NOTES AND COMMENTS

DEATH BY SULPHUR.

At the meeting of the Toronto Humane Society, October 17th, a letter was read from a gentleman in Chicago, advocating death by sulphur fumes for dogs impounded by the city authorities and not released by their owners.

ONE AND A HALF MINUTES.

It was stated that death in this manner was comparatively painless and that life ceased in one and a half minutes.

THIS SUBJECT

has received considerable consideration in Toronto of late and the City Commissioner states he is willing to do anything in his power to alleviate the sufferings of the poor brutes.

IF ANY OF OUR CORRESPONDENTS have had practical experience in this matter, we would be glad to know of it and would undertake to see that any information afforded would be placed where it would receive consideration from the proper authorities.

WINTER DOG SHOW?

An esteemed correspondent writes us "As we have had three fairly successful dog shows in Ontario at a season when dogs are not in the best of condition, how would it be for Quebec to give us a winter show, say in Montreal at Xmas time when holidays and cheap rates are plentiful; it would no doubt suit the majority."

THE ABOVE QUESTION is worthy of consideration by our Montreal friends, who have not the pleasure of a fall exhibition. How could it be worked with the winter show of the feather branch of the fancy? a notice of which show will be found in its proper place.

A GUARANTEE FUND.

A gentleman from Montreal recently informed us that when the bench show question was mooted some months ago, he personally, in a short time, was promised a guarantee of several hundred dollars, we forget the exact amount but think it was over five hundred dollars. If one man could do this in so short a time the difficulty of want of funds does not seem to be insurmountable.

THE EXPENSE

need not be very great if the local Cynologists would undertake the greater part of the work.

THE BULL-DOG,

Hodge, K.C.S. B25, 382 has been purchased by Mr. H. P. McKean, Jun., Germantown Pa., from Mr. Chas. Kemp, London, England. Hodge is a son of Champion British Monarch and Rosella, and has won several prizes.

MR. ALFRED GEDDES, OTTAWA,

has purchased from Mr. J. F. Campbell, Montreal, the well known Manchester Terrier, Squaw, winner of five prizes including 1st at the late Ottawa bench show.

SCHIPPERKES AT THE PALACE

this year, will have three classes, and

the Shipperke Club are offering three specials, one for best male, one for best female, and one for best couple. They must be looking up in England.

BARKLETS.

There can now no longer be a doubt as to the ability of Canada to successfully hold dog shows even when two run concurrently. London had 245 entries Ottawa 154 and Toronto 313, making a total of 712 dogs entered.

* * *

Of course quite a number of these were entered at two of the three shows, still the number is quite a respectable one in a country so young in the fancy as is ours.

* * *

London, I regret to say, was a financial failure: but Ottawa and Toronto were exactly the opposite, and from this out we may feel assured that every autumn will see dog shows in Canada.

* * *

Your special reporter at the Ottawa and Toronto Shows raises the point of what the managing committee men of shows should or should not do in connection with their fixtures. My idea of their duties is that they should *superintend* the general working of the affair, entertain exhibitors and visitors, make the show pleasant for them in short, and decide upon mooted questions. This if they have a competent *crew*, i. e. attendants. But if they have *not* got suitable men I think it is their bounden duty to take off their coats and do the needed work themselves.

* * *

Disgruntled persons continually raise,

the cry against members of the Executive entering dogs for competition at shows held under their management. Now this is all very well, but as these gentlemen are the most active doggy men of their section, as a rule, and take a corresponding interest in keeping the best of dogs, it would be distinctly hard upon them to debar the dogs from competition, simply because their owners were unselfish enough to undertake the immense labour of organizing and conducting a Dog Show.

* * *

They win a large share of the prizes frequently 'tis true, but then they are the men who have the best dogs and the best should win. Because *some* judges judge the man's end of the string it does not follow that *all* do.

* * *

Unfortunately they (members of the executives) are between two fires. If they show and win there is a howl of "favoritism," while should they enter for exhibition only the common talk will be that So & So, & So & So are "afraid to show their dogs."

* * *

You must allow a judge a certain amount of rope, and if you start out with the idea that every one is a rogue, why, you will be an unhappy man for life, that is all.

* * *

An event that should be of especial interest to Torontonians has just occurred, namely the death of the celebrated St. Bernard, Champion Otho. Otho was born at the Toronto Railway Station, on the arrival of his dam, Lady Abbess, from England. The sole survivors were Otho and Hermit, both Champions afterwards, and now both dead. Their breeder was Mr. F. W. Rothera then of Simcoe, Ont., but I believe he has since returned to England whence he came.

