SUDDEN DEATH AT ST. THOMAS

Performing Household Duties, Mrs. Mackay Was Called.

ST. THOMAS, Oct. 7.—(Special)—Death came with terrible suddenness about 10:40 this morning to Mrs. Elizabeth MacKay, 19 John-street. Mrs. MacKay attended church yesterday, the complaining of not feeling very well. She performed her household duties as usual this morning, and was doing some washing when she fell over dead. Dr. Fulton, who was called, attributes death to heart disease.

RAN INTO OPEN SWITCH.

TWEEDE, Oct. 7.—A westbound C.P.R. freight train ran into an open switch of the Bay of Quinte Railway here to-night and crashed into the Quinte train, demolishing seven cars and damaging the engine badly. One brakeman of Bay of Quinte was slightly hurt.

BOY BURNED TO DEATH.

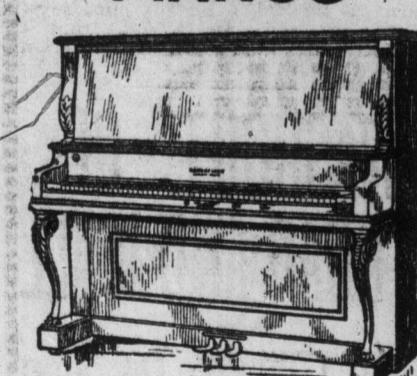

DELHI, Oct. 7.—(Special)—Freddie Hawtin, a little boy, was burned to death at his father's home, four miles from here, this afternoon.

Before going to a neighbor's farm, his mother poured some coal oil into the stove. The boy lit a match and the oil caught fire. The house was burned down.

FOR MUNICIPAL OWNERSHIP.

ST. THOMAS, Oct. 7.—(Special)—Municipal Ownership Division, the name of Local No. 496 Amalgamated Association of Street Railway Conductors organized here to-night.

NORDHEIMER PIANOS

It is almost impossible to convey in print the qualities which distinguish a piano of the highest class. Mere assertion or superlative can be made for a piano by the test of the demonstration of the piano itself. While we know, and our customers know, that the Nordheimer pianos possess the qualities of tone, richness, sonority and singing power, yet the prospective buyer who honestly desires a good piano may not know it. Hence our appeal to you to try the Nordheimer pianos before you decide elsewhere. Because we offer you in our Nordheimer pianos instruments which we conscientiously believe to be the highest class pianos produced in Canada does not mean that the Nordheimer pianos cost extra. For instance, for as low a sum as \$350. with as much as three years to pay in, you can own one of our Nordheimer pianos. Please make your visit of inspection we seek. We want you courtesy and attention, whether you purchase a piano from us or not.

The latest Nordheimer pianos are on sale at either of the following addresses:

Editor Loses His Case.

J. E. Gosselin, editor of The Spectator, lost his life sentence in which he appeared as his own lawyer, and C. M. Jarvis, with whom he was at law, will not have to build a new fence between the two farms.

W. H. KELLY, Bay Beach has begun a suit for \$1000 damages for services she received while riding on the Hamilton Street Railway.

A summons for trespass has been issued to Charles Merritt, bartender at the Star Yards Hotel, by Walter L. Scott, who claims that the bartender spends too much time around the Scott home.

The street railway wants to increase the width of the devil-stripe from 4 to 6 feet, Jarvis-street, between King and Main-streets.

The Tigers, in spite of the action of the C.A.A.U. will play Montreal here Saturday.

W. H. Gray, York-street, and William Gray, York-street, were each sent down for a year this morning for stealing two incandescent lamp globes from Hartman's Hotel.

King Weston, the red-haired negro who shot at H. Bowman on Sunday was remanded for sentence this morning.

Thus spoke the Rev. Dr. Rankin at the luncheon of the Upper Canadian Bible Society yesterday, when some 1300 citizens of the city assembled to hear the several works required in the erection of KENT SCHOOL, Dufferin Street; HOWARD SCHOOL, Howard Avenue, and for Fencing, Grading and Sodding the Playground at RIVERDALE HIGH SCHOOL.

Rugby About the Union Muddle

SPORTING COMMENT.

