BRITISH CAPTURE ALL OF ROEUX VILLAGE

Sir Robert Borden Returns to Ottawa; May Introduce Conscription

LIBERALS FEAR ALTERATION OF FRANCHISE ACT

Proposal to Disfranchise Naturalized Alien Causes Opposition Alarm.

VOTES FOR SOLDIERS

Resolution to Lower Age Limit to Eighteen is Generally Supported.

Ottawa, May 14.—What started out as a harmonious discussion, respecting the soldiers' vote in the house of commons, this afternoon, ended up in something like an acrimonious debate on the wider question of Dominion franchise legislation.

The debate arose upon a resolution offered by Dr. Steele, the Conservative member for South Perth, declaring that all members of the Canadian expeditionary force should be given the franchise.

Hon. Wm. Fugate took occasion to say that a similar resolution when offered two years ago by ex-Speaker...

Sutherland-Reiss Issue. Dr. Steele's resolution, however, met with such general favor that it was about to pass without dissent when Donald Sutherland, Conservative member for South Oxford, moved a motion of disapproval...

HELD FOR MURDER WITH MILK BOTTLE

John Romanuk Arrested at North Bay for Toronto Crime.

KILLED MAN IN FIGHT

Victim Died in Hospital, and Prisoner Left for Montreal.

John Romanuk, formerly residing at 102 Chestnut street, and for whom a warrant was issued following an inquest into the death of William Little on April 26 at the morgue, was arrested last night by the police of North Bay...

That William Little came to his death in the general hospital on April 14 from injuries received when hit on the head with a bottle in the hands of John Romanuk, was the verdict of Coroner Winnett's jury on the night of the inquest.

According to the police, Little received his injuries in a fight at the above address. He later walked to the general hospital, where at first he was not thought to be seriously hurt.

Romanuk, seeing what he had done and fearing the result, ran into the street and telephoned a doctor. A few days later, Kopek stated that he had seen Romanuk, suitcase in hand, and on enquiry had learned that he was going to Montreal.

TURKEY OFFERS TO MAKE SEPARATE PEACE

Rome, via Paris, May 14.—The Idea Nazionale, the organ of the Nationalist party, prints a report from the Nationalist headquarters saying that Turkey has made overtures for a separate peace on the basis of the complete opening of the straits to Russia for both war and commercial purposes.

Turkish efforts in the direction of peace. Turkish agents, according to reports reaching London, are at work in Switzerland with the object of securing the continued existence of Turkey. It has been said that Turkey, provided she is permitted to hold Constantinople, is willing to allow complete freedom of the Dardanelles.

ALL ROEUX VILLAGE HAS BEEN OCCUPIED

British Troops Advanced North of Scarpe River and Completed Capture of Important Point.

London, May 14.—The British troops have occupied all of the Village of Roeux, according to the official report from headquarters in France tonight, and have made some advance north of Gavrelle. The text of the statement reads: "Our troops today continued their progress north of the Scarpe River and completed their capture of Roeux, taking a few prisoners. The whole Village of Roeux, which was defended by the enemy with the greatest determination and has been the scene of much desperate fighting during the operations of the past month, is now in our possession."

Paris, May 14.—The official statement from the war office tonight reads: "In the course of the day the German artillery violently counter-shelled and bombarded the front north of Braye-en-Lannis and Cerny-Quite lively artillery action took place east of Berry-au-Bac and in Champagne, in the region of Mont Haut."

On the heights of the Meuse an enemy attempt against one of our small ports in the Bois des Chevaliers was easily repulsed. There was no important event to report on the rest of the front.

On May 12 and 13 six enemy aeroplanes were brought down. It is confirmed that another German machine crashed to the earth on May 11, after an engagement. Our bombing squadrons dropped 4000 kilos of explosives on stations and bivouacs behind the German front."

FAVOR INCLUDING HUNS IN LEAGUE FOR PEACE

President Wilson's Proposal of International Body to Prevent Future Wars Endorsed in Resolution Offered by General Smuts.

London, May 14.—A league of nations to enforce peace, as championed by President Wilson, William H. Taft and other American statesmen, was enthusiastically endorsed today in a resolution unanimously adopted at a meeting attended by 1,200 representatives of the British people...

Would include Germany. Thunderous applause greeted Lord Buckmaster when, in supporting the resolution, he advocated Germany's inclusion in the proposed league.

"This league of nations will fail," he said, "unless Germany is admitted into it. If she is excluded it will be nothing but a league against Germany, in which case I see no prospect before the world but the unending darkness of night. We have got to separate the German rulers from the German people."

GUTELIUS AND SIMS TO EXCHANGE POSTS

Delaware and Hudson Railway Seeks to Strengthen Position in Canada.

New York, May 14.—Because the steadily increasing importance of the Canadian business has made it advisable to strengthen its relation in the Dominion, the Delaware and Hudson Railroad Company announced tonight it will exchange officers with the Canadian Government railways.

Hon. Frank Cochrane announced in the house yesterday that the government would shortly state its policy on railway nationalization in Canada.

BRITAIN PUTS EFFORTS INTO BUILDING SHIPS

Sir Eric Geddes Takes Control of New Government Department.

ENDS FRENCH WORK

Sir John R. Jellicoe Becomes Chief of Naval Staff.

