

ONTARIO IS SATISFIED WITH SUBSIDY PAID BY DOMINION

Legislature Adopted a Resolution Expressing Confidence in the Dominion Government—Opposition Members Are Flooding the Order Paper With Questions.

After a spirited two hours' debate the ancient question of an increased federal subsidy to the provincial government brought about a division of the legislature yesterday. Mr. Rowell introduced a motion that the house memorialize the Dominion Government to readjust the subsidy payable to Ontario for debt allowance upon the same basis as that received by Manitoba. This resulted in much keen debating, several members of both sides participating, including the opposition leader, Hon. I. B. Lucas, Sam Clarke, A. E. Donovan, W. H. Froudford, and Sir James Whitney. On the vote the motion was swamped by 70 to 17, and a substitute, presented by Mr. Lucas, to the effect that the house had confidence in the government, and that the question should be attended to at the next conference of the provincial premiers shortly, was adopted.

Should Have Equality.

The main contention of Mr. Rowell, as pointed out in his motion and also in his speech, was that Ontario was not being treated fairly by the Dominion Government with respect to the annual income from the latter. Manitoba received a larger subsidy than this province, which was not right, and in his opinion directly opposed to the British North America Act, much of which he read to the house. He believed that there was no reason why the government should not urge "its friends at Ottawa" to amend the subsidy to the level of that received by Manitoba. In the B.N.A. Act a provision was made for a financial arrangement between the Dominion and the provinces, whereby the Dominion at conference took over certain assets and public works and agreed to assume certain liabilities of the provinces, all of which were put on absolute equality. As the result of such an arrangement the provinces were to receive subsidies according to population and the debt.

Not Doing Duty.

"Since the arrangement was made Manitoba has received an increased subsidy," said Mr. Rowell. "No corresponding adjustment was made with Ontario. I do not intend to let Ontario should not receive an increased allowance, but I do contend that Ontario should have equality of treatment. The Ontario Government has not put forth its claim at Ottawa, and is therefore not doing its duty to the people. The Maritime Provinces are alive to the fact that a change has been made, and are seeking to protect their people. At the present time Ontario receives a subsidy of about \$147,000, and if the subsidy were increased in line with Manitoba it would mean an additional allowance of \$400,000 or \$500,000."

Mr. Rowell wound up his address by stating that Ontario needed all the money that could be obtained to meet the demands. He pointed out the different claims of education, especially in the case of the University of Toronto, which was at present going through a financial crisis.

Hon. I. B. Lucas, acting provincial treasurer, in reply, stated that Mr. Rowell should be the last man to talk about the government securing increased revenue, particularly after the activities along this line by the late Ross administration.

"Last year we had a revenue of \$8,000,000, and I should inform the house that this is still growing," said Mr. Lucas. "And now, by hon. friend's trying to teach us how to secure an increased revenue."

Got It Honestly.

In reference to the question of fighting for a larger federal subsidy, he said that several feeling should not be excited between the provinces. He pointed out that these subsidies were always decided upon by the provincial premiers who held a conference. Despite the fact that Manitoba had obtained an increased subsidy, it had a right to it by reason of the fact that at the conference of the provincial premiers it

was agreed that Manitoba could put its claim in writing to the federal government for a larger income was granted. He pointed out that the same terms were granted to Manitoba by the Borden government as the Laurier government had granted to Alberta and Saskatchewan in 1905. On concluding his address, Mr. Lucas introduced the amendment of confidence in the government.

After other members of the house had spoken, Sir James Whitney arose and offered his sympathy to Mr. Rowell. W. H. Froudford appealed to the house to present a solid front or join hands in the matter. He said that the government never considered anything that the opposition put forward. Before the vote was taken Allan Stucholme, Labor member for Hamilton, said that he was willing to vote either way, because both motion and amendment would get something for the people. However, he lined up with the government.

Premier's Warning.

Shortly after the house opened Sir James criticized the opposition for cramming the order paper with questions. "If the hon. gentlemen continue to load up the order paper for another week, I give warning that two-thirds of the questions will go over to the next session," said the premier. "The procedure, no doubt, is right, but it is a sheer physical impossibility to answer the questions, and the cost of legislation is a large item." Sir James made the above remarks after Mr. Rowell had asked the government when it was intended to bring down returns respecting law reform and schools in Stormont and Russell County, asked for last year's return, and in answer to Mr. Anderson of Bruce County, former immigration agent in the Province of Ontario, who had resigned, was not dismissed, two months ago. He was succeeded by Richard Reid of Berlin, who, in the opinion of the government, possessed the necessary qualifications.

No Promises Made.

Hon. Adam Beck stated to Mr. Mageau of Sturgeon Falls, in reply to a question, that he had not promised North Bay that power would be developed from Chaudiere Falls on the River. It had not yet been determined where the commission would obtain power to supply North Bay, and no arrangement had been made with the town. Hon. W. J. Hanna broke the news to the opposition regarding why F. W. Walters, inspector of Waterworks, had been given an increase in his salary of \$100. It will be remembered that the Liberals made quite a fuss over this, suggesting that the government had "bought off" Walters, who was a candidate in the recent by-election. The provincial secretary said that Dr. Lachner, the former member, had made representations to the government that the salary of \$600, which Walters received, was not sufficient, and it was therefore increased. Walters was notified of the increase on Oct. 7, 1912.

What About Harbors?

Only one question was put on the order paper by the opposition yesterday, this by Mr. Anderson of Bruce, who asked for particulars regarding the appointment of the sherpas showing the qualifications, his former Mr. Kohler selected for a return copy of the Cullers report made by the Port Franks Lumber Company for the logging seasons of the last three years. Mr. Mageau asked for a return showing whether the government had made a harbor reservation comprising the islands of Moose River and land on each side of the river at the town of Trent Rapids to James Bay. Has the government investigated the effect of the spring floods, ice jams, etc., between Moose Factory and Outer Bay, and has an agricultural experiment station been established within the coastal plain? were other questions.

