TORONTO, MAY 27TH, 1882.

PROSPECTS OF THE SEASON.

Let us take a rapid glance at the prospects for the coming season. We have been promised visits from two elevens at a distance; one from the Western Union League sometime during July, the other from Winnipeg in the same month. The Toronto Cricket Club should note this fact, and make an honest endeavour to return the visit of the three American Clubs who honoured them with their presence two years ago. We understand that it is the intention of the Club to take an Eastern tour during the season, which we hope will be carried out and attended with success. Judging from the play of the Club on the Queen's Birthday, we could hardly help anticipating the good results likely to flow from a judicious selection from the old and young material, which latter is of the best quality. Capt. Burns, late of St. Catharines, will prove a valuable addition to the Club, and his good all-round play will be of the utmost service during the season. Sproule, Totten and Brock showed their old form, while Morrison played wonderfully well and in capital style. Daly and Paton are colts of unusual promise; with a little careful practice Foy and Helmcken will show bowling not to be despised. Trinity College shows signs of falling off from its usual high standard; the 'Varsity has an eleven of great strength; Upper Canada College does not possess a very strong eleven this year, although, no doubt, a little steady and diligent practice may tell a different tale. The annual match between Upper Canada and Trinity College School will take place at Port Hope on the 7th of June, and public opinion is decidedly in favour of the School, which has a

team of first-rate quality, Macdonell and Allan having already proved themselves good young bowlers. Hamilton will doubtless keep up its reputation, as no change has yet been made in its ranks, except that Ferrie will leave for England at the end of next month, and be away for the rest of the season. Whitby has been considerably weakened by the departure from its midst of Messrs. Matheson to Winnipeg; A. Laing to Detroit; Palmer to Toronto, and Messrs. C. and S. Ray, probably to Manitoba. Still the learned judge who presides over the Club's destiny is confident and very sanguine of the Club making a good show; it has our best wishes. The champions of the Association will dispute with all-comers their present title, and not feel inclined to let it go without a struggle. Cobourg is in doubt about its ground, but has good material; while the game seems to be in high favour in Kingston and Belleville, as well as in the North. Montreal has lost no players of any importance, but Ottawa is not so strong as of yore. Guelph is minus Clough and Tod, but flourishes notwithstanding. London has difficulty in securing a suitable ground; a big effort will be made in Woodstock to put the game on a firm footing, and Windsor claims to have an eleven capable of defeating anything, if only Dale be one of them. In conclusion, we have to remind all players that the International Match is to come off this year in the States, and it behoves all who possess a sufficient amount of pluck, energy and ambition, to pay such attention to their all-round play as will enable them to find a place on the team to be selected to uphold the honour of our Dominion.

EDITORIAL NOTES.

The match on the 24th, played by the Toronto club, Over v. Under Thirty, may be regarded as but a partial success. The reason that this civil contest was substituted for the annual Trinity match, is explained by the desire on the part of some to open the new ground with a grand splurge, and to acquaint the recreant members with the fact that the new crease was ready for use. This protection of the home cricketing section is to be lauded on general principles. 'Tis true that the Trinity team is not so strong this year as to argue in favour of their giving Toronto a good match, but if instead, Whitby, Guelph or some stronger club had been tackled, the reputation of the ground would have spread just as far and the match would have been much more interesting. There is the remotest possibility that the Over Thirties, who by the way, fathered this 24th match, were anxious to test the relative abilities of the younger men and themselves. The test left the lighter eleven on top, and though a little shaking would make a wholesome mixture, yet the tendency of the heavier to gravitate to the bottom should not be interfered with.

The game of cricket, for almost the first time in its history, is under suspicion; discredit has been cast upon its fair fame, and the sooner the matter is sifted and probed to the bottom, the better it will be for everybody concerned. It has been asserted—we trust without a particle of truth—that recently the betting fraternity of Australia got hold of two prominent members of Shaw's Eleven, and made propositions to them to do their best to lose a certain match for a given sum of money. Matters could not be settled without the assistance of a third English cricketer, who took upon himself to reveal the plot to his captain, and hence a grave cricket scandal was avoided. Of course it will be the duty of the captain to lay the facts of the case before the Marylebone Club directly he returns home, and for the sake of the reputation of the Old Country, all will hope that the matter as reported has been exaggerated. Over-coloured or not, the affair as it stands affords one more instance of the evil of introducing the betting-ring into the sacred enclosure of the cricket pavilion.

