BOOK ROOM SITE NOW A WHITE ELEPHANT

Methodist Committee, After Bringing in "Scotch Verdict," is at a Standstill Respecting the Erection of the New Publishing House on Queen-John Site.

As intimated in The World yesterday the Methodist Book Room committee was at a standstill respecting the erection of the new publishing house on the Beverley house site. So divergent were the views that the question of proceeding with the building had to be postponed indefinitely. The opposition to the erection of the new conational headquarters, as demonstrated by the influential deputations, led by Rev. C. E. Manning, was so pronounced that the declaration was made to The World by a prominent Methodist yesterday afternoon that the whole project had been blocked, and the committee loaded up with a \$210,000 white elephant at a profit of over \$20,000 to the syndicate for its brief interest in the property.

DANFORTH CARS IN OPERATION

First Civic Street Car Started on Its Journey by Miss Elsie Hocken.

After many months of waiting and expectation, residents in the Danforth avenue district hailed the first civic car with rejoicing yesterday. To Miss Elsie Hocken, the mayor's daughter, fell the honor of turning the controller of the first Danforth avenue car. With Miss Hocken in the vestibule were her father, the mayor, Controller Church, Commissioner Harris and Dr. E. A. McDonald, chairman of the celebration committee. The car was crowded with members of the city council, city hall officials and members of the North Riverdale Ratepayers' Association.

Will Embroil Japan

ROME, Oct. 30.—(Can. Press.)—Commenting on Mexican affairs, The Tribune says that if the administration at Washington proceeds further in its interference, other countries, especially Japan, cannot remain indifferent.

ESKIMOS AIDED BY PARCEL POST

Furs Are Mailed Direct to Retailers Much to the Discomfiture of Big Companies.

WASHINGTON, Oct. 30.—(Can. Press.)—The benefits of the parcel post have extended to the Eskimos, and he is making use of the system of Uncle Sam's aids to cheap transportation to the advantage of his own pocket and the discomfiture of the fur companies.

WALKERTON, Oct. 30.—(Special.)

The federal riding of South Bruce, after being counted for five years in the Conservative column, returned to its allegiance to the Liberal party today when Reuben E. Truax was elected to the commonsense over W. E. Carrill by a majority of 124 in the by-election in 1911 the Conservative candidate, James J. Donnelly, defeated Mr. Truax by 103. Mr. Donnelly's elevation to the senate some months ago created the vacancy.

THE FIRST CIVIC CAR ON DANFORTH AVENUE

FIFTEEN THOUSAND PEOPLE TOOK PART YESTERDAY IN THE CELEBRATION IN CONNECTION WITH THE OPENING OF THE CIVIC CAR LINE ON DANFORTH AVENUE. THE PHOTOGRAPH SHOWS PART OF THE CROWD GIVING THE FIRST CAR A SEND-OFF FROM THE CORNER OF DANFORTH AND BROADVIEW.

TRUAX VICTOR IN SOUTH BRUCE MAJORITY 124 IN HEAVY VOTE

Conservatives Attributed Loss of Seat to Effect of Racial Appeals on German Electors.

LONDON, Oct. 31.—(Can. Press.)—The London papers, in editorials this morning, call the government's attention to the organization of a committee to take up the question of British participation in the Panama Pacific Exposition, and strongly urge reconsideration of its previous decision.

UNITED STATES MAY RESORT TO ARMS TO SUBDUDE HUERTA

Wilson's Policy Will Be Made Known as Soon as Mexican Dictator's Intentions Are Announced.

WASHINGTON, D.C., Oct. 30.—Reports from Mexico and conferences of officials of the administration show the Mexican situation as far as the United States is concerned, to be this: President Wilson has formulated his plan of action. It will be made operative just as soon as President Wilson receives a definite statement from Mexico City as to the results of the elections held last Sunday, and what are the intentions of Gen. Victoriano Huerta, dictator of Mexico.

NOT SO EASILY SCARED

ST. CATHARINES CARRIES HYDRO

By Overwhelming Majority Ratepayers Decide to Join Power Precision—Vote Was Small.

ST. CATHARINES, Oct. 30.—(Special.)—By the overwhelming vote of 715 to 48, the property owners of St. Catharines today carried the hydro-electric enabling bylaw and declared in favor of the money bylaw for an expenditure of \$115,000 for a stepping down plant and distributing system by a majority of 626.

The vote was rather small. The Dominion Power and Transmission Company made no attempt to fight the issue whatever. Had there been an organized contest it is generally believed that the majority would have been still greater, for the ratepayers showed the unpopularity of the company that has had a monopoly of the local situation for so many years by turning down the bylaw to grant a three years' renewal of the street lighting contract to the company, the negative majority being 368.

HUERTA TICKET SWEEP MEXICO

Americans in Troubled Republic Await News From Washington With Great Trepidation.

MEXICO CITY, Oct. 30.—(Can. Press.)—With the election of Gen. Victoriano Huerta and Gen. Aureliano Blanquet almost a foregone conclusion, according to the official returns, the question as to what Washington proposes to do is keeping the foreign residents and the majority of Mexicans in a state of painful suspense.

ST. JOHN'S, Nfld.—(Can. Press.)—The first returns from the general election are expected tomorrow morning. The betting favors the reelection of the government by a reduced majority.

HONEYMOON TRIP INTERRUPTED BY DEATH

Robert W. Chalkey, Jr., Took Appendicitis Four Days After His Marriage and Died in London Hospital—His Mother Had a Premonition of His Death.

Particularly tragic was the death of Robert W. Chalkey, Jr., in London, Ont., early yesterday morning. Stricken with appendicitis four days after he had set out on his honeymoon, he was operated upon, but not in time to save his life.

DIED ON HONEYMOON

ROBT. W. CHALKEY JR. of Toronto, who died in London, Ont., of appendicitis, while on his wedding trip. In a position to do so as he would bring them to Canada. He sent for them about 15 months ago, and upon their arrival in Toronto established them in a home at 135 Van Horns st., where he lived with them until his marriage.