SAYS COMBINES VIOLATED LAW

J. Walter Curry Writes His Views to N. W. Rowell, Liberal Leader.

RESTRAINT OF TRADE

Says Tack and Tinware Combines Were Guilty as Those Convicted.

In reply to a letter from N. W. Rowell, leader of the opposition, J. W. Curry, K.C., former crown attorney, gives it as his opinion that the Stamped Ware Association and tack combine violated the criminal code. Mr. Curry said:

"In respect to the alleged combines, I was and am of the opinion that the agreements in each case were similar, and that the same evidence was to my mind sufficient to show that the violation of the criminal code was the same line of trade under the same agreements were intended to be and were in restraint of trade, and did unduly enhance the price of the articles dealt in by these respective members of each association."

"I felt that the Tack Association, the Stamped Tinware Association and the other associations whose papers were seized, worked, greater hardships, were more far-reaching in their efforts and more detrimental to the best interests of the community than were the Plumbers' Association, the members of which were prosecuted and convicted."

NO FIXED RATE FOR TEN YEARS

City of St. Thomas Was Refused Permission to Fix Assessment.

BROCKVILLE MUST LOSE

Grand Trunk Shops Will Soon Be Removed to Prescott.

The activity of the City of St. Thomas in granting fixed assessments to corporations was checked by the private bills committee of the legislature yesterday when an application from the city asking for the ratification of an agreement granting the Michigan Central Railway a fixed assessment of \$450,000 for ten years was refused. The assessment was confirmed for a period of five years.

Mr. Doherty, city solicitor of St. Thomas, argued that the M.C.R. had done more for St. Thomas than the G.T.R. had ever done, and yet by the terms of old railway acts the G.T.R. was given a fixed assessment for 99 years. Hon. I. B. Lucas and E. E. Fraser of Welland both strongly condemned the practice of granting fixed assessments, claiming that city councils had no right to grant them.

St. Thomas also applied for and was granted the privilege of indirectly bonusing E. T. Wright, an American boot and shoe concern, by giving it a site and factory upon which it agrees to pay an annual rental of \$45,000, and from the first 175 men will be employed. This number will later be increased to 600. G. H. Ferguson's bill asking for the ratification of a bylaw, passed by the voters of Prescott in connection with the G.T.R.'s proposal to remove its shops from Brockville to Prescott, would be serious to his city. Mr. Ferguson, urging Prescott's claim, said that the G.T.R. was saving \$28,000 yearly by the move. Hon. I. B. Lucas sympathized with Brockville, but said that nothing could be done. The surmounting of the British Empire Trust Company, an English concern, with a subscribed capital of \$250,000 to do business in Ontario without being required to file or publish or exhibit a list of the holders of shares, was cancelled, and the company will be required to file every year an annual statement satisfactory to the department.

KNIGHT ENGINE IS ATTRACTIVE

Great Interest Taken in the Display of Latest Designs.

That the Knight Engine has a firm hold on the motoring public has to interest in that part of the exhibit of the Russell Motor Car Co. in the transportation building at the Motor Show. Mounted on a stand in a corner of the exhibit is a new and bright Knight engine with a Russell Self-Body, on which all the working parts can be seen. The real interest in the Russell exhibit is in the cars themselves. A beautiful limousine, which forms a central feature, is an object of admiration of hundreds of visitors to the Motor Show. Every model shown is an example of beautiful design and high-class construction that exhibits hard to equal in any section of the automobile world. Touring cars are holding strong color, and special attention is being bestowed on the new six-cylinder model car.

LOAD DISTRIBUTION IS IMPORTANT IN TRUCKS

Manufacturers differ widely as to the correct location of the driver's seat on a motor truck, and even among those who agree the full benefits of their designs are not always realized. The main questions involved are the distribution of the load weight, the effect on tires and the ease or difficulty of control.

In White gasoline trucks, the greatest weight is carried on the rear, or driving wheels, affording the greatest amount of traction at all times and allowing the front wheels to turn easily, which permits the driver to control the truck perfectly even in difficult situations.

Child Had Bronchitis

Once people get acquainted with the wonderful control which Dr. Chase's Syrup of Linseed and Turpentine exerts over bronchitis, whooping cough, croup and cold, it is no hard thing to persuade them that anything else is "not good." This is why the imitators never get very far.

In 1902 Mrs. Eugene Ilor, King street, Truro, N.S., wrote as follows: "I was troubled with one of my children with bronchitis, and the least cold would aggravate the trouble. We could not get anything to help him, and were often greatly alarmed. Hearing of Dr. Chase's Syrup of Linseed and Turpentine as a treatment for bronchitis, we got it, and are glad to state that it effected a complete cure. If any of the children take a cold or cough, I give this medicine, and have never known it to fail to bring relief." Mrs. Ilor now writes that she has since proven this medicine to be a cure for whooping cough, and would not be without it in the house.

PROBE INTO HIGH COST OF LIVING

Dr. McQueen, Member For Wentworth, Will Present Bill to Legislature.

APPOINT A COMMISSION

Say Combines Are Largely Responsible For Enormously Increased Prices.

That the government appointed a commission to probe into the cause of the high cost of living, is the gist of a resolution which Dr. James McQueen, Liberal member for North Wentworth, will introduce into the legislature. According to Dr. McQueen, the poorer classes have suffered from high cost of living and now the middle classes are beginning to feel the pinch. His motion says, in part: "That in view of the rapid and unprecedented increase during recent years in the cost of living, and the difficulty which many citizens of the province consequently experience in providing themselves and their families with the necessities of life, it is the duty of the government to appoint a thoroughly competent commission to investigate the causes of such increase in the cost, and to report to the house whether any, and if so what measures can be taken by the government towards remedying and improving existing conditions in this regard."

