VOL. XXXI—No. 11,315

An Appeal to Canadians to Preserve Fiscal Freedom

R. L. Borden Warmly Received at London—Reciprocity Designed Only to Promote the Interests of a Political Party in the States—Reference to Government's Naval Policy.

LAURIER'S ABANDONMENT OF IMPERIAL PREFERENCE

LONDON, Aug. 15.—(Special).—It was an alert, quickened apprehensive R. L. Borden who greeted the opening meeting of the general election campaign here to-night.

Mr. Borden was convincing and at times warming. There was an absence of flamboyant oratory, but a wealth of sound, earnest reasoning.

"Our strong determination," he declared, "is to preserve our freedom of action and thus to work out our destiny which affirmed here by our own voice and along our own lines, will most assuredly win the respect of our neighbors, who have given their own example." (Hear, hear.)

That the national appeal was stronger than the citation of figures regarding prices and profits, spiriting up politicians and the like, was manifested by the oft recurring applause that greeted every reference to the development of a Canadian type.

It must have been Nemesis that brought Mr. Borden to London. Here it was that Sir Wilfrid Laurier in 1896 made his first public utterance on the imperial preference. Pate has pursued him from that time, and a London audience to-night was the first to hear a denunciation of the man who now proposed to leave that path of virtue.

In a masterly review of the entire trade situation Mr. Borden led his hearers from primary premises to conviction. His brief reference to the government naval policy evoked rounds of applause and showed that the subject was by no means dead.

"If Canada can be neutral when Great Britain is attacked, why cannot Britain be neutral when Canada is attacked?"

R. L. BORDEN

ABOVE THE FALLS

WILF: Come on, and if we find the rapids dangerous we'll turn back. MISS CANADA: There's no turning back in those rapids.

LAURIER OPENS HIS CAMPAIGN AT SIMCOE

Belittles the Suggestion That Closer Trade Relations Would Lead to Annexation—Could Terminate the Agreement on a Day's Notice—William Charlton Speaks.

SIMCOE, Aug. 15.—(Special).—Sir Wilfrid Laurier fired the first shot in the general election campaign here today. He made it plain that reciprocity with the United States in natural products was the issue.

He repudiated the suggestion that closer trade relations with the United States might lead to annexation, and with some bitterness said: "Let Mr. Borden answer for the Tories: I will answer for the Grits." Further on he said: "The talk of annexation is beneath the contempt of serious people."

He belittled the effect of the favored-nations treaties, claiming that the countries that would be brought into competition with Canada were of little importance, and the goods they sold Canadians did not interfere with Canadian products.

The fact that John Charlton, who for 25 years represented Norfolk in the house of commons, was the champion all his life of freer trade relations with the United States, and had his home in this town made Simcoe a fit place for Sir Wilfrid Laurier to utter his battle-cry in favor of reciprocity.

HEART DISEASE HASTENED DEATH

Inquest in Case of Mrs. Wilkie, Whose Husband is Charged with Murder, Will Show Organic Disease.

When the report of the post mortem examination made yesterday on the body of Mrs. Ellen Wilkie, whose husband is charged with her murder, is presented at the inquest, which will be held at the morgue Friday night by Coroner George W. Graham, it will show that the woman died of organic heart disease, from which she had been suffering for some time, and that she had been in danger of sudden death for a considerable period.

From the nature of her condition death was likely to be caused by any sudden excitement, and that caused by the beating which she received at the hands of her husband on Monday night could easily have caused death. The beating in itself was not sufficient to cause death.

When Edward Wilkie appeared in police court yesterday morning charged with the murder of his wife, there appeared beside him in the dock Frank Perry, an Italian, who lives at 282 Clarendon-street. He, too, was charged with murder, as the police say that it can be shown that he also struck the woman during the evening.

It is understood that the husband's defence will be that the wife suffered from heart trouble, and was subject to attacks of a serious nature. He and Perry were remanded a week in the event of a second and terrible trial is told by the 14-year-old daughter of the woman, who is the oldest of three by a previous marriage, there being two born by her to Wilkie. This little girl says that she came home last night and found her father beating her mother. She says he went out and returned later in the evening, when the beating was resumed. The wife ran into the yard, only to return to the house to be beaten, choked and kicked again.

At last Policeman Smith came in and the woman died in his arms, while the little girl had gone to get her a glass of water.

