

MURDOCK'S PICTURE AND LOVE LETTERS

Caused Murder of Woman and Suicide of the Murderer in Chicago.

Murdock Is a Hamilton Man--Jealousy the Cause of the Double Tragedy.

Chicago, Sept. 12.—The love tangles of Mrs. Herman Westerfield, 151 Indiana street, the pretty 26-year-old wife of Herman Westerfield, culminated in a double tragedy yesterday, in which she was one of the victims.

The other victim was the woman's boarder-suitor, who killed himself twelve hours after slaying the young woman when he learned that the police were on his trail. He was Edward J. Hildebrandt, 29 years old. The others concerned in the tragedy were an unsuspecting husband, and a former sweetheart, "Billy" Murdock, of Hamilton, Ont., with whom Mrs. Westerfield evidently kept up a correspondence after she married Westerfield three years ago.

Jealousy was the motive which prompted Hildebrandt to murder the woman. With little or no success he had endeavored to press his attention on her. Then the discovery that she was maintaining friendly relations with another than her husband aroused Hildebrandt's jealousy.

This discovery came in the form of a photograph and two letters from Murdock, received by Mrs. Westerfield on Monday afternoon. She showed the photograph to Hildebrandt, unconscious of the jealous rage it aroused. All the evening while she visited with neighbors on the front porch Hildebrandt sulked in a dark room.

In the presence of another boarder Mrs. Westerfield talked with Hildebrandt when she went to the house to retire at 10.30. Hildebrandt engaged in the conversation a few minutes, not in the least displaying the jealous rage in his heart. It appears that during the evening he had stolen the letters written by Murdock from Mrs. Westerfield's room and read them.

The salutations of the letters read: "My dearest, loving Maud," and usually ended with numerous crosses labeled "Kisses."

From letters in Hildebrandt's effects the police learned that his home formerly was in New Orleans, where his parents now live, his father holding a high position on the police department. The young man evidently did not correspond with any relatives. Hildebrandt served as a volunteer sailor in the Spanish war. Until six weeks ago he worked as a painter in the machine shop of E. H. Wachs, 158 Indiana street. Later he found employment in the Turkish bath department of the Great Northern hotel.

The woman's maiden name was Maud Anna Sorenson. An 8 year old daughter by a former marriage is said to live with Mrs. Westerfield's parents, Mr. and Mrs. Nels Sorenson, 1265 Colorado avenue.

There are four or five William Murdock in Hamilton, but the Times could not find that any of them is the man whose photo and letters were the indirect cause of the double tragedy. It is believed that the Bill Murdock referred to belongs to the floating population.

At first the husband did not suspect Hildebrandt. The police, however, upon hearing that he had passed the first part of the night in his room, considered his absence suggestive, and detectives were detailed to search for him. They learned from Mrs. Mary Dewort and Mrs. J. A. Elmpner, neighbors, that Hildebrandt was in love with his landlady. A story, looked upon as a threat by Hildebrandt, was told by Mrs. Dewort.

"Just a few nights ago we all were discussing the Constantine case," said Mrs. Dewort. "Mrs. Westerfield jokingly asked Hildebrandt if he wouldn't hate to be in Constantine's shoes, and the boarder remarked: 'Yes, but if a woman turned me down as Mrs. Gentry did him I would do just as he did.'"

Until Hildebrandt was reported to have committed suicide in a resort at 70 Peoria street by the keeper, Louise Mack, his whereabouts was a mystery to the police.

Among his effects the police found a card bearing the address 76 Peoria st. Two detectives were detailed to the resort.

"No such man is here," they were informed by the keeper, Miss Mack. "I will go with you to make a search of the house if you want to."

The "buff" worked well and the detectives left. Later it was learned that Hildebrandt was in the house when they called. About 1 p.m. an inmate of the house informed Hildebrandt that two policemen were then inquiring for him. About the same time newsboys were shouting on the street: "Extra. All about the Westerfield murder."

Hildebrandt went at once to a bathroom in the rear and shot himself in the right temple. He died instantly and the body was removed to an undertaking room, 239 West Madison street, where it was identified by Mr. Westerfield an hour later.

FERDINAND P. EARLE AND FAMILY. The man who was mobbed at Munroe, N. Y., because he had shipped his wife and child off to Paris so he could marry his "affinity."

The Man In Overalls

Persons who send communications to The Man in Overalls should enclose their names, not necessarily for publication, but just to show that they are not fooling.

How would it do to engage a temperance evangelist to work among the aldermen?

Where do they get all the drink?

I should think the Mayor is getting very weary of his job.

Why should any Labor man favor the at-large system with its large over-drafts and political admen?

In the Herkimer street matter the city should sue the Railway Board for mercy.

Will the Queen Victoria statue unveiling day be a public holiday? We should know that ahead.

"Cramming" at school is objectionable. But the schools are overcrowded and crammed. The new blood are making quite a mess of things, and look how the money is being spent.

The Mayor might start a temperance lodge among the aldermen.

I am glad Dundas is going to have a little excitement in the shape of a shaft fight. The Valley City is a credit to us all and a disgrace to none.

The aldermen who voted against the ward system may be dubious as to their chances of election under that system.

I am a labor man myself, but I always grow suspicious when I see labor men pulling Tory chestnuts out of the fire. Excuse the homely phrase. Why should they object to the ward system?

The poor Jews have got it in the neck again. The Hague Conference might with profit have discussed the attacks on these people as a "disgrace to Christianity."

There will be no boozier aldermen elected under the ward system.

I half expected to see something like this in the papers last evening: "Ald. wishes to state that he was not the alderman that was drunk at the Council meeting last evening."

Those who object to the ward system are not afraid that the city's interests will suffer by the change. They are afraid that some party or clique that seeks gain at the city's expense will suffer.

That Vancouver riot reminds me somewhat of Hamilton's justly celebrated "demonstration" during the street car strike.

The Lusitania is making great time across the Atlantic. But wait till the aldermen get aging and the Lusitania will be beaten to a standstill.

That Grit rain was worth a few votes for the candidate.

It looks as if the Railway Board will decide that the city owns the Cataract Power Co. another apology.

Did you ever get a kiss—I beg your pardon—a "spiritual vibration"?

The footballers are now in training, no more haircuts.

The Borden meetings are falling pretty flat. The same old speech over and over again is becoming rather tiresome.

At the next aldermanic election candidates should be asked to take the pledge.

SAFETY DEPOSIT BOXES. To rent at \$2 a year and upwards, for the storing of deeds, bonds, stocks, wills, silver and other valuables, at the TRADERS BANK OF CANADA.

Fresh Cut Mushrooms. Three baskets fresh cut mushrooms, Blue Point oysters, Crawford peaches, green ginger expected in a few days, preserved ginger, Jersey sweet potatoes, Bartlett pears, green peppers, cauliflower, pickling spices and pickling vinegar. Hein & Adams, 89-91 King street east.

One Thing a Man Finds Hard to Procure is a good stool to sharpen his razor. The barbers tell us that we have the best assortment to select from that they have ever seen. Take a look at them, just inside the Market square entrance. For razors we excel—Parke & Parke, druggists, 18 Market square.

MISS DEAGLE INJURED. Through stepping off a car backwards while alighting at King and John streets at noon to-day, Miss Deagle, daughter of Mr. Martin Deagle, 427 Cannon street east, had a nasty fall, and her head was cut rather badly. She was taken home in the ambulance, but will be about again before long.

ALLIES IN BALLOON SPIED MOORS' CAMP.

Large Force of Horse, Foot and Artillery Fell Upon It and Destroyed It.

Arabs Fought Bravely, But Were Overpowered and Fled From the Enemy.

Casa Blanca, Sept. 12.—The allied Franco-Spanish army to-day made a sudden and successful move on Taddert, where the Moors were massed in force. The camp of the latter was destroyed by bombardment, and the enemy was put to flight, leaving many dead on the field. The French lost one man killed and six men wounded.

The attack was carefully planned, and was based largely on the observations of the Moors' positions made from a military balloon. The allied army, which was divided into two columns, left the camp at 6 o'clock in the morning, leaving several companies of infantry to defend the base at Casa Blanca.

The first column was composed of four companies of regular infantry, several companies of sharpshooters, a bat-

tery of artillery and all the cavalry. The second column consisted of six companies of infantry and a battery of artillery. The march was skilfully carried out under the cover of a fog until within half way of Taddert, where the fog lifted and disclosed several large bodies of the enemy. The allies then charged several large bands of the enemy at the point of the bayonet, and, although the Moors resisted with all their old-time courage, they were finally compelled to retreat in the face of a superior force, and both of the columns of allied troops advanced on Taddert. After the bombardment of that place by the French artillery, as well as by the guns of the French cruiser Clorick, which fired 75 shells, the allied infantry advanced on the Moors' camp, where the enemy was making a last desperate stand. A short engagement followed, and the Moors fled in wild disorder, pursued for several miles by the irregular Algerian cavalry in the French service. The Moorish camp was destroyed. The exact loss of the Moors is not known, as they carried away many of their dead.

The allied army later returned to Casa Blanca.

WILL THE LUSITANIA BREAK THE DEUTCHLAND'S RECORD?

Delayed By Fog at Grand Banks and Expected Before Seven To-morrow Morning.

New York, Sept. 12.—The titanic turbine Lusitania, of the Cunard Line, entered to-day on the final stretch of her maiden voyage, which may break all trans-Atlantic records. The newest greyhound of the sea was reported 100 miles east of Sable Island at 11:20 last night, and no further reports of her may be received until to-night, when the big Cunarder will enter the Nantucket wireless zone. With eight hundred miles to be sailed at 11:20 o'clock last night, the Lusitania will have to make 24 knots or better until Sandy Hook light vessel is passed in order to excel the unbroken record of 23.15 knots, held by the Deutschland, of the Hamburg-American Line.

The Lusitania will have fair weather for her last day's run, and every ounce of her propulsive power will be used to make up the time lost in the fogs off the Grand Banks. Driven at her top speed the giant Cunarder may be expected at the lights shortly before 7 o'clock on Friday morning, making the time for the trip a shade under five days and establishing the Lusitania as a four-day ship.