Dr. McQueen believes that combines are largely the cause of the high prices of the necessities, which exist today. He accuses the government of allowing the Stamped Ware Association to still do business in defiance of the law. He believes that the commission, if appointed, should investigate the question of combines, and find out how many there are in the province. The high price of eggs and meat, he attributes to cold storage, which, he thinks, should be regulated in an effective way.

ADVANCED DESIGN IN SELF-STARTERS

Reo Motor Car Company Have Increased Efficiency by Forty Per Cent.

The Reo motorcar of Canada has again set the pace for advanced design in motor construction, by increasing the efficiency of the standard electric self-starter over 40 per cent. This is done by means of a simple, clever and novel mechanical worm gear attachment of the electric self-starter on the clutch shaft of the Reo, which it is possible to propel the car with the self-starter without turning the motor.

This device also successfully meets the difficulty of starting in a cold garage or barn and has been standing for some time in such cases. The oil becomes congealed in the cylinders and the motor will at first crank very hard, stall the motor of the electric self-starter and soon use up the storage battery unless extreme skill is exercised. With the Reo attachment the driver can depend upon the starting motor independent of any other part of the car until it has developed its maximum speed, after which the motor will run smoothly and efficiently. The worm gear connection to the fly-wheel and motor and housing is of the most sturdy and efficient. The worm gear connection also makes for greater quietness and smoother operation.

Absolute safety is another feature of the Reo attachment. The worm is normally out of engagement with the gear when the clutch is engaged by sliding transversely upon the motor shaft by means of a lever operated by the foot. When the foot is released, the lever is raised, and the motor shaft is instantly flies out of mesh thereby making it fool-proof and insuring the driver of the most complete safety. The Reo attachment is a feature of proper operation. Another feature of this Reo starting and lighting device is that it can be installed on any motor car, without changing the construction, thus enabling the owner of an old Reo to bring his model right up-to-the-minute.

FASTEST RECORD MADE BY PACKARD

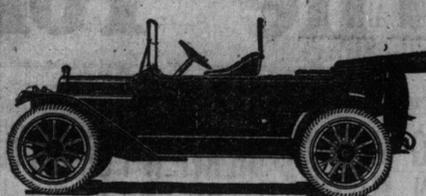

Running Time From Chicago to Detroit Was Seven Hours.

What is believed to be the fastest record for sustained road driving under unfavorable conditions, was made recently when William E. McCulla landed at the Pontchartrain Hotel in Detroit, with his new Packard "38." He started from Chicago, being checked out of the New Southern Hotel in that city, by J. T. Murphy, the night clerk, at 2:30 in the morning, and at 3:30 he reached the Pontchartrain Hotel in Detroit and was checked in by the clerk at that hotel.

The distance was 284 miles, which was made in elapsed running time of 7 hours and 3 minutes. There were three stops for gasoline and tires, which occupied a total of 15 minutes. The actual running time, therefore, was 6 hours and 54 minutes, making an average of 32.8 miles per hour, a distance of a little more than 41 miles per hour.

This is an extraordinary record that it is believed has never been equaled under any circumstances; and when the tires, ratty condition of the mud and gravel roads, over which the Packard "38" traveled, are taken into consideration, the record made was a marvelous endurance test on the part of both driver and car.

Investigate The Russell Knight "28"

Overheard in an Automobile Show Room

"If I were about to buy a car, I would investigate all models within range of my pocket book, for nearly every one has features that seem to give it preference."

Don't you think that is the right way to buy a car?

We would that all prospective owners exercised such judgment in buying cars. All round investigation would prove that the 1913 Russell-Knight "28" so far leads all other cars in efficiency and comfort, that it stands 'way ahead in a class by itself.

The car not only has more comfort-making features than any other model in Canada, but it has been designed in such a way that these features lend their greatest efficiency to the car as a unit.

The Russell-Knight "28" was not produced by adding new or extra features, to an old model. It has been designed absolutely anew from the ground up. Some of its special and exclusive features are:

- Russell-Knight Engine.
- Russell Electric Starter.
- Left Drive and Centre Control.
- Combined Electric Dynamo and Motor for Starting Engine, Lighting Lamps and Charging Battery.
- Electric Head Lamps, Side Lamps, Combined Speedometer and Clock, with Electric Light attached.
- Heating System for the Tonneau.
- Non-skid Tires, 36 x 4 1/2 inches.
- Power Pump for the Tires.
- Demountable Rims, with one spare rim.
- Folding Glass Windshield for the Front Seat.
- Folding Glass Windshield for the Rear Seat.
- Extension Top with Side Curtains.
- Top Envelope.
- Foot Rest.
- Rear Rail.
- Tire Holders (double).
- Electric Horn, under the bonnet.

A Descriptive Catalogue will be mailed or a demonstration arranged upon request.

Good Sale of Horses At the Repository

About two hundred and twenty-five horses were up for sale at the Repository yesterday, mostly of excellent class, but this number proved too many for the demand, and horses were selling at lower prices than the dealers expected to get. Prices have been kept too high, but are slowly going back, and at a proper figure a big trade will be done very early now. There was no lack of attendance at the auction, but many buyers held off for a while, thinking they would get a better price. A large number of horses were changed hands, and many others were disposed of privately. The Victoria Traction Company of Victoria, B.C., bought nineteen express horses, the best they could get in the stable, paying from \$180 to \$275. W. W. Jacobs, Montreal, completed a carload of heavy horses at nearly \$250 a head, getting a select lot. R. G. Clarke, West Toronto, b.m., \$335; Dunlop Coal Co., pair b.k.s., \$460; John Robb, Seabur, Mont. bought a part-carload of farm and general purpose horses. A. Snider, Berlin, b.e., \$265, and b.m., \$160; R. J. Smetinger, Six Catharines, pair b.e.s., \$300; J. E. Seagrave, Waterloo, bought the best team of big horses that have been seen in the repository for a year, William Boyd, b.k., \$197.50; J. Wood, b.g., \$230; M. Zimmerman, Cooksville, pair b.m.s., \$480; R. Jewell, b.m., \$130; W. H. Singer, St. Catharines, b.e., \$220; The City Dairy Co. bought six horses at \$150 to \$190; R. B. Burkell, b.m., \$135; Coulter & Kerr, Tweed, b.m., \$215; b.m., \$97.50; J. T. Walsh, b.k.e., \$190; A. MacMahon, b.e., \$135; Coulter & Kerr, b.m., \$230; W. Harris & Co., b.e., \$250; T. D. Newell, b.e., \$117.50; Standard Foundry, b.e., \$175.

