Mr. Calder were that the enquiry beclude the matters referred to, as well as all contracts let without tender or sufficient opportunity for tender or at excessive prices, whether such contracts were fraudulent or not. As to the liquor charges, the minimum terms I suggested were an enquiry in all cases of trafficking in liquor licenses, intimidation of licensees and stifling of prosecutions, forgoing the charges made as to campaign funds.

Thore Enquiry.

Thoro Enquiry.

"I think a thoro enquiry as to liquor licenses is decidedly in the public interest. We have been placed in possession of much information to show that the liquor license commissioner, J. F. Bole, was guilty of the practices referred to, and as he is the head of the whole liquor business at the present time, it is decidedly in the public interest that these charges should be investigated. The names of the witnesses were submitted. He saw them. They mostly lived in Winnipeg and the evidence of none of them was taken. Perhaps they would not give it voluntarily, but their evidence was absolutely material.

"In reference to the charge against the attorney-general. I was instructed by those who are conducting the mater to ask that Mr. Sharp of Gull Lakebe summoned again. He had already given evidence on the bribery charge. I handed his name to Mr. Magee on Fridey, a week ago, and he said he would be called. Mr. Magee apologized to me afterwards, when I brought the matter up, saying that he had overlooked it and closed the enquiry without calling him.

knowledge that it will be submitted to your advisors.

Open to Suspicion.

"I say, personally, that every dealing of J. F. Robinson is, in my judgment, a matter of suspicion, and I think it in the highest degree of public interest and importance to widen the enquiry as to the road charges as indicated. In the two enquiries unconcluded in the house this session, namely, the telephone site at Swift Current, and the Weed Lake Bridge, the conduct of Mr. Robinson on such, in my judgment, that should warrant his immediate dismissal, or, if warrant his immediate dismissal, or, if not dismissal, demand suspension, and I certainly think that Mr. McNab, deputy infinister of telephones, should be suspended, in view of the evidence of Mr. Hessel, which I was prepared to substantiate yesterday by stronger evidence.

Following is a partial copy of an fficial letter from the war office received by Col. W. Hamilton Merritt in connection with a proposal to raise a Canadian aviation fund:

War Office, London, S.W.,

18th Feb. 1916.

Sir: I am directed to acknowledge receipt of your letter of 20th Jan., 1916, addressed to Lieut.-Col. C. J. Burk, D.S.O., on the subject of raising a Canadian aviation fund.... to train five or ten pilots a month in Canada during the continuance of the

As regards the . . . proposal I am to say that your offer to train five to ten pilots a month up to the standard of the Royal Aero Club certificate and to continue their training for thirty hours in the air would be of material assistance in providing the necessary pilots for the Royal Flying Corps; at the same time it should be understood that it is essential that, after taking their certifi-cates, these pilots should be trained on fast machines. On completion of their training in

Canada, these men would be enlisted in the Royal Flying Corps as second class air mechanics, draw pay as such at the rates provided in the royal warrant for pay, etc., and be granted free passage by transport when available, otherwise by packet . . . to the United Kingdom. where they would receive the usual clothing.

DISCUSS MANY MATTERS

Deputation to Postal Authorities to Point Out Need of Two Deliveries Daily.

A meeting of the Oakwood Ratepayers' Association was held last evening in Oakwood Hall. President William Caswell occupied the chair.

Among other matters discussed were the organization of a garden and poultry association, two mail deliveries daily in the district, and arrangements for a war auxiliary meeting in connection with the Toronto and York County Patriotic Fund at an early date.

auxiliary meeting in connection with the Toronto and York County Patriotic Fund at an early date.

Secretary W. Norman read a letter from Postmaster Ross, in which he states that the matter of two deliveries of mail in the Oakwood district is receiving the consideration of the postal authorities. It was decided to send a deputation to the postal authorities to point out the necessity of two deliveries daily.

The organization of garden and joultry show for the district was much discussed. The chairman stated that the residents would give their full support to such a movement, the majority of the people in the section, being enthusiastic gardeners, and the poultry, in his opinion, being second to none in the northwest district. It was decided to appoint a show committee, the following being elected: J. Dickenson (convenor). W. Herbert, W. Ryder, T. Bennett, W. Furnival and G. Deering.

Regarding the Oakwood Hall Association, it was decided to ask the committee at their next business meeting to give the residents of Oakwood an opportunity to secure shares in the syndicate. Several complaints from ratepayers were recorded regarding rates and taxes. A large number who had paid 'their amounts to date had received final notices demanding the amount of their tax bills.

DUMMY GUNS SCARED FOE SUBMARINE AWAY

Clever Ruse of Captain Steamer Director Saved Ship From Attack.

NEW YORK, March 14.-Four lummy guns made of spare spars and mounted on the after and quarter decks of the Harrison Line steamship Director saved that vessel from coming a submarine victim, according to C. A. Rovers of Santa Fe, N.M., a horseman, who arrived here oday on the steamship Cameronia

from Liverpool.

Mr. Rovers said that he was on the Director when the incident occurred. The ship left Pensacola, Florida, on Jan, 15 with a cargo for Liverpool, he said. "On Jan. 25 when about 200 miles from the Irish coast a submarine was sighted several miles astern. It immediately gave chase, and for two hours it hung on to us despite the best speed that the engineer of the Director was able to get out of her. Finding that the submarine was gaining, the Director's captain gave orders to bring up from the hold a spare derrick spar, and it was sawed into four lengths, which were mounted in a conspicuous manner on the decks so that they would

resemble guns.
"It was evident the dummies were noticed by the U-boat, for it slackened speed and begun to manoeuvre evidently so as to present a difficult mark. Our captain, to keep up the oeuvring, and without lessening his speed endeavored to convey to

From the way he spoke those present were led to believe that some provisions of the temperance bill "still in the air." One gentleman in the gathering earnestly believes, however, that the government will pass prohibition subject to a vote after

the war is over After the Conference. The World tried last night to get a further line on the situation and wha ad taken place in the convention, and also to try and get the issue sifted flown to the points on which a settlemay be ultimately reached. It will be noticed that the delegation that waited on the government repre sented (1) the distillers, whose interest is in the sale of spirits; rewers, who are interested in the sale of beer and who have more or less money invested in hotel licenses; (3) licensed hotelmen: (4) the licensed shop men, and (5) the licensed wholesale men, who handle both spirits and beers of various kinds, as well as wines, and who sell to all sections of the retail trade. These various interests apparently have had conferences in the last few days and they united on presenting a detailed statement of their views, as set out above.

If these gentlemen's requests were granted there would be no referendum; there would be no great change in the law, and there might be compensation.
From what The World could gather

int representation of all the bodies interested in the trade will be con ceded; it is admitted on all hands that Mr. Hearst and his colleagues inti mated that their program will be sub stantially carried out, altho it is not yet known by anyone that a referendum is an essential part of it. And there will be modifications in was recently given out as their likely

One member of the house, who is ormed, said there was a considerable number of members who re cognized that the main thing to reach a substantial curtailment and limitation of drinking, and especially while the war was on, but, said he, if this is not gone into wisely, in e effort to do too much the govern ment might overreach themselves and b make things little better than they are now." For instance, he said, that unles the Dominion Government enjoined complete prohibition, then even if the local government closed the hotels and closed the shops, the people of Ontario would still be able to bring in any amount of liquor they wanted from adjacent provinces. He make things little better than they are even said that the brewers of Ontario could ship their goods into the Province of Quebec and have it reshipped from there to their customers in this province, provided they ardered in the province, provided they ardered in the brewers and distillers would be free manufacture. Now, if this is the manufacture. Now, if this is the brewers and distillers would be free of them Now, if this is the he said. case, and if the Dominion Parliament

For three hours yesterday a deputa-, constitutional, then the best thing to do toward sane results would be: That the license-holders, both hotels and shopkeepers, be given a few months after a date to be fixed the hotels be limited, until the war was over, to the sale of beer and light wines, the alcoholic strength of which would be limited to four per cent, or below, and that the sale of spirits he allowed until the was was over in government shops, very few in number, and under the strictest regulation as to quantities sold and as to the parties purchasing, and that when the was was over and that the government then crystal

the whole question be made a referen-dum to the electors of the province, ize into legislation the views expressed y the electorate, and by that time the Dominion authorities and the provincial authorities would get together so as to secure the will of the people being carried out, even if it meant complete prohibition of everything." The Manitoba Law.

