

THIRD YEAR.

MONDAY MORNING, NOVEMBER 27, 1882

PRICE ONE CENT

MORE ASSASSINATION.

A DETECTIVE SHOT IN DUBLIN BY FEMINISTS.

His Assassin Shot—A Bloody Struggle—More Victims—Cox's Assistant Shot to Death in the Middle of Abbey Street. Another detective shot by Cox's assistant. Cox is dead.

FULLER PARTICULARS.
Eastwood and Cox and another detective were in the neighborhood of Sackville street watching a party of men suspected of being feminists. Four shots were fired at the officers, one wounding Cox. Eastwood pursued the men and shot one named Dowling. He is not expected to recover. He was among a group of men, one of whom in trying to hurry the murderer away was captured by a soldier who threatened to bayonet him. A third man is in custody. The men had just come out of a public house for some time. Eastwood and Cox were shot in the middle of Abbey street. Cox is dead.

DUBLIN, Nov. 25.—Dowling or Dolan the murderer of Detective Cox, is a brass fitter. One of the two other men arrested is named Devine. He was released from prison a few months ago and is known as "Bully." He had two revolvers in his pocket and eighteen rounds of ammunition. The detectives about half past ten noticed three suspicious looking persons withdrawing from a party of ten with whom the detective had the encounter. The officers crossed the street and Cox approached Dolan, whom he suspected of having arms in his possession. As the detectives neared the group a man shouted "now fire," and Dolan immediately discharged his revolver. Eastwood then wounded Dolan and another man, while the revolver from him. Meanwhile one of the party fired twice at Eastwood, the bullet penetrating his hat. Devine knocked Eastwood down and was about to shoot him when he was seized by a constable and a soldier. The soldier had a bayonet across Devine's throat, threatening to kill him if he moved. Devine shouted "shoot the soldiers." Matters appeared threatening, but the police drew their revolvers and kept the crowd back until Cox and his prisoners were removed. Dolan is not expected to live. He says he and his party are all good men and do not care if they are shot. The police state that a whistle was blown as they approached the group, and end word to fire was repeated three times. Dolan fired and where a man was recently discovered. The police at 2 o'clock this morning broke into the house of Wm. Woodward, organ builder, Cliffe street, and arrested him on a charge of being connected with the murder of Cox. Woodward has been imprisoned under the coercion act on suspicion of being concerned in the murder of the late detective. The police are expected to break into other houses. During the night a mob followed the cab conveying Cox to the hospital, and tearing at the windows and reaching the hospital safely. This said Cox was warned that he would be killed.

ARREST OF M'CALL.
Speaking at Harold's Cross to-day, strongly denounced the murder of Detective Cox. He asked the people to use their influence to drive away every man who was a doer of last night were no doubt abettors for deadlier and more heinous work, but their intentions were frustrated by the vigilance of the police.

INCENDIARY SPEECH FROM DAVITT.
DUBLIN, Nov. 26.—Michael Davitt in speaking last night delivered a fiery address to the people of Ireland should not starve. They would compel the government that prevents them living on the soil to support them during the winter. In case they were unsuccessful in getting the government to do its duty he proposed to make the landlords support the people. If landlords did not apply the surplus of their farms estimate to save the people then no rent should be paid from November until May. A portion of the arrears, surplus should be placed in a national fund to save the people from starving. In 1848 Archbishop Hughes declared in New York that men threatened with hunger should be placed in a national fund to save the people from starving. In 1848 Archbishop Hughes declared in New York that men threatened with hunger should be placed in a national fund to save the people from starving.

IRISH NOTES.
DUBLIN, Nov. 26.—The municipal elections resulted in the return of liberalists. They take the places of liberals. The police still maintain that they are on the track of the murderers of Cavendish and Burke and appear sanguine of their arrest.

DISRAELI'S SUCCESSORS.
Young Marlborough on the Functions of a Party.
LONDON, Nov. 25.—Lord Randolph Churchill in replying to a deputation who invited him to contest the seat for Manchester at the next election for the house of commons, said he was unable to give a definite answer at present. He was a good object of concealing his opinion that the function of the opposition was to oppose the government. During late sessions this was systematically neglected or defectively carried out. More than once legitimate opportunities for conflicts with regard to have overthrown ministry or inflicted great damage to it were allowed to pass. The vitality of a party was not to be estimated by great speeches in the country but by action in parliament.