TEN MINUTE FLURRY OF COLD, COLD SNOW

The warning to get out winter wraps and prepare the stoves and sleighs for the cold weather was given last night, when for the first time this year, snow fell in Toronto. Those who chanced to be out at 11.30 p.m. noticed a slight snow flurry. It did not last long, however, continuing for about ten minutes.

"KEEP OUT" OFFICIAL WARNING.

WASHINGTON, Oct. 30.—(Can. Press.)—Americans desiring to go to Mexico will receive no assistance or encouragement from the administration. This became known today when President Wilson declined to grant the request of Representative Mann of Illinois, Republican leader in the house, that the United States Sugar Co. be permitted to send a number of engineers, chemists and other employees to its plantations at Topolobampo Bay on the next government supply vessel going down the Pacific coast.

ELECTIONS IN NEWFOUNDLAND.

ST. JOHN'S, Nfld.—(Can. Press.)—The first returns from the general election are expected tomorrow morning. The betting favors the reelection of the government by a reduced majority.

ARMY OF BAILIFFS CANNOT GET MOYES

Sheriff Mowat Failed to Produce Ex-President at West Shore Railway Probe.

BROTHER IS IGNORANT

Investigation Adjourned for Three Weeks—Moyes May Know Where Money Went.

Farmers in the Counties of Huron and Bruce, who by reason of standing behind the bonds of the Ontario West Shore Electric railway have been forced for a long time to delve deeply into their pockets to meet the accruing interest seem to have little hope of any immediate relief. Another postponement of the long-deferred investigation before the Ontario railway board took place yesterday because of the absence of W. Moyes, the ex-president, who, it is claimed, alone knows the whereabouts of a large sum of money which did not appear in the actual construction work.

For weeks the municipalities on the advice of the board have been endeavoring to place a subpoena upon Mr. Moyes to require his presence as a witness. It was brought out in remarkable fashion at the brief sitting yesterday that he had evaded a small army of bailiffs who had camped about his residence for hours at a time, and that he had made his headquarters in a place unknown to them. According to the evidence of Sheriff Mowat of Toronto, he has been trying to avoid the service of the subpoena. The attitude of the board is that it was to the interest of Mr. Moyes to clear up the matter and that the purpose of the enquiry was blocked until he should appear.

The strange part about the whole affair is that for the better part of a week Mr. Moyes was in the city in connection with the local street railway purchase and that no serious efforts had apparently been made at the time to serve the subpoena. Wm. Proudfoot, K.C., acting for the municipalities, sought an adjournment until Nov. 20, in the hope of yet bringing him before the board. Failing that, he will produce other witnesses, although it was acknowledged that these were of little account without the minute books which the president is supposed to hold.

CHIEF OF POLICE GIVEN DISMISSAL

Gummerson Says He'll Sue Port Hope Town for Breach of Contract.

FORT HOPE, Oct. 30.—(Special).—At a special meeting of the town council tonight a resolution to dismiss Chief of Police Gummerson on the ground of incompetency was carried by a vote of five to one. Councillor Hayden being the lone dissenter. At a meeting on Oct. 21 Mr. Gummerson was asked to resign and as he ignored the request, summary action was taken on motion of Councillor Sheriff, seconded by Councillor Manly.

Mr. Gummerson was appointed on May 5 last, coming from Copper Cliff, where he was chief of police. He had previously been on the Toronto police force for many years. It is stated that he will sue the town for damages, alleging wrongful dismissal in violation of contract.

TWIN STEAMER TO EMPIRE'S LARGEST

James Carruthers Must Soon Share Her Distinction as Biggest Freighter.

A sister ship to the James Carruthers, the largest bulk freighter in the British Empire, is to be built for the St. Lawrence and Chicago Steam Navigation Company. Word to this effect has been sent out to the shareholders of the company. The remarkable growth of Canada's wheat output and the consequent heavy grain traffic on the lake freighters is the reason the new vessel is to be constructed. As is the case with the James Carruthers, the new boat will have a wheat carrying capacity of nearly 400,000 bushels. This amount of grain would require a train of cars more than three and a half miles long to carry it.

On the other hand the principal stated that he retired of his own free will because the system did not meet his wishes.

U. S. WILL PROTECT FRENCH COLONISTS

Squadron Will Keep Watch Over Refugees in Lower California.

WASHINGTON, Oct. 30.—Acting Secretary Roosevelt today instructed Rear Admiral Cowles, commanding the American squadron on the west coast of Mexico, to proceed as far as he deemed it practicable in protecting French colonists, said to be in peril in San Ignacio, in Lower California. Earlier instructions by the state department were based on information that the French colony was in San Ignacio, Sinaloa, but it became known today that the refugees who desire protection are in Lower California.

PART TIME SCHOOL SYSTEM GREAT SUCCESS, SAYS REPORT

First Book Scholars Gained in Health and Strength, Learned Lessons More Quickly and Teachers Were Able to Show Better Results Under It.

Advocates of part time instruction for first book scholars at the public schools are delighted with the success of the experiments in Toronto. They are especially encouraged by the report of Inspector Rogers, in whose district the part time classes are being held.

Inspector Rogers' report, which has just been presented to the management committee, deals fully with the various phases of the experiment. "This system was introduced into three schools about the first of May, and it was intended to try the plan in several localities so as to obtain a basis for the future."

Each class was divided into three divisions, a, b and c, for the purpose of grading the children, and for the performance of personal work. Each teacher spent half of each half day in the classroom and taught one division of her own class.

Indoor Exercises: "The work in the classroom consisted of reading, arithmetic, writing, as well as drawing and singing."