Another gentleman said that the new law in Manitoba, which embodies what is called the Macdonald act, might be followed in the case of the ale of spirits. In Manitoba this sale is confined to druggists. From what The World can gather, however, this suggestion did not meet with much approval here. They said they would much sooner see the business of any selling of spirits in the hands of the government. The main point that these carties made in substance was that he government, by permitting the sale of low percentage beer during the war in the hotels and the same beer and inspected spirits in government shops, they would be able to do more in the way of prohibition and the regulation of the drinking evil than by a widespread prohibition which did not

prohibit as long as the importation of occer and spirits remained available to he people of Ontario, notwithstanding any act of the legislature. Of course the people hit hardest by this proposal would be the men who now have shop licenses, and whose ousiness would be passed over to the state, but which in any case would be greatly reduced by the new regulations. People would neither import beer nor

spirits if they could get them in some kind of way, and under strict regula-A Summary. To summarize the discussion that

ro summarize the discussion that came out of the interview of the trade with the Ontario ministers yesterday and the further general discussion that followed upon it, The World presents the following:

Prohibition by the legislature of the sale of beer and spirits in hotels will stop a lot of drinking.

But it will not stop the importation from an adjoining province or outside country of beer, wine and spirits

ment have given the same consideration to a petition signed in favor of the bars even tho it were as large as that presented against them? He was willing to stand by what government thought wise, but would it not be better, he asked, for the government to keep control of the liquor traffic thru the licenses, restricted as they had suggested, and then, when the people were in a mood to consider what they really did desire after the hysteria of the present time had abated, to take the vote and act upon it then? side country of beer, wine and spirits by citizens of Ontario, either in large or small quantities, and its consumption in the home of the importer. Because of the expense and inconvenience of this package trade it will go to spirits rather than beer or wine ber of parcels of comforts for the Earls-court boys in the trenches. The knitting of socks and shirt-making were also in-

as compared with hard stuff. The legislature has no control of this trade. Only the federal power can wipe it In the meantime the legislature might be most effective in the minds

of many by allowing beer in hotels, and spirits and beer in government shops, and thus keep more control over the trade; tho even this would not close out importations. But there would be less temptation to import. In the meantime the two powers, ederal and provincial, could get together looking to absolute prohibition by joint action or by parliament assuming the full responsibility of carrying a law of complete prohibition. If these possibilities and contincencies are not allowed for, more or

less confusion, more or less drinking may take place notwithstanding any act of the legislature. In other words if the prohibitionists want prohibition to the full they must go to parliament or to parliament and legisature and get what they can from the legislature and the balance from parliament. But parliament may be an unknown quantity at this time. The house may be over by Easter, and it might take a longer time than that to get a sweeping law thru both

It is up to the Hearst government and the legislature to give the most careful consideration to all the facts and circumstances. And yet the people of Ontario, as we believe, and the cople of Manitoba, as we know, want what they hold to be an evil radically dealt with. No vote of the electors Ontario in a referendum will do this. Nor can a cancellation of hotel and shop licenses be put into immediate operation without compensation to the license holders for the stocks

The discussion is only beginning. Geo. Wright's Views. "If Lloyd George could succeed in re ducing the consumption of beer in England, where it is wenty-eight gallons per capita, to what it is in Canada, eight gallons greatest wonders of the century." said George Wright, president of the Toronto Hotelkeepers' Association, and proprietor with E. M. Carroll of the Walker and Carls-Rite Hotels, when interviewed the said of the desired the desired to which wait. of the Hotels, when interviewed ifter leading the deputation which waited on the premier yesterday.

It was not fair to compare the two yountries, even the it were admitted hat the consumption of spirits was that the consumption of spirits le the war was on, but, said he, this is not gone into wisely, in effort to do too much the governthe sale of intoxicants in Ontario should be restricted to that of beer and wines only. They were willing that the gov-ernment should regulate the percentage of alcohol to be contained in the percentage

did not see its way to passing a general prohibitory measure, or to pass legislation prohibiting export or manufacture in a province which had declared for prohibition, and this, he said, was very hard to do, and perhaps un-Home Consumption.

They would get their supply for home consumption in any case. The closing of the bars would simply mean added expense in shipping the liquor from more pense in shipping the liquor from more distant points.

In every community the hotelmen had a certain circle of friends and relations. Prohibition would raise a feeling of dissatisfaction in all these circles, and dissatisfaction was specially to be avoided at this time. Nothing would heal that rancor but time.

By elimination, the license commissioners had forced the hotelkeepers to do business in the most costly parts of the cities, where rents and taxes were highest. If they were to be put on a par with the owners of apartment houses, whose buildings were in less expensive portions of the city, they simply could not meet the competition. The hotelman was entitled to more than six per cent on his investment when he was forced to be responsible for the good conduct of his house twenty-four hours in every day of the seven days in the week.

All men could not of necessity be members of social clubs. But every man must have a place for social intercourse, or the privacy of the home would be AT FOUR ON SATURDAY

One hundred and sixty-eight Toronto men offered to enlist yesterday, making lic without charge, conveniences which the cities did not provide, continued Mr. Wright. It had been suggested that the hotels might make a charge for the use of their wash rooms. On the other hand the hotels had always been the tax collectors for cities. There was the cost of the grain and the manufacture of the liquor, the taxes and excise, the buildings and the bottles and the capsules, the barrels and the insurance, and the transportation of the bottles and barrels to and from the hotels. All this entailed a vast expenditure of money, a matter to be seriously considered. There was really very little economic waste.

Mr. Wright said he had laid these matters before the government. He admitted that his deputation had received very little encouragement.

As for the petition he very much doubted if it really expressed the feeling of the public. Would the government have given the same consideration to a petition signed in favor of the bars

201st Battalion.

Central Y. rotunda was crowded to overflowing last night, when members and friends of the 201st Battalion met and friends of the 201st Battalion met to inaugurate the recruiting campaign of the Toronto Light Infantry.

*Lieut.-Col. E. W. Hagarty, the commanding officer, spoke on the ideals of the battalion, and Mr. G. A. Warburton, general secretary of the Y.M.C.A., complimented him on the high ideals the 201st had set before them, and called on the young men to take their place in fighting for a cause so just as the allies' is today.

Sergt.-Major Arthur, who has already seen service in Flanders, and who is a seteran of many campaigns, added his all to the young men to go back with him in the Toronto Light Infantry, and do their part to finish the big work at the front.