A PONTIFICAL CIRCULAR.
On the Extra Territorial Character of the Vatican.
PARIS, Nov. 25.—A pontifical circular issued in connection with the action of Marianne against the papal majordomo, before the court of appeal which confirmed the decision of the court of first instance, extended within the walls of the vatican, declares that the sentence of the Roman tribunal is a violation of the extra-territorial character of the vatican and an insult to the pope.

GAMBETTA'S GAME.
He Wants a Military Office to Succeed Grey.
PARIS, Nov. 25.—A meeting of Gambetta this afternoon unanimously adopted, amid great enthusiasm, a resolution recommending to the people of France the election of a military officer to the presidency in the event of the retirement of Grey. It was decided to issue a public statement giving reasons for this action. The statement was intended to be the product of Gambetta himself. The affair causes great excitement.

THE NEW IOLANTRH.

St. Alban's Production at London and New York.

LONDON, Nov. 25.—Gilbert and Sullivan's new opera Iolanthe, given at Savoy theatre to-night, received unbounded enthusiasm. The general opinion, however, is that it will not have such success as Patience.

New York, Nov. 25.—Gilbert and Sullivan's new opera Iolanthe, of the Savoy theatre here to-night, has been given with very large and the music and acting gained immense applause. Tickets were sold as high as \$6 each. The presentation was under the management of Mr. D'Oyly Carte. The opera was put on as far as possible with the effects of the Savoy theatre in London. In the second act a very beautiful effect was produced by dimming the stage lights and attaching above each fairy a half fairy lamp, and the plot consists of a love story in which Iolanthe, her son Straphan and a half fairy half mortal, and Phillis, a beautiful ward in chancery, are the prominent figures. It is well composed and calculated to keep up the closest interest of the audience. The scenery is magnificent and harmonizes well with the dress of the actors as well as the spirit of the play.

THE RAILWAY WAR.

Further Resolutions by the Albert Lea Road.

MINNEAPOLIS, Nov. 25.—The Albert Lea road to-day made the rate five cents per hundred, regardless of classification.

New York, Nov. 25.—The Chicago and Northwestern railroad to-day declared a quarterly dividend of 2 per cent on the stock, and a half year dividend of 3 per cent on the common stock, payable Dec. 27.

CUTTING OFF HEADS.

President Arthur Resumes the Official Friends of the Star-Busters.

WASHINGTON, Nov. 25.—On the report of the attorney general Arthur this evening ordered the removal of the marshal of the district of Columbia, Chas. E. Henry, Postmaster D. B. Ainger, Assistant Postmaster M. M. Parker, M. D. Holm, foreman Congressional record, and George E. Spencer, one of the government directors of the Union Pacific railway, on the grounds that they interfered with the administration of justice in the Star-buster case.

This summary action of the president has given rise to rumors, as to what may be expected in the same line in future. It is believed that District Attorney McKim will be removed and George Blinn substituted. Strict secrecy is being observed by persons well informed and persons ridiculed with banter. Death is inevitable. Foraythie is nearly crazy and attempted suicide.

LABOR AND WAGES.

More Mills Closing in the States—Reduction of Wages.

PITTSBURG, Nov. 25.—The Edgar Thomson steel company has decided to reduce wages on January 1st.

ALLENTOWN, Pa., Nov. 25.—Owing to depression in the iron trade work has ceased in the rolling departments of the Allentown rolling mill. Two hundred men are out of work.

PHILADELPHIA, Pa., Nov. 25.—The Lackawanna iron and coal company announce suspension on December 1st. It is thought the suspension will be only temporary. The reduction of wages will be fifteen per cent instead of ten.

CANADIAN ITEMS.

Governor Cauchon is going to Europe to recruit his health.

The Pacific railway officials have been instructed to take no part in the Manitoba elections.

The store of Barber Bros. of Streetville was entered by burglars on Friday night. The safe was blown open and \$300 in cash, besides other valuable articles from the store, were carried off.

Maggie Robinson, who worked in a button factory at Berlin, went to a hearing in London in which a number of other girls also boarded, and taking values filled them with the other girls' best clothes and jewelry. She then skipped.