A front page morning newspaper suggestion is made to Rev. Canon Welch that his sermon about increase in drinking should be followed by another on a lengthy text taken from racing touts' advertisements, which advice is likely to be ignored because, as everyone knows, this kind of racing dope is only gobbed up by fools, and it would surely be a surprise if a real person would notice it.

Watch Toronto play ball at the foot of Yonge-street next season. Prior to locating at Diamond Park the association made a determined tho unsuccessful effort to secure a lease of Bay-side Park from the city, but the mild opposition from the amateur league was just sufficient to kill the majority when the matter came to a vote in council. Now matters have changed and not only are a majority of the aldermen favorable to professional baseball, but many are enthusiastic fans, and should the Toronto Baseball Club endeavor to secure the park on the Esplanade to play their games in 1908 and after they would most likely meet with success.

Thoney for Toronto next year is the expectation of those who know it, and at that he may do not here. His arm does not seem to improve and he gets credit for losing the Sunday game at Columbus by his inability to get the ball.

RUGBY FOOTBALL.

The Rugby-match Saturday in Montreal has created a woful mix-up. It's unfortunate that the Toronto men consented to play, and if they knew the fate that was in store for them at the hands of the C. A. A. U. registration committee, there would probably be another story. Hamilton announces its belief in the accepted condition of things, and will hardly entertain Montreal next Saturday, according to schedule.

Charlie Petch's friends are so satisfied with the form shown by their man in his late trial stunts that they declare he will beat Longboat and all the ambitious amateurs in next Saturday's Ward Marathon. It will be in fact of the seventy already in, in one big majority of entries to date are new men, the trophy may go to a dark horse. The fact of seventy already in, in Con-troler Ward states the Longboat and Gadsboro, who were first and second; Tait, third; Petch, ninth; Weatherbie, thirteenth; Kerr, fifteenth; Hill, sixteenth; Near, seventeenth, and Puttuck twenty-four, are the only medal winners again, while of the also rans Clark and Keiley.

Don't think that Longboat is not training faithfully for the event. The entered, he defaulted in the Dunlop race at Rosedale, and on enquiry it was learned that the big-chested Indian is at home in the country, where he conditioned for so many winning events. So look out for the Onondagan next Saturday.

TENPIN BOWLING.

Last year saw a great boom in bowling, but this season it is bound to take a bigger stride. Alleys have been installed in the Royal Canadian Club rooms and the Toronto Rowing Club, and it is the purpose this season of the City Tenpin League to have home and home games on the different alleys in the city. These home and home games will certainly cause great rivalry between the different teams.

The A.B.C. bowling tournament, which is in February in Cincinnati, will see Detroit bowlers go down unusually strong, for the City of the Stars are still the big tournament leaders this fall season. They are successful, Toronto will be largely represented at the tournament in 1909.

The national tournament and the C. B. A. will hold their meetings right after the close in Cincinnati, but which will be first is undecided. However, it is to be hoped that the C. B. A. get the first date, as Toronto will then catch the bowlers on their way back to the national at Rochester.

LEAGUES COMPARED.

Toronto's victory over Columbus is seen to have settled a long debated question as to the relative positions of the Eastern League and Western Association in favor of Pat Powers organization. Listen to The Kansas City Journal:

There are many who have maintained that the best team in the American Association did not win the pennant and it is to be hoped that they are right. While Toronto did to the champions of that association the most important and strongest minor league in the country will put a crimp in the prognostications of those who have maintained that Columbus could make a good showing against some of the best teams. The three time pennant winners were apparently in the same class with their Eastern League opponents, winning but a single game of the entire series of five which were played. It is unlikely that the Americans will be repeated next year, as the gate receipts were a decided disappointment to both teams, while the interest was never as great as had been hoped for by the managers. To those who are outside it may seem strange that Bill Clymer's outfit should be so hopelessly overmatched by the Canadians, but after an analysis of the games we will have to hand it to the Canadian Eastern Leagues. They rank little below the very best.

The PROBLEM!

The question of clothes is one that should interest every man. High-class tailoring insures perfect-fitting garments. It increases the life of the clothes, too. You will hear my work highly commended by those who know good clothing when they see it. My Suits at \$18, and Overcoats at \$15 will please you.

Vancouver Paper Makes Charge Against Tecumsehs—Long Trip.