TWO AVIATORS MET DEATH AT CHICAGO

CHICAGO, Aug. 15.—Two aviators, William R. Badger of Pittsburg and St. Croix Johnstone of Chicago, both young men, lost their lives at the international aviation meet here today. In dying, both revealed the frailty of the craft in which two score more aviators were curving and gliding about the air, with scarcely a pause for the deaths of their contemporaries.

Death in both cases was due to unexplained accidents, probably the result of unsuspected defects in the mechanism of the machines, and was in no way caused by carelessness or lack of responsibility of the drivers. Badger, a wealthy youth, credited to his death in a pit in the aviation field. There had been a flaw in one of the wings of the propeller of the Baldwin machine which he drove. Centrifugal force broke the propeller, upset the delicate equilibrium of the machine, and Badger dashed 100 feet to the bottom of the pit, his neck broken.

May Re-open Asylum Split in Liberal Ranks in Russell

Coroner Will Take Matter Up With Provincial Government in View of the World's Charges.

HAMILTON, Aug. 15.—(Special).—The publication on Monday of The World's story concerning the asylum inquest created a sensation in this city, and the matter has been freely discussed since yesterday morning. The consensus of opinion is strongly in favor of reopening the inquest and probing the fatal asylum fire to the bottom.

The World this afternoon interviewed Coroner McNichol, who had charge of the inquest which ended last Thursday, and asked him to go into the matter again. The substance of The World's charges was laid before him, and he promised to take the matter up with the provincial government.

Among the witnesses summoned to testify at the last session of the inquest into the Hamilton Asylum fire was Provincial Architect Heakes, whose opinion as to the cause and origin of the fire was desired by the jury. The World is reliably informed that Mr. Heakes is, or was, of the opinion that the fire started in Hall C, and not in Hall D, as has been assumed. Mr. Heakes came from Toronto and was in the jury room while the inquest was being held last Thursday. Mr. Lynch-Staunton, the crown prosecutor, was asked to put him on the stand.

There will be 39 registration booths open in the Toronto ridings on Aug. 30 and 31, and Sept. 1 and 2. They will be distributed as follows: Centre Toronto, 11; North Toronto, 13; South Toronto, 7; East Toronto, 11; West Toronto, 17. There is an agitation in favor of the opening of a booth at the island, where 180 men are employed at the waterworks.

LAURIER OPENS HIS CAMPAIGN AT SIMCOE

Belittles the Suggestion That Closer Trade Relations Would Lead to Annexation—Could Terminate the Agreement on a Day's Notice—William Charlton Speaks.

SIMCOE, Aug. 15.—(Special).—Sir Wilfrid Laurier fired the first shot in the general election campaign here today. He made it plain that reciprocity with the United States in natural products was the issue.

He repudiated the suggestion that closer trade relations with the United States might lead to annexation, and with some bitterness said: "Let Mr. Borden answer for the Tories: I will answer for the Grits." Further on he said: "The talk of annexation is beneath the contempt of serious people."

He belittled the effect of the favored-nations treaties, claiming that the countries that would be brought into competition with Canada were of little importance, and the goods they sold Canadians did not interfere with Canadian products.

NEW PROTESTANT MOVEMENT IN CITY

Canadian Protestant Association Will Require Pledges From Political Candidates, and Will Put Up Independent Where Party Men Fail.

A political sensation may be sprung in Toronto before long if the story that came to The World last night, bears anything like the significance that has formerly clung to such statements. There is a Canadian Protestant Association at work in Toronto, of which S. Hornshaw, 25 Hayter-street, is president, and John Furlong, 604 Eglinton-avenue, secretary. Another active branch of the association is said to be at work in Ottawa.

Independent of party, and open to all who approve the platform, the association numbers among its members leaders of the Prentiss Boys' Association, prominent workers in the Orange Order, and in the Orange Young Britons. Work has been going on actively in Toronto for six months, and next week the executive is to meet for the purpose of planning the campaign in the approaching election.

The association will support candidates irrespective of party who pledge themselves to the association's platform. Failing such pledges a third man will probably be run in any constituency where it seems warranted. The association's officers wish to husband their resources and will not intervene in every riding. In Toronto it appears as though they might concentrate their strength in the South.

Mr. R. L. Borden was in Toronto yesterday morning on his way to London. He received many visitors at his room in the King Edward, and afterwards paid a visit to Sir James Whitney at the parliament buildings. Among Mr. Borden's visitors were Premier Roblin, Manitoba, Hon. Frank Cochrane, and the local party organizers. Mr. Borden is in splendid health and is thoroughly sanguine about the result of the elections.