Varsity Defeats O.A.C. In the Pool at Guelph

GUELPH, Feb. 25.—This year's swimming match that was pulled off today between the O. A. C. and Varsity resulted in some of the most exciting contests that have taken place at the O.A.C. swimming pool. The fifty yards event was contested with the greatest keenness, Davis of the O.A.C. winning by a small margin, and in the 100 yards race also the finish was close enough to make it almost a dead heat. Varsity won both the 200 yards and the water polo match, and took first and second places in the long jump. Fifty yards—1, Davis, O.A.C.; 2, Wilson, Varsity. Time 21 1/5 seconds. 100 yards—1, Davis, O.A.C.; 2, Jeffries, Varsity. Time 39 seconds. 200 yards—1, Tobbs, Varsity; 2, Sate, Varsity. Distance 31 feet 11 inches. Relay race—Varsity won. The teams: Varsity—Stimpson, Sate, Jeffries, Tilson, O.A.C.—Hertel, Braithwaite, Vanderbil, Davis. Water polo—Varsity (5): Minnen, Qua, Sate, Stimpson, Rutherford, O.A.C. (5): Tansley, Smith, Harding, Davidson, Davis.

Alberta President of the Alberta Bowling Congress Announces that the annual provincial tournament will take place in Edmonton, March 24 to 29, under the auspices of the Olympic League. Riverside Boxers Start Training.

The boxers that are going to represent the Riverside Athletic Club at the coming championships started their training in earnest at the club rooms, 63 Strand street, last night, and from present indication it looks as if they will have two or three entries in each class, except the heavyweight. If any ambitious amateur wants to take up the amateur boxing game and especially a heavyweight they will be cordially welcome at the club's quarters, where there is an up to date boxing gym, shower baths, hot and cold water; also the club's trainer, Billy Timoney, and Jimmy Green, to teach and help them in every way. Strangers are welcome to see the boys work out on Thursday night.

Chess Masters Tied for Lead. HAVANA, Feb. 25.—Capablanca defeated Corzo, Marshall won from Jaffe, Jasolet defeated Kupchik and Blanco defeated Chales, in the eighth round of the chess tournament today.

The Daily Hint From Paris

OF BORDERED CHIFFON.

Black chiffon with a heavy black silk embroidered border is draped effectively in this evening gown. The waist has a flesh pink foundation and one shoulder is draped with gold lace net, with the sleeve edge scalloped, and bound with brilliant green velvet. The lower half of the skirt is made of similar material with the chiffon drapery caught up on one side with a tassel-like ornament, made also of the gold lace. Around the décolletage are folds of black tulle over-gold net, and a brilliant red rose is worn in the black satin girdle.

MRS. PANKHURST IS RELEASED FOR BAIL

Not Allowed to Attend Meetings While Trial is Going on.

EPSOM, Eng., Feb. 25.—Mrs. Emmeline Pankhurst, the suffragette leader, was remanded by the police magistrate here until tomorrow, when she appeared today on the charge of inciting others to place feloniously and maliciously explosive substances with intent to damage Chancellor of the Exchequer Lloyd George's house at Walton Heath.

She was admitted to bail in the sum of £2800, on giving an undertaking to refrain from meeting and not to attend public meetings while the case is in progress.

The only evidence taken today was that in relation to her arrest.

As the offence with which she is charged is an indictable one, Mrs. Pankhurst was not asked to plead, but also she, in the course of public meetings, had taken full responsibility for the action of her followers, she has engaged counsel for defence.

Suffragettes this morning attempted to make demonstration outside the police court, but they were outnumbered by the townspeople, who vigorously booed Mrs. Pankhurst as she passed into the building.

THE NURSERY

A SACRED SUBJECT

Conducted by Elmer Murray

Yesterday for the first time I mentioned in the column one of the most important duties parents must face—that of being frank with their children in the teaching of personal hygiene.

I hardly know why I have left this discussion so late, unless it is a feeling of leaving a very important thing to the last of these general talks. It is high time you know, that we started talking young baby again. Just think of the numbers that should be learning how to sleep, feed and cry while we are dealing with ordinary grown-ups.

Who would think that it is so difficult to teach a child to be clean? I have one complaint to make to your nursery readers. It is that you "don't discuss" you let me do all the arguing—if one can call a one-sided affair an argument. If you care to write me concerning this point of teaching children the mystery of life, I shall be glad of your opinion. I am sure can be of much benefit to others. Most people are very wrong in their ideas of how young children become acquainted with starting life. They assure themselves that their children know "absolutely nothing," and send them out to school, and children begin to think much earlier than most people realize, and the moment they begin to think they begin to hide away sex secrets. I would like to air a child up on the subject or voluntarily make him think you are on confidential terms with your children. They will ask you questions very early, and when they ask—answer honestly. Do not put them off with foolish sentimental nonsense. Never under any circumstances do you want to put proper wording of the ideas, if you are on confidential terms with your children they will ask you questions very early, and when they ask—answer honestly. Do not put them off with foolish sentimental nonsense. Never under any circumstances do you want to put proper wording of the ideas, if you are on confidential terms with your children they will ask you questions very early, and when they ask—answer honestly. The Gourlay Stamina

Stamina—long life—durability—are built into every inch of the Gourlay Piano with the result that it is lasting in tone, in action, and in appearance.