Outdoor Exercises: "The work in the open air consisted of play directed by the teacher, new games directed, or games devised by the children themselves; basketball, skipping, running and jumping, and also regular races, digging in sand, tunneling, ditching, making mountains and lakes, rivers and islands; physical exercises and marching; correlated reading, drawing, making work-papers-cutting and paper-folding, carrying the handwork necessary to carry on the games and sports mentioned above; nature study, geography, arithmetic; making wreaths of flowers, wreaths of clover, maple leaves, etc. No stated timetable was used out of doors, but the work or play changed naturally as occasion required."

Results: "Mrs. M. H. Kerr, one of the teachers in charge of part time classes, says: 'Two epidemics—chickenpox and measles—had devastated our classes during the year; children at this time were in poor health and backward in their work. Fresh air and play welcomed by all concerned, including the mothers of the many who had been ill. Children in our classes being so small have little opportunity to play together at recess, as they do not dare venture into the noisy throng of older ones, and spend their time in friendly corners or against the wall.'"

"Strong children entered in aid led in the games at once, whether organized by themselves or by the teacher. The timid ones followed, shy at first, but were soon as eager and bright as the rest and soon become leaders themselves, thus giving them a chance to feel that they could lead. If only in play, in games or in sandpile."

"Educationally the methods proved a success—the children kept in for work worked with vigor, knowing their time was short and playtime near. Those sent in came with rosy cheeks, bright eyes and ready minds to take in their share—and soon everyone was making progress. Attendance better till end of term than usual."

"Each class was divided into three divisions, a, b and c, for the purpose of grading the children, and for the performance of personal work. Each teacher spent half of each half day in the classroom and taught one division of her own class. The other teacher was out doors with the other two divisions as well as her own class. Thus each division spent about two half-hour periods, or one hour, in school each day, the rest of the day was spent in the yard or in Exhibition Park, or some open space where they could enjoy the benefits of good air and exercise and sport."

Thus each division spent about two half-hour periods, or one hour, in school each day, the rest of the day was spent in the yard or in Exhibition Park, or some open space where they could enjoy the benefits of good air and exercise and sport."

Each class was divided into three divisions, a, b and c, for the purpose of grading the children, and for the performance of personal work. Each teacher spent half of each half day in the classroom and taught one division of her own class. The other teacher was out doors with the other two divisions as well as her own class. Thus each division spent about two half-hour periods, or one hour, in school each day, the rest of the day was spent in the yard or in Exhibition Park, or some open space where they could enjoy the benefits of good air and exercise and sport."

EFFICIENT HOUSEKEEPING BY HENRIETTA D. GRAUEL DOMESTIC SCIENCE LECTURER

Something About Dry Cleaning and Dyeing. For years women have wondered why they were unable to get the same results from home cleaning methods that professional cleaners secure.

When dry cleaning, use plenty of liquid and wash the white articles first, then the tinted things and lastly the dark colored ones. The gasoline that remains after cleaning need not be thrown away unless very dirty.

THE GHOST BREAKER

(Continued from Yesterday.)

His shoes now absorbed his attention. The new, their toes had turned up like shoes from bending in the trunk jostling the mirror. He surveyed the total wreck of his evening clothes.

"Lord Harry, is that you?" he asked his reflection in the mirror. On the bed lay his fur overcoat, which he dozed and remarked, "All I need now is a hat." The rules of the game, he was of course "impossible."

"If Rusty gets here before that other fellow, Jarvis will be in a bad way," Jarvis thought. He stepped to the telephone, asked for Mr. Jarvis' room and found it busy. He stepped to the door, unlocked it and looked into the hallway.

"Give me that hat and I'll tell you all about it later," he put the hat on, looked at it and started to dress him. "The Duke of Alva is on this boat, I know it. He will be here in the afternoon."

"That's Rusty," replied Jarvis, smoothing one of the princess' hands on his arm and rather liking it. Again the sepulchral voice: "So am I," came a doleful, sepulchral voice as if from beneath the floor.

"Gentle Mary, preserve us," gasped the princess in Spanish, "what is that?" "That's Rusty," replied Jarvis, smoothing one of the princess' hands on his arm and rather liking it.

"How long have I got to stay cooped up in here?" "My father, he will be here in the afternoon," Jarvis said. "I will be here in the afternoon."

Planting Easter

Easter lilies require expert attention other of the ordinary dowers. These lilies need to be raised in a special way. The preparation of the soil is of the utmost importance. The soil should be rich and well drained. The lilies should be planted in a sunny position. The soil should be kept moist but not waterlogged.

GENERALITIES CANNOT DOWN REPORT OF EXPERT VALUATORS

Absurd That Men Who Never Weighed an Ounce of Wire or Measured an Inch of Steel Should Be More Expert Than the Experts—What Lies Behind!

All the contentions of The Globe and The Telegram, in their crusade against accepting the opportunity to clean up the franchises now based upon the inexcusable nature of the city paying for the properties the value placed upon them by the expert valuers. The Globe and The Telegram keep on insisting that they are more expert than the experts in valuating the properties notwithstanding that the experts actually valued the properties, and The Globe and The Telegram never measured an ounce of wire, steel or weighed an inch of steel. It is reasonable to assume that The Globe and The Telegram are inconsistent and are deliberately so.

Why do The Globe and The Telegram refuse to give any consideration to the interests of the retail trade in this city? They dare not contend that the betterment of the retail trade in Toronto will not be the most valuable result from the clean up of the franchises. They full well know that the retail trade of the city would be speedily increased by the clean up of the franchises. They refuse to discuss that fact. Why?

A Most Valuable Asset.

If The Globe and The Telegram conceded that the clean up of the franchises would result in the building up of an immensely greater retail trade in this city, they would be forced to concede as well that the interests of the retail trade must be given a broader consideration of the value to the city of the properties at the price required. Their present inconsistent position would overwhelm them.

All over the civilized portions of the world people have come to the realization that improved transportation is the greatest force for the increase of retail trade, and that a well-developed radial system is one of the most valuable assets a city can have. The people of Toronto have not to be told that they are away behind the times in not having a radial system. They have not to be told that Toronto cannot have a full radial system until entrance is given to the centre of business in the city. They have not to be told that the radials cannot get entrance to the business centre under present conditions. They have not to be told that a clean up of the franchises is the only way in which the development of a radial system is possible.