Mr. J. P. Hagerman, the boys' work secretary at Central Y., and the Rev. John Coburn, chaplain of the battalion, threw out a challenge to the young men of the high school clubs, Y.M.C.A.'s and church organizations to line up with the church organizations to line up with the battalion and make it a brotherhood of

Pugsley Takes Responsibility. Hon. William Pugsley, resuming the djourned debate upon Sir Wilfrid Laurier's motion for a parliamentary nvestigation of the shell committee quoted from Hansard that the prim inister had promised an investigation if any concrete charge was made against any member of his govern-ment. It was a serious matter for a member of parliament to make a charge against a fellow-member. If he ailed to make out a case before the investigating committee, he would be ostracized by his colleagues and comnelled to resign his seat. In view of the facts already sub-mitted to the house and as yet undenied, Mr. Pugsley said that an investigation was imperative. To bring about an investigation some member store for the mother of nations in the struggle now waging. The men who enlisted under Lieut.-Col. Price would that responsibility and any risk connected with it. He then slowly and nected with it. He then slowly and mpressively read to the house the fol-

He recalled that on Jan. 2, 1914, upon information received from the imperial government, the Dominon Government had appointed a committee to co-ordinate the work of the various departments in case war should presidency of Sir Joseph Pope, had made various recommendations which met with the approval of the prime which Mr. Carvell alleged received no minister, but certainly between Janu- orders. The Dominion Steel, for exery and August it should have occured to the prime minister that, in the event of war being declared, it would done in Canada in the way of manu- shells and showed that these acturing munitions, yet no enquiry was made, and the subject apparently

never received the slightest consideration until Aug. 24, 1914, when Gen. Sir. Sam Hughes suggested that could be manufactured in Canada, and called a meeting of manufacturers at Ottawa. Case of the Carnegies.

Mr. Pugsley then read to the house some recent correspondence between himself and Col. Carnegie, who was member of the shells committee and is now a member of the imperial munitions board. Col. Carnegie explained his connection with the Welland concern, which received an order for shells at high prices. That concern he had organized before the war broke out, and after his appointment to the directorate and subsequently sold out the stock he held in the company. commenting upon this letter, Mr. Pugsley contended that Col. Carnegie's prother was the manager of the Welland concern and was also a member of the shells committee.

Mr. Pugsley in conclusion briefly discussed the twenty-two million dollar contracts for fuses awarded to firms in the United States, for which, he said. Col. Carnegie was largely responsible.

Meighen Replies. Hon. Arthur Meighen was heartily cheered by government supporters when he rose to reply. He characterized Dr. Pugsley's so-called "charge" as comic opera. It was a dramatic nerformance intended solely for the benefit of the press gallery. Mr. Pugs-ley had taken no risk whatever in saying that the government or its appointees had spent public money unwisely and improvidently. There had never been an hour in parliament since confederation when some charge of that kind was not being hurled at the government of the day. member for St. John (Dr. Pugsley) had assumed no responsibility, taken no risk, and had not for a moment put his seat in jeopardy.

The motion before the house, Mr.

201st BATTALION - 13 QUEEN ST. EAST Meighen said, would be voted down and no attention whatever would be paid to Dr. Pugsley's speech, described as a singular combination of tragedy and farce. There was nothing alleged against the minister of militia except that he "connived" at unwise shell committee. But to connive at a thing, said Mr. Meighen, is certainly no worse than to do it yourself. Sup pose some member of the oppositi charged the minister of militia with spending money in an improvident way, what does it amount to? That

kind of charge is made every day of the year against every government on the face of the earth. Trust Lloyd George. Mr. Meighen then proceeded to take up in detail some of the Carvell charges. The accusations brought against Gen. Sir Alexander Bertram, he branded as reckless slanders. Mr. Carvell had charged that Sir Alexander awarded he was largely interested, to wit, the and Manufacturing Co., and Valley City Seeding Co. Mr. Meighen, by affi-davits which he read to the house, seemed to prove conclusively that Sir Alexander Bertram had no connection during the afternoon entirely to shell Engine and Manufacturing Co. or with the Valley City Seeding Co., and that he had no beneficiary interest whatever

Mr. Meighen then referred to a number of ample, had received orders to the extent of \$4,000,006. He went over a list of ten companies in the west Carvell had charged had delivered no panies had delivered to date 198,170 shells out of three hundred thousand ordered. CONTROLLERS DISAGREE

When First Item is Lost, Entire Motion Dropped for Time Being, at Least.

To hold a tag day appears to be the only way of solving a difficulty which has presented itself, that of providing funds for battalions and er military units in Toronto. Mayor has withdrawn his resolution which, if passed, would mean the granting of a total of \$35,500 of Toronto's money to the soldiers. When the question, which became the most heated of the meeting, was brought up e board of control yesterday, in divided immediately. There were those who favored the grants, but they were in the minority. Finally when it came to the actual voting the item, \$1000 to the 74th, was lost and that settled the whole matter for the time being at least.

Not to Have Tag Day.

At the outset Mayor Church said
he did not think there would be any more tag days, but was contradicted by Controller Foster, who suggested laying over the matter of grants until

a tag day had been held. controller O'Neill: Why not put on tax and do away with the tag days? Controller Cameron: The tag day system is the best way possible. I want to put myself on record as faviate to helping present recruiting, the helping present recruiting. Mellody. dissioners object to a tag day. Mayor: The city has only given some \$12.000 for recruiting.

Controller Cameron: You mean a million dollars. I'll support a grant to battalions actually recruiting, Mayor Church made some compari-

sons, but Controller Thompson objected, and stated that Toronto had done more than all the other cities put So Much Kicking.

Mayor: There is always so much licking. Toronto has done less than other cities I know. I'm as strong to recogning a physical part of the control of the con for economy as anybody, but we ought give recruiting every encourage ment and assist the officers, who have paid out their own money in necessary expenses.

After deciding not to take up the resolution clause by clause, it decided to do so, but when the first battalion was named it was struck out by a vote of three to two, the mayor and Controller Thompson voting yes and Controllers Cameron, O'Neill and Foster voting no. That was the "last straw" and the motion

was withdrawn. During the controversy Controller Cameron was a strong objector to the principle. "I move that we grant \$1000 to the battalions recruiting. he said by way of opening the subject but it was pointed out that all were recruiting, even if only for 50 or 100 men. One of the most extraordinary cases that have ever been before the Ontario debate yesterday, and the speeches dragcourts was commenced yesterday in the ged on until six o'clock, when a night non-jury assizes before Mr. Justice session was agreed upon. The feature Latchford. The plaintiff in the action is of the day's proceedings was a severe Mrs. Christine Schmidt, who sues her criticism by Sam Carter, Guelph, upon husband, Fritz Schmidt, a New York the government and provincial treasurer glove importer, for the custody of two for failure to put a tax on the nickel children, Marcelle and Andree, the setting aside of an agreement, and a bond for \$5000 and alimony.

The defendant is a middle-aged man, who was born of German parentage in Brooklyn, New York, and Mrs. Schmidt was born in Brussels, of French extraction. They were married in 1897, and lived together for seven years, during which time three children were born, the first of whom died at birth. In 1904 the husband left and went to live in Canada, providing for the support of the children, who lived with their mother, until 1913. It is alleged that in January of that year he took the children from New York and hid them in Canada. They lived in several places in this country, finally making their home in Barrie, Ontario. During this period the wife claims she spent all her savings in trying to locate the children, and finally became a nervous wreck. Just at this time Mr. Schmidt produced to her thru his New York attorney, an agreement regarding the custody of the children, the elder of whom is 15 years of age, and the other 12, telling her that unless she signed it, she would lose all claim upon the girls and would never see them again. There was also a bond for \$5000 in this connection which she was to enter into and which was to be forfeited if she made any attempt to break the agreement.

Mrs. Schmidt now claims that the agreement was forced upon her under circumstances which make it not binding and asks for it and the bond to be set

aside.