* * *

A Torontonian recently sent a St. Bernard bitch over to England to be bred to Mr. T. H. Greene's Champion

St. Bedivere, There's enterprise for you.

* * *

St. Bernards! St. Bernards! Still they come and Englands' best at that. Mr. J. C. Anderson of Tennessee has just imported the celebrated son of Plinlimon, Prince Regent at a cost of 750 guineas. Baron Truro too has been sold to an American, but to whom has not yet been announced.

* * *

The American Field publishes a superb engraving of Prince Regent by Mr. G. Muss Arnolt, the R. H. Moore of America. In point of fact Mr. Arnolt is an even better portrayer of dogs than Mr. Moore I think, for while he catches likenesses just as well he "finishes," his work with much greater care and effect. Mr. Arnolt does all the illustrations of the American Kennel Gazette now, and his portraits of the Fox Terrier Champion Valet, Bull Terrier, Champion Cairo, English Setter, Champion Cora of Wetheral, Clumber Spaniel Champion Johnny and Pointer Champion Bracket are masterpieces. Only "champions" are illustrated.

* * *

Like all specialists there is a sameness in Mr. R. H. Moore's work. You can recognize one of his dogs just as readily as you can Du Mauriers society skits, Sturgess, or Carbaulds' horses, the Temple brothers fishing and shooting scenes, Dadd's Athletic pictures or Ludlows poultry. Their individualities are stamped upon their works.

* * *

Mr. James Watson, well-known to Torontonians, is now editing a new paper called "The Fancier's Journal." It is a good paper, but that goes without saying, for Mr. Watson has shown by his management of other publications that he is ably fitted for the post, of editing the kennel department of a journal. The Journal is newsy, well printed, well illustrated and nicely gotten up generally. I trust it will meet with the success that is its due.

The Brooklyn Kennel Club was refused admission into the A. K. C. at the last meeting and there is tribulation in Brooklyn's camp. While both sides have a good deal to say in the matter, it is clear to me that the Brooklyn organization was not a desirable one to encourage.

* * *

The Elmira (N. Y.) Show, for some inexplicable reason, was given the go-bye by exhibitors. The prize list was liberal, judges popular and the Superintendent, "Uncle Dick," Fellows, does not need an introduction to doggy men. Still there were few dogs entered, less than 150 in fact.

* * *

The lions share of the prizes went to the Hornell-Harmony Kennel of Covert and Hornellsville N. Y. They made a clean sweep in Greyhounds and Spaniels and almost the same in Beagles, as well as taking several prizes in other classes. Mr. Martin Barney sent the Pointers, Tom Pinch and Lady Pinch all the way from California and deservedly scored two firsts.

GROWLER.

CANADIAN KENNEL CLUB.

SECRETARY'S REPORT.

To the President and the members of the Canadian Kennel Club of Canada.

Gentlemen:—

I beg to submit the first annual report of the Canadian Kennel Club.

As most of the gentlemen here assembled are aware, the club was organized last September, during the last London Bench Show, and it was not until the 7th of December following that the first meeting of the executive committee was held, the following gentlemen being present—R. Gibson Pres. Delaware, C. M. Nelles Brantford, Dr. J. S. Niven, F. C. Wheeler, T. G. Davey and C. A. Stone London.

At the meeting I was appointed Corresponding Secretary to the club, and

Messrs. Gibson, Nelles, Niven and Davey were appointed a committee to adapt a code of rules for the government of Bench shows and Field trials in Canada, and submit them to the next meeting of the executive. A prospectus was also ordered to be got out and mailed to all those interested in dog affairs in Canada, soliciting their support to the club. A kennel register was ordered to be procured for the registration of dogs in Canada, and that all members be allowed to register their dogs free, and that non-members be charged 25c for each dog registered, and that the secretary have charge of same and make all entries.

A large number of names were proposed and accepted as members.

The next meeting of the executive committee was held on Feb. 1st the following gentlemen being present:— R. Gibson, Pres. Delaware, J. Lorne Campbell, Simcoe, F. C. Wheeler, Dr. J. S. Niven, T. G. Davey and C. A. Stone London.

The Sec'y reported that he had sent out some 300 prospectuses of the Club through Canada, but had not received the hearty support expected, owing, no doubt, to a good many not understanding the necessity of a club in Canada, in fact, had received letters to that effect, that the parties considered that the A. K. C. covered all the ground necessary. The draft of the code of rules was brought in and was accepted, and the sec'y requested to have them typed off, to be submitted to the A.K.C.