Wireless despatches from the Lusitania show that the ship is running smoothly, and that her machinery has been shaken down so that her run from Sable Island to this port can be made at her high speed. The Lusitania, of the Cunard Line, is expected to enter the port at 5 o'clock to-morrow morning, and despite the fogs they believe she will found at the lights near that time. While the Lusitania is expected at the gateway of the port as early as to-morrow, she will not slip through the Narrows until several hours later, when the tide runs full in the Ambrose channel. The Lusitania will be the first ocean liner to enter the port through the new fairway.

MUST STAY IN JAIL. CZAR STUCK TO THE SHIP.

Mrs. Radzyk Will be Held Till the Trial. Crown Attorney Washington had Mrs. Radzyk, the important witness in the Sunfield murder trial, before Judge Monck this morning, and he secured an order to keep Mrs. Radzyk in jail until the time of trial. The order was secured on the ground that she is a material witness, and that if she was let go until the time of trial, she might leave the country.

THANKSGIVING DAY. Travellers Want It Changed From Thursday to Monday. Ottawa, Sept. 12.—L. Howard, President, and James Sargent, Secretary of the Toronto Commercial Travellers' Association; Alfred Robinson, W. L. Underwood and C. W. Nichols, of London; M. E. Mahoney, Quebec, and Messrs. Mann, Wadsworth, Brown, Marceau and Picard, are in the city to see Sir Wilfrid Laurier. They will ask this afternoon that Thanksgiving Day be changed from Thursday to Monday for the benefit of business in general.

WANT BIG MEN. Applicants for Job on Police Force Too Small. The Police Commissioners held a meeting to-day to appoint a man to the force to the position made vacant by the resignation of Constable L. K. MacDonald. Three men applied, but none of them were of 35-inch chest measure, and the commissioners thought them all too small. They decided to reject the three men and postpone the appointment till some big men apply.

GOT FIVE YEARS. Hired Horse and Buggy, Sold Them and Then Disappeared. Belleville, Ont., Sept. 12.—Special — One year ago to-day Harry Symonds, Napanee, hired a horse and buggy from A. Graham's livery here, saying that he was to buy apples in the country. Instead of that he sold the outfit for \$80 to Mrs. Roy, a widow, from the city, and disappeared. A few days ago he was arrested at Gananoque and brought here. He pleaded guilty and this morning Magistrate Mason sentenced him to five years in Kingston Penitentiary. Symonds is 26 years old, and married, with three children.

STILL IN BED. Constable May Is, However Recovering From Injuries. The police think they have a good case against John Holmes on the charge of assaulting Constable May on Sunday last. Holmes admitted to the police that he was in the crowd, but refused to give the names of any of the others, and denied having anything to do with the assault himself. The police were tipped off that a number of the men were in Buffalo, but the tip came too late to do any good. The injured man is doing well now, although still confined to his bed.

ROWLEY NOT RELEASED. Ottawa, Ont., Sept. 12.—(Special)—The report from St. Thomas that Rowley, the defaulter, has been released is not correct. The department has not done anything in the matter.

TRAIN HELD UP. St. Paul, Sept. 12.—The Great Northern Limited transcontinental train was held up by masked men near Rexford, Mont., early this morning. They dynamited an empty safe and robbed the mail car of registered mail.

COMMISSION REPORTS ON THE TORONTO TELEPHONE STRIKE.

Hours of Labor Too Long for Girls--The Listener---Conciliation Board Suggested.

Ottawa, Ont., Sept. 12.—(Special) — The report of the Royal Commissioners, Mackenzie King and Judge Winchester, into the Bell Telephone strike at Toronto last spring, just published, shows that the operators were overworked and underpaid. In addition to the changes made at the time by the Commission, the Commissioners say that the hours are still too long. Working of women at high pressure at work of this kind should be made a crime, as it is a crime against nature herself.

In regard to the use of the "listener" by the company, the Commissioners recommend that the criminal laws applicable to news improperly obtained by telephone operators or officials be amended to include telephone companies. The establishment of a permanent conciliation board of employers and employees is suggested to settle all difficulties as they may arise.

OUR TWO BANDS. Will Take Part in Military Tattoo at Brantford. Under the auspices of the officers, sergeants and Band of the 38th Regiment, of Brantford, a tattoo will be given in the Agricultural Park next Tuesday evening, Sept. 17th. There will be six bands taking part, and special fireworks display, and Hamilton's two bands, the 19th and 91st, have been engaged to take part. Bandmaster Robinson will be brigade conductor. A great many from each of the local corps intend to accompany the bands on the special excursion train, which will leave the T. & E. Station at Hunter Street at 7 p.m., availing themselves of the special low rate of 65 cents to visit their comrades in Brantford. The excursion will be open to the general public, and will include the music store, 18 King west.

TO HEAR BISHOP INGRAM. The Hamilton District Chapter of the Brotherhood of St. Andrew has arranged for 250 seats at the reception for Right Rev. J. H. W. Ingram, Lord Bishop of London, Eng., at Niagara Falls on Monday, September 23, and members of the Church of England who desire to go down to hear the bishop should leave their names with Mr. C. W. Heming, the secretary. A special train has been arranged for to leave at 6.30.

TOUCHED WIRE. New Orleans, Sept. 12.—A. C. Trippie, a striking operator, was arrested last night on a charge of malicious mischief for interfering with the Associated Press leased wire. He stepped up to a key which was not in use, opened it and stopped the report while he called to the operators on the circuit and applied appropriate names to them. Trippie afterward admitted that he had done this.

PERSONAL.

Fred. H. Kirkpatrick, of this city, is visiting friends in London.

Mr. and Mrs. R. H. Martin, of this city, are visiting with Mr. Robert Stanley, London.

Mrs. H. P. Grundy and children, of Winipeg, Man., are visiting her parents, Dr. and Mrs. Langrill, King street west.

Mr. G. W. Long, 202 Ferris street east, returned from the west yesterday, having had a most enjoyable outing.

Messrs. Melroy and Colbeck, of this city, will have charge of the services in the Catholic Methodist Church on Sunday next, the day being particularly an evangelistic one.

Brantford Expositor: Mr. and Mrs. J. R. Kingdon, of Boston, Mass., accompanied by Miss Gertrude Kingdon, and Miss Marguerite Kingdon, of Hamilton, have been the week-end guests of Mr. George E. Adams, Brant.

Mr. and Mrs. F. W. Jackson, of Montreal, have been visiting her parents, Mr. and Mrs. Robt. Connor, 106 King street west. Mr. Jackson left for home Monday last, but owing to illness of her brother, Mrs. Jackson will remain a few weeks longer.

James Watson, of Kansas City, Mo., left for his home yesterday after spending some days with his mother, Mrs. Watson Brass, 207 Hess street north. Mr. Watson has a large wholesale baking business and is doing well in the land of his adoption.

Invitations are out for the marriage of Miss Julia Margaret Read, eldest daughter of Mr. and Mrs. Edmund H. Read, Grimsby, to Roland John Mortimer Hall, son of Mr. and Mrs. Hall, Oakville. The marriage will take place on Wednesday, September 18th, at St. Andrew's Church, Grimsby.

ALIMONY SUIT. Judgment Reserved in Motion in Hamilton vs. Hamilton.

Judge Monck this morning reserved judgment in the alimony case of Hamilton vs. Hamilton. Mr. M. J. O'Reilly, acting for Mrs. Hamilton, asked that interim alimony be granted until the time of trial. Mr. E. H. Ambrose for defendant, John D. Hamilton. Mr. O'Reilly read the examination and affidavits. Mr. Ambrose argued that Mrs. Hamilton should return to her husband, inasmuch as, it was stated, he had offered to agree to a reconciliation several times. Mr. O'Reilly offered no evidence.

NICHOLSON-LIDDYCOAT. A pleasant time was spent in the home of Mr. and Mrs. LeBarre, Catharine street, on Wednesday evening. The occasion was the marriage of Mr. Percy Nicholson to Miss Annie Liddycoat. The ceremony was performed by Rev. T. McLaughlan, B.A., of St. James' Presbyterian Church, at 8 o'clock in the evening in the presence of a number of invited guests. The bride was attended by her cousin, whilst Mr. Nicholson was supported by Mr. George Avon, of this city. After the ceremony all present sat down to an enjoyable supper. The bride was the recipient of a goodly number of presents. Mr. and Mrs. Nicholson will make their home in this city.

THE USURPER

He trod lightly, sprightly, drawing strength and energy from the nutmeg pressed against his breast. He knew that the bank agent, if he had arrived, would be found there, and in imagination he already held and counted the precious notes which he would receive in exchange for his nugget.

THE HAMILTON TIMES

THURSDAY, SEPT. 12, 1907.

CONDITIONS NOT ONEROUS.

The terms of the offer made by Mr. W. D. Platt, of 18 acres of land on the mountain side below Garth street for a city park, were last night considered by the Parks Board, and that body will confer with the Board of Works as to their acceptance...

to bid us. It has been found that most of those coming from the Sandwich Islands to Vancouver did not remain, but were destined for the United States. All these facts were well known to the Free Press, which was one of the severest critics of the Government because it had delayed so long in coming under the treaty...

will be arrested and put away into safe keeping. We may expect to have an influx of these gentry as soon as the cold weather comes, and it might be as well if the police had some well-defined plan of dealing with them.

Our Exchanges

Carried Unanimously. The Anti-Japanese rioters were a pack of consummate fools. A United States View. (N. Y. Journal of Commerce.)

Mob vs. Society. It is a serious thing when peaceable men, because of their color, are lawlessly assaulted. This is a costly thing when the victims of mob wrath are subjects of a government which has both the power and the will to protect them...

Cabinet Timber. (Halifax Herald.) "I maintain," said Mr. Borden in his recent speech before the House, "that the present Cabinet is getting to be nothing, if not modest. But there would seem to be no longer doubt that the friends of the Honorable George Eulaz Foster, Dr. Spruille, Col. Sam Higginson, and the statesmen of the Bennett type are all to be bidden to go to the cabinet."