A City in Irons.

The people of Toronto know the condition of transportation affairs in the city—the intolerable congestion, the shackles on expansion, the deadlock over development of a radial system. They also know now that The Globe and The Telegram are endeavoring to maintain the intolerable congestion, the shackles on expansion, the deadlock over the development of a radial system, and the barrier to the natural growth and increase of the retail trade of the city.

While The Globe and The Telegram keep fussing and fuming over trying to prove that they are more expert than the experts at valuation of properties, they are nothing more than obstructionists to the increase of the retail trade of the city. In their obsession over their prowess in accounting they became a nuisance to the citizens who are endeavoring to emancipate Toronto from dependence upon trade from territories that have frequent ups and downs.

What is the Answer?

Toronto will never have her full share of the retail trade to which she is entitled by her geographical position until she exploits the resources of the immediate contributory territory. To accomplish this a radial system is necessary. A radial system will speedily follow a clean up of the franchises. The Globe and The Telegram know this. Yet they are in opposition. Why?

Planting Easter Lily Bulbs for Next Easter.

Easter lilies require more constant and expert attention than almost any other of the ordinary bulbs raised in domestic gardens. This statement need frighten no one who may feel a desire to raise a healthy specimen on their own account.

These lilies need a long, long time in which to wake up, and commence the preparation within themselves for the putting forth of roots. This is not by any means an easy task to perform, and it is necessary to prepare your Easter lily bulbs now, in October. Indeed, could we have reached the subject of the most valuable and certain have done so, because even now, the time is flying, and Easter bulbs must be planted now. If they are not already in the earth, they are not ready for your large earthen pots. Earthen pots are by far the best to use for this and all other such purposes. Fancy vessels are not at all suitable, since the ordinary stuff on the inside as well as on the outside of such does not permit of a proper drainage, nor of a sufficient passage of air currents, very necessary for the well-being of plants.

Put plenty of charcoal at the bottom of your pots. It is a wise plan to sift some fine wood ashes over the bulbs, and then cover them with coarse sand. A layer of rough, strawy manure, well rotted, will fill up with rich black earth, and water very sparingly, for the present.

These Easter lily bulbs are very subject to the attacks of insects,

which enter the body of the bulbs, burrow upwards, multiply with amazing rapidity, and ultimately prove the death of the plant. The question is how to tell when this unfortunate trouble develops. We may say that before the danger becomes known, the whole bulb may be a mass of wriggling insects. Examine your bulbs carefully before planting them. Even washing them before planting, with warm water, is a good plan. Do not let fresh

ARSON IS CHARGED AGAINST BROTHERS

BROCKVILLE, Oct. 30.—(Special.)—Joseph and Anthony Belfoy, brothers, are in jail on remand, charged with burning the barn and outbuildings of Maxime Lortie, a local gardener.

Three different fires occurred on the Lortie premises, two of which were extinguished. The third got beyond control, and the structures were entirely consumed, with contents, including one horse. Lortie carried no insurance.

There were unmistakable evidences of incendiarism, and the Belfoy brothers are alleged to have made threats against Lortie for having them arrested some time ago for a street brawl.

GIRLS' HOME NOW FREE FROM DEBT

Balance on Hand is More Than Two Thousand Dollars. ANNUAL MEETING HELD

Wm. Stone Thanked for His Efforts in Clearing Off the Debt.

The 57th annual meeting of the Girls' Home at 228 Gerrard street, was held yesterday afternoon. The eighty or more little girls of the home looking neat and well-cared for were present in charge of members of the staff and sang several selections. Sir John Gibson presided and Lady Gibson presented by a bouquet of pink roses.

After a few encouraging words from the lieutenant-governor reports were read showing that 82 children were in the institution; 52 had been taken in during the year and 56 had been discharged. Mrs. Beattie, corresponding secretary, read several letters from girls now living in foster homes. There are 31 of these wards of the home in all.

The capital account as shown by the report of the treasurer of the year, balance of \$2,400.65, while that of last year was only \$403.90. In the maintenance account the balance is \$268.11, last year it was \$165.60.

The medical report showed that there had been very little illness during the year and Miss Elight, the matron, and her staff, came in for much commendation for the efficiency with which the work of the house is carried on. The medical report was read by William Stone, who from himself and friends collected \$2,000 towards its equipment.

Rev. Mr. Sullivan took the chair when the lieutenant-governor had withdrawn. Tea was served and the house opened to the visitors at the close of the business meeting.

The Toronto World

FOUNDED 1850. A morning newspaper published every day in the year by The World Newspaper Company of Toronto, Limited; H. J. Maclean, Managing Director.

FRIDAY MORNING, OCT. 31.

SENTRIES WHO SLEEP AT THEIR POSTS.

Our remote but by no means unfriendly contemporary, The Moose Jaw News, has something to say about "The Toronto World On Free Wheat."

Suppose that a difference of 1 1/2 or 2 cents per bushel should result, transportation charges would reduce this considerably.

Our impression was that wheat could be as cheaply delivered from points in Saskatchewan to Minneapolis and Duluth, as to Winnipeg and Port Arthur.

But why does the American farmer get a higher price? Is it not entirely due to the fact that it costs the American producer less to get his wheat to the ultimate market in England, than it costs the Canadian farmer?

It is not true as a matter of fact that freight rates in the western states are lower than the freight rates in western Canada?

We can scarcely doubt what the answer will be, because The News goes on to say that freight rates are too high in the west, and that relief must come either from the railway commission or from parliament, and we are told:

On the subject of freight rates The News heartily supports the contention of The World. But reductions are hardly to be looked for thru the mere entrance of railways into the Canadian field.

We should think that better service and possibly better rates would be most desirable, and if they can be obtained thru American railway competition, by taking off the wheat duties, why should they not be obtained immediately?

