# CANADA LUMBERMAN

## WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages } \$1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX.

TORONTO, CANADA, JULY 6 1903

No. 23

### CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y  
of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL  
22 GREAT ST. HELEN'S, LONDON, E. C.  
The Weekly Lumberman - Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman - A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

### WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED, TO BUY POSTS 3 1/2 FT AND UP.  
M. BRENNAN & SONS MFG CO., Hamilton, Ont.

WANTED—1" COMMON BIRCH; 3" FAN ARAC 14' and 16'. All kinds and grades of Hardwood. Address Box 37, care CANADA LUMBERMAN.

WANTED—TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

### MAPLE WANTED.

WE WILL BUY 1 1/2" AND 2" COMMON AND Better Hard Maple in any quantity. Write us. GOLD MEDAL FURNITURE MFG CO., Limited, Toronto.

### CURRENT TRADE CONDITIONS.

ONTARIO.

The market appears to be about stationary. Stocks are still moving actively. Hemlock and hardwoods are in most demand. There is no great movement of shingle stock. Reports of light stocks still come in. The outlook and tendency of prices is strong.

Reports received from the many lumber firms in the Ottawa Valley show that the recent rains have removed all danger of any of the logs being held up this season. Most of the stock is down to the main stream.

Mr. Jardine, Canadian Commissioner in South Africa, in a report to the Dominion Government, comments vigorously upon the recent shipment of building material for South Africa railways. He states that the material ordered was to be first-class, but when it arrived it was found to be inferior and was refused. There was a long delay before the shipment reached the Cape.

The lumber mills of new Ontario are working night and day, and although the market is taking large quantities the demand is still on the increase.

There is considerable call from U. S. dealers for all kinds of white pine lumber.

QUEBEC AND NEW BRUNSWICK.

The demand for lumber is fairly good. The recent rains will swell the crop of logs that will reach the mills this season. The prices are about the same as last week.

At Bathurst, N. B., the mills are running day and night and they as well as the Carquet mills are doing good work.

In Nova Scotia the dealers report that they cannot supply the demand in all kinds of lumber. Hemlock, spruce and pine is going rapidly. There is a large demand for shingles and special stock also. At Liverpool, N. S., no stocks are on hand, and vessels waiting. The outlook and tendency of prices for export is good. There are upwards of 100,000 acres of good timber lands for sale near this place. Most of it is a pine tract of virgin forest that has never had an axe in it, plenty of pines two and three feet on the stump.

MANITOBA AND BRITISH COLUMBIA.

In Winnipeg and Manitoba generally the demand for building stock is active. Judge Richards, of Winnipeg, has been commissioned by the Dominion Government to inquire into the charge that lumber dealers have formed a combine as alleged by the Hon. Thos. Greenway. The work of the commission will begin at once. The talk of the new railway from Quebec to Winnipeg, north of the C.P.R., has created a demand for back limits above the height of land.

On the Pacific coast conditions are very peculiar. One large company closed down temporarily the other day from inability to secure enough white labor. The management sought to fill the gap with Chinese labor, but the white workers then threatened to go out and the people showed themselves hostile to the Mongolian. The lumber company is now seeking white labor. As a result of the strike in the local mills it is reported by telegraph that the Vancouver mill men decided to refuse to fill the local orders for lumber. Shipments by rail and water to outside points will be made as usual, but no lumber will be supplied for local work until the strike is settled. It is also reported that a meeting of the British Columbia Lumbermen's Association will be held this week to consider the advisability of shutting down all logging camps for a period to be agreed upon. This is said to be the result of the unsatisfactory condition of the log market. The General Manager of the C. P. R. reports great evidence of thrift and prosperity in British Columbia, particularly in the shipment of lumber to the Orient, to Eastern Canada and to the United States.