NOBLEMEN CIGARS

TWIN BROTHERS

"Things equal to the same thing are equal to one another."—Euclid.

Euclid did not smoke, but we may deduct from his philosophy that the DAVIS "NOBLEMEN" CIGAR and the high-grade "imported" cigar are TWIN BROTHERS.

Because they are both made from the choicest Havana leaf, by skilled Cuban workmen.

THE DAVIS "NOBLEMEN" (2 for 25c) is 50 per cent. CHEAPER because, being made in this country, it escapes the heavy duties which are imposed on "imported" goods.

Prejudices are something like the spots of the leopard—they are hard things to remove, but one trial of the "NOBLEMEN" will prove to the smoker that it is equal to any 25c "imported" cigar on the market.

Prejudices are something like the spots of the leopard—they are hard things to remove, but one trial of the "NOBLEMEN" will prove to the smoker that it is equal to any 25c "imported" cigar on the market.

When in New York Stop at Either of These Hotels

Special arrangements have been made with the following four hotels, whereby World excursionists will be provided with special rates and every courtesy a visitor could desire while in New York.

HOTEL ARLINGTON 15-20 West 25th Street.

SHERMAN SQUARE HOTEL On Broadway, From 70th to 71st Street.

HOTEL BRISTOL 122 and 124 West 49th Street, Between Broadway and Sixth Avenue.

HOTEL EARLE 108-105 Waverly Place, One Block West of Fifth Avenue and Washington Arch.

In a recent letter to The World, the president and manager of one of the above hotels says:

"August is a very crowded month in New York. It is the month when a greater number of strangers are in the city than any other time, and is the most pleasant time of the year to visit, as all the theatres will be started, roof gardens in full swing, and the summer resorts at their height."

Tickets by both rail and boat from Toronto to Suspension Bridge are good for 30 days; from Suspension Bridge to New York, ten days from Aug. 17.

The Toronto World's SECOND ANNUAL EXCURSION

To Niagara Falls Buffalo and New York

Via Niagara Navigation Company's boats to Lewiston, Gorge Route to Niagara Falls, Lehigh Valley Railroad to New York City, or all-rail route, G.T.R. and Lehigh Valley Railroad to New York.

Thursday, August 17th

Tickets good to return from New York up to Saturday, Aug. 26th, and on the Niagara Navigation Company boats from Lewiston up to Sept. 17th.

FARES:

By Rail and Boat from Toronto to New York and return \$12.35

All Rail from Toronto to New York and return \$14.25

All Rail from Suspension Bridge to New York and return \$10.00

All Rail from Hamilton to New York and return \$12.35

Children Over Five Years of Age and Under Twelve Years of Age Half Fare

This will be the greatest excursion of the year. Already a large number of World readers, both in and outside the city, have signified their intention of being present.

Buy Your Tickets at the World Office

and secure all the benefits to be had on the trip. You can secure your tickets and make your Pullman reservations any time now.

NEW DRINKING FOUNTAINS.

The model of a pretty combination horse trough, drinking fountain, and dog trough is in Property Commissioner Harris' office.

The design is artistic and if the fountain is adopted, it will undoubtedly add much to the appearance of the city streets.

If the city decides to install such fountains, they will be built in concrete, and the cost will be a little more than the present unsightly iron affairs, but will be permanent.

The fountain is built upon the square plan. There will be an oblong horse trough, with perpendicular sides, facing the street. At the two corners on the sidewalk side, there will be octagonal pillars, on top of which will be the little spouting fountains for the quenching of human thirst.

Close to the ground on that side and in the centre will be a little dog trough.

Porcupines Appear to Have Declined to Limit--Market Brighter

Porcupine Stocks Irregular Situation Improves Slightly

Mining Shares Still Lower, Altho. Market Rallied Well in Afternoon--Cobalts Still Inactive.

World Office, Tuesday Evening, Aug. 15.

Irregularity was a pronounced feature of the mining markets to-day. Prices opened lower than last night's close and resumed the downward slide, interrupted by short rallies, until the afternoon, then they picked up noticeably and the market looked better at the close than for many days past.

Trading was fairly brisk and the total showed a good day's business, with plenty of encouraging buying in the afternoon session.

The sharp declines and sudden rallies that marked the day's trading, brokers believe to be good signs of a weaker market in the near future. The consensus of opinion amongst traders is that the Porcupine prices are scraping bottom, and that while there may be further decreases, they will be limited. Some of the stocks, the average cannot go much lower.