About 18 months ago at Barrie she put in motion the Children's Aid of that town, and the society had the children brought before the county judge under the Children's Protection Act. The case was heard before Judge Vance and lasted six weeks and finally the court decided that there was insufficient evidence to warrant committing the children to the custody of the society. She alleged that the girls were affectionate to her, but later he had poisoned their minds. In her evidence it was disclosed that he had had improper relations with other women.

You have been good to me, very good, better than most men are; you have been delicate, full of attentions, and the souvenir of the past I will keep; for you, is my heart intact, where alone your name is engraved. It seems, according to your conduct, that it is I who is between you and happiness, the peace of mind—this thought haunts me. I try to discover in my conduct the reason which makes you act this way—I do not succeed; my head is a chaos, but my conscience is clear, absolutely clear, and no act, nor thought, which had not your good in vlew, is written there.

Another letter, written one month later, contains the following:

Berything disappears—the absolute confidence in a being I thought of the elite, that I considered the very essence of honesty, of integrity—this confidence is torn from my heart, to leave in its place but a horrid emptiness. I try to hold on to any straw—but nothing—my hands encounter nothing but space—nothing.

"But I want to say that the declaration of the treasurer that the the declaration of the treasurer that the nickel companies' tax and assessment are to remain unchanged takes all the steam out of that." the member declared. "You got after the insurance men—you took the attitude that you'd show them who was boss. It seems to depend upon whose ox is gored, who has the pull."

Ridiculous Assessment.

Altho the nickel monopolists' profits had increased from \$5,900,000 to \$17,619,000 in a single year, Mr. Carter said, the government was going to let the ridiculous assessment of \$40,000 stand. It would take a better explanation than the provincial treasurer had given to convince him that it was not a case of pull.

"It was wrong a year ago to not tax them, and it is three times as bad this year, when their profits have more than tripled," he declared.

"What has the nickel commission's report got to do with it?" asked the Guelph member. "The government have the facts of the earnings before them, and the capitalization—full of water, so full you could pump it out; you wouldn't even have to squeeze it. The people of this province ought to know about it."

The member also thought the province's financial statements in future ought to be drawn up properly by the provincial auditor.

In the spring of 1893 I was attacked by Muscular and Inflammatory Rheumatism. I suffered as only those who have it know, for over three years. I tried remedy after remedy, and doctor after doctor, but such relief as I received was only temporary. Finally I found a remedy that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted and even bedridden with Rheumatism, and it effected a cure in every case.

I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent, simply fill out the coupon bedow and I will send it free to try. After you have used it and it has proven itself to be that long-looked-for means of curing your Rheumatism, you may send the price of it, one dollar, but understand, I do not want your money unless you are perfectly satisfied to send it. Isn't that fair? why suffer any longer when positive why suffer any longer when positive relief is thus offered you free? Don't delay. Write today.

The need for sox in the trenches, as well as for the Red Cross, is as acute as ever, and contributions are earnestly requested. The knitting committee, T. These sox have been knitted by women having small children and for this reason are unable to leave home to accept other work and are given the wool and paid for knitting by the league. Some Ited Cross aprons which were sent to Hamilton by Mrs. Warren's work-room at 559 Sherbourne street, have met with such favor that an "apron industry" has now been started there.

Lieut.-Col. Merritt seized the opporbunity of a luncheon he gave yesterday to Sir Frederick Benson at the Military Institute to disclose a letter which he had received from the British war office on aviation. We print the essential parts of the letter elsewhere, and most important, and represents a very beg leave to call the serious attention big factor in determining the cost of of the public to the statements made any service. All this in face of the fact kilowatt hours, is like comparing the that Canadian aviators are regarded in Great Britain as the pick of the profession, and that Canadian manufacturers are making the best machine of its kind in the world. Right under your nose in Toronto, as a staff fore you can get into the club to have officer remarked to The World within a month past, you can get the best aeroplane that is made anywhere. Why then does not the government give us this most necessary equipment of modern warfare? Brennan, the inhim, declared that the war would be sake of argument that this represents won in the air. His honor the lieutenant-governor was present at Col. Merritt's luncheon When the hydro first started, the priand was evidently warmly in favor of the aviation service. Is it not possible to get the co-operation of the Ontario Government in the matter? The money subscribed or appropriated for machine guns has not been used and it could not be more profitably spent than on aviation work. The people who subscribed for the machine guns would certainly prefer to enemy's trenches than lying in the banks at home. We trust Col. Merritt will be able to secure sufficient assistance to make the movement for aviaa thoroly national one.

extended the courtesy of space for a reply to our editorial about the statements made concerning hydroalectric rates charged the city for lighting purposes. The statements made in this reply amounted to charges of misrepresentation on the part of the Hydro-Electric Commission. It appears to us to be hardly worthy of the Toronto Electric Light Company to make such statements without first making an attempt to verify them, or et feast to compare them carefully with the information which we believe is always open to those who seek it To say that our editorial is entirely misleading is to beg the whole ques-

The Toronto World tion. It is a matter of fact and of information about facts. We still believe that our information is more accurate than that of the T.E.L. Co., and the attempt to justify the figures of the advertisements previously published only shows further fallacies.

It is stated, for instance, that the

hydro rate used in the advertisements was obtained from the official hydro report. This may be true as far as it goes, but it stops short of the whole truth. The letter goes farther than the advertisements, and then does not give the entire fact. The figure used in the first place, and stated to be quoted from the hydro report, was one of a series of calculations leading up to a comparison showing the percentage reduction for the different classes of service. The table specifically stated that the comparison was for part of the year. This qualification, while significant to anyone, should have been particularly so to technical men who know that for any lighting service, where the hours of darkness vary with the seasons, the figures for

period of twelve months. The T.E.L. letter says "the report came out about June." If a little more care had been taken in scrutinizing it even to the extent of turning the page, there would have been seen, prominently displayed on the top of the opposite page, the date at the head of the auditor's report-August 17. It hardly takes a highly technical man to see that capacities of error of this character do not create confidence in other statements which are no better grounded. The theoretical explanation given to support the statements made is just as superficially accurate as the reference to the report.

The costly road will neither be a competitor of the At least that is the case made out by the opposition newspapers, which fairly shrick with denunciations of a "province betrayed." Newspapers supporting the government say the announcement will be received with great enthusiasm, but their general tone is

apologetic. A glance at the map of New Bruns wick will show that the main line of the Intercolonial keeps as far away as possible from the City of St. John and the St. John Valley. Constructed for military rather than commercial purposes it seems to go every place except where some business is to be picked up. From Moncton there is a branch to St. John, but it is back haul. The Canadian Pacific cutting across the State of Maine has the best of the Intercolonial Railway by at least 200 miles between Montreal and St. John.

When the Laurier government projected the National Transcontinental it was earnestly advised to run the road down the valley of the St. John to St. John, N.B., and thence eastward to Halifax. Such a course have proved unpopular in Nova Scotia. The road was, therefore, arbitrarily stopped at Moncton and constructed across New Brunswick many miles north of tidewater. To get St. John into touch with the National Transcontinental it was necessary to build branch down the valley of the St. John. That the Laurier government did nothing of the kind had a great deal to do with the land slide of 1907. which put the Conservatives in con-

Since 1907 the provincial government has been endeavoring to construct a railway down the valley of the St. John which would give competition to the Canadian Pacific Railway and bring St. John via the National Transcontinental into closer touch with western Canada. Instead of building the road as a government undertaking however, the government guaranteed

the bonds of a private corporation. The road has been partially built and now extends from Centreville in the northwestern part of the province to a point and taken out of the hands of south of Fredericton. The commitments of the provincial government amount to at least \$35,000 a mile, and the federal government is also to some extent committed.

