of Mr. and Mrs. Fry, and a very enjoy-able evening was spent. On Saturday all departed for their homes, leaving behind a number of friends who will always welcome a student of the A.M.S.

The following were in attendance:

Misses V. M. Edgar; Mrs. E. J.

Pinkerton (nee Miss M. Karley);

Leggett, J. Percival; V. E. Joynt;

J. Knapp; E. M. Taylor; M. A. Tompkins; C. C. Ferguson; Mallory;

WHY TOAST IS DIGESTIBLE. Chemical Changes Make it Palatable

and Increase Salivary Secretions.

That it is possible to commit suicide by simply holding one's breath has been clearly proved by a despondent Nor-wegian, who killed himself in this very unusual manner. When he determined to die he closed his mouth and nostrils and by mere force of will prevented his It is the opinion of physicians generilly, and they seem to have imbued the general public with a like notion, that oasted bread is much more easily dilungs from doing their proper work.

This case is the more remarkable as
there has long been a popular notion
that no human being could by mere will
power stop the action of the lungs for rested than that cut fresh from the loaf. some are inclined to be skeptical in the matter, however. The doctor, if asked,

will probably state that the increased ligestibility is due both to a physical and chemical change produced by the basting process, which results in a wansformation of the carbohydrates in o more readily soluble forms.

A writer in a government report on the subject gives the results of a series of analysis showing the changes that he found in bread produced by toasting at different temperatures. For instance, Jead heated for one hour at 212 degrees. Fahrenheit, lost about 34 per cent. of weight, and contained 12 per cent, of material soluble in water. Light-colored, rellow toast, made at about 300 degrees Fahrenheit, was practically of the same tomposition. Brown toast, made at 338 legrees Fahrenheit, had 1 per cent. less moisture, but the soluble content increased to 26 per cent., while dark-brown toast, made at a slightly higher temperature, had a slightly less soluble content, and brown toast made by the usual touschold method—that is, at about 329 legrees Fahrenheit—contained only 22 Fahrenheit, lost about 34 per cent. of ner, for, simple as it seems, the act of retaining one's breath until death comes can only be performed by one who is either unusually phlegmatic or endowed with a very strong will." legrees Fahrenheit—contained only 22

legrees Fahrenheit—contained only 22 per cent. of soluble material..

The doctors' contention is, therefore, confirmed to a certain extent by the results of these experiments, but it is probable, according to the conclusions of the uthor, that the increased digestibility of toast is to be accounted for rather on the supposition that its agreeable flavor timulates the digestive secretions and tossibly its physical condition insures the letter mastication. The increase in the solubility of the carbohydrates is not relatively great when made by the ordinary household method, since this only affects the outside—that is, penetrating to a very small fraction of an inch.

JUST ONE MORE REMARKABLE CURE

Diabetes is again Vanquished by Dodd's Kidney Pills.

Donat Laflamme, of St. Marguerite, nat Lanamme, or St. Marguerite, Que., the man cured—Further Proof of the far reaching power of the great Kidney Remedy.

St. Marguerite, Dorchester Co., Que. July 11.—(Special).—That all varieties and stages of Kidney Disease yield readly to Dodd's Kidney Pills has been provided that the stage of the stag almost daily for years, but when another victory over the deadly Diabetes is scored it is always worthy of mention. Such a case has hapened here.

Donat Laflamme is the man cured, and the cure was guick as well as complete.

the cure was quick as well as complete. "For two years I suffered from Dia-tes. I was attended by the doctor king of his cure Dr. Laf but all his remedies did me no good. Then I tried Dodd's Kidney Pills and two box-

es cured me completely."

What will cure Diabetes will cure any Kidney disease is an old saying. And no doubt remains that Dodd's Kidney Pills will cure Diabetes.

THE ALAKE'S JOY.

by the King at Buckingham "The greatest day in the life of the Make of Abeokuta," as one of the dusky nonarch's retainers described it, com-nenced long before the average decadent

menced long before the average decadent Londoner was awake.

By 7 o'clock his Majesty from the Gold Coast was conducted in his private sitting-room at the Westminster Palace Hotel, a sort of dress rehearsal of his reception by King Edward. For several days past officials more tutored in court ctiquette had striven to guide the Alake's steps in the accepted direction, and had trained him to a nicety regarding the inclination of the head when in the presence By 9 o'clock vesterday morning. clination of the fleat when the sence. By 9 o'clock vesterday morning "His Blackness"—as the crowds have affectionately begun to call him—was pronounced to have acquired as perfect a deportment as any West African potentials.

deportment as any west have a very anxious-tate can hope for.

All the same, it was a very anxious-looking Alake, who, some hours later, drove in an open brougham through the great gates at Buckingham Palace. Had one of the vast crowd but spared a glance for that handsome ebony face, some heart must have been stirred to the compact of the compact some heart must have been stirred to sympathy. As it was, every eye was held enthralled by the barbaric splendor of the wearer's state attire. A "foundation," (as the experts say) of rich crimson silk, quaintly figured, enscrolled in gold, fringed with gold, laid out with golden flowers, the like of which never bloomed—at least in England—while golden showers in pendant sequins caught every stray flicker of sunlight and gave it back a thousand-fold—such was the resplendent robe made by the Alake's

it back a thousand-fold—such was the resplendent robe made by the Alake's subjects, which he has jealously preserved for several years in the hope of showing it to his Sovereign Protector. On his chest there gleamed a huge silver medal of proportions akin to a desert plate; on his head was a gold crown of wreathed and intertwined lizards.

People cheered, but there came no sign of acknowledgment; admirals and generals drove past from the Levee unheeded; even the drums and fifes of the Grenadiers were ignored. The Alake seemed neither to see nor hear. His self-concentration was absolute. He was going to bend the knee to his Sovereign. And there were those confusing "steps" to remember.

A different, utterly transformed Alake A different, utterly transformed Alake it was who ten minutes later issued from the palace gates. The accustomed smile had returned to the ebony cheeks, he flung a Yoruba cheer to the responsive crowds, he frantically waved a long white kerchief above his head, and it futtered behind him up the Mail like a flag of truce. The Alake had successfully emerged grom an ordeal which only those who have been presented at Court can appreciate. I was cured of Black Erysipelas by MINARD'S LINIMENT. Inglesville. J. W. RUGGLES.

King Edward, wearing a field marshal's uniform, was seated upon the throne when the Gentleman Usher conducted the A piano is as sensitive to cold and heat as an invalid. It must not be put too near a fire, or the wood is drawn by the heat.

Never leave it near an open window, if it is raining, or in a damp room without a fire, as this not only takes off all the polish from the case, but rusts the keys and wires and moulds the inside.

It should not be put close against It should not be put close against Wail. or the tone will be deadened. And you must have it tuned every three months, and choose your tuner as carefully as you choose your piano, or your instrument will be ruined.

Spending the sumer vacation in a tent is a custom that is yearly growing in popularity in almost every part of this broad land. On the Atlantic coast, especially on the south side of Long Island and along the New Jersey shore, and on the Pacific the tent colonies are increasing in numbers and growing in

Rochester, Buffalo, and other cities or Rochester, Buffalo, and other cities on the great lakes have thriving summer tent suburbs, where the city dwellers can get close to nature and enjoy lake breezes. The various Chautauqua as-semblies, scattered across the continent from the great parent camp at Chau-tauqua, N. Y., all through the Middle Western States, welcome the camper and provide nearly as much room for tents as for the more permanent cot-tages.

ages. Hundreds of little inland lakes, Hundreds of little inland lakes, all destitute of any such institute as the summer assembly, present inviting sites for summer camps, be they of solitary tents or groups for several families; and town folk, and villagers too, in increasing numbers, are realizing this and pitching tents there for a week or a month or longer.

nonth or longer.

To the city family of moderate means To the citv family of moderate means a tent camp often affords the opportunity of getting away to fresh fields and pastures new, which otherwise might not be possible. In a group of New York matrons who were discussing vacation plans the other day, one mother of four was enthusiastic about the benefits of tent life to her growing youngsters. tent life to her growing youngsters.

"Yes," she said, "we are going to spend

ers.

The regular compartment has twelve cross seats and two longitudinal spring cushion seats with high backs and head rolls. The smoker has six cross seats and two longitudinal seats in dark leather. Bronze parcel racks extend along both sides of the car for its full length, to which are added hooks for coats and hats. The car is lighted by clusters of "Yes," she said, "we are going to spend our summer in a tent again. We've done that for three years, and the whole family has voted it such a success that now we do not even think of any other plan as a possibility.

"Just as soon as the children are out of school we start for comp." I don't

"Just as soon as the children are out of school we start for camp. I don't know of anything that does my chil-dren so much good. You see, they live practically out of doors the whole sum-

mer.

"They're seldom in the tent, except when asleep and when it's too rainy to stay out—and that is seldom. They store up a big fund of good health that lasts them all through the school year

in town.
"But one of the greatest "But one of the greatest benefits from this sort of summering is that it makes them less particular about their food. At home the children sometimes get finicky about the kind of cereal they will eat for breakfast and become too fastidious about the cooking, but they get so hungry when we're camping that they are ready to eat whatever is put before them. They learn to help to cook the food, too, and anything tastes good when they've had the fun of preparing it over an outdoors fire.

"The boys—I have three of them, you know—learn other useful things too. henefit

it over an outdoors fire.

"The boys—I have three of them, you know—learn other useful things too. They have to help wash the dishes and make their own beds, and keep the camp tidy. And there is plenty of time for all these things and for play, too.

"No, I don't take any servants. Ours is a genuine camp. We take care of ourselves, and each member of the family has his own special chores to do.

"This gives each of us just enough responsibility to prevent laziness, and enough work to whet our appetites for a good time, and for good, plain, wholesome food. I am sure my children have been in better health and better temper since we have been camping out than they ever were before.

"Another advantage, and one not to be ignored or despised, is the opportunity tent life affords for nature study. Such opportunity is more initimate and more immediate than any other method."

Such opportunity is more intimate and more immediate than any other method of country life offers that I know of. of country life offers that I know of.
"My youngsters are all interested in
flowers and birds and squirpels and insects, and Benjamin Franklin, jun., always brings home a large collection of
rocks and fossils. Never a day passes
at Canvaswalls without some new discovery in these fascinating studies, and
there is never a dull day all summer
long."

"Well, well! Almost thou persuadest ome a camper," laugh ron No. 2, while a third added: going to try it this very summer," and she and the experienced mother of four forthwith launched into a discussion of plans and details of suitable places and essary outfit.-N. Y. Sun

DIRTIEST PEOPLE IN THE WORLD.

With possible exceptions in the cases of Thibet and Lapland, we are compelled to admit that English working classes are probably the dirtiest bipeds in the world, alike in their clothes and in their persons, and that they display themselves in public, and can travel by public conveyances, in conditions which would not be tolerated in any other civilized coune tolerated in any other civilized coun

Nothing like English working class dirt is ever seen in public on the continent of Europe, unless in its far eastern portions; and dirt is prejudicial to health; not only by its direct physical operation, but in a still greater degree by reason of the absence of self-respect which it entails and which removes from the dirty man or woman at least one safeguard against drunkenness and against misconduct.—The Lancet.

Why the Japs Win.

The latest, and perhaps the yellowest, explanation of the military success of the Japanese is seriously offered by the Sarasavi-Sandaresa, a Colombo newspaper published in the Singalese vernacular for the instruction of the natives:

for the instruction of the natives:

"The Sultan was communicated with regarding the approaching conflict, and, being a great friend of the Japanese monarch, he sent a specially trained company of swordsmen, each of whom, with a sword in his hand, is shot away from the mouth of a gun at the enemy, as ordinary shrapnel. On arrival among the the enemy he makes short work of them by his sword play! These swordsmen are now fighting for Japan and gaining vicfighting for Japan and gaining vio

HIGH-BRED BULLDOGS.

Popular, But Not the Fighters Many People Suppose.