Every single detail of manufacture of the Gourlay Piano is basically correct—representative of the highest and most exacting standard of workmanship and material. These things count. They are the concomitant of perfection. They make the Gourlay Piano an artistic triumph—an instrument in which the artistic is joined to the material to form a medium of musical expression deft and subtle for the trained musician, and staunch and durable for constant everyday use. Stamina is a necessary qualification in a piano whether it is manipulated under the masterful hands of an artist, or the plodding uncertain hands of a beginner—stamina is an artistic and economic necessity.

When the question of "what piano to buy" comes up, see The Gourlay—investigate its claims to preference—see why it should be your final choice on artistic and economic grounds.

OLD AGE PENSIONS WERE DISCUSSED

Strong Plea Made on Behalf of Widows by Montreal Woman.

OTTAWA, Feb. 25.—The old age pension committee heard evidence today from Mrs. Henderson, probation officer at the usual court at Montreal, and of Louis Guyon, Quebec, factory inspector.

Mrs. Henderson strongly supported the idea of a pension to widows, on the ground that family life should not be broken and children put in institutions. Her experience was that 50 per cent. of these in the correctional courts came up from broken-up families. A small pension to mothers would be less costly than keeping children in institutions. The causes of poverty she attributed to low wages, changing occupations and tuberculosis.

Mr. Guyon talked of men falling for factory life around sixty, and objected to the poorhouse system. Men were often placed in institutions where they work little at home.

"They have to pray all the time," he said, "where, the living good lives, they never have been accustomed to it before."

POPULAR CONCERT SATURDAY NIGHT

Toronto Symphony Orchestra in Fine Program at Massey Hall.

The Toronto Symphony Orchestra will give their third and last popular concert in Massey Hall on next Saturday night, March 1, at the usual price for these events, of twenty-five and fifty cents. The program will have a very attractive array of artists for this last concert, and the program will be one that will meet the approval of the most exacting audience. The orchestra program, of which the 181st Overture played at the Schubert Choir concert last night will be a number, Mr. Ernest Setts, the talented pianist, and about two years ago, made his only appearance in public before returning to Germany to resume his studies at the University of Leipzig. The concert will be given at Massey Hall about two years ago. The other assisting artists will be the Victoria College Glee Club, Ernest R. Bowles, conductor, who will sing several Glee and College songs as only these songs will also be on the program in a Violin solo, an arrangement of a Mozart Adagio by Leo Smith, another member of the orchestra. The seat sale will open tomorrow morning.

FRIDAY MAT. AT THE GRAND

Extra Performance of "The Shepherd of the Hills" to Be Given.

Owing to the big demand for seats for both "The Shepherd of the Hills" and "The Red Widow" at the Grand Opera House, this week, it has been decided to give an extra performance, and arrangements have been made for a special matinee on Friday.

Ward Seven

The death occurred yesterday of Joseph William Vaughan, the 25-year-old son of Philip Vaughan of 154 Gilmour avenue, Swansea. He was ill but a short time and death came very suddenly from an attack of pneumonia. He was a well known resident of Swansea and was a prominent member of Canada Lodge, Manchester Unity, I.O.F. The funeral takes place Thursday afternoon to Humboldt Cemetery.

Mr. and Mrs. W. Earls and child, who have been visiting Mr. and Mrs. Peter Leighton at 154 Gilmour avenue, since June, left last night for their home in Calgary.

Dr. Annie Gray Milder delivered a lecture to mothers in the Victoria Presbyterian Church, Yorkville, yesterday afternoon. The subject of the address was on the proper telling of "Life's Story to Children," and a large audience of mothers were present.

Michael Ferris, an Italian laborer, who could give no home address, was arrested yesterday on the charge of trespass. The defendant is at the house of Mrs. Ada Morris at 380 Rydals avenue, and demanded a meal, refusing to leave when asked to do so.

The funeral of the late Miss Hannah B. Manning of 185 Campbell avenue, who died Monday afternoon in her 87th year, takes place this afternoon to Prospect Cemetery.

Messrs. Wickman and Beckett have taken out a permit for the erection of a four-story brick biscuit factory on the east side of Sterling road, which will cost \$25,000.

The third term defeated the second in the first of the inter-form debates at the Humboldt Collegiate Institute yesterday afternoon.

DR. A. W. CHASE'S 25c CATARRH POWDER

is sent direct to the diseased parts by the four-storied brick biscuit factory on the east side of Sterling road, which will cost \$25,000.

GRAND CHAPTER OF ARCH MASONS

Annual Convocation Will Commence This Morning in Temple Building.

The fifty-fifth annual convocation of the Grand Chapter of the Royal Arch Masons of Canada commences this morning at ten o'clock in the Masonic Hall, at the Temple Building. Representatives from nearly all of the 142 chapters in the Dominion will be present. Grand Principals Fred W. Harcourt, K.C., Toronto; D. F. MacVatt, Sarnia, and W. S. H. Murch of Kingston will preside over the convocation. Lieutenant-Governor Sir John (Osborne) Senator Gibson-Hamilton; Judge Harding; Mr. John Lewis, Winnipeg; Henry Robertson, Collingwood; W. G. Reid, Hamilton, and possibly other grand first principals will attend the convocation. It is expected that about 200 representatives and members of the grand chapter from almost every province in the Dominion will be present.

Last night a meeting of the executive committee of the grand chapter was held in the Masonic Hall, over which D. F. MacVatt of Sarnia, grand H., presided. The committee attended to routine business.

Tomorrow, at 9:45 a.m., the reception of Mr. Guyon talked of men falling for factory life around sixty, and objected to the poorhouse system. Men were often placed in institutions where they work little at home.

"They have to pray all the time," he said, "where, the living good lives, they never have been accustomed to it before."

Shock Upset the Nerves

This letter from Mrs. Tweedie is interesting, because it shows how nervous trouble develops gradually from such derangements as stomach trouble, indigestion and constipation, motor ataxia or paralysis render the victim helpless.