The military authorities intend to open at Quebec after the Christmas holidays, under the direction of the officers of the brigade staff, an infantry school for officers and others in the brigade staff, an infantry school for officers and others in the brigade staff, an infantry school for officers and others in the brigade staff.

COLLISION ON THE INTERCOLONIAL.

Three Railway Men Killed—Narrow Escape of a Toronto Man.

NEWCASTLE, N. B., Nov. 25.—A terrible collision occurred on the Intercolonial railway yesterday, a few miles north of this town, by which three men were killed and a number of others injured. The express going south did not make steam and the train was brought to a stop in consequence. Although torpedoes were at once placed north and south of the train to avoid accident, a working train coming up from the rear at full speed failed to hear them and, running tender first, without seeing the signal lamps, ran into the rear of the express, causing it to stop. The express was managed by Mr. D'Oyly Carte. The train was stopped by a signalman. The train was stopped by a signalman. The train was stopped by a signalman.

Further particulars. The train was stopped by a signalman. The train was stopped by a signalman. The train was stopped by a signalman.

MARINE DISASTER.

Six Schooners Wrecked—Loss of Life—A Canadian Captain Drowned.

CHICAGO, Nov. 26.—The schooner Collingwood was lost on Lake Michigan in Thursday's hurricane. She had a crew of eight men including Captain Willets of Kingston, Ont., part owner, and was loaded with telegraph poles bound for St. Helen's to Chicago. When about fifteen miles north of Milwaukee and twenty miles from shore the vessel went to pieces and the captain and four men were lost. The remainder of the crew were picked up late Friday night off Grand Haven by the freighter Wisconsin. They had been over thirty hours on a raft twelve feet square, at the mercy of wind and waves, and underwent terrible suffering from cold, hunger and exposure. They were picked up more dead than alive. They state that late on Thursday afternoon their vessel became waterlogged, and as the gale increased got entirely unmanageable, when a sudden billow striking her sent her over on her side and shortly after her decks burst and she went to pieces.

The Collingwood was regarded as being wrecked last night. She was uninsured, valued at \$3000 and owned by J. M. LUDWIGSON, Mich., No. 26.—Four schooners were wrecked near Big Point Salt, Thursday. Of the Freeman Most, lumber laden, the mate was lost overboard; rest of crew saved. The Ellipse crew, excepting one man, was rescued. The Frank Steele and the Mabel (master Magee) are on the beach further north and cannot be reached.

ROCHESTER, Nov. 26.—The schooner Enterprise, Oswego, went ashore of West Point on the lake shore yesterday and is a total wreck; loss \$35,000. No lives lost.

A Good Banking Law.

WASHINGTON, Nov. 25.—The report of the comptroller of currency shows that only three national banks were placed in the hands of receivers during the year ending November 1st. The Mechanics national bank, Newark, N. J., the Pacific national bank, Boston, and the First national bank, Buffalo. The affairs of ten national banks have been finally closed within the year. Since the commencement of the national banking system eighty-seven banks were placed in the hands of receivers and four hundred and twenty were liquidated. Death is inevitable. Foraythie is nearly crazy and attempted suicide.

THE BOND STREET PULPIT.

A SERIES OF LESSONS TO YOUNG LADIES BY DR. WILD.

A Review of Woman's Position in the Past, and a Description of her Present Position on Dress, Temperance, Virtue and Other Topics. The Women's Mission—No. 144.

Despite the wintry weather last evening the crowd that surged into the Bond street church when the outer doors were open was even larger than that of any Sunday evening for weeks past. About half of the congregation were composed of ladies, to whom the doctor addressed his remarks.

The sermon was chosen from the 30th verse of the 31st chap. of Proverbs, and reads as follows: Favor is deceitful and beauty is vain; but a woman that feareth the Lord she shall be praised.

In commencing his sermon the doctor corrected the idea generally held that Eve had been forbidden to eat of the forbidden fruit in Eden. She was never forbidden to eat of the fruit. Adam was the only person that was forbidden to eat of it. Eve had a perfect right to eat of it. The error of thinking Eve to blame has been fatal to woman's proper position all along the ages. Go back to the Hebrew nation and you will find that women had not her proper position. Not until God himself gave instructions was woman acknowledged as she should be.

Woman is the queen of the world; woman is the paradise part of it. The Hebrew writers outside of the bible were wonderfully deficient concerning the status of woman. One said she was destitute of their synagogues: "Blessed be thou, oh Lord God, king of the universe, for not having made a woman a world."