London, May 14.—Naval reform long demanded by public opinion and which is the direct outcome of the submarine menace was announced to parliament today by Sir Edward Carson, first lord of the admiralty.

Heretofore the admiralty board had been hampered by heavy administrative duties concerning construction of the navy, which interfered with its giving the best attention to the fighting side of the navy.

The second object was to strengthen the shipbuilding and production departments of the admiralty by providing an organization comparable to that which had supplied the army with munitions.

It was further intended to develop and utilize to the best advantage the whole of the shipbuilding resources of the country, and as far as possible concentrate the whole organization under one authority.

The duties for which he would be responsible to the admiralty would include not only shipbuilding, but the production of arms and munitions. It was necessary that his touch with the admiralty should be close and intimate.

CONSCRIPTION IN SIGHT VIEW HELD AT CAPITAL

SIR ROBERT BORDEN who arrived in Ottawa at 2 o'clock this morning after his trip to England. The ship on which he returned docked at Quebec yesterday afternoon and he rushed to Ottawa by special train. He will be in the house today.

BORDEN ARRIVES HOME FROM BIG CONFERENCE

Canada's Premier and Party Land at Quebec After Absence of Three Months—Tell of Glorious Canadian Record.

Quebec, Que., May 14.—Right Hon. Sir Robert Borden, premier of Canada; Rt. Hon. Sir Edward Morris, prime minister of Newfoundland, and two members of the Ottawa cabinet—Hon. Robert Rogers, minister of public works, and Hon. J. D. Hazen, minister of marine and fisheries, who have been absent from Canada for three months, attending the imperial war cabinet conference, in England, returned to Canada today on an ocean liner arriving at this port.

Spoken to just after his arrival, Sir Robert stated that while in France he saw the Canadians rehearse the Red Cross Society in delivering packages for Canadians overseas, in respect to the congestion in delivery of parcels, etc., to the soldiers, the minister of public works stated that the difficulty had been all regulated and now parcels were being delivered twice a week to the Canadian prisoners of war in Germany.

Addressed Soldiers. During the voyage across, which passengers declared was an ideal one in every respect, the prime minister, in addressing the four hundred-odd returning Canadian soldiers at a concert one evening, spoke about the causes and significance of the war. He also touched on the development in constitutional relations brought about by the imperial cabinet.

While in England Hon. Mr. Rogers, who was greatly interested in the work of the Red Cross Society in delivering packages for Canadians overseas, in respect to the congestion in delivery of parcels, etc., to the soldiers, the minister of public works stated that the difficulty had been all regulated and now parcels were being delivered twice a week to the Canadian prisoners of war in Germany.

They are covering themselves with glory," he said. "They are doing magnificent work, which is gaining them the admiration of everyone."

Touching on his visit to the trenches in France the returning minister of public works said that he had the pleasure of meeting Canadians along the front lines.

Premier Borden Understood to Have Returned from Britain Impressed With Need of Stronger Recruiting Measures—Fifty Thousand Unmarried Men Eligible for Service.

Ottawa, May 14.—There is a growing feeling in official circles here that Canada will adopt conscription within the next two months. Nobody in government circles now believes that the war will end this year, and it is realized that unless Canada's efforts are to be relaxed, compulsory military service is necessary to maintain the Dominion's strength at the front.

What attitude the Liberals would take if a measure of conscription were introduced is problematical. It is believed that the most of the western and Ontario Liberals would support the government. It is noteworthy, in this connection, that N. W. Rowell, leader of the Ontario Liberal party, and Dr. Michael Clark, the noted Red Deer radical, came out this week flat-footed for conscription.

There is some talk of conscription will not applying to Quebec, but this is highly unlikely.

FRENCH SHIPPING LOSS NOT GREAT

Seventeen Merchantmen Have Been Sunk in Past Three Months.

ARMED SHIPS ESCAPE

French Patrol Boats and Hydroplanes Often Clash With Submarines.

Paris, May 14.—Seventeen French merchantmen were sunk by German submarines between February, March and April, according to an official statement issued today. During the same period nine French vessels were attacked by under-water craft, but made their escape. No armed merchantmen have fallen prey to the U-boats.

"Statistics for the first three months of Germany's unrestricted submarine campaign, as far as they concern the French merchant marine, show the following results: "February—Sunk, 4; attacked and escaped, 1.

"March—Sunk, 5; attacked and escaped, 2. "April—Sunk, 8; attacked and escaped, 6.

"During this period French patrol boats have had twelve engagements with submarines; French hydro-aeroplanes have fought them 12 times, and there have been 18 engagements between armed merchantmen and submarines."

FIGHTING IN THE AIR ALONG ITALIAN FRONT

Rome, May 14.—via London—"On the Trentino front yesterday there were artillery duels on the Asiago plateau," says today's war office report. "Enemy aeroplanes made repeated attempts to reconnoitre in the Sugana valley. They were hindered by our air patrols. Enemy detachments were repulsed in the Travinolo valley and in the San Pellegrino valley."

"On the Julian front, the artillery was increasingly active. Our artillery heavily engaged the batteries and trenches and important centres in the enemy lines. Fires were reported in the rear of the enemy positions. South-east of Gorizia patrol raids resulted in the capture of thirty prisoners, two machine guns intact, and a quantity of munitions."