It will surprise most uninformed peo-ple to learn that the bulldog is about the most popular dog of the present day, says Country Life in America. This is true at least with regard to the exhibit says Country Life in America. This is true at least with regard to the exhibiting section of the dog world. Undoubtedly the ordinary citizen, who has in his mind's eye one of these half-bred dogs which may sometimes be seen hauling along as tough a looking specimen af the "sport" as is the dog, is not so far wrong in failing to understand how any person of gentlemanly instincts can fancy such dogs, but these are not bulldogs, any more than a mule is a race-horse. They are merely half-bred fighting terriers. Then the daily press is not free from misleading the public, for nearly every case of attack on the part of a dog is ascribed to a "savage bulldog"; whereas bulldogs are not savage and are uncommonly poor fighters. Tenacity of grip, with all the strength of his powerful jaws, is about the end of the bulldog as a fighter. of incandescent lamps and is heated by hot water.

There are fourteen windows on each side with polished plate glass in the fan lights above. The fan lights are spring balanced and can be raised and held at any desired position, the weatheir spring stripping making them storm and draught proof. Hinged rods are so arranged outside as to preclude the possibility of accident to the passenger when the window is raised.

The ceiling is the full empire design, and painted a light green with no decorations. Steel platforms, sills and double posts insure rigidity and strength in case of accident.

The platforms are arranged on one

Chemistry in the Pulpit.

On a recent Sunday the officiating clergyman at Failrie Parish Church took for his text "Miracles," and illustrated his sermon by chemical experiments. There were people, he said, who refused to believe that there were such things as miracles. The scentice such things as miracles. The sceptic ism proved, he maintained, that these such things as imates.

sim proved, he maintained, that these people were ignorant of the established order of nature; and in proof of this he proceeded to analyze in the pulpits a quantity of common sugar, which is only composed of carbon and water. He separated these two elements, pointing out that whilst men could thus separate them, the wisest could not put them together again as God had done. He next burned a magnesium ribbon, and explained how it absorbed the oxygen in the air, forming magnesium dioxide. This, he said, was a miracle, entirely unexplainable. Further simple experiments were made to explain the teacher's contention.

Minard's Linament Cures Distemper.

THE DAY OF JUDGMENT.

In a recent Irish case, says the Pall Mall Gazette, interest on a promissory note was claimed "from the issue of the writ until the Day of Judgment." It was argued that nothing was due until that event happened, but the court held that what was meant was the day or date of judgment, which was well within their control, and had, indeed, arrived.

ASHAMED OF A HAIRLESS HORSE.

A farmer near Jackson, says the De troit Tribune, raised a colt that was as bare of hair as a Mexican dog. The parbare of hair as a Mexican dog. The parents of the freak were of the ordinary covered kind, and no theory is advanced as to the cause of the offspring's ridiculous mudity. The animal grew to horsehood, but seemed so "sort of repulsive-like" that the owner was ashamed to drive him to town, and kept the hairless monster at work on the farm. A Jackson man heard of the horse, and for \$40 became his owner, and now has an offer of \$500 for him, a sum which he has refused, on the ground that the freak is or soon for him, a sum which he has re-fused, on the ground that the freak is worth much more. In all respects his shameless en deshabille, the hairless horse appears respectable and well-be-haved.

shaphat's Reform-2 Chron. 19:1-11. Jehoshaphat's Reform—2 Chron. 19:1-11.
Commentary.—I. A severe reproof,
(vs. 1-3). This chapter is entirely additional Kings, and is of great' interest. It deals with these matters
only; the rebuke addressed to Jehoshaphat by the prophet Jehu (vs. 1-3)
the personal efforts of Jehoshaphat'
to effect a religious reformation
(v. 4); and his reform of 'the judicial
system (vs. 5-11).— Speak. Com. I.
Returned—From the battle aninst
Benhadad in which Ahab was slain.
In peace—Without capture or pursuit
being miraculously delivered from
imminent danger.

mminent danger. 2. Jehu, etc.—The Hanani who is

2. Jehu, etc.—The Hanani who is here mentioned, was probably the seer who reproved Asa for seeking help from the king of Syria, (chap. xvi. 7). His son Jehu was early called to the same divine work which distinguished his father.—Terry. More than thirty years before this Jehu had foretold the doom of Baacher king of Israel (1 Kings xvi. 1). Jehu had foretold the doom of Baasha, king of Israel (1 Kings xvi. 1). To meet him—He went at the earliest possible moment. God had sent him for this purpose, and the old prophet did not hesitate. But Jehu received better treatment from Jehoshaphat than his father Hannai had received from Asa chap. xvi. 710). Shouldst thou—What a forcible, refereing question; Jehosphaphat's plercing question; Jehorphphat's conscience would cause him to quickly answer it negatively. Help the ungodly—"Such was the idolatrons Ahab, whose kingdom was so largely given over to the worship of Baal and Ashover to the worship of Baal and Ashtoreth." A great principle is here laid down. Go i's peop e should not give the hand of fellowship to the wicked or assist them in any of their ungodings. And love them, etc.— James says. "Whosoever therefore will be a friend of the world is the enemy of God" (chap. iv. 4). What would we conclude if these whom we supposed (conclude if those whom we supposed to be our friends should join them to be our friends should join them-selves to our enemies and showl, a fondness for those who were bent on our downfall. John says, "Love not the world," etc. (1 John ii. 15, 16.) Therefore is wrath—The prophet does not tone down on mince matters. "Faithful are the wounds of a friend but the bisses of an enemy for debut the kisses of an enemy are de-ceitful." Upon thee—He was plainly told that the consequences of his sin would fall upon him and his people would fall upon him and his people with crushing force. "And is not the wrath of God upon all those alliances which His people form with the ungodly, whether they be social, matrimonial, commercial or political."—

3. Nevertheless-"The seer has for Jelioshaphat words of encourage-phat words of encouragement as well as words of blame, and reminds the king that in taking away, the groves he had shown the true theorgroves he had shown the true theoretic spirit, which would not fall to to be recognized and blessed of God. And this oracle of blame and praise haspired the king, to attempt further reforms;"—Terry. Groves—The

Asherah images.

II. Judges appointed.—vs. 4-7. 4.
Again. This refers to his previous reforms deser bed in chapter 17. Beersheba. This was the southern extremity of Judah. Mouat Ephraim.
The kiegdom of Judah was bounded on the north by the mountains of tremity of Judah. Mouat Ephraim. The kicgdom of Judah was bounded on the north by the mountains of Ephraim. Jehosaphat traveled the whole length of his kingdom and examined everything himself "to see that Judgment and Jistice were porferly administered among the people." Brought them back. Many probably had gone into idolatry when they saw their king to intimate with idolaters, therefore he put forth every effort possible to rescue them and bring them back to the true religion. Those who truly repent of sin do all in their power to repair the damage they may have done to others. 5. Set Judges. The king appointed local magistrates in all the principal cities, according to the directions of the law (Deut, xvi., 18-20), so that justice might be administered with ease and convenience. 6. Take heed. A very solemn and necessary caution. A very solemn and necessary caution. The case seems hopeless when the judge is corrupt. Is with you. Sea R. V. "The judges in deciding cases against the rich and powerful were against the rich and powerful were to strengthen themselves with the thought "God is with us." "—W. E. Barnes. 7. Wherefore now. "Probably Jehoshaphat discovered irregularities and wrongs in the administration of justice, such as showing respect of persons and the taking of bribes, and he according undertook an exaccording undertook an exand he according undertook the strength reform in the matter. His work no doubt consisted largely in removing evil judges and confirming the good in their office."

III. A supreme court established.—

away, resumed business in Edinburgh, was successful and is now wealthy.

A feeling kept urging him to return again to this country for a visit. The voyage did not agree with him, and he came to Atlantic City. vs. 8-11.
S. In Jerusalem. Jehoshaphat's second reform measure was to establish a court of appeal in Jerusalem in accordance with Deut xvii. 8-12. "This measure was probably altogether new. David and Solomon had kept judgment in their own hands. The prominent position assigned to the priests as judges was in accordance with Deut. xvii. 9, xix. 17."—Cam. Bib. Of the Levites, etc. A certain number of each of these three classes constituted a supreme court. Judgment of the Lord. PRACTICAL SURVEY. Let of vanishing greatness. From terialized. We haven't thought of the days of Solomon the kingdom had that. Why should we."

not enjoyed greater prosperity than during Jehoshaphat's reign. "The fear of the Lord fell upon all the kingdoms of the lands that were round about Judah, so that 'they made no war against him. Even the Philistines and the Arabians brought tribute and presents to him. "And Jehoshaphat waed great exceedingly," "and his heart was lifted up in the ways of the Lord." He had begun right by following the Lord and walking "in the first ways of his father David." In his father Asa he had both an example and an object lesson. For the greater part Asa had followed the Lord, but the time came after all of the peace and prosperity. that he had enjoyed, that he joined with the Syrlans against Baasha, and the Lord strongly rebuked him by the mouth of the prophet Hianani. The King reproved. Evil example a powerful inducement to wrong doing, especially where there is a disposition in that direction. Jehoshaphat made an alliance with the wicked Ahab against the Syrians, as his father, had joined with the Syrians against Israel. Christians mya well be careful how they join with the bagodly in association, in busi-BRITISH AND GERMAN ARBITRATION TREATY

Diversity of Opinion Regarding King Edward's Latest Deal With the Emperor of Germany.

Eighty Thousand Men Involved in the Chicago Butchers Strike and Many Branch Industries Affected.

Unless the Dispute is Settled by Arbitration, a Prolonged Labor War May Result.

London, July 18.—The announcement that an arbitration treaty between Germany and Great Britain was signed yes terday by Foreign Minister Lansdown a man has been ruined spiritually by joining societies, the tendencies of which are woridly and even anti-Christian. It is a dangerous thing to disobey the injunction of the apostle, "Be ye not unequally yoked together with unbelievers."

Destroying idolatry. Jehoshaphat appears to have received the reproof of the prophet in a very different different manner from that in which his father Asa had received Hanani's message to him, for we discover from and Count Wolff-Meternich, the German Ambassador, comes as a complete and not altogether pleasant surprise to the English press and public. It was against just such an agreement that the Spectator and other powerful organs urged the Government prior to King Edward's visit to Emperor Wiffiam at Kiel. By the papers which echoed that warning the news of the signing of the arbitration treaty is swallowed either with palpable dislike or with ill -concealed disappointment. the account no ill treatment of Jehu, but we notice that the king went at once to the work of improving the condition of his people. Those who highly esteem and adore friends, wealth, pleasure, fame and self, bring to the property spiritual death. They

well be careful how they join with the ingodly in association, in busi-ness and in domestic relations. Many

a man has been ruined spiritually

ssage to him, for we discover

selves spiritual death. The to themselves spiritual to the favor of God. As Jehoshaphat removed idolatry from Judah so we must tear the idols from our hearts

must tear the idols from our heats and worship God alone.

A true revival. The king had prepared his heart to seek God, which was an excellent beginning in the great work that lay before him. It was a heart religion with him. Men do not accomplish much for God

unless their hearts are in the work,

unless their hearts are in the work, and unless their hearts are right with God. He went, as the record indicates, throughout his who'e kingdom, probably with the aid of teachers. "Head brought!" his woods "theel"

ers. "and brought" his people "back unto the Lord God of their fathers."

This was far more than a mere poli-tical reform. It was moral and spiri-

Forty thousand persons, approximate Forty thousand persons, approximately, find employment in the big packing houses in Chicago, and this number already has been reduced one-half. The effect of the strike upon the mechanical and other departments, it is declared will increase this army of unemployed in Chicago before the end of the week to nearly 35,000. Arbitration is looked upon as the only means to avert a proupon as the only means to avert a pro-longed strike. The strikers declare that they will be willing to consider any rea-sonable proposition submitted from the

The detail of police at the stock yards has been increased in number, and all night the officers patrolled the strike district and the streets account to the yards in pairs. There was considerable speculation as to whether the packing house teamsters would as out on the packing house teamsters would as out on the packing house teamsters would as out on the packing house teamsters would go out on a sympathetic strike. George Golden, busi pathetic strike. George Golden, business agent of the union, set all doubts at rest, at a meeting of the teamsters joint council, by announcing that the teamsters would remain at work as long as there was work for them to do.