THE RIBBON AND THE AGONIST.

Goldwin Smith on their Selections—How the Ribbon and the Agonist are Understood—An Agnostic's Hope.

Goldwin Smith in the November Nineteenth Century.

But Dr. Adler makes me more heterodox than I am when he says that I have called the scriptures of the old testament a mere boulder of the past. I applied that name to scriptures, for which, I must own, I feel little reverence, particularly when it assumes the aspect of a commercial ring. The law of Moses and the old testament generally are primal, oriental, tribal, Semitic, Hebrew; were they not, the progress of humanity, instead of an education would have been a miracle. The unorthodox and indiscriminate use of them in christian churches is undermining religion, notably in the United States, and ought to be at once discontinued.

Such a monument of tribal feeling as the book of Esther ought to be relegated to the student of history or fiction, as the case may be. This I affirm. But I know how much means to pursue monolatry the tribal God of the Hebrews was, or at least became, than the tribal gods of other nations. I know the comparative spirituality of the Hebrew religion, and how, through the higher minds of the nation, it was gradually elevated into the school and matrix of christianity. I know, too, what a step in the progress of civilization, in spite of some questionable features, was in its own day the Mosaic law.

The agnostic who has been ever out of christianity, though he may have cast off supernaturalism and laid aside the christian's hope of a personal immortality, is still in a certain sense a spiritualist, because he idealizes; he devotes himself to the service, though not of God in the church, yet of humanity; he by no means views political and social questions with unconcern; his aim is not personal enjoyment and display, but the happiness found in promoting the welfare of the race; he is not plutocrat, but the reverse; and if not communist, holds and acts upon the belief that property is a trust. Yet the agnostic supposes judgment of hostility to the christian, because he most erroneously fancies that he owes it to his religion; the agnostic because there is no God; the evangelist, because the Jews are his chosen people.

THE TRANSMIT OF VENUS.
Lecture by Mr. Carmichael before the Canadian Association.

There was a larger attendance than usual at the weekly meeting of the Canadian institute on Saturday evening, owing probably to the fact that Mr. Carmichael, superintendent of the Toronto observatory, was to read a paper on the transit of Venus.

Mr. Carmichael said that through a pressure of business he had been unable to prepare a written paper, but he had made a few notes on which he would briefly speak. In the first place he explained what was meant by the transit of Venus, using drawings and plan to illustrate his remarks. Although Venus often passes between the earth and sun, it is only at stated periods that it may be seen. Eight years ago there was a transit, but after the sixth of December next such will not occur again for 121 years, that is in 2004. The transits will continue at these intervals for many hundreds of years, but not always in the same direction.

He then went on to speak of the histories and results of the various transits of Venus which have been observed. The first of which was in 1639. The observations taken eight years ago were conducted under such varied circumstances that the results sought for did not prove satisfactory. Now, however, they are to be worked much more systematically, the telescope, darkened glass and other appliances being of the same order of things as those used by the British and Canadian observers being all manufactured at the same place in England. Through this means, as well as by having numerous observations taken in different parts of the world, it is hoped that the result will be satisfactory in every particular. The object of all this trouble is to find the exact distance of the sun and through it to calculate the lunar movements. On these our natural tables are constructed, and those now in use being very incorrect, it was intended to rectify them. He also explained the other methods which have been adopted to find the distance of the sun, and the transit of Venus is the only satisfactory one.

According to astronomical tables the transit will be seen in the province of Quebec between 9 a.m. and 10 a.m. on December 8th. He thought, however, it would be seen in the province of Quebec between 9 a.m. and 10 a.m. on December 8th. LOCAL NEWS PARAPHRASED.

Sir Charles and Lady Tupper are at the Rossin house.

Vital statistics for last week: Births 43, marriages 6, deaths 26.

The students are agitating for a 'student's night' at the theatres.

The first consignment of poultry for this season for the English market left here yesterday morning.

At a mart on Saturday, No. 470 Yonge street, with lot 60x126 feet, was sold to John E. Mitchell for \$100,000.

There is a general exodus of the sold doves who were run in on Thursday night and bailed out by male female friends.

Mr. T. C. Elwood, superintendent of the Canada Mutual telegraph company, returned to town yesterday from New York.