HAMILTON, Oct. 7.—(Special)—The Tiger Rugby executive decided at a meeting here to-night that if Argonauts and Montreal had been professionalized by the C. A. A. U. they would refuse to enter professional ranks. Hamilton is noted for bringing up players with the game, and should the entire team in professional league prove amateurish players would refuse to play with the pros, and the team would drift to a low level.

Hamilton think Argonauts made a big mistake in playing against Russell Saturday, especially when his case was in the papers often, and the Tigers will profit by the Argos' mistake.

In other words, Hamilton will abide by the C. A. A. U.

Intermediate Collegiate.

Representatives met last night and arranged the Intermediate Western Collegiate schedule, which is as follows:

Oct. 26—Winner Section C 2 at winner Section C.

Nov. 2—Winner Section C 1 at winner Section C 2.

O.R.F.U. Will Affiliate.

The Ontario Rugby Football Union are not as a body affiliated with the C.A.A.U., but as a member of the Canadian Rugby Football Union, which was formed last night that they had never been asked to take out papers, but are prepared to do so on being asked by the C.A.A.U.

The Rugby Question.

The action of the C. A. A. U. in professionalizing Montreal and Argonauts, and the action of the C. A. A. U. in the account of Ernest Russell, who is not in good grace with that governing body, is now the main topic in the news.

At a meeting of the Argonaut executive last Thursday night instructions were issued to play against Russell at Montreal, but not the results.

The suspension does not hurt any of the running suspension.

At a meeting of the Argonaut executive last Thursday night instructions were issued to play against Russell at Montreal, but not the results.

Another lacrosse championship is to be decided. The Mimico Stars, winners of the Senior Toronto League, and St. Simeon's, winners of the Intermediate League, play off for the championship of the city leagues on Rosedale grounds Saturday, Oct. 12, and one of the fastest games of the season is sure to be contested.

THE WEST AND THE TELEGRAPH.

Fortunately for the early success of the public ownership movement on this continent public service corporations are their own worst enemy. What could only be slowly accomplished by the force of argument is being rapidly compelled by the arbitrary, unreasonable and tyrannical action of franchise-holding companies. After the sharp lessons many of them have received in recent years and the evidence everywhere afforded of the rising tide of popular irritation and resentment ordinary prudence would certainly counsel greater circumspection and fairness in the conduct of the public services entrusted to them. Ingrained habits, however, are not easily overcome and officials accustomed to bully their customers into submission and to silence adverse criticism by methods direct and indirect that impose penalties on its utterance, find it difficult to realize that the day of their power has gone and the hour of reckoning has come.

The attempt made by the C.P.R. Telegraph Company to control the news service and policy of the western press of Canada and to limit its right to discuss and criticize freely any and every matter affecting the public interest is the latest example of corporation intolerance. This public service company has, according to The Manitoban Free Press, a monopoly over a sufficiently wide district to produce the inevitable fruits of monopoly—an insufficient service and an insolent disregard for its duties as a common carrier. This pitiful verdict on the manner in which this company discharges its duty as a public trustee is finding ample support in its more recent actions. Not content with arbitrarily and greatly raising its tariff for newspaper matter it is now getting back at its press critics by charging commercial rates.

If this story ended there the evils attending the private operation of public services would be strikingly exemplified. Excessive rates are a common enough feature of corporation conduct of public franchises. This particular company, however, has gone further by summarily depriving a western newspaper of its telegraph service, unless a contract is signed undertaking not to criticize its future acts. But it is of the essence of a public service that it be free to all and no corporation entrusted with it has a vestige of right to discriminate either in favor of any of its patrons or against any of them. Attempts on the part of public service companies to muzzle the free expression of opinion by withholding privileges that are of general right cannot be too strongly condemned. What is now happening in the western provinces provides the strongest possible argument for the nationalization of all public services of the class immediately concerned.

THE PLAN THAT FAILED.
Vast projects have not infrequently failed just as the last link was about to be forged. The plans may have been elaborately thought out, and every provision made for a successful completion, yet at the last moment events transpire to nullify or destroy much of the expected result.

The Canadian captains of finance who framed the electric ring which was to encircle the whole of Ontario have failed in their object. The Nicholls-Cox-Pellatt Syndicate conceived the plan for securing control of the electrical busi-

The nucleus of the project was formed by the Canadian General Electric Company, intended to be the supply agent of all the subsidiary organizations of the syndicate.