There is a rumor that all the large Puget Sound red cedar shingle mills would shut down for a while as trade is reported dull. A prominent coast timber man reports that logs cannot be sold in Vancouver at any price. He claims there is an over stocking in the market and that logs are more plentiful than they have been for years. Logs have recently been sold for a third off the usual price.

Americans have been purchasing limits on Vancouver Island on a gigantic scale. Nine hundred million feet have been purchased on the Nanaimo river, French Creek, and Alberni district for a San Francisco Company. This syndicate has a capital of \$100,000,000 and have half a dozen large saw mills in operation in the various coast cities which have been unable to meet foreign demands. The price paid for these lands range from \$5 to \$50 an acre, according to location and quality. Several thousand acres have been acquir-

ed on Gabriola Island, where a saw mill will be built immediately. The Americans are, apparently, corraling all the available timber in this vicinity. The Syndicate above referred to, will put in several portable mills with a cutting capacity of 25,000 or 30,000 feet per day. A large force of men will commence logging operations on the first of August. A large saw mill capable of turning out 350,000 feet of lumber per day will be built at Nanaimo. This mill will employ 500 men. The syndicate expect to have everything in full swing by the first of September and claim to have enough timber already bought to operate the mills continuously for twenty years.

It is also stated that the E. K. Wood Lumber Company, of Puget Sound, has purchased a vast tract of timber on Vancouver Island in the Nanaimo district, containing 350,000 feet of fir. All this will affect market conditions.

#### UNITED STATES.

Latest reports from the white pine manufacturers show that there has been little change in the situation as regards demand and prices. On the whole the market remains firm and it appears to be in good condition. Those operating in the north note a little better demand from the east, caused by the winding up of labor difficulties. Many of the strikes having been settled there will be a material increase in the call for lumber. The future prospects of pine are good. Crop conditions show an improvement each week. Prices have not shown the weakening predicted by heavy buyers. There is no surplus of pine in the country. Many items of dry lumber are still hard to pick up.

An immense sale of 30,000,000 feet at a little over \$25 is reported from the Lake Superior district. A number of good sized sales have also recently been made at good prices at various points along the lake. The situation along the lakes at present is strong. Buyers are more numerous and the outlook more promising. Lumber is moving out as fast as it gets in shipping condition. Prices for water shipment have seldom been firmer than at this time. Low grade lumber has been strong, while high grade stuff at the going quotation has never wanted for buyers. In the summer prices are expected to sag a little, but it is doubtful whether we shall see any falling off this season. Receipts of lumber at Chicago last week were only half that of the corresponding week a year ago.

In the Saginaw valley the white pine trade is moderately fair and prices continue strong. A dozen cargoes or more are being received each week, although much smaller than last year at this season. Shingles are quiet at this point. White pine is quoted at \$3.25 and \$4.25. Extra A cedar \$2.75 and clear butts \$2.20.

A log famine that threatened the Penobscot saw mills has been temporarily relieved by the recent rains. Without more rain there will be dull times along the Penobscot. Some of the mills are fairly supplied, others scantily, while some have no logs at all and are shut down.

Around Buffalo the white pine market

continues active. Many dealers report an advance in the volume of business transacted last month. Shipments by rail and canal are brisk. Dealers who have usually small stocks are dropping shingles, and those who have made this a specialty are carrying light stocks until the prices are steadier. The supply is running down, and there is no revival in the prices of red cedars. Until there shall be, there will be no use of cutting white pine or white cedar shingles. Red cedars usually undersell everything else.

Hemlock continues to be the most active lumber and the supply is short of the demand.

There is little to say as to hardwoods, and there is an anticipation of lower prices. The present business is rather small, but it has had no effect on prices so far.

Oak is in about the former scant supply. Maple is not to be had in sufficient quantities and some are resawing thick maple to piece out. Elm is going out faster than it is coming in and there is less black ash than there ought to be.