Trying to Arbitrate. New York, July 18.—The leaders of officers of the Amalgamated Meat Cutters' and Butchers' Union of America, five thousand of whose members went out on strike to-day, are in conference at the local union headquarters. It is ported that a plan for the arbitrati the wage difference, which caused the strike, is under discussion. Requests for police protection from many of the meat packers were received about the hour for work to begin at the establishments. No trouble had threatened, but the request

packing house, reserves were sent upon the report that a crowd of men were gathering. A meat famine is possible here within a few days, if the widespread strike of the Butchers' Union continues. The strike has already caused an advance of one cent a pound in the wholesale price of beef here, while retailers generally have increased their demands.

Preparing for Scarcity. Boston, July 18.—To meet an expected shortage of western beef, as a result of the strike of butchers and packers, Boston beef dealers are making arrangements to slaughter in abbatoirs near the city, to which cattle will be brought on the hoof from all parts of New England, city, to which cattle will be brought of the hoof from all parts of New England, New York and nearby States. Every effort wil be made to offset the decrease from the west. The meat market was short before the strike was called, according to the meat exporters, and wholesale prices already have advanced from \$2 to \$3 a hundredweight, according to grade. Retail prices were advanced one cent a pound to-day, and will be further advanced to-morrow and the next day, dealers say, unless the strike is settled.

One of the large firms involved in the Chicago strike operates a big packing house in Eastern Maine, for the export trade, and it is understood that the output will be turned into the domestic market.

The Meat Situation.

Chicago, July 18 .- The first step to ward peace between the seven big packing companies and their 50,000 striking employees was taken to-day, when Presi-dent Michael Donnelly, of the Amalgam ated Meat Cutters' and Butchers' Union of North America, held a conference with of North America, heid a conference with representatives of the packing houses in which the strike was called. These are indications that the conference will open the way for a settlement of the strike: Both sides are in favor of a peaceable settlement upon an equitable basis, and it is believed that an arrangement will be made for the men to return to work be made for the men to return to work pending an adjustment of the differences

by arbitration.

That this manner of settlement will be accepted by both sides appears probable.

J. Ogden Armour for the employers and Michael Donnelly for the workers have united in declaring they favor arbitation. The head of the union, in council tion. The head of the union, in council with President Samuel Gompers, of the American Federation of Labor, was advised to make terms at once if he could secure what he deemed fair considera-

It is understood that in the conference to day the union leaders will insist that all strikers be reinstated. Another point on which the labor men will lay great stress will be that a wage scale for each class of workers in the packing plants be agreed on. This brings up one of the original differences. The packers have maintained that any contract made should not include the unskilled work-

MURDERER AT LARGE.

A Farm Hand Murderedat Batavia.

Batavia, July 18 .- A shooting affair occured last night on the old circus grounds on West Main street, where the Pelham Company is playing the "Galley Slave. Raymond Scheer, a farmhand, employed by James Bratt, of the Oakfield road, was shot by R. B. Adkins, an employe.

Imediately after the shooting, Adkin Adking went to a telephone and said he had shot a man and called a physician and

then disappeared. He has not yet been aprpehended, but Sheriff Clark is on his trail and followed him to Oakfield, where he took the West Shore train to Akron, and then went A telegram from the sheriff says Adkins is making for Canada.

Adkins is about five feet six inches

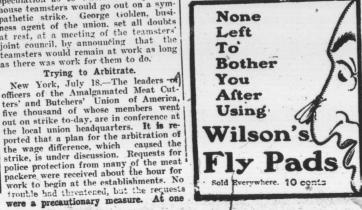

tall, with light blue eyes, light hair, sandy complexion and weighs about 160 oounds. A woman's picture and the word

"love" is tattooed on his arm.

No reason is given for the shooting, except it is intimated the men quarreled

Scheer was taken to a hospital, when he died. District Attorney S ne died. District Attorney Steaman has secured an ante-mortem statement.
Adkins joined the show at Conneaut,
O., a short time ago. Scheer was about
32 years old and was born at Perry, N. where his wife and three children

Cherries, basket, 90c to \$1.10. Red currants, large basket, 70 to 8 ic. Gooseberries, basket, 60 to 70c. Huckleberries, basket, \$1.25 to \$1.40. Watermelons, 25 to 80c each. British Cattle Markets.

London, July 16.—Cattle' market firm, at 12 to 13 1.8; per lb.; refrig-erator beef, 11 to 71 1 8; sheep, 10 1-2 to 12c; dressed weight.

FAILURES LAST WEEK,

July 16.—Commercial failures this week in the United States, as reported by R. G. Dun & Co., are 225, against 206 last week, 249 the preceding week and 213 the corresponding week last year. Failures in Canada number 20, against 12 last week, 11 the preceding week and 16 last year. Of failures this week in the United States, 87 were in the East, 8 South, 67 vest, and 23 in the Pac. fic States, and 75 report liabilities of commercial failures in the United States thus far reported for July are \$3,565,356, against \$5,644, 1884 for the corresponding period last July are \$3,565,356, against \$5,644,-

Toronto Live Stock.

Receipts of live stock at the City Receipts of live stock at the City
Market were light, 15 carloads, consisting of 74 cattle, 600 hogs, 161
sheep and lambs and 22 calves.

In the fresh arrivals of to-day,
there were a few good cattle, eslocally 1 load of butchers' and 2
loads of exporters, brought in by
Missrs. Lowe and Nicoll, of Tara.
Trade was dull, and although the
offerings were light, there were sev-

offerings were light, there were several lots of inferior stockers, as well as two loads of good exporters left insold. All offerings of good butchunsold. All offerings of good butchers' cattle were bought up readily.

Prices were about the same in all classes of live stock as on Thursday.

Exporters—Choice, well finished, vy exporters are worth \$5 to \$5 --

Export bulls—Choice export bulls sold at \$4 to \$4.25; medium at \$3.75 25 per cwt. to \$3.85.

Export cows -Prices ranged from \$3.50 to \$4 per cwt. Bradstreets onTrade.

In Montreal business is showing the ef fect of the midsummer dullness peculiar to the holiday season. The sorting demand has dropped off, and the attention is now mainly directed toward fall trade in which the orders have kept up very well. Values of staple goods are generally well maintained. No changes are re ported in cottons, and woollens are firm

r. Remittances are very slow. In Toronto, wholesale trade is moder In Toronto, wholesale trade is moderately active for this season, when the demand is always more or less quiet and largely confined to the future requirements of trade. Prices of staple manufactures are mostly steady. Wool is factures are mostly steady. Wool is firm. Three cars of Canada combing and were this week shipped to the Inited States.

United States.

At Quebec, general trade during the week has been quiet. The rain during the early part, which was badly needed, has been of considerable benefit to pasturage. Few tourists have arrived, and as a result city trade is not as active as as a result city trade is not as active as

At Victoria-Vancouver there is noticeable improvement in wholesale trade. The demand for fall goods, as reported by Bradstreet's, is better in come departments. The northern trade me departments. The northern trad In Winnipeg, wholesale trade has dis

played further expansion the past There is a cheerful feeling in wholesale trade circles over the excellent prospects or the fall business.

for the fall business.

The orders for staple goods for the fall and winter are coming forward in fair volume at Hamilton, and a cheerful feeling prevails in wholesale trade circles over the future outlook for trade. The over the luttle buttook lot that sorting trade, in common with other centres, is much smaller, and more attention is being paid to the future by re-

tailers.

In London, as reported to Bradstrect's, there is a moderately good 'demand for this time of the year. Travellers' orders for fall goods are fair. There has been a little too much rain for the crops, but otherwise conditions are good.

Ottawa wholesale merchants report a good inquiry from the trade for the fall, and the belief is that once the crops in the yest are assured from denore, there will the renewed activity in buying.

will be renewed activity in buying, ues of staple goods continue steady.

SPRAY POTATOES NOW

miles from home.

Farmers continue to lose hundreds of bushels of potatoes every year from blight and rot which might be saved by spraying the vines with Bordeaux mix ture. The results obtained at the Central Experimental Farm and elsewhere have proved over and over again how well it pays to spray, but comparatively few farmers spray their potatoes for the prevention of rot yet. At Ottawa one variety that was sprayed yielded at the rate of 201 bushels more per acre than the same, variety unsprayed, and taking the average of 11 varieties there was an increase of 120 bushels per acre. The formula used is 6 lbs. bluestone, 4 lbs. lime and 40 gallons water. It the potatoe beetle is still active 8 ozs. Paris green may be added to this. If fresh lime cannot be ob tained, 71 lbs. washing soda will take its place. There should be about 4 fragrance of the Catalpa blossoms, many of which exceeded a foot in length.

the same intervals, the object being to teep the vince covered with the mixture until September. It has been proven by experiment that over half the crop of potatoes will be produced after August 22nd, if the vince are kept green, and this is what spraying will do, as at the Experimental Farm, 18 to 20 days longer than where left unsprayed. The cost of four sprayings is about \$7. Fuller particulars will be furnished on application to Central Experimental Farm, Ottawa.

Sudden Death

On Tu-selay morning last a sad and sudden death occurred at the home of of Mr. Bert Knapp, Plum Hollow. A son of Mr. Oscar Whelan, aged about thirteen years, was in he employ of thirteen years, was in 'he employ of the tor at St. George, Brant Co., is this week visiting his sister, Mrs. T. S. Kendrick, and renewing a pleasant college acquantance with Rev. I. N. Beckstedt, M.A. vorse, and died in about half an hour It was learned that he had drank some liquid out of a bottle that was in the rn, and this was in all probability the cause of his death, as the liquid was a medicine that had been used in

spraving cattle. The death is a peculiarly sad onand the relatives have the heartfelt sympathy of the whole community in their sudden bereavement.

Muskoka Tourists

The prospect for a heavy tourist "Highlands of Ontar o," including the several districts north of Toronto, is very promising, and in comparison with last year, the number who have already gone in this year is in excess of last. The Muskoka Lake dis rict is getting a large quota, and the hotels and boarding houses are filling up. Many new cottages have been erected since last season by wealthy Americans Last week Ge eral Caldwell, Acting Governor of Jannica, and wife, were registered among the guests of the "Royal Muskoka," as well as many prominent

CHURCHES AND OUTLAWS. meient Laws That Gave Shelter and

In early times, when life and property were accounted cheap unless de-fended sword in hand, the church offered shelter and sanctuary to those who had occasion to fear the arm of the law. In the middle ages whoever crossed the threshold of a church was considered under divine pretection and could not be arrested, while severa churches and cathedrals still pro knockers used by those who had fied thither for shelter and claimed admittance. In some buildings the fugitive from justice sat upon a chair er Durham, England, covering a period extending from the year 1464 to the year 1524, included, besides other crimes, 195 murders and homicides, in which 283 persons seeking protection were concerned. To attempt to violate a very serious matter, and when the outlaw decided to save his life by leaving the realm he did so in the following manner: "When a robber, murdere er other evil doer shall fly unto any church upon his confession of felony the coroner shall cause the abjuration to be made thus: Let the felon be brought to the church door and there be assigned unto him a port, near or far off, and a time appointed to him to toward that port he carry a ero his hand, and that he go not out of the king's highway, neither on the right hand nor on the left, but that he keep it always until he shall be gone out of the land, and that he shall not return without special grace of our lord the

PERSONAL NOMENCLATURE.

Ancient Names and the Modern Sys-tem of Surnames. Neither Hebrews, Egyptians, Assyrians, Babylonians, Persians nor Greeks had surnames, and in the earliest period of their history the same may be said of the Romans. In course of time, however, every Roman citizen had three names—the praenomen, or personal name; the nomen, or name of the gens or clan, and the cognomen, or family name, as Publius Cornelius Scipio. Conquerors were occasionally complimented by the addition of a fourth name, or agnomen, commemorative of their conquest, as Publius Cornelius

Scipio Africanus.

It is impossible to state with any degree of certainty when the moders system of personal nomenclature be-came general. It has been stated that the practice of surnames began in Nor-mandy and extended to England after the Norman conquest, but a document in the Cottonian MSS. quoted in Turner's "History of the Angle-Saxons" contains reference to Hwita Hatte, a keeper of bees in Hathfelda; to Tate Hatte, his daughter, mother of Wul-sige the Shooter, and Lulle Hatte, sis-ter of Wulsige. The date of these records of the Hattes is not to be ascertained, but they were certainly written before the year 1066. Se far as antiquarians have been able to discover, Hatte is the first surname whose existence can be traced in England. It is not improbable that the founder of the Hatte family was so called because of some unusual or noticeable headgear that he was in the habit of wearing.