One should not have far to seek in order to find the motive which prompts The World to advocate a measure which promises to relieve the farmers of the west from discriminatory, and extortionate freight rates.

The truth is that the value of The World's opinion is impaired by the fact that it is waging a personal war with the C. P. R., and this colors all its views on matters in which the company's interests are affected.

As for The News, it views the situation entirely from the standpoint of the general advantage, irrespective of the corporations. But knowing something of the motives that inspire The World's agitation, it receives that journal's statements with a grain of salt.

million dollars were diverted from the purposes of the enterprise, to the pockets of the shareholders, and an unnecessary burden of two million dollars a year fastened upon the road as a fixed charge for all time to come.

The News made a good fight against reciprocity, and perhaps fears to be accused of inconsistency if it now favors free wheat. We venture to think, however, that it would rejoice if the government tomorrow removed the duty on wheat and flour.

For THE GLOBE'S ACCOUNTANT. The Globe thinks that the price of shares of the Toronto Railway Company is a fair criterion of the value of the stock as a whole.

The Globe maintains its view that The World is wrong in thinking that allowance has been made by Mevred Arnold and Moyes for an improved service in their estimated discounting of the net profits of the road.

It is assumed that the investment necessitated by this additional tonnage will be made within the next five years. The new capital necessary is shown by Table V, and represents an investment of \$7,100,000 within the next eight years, or an average investment of new capital of \$887,500 per annum, which amount is in addition to and entirely distinct from the moneys which must be expended to maintain the property now existing in a satisfactory manner.

Will The Globe please kindly explain to us what it makes of this passage? The Globe assures us that the experts make none of the allowances they speak of here. Which statement are we to believe? If the Globe will show us where we are wrong and where the experts have deluded themselves we must give up the view that there will be a cash surplus of \$10,700,000 odd out of the net profits.

One should not have far to seek in order to find the motive which prompts The World to advocate a measure which promises to relieve the farmers of the west from discriminatory, and extortionate freight rates.

DEMAND VOICE IN IMPERIAL AFFAIRS

New Zealand's High Commissioner Makes a Blunt Statement.

LONDON, Oct. 30.—(C. A. P.)—Speaking at the Cutlers' feast at Sheffield, Hon. Thomas Mackenzie, New Zealand's High Commissioner, said his opinion was that until we could first weld together the various portions of the empire in some common council we should never weld together one truly imperial fleet.

So Contended Radial Railway, But Law Lords Held Otherwise. LONDON, Oct. 30.—(C. A. P.)—Arguments in the appeal to the privy council in the Toronto and York Radial Railway versus the Corporation of the City of Toronto, in which judgment yesterday was reserved, were presented by Sir Robert Finlay, C. A. M. and Geoffrey Laurence, the appellants contending that the respondents' right of appeal was barred, seeing that they knew for 11 months that work was proceeding on the right of way complained of.

THE METROPOLITAN FRANCHISE. The Globe remarks that the Metropolitan franchise is worth very little in the face of yesterday's judgment of the privy council. Who writes The Globe's editorials anyway? There was no decision, judgment being reserved. But the decision, apparently coming, according to the despatch, confirms the perpetual franchise on Yonge street of the Metropolitan Railway. Is this worth nothing? We think it unfortunate that The Globe should adopt a tantamount attitude in a matter involving so deeply the interests of the citizens.

FIFTY GRADUATES IN CIVIL SERVICE

Hon. James Duff Defends Policy of Department Against Liberal Attack.

WHY RELY ON ROWELL? When Ross, Mowat and Hardy Successively Promised Temperance Reform.

ALTON, Oct. 29.—(Special.)—Hon. James S. Duff, minister of agriculture, was the chief speaker at a very enthusiastic meeting in the interests of James R. Fallis, Conservative candidate in Peel, held here tonight.

Mr. Duff dealt with the temperance question as well as other phases of the government's record. He recalled that Hon. G. W. Ross had solemnly promised prohibition as had done his predecessor, Sir Oliver Mowat, and Hon. A. S. Hardy before him.

TRUAX VICTOR IN SOUTH BRUCE

(Continued From Page 1)

hour before the polls closed in Walkerton practically every vote was in. Both sides were well organized and automobiles played a big part in getting out the vote.

The Conservative losses were most marked in the Townships of Brant, Carleton Place and Eiderdale and Huron Township. The Conservative candidate made a big gain, but Greenock and Kinloss showed small losses.

Swung German Vote. Carleton Township was a notable battleground in the campaign. Its population is almost wholly German. It was here that the race appeal of the Liberals was made with very marked effect.

Defeat Early Conceded. Conservative workers began to gather at the party headquarters shortly after 5 o'clock. One of the Walkerton polls came first with a majority for Mr. Truax somewhat smaller than in 1911.

Appeal to Creeds. In addition to the race appeal to the Germans there was, it is alleged, a creed appeal made in at least two ways. At certain points Liberals, it is asserted, made use of the Ne Temere decree as a weapon of attack.

Rugby Varsity, McGill and Tigers to Win Easily

ARGONAUTS AT OTTAWA

Cadets Reported in None Too Good Shape to Meet Varsity

McGill Taking No Chances Against Queens—Tigers Expected to Make Quiet Lunch of Montreal—Rugby News and Gossip.

Cadets reported in none too good shape to meet Varsity McGill taking no chances against Queens—Tigers expected to make quiet lunch of Montreal—Rugby news and gossip.

Coach Jack Newton has his Argonauts ready for the fray at Ottawa and they were given their final work-out last night. Just what will start for the Argonauts is not known for the Argonauts' officials have not decided on the line-up. Binkley and O'Connor will compose the back row, but this is as far as Coach Newton will commit himself. Matt Ginter is coming around nicely.

Harry Griffiths came over from Ridley to give the Varsity squad their final drilling for the R.M.C. game on Saturday and it was a peppy workout with nobody spared. Pete Germain will be in the middle wing and Buck Pearce will be in the scrum on Saturday. If Pete Campbell fails to face the issue Blackstock will hold down the quarter back job.

