# Militia to End the Strike By a Process of Attrition

## Whole Disaffected Region to Be Overrun by State Troops and Mines Resumed.

Wilkes-Barre, Pa., Sept. 24.—A prominent coal operator said today that he expected to see the strike over by another month. He declared the end would come by a process of attrition in which the United Mine Workers' Union would be wiped off the face of the earth for all time. He claimed that the 85 per cent of the miners were willing to go back to the mines at the old scale provided they were protected from violence.

"The solution of the problem," said he, "lies in the hands of the militia. The whole coal region will be honey-combed by soldiers and disorder stamped out. When order is restored the mines will be resumed and the soldiers will stand on guard until all danger of resumption of violence is over."

In the light of the statement the words of Gen. Robinson are of interest. He says: "During the past two weeks Governor Stone has received many letters calling upon him to exercise the power at his command and make it possible for the collieries to resume and multiple coal. These appeals have multiplied and grown so urgent that he feels that he can no longer ignore them. You can say with perfect safety that the ordering out of the 13th Regiment is only the first step in the Governor's plan. He has decided to send troops to every district where the rights of the citizens are interfered with. Every man who wishes to go to work will be furnished protection. The campaign will now be short and decisive."

### LAWLESS CONTINUES.

Philadelphia, Sept. 24.—Of the ten anthracite coal producing companies of Pennsylvania, State troops are to-night camped in five. Despite the presence of the troops in these districts, rioting and general lawlessness continued in the hard coal districts, although they are covering more than one hundred miles.

At the present there are full regiments, two companies of another and troops of the field. If the disorder continues, Governor Stone will be compelled to call out additional soldiers.

While there has been no general rioting, the disturbances have been of such a nature as to cause to authorities much apprehension. Every effort is being made for the maintenance of order in the counties affected and the troops to prevent disturbances from growing to such an extent as to cause serious reports are coming in from every section of non-union men and there being either shot or clubbed. Houses of workmen have been burned or dynamited, and attempts are being made to hold up coal trains or derail them.

### MILITIA MAN THE MINES.

Wilkes-Barre, Sept. 24.—In compliance with the request of herit Jacobs and numerous citizens of Luzerne County, Governor Stone issued an order today ordering the 9th Regiment, National Guards, Pennsylvania, to mobilize at Wilkes-Barre. There are quite a number of mine workers in the regiment, but all responded readily to the call.

President Mitchell said the presence of the militia would not interfere with the strike to a successful issue.

A Central Railroad of New Jersey coal train was derailed by an open switch, which had been tampered with by unknown parties. The crew equipped by jumping and the cars were piled up in a wreck.

The militia was intended for the New York market.

A big crowd of strikers attempted to prevent the non-union men employed at the Exeter colliery of the Lehigh Valley Coal Company from returning from going to work this morning. A number of deputy sheriffs, in charge of Thomas Burke, tried to break up the crowd. A fight followed, in which several shots were fired.

### MUD ASSAULTED WORKERS.

Susquehanna, Pa., Sept. 24.—An urgent request for troops was made today to Governor Stone by Sheriff Maxey of Susquehanna County. This morning No. 2 Colliery of the Hillside Coal and Iron Company at Hillside City resumed operations, and this evening the men were permitted to return to work they were set upon by a mob of 300 men, women and boys, followed to their homes and pelted with sticks and stones. Shots were fired on each side, but none took effect.

### ARMS BOUGHT IN NEW YORK.

New York, Sept. 24.—Although practically no anthracite coal is being received in this city and the prices continue to soar, the president of the coal roads at their meeting yesterday expressed satisfaction at the result of the week's work and declared that the outlook for the coming week is brighter than at any time since the strike began. They agree that many men would return to work if they did not fear violence, and they assume that the calling out of the additional troops will inspire many men with confidence to resume.

### AS BEASTS OF BURDEN.

Winning, Sept. 24.—The Donkhorboer, a brand of ten cent cigars ought to be sold at ten cents, but they are selling for 15 cents. They are made of all the tobacco grown in this country. They are sold in all the stores. They are sold in all the stores. They are sold in all the stores.

### STATE CAN OPEN MINES.

Judge Declares Pennsylvania Can Compel Operators to Work Them.

Chicago, Sept. 24.—"It would be an exercise of lawful authority for the State to compel owners of coal mines to operate them for the benefit of the public, or else for the State to take charge of the mines and operate them."

## LET BOTH PARTIES UNITE IN "CANADA FOR CANADIANS" TARTE TO GANANOQUE LIBERALS AND CONSERVATIVES

### "I Say That It is Not So," His Reply to the Globe's Statement That Mr. Fielding Intimated the Tariff Would Be Lowered—Strenuous Exposition of the Doctrine of Self-Protection Backed Up by Tariff for Tariff.

#### WHATEVER THE CONSEQUENCES SAYS HE WILL STAND BY HIS HIGH TARIFF PRINCIPLES

Gananoque, Sept. 24.—(Special.)—Into this thriving village of industry came today the Hon. J. Israel Tarte, Minister of Public Works in the Liberal cabinet, to uphold the policy of protection which he held up and to assure the people that for his part he would insist upon the maintenance of a strengthening of that policy. Mr. Tarte arrived in his private car during last night, accompanied by Henry Miles, ex-president of the Montreal Board of Trade, and followed later by Wilson Smith, ex-Mayor. After an early breakfast Mr. Tarte was committed for trial at the next assizes for the murder of a woman.

But I happen to have been born with an inquisitive mind, and I do not believe in those who stayed at home and think they know it all.

During the revision of 1897 he had looked closely into the tariff, and now, as then, it was his right, indeed it was his duty, to look into the tariff, and Mr. Tarte said he had done so. He said that he was not a party to the tariff, and in that capacity he had just as much right to look into the tariff as any of his friends who believed they knew enough without looking into it.

Both United States and Germany Are Vigilant for Their Interests.

Birmingham, Sept. 24.—The Post here says that both America and Germany are watching the Franco-Siam squabble very closely. It is threatened, the paper says, both America and Germany understand an understanding as to what the consequences will be to their respective commercial interests in the country.

After declaring that Canada must have a tariff of her own, and her own interests wholly, Mr. Tarte paid a tribute to his friend and able critic, Mr. Fielding, and concluded with an appeal for a Canadian nation building on British lines and for the policy of Canada for Canadians.

## Urge Citizens to Be Calm There Will Be Coal to Burn

### Conference to Consider Situation Evolves Nothing More Alarming Than an Edict.

Hard coal will be a luxury this winter in Toronto, but there will be plenty of soft coal.

This is the edict issued by the Joint Committee of the Board of Trade and City Council, as the result of their conference. Yet the Chamber of Commerce, which said that the coal situation was not so serious as it is being made out to be, and that there is no need for a coal strike, is not so sure.