As is usual in all large enterprises, the start was small, but the combination was aggressive. There were millions in sight, and few get-rich-quick propositions offered such incentives as this one did.

Toronto, the hub of the province, had first to be captured. There was not much difficulty in this. The Toronto Electrical Light Company, the Incandescent Lighting Company, now merged with it, and the Toronto Street Railway all came under the control of the one set of interests.

Having arranged for electrical equipment and power distribution, in natural sequence came the power development. The Ontario Government was friendly; Niagara was unappropriated, and thus was evolved the Electrical Development Company with its \$6,000,000 of watered stock.

So far the current of events ran smoothly, but it still required that the field of operations be widened. Radical railroads throughout the district, and even outside the province, were next given attention. The York Radial; the Niagara, St. Catharines, and the Buffalo, Rochester & Lockport systems came in as sections of the great whole.

Fortune seemed to smile on every venture up to this point. Investors were eager for the stocks that were continuously put out, and it seemed only a question of how many millions were to be divided among the would-be Rockefellers when, lo! the well-laid schemes were thwarted.

It all hinged on an election. It was scarcely believable that the provincial government could be changed from Reform to Conservative, and that G. W. Ross, the friend of the "ring," could be deposed by J. P. Whitney, an advocate of the people's rights. But this is what happened, and then commenced the train of events which dissipated the castles considered as good as built, and destroyed the Midas touch of the coterie of financiers.

The demand for cheap light and power, the growth of public ownership sentiment, and the advent of Adam Beck were disastrous factors in the "electric ring's" history. Like the South Sea Bubble was the break-up in the securities that it was hoped to turn into real money. Electrical Development stock, considered in its hey-day as good value at \$60, became unsaleable at any price; Canadian General Electric dropped from 200 to par; Toronto Railway, from \$25 to \$9; Toronto Electric, from 170 to a point not yet defined. Fortunately for Winnipeg the question will again be taken up, as prominent young Conservatives will speak very strongly on the subject.

West Toronto Liberals, who meet monthly at Brookton Hall, to organize that district for provincial purposes, believe they can put up such a fight as will keep Speaker Crawford busy when he returns for re-election. Hon. A. G. Mackay, the provincial local leader, will address the electors of West Toronto during this present month.

"The great bulk of electors believe, or feign to believe, their party is right and must be right. It takes a revelation of huge proportions to move them."

"Aspiring to breathe the air of freedom, we would suppose that every measure that came up for consideration would be submitted to the criticism of our own judgment. But such is not the case. Judgment is completely suspended till they learn from the political press what Laurier thinks about it, or what Borden says or Murray or Tansey."

"Electors make themselves very busy as committee men, or canvassers, and thus establish a claim to an office or job where there is no employment, and then claim honor on ordinary efforts, as though they were secured. They will be strong enough, they will put in the further and potent pie that they spent money—which will usually settle it."

"What matters it that the law of the land was violated so long as the law of party politics was honored?"

"Aspiring to breathe the air of freedom, we would suppose that every measure that came up for consideration would be submitted to the criticism of our own judgment. But such is not the case. "The Eye Opener says that a member of the Manitoba cabinet was behind the petition filed to recall Mr. R. L. Borden to call a Dominion convention in the interests of the party, that the associations of this city withdraw their active influence at the meetings held by Mr. Borden at Winnipeg, in the month of January, or at some time suitable in the near future, with the object of deciding in convention and formulating the various planks of the Conservative party, setting forth their attitude on the great political issues of the day; and further it is resolved that in case Mr. R. L. Borden refuses to call a convention, the petition will be referred to a judge to reach the bench. No other road to a judgeship is known. News-paper men become candidates, or faithfully advocate the party cause, that largely advertising and printing contracts may be secured. There is no other way to get them."

"Shrewd business men and manipulators go into the game to get on the inside track to influence big contracts or big land purchases to them or their friends, or to win lots of others according to their station."

"Electors make themselves very busy as committee men, or canvassers, and thus establish a claim to an office or job where there is no employment, and then claim honor on ordinary efforts, as though they were secured. They will be strong enough, they will put in the further and potent pie that they spent money—which will usually settle it."

"What matters it that the law of the land was violated so long as the law of party politics was honored?"