It is even more important because it tells how the writer was cured by Dr. Chase's Nerve Food, the greatest of nerve restoratives. Brighton, Ont. writes: "For years I was troubled with the stomach, and have always been of a nervous temperament. The death of my husband was a great shock to me, and a few months later I was prostrated by nervous trouble. Locomotor ataxia developed later, and I was in a bad condition.

"I took treatment from different doctors, but did not gain until I began the use of Dr. Chase's Nerve Food. When I had used five boxes I was fully restored, that I am sure like a different person. I am sure that the Nerve Food is a good medicine, and have told many people about the remarkable way in which it has restored my health."

Red Man Finds a New Trail.

"Across the prairie toward the setting sun, Red Cloud and Fleetfoot, two chiefs of the Blackfoot tribe, reached rapidly on an endeavor to reach camp of the tribe on the banks of the Saskatchewan before night could find her dark mantle over the earth.

"A sudden exclamation from Red Cloud drew his companion's attention to the fact that a 'new trail' crossed the prairie. Stopping down, Red Cloud carefully examined the strange marks which had the appearance of a long string of arrow heads deeply impressed into the surface of the trail and clear to the eye for hundreds of feet from the spot where the eyes of the Blackfoot chief had first seen them.

"A hurried consultation as to the meaning of a trail such as they had never seen before took place between the two chiefs before they decided to follow the 'New Trail' in an endeavor to locate any unfriendly tribe that might be looking to injure them.

"After over two hours' steady travel a black object loomed up in the gathering darkness, and nearer approach revealed to the Indian chiefs four white men seated around a camp fire, whilst in the background stood a 'devil machine,' the wheels of which were covered with 'trails' that had made the 'New Trail' for the chiefs to follow.

"Such is the story conjured up by the clever poster designed for the Duntlop Tires and Rubber Goods Company to advertise the Duntlop Traction Tread tire."—Manitoba Free Press.

CATTLE MARKET PRICES EASIER

Hogs, Sheep and Lambs Were Firmer—Calves Were Steady.

Receipts of live stock at the Union Yards were 153 cars, comprising 2008 cattle, 1330 hogs, 177 sheep and lambs, 147 calves and 104 horses.

The market for cattle was not so good as last week, although in the morning it opened out fairly active, but in the afternoon eased off and closed dull and sluggish.

FOREIGN CROPS IN BETTER CONDITION

Seasonable Weather Generally Throughout Europe—Fewer Complaints of Drought Reported.

Broomhall's weekly summary of foreign crop conditions, issued yesterday in Liverpool, is as follows:

United Kingdom.—There is some improvement noted in conditions incident to the continuance of favorable weather.

France.—Outlook shows improvement; native supplies are fair, but prices remain high. Weather reasonable.

Germany.—Points of damage are entered as a result of freezing and very light snow coverings, some parts being without snow. Native offerings fair. Weather has turned more mild.

India.—Outlook has shown marked improvement as a result of the rainfall. The Punjab has again had a heavy rainfall and some authorities report the rainfall excessive at \$8.75.

Russia.—Complaints being heard of freezing and insufficient snow covering. Our agent at Odessa reports received there of crop conditions are mostly favorable. Animals at the ports are light and stocks moderate, but quality is very poor, almost unobtainable, and therefore very little is being taken for export. Weather is more mild.

Spain.—Outlook favorable. Weather reasonable.

Hungary.—There has been a period of heavy freezing without snow cover and some damage reports being heard. Weather is now more mild.

Italy.—Some complaints being heard of forward growth.

North Africa.—Outlook mostly favorable.

Montreal Grain and Produce.

MONTEAL, Feb. 25.—There was a fair demand for Manitoba spring wheat and as the price bid was unchanged to a slight advance, business was worked for both nearby and spring shipment, but the market on the whole was quiet. The demand for oats and barley was slow, but a fair amount of flaxseed was sold.

MONTEAL, Feb. 25.—There was a fair demand for Manitoba spring wheat and as the price bid was unchanged to a slight advance, business was worked for both nearby and spring shipment, but the market on the whole was quiet.

CENTRAL RAILWAY SCHEME IS KILLED

Montreal to Midland Enterprise, Based on Old Charters, Summarily Dealt With.

OTTAWA, Feb. 25.—Short shrift was given the Central Railway bill by the railway committee seeking authorization to build a line from Montreal to Midland. The having acquired certain old charters, the company sought to revive rights to upwards of a million acres of land in the Ottawa valley, partly in Ontario and partly in Quebec.

Objection by the provincial government was raised today. C. H. Ritchie, K.C., for the Ontario Government, demanded such a declaration of intent as would nullify any possible claim to a land grant.

"The claim is not honorable," asserted Claude Macdonell. "Here is a proposal to grab 1,300,000 acres of land granted to the Dominion by the Ontario Government, but the Ontario Government would nullify any possible claim to a land grant."

ANOTHER DIP IN CANADIAN STOCKS
Toronto Market a Decidedly Flat Affair. With Little Demand in Evidence.

BRAZILIAN IN THE LEAD
Specialties Develop Further Weakness--New Low Records For the Year.

Outside of showing slight indications of weakness at recurring intervals a selling came into play, the Toronto stock market showed no significant feature yesterday. The further sharp setback in the New York exchange acted as a depressor on sentiment and traders were more than usually apprehensive over the outlook. Speculation was flat throughout, however, and it was quite evident that no material liquidation was under way.

No Margin Trading.
With quotations for the active Canadian securities marked down to their present level, it is apparent that holders are not inclined to part with their stocks. Average prices are now several points under the levels current at the first of the month. Meanwhile money is so tight that traders are not able to conduct any material business on margin, which is, in itself, sufficient to account for the fact that it is at times almost impossible to obtain bids for some of the specialties. Until the stringency is abated--and there is no hope of relief for some months to come--speculation will continue apathetic and the market will be subject to the whims of Wall Street influences.

