## WANT PUBLICITY DEPT. RESTORED AT CITY HALL

Ald. McCarthy's Resolution Passes Legislative Committee—Intake Extension Delay.

### TO-DAY AT THE CITY HALL.

11 a.m.—Board of Control. Abolished eight months ago, the civic department of industries and publicity may be re-established. At a meeting of the civic legislation and reception committee yesterday, a deputation representing business, transportation and hotel interests asked that the city co-operate in a plan of systematically advertising Toronto, and the result was the unanimous passing of a motion by Ald. McCarthy to restore the department. On April 11 last, when council declared for abolition, the entire board of control voted that way. The deputation included J. P. Murray and Samuel Harris of the Manufacturers' Association; S. J. Murphy, Niagara Navigation Company; H. G. White, Niagara and St. Catharines Navigation Company; Sam Thompson of the Prince George Hotel; George Wright, Walker House, and George

### Doctor Told Her She Did Not Have A Pint Of Good Blood In Her Body.

Mrs. Dosithe P. Cormier, Middle Sackville, N.B., says: "In the spring of 1897 I was all run down, and the doctor told me I had not a pint of good blood in my body. I took different remedies from doctors, but they did not seem to do me any good. After having taken a lot of different kinds of medicines, and they did not seem to benefit me, I was almost in despair and did not know what to do until my husband met a lady and told her about my sickness and she told him to try Burdock Blood Bitters as she had received the greatest benefit from using it. My husband went and bought me a bottle and after having taken it I felt better, so I kept on using one bottle after another until I had taken six in all and then I was strong and well. I am positive that my being alive to-day is due to the use of Burdock Blood Bitters. One spring since then I was not feeling very well and had a lot of work to do. I thought I would procure a bottle of Burdock Blood Bitters and after I had taken two I was able to do a lot of hard work all the summer, and I never felt better in my life. In the winter of 1909 I had Pneumonia, and it left me with a severe pain in the left side. Every morning when I would get out of bed I had to sit down for a while it was so painful. After I had used Burdock Blood Bitters the pain disappeared completely. It has also cured me of bleeding piles. I have received so much benefit from Burdock Blood Bitters that you may publish this as it may help others as it has me."

Manufactured only by The T. Miburn Co., Limited, Toronto, Ont.

Graham, Innoquos Hotel. They pointed out that it was to the general advantage of the city's business interests to induce as many people as possible to visit Toronto. They were invited to appear before the city council on Monday.

Won't Limit Franchise. City Clerk Littlejohn made his annual plea for the elimination of the special voters' list taking in the names of all persons whose assessment is less than \$400, and giving them the privilege of voting for board of education candidates alone. In 1908, only 175 out of 14,000 thus franchised went to the polls. The committee was, however, opposed to any further limitation of the franchise, especially where ladies are concerned.

When Time for Appeals. To avoid much uncertainty as to paving contracts, the committee agreed to apply for legislation whereby no person who signed a petition for a pavement could withdraw his name after fifteen days subsequent to the certification of the petition by the city. At present a contractor is kept long in doubt as to whether he has secured a contract or not owing to the activities of "petition busters." Ald. McCarthy, Anderson and McCarthy voted for the limit and Ald. Phelan any resolution against. A proposal to pass a bylaw compelling slow-moving vehicles to keep close to the curb during the summer months was considered, but no action taken. The committee thought that the tendency of horses to slip should be taken into account.

Blunder Over Intake? A protest against the city's slowness in extending the intake pipe was made by Ald. McBride at the works committee meeting. He also charged that the work would prove more costly. Wm. Leslie has tendered for the job at \$35,000. Adding to this, the cost of pipe, the cost would have been \$49,324. The contractor had offered to bind himself to have the pipe done by Dec. 15, and to put up a \$30,000 bond. The city had already spent over \$10,000, including \$1750 paid to Mr. Leslie, who was receiving \$900 a month to supervise the work, but apparently no progress had been made. The aldermen blamed the board of control, which had decided on the day labor plan last July, when council was on vacation. City Engineer Rust replied that the board had acted under his advice, and said he thought the cost of the work would not exceed \$25,000. Ald. McBride's estimate was from \$90,000 to \$70,000.

Protest to Premier. Hopes that the mayor's conference on Monday last with the Ontario Railway Board would result in a settlement satisfactory to the city were apparently ill-founded, as his worship yesterday supported Controller Church's motion to enter a protest before the Ontario Government. Controller Spence alone voted against the resolution, he urging that the city await the board's action next Monday. Controller Church's motion asked that the attorney-general be requested to "make a thorough investigation of the whole company under the act so that the act may be enforced in the public interest." Controller Spence said the resolution contemplated asking the government to ask the board to do something that the city had not asked the board itself to do. The resolution comes before the city council on Monday.

The New Intake. Waterworks Engineer Fellows says

the proposed additional intake pipe should go out into 113 feet of water. It will require two years to build.

The board of control was not moved by the protest of the Lord's Day Alliance against the use of civic seating rinks and toboggan slides on Sundays. The board thought the people's liberties should not be encroached upon. Owing to complaints from West Toronto people as to bad odors from abattoirs, the M.H.O. is causing an investigation into equipment.

Controller Foster suspects joy-riding by employees of the assessment department. There is an unusual amount of scarlet fever at present and fifteen patients cannot be taken in at the Isolation Hospital. The board of control authorized the M.H.O. to expend \$1000 on a frame building to give temporary accommodation.

H. S. Milne was given the contract for collecting fees and selling rodder at the city cattle market. His tender was \$54,200, or \$2100 higher than R. J. Hunter paid for the contract last year.

### EVANS' MAJORITY 1620

And He Has a Council of Staunch Supporters.

WINNIPEG, Dec. 14.—Completed returns show that Mayor Evans has a majority of 1620. Every member of last year's council who stood for reelection was returned, and in the two wards where last year's aldermen were not standing, candidates supporting Evans were elected.

Rev. Dr. Shearer said yesterday that Mayor Evans received strong support from his political party, while he would also receive the support of those interested in "favorable segregation," while the voters' lists would also make irregular voting possible. "I look to Mayor Evans to undertake to clean up the city, the not elected expressly to do this," said Dr. Shearer.

### CO-OPERATIVE CREDIT WOULD PERMIT FRAUD

E. B. Osler Objects to F. D. Monk's Bill, Which is Given a Second Reading.

OTTAWA, Dec. 14.—(Special).—In the house to-day F. D. Monk's bill to provide for the control of co-operative credit societies was given a second reading. When Clause 5, authorizing the credit societies, was reached, E. B. Osler (West Toronto) took exception, on the score that societies with practically no capital at their back would be able to take an unlimited amount on deposit, and lend it to themselves.

Mr. Monk contended that the bankers had withdrawn their objection to the bill when it was agreed that loans be limited to members, while Mr. Osler objected that a large sum could be loaned to a member of the society, who might skip out before it was necessary to make a first report to the government.

Sir Wilfrid Laurier said that as he understood Mr. Osler's objection, it was that banks have a capital stock as a guarantee for deposits, which the co-operative credit societies would lack. Mr. Monk's reply was that the experience with credit societies in other countries did not warrant the statements made by opponents of the bill. Sir Wilfrid, however, was inclined to think that Mr. Fielding was not quite satisfied, and suggested that the clause should be held over for the present.

H. H. Miller, chairman of the banking and commerce committee, thought the proposed legislation was dangerous. Sheldon had taken millions out of the people of Montreal, and it should not be made easy for others to play the Sheldon game. May Be Confined to One Area. George H. Perley (Argenteuil) said it was his understanding that Mr. Fielding had agreed to the bill becoming law. It was in the power of the secretary of state to confine the operation of any one society to a restricted area. He would be opposed to the bill if a society could operate all over the Dominion.