"Aspiring to breathe the air of freedom, we would suppose that every measure that came up for consideration would be submitted to the criticism of our own judgment. But such is not the case. Judgment is completely suspended till they learn from the political press

Without Sam Bernard, "The Rich Mr. Hogenheimer" might not prove altogether a dreary waste, but would probably pall more or less in an atmosphere of gloom than do the re-going public performances do not incite with wit through its three acts, and its music, while freely interspersed and having occasionally a touch of pleasure, ill, is not particularly "catchy," and of kind to evoke the sympathy of the audience. But with Mr. Bernard the "sixty laughs a minute" qualification is missed, if at all, by a narrow margin; at least, while the comedian holds the centre of the stage. And so it was that the large audience at the Princess last night, though it gave ample opportunity for enjoyment, did not find it.

Sam Bernard is well known in Toronto by reason of his previous appearances in vaudeville and musical comedy. As a manufacturer of merriment he is as happy a success as "The Girl in Kay." His present vehicle professes to be a sequel (something of a novelty) in a musical show.

Boathouse Trouble.

Isaac Newton Devins and Robert Maw entered into an agreement in July, 1906, by which Maw was not to carry on the business of boat letting at the Humber during the next 20 years. A mandamus is also asked to compel Maw to tear down a boathouse that he has erected for the purpose of hiring boats.

An Account With the Laundry.

The Toronto Laundry Machine Co. are being sued by Norman G. Heyd on account of certain moneys and for an account of the dealings of the company with respect to certain machinery purchased by Louis F. Heyd from the company and returned by him to the company for sale.

Threshing Mill Suit.

Alexander Ranger, farmer of Prescott, County, purchased a threshing mill outfit from Lamare & Co., agricultural implement manufacturers of St. Remi, Que., under an agreement for \$250. Ranger, upon trying the machine, found it incapable of performing the work required and returned the mill to the station and refused to pay for it. The company sued Ranger in the county court of Prescott and Russell, but judgment was given for the defendant with costs. The company, upon appeal to the divisional court, have again lost, their appeal being dismissed with costs.

Judgment and Reference.

Chief Justice Mulock in single court granted a reference for a judgment for sale of the machinery in the action of Ernest Dohle against Carrick. A reference is directed to Official Referee McAndrew and E. R. C. Clarke, who is appointed permanent referee. The motion to wind up proceedings was denied.

Owner and Tenant Fall Out.

Joseph Walker of Halimond County, in 1900, leased a farm to Ernest and Arthur Loftus. Last year Arthur quit the farm and Ernest continued to run it. A dispute arose as to the care and management of the farm in the lease as to cultivating, seedling, etc., and Walker began an action for damages for breaches of the covenants. The county court judge dismissed with costs the action of Ernest and Arthur Loftus, but gave judgment for \$10 and costs as against Ernest Loftus. Walker appealed to the divisional court, who have now dismissed his appeal with costs. Judge Mabie dissented as to the costs.

Engineer Badly Injured.

M. A. Pigott & Co. are appealing to the court of appeal from the judgment of Justice Magee, finding in favor of Fredrick J. Williams in an action to recover \$25,000 and costs for injuries received while in the company's employ. Williams was a locomotive engineer, and while engaged in pulling cars in the construction of the Grand and Goddess River in August, 1906, the track gave way and Williams rolled down the embankment with the engine and was terribly injured. Williams sued the company, alleging negligence on their part, and was awarded \$5000 and costs. The award has not been concluded.

Hotel Business in Stratford.

Chief Justice Falconbridge has given judgment in the suit of Fricker against Bowman, an action to recover \$1000 for damages sustained by breach of a covenant contained in an agreement of sale by Bowman to Fricker of a hotel business in Stratford. The covenant was with reference to Bowman's not carrying on a

business in Stratford.

KIPLING HERE ON BUSINESS**AUTHOR'S VISIT TO CANADA NOT DUE TO SENTIMENT**

CALGARY, Alta., Oct. 7.—(Special)—Rudyard Kipling, who is traveling in Canada, is not making the journey to get fresh inspiration for fiction or poetry. He is looking after important business interests.

Atto, Mr. Kipling, a secretive person, wished to appear solely as a man of letters before the world, it is far from being a fact that he spends all of his time in the society of the muses. For ten years his literary output has yielded him a better average return than that of any other Englishman — a better average return, probably, than that of any other English-speaking person. But only a small part of his time since 1890 has been devoted to literature.