The Dundas Meeting. (Toronto Globe.) The address of Hon. A. B. Aylesworth had the ring of militant democracy, and the response it aroused showed that the people of this Province are not yet ready to assert and maintain their personal and political rights. With the keenness of a master tactician he set up a campaign of reform where abuses do exist. He exposed the narrow and selfish views of the present government and pointed out the dangers of an imaginary moral crusade.

Whitney a Sham and a Humbug. (Toronto News.) Mr. Starr does not give Dr. Pyne full credit for his activity in the interest of the party. It is fairly well known that the influence of the Commissioner, he certainly has greatly underestimated the influence of the Government. The dismissal of Mr. Hastings was an incident, a necessary incident in the Pyne campaign, but it is not to be thought of as a major step in the attention of the chief fact is that a license Board who were pledged to give a non-partisan administration of the license system were subjected to partisan pressure, and when they would not yield, the case was carried to Queen's Park, the Inspectors gave their friends and constituents a piece of their mind and through their protest, the license office would become an active center of party intrigue and party manipulation.

CHILDREN'S AID.

Some Suggestions by Mr. Kelso for the Children's Benefit. There are now five or six hundred people actively interested in children's aid work, there being sixty-two societies in the province. In a letter recently sent to the different societies Mr. J. J. Kelso, general superintendent, suggests the following additional work that might be taken up by such organizations:

OTTAWA YACHTSMAN INJURED.

Deputy Clerk of Senate Crushed Between Boat and Bridge. Ottawa, Sept. 11.—While returning from Kingston with his yacht, Robert W. Stephenson, deputy clerk of the Senate, met with a serious accident Monday evening near Grigo, on the Rideau. The craft was locking, and Mr. Stephenson expected a bridge which spanned the canal at that point would swing aside, but it did not. Noticing the danger, Mr. Stephenson jumped on the bow of the yacht with a pole to prevent its contact with the swinging structure. The pole broke and he was crushed between the bridge and the yacht. He had one rib broken and his chest was severely compressed. He was attended there, and since his arrival in Ottawa yesterday afternoon has been in the doctor's care.

JUSTICE IN THE OPEN AIR.

How Liquor Cases Are Dealt With Up North. Chatham, Ont., Sept. 11.—George Yott, of Dover, was arrested in this city today charged with stealing a team of horses belonging to Dr. McFarlane. Yott came up this afternoon in the Police Court and was remanded for a week. Charles Coo, a liverman of Windsor, swears that Yott is the man who had the two horses in Windsor.

PARDON FOR ROWLEY.

Manager of Defunct Elgin Loan Co. Released After Four Years in Prison. St. Thomas, Sept. 11.—George Rowley, the defaulting manager of the defunct Elgin Loan Co., the collapse of which four years ago ruined so many people here, who was sentenced to 12 years in Kingston Penitentiary by Judge Ernstrom for forgery and theft, has been pardoned and is now out west. Rowley served exactly four years. His pardon was kept a complete secret.

THEY WANT TO F-I-G-H-T. Prominent Men of St. Pierre Will Meet on Field of Honor. North Sydney, N. S., Sept. 11.—From private advices received to-day from St. Pierre, it is learned that in a short time a duel will be fought with swords between two prominent figures in the public life of the French colony.

DECEASED WIFE'S SISTER.

After a struggle of seventy years, both British Houses have passed the deceased Wife's Sisters Bill. This session a majority of the Lords Temporal voted for it, but the Lords Spiritual would have none of it, and the church—the Anglican Church—it is understood, will not recognize the law as far as the solemnization of marriages is concerned. Among the other things the Act enacts that:

THE CALMER VIEW.

The Montreal Star takes a sensible view of the Vancouver riots. It affirms the right of the attacked to the fullest protection, and calls on the respectable elements of the Province to discourage lawlessness and deal with the hoodlums. Rightly, too, it condemns what it calls "the nonsensical chatter about 'Boston tea parties' in British Columbia, which some politicians who should know better have indulged in. It puts the case very fairly when it says: 'There is no necessity to get excited. The Japanese Government is at one with the Canadian Government in limiting the number of Japanese who shall be allowed to migrate to Canada.'

THE POLICY OF LYING.

So far from setting limits to the immigration of these foreigners the [Japanese] the Laurier Government has encouraged and given it the most liberal scope.—London Free Press. There is only one way to characterize that statement. It is a falsehood, uttered with the fullest knowledge of its untruth. Instead of the Government "encouraging" this immigration and "giving it the most liberal scope" it entered into agreement with the Imperial Government of Japan to severely limit the number of her people who shall be allowed to emigrate to Canada.

EDITORIAL NOTES.

But it would not be quite safe to accept as true all the lurid despatches coming from Vancouver just now. Judge Winchester in his address to the jury at Toronto the other day told that the use of knives by Italians in their quarrels was too common, and he was determined to treat those guilty of using them as examples. There should be a general disarmament.

HONORS FOR RIFLEMEN.

Sergeant Russell, G. G. F. G., Ottawa; Corporal B. McInnis, C. M. R., Strathcona, Alta.; and Staff-Sergeant A. Graham, 48th Highlanders, Toronto, have been made life members of the National Rifle Association of Great Britain in recognition of their remarkable shooting on Saturday in the Palma match. This is the personal gift of Colonel J. Barlow, of the 5th Manchester Volunteers, who came to Canada to see the Palma contest.

PASS LAW TO STOP FLIRTING.

Highmore, S. D., Sept. 10.—Mayor McDonald has just approved an ordinance passed by the Town Council prohibiting flirting in public places. Flirting is made a misdemeanor by the ordinance and is punishable by a fine. The ordinance also prohibits "young people from loitering on the steps of churches or other public buildings or in the doorway of any store for the purpose of talking and eating candy and peanuts."

WIFE IN HAMILTON.

Escaped Lunatic Drove Cattle to Market and Sold Them.

Toronto, Sept. 12.—James Bagnell, of Mimico, the lunatic who escaped from Mimico Asylum at the end of July, and who has since won some notoriety by drifting on the lake over to Port Dalhousie in an open boat stolen from Mr. John Godfrey, and by visiting Toronto Junction with a loaded revolver in search of his enemies under the noses of the police, added another feat to his record when he returned to his old home at Mimico yesterday, rounded up several head of cattle which he had left in charge of his uncle, while Bagnell's wife had come to Hamilton, drove them to the city market and got clear away again with the proceeds.

He told a friend whom he met that he was going to return again for some purpose of his which was left in charge of Constable Simpson at Mimico. Neither the Mimico Asylum authorities nor the Junction police seem to be able to find a man who is walking around openly.

TEETER-RIGGINS.

Pretty Autumn Wedding at Beamsville on Wednesday.

Elmwood, the home of Mr. and Mrs. C. E. Riggins, Beamsville, was the scene of a pretty home wedding on Wednesday, Sept. 11th, when their daughter, Nettie Gray, was united in marriage to Mr. Roland Gordon Teeter, of North Grafton.

The house was tastefully decorated with pink and white asters, palms and ferns.

Promptly at 3.30 o'clock, to the strains of the Lohengrin wedding march, the bride entered the parlor, leaning on the arm of her father, looking very pretty in a gown of ivory silk, trimmed with lace and carrying pink carnations.

The groom was attended by his cousin, Mr. Harry Teeter, of Hamilton, the wedding music being played by Miss Riggins, sister of the bride.

Among the many beautiful and useful gifts was a very handsome silver pudding dish, suitably engraved, from the B. Y. P. U. of the Baptist Church, of which society the bride has been organist for some years.

Mr. and Mrs. Teeter left on the evening train for Muskoka, carrying with them the best wishes of hosts of friends. The bride's travelling dress was of brown novelty cloth, with hat to match.

CABINET OF SILVER.

Parting Gift to Mr. R.S. Wallace of Wood-Vallance.

RIGHT HOUSE

Right House Display Beautiful and Exclusive----Thousands Visited This Centre of Fashion and Viewed the New Fall Modes----Quality and Distinctiveness the Keynote of the Greatest and Most Magnificent Showing the Reliable Firm Ever Made.

The Right House fall opening exhibition is surely a master stroke. It is in keeping with the superiority and the tremendously increased business of this great store. The assemblage of new autumn merchandise is by far the grandest, largest and most complete exposition of authoritative styles ever shown by this old firm.

Every department is alive with all that is new and beautiful, and presents a character study of the fall's newness that is worthy of much time and consideration.

The decorative scheme has been pleasingly and artistically carried out, forming a perfect background for the new autumn goods.

The windows were the centre of much attention to-day, and displayed to special advantage the exclusive styles for which The Right House is famous.

Noticeable Features.

The Right House shows much larger stocks and broader varieties than ever before. The selections in every department show excellent taste and individual refined style.

Judging by the tickets on the opening displays, Right House values are greater than ever--and Right House values are famous. But quality is the keynote. Everything shown has the stamp of quality and reliability. In spite of advances on many lines this firm have always adhered to the high standard of quality for which they are famous.

The Millinery.

Of course the great centre of attraction was the millinery show rooms on the second floor. So large was the showing of beautiful Paris hats and Right House creations that one was almost bewildered at the beauty display. The fall hats are glorious. Without favoritism or royal warrant The Right House has won distinct leadership in millinery. Right House styles are the vogue. It is a radiant display that you may revel in to your heart's content. This showing is so indescribably beautiful that no word-picture can hope to convey any definite impression. The Right House millinery supremacy is a well known fact. They send millinery experts to Paris to visit the ateliers of the famous modistes of that fashion centre. Hats of refined elegance and becomingness are selected and imported as models. French trimmings, materials and shapes are bought from leading manufacturers. Then the Right House expert trimmers originate from these exclusive Paris modistes clever adaptations of individuality and distinctiveness to suit the good taste of the Canadian woman.

The styles! They are so beautiful, so bewitching and becoming that description is impossible. The shapes are both

large and small. Some styles roll up off the face. Large hats are mostly in drooping effective. Felt shapes predominate. Velvet will be much used. Silk is very popular.