"The air fighting continued. A hostile squadron dropped bombs in the Aquileia area, damaging the Basilica and the Archaeological museum. In a brilliant engagement on the middle Isonzo, two enemy machines were brought down by our airmen."

A Great Deal Depends Upon Where It Comes From

It is commonly said that "looks are deceiving." If it applies to anything it certainly applies to the appearance of milk. A bottle of ordinary milk may LOOK THE SAME as The Farmers' Dairy Milk. But the quality differs.

The Farmers' Dairy milk is richer in cream than ordinary milk. It is pure and fresh. Healthy, inspected cows kept on Ontario's finest farms, produce this milk. Careful milking methods assure the quality and purity of the milk. Scientific pasteurization and bottling by machinery make safety even more certain.

Coming from such fine farms and from a sanitary, sunshine-bathed dairy, can you wonder at The Farmers' Dairy milk being better than ordinary milk? This health promoting milk will benefit your family. It costs no more than ordinary milk.

Felt Tired All the Time

Could Not Sleep at Night, and Got Up With Headache in the Mornings—Nerves Were Exhausted.

Guelph, Ont., May 14.—The peculiarity about nervous diseases is that once you get run down, nervous and sleepless, you never have a chance of regaining health and strength without some external assistance. Diseases of the nerves do not right themselves. The nervous vitality expended by day is not made good at night unless you can rest and sleep. And so each morning finds you weaker, and each day the supply of nerve force is further exhausted.

It was under such conditions that the writer of this letter found himself when he read what Dr. Chase's Nerve Food was doing for nervous people and began its use. There is a message of hope for all in this report.

Mrs. Elizabeth Pollitt, 83 Stevenson street, Guelph, Ont., writes: "Last summer my system became run down, and I suffered from sleeplessness and nervous headaches. I had severe pain in my back, and sometimes had heart-burn. I used to get up every morning with a headache, and had a tired feeling all day, as if I had not been to bed at all. I never was able to get a good night's rest on account of my nerves. In August I got some of Dr. Chase's Nerve Food, and before I had taken two boxes I felt better. I continued the treatment until I was cured. I have not had a headache for a long time; I can eat and sleep splendidly. I used Dr. Chase's Nerve Food along with the Nerve Food, and this combined treatment I found very beneficial."

"I also have used Dr. Chase's Nerve Food, and I have found all these preparations good, and have great faith in them. You may use this letter and my name, so that it may help anyone suffering from nervousness of any kind, to benefit by my experience with Dr. Chase's Nerve Food and Kidney-Liver Pills."

Dr. Chase's Nerve Food, 50 cents a box, a full treatment of 6 boxes for \$2.50. At all dealers, or Edmanston, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations only disappoint.

ALDERMAN AWARDED ONE DOLLAR DAMAGES

Charles A. Ward Must Pay That Amount for Having Slandered Him Last December.

Judge Denton, in the county court yesterday, awarded Ald. Nesbitt \$1 damages in his suit against Charles A. Ward for \$500 damages. The alderman claimed that Ward made a slanderous remark against him at a nomination meeting in Broadway Hall last December.

Six Prisoners Escape From Jail Farm; One Recaptured

Six prisoners who were serving short terms at the jail farm, Thornhill, escaped after supper Sunday. One man was captured twenty minutes later by Guards Armstrong and Armour, but the other men are still at large. The guards and officials were within 20 yards of the fleeing prisoners when they hurried the barred wire fence and disappeared into the woods east of the farm. Shortage of guards and lack of firearms is given as a reason for the escape and the subsequent failure to recapture the men.

ALFRED SHERIFF DIES AFTER LONG ILLNESS

Has Been for Three Years Provincial Deputy Minister of Game and Fisheries.

Alfred Sheriff, deputy minister of game and fisheries in the Provincial Government, passed away at his home, 128 Avenue road, yesterday, noon after an illness of several months with cancer. Mr. Sheriff formerly lived on his farm at Weston, but occupied his home in the city on January last. He has held the office of deputy minister for the past three years, and was previously for several years private secretary to the Hon. Dr. J. O. Reame. He is survived by his wife and four children.

Mr. Sheriff was born in the Channel Islands, and had traveled extensively. He was a linguist of ability, speaking French and Spanish fluently. He was formerly a journalist, having been a member of the staff of The Mail and Empire. The game and fisheries department flourished during his regime, and he was characterized by a prominent member as the most progressive deputy minister of fisheries in the Dominion.

CHILD'S SEVERE STOMACH TROUBLE

Harrison (Ont.) Father Says Dr. Cassell's Tablets Saved His Child's Life.

Mr. Corby, Harrison P.O., Ont., writes: "Our little girl was weak from birth, and though we tried doctors' medicine and other things she got no better. She just lay in her cot and cried, and neighbors all said we could not save her. The doctors said she had stomach trouble, and that her chances were small, yet Dr. Cassell's Tablets cured her. They have been worth their weight in gold to us, for we were just giving up hope of saving our little daughter. I don't think there is any other medicine for children like Dr. Cassell's Tablets. Publish this letter if you like; it may help others as the Tablets helped us."

A free sample of Dr. Cassell's Tablets will be sent to you on receipt of 5 cents for mailing and packing. Address: Harold F. Ritchie & Co., Ltd., 10 McCaul Street, Toronto.