About eight years ago he began to interest himself in colonial investments. His first venture was in South Africa. He went to Cape Town as a guest of Cecil Rhodes and to recover his health. Under the influence of the "Napoleon of South Africa" an important change was wrought in his plans of life. In following years he often visited Rhodes to find for him a considerable sum and the investment not only quadrupled but quadrupled in value prior to 1905.

In the latter year he turned to Canadian undertakings, guided in these by the Canadian agent-general in London. The Canadian agent-general in London has never been more profitable, but was nevertheless a successful one; and it is to look into the details of the business that he is in Canada at the most attractive of ports.

He is intensely interested in the development of his financial projects. Mr. Kipling is now a rich man — probably the richest man of letters in Europe. His friends deplore his absorption in material enterprises, as he pays but little attention to the calling in which he became famous.

TWO CROSSING ACCIDENTS.

Horse Killed at One and Trolley Smashes a Gate.

While William Apstein was driving over the Strachan-avenue railway crossing at 6:30 yesterday morning, his horse was struck by a train. The horse was killed, the wagon wrecked and the driver thrown 20 feet. The rig was owned by Adolph Myers. Apstein says he heard a bell ringing, but the horses were up and that a negro had beckoned him to drive away.

A suburban trolley car ran into the gates at the C. P. R. crossing on Davis-nton-road yesterday and came to a stop on the tracks. An engine was some distance away.

OBLIGATORY ARBITRATION.

Article Adopted by Committee of Peace Conference by Large Vote.

THE HAGUE, Oct. 7.—The arbitration committee of the peace conference to-day continued the discussion of the Anglo-American project providing for obligatory arbitration.

The article establishing two lists,

one containing the cases to be submitted to obligatory arbitration, and the other containing the names of the powers which adhere to the article was adopted.

A FOOGY BRAIN.

is usually the direct result of a clogged liver, and accompanying this is a disordered digestion, unstrung nerves and general lassitude. Eliminate the waste products of the body and enable the liver and kidneys to perform their proper functions and the entire system will resume its normal condition. King Palmetto Compound is the most perfect kidney and liver tonic, nerve and blood purifier ever prepared, and you will be asked to take it on faith. Its formula is not a secret, but it is published plainly.

With Mrs. Fliske, Madame Kalich, as well as my other attractions, and Mr. Belasco's various productions, you cannot afford to be without the most interesting of the most aman manager has so far provided for Toronto.

Wishing you all success, I am yours sincerely,

DISAGREEMENT AT BREWERY

Employees Find Objection to New System of Paying.

When it came time to pay off at the O'Keefe Brewery Co. Saturday noon the employees discovered their envelopes shy half a day's pay for the week.

The men protested and were told in order to let the bookkeepers off on Saturday the company decided to pay up Friday.

The brewery workers demand \$80, in all to circulate a petition among the men demanding that the company give them a receipt for the half-day's work, with the assurance that as long as they continue to work quarterly and placed to their credit.

Otherwise the brewery workers will quit.

Uniform Bill of Lading.

Notice has been forwarded to the members of the Canadian Manufacturers' Association directing attention to the meeting of the inter-state commerce commission, to be held in Washington on Oct. 15, to consider the uniform bill of lading. All the Canadian roads will be represented, as well as a number of the larger shipping interests.

Sneezing and Snoring Colds

Can be stopped in a few days by inhaling fragrant healing Catarrhoxine.

No remedy compares with Catarrhoxine in the head and nasal catarrh. It soothes and heals the inflamed mucous membranes, prevents sneezing and coughing, clears away the "stuffed up" feeling in the forehead. If you haven't used Catarrhoxine get it to-day and try it on your cold. You'll be surprised at the results.

The medicine is a nostril inhaler treatment which eases every one because it cures so quickly. Come to us and see.

THE STORE OF QUALITY

We're Celebrating

We celebrate to-day the tenth anniversary of our move into our present showrooms and factory at the corner of Yonge and Temperance Streets. Before that we were twenty-five years at the corner of Yonge and King Streets. That is where we opened our retail store. We outlined our quality policy then—a policy which has made us successful—built up this big business.