#### GREAT BRITAIN.

This market is without change. Buyers show no anxiety about filling up their requirements and are buying with caution. The general trade of the country is far from being brisk. Trade is after all fairly sound but profits are close. Prices are being cut down in order to secure business. There is anticipation of a good autumn demand. At Churchill & Sims sale the Canadian goods in the catalogue are chiefly red pine deals and board sizes, with a sprinkling of spruce. The London market is well supplied and no more is needed at present. The demand for pitch pine timber is rather quiet.

#### STOCKS AND PRICES.

J. D. Wilson's saw mill at Eau Claire, Ont., is again running after a winter's successful cutting on Booth's limits.

The Goderich Lumber Company received a schooner load of shingles from Pike Bay and Pleasant Harbor. They are making extensive shipments of cedar posts.

It is said that Edward Murchie, of James Murchie & Sons, Fredericton, N. B., is negotiating for the Victoria mill, for the present season, for the purpose of sawing lumber on a large scale.

Over 90 loads of fine birch timber arrived by rail at Quebec for Mr. H. Kennedy. It has been dumped into the river, rafted and towed to Indian Cove, where it will be shipped on the outward bound steamships.

The Victoria Lumber Company are extending their logging railroad two miles to tap some good timber lands behind the north shoulder of Mount Brenton, B. C. This new field will be in operation next month.

The South River Lumber Company started their new mill on Tuesday last, one of the largest in Canada. It has two double cutting band saws and two large gang saws. They expect to cut 25,000,000 feet this season.

The steamer Aquila is loading deals at Hochelaga for Messrs. R. Reford & Company. The steamer Stickledsted will take

on a cargo of deals at Bay Verte for the United Kingdom. The ship Hydra sailed for Antofagasta, Chile, with a cargo of 380,000 feet of lumber. The steamer Davenport is loading deals at St. John, N. B., for the United Kingdom.

Under date of June 30th, Messrs. S. P. Musson, Son & Company say of the Barbados market: "There have been no arrivals of any description, nor can we advise much change in the market. The demand for spruce is virtually over, but a cargo of white pine would we think bring \$26 for shipping, and \$20 or over for second quality. Shingles—no receipts of any kind; cedar laying are wanted, stock being very small. Gaspe long cedar should do fairly well, and we would value good quality at about \$4.50."

Messrs. Clairmonte, Man & Company, of Barbados, quote white pine at last sale \$27.10, spruce \$18.50. There have been no arrivals for two weeks and the Barbados white pine market is bare. They value a cargo at \$26.50 locally. Spruce—Last sales \$18.50 for first, \$15.50 for second quality. One hundred thousand small shingles from St. John, N. B., sold at \$3.33 per thousand, good large size are worth \$4.50 to \$5 per thousand. Cedar laying are worth \$2 to \$2.20 per thousand, spruce laying worth \$1.60 to \$1.65 per thousand.

#### TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares, &c. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," c/o CANADA LUMBERMAN.

#### THE OUTLOOK.

J. R. Booth's drives off the Pettawawa, consisting of 50,000 logs, is now being boomed at the mouth of the river. The last drive that passed out of the Coulonge river, belonged to the McLaren firm.

The drive of logs on the Black river moved into the Ottawa river on Monday. These logs belong to the McLaughlin Bros., of Arnprior.

The sweepers are at work on the Deep river at present, and expect to work down as far as the head of the Calumet this week.

The square timber is moving along the different streams at a good pace.

J. R. Booth's first raft from Mattawa has reached the lower Ottawa.

The water on the Pettawawa rose 22 inches in the recent rain, and on the main Ottawa the water rose 8 inches.

Messrs. McLachlin Bros. have decided to boom one of their Bonnechere river drives of sawlogs in Mud Lake. It will not be taken to their Arnprior mill this season.

In New Brunswick the drives were reported to be making rather slow progress on account of the low state of the water. The main corporation drive at Newburg, consisting of 6,000,000 feet, was covering both shores and the sand bars between that place and Meductic. A crew of men were at Grand Falls, N.B., with 1,000,000 feet of logs stranded in the "Coffee mill." There are no logs coming over Grand

Falls and only a few are hung up between the Falls and Newburg.