The market appears to have almost said itself out and there are rumors of a very heavy professional short interest that will be looked after soon. A dividend had a peculiar day. It sold down to 40-1/2 from 45 and after much effort climbed back to the high figure, closing strong at 42. Preston East Dome sold down to 22. Reo opened at 11-1/2 and sold down to 10. The Cobalt Extension stayed around 50 through the day. Hollinger got as low as 10.10, but the last sale registered \$10.15.

The silver shares were a little stronger than usual. Beaver, the stayed close to 44, but the Cobalts were very inactive.

Pennac Mine In Good Ore

Lake of the Woods Property Showing Up Well--Free Gold at Bottom of Shaft.

The directors of the Pennac Reef Gold Mine, Limited, of Winnipeg, Man., with properties at Star Lake, Lake of the Woods, have received the following report from their superintendent:

Having just returned from my mine, I beg to submit the following: The bottom of the shaft, now 76 feet deep, shows some visible gold, and all pans very freely.

The stripping of the surface is showing up high-grade ore, and with depth this will surely increase in value. So far as the testing of the ore indicates, it is showing it to be high grade instead of low grade ore. Should this keep up the company will be the owner of one of the largest high-grade ore bodies on the American continent, and the more I examine the property the more I am convinced that it is a great mother lode of this country.

There is no doubt that the company will make a fine gold mine on this mine. I will make my reputation as a mining man over 40 years' experience.

With a small amount of capital spent in further development, a plant can be installed for treating the ore on a large scale that will make this one of the greatest paying mines on the continent.

(Signed) Geo. B. Thurber, Supt.

Quebec and Return.

The new steamer "Governeur" which sails every Thursday from Toronto for Quebec direct will arrive on Thursday morning and sail at 1.00 p.m. The Montreal and Quebec by way of the St. Lawrence will be the ship on her two weeks ago, when owing to a mishap to her propellers she was delayed, expressed themselves as highly pleased with the boat, and the route she takes and with their treatment by the company.

For anyone contemplating a trip to Montreal or Quebec by way of the St. Lawrence, no changes of boat, takes the Bay of Quinte. Thousand Islands, runs all the routes, tickets and descriptive folders may be had from A. F. Webster & Co., Incorporated, King and Yonge streets. There are a few berths still vacant for the next sailing.

PROSPECTING CENTRAL AND NORTHERN CLAIMS

Porcupine Companies' Properties Being Worked Efficiently and Economically.

John C. Hill, president of the Porcupine Central Mining Co., and the Porcupine Northern Mining Co., in receipt of a letter from Mr. Charles E. Morgan, managing engineer of those companies.

Regarding the operations of Porcupine Central claims, he says that work had been principally confined to surface prospecting on some of them, whilst on two of them, the Askwith and the Jarvis, in the centre of the field, adjoining certain of the Bewick-McCreigh holdings and Canadian Northern Exploration claims, a more elaborate campaign of development had been undertaken. He further says that the Cook claim, adjoining the Town of South Porcupine, has been thoroughly drained by digging a trench across its eastern end and is to be laid out in about 180 town lots.

Regarding the Porcupine Northern properties, he says that the boundary line of T'sale, adjoining the Campbell Victorian claim on the south, is to be patented and laid out in town lots, and that all operations in the township in Porcupine is to be in the neighborhood of the Mattagami River.

It is our determination to use operations of other companies as a guide to our own and to reduce the cost of exploration work to a minimum, rather than waste the treasury resources in creating a semblance of activity which may be entirely unproductive. I am endeavoring to conserve these resources as much as is consistent with operations, so that we may apply them at the right time in a definite way, and with a certainty we might not otherwise have.

J. M. CLARK HONORED BY N. BRITISH ACADEMY

Elected to the Honorary Council of Great Scientific Society.

LONDON, Eng., Aug. 14.—(Special Correspondence.)—One of the most noteworthy scientific societies in the empire is the North British Academy. It is an academy of arts, sciences, literature, agriculture, inventions, handicrafts, industries, and the learned professions, music and drama. It takes cognizance of the men through the empire who distinguish themselves in any or all of these various fields.

The honorary vice-presidents of the North British Academy are the Right Hon. Viscount Milner, K.C.B., G.C.S.I., G.C.M.G., Field Marshal Roberts, V.C., K.P., K.C. L.D.; and the Right Hon. A. J. Balfour, M.P., F.R.S., D.L.