Dr. Cassell's Tablets are the surest home remedy for Dyspepsia, Stomach Trouble, Sleeplessness, Anemia, Nervous Affections, Nerve Paralysis, Fatigability and Weakness. Especially valuable for nursing mothers and during the critical periods of life. Sold by druggists and storekeepers throughout Canada. Price: One tube, 50 cents; six tubes for the price of five. The Twelve-Cent Loaf

Bread at eight cents a pound, twelve cents a small loaf, is the direct result of the failure of the government to control the price of flour. The price of flour, which has been used to be regarded as highly profitable. In war time two-dollar wheat was at first thought to be the limit. Everybody would have been satisfied had the government fixed the price there, and shot anyone who proved a traitor to the real interests of the country by trying to exact undue profits. One is inclined to think that the world is developing a streak of madness, and that the symptoms are highly aggravated among the governing people. Fixed ideas, which are characteristic of lunacy, appear to have lodged themselves immovably, and even the war has been unable to shift them. It ought to be realized, but it is not, that laws and regulations that do very well in times of peace ought to be discarded when the world is cast into the disintegrating quern of primitive strife. We are being pounded and pulverized, yet the ruling heads of the nation continue on their placid way, as if nothing more serious was afoot than "Misses Mary, quite contrary."

Famine lies ahead of us. The tardy action is a menace greater than Russia's invasion, or Germany's desperation. What we may do to improve the case by feeble individual effort is being done, but the people have no conception of the gravity of the situation, and they rely upon the nominal leaders to have the wisdom and the strength to meet all difficulties. This is not being done, or what would have been under government control, and the people would have been assured of bread at no more than famine prices. The government should take steps at once to see that the nation's supply of food is adequate, and to supplement it as far as possible. A great deal could be done by the conservation, storage and distribution of natural wild foods, which are now allowed to waste. The experience of the Indians could be utilized here. Great quantities of nutritious food can be had from nuts of various kinds, to mention one source. Tropical foods might be laid under contribution to a much larger extent than at present. The banana is not sufficiently used. One banana is said to be equal in nourishment to half a pound of wheat. Banana flour is becoming more popular. Corn bread must be more widely eaten, and there should be a prohibition of white bread. Whole wheat bread would almost double our supplies of food. The bakers charge the same for whole wheat bread as for white, and the whole wheat flour must cost very much less. A vigilant government, with the vital interests of the nation at heart, would get all such matters attended to, instead of letting the people run into the appalling condition that now appears inevitable.

Coal and National Railways

After all the assurances given the citizens that the coal situation would be taken care of for next winter, and the approaches showered on anxious citizens by trying to get their coal bills paid while the weather was warm enough not to worry about urgency, the news now comes from the city hall that nothing has been done, nothing may be done, and there is some probability of uncertainty as to what could be done. Anxious citizens have no alternative but to beseege the coal dealers' conscience. There are contradictory views expressed by the officials. One says the city has no authority to buy coal. Another is willing to buy when ordered. The mayor with robust declarations he can buy a million tons of coal if he wants. A million tons do not appeal to the average citizen who wants from eight to fifteen in his cellar. A million tons is a bluff or an idle dream. What we want is practical business, nothing ahead but steeper prices and colder weather.

Real Estate News—A Big Purchase

A report was circulated in real estate circles on Saturday that the Dominion Government had bought the Carls-Rite Hotel on Front street as a hospital for wounded Canadian soldiers returned from the battlefields of Europe. The attention of the government had been vigorously directed to such a purchase some weeks ago. But further inquiry on Monday showed that it was a piece of property adjoining the Hydro-Electric's new building in University avenue, owned by Messrs. Wright and Carroll, of the Carls-Rite, that had been sold, but sold to the Hydro-Electric Commission of the Province of Ontario. The telegram of last night gives these particulars: With the idea of having land for future extension to their building, the Provincial Hydro-Electric Commission have just closed a deal with Messrs. Wright and Carroll, whereby the commission purchases 90 feet frontage to the north of its present property. The purchase price is \$20,000. The depth of the property is 130 feet. The two properties combined give the Hydro a total frontage of 145 feet on University avenue. The providing of extra property for future extensions is due to the remarkable development in the business and work of the commission in the province. The land just bought was a part of the old Carls-Rite Hotel, and will allow of a big extension to the handsome structure recently erected.

Corlett & Corlett, real estate brokers

Wilton crescent, report house property on Sherbourne street as active. They have sold several houses on this street last November, and re-sold on Saturday at an advance from 15 to 20 per cent. This firm also report the re-sale of several houses on Seaton street during the past few days, at an advance from 10 to 15 per cent, over that of a few months ago. Mr. Corlett stated that a number of these were sold for cash. Allan & Allen, real estate agents, Bond street, say that there is still a good demand for house property and buying is quite brisk, having sold several during the past two weeks and report the sale of a large residence on St. George street, for \$23,000.

Decrease in Number of Drunks

Arrested Over the Week-end

The number of drunk cases dropped to 48 over the week-end, all of whom, except in the case of one man who was a cripple, were fined various amounts for their delinquencies. Billy Blinn had a bottle in a lane off West Richmond street when seen by a wide-awake policeman. Yesterday in the police court Billy was minus the bottle, and fined \$200 and costs or the jail alternative. Tom McInerney, John Callaghan, Bert Davidson, Isabella Dryer, Mike Haskiowski and Abraham Perpenchuk were each fined \$200 and costs for carrying bottles when the Ontario Temperance Act said they shouldn't.