The following gentlemen were appointed with power to add as a deputation to wait on the A. K. C. at their next annual meeting in New York. R. McEwen, F. C. Wheeler and C. A. Stone, for the purpose of arranging a mutual recognition of both clubs in regard to Trials, registering, and disqualification and suspension.

It was requested the Pres. and Sec'y draft a petition to Parliament re duty on dogs.

In regard to the success of the deputation to New York it affords me great pleasure to state that we accomplished more than we anticipated as we were received in a most fair spirit, especially as when upon arriving in New York we learned that there was a letter there before us stating that the C. K. C. was a purely local affair, that is not the case, what we want is to have all Canada interested, but to enable us to do business it is necessary to have an executive committee that can be called together at a short notice, with as little expense as possible. So far members of the Executive committee have paid their own expenses.

But in face of all opposition we were granted everything we asked for. The arrangements made at that time by the C. K. C. with the A.K.C. are,—the A. K. C. agree to recognize all shows held by the C. K. C. in Canada, uphold all disqualifications and suspensions made by the C. K. C. and allow all Canadian dogs registered in the C. K. C. to compete at American shows held under the A. K. C. without compelling them to register there.

I might here state that at the executive committee of the A. K. C. held in July the following resolutions were adopted as a standard rule—that all shows held in Canada under the rules of the Canadian Kennel Club will upon application be recognized by the American Kennel Club provided such application is recommended by the Canadian Kennel Club.

In return the C. K. C. agree to recognize all shows held under the A.K.C. rules in the United States, uphold all disqualifications and suspensions made by the A. K. C. and allow no dogs to compete at shows in Canada held under the C. K. C. rules unless they are registered in the United States.

I think the C. K. C. has shown the breeders and owners of dogs in Canada the necessity of having a Canadian Club, and now, what have we done? Well,

we have accomplished first our arrangement with the A. K. C., secondly we have been instrumental in procuring an order in council whereas all dogs of a certified pedigree and for breeding purposes imported into Canada are brought in free instead of paying a duty of 20%.

Then we as a body, were the means of defeating the Dryden Bill, in the house of Parliament, which if it had passed, a man owning a kennel of dogs would have had to pay more taxes for his dogs than he did for his land, and in consequence we would not have had a kennel of dogs in Canada, as no man could afford to have kept more than one dog.

In the cases mentioned the A. K. C. would have been powerless to aid us, and had we no C. K. C., what could we have done as individuals? Why, comparatively speaking, nothing. But as a club we had every member of the C.K. C. working in their different localities. In fact some of the very parties who tried to cry down the club, were the first ones to squeal, and appeal to the C. K. C. to help them when they heard of the Dryden Bill

I am happy to report that the club is now in a flourishing condition, having in the neighborhood of some 70 members with some 300 dogs registered in the kennel register. A very good showing for about 8 months existence, and that in the face of all opposition, and I have no doubt by this time next year, we will have 500 members and 1500 dogs registered.

I think the C. K. C. can be congratulated upon its success, and would like to see every owner and breeder in this country work for the interest of our national organization, and drop any little petty jealousies that may crop up.

Respectfully submitted.

C. A. STONE, Secretary.

CANADIAN KENNEL CLUB.

FIELD TRIALS.

Have just returned from Chatham!

where I have been posting the grounds for the first annual field trials of the Canadian Kennel Club. The Club has secured one tract of land 2 miles square and it is without exception one of the best grounds that could possibly be obtained for that purpose being level and with very little heavy cover or large woods. In addition to the above grounds, the club has also two others in case there should be a scarcity of birds, at present there are any amount of birds, I raised myself in not going more than half a mile five large beves of Quail. Arrangements have been made with the Hotels, and the trials will be held about four miles from this town. John Davidson of Monroe, Mich. will judge. Spectators will be allowed to follow the handlers of the dogs, and judge about two hundred yards in the rear. Have just received word from the American Field that they have donated a handsome silver cup to be competed for at the trials for the best Setter or Pointer placed in the trials, the same to be won twice by the same owner or kennel before becoming the property of any one. Entries are coming in and everything looks promising. Entries close Nov. 1st, and must be made with C. A. Stone, London, Ont., the trials will commence on Monday, Nov. 11th.