The official announcement to which

we have referred indicates that the road is not to be linked up with the National Transcontinental, and is to be little more than a local road gathering business for the Canadian Pacific Railway. The Fredericton Gleaner, a staunch supporter of the government, intimates that later on the road may be extended to Vanceboro and connect with the Boston and Maine. Indeed, The Gleaner in prophetic vision sees trains running between Boston and St. John over the St. John Valley road. It is difficult to judge a situation so far away from the locality, but it certainly seems as if the provincial government has brought the ambitious tors expect important sales in a short enterprise to a lame and impotent conclusion. To divert traffic from Upper Canada to New England scarcely justifies a vast expenditure of public money. St. John is apparently to remain without any shortcut to the Na tional Transcontinental and the idea of giving any real competition to the Canadian Pacific appears to have been abandoned

The main defence of the government seems to be that material and labor are scarce, and that it would be difficult to borrow enough money to finish the road. Perhaps war time economy is sufficient excuse and perhaps later on the road may be acquired by the province and completed so as to fulfil the original purpose of the undertaking. As it stands, however, the enterprise appears to be ending in a flasco.

VILLAGES ASKING FOR JOINT WATER SUPPLY

Attempt Was Made to Damage Mimico and New Toronto Apply to Legislature for Authority.

LAND OWNERS PROTEST

Private Bills Committee Yesterday Rushed Thru Half Dozen Measures.

At its first session yesterday, the private bills committee of the legislature rushed thru half a dozen bills of minor importance. The only bill affecting the vicinity of Toronto was one respecting the water and sewage systems of Mimico. There proved to be so much contention over the location of the disposal plant and the legal aspect of the arrangement that Attorney-General Lucas finally had it sent to a special committee.

According to the bill, the Villages of Mimico and New Toronto sought legislation to enter into an agreement providing for a joint supply of water and sewage disposal plant. The Township of Etobicoke, thru its re-presentative, said it was not opposed to the location north of the Grand Trunk tracks providing the villages bore the proper proportion of the debenture debt for the land and gave the township permission to link up its pipes with the villages for an outlet. Louis Heyd, K.C., protests on behalf of some property owners on Louis Heyd, K.C., protested on

Other Measures.

Another bill provides for a five-year extension of the term of the first councillors of the Town of Ojibway. The town is projected by the United States Steel Corporation in conjunction with their plant. An amending bill to the act in-corporating the Ursuline Academy of Chatham changes the name from Chatham to London. Another change gives the corporation of the academy

power to hold land up to the annual value of \$75,000. The bill to incorporate the Village of Thornloe was criticized by some members because the village sought to take in too much territory. A sub-committee of five will

The City of Guelph asked legislation to enable the city to assess the ratepayers to cover gifts to parriotic purposes totaling \$36,000. The bill purposes totaling \$36,000. The bill provides for an extra tax of not more than four mills over the present rate of 15 mills.

Pursuit."

To accurately describe the gowns worn by Miss Tempest and the women of her company now playing at the Royal Alexandra would require an education in the Paris ateliers. The incomparable Marie is a dream in a role and green shot taffeta, the skirt distended by hoops, and edged with a transparent band of silver lace and little ruffles of the same applied in scallops; a folded bodice of the rose and green silk tightly fitted to the figure, and with the ultra-fashionable narrow shoulders. The gorgeous evening gowns were shrouded by even more gorgeous wraps, in which mirror velvet, gold and silver brocades, embroideries of jet, and diamante, with borders of fur, all played an effective part. Miss Tempest's frock in the last scene was very full white net, with broad tucks, and belted in corsage of fesh-colored satin, and small black tricorn hat.

Referee—Lieut, Lou E. Marsh.

The mainstay of the Winnipeg Monarch team will be the well-known Dick Irwin at centre, whose corkscrew rushes have been the talk of every contest in which he has played. His record of nine goals in one game in Toronto two years ago against the strong T.R. & A.A. team will possibly never be witnessed in a competition again. Stanley Marples, who has been Dick's team mate for seven seasons, is a wonderful skater, the tallest man on the team and weighs 159 pounds; he will play his favorite position. Reg Hay of the All-Stars, who made such an impression on his last visit here, will be at right wing. His speed is his essential qualification. Reggie's brother, George Hay, will also be given an opportunity to show his prowess in this position during the contest here. Steamer Maxwell will no doubt be back at his position as rover, and Winnipeg has yet to produce a man with the gameness and physical power to play this position with the zeal that he puts into it. Alex. Irwin, a brother of Dick and captain of the team, is well-known in Toronto for his poke check, which the papers of Toronto gave so much promise during the All-Star tour here. Glen Laughlin, the other defence man, who weighs 171 pounds, is the fastest skater on the team and is of great assistance in breaking up rushes and clearing the goal. The team will great assistance in breaking up rushes and clearing the goal. The team will bring along men who have all played senior hockey, including Barney McPhai!. Cliff Brown, Wilf Laughlin and Chum Irwin. All the boys can be relied upon to play the game for all they are worth.

Riversides have decided to go to Win-nipeg in quest of the Allan Cup, as repre-sentatives of the O.H.A., if their met can get away.

The remaining games at the Arena Wednesday—Berlin at Aura Lee (junior O.H.A. final). Thursday-Winnipeg Monarchs at Riversides.

Saturday—Canadiens at Torontos.
Monday—Winnipeg Monarchs at Aura

The St. Paul hockey team passed thru Toronto last night on their way to Montreal to play the eastern champions for the Ross Cup.

The annual O.H.A. junior game between the all-stars of the west and the all-stars of the etast will be played at the Arena a week from tonight. Bill Marsden of Toronto, manager of Aura Lee, will manage the eastern team, which includes Toronto, while Frank Selke of Berlin will have charge of the team from the west. The game last year was voted by the critics to be the finest exhibition of hockey of the season, and this year promises to be equally as good, as there are an exceptionally large number of are an exceptionally large number of clever youngsters thruout the province The teams will be selected this week.

Finishing strong, the Canadian Army Service Corps defeated the 127th Batt., 5 to 3, at the Arena last night. The C. to 3, at the Arena last night. The C. A. S. C. had the better tem play, but the 127th made up for what they lacked in the fine points with hard checking.

Gordon (Fat) Murray, late of T.R. & A.A., was the best man on the ice. He went thru the whole bunch time after time. Keough and Steeper of Markham juniors were the best of the 127th forwards. The teams:

Some Curling Reminiscences

W. D. McIntosh, the secretary of the old Caledonian Curling Club, points out that the rinks given here in connection with the obituary of the late D. Prentice were those that participated in the Toronto bonspiel of 1883, and that there were two changes from the team that won the Ontario Tankard for that club in 1882. Willie Christie, grain buyer, skipped one rink and not Dr. Ross, while Robert Rennie, the slater, and not William Rennie, the seedsman, was also a competitor.

Mr. McIntosh points out that Andrew Nobie is still in the land of the living, having moved many years ago to California for his health. He, like Mr. Prentice, was a tailor. Instead of leading himself, McIntosh played second stone after Danny Lamb on the Christie rink. Thus, of this quartet, that was renowned 34 years ago, three remain. All members of the other rink, with the death of David Prentice, have passed to the great beyond.

W. D.-McIntosh was one of the organizers of the Caledonian Club, that held a valuable charter. It included a liquor license, but the members never availed themselves thereof. They organized in 1870, and for six years had immense dividends from the open-air skating rink on Mutual street. They curled also, of course, in the open, and, as Mr. McIntosh says, the sheet beside the south wall was sometimes available as late as May. The ice was fine all winter, and the competition the keenest. John Carruthers, one of the old members, is still living.