Just recently the Right Hon. Walter Runciman, M.P., a prominent member of the Asquith Government, has been elected a vice-president of the academy.

Clark, Esq., K.C., M.A., LL.B., F.N., B.A., Toronto, Canada, has been elected to the honorary council of the academy.

Brooks, LL.D.; Frank Bramley, Esq., K.C.; Horatio, Esq., J.P.; Briton Riviere, R.A.

The legal department of the North British Academy is the sphere in which J. M. Clark, K.C., has a European reputation and was the man chosen by the academy to report on the geology of the Great Lakes and the Rainy River region. His work for science, which began years ago, is thus noted. He was a winner of the Macdonald medal in science at Toronto University, in which competition Dr. Andrew Lawson was entered. Dr. Lawson, now state geologist for California, has a European reputation and was the man chosen by the academy to report on the geology of the Great Lakes and the Rainy River region. His work for science, which began years ago, is thus noted. He was a winner of the Macdonald medal in science at Toronto University, in which competition Dr. Andrew Lawson was entered. Dr. Lawson, now state geologist for California, has a European reputation and was the man chosen by the academy to report on the geology of the Great Lakes and the Rainy River region.

CITY HALL NOTES

Bonding the Water Mains a Live Topic--Street Railway Revenue.

Ald. Chisholm headed a deputation which waited on the board of control yesterday, who wanted a water main in the part of ward one which is north of the construction of a street railway, that was East Toronto. They had been notified of the construction of a sewer, for which they would have to pay, but they did not want a sewer when they had no water.

The city treasurer's department explained that they wanted a bond for \$500 and a cash of \$200 to be fore, which would sanction the work of laying the water main. The council thought that in this case they could waive the deposit and do the work on their own. The residents' work will be commenced there soon.

Single Track Loop for Rosedale.

The board decided to recommend to the council the construction of a single track loop in North Rosedale. A double track loop was advocated, but it was declared that a single track was all that the district needed.

The board agreed to guarantee \$200, together with the University of Toronto, which has guaranteed a similar sum, for a course of public lectures in town planning, which will be given here by Thomas Mawson of the Liverpool University.

Object to Blasting.

Seymour-avenue residents appeared and again complained of the blasting in a brick works close by.

"My house is cracked from top to bottom," said one. The matter will be taken up with the city solicitor, who will see if he can have an indictment issued by the city attorney.

The residents of River-street and vicinity protested against a permit being given to the Farmers' Feed Co. to erect a manure factory in that district. The deputation claimed considerable inconvenience from dust, etc. The council decided against the permit.

Extend Streets at Asylum.

It was moved by Controller Ward and agreed to by the council that a bylaw be introduced to run the streets opposite the asylum grounds thru from Queen to King-street when the property is broken up. The G. T. R. may object to the procedure.

With the Past Five Years the City's Revenue from the Street Railway has Doubled. City Treasurer Coody received a report for \$1,052,500 from the company yesterday for the month of July. Five years ago the city's percentage of the railway receipts was \$46,850.

A Message to You From PORCUPINE

Is the purchase of Railroad Securities or Coppers surrounded by any great profit possibilities under present conditions?

No.

Our financial giants are advising their friends, their clients and the world at large to buy Gold Securities when first issued and when low, stating that, if sound judgment is used, great profits are inevitable, and quick.

PORCUPINE is the sensation of the mining world. We are advising all of our best friends and clients to buy the better Porcupines immediately, but we advise the use of care in selection.

We have been familiar with the Porcupine District from its discovery, and we are in close touch with the development now in progress. We will give you careful analysis, unbiased, unprejudiced opinion and advice.

We have a very intimate knowledge relative to one Porcupine Stock that, we believe, based upon the expressed opinions of eminent engineers and expert practical miners, if purchased without delay, is surrounded by wonderful profit possibilities.

Correspond with us at once, and we will gladly share with you the above referred to intimate knowledge.

Do not delay. Do it now.

Anglo-American Development Co., 11 Colborne Street - Toronto, Canada

HAWKES TAKES A RISE OUT OF MACKENZIE KING

British-Born Movement Not a Racial Appeal--Will Defeat Reciprocity.