Brazilian Down Again.
After opening at 95, a head below the previous close, Brazilian sagged gradually under the weight of liquidation, and wound up the day at 94 1/4, a loss of almost a point, and only an eighth above last week's low record. The best bid was 94 at the close. C.P.R. was not dealt in here, but the shares were lower in New York, sinking below 236 again. Winnipeg Railway lost 5 points of its recent rally, selling off to 212. In the specialties, the Canadian Spanish River and Steel Common were all lower. Toronto Railway sold at 137 1/2-3, down 3-4 for the day. Spanish River preferred and Steel Common preferred made new low records for the year at 94 3/4 and 85 1/2 respectively.

MONTREAL STOCKS INCLINED TO SAG
Market is Held in Grip of Money Stringency--Recessions General.

UNION PACIFIC LOWER
Obstacle in Way of Dissolution Plan is Depressing Influence.

MONTREAL, Feb. 25--Prices displayed a drooping tendency in a dull market for stocks here today. Scarcely an active stock in the list resisted the general trend and the close was heavy at or near the low prices of the day. In only one issue, however--Winnipeg Railway--were net losses for the day in excess of one point; the average decline was.

Dominating all other influences was the domestic money stringency, which continues to hold the market in a tight grip, restricting buying power to a point where any selling pressure is disproportionately reflected in a recession of quoted values. Dealings were on a smaller scale than for some days, less than \$500 shares.

C.P.R., Montreal Power, Brazilian, Textile, Cement, Iron and Richelieu contributed the largest totals to the day's business and all of these closed at recessions ranging up to one point. C. P. R. opened 1/2 lower at 230, fell back 1-4, recovered to 230 1/4 and finally closed at 230, the net change on the narrow market being a loss of 1-2. Power held between 222 1/4 and 222, with a net change of 1/4. Brazilian closed one point lower, 114, and showed a loss at 94 1/2. Cement and Iron like losses at 27 1/2 and 53 1/2 respectively, and Richelieu, which opened at 113 1/4 and widened 1/2 per cent, fell back to 113 and closed offered at 113 1/4, with 113 bid, as compared with 114 asked and 113 bid on Monday. Total business 3425 shares, 6048 rights, 1099 mining shares and \$16,000 bonds.

RALLY IN STOCKS FOLLOWS SLUMP
Market Tone Uncertain, With Some Periods of Decided Unsettlement.

MINING STOCKS ARE AEROPLANING AGAIN
Hollinger and Pearl Lake Soar to New Records For Month--General List Strong.

Strength in the specialties was the feature of the mining exchanges yesterday. The trading movement broadened out considerably, and the leaders in the speculation, developed a remarkably buoyant tone under a steady and consistent demand. Hollinger, Pearl Lake and Nipissing were in the limelight, and numerous of the other issues also came in for attention, though so sensational as price swings were not mentioned.

At the top of the day Hollinger stood at \$15.70, up 20 points for the session, and 45 for the week to date. The upturn followed the sending out of the monthly report, a document which proved favorable and inspired considerable optimism in market circles. At the rate at which the company is piling up a surplus and increasing its production, it is felt that it will not be long before a bonus or the present dividend will be paid, and the present enthusiasm is founded on anticipations of that event. The shares closed at \$15.68 bid.

A resumption of the demand for Pearl Lake was readily reflected, the consequent upturn move in the value of the stock plainly evidenced the fact that the exchange had been swept pretty well bare of the shares. The price rose a full 3/4 points to 56 1/2, and at the close the issue was bid for at 56 on the curb, a new high record for the year. The many returns from the vein at the 600-foot level are not yet available, but it is understood that they are proving highly satisfactory. Considerable of the buying is said to be for the account of insiders.

The move in Little Nipissing was inspired by the report that the Pellatt interests would take the company under their wing, and the only important factor in the buying of the shares was the fact that they were selling at 1-3 yesterday, and at the close half a point, and of nearly 100 per cent. above last week's close.

Wetlauffer Down Again.
Elsewhere the market was inclined to dullness, though the trading was well sustained. City of Cobalt, Chambers-Ferland and Wetlauffer were lower, the latter camp being down at 14 1/2. McKinley-Darragh and Rea reached new high levels for the month. Beatty and Porcupine Gold were slightly improved.

MORE ACTIVITY IN MUNRO TOWNSHIP
Deloro Mohawk Company Will Prosecute Development of the Owens Properties.

With the rapid approach of spring there is apparent a revival of interest in gold mining properties up north. Already several sales have been put thru. The Deloro Mohawk Gold Mines Co. report that their trustees have secured the Owens claims, consisting of the south half of lot 11, in connection with the Munro Township. Several claims in this area have been discovered on the lot, one a two-foot vein having been stripped for 1200 feet. The junction of this lead and another three-foot vein in the opposite direction a 35-foot shaft has been sunk on a dome of quartz, and it is anticipated that a big ore body will be located.

The Deloro Mohawk also holds a claim in Deloro Township, in the Porcupine and west of Swastika, patented. The company is capitalizing at \$1,000,000, and about 250,000 shares of \$1 each are still in the treasury, is operating under a Massachusetts charter.

Munro Township is situated east of the T. & N. O. Railway line, almost due east of Porcupine.

GOLD DISCOVERY MADE IN FLAVELLE
Toronto Men Interested in Property Located South of Porcupine Camp.

A gold find of importance has been made in Flavelle Township, south of the Keewatin belt, running parallel with the property owned by Will Rayner. Work had been going on there for two years on a rich silver contact, but no trace of gold values were obtainable. It was held, until a big red quartz vein was picked up. Assays as high as \$240 in gold to the ton were obtained.

Mr. Wakefield of Toronto has taken an interest in the property, and has organized a syndicate to carry on development. Several other nearby have been staked by Rayner and Sande, McIntyre, who discovered the McIntyre and Hughes in Porcupine, and have been taken up by the syndicate, who now hold 360 acres.

The formation is described as cyanite granite, with dykes of schist, porphyry and diabase cutting thru the Keewatin belt, running parallel with the lead. The vein runs in width from 3 to 12 feet, and an average assay of \$43.76 in gold to the ton has been obtained. It is planned to develop the holding in the spring.