Major Beattie (London) thought the bill would interfere with the operation of existing loan societies, which are properly capitalized, and which lend money at reasonable rates. Mr. Osler explained that, while he was in sympathy with the principle of the bill, the necessity of putting a check on schemes of designing persons had been overlooked. He believed that if the bill were to become law, fifty societies would be formed within three weeks with objects of fraud.

Martin Burrill (Yale-Caribou) objected to the attitude taken by Mr. Miller, that the banking and commerce committee of last session allowed the bill to be reported to the house out of sympathy for Mr. Monk. The house was dependent upon the standing committees for approval of the bills referred to them. In opposing the clause permitting the arbitrary withdrawal of funds by

TRIBUTE TO SOCCER CHAMPIONS AND GAME.
Varsity, the college paper, pays the following tribute to the Association football champions and the game of soccer.
Another championship has come to the University of Toronto. On Saturday afternoon, in a blizzard, our Association football team defeated the Brownville champions of the T. and D. League. These who have passed by the north campus and seen a few enthusiasts out kicking a ball on those cold afternoons did not envy them their occupation. These men stayed in condition long after their season had expired and on Saturday they received their reward.

TO CONTROL CHICAGO HOCKEY.
A despatch from Chicago says: Attempts of the Western Skating Association to secure for hockey the jurisdiction of the International Skating Union of America and the Amateur Athletic Union have met with failure. The heads of the other associations disapprove because they feel there is no governing body which can control it. Therefore the Western Association is opposed to the sport, because it is deemed advisable for local contests. At the last meeting of the Western Skating Association it was decided to promote hockey because the Illinois A. C. had entered its team in the association. Allen I. Blanchard, president of the International Skating Association of America, who is opposed to taking over hockey, applied for a mail vote from the presidents of the other associations, and all of them were against accepting the sport, because there is no governing body to control it. Jim E. Sullivan, secretary of the National A.A.U., in a letter to President Blanchard, said: "I agree with you that hockey has reached the stage where a national association must control it and make the rules, and the western Association is quite right in taking it over. You may have some trouble in New York in making the teams here play in accordance with your rules." J. A. Taylor, president of the Canadian Pro. Hockey Association, and vice-president of the International Union, takes a different view from Sullivan, and the following are extracts from his letter: "With regard to your proposition of taking charge of hockey, I do not hesitate to say that my vote should be against the union stacking up against any such bunch of trouble. This hockey proposition is one of the festering sores of winter sport, at least in this section, whereof I am qualified to speak."

IMPRINT WINS 2-YR.-OLD RACE AT JACKSONVILLE

Jockey Killingsworth Has Leg Jammed on Rail—At Oakland and Juarez.

JACKSONVILLE, Dec. 14.—The Ormond Beach Selling Stakes, which brought together to-day some of the best two-year-olds in training, resulted in an easy victory for Imprint, the favorite, who was heavily played at 7 to 1. The winner caught the early pacemaker, Rye Straw, in the stretch, and won cantering by four lengths.

Jockey Killingsworth will not be able to ride for several days as a result of his leg being painfully injured when Double Five was jammed against the rail in the fourth race. Only two favorites got first money.

FIRST RACE—Five furlongs: 1. Cardiff, 100 (Lester), 4 to 1. 2. Gavotte, 100 (Rose), 7 to 2. 3. Emma Stuart, 100 (Goose), 4 to 5. 4. Time 1:18 1/2. Furlongs: 4 to 5. Sheffield, Spin, Harvest Moon and Red Gem also ran.

SECOND RACE—Five furlongs: 1. Red Boy, 108 (Hall), 8 to 5. 2. Morning Song, 100 (McTaggart), 5 to 2. 3. Time 1:15 1/2. Furlongs: Myrtle Marion, Zoo and Scribble also ran.

Tiger Cubs Going to Montreal.
HAMILTON, Dec. 14.—If the Tiger Cubs defeat St. Lambert's in Montreal on Saturday night in the junior Dominion championship final, the Aleris will challenge them to an exhibition game, to take place the following Saturday. The Aleris are expected to arrive in Montreal on Saturday night, and are anxious to prove it. It is doubtful if the Cubs would agree to the game so late in the season. A lot of money would change hands on this game, as the Aleris have plenty of backers, and as the Tigers have a couple of supporters who are willing to back the team with a bundle.

Curling Club Secretaries to Meet.
The presidents and secretaries of the several Toronto curling clubs will meet at the Granite Club, Church-street, on Friday evening, Dec. 16, at 8 o'clock, for the purpose of organization and making arrangements for the single rink curling championship competition, full attendance of the above representatives is expected.

ONTARIO LAKE PATROL. Captain Dunn States That the Fishing Regulations Are Obeyed. Capt. E. Dunn of the Ontario Government fisheries patrol steamer Edna Ivan, is at the Walker House. He stated to The World that the fishery regulations were well observed on the Canadian side of Lakes Superior, Huron and Erie by the commercial fishermen. There was some violation by fishermen who fished a portion of their time to fishing and were also engaged in other avocations. This season the law had, however, been well observed.

THE GLOBE'S BUNKUM.

It would be of great interest to the ratepayers of The Globe and The Star to discover the real reason of their opposition to the Bloor-street viaduct. Whose ax is being ground at the expense of the Toronto citizens? What interest finds it necessary to line up the organs against the public?

Real arguments against the building of the viaduct are non-existent, so The Globe has to get substitutes. Of course, it declares they are just as good, but the people are asking for the viaduct and the poor Globe's quackery will not satisfy the demand. The best of The Globe's arguments are to the effect that when a man has a coat and a hat and a good shirt it is more extravagant to ask for trousers. The Globe is quite willing to abandon the east end to the sans culotte condition so shocking to refined Rosedale people, and The Globe argues that having gone for so long in this fetid state the east end is now used to it and can wait for a less inclement season.

There was no talk of spoiling the beauty of the Rosedale Ravine-drive when the Rosedale people, a mere handful compared with the east end population, wanted a viaduct at Huntley-street or Sherburne-street or Glen-road. The Rosedale people were not told to wait till a more convenient season, when their bridges would cost more and their property would have lost thru population that might have crossed the bridges and the other sections of the city had all the improvements they had asked for. The Globe thinks the viaduct is "not by any means indispensable." By the same standard none of the things which The Globe says must take precedence of the Bloor-street viaduct in the next ten years, is indispensable. Why should the east end wait, as The Globe suggests, until the marsh and Ashbridge's Bay is developed, and the railway lines running along the north side of the city provided with viaducts and subways, and sewers laid all over newly annexed territory? This is not argument. It is mere clap-trap as The Globe well knows, meant to conceal the pressing urgency of the viaduct case from ratepayers who do not know the situation. Parkdale people should ask themselves if the King-street or the Queen-street subways were necessary. Would east end people have been justified in voting against them? Would east-enders be justified in voting against the present Sunnyside improvements? Of course not. But the Bloor-street viaduct, for which the east end has clamored for fifteen years, The Globe declares is unnecessary and expensive. The Globe does not state that its opposition has doubled the cost of the viaduct on the estimates of ten years ago. It only adduces the expense which it has itself created as a reason for not building now. Ten years hence it would adopt an exactly similar line of bunkum.

If the people of the east end are entitled to the increase in population in a very short time will cover all the cost in increased assessment, and the various local improvements required will no longer be a difficulty to the enlarged residential area.

THE STAR'S DREAM.