Ottawa's line-up for Saturday will likely be Halves, Quilty or Boucher, Macdonald or Becker, Grier, quarter, Snelling, scrum, Sullivan, Holly, Cassels; inside wings, Emmerson, Vaughan, middle wings, Megounchin, Elliott; outside wings, Tubman, Gilligan, Stronach; Bert Stronach is back practicing and if he stays here is the team and would play at outside wing position.

Jarvis thirds played Upper Canada three yesterday, the latter winning 21 to 6. High Park claim their senior city team may be weakened for Saturday by the absence of Captain Chilcott, who is laid up with a bad ankle. The team in the exhibition game with Hillcrest last Saturday. Another argument against playing exhibition games is that it interferes with the regular schedule season. Better out it cut until the championship has been decided.

Instructions have been issued from the City Rugby League headquarters to the effect that all games must be started sharp on time. In the case of double games being played on the same grounds in the one afternoon, the first game shall start not later than 3:30 o'clock, so that the second match may get under way not later than 5:30, so as to enable the last game to be finished up before darkness intervenes. This decision has been arrived at owing to the fact that the playing period without darkness intervening. The management of the respective clubs are asked to pay particular attention to the above notice, as it will save trouble in the future in the matter of protests, etc.

Parkdale "B" beat Harvard 11 to 0 at Parkdale campus last night. Home, Grier and Leeming were stars for the winners. Captain senior city team will practice at Jesse Ketchum Park tonight at 7:30. All players are requested to be on hand on Saturday. The team will play on Saturday in the game against Argonauts in order to make the playing period without darkness intervening. The management of the respective clubs are asked to pay particular attention to the above notice, as it will save trouble in the future in the matter of protests, etc.

Not only will the Ottawa Football Club present several shifts on its line in Saturday's game against Argonauts in order to make the playing period without darkness intervening. The management of the respective clubs are asked to pay particular attention to the above notice, as it will save trouble in the future in the matter of protests, etc.

SCHOOL AND DENTS WITH THEIR GAMES

Junior Arts and St. Michaels Defeated in Mulock Cup Games—The Standing.

After both teams had furnished a poor brand of the great fall game in the first half, Junior School came thru with some sterling football after the rest and defeated Junior Arts 3 to 1 in a Mulock Cup game on the back campus yesterday afternoon.

All the scoring was done in the first half, but it was not until the second half got under way that anything at all was shown. The School backs did some pretty running and booting in the last half and developed into nice struggle, with the play close at all stages.

The teams: Junior School (8)—Flying wing, Rose; halves, Whaley, McLaren, Longworth; quarter, Belton; scrum, Schoubert, Young, Subbaraj; insides, Hughes, Taylor; middles, Bow, Webb; outsides, Agate, Smythe.

Junior Arts (11)—Flying wing, Ferris; halves, Poupore, Phillip, McLaren; quarter, Belton; scrum, Schoubert, Young, Subbaraj; insides, Hughes, Taylor; middles, Bow, Webb; outsides, Agate, Smythe.

The Mulock Cup standing, corrected to date, is as follows: Group A. Won. Lost. To Play. Senior Meds. 3 0 1. Junior Arts. 2 1 1.

Group B. Won. Lost. To Play. Junior School. 3 1 0. Junior Meds. 2 1 1. Junior Arts. 2 1 1.

Group C. Won. Lost. To Play. Trinity. 2 1 1. Knox. 2 1 1. Wyckoff. 0 3 1.

BRITISH LADIES DISPLAY SPLENDID BRAND OF GOLF

Miss Dodds and Geo. Lyon Easily Defeat Miss Ravenscroft and W. A. Griffiths in Cold, Raw Day at Lambton—Miss Harrison of Ireland and Miss Pooley of British Columbia Also on the Links.

Four of the greatest lady golfers in the world graced the Lambton Golf links yesterday with their presence, and they performed against the best men players that the club could secure. The touring English lady golfers—Miss Dodds, Canadian and English champion; Miss Ravenscroft, American and ex-English champion; Miss Harrison, Irish champion; and Miss Pooley of Victoria, B.C., who has been runner-up in many tournaments in the last few years. These four played four ball matches with Geo. Lyon, W. A. James, J. C. Breckenridge, W. A. Griffiths and Mr. Robinson.

Mr. Lyon, with Miss Dodds as his partner, met Miss Ravenscroft and Mr. Griffiths in a thirty-hole match, and Miss Dodds and Mr. Lyon finally won by the score of 11 up and 3 to 0. The match was played as a four-ball mixed foursome and a point was given for the best ball and also for winning the hole, so that a win meant two points every time.

It was very disagreeable weather for golf, and the ladies especially felt the cutting breeze. In fact good golf under the circumstances was impracticable and the cold frightened away all but about fifty of the most ardent enthusiasts, the circumstances being impracticable and the cold frightened away all but about fifty of the most ardent enthusiasts.

DUNLOP TROPHY RACE FOUR TEAMS ENTERED

The Dunlop Trophy race will be run Saturday, Nov. 1, over the following course:

Two laps around the track, out of the gate to Broadview, north on Broadview to Danforth, east on Danforth to Greenwood, south on Greenwood to Gerrard, west on Gerrard to Logan, south on Logan to First Avenue, west on First to Broadview, south on Broadview, and in through the gate of the field, and one lap on the track.

Teams are already entered from Toronto Central, Toronto West End, Toronto Broadview, Hamilton Central, and it is expected that there will be another outside team. The race is over a five-mile course. Teams consist of six men, first four to count. This year it promises to be extremely interesting, due to the fact that for the first time in some

years teams are entered from outside the city. The race was won last year by the Broadview Branch, who now hold the trophy, and they are making strenuous efforts to retain it. Toronto Central have won it twice, and if they can win it the third time it becomes their property. They also are working hard to win in order to make it the first trophy to adorn their new building. The race will be started at 3.30 p.m. sharp, the half-time period of the Rugby game. This Rugby game is for the Y.M.C.A. championship between Central and Broadview, and it promises to be a very hard fought game. Central are in the Intermediate Interprovincial and Broadview in the Junior O.R.P.U.