THE YOLKS OF EGGS.

These of a Boddish Hue Better Than the Pale Yellow.

There is most probably an important dietetic difference between two eggs the yolk of one of which is a very pale yellow color and that of the other a rich, almost reddish color. It is a notorious fact that the country produced egg may usually be placed under the latter description, while the egg pro-duced by the hen that is under an un-healthy and limited environment shows an anaemic color, generally a very pale yellow. The eggs of wild birds—as, for example, the plover—show a yolk of a rich reddish color.

The substance which contributes col-or to the yolk of the egg is iron, just as it is iron which gives color to the blood, and there seems to be little doubt that the iron compound in the yolk of the egg is of a similar nature to that of the blood. It is easily assimilated, and eggs are regarded as a suitable food for the anaemic person, as they present a concentrated and generally easily digested form of nu-triment rich in iron. The iron compound of the egg has, in fact, been termed a "haematogen," because it is probable that from it the blood of the chick is derived. The amount of iron in the yolk of an egg would appear to increase with the intensity of its color, and there can be little doubt that the maximum is reached in the richly colored yolk of the egg produced by a fowl existing in healthy suroundings, for then its processes of nutrition would be working under very favorable conditions. As an article of diet, therefore, the egg should be judged not by the color of its shell, but of the yolk, which should be of a rich reddish rath-

er than of a pale yellow color.—Lancet. THE ENGLISH TAILOR.

He Used to Be Humble, but Now Re Of late, be it noted, the tailor has be-

ome quite an unreasonable and gratuitous drain on all men's purses. Formerly you were his patron. He was very civil and gave you unintermittent opportunities for seeing the top of his head and the back of his neck. He rubbed his hands and crawled be-fore you for 5 guineas a suit. If you paid any time before the death of the senior partner in his business he bowed you to your equipage and said in his heart that you were a great gen-

Today he is a vampire, he sucks your blood, he walks erect, he chooses cloth for you, you must have what he tells you to have, his terms are cash on delivery, his credit will last you six months, and as often as not he is a member of your friend's club.

He is the person who makes you or mars you. With his bit of soapstone he can turn you out just so or not just so. Be civil to him, I adjure you. You are only a poor, soppy, brainless, driv-eling rascal of a man. If you be not will dressed you will become a wreck, a hulk, a derelict, a castaway on the misty shores of business and society.—
London Gentlewoman.

The Telltale.

That was an embarrassing position in which a fashionable New York woman found herself recently. She was invited to a wedding, but did not think. either of her hats was good enough for the occasion. So she visited her milliner's and had an exceedingly costly affair sent home on trial. She wore it at the wedding and the next day drove to the milliner's and returned it, saying to the milliner's and returned it, saying it did not suit. It happened that the hatmaker, who quite understood the situation, had been similarly tried several times of late. "Did you not wear this hat at the Blank wedding yesterday?" day?" she asked bluntly. Taken by day?" she asked blundy.
surprise, the society woman owned up,
but asked, "How did you know?" "Oh,
it was quite easy. I see several grains
of rice in the folds of the lace."

A Grewsome Kaffir Custom A writer on the Kaffirs of South Africa says: "A Pondo chief in very olden days on accession to the throne would kill one of his brothers and wash in his blood to strengthen himself and then would keep his medicines in the skull of the dead brother, a practice which raised the power of the medicine to the 'nth,' as mathematicians would say. If a warrior of conspicuous bravery is killed in war his body is made into medicine and administered to the young men to make them brave, a practice which may well have been the basis of cannibalism."

The Dog Whipper. An old church official in England was the dog whipper, who was employed in driving or removing dogs from the various churches and who is often alluded to in vestry accounts, as, r example, "paid the dog whipper 10 illings;" "to Widdow Sandys the shillings;" year's sallery for (dog) whipping 5 shillings." Implements known as dog tongs were also used by these dog whippers, many of them being spiked

cruel grip. They are still preserved in some of the old churches. The Conclusion. "What conclusion did your literary and debating society reach last night? "Oh." answered Miss Cayenne, conclusion was as usual-chicken salad,

ice cream and 'Good night.' Had

at the end and capable of giving a

perfectly lovely time." Nell-Jack is always talking to me

about the depth of his love. Belle-The

depth wouldn't interest me so much as

the length. Dost thou love life? Then do not squander time, for that is the stuff life te made of.

Mew Lenden Grews.

A striking example of the rapid way in which what is known as the extra metropolitan area is ever extending is furnished in a return which has just been issued in relation to East Ham. But a few years ago—15 or 20 at the most—it was little more than a fairly large village with a population of a few thousands only. It had no electric trams, no municipal buildings worthy the name, East Ham. But a few years ago—
15 or 20 at the most—it was little more than a fairly large village with a population of a few thousands only. It had ne electric trams, no municipal buildings worthy the name, and one might also say it had very little else to distinguish itself as a community apart from anywhere else. From the return just issued, however, it appears that the population now exceeds 115,000, while a splendid municipal electric tram service is in full working, a complete set of municipal buildings has been erected, and, in short, it boasts all the adjuncts for which ene looks in an up-to-date modern community. When one comes to look at the fact that its population grows at the rate of thousands per annum it is not supprising to find that no less than 4-prising to

only needs to be added that East vive. only needs to be added that East Ham evidently believe in looking after the inner man, as under the heading "food supply" the very respectable number of 1,826 persons are employed.

Mrs. Ward, the Painter. The London Star says Mrs. E. M. Ward, the painter, is a figure in the social and art life of London, familiar to a large circle of friends, admirers and the public, and popular with all. The granddaughter of an artist the daughter of a R A the with all. The granddaughter of an artist, the daughter of an R. A., the wife of an R. A., the wife of an R. A., the mother of artists, descended from a line of ancestors all remarkable in art, and in her own person and talent embodying so much of the art emotions of our period. Mrs. Ward has been of our period, Mrs. Ward has been the friend and instructor of royalty, and a pioneer in the establishment ols of art. Among her favportraits of the royal children.

G. O. M. of Empire.

Sir Frederick Young is the grand old man of the Empire. When Queen Victoria was just beginning her record reign he was associated with Edward Gibbon Wakefield in the colonization of Australia and New Zealand, and ever since he has been identified with every Imperial movement in London. He was the energetic and enthusiastic secretary of the Colonial Institute during the early years of struggle over a hosier's shop in the Strand, and in spite of his 87 years he continues to take an active paternal interest in its welfare in its new palatial pramises in Northumberland avenue. GRLS' NEW PROFESSION.

Empleyed in London Shops to Wear Pretty

What can a woman do to cern her living? She can become a drapper's model, it is the suggestion of one authority.

"Ulaquestionably a great deal of the trouble concerning employment is caused by the women themselves," he said to an Express representative the other day.

"All domestic duties nowadays are scorned as being beneath their dignity. We cannot get domestic servants because the girls want to be typists or clerks. Good cooks are becoming as extinct as the Great Auk, and the only housemaid's place for which there is any competition is a housemaid's place on the stage.

"Yet we are overburdened with governesses—half trained, as a rule shousemaid's place for which there is any competition is a housemaid's place on the stage.

"Yet we are overburdened with governesses—half trained, as a rule shousemaid's place for which there is any competition is a housemaid's place for which there is any competition is a housemaid's place for which there is any competition is a housemaid's place for which there is any competition is a housemaid and the selection of the profession has been suggested for girls who have had no special training for any business or produced and the selection of the profession is that of manequin, or draper's model. These girls are employed by all large shops, and the selection of the profession is that of manequin, or draper's model. These girls are employed by all large shops, and the selection of the professi

models which the shops can produce for the benefit of the ladies who wish to purchase them.

"Those who have tried it state that they find the life most profitable and comfortable, and they have net the slightest wish to change their position for that of a governess or a clerk.

Now the cost of all this quarreling is not to be measured in pounds, shillings and pence. No sum of money adequately compensates for worty, for it is nevertheless significant that the bill for 1902 rose to £1, 561,975 10s. 7d

These actualities lend peculiar point to the conviction so expectation.

that the bill for 1902 rose to £1,561,975 10s. 7d
These actualities lend peculiar
point to the conviction, so ardently
pressed by the Society of Friends,
that it is wrong for the Christian to
such women is not large. But, after
all, perhaps it is nearly as large as
the supply, considering how very few
women are perfectly formed nowadays."

Mow Lenden Grews.

A striking example of the rapid
way in which what is known as the
extra metropolitan area is ever extending is furnished in a return which
has just been issued in relation to
East Ham. But a few years ago15 or 20 at the most—it was little
more than a fairly large village with

It must be assumed that this attack upon the law court involves ei-ther the extinction of the lawyer or the abolition of law. The amateur will and testament is a very dangerous thing, and it would be well clearly to understand that many documents can only be drafted by an expert. Indeed, it frequently happens that two friendly parties are com-pelled to ask the court to decide upon the meaning of some dubi phrase upon which neither dare act without authorization. The solicitor especially performs an indispensable function when he enters as a third party into the discussion of a transaction and reduces to exact terms the real intention of his client. The very fact that such a process means the facing of all eventualities is of-ten sufficient to prevent an impru-dent step.

dent step.

Lawyers are thus the best preventive of the litigation out of which they chiefly make their fortunes. But there will always remain situations where competing rights or claims must be adjudicated. It is with personal as with international efficients. of schools of art. Among her favorite pupils was the popular Princess Alice of Albany, now Princess Alexander of Teck, and at one time the Duchess of Albany herself. The popular Leslie Ward ("Spy" of Vanity Fair) is Mrs. Ward's son. Her husband was the late E. M. Ward, R.A., in whose lifetime Queen Victoria and the Prince Consort were frequent visitors to the joint studio of husband and wife. Mrs. Ward spent much time at Windsor doing spent much time at Windsor doing spent much the popular less of the litigation out of which they chiefly make their fortunes. But there will always remain situations where competing rights or claims must be adjudicated. It is with personal as with international affairs—we must sometimes go either to war or to The Hague. Now, in every such case, there is to be found an equitable solution, if such solution is the real aim of the rivals. And in nine cases out of ten it is cheapest for both sides to agree to the cases out of ten it is cheapest for both sides to agree to the compro-mise. Conciliation never yet ruined anyone; and by conciliation I do not this connection mean arbitration -which I am told is not so effective

which I am told is not so effective at law as it is in politics.

One may add also that these remarks hardly apply to litigation in the divorce court, which is rapidly increasing, and can only be reduced by improving the morale of the nation as a whole. Nor have I spoken of the cases which involve public authorities and vast institutions like railways. Here unfriendliness does railways. Here unfriendliness does enter, and an open court is almost the only way of arriving at the truth. A good deal of law has after all to be made by the judges.—London Daily News.

Rumor That Port Arthur Has Fallen May be Premature, but its Fall Now Imminent.

The Czar Said to be Personally Responsible for the War and to be on His Way to the Seat of War.

St. Petersburg cable: The rumor opportunity for the use of the powerful Russian cavalry.

The Nichi Nichi, commenting upon General Kouropatkin's apparent indecision, states that, while General Kuroki of the Japanese disaster at Port Arthur brought a large number of enquiries to the offices of the general staff. The at titude of the officials there did not ten to encourage belief in the report, and impressed many persons with the fear that the fall of Port Arthur is imminena the Iau of Port Arthur is imminent, and that the story of a disaster had been launched to mitigate the effect of anticipated loss of the fortress. It is reported that the staff has received described for the control of the cont is reported that the stair has received a despatch from Gen. Stoessel, commanding the Port Arthur garrison, stating definitely that the prospect of the place holding out has been materially lessened since the Japanese mounted heavy guns on Taku Mountain, which reduces the sheltered area of the heaver by nine tentls.

of the harbor by nine-tenths.

The tenure of important surrounding forts is also rendered impossible.

Gen. Stoessel dwells particularly upon Gen. Stoessel dwells particularly upon his unrealized expectation of relief from Gen, Kouropatkin.

A rumor is current this evening that Port Arthur has faller

confirmed. There is no reason to be lieve that the fortress has been cantured, but "ublic opinion regarding its impregnability is changing perceptibly. Military officers, on the other hand, ridicule the report. Port Arthur has fallen, but this is

CZAR NOT A PUPPET.