The Evening Star dreams itself into a happy Shaksperian soliloquy over the Bloor-street viaduct. The Star's editor has a motto hanging over his desk, "When in doubt knock the east end." East ends know why. The Star concludes a tirade against The World with a paraphrase which is certainly apt—for The Star:

It is such stuff as dreams are made on, but the electorate by no means is asleep. Not by no manner of means. The Star can juggle with figures and arguments as well as another, and in distorting The World's statement of real estate values as affected by the Bloor-street viaduct. The Star declares that Commissioner Forman has stated the estimates to be "simply absurd," but Commissioner Forman is wonderfully conservative when it comes to estimating the value of large blocks of property, and The Star does not give the whole interview either. The city, whether it disposed of its property or not, would undoubtedly be the richer by the construction of the viaduct. The increase in assessment alone will soon cover the cost. Men who live in the east end and know the problem are just as reliable on matters of fact and influence as newspapers holding a brief and doing special pleading. The World has never advocated the sale of the city parks in order to build the viaduct, but The Star would like to have its readers think so. "But the electorate by no means is asleep," and there is enough sense of right and fair play in To-

ronto, we hope, in spite of The Star and The Globe, to give the east end a just decision in the matter of the viaduct.

PROTESTANT HOME RULERS.

Much is being made of a Protestant home ruler being elected in Ulster. Every Nationalist leader of importance for a century and more in Ireland up till Redmond was a Protestant. The rebellion of 1798 was led by Protestants. The Tory party in England encourages Ulster resistance to local government because it ensures 17 solid votes for the party for which no return has to be made. Belfast never got any favor from Tory governments in London, except for an occasional baronetcy for a citizen who paid for it in entertaining. Lord Pirrie, head of the biggest shipbuilding yard in the world, is a supporter of the present Liberal government, in England, and a great friend of the Aberdeens, who are home rulers.

DECADENT SABBATHS.

With all its advantages, Toronto is in an ill way morally. The Lord's Day Alliance is doing what it can to elevate the morals of the degenerate community and like Abraham and Lot over the cities of the plain, the official protectors of the Sabbath are agitated about the result. They are not going to leave it to the intervention of Providence, however, but are going to use the means placed at their disposal in the courts of the land to purge the iniquity. It will give sincere pain to many to know that such degrading and debasing practices are indulged in on Sunday as tobogganing, which is an insidious device to bring young people together in great numbers in the parks during the cold weather. Skating has also been known on Sunday, and this calamitous fact cannot be too greatly deplored by members of the alliance. Certain Jews have also been known to have danced at their wedding parties on Sunday, and they add to this intolerable practice the habit of keeping Saturday in the strictest way as the Sabbath to the constant indignity of the alliance. At-homes where demoralizing amusements like bridge whist are played on Sunday have been discovered by Rev. W. G. Hanna, and more than all, the heathen game of golf is actually played when men like Rev. Dr. Speers are at church and preaching. Some perverted enthusiast has organized what he calls religious services in a large public hall on Sunday and the people are being led astray by the performance of band music on these occasions. This very deplorable business must be stopped.

We believe the alliance should approach Sir James Whitney and request him to appoint a commission for the purpose of, visiting the homes of the people on Sunday, and investigating the extent to which these deplorable practices are carried on. Ontario might yet hold up her head among the enlightened communities of the earth like Scotland, where in all respectable houses the blinds are kept drawn all day, and all cooking for the Sabbath meals is done on the previous Saturday. It may appear incredible, but there seems to be evidence that many people read newspapers on Sunday in Toronto, and even works of fiction. These things should be looked into and Sir James Whitney will no doubt give the whole matter the consideration it deserves.

ONLY THREE MORE DAYS.

To-day, to-morrow and Saturday only remain for those who have not yet seen, or who wish to see again, that wonderful painting, "The Shadow of the Cross," now on view in the Grand Opera House building.

Hundreds of Cholera Victims.

Re Fingerhut and Barwick—L. M. Singer, for vendor. J. R. O'Connor, for purchaser. Vendor having survived, but the vendor, under the Vendor and Purchasers' Act, for an order declaring that vendor can make a good title to the land in question and that purchaser's objection is invalid. Judgment: Vendor claims that having survived her husband, she is now the owner in fee simple of the land sold. The conveyance granted the property to Jacob Fingerhut and Becca Fingerhut, or the survivor of them, in fee simple. An intention sufficiently appears on the conveyance that the survivor was to take and the vendor having survived her husband, takes the whole. Declare that the objection taken by purchaser is not entitled to prevail. No order as to costs.

Trials. Before Clute, J. Murphy v. Sandwith—M. Sheppard (Windeor), for plaintiff. F. D. Davis (Windeor), for defendant. Plaintiff owner of a lot fronting on Main-street, Chatham, running parallel with Huron-street, and slight feet distant therefrom, 280 feet to the water's edge of Detroit River, brings this action to have it declared that he is not liable for any part of the cost of a sewer drain on Huron-street, and to restrain the defendant corporation from assessing the same for any part of the cost of said drain, and from executing a block of land bounded by Dundas, Lansdowne-avenue, St. Helen's and Lumberville-avenue, has been sold to the owner, John Mallon, to Mr. Hambleton, a builder, for \$25,000. There are nearly two acres of land, and the property is assessed at \$12,250. Mr. Mallon has occupied the place for 50 years.

therewith; that the tax sale in the pleadings mentioned and proceedings taken in connection therewith, be declared void and of no effect, in so far as the same assumes to deal with or affect the plaintiff's said lands; and that the defendant corporation be restrained from putting a cloud on the plaintiff's title to said lands or continuing the same thereto. The plaintiff is entitled to the costs of the action against the defendant corporation, and the defendant, Resame, is entitled to be repaid all sums of money paid by him on account of the purchase of plaintiff's said lands, with interest and the costs of his defence.

Divisional Court.

Before the Chancellor, Latchford, J.; Middleton, J. Re Roland and McCallum—H. S. White, for McCallum. W. Proudfoot, K.C., for Roland. An appeal by McCallum and McKillop from the order of Meredith, C.J., in chambers of Nov. 19, 1910, refusing an order for prohibition in respect of the allowance of Roland's appeal. Judgment: The appeal against the assessment was heard by the C.C. Judge on Aug. 28, and he reserved judgment to Sept. 25, when he gave an Injunctio, the enforcement of which was stopped by an order of prohibition. Then, on Oct. 24, he proceeded, apparently of his own motion, to give another judgment reducing the amount assessed against the appellants' property from \$80 to \$50. A second prohibition was moved for and refused by Meredith, C.J., and that order has now, by leave of Eiddell, J., been applied against. We would follow the Nottingham, 1 O.L.R., followed by the supreme court in re Marsh, 37 S.C.R. 79, and hold that the judge was functus officio at the end of the 30 days fixed by statute. No costs.

McIlhargey v. Queen—R. T. Harding (Stratford), for defendant. J. J. Coughlin (Stratford), for plaintiff. An appeal by defendant from the order of the county court of Perth in chambers of Nov. 19, 1910. The order made was on an appeal from the taxation of the clerk of the county and allowed the appeal. Judgment: Appeal allowed with costs.

Tighe v. Fort Frances—W. H. Price, for defendant. A. E. Knox, for plaintiff. An appeal by defendants from the judgment of the district court of Rainy River of 29th Oct., 1910. Objection by plaintiff that defendant has no right of appeal valid and appeal dismissed with costs fixed at the sum of \$15.

Point Abino v. Michener—E. D. Armour, K.C., for defendant. A. McL. Macdonell, K.C., for plaintiff. A motion by defendant to vary minutes of a divisional court order. Minutes varied.