The Hamilton team for the Dunlop will consist of the following men: J. Lightman, J. Trissler, G. Richardson, T. Phillips, T. Herbert, J. Hill.

CONTINUOUS RACING MAY TO SEPTEMBER

Canadian Racing Associations Announce Their Dates for Coming Season.

The admission of the new Dorval and Connaught Park Jockey Clubs to full membership in the Canadian Racing Association makes it possible to hold continuous performances in Old Ontario from May to September. Montreal is of course in the same business merely a step outside the province. While there is an odd open date in a few cases the meeting overlap. The Ontario Jockey Club get their same weeks as in 1912, opening and closing the season at Woodbine Park. The seven weeks with 14 days each will provide 98 days of solid entertainment from May 15 to Sept. 15 on the C.R.A. tracks the coming season.

The half millers as usual will slip in when the horses are at the other places. So taken all in all the Miller bill has surely left nothing to be desired by the followers of the sport.

At a meeting of the Canadian Racing Associations held yesterday the following dates were allotted for the year 1913:

Ontario Jockey Club, Toronto, May 23 to 30.
Montreal Jockey Club, May 30 to June 6.
Connaught Park Jockey Club, Ottawa, June 6 to 13.
Hamilton Jockey Club, June 25 to July 2.

Niagara Racing Association, Port Erie, July 4 to July 11.
Windsor Jockey Club, July 18 to July 25.
Hamilton Jockey Club, July 27 to Aug. 3.

Niagara Racing Association, Aug. 5 to Aug. 12.
Windsor Jockey Club, Aug. 15 to Aug. 22.
Connaught Park Jockey Club, Aug. 26 to Sept. 2.

Dorval Jockey Club, Sept. 5 to Sept. 12.
Dorval Jockey Club, Sept. 14 to Sept. 21.
Ontario Jockey Club, Sept. 15 to Sept. 22.

A resolution was passed whereby all tracks in the C.R.A. must use the pari-mutuel system for 1913, in which year the associations will refuse the use of their tracks to all bookmakers. Besides the C.R.A. tracks will be the needs of all other tracks in 1914, viz.: Blue Bonnets and Dorval.

KING AND QUEEN AT NEWMARKET RACES
LONDON, Oct. 30.—Cambridgehire Day at Newmarket will be memorable in the history of the turf as being the first occasion on which the Queen attended its headquarters. The Queen accompanied the King and the Royal couple took a keen interest in the sport. The big handicap was won by Lord Chester at 100 to 1, from "Satan" Cheertail, at the same price, with "Satan" at 100 to 1, third.

Had any other horse than Cantilever won nobody would have been much surprised, as the event was so open, but the victory was cast out with practically an unknown jockey named Southern on his back to make all the running and to beat the favorite.

The Dewhurst Plate of 300 sovereigns added, seven furlongs, for two-year-olds, was run today at Newmarket, as follows: 1. Kenenmore, 4 to 1, 2. Torcyr, 2 to 1, 3. Carrickfergus, 100 to 1. Also ran, Black Walnut, Tomlin, Ladybridge, Souleque, 100 to 1.

The Jockey Club Stakes at 2 1/2 miles of 500 sovereigns was run today as follows: 1. Aleppo, 5 to 2, 2. Rivoli, 5 to 6, 3. Cylba, 4 to 1, only three ran.

FENCING QUARTERS. AT NEW Y.M.C.A.
During the opening week of the new Central branch of the Y.M.C.A. interest has been taken in the new fencing quarters. Several Italian, French and Swiss fencers have expressed their approval of the splendidly equipped fencing room provided at the new building.

Many enquiries have come in regarding fencing instruction, and it looks like a busy season and in anticipation of such the club have arranged for two additional soft fencing mats, making in all five fencing mats. The bayonets are of modern design, and are expected to reach the club room in a few weeks. A special prospectus outlining the fencing game and its advantages, etc., will be mailed to any one who applies if addressed to the fencing club of the Y.M.C.A. Central Branch.

Elementary classes commence Tuesday, Nov. 4. Advanced classes commence Friday, Nov. 7. At 3 o'clock Tuesday and Friday night will be for special instruction. Club room open to members on other nights.

HOW CANAL WORKERS LIVE
 A Typical House of the Sort Assigned to a Young Married Engineer Receiving \$300 to \$400 a Month

By WILLIS J. ABBOT, Author of "Panama and the Canal in Picture and Prose." Copyright, 1913, Syndicate Publishing Co., New York. All rights reserved.

Visitors to towns like Ancon and Culebra are always delighted with the spacious houses furnished to the canal employes of the higher grades. At night they are peculiarly attractive, with the broad screened piazzas, usually banked deep with palms through which electric lights in pearl-colored shades gleam softly. The type is one especially developed by our Isthmian commission, and has won the admiration of men used to life in the tropics.

Try to figure to yourself the home of a young engineer as I saw it. The house is two stories with a porch which is nearly surrounded by a shining white. The broad verandah by which it is nearly surrounded is in shining white. Between the posts is wire netting and behind a piazza probably 12 feet wide, which in that climate is as good as a room for lying, sitting or sleeping purposes. The main body of the house is oblong, about 50 feet long by 30 to 40 feet deep. A living-room and dining-room fill the entire front. The hall instead of running from the front to the back of the house, as is customary with us, runs across the house, back of these two rooms. It is in no sense an entry, but it has a door opening from the garden, and separates the living-rooms from the kitchen and other working rooms. The stairway ascends from this hall to the second floor, where two large bedrooms fill the front of the house, a big bathroom, a bedroom and the dry-room being in the rear. About that last apartment let me go into some detail. The climate of the zone is always rather humid, and in the rainy season you can wring water out of everything that can absorb it. So in such a house is a room kept tightly closed, with two electric lights in it burning day and night. Therein are kept all clothes, shoes, etc., not in actual use, and the combined heat and light kept constantly to dispel the damp. By way of quieting the alarm of readers it may be mentioned again that electric lights are furnished free to Isthmian commission employes. "We always laugh," said a hostess one night, as she looked back at my darkness room in her house from the walk outside, "at the care people from the States take to turn out the lights. We enjoy being extravagant and let it burn all day if we feel like it."