DECREASE IN SHELLS OF LARGE SIZE ONLY

Toronto Munition Plants Do Not Look for Reduction in Small Calibre Orders. According to J. W. Flavelle, chairman of the imperial munitions board, there has been no falling off in contracts so far as lighter shells are concerned. It is in the production of larger shells that Great Britain finds that for the present she is producing such large numbers at home that the same numbers are not required from Canada as previously. "As a matter of fact," said Mr. Flavelle, "the munition business in Canada is now larger than it was at any time since the beginning of the war." The majority of the Canadian factories have not yet reached their maximum production, and it is not likely that they will do so until the end of the year. It has also been suggested to manufacturers of the large sized shells that they spread out the work on present contracts, so that if at a later date more orders are received they will be organized to fill them. The Fairbanks-More Company is the largest of the few companies in Toronto who are making large sized shells, and F. C. Brooks, general manager of the company, stated yesterday that the work of the company is being spread out over a longer period. He stated that the company had previously employed 3,000 workers, and of the 2,000 remaining 700 are women. Senator Frederic Nicholls, of the Canadian General Electric Company, and H. D. Scully, secretary-treasurer of the Russell Motor Car Company, both stated that their companies were busily engaged in the production of small shells and did not expect any decrease in orders for some time to come.

COL. FRED P. FOX DIES

Col. Fred P. Fox, formerly pack-senior agent of the Delaware, Lackawanna and Western Railway, died at Newark, Ohio, on May 13. Col. Fox was well known in railroad and transportation circles in Toronto, and was a prominent freemason, holding high office in all the bodies. He was a past master of Doric Lodge, Toronto, and the founder of Transportation Lodge, Buffalo. Local brethren sent a floral tribute yesterday, and telegrams of condolence were forwarded by the members of the Old Guard of this city. DONATION WILL BE MADE. Despite the fact that the city solicitor has stated that the library board's grant of \$1,000 to the Red Cross is illegal, Dr. G. H. Locke, chief librarian, has stated that the boys will get it. "No legal technicality will stop it," he says, and points out that the \$1,000 will not come out of the general library tax, but out of a special "petty fund," made up of fines and small penalties, and adds that the action of the board should prove an inspiration for more public giving.

MOTORIST OUT ON BAIL

After a preliminary hearing in the police court yesterday morning, Frank Yewman, arrested Sunday night on a charge of criminal negligence in connection with injury done Mrs. Catherine Vair, 22 Alvin avenue, whom he is alleged to have struck with his motor car while she was in the act of alighting from a King car at Elmer avenue and Queen street, was released. Mrs. Vair's condition is much improved. Bail was fixed at \$2000.

HYDRO BUYS PROPERTY

The Provincial Hydro-Electric Commission have closed a deal with Messrs. Wright & Carroll, purchasing a lot of 90 feet frontage, and depth 130 feet, situated to the north of their present property on University avenue. The land is purchased to provide for future extension to their buildings. The purchase price is \$20,000. The hydro property now has a total frontage of 145 feet on University avenue.

CHINAMEN IN COURT

PROFITABLE YEAR FOR STERLING BANK

Best Year in History of Institution Reported in Annual Statement. The annual statement of the Sterling Bank for the year ending April 30th, 1917, makes a most creditable showing and reflects great credit on the efficient management which, despite the abnormal economic conditions, is able to report the best year ever experienced by the bank. The profit and loss account shows profits for the year after deducting charges of management, rebate of interest, etc., of \$161,270.20, as against \$145,290.85 in the preceding year, which, with the addition of \$5,725.29 carried forward from 1916, makes a total of \$212,005.49 for distribution. Duplicating the year four dividends amounting to \$72,582.29 were paid; transfers to contingent account came to \$60,000, and taxes, including the federal war tax and the provincial levy, amounted to \$20,594.05, leaving \$60,329.04, as against \$52,736.29 in the previous year. The reserve fund is given as \$200,000. The balance sheet shows a gratifying increase in total assets, which are given as \$18,759,887.27, as against \$10,742,515.95 last year. Total liabilities to the public are shown as \$12,165,978.98, as against \$9,165,487.94 last year. In the matter of deposits a remarkable increase is noted. Deposits not bearing interest are shown as \$2,440,590.34, against \$1,655,329.03 last year, and deposits bearing interest have increased from \$6,156,426.82 last year, to \$7,597,400.79 this year. In the statement of assets an item which did not appear in last year's statement is Dominion and provincial securities amounting to \$1,322,404.53. Holdings of Canadian, British and foreign municipal securities have been largely increased during the year, being given as \$2,071,029.65, against \$922,483.80 last year. Short loans on the other hand have decreased from \$45,557.15 last year, to \$173,545.83 this year. The annual meeting will be held on May 15th at the head office in this city.