Rice v. Toronto Railway Co.—D. L. McCarthy, K.C., for defendants. J. MacGregor, for plaintiff. An appeal by defendants from the judgment of Meredith, C.J., of 4th October, 1910. This was an action for damages for the death of the Rev. J. Rice, who was accidentally killed by a street car on Gerard-street East, as he was crossing the tracks of defendant company, on his way to Toronto General Hospital, where he was a visitor. At the trial judgment was awarded plaintiff for \$1000 and costs. Defendants' appeal argued and judgment reserved.

Privy Council Decision.

A decision has been rendered by the privy council finally for the defendants in an interesting case which has been twice before the supreme court of Canada, once before the privy council, and has been pending since 1894. The suit was brought for \$200,000 by Carroll Brothers against the Provincial Natural Gas Company and the Erie County Natural Gas Company for refusal to allow them to take gas for the supply of their works from the gas fields of the defendants in Welland County. They got judgment before the local master for \$112,000. The defendants appealed, and this amount was reduced by judgment of the court of appeal, which affirmed the judgment of Justice Britton. Both sides then applied for leave to appeal to the privy council, and allowed the defendants' appeal and dismissed the plaintiffs' appeal, with costs in both cases. The privy council in its decision sets aside the judgment in favor of the plaintiffs, holding that they are entitled to only nominal damages, viz., \$1, and dismissal of the action with costs. The counsel for defendants were W. M. Douglas, K.C., Toronto and T. D. Cowper of Welland; for the plaintiffs, W. M. German, K.C., M.P., of Welland, and Glyn Osler of Toronto.

Christmas Stamp

That he is completely recovered, and can return to work is the hopeful holiday message that comes to a young Irishman who was admitted to the Muskoka Free Hospital in August last. Like so many other wage earners he had gone on working, whilst this disease had been making its terrible inroads into his system with the result that he finally collapsed.

Muskoka air and Muskoka Free Hospital treatment has brought about the transformation that has restored the son of the Emerald Isle to his loved ones, and fitted him again to work for their welfare.

Is it not worth the effort that is being put forth by the society, and the host of friends of all classes everywhere to swell the sales of the Christmas stamps this year to treble that of the previous season?

Ten cents will admit any lady at the Ladies' Matinee to-day for the Big Review at the Star Theatre.

Single Fare for Christmas and New Year.

Return tickets for single fare for the Christmas holidays will be on sale at all C. P. R. offices and stations Saturday, Sunday and Monday, Dec. 24, 25 and 26, good to return Tuesday, Dec. 27, also Saturday, Sunday and Monday, Dec. 31, Jan. 1 and 2, with return limit of Jan. 2.

Mailon Estate Sold. The old homestead situated in the block of land bounded by Dundas, Lansdowne-avenue, St. Helen's and Lumberville-avenue, has been sold to the owner, John Mallon, to Mr. Hambleton, a builder, for \$25,000. There are nearly two acres of land, and the property is assessed at \$12,250. Mr. Mallon has occupied the place for 50 years.

PHONE RATES LOWER FOR OUTSIDE SECTIONS

Continued From Page 1.

ators' wages had gone up 45 per cent. per 1000 calls. The general cost of the service was one-third greater than in 1902.

This, said Mr. Dunstan, was doubtless largely due to the increased number of exchanges. The Beach exchange, for instance, had increased from 100 to 150.

The chairman drew Mr. Dunstan's attention to the fact that in his calculation of revenue from residence and business phones, he had overlooked the revenue derived from extension sets to business phones.

"How many extension phones are there in the city hall?" he was asked. "I have no idea."

"My Lord," put in Mr. Drayton, "we, the city, are paying at the rate of \$37.25 per extension. The whole rate is \$189.46 and we maintain operators to attend the lines."

Mr. McFarlane asked if there were any other cases of the kind in the city. "I do not know," replied Mr. Drayton, "broke in the chairman, but it looks funny to me that you should charge \$37 for single extensions that will not run into the cost of \$157 for one line running into a building."

Going into the cost of labor, Mr. Drayton drew from Mr. Dunstan the agreement that the exchanges were being run at a cheaper per phone this year than last.

Trunk System an Economy. Regarding "trunking," wasn't it economy for the company to split up into smaller stations when the lines were getting long?

"Yes," admitted the witness, "the trunking system gives seven lines to one trunk."

Addressing the chairman, the corporation counsel said it struck him as strange that a company could pay 8 per cent. in dividends and be able to carry \$500,000 to its reserve last year, and be losing money here they must be taking it out of some other municipality unmercifully. He cited a recent case in Ottawa and argued that if the decision there was just, the company had no right to charge for mileage in West Toronto, as they were doing.

Mr. McFarlane: "We are not asking to-day any increase in rates; rather are we offering a temporary reduction for a year, during which we have the board make a valuation of the plant and adjust the rates in Toronto. But I maintain that we have a right to charge mileage until such adjustment has been made."

At this point Arthur Anglin, K.C., representing the local branch of the Bell Company, entered the argument.

Barred by Railway Act. "Just a moment," interrupted the chairman, "you are asking to establish higher tolls in one section of the city while you have established lower ones in more distant sections. You place the boundary at 2 1/2 miles from the city hall in reference to the newly annexed districts, and propose to charge \$40 and \$70, while in older sections, down east, for instance, which are farther away, you get the benefit of the city rate of \$30 to \$50. I thought you were bound under the law imposed on you by the railway act to give equal tolls to all persons in similar conditions; therefore, how can you charge me more 2 1/2 miles away than you can a man three miles off?"

Mr. Anglin admitted that there was discrimination, but in striking the original flat rate for the city, before the other outside territories came in, they had struck the inequitable system

of having the "long haul" men served without additional cost. If the flat rate were extended to all sections it should be done with a general increase regarding the people at the "junction," it proposed to do away with and injustice thereby reducing their rates as proposed.

Chairman Mabey: "The moment that Toronto Junction went out of existence as a municipality and became merged into Toronto, the tariff would go out of existence according to the Ottawa case."

Superintendent C. F. Sise of the Bell company presented a statement of rates in American cities to show that Toronto enjoyed a cheaper service.

"I don't see how it could be," said his lordship. "My difficulty is to understand why one citizen should have to pay more than another similar situation. There is a section in the city where the rates are 10 per cent. with and without and justice thereby reducing their rates as proposed."

Chairman Mabey: "The moment that Toronto Junction went out of existence as a municipality and became merged into Toronto, the tariff would go out of existence according to the Ottawa case."

Superintendent C. F. Sise of the Bell company presented a statement of rates in American cities to show that Toronto enjoyed a cheaper service.

"I don't see how it could be," said his lordship. "My difficulty is to understand why one citizen should have to pay more than another similar situation. There is a section in the city where the rates are 10 per cent. with and without and justice thereby reducing their rates as proposed."

THE WESTERN FARMERS HAVE INVITED OTTAWA

First Train Load Arrived Last Night - Want Government Ownership of H. B. Railway.

OTTAWA, Dec. 14 - When all the members of the huge delegation of farmers have reached the city, nearly one thousand representatives of the agricultural strength of the Dominion of Canada will be here to discuss with one another grave problems that affect the welfare of the staple industry of this country. They will lay their views before the premier and his colleagues on Friday.

The first special train arrived from the west at 11.30 tonight, bearing 325 delegates. The chief feature of the trip was a series of meetings held on board the cars each day, to discuss the matters which affect the farmers.