In such a house there is no plaster. From within you see the structure of the house—uprights, joists, stanchions, floor beams, all—and the interior is painted as a rule precisely like the exterior without the white trimming. You don't notice this at first. Then it fascinates you. You think it amusing and improper to see a house's underpinning so indecently exposed. All that we cover with laths, plaster, casework and wall paper is here naked to the eye. Only a skin of half-inch lumber intervenes between you and the outer world, or the people in the next room. You notice the windows look strange. There is no sash. To a house of the sort I am describing four or six glass windows are allotted; to be put in the offices the housekeeper may select. The other windows are unclosed except at night, when you may, if you wish, swing heavy board shutters across them.

A house of the type I have described is known as Type 10, and is assigned to employes drawing from \$300 to \$400 a month. Those getting from \$200 to \$300 a month are assigned either to quarters in a two-family house, or to a small cottage of six or seven rooms, tho, as the supply of the latter is limited, they are greatly prized. Employes drawing less than \$200 a month have five-room flats in building accom-

The Philosopher of Folly
 HOLLOWEEN.
 Tonight is Halloween, by which so I must snatch my forty winks of sleep before the daylight dies; then no more must I bat my eyes until the glowing orb of day tomorrow makes its getaway. Last Halloween I had no fears; I thought "The swiftly passing years have brought about a welcome change—no longer youthful villains range about the burg and tear things loose, and generally raise the deuce as at this time we always did when, years ago, I was a kid." Then I retired, my mind at rest, with no forebodings in my breast of what the daylight would disclose when from my slumber I arose. But while I lay in bed and snored around my house a youthful horde were working on with main and might through all the crevices of the night; this bunch of lovely innocents skeddaddled with my garden fence, and then, as if to make amends, piled up a ton of odds and ends with careless care upon my lawn to greet the passer-by at dawn—a bunch of prehistoric hats and boots and bones and barrel staves, with signs displayed above the mass which stated "Please keep off the grass." They put my doorbell on the blink and stained the carpet with a brilliant pink, and diverse other artless games—this Halloween, so help me James, I'll be me forth at set of sun, I'll join the kids and have some fun!

BONAR LAW'S SPEECH HAS LITTLE EFFECT

LONDON, Oct. 30.—(C. A. P.)—It was not for the statement today by The Manchester Guardian's well-known London correspondent that "the prime minister and Leader Bonar Law have already had an opportunity of seeing the formal statement of each other's views on the whole question," it might reasonably be assumed that Bonar Law's speech yesterday night leaves the situation exactly as it was before, altho both he and Premier Asquith seem in public to be warily skating round the outer fringes of the proposals for negotiations. As with the premier's Ladybank speech, so with Bonar Law's, the criticism of newspapers opposed to the speaker make the more interesting reading.

Among the Liberal papers today The Manchester Guardian alone exhibits real hopefulness.

Bonar Law's plea for a general election is summarily dismissed by all ministerial papers save one—The Westminster Gazette.

BANK TELLER IS BEFORE THE COURTS

John H. Murray, Late of Toronto, Accused of Falsifying the Books.

MONTREAL, Oct. 30.—(Can. Press.)—The case of John H. Murray, late of Toronto, accused of having falsified the "drafts payable" books of which he had charge as third-teller of the Montreal branch of the Bank of Nova Scotia, that he was enabled to appropriate \$21,500, came before Judge Lafontaine today.

Mr. Bowser of the Bank of Nova Scotia, said that the appropriation must have taken place because of the errors or false entries in the books. These proved the accused's guilt to a banker's mind.

No Proof, Defence Says.
 Mr. Fitch, for the defence, argued that this was no proof of the actual appropriation, and Judge Lafontaine agreed that there was a difficulty.

The first mistake, said Mr. Bowser, was made when a draft for \$21,500 in favor of the Merchants' Bank of Canada, and payable to the Toronto branch of the Bank of Nova Scotia,

C. P. R. Steamship Agent Expects Big Immigration Figures This Fall.

"The Atlantic steamship outlook was never so bright as it is for the coming year," said L. E. Suckling, general agent, Atlantic service steamship department, Canadian Pacific Railway Company, in an address before the World yesterday.

He returns after a six-week European trip for the company, during which he visited France, Belgium and the British Isles.

Impressions to the immigration question he said that the eyes of the whole world were on Canada today, and that the accommodation on the Atlantic steamers would be looked for months ahead.

In looking at Canada, he averred, the British people saw Montreal, Toronto, Winnipeg and Vancouver, and of these Toronto and the Province of Ontario were preferred, and undoubtedly received the bulk of the British immigration to the Dominion.

GLYNN POINTS TO CANADA'S EXAMPLE

ALBANY, Oct. 30.—(Can. Press.)—Criticism of the United States Government's so-called penurious attitude toward appropriations marked of waterways, appropriations marked the address of Gov. Glynn before the New York Waterways Association here today.

"I believe that a proper amount of money expended by the United States Government would have improved the Hudson River," he said, "so that large ships can sail up the Hudson to Albany and the eastern terminals of the Erie Canal would be money far more wisely spent than three-quarters of the money which the United States already expends on river improvements."

"And when we make the demand for a deeper Hudson, so that ocean-going vessels can call up to Albany, we are simply asking the United States Government to do what England did at Glasgow, what England did at Manchester, and what Belgium did at Antwerp."