DECREASE IN SHELLS OF LARGE SIZE ONLY

Toronto Munition Plants Do Not Look for Reduction in Small Calibre Orders. According to J. W. Flavelle, chairman of the imperial munitions board, there has been no falling off in contracts so far as lighter shells are concerned. It is in the production of larger shells that Great Britain finds that for the present she is producing such large numbers at home that the same numbers are not required from Canada as previously. "As a matter of fact," said Mr. Flavelle, "the munition business in Canada is now larger than it was at any time since the beginning of the war." The majority of the Canadian factories have not yet reached their maximum production, and it is not likely that they will do so until the end of the year. It has also been suggested to manufacturers of the large sized shells that they spread out the work on present contracts, so that if at a later date more orders are received they will be organized to fill them. The Fairbanks-More Company is the largest of the few companies in Toronto who are making large sized shells, and F. C. Brooks, general manager of the company, stated yesterday that the work of the company is being spread out over a longer period. He stated that the company had previously employed 3,000 workers, and of the 2,000 remaining 700 are women. Senator Frederic Nicholls, of the Canadian General Electric Company, and H. D. Scully, secretary-treasurer of the Russell Motor Car Company, both stated that their companies were busily engaged in the production of small shells and did not expect any decrease in orders for some time to come.

COL. FRED P. FOX DIES

Col. Fred P. Fox, formerly pack-senior agent of the Delaware, Lackawanna and Western Railway, died at Newark, Ohio, on May 13. Col. Fox was well known in railroad and transportation circles in Toronto, and was a prominent freemason, holding high office in all the bodies. He was a past master of Doric Lodge, Toronto, and the founder of Transportation Lodge, Buffalo. Local brethren sent a floral tribute yesterday, and telegrams of condolence were forwarded by the members of the Old Guard of this city. DONATION WILL BE MADE. Despite the fact that the city solicitor has stated that the library board's grant of \$1,000 to the Red Cross is illegal, Dr. G. H. Locke, chief librarian, has stated that the boys will get it. "No legal technicality will stop it," he says, and points out that the \$1,000 will not come out of the general library tax, but out of a special "petty fund," made up of fines and small penalties, and adds that the action of the board should prove an inspiration for more public giving.

MOTORIST OUT ON BAIL

After a preliminary hearing in the police court yesterday morning, Frank Yewman, arrested Sunday night on a charge of criminal negligence in connection with injury done Mrs. Catherine Vair, 22 Alvin avenue, whom he is alleged to have struck with his motor car while she was in the act of alighting from a King car at Elmer avenue and Queen street, was released. Mrs. Vair's condition is much improved. Bail was fixed at \$2000.

HYDRO BUYS PROPERTY

The Provincial Hydro-Electric Commission have closed a deal with Messrs. Wright & Carroll, purchasing a lot of 90 feet frontage, and depth 130 feet, situated to the north of their present property on University avenue. The land is purchased to provide for future extension to their buildings. The purchase price is \$20,000. The hydro property now has a total frontage of 145 feet on University avenue.

CHINAMEN IN COURT

Charged with keeping a common gaming house at 10 Elizabeth street, Chin Foo Yin, Toy Sing and Lee Ching were fined each \$10 and costs or 30 days when they appeared in the police court yesterday. Thirty other Chinamen "found in" were each fined \$5.

About Michie Soldier Boxes No. 25

Everything Useful to a Soldier

Parcels to soldiers, whether in camp or trenches, should always contain smokes and sweets. Soldiers crave for them—more and still more. Here is what recipients say about Michie parcels: Lieut. Frank Sammers, Box B1. "Must say it is excellent. Not only is the assortment right, but the different fruits, etc., are exceptionally nice and sweet, and quite the best I have had for some time." Sergt. J. Fleming, Box L14. "Received in good order. It was a nice assortment, packed, and everything in it was very useful to me out here."

There is no soldier who is not delighted with a Michie parcel.

Experience has taught us the "know-what" and "know-how" in despatching parcels to soldiers overseas.

Hundreds leave our store weekly, chosen from a wide assortment.

Food Production and Thrift

Potato Prices Soar Beyond Actual Food Value of Spuds

Ottawa, May 14.—The agricultural department has issued the following advice:

"The enthusiasm displayed generally in the matter of planting potatoes is only equaled by the enthusiasm with which potato prices are climbing up. It now costs from \$45 to \$50 for seed to plant an acre of potatoes. It is obvious that at these prices potatoes do not give a sufficient food value. Housekeepers could well eliminate the potato and turn to more economic foods, and by such elimination leave that much more seed to be planted for the much-needed crop this year. In the scarcity of potatoes it would be well for planters to turn to the question of beans. The same money that will plant an acre of potatoes, if invested in beans, will provide seed for more than ten acres. They are not only an excellent and nutritious form of food, but it looks as if they will continue to be in strong demand for army supplies, and companies with army contracts are offering as high as \$15 a bushel for this year's crop. Seed that is suitable for potatoes is generally also suitable for beans."

BRANT FARMERS ORGANIZE.

Special to The Toronto World.
Brantford, May 14.—Two hundred farmers of Brant County have organized under the name of the Brant Co-operative Society, with a strong slate of directors. The company will enter into the supplying of the farmers' needs and will also dispose of farm products as a whole in place of individually.

POTATOES AND BEANS.

Special to The Toronto World.
Brantford, May 14.—The Brantford Farmers' Association has secured a farm on the Paris road and will plant fifty acres of potatoes and fifty acres of beans.

MACDONALD STEPS OUT AS RESULT OF CHARGES

Attorney-General of British Columbia Turns in His Resignation.

Victoria, B.C., May 14.—The resignation of Hon. M. A. Macdonald, attorney-general of British Columbia, was placed in the hands of the lieutenant-governor this morning by Premier Brewster.