Reports from St. John state that logs are a scarce article around Bangor, and specially is this true of the spruce lumber, which is the best and most used in these mills. Two of these mills, Sterns' and Sargents', the Sargent Lumber Company, the first at East Hampden and the latter in South Brewer, have already stopped running from lack of logs to saw. Other mills are not sawing their full capacity. Ayer's mill, of the Eastern Manufacturing Company's mill, is the only one which has enough spruce to run all of its saws. It is said that this firm has enough logs to last until August. Walker's mill at Orono, James Walker & Co., being the firm name, is running one band saw on spruce, and Lowell & Engell are cutting as much pine as they are spruce.

The reports state that what logs there were in the booms would not last any where near the time of the arrival of the drives. Unless big rains continue, the mills will have to shut down about the middle of September until the middle of October. The Chamberlain lake logs cannot get into Grand lake without heavy rains. Reports state that they have water enough but there are too many logs there. After they have been sliced into Grand Lake it would take big rains to get them down to the east branch and into the boom.

Thus far there have arrived in the Penobscot boom 31,000,000 feet of new logs, of which 19,000,000 feet were from the Main river and the lower end of the Piscataquis and Mattawankeag rivers. In addition to this there were about 3,500,000 feet of the old logs in the boom. All these logs have been rafted out, with the exception of the last drive, which the crew is now working on.

the Penobscot river is estimated at about 82,000,000 feet.

Exports from the lumber firms of the Ottawa valley tend to show that all the log and square timber manufactured during the season of 1902-03 will be handled satisfactorily this summer.

The Booth-Eddy Hawkesbury upper Dumoine logs from all reports will stay in Robinson lake till next year. The timber drives are also well on their way.

CANADIAN LUMBER SHIPMENTS.

From Parrboro, N. S.: Str. Sarmatia, for Preston, England, 2,044,498 ft. deals, value \$24,388, 225,587 ft. deals, ends, etc., value \$2,238, by George McKenn.

PINE, BIRCH AND HEMLOCK

**TIMBER LIMIT TRANSACTIONS.**

A transaction representing upwards of \$1,000,000 has been finally consummated within the past few days. Mr. John Waldie, of the Victoria Harbor Lumber Company, Toronto, having purchased from Messrs. C. K. Eddy & Sons, of Saginaw, the timber berths known as Townships 68, 75, and 83 on Lake Penage, on the north shore of Lake Huron. The berths comprise an area of 83 square miles of virgin timber, said to be the finest block on the north shore, being easily lumbered and possessing special features of value. The sale was negotiated by Mr. Peter Ryan, of Toronto. The deal is one of the most important that has taken place for some time, and is further evidence of Mr. Waldie's appreciations of the value of standing pine.

Mr. J. J. Hartt has bought the new saw mill recently erected by Mr. Jesse Cook, of the Zephyr, together with the stock, limits and equipment. Included in the purchase was 400 acres of timber land.

The Sherbrooke Lumber Company, with a capital of \$2,000, has been organized. Among the promoters are H. M. Price, Quebec; O. C. Morrissette, Megantic; B. Quinn, Windsor Mills; E. W. Tobin, M.P., Bromptonville; P. S. G. McKenzie, M. L. A., of Richmond, and Dr. Pelletier, M. L. A., of Sherbrooke. They own about 500 square miles of timber limits in the

province, situated in Gaspesia, Port Neuf, St. Maurice, Rimouski, River Metapedia and the Upper Ottawa. Operations will be begun just as soon as the company have obtained their charter. Saw mills and pulp mills will be erected at the most convenient places for the shipment of lumber to the United States and the European market.

Tenders are asked until August 15th for a berth of 50 square miles of timber on the Swan river, Saskatchewan territory.