He is Personally Responsible for the War.

London cable: A remarkable article in the Quarterly Review, entitled "The Czar," attracts much attention, owing to the status of that magazine. The editor announces that it was written by a Russian official of high rank. He indicts the Czar as being personally responsible for the war and for the general state of Russia, controverting the idea that Nicholas is a puppet in the hands of the bureaucracy. He declares that since His Majesty was hypnotized by Pobledonostzeff, procurator of the Holy Synod he imagines himself to be the Slav Messiah. He is filled with a spirit of self-exaltation, and regards himself as the centre of the world, the peacemaker of mankind, and the torch-bearer of civilization to the yellow and other barbarous races. He meddles continuously and directly in every state affair. A remarkable arti-London cable: ously and directly in every state affair, domestic and foreign, thwarting the course of iustice and improvershing his subjects. He boasts of his fervent love subjects. He boasts of his fervent love of peace, yet has plunged his tax-burdened people into the horrors of a sanguinary and needless war. Self-complacent and fickle, he changes his favorites in his fitful moods, insists upon having his own way, and dismisses any Minister opposing him. It was because M. Witte reminded him of his promise to evacuate Manchuria that he was dismissed. Other Ministers implored him to evacuate Manchuria to preserve the peace of the world, but he replied: "I shall keep peace and my own counsel, too." When the Grand Duke hinted at too." When the Grand Duke hinted at the possibility of war, he replied: "Leave that to me. Japan will never fight. My reign shall be an era of peace." The writer avows himself to be a monarchist, opposed to Nihilism, Socialism, and all revolutionary ten-

PEPORT FROM SAKHAROFF.

A Persistent Advance of the Japanese Armies.

A St. Petersburg cable: The general staff has received a despatch from Gen. Sakharoff, dated July 12, reporting that the Japanese on July 10 commenced to construct field works on the heights between the railroad line and the road from Kaichou to Tatchekiao. Japanese outposts were observed July 11 between Madlinkau and Sangaisha, and skirmishing occurred July 11 between the ading occurred July 11 between the advance guards near the village of Siadiantsia. The Japanese retired when the Russians were reinforced.

A Japanese detachment of one battalinfantry and three squadrons cavalry was discovered about eight miles northeast of Kaichou.

Gen. Sakharoff also reports that the Japanese are throwing up earthworks on the heights on both sides of Kheiou. A

The Japanese have not yet attacked Catchekiao. The troops belonging to Gen. Kuroki's army are meeting with resistance at every step from the Russian rear guard along the Siuyen road. Grand Duke Sergius Michaelovitch an artillery avvertige. artillery expert, is going to Manchuria

August. The mobilization of two more army corps is expected shortly.

INTO MONGOLIA.

The Only Avenue of Retreat Open to Kouropatkin.

was temporarily at Fengwan, the Russians spent their strength in attacking his flanks, leaving the Motien Pass but lightly defended. Now the line into Mongolia is the only certain avenue of retreat he has open to him. Russia would hesitate to invade neutral territory, yet China's recent orders to the Guards on the Mongolian frontier are

KUROKI'S ARMY MENACED. The Russians Entrenching West of Motien Pass.

London cable: Correspondents with General Kuroki's headquarters report that there are signs that the Russians

Changed. are greatly increasing their strength to the northward, menacing the Japanese centre and right. Bodies of Russian infantry are constantly moving along the Liao-Yang road toward Motien Pass. They are concentrating and entrenching in a good position a few miles west of the pass, which the Japanese still hold. The Russians are also entrenched to the past of the pass. Meanwhile General north of the pass. Meanwhile General Kuroki is steadily increasing his front, taking every precaution to repulse an attack on Motien Pass. One of the correspondents states that Russian scout from Haicheng have been seen twenty miles west of Feng-Wang-Cheng.

WITH KUROKI'S FORCES.

The Outposts Have Been Extended to Pha Pass.

Liao Yang cable: After the oc-cupation of Kaichau the Japanese south-ern army entrenched. Detachments of the Japanese are reported by Gen. Mist-chenko to be at Hoiziapudza and advanc-ing toward Sinidian and Tangchi, the advance posts reaching Koutoatsee. The total Japanese force on this front, according to the Russian scouts, is not less then four or four or four divisions. The divisions the division of the Russian scouts, is not between Nodzu and Oku, in order to ess than four or five divisions. The Japanese cavalry is concentrated on the

eft flank. The Japanese outposts north of Siuven have been extended to Pha Pass. No changes have been made in the positions of the eastern army. A Japanese fleet is reported to be His Army Only Twenty Miles From Hai-cruising off the mouth of the Liao

sand men are involved in the movement. The next few days will determine whether and to what extent Gen. Kouropatkin intends to make a stand at Tatchekiao, the possession or which by the Japanese would compel the immediate evacuation of New-Chwang.

The outposts of the armies are scarcely 15 miles apart. The slowness of the advance is apparently due to the natural difficulties in the way of a rapid movement of the Japanes eastern flanking columns.

ing columns.
Licut.-Gen. Sakharoff reports that

RUSSIAN SHIP GOT AWAY.

Hwang-Ching-Taoi Islanders Tell of Chase After Big Warship.

Chicago report: The Daily News last night published the following from

had the Minotao Islands abeam when it perceived the Japanese ships, and, turning back, circled to the north of Hwang Ching Tao, then made off at full speed in the direction of Thoki Island, pursued by eight Japanese torpedo boats. One fisherman said that his boat was almost run down by the Russian cruiser, the decks of which were packed with men. The Japanese boats were seen returning about 5 p.m.

were in neutral waters. The mine situation here is much worse than it was at Dalny. Apparently the Russians place no limit on their sending out of floating mines. It is almost impossible to see these mines in a heavy sea or when sailing against the sunlight. It is utterly impossible to see them at night or in

"Many inoffensive junks have been destroyed by striking them. The Fawan passed a fragment of a blown-up junk to-day."

Journalistic Courtesy.

Tokia vable: The newspapers and agencies here and at Osaka, regretting the bad feeling caused by keeping the foreign correspondents at Tokio, sent a deputation to the general staff, and offered to have the departure of their own correspondents postponed if a decrease in the number of press representatives would facilitate the early sending to the front of foreign correspondents. The chief of staff thanked the deputation for the patriotic offer, which, he said, he recognized as being prompted by a desire to retain the moral sympathy of other nations, but their proffered sacrifice was happliy needless, as the situation now permitted the sending of the second batch of correspondents to the front in a few days.

front in a few days. DRAWING THEM ON.

St. Petersburg cable: Military officers continue to believe that Gen. Kouropatkin's retreat from Kaiping was the result of profound strategy, which will be triumphant shortly. They which will be triumpiant shorty. They declare that the rains caused havoc in Gen. Nodzu's army, which is short of food and forage, and which has been decimated by dysentery.

The unusually well informed military critic of the Russky Viedomosti believes that Gen. Kouropatkin is deliberately surgendering his southern

liberately surendering his southern positions like that of Kaichau for the positions like that of Kaichau for the purpose of drawing on the Japanese into the open country at or above Tatchekiao, where the Russians will be able to deploy large forces and to derive full advantage from their superior cavalry. He attributes Gen. Oku's advance to the necessity of helping Gen. Nodzu, whose divisions are stalled in the Chapan and Dalin Passes. on account of transport difficulties, and to the stubborn resistance of Gen. Zarpubaieff, commander of the Fourth Siberian Army Corps, whose forces will have to be cleared out before a southern advance is made. advance is made.

force Kouropatkin to the northward, and if this plan should be successful to combine with Kuroki near Liao

GEN. OKU'S ADVANCE.

CLOSING IN.

CLOSING IN.

CLOSING IN.

Two Japanese Forces Close to Kouropatkin's Main Army.

St. Petersburg cable: Steadily and cautiously Gen. Oku's army from the south, and Gen. Nodzu's army from the cast, are closing upon Tatchekiao, where Gen. Kouropatkin is reported to be entrenching. One hundred and thirty thous and men are involved in the movement. The next few days will determine when the south is the most few days will determine when the south. The Russians there are miles distant. The Russians there are miles distant. The Russians there are estimated to number 11,000 of all arms. Their artillery is weak. The approach to the railway is guarded by cross thenches and mine entanglemnts. The correspondent quotes a Russian staff officer as saying it is doubtful where or at the Cheng. There is nothing to confirm the rumor from Paris that the Japanese vanguard is at Yin Kow.

Talegraphs from that place do not mentally and the staff of the enemy were blown up with mines, and adds that the Russian losses were 1,800, and that Major-Gen. Fock pursued the Japanese to Nenga Pass.

The correspondent says whole masses and adds that the Russian losses were 1,800, and that Major-Gen. Fock pursued the Japanese to Nenga Pass.

The correspondent says whole masses and adds that the Russian losses were also and that Major-Gen. Fock pursued the Japanese to Nenga Pass.

The correspondent says whole masses and adds that the Russian losses were also and adds that the Russian days whole masses and adds that the Russian days whole masses and adds that the Russian losses were also and adds that the R Japanese vanguard is at Yin Kow. Telegrams from that place do not mention the presence of Japanese, and are equally silent respecting the withdrawal of Russians from Yin Kow, which is reported from Shanghai and Tien Tsin.

I it is stated that Japanese vessels have been seen cruising off the port, causing the expectation of a combined

GENERAL KOUROPATKIN

Aimed to Crush the Three Jap Armics in Detail.

London cable: The Tokio correspondent of the Times says that General Kouropatkin's strategy at Kaiping is much discussed by military officers in Japan, where his original intention is interpreted as having been to crush the three Japanese armies in detail, first striking Gen. Oku's corps, then the Ta-kushan force, after which he would find himself on Gen. Kuroki's left flank, but his action at Kaiping was wholly devoid of offensive initiative, especially on the last day, when the main armies were engaged. Gen. Kouropatkin seems to have aimed chiefly at securing his retreat inasmuch as, having abandoned the heights! east of the railway with little resist ance, he obstinately held the eminences to the west until noon, thus covering the carriage of his wounded to Yin-Kow, and finally maintained an artillery action from the heights north of the town pending the withdrawing of his infantry northward. This strategy is plainly consistent with any plan of striking crushing blows. It is therefore conjectured that General Kouropatkin felt the presure on the left flank from the Takushan army since the latter force began a forward movement Tomuching simultaneously with Gen. Oku's advance upon Kaiping. The correspondent mentions the official reports Tokio cable: The Japan Mail remarks that Gen. Kouropatkin is evidently concentrating at Tangihai against General Nodzu's Takushan army. The level country there would give an of Tort Arthur at 2 a.m. on Thursday, there would give an of Tort Arthur at 3 a.m. on Thursday, the concentration of the following from respondent mentions the official reports received of this advance. Tomuching is identical with Shimu-Cheng. The fighting lasted two days, and ended in the Cussians being driven back. The casualidentical with Shimu-Cheng. ties are not reported. Evidently the operations of the Takushan army on Gen. Kouropatkin's destroyed his resistance and defeated his strategy at Kai-

oncentrating at Tangchi, which is between Tashichao and Shahata, whither the left of the Takushan army extends.

SHROUDED IN MYSTERY.

Russians Cannot Understand Japanes

Movements.

A St. Petersburg cable: The Japanese advance to Tatchekiao is shrouded in mystery. No telegrams have been recived by the general staff or the Admiralty since Lieut. Gen. Sakharoff's despatch of July 10, with the exception of a report from Gen. Kouropatkin, covering the events detailed by Gen. Sakharoff.

The Japanese account of the fighting at Kaichou is offset by the admission that they are being greatly worried by Gen. Rennenkampff's Cossacks.

It has been intimated by the general staff that it is probable that the Japanese wil not attempt to take Yin Kow before they capture Tatchekiao, as otherwise they would be liable to an unexpected attack from the Tatchekiao force, which is within easy distance, thanks to the railroad.

The Japanese advance north will perhaps be delayed for some days until the southeastern columns converging at Siandian compel Major-General Mistchenko to draw off, leaving Siuyen road clear to Tantchie and Tatchekiao.