In 1876 the Caledonians built the Mutual Street Rink, but with the extra capital involved it did not pay like the openair undertaking. Then Moss Park started, and many of the skaters went there. The Caledonians curled their first winter on the bay, at the foot of Jarvis street. Caledonians followed Torontos as the second club in the field. Then came the Granites, Moss Park, Prospect Park and Queen City, which brings us up to the present time.

William Rennie came in from Scarboro, and, with his three boys, Tom, John and Robert, playing in that order, curled mostly friendly games. Then the father dropped out, and A. B. Nicholls went to the top of the team, and the famous Rennie rink was developed. They won the first Walker Trophy, but could never land the Tankard. The Caledonians were beaten in the final by Lindsay in 1908,

Mr. G. A. Warburton, the general sec Mr. G. A. Warburton, the general secretary of the Toronto Y.M.C.A., spoke of Mr. Gouiding s outstanding Christian character and said he had always admired him from the first time he met him. "He is an inspiration to the youth of the land and 1 nhis fairness in athlectics he preaches a sermon that is a great inspiration."

Mr. James G. Merrick paid a fine trioute to this great thlete when he said: "He is the greatest athlete in the world." The speaker spoke of Goulding's work at Sstockholm, when he won the world's championsnip, and told how he encouraged his opponent, Ernie Wood, all

he was then presented with an illuminated address signed on behalf of the association.

In replying, Mr. Goulding thanked the speakers for the kind things that had been said about him, and hoped that he would be worthy of them. He did not want those present to think that because one man in New York had tried to tarnish his name the people of New York had not been kind to him. "The best time I have ever had as an athlete was given to me in New York, and one of the kindest things ever said to me was when, after a race in Madison Square Garden, the late James Sullivan said: 'You are the fairest walker I have ever seen.'"

Mr. Goulding thanked the association for the address, and said in years to come, when his work as an athlete is done, this will remind him of good old Central and Toronto friends. Those present were as follows:

Messrs. J. Turnbull, G. A. Warburton, Major Heron, Wm. Stone, N. H. Crow, W. J. Smith, M. McDonald, J. W. Barton, J. Lawrason, Percy Macdonald, J. G. Merrick, Francis Nelson, G. H. Barber, J. G. Mr. John Turnoull cated as chairman, and after the gathering drank a toast to the king those present joined in popular songs, led by E. F. Trimole. The chairman then called on Mr. Francis Nelson, who spoke in glowing terms of this outstanding athlete, saying among other complimentary things that there was no athlete the world over who was so far ahead of other men in the same line of sport as was Geo. Golding. Men are often appreciated away from home, but the real test is when they are honored by those who live with them. And again, is it not a wonderful thing that in all his races his style has not even been question?

ncouraged his opponent, Ernie Weop, all encouraged his opponent, Ernie Wego, all thru the grueling race. 'The true athlete has to live a temperate lite, and George Goulding is the personification of faithfulness in his athletics."

Mr. J. W. Hoopink, Fred G. Mara and Fred J. Smith all paid tribute to the high standard that George set and he was then presented with an illuminated address signed on behalf of the association.

Ottawa's victory over Quebec makes will be the blue streaks' last appearance, for this game concludes the championship schedule. Should Canadiens defeat Ottawa tonight the league honors will be theirs, and Torontos will, in that event, endeavor to demonstrate their superiority over the title-holders Saturday. It will be the game of the season. Seats go on sale this morning.

Bill Turley; as all fight fans know, Sergt. Bill was one of the cleverest bantams that ever performed in this city. He has expressed a doubt as to whether the 170th has a man who can outbox him at his weight. The opponent has not yet been picked, as great doubt exists as to Turley's present weight. It is only known that a year of service with the 78th Nova Scotia Highlanders has put him out of the bantam class forever. FEW GOOD TO CHOICE CATTLE ON MARKET

Values Were Strong Yesterday at Monday's Quotations in All Classes.

Poor Quality of Calves Sold at High Prices, Consid-

horses.

To all of our readers who take an interest or are directly interested, we have only to give the number in each class when they will immediately know that it would be a strong market at high prices.

Butchers' Cattle-When the milkers and feeders were deducted from the total number of cattle boarded there would not be more than 550 fat cattle on sale. Among these were few of finished quality, but we heard of one load bought by the Harris Abattoir that was good enough to bring \$8.20. Prices for steers and heifers were very firm at Monday's values; fat cows were from 15c to 25 higher, while bulls were also firm at Monday's quotations. Everything was cleaned up before the noon hour, and more good to choice cattle would have

tive of one firm that has done a considerable stocker and feeder trade in the past informed The World that they had orders from American customers for three to four hundred cattle, for which they are willing to the research of the constitution of they are willing to pay good prices for the right kinds. Good to choice dehorned steers, 800 to 900 lbs., of good colors, would be worth from \$6.85 to \$7 per cwt. right now. Judging from what we have heard on this market and what we have read of the American markets for feeders we predict some activity on the market here for stockers and feeders. There were not enough on the market to justify us in changing our quotations as given below.

Milkers and Springers—Only a limited number of these were an sole. (these

Milkers and Springers—Only a limited number of these were on sale. Choice cows are in demand at as firm prices as ever for cows showing good milking qualities. Prices yesterday ranged from \$60 to \$90 for the bulk, and one extra cow brought \$110.

Veal Calves—About two hundred were on sale. The bulk of them were medium quality, few good and no choice that we saw. We have seen only one choice calf in the past two or three weeks. The calves that are called choice these days on the Toronto market are

weeks. The calves that are called choice these days on the Toronto market are only good; the old-time choice new milkfed calf is a thing of the past, with a few exceptions. The present day farmer is too anxious to be selling the milk. And the latest generation, few of them know how to feed and make a good calf. Prices were away too high considering the class.

Sheep and Lambs—Only 34 were boarded, but we saw a flock of about 20 lambs being driven in by some farmer or drover being driven in by some farmer or drover which would make 54 all told. Just think which would make 54 all told. Just think of it! Fifty sheep and lambs to supply the City of Toronto. Well, Mr. Cold Storage man, if you have not started you will soon have to commence to use storage lambs, as we think prices have certainly reached their limit. We would like to have had a picture taken of some of the farmers that have been too indolent to raise sheep and lambs, when they saw 13 cents per lb. for lambs and 10 cents per lb. for lambs and lambs being paid, and they had none to sell; you could not help but pity them. Prices were no higher, as the consumers will not pay any more.

will not pay any more.

Hogs—There were 1800 hogs brought in by every route known, sleighs, wagons and railways, as soon as it became known that hogs had reached the hitherto unknown value of \$11 per cwt. weighed off cars. There will be a gathering in of all porkers that are at all fit to

EASY MONEY FEATURE

Encouraging Domestic Developments Opened Sluice Gates of Speculation.

YORK, March 14 .- Greater strength, breadth and activity attended today's market, with dealings aggregating 1,100,000 shares, or a record of the year to date. The movement be an at the opening and continued with little interruption until the final hour, when some specialties, notably Crucible Steel, yielded fractions to several points from maximum prices.

A significant feature was the obvirevival of public interest which long been conspicuously lacking. change in sentiment, which became more or less apparent last week.

AND MORE ACTIVITY

Montreal Traders Lend Aid to Toronto Market and Substantial Advances Made.