In trimmings, feathers take first place--ostrich plumes, breasts, wings and whole birds. Flowers will be excellent, particularly the large flowers. Ribbons are much employed. Large bows of silk and satin, etc., etc.

The new color is Epoque, a purple plum shade. Burgundy and greens are good. Atlantic blue and navy are strong. Black and white are staple and good. Tans and browns are particularly fashionable.

Among the many beautiful models that merited particular attention was a very stunning hat of tan felt, rolling up off the face. It had a long back, and the crown was covered with tips and crests of the same shade. A handsome black velvet bow across the front finished it. Another hat was of black velvet with ostrich feather mounted on front of brim. In the new Epoque shade was a very pretty model with large puffed crown of silk and trimmed with a long coque feather.

A dashing picture hat was made of black moire silk, with a facing of pale blue velvet and trimmed with a large ostrich feather mounted on front of brim. In the new Epoque shade was a very pretty model with large puffed crown of silk and trimmed with a long coque feather.

A very pretty hat for a miss was of pale blue felt with a velvet facing of same shade. The brim was rolled up from face and trimmed with pale blue mount and velvet edged ribbon in a long bow, extending to edge of brim at back. Still another pretty model was in an apricot shade of felt with brown velvet facing, trimmed on top with large brown wings and ribbon in three shades of brown. A very distinctive hat for a woman.

Coats, Suits and Separate Skirts.

These departments present another magnificent feature of this store. The displays were superb and greatly varied. The Right House buyers personally select the coat styles in Europe's style centres. Materials are also specially selected and orders given to leading reliable tailors to make the garments up. In this way Right House styles are exclusive and smart. Many of the cloaks come in only one and two of a kind. All are now in and the public have begun buying in earnest.

The suits are smartly tailored New York models that fit perfectly, and have distinctive grace in every individual line. The showing is large and varied.

Particular attention is directed to Right House tailored skirts. This business has been developed into a great magnitude. Thomas C. Watkins imports the materials direct from the foreign manufacturers. Expert cutters and finishers are employed, who make up, after leading New York models, these stunning, handsome skirts. In this way they are better made and more perfect in fit than

factory bought skirts, while prices are lower.

Reliable Furs.

The reliability of Right House furs is far-famed. This season's showing is larger and more varied than ever before. Styles are new and attractive. The furs are rich and handsome, the result of special selecting of skins and having them made up specially by expert furriers. The values offered in this department seem remarkable.

Dress Goods and Silks.

In dress goods and silks the display was comprehensive, complete and authoritative, and embraced all the season's newest novelties and most popular weaves from the most reliable manufacturers of France, Britain and Germany. This section is a show place with its congress of beautiful fabrics. The countesses are radiant--nearly all with new cuttings, dress materials and rich silks.

In dress goods many novelty, exclusive costume lengths were shown, also a very large assortment of the newest weaves in both plain and fancy. Plain cloths lead but stripes, checks and fancies are all good. The shades in the order of their popularity are blues, browns, greens, dark reds and tans. The new novelty shades are evique, saze blue and a pretty champagne, in a new tone. The richness of the silks was an attraction that few could pass. This brilliant showing involved every weave that is stylish--beautiful taffetas, Logaines, Satops, Tamolines, Jap and China silks, and many other rich elegant weaves in black. The Right House, in spite of big advances in the silk market, have maintained their standard widths and qualities at the old prices. Piece of good merchandising that should double the season's business for them.

Laces and Other Dress Accessories.

New things: Flit ground laces (square mesh) are very fashionable and are shown in an assortment of nice shades. Insertions and bands in three widths to match are very new in a late vogue for trimming. Rich heavy black laces are to be much used and the Right House imports the exclusive Right House styles and beautiful colorings were largely shown and are spoken of as most fashionable for street and evening wear. A beautiful showing of exclusive novelties in ribbons is worth a special visit in itself.

Over in the east aisle of the main

floor is an attractive display of hand-embroidered cushions, tea cozies, pretty fancy baskets, bags, belts, articles of jewelry and beautiful art linens. These exquisite and charming displays are all much larger and better than anything heretofore attempted by The Right House.

Kid Gloves.

In the face of a scarcity of skins and a rising market The Right House show full lines of exquisite French kid gloves in wanted lengths and colorings, including black and white.

New Linens.

Here was made an immense showing of new things direct from Ireland, Scotland, Belgium and Japan, all in large varieties and excellent values.

Underwear and Hosiery.

In underwear, such prominent and reliable makes as Turnbull's, Penman's and Cartwright & Warner's were well displayed.

The hosiery department handles superior English goods in the finer makes and showed most excellent values.

The Men Were Not Forgotten.

In the men's furnishing aisle were to be seen exclusive novelties in ties, shirts, collars, dressing gowns, smoking jackets, all in large variety, and sure to please the particular man of refined taste.

New Carpets, Rugs and Curtains.

When visiting the style exposition, do not fail to see the beautiful display of new carpets and rugs on the third floor. Here are displayed for your inspection lovely carpets from England's best manufacturers, rich rugs from the Orient and from Europe. Linoleums from Britain. Curtains in rare and exquisite assortment--from the best makers of Switzerland, France and Great Britain. Because of the immense quantities of these lines, sold by The Right House, a great many of the leading manufacturers confine their products to Thomas C. Watkins for Hamilton. Others give them first choice of their best things, thus ensuring you not only the best value and largest assortment, but the best qualities possible to obtain.

Beds and Bedding.

On the third floor in the bed and bedding department, a great September sale is in progress. This sale event presents you with the opportunity to supply bedding need and save much money. It is an economy chance no one will care to miss. The display and sale involved immense assortments of lines of good beds and bedding.

These people who have not visited The Right House autumn opening display should do so. The opening will continue Friday and Saturday and a visit will well repay each and every one, not only as a style study, but as a revelation in value-giving.

chance. The pulling and the crushing strains to which each part of the finished bridge will be subjected under the most unfavorable conditions are calculated by two different methods; every calculation is proved and then a wide margin is left for safety. All material is inspected, and when well put together in accordance with the plans of a competent engineer no bridge can collapse from any cause inherent to itself.

But why do bridges thus carefully planned sometimes collapse during construction? Because in that condition they are many times weaker than they will be in their finished state; because the crushing and pulling strains which the parts will have to bear in the course of erection are left to the judgment of the designers and builders, and because the latter are tempted to figure too closely in order to save material that would be superfluous in the completed structure in any event.

Mr. Walter Paul, Montreal: "The people, must decide. Never has there been a subject before the church or the world where a minority is going to play so large a part. None of the congregations can afford to split on it, it would be unwise. There is no desire on the part of any of the denominations to lose any of their people. We don't know whether there will be a minority. The judgment comes from the people; we are trying to prepare something that will meet their views."

BRIDGE SAFETY.

Completed Structures Much Stronger Than Unfinished Ones.

(Philadelphia Record.)

Speaking of bridges in general, but more particularly of the cantilever type, all of them are demonstrably and absolutely safe after completion; disasters--and they occur not infrequently, though rarely on so large a scale as at Quebec--always come during construction. A cantilever bridge when finished is much stronger than in its incomplete state, before the stresses and strains are distributed, and every part has the support of every other part, in fact cantilevers cease to be cantilevers when they become united by the central span, but become parts of one continuous truss.

"It is well known," says Mr. Bergin, "that a continuous truss or beam supported at both ends is four times as strong and many times stiffer than a cantilever supported at one end only and free at the other." And in calculating the sustaining ability of the completed structure, nothing is left to

THE GREATEST CRIME.

It is Marriage for Life, Says California Professor.

New York, Sept. 11.--The Herald has received the following despatch from San Francisco: In a lecture before the San Francisco Sociological Society last evening Professor Edgar Larkin, an astronomer, said: "Marriage for life is the greatest crime that can be committed in the world, from either a physiological, psychological or anthropological point of view, and

the third party who joins a man and a woman in a marriage for life, whether he acts in civil or religious procedure or as witness to the contract, is the greatest criminal in the world."

Professor Larkin said his views were the result of twenty years' close study of anthropology and of human nature. Continuing, he said: "Ninety-five per cent. of the crimes in the world are due to marriage for life, a contract that must be abolished in time. If it continues the Anglo-Saxon race will be wiped out. I know what I am talking about, for aside from my study of

these matters it has been proven to me that I am right. I have asked and received letters from 1,500 women in the United States--women who are talented, intellectual and college-bred--and they tell me I am right."

An alleged shortage of \$100,000 was reported yesterday in the accounts of the State Tax Commissioner at New Orleans. The police are searching for Chas. E. Letten, a clerk in the office. The chief of the secret police, Gaylor, at Irkutsk, Siberia, was assassinated yesterday.

DIVER'S EXPERIENCE.

He Was Shot Up Out of Water by Ultra Air Pressure.

Toronto, Sept. 12.--While City Diver George McKay was examining the intake pipe he noticed some air going out of his sleeve, and in jerking it to tighten up the rubber coat he unconsciously gave a signal for more air. The pumps immediately began to respond and the outcome was that he was shot to the surface, nearly seventy-five feet, and thus escaped serious results.

CHURCH UNION.

JOINT COMMITTEE BEGINS FOURTH AND FINAL MEETING.

General Feeling is That Union Will Come Slowly--Memorial From Congregational Delegates--Delegates to the Meeting Express Personal Views.

Toronto, Sept. 12.--The fourth conference of the joint committee on church union representing the Presbyterian, Methodist and Congregational Churches convened yesterday morning at 10 o'clock in the Metropolitan Church in this city, with a very full attendance of delegates from the three bodies. The Executive Committee presented an outline of the matters to be taken up, according to a plan considered at its meeting on Tuesday night.

The Congregational delegates presented a memorial from their Congregational Union, expressing themselves as favoring that the ministers should not be required to actually subscribe to the creed, and desiring greater independence of the individual churches. The communication was sent on without discussion to the proper sub-committee.

The Anglicans, it was stated, in another communication, are unable to reply to the invitations of the joint committee to join in the union negotiations until their General Synod meets in 1908.

The reply of the Baptist Convention of Ontario and Quebec was received. They declined to enter into organic union with the three churches considering union, giving their reasons, as already published.