As soon as the Japanese troops enter

kiao.

As soon as the Japanese troops enter
Yin Kow and succeed in removing the
mines from the mouth of the Liao
River, the Japanese gunboats lying
along the coast will come up, but it is,
not believed that the Japanese will
venture to land a considerable force
or to send war material so long as the
Port Arthur squadron is able to come
out whenever it likes.

MANY SMALL BATTLES.

Movements of the Japanese Takushan Army.

Tokio cable: The Japanese Takushan army is northward from Siuyen. It fought a series of small batles with the Russians on July 9 and 10. The army is divided into two columns, which advanced against the Russians. When the first column approached Chikuanching the Russians retreated southward through the valley, but at five o'clock in the evening they took up a position on the heights west of Chou-Chia-Chang. The Russians were dislodged at dusk, when the second Japanese column advanced on the road toward Tongchia, repulsing small bodies of the enemy en pulsing small bodies of the enemy er route. They attacked the advance lim of the Russians near Siutanglaku. The Russians were reinforced and compelled the Japanese to withdraw, At dawn on July 10 both columns attacked and dislodged the Russians from the heights west of Sinchiaku. The Japanese pur-

west of Sinchiaku. The Japanese pursued them, and again attacked a strong position held by the Russians at Siutehikou. After a desperate fight the Japanese occupied the position.

After occupying Kiachou, Gen. Oku's army on Sunday moved northward. The Russians have strong defences at Tapingshan, Niusenihan, Nangmatai, Chinghishan, and camp near Kuochiapao. General Oku will probably attack these positions as soon as his troops are rested.

In the fights of July 8 and 9 the Japanese lost about 150 men. The Russian losses are believed to have been heavier than the Japanese.

THAT JAP DISASTER.

Some Doubt Yet as to the Truth of the

Slaughter. St. Petersburg cable: Under yes St. Petersburg came: Under yes-terday's date the correspondent of the Associated Press with the Russian headquarters at Liao Yang, whose tele-grams heretofore have been conservative and reliable, announces the reception there of the "joyful news of the bril-lient results of the Leagues and liant repulse of the Japanese assault upon Port Arthur with a loss of 30,000

causing general rejoicing, and concludes: "It is believed that Gen. Oku will now retreat to the south."

It is possible that the correspondent is confusing Major-Gen. Fock's pursuit

at the attack made by him on July 5 on the Japanese right flank, when he was also reported to have driven back the enemy to Nanga Pass. iubiliation in St. Peters

burg over the reported great defeat of the Japanese before Port Arthur is being chilled by the failure to clear up th control of the reports. While eagerly expressing hope for direct official confirmation of the news, the papers counsel its acceptance with reserve

FIGHTING GOES ON.

Japanese Troops Entrenched and Awaiting Reinforcements from Kai Chou.

New-Chwang, July 2con.—(Delayed in transmission.)—It is reported that the Japanese troops advancing on Kai-Chou have entrenched and are awaiting reinforcements. Heavy firing has been heard day and night, proving that the Russians are making a stubborn resist-Russian officers who come into Nev

Russian officers who come into New-Chwang frequently from Ta Tche Kiao say that place is well fortified. There are only a few soldiers here. The gun-boat Sivoutch is still in the River Liao, and it is believed that she will resist should the Japanese attempt to take New-Chwang. Her officers and crew say they will never surrender. they will never surrender. Last night two Japanese

they will never surrender.

Last night two Japanese scouts dressed as Chinese rode on horseback through the city. Ships now enter the port without being searched outside, but a strict censorship is still maintained at the telegraph station at Yin Kow. Bandits and low class continentals are

the Russian squadron at Port Arthur is practically infact, and able to freely leave and re-enter the harbor whenever its commander deems it expedient."

Russians Still Think.

A St. Petersburg cable says:—
The general staff, fithough it has no further news up to the present hour of the reported Japanese disaster at Port Arthur, maintains that there is no reason to doubt the fact that the Japanese new suffered a substantial repulse, pointing out that it is significant if the report is untrue that no denial has been issued from Tokio, which did not hesistate to deny the Russian reports of the loss of the battieship Shikishima and the atrocity stories.

Experts who have carefully studied the Japanese methods are surprised that they should attempt to storm without a preliminary bombardment, the chief drawback of which is that it warns the garrison of what is coming. The experts say the Japanese may have hoped to take the fortress by surprise, giving up the bombardment after Rear-Admiral Mithoft's squadron went out on Saturday, and dismantled their siege batteries.

An officer, who has just returned here from the front, said to the correspondent of the Associated Press that the terrible losses reported to, have been sustained by the besiegers of Port Arthur were not unlikely in view of the extraordiary, almost fanatical determination of the Japanese, never hesitating before the nost terrible chances, Some of the Forts at Port Arthur are prefered by ditches four and five fabroused the forts at Port Arthur are prefered by ditches four and five fabroused the forts at Port Arthur are prefered by ditches four and five fabroused for the prefered by ditches four and five fabroused for the solid rock. Grand Lodge Officers Elected and Business Concluded at Brantford.

ness Concluded at Brantford.

Drantford, July 12—The Grand Lodge of the Kmghts of Pythias of Ontario concluded the annual meeting this afternoon with the installation of officers, who were elected as follows: Grand Chancellor, W. C. McDonald, Toronto (acclamation); Grand Vice-Chancellor, A. G. Burdick, Prospect, London (acclamation); Grand Prelate, C. V. Campbell, Algoma, Sault Ste. Marie; Grand Keeper of Records and Seals, Alex. Coulter, Toronto; Grand Master of Arms, B. Dunlop, Petrolea; Grand Master of the Exchequer, John Burns, Hamilton; Grand Inner Guard, A. Ramsperger, Bismarck Lodge, Hamilton; Grand Outer Guard, T. F. Gough, White Lily, Strathroy.

The thanks of the Grand Lodge were tendered to Calanthe Lodge, No 36, of

tendered to Calanthe Lodge, No 36, of Brantford, for entertainment provided. The usual grant of \$50 was made to the Pythian Review under the same con-

ditions as before.

Deputy Grand Chancellors Gough, of Sault Deputy Grand Chancellors Gough, of Strathroy; W. R. Cumingham, of Sault Ste. Marie, and W. J. Stewart, of Toronto, reported for their districts, giving a summary of the work done during their terms. The recommendation of the latter that the Supreme Lodge be requested to lower the age limit to 18 years instead of 20 was fully discussed, and the Supreme representatives were and the Supreme representatives were instructed to again bring the matter up. In the afternoon the officers were in-stalled by Supreme Representatives A. G. McWhinney, of London, and D. J. Peace, and after the report of the Mile-age and Per Diem Committees the Grand Lodge adjourned to meet again in Lon-don part, year.

HOW TO REACH INDIA.

Kouropatkin has Plan Prepared, But Is

Too Busy To Carry It Out. London, July 18,—The Daily Express to-day prints what it claims is General Kouropatkin's signed plan of invasion of British India, which, it is stated, was filed in the Russian War office as the official method of procedure in case of official method of procedure in case of a war between Russia and Great Britain. The document goes into minute details and is three columns long. Briefly summed up, Gen Kouropatkin divided such a war into two campaigns, one ending with the capture of Herat and the other (after two or three years' administration of the country, with the capture of Kashmir, Kandahar and Kabul. After that, says Gen. Kouropatkin, the British

The next two days were days of torture to Felix. How he passed them he
never knew. On the third came a
letter in the well-known handwriting, with the faint, familiar
odor of violets. He knew it was
Violet's answer, and though he was
a strong, brave man, he trembled to
open it. Within that folded paper
lay the words that might affect the
whole of his future life. Either Violet
had written to say that for his sake
she would give up wealth, luxury and
magnificence, or she had decided on
giving him up to retain that to which
perhaps her heart clung. perhaps her heart clung.
"It was the only test," he said, as he took the letter in his hand.

CHAPTER XLVII.

CHAPTER XLVII.
This was Violet's response to Felix Lonsdale's request about dead Sir Owen's we 1 hi;
'My Dear reix,—I have thought wed over the matter recently discussed by us, and I have decided. I know that I am weaker than a woman—but I can not give up my fortune. It seems to me such a toolish thing to do. After being accustomed to every luxury I could not give it up. I love you, and shall always love you, but the test was too hard. I have pictured myself back in the old scenes, leading the old in the old scenes, leading the old life and I could not undergo it. I would most cheefully share all I have with you, put I can not give it up for you-do you think it was

autic right to ask m6?

"I do not suppose I shall ever be blappy—but you will. I am not noble enough for you; and, if you had married me, your disappointment would have been great. You will meet some day a noble woman married me, your disappoint would have been great. You will meet some day a noble woman whom you will love and marry. I know that in saying 'Good-bye' now, I say it forever; but forever I shall be your unhappy "Violet."

"Violet."

'He laid the letter down and tooked at it. He had almost expected such an answer, yet his disappointment was great, and his eyes filled with tears. It had been very sweet and very dear to him, this precious love-story—and the end was sorrow; still he could not be surprised.

"She has chosen that which she floves best," he said; "and I can not blame her now, I must try to forget her."

forget her."

He did it bravely, as he had done it before. He threw his whole beart into his work, and fought inch by inch with the great master-passion of his life.

For some time after that it was rumored in Lilford that Lady Chevenix was not well; that she had lost her color and her spirits; that she was ill and saw no one. Then quite

was ill and saw no one. Then quite suddenly she sent for Darcy Lons-dale, and told bim that she had come to the conclusion that the air of Garswood did not suit her; that for the future she intended to divide her the future she intended to divide her time between London and Paris. To his urprise she added that the Mar-quis of Renmore had offered to buy the Garswood estates, and that she thought of selling them to him; but It would be only on condition that he retained Darcy Lonsdale as his

agent.
After some months, during which
Lady Chevenix and Felix never met,
this was accomplished; but her ladythis was accomplished, but her lady ship's removal was prevented for a time by the sudden death of Francis Haye. Then Mrs. Haye sold The Limes and went away with her daughter. So it came to pass that before six months were over the mo longer to be found in the county.

Great had been the surprise. The whole neighborhood was stirred. It was much to be regretted that such

a change should take place.
But Lord Arlington and Captain Hill sald gravely that it was the best thing Lady Chevenix could do. She had suffered much at the Hall—she would probably begin a new life in an unfamiliar place.

new life in an unfamiliar place.
The new occupants of Garswood—
the Marquis of Renmore, with his
two maiden sisters and a large two maiden sisters and a large bousehold of servants—gave more satisfaction to the public in gen-eral than the wealthy baronet had done. It was an excellent agency for the Lonsdales, who by dint of Industry and perseverance, were rapidly amassing a fortune. Darcy was growing old, and did not go so often to the office. The "small were rapidly growing up army" were rapidly growing up. Everything was prosperous and happy where so many trials had once seemed to threaten general destruction. Kare was one of the leading ladies in Lilford—and very army" much she enjoyed the position.
Time had softened Miss Lestes,
while Eve had grown more beautiful and spirituelle.
Felix worked on steadily. He still

made his home with his father; but Kate, in speaking of him, said, with tears in her eyes, that some day Providence would reward him for his goodness to them, and that he would find a wife worthy to be his partner for life.

He went to see Evalor when he

his partner for life.

He went to see Evelyn when he had an hour to spare; they were the best of friends. Years afterward he saw how she had guided him without ever seeming to advise -how she had influenced him without ever seeming to use her influence; and when he began the great battle of political life she was his right hand. The time that had been foreseen and prophesied had arrived. The bornerity of Oldstone was yearst.

borough of Oldstone was vacant, and through the interest of Lord Arlington, Felix had been returned. It was no surprise, for every one land prophesied. Genius must and

crowd, and spend a quiet hour with Evelyn. How she rejoiced with him! How she exulted in his success. How wise and sweet she was in her counsel. It seemed to him as though his soul had found one more than a friend.

"My foot is on the first step of the ladder. Eve, how high shall I climb, do you think?" He never forgot the beautiful, earn-est look on her fair face as she

"As high as heaven, I hope."
And those few words, spoken by
the tender lips of a noble woman,
were to him like an eloquent sermon. From that hour his life seemed to have higher and better aims;
and into it came no dream of woman's love, until one day, Kate,
having some leisure, had a long conversation with him.
"Can you understand an allegory,
Felix?" she asked him.
"Yes, I think so," he replied. Try
me, madre." "As high as heaven, I hope."