There is no law of contracts in the constitution of cricket save that which has tramed itself out of the courteous usage between clubs, yet we hold it as inviolable as any stamped by the seal of authority. And it is because of this unquestioned admission that cricket is so far elevated above those out-of-door sports whose contracts are so often necessarily attested to by witness to make binding. Why then did Trinity College, finding their challenge to Toronto unaccepted, after arranging by their own overtures a game with Parkdale for Wednesday last, throw them over for the Bankers? Did they forget that by so doing they violated the laws of courtesy and fraternity, and that by such a step they left a club in the lurch to arrange as best they could, at the last moment, a match for one of the very few public holidays of the cricketing season?

HE WHO READS MAY RUN.

In that most admirable work, "The Cricket Field," Mr. Pycroft makes the following computation of the loss in an innings of 100 runs from carelessness and bad judgment in running between wickets. Canadian clubs would do well to present a copy thereof to every member, and invite him to read it three times a day before meals, as the doctor says:

- 1. Singles lost from hits..... about 10
 - 2. Ones instead of twos, by not making the former run quickly and turning for a second, but overrunning ground and stopping..... " 4
 - 3. Runs that might have been stolen from balls dropped and slovenly handled..... " 3
 - 4. Loss from fieldsmen standing where they please, and covering more ground than they dare do with sharp runners..... " 5
 - 5. Loss from not having those misses which result from hurrying the field..... " 4
 - 6. Loss from bowlers not being ruffled, as they would be if feeling the runs should be stopped..... " 7
 - 7. Extra loss from byes not run (with the least "slobbering" the runners may cross—though some play cunning)..... " 6
 - 8. From having draws and slips stopped, which long-stop could not stop if nearer in..... " 5
 - 9. One man run out..... " 8
 - 10. Depressing influence of the same..... " 1
 - 11. From not having the only long-stop disgusted and hurried into missing everything..... " 1
 - 12. From not having the adversary all wild by these combined annoyances..... " 1
- Total..... " 52

13. Loss from adversary playing better when going in against 100 than against 152..... about 1

" Now, though I have put down nothing for four sources of loss, not the less material because hard to calculate, the difference between good runners and bad seems to be above half the score. That many will believe me I can hardly expect; but, before any one contradicts, let him watch and reckon for himself, especially where the fielding is not first-rate."

The above requires no comment save, that among ourselves, the estimate on the first three counts might well be doubled, and most bowlers would probaly treble that on the sixth.

STOLEN RUNS.

LATELY a sad accident occurred in Edinburgh, by which a boy named Henry Wilson, about six years of age, was killed. The boy had been playing in the Queen's Park, at a short distance from some young men who were playing cricket, when one of them who was batting hit the ball hard, sending it in the direction of Wilson, whom it struck in the side, close to the heart. He was knocked down, and two volunteers who had witnessed the occurrence had him removed to the Royal infirmary, but he died before reaching it. The cricketers decamped as soon as they saw what had happened. It is supposed that death was almost instantaneous.—*Toronto Mail.*

Mr. W. Esson left for home last Tuesday, not to return until after midsummer. By his departure the College Cricket Club loses one of its most promising members. This is the second good player we have lost through sickness, Mr. T. Pardee also being unable to return.—*U. C. College Times.*

In Murdoch's massive score of 321 for New South Wales v. Victoria, on 10th February, 1882, were 38 fours, 9 threes, 41 twos and 60 singles.—*American Cricketer.*

PERSONAL.—Mr. D. O. R. Jones, of Trinity College, has sailed for England, where he will spend the summer.

Mr. W. W. VICKERS has been elected to the place on the Toronto Committee which Mr. Morrison resigned.

Mr. F. W. ARMSTRONG, of Orillia, is on a surveying expedition in the North-West.

Mr. A. A. Fitzgerald, for some years one of the most active members of the Guelph Club, has removed to London.

Mr. R. B. Ferrie, of Hamilton, will make a trip to England during the summer.

Mr. C. J. Logan having resolved on matrimony, will not be available for any matches played out of Port Hope this season.

CRICKET, AND HOW TO EXCEL IN IT.

BY DR. W. G. GRACE.

(Published by special permission.)

CHAPTER II.—BATTING.

Cricket, like most other games, must be played when you are young, if you wish to excel in it, and a great deal of practice, patience, and good temper is required to become anything like a first-class bat.

It is of the greatest importance for a young player to have proper instructions, and to be shown a good style of batting at the beginning of his cricket career. A correct style and position are half the battle; a bad style is easily learnt, and when once acquired is the most difficult thing in the world to lose.