C. A. STONE, Secy.

IN ANSWER TO "SCIENCE."

Editor Kennel Gazette:—

Can "Science" inform us what causes small birds to seek shelter in haste, when a hawk can be seen in the distance? Can he tell us how it is that a bee can travel miles from its home when naturalists tell us they can see but a few feet? and what guides Homing Antwerps in the long flights? If "Science" would study those questions he would notice that it is the same instructive power that governs the whole brute creation. As Dr. Diver truthfully said in Chicago, "Give to man a rule to action, and no

limit can be set to his progress; but a perfect rule he never can make, give him a seed and he can develop and multiply it forever but he never can make a "seed" man's nature demands a "law" and a "perfect law" his deathless energies will expand forever, deny him this law and he is the most helpless creature that God has made. Every other creature is a law unto himself and needs nothing higher, without a line, square, rule or plumb can construct its own habitations. Without a compass quadrant or chronometer each can traverse the seas or migrate from clime to clime. The sight of water fowls quieted the mutinous spirit of Columbus' sailors, says a historian, some appeared to be weary and settled on the masts of his ships, here they remained all night but in the morning they departed and flew to the west, when the most lively joy filled the hearts of the seamen. The birds followed their own instincts, Columbus followed his compass and without it he would not again have seen his native country." In the foregoing, reason and instinct is set forth. A hunter uses dogs with an instinctive smell to enable him to hunt game, as instinct can be relied upon before reason. As for a Greyhound running cunning it does not show reason, but it shows it has inherited the smelling instinct of its ancestors, which any thoughtful breeder will notice that his dog throw back in other ways as well. No doubt "Sciences" theory is correct, as for Greyhound's nose not being fast enough for his legs, but that does not prove that different varieties do not hunt as their instinct directs them. I once heard a gentleman say. "If some men when advanced in years knew as much as their mothers give them credit for when they were infants they would be able to undertake and fulfil any position in life." A similar expression might be applied to "Science" and his Greyhound. As for being twenty-five years behind the times we will leave that to better judges than "Science"

Yours Truly

SPORTSMAN.

AN OFFICIAL ORGAN FOR THE CANADIAN KENNEL CLUB.

Editor Kennel Gazette:—

I believe I voice the views of many breeders and members of the C.K.C. when I express the opinion that the time has come when this organization should have an official organ. The K. GAZETTE, during the short period of its existence, has so grown, become so popular and is altogether such a decided success that there seems to be no room to question its fitness to occupy the position that all the facts seem to warrant. There is no room for a second journal on dogs at this time in Canada, and the enterprise and excellence of the KENNEL GAZETTE in my opinion deserves all the support that the C. K. C. and the breeders and lovers of dogs can give it.

Yours truly,

A MEMBER OF C.K.C.

PLINLIMMON JR. A.K.C.S.B. 6864.

We give this month a good portrait of the St. Bernard dog Plinlimmon Jr., which won 1st and special at the recent Toronto Bench Show. Among other prizes he has won: first and special, Lewiston, Me.; first and two specials, New Bedford, Mass.; first and three specials, Lynn, Mass.; first, Albany, N.Y.; first, Worcester, Mass., first Toledo, Ohio.

Plinlimmon Jr. is one of the best St. Bernards in America, and is exceptionally bred his sire being as his name denotes, Champion Plinlimmon, by Pilgrim ex Bessie II. Pilgrim, by Leo ex Lottie, Bessy II, by Champion Bayard, ex Hebe. Leo, by Champion Hector, ex Myra. Lottie, by Champion Monastery, ex Champion Madchen. Champion Bayard, by Boscoe, ex Juno. Hebe, by Champion Hector, ex Sweep. Dam, Princess Beatrice, by Champion Valentine, ex Miss Meg. Champion Valentine, by Champion Bayard, ex Vesta. Miss Meg, by Champion Duke of Leeds, ex Lady

Nell. Champion Br yard, by Rosco, ex Juno. Vesta, by Champion Oscar, ex Lottie. Champion Duke of Leeds, by Mt. Sion II, ex Novice. Lady Nell; by Champion Bonivard, ex Champion Beatrice.

Plinlimmon Jr. was bred by Mr. Sidney W. Smith, of Leeds, England, and is now two years and five months old. He has a grand body and head, and good coat and color, his height is 34 inches and weight about 200 lbs. Feet and legs extra good, immense bone and grand frame. If bred to good bitches his progeny should be heard from in the future.