SAULT STE. MARIE, Ont., Aug. 15.—(Special)—At the first campaign meeting in West Algona, held at the Soo to-night, Arthur Hawkes spoke a big crowd of Britishers on the place of the British-born in the coming election and a banquet was brought by the British Association was formed. There are more Britishers at the Soo than any other Canadian town of similar size, and the pro-British cause is being pushed with a vigor that is not to be met with elsewhere.

From the camp steadily comes the news of important claim transactions. Last week, it is reported, \$350,000 worth of property changed hands, with strong interests who already have large holdings in Porcupine doing the buying. And eminent engineers continue to endorse the wonderful district. There is nothing, then, the matter with the camp.

Hence it is only a market reaction in stocks brought on probably by the drastic selling going on among so many other securities.

Those already owning Porcupine stocks, and those intending to buy, should at once take advantage of the opportunities which are offered.

to the British-born, and there were infinitely greater issues at stake than the defeat of Laurier. The movement would go on, even the cabinet minister who failed to understand it was not wise enough to keep silent about it.

For himself it was deeper than any schedule of prices that might be the result of some kind of political economy, that moved him to fight against the consummation of what he believed to be a tremendous blunder. It was a melancholy spectacle, said Mr. Hawkes, when politicians who looked like statesmen, traced those who differed from them, on such points as these, he had inadequately defined.

Another cabinet minister's newspaper described him as making "base appeals to defeat Laurier."

Nothing was further from the truth. There was no business in the appeal

Forty Thousand a Year

Conservative Estimate of City Population--From Assessment Department.

An increase of 40,000 in the population of the city is estimated from the figures of the assessment department, which have been completed in all except wards three and four. The average increase in the wards whose assessments have been completed is 5400. That makes the population, estimated from the figures at hand, about 80,000.

The largest increase in population discovered so far is in ward six, where there has been an increase of 10,545. The total assessment in that ward has gone up \$7,447,000. Ward two leads in the other wards in increased business

WEDNESDAY MORNING

Commercial Reports
Sharp Break in Wheat Market
Late Selling Induces Lower Prices

Weather in West Continues Favorable to Crop, and With Good
Advices From Other Countries Causes Decline.

CHICAGO, Ill., Aug. 15.—Wheat looked like liquidation sent wheat to a lower level to-day, the close being lower than yesterday. Corn was firm on hot weather in Kansas, closing 1-4 to 1-2 to 3-8 higher. Oats finished 1-4 to 1-4 to 1-8 higher and provisions from 10 to 17 1-2 depressed. Trading was quiet.

Wheat opened weak and sold down early 3-4 under yesterday's final figures. Shorts with profits in sight were sold and caused a rally, but it was only temporary, and the close was practically at the bottom. September was liquidated in consideration of a quantity of "drop" in the "eighties," influencing the weakness of deferred futures. The demand was far from equal to the supply of the market.

The short selling of corn yesterday was somewhat overdone and there was more of it at the opening to-day, which rendered the market sensitive to the demand which developed after the initial dip. Hot weather was reported in Kansas, and Kansas City traders sent in much bullish news. Another factor in steadying the market was a private report to the effect that the continental wheat crop in Indiana and Kentucky, leading ground in Ohio and Michigan and suffering from heat in Missouri and Nebraska as well as Kansas, September sold between an extreme 64 1-2 and 63 1-2.

In oats the elevator interests sold more of it at the opening to-day, which rendered the market sensitive to the demand which developed after the initial dip in corn and the recovery later of that cereal. September sold between 41 3-4 and 40 3-4.

The provisions market was a narrow and weak affair. January pork closed 17 1-2 lower at 52 1-2, September 17 1-2 lower at 52 1-2, and September ribs 12 1-2 to 15 lower at 50 1-2 to 50 1-2.

Winnipeg Grain Prices. Prev. Close. Open. High. Low. Close. Wheat—No. 1, 98 1/2, 97 1/2, 98, 96 1/2, 97 1/2. No. 2, 97 1/2, 96 1/2, 97, 95 1/2, 96 1/2. Oats—No. 1, 33 1/2, 32 1/2, 33, 31 1/2, 32 1/2. No. 2, 32 1/2, 31 1/2, 32, 30 1/2, 31 1/2.

European Grain Markets. Liverpool closed yesterday with wheat bid lower than Friday. Corn closed bid lower.