Denominational Committees Meet.

The Methodist section had a general discussion last night, and practically decided that no objection be made to the doctrinal basis. The itinerary was also dealt with, but no definite action was taken. Mr. H. H. Fudger brought up the question of the prospective relation to the missionary work hitherto carried on, but Dr. Sparling reported that the Committee on Administration had such questions at present under consideration. Dr. Carman is chairman of the Methodist section, and Dr. D. W. Johnston, of Halifax, editor of the Wesleyan, is the secretary.

The Presbyterian section also discussed informally some of the questions that are of most importance. The chairman of some of the sub-committees reported the progress made so far, and it was decided to meet again this evening at 8 o'clock to consider in detail the reports of some of the sub-committees, probably those on doctrine and policy. Principal Patrick and Dr. E. D. McLaren are the chairman and secretary, respectively, of the Presbyterian section.

The Congregational section discussed

the terms of subscription by ministers to the creed, also the method of examination of candidates for the ministry. The report of the Committee on Doctrine was received.

Administration Committee Enlarged.

As the Committee on Administration has so much business on hand, it has been decided by the General Committee to add twenty members to it, eight from each of the Presbyterian and Methodist sections and four from the Congregational. The Presbyterians selected the following: President R. A. Falconer (Toronto), Professor George Bryce (Winnipeg), Dr. D. M. Ramsay (Ottawa), Dr. Thos. Sedgwick (Tatamagouche, N. S.), Principal Springer (Montreal), Prof. W. C. Murray (Halifax), and Rev. John Hay (Renfrew). The Methodists selected Dr. Carman, Dr. Burwash, Dr. Shaw, J. T. Pitcher, Dr. J. H. White (New Westminster, B. C.), Justice J. J. MacLaren, Messrs. H. H. Fudger and J. W. Ferguson (Stratford). The Congregationalists will appoint their additional members at 9:15 this morning.

"This is a very large question, and not to be answered in a sentence," replied Prof. Kilpatrick to a query as to the general attitude of Presbyterians throughout the country to the proposed union, now that it has had another year's discussion. The general feeling is rather difficult to determine, and it is possibly more varied among Presbyterians than among the Methodists, the majority of whom appear to favor the consummation of the union. Dr. Sparling said the Methodists in the west are strongly for union.

Rev. Mr. Pedley said the Congregational churches were favorably disposed towards the amalgamation, and, while they had asked for a greater individual freedom for ministers and churches, yet they might accept a compromise.

Rev. Dr. W. G. Wallace, Toronto: "There is a general desire to go as far as possible. If union were forced now, however, many might not go in, but if we talk it over and have intercourse with these other churches and come to know one another better, there may be a strong, united church."

Rev. D. Strachan, Brockville: "The main thing for our committee (on policy) to deal with now is the matter of terminology, and that is being well worked out. The Methodists are anxious to give way rather than let any name stand as obstacles. They want the name Presbyter retained for the lowest court though some of our Presbyterian members thought wish to drop it. So that term stands, and we have agreed on 'Annual Conference' for the next higher body, and the Congregational term of 'General Council' will likely be the designation of the highest court."

Rev. Geo. W. Kerby, Calgary: "The feeling in the west is very pronounced for union; it suits their conditions and needs. Of course, there will always be individual exceptions, but the general feeling is all in favor of it."

Rev. Dr. Chown, Toronto: "It is in a

BRAY-MACFIE.

Hamilton Young Man Married in London Yesterday.

The marriage of Miss Mary Tracy Macfie, second daughter of Mr. and Mrs. Robert C. Macfie, of Ridout street, South London, and Mr. John Noel Bray, of the Bank of Hamilton, this city, son of Dr. J. L. Bray, of Chatham, took place yesterday afternoon at St. James' Church, South London, in the presence of a distinguished company of guests from many points.

The ceremony was performed by Very Rev. Dean Davis, assisted by Rev. Horace Bray, of Port Rowan, uncle of the groom. The bright golden effect was predominant in the decorative scheme of the church, and the imposing interior of St. James' has never been so brightened as it was by the radiant combination of color touched sunbeams and the abundance of autumn shades attained in a profusion of seasonal flowers.

The bride, a sweetly winsome girl always, seemed to be perfect, with the added staidness of her wedding robes. She wore a robe of Limerick lace, and the orange blossoms which had graced her mother on her wedding day. She also wore the groom's gift, a beautiful gold necklace of amethysts and pearls.

The bride was attended by a maid of honor solely, Miss Mazie Wheeler, of Boston, gowned in white chiffon, embroidered with chrysanthemums in shades of yellow.

The groom was supported by his brother, Mr. Walter Bray, of New York. The groom's parents, Dr. and Mrs. J. L. Bray, were present at the ceremony, and the latter was stately in black and white silk grenadine.

The bride's mother wore a handsome black lace dress.

The wedding gifts, received from far and wide, were profuse and handsome. The out glass and silverware presents were magnificent, and there were several substantial checks.

To the groom was given a magnificent silver salver, with Roman openwork border, by a number of his friends in the Bank of Montreal in Montreal.

The bride's travelling gown was of dark green broadcloth, with picture hat. On the expiration of their honeymoon trip Mr. and Mrs. Bray will reside in Hamilton.

MORENGA SUES FOR PEACE.

Germany's War With Hottentots in Southwest Africa Over.

Berlin, Sept. 12.—News from South Africa received today is to the effect that the rebel chief, Morenga, applied to the Governor to be included in the treaty of peace recently made at Gondolwars. The Governor replied that he was willing, provided Morenga would give up his weapons and live peacefully in his own country. This news has relieved the Government, as it is always possible that Morenga's presence in the vicinity of Cape Colony will lead to complications with Great Britain.

NATIONAL CONGRESS.

LABOR ORGANIZATION MEETING AT GLACE BAY.

Important Recommendations Contained in President's Address—Proposal to Abolish Labor Day, and Call Dominion Day by That Name.

Glace Bay, N.S., Sept. 11.—The National Trades and Labor Congress of Canada, which has been in session here for two days, devoted today to routine work. A telegram was received from Mr. W. L. M. King, stating that Mr. Da Brent will be present at the meeting of the National Trades and Labor Congress to represent the Department of Labor.

The Mayor of Quebec invited the congress to hold its next meeting in the "mother city of Canada." The President's report, which was read both in English and French, contained a resume of the work accomplished by the congress during the past year. He said in part that the chances for thorough organization throughout the Dominion never were better. He recommended that Parliament be petitioned to abolish Labor Day and continue Dominion Day, and that it be known as Labor Day, also that the congress declare itself again in favor of purely Canadian organizations, officered and managed by men and women working in Canada and owing allegiance to the Canadian Government.

Mr. Brown refused to pay them, and as he was in Greenfield's private office Mr. Greenfield undertook to put him out. The Magistrate decided against Greenfield's mode of getting rid of his unwelcome visitor, and fined him \$10.

"Here, Cop, come here," said Robert Davis, of Hagersville, to Constable Branon on the market yesterday. "Cop" went and told Bob to go home and sleep it off, but Bob called him names, and as a result was locked up. The Magistrate fined him \$5.

The news of his escape created consternation, and the fear prevails that fresh crimes will be perpetrated.

KITTSON-JOHNSTON.

A very quiet wedding took place in Toronto yesterday, when Mr. Norman W. Kitson, son of Mr. H. N. Kitson, and Miss Katherine L. The happy young couple have gone on a two weeks' wedding trip to the Atlantic coast, and on their return, will reside on Robinson street.

THIS COWARD GOES TO JAIL.

Thomas Holland Gets Two Months For Assaulting Wife.

Another Wife Beating Case Sent to Higher Court.

John Dowd Gets Off This Time With a Warning.

"You're an awful coward—every man who strikes his wife—just see how the prospect of a little punishment makes you whine," said the Magistrate in a disgusted tone when Thomas Holland, 517 James street north, charged with assaulting his wife, pleaded with tears in his voice for another chance.

His wife walked into the court room limping badly from the effects of an assault upon her by her husband last night, and she carried one baby, five months old, in her arms, while another toddled by her side.

"You won't get any more chances from me," she said determinedly. "I can work, and the Magistrate can do what he wants to with you."

The Magistrate smiled and committed Holland to jail for two months without the option of a fine.

William Bedell, 36 York street, who was arrested a week ago Tuesday night for assaulting his wife, was committed for trial this morning. He pleaded not guilty, and decided to go to a higher court for trial.

Mrs. Bedell, who is just out of the City Hospital, said that she did not remember much about the assault, but it was too serious a case to let drop. She stated that she was drunk, and the first she knew was when she awakened at the City Hospital on Wednesday with a black eye and fifteen stitches in her face.

James Crisp, for whom Bedell works, and over whose place the couple live, said that he saw Bedell return with liquor in him and go upstairs, and he followed and saw Bedell pull his wife out of bed and hit her over the eye. Witness ran out and got a constable there.

Constable Yasley said he was called, and found Bedell under the influence of liquor on a lounge and his wife paralyzed with drink and bleeding profusely. He arrested Bedell and sent Mrs. Bedell to the hospital. He had a broken glass with some blood on the edge, on which, he said, Mrs. Bedell had cut her face when knocked down by her husband.

Bedell has been in jail since he was arrested.

John Dowd, Picton street west, who was arrested on Monday and accused of vagrancy, was acquitted this morning. Through M. J. O'Reilly, he pleaded not guilty. Constable Smith admitted that he arrested Dowd as a suspect in connection with the assault upon Constable May last Sunday afternoon, but that charge was knocked on the head when May said he did not see Dowd among his assailants. Constables H. Smith, Ince, Tuck and Detective Miller were called, and said Dowd did not work. The Magistrate said he went to pay Mr. Dowd, but if he came up again he would get six months.

Joseph Greenfield was charged by Edman Brown with assault. He pleaded not guilty through George S. Kerr, J.S. Dickson appeared for the complainant. Mr. Brown said he went to pay Mr. Greenfield some money he owed him, and Greenfield refused to give him a receipt. He demanded one, whereupon, he said, Mr. Greenfield first ordered him out of the office, and then attempted to remove him by force.