Another train from the west is on its way via Chicago, carrying about 180 delegates. They will arrive early in the morning. Many of the Ontario delegates are already in the city, and by to-morrow morning the representatives of the old province are expected to number over 200. The number of delegates from Quebec is not yet known, but it is expected that there will be a good representation.

New Brunswick and Nova Scotia have two delegates each. Every province in the Dominion is represented, except British Columbia and Prince Edward Island.

The proposed memorial, on which the final touches will be put on the extremely long and it is said will take three hours to read it. It covers seven distinct demands, including government ownership and operation of the Hudson Bay Railway and terminal elevators, lower duties on various commodities, and abolition of the duties on agricultural implements and lumber.

WASHINGTON, Dec. 14 - Surrounded by twenty-seven trustees of his choosing, comprising former cabinet members, ex-ambassadors, college presidents, lawyers and educators, Andrew Carnegie to-day transferred \$10,000,000 in 1 per cent. first mortgage bonds, value \$11,500,000, to be devoted primarily to the establishment of universal peace by the abolition of war between nations, and such friction as may hamper the progress and happiness of man.

When war between nations shall have ceased, the fund is to be applied to such altruistic purposes as will best help man in his glorious ascent "onward and upward," by the banishment of the "most degrading evil or evils," then harrasing mankind.

Mr. Carnegie explained the incidents which inspired the giving of the money at this time, and declared with emphasis that, if the English-speaking people in the United States and Great Britain could consolidate in the movement for international peace, the success of the measure in the rest of the world would be assured. That Great Britain should be ready to operate with the United States, Mr. Carnegie said, he felt certain, and all that was now needed, he added, was the concurrence of the president and senate in promulgating the movement on behalf of the United States.

## CLASSES FOR PLUMBERS

A Novel Experiment to Be Made by Hamilton Technical School.

HAMILTON, Dec. 14.—(Special.)—Word was received here to-night, of the death in White Plains, N. Y., of Frank McGuire, who at one time owned a furniture store on West King-st. The remains will be brought here for interment.

The technical committee of the board of education met this evening and considered an application from the plumbers' union for classes in plumbing at the technical school. The committee decided to start classes, provided enough pupils are in sight. The committee also decided to wait on Hon. Dr. Fyde with reference to a proposal to grant graduate official certificates.

Detective Coulter returned home from Winnipeg to-night with John Wood, charged with stealing \$400 from his father.

This morning Paul Zaffra, a Hungarian, and Peter Parlane, an Italian, residing in Dundas, were arrested, charged with having in their possession cigars that were not properly stamped and bonded according to the restrictions of the Inland Revenue Act.

Parlane was found guilty and fined \$30 and costs. Zaffra pleaded guilty and got \$100 and costs.

In Association Hall to-morrow night a mass meeting will be held in the interest of Savva Fedorenko, the Russian political refugee.

As a result of their interview with Hon. William Pugsley, minister of public works, at Ottawa yesterday, Mayor McLaren and City Engineer Macmillan are quite satisfied that the government will at once take up the question of widening and deepening Burlington channel.

The next meeting of the board of management of the Victoria-avenue Baptist Church will be asked to ascertain the opinion of the membership of that church and of the Westwood-st. Church relative to the amalgamation of the two churches. A new building may be erected in consequence.

Travelers' Certificates. Commercial travelers' certificates for 1911 can now be had from Fred Johnson, room 5, Federal Life Building.

GOES WITH THE SUBURBS. Always Dissatisfaction With the Way the Man Does the Errands.

"You'll have time to get that, won't you?" the lady asked. The suburbite reflected. His reflecting made the lady indignant.

"That's always the way with you men," she said, with feeling. "You have time to take a friend to lunch and to stand about and talk politics, but just as soon as your wives ask you to do a little shopping—"

"I'll get it," said the man. "I've just got time to catch the train." And even as she spoke he was loping toward the distant station.

On the train Col. Bowman was telling the bunch about the many things a suburbanite was asked to bring home, guffawing merrily. The suburbanite added his mite to the conversation, and when the train pulled into town he had it all at his fingers' ends.

"Thread-grits—order" said the lamp reflector—pane of glass—velvet ribbon—picture hooks," he repeated over and over.

At noon he went forth to get these things. They didn't have the kind of thread at either of three places. The grocer told him the new grits wasn't in, and that the old had bugs in it. He had to telephone twice to order the coat oil, and discovered that nobody ever sold lamp reflectors separate from the lamp.

The pane of glass he forgot. Also the velvet ribbon and the picture hooks, and didn't think until he was on the 5-15 train that this velvet ribbon was the very thing he had been urged to get.

"Did you get my—" began the lady as soon as he put his foot in the house.

"All except the ribbon," said the man glibly. "They didn't have it, though," he said. "They'd have it to-morrow."

And the lady looked at him very, very keenly and shrugged. Her shoulders just a trifle—but the man saw it.—Galveston News.

Organs at Fifty Cents a Week. Heintzman & Co., Ltd., will clear 20 organs of leading manufacturers, prices ranging from \$15 to \$85, in payments of 50c a week. ### LOWER FREIGHT RATES

Wanted by the Shippers of Cut Glass Goods.

Decision was reserved by the Dominion Railway Board in the application of the cut glass manufacturers for reduced freight charges, and also the request of the piano and organ manufacturers for protection of their products while in transit. The latter desired the privilege of putting heaters in box cars traveling west, to prevent the warping of instruments. By shipping in refrigerator cars only 10 could be loaded, as against 16 in box cars.

The cut glass people wanted their classification reduced from double first to first class, claiming that the prices had gone down 50 per cent. in the past few years. W. J. Barr explained that the C.P.R. was willing to give a cut rate of \$5 a hundred to Vancouver. He had received protests from 1500 shippers.

"For the past 20 years," said J. W. Walsh of the Manufacturers' Association's transportation department, "cut glassware has been classed at the double first rate. But changed conditions now justify a reduction to first class freight rate. The volume of business has greatly increased, and the risk is largely eliminated. Four factories have sprung up in Canada, yet china and silverware are shipped at a rate only about half that required on cut glass."

N. F. Gurdy of the wholesale firm of Gurdy, Clapperton & Co. told Chairman Mabee that on the average the profits on cut glass in Ontario range from 50 to 75 per cent. But prices have decreased. Eight-inch bowls cost \$2 now, whereas they used to be \$5. He thought 50 per cent. is a low estimate of the reduction.

## TO AMEND COMPANIES ACT

Major Sharpe Would Have Dominion Copy Ontario Statutes.

OTTAWA, Dec. 14.—(Special.)—Major Sharpe's bill to amend the Companies Act was given a second reading and referred to the banking and commerce committee. This bill is practically a reproduction of the Ontario statute to compel full publicity regarding the affairs of a company.

Hon. Charles Murphy opposed going on with the bill, as there is now a referendum before the supreme court as to jurisdiction between the Dominion and the provinces. It was undesirable, therefore, to deal with legislation regarding companies at present.

Major Sharpe's bill to have notice in the possession of express companies unclaimed after the expiry of one year, transferred to the government, was given a second reading and sent to the railway committee.

The bill of F. B. Carvell to have a standard barrel for potatoes, was given its second reading and reported. In addition to the 180 pound barrel, he desires a standard 160 pound barrel, because in Cuba, to which many Canadian potatoes are exported, that is the standard, and the Canadian farmer gets no more for his big barrel of potatoes in Cuba than the American farmer for the smaller one.

## HATTIE LEBLANC IS FREE

Boston Jury Declares She Did Not Commit Murder.