Broomhall's Cables. Broomhall cables as follows: United Kingdom—Harvesting is finished and owing to the very early start of the crop will provide the mills with 1,000,000 bushels more than last year. France, Germany and Central Europe—Pasture and root crops are suffering from drought. Broomhall says that the crop in France will import any foreign wheat before next spring. German harvest is being very firm. The weather in the southern districts of the weather has improved and harvesting is progressing rapidly. The wheat crop is increasing. The crops in the Volga region are bad, and consequently the outlook for the crop is very small. The outlook for the corn crop is favorable. A crop is commencing to move, and expect that the shipments will be large in September. The outlook for the wheat crop is very favorable. Hungary—Owing to unfavorable weather the wheat crop is only a good outlook for. Last year the corn crop amounted to 175,000,000 bushels.

ST. LAWRENCE MARKET. Receipts of farm produce were 100 bushels of grain, 3 loads of hay and a few dressed hogs. A few hundred bushels of new oats sold at 40c. Hay—Eight loads sold at \$18 to \$20 per ton. Hogs—A few dressed hogs sold at \$10.00 per cwt.

Market Notes. Joshua Ingham bought 100 lambs, alive, at \$1.25 to \$1.30; 70 sheep, alive, at \$1.25 to \$1.30; 100 calves, being for light yearling ewes and wethers.

GRAIN. Wheat, fall, bushel, \$0.80 to \$0.85. Oats, bushel, \$0.70 to \$0.75. Corn, bushel, \$0.45 to \$0.50. Potatoes, bushel, \$1.50 to \$2.00. Apples, bushel, \$1.00 to \$1.50. Peaches, bushel, \$1.00 to \$1.50.

Butter, farmers' dairy, \$0.25 to \$0.28 per dozen. Eggs, strictly new-laid, \$0.18 to \$0.22. Spring ducks, lb., \$0.12 to \$0.15. Fowl, per lb., \$0.12 to \$0.15. Chickens, per lb., \$0.12 to \$0.15.

PRICE OF WHEAT STILL DECLINING

Break of Cent and a Half Under General Liquidation—Brokers' Comment.

Ericsson Perkins & Co. had the following: Wheat—Market opened weak and ruled easier all day, although a fair rally from the low took place. Northwestern markets were lower early, but rallied on reports of rain in Canada and cooler weather there. Cash demand was lacking, both milling and export, also some large sales were reported from this market, which lack confirmation. The market is a narrow one, for lack of outside interest, and while we do not favor the short side, we advise caution in buying, and do so only on a temporary basis.

Corn—Opening showed a recession from the close last night, with scattered liquidation. There was too much short selling on the decline, and a sharp rally of over one cent took place. We look for a trading market in the immediate future, as many people are skeptical regarding the final outcome of the crop, showing a small total as indicated, and more or less aggressively bearish, while the buying power is to a certain extent limited.

Oats—Showed a very firm undertone, the market rallying sharply from the low point made around the opening. Offerings are not oppressive, as shown by primary figures, 77,000 bushels, and a week ago and 2,350,000 last year. We advise the long side of May on weak spots.

Wheat—September and December closed with a break of 1/4 to 1/2, under general liquidation. The market was not the export business expected at the sharp decline in Monday's wheat prices. This applied to the local situation and the seaboard as well. At the further decline this morning the trade confidently expected that consideration should be given to the market followed by a rally of about 1/4 to 1/2 from the low point. The foreign situation was looked upon as bearish, and the heavy carrying charges facing bulk buyers, and a regular collapse in the late selling. It may take an overbid position in the market to bring about a rally with this change of feeling in the local trade.

Flour—Barrel wheat: Wheat—Market, after opening weak and ruling lower during greater portion of the morning, finally developed a steady weakness, and prices at the close showed a loss of 1/4. With the exception of a few scattered orders, the market was quiet. The Canadian crop to warrant caution in pressing the short side on breaks, we believe that until the market shows improvement in cash situation, as well as a radical change in both Canadian and American news, advancing the sale of all hard spots to make sales.

Chicago Markets. J. P. Bickell & Co., Manufacturers' Life Building report the following fluctuations in the Chicago Board of Trade: Wheat—Prev. Close. Open. High. Low. Close. Sept. 98 1/2, 97 1/2, 98, 96 1/2, 97 1/2.

Butcher's Cattle Sold at Monday's Prices—Milkers and Springers—Strong—Hogs \$6.85.

The railways reported 50 carloads of live stock at the City Yards, consisting of 1194 cattle, 829 hogs, 988 sheep and lambs and 128 calves.