Mr. Brown's daughter corroborated her father's testimony.

Mr. Greenfield said the trouble started over a warrant under a mortgage which Mr. Brown put into his hands to execute, but he refused to do so until some previous executions had been paid for. "HAMILTON'S FAVORITE SHOPPING PLACE"

The fall opening continues

FALL MILLINERY

The opening continues To-morrow and Saturday

THE entire store is in accord with this brilliant style occasion, breathing the spirit of the season, and forming a delightful setting for the beautiful modes for the Fall and Winter.

The millinery and outer garment sections present the most important and notable displays ever made in Hamilton. Especially beautiful, also, are the magnificent displays of furs, dress goods, silks, laces, embroideries, ribbons, linens, home-furnishings, etc.

The strong characteristics of this gathering of the world's best things in apparel and fabrics are exclusiveness, wide variety, quality and moderate prices—characteristics that have built for The Right House an enviable reputation as being pre-eminently Hamilton's leading store.

The unqualified success of this notable occasion is surely a matter of pardonable pride and we thank the public in general for their interest.

To those people who have not seen the display, we would say, don't miss it. We were enthusiastic about the new things before they went on parade, and the general enthusiasm all day has been proof enough that our ceaseless planning, untiring energy and unrivalled buying powers are widely appreciated. Again we say—welcome. Watch for to-morrow's big announcement.

CASA BLANCA

This is not the first time in history that Casa Blanca has been a storm centre nor the first time that it has been reduced to ruins. It has more than once been rebuilt after all but total destruction, and it is likely that it will rise again when the present troubles are over. It has a true reason for existence. It is essential to the commerce of Morocco and it is capable of becoming an important port if the empire could only enjoy a few years of peace and order in which to develop its trade.

Not that the harborage is especially good at Casa Blanca. There is, in fact, but a partially protected roadway. There are times when vessels lying there have to lift their anchors and put to sea for safety. But it is about as available as anything along that wild Atlantic coast, and it has many compensating advantages for what it lacks in security.

The city was once called Anfa, and its antiquity runs back of its recorded history. It was a considerable place when in 1466 the Portuguese captured it, sacked it and practically wiped it off the map. In 1515, however, the invaders themselves realized the importance of the site. They rebuilt the town and it was they who called it Casa Blanca; the Arab name for it is Dar-el-Beida. The Portuguese held it only a short time. As they lost their hold on their African conquests it fell once again into the hands of the Moors.

In 1755 it was devastated by the same earthquake which reduced Lisbon to ruins, and long afterward remained a pitiful shambled, squalid and poverty-stricken, but toward the end of the eighteenth century it attracted the attention of some Spanish speculators and they secured a concession from the Sultan Sidi Mohammed to export cereals from it as well as from Fedala and Mazagan. From that time it began to raise its head again. It grew in Portuguese hands, and was gradually rebuilt and presently fortified. As the outlet for the rich and fertile region of Chania it developed considerable trade. Just before the French bombardment it was, after Tangier, the most important seaport of Morocco and it had 30,000 to 40,000 inhabitants, of whom 600 to 800 were Europeans—principally French, Spaniards, Germans and English.

The city lies in the hollow of a deep and spacious bay between rocky promontories upon which the swell of the Atlantic breaks noisily from year's end to year's end. Ships that anchor in the bay are well protected from westerly winds but are completely exposed to those from the north. From the deck of a ship lying within the promontories the whole circuit of the bay seems to be fringed with towering breakers. On either side there are dark cliffs, but in the hollow there is a long strip of yellow sand above which rise the walls of Casa Blanca, flanked by ancient bastions over which the old corsair flag of Morocco used to float. Fronting over the bay there used to be a rare collection of antique ordnance. The guns were pretty nearly a century out of date—most of them were—but they looked formidable. Above and behind the walls peeped the flat roofs and inevitable minarets of the town. By way of background rows of tawny hills waved along the sky line.

Steamers venture to within a mile of the shore; sailing vessels find it safer to lie further out in case it should become necessary to take to the open. In winter communication with the shore is often interrupted for days at a time. The communication is carried on entirely by light Arab boats and by light launch barges on which merchandise is carried between the ships and the shore at its one or two accessible points.

At the view of Casa Blanca from the sea is grim and uninviting, the approach from inland is altogether charming, according to a recent French traveller. The place is bordered on the land side by a wide space of gardens having the characteristic Oriental, sub-tropical charm. Amid the palm trees the whitewashed houses and minarets glisten in the African sun. The deep green of the shrubbery rests the eye and trees reduce the glare on the sandy roads as the traveler approaches the city gates with their old time battlemented towers.

The inviting aspect of Casa Blanca, however, is altogether external. Within its walls it is a maze of narrow, crooked, more or less filthy streets. The houses are neither Spanish nor Moorish, but a sort of characterless hybrid. Hundreds of them are mere hovels and large districts are given up to sheds in which sheepskins and goatskins, bales of wool and sacks of grain, are stored to await shipment. The atmosphere is laden with dust in the rainy season, and slimy rivers of mud in the rainy season. All day the heart of the city used to be alive with a hustling throng on business bent. Bedouins in rags drove camels and many donkeys staggering under their loads of merchandise; Berber and Jewish porters, also overlaid, jostled in long gowns of dark stuff. Here and there the white burnous of some Moorish functionary might attract attention as its wearer stalked with haughty mien through the ragged, motley throng.

The prosperity of the city was based entirely on its commerce. It had practically no industry. Notwithstanding its growing wealth there were no fine residences within the walls, nor were there any artistic monuments. The mosques, the marabouts or tombs of the saints, the baths, the Dar-el-Maghzen, or palace of the Government, were all plain whitewashed buildings. The kaif or bazaar is merely a square surrounded with dingy little alcoves in which the dealers sit cross-legged amid their wares. The fondaks or caravanserais are mere rectangular courts in which camels, horses and mules may be corralled, with a few dark and grimy cells wherein the camel drivers and travellers who have no friends take shelter. Demurely and simply the place used to give its hospitality to a large number of tourists.

It afforded a good opportunity to study primitive manners under all but primitive conditions, and the large and growing European colony was both interesting and hospitable to visitors.

Of the other towns on the Atlantic coast of Morocco which have been or are likely to be involved in the present troubles Rabat is the largest. It is about ninety miles south of Tangier and thirty miles north of Casa Blanca. It is estimated to have 30,000 inhabitants, but only sixty of these are or were Europeans. Between Tangier and Rabat is Larache (properly El Arach), which has 10,000 inhabitants, sixty Europeans. South of Casa Blanca are, at thirty miles, Mazagan, with 10,000 people, including 3,000 Europeans; at fifty-five miles, Safi, 10,000 people, thirty Europeans, and at ninety-five miles, Mogador, with 22,000 inhabitants, including forty Europeans. Under the Algerians compact the French are to police Rabat, Safi, Larache and Casa Blanca.

Fedala, where the Portuguese are said to be landing contraband arms for the Moors, is a small town a few miles south of Rabat.

The Toronto Board of Control has approved a plan to build a new addition to the Home for Incurables.

The large plant of the Cudahy Packing House at Philadelphia was burned on Wednesday. The loss will be about \$200,000.

London, Sept. 11.—Despatches from Lucknow state that the incidents at Bellingham and Vancouver have greatly excited Hindoos, who are highly indignant and are calling on the British Government to take effective measures to protect their countrymen in the United States and Canada.

Against All Asiatics. Ottawa, Sept. 11.—The Mayor of Vancouver has telegraphed Sir Wilfrid Laurier that twenty arrests of rioters have been made.

The Times Rebutted. London, Sept. 12.—The Tribune and Leader criticize the Times' article on the anti-Asiatic riots. The former says it is not enough to quote the exigencies of imperial politics or the Podaniasm of those who just at sores because they never felt the wound, while the latter says it would have hesitated to use such language concerning the self-governing colonies.

Arrested at Guelph. Guelph, Sept. 12.—John Burwick, working for the Taylor-Forbes Company for two years, was arrested for systematically stealing small hardware from the factory.

HELLO GIRLS.

Medical Commission May Decide as to Hours of Labor.

Toronto, Sept. 12.—The recommendation that a commission of eminent medical men should be appointed to determine from the health standpoint, the number of hours which Bell Telephone girls might properly be required by the company to remain at their posts, daily or nightly, is the most important feature of the report, which has been prepared by his Honor Judge Winchester, and W. L. Mackenzie King, Deputy Minister of Labor, who were named commissioners by order-in-council, on Feb. 3 last, to investigate differences between the company and its Toronto operators.

The report is to be made public at Ottawa to-day, and its findings in detail, covers hundreds of typewritten pages. While the commission has decided that questions of sanitation and hygiene, which are really the vital issue, can best be dealt with by members of the medical profession, Judge Winchester intimated that both Mr. King and himself had come to a decision that the eight-hour day schedule, which the company had sought to force upon its employees, necessitated entirely too much strain upon the nerves of the operators, and was not to be considered.

"The question of health is really the vital one," continued Judge Winchester, who said that there were many minor recommendations contained in it, regarding the final drafting of which, he said, had been completed three weeks ago.

ROADHOUSE MAY SPEAK.

Magistrates Threatened With Legal Action—No Union at Haileybury.

Colant, Sept. 11.—Advised by their lawyers, the union will resume their meetings on the square as before. Magistrate Brown has received a letter from Mr. Erdagh, who defended the union in the recent cases, stating that in accordance with the agreement arrived at, he had consulted his senior partners, notably Mr. Du Vernet, and as the result they have notified Mr. Roadhouse that he has the undeniable right to free speech, and in any future action he might take he would be liable for a personal action for damages.

Last night Organizer Roadhouse held a meeting at Haileybury with the object of forming a branch of the Federation there among men engaged in the building trades. Mr. Hamilton, postmaster of Haileybury, accepted Mr. Roadhouse's challenge to debate, and declared that he did not want any unions in Haileybury. No union was formed.

Last night Organizer Roadhouse declared that during the week \$2,000 was received from the central organization at Denver, \$3,500 from the locals, and that 289 more locals were to be heard from.