Editor Kennel Gazette:—

I have lately bought from Mr. A. Little, of London, Ont., his rough-coated St. Bernard dog, Nero, (Lupp Elba). Imported by him from England. I intend to breed him with my bitch, Sara.

Yours truly,

Guelph, Ont. R. S. WILLIAMSON.

GREYHOUND RACES.

At the firemen's annual games held here this afternoon there were two races for Greyhounds, one 230 yards flat race, the other 220 yards over two hurdles, in the former two started, H. Kirby's, Betsy, E. S. Andrew's, Russ, Betsy won. Four started in the hurdle race, T. C. Bate's, Edgewood, E. S. Andrew's, Russ, K. Graham's, Barney, and H. Kirby's, Betsy. Edgewood won.

ALFRED GEDDES.

Ottawa, Oct. 26th, 1889.

ANSWERS TO CORRESPONDENTS ON DISEASES, BREEDING, MANAGEMENT, ETC.

Correspondents are requested to make full use of this column. The answers to enquiries as to diseases will be answered by a well-known medical man and breeder. Please read the following rules carefully.

1. Give a concise, clear and exact statement of case, always stating age, sex, and breed.
2. Enclose 3 cents stamp for reply.
3. Report result, not necessarily for publication. *This is absolute.*
4. Acute cases requiring immediate treat-

ment to be answered by mail in the first instance, later through KENNEL GAZETTE for the benefit of our readers.

5. Write legibly and on one side of the paper only.

6. Answers to be to name in full, initials or *nom de plume*, the first preferred.

1. Cocker Spaniel bitch, age 16½ months, weight 15 lbs., taken sick with distemper about the last week in June 1889, treated for same for about three or four weeks and recovered and gained rapidly in flesh again, taken shortly after with twitching of muscles of left foreleg, and has continued so up to date, 18th September, with partial loss of power and lameness in this leg, general condition fairly good. Please advise.

2. Black Cocker Spaniel pup about 8 months old, weight 23 lbs., trouble mange and worms, has been fed carefully on diet consisting principally of oatmeal porridge, milk and bread, has been treated for several months with cocoanut oil, coal-oil and sweet oil equal parts applied every other day, with no improvement, otherwise seems healthy and strong. BREEDER.

1ST CASE. Your bitch has chorea or St. Vitus' dance, a very difficult disease to cure.

1. Feed liberally, giving nearly 50 per cent of meat, sometimes raw and sometimes cooked, occasionally give vegetables stewed up with broth.

2. Get some freshly made *Fowler's solution* from a reliable chemist and give as follows: 5 drops twice a day in a little water with food or just after eating, for 10 days. Then intermit for 3 days and commence afresh, this time increasing the dose 1 drop daily for 10 days more, and again stop as before. You may have to continue this treatment for 4 to 6 weeks. Should the eyes get red or the tongue very white discontinue the treatment till those symptoms disappear.

3. Keep bitch free from excitement but give regular exercise.

2ND CASE. You should state the symptoms of what you call "mange" as this is a very variable disease.

1. Rid dog of worms by giving 20 grains of powdered arca nut, and 2 grains of santonine after a fast of 18 hours. After the dose has been given two hours, give a dose of castor oil and note results. If you see worms, repeat treatment in three days. Your feeding may be the cause of the disease which is possibly not mange but eczema. Give dog plenty of exercise daily. You may give dog biscuits or soda biscuits and milk, but try feeding meat wholly for one week and in large part meat afterwards. Starchy food as porridge, especially in warm weather, favours the appearance of skin disease. Wash dog with strongest dog soap and await results. If not improved in 10 days report again. Report in any case.

QUE. Having often noticed answers regarding ailments and treatments of dogs, thought I might be favoured with a little advice through the columns of your Kennel Gazette regarding my hound. He is a well bred dog, age one year and three months. He seemed in good health until about a week ago, when, after a day's hunt he seemed completely broken down with eyes bloodshot and running, and seems to be almost in a constant shiver, appetite poor, and very dull, occasionally he makes a kind of a coughing noise as if there were something in his throat.

Could you kindly advise me as to treatment and oblige,
Chesley, Ont. C. M. ROLSTON.

ANS.—Afraid your dog has either bronchitis, pleurisy or pneumonia (inflammation of the lungs).