"Yes, I think so," he repiled. "Try me, madre."

"There was once a man," began Kate, "who stood with his feet firmly planted upon the earth, and his eyes very often looking up at the clouds. At his feet lay! a most beautiful pearl of priceless value, and at a distance lay a worthless piece of shining glass. This man of whom I speak trod upon the pearl until it was almost hidden in the dust, while he went eagerly in search of the bit of glass. Do you understand, Felix" she asked, after a few minutes.

"Only very vaguely, madre. I am

of glass. Do you inderstand, resiste asked, after a few minutes.

"Only very vaguely, madre. I am the man. I recognize the bit of shining glass, but not the pearl."

"Not the pearl!" repeated Kate. "Well, that proves what I have often thought, that, while men may be clever and keen and intellectual, they may, at the same time, be blind as bats. That pearl has been under your eyes for many years. Ah. I see you do not understand!"

Nor did he. Kate went on talking to him.

ing to him.
"You will be a man of mark, Felix "You will be a man of mark, Felix—every one says so. But you will be like all other men; you will want a good wife. If the facts could be got at, it would be found that some of the greatest men of the day owe much of their fame to the wise guidance of a wise wife."

"I believe that," he replied; "but—ah, we need not talk about it, madre. I suppose a man's fate is settled for him."

"A man's fate is just what he

settled for him."
"A man's fate !, just what he
likes to make it," declared Kate
"When you're inclined to marry, never
mind beauty; look out for a noble
woman—noblilty of character is far

better than beauty."
"The world is full of noble women,"
Kate continued. "Look at Eve Lester. Where would you find one ter. Where would you find one sweeter, more gracious or noble? She is true and tender and earnest; she has a fund of clear commonsense; she has a vivid, bright imagination, a quick, poetical fancy; and, as for beauty, I see more in her sweet fair face than in any face I have ever seen."

I have ever seen."
"Eve Lester!" he cried. "Certain.

"Eve Lester!" he cried. "Certainly no woman could be nobler. Oh, madre, is she the pearl?"

"Yes, you most biind, most dear, most obtuse of good boys! She is the pearl, and you never saw, her in your hurry to pick up the worthless shiping colored giam." less shining colored glass."

Eve Lester. How blind he had been! He looked up at Kate.

"Do you know, madre," he said,
"she has been so much part of my
life—all my life—that I have never
thought of her apart from mysek." A wise woman always knows when she has said enough. Kate turned the conversation; nor could he per-suade her to say more about Eve. But the idea had taken hold of him; and

the idea had taken hold of him; and Kate smiled softly to herself on seeing how deeply he was engrossed in thought during the remainder of that evening.

Fellx had never realized until then what Eve was to him. He went back over all his life. She had been his adviser, his counselor, his friend. She had aroused all noble thoughts in him, all great desires. She had in him, all great desires. She had fired his ambition she had show him his road in life. He had never dreamed how much he owed to her influence until he thought all this

He remembered how, in the darkest hour of his father's life, when earth was all cold, and the heavens seemed made of brass, she came to his house like an angel of light and consolation. She had offered him her all, and was honestly grieved be-cause he would not take it. As Felix

cause he would not take it. As Felix sat thinking of her, he recalled a thousand instances of her sweet wisdom and goodness.

"It is true," he mused; "we are cometimes perfectly ignorant of our greatest blessings. I should never have known all that Eve has been to me until I lost her."

Under this new light, he said to himself that he must see her, he must go over and talk to her, he must discover what she really was to him,—how dear, how needful—and he would do it at once; there should be no delay.

He went the next day, and the re-

he would do it at once; there should be no delay.

He went the next day, and the result of their conversation was that he did not leave her until she had promised to be his wife; for he found out that she loved him, and had loved him only all her life—he found that he had been blind and foolish, for she was really the one great treasure of his life.

The engagement afforded the greatest of pleasure to all their

The engagement afforded the greatest of pleasure to all their friends; there was not one dissentient voice. And now indeed Kate Lonsdale was happy.

"I shall be the Downger Lady

There could have been no happler marriage. Felix had a beautiful hodes prepared for his wife—not the pretty cottage orne where his golden-haired love had stood and decided that it was not good enough for her, but a fair and pleasant mansion, standing in the midst of sunny grounds—a home that a princess might have envied because of its artistic beauty and bright aspect.

It was a quiet wedding, but Eve would have it to. She would have neither carriages nor a train of bridesmalds, nor children strewing flowers, nor any of the teremonies that attend a country public wedding. She walked quietly to the dear old church at Lilford, looking very fair and sweet, with the light flush caused by the morning air on her face. The sunlight streamed in at the windows as

the morning air on her face. The sun-light streamed in at the windows as she plighted her faith to the only man she had ever loved, and whom she was to love forever. Then Felix took her away to the lakes, and they were very happy. They were sitting one day on the border of Windermere, when Eve raised her sweet face to her husband and said:

border of Windermere, when Eve raised her sweet face to her husband and said:

"Felix, you love me very much

"Yes, my pearl-more than you know," he replied.
"Do you-do not be cross with me because I ask the question—do you ever think of Violet?"
He took her hands in his own and kissed them.

kissed them.

And they talked of other things, while the sun shone over the lake and the birds sung their sweetest.

CHAPTER XLVIII.

CHAPTER XLVIII.

Five years had passed since Fellx took his fair wife home to Eden House—he would call it "Eden" because it held its Eve—and Eve was now one or the happiest women in the kingdom. For in the room where she spent her mornings—a bright sunny room looking upon a beautiful world of trees and flowers—stood a little. cot, and in this cot slept a baby—Eve's baby. He was, his mother said, the lovellest, the finest, the most intelligent in the whole world, and Felix laughed as she defied anyone to produce such another, Felix wanted Eve to accompany him for the parliamentary session. She looked longingly at the baby, and then longingly at the baby, and then longingly at him. "How can I possibly leave little Lester?" she said. "Aunt Jane would take great care of him, but she says he wants reforming—and I should not like to have him reformed."

"Bring him with you, Pearl, and he can assist the legislature of the ration," repiled Felix, laughingly.

can assist the legislature of the ration," replied Felix, laughingly. And Eve was only too pleased to

No happier household ever set-No happier household ever set-tled for a time in the modern Baby-lon. Felix took very nice apartments, where his wife could enjoy London to her heart's content. Eve was wise in one respect. She never marged the wife in the mother. She never ne-glected her husband for her child. She was so discreet and wise in the management of her time that, while she was one of the most devoted the was one of the most devoted mothers in the world, she was at the same time one of the most devoted wives. Felix never felt, as some husbards do, that he had a rival in his own child.

They went to London when Parlia ment opened, and when May came round the great city was in its fair-

round the great city was in its fairest dress.
They sat at breakfast one bright morning, with 'the unequaled baby, as Felix called him, rolling on a thick rug at her feet, when a letter was brought addressed to 'Mrs. Felix Lonsdale, 13 Upper Park Gardens': and as he placed it in his wife's hands Felix recognized the delicate handwriting, while he smelled a faint odor of violets.

Eve opened it quickly, and them pale and breathless, looked up at her husband.

"Listen, Felix," she said, after a few seconds; and she read:
"We been Eve J should like to

few seconds; and she read:
"My Dear Eve,—I should like to see you and Felix once more. My busband is not well, and the doctors have ordered him to go to the South of France or Italy—we think of going to Florence—and it may be years before I re-turn. Let me see you both before I go. When I read your names among the arrivals it seems to me that a breath of Lilicord air passed over me. You will seems to me that a breath of lift ford air passed over me. You will not refuse me the last favor I shall ever ask from you? Call at Rokely House at two o'clock to-day I shall wait for you. Ever your friend, Violet Rokely."

Eve looked up again. "Rokely!" she said. "Why, Felix, violet married again?" "She married again?"
"She married the Duke of Rokely three months ago," replied Felix. "I said nothing to you about it. She has married one of the wealthiest dukes in England."
"She was beautiful enough for a duches." said Eve. gently

duchess," said Eve, gently.

She is not so beautiful in my eye as you, my pearl," rejoined Felix—and there was truth in his voice. His wife imiled. 'What about the haunted cham-

ber?" she asked.
"It is swept and garnished," reglied. Site smiled proudly.

"When I heard what you said about it, I made a resolution that would get into the haunted cham-ber," she told him. "Some one sail that blonde women were all insipid, and weak of purpose. It is not true, is

"No," he replied.
"Now," said his lovely wife, "if I looked into that chamber, what should I see?"

"Your own image," he answered, and she believed him.
"We wil go and see Vlolet, Duchess of Rokely," she said, "if you are willong. That is not the letter of a thrung woman."

tappy woman. She understood why he was so anx lous about her toilet—why he insisted that she should wear the fashionable trait she she will and the pretty Parisian bornet. He kissed her when she stood ready dressed.

"I am so proud of you, my darling."

"And those few words brought a lovely flush to her fair face and made her fairer than ever; then they drove off together to Rokely It was one of the finest ducal munsions in London. Eve was struck as the great hall door open-ed and she saw the great liveried might have benefited the palace of

"and I shall use no other." But he never told her why. The past conversation between Kate and himself remained a secret.

There could have been no happler marriage. Felix had a beautiful hote-prepared for his wife—not the next. Rokely was at home, and awaited them.

Violet had grown even more beautiful. Her superb figure was more fully developed: Her fair face had something in it haughtler and colder. Very proud the looked as she stood there, dressed in her favorite colors, blue and white—a dress of blue velvet relieved by trimmings of white silk. In one hand she held a priceless fan; the other white and jeweled hand lay upon the table.

Her lovely face grew white even to the lips as Eve and Felix entered the gorgeous room—but she advanced to meet them; she took Eve's hands in her own, and looked at Felix.

"I am so glad to see you. It was so kind of you to come. I longed to see you both before I went away. Sit down and talk to me—tell me all about Liliford. I shall never see it again."

Very soon Eve had told her all she knew; and then, as Liliford—to her—meant the baby, she entered into a description of his charms. Was she mistaken, or did she really see tears shining in the proud eyes?

"I am so glad you have a little son. Felix. I hope he will grow up

mistaken, or did she really see tears shining in the proud eyes?

"I am so glad you have a little son, Felix. I hope he will grow up like you, as good, as true, and as noble." Then Violets 'face flushed, and she bent her proud, charming head before them. "I may never see you again," she said; "let me say to you all the thoughts that are in my heart. I am glad, Eve, that Felix has found comfort in your love; love him always, love him truly, love him well; and—oh, believe me, Eve!—if you have little daughters, teach them that life holds no treasure like love, that wealth, fame, titles, honors, are the shadow, love the substance,"

"I shall be sure to love them so, for I believe it," remarked sweet, wise Eve.
"I was always wasker than a

for I believe it," remarked sweet, wise Eve.
"I was always weaker than a woman," declared Violet, with a proud, sad smile. "I flung a treasure from me and lost it. Now. I have everything that in my wildest dreams I ever longed for. I wear a coronet; the world lies at my feet; and with it all, when I wake sometimes my pillow is wet with tears; for my heart is lonely, and will be lonely until I die. Still I have made my own choice."

Fellx saw a beautiful Sevres vase

Felix saw a beautiful Sevres vase on the table near which she stood; it held a spray of lilac. "You retain your love for the old home-flowers," he said. She took the lilac from the vase

"I keep them near me always," she said, "when they are in bloom. Do you remember the lilac bush at home, Felix?
Yes, he remembered it—and how he had suffered the bitterness of death

while the wet branches waved above Then she asked some question about their home and their home

"You are very happy?" she said.
"Tell me that; it will be the pleasantest thing I can hear."
"Yes," replied Fefx, "we are very

happy."
She drew a costly ring from her

finger.

"Eve," she said, "wear this for my sake—it would grieve me so much if you refused. Now put your arms round my neck—you, the true wife of a true man—and kiss me. Say Good-bye, Violet." I never hear my own name now, and I am tired of titlee" titles.' Felix held her hand one minute in

nis own.
"Good-bye," she said. "In the midst of your happy life do not quite forget me; try to remember me as you knew me vears ago—not as you know me now."