Mr. Quinn's store on York street was again burglarized, a number of flannel shirts and silk handkerchiefs being stolen this time.

On Saturday morning two cars loaded with grain and two with fresh meat jumped the track near Georgetown, causing considerable delay to traffic.

It is said that a number of the girls arrested at the houses of ill-fame on Thursday night left the city by the Grand Trunk railway on Saturday.

Three of the guests at Kate Fleming's succeeded in finding the collection on Thursday night by crawling through a trap door into the attic and closing it after them.

The following Canadian visitors have registered their names at the London office of the Canadian government, Ottawa.

The argument of the technical points raised in connection with the O'Rourke murder case was commenced at the O'Rourke hall on Saturday morning.

A decision on the milk being split.

On Saturday morning an engine coupled with a truck at the Union station which was a number of cars filled with milk. They were scattered about in different directions, the milk being split.

William Wilby, who was captured at a house of ill-fame on Thursday, did not appear at the police court. He does not appear on Tuesday a warrant will be issued for his arrest.

Miss Blow and Mrs. Hubbard of St. Louis have come to the city on the invitation of the public school board to deliver a course of lectures on the kindergarten system, the first of which will take place at the Normal school to-night.

Snow began to fall early yesterday morning and continued all day. In the evening quite a number of cutters were seen on the street, and between 12 and 1 o'clock a number of streets were closed to traffic as ploughs attached were brought out to clean the track.

Mr. James Robinson, for six years superintendent of the Bond street congregation, was presented yesterday afternoon with an engraved address and a purse as a farewell token of the esteem in which he is held. He leaves for Portage La Prairie next morning.

At the police court on Saturday a youth named W. A. Murray was charged with assaulting the pupils attending the Bathurst street night school and was fined \$2 and costs or ten days. It is a practice which is becoming too prevalent among the roughs of the city, the magistrate said he would imprison the next offender brought before him without the option of a fine.

The first Canadian mail steamer sailing under winter arrangements leaves Halifax for Liverpool on the 2nd December. Till the opening of navigation the mails for England will leave on Mondays. The Monday mail, via New York, closes here at 3 p. m.; Wednesday's mail, via Halifax, at 10 p. m.; and Thursday's mail, via New York, at 3 p. m.

At the regular meeting of Zetland lodge, A. F. & A. M., G. I. C., on Friday evening, the following were elected officers for the ensuing year: Bro. William Macdonald (barrier), W. M.; Bro. J. B. Bell, I. P. M.; Bro. J. B. Hay, senior warden; Bro. P. G. Routh, junior warden; Bro. James O'Hara, treasurer; Bro. John A. Carlaw, secretary; Bro. W. H. Menzies and J. E. Nixon, trustees; Bro. John H. Pritchard, Tyler.

Judgment was given on Saturday by Mr. Justice Proutford in the case of the Ontario city registrar, Geo. Shaw and Mr. Castle, declaring that Col. Shaw has no title to the land north of Trinity college known as the Shaw estate, that the notice on the books of the registrar claiming the title must be removed, and directing a reference to assess damages. The action is dismissed against the registrar. An appeal will be taken to the court of appeal.

Imprisoned for Debt.
From the St. Thomas Democrat.

Some time last spring a young man who had been in the grocery business in this city, failed and gave up everything to his creditors. But since the bankrupt law has passed away an old law has been revived, and the grocer was arrested on a capias and imprisoned. His friends gave bail for a large amount, and the young man took his wife and child to Minnesota, then to commence life over again.

An order having been made for his appearance the young man returned and went to jail, under conditions of great hardship, being forced to leave his wife and child in a strange country, almost if not entirely unprovided for. Yesterday for the first time in many years a young man was held in the jail and the hapless creditor was made to look after his affairs, like the miserable unfortunate described by Dickens. It is supposed that the wholesale firm who are detaining the young man hope to get some of his creditors to pay their claim so as to set him at liberty. It seems a mighty tough way of collecting debts.

W. T. Bray, Pharmacist, Wingham, Ont., writes that the sale of Barlock Blood Bitter has very largely increased in that locality, and adds that he hears very favorable opinions expressed regarding it, and, if time permitted, could send many names of benefited parties.

THE COUNTY COUNCIL.

Close of the Fall Session—Management of the New Poorhouse.