Our present building is in the shopping district of Toronto—handy to all street car lines. It's the most complete and best stocked Fur building in Canada to-day. To get acquainted with it is to save money and get satisfaction. Our "battle cry" is

MODERATELY PRICED

quality Furs for quick selling. That's the way we're celebrating our anniversary—by giving you a chance to buy the latest and best of Furs at a moderate price. What we call a moderate price is a cheap price for good Furs.

Cub Alaska Seal, Small Curl Persian Lamb, Moire Persian, Russian Sable, Royal Canadian Mink, Russian Ermine, Fox and Alaska Sable Sets, Muskrat, Bear and Angora Garments.

The tendency towards higher prices gives you a good opportunity to buy to advantage to-day. If you can't call, write for our catalogue.

TORONTO JUNCTION, Oct. 7.—A serious, if not fatal, accident was narrowly averted this evening on Dundas-street at Humberside when the front step of a street car struck a lad who was riding on his bicycle and threw him under the car between the tracks. The car was brought to a standstill before the hind trucks reached him.

A little boy named Wilfrid Baldwin, 2 1/2 years old, of 28 Dundas-street, was found wandering on Dundas-street near Victoria-street this afternoon. The little fellow was soaked with rain and was unable to find his home or tell his name. He lay on Dundas-street took him to her home, changed his clothes, and kept him there the rest of the night, almost in hysterics, was informed by the police of his whereabouts.

Laura, the infant daughter of Harry and Nellie Yates of Cockburn-avenue, died on Saturday, and was buried today in the Evergreen Cemetery.

Evangelist Gals of Boston will conduct a special two weeks' service in Victoria Presbyterian Church, sometime in November.

Several members of Lakeview Lodge No. 27, I.O.O.F., went to Broadview Lodge to-night to initiate candidates. The state of the town's affairs to-night is deplorable. It is almost impossible to get across even at street corners. An especially disreputable crossing is at Gurney's corner, where the C.P.R. tracks are being moved, and where the road and sidewalk have been torn up. A lady fell to-night in the mud, and was almost en-gulfed in it.

Mrs. Conroy, B.A. (honorary graduate of Victoria), eldest son, Town Clerk Conron, has returned from sixteen months' trip to England and Ireland.

The regular meeting of the town council to-night was fraught with heated discussion at the commencement, but the best of good feeling prevailed among all the councillors as the evening wore on.

progress statement in connection with the paving of Dundas-street showed that the \$10,000 which had been voted for sidewalks, \$1,200 had already been paid, and the contractor asked that the remainder be forth-coming.

Councillor White reported that several citizens of Glendale-village had handed him a petition complaining that they were overcharged for the taxes on Glendale-avenue. This sower was to be paid for by the citizens of this street and the town in equal proportions, and the citizens believing they had had to bear too much of the expense, took the matter into the court of revision. They still maintained that they were not fairly treated by this court of revision, and the council to investigate the matter. Town Collector Anderson flatly refused to discuss the matter, and said that Councilmen had been imposed upon and that if the court recommended to consider matters of this kind, the whole council meetings would be taken up with investigations. If these citizens did not get satisfaction from the court of revision, they should have appealed to the county judge.

The mayor stated that all the information concerning the Junction regarding annexation, that had been asked for by the city, had been received by the board of control and

would most likely be discussed at the meeting of the board to-morrow. Complaints were received that the man does not go on South May-street. The sewer man will be notified of this omission.

It appears that people throw old stove pipes and other wastes in the garbage cart, and this averages nine tons a day.

Mr. Jessop complained that the sidewalk in front of his sister's store, at 64 Dundas-street, was nearly 5 inches too high, and that two catch basins were placed on either side of the store, so that the sidewalk between them was too high above the level to allow the water to run into the catch basin. Mr. Jessop stated that a single catch basin in front of his store would serve the purpose for which the two were intended, and at the same time would let the sidewalk be at the proper level. The master was referred to the engineer.

The question of raising the tracks on Dundas-street to allow the work of paving to go on was again discussed, but nothing further was decided upon.

W. J. Dalton recommended that Mr. McEachern, who assisted energetically in the rescue of the drowning in the Humber Bay disaster, be presented with a pair of flags for his steam launch, an appreciation of his services at that time.

The recommendation was carried through.