CAMBRIDGE, Mass., Dec. 14.—"Not guilty" was the verdict given to-day by the jury which heard the evidence in the case of Hattie Leblanc of West Arichat, C.B., charged with the murder of Clarence F. Glover of Waltham, Nov. 20, 1908.

When she was asked what she had to say before the jury retired, she said: "I did not do it; I want to go home to my father."

In his address Judge Bond referred to a score on the finger of the defendant, which, he said, the prosecution claimed was made by the back fire of the revolver.

The district attorney then corrected the judge, saying that the government claimed that the score was made by the flash from the muzzle.

The court called attention to the fact that no experiments had been made with the revolver to show that such a score as had been described on the defendant's finger could be made with the revolver, although the police have held the weapon for more than a year.

## CHANCE TO BUY FURS.

A splendid opportunity to buy furs, either for personal use or for Xmas gift purposes, is afforded in the unserved auction sale of the \$30,000 stock of high-class furs of James E. Perry, 24 East Queen-street, which commences at 2:30 to-day. Chas. M. Henderson will conduct the sale, and the offerings will include every variety of men's and women's fur goods.

Awarded \$125 Damages. Janet Nuttall sued the Toronto and York Radial Co. for \$500 damages before Judge Denton and a jury in the county court yesterday. Plaintiff, a teamster, was crossing the tracks on the Kingston-road, when his wagon was struck by a car. The jury awarded him \$125 damages, attributing the accident to improper brakes and negligence on the part of the motorman.

Player-Pianos at a Bargain. Messrs. Heintzman & Co., Ltd., 115-117 King-st. W. are offering special reduction on a number of player-pianos, just received to the city. The price is \$100.00. The player-pianos will be sold at \$75.00. Heintzman Company commences selling within the next five or six days.

# ONTARIO RAILWAY BOARD

## City Engineer Wonders Why Such Sudden Interest is Manifested in Civic Structures.

If the Ontario Railway and Municipal Board insists on dictating to Toronto how all its bridges, over which steam or electric railway is to pass, are to be built, how about all the other municipalities of Ontario?

This is the question being asked at the city hall because of the sudden zeal with which the railway board is extending its jurisdiction over the limitations of bridges already built or under construction, and the equal zeal with which it is billing the city for the cost of inspection by its engineer, M. W. Middleton.

In addition to ordering that the plans for the new high-level bridge across the Don at Queen-street be altered, so that the pillars and columns be made stronger, the railway board declares that the Wilton-avenue and Dundas bridges are unsafe for 20 ton weights.

City Engineer Rust is surprised at the board's interest in the city's bridges. He said last night that he didn't know of any special act being passed giving the board such powers. The difference between the plans and those of Mr. Middleton amounts to only one-sixteenth of an inch extra thickness in some parts of the bridge. We could easily have altered the plans for the Wilton-avenue bridge, but we didn't get notice."

For the past 20 years," said J. W. Walsh of the Manufacturers' Association's transportation department, "cut glassware has been classed at the double first rate. But changed conditions now justify a reduction to first class freight rate. The volume of business has greatly increased, and the risk is largely eliminated. ## THE MEANING OF "FACTION"

Commander Roper Didn't Use Word in an Opprobrious Sense.

OTTAWA, Dec. 14.—(Special.)—During the debate on Dec. 7, Col. Hughes suggested that as no officer in England would dare to criticize any administrative act on the part of the government, as was done at the Ottawa Exhibition, Naval Commander Roper must have been "put up to do that in this country by the minister of marine and fisheries." In his further comment, Col. Hughes says that the word "faction" is always used in an opprobrious sense.

Mr. Broder's reply is: "The minister has asked Commander Roper to define the sense in which the word 'faction' was used. He is informed by Commander Roper that he used the word 'faction,' meaning a large number of persons, and did not in any way attach an opprobrious sense to this word."

Further answers state that the address was delivered by invitation, and the deputy minister had knowledge of it. The deputy minister and Commander Roper talked the matter over, and Mr. Broder disclaims having knowledge of it prior to delivery.

## THE STREET RAILWAY.

Editor World: The World is desirous of buying out the Toronto Street Railway. Why not make the railway company carry out the agreement? Is it because the company have become too powerful, having made so much money out of the contract? The receipts and profits should be a reason for giving a better and better service every day.

When the agreement was made, what was the intention? No doubt to give all applicants comfortable transportation at a fixed price. Now the city has grown so rapidly, the intention can't be carried out. Suppose the population of the city had grown even more rapidly, and the demand for seats was twice as great as at present, what then? Surely the purpose of the agreement; surely the intention to carry out the people comfortably should prevail. For what reason or purpose was the agreement made? Was there any intention to limit the capacity of the railway, so that after a certain point, the fares might be reduced? Under any and all circumstances the one main reason for the agreement was fully and adequately provided comfortable transportation always. As a layman, I was always in favor of the agreement, and I have no doubt that the clear intention of an agreement determined its effect.

How does this idea apply to the street railway agreement? Layman. Toronto, Dec. 12, 1910.

Machinists Elect Officers. Local 22 of the International Association of Machinists elected officers last night as follows: President, W. Hagan; vice-president, J. Wapshott; recording secretary, R. # THE CHINESE OPPORTUNITY

## An Appeal for Funds by the West China Tract Society.

The most recent and advanced step which China has taken toward modern civilization (the assembling of the first national senate, composed of 200 members, selected by the nobles and aristocratic families, to be followed five years hence by a larger representative body elected by the people), is one of a swift succession of marvelous changes which have taken place in that colossal empire in the past seven years. No thing approaching a parallel can be found in the annals of nations, ancient or modern.

Above all his wonderment at the revolution of their system of education, the establishment of national schools, the introduction of railroads, telegraphs, telephones, postal and currency systems, etc., the Christian statesman is most astonished at the religious progress and present unique opportunity. To-day China is open to the end to the missionary and to the collection of the Bible and Christian tracts have been translated into at least 27 Chinese dialects, and millions of portions of Scriptures and tracts have been put into circulation.

There are approximately 4000 European and American missionaries in educational institutions, and men and all preachers, each with a constituency of a hundred thousand souls. According to present distribution of forces, each of these missionaries without a gospel, or any hope of ever having one. It may be news to many to learn that there are millions of Chinese in the western hinterland who are without a gospel, and that our Northwest Indians sustain to our Canadian people. In the Province of Yunnan alone there are eight millions of these tribes people, "as sheep without a shepherd." Tribes are divided and sub-divided, speaking diverse dialects and marked by different customs.

# THE CRUMPLED TRANSFER

## The great majority of street car passengers have that respect for the rights of others which displays itself in even a trivial matter like handing a transfer to a street car conductor in such shape that it can be read at a glance.

It is an insignificant majority that tender the crumpled-up transfer, thus delaying others while the conductor is getting it straightened out, and adding unnecessarily to his labors.

When a conductor hands you a transfer it is not crumpled or folded up. You can verify it at a glance.

When you hand a transfer to the conductor it should be in the same condition. Then he can verify it at a glance and you can pass immediately into the car.

This should be more convenient for you than having to stand aside until he has time to smooth it out and read it.

Certainly it is more convenient for other people who are waiting behind you.

If you have a proper consideration for their rights you will not delay their entrance to the car by tendering a crumpled-up transfer to the conductor.

# NEW ACT TO CONSERVE WATER POWERS OF CANADA

Introduced by F. D. Monk, Altho Hon. Frank Oliver Objects That It is Unnecessary.