Dr. Gabouly, of Portage du Fort, has sold his valuable timber limits to Mackay Bros., Renfrew.

A new lumber company is to operate in the north of Labrador, near Grand river. William Rand, of Canning, N.S., and S. P. Benjamin, of Wolfville, N.S., are connected with this company. They have secured a tract of 126 square miles of timber land.

There is a talk of forming a company to build a narrow gauge railroad into the saw mills and timber limits east of Novar, Ont. There is a large amount of timber and tanbark in that section, more or less of which is being destroyed by fire yearly which could be made available and bring revenue to the country if there was any road or way to get it out, and by running a trail or railway around the lakes and across the lowlands stretching some eight miles into that section of country, the

whole could be brought into market and the road could be extended from year to year as required and would give the settlers a market for their wood, logs and tan bark at their own doors.

W. J. Scott, of Springhill, N.S., intends going south to secure some hard pine timber limits in Georgia and North Carolina, in the interest of Canadian parties.

The act of incorporation for the Columbia River Improvement Company, Limited, was granted at Ottawa. The promoters are James White, George McCormick, D. Inglis Grant, all of Orillia; A. Alexander and C. W. MacMillan and Thomas Meredith, of Winnipeg. The capital stock is \$50,000, head office at Winnipeg. The company is given power to place booms in Upper Arrow Lake and on the shores of the Columbia River where it enters the lake, and to construct incidental works so long as navigation is not interfered with. The use of the works is to be allowed to the public at all reasonable times on reasonable terms. The act prescribes the rate of toll which shall be charged on different kinds of timber.

Mr. John Murray, Forest Ranger for Vancouver Island, B. C., has been commissioned to make a survey of the timbered country, lying between Quatsino Sound, and the east coast of Vancouver Island. It is said that the purpose of the survey is to determine the exact nature of the

forest growth in this section of the Province, in order to settle some points which have arisen as to the delimitation of pulp limits, and the adaptability of the wood for that industry.

The China Creek Lumber Company, Limited, has been incorporated with a capital of \$30,000. The time limit of the company is fifty years.

The Port Renfrew Lumber Company, Limited, has been organized in British Columbia, with a capital of \$10,000.

The B. C. Lands and Works Department gives notice that the Order-in-Council, dated March 26th, 1903, making a regulation for the survey of timber limits before the issue of special licences to cut and remove timber from Crown lands, has been rescinded.

Mr. Jenkins, of Minneapolis has purchased the saw mills at Sidney, B. C., together with \$100,000 worth of timber limits. It is said he intends to make some move toward opening up the Ross-McLaren mill.

Timber which was being unloaded from C. N. R. cars at Port Arthur was placed under an order of replevin by Bailiff Connors, who is acting for the Brachus Brooks Co., Minnesota. The company complains that a portion of the timber amounting to some 25,000 feet, was cut off their lands, and they are putting a restraint on the timber until the case is settled. They ask \$1,000 damages. The defendants in the case are Messrs. Steel, Bates and Cameron, of Duluth.

**FIRES.**

J. A. Seiman, of Downey's Cove, lost all his green timber and house by fire.

Andre Valinis saw-mill at L'Annonciation, Que., has been burned down.

A man named Miles has been arrested for setting fire to Tait & Turnbull's lumber camp, near Huntsville.

Albert Hayden's lumber plant at Woodstock, N. B., was burned last week causing a loss of \$30,000.

At Shulee, N. S., Robinson, Wright & Co., have lost six thousand acres of forest by fires. E. J. White, of Sand River, and the Shulee Lumber Co., also had large tracts burnt up.

Murray & Gregory's big saw-mill at St. John, N. B., together with over two million feet of lumber, and a house and barn near the mill were destroyed by fire on July 4th. The mill is said to be insured, but the loss will be quite heavy, and a large number of men will be thrown out of employment.

**WANTED**