The Gregory report on the charges made by J. B. Cowper, one of the Vancouver members, against Mr. Macdonald, will come before the legislature.

Mr. Justice Gregory handed to the lieutenant-governor Saturday his findings.

KENT HAS GAS BOOM.

Special to The Toronto World.
Chatham, May 14.—Following the strike reported made in the New Dover Township fields last week, activity in gas stock and leases has received the greatest impetus recorded in this district in several years. Real estate activities have increased about fifty per cent. in this part of the county during the past week.

UTICA CHEESE MARKET.

Utica, May 14.—Cheese advanced a half cent at today's session of the Utica Dairy Board of Trade. Butter declined to 35c. Sales 2800 boxes at 25c. Butter, 10 tubs at 32c.

Six Hundred Million Bushels Of Grain Sought by Allies

Washington, May 14.—During the debate today, Sen. Cronin declared the allies had called on the United States to furnish 600,000,000 bushels of grain this year. He did not state the source of his information on the senate floor, but privately to senators, he established its authenticity.

FOOD STILL SOARS.

Special to The Toronto World.
Brantford, May 14.—Flour took another jump this morning, being today quoted at \$15 per barrel, wholesale. Hops, which had been \$15.50, also rose to \$17.

HONEY SHORT, TOO.

Special to The Toronto World.
Brantford, May 14.—The Brant County Beekeepers' Association has refused the wholesalers' offer of ten cents a pound for their entire crop, and will likely market it themselves. They state that the cold and backward weather this spring has had a bad effect on the industry. Many of the colonies have succumbed to the cold and dampness, and the outlook is rather gloomy, especially as the clover crop in parts of the country is dead and in other sections greatly retarded by the cold weather.

GALT GOES FARMING.

Special to The Toronto World.
Galt, May 14.—To help meet the food shortage situation the city council at a special meeting this morning favored the scheme suggested by the Vacant Land Production Association and will go into market gardening.

ENGINEERS' STRIKE HAS PETERED OUT

Little Enthusiasm Shown on Account of Opposition of Amalgamated Society.

London, May 14.—The strike of engineers, which has been in progress in various parts of England for some time, has collapsed at many places in the northern counties, where the King and Queen arrived today for a week's tour. Work has been resumed generally in Manchester and southern Lancashire. In Coventry an overwhelming majority of members of the trades unions denounced the strike.

GRAIN STOCKS AT MOOSE JAW

Moose Jaw, Sask., May 14.—The total amount of grain in the Dominion storage elevator here has been reduced to 2,682,560 bushels, of which there is 1,277,010 of wheat. During the past week 161,376 bushels of wheat and 141,478 of oats were shipped.

SASKATOON BRIDGE PROBE.

Regina, Sask., May 14.—At the request of counsel for Col. J. E. Bradshaw, M.L.A., the Wetmore Commission adjourned this afternoon to June 1 to take evidence on the Saskatoon bridge charges.

LIBERALS FEAR TO LOSE ALIEN VOTE

(Continued from Page 1).

not be sufficient to entitle any foreign-born citizen to vote.

These statements brought forth vigorous protests from the opposition benches, and also Solicitor-General Meighen, in response to a question from Mr. Turriff of Assiniboia, declared that no amendment to the franchise act was in contemplation, the Liberal braves took alarm, and vigorously insisted upon provincial rights, and denounced what they declared to be the purpose of the government to pass a Dominion franchise act. Speeches along this line were made by Judge McKinnon (Cape Breton), Frank Carvell (Carleton, N.B.), A. K. MacLean (Halifax), Arthur Copp (Westmoreland) and J. G. Turriff (Assiniboia).

An incident of the debate was a strong plea made for enfranchising the Indians, especially those who had enlisted in the war, and by J. Fisher, the Conservative member for Brant. He was supported in this plea by George Elliott, the Conservative member for West Middlesex, Liberal member for West Middlesex, who also suggested that women nurses at the front be given the vote.

The rest of the sitting was occupied by a discussion of a resolution presented by J. R. Armstrong, Conservative member for East Lambton, respecting the conservation and development of the fuel resources of Canada. Mr. Armstrong favored the government's plan for the conservation and development of the fuel resources of Canada. The resolution met with general support, and Mr. Thomas White, in accepting the principle on behalf of the government, declared his belief that Ontario and Quebec would eventually settle the fuel question on a basis of electric power.

Upon the orders of the day Sir George Foster announced that the house would not sit on next Thursday (Ascension Day).

C. P. R.'s Deal With Britain.

Sir Wm. Pugsley, in his bill to facilitate certain financial arrangements between the government of the United Kingdom and the Canadian Pacific Railway Company. He explained that the imperial government by compulsory purchase had acquired large blocks of Canadian and other securities issued by the Canadian Pacific Railway Company, upon which it was desired to raise money in the New York market, and he had agreed with the directors of the C. P. R. that these securities should be exchanged for a new issue of securities to be issued by the company in New York. At present nothing could be done with the matter but the British Government favored the legislation for future emergencies.

Resents Sneers at Colonels.