WHAT A PITY

That ambitious people through hard work invariably neglect health—it is a pity to look into their pale tired faces and see plainly written there the evidence of transgressed law.

The penalties of overwork are as easily seen as they are hard to bear—sleepless nights—tired mind and body—hearts that flutter and cause all sorts of uncomfortable feelings.

Its mode of action is very simple, its curative power very great. It makes people eat more because it creates a wholesome feeling of hunger.

DOCTORS HELP "HUBBUGS."

Neglect to Recognize Psychological Laws Helps Faithcurists.

Montreal, Sept. 11.—"Sick-room Psychology" was the subject of an address by Dr. John Hunter, of Toronto, at the Canadian Medical Convention here to-day. Medical men were driving people into the ranks of various mystical faith cure hubbugs, he said, by their neglect of psychology laws in their treatment of the sick.

Dr. A. McPhedran, of Toronto, in the presidential address, dwelt at some length upon the advances of medical science and its value to humanity at large.

WIRE FENCE CARRIED CURRENT.

Two Miners Killed During Storm at Arona, Pa.

Greensburg, Pa., Sept. 11.—Jesse Weaver and Louis W. Long, married miners, of Aurora, were electrocuted and two other persons seriously injured late last night when lightning struck a trolley feed wire, knocking it down upon a barbed wire fence, which the men touched as they sought shelter from the storm.

CUTTING OFF INSURANCE.

Congested District of Montreal Regarded as Unsafe by Underwriters.

Montreal, Sept. 11.—The fire underwriters have been threatening for some time to reduce the amount of insurance they are carrying in the congested district of the city. They complain that the city is not properly equipped with fire-fighting apparatus. Several companies have carried their threats into execution. The Liverpool, London & Globe is said to have cut off about one million dollars and to contemplate cutting off another half million.

The North British & Mercantile has reduced, it is said, by nearly one million, the Royal has curtailed or curtailing its policies to the tune of about one million. Down-town business men are becoming alarmed at the turn of affairs.

No, Maude, dear, it is not necessary for a light complexioned person to be able to lantern-jew or moon-face.

Bowel Troubles

Liver pills, cathartics, mineral waters, often make Constipation worse. They merely irritate the bowels and force them to move—stopping taking purgatives and the bowels become "tight" again.

"Fruit-a-tives" are the one certain cure for Constipation

because their action is upon the liver. "Fruit-a-tives" are a liver tonic. They stimulate the secretions of bile by the liver, this bile causes the bowels to move in the natural, regular way and completely cures Constipation.

"Fruit-a-tives are fruit juices with tonics and antiseptics added. In "Fruit-a-tives" one atom of bitter replaces one atom of sweet in the fruit juices, forming a new compound which is many times more active, medicinally, than the fruit juices could possibly be. 50c. a-box—\$2.50 for 6 boxes. BOARD HEARS OF CONDITIONS.

UNDER WHICH W. D. FLATT WILL DONATE PARK SITE.

To Take It Up With Board of Works—Tenders Awarded—Will Make Maltese Cross of Old "Hennery."

At the Parks Board meeting last evening a letter was received from Mr. W. D. Flatt, explaining the conditions attached to his offer of sixteen acres on the mountain side, in the southwest end, for a park. He wants the city to put a cement sidewalk on the west side of Carth street, from Aberdeen avenue to the mountain, macadamize the road for the same distance, and the city to spend \$300 a year for ten years in beautifying the park. The ground is to be preserved always for park purposes.

The Works Committee was instructed to wait on the Board of Works at its next meeting and lay the matter before that body.

Contracts for supplying fruit, bread and meat for the animals at the Dundurn Zoo were awarded. The Peoples-Hoover Company's tender of \$68.75 for fruit and \$32.50 a hundred pounds for meat, being the lowest, was accepted.

There was some discussion over Bain East tender of 2 1/2 cents a pound and a half loaf for bread, before it was accepted, because no cheque accompanied it. The contract was awarded on condition that the cheque is forwarded.

A sub-committee was appointed to deal with tenders received for erecting a wire fence along the mountain drive roadway.

The Board decided to make a big improvement in one corner of Dundurn. The old "hennery" will be fitted up in the shape of a Maltese cross by making additions, and the architect was instructed to call for tenders.

LIQUOR GIVEN TO BOYS.

Shocking Conditions Revealed at an Inquest in New Brunswick.

St. John, N. B., Sept. 11.—A shocking state of affairs was revealed Tuesday by an inquest into the death at Lilly Lake, near Campbellton, of Oliver Peters, a lad. He was accidentally shot on Sunday by a comrade, Ben. Beatty.

The evidence showed four boys had gone on a drunken carousal to Lilly Lake, taking much liquor with them, also firearms. They spent the day playing for the drinks.

The jury condemned the fact that such youths could procure liquor freely, and they asked that Peters' companion be proceeded with for violating the law, and that Sunday lawlessness generally in the neighborhood be suppressed.

Operation on Alfonso. San Sebastian, Spain, Sept. 11.—King Alfonso to-day underwent an operation with the object of dilating the ducts of the nose and easing his breathing by removing a few adenoid growths.

Williams; Christopher Columbus and the New World of His Discovery, 946, Filson Young. WELCOME APPRECIATED. Bishop of London's Message to the People of Canada. Montreal, Sept. 11.—His Lordship the Bishop of London, left Montreal for Ottawa to-day. Speaking last night at St. George's Church he delivered the following message to Canadians: "We love you and are proud of you, with the same love with which a mother watches a child's career. We feel that we on the other side are bound to you by bonds that nothing can break. I have only been a few hours in Canada," continued loyalty means, in a way perhaps in which I never knew it before, and I feel profoundly what warmth of welcome awaits all here who come over from the old country, for the reason that they come from that land, and particularly as I have experienced it, for those be-

ELECTRICITY IN HOUSEHOLD. Should Be More Generally Used, Says Engineer. Montreal, Sept. 11.—The 17th annual convention of the Canadian Electrical Association opened to-day, with about 150 delegates. The main note of interest was in the address given by President R. C. Black, general superintendent of the Toronto Electric Light Co., who made it pretty clear in his address that the prospects for any general reduction in the price of electric energy were remote. He argued for the enlargement of the field of utilization of electric power in order that the companies might be able to meet the continual increase in the cost of materials and labor. The use of electricity should be extended for household purposes, such as ironing and cooking, etc., so as to provide an outlet for power when it was not being used for light.

LOUIS ROEDERER WON THE STAKES.

Another Day's Racing in Rain at Montreal.

Tommy Murphy Beat Highland at Philadelphia—Toronto and Buffalo Played a Tie Game—Will Montreal Join the New Rugby League?

Montreal, Sept. 12.—For the ninth time during the ten days of the meeting the Blue Bonnets course was muddy and the weather showery, but the fields were of fair size, except in the steeplechase. There is little opportunity for work on account of the bad track, and horses drawing the rail position have very much the worst of the running, so that some reversals of form are easily accounted for. Many horses are ready to ship away to Toronto and Hamilton, but are held up by the lack of cars, and owners are fearful that, after their hard racing over bad tracks, their horses will take some time to round out. It will certainly set back some of them.

The success of the meeting has been sadly interfered with by the lack of transportation facilities, the delays at the trolley car transfer points being aggravated by the continued wet weather. "Red" Walker scored twice yesterday, with Zeina and Henry O, the victory of the latter being his third in three starts. G. Lewis, the favorite in the Primrose Stakes, for two-year-olds, was badly outrun after leading in the early stage, and the race was won by the light-weighted Louis Roederer, owned by Mrs. M. C. Lykes. Johnny Flynn's (Gee) Fast, after being almost left at the post, beat Chief Desmond for second place.

WOODBINE OPENING. Toronto, Sept. 12.—The autumn meeting of the Ontario Jockey Club, which opens at Woodbine on Saturday, promises to be the most interesting of the many successes in the club's record, and the programme is such as to bring out sport of the most enjoyable character. The track events, which the club has so liberally endowed, all being of the added money kind, attracted a fine list of horses of high quality, and the overnight races are likely to run the stakes very closely in the matter of keen contests.

SADDLE AND SULKY. Lester L. Hayman, the false alarm in a steeplechase at Montreal this week, has been sold by Mr. Colt to Thomas Stearns, Montreal.

St. Joseph has proved a better horse in his new owner's hands than when he was carrying M. J. Daly's blue jacket. He now belongs to Joe Marrone, who took him from July in a selling race. Running Account, who has shown to be an exceptionally useful two-year-old about New York, having won his last four starts, was on sale at Fort Erie for \$1,200, and a Hamilton owner had a chance to buy him at \$1,000, but let the opportunity pass.

SATURDAY BALL.

City League Championship Series Will Soon Be Over.

Baseball will be resumed at Britannia Park on Saturday afternoon with two games in the City League championship series. The season is almost at an end and the three teams are playing good ball. It is barely possible that the "All-star" Britannia may be beaten out in the race for the championship of the season, but it is not probable, and such a thing should happen say would play off with the winners. "All-star" is the name given the team in Brandon, and the teams here have good reason to consider the Brits stars, for the Hamilton boys won four straight games.

IN THE EASTERN.

At Toronto—Without ceremony or ostentation, the 1907 Eastern League leaders backed off the local stage yesterday in a game with Buffalo, which resulted in a score of 2 to 2, because the teams had to make a scrambling get-away on the 5:19 train for the final games down the eastern division of the circuit. It was announced before the game that it would be called at 4:30 to allow the train connection to be made, but it had reached the ninth inning when Umpire Sullivan rang down the curtain. The contest would undoubtedly have gone on extra innings had not the time limit been set upon it. Score: Toronto 2, Buffalo 2.

NATIONAL LEAGUE SCORES.

LOOKS LIKE TORONTO, BUT.

Many baseball fans doubt the statement that it is still possible for Buffalo to beat out Toronto in the pennant race, and they have reasons. There is a possibility, but that Toronto should not capture the rag is highly

SHORT ENDS. Little Paragraphs of Sport From Far and Near.