The property is reached by the winter road from Swastika, a pasteurizer road. In summer a steamer runs daily from Charlton up Long Lake to within five miles of the claims.

UPS AND DOWNS IN NEW YORK MARKET
Wall Street had another fit of the blues yesterday, and before the market had succeeded in recovering its equilibrium the average of stock prices had dropped to a low since the fall of 1911.

VAGUE RUMORS OVER MORGAN'S HEALTH
London Market Perturbed Again--British Stocks Showed Generally Firm Tone.

TORONTO MEN CAUGHT IN LUCKY JIM CRASH
It is reported in mining circles that several Toronto people have been caught in the drop in Lucky Jim Mining Co., which was touted in the most up-to-date manner through the west last year. The shares recently dropped below low on Toronto exchange, the bottom having apparently fallen out of the market. The property is located about 15 miles from Kelso in the Siccan county in Southern British Columbia, and is not on Lake Winnipeg, as erroneously reported in a Winnipeg dispatch recently. It is a low grade zinc-lead prospect.

CHANCE FOR CROWN CHARTERED
Among the lesser priced mining shares Crown Chartered was active yesterday, selling up to 1 1/8. Around the street it was rumored that another attempt was being made to re-habilitate the company. The corporation is admitted to have one good property, which, if properly developed, should give good results.

FINANCIERS MERITLESS.
LONDON, Eng., Feb. 25--English finance houses at merciles with defaulters. A council of foreign bondholders here, having learnt that the St. Louis Louisiana is trying to float an issue of four million dollars, and that Louisiana is in default for several million dollars.

TOO MANY 'IFS' IN WALL ST. OUTLOOK
Erickson Perkins and Co. (J. G. Beatty) wired: In the present nervous state of traders, many of them are ready to believe almost anything, but if the political situation would clear up, if we could have an early general election, and a due regard for investment interests, the market would soon mend, and unexpected buying power would develop. As we get nearer President-elect Wilson's inauguration and appointment of his cabinet there is bound to be hesitation in the market. This event is only a week away.

A SEPARATE COMPANY.
The officers of the Casey Cobalt Silver Mining Co., Ltd., have notified the World that the Casey Sutton Cobalt Proprietary, Ltd., a notice of whose incorporation appeared on Monday, is in no way connected with the Casey Cobalt, or with the interests identified with it.

LISTED IN LONDON.
LONDON, Feb. 25--The following securities have been listed here: Can. Pac., \$2,000,000 shares; Grand Trunk, \$425,644 guaranteed loans, \$350,000 perpetuities; four; New Westminster, \$228,800 four and a half; Sao Paulo Electric, £1,880,000 five.

PRODUCTION EXCEEDS NORMAL MARK AT THE HOLLINGER

down of a portion of the mill for repairs of a minor nature. Prior to the strike the output ran in the neighborhood of 1900 tons per week, valued at about \$50,000. During the labor troubles which began in November the production dropped as low as 825 tons, valued at \$10,816, that being the record for the week ended Dec. 21.

INCREASING THE OUTPUT.
Mr. Robbins reports that there were 35 stamps running on Feb. 13 and that 40 would be in commission within the next few days. This will increase the tonnage materially. They are working 34 drills per shift.

REGARDING DEVELOPMENT OF THE PROPERTY.
The manager reports that two parallel drifts, for the other, are being driven south thru the low grade ore body which was encountered in the work on No. 1 vein at the 300 foot level. Values in these drifts have been gradually increasing, until they are now from \$16 to \$23 to the ton.

THE STRIKE IN THE CAMP HAS APPARENTLY ENDED.
Mr. Robbins stated that they have 482 men at work and are turning away applicants daily. The president's report shows that the net profits for the six months up to Dec. 31 were \$69,634.95. (This figure was paid in dividends \$220,000, written off plant \$106,223.64, written off development \$12,439.19 and carried forward \$101,801.69. The surplus on Dec. 31 stood at \$351,801.69.)

NEW RECORD FOR PRODUCTION MADE LAST MONTH--SIX MONTHS' PROFITS WERE OVER SIX HUNDRED THOUSAND DOLLARS--EFFECT OF STRIKE HAS PASSED.

The Hollinger has now fully recovered from the effects of the strike of the miners in Porcupine, and has established its production on a basis which should prove highly gratifying to the stockholders of the company. The report which accompanies the monthly dividend cheques shows that during the week Feb. 4 the output passed the \$65,000 mark, which is the highest gross production of the mill to date.

STEADY GAIN IN PRODUCTION.
It will be noted that there has been an almost steady increase in the production. The exception in the week ended Jan. 28 was due to the shutting

IS IT BARGAIN DAY IN WALL STREET?

The recent decline in the prominent railroad issues in the New York stock market has carried many securities down to a level where they appear attractive when judged from the ordinary viewpoint. On the part of earnings and net profits, an excellent opportunity for speculative investment would seem afforded, and it is anticipated that once the air is cleared, Europe will begin buying.

MAY INCREASE DIVIDEND
MONTREAL, Feb. 25--The annual meeting of Montreal Cottons will be held at Valleyfield, Que. tomorrow. It is understood that conditions warrant an increase in the dividend from four to five per cent.

ATLANTIC COAST RAILWAY.
The Atlantic Coast Railway is expected to announce its annual report for 1912, which is expected to show a profit of \$1,000,000.

WETLAUFFER'S NEW POSTOFFICE.
BRANTFORD, Feb. 25--(Special.)--The contract for the construction of the new Brantford postoffice was let today to P. H. Secord & Sons. The contract price is something over \$200,000.

FIRE LOSS AT WINNIPEG.
WINNIPEG, Feb. 25--(Can. Press.)--Fire which started at 2.30 this morning badly gutted the Avenue block on Portage Avenue. While the blaze was confined to the upper stories, considerable damage was done to the contents of the stores on the first floor by smoke and water. The loss was probably \$150,000.