The fall session of the York county council was concluded on Saturday morning.

A communication was read from the county clerk of Peel stating that the council had granted \$85, in addition to the grant of \$70, for the repair of bridges on the boundary line in the township of Albion and King, and \$22 50 to meet expenses of repairs of bridges on the county line of the townships of Toronto, Gore and Vaughan.

On motion of Councillor Davies the building committee of the industrial home was constituted a standing committee on the home management for the balance of the year, with power to make all necessary purchases for the home; and it was decided that the by-law, with reference to the payment, etc. of the manager, and the rules and regulations of the industrial home, instead of being placed in the minutes of the council.

The standing committee on roads and bridges made the following report which was adopted in committee of the whole: They had a communication before them from the reeve of Scarborough, asking for confirmation of by-law for the sale and opening of a certain street and the committee recommended, accordingly, the confirmation of by-law No. 406 passed June 21, 1922.

A communication from the clerk of Georgeina asking for the confirmation of a by-law closing of a certain street and opening up another in lieu thereof in the village of Endora's request, confirmation of by-law No. 382, 1922, for this purpose.

A communication from the reeve of Richmond Hill, asking for the confirmation of a by-law for the purchase and opening up of certain streets, had been considered; the committee recommended, accordingly, the confirmation of by-law No. 90, passed for this purpose. A communication from the reeve of York township, asking for the rebuilding of the bridge over the Humber at Bonaventure mill, had been considered; the committee could not recommend the grant because of insufficient information. A petition praying for the erection of a bridge over the Humber on the Scotlar road had been considered; the committee could not recommend the prayer of said petition, but would recommend an additional grant of \$190 to assist the local municipalities in the erection of said bridge on condition that the council be not held liable. A communication from Charles Hamby, commissioner appointed to act with a commission from the county for the repair of bridges on the county line between Albion and King and over the Humber at Bonaventure mill, had been considered, and then submitted a resolution to the effect that \$70 be apportioned on the 1000 feet of bridge.

The council went into committee of the whole to consider the report of the standing committee on finance. It was decided to increase the salary of the high constable by \$100; but it now appears that through some technicality the constable will not get his increase.

Mr. Sheppard moved that the solicitor be instructed to wait on the minister of railways with a view to obtaining immediate action for the construction of a bridge over the Ontario and Quebec railway, and that the solicitor be accompanied by the reeve of the township of York.

After some discussion, from which it appeared that there is no county solicitor, the motion was lost.

The council then adjourned.

Daughters, Wives, Mothers, look to your health. The most painful and weakening diseases from which you suffer, disappearing of a cure, can be remedied by that unfailing regulator and purifying tonic, Burdock Blood Bitters. Ask your druggist for proof.

THE SPORTING WORLD.

DISTINGUISHED SPORTS IN TOWN.

Peter Dury of New York, along with Rowell the pedestrian, in company with Edward Hanlan and Mr. Hillier of Toronto called on The World last night. They came in from New York on the afternoon train and are staying at Mr. Hanlan's short visit before starting for England. They will be shown round the town to-day and tomorrow and are expected to leave for England on Wednesday.

Lee will now any man in England a race of four miles or over the championship course from Putney aqueduct to Mortlake, which is four miles 440 yards, for from \$300 to \$1000 (£100 to £200) a side. He will row at any time mutually agreed upon between January and April. Rowell is going home to England for a rest but expects to return to America.

A Wise Maxim.

"A stitch in time saves nine," not only in making garments, but also in mending health. If Hagyard's Pectoral Balm were used in the earlier stages of Colds and Coughs many a "stitch in the side" and many a case of long lungs might be avoided and neglected rapidly develops into irreparable consumption.

Military News.

The militia general orders issued on Saturday state that three schools, for the practical instruction of officers who have been provisionally appointed, will be opened on the 3rd of January next. The one for Ontario to be in London with Lt.-Col. Jackson, D. A. G., as commandant, and Lt.-Col. Conlon, B. M., as adjutant. Fifty officers will be admitted to each school, but should there be more than that, non-commissioned officers may be admitted to make up the number.

The attention of commanding officers is called to para. 77 R. & D. 1879, with reference to the medical inspection of non-commissioned officers and men who purpose joining the Royal school of gunnery, as a man was recently passed as fit for service who was quite blind of his right eye.