What constitutes a good style? A very simple question apparently, but one that I find some hesitation in answering. The best advice I can give you is to watch some well-known player, and try to make out for yourself what are the essentials of his excellence. It is in directing your attention to the points you are to look for that I feel whatever value these notes may have will consist.

In the first place, then, play always with a straight bat. If you try to hit a well-pitched ball with a crooked bat, and do not quite time it, you will be bowled out for a certainty, whereas had you hit at it with a straight bat you would have saved your wicket. The reason of this is obvious. Get a friend to hold a bat upright in front of a wicket, and see for yourself what a small amount of the wicket is left exposed; then let him hold the bat across in the style of most bad players, and look at the difference! The first object of a batsman is to protect his wicket, and the straighter he holds the bat the greater is the protection he affords it.

There are many good players, I must admit, who do not adhere to this rule, but you will find that the great majority of the best bats do, and it is principally owing to it that their success is to be attributed. You will say, "How am I to play in this style? It makes me feel so stiff and so awkward!" That may be so, but if you always practise it, in a very short time you will find all your stiffness and awkwardness gone, and your power and readiness greater than they ever were.

You cannot lay down any strict rule as to style, as no two men play exactly alike, and the game would very soon be robbed of its glorious uncertainty if they did, but if you notice any good player take up his position on going to the wicket you will find that he firmly plants his right foot inside the crease so that it is not in front of the wicket. It makes very little difference what guard you take, but I must impress upon you the necessity of standing as near as you possibly can in the line of the wickets without getting your feet in front—in fact, your toes must be just clear of a line drawn from wicket to wicket.

The advantage you gain by standing thus well up to your wicket is that you are not nearly so likely to be bowled off your legs as you would be if you stood farther away. Many balls, again, are not pitched straight, and twist in. Now, if you do not play them with the bat, you may stop them with your legs, and save your wicket that way. Of course I presume you have umpires who know what they are about, as, if not, you are likely to be given out, and wrongfully so, if you stand well up. Even the other day I saw four men given out leg before wicket, and in each case the bowler was bowling round the wicket! You should all know how difficult it is to get any one l.b.w. when the bowler is doing this, and every one who has seen it tried should stretch two lines eight inches apart from where the bowler delivers the ball round the wicket to the opposite wicket, and also two lines from wicket to wicket, and then let somebody bowl in this way. You will see at once how difficult it is to get any one fairly leg before, because if the ball pitches on the wicket it must go well wide of it, unless it breaks back, which it very seldom does.

The positions in which to place the left leg are numerous. I prefer to place my left leg about twelve inches in front of and nearly at right angles to my other leg. The right foot should come just inside the crease, and, as a general rule, should not be shifted. Shift your left foot in hitting as much as you like, but be cautious of moving your right; your defence principally depends on your right foot's remaining stationary.

(To be continued.)

SHORT SLIPS.

TRINITY SCHOOL, of Port Hope, play Toronto on the 27th.

BRANTFORD has decided not to join the Association this year.

THE Guelph Club has 110 active members this season, besides a strong junior contingent.

THE Montreal (Juniors) played Bishop's College, Lennoxville, on the 24th, and were beaten by 95 runs.

THE name of His Excellency the Governor-General adorns the membership roll of the Newmarket Club.

MR. N. WILSON will give a gold medal to the bowler obtaining the best average for the Pickwick Club, of London, this season.

AN eleven, chosen from the Banks and Press of Hamilton, played the City on May 24th. The former eleven won by six runs.

BELLEVILLE being unable to support two clubs, the local club and Our Boys' Club, recently formed, have been amalgamated.

CRICKET is more popular in London than it has been for years. The leading wholesale houses last year formed an association, and play matches weekly.

A MATCH was played on the University lawn, on May 24th, between the Nelson Club, of Toronto, and Unionville, resulting in a victory for Unionville by 9 wickets.

DUFFERIN COLLEGE, London, defeated the Pickwick Club, of the same place, by 10 wickets. J. S. Gillean bowled 13 overs for 15 runs, and took 6 wickets.

TORONTO and Hamilton Sons of England met at the latter place on the 24th. Score: Hamilton, 45 and 22; Toronto, 35 and 76, with six wickets down.

EAST HAMILTON played the St. Catharines (Juniors) on May 24th at Hamilton. Score: East Hamilton, 43 and 59; St. Catharines, 16 and 16.

TRINITY COLLEGE has arranged the following matches: May 27th, University College, at Toronto, May 29th, Trinity College School, at Toronto, May 30th, Whithy, at Whithy, June 3rd, Brampton.