OTTAWA, Dec. 14.—(Special).—An act concerning the water powers of Canada was introduced in the house to-day by F. D. Monk. It emanates from the conservation commission and proposes that no water powers can be secured, except by way of lease for 50 years. When an application is made, it will have to be referred to the commission, and the lease will be sold by auction. Five years before the lease expires the government will give notice to the lessee of the terms upon which it will be renewed, and if the lessee does not accept these terms, the lease will be sold and the former lessee indemnified for the improvements which he may have made. If the conditions imposed by the government are not fulfilled by the lessee, the water powers will be forfeited to the government.

WHEELING, W. Va., Dec. 14.—John L. Howard, a Wheeling capitalist, and organizer of the Continental Telephone and Telegraph Co., the \$2,000,000 corporation that was formed of independent companies to fight the Bell interests, last night filed a voluntary petition in bankruptcy. The following statement was issued by his attorney, J. H. Hays, in excess of his liabilities, but he is accommodation endorser of notes of the telephone companies aggregating \$1,000,000. The step that Mr. Howard has taken will not in any way retard the reorganization of the companies.

# ASKING FOR PRAYERS

Initial Step in the Chapman-Alexander Religious Campaign.

The praying people of Toronto are receiving thru the mails from the executive office of the Chapman-Alexander Simultaneous Campaign, a personal letter with which is enclosed a call to prayer for the meetings which begin here on January 5, to continue until the end of that month under Dr. Chapman and his associates. This special call to prayer is being sent out to every person whose name has been furnished as one likely to offer prayer on behalf of the campaign. A special request has also gone out to the ministers of the city to furnish the names of those in their congregations who will be willing to act as personal workers and ushers. Dr. Chapman estimates that the personal workers should represent about 10 per cent of the seating capacity of the building where the meetings are held in each district. These names are to be sent to A. J. Robinson, executive secretary, 12 East Queen-st., and the local chairmen of the personal workers' committee will in turn be put in touch with these workers in each district.

BRITISHERS IN CANADA TO HAVE A NEW JOURNAL

Arthur Hawkes Severs His Connection With the C.N.R. to Establish a Periodical.

Arthur Hawkes is leaving the Canadian Northern Railway System, with which he has been for the last three years, to found a weekly paper that will appeal to the prospective emigrant from the British Islands to Canada, and to the British-born people in Canada, and to all who take interest in the relations between the old and the new.

Mr. Hawkes was asked by The World yesterday for some account of his plans and incidentally for the reason of his departure from the Canadian Northern. "Oh," he said, "there are three reasons. One is the desire that every man should be able to make his own career; the second is the journalistic instinct that stays with you, even when you are in a private car, and the third is the belief that my somewhat unique experience in Canada and in Britain will enable me to render some special service to Canada."

"There is no trouble with the C.N.R.," he then, Mr. Hawkes was asked. "Oh, dear, no. I have had between three and four years of very interesting and very happy work for the Canadian Northern. The only experience of mine that has been more valuable was the time I spent in Saskatchewan, going thru the mill of pioneer farming."

"Do you mean to say you have been a prairie farmer?" asked the reporter. "I thought you came to Canada only a few years ago, straight from newspapers in London," said Mr. Hawkes; "but quite true," said Mr. Hawkes; "but

it is just as true that I worked in Saskatchewan 25 years ago, and stayed there and in Manitoba several years. There isn't a thing I don't know about farming in the west, except getting rich at it. I am a farmer's son, and it would be a great deal better for many people if they were, too. I suppose one of the reasons why the Canadian Northern asked me to come here was that I am a Canadian. I know the farming side of the west as well as the business side of the east. And now I'm going to put 25 years of private life and 25 years of newspaper work into a weekly paper. Curiously enough my brother, who has been 25 years in the west, used to write to me that I would never stay permanently in England, but would come back to Canada. I have a paper of my own. The prophecy is coming true.

Once a journalist, you know, always a journalist. The British News of Canada will be the name of the paper. I've had the paper in the back of my head for five years; but I only got the name about a month ago, in a letter from a Canadian. Northern people received my resignation before I had thought of it. I did not require any courage in the five years ago to come back to Canada and bring my family with me. But most fellows who come to us from Britain give the greatest proof of sublime courage, even for the man with a cockney accent may be sublimely brave. I have great sympathy and admiration for the British-born people in Canada who have had a little opportunity to become really acquainted with the country. The British News of Canada will be my contribution to the future citizenship of those who love the old land while they come to the new. For geographical reasons the paper must be printed in Montreal, which is, in the matter of correspondence, two days nearer Great Britain than Toronto."

"Does that mean you will locate in Montreal?" he asked. "I don't imagine that a weekly newspaper is going to take up quite all my time after it gets into its stride."

GREAT TORONTO WESTERN HOSPITAL

Voting on Bylaw, Monday, January 2nd, 1911

PROPOSED BYLAW

To provide for the issue of "City of Toronto General Consolidated Loan Debentures" to the amount of \$31,282.00, to make a grant to the Toronto Western Hospital.

Whereas, in the opinion of this Council, it is expedient to make a grant to the amount of \$50,000 to the Toronto Western Hospital, and by Toronto No. 22 of 1910, of Council, adopted in Council on the 20th day of November, 1910, it is recommended that a Bylaw be submitted to the duly qualified ratepayers:

And whereas it is necessary to raise the said annual sum of \$2,826.25 shall be raised and levied in each year during the said period of thirty-seven years, by a special rate sufficient therefor on all the rateable property in the City of Toronto:

It shall be lawful for the Mayor of the City of Toronto and the City Treasurer to raise by loan upon the security of the debentures hereinafter mentioned, from any person or persons, body or bodies corporate, who may be willing to advance the same sum of money not exceeding in the whole the sum of \$1,282,000, and to cause the same to be paid into the hands of the Treasurer for the purposes and with the objects above recited.

It shall be lawful for the Mayor and Treasurer to cause any number of debentures to be made for such sums of money as may be required for the purposes aforesaid, either in currency or sterling money, payable in gold coin for not less than one hundred dollars currency or twenty pounds sterling each, and not exceeding in the whole the sum of \$1,282,000 and the said debentures shall be sealed with the seal of the said Corporation, and be signed by the Mayor and the Treasurer.

The said debentures shall bear date the first day of July, 1911, and shall be made payable on the first day of July, 1948, in Canada, or elsewhere, and shall have attached thereto coupons for the payment of interest.

The said debentures shall bear interest at the rate of four per cent per annum from the date thereof, which interest shall be payable half-yearly, on the first day of January and July in each year, at the place where the said debentures are made payable.

During the currency of the debentures to be issued under the authority of this Bylaw, the sum of \$2,826.25 shall be raised annually for the purpose of paying the interest on the said debentures, and the sum of \$1,282.00 shall be raised annually for the purpose of paying the principal of the said debentures.

not to be counted as part of the General Debenture Debt, only amounts to \$2,826.25, of which debt no part of the principal or interest is in arrears. And whereas the sum of \$1,282,000 is the debt intended to be created by this Bylaw:

And whereas it will require the sum of \$2,826.25 to be raised annually for a period of thirty-seven years, the currency of the Debentures to be issued under and by virtue of this Bylaw, to pay the interest of the said debt, and the sum of \$1,282.00 to be raised annually during the same period for the forming of a sinking fund for the payment of the debt created by this Bylaw, according to the provisions of the above recited Act, making in all the sum of \$2,826.25 to be raised annually as aforesaid:

And whereas it is necessary that such annual sum of \$2,826.25 shall be raised and levied in each year during the said period of thirty-seven years, by a special rate sufficient therefor on all the rateable property in the City of Toronto:

Therefore, the Council of the Corporation of the City of Toronto enact as follows:

I. It shall be lawful for the Mayor of the City of Toronto and the City Treasurer to raise by loan upon the security of the debentures hereinafter mentioned, from any person or persons, body or bodies corporate, who may be willing to advance the same sum of money not exceeding in the whole the sum of \$1,282,000, and to cause the same to be paid into the hands of the Treasurer for the purposes and with the objects above recited.