Substantial further advances were made in several stocks on the Toronto
Exchange yesterday. The market
broadened out materially and not
a little of the buoyancy and activity was due to Montreal operations. Local traders are still skeptical and apathetic, but speculative interest is developing and will as usual be quite rampant when prices have overdiscounted the Wall street maintained its strength and the war news is considered much more cheerful than at any time since hostilities commenced. Steel stocks provided a large portion of yesterday's business. Nova Scotia Steel advanced over two points to 104 1-1. and, despite unauthorized statements that early dividends are not likely, those in touch with the company's carnings and financial position are firmly of the opinion that the shares will be put on an 8 per cent, basis and justify a price of 125 for the stock. Steel of Canada was less buoyant and and steel concern is equally as important to the stock's price as that of Nova Scotia Steel. Of the other issues the rise in Manle Leaf was the most the rise in Maple Leaf was the most impressive. The price of this stock and closed strong. Cement and Smelters had some activity at advanced prices. The market closed with a good undertone and an enquiry that promised a continuance of active trading.

Canadian Car, which sold up 6 points to 69, was credited with the largest gain

in the market, rising 2½ to 104½ on dealings, in about 2200 shares, but Steel of Canada took first place as the most active issue, with a turnover of 2996 shares

The latter closed at a recession of 1/8 from the best, left a net gain of ½ for the day, while Scotia finished 1½ up at the day, while Scotia finished 1½ up at 193½. Iron was a backward stock, falling to 45¼ and closing at the low with a loss of ½. Cement, Locomotive, General Electric, Bridge and Lyall ail attracted a fair amount of buying, and closed with net gains of 1 to 2½, the extreme rise in this group, apart from Car, being 2½ credited to Lyall.

Record Day's Transactions for Several Companies Developing Properties in New Area.

> Following the president's statement at the last annual meeting, when he in-formed the shareholders that the existence of the company depended on the acquirement of other mining properties, the Crown Reserve is entering into the new Boston Creek area. It has taken up the O'Neill-Mc-Crea properties in Pacaud Township, along the Boston Township line and near the McConnell-McDonough pro-perties on which the spectacular free gold showings were uncovered last summer. Already considerable machinery capable of giving the properties a good try-out has arrived. The Crown Reserve owns 51 per cent. of the stock of the Porcupine Crown, but is apparently taking advantage of the splendid opportunities offered in the several new gold camps of North-

Mining Notes

Sir Henry Pellatt, who has been ill for the last few days, was reported much improved yesterday.

Writing from London under date of Feb. 17, Messrs. Mocatta and Goldsmid report as follows: "The silver market has had rather a sagging tendency during the past week. Business through has been chiefly on continental account but the parrowness of the ness thruout has been very limited and has been chiefly on continental account, but the narrowness of the market has made it very sensitive to supply and cemand, and comparatively unimportant transactions have cause I fluctuations in the price.

Whilst the Indian bazaars have been sensitive to supply the supply and cemand transactions have cause I fluctuations in the price.

Whilst the Indian bazaars have been 100. Whilst the Indian bazaars have been very dormant, China has both bought and sold, but American sales have been ver small and the present level seems likely to continue until there is more decided buying or selling than we have had lattely."

Considerable interest is at the present time centred in the flotation tests now being conducted in the camp on Cobalt ores, says The Cobalt of Steel Corporation is one of the market mysteries. It was asserted yesterday that the stock is being accumulated prior to a prolonged advance and that business being done by the coal and steel concern is equally as important to the content of the coal and to the content is equally as important to the content is equally as impo

COPPERS RELINQUISH LEAD FOR A TIME

The copper stocks listed on the New York Stock Exchange relinquished their leadership, so well sustained in the recent periods of weakness in the share list, and seemed disposed to rest for the time being. The only exception was Shattuck, which sold at 38%, and in which the trading was quite animated thruout most of the session. A considerable level interest is developed. siderable local interest is developing in this issue and much higher prices

some of the railroad embargoes on grain shipments to the east. Closing prices were unsettled, 1-4c to 3-8c off to 1-8c to 1-4c up, with May at \$1.08 1-2 and July \$1.07 1-8. Corn finished a shade to 3-8c down, oats with a gain of 3-8c and provisions at 20c to 30c decline.

Word that three of the principal eastern roads had made definite progress toward restoring normal con-ditions where car blockades had been in force led to an immediate display of confidence on the part of the bulls in wheat. The fact that cars were still scarce was responsible in a measure for a reaction in the last half flour of the session. During the period of bullis henthusiasm numerous unfavorable crop reports were received from the domestic winter wheat belt, especially from Missouri, Illimois and Nebraska, but exporters took the position that the foreign trade as a rule was interested only in

BULLISH TRADING IN

This Stock on Heavy Buying Advanced to Thirty-Nine, Feature of Market.

Dome Extension continued to be the feature in an otherwise quiet market for mining stocks at the Standard Exchange yesterday. Of the 97,154 shares dealt in at the exchange practically one-third were in remainder of the business was spread over the active issues, and altho no advances were made outside of Dome Ex. and Vipond, yet the undertone of the market was much better than has been the case recently. This was pro-bably due to the better feeling at New York, and with that market continuing its general advance, local brokers are looking for a revival of activity in mining stocks. The only thing that is really retarding the market is the uncertainty regarding the promised uncertainty regarding the promised modifications in the war tax on mines. It is expected, however, that an announcement from Ottawa will be made

in the near future.

The activity and strength of Dome
Extension overshadowed the whole
market. The stock opened at 37, 1-4 up from the previous close. Pressure was put on the stock during the morning and it eased off to 36, but the weakness was only temporary. In the afternoon the market woke up as far as this issue was concerned, and persistent buying aided by shorts covering, sent the price up 3 points to 39. It yielded a point on the close at 38, a net gain for

for the day of 1 point.

No news of any kind was to be had to account for the burst of activity.

There was a little trading in McIntyre in the morning session, but none in the afternoon. It sold between 91 and 91½. McIntyre, which is generally regarded as a market leader, has yielded its position, temporarily at least, to Dome Extension. The the stock is quiet no pronounced weakness has decloped, and it is said there is little stock pressing for sale. Vipond, as has already been mentioned, was stronger, opening at 59,

14 3-4 to 14½.

There was but little activity in the Cobalt section, and what there was was pretty well scattered. Timiskaming was in fair demand and steady, selling between 53 and 53½. Seneca advanced from 58 to 60, and Pete Lake firmed up slightly, selling from 253-4 up to 26. Chambers-Ferland was steady at 21. Crown Reserve changed hands at 48 for a 1000 share lot. Hargraves was easier at 5 1-4 to 5.

For Afternoon Wear

Dressier wraps donned for afternoon wear on warm, sunny days permit of extensive use of lovely silks, satins, brecades and chiffon broadcloths. Practically no velvet is shown. Ben galine is very popular and shown is host of new modes as in gros de Loudres, silk poplin, silk gabardine, Ottaman silk, and a variety of soft satins. One of the smartest moders launched this season is a satin coat, three inches shorter than the skirt hem, and trimmed with broad silk ribbon bands. The model is developed in midnight blue, and triangular in-sets prettily stitched, are let in at the lower portions of the coat to supply the godet fulness.

Dull silver buttons clasp the broad

silk belt at the normal waistline to distribute the fullness, and the same prnaments gather the sleeve fullness nto place just above a high novelty uff made up of satin, silk ribbon and silver braid.

Collar Is Important

The collar is an important feature illustrating the truth of authorative prophecies, made several weeks ago regarding the return of the shawl collar. In this model just described the collar was over-faced with the ribbon, outlined with two rows of the silver hraid.