THE cricket match played at Galt on May 24th, between Galt and Brantford Cricket Clubs, was decided in favour of Galt by 10 runs on the first innings.

A SUPPLY of printed score sheets, for sending in reports of matches to this journal, may be obtained by sending 25c. to Mr. P. Perry, Port Hope.

AT a match at Campbellford on May 24th, between Stirling and Campbellford Clubs, Campbellford won with the following score. Campbellford, 58 and 77; Stirling, 63 and 68.

A MATCH was played on Saturday last between the Nelson Cricket Club and Residents of University College. The Residents won with 110 to 23. Dickie 20, Keefer 28, Wright 15, and Creasor 17, wore the Home eleven's scores. For Nelson, Cockin got 10.

A MATCH was played on May 24th between the Northern and North-Western Railway Club and the Parkdale Club, on the new grounds of the former on College Street, which resulted in a victory for Parkdale, leaving them ten wickets to spare.

THE first cricket match of the season was played at Bracebridge on May 24th, between Port Sydney and Bracebridge, and was decided on the first innings in favour of the latter. Score: Bracebridge, 122, and 98 for 9 wickets; Port Sydney, 68.

A CLUB MATCH was played at Durham, on May 24th, between the bachelors and beredicts, resulting in favour of the bachelors by 7 wickets. D. McFarlane, on the bachelors' side, took 8 wickets in the first innings.

A CRICKET MATCH between the Union Club, of Berlin and Waterloo, and the New Hamburg Club, assisted by three Guelph players, was played at the latter place on May 24th. Result: New Hamburg, 51 and 52, Union Club, 60 and 25; the former winning by 18 runs.

COMMUNICATION.

To the Editor of the Canadian Cricket Field.

SIR,—The Guelph Club can now boast with satisfaction of having what it has long coveted, a first-class ground. A water supply, together with the influence of a 2,500 lb. roller, recently purchased, has converted a rather uncertain crease into a reliable wicket. Two local practice games have already been played, in which, considering the early season, very satisfactory form has been shown. Last Saturday the Agricultural College Club, a part of the Guelph Club, played the City, and good play was shown on both sides.

Matches are now being arranged with foreign clubs, and this season promises to be a more than usually busy one in Guelph.

The Winnipeg team is to spend a day here on their tour, and a trip westward as far as Chicago is being talked of as one of this year's features.

Guelph is a staunch supporter of the "Ontario Cricket Association," and learns with regret that some clubs propose withdrawing from it. The Association has done a great deal to bring about the enthusiasm which is now so general throughout Canada. We are certainly of opinion that the Association should be supported by every club, and that they should do all in their power to make it flourish, and assist the Executive Committee in making it a permanent and influential organization.

Yours, &c.,

A. W. MURTON,

Secy. G. C. C.

GUELPH, May 22nd, 1882.

ENGLAND.

THE Australians are practising at Mitcham.

DR. W. G. GRACE is confined to his house with mumps.

SELBY denies the scandal in connection with Shaw's team.

EACH member of Shaw's team received a gold medal from its promoters.

THE Marylebone Club is within five years of its centenary, having been started in 1787.

M. C. C. and ground secured a victory over Sussex by 5 wickets, on May 11th and 12th.

M. C. C. and ground were beaten by 22 colts of England, on the 8th and 9th inst., by 72 runs. Scores: Colts, 78 and 120; M.C.C. 40 and 86.

The first curiosity for 1882 occurred on May 6th. At a match in Staffordshire, a professional took 8 wickets in 8 consecutive balls, of which 5 were bowled, 2 caught, and 1 out l. b. w.

The membership of the Marylebone Club was 2,657 in 1881, as against 2,579 in the previous year. During last year the club engaged in 117 matches, of which fifty-five were won by the club, fifty-four were drawn, and eleven only lost.

The ground staff of Lord's will consist of the following professionals for 1882: T. Hearne, Farrands, West, Flanagan, Clayton, Rylott, F. Morley, F. Wild, Randon, W. Mycroft, G. G. Hearne, Sherwin, Wheeler, T. Mycroft, W. Hearn, Flowers, Price, Pilling, Barnes, Midwinter, O'Shaughnessy, W. Gunn, Scotton, Hay, Woolf, and Fothergill.

The Australians arrived in England on May 3rd. Macdonnell is the only member of the party who has been troubled with illness. He came on board suffering severely from sunstroke, which he contracted in a match at Melbourne just before embarkation. Now, however, he is quite recovered, and, like his companions, is in the best of health. It is understood that the Australians have arranged to play a match against Shaw's Eleven. They express themselves as anxious that this match should take place before their Oxford engagement. Charles Bannerman has not come over. It is thought that he intended to visit England and offer his services to Kent, for which county he has a right to play under the birth qualification.