II. It shall be lawful for the Mayor and Treasurer to cause any number of debentures to be made for such sums of money as may be required for the purposes aforesaid, either in currency or sterling money, payable in gold coin for not less than one hundred dollars currency or twenty pounds sterling each, and not exceeding in the whole the sum of \$1,282,000 and the said debentures shall be sealed with the seal of the said Corporation, and be signed by the Mayor and the Treasurer.

III. The said debentures shall bear date the first day of July, 1911, and shall be made payable on the first day of July, 1948, in Canada, or elsewhere, and shall have attached thereto coupons for the payment of interest.

IV. The said debentures shall bear interest at the rate of four per cent per annum from the date thereof, which interest shall be payable half-yearly, on the first day of January and July in each year, at the place where the said debentures are made payable.

V. During the currency of the debentures to be issued under the authority of this Bylaw, the sum of \$2,826.25 shall be raised annually for the purpose of paying the interest on the said debentures, and the sum of \$1,282.00 shall be raised annually for the purpose of paying the principal of the said debentures.

shall be raised annually for the payment of interest on said debentures, and the sum of \$1,282.00 shall be raised annually for the purpose of forming a sinking fund for the payment of the principal of the said loan of \$1,282,000 in thirty-seven years, according to the provisions of the above recited Act, making in all the sum of \$2,826.25 to be raised annually as aforesaid, and special rate in the dollar upon every assessed value of all the rateable property in the City of Toronto over and above all other rates and taxes, and which special rate shall be sufficient to provide in each year the sum of \$2,826.25, shall be annually levied and collected in each and every year during the currency of the said debentures.

VI. The said Mayor and Treasurer may cause the said debentures, or a sufficient amount thereof, to be sold or hypothecated, or may authorize the said Mayor and Treasurer, or any person or persons, body or bodies corporate, to be purchased or taken as and for a temporary or permanent investment of the sinking fund of the City of Toronto, and the proceeds thereof, after providing for the discount (if any) on the purchase, shall be applied for the purposes above specified and for no other purpose.

VII. The debentures to be raised hereunder shall contain a provision in the following words: This debenture, or any interest therein shall not, after a certificate of ownership has been endorsed thereon by the Treasurer or his Deputy in the Debenture Registry Book of the said Corporation, be transferred, or to the like effect.

VIII. This Bylaw shall take effect on, from and after the passing thereof.

IX. And it is further enacted by the said Council of the City of Toronto, that the votes of the electors of the said City of Toronto will be taken on this Bylaw on Monday, the second day of January, one thousand nine hundred and eleven, at the same hour as the Municipal Elections to be held on the said day.

X. Thursday, the twenty-ninth day of December, 1910, at eleven o'clock in the forenoon, at the Mayor's Office in the City Hall, shall be the time and place for the appointment by the Mayor of persons to attend at the various polling places, and at the final summing up of the votes by the Clerks respectively on behalf of the electors in place where the said Bylaw is respectively.

XI. The Clerk of the said Municipal Corporation shall attend at the City Hall at the hour of twelve o'clock noon on

Wednesday, the fourth day of January, 1911, to sum up the number of votes given for and against this Bylaw.

PUBLIC NOTICE

The foregoing is a true copy of a proposed Bylaw which has been taken into consideration, and which will be finally passed by the Municipal Council of the City of Toronto (in the event of the assent of the electors being obtained therefor) after one month from the first publication of the said Bylaw in The Toronto World newspaper, the date of such publication being the 9th day of December, 1910, and the votes of the electors of the said Municipality entitled to vote on said Bylaw will be taken thereon at the respective polling places, and by the several Deputy Returning Officers appointed to hold the municipal elections,

On Monday, the 2nd day of January, 1911,

between the hours of 9 o'clock in the forenoon and 5 o'clock in the afternoon.

NOTICE TO LEASEHOLDERS

A leaseholder who is entitled to vote on the foregoing Bylaw is one who has a lease of property in the City of Toronto which extends over the period of time within which the money to be raised by the Bylaw is made payable, and for which property he or she is rated on the last revised assessment roll to the amount of at least \$400, and who, under his or her lease, has contracted to pay all municipal taxes in respect of the property leased (other than the taxes assessed for local improvements), provided however, that every leaseholder who desires to vote on the Bylaw must file at the office of the City Clerk, at least ten days prior to the date of voting, a statutory declaration stating that his or her lease meets the above requirements. The names of the leaseholders neglecting to file such declaration will not be placed on the voters' list for such voting.

FALLING OFF IN WHEAT

Shown by the Official Figures of Production.

OTTAWA, Dec. 14.—The ordinary estimate of the total wheat output of Canada for the year 1910, as communicated to the Parliamentary Agricultural Commission by Dr. Saunders, superintendent of the Dominion Experimental Farms, is 122,785,000 bushels, a falling off from actual figures of last year.

The shrinkage occurred thru the drought in the western provinces, Ontario and the east showing an increase. The combined yield of wheat, oats and barley is estimated at 445,400,000 bushels. While the grain output has fallen off, that of hay and other fodder has increased.

WEEDMARK HANGED

Man Who Choked His Wife Pays the Penalty.

PERTH, Dec. 14.—Russell Weedmark paid the penalty this morning at 7.30 o'clock on the scaffold in the jail here for the murder of his wife in their humble home in Smith's Falls, on April 3 last. Weedmark spent a restless night.

The drop was sprung at 7.30 o'clock, and the body was cut down in 11 minutes after, death being instantaneous.

Newspaper men and others not actually required were not allowed to witness the execution.

Westmark went to his doom with remarkable nerve. He had become quite confident and penitent and thanked the jailers for their attentions to him.

AN EPIDEMIC OF SUICIDES.

PITTSBURG, Dec. 14.—Leaping from a window in the new homeopathic hospital early today, Dr. W. H. Proctor, one of the best-known practitioners in the city, was killed. Only yesterday another doctor shot himself in the temple, and within a week a patient at another hospital threw himself from the fifth-story window, dying soon afterwards.

An Assignment. The Central Construction Company, Ltd., Traders' Bank Building, has assigned to Omer Wade. A meeting of the creditors is called for Dec. 17.

SALE OF WELAND LOTS

Good Demand for Real Estate in the Growing Industrial Town. Ontario is coming to her own. Welland is a thriving manufacturing centre in Ontario and bids fair by natural growth and increase rapidly to jump into bigger growth.

The sale of Welland lots at Charles Henderson's auction, Toronto, 57 King-street east, yesterday afternoon and last night developed the fact that Ontario investors see great profit in the real estate trade in Welland. An ordinary interest was taken in the sale. Bidding was brisk and made's broke with enthusiasm of the future and the present of Welland. About 200 lots were sold. One firm alone bought nine lots at from \$70 to \$140 a lot.

The sale was eminently satisfactory to the Welland's auctioneer, Charles M. Henderson, and to the representatives of the Canadian General Securities Corporation, Limited.

Dropsy— Given up by Doctor

"I had dropsy, and was told by my family physician that there was no chance for me. My family also gave me up. My limbs and body were swollen one-third larger than natural, water collected around my heart and I had to be propped up in bed to keep from smothering. I took Dr. Miles' Heart Remedy until I was entirely cured. This was in 1902, and I am now able to do any kind of work on my farm. My cure was certainly marvelous."