Brampton, Sept. 12.—A semi-final of the intermediate C. L. A. championship was played here yesterday between the Elora Club and the Young Torontos. Elora won by the score of 7 to 6. It was a close game, Elora winning in the last five minutes of play when the inside home man took a nice pass from the field and made the final score 7 to 6. The Cincinnati, Ohio, Sept. 12.—During the night "Dan" O'Leary, the old-time champion pedestrian, continued steadily his endurance test of walking 1,000 miles in 1,000 consecutive hours at Norfolk, a Cincinnati suburb. Notwithstanding his sixty-three years O'Leary says he will surely complete the unique walk and he showed no sign of weariness at the end of his first eighteen hourly miles.

WILL MONTREAL PLAY? "Big Four" Football League Not Formed Yet.

Montreal, Sept. 12.—The decision as to whether the Montreal Rugby Football Club shall join the new Inter-provincial League or not has apparently settled itself into a contest as to whether the definition of an amateur as accepted by the M. A. A., or the Toronto Argonauts and other Ontario clubs, shall be recognized by the Montrealers. The Montrealers referred the matter to the M. A. A., and the directors of the big Montreal athletic organization met last night and refused to take action, referring the whole matter back to the Montrealers, merely making the proviso that whatever decision might be reached by the latter they must continue strictly amateur, according to the ruling of the M. A. A. This still leaves it up to the Montrealers to choose where they will play.

WOODBURN. Wm. and Mrs. Daw spent Sunday with Ed. and Mrs. Packham; of Abingdon.

Miss Agnes Ptolemy spent Tuesday with friends in Dundas.

Mrs. Nettie McEvoy is spending this week as the guest of Miss Ada Hull, of Stoney Creek.

Johnston Woodcock has been repairing the roof of Alfred Whitwell's barn.

AT TERCLIFFE. Master Talbot Crayston, of Toronto, has left for home after a short visit with Messrs. Walter and Edmund Miller here.

Miss Nancekiwell closed her meetings here on Monday evening. She made many friends during her short stay, as she was a delightful singer and pleasant speaker.

Mr. J. M. Gilmore is negotiating for the Joseph Harrington cheese factory.

Mrs. Edward Dilts, who was stricken with paralysis last Tuesday, has improved a little but has not recovered her speech.

Mrs. Alex. McGlashan and daughter, of Niagara Falls, N. Y., are making a general visit with relatives and friends in this neighborhood.

Mr. Singer and family expect to move to this village next week.

Mr. Russell Bowman, of Welland, is a business visitor in the village this week.

THE CZAR MAROONED. Fast on a Rock Off the Finnish Coast.

Hango, Finland, Sept. 11.—The Russian Imperial yacht Standart, with Empress Nicholas and Empress Alexandra and their family aboard, is fast on the rocks off Hersee, a point on the east coast west of this place. The yacht is apparently in no danger, as the Empress and his family remain on board. The Standart ran upon the rocks, which were submerged at high tide, at 4:30 o'clock this afternoon and remained fast. A steam lifeboat from Reval, on the Gulf of Finland, has arrived upon the scene, and seven torpedo boats, which have been escorting the Imperial yacht on its tour in Finnish waters, are standing by to render assistance if needed.

FELL UNDER THE CARS. A. L. Hart, of Sarnia, Brakeman, Killed at Wyoming.

Wyoming, Sept. 11.—A. L. Hart of Sarnia, brakeman on the way freight between London and Sarnia, was instantly killed here this morning. While shunting in the yard Hart was standing on the pilot of the engine between the engine and two attached freight cars in order to pull the pin out of the draw-bar. He drew the pin, signalled the engineer to go ahead, and almost immediately fell in front of the moving cars, the wheels almost cutting his body in two. After making an investigation Coroner Chappelle decided that an inquest was unnecessary. Hart leaves a wife and one child.

THE PREACHING POLICEMAN. Once in Canada as Soldier—Coming Now as Immigrant.

London, Sept. 11.—Francis Curtis, of Wilsden, known as the preaching policeman because it had been his custom to take part in frequent religious ceremonies, has retired. During his period of service he reformed many of the worst characters of the district and frequently averted disturbances by his tact. Twenty-five years ago he was a soldier stationed in Canada, and while there married a French-Canadian woman. He leaves for Canada to-morrow with his wife.

TOOK AN OVERDOSE. Toronto Man Found Dead in Bed From Laudanum Poisoning.

Toronto, Sept. 12.—Thomas Nichols, 37 on Tuesday night and was found dead in bed yesterday morning at Joseph White's boarding house, 54 Bond street. The chief coroner was notified, but an inquest was deemed unnecessary. Deceased had been addicted to the use of drugs. Several bottles containing medicine and a number of powders were found in his room. Nichols came out from England about seven years ago, and formerly worked at Ryrie's and St. Michael's Hospital. It is said he had a wife and family in England.

CARLISLE. The rain on Tuesday prevented a large number from attending the Liberal meeting in Dundas.

Mrs. James McKerr and little daughter have returned home to Canada after an extended visit with relatives in this vicinity and Hamilton. Miss Grace Eaton returned home last week after spending a few weeks with relatives and friends in Hespeler, Berlin and Hurford.

The harvest home services held last Sunday were well attended. The church was beautifully decorated with fruit and flowers.

Mr. and Mrs. Edgar Taylor and family, of Milgrove, spent Sunday at the home of Mr. and Mrs. N. Kocla.

Mrs. John Payne and her niece, Miss Cripps, of Vancouver, B. C., are visiting friends and relatives in and around the village.

Mr. and Mrs. Geo. Dougherty, of Mountsberg, spent Sunday with the latter's mother, Mrs. Zimmerman, who is ill.

Mr. Albert Eaton is digging the cellar for his new barn. A number of merchants have been looking after Mr. Eaton's store, which is to be vacated by Mr. Tuplin soon. It is a fine site for a general store, and the one who gets it will be lucky.

Mr. and Mrs. Rightman and Miss Shiners, of Galt, and Mrs. Zent of Iowa, spent a few days in the vicinity with relatives. On Saturday they called on their cousin, Mrs. H. Hood, and their friend, Mrs. Millard, in the village.

Mrs. Clifford Eaton and Miss Della, of Toronto, are visiting relatives in the village. Miss Effie Eaton, of Toronto, is visiting her brother, Mr. Milton Eaton.

The Rugby Football Outlook.

"Cully" Robertson, of the Toronto Telegram, must have "enjoyed" Kelley's smoker on Tuesday night, for this is what he wrote for yesterday's paper: It was a good thing when Argonauts decided to break away from Toronto and have a team composed entirely from their own members, a thing they should have done long ago. Argos have a big membership and there is no reason on earth why they should not have a snappy team provided they get the brains to run them, a quality in which the carmen have been lacking for some little time. There was never enough ginger behind them, while the team travelled as if it had weights on its feet. Give the Argos good backing in the way of a coach, etc., and it's in them to break the speed limit.

And what of Hamilton and its Tiger team? Can it be depended upon to repeat the trick of last fall and reduce the swelling in the heads of the M. A. A. people, whose cranium seems to be abnormally developed? Of course, Chaucer Elliott, whom "Tiger" whispered the Tigers were after, has cost his lot with Monty, and the easterners say that without Chaucer Tigers haven't the originality of the sporting page of the Hamilton Times, and that's going some. But for all that look out for the team from the business address of John Leith Counsell, Hon. J. M. Gilson and other great men. Montreal last year tittered when they thought of what they would do to Du-Moulin's team. The result you all know, and when it came to intensified sadness the Montrealers had melancholia lashed to the mast. So do not overlook the team from the Mountains, who are made of the right stuff, and will be found somewhere near the top when the scheduled games are played.

And as for Rough Riders, the best they can hope for is the worst. Can you imagine in any flight of fancy Ottawa putting an amateur football team in the field, in fact, any amateur team in any sport and getting better than the "cel-lar" position, as the World would say, when it wants to be read out. An amateur football team from Ottawa, why a team from Vassar, or even Harvard, Hall, would have no trouble in holding their wings. So it looks very much as if the "capital" would not be heard from this fall, and the public will have to wait till Day's rink is flooded before Ottawa can hope to be in the championship chase.

with broken bones in each hand, and Gans stayed fourteen rounds at Goldfield with a useless right hand. Here are a few things for which the Brits are being criticised for the discomfited: First, for failing to show sufficient proof that there really was an injury to Jimmy's arm.

Second, for hurrying out of the ring without submitting to an examination on the spot. Third, for allowing the referee to be plastered and refusing to bring the necessary proof.

The success of the meeting has been sadly interfered with by the lack of transportation facilities, the delays at the trolley car transfer points being aggravated by the continued wet weather.

"Red" Walker scored twice yesterday, with Zeina and Henry O, the victory of the latter being his third in three starts.

TYPHOID RATE IN HAMILTON

Lowest of Any City on Continent, Says Dr. Roberts.

Mayor Says Times Report Was Perfectly Justified by Facts.

"On the number of cases reported to date I am willing to challenge any place on the continent of America to show a lower typhoid rate, than Hamilton," said Dr. Roberts, Medical Health Officer, this morning.

"A last dying kick on the part of Mr. Fitch's friends to get the city to buy his property," said City Engineer Barrow's comment on the latest agitation over the water.

Ald. Lees complains that the three newspapers of the city have made too much of the typhoid rate.

One of the aldermen who shares the view that the papers have no business chronicling some of the matters that happen at Council meetings or indulging in criticism conferred to a Times man that he was responsible for getting the alderman, who was intoxicated, to the meeting, so that the motion to submit a by-law to return to the ward system should be defeated.

Permits were granted to-day to Mr. J. Rastick and Son for a brick house at the corner of Queen and Stanley avenue for O. S. Hillman, to cost \$800, and to Robt. Dyer for a frame house at the corner of Bay and Strachan streets, to cost \$1,200.

Dr. Roberts says Eva Hutchinson, the smallpox patient, under quarantine in a Merriek street house, is progressing favorably.

Mayor Stewart was requested this morning by Ald. Lees to be one of a deputation to wait on the city papers and protest against the criticisms of the Council meetings and complain that the proceedings were not being fairly reported.