1. Give a good dose of castor oil.
2. Keep in a well-ventilated place on a good bed of clean straw—with no exposure to draughts—in a stall or box kennel.
3. Feed well with raw eggs beaten up with milk, strong beef-tea, etc., and if the dog refuses all food, pour some of the above down his throat from a bottle or spoon. If he gets very weak add to this a little brandy.
4. Apply a jacket made of cotton wool quilted to flannel, attached by tapes in front to legs and stitched tight behind and over back—and big enough to cover whole chest.
5. Give a teaspoonful of the following mixture every 3 or 4 hours during the day and evening in a little water:

Carbonate of Ammonium	3 drs.
Spirits of Ether nitric	1 oz.
Spirits of Ether chloric	1 oz.
Tinct. Digitalis	2½ drs.
Syrup of Orange Peel	1 oz.
Water to	6 oz.

QUE Received your letter including treatment for dogs. Have not tried the mange treatment as it would have no effect in this case, it wants something more powerful. Am using the Fowler's solution but up to the present can see no improvement. BREEDER.

ANS.—We would like to impress upon you that it is not possible to give a sound and scientific treatment without an exact statement of all the facts and symptoms. The term "Mange" covers a whole host of diseases.

Feed your dog as we advised. See that his bowels act regularly, and that he has a good bed of clean straw, and plenty of exercise.

Apply the ointment we prescribe below three (3) times a day, and at the end of a week wash off and apply afresh.

Give one compound cathartic pill every four days in the evening, till three have been taken. Continue the Fowler's solution for three weeks more. Report on this treatment in two week's time.

Ointment:—Flowers of sulphur, 1½ oz.; balsam of Peru, ½ oz.; fresh lard, 2 oz. Mix well and apply as directed above.

KENNEL REGISTER.

We make no charge for entries in this column, all we ask is that registration be made in the following form. Write plainly.

NAMES CLAIMED.

Kafa and Dub—by Corktown Cocker Kennels for black Cocker dogs whelped Sept. 21st 1889 by Lubo, A.K.R. 6659, out of Cleo C.K. R., 80.

Thora—Black Cocker bitch, same litter.
Prince—by C. H. Corbett, Kingston, for lemon and white English Setter dog whelped 8th August, 1889, by imported Rex out of Flo II, A.K.R 6977.

Princess Rose—Lemon and white bitch, same litter.

Lady Ethel—Lemon and white bitch same litter.

Countess Vic—by H. H. Curtis, Kingston, lemon and white bitch, same litter.

Bugle, Trumpet, Fife and Drum. By Elora Kennels, Elora, Ont., for black white and tan Fox Hound dogs, whelped Sept. 25th, 1889, by Sportsman out of Vixen. (Ring-Venus).

Bell.—For black white and tan bitch, same litter.

Dinah.—By Elora Kennels for black white and tan Fox-Hound bitch, whelped Nov. 1st 1888, by Sportsman out of Royal Fan.

Nick o' the woods.—By Elora Kennels, for blue ticked Fox-Hound dog, whelped Sept. 15th, 1889, by Sportsman out of Mursic.

VISITS.

Rosalind-Rex—Mr. C. H. Corbets, English Setter bitch Rosalind, 22nd Sept. to Imported Rex.

Lou-Obo Jr.—Alfred Geddes's Lou, to Rideau Kennels, Obo Jr. A.K.R. 1481, C.K.R. 153, Oct. 10th.

BRED.

Len—Obo Jr.—Alfred Geddes Cocker bitch Len to P. G. Keyes, Obo Jr. A. K. R. 1481, Oct. 9th, 1889.

WHELPS.

Devon Beauty—J. A. Spracklins, Woodstock, Field Spaniel Devon Beauty, April 4th 1889, 4 dogs, 3 bitches to Red Robin.

Frisky 1st—J. A. Spracklins Cocker, Frisky 1st April 3rd 1889, 3 bitches, 4 dogs, (all black) to Black Pete 2nd A.K.R. 5682.

Muggins—J. A. Spracklins Cocker Muggins May 7th 1889, 6 dogs 4 bitches to Black Pete 2nd A.K.R. 5682.

Friskey 2nd—J. A. Spracklins Cocker Friskey 2nd May 21 1889, 5 dogs, 2 bitches to Black Pete 2nd A.K.R. 5682.

Queen—J. A. Spracklins Field Spaniel Queen, June 2nd 1889, 2 dogs 4 bitches to Black Pete 2nd A.K.R. 5682.

Ruby 2nd—J. A. Spracklins Cocker Ruby 2nd June 24th, 1889, 6 dogs, 4 bitches to Black Pete 2nd A.K.R. 5682.