2nd Lieutenant Robert Goodall Trotter, V. B., has been appointed a lieutenant in the Royal Grenadiers.

Kidney Disease.

Pain, irritation, retention, incontinence, deposits, gravel, etc., cured by "Bachurqua," \$1.

Cataract—A New Treatment.

From the Weekly (Toronto) Mail, Aug. 22.

Perhaps the most extraordinary success that has been achieved in modern medicine has been attained by the Dixon treatment for cataract. Out of two thousand patients treated during the past two months fully ninety per cent have been cured of this stubborn malady. This is none the less startling when it is remembered that not five per cent of patients presenting themselves to the regular oculist are cured. The cure is a cure in fact, and not a mere palliative. The cure is a cure in fact, and not a mere palliative. The cure is a cure in fact, and not a mere palliative.

ANNUAL SERMON BY ST. ANDREW'S SOCIETY.

Dr. King, in an Excellent Sermon, Shows Why Intelligence, Strength and Wealth are the Basis of the Kingdom of God.

The annual sermon of the St. Andrew's society was delivered last night in St. James' square presbyterian church by Rev. Dr. King. Although the evening was unfortunately stormy and disagreeable there was a very good attendance. He based his discourse on the 4th psalm, 11-14 verse: "Let Mount Zion rejoice, let the daughters of Judah be glad, because of the judgment which shall be given for the promotion of peace: for this God is our God for ever and ever, he will be our guide even unto death."

He said that on the last occasion he had spoken to them he had called their attention to the three most prominent features of the Scotch life, intelligence, strength and unadornedness. Assuming these to be the prevailing features of the Scotch people, he proposed to answer to the question, "Why are they found in whatever part of the world the Scots have settled, and it is a subject which will not only be of interest to the society, but to presbyterians generally?"

In the first of all, he said, something was due to the race. There had been many additions from other lands to the Scotch people, but he was of the opinion that the Scotch people took a character peculiar to themselves. Compare for instance the Scotch people with the English people. The Scotch people are more intelligent, more energetic and more industrious than the English people. The Scotch people are more intelligent, more energetic and more industrious than the English people.

There is a more important factor than either race, or land, that is, its system of religious truth, which it was led to adopt at the time of the reformation, namely, Calvinism. This is a more important factor than either race, or land, that is, its system of religious truth, which it was led to adopt at the time of the reformation, namely, Calvinism.

Fourthly, much is due to the religious history of the long, bitter and severe struggles which it had with English paganism. This did a great deal to unite the masses of the people and strengthen the moral fibre of the nation. It was a more important factor than either race, or land, that is, its system of religious truth, which it was led to adopt at the time of the reformation, namely, Calvinism.

But he asked "what possible use can be made of these references?" It is impossible to retain them in their purity. The opening up of telegraph lines and railways are doing much to obliterate them. In Canada the same influences are brought to bear against them, and there is also a strong tendency to prevent the study of the scriptures in the schools and among other evils. Though we may not study the bible in the schools we can study it at home. The bible is the best of all books. It is the best of all books. It is the best of all books.

The sermon which was well and carefully prepared was listened to attentively throughout. A collection was taken up at the close for the charitable funds of the society.

SUNDAY SCHOOLS.

James Beatty, M. P., Tells What He Knows About Them.

Anniversary services were held in western congregational church yesterday. In the afternoon at the Sunday school anniversary there was a large attendance of children, and a goodly representation of the friends and members of the congregation.

The children, in a hearty manner, sang the hymns which had been specially arranged for the occasion by the superintendent, Mr. Hayes.

James Beatty, M. P., delivered the first address. He spoke of the relation of the church and parents to the Sunday school. The Sunday school, he said, is an important branch of christian work. Though we do not read of the apostles having any Sunday schools, there is great need of them in the present day, for there are many parents who do not teach their children the bible and the principal aim of the Sunday school should be to get these children together and to teach them the bible. If their parents would come to the Sunday school the children would behave better. Some parents make the excuse that they are too busy to attend, but they should be made to see that their children are not being neglected. The Sunday school is a place where the children can be taught the bible and the principles of christianity. It is a place where the children can be taught the bible and the principles of christianity.

Mr. S. H. Blake followed in an eloquent address in which he believed that past ages ought to be selected to which no denomination object, and these to be committed to memory by the pupils.