Butchers. Geo. Rowntree bought for the Harris Abattoir Company 822 cattle on Monday and Tuesday, as follows: 272 steers and heifers, 45 to 100 lbs, and some heavy cattle at \$5.50 to \$6.00, and 55 calves at \$1.25 to \$1.50, canners, \$1.50 to \$2.00 per cwt.

Stocks and Feeders. See Charles Zeigler and Son's sales for prices paid for stocks and feeders. Milk and Springers. Prices for milk and springers ranged at from \$60 to \$70 each.

Veal Calves. Veal calves sold at \$4.50 to \$5.50 per cwt. Sheep and Lambs. Sheep sold at \$4.25 to \$4.50; lambs, \$7 to \$7.50 per cwt.

Hogs. Selects, fed and watered, \$7.75 to \$7.85; \$7.45 to \$7.50 for dry at country points. Representative Sales. Charles Zeigler and Son, 22 cows, 100 lbs, each, at \$4.75 per cwt. 25 cows, 100 lbs, each, at \$4.50 per cwt. 25 cows, 100 lbs, each, at \$4.25 per cwt.

New York Cattle Market. NEW YORK, Aug. 15.—Feeling steady to strong. Calves—Receipts, 172 head; market almost nominal; steady feeling for good stock; medium to good veals, \$5.25 to \$6.00 no western offer.

Chicago Live Stock. CHICAGO, Aug. 15.—Receipts: 1070 head market ready to lot; lower, \$5.10 to \$5.15; Texas steers, \$4.50 to \$5.15; western steers, \$4.50 to \$5.15; stockers and feeders, \$3.10 to \$3.55; cows and heifers, \$2.20 to \$2.15; calves, \$5.75 to \$5.25. Hogs—Receipts, 1444 head; hominal steady, at \$7.75 to \$8.

(Incorporated Under the Laws of the Province of Ontario.) The same to carry with them a bonus of 25 per cent. of Common Stock. Dated August 1st, 1911. Due August 1st, 1941. Principal and semi-annual interest February 1st and August 1st, payable at any branch of the Union Bank of Canada or Metropolitan Bank.

DENOMINATIONS: \$100, \$500 and \$1,000 Bonds issued in coupon form, with privilege of registration of principal. TRUSTEE—Guardian Trust Co., Limited, Toronto. CAPITAL ISSUED AND FULLY PAID UP. 6 per cent. First Mortgage Thirty-Year Sinking Fund Gold Bonds \$1,250,000 7 per cent. Non-Cumulative Preferred Stock, issued and fully paid up 2,500,000 Common Stock, issued and fully paid up 2,500,000

PURPOSE OF COMPANY Canada Bread Company, Limited, has acquired as going concerns the plants and the businesses of the Bredin Bread Company, Limited, of Toronto; George Weston (the Model Bakery), of Toronto; H. C. Tomlin (Toronto Bakery) of Toronto; Stuart, Limited, of Montreal, and W. J. Boyd of Winnipeg. In the case of Boyd the real property is excluded, but a parcel of land in the City of Winnipeg, about two acres in extent, is substituted. The first three companies have been in operation for almost thirty years and the last two for close to twenty years. They have all grown from small beginnings till they are now among the largest in their respective fields in Canada.

POSITION OF BONDS For full particulars reference may be made to our prospectus, which is accompanied by a letter from Mr. Mark Bredin, the Vice-President and General Manager of the Company. We draw attention to the following points: 1. The present \$1,250,000 of 6 per cent. First Mortgage Sinking Fund Thirty-Year Gold Bonds are secured by trust deeds to Guardian Trust Company, Limited, Toronto, constituting a first mortgage on all the property, real and personal or mixed, owned or hereinafter to be owned by the Company, as more fully described in said trust deeds. In the trust deeds it is specially stipulated that of the \$1,000,000 cash being placed in the treasury, the amount of \$200,000 shall be held by the Trustee, to be used only in the redemption of bonds or in investment in additional plants and real estate, thus increasing the fixed assets under the mortgage. A Sinking Fund of 1 per cent. is operative from August 1, 1911.

2. The assets of the companies already taken over stand in excess of all liabilities, and without any allowance for good will, trademarks, etc., at \$2,414,214.14, to April 30th, 1911, to \$2,670,414.14, to April 30th, 1910, to \$2,670,414.14, to April 30th, 1909, to \$2,670,414.14, to April 30th, 1908, to \$2,670,414.14, to April 30th, 1907, to \$2,670,414.14, to April 30th, 1906, to \$2,670,414.14,