Seated in the theatre, the doc

HOT WEATHER DANGERS.

from each and every one never to go More little ones die during the More little ones die during the hot months than at any other season. At this time stomach and bowel troubles assume their most dangerous form, and sometimes a few hours' delay in the treatment means the loss of a little life. Baby's Own Tablets is the best medicine in the world to averant these troubles. in the world to prevent these troubles or to cure them if they attack the little on insomma, sore eyes, admig teeth, and as injured foot; a grouch which might have been disposed of at the start with a laugh, but which grew and grew until it enveloped five persons in a fog that was only dispelled when the momentary separation enabled two of them to see from a little distance how ridiculously savage it made the others.—N. Y. Sun. one unexpectedly. Every mother should have a box of these Tablets in the house — their prompt use may save a child's life. Mrs. Arthur Cote, St. For-tunat, Que, eays: "My little one was greatly troubled with colic and bowel tunat, Que, says: "My little one was greatly troubled with colic and bowel trouble, but since using Baby's Own Tablets the trouble has disappeared, and she is growing nicely and has good health." These Tablets are guaranteed to contain no opiates, and are safe for a new born baby or a well grown child. Sold by all medicine dealers, or sent by mail at 25 cents a box by writing the Dr. William Medicine Co., Brockville, Ont.

STORY OF A GROUCH.

Started from a Trivial Cause, but Grew Till it Enveloped Five Pers

This is the story of a grouch.
To begin with, the Doctor was first affected. His eyes had bothered him for some time; his patients were slow in paying up, his apartment wasn't so com-fortable as it might have been; and so one morning he woke up out of sorts with himself and all mankind as well

and the grouch was born.

Harry, who managed the apartment house, was the next to succumb. His eyes didn't bother him very much, but his teeth did; his debtors were slow in paying, while his creditors were entirely too energetic in their assaults on his bank account for his piece of mind. The heln in the place was a nuisance he had to fight against and put up with, and when he and the Doctor got together that dismal morning he was in the best of shape to be infected with the dread disease. teeth did: his debtors were slow in

For the grouch there are several re medies, and most of these were tried. None of them proved successful, and finally they settled down to a steady commiseration, cussing afterno

afternoon of commiseration, cussing, highballs and cigars.

Harry's better-half, Maude, bore up more bravely. Neither her eyes nor her teeth annoyed her; and although she had a very sore foot, which made it impossible for her to wear an ordinary shoe, she bravely applied herself to the task of jollving Harry and the Doctor, in the hore of enging the grouph. an ordinary erself to the the Doctor, the Doctor, trouch.

wauld have the Dell also rings, but the sound is different from that which is made when a thief is at work, and therefore there is no danger that the detectives will aver be led of on a wild goose chase. the hope of curing the grouch.

succeeded; but before she had made much impression in came Addie and her sister Grace. Now Addie, who is the Doctor's sweetheart, has a nice disposition, but is easily affected by her surroundings, and Grace is "so contrary that she won't do what she has a mind to," as her mother used to say.

In less than no time the gloom that had settled on the party was so thick it could have been shovelled away, and no relief was in sight. People must eat, however, in spite of grouches, and late in the afternoon Harry bestirred himself to think of dianer. Apparently the smell of cooking brought joy to his stomach and his heart at the same time, for in a moment or two, after leaving WHY COVER CROPS

Are Valuable-Controlling Soil Mois-

Are Valuable—Controlling Soil Moisture—Improving the Soil.

At the conference of Dominion fruit inspectors recently held at the Central Experimental Farm, Professor Shutt gave a very clear and scientific explanation of the value of cover crops to the orchardist, of which the following is a synopsis:

"Among the many advantages to be derived from the system of orchard culture which includes the growth of cover crops, we may cite as the two most important: The control of the soil moisture, and the improvement of the soil.

Conserving Soil Moisture — Speaking generally, it is desirable that the soil moisture should be conserved for the orchard trees during the earlier months of the season. Up to, say, July 1, the tree is making new growth and is transpiring through its leaves large quantities of water. Further, the swelling fruit is making its demands for water. For every pound of dry matter of leaf or wood or fruit, the tree uses at least 300 pounds of water. Hence, in districts where droughts may prevail in the spring or the rainfall be scanty, the importance of surface cultivation is marked. By this means an earth mulch is produced, and thus evaporation checked or prevented. The cover crop system allows of surface cultivation in the spring and early summer months.

Some Experiments—Experiments have stomach and his heart at the same time, for in a moment or two, after leaving the party, he returned and said;
"Say, Doc., let's all go to the thea; tre to-night."
"All right," said the Doctor. "Where shall we go? You go ahead and get the tickets, and we'll all be ready."
Then Maude's grouch, which had been under cover up to that moment, broke out. out.

"I don't want to go to the theatre," she declared. "I won't go, Harry can go, if he likes. It will do him good. I don't want to go to any old heetre. I want to stay home and run things. I don't want to go, and I shan't," and she stamped her No. 2A on the floor so hard she hurt her heel, Immediately Addie and Grace declined and Grace soon went away. Then all the powers of persuasion of the other three were brought to bear on Maude. mer months.

Some Experiments—Experiments have

Some Experiments—Experiments have been made to ascertain the effects of cover crops and cultivation on soil moisture on the Central Experimental Farm for several years. Thus, May 6, 1901, we found that there was 131 tons more water per acre, to a depth of 14 inches, in cultivated soil than in the adjoining plot carrying a vigorous growth of cover. This means that the latter soil contained one-half the water in the cultivated soil. But grass sod is more exhaustive than clover sod. In 1902, from May to July, trials every two weeks were brought to beer on Maude.

She put up the fight of her life to have her own way, but was forced to yield to the combined eloquence and entreaties—she is fond of being coaxed—and it was finally determined that they should go. By that time it was too late rof Harry to go for the tickts, and so Addie had to face the storm for that purpose. Presently she returned with five tickets, three on one side of the aisle and two on the other, having had to take what was left at that hour.

Dinner was soon over, and Grace was sent for; and when Maude was finally induced to get ready, the party started. Maude, Grace and the doctor hustled off together, and Harry and Addie brought up the rear.

contained one-half the water in the cultivation on the other, having had to take what was left at that hour.

Dinner was soon over, and Grace was sent for; and when Maude was finally induced to get ready, the party started. Maude, Grace and the doctor hustled fit tegether, and Harry and Addie brought up the rear.

Harry had to turn back for his glasses, of course, showing that the grouch was still working, and in fact none of the party could have been called good natured at the moment.

At the corner they halted a car and hurried to board it. Some people were getting off at that particular corner, however, and one of them happened to kick Maude's heel, the sore one, of course, as he stepped from in front of the party.

This was more than Maude could stand, the physical pain adding the required spark to the magazine of her grouch. In a flash she turned round, and the doctor thought he was a "nasty pig."

For a second fight was in the air, and the doctor thought he was a "masty pig."

For a second fight was in the air, and the doctor wought he was a "masty pig."

For a second fight was in the air, and the doctor wought he was a "masty pig."

For a second fight was in the air, and the doctor wought he was a "masty pig."

For a second fight was in the air, and the doctor of his glasses. However, Maude was too small for the man to hit, even had she been of his own sex, afely.

The doctor and Maude entertained the party, and incidentally the rest of the party, and inc the grouch crowd got into the car safely.

The doctor and Maude entertained the party, and incidentally the rest of the resengers, with an illustrated statement of the facts concerning the "nasty pig" who had kicked the lady's sore heel, and this topic kept the grouch alive all the way to the theatre.

There Harry joined them, and they took their seats at the end of the first act, Maude-refusing to walk down the asle to her seat while the curtain was up. This was not altogether from consideration for others, but mainly grouch. Seated in the theatre, the doctor and physical condition of the soil. And, last-ly, the mineral matter s' ed up in that clover crop is finally set free in forms readily assimilable by the roots of the orchard trees."

WHICH SHALL IT BE? A rich man, who had no children, pro-A rich man, who had no chindren, proposed to a poor neighbor, who had seven to take one of them, and promised, if the parents would consent, that he would give them property enough to make themselves and their other six children comfortable for life.

Seated in the theatre, the doctor and Grace promptly went to sleep, and Harry and Maude from across the aisle bombarded Addie, to her great disgust, with gites, offers of candy, etc., all of which amused them to such an extent that before the show was over two cases of the grouph had been cured. Which shall it be? Which shall it be? I looked at John, John looked at me, And when I found that I could speak, My voice semed strangely low and weak; "Tell me again what Robert said"; And then I, listening, bent my head—
This is his letter: of what the play was about, or what the characters were doing, and the way home was enlivened with repeated promises

ar.ywhere with "that crowd" again.

And yet, they are all nice people; all good companions; all sociable, good natured—when the grouch is not working—and utterly free from anything like rudeness. Yet this is a true story of a grouch, founded on indigestion, nursed on insomnia, sore eyes, aching teeth, and as injured foot; a grouch which might the back to saven roung mouths to feeth. Of poverty, and work, and care, Which I, though willing, could not share I thought of seven young mouths to feed Of seven little children's need, And then of this

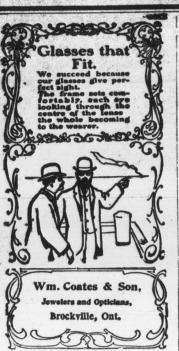

"Come, John," said I,
"We'll choose among them as they lie
Asleep." So, walking hand in hand,
Dear John and I surveyed our band;
First to the cradle lightly stepped
Where Lilian, the baby, lightly slept.
Softly the father stooped to lay
His rough hand down in a loving way,
When dream or whisper made her stir,
And huskily he said "Not her!" "Come, John," said I,

We stooped beside the trundle bed,
And one long ray of twilight shed,
Athwart the boyish faces there,
In sleep so beautiful and fair;
I saw on James' rough, red cheek
A tear undried. E'er John could speak
"He's but a baby, too," said I,
And kissed him as we hurried by.
Pale, patient Robbie's angel face
Still in his sleep bore suffering's trace,
"No, for a thousand crowns, not him!"
He whispered, while our eyes were dim. He whispered, while our eyes were dim.

Poor Dick! bad Dick! our wayward son Poor Dick! bad Dick! our wayward som-Turbulent, restless, idle one— Could he be spared! Nay, He who gave Bade us befriend him to the grave; Only a mother's heart could be Patient enough for such as he; "And so," said John, "I would not dare To take him from her bedside prayer."

Then stole we softly up above,
And knelt by Mary, child of love;
"Perhaps for her, "twould better be,"
I said to John. Quite silently
He lifted up a curl that lay
Acros her cheek in a wilful way,
And shook his head: "Nay, love, a thee.'

The while my heart beat audibly. Only one more, our eldest lad, Trusty and truthful, good and glad, So like his father. "No, John, no! I cannot, will not, let him go." And so we wrote in courteous way, We could not give one child away; And afterward toil lighter seemed, Thinking of that of which we dreams! Happy in truth that not one face Was missed from its accustomed place; Thankful to work for all the seven, Trusting the rest to One in heaven!

Our annual cheap Sale of Men's and Boys' High Grade Suits commenced on July 16th, and continues for two weeks only.

Greatest suit snap ever offered for \$5.00

A stupendous suit offer, without precedent or parallel. Some were as much as \$9.50, some \$8.50, others \$7.50. Just think of it! High grade, well made suits, of good tweed, newest patterns. Made up in single or double breasted of the very latest cut. Complete fashionable suit to fit young or old men, sizes 33 to 46, for - \$5.00

DOLLARS

We do this annually, simply to clear out every Spring and Summer Suit. No matter what we lose, we don't want to carry over from one season to another. Hundreds of people have been benefited by the cheap sale we had last year, and hundreds of people are waiting to do the same this year.

To get your choice you must come early, as we anticipate a Big Rush, and we have only got a few sizes of each kind.

Bargain Sale of Furniture

Our stock of furniture is very large and we have more ordered. We have, in fact, more goods than we can accommodate, and so we have determined to conduct a low-price sale until stock is reduced.

This sale will afford careful buyers an opportunity to obtain exceptional values. The reduction applies to every line, and if you need an article of furniture for any part of the house it will pay you to inspect our stock.