Sports coats for young girls are particularly simple, being fashioned from both rough and smooth finished materials, and having for ornament, luttons, braid and self-made pockets belts, cuffs, and collars. As for color, green, dark brown, gray and all shades of blue are shown, with harmonizing or black bone buttons.

Toronto police are in receipt of a letter from Mrs. J. A. Taylor of Muirkirk in which she asks them to try and locate her 14-year-old son, George, who left his home March 6, and has not been heard of since. With another lad, he bought a ticket at London, Ont., for Toronto, but it is thought that he alighted from the train before reaching this city. He is dark complexion-ed, has a scar on his right hand, and when he left home wore a brown suit, gray sweater and dark gray cap. His father is ill in bed.

the slick simplicity which has signalized them for the last three seasons. With the revival of 1870 styles an attempt was made to bring back the softer and more femi-nine arrangement of the tresses ,with cluster curis hanging from the chignon or softening of the line of the neck at the back of the ears.

Indeed, during the coming season such effects have been noted at the opera and elsewhere, but they have served to emphasize the prevailing vogue of the "close-fitting" style of hair dressing. Many women famed for their smart attire insist upon the arrangement of the hair high upon the the general result exceedingly plain

UNEMPLOYMENT SITUATION

Report of Ontario Commission Discussed Yesterday Afternoon.

A large audience, composed of Toronto's leading workers for social bette ment, and many members of the Neighborhood Workers' Association, attended attended an important meeting in the Central Y.M.C.A. auditorium yesterday afternoon, at which Sir John Willison, chairman of the Ontario Commission on Unemployment, discussed the recomendations as set forth in the recently compiled report. It is now 15 months since the appointment of this commission for the purpose of looking into the growth problem of unemployment in the province, and altho the work is so farreaching and involves so much, a great deal has already been done by these enthusiastic workers towards furnishing a satisfactory basis upon which to develop the work of this important department. important department.

"The problem of unemployment has an actual and a very direct relation to the war." said Sir John. "When peace is restored we will return to civil pursuits, and work must be provided for in the neighborhood of 350,000 soldiers, as well as many civilians now otherwise engaged." In speaking of the necessity of supplying organized and regular occupation for the industrial man or woman, the speaker stated that only by keeping sufficient employment for the masses could a community maintain a decent social condition. The condition which forces a willing workman, with dependents for whom he must provide, to remain out of work and accept charity is a deplorable condi-tion, one which cannot and need not Senate Committee Declines to

Deal With Loafer. Sir John's remarks relating to the recommendation dealing with the loafer—the man who can but will not committee this morning, was refused. Major Gau't claimed to have in his possession certain letters which he did work—were enthusiastically ap-plauded. The speaker said that such should be subject to the same treating.
The committee sat this morning ment—they should be compelled to work and engage in the industrial activities of the Dominion. Anothe splendid point which has been thoroly gone into by the commission is the advisability of establishing an employment bureau system thrucut, no only the province, but the whole Do-minion, which will in turn co-operate

with imperial bureaus abroad.

To assist the "new Canadiaus" who will naturally flock to Canada after the war, the commission recommends that advisory staffs of interpreters be formed in conjunction with the bureaus, so that these people who cannot speak our tongue will not become the prey of private organizations. Help in this direction should be furnished to our own Canadian children in the schools, so that they may be equipped to take up their future responsibilities as citizens of the fair Dominion

something perpetually new in the work." Dr. Franklin Johnston and Rev. Father Minehan moved and seconded the very hearty vote of anks to the speaker of the after-

The Moonlight of Genius

WISH I could catch that book reviewer. I'd like to do something to him. I read his book review in a perfectly good publication

"The greatest book of the age," said the reviewer, "virile, original, human, strong-a wonderful document." I sent hither and I sent you to get the book

he was reviewing. It came. I broke a perfectly pleasant dinner engagement, sent out and got a box of chocolates, curled myself up in the corner of the davenport, with my favorite footstool at my feet, my favorite laurel and eucalyptus fire in the fireplace, a good, strong light over my shoul-

der, and cuddled down for a couple of hours of joyous oblivion. "A fig for the rain!" I thought. "Who cares for anything? What if the roast was overdone at dinner tonight? Never mind the dress that didn't come home. To the woods with the hat that isn't becoming. Out at the door all the little worries. Fly from the window all the small aggravations. Come, good book, I'll bear you company for a magic hour."

Then I began. Well, of course, you have to get into the spirit of the thing before you can appreciate it really. Page ten, twelve, sixteen-why, the man's a boob. Page twenty, twenty-two, twenty-four-do they call this genius? Page twenty-six, twenty-eight—strength? I call it bestiality! That man who carried the piano box up the steps the other day—this is just his life, told as he might tell it to his mates. Page fifty, fifty-four, fifty-eight—where did he get these women? I never saw any like them in my life. The greatest book of the age? Well, I'm sorry for the age!

Original? That's one word for it. Zim-z-i-m! There you go, into the fire! Let the good, clean smell of the laurel and the eucalyptus put you out of my life forever, oh, bestial, stupid, boresome book!

What possessed any man who could read and write to say such things about such a book? There's the bookcase over there. How full and joyful it is! "Vanity Fair," "Nicholas Nickleby," "The House of the Seven Gables," "Soldiers Three," "The Three Guardsmen," "Barrack Room Ballads," "The Lack of Roaring Camp"! Come, old friends, just to look at the lettering

on your covers brings me sanity and strength! "David Balfour," step out from behind the bookcase door! See, the ruddy fire casts dancing shadows upon the floor! The rain beats hard against the window! Come, let's be off together over the Scottish moors, you and I, Davy, with the good Robert for a guide!

Or shall I walk with another neighbor, a little timid English boy, runing away from home? Come, child, give me your hand and we'll go up to Lendon together and meet the Micawbers and Little Dora and the rest.

> "Above the pines the moon was slowly drifting-The river sang below."

Shall we go with you, Bret Harte of the silver pen? Will you throw for us your veil of sparkling gauze over the most commonplace landscape. and make it fairylike and full of strange, elusive charm?

What the moon does to a simple little garden, you do to the world and to the people in it, oh, man of genius! That tree was there, I sat in its shadow at noon today. The scraggly bush by the gate, I remember, too. and that broken stump there that rises like a melancholy ghost! It was ordinary enough by sunlight, but, now that the moon has risen, what pale enchantment clothes it all!

That striped and melancholy vine against the window! This morning It was nothing but a nuisance, sodden with the winter's storm, and old and falling to deserved decay. Now, in the monlight, we see somehow the vine at once as it is, as it was and as someday it may be. It buds for us as fresh as spring, it blooms as full as summer, it fades as sad as autumn and it dies as cold as winter, and every little winding tracery of every little spray that's left makes upon the ground beneath a delicate web of lace-to

So is it when the strange, pale light of genius shines upon the ordinary hings of life. That stupid man carrying there the heavy burden-he looks ommonplace enough to you and me. If we tried to write of him we could tell nothing but of his stoop shoulders, his stupid, pendulous lips and his then mischievously, "I thought perhaps stooped and kissed me, "All right, sweetheart," he said. dull and tired eyes. Set the pale moon of genius to shine upon him and he stands illumined—a human soul struggling blindly to his destiny.

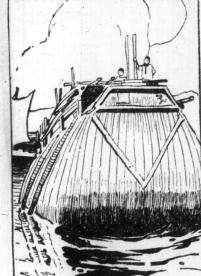

Human! This book that tells of nothing but the body and what the body needs and takes? It's animal, not human. I'll have none of it! I wonder what the critic who wrote such a review of such a book had had for dinner, or who had drawn the curtain and kept the moon out of the room in which he sat and wrote it?