Col. J. D. Taylor (New Westminster) rising to a question privately complained of some disparaging references to "political colonels," made by Mr. Levis Doherty, minister of justice, in his speech on the budget debate. Col. Taylor said that Mr. Thompson evidently referred to members of parliament (including himself) who had taken battalions overseas and had then returned to Canada. He had said that the colonels favored the men and returned home as soon as they smelled powder. Col. Taylor gave notice that he would move to have the honorable member for Qu'Appelle (Mr. Thompson) brought to the bar of the house, and forced to withdraw his statement, and to be further moved, a suitable portion of his recent speech to be expunged from Hansard.

Builders of Wooden Ships.

Hon. Wm. Pugsley called attention to Sir George Foster's recent statement that any man or capital who wanted to engage in building wooden ships would be given contracts for their construction, and guaranteed a profit of 20 per cent. on the cost of the material.

Mr. George Foster replied that such persons should make application to the imperial board of munitions.

Replying to a question on matters of militia, stated that the reply of Dr. Bruce to the Baple report had not yet been received by the militia department.

Laurier to G.T.P.'s Aid.

Then Col. John A. Currie (N. Simcoe) moved the third reading of a private bill respecting the Grand Trunk Pacific Branch Lines Company. Sir Wilfrid suggested that there was some objection to the passing of legislation to build up the Grand Trunk Pacific while the government was engaged in manning and dismanning the militia. He said he had degraded the eastern section of the road and had torn up 300 miles of siding. Now they were tearing up the road, leaving many settlements and settlers without any railway facilities.

Mr. German (Welland) said there was no sense in proceeding with any railway legislation until the house knew where the government stood in respect to the report of the royal commission on transportation. Did the government, he asked, intend to adopt the Drayton report or the Smith report, or disregard both? Had they even read the reports up to this time?

Hon. Frank Cochrane: "I have read both reports very carefully. What action the government proposes to take will be announced in the near future."

This closed the discussion.

Vote For Young Soldiers.

Dr. Steele (St. Catharines) moved the adoption of a resolution standing in his name on the order paper, which declared that the government should introduce legislation at this session which will extend the franchise to every British citizen who enlists with the Canadian forces for overseas service, and who was a resident of Canada at the time of enlistment. Dr. Steele said the object of his resolution was to enfranchise soldiers otherwise qualified to vote, but who were unable to do so because they were uneducated. He said he had no reason why a boy who had fought for the empire should be unable to vote until he reached a certain age. He said that the franchise was old enough to vote.

Mr. Fisher (Brant) supported the resolution and urged that the franchise be extended to Indians who had enlisted in the Canadian expeditionary forces. Indeed, he thought the franchise generally should be restored to the Indians.

Mr. Elliott (Middlesex) and Dr. Clark (Red Deer) supported the Steele resolution. Dr. Clark said that

What Every Woman Should Know

Dr. Ferdinand King, New York physician and author, tells physicians that they should prescribe more organic iron—Nuxated Iron—for their patients—says anemia-iron deficiency—is the greatest cause to the health, strength, vitality and beauty of the modern American woman—Sound reasoning against use of metallic iron which may injure the teeth, corrode the stomach and do far more harm than good; advises use of only nuxated iron.

Watch for large article by Dr. Ferdinand King, soon to appear in this paper, entitled "The Craving Need of the Woman of Today is More Iron in Her Blood." In this article Dr. King explains why the modern American woman requires more iron than she did 20 or 30 years ago and shows how by taking simple Nuxated Iron, weak, nervous, rundown women may increase their strength, vitality and endurance 100 per cent. in two weeks' time in many instances.

Nuxated Iron, recommended above by Dr. King, is for sale by G. T. Lambly, Ltd., and all good druggists on an absolute guarantee of success and satisfaction or your money refunded.

Bedrock in Prices

Glance over the Dunlop Automobile Tire Prices of representative sizes shown below and keep these facts in mind:—

No other standard make of tires can be purchased at lower prices than Dunlop Tires sell at. (If so, they must be "seconds.")

No other standard make of tires can show reasons why they should be purchased at higher prices than Dunlop Tires sell at.

Tires lower-priced than Dunlop mean a loss to you in the end.

Tires higher-priced than Dunlop mean a loss to you at the beginning and no gain to you in the end.

If anybody tells you they have lower-priced tires than Dunlop, tell them possibly so but more than likely their tires are Unknown and Untried.

If anybody tries to sell you higher-priced tires than Dunlop, ask them to name a single virtue in their product not found in Dunlop Tires—"Traction Tread," "Special," or "Plain."

Dunlop prices are standardized prices for standardized Quality. Dunlop Tires have been made in Canada since 1894. Therefore, Dunlop means "Dean of the Tire Industry."

NOTE:—The new 31 x 3 1/2 special over-size tire, made in regular clincher type only, is particularly adapted for cars taking 30 x 3 1/2 rims. Supplied with "Special Tread" only, \$26.00.

Today at Simpson's---Dinner China for June Brides

Offering Values That You May Not Be Able to Duplicate in Years

This is an Important Announcement

All the dinner ware that we are now receiving from England and France will be priced at least 40 per cent. higher than similar goods in our old stock; and much of it will be double present prices. Higher factory cost, higher shipping rates and higher marine insurance are responsible for the difference. If you have a dinner service to buy we advise you to do so now. On Tuesday, in spite of the conditions described above, a limited number of dinner sets will be offered at the following reduced prices for the benefit of June brides who have dinner china to buy.