The members of Shaw's team have reached England again in time to commence another year's cricket. They have played 25 matches: 7 against 11 and 18 against odds. Of those played with even sides, 3 were won, 2 lost and 2 drawn, and of those against odds 10 were won, 1 lost and 7 drawn; in all, 13 won, 3 lost, and 9 drawn. The following are the batting and bowling analyses of the teams:

Name.	No. of Innings.	Runs	Times not Run.	Mor. Innings.	Average.

TORONTO CLUB.

OVER v. UNDER THIRTY.

At 11 o'clock on May 24th this match was begun, the Seniors going in first, with 11 men opposed to 12. This was owing to the nonappearance of Forlong and Pearson. Sproule and Totten made a capital stand. The former was bowled off his pad; the latter was caught in the slips. Brock fell over his wicket, and Captain Burns, after playing freely and prettily, was bowled with the best ball of the innings. The rest, save Stark, who played very carefully, showed want of practice. The fielding of the Juniors was very good, although three catches were dropped, and a few refused behind the wickets. The bowling was well on the wicket. For the Juniors, Morrison played with great freedom for the highest score, which he made in an incredibly short time, with a chance to Townsend. Daly, Brown and Lindsey carefully contributed useful scores. Capt. Burns did the most and best bowling. Captain Burns, Daly and Paton, are new to Toronto, and are decided acquisitions to the club. Score:

OVER 30.

1st Innings.

H. Totten, c Daly, b Foy	9

TRINITY COLLEGE v. AURORA.

Well satisfied with their day's work at Newmarket, the Trinity men spent the night at Aurora previous to engaging the club of that place. Their defeat in the encounter may be attributed rather to the collapse of the batting than to the strength of the enemy's bowling, good as it was; and young players should remember that it requires the endurance of an old hand to dance all night and play all day even for two successive matches. On the winning side H. C. Scadding (of Orillia) hit well for the top score, and the captain, after being missed on a ball skied to Campbell at long-stop, played a good innings. Their bowling was well kept up by Stevenson, and in the first innings by Tracy, Trinity felt the loss in all departments of the game of D. Howard, whose professional engagements necessitated his return to the city. J. S. Howard was unfortunately out l.b.w. both times. The wicket here, as at Newmarket, was excellent, but the long-stopping ground rather queer, and Martin deserves great credit for his good work for Trinity in that region. Score:

TRINITY COLLEGE v. NEWMARKET.

This match took place at Newmarket on Friday last, resulting in a draw rather in favour of the University. Hague's 39 in the visitors' first innings were obtained in capital form; Martin played with great care and steadiness, and the batting of Godfrey and the brothers Howard was also very good. J. S. Howard, moreover, bowled with great success. For the home club Atkinson showed good form in his 19, and Moncreiff hit freely, being "not out" in each innings. Of their bowlers, McCormack kept up his end remarkably well, and his left-handed deliveries were characterized by great steadiness and precision, while Boddy came off in the second innings. The fielding generally was good. Following is the score:

NEWMARKET.

BANKS v. TRINITY COLLEGE.

This, formerly an annual match, but discontinued for the past four years, was reinstated in possession of the Trinity ground for Her Majesty's birthday, and in spite of the unfavourable of the weather, was witnessed by a goodly company of spectators, including many ladies. The smallness of the scores was due in a great

measure to the condition of the ground, though this was no sufficient reason for the utter collapse of the Trinity batting. Although, as will be seen by the analysis, the bowling of Dudley and Conolly was very effective, the home team need scarcely have presented but one double figure in their two innings. Gamble, Redmond, Bethune, and Dudley batted well for the winners, whose six-wicket victory was very creditable. Campbell, for the losing side, went in when three wickets had fallen for 0 runs, and was last out. He stole many sharp runs, but his eagerness proved fatal to both himself and his captain. The Trinity bowlers were all well on the spot, though none proved very successful. D. Howard was an absentee in the first innings, and Brent, his substitute in the field, distinguished himself by making four catches. Most of the holding was very indifferent, but the 8 byes recorded against Trinity were due mainly to the misfortunes of the long stop, who received several nasty blows. The throwing in on the same side was noticeably bad. The wicket was good though slow, but the long grass in the outfielding spoiled many a run, and was anything but creditable to the executive. The following is the score:
